AND PECOS TIMES

VOLUME XXXIX. NUMBER 44.

PECOS, TEXAS, FRIDAY, JUNE 18, 1920.

\$2.00 PER YEAR, \$1.25 FOR SIX MONTHS

OIL FRATERNITY CENTERS HOPE ON OPERATIONS OF THE DOMINION CO.

The Dominion Soda Lake No. 1 is down 360 feet with the drill in a hard formation of lime, after passing thru some "gip" rock. The Dominion River Valley well will be spudded in today.

The eyes of the oil fraternity are now turned to the operations of the Dominion in Ward county. The financial resources of this company makes it the strongest in the field and capable of getting oil where others may have failed before. Already small companies are playing leases in the Soda Lake area on the strength of the Dominion locations. Predictions of the oil men say the next sensation will be in the Dominion wells and the oil brotherhood have swung from the wells to watch the drills go down in the Ward county wells.

The Dominion company has the casing and supplies on the ground and work is going forward systematically with the help of some of the best drillers in the field.

The Bell No. 1, known as the discovery well, has pulled the pump and is putting in the "pacer" for a 6-5-8 casing. The well is flooded with water and it will be a week before the pump can be put back on. The Bell No. 3 has stopped drilling owing to engine trouble.

The Bell No. 2, which was spudded in last week for a deep test is down about 120 feet and is proceeding slowly owing to hitting a formation of quicksand. The drilling may be delayed in case new casing does not arrive in time to keep up with the bit.

The derrick for the Toyah Valley Oil Company has been erected in Ward county and is ready to spud in with the exception of a few tools.

The Rio Grande Refining Company is moving in a rig on section 5, block 54, township 4, preparatory for drilling.

The machinery and tools for the Owens & Scoville No. 2 has arrived at Kent and the well will be drilled in on block 92, Culberson county.

The Finley & Anderson's latest report is to the effect that the drill is beyond the 780 foot mark in section 10, block 2.

The Gable & Frish well in section 34, block 58, public school land, is being reamed in order to accommodate a large casing.

J. A. Strunk of Chicago is here looking after the interests of the Tex-Plains Syndicate. This company started a hole about five weeks ago, but trouble has kept the drill idle most of the time. Mr. Strunk will make arrangements to get a new drilling contract or else a new rig. The well is located about 300 feet from the Abner Davis well.

The Pecos Valley Oil Company is now hauling their standard rig to their location in section 86, block E, H. & C. N. Ky, about 30 miles east of Pecos in Pecos county. This is the sixth standard rig to be erected almost in line in the area east of Pecos. The others are the Trans-Pecos Soda Lake No. 1, Dominion River Dams, the Victory, Dominion Valley and the Pecos Valley.

Parker & Hancock, on section 11, block 56, public school land, spudded in a new well that will go down farther than the other drills in the Toyah shallow field.

C. O. Finley let a contract this week for a deep test well on section 32, school block 82, Culberson county.

The Texas Oil Company received the tools, rig and casing from Arizona yesterday and will put down a well on the company's holdings in section 46, school block 53.

A contract for a deep test well in section 32, school block 94, Culberson county was let this week.

R. S. Missie of Pecos is asking for bids for a shallow well he hopes to have drilled on his holdings in school block 59, Reeves county.

The Harry Davis well is still inactive awaiting a new shoe which will be used to drive the casing at 330 feet.

A 5,000-foot test is to be put down by the Ten Strike Oil Company in the Trans-Pecos region near Sierra Blanca in Hudspeth county, according to reports. The test will be financed by Cleveland, Ohio interests.

The El Paso-Saragosa well, block 13 section 177, is ready to spud in as soon as fuel oil arrives.

The deep test of the Dixieland Syndicate offsetting the discovery well has reached a depth of about 200 feet in three days drilling.

The Jack Wells Company well in section 30, block 2, H. & C. N. survey, has reached a depth of 560 feet. The drillers say they have struck less water than any other well in the field.

The Stanton well in section 45, block 58, is ponding the drill into concrete in an effort to shut off the water. The Stanton had a showing of oil at 415 feet and as soon as the casing is set the production may be determined.

The derrick for Bluebird No. 1 well a mile south of Carlsbad, N. M., is practically completed. It is a standard 84-foot rig. The Pool Oil and Gas Company, promoters of the well, plan to spud it in some time this month.

J. C. Grant, a Pittsburg, Pa., oil man, has leased 6400 acres in block 110, about 22 miles north of Fort Stockton and according to statements from that city, he will start active drilling operations.

The Crawford Oil Company is getting ready to put down its deep test No. 2 in the Toyah basin. Wichita Falls drillers will handle the machinery for the well.

C. C. Hotchkiss, who is drilling a well in section 7, block 55, public school land drove the drill into a block of boulders at 60 feet and jerked the bit to be re-spudded. The Morsenwell well in section 23, block 50, public school land, is down about 500 feet.

The Ajo-Toyah newly spudded well cut water at about 100 feet from the surface and stopped to cut it off with 10-inch casing.

The Citizens Oil and Gas Company and the Pecos-Reeves Oil Company have resumed drilling after ten days of inactivity. The Citizens well is down 820 feet and ar-

BELL-REEVES WELL CLOSED AT 1000 FEET

The Bell-Reeves well was carried to a contract depth of 1000 feet this week, and is closed down temporarily awaiting the completion of arrangements by means of which it is planned to push the hole down to a depth of 1500 feet if necessary. Subscription lists have been prepared and circulated naming J. M. Booth as manager of the fund and Woody H. Browning, Jr. treasurer. Mr. Booth is head of the Booth Production Company and Mr. Browning is cashier of the Pecos Valley State Bank. When all financial affairs of the company are straightened up it is proposed that Mr. Booth take charge of the hole and have it drilled to whatever depth is necessary to find oil. A fund of \$5,000 to \$8,000 is sought. The Bell-Reeves is the deepest hole in the Bell area. The new management plans to underream the 8 1/4 inch casing from 650 feet to about the present depth, shut off the water and proceed to drill.

OIL SUPERVISORS HERE TO ENFORCE STATE LAW

John Hoffer, deputy supervisor of the oil and gas department of the Texas railroad commission was in Pecos last week seeking interviews with the Toyah-Pecos oil operators who have not complied with the terms of the law regarding the conservation of oil and gas and the protection of the field.

Mr. Hoffer warned the operators to watch their step in the future as no leniency would be shown to those who overstepped the law. "Particular attention of operators and drillers is directed to Rule 11 of the railroad commission which states that upon the completion of any well the filing of a complete log or record with the supervisor is necessary. A sworn record that the hole has been plugged in case it is abandoned is also necessary; the hole must first be filled with mud after casing is pulled and after it has been drilled and the rig moved away, it cannot be drilled deeper again until an application has been made in writing, five days before a resumption of drilling operations.

NEW CO. ENTERS LOCAL FIELD TO DRILL SOON

Another standard rig is under contract for the Pecos-Toyah field. This rig will mark the entrance of the Phillips Petroleum Company of Oklahoma in the local field and will be located on a tract of land belonging to W. S. Castle of Ranger in sections 33 and 44, block 71, public school land, located six miles west of Toyah. The hole will be drilled on a fifty-foot basis and the contract calls for the rig to be in place by July 15th. The structure on which this land is located is reported by Mr. Castle to be the same as that on which the Owens & Scoville and Ben Andrews deep tests are being drilled a short distance to the west in Culberson county.

The Phillips company are among the big operators and have holdings in Texas, Oklahoma, Louisiana and Kansas fields.

DALLAS MAN TO DRILL WITH ROTARY-STAR RIG

W. R. Lynch, president and general manager of the Pecos Valley Alfalfa Land and Oil Company, returned to Dallas Monday evening after several days spent in the field. Mr. Lynch announces that a star and rotary rig will be shipped to arrive here next week to drill on acreage of the company's in section 76, block 33, H. & T. C. survey.

Contractor Schutt, now operating in the Brownwood and Burk Burnett fields, will be here to take charge of drilling operations. The well will go down 1,500 feet if necessary to find the pay sand.

R. R. EMPLOYEE DEAD

Amarillo, Texas, June 14.—The remains of T. H. Sears were taken to Ottawa, Kan. for burial this morning, after funeral services in the St. Andrews church. Mr. Sears died Saturday night from pneumonia after an illness of ten days.

Mr. Sears was 67 years of age and had been in railroad service for fifty years, beginning as a brakeman in 1870. He came to the Santa Fe railway in 1886 and remained with the road until his death, except for four years during which he was division superintendent of the Colorado and Southern at Denver. Mr. Sears became general superintendent of the southern district of western lines on July 1, 1914. This includes the territory from Wellington, Kan., to Belen, N. M., and the Pecos Valley and Panhandle lines.

Mr. Sears is survived by his wife, three daughters and three sons. He was married in August, 1870, and would have celebrated the fiftieth anniversary this summer.

Mr. Sears was a capable and conscientious official. Frank and straightforward, he was respected and liked by his superiors, the employees and the public. His passing is therefore generally regretted by all who knew him.

A. M. HOVE.

Arrangements have been made for the drill to go 1000 feet if necessary to get oil. The Pecos-Reeves was down 215 feet when it stopped operations ten days ago while waiting for power, due to a broken engine.

SWELTERING UNDER INCREASING HEAT PECOS HAS AN ICE FAMINE

Sweltering under an ever-rising thermometer, Pecos ice users were experiencing an ice famine this week while the plant was shut down for repairs. A carload from El Paso Wednesday relieved the situation some and the city will have plenty of ice for the rest of the week.

The ice plant will be laid with a new

foundation and the work began Wednesday when a stick of dynamite was sent beneath the old cement foundation and the blast sent the rock thru the ceiling, tearing a hole in the roof and damaging some of the machinery. The work will require two or three weeks and ice will be shipped in from Big Spring and El Paso until the plant gets under steam again.

STATE INSPECTORS OF FOOD AND DRUGS MAKE ARREST

The Oil King Grill was fined \$27.50 on Monday when Joe Jayne, from the state department of food and drug inspection, found the chef delving out tainted meat according to report.

The new grill has only been opened a short time and was doing a good business. The fine imposed was light and might have been \$200 and a foreclosure of the restaurant but under the circumstances the inspector dealt out the law with leniency. While, according to the inspector, it is the restaurant man's job to keep his eye on the foods he serves, it is not always his fault that unsanitary foods get on the table and often spoiled meats cannot be detected until after they are cooked.

"Restaurants and hotels and drug stores cannot be careful enough during the hot months," said inspector Jayne, "and the law cannot be too hard either, for that matter."

The department will be unrelenting in its efforts to watch and see that the state laws are observed and no leniency whatever will be shown any house caught running a dirty and unsanitary eating place.

"Particular attention is called to the meat and eatables, to see that they are iced at all times and that the restaurant and cold drink stand has good protection from the flies.

The Oil King Grill was not the only one in town that was made to clean up. All of the places were warned and several were told to scrub up their floors and get their eatables behind the fly screen.

The inspectors will make Pecos again when they return back through the state to see that all the eating and drinking places have complied with their instructions according to law.

TYPHOID INCREASING WITH HOT WEATHER

Austin, Texas, June 16.—Reports reaching the state board of health show that with the rise of the barometer in Texas, the typhoid rate is increasing and Dr. C. W. Goddard, state health officer, issues a warning against this dread disease.

"Typhoid in Texas appears to be a good companion to warm weather and flies," says Dr. Goddard, "and sanitary precaution and personal hygiene are vital in escaping its ravages."

"Infection," he continues, "comes from direct contact with typhoid germs, contaminated food and polluted water."

Here are ways to prevent the spread of this disease, according to Dr. Goddard:

Disinfect excreta from typhoid sufferers.

Secure purity of drinking water.

Safeguard all food supplies.

Keep down fly production by eliminating breeding areas.

Vaccinate against typhoid.

</

AN IMPORTANT LETTER

SAN ANTONIO, TEXAS.—"In my early married life I became very ill with feminine trouble and no doctoring or medicines gave me any relief until I started to take Doctor Pierce's Favorite Prescription. I was down in bed, unable to do my own housework, but it was only a short time before I was feeling stronger and all my pains left me. I took about six bottles of 'Favorite Prescription' and can say positively that it cured me of all feminine trouble for I have been in perfect health ever since. I take pleasure in recommending Dr. Pierce's Favorite Prescription to all women suffering with inward trouble."—MRS. ANNIE F. EDDIS, 224 Rogers Street.

All druggists. Liquid or tablets. Send 40 cents to Dr. Pierce's Invariant Hotel in Buffalo, N. Y., for trial package of the tablets.

ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer

Based on "Bayer Tablets of Aspirin" is a "Bayer" brand, containing proper ingredients for Colds, Pain, Headache, Rheumatism, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin recommended by physicians for nineteen years. Handy tin boxes of 12 tablets each for cents. Aspirin is trade mark of Bayer Manufacture of Monacette, Germany.

Why Suffer?

Mrs. J. A. Cox, of Arlington, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctor gave her up, and we brought her home to die. She had suffered so much at... time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at... Cardui cured her, and we sing its praises everywhere. We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui. E-77"

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Catching the Blood. When you feel languid, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is a patent medicine. It is simply pure and QUININE suspended in Syrup. It is pleasant even children like it. The blood needs Quinine to Purify it and IRON to build it. These reliable tonic properties never fail to drive out impurities in the blood.

The strength-giving Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The Formula is just the same today, and you can get it from any drug store. 50c per bottle.

TEXAS CROP REPORT UP TO JUNE FIRST

Houston, Texas, June 16.—Wheat has shown a marked advance during the month. The present condition is 80 per cent of normal, which is equivalent, on June 1st, to a yield of 13.76 bushels per acre calculated upon the preliminary December estimate of acreage, (the only figures at present available), and excluding abandonment, a production of 13,333,000 bushels is in prospect from 969,000 acres.

In the plains area the crop is generally in good condition and though the straw is short the quality of the berry is good.

In the black land belt a much better crop will be harvested than was generally expected.

The oat acreage is estimated to be 70 per cent of 1919 or 1,575,000 acres. Though conditions in the Panhandle are quite satisfactory the central and north central parts of the state, which represents the bulk of the acreage, are not so well favored and the figure is placed at 63 per cent normal. This is equivalent to a yield of 23.31 bushels and forecasts a production of 36,713,000 bushels under present conditions. Unsatisfactory spring weather conditions of excessive wet, then drought and lateness of the season have contributed to this result.

Barley acreage is 20,000 acres and represents 81 per cent of the 1919 acreage. With a condition of 76 per cent a yield of 23.56 bushels per acre and a production of 471,000 bushels is forecast.

Alfalfa acreage is 97 per cent of last year. This decrease is caused largely by increased planting of cotton and other crops in the Pecos and other sections of West Texas.

All fruits were severely injured by the freeze of April 4. Peaches are but 18 per cent of normal. This indicates a production of 514,000 bushels for the state.

Pears are 28 per cent of normal forecasting a production of 120,000 bushels.

Apples are 42 per cent of normal, forecasting a production of 271,000 bushels. The condition of blackberries is 69 per cent of normal.

Pasture and range conditions are excellent. The abundance of rain this month has assured ample fall pasture and water, with prospects for a favorable winter growth.

Present conditions are 96 per cent of normal.

The condition of all hay is 85 per cent of normal.

The condition of the following truck crops growing at the present time are cabbages 62 per cent, onions 76 per cent, watermelons 70 per cent, muskmelons 71 per cent of normal.

Spring conditions have not been altogether favorable for these two crops. Peas are 80 per cent of normal and beans 72 per cent of normal.

For the United States, in the same manner as reported for state, the following figures obtain: Winter wheat, condition 78.2 per cent; forecast of production 503,996,000 bushels. Spring wheat, acreage 19,487,000; condition 89.1; forecast of production 276,547,000 bushels. Oats, acreage 41,032,000; condition 87.8, forecast of production 1,315,476,000. Barley, acreage 7,437,000, condition 87.6, forecast of production 185,108,000. Rye, condition 84.4, forecast of production 80,906,000. Apples, condition 79.3, forecast of production 198,965,000 bushels. Hay (all), condition 88.9, forecast of production 111,790,000 tons. Pasture, condition 88.8. Peas, condition 83.0. Beans, condition 86.4. Cabbage, condition 86.8. Onions, condition 89.3. Peaches, condition 64.9, forecast of production 45,067,000 bushels. Pears, condition 73.4, forecast of production 13,568,000 bushels. Blackberries 88.1. Watermelons, condition 77.4. Muskmelons, condition 79.8. Sugar beets, condition 92.8.

\$3 PER PUPIL ADDED TO TEXAS SCHOOL FUND

Austin, Texas.—About \$3 per pupil will be added to the school per capita for next year by the passing of the five million dollar school relief appropriation by legislature, according to officers of the Texas State Teachers' Association. "Many persons are unaware of the fact that there is sufficient money in the state treasury, unappropriated by legislature, to give the schools this needed relief," said G. O. Clough, following an investigation made for the association.

"At present it is evident additional taxes will not have to be levied either this or next year to give this relief. The money is on hand; the schools need it; we have every reason to believe legislature will grant their wishes. The imperative duty of school people now is to advise legislature that citizens of Texas are demanding this be done for the schools. School boards pressed for funds should participate in this movement; members of legislature will hear them and heed their words. But immediate action is necessary. Delay means defeat."

TWO ARMY DESERTERS ARE SENT FROM PECOS

Private Anthony E. Rogers, gone A. W. O. L., but now on his road back to Fort Bliss, and Gregoria Moora, a Mexican living in Pecos, is enroute to the state draft board for failing to fill out his questionnaire and answer the draft call.

Marshal Roddy roped in the "absent without official leave" from Fort Bliss Tuesday and sent him on his way back to the camp, where he will probably do guard-house duty for the next six months, while the army deserter from Pecos was started on his way towards the penitentiary the same day.

The government is now inaugurating a strenuous campaign to get all the deserters during the war and the law is at work all over the country tracing down those who would not answer the draft call.

We are growing every day, there is a reason. O. J. Green & Co. 34-2t

We want your business and offer the inducement of "more goods for less money." Strictly cash. Pecos Bargain House. 35t

We want your business. Try us once. O. J. Green & Co. 43-2t

For quick action, take your tires to Marshall H. Pior Co., in Zimmer Building. 25-tf

All kinds of work shoes at less than wholesale prices. At O. J. Green & Co. 43-2t

FINANCIAL REVIEW

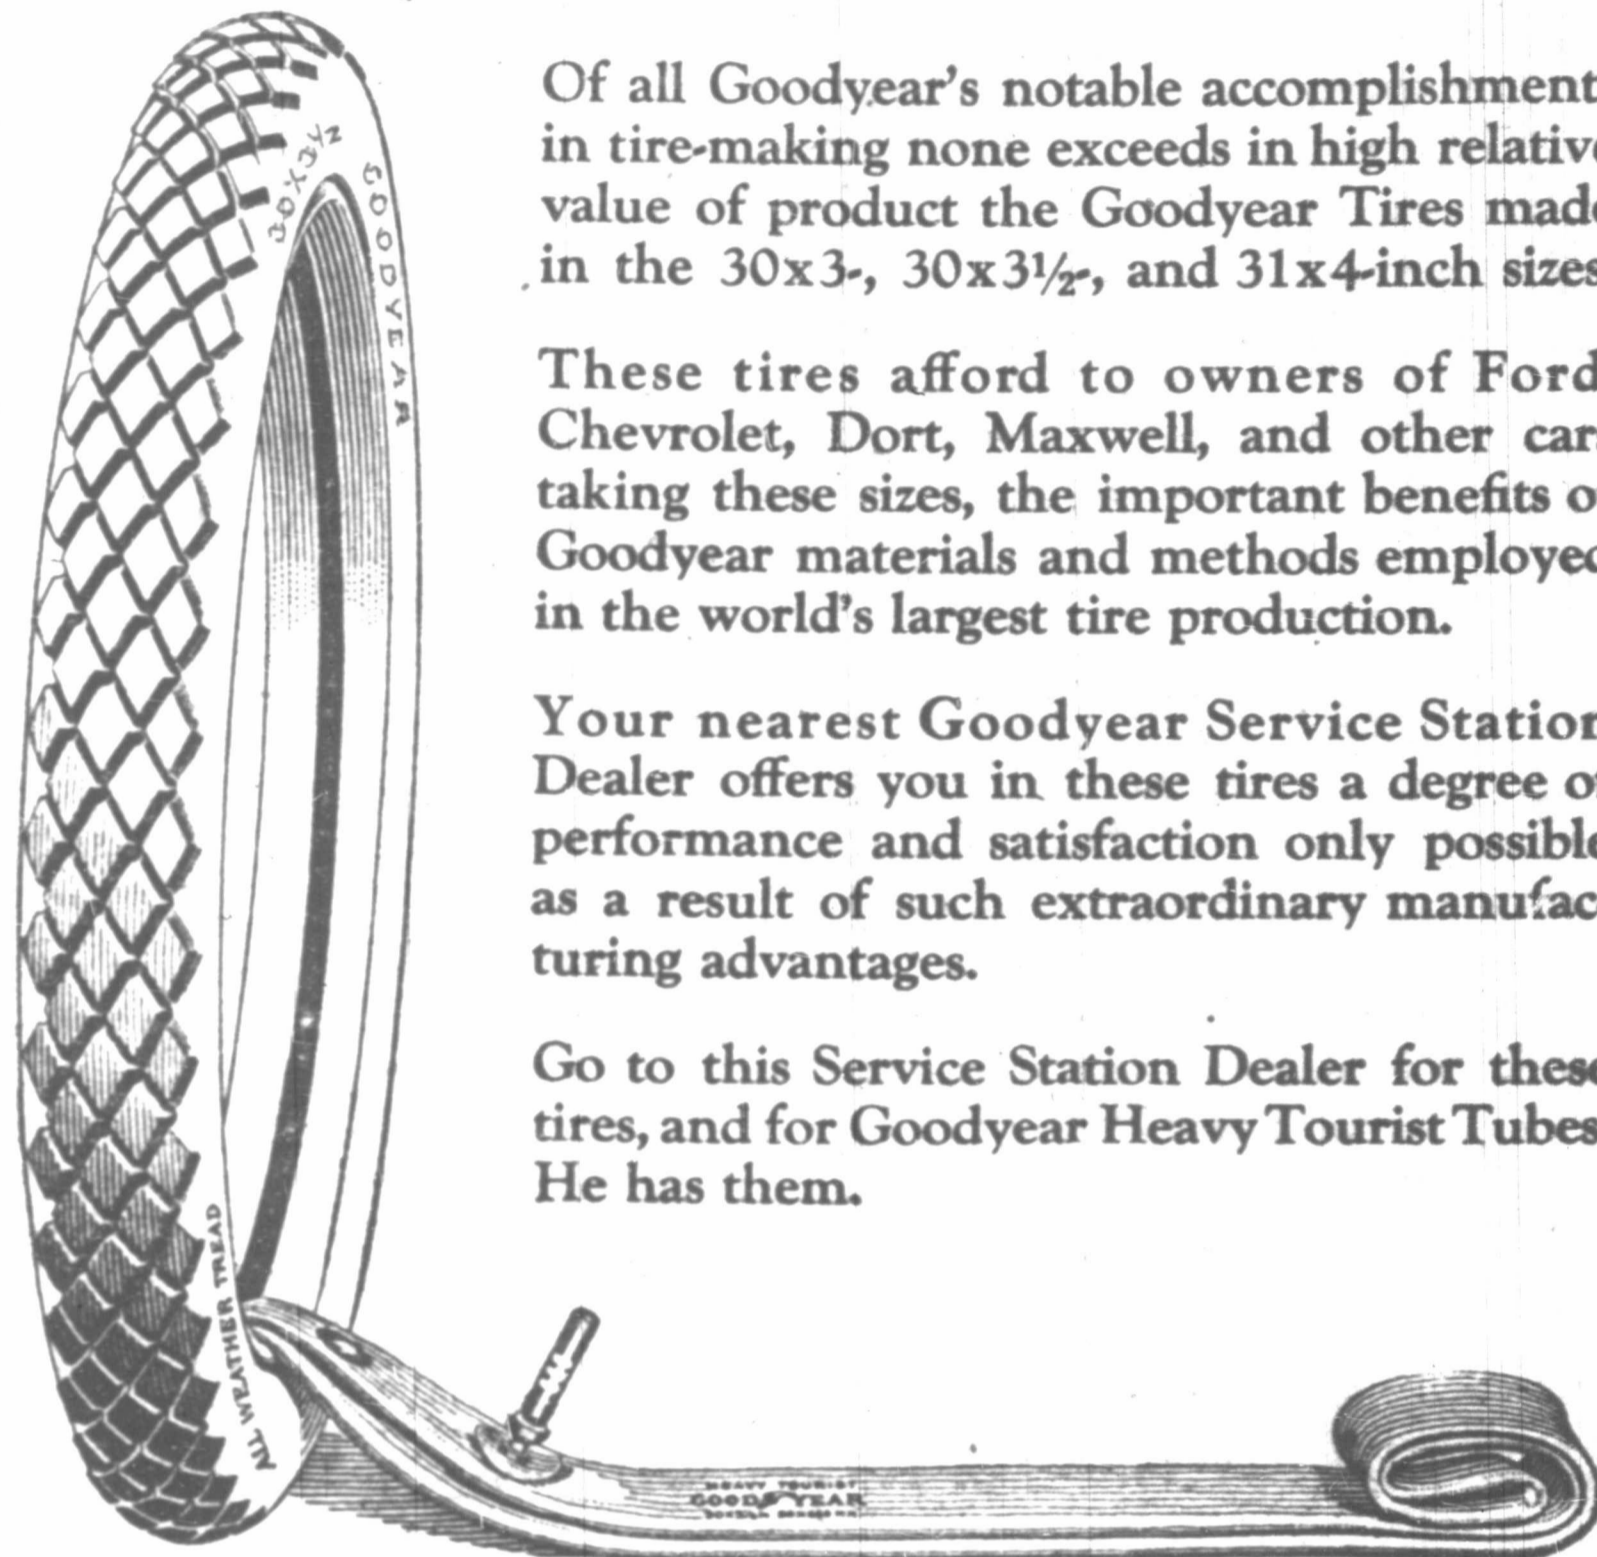

Prepared for The Enterprise by the First National Bank in St. Louis.

The banking and credit situation has experienced continued pressure. Interest rates on commercial paper have shown a steady increase. The average rate in New York on sixty-to-ninety day commercial paper in May was 7.14 per cent, an increase of almost one-half of one per cent over the average rate for April.

The steady increase in the cost of capital to industry has now reached a figure that renders new financing very difficult to all but the strongest concerns. A recent survey of the cost of capital to industry showed that the cost of money to public utility concerns rose from a yield basis of 6.90 per cent during the period from July to December, 1919, to 7.83 per cent in May of this year. This is the yield sold to the public and does not include the underwriting cost. The actual cost of the money to the industries was thus obviously considerably higher. A similar survey of the cost of money to industrial concerns showed that the new securities offered during the latter half of 1919 sold on a basis to yield about 6.51 per cent and that by May of this year they were selling on a yield basis of 7.14 per cent. What new financing has taken place among the railroads has been offered at a yield well up to 7 per cent. The evil influence that such high rates have upon productive enterprises is quite obvious. There are but few industrial concerns that can hope to obtain any profit from the use of capital when they must pay from 8 per cent to 9.12 per cent or more for the use of money. The banking community is thoroughly aware of the situation and during the past few weeks strenuous efforts have been made to set in motion forces which will tend to bring about an improvement in financial conditions.

Catarrhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists & Co. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

You Can Get Goodyear Tires for That Sturdy Smaller Car

Of all Goodyear's notable accomplishments in tire-making none exceeds in high relative value of product the Goodyear Tires made in the 30x3-, 30x3½, and 31x4-inch sizes.

These tires afford to owners of Ford, Chevrolet, Dort, Maxwell, and other cars taking these sizes, the important benefits of Goodyear materials and methods employed in the world's largest tire production.

Your nearest Goodyear Service Station Dealer offers you in these tires a degree of performance and satisfaction only possible as a result of such extraordinary manufacturing advantages.

Go to this Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He has them.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are built to protect castings. Why endanger a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of \$4.50 less merit. 30x3½ size in waterproof bag \$4.50

NEW PERFECTION

For Every Cooking Purpose

THE Long Blue Chimney burner gives the right heat for every cooking purpose—instantly. Clean, intense heat at any flame height is driven against utensil. Flame stays where set—wastes no kerosene in smoke, soot or disagreeable odor.

Get a New Perfection Stove for every cooking purpose—a New Perfection Oven for perfect baking—and use Magnolia Safety Oil.

Both sold by good dealers everywhere. Ask for a demonstration or write for free New Perfection books.

THE CLEVELAND METAL PRODUCTS COMPANY
7600 Platt Ave. Cleveland, Ohio

Dealers Note:—The Magnolia Petroleum Company distributes the New Perfection in your territory. Complete stocks are available at convenient points.

TEXAS LEADS MID-CONTINENT FIELD IN MAY PRODUCTION

That southwest Texas is coming into its own as an oil producing area was verified last month when the fields in the west country soared Texas production to a leader in the Mid-Continent field. The production has gradually tended to the westward and when this month is compiled it is expected that the Pecos-Toyah basins will have joined the big production areas.

Big companies from all over the United States now have their eye on the western region and their agents, scouts and geologists are already in the local fields mapping out for future development. The "lease hounds" have about run their course and real development will go forward during the month of June.

Increase in production of nearly a

million and a half barrels for the month of May and of 37,388 barrels for the last week is the new record made by the four states comprising the Mid-Continent oil field.

Texas led all other states in gain of May production over that of April. During May this state increased its production of oil 566,870 barrels Oklahoma showed a gain of 503,137 barrels for the month. Louisiana was up 99,095 barrels and Kansas gained 252, barrels.

The Oil Weekly (Houston) in its tabulated review of the fields for the month of May says:

"During the month there were a total of 623 completions in Texas, 470 of which were producers, with a total initial production of 139,898 barrels" and continues:

The four states of the Mid-Continent have produced a total of 164,762,290 barrels during the eight months ending with May, distributed as follows:

Year	Barrels
1919	20,313,069
October	19,584,140
November	19,726,029
December	20,375,886
Year 1920	19,787,957
January	21,225,610
February	21,167,765
March	22,589,753
April	
May	

Fields Extended.

Extensions of the Stephens county fields and the north central Texas fields lying in Wichita county are responsible for much of the increase in Texas. A large number of big new wells were brought in and the field enlarged considerably.

Oklahoma likewise experienced an enlargement of the various fields. The same was true of Kansas and Louisiana, many good new wells being brought into completion.

Increases for Week.

During the week just ended the fields of the Mid-Continent showed an agreeable increase in line with increasing developments. The extensive campaign of wildcatting now in progress has not yet begun to bear fruit but when this happens an extraordinary jump is looked for.

Ranger about held its own with 30,815 barrels, a slight decline from 31,845 barrels. Desdemona was off better than 300 barrels, with 13,295 barrels daily production. Burkburnett was up 4,000 barrels at 84,000. Iowa Park increased 100 barrels. The K-M-A field is still largely unconnected with pipe lines but its production is now around 5,000 barrels daily.

Breckenridge made the most notable gain with 49,405 barrels as against 44,490 barrels for the previous week.

Oklahoma's production was 154,900 barrels while that of Kansas was 99,000 barrels.

Counting in the Gulf coastal fields the total Texas production for the week was 266,456 barrels, greatly in excess of the total production of other states in the Mid-Continent field and an increase of 37,388 barrels over the mark of the previous week.

More Gains Looked For.

The story has just begun to be told. There are more wells nearing completion in the Mid-Continent fields than there are producing wells. When these wells are finally brought in, production can be expected to take a big jump.

But it is not going to jump enough. Statisticians have figured that if every well now drilling comes in a good average producer there will still be an enormous over-demand for all crude oil and its products. This insures a constantly increasing price for this product and makes oil a better buy than ever before in the history of investments.

FOOD AND DRUG LAWS SET FORTH IN ORDER

Joe Jayne and W. R. Davis, from the department of food and drug inspection at Austin, Texas, were in Pecos this week making a tour of the city, investigating the hotels, cafes, restaurants, drug stores and other business places where food and drugs are sold.

According to ruling number 10, section 2, of the Texas food and drug law, "declares an article of food to be adulterated if it consists in whole or in part of a filthy food. The same section defines the word filthy as follows: The term filthy shall be deemed to apply to food not securely protected from flies, dust, dirt, and as far as may be necessary from all foreign or injurious contaminations."

It is clear from this section of the law that fruit vendors, vegetable peddlers and sidewalk dealers cannot sell food exposed to flies, manure dust of the streets or other contaminating influences.

Section 8 reads: "Whosoever shall do any of the acts of things prohibited, or willfully neglect to do any of the acts or things enjoined in this act, or in any way violate any of its provisions, shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than \$25 nor more than \$200."

The inspectors made one arrest while in the city and advise that upon their return if their orders are not complied with to the dot they will close up the next house they catch here not complying with the law.

FLAG DAY JUNE 14TH WAS A MILD AFFAIR

Monday, June 14, was Flag Day and was observed in many parts of the nation as a holiday. It passed unnoticed in Pecos and no demonstrations of any order took place with the exception of a small display at the churches.

El Paso staged a big celebration on short notice with the help of the soldiers from Fort Bliss and the school children of the city.

The day is set aside as a reminder of the patriotism due to your native country and is to stimulate Americanism and American ideals.

Las Vegas, N. M., June 17.—The ancient Milton was a master at slinging words. The modern Milton is a master at slinging steers. Both have a graceful style.

The ancient Milton, these many years twangs his lyro in paradise. The modern Milton will be in Las Vegas next month. He has no lyro—that is to say, no press agent. He is Milt Hinkle, otherwise known as "the South American Kid." Hinkle is a champion bull-dogger, steer rider, bronk rider, trick rider, roper and Roman rider. His best stunt, however, is the rube cowboy characterization, in which he utilizes all his talents. Hinkle has been engaged for the New Mexico Cowboys' Reunion, at Las Vegas, July 5, 6 and 7. His wife, Mildred Douglas Hinkle, the champion lady bucking horse rider of the world will be here to give exhibitions in bronk riding.

If we accommodate you by carrying your account 30 days, don't ride a free horse to death and make it sixty. O. J. Green & Co. 43-21

Sold in Pecos and recommended as the World's best Corn Remedy by Pecos Drug Company.

FISK TIRES

BUY satisfaction when you buy tires. Fisk Tires meet any comparison, any competition. Then there is the assurance of the Fisk Ideal.

"To be the best concern in the world to work for and the squarest concern in existence to do business with."

PECOS AUTO COMPANY

As sure as you are a foot high—

you will like this Camel Turkish and Domestic blend!

YOU never got such cigarette-contentment as Camels hand you. Camels quality and expert blend of choice Turkish and choice Domestic Tobaccos make this goodness possible—and make you prefer this Camel blend to either kind of tobacco smoked straight!

Camels mellow-mildness is a revelation! Smoke them with freedom without tiring your taste! They leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor!

Give Camels every test—then compare them puff-for-puff with any cigarette in the world!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes for 20 cents; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

R. J. REYNOLDS TOBACCO CO. Winston-Salem, N. C.

There's a Special Ingersoll for Each of These Folks

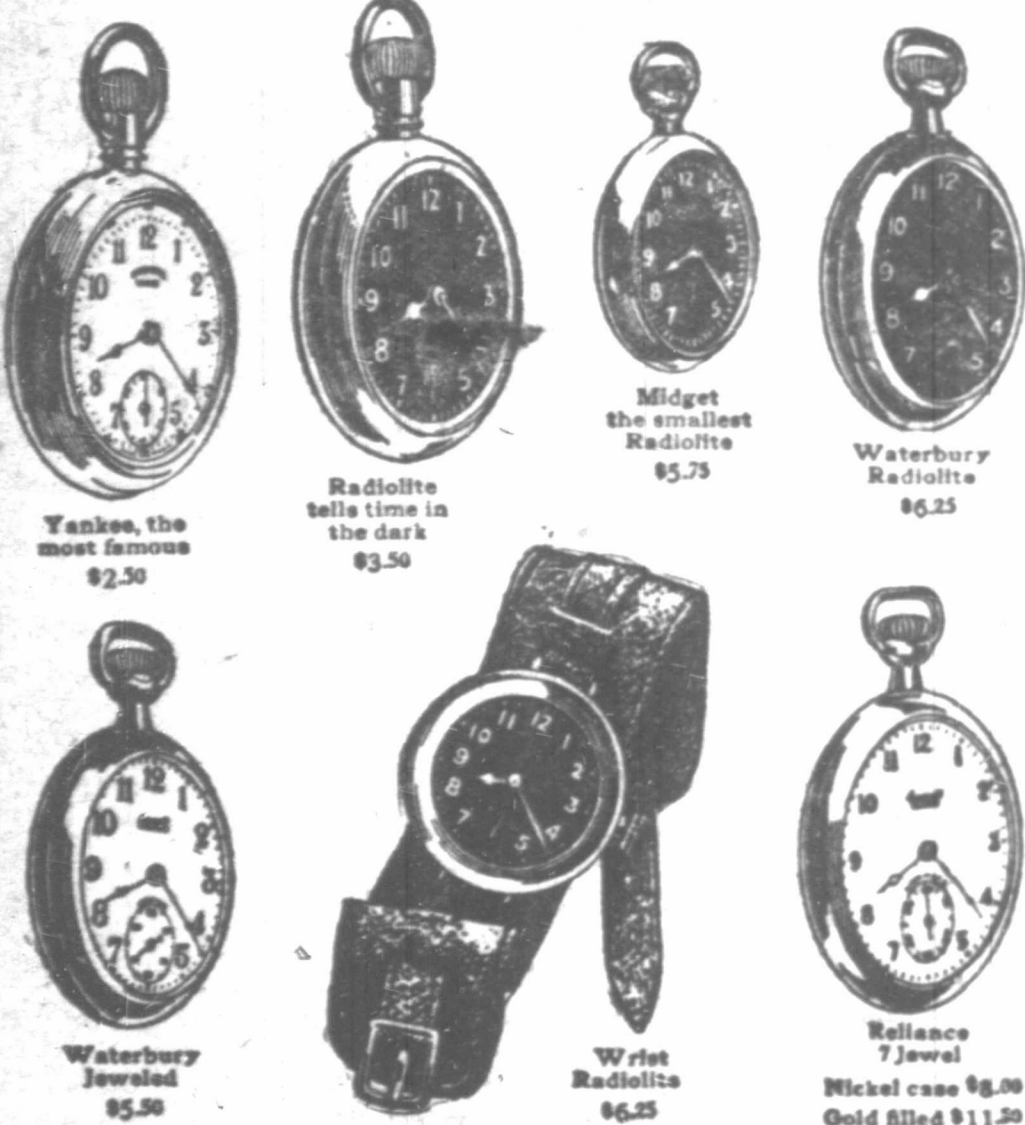

DID YOU ever "get fitted" to a watch? We mean, did you ever figure out exactly your watch needs and then see if you were properly equipped?

There are a dozen or more different Ingersolls—varying in price, varying in purpose—small watches, jeweled watches, radium dial watches for night use, and so on. For instance, if you have an expensive watch, you probably would choose a Radiolite for \$3.50. If you haven't a good serviceable watch, you'd be likely to buy a 7-jewel Reliance. The dealer will help you to select just the one for you.

"Ingersoll" has always meant the lowest-priced good timekeeper. Today, with present day costs and the 1920 purchasing value of a dollar, \$2.50 is the lowest price at which we can make a watch while keeping up the Ingersoll standard of quality. "Ingersoll" means "money's worth" whether it's for the \$2.50 Yankee or one of the Radiolites that tell time in the dark, or for one of the jeweled watches.

Ingersoll

Prices include Government Tax

Yankee, the most famous \$2.50

Radiolite tells time in the dark \$3.50

Midget the smallest Radiolite \$5.75

Waterbury Radiolite \$6.25

Waterbury Jeweled \$5.50

Wrist Radiolite \$6.25

Reliance 7 Jewel Nickel case \$11.50

ROBT. H. INGERSOLL & BRO., New York, Chicago, San Francisco

Pull Together for an American Merchant Marine

The war resulted in the creation of a great merchant marine—10,000,000 tons of American ships which cost us \$3,000,000,000.

Everybody agrees that we must keep this fleet on the seas.

If we fall back to pre-war conditions—when only 9 per cent of our foreign trade was carried in American ships—We shall be in the position of a department store whose goods are delivered in its competitor's wagons.

Congress is considering legislation which will perpetuate our war-built merchant marine.

Until this is done the ships we have should not be sold to face conditions which, prior to the war, resulted in the decline of our merchant marine to insignificance.

This Committee calls attention to these facts because a right solution of our shipping problem is vital to the future prosperity of shipbuilding, but equally vital to the safety and prosperity of the nation.

Send for free copy of "For an American Merchant Marine."

Committee of American Shipbuilders
30 CHURCH STREET, NEW YORK CITY

CHEERFUL WORDS

For Many a Pecos Household. To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove helpful to hundreds of Pecos readers.

Mrs. J. B. Prewitt, Pecos, says: "It has been quite a few years since I have needed Doan's Kidney Pills, but before I tried them I had a pretty bad case of kidney trouble. I had sharp pains in the small of my back and severe headaches. I am glad to say Doan's Kidney Pills brought me the relief I wanted. Since then whenever I have felt any soreness across my kidneys a few of Doan's have fixed me up in fine shape."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Prewitt had Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Have you tried the Luncheon served at the Elite? Nice fresh sandwiches, hot coffee, chocolate, butter milk or sweet milk. 43-11

BACK TO THE FARM SLOGANS

The census of the United States reveals the fact that the farmers have been moving to the cities by the thousands. All of the larger cities showed decided gains in their census reports, while the smaller towns and trading posts showed a marked decrease.

Thus it is seen that the country is facing a great economic upheaval unless something is done to keep the farmer on the farm. Agriculture is the foundation of our economic life and when it falls down the nation will fall with it.

The farmer is taking objection to the urban population telling him how and what to do in this time of crisis. He is not complaining of his prices so much as he is of the condition of his products.

As long as the farmer knows what he has to pay back for them in return, there is no use to bombard him with feed the nation slogans to stay on the farm when the middleman is getting the most of the money.

PECOS RIVER WATER RIGHTS

Pecos river valley towns are planning on an determined fight to secure what they regard as their full share of the waters of the Pecos river and are now preparing petitions to the attorney general of Texas demanding that he take immediate action to compel the various irrigation districts in New Mexico to release part of the waters held in their dams for use in irrigation projects of the lower river country.

Numerous rains have saved the probable water famine that was feared this spring as a result of the numerous new tracts placed under irrigation and the consequent larger demand for water. These rains are partly attributed to the gases escaping from the numerous wells drilled in the oil district around Pecos.

An appropriation passed by the legislature is cited by the land owners as authority for the demand. This appropriation directed the attorney general to bring legal action in case New Mexican districts refuse to give up the stored water under the authority of certain decisions of the United States supreme court that govern water rights.

Vernon Sullivan, irrigation engineer of El Paso, has investigated the New Mexican districts and reports that 40,000 feet of water has been stored in New Mexico, and that 28,000 second feet, or a sufficient supply to last several months remains, while the Pecos supply has been cut from 1,020 second feet to 75 second feet.

A CHANGEABLE STOCK MARKET

The circle around the "almighty dollar" is far reaching. This has been proven by the fluctuations of the cattle market since United States Attorney General Palmer started an investigation into the enormous dividends being paid by the united packers.

The packers have a corner on the market that even the government has been unable to break up. Immediately after the war legislation was passed restricting the packers under the clause of "hoarding commodities." The object of this was to keep the united packers from controlling the meat supply but the result was not to that effect.

Whether the packers have a corner on the market or not it is seen that they have things their own way and if they desired they can put the stock raising industry of the country into a panic in a short time. They are secure from investigation.

BE THE SIXTH MAN

The savage lives. He eats the same food his great-great-grandfather did and worries not at all over tomorrow, just like his ancestor. That's the reason he's a savage. He didn't look ahead. He lived in the present.

Do you live within your income? So does the savage. Do you save some of it? If you do—you are out of the savage class. If you wait until you get a thousand dollars together before you begin to save—you won't begin. If the quarters burn a hole in your pockets—the dollars will slip through that hole.

The Labor party, in session at Montreal, Canada, threw the gauntlet down to the Republican party after its convention in Chicago and said it was ready to join the ranks of the Democrats. The laborers condemned the platform adopted by the G. O. P.'s and states that it will leave nothing undone to nominate a democratic president at the August primaries.

All of the important office force of the Sunshine Oil Corporation, with the exception of Judge Beal, moved their books and papers back to their offices at Los Angeles this week. They were obliged to assemble here temporarily to defend the many suits instituted to cancel leases given them in good faith by Pecos people, who at the time of their execution were glad to know some one would start something to resuscitate the condition then existing.

The Nordhaug bill increasing the compensation of county treasurers from \$2000 to \$3000 was passed finally. A communication from Comptroller M. L. Waginton was read in answer to a recent resolution adopted in the house authorizing that Confederate pensioners would receive \$24 for the current quarter and that all outstanding pension warrants not called for by January 1, 1921, would be cancelled and the money turned back into the pension fund.

ASKS REEVES COUNTY TO VOTE ROAD BONDS

A press report in the El Paso Herald of June 15th says that Hudspeth county (of which Sierra Blanca is the county seat) has ordered a road bond election for fifty thousand dollars to be voted on July 11. The report further shows that by reason of the voting of this amount of bonds the county is to receive one hundred and fifty thousand dollars of state and that the highway commission will furnish fifty thousand more if needed.

It seems to me on this basis Reeves county should arrange to vote at least seventy-five thousand and not more than one hundred thousand—at once. If she voted seventy-five thousand on Hudspeth basis this county would get two hundred and twenty-five thousand of state aid and seventy-five thousand from the highway commission, making a total of three hundred and seventy-five thousand dollars for the county's roads.

If I should be selected by you as your county judge I will use my best efforts to secure and apply every dollar available from the state so long as we don't incur indebtedness more than one hundred thousand dollars.

The voters would do well to think over these things. Very truly, BEN RANDALS.

BOWELS AND DEMOCRATS.

When Cleopatra "vamped" Anthony they were wont to "wander through the streets, and note the qualities of the people." In those early days of which Brer. Shakespeare wrote there was not much difference in people as now, and if the drama depicted by Theda Bara decked in her scant costume gives us a correct line on Cleopatra we will have to assume that the dress making profession was usually on a strike, and that the cops were not making any arrests for abbreviated wardrobe effects.

Quality in "bowels" excites the nation's politics and it is said that Mr. Bryan will "force" a prohibition plank in the national democratic platform. In consequence he has Bourbon democrats squalling with rage that "the shirt of Nessus is upon me" because they do not want prohibition in their platform.

Congressman C. B. Hudspeth and family were passengers on the T. and P. Monday morning, returning to their home in El Paso from Washington, D. C., for a visit to their old home. Mr. Hudspeth was looking fine and said that political lines in Washington were drawn to a fine point; that the Republicans were leaving nothing undone to bring about a victory for themselves in the coming election and that in his opinion they had put out for president the strongest man they had in the Republican party today.

Since the oil boom hit Pecos and property values have advanced far beyond their normal values it is no wonder that former residents now up in heaven wear the buttons of their vests, leaning over the gold bannisters longingly looking at home.

There are two jobs that we are not hankering for: one is holding a yearling bull by the tail and the other is being president of Mexico. Don't expect too much of human beings; you are one and you have never set the world on fire yet.

A good many people who don't own Liberty bonds own automobiles. We are thinking of putting a sign in our window that reads like this: "Keep smiling—it costs like h— to live but it is worth of it."

It is about time that county political aspirants start besieging the public with the usual round of annual handshakes. The ticket lottery at a Kentucky blue grass racing track didn't have anything on the G. O. P. convention at the "Windy City" last week.

Richard Lee Adams, eight months and four days old, son of Mr. and Mrs. J. J. Adams of Arizona, died at the residence of his grandmother, Mrs. M. H. Mitchell Wednesday night at 10 o'clock.

This little boy has been in bad health for some time and Mrs. Adams brought him to visit his grandmother, hoping it would improve his health. Mrs. Adams has only been here with her son a few days and at this time (Thursday noon) the funeral had not been arranged for. She has not been able to get in communication with her husband, who is in Arizona, and possibly ignorant of the fact that his child has passed away.

DEATHS

As announced in our columns last week, Mrs. H. W. Hinkle died at the home of her parents, Mr. and Mrs. W. M. Mullican, at Lubbock, Texas, June 5, and was buried there the following day.

Mrs. Hinkle was born in Ellis County, Texas, 26 years ago. Later the family moved to Dallas, where they remained for several years. She was married to H. W. Hinkle in October, 1905. About eleven years ago she and her husband came to Pecos, he taking the position as manager in the dry goods department of the Pecos Mercantile Company.

Being frail in body, Mrs. Hinkle was never able to enter much into community activities. However, she became well known to all of us, and leaves an impression for good through her patience and cheerfulness in all her years of weakness and suffering.

About four years ago she suffered a stroke of paralysis, and for days little hope of life was held, but with seeming superhuman endeavor she held on to life and improved to such extent that she was able to be about the house and largely waited upon herself till the time of her death.

For some weeks it had been evident that she was growing weaker. About a month ago she was taken to her father's home. The day before her death Mr. Hinkle was notified that her condition had become critical and left immediately, but was unable to reach her before death came.

Mrs. Hinkle made a confession of her faith and united with the church when about 12 years of age. She had been a member of the Christian church here for many years.

Mr. Hinkle and all her family have the sympathy of our entire citizenship. When you buy at Pecos Bargain House for cash you don't help to pay the bad bills. 35¢

Local Market Report

Table listing market prices for various goods: Cabbage, per lb. .06; Onions, per lb. .08; Butter, per lb. .60 to .75; Watermelons, per lb. .05; Cantaloupes, per crate. 3.75; Eggs, per dozen .50; Hens, per lb. .15; Cocks, per lb. .15; Spring fries, per lb. .33 to .40; Beets, with tops, doz. .75 to 1.20; Karrots, per lb. .05; Fresh onions, bunch .05; Buttermilk, per gallon .40; Sweet milk, per qt. .20; Cream, per pint .50; Skimmed milk, per gallon .40; Beef, per lb. .30 to .40; Ribs and chuck .20 to .30

Quips and Quibbles

Advice, like castor oil, is easy given but hard to take.

Owing to the high price of dry goods at least one Pecos woman has decided to quit chewing the rag.

"Keep a goat," advises a well-known Texas agriculturalist, and we must confess that the dad-blasted profiteer got ours long ago.

There is one problem over which Mexico does not have to worry—what to do with its ex-presidents.

There are always a few citizens who don't want to join the parade unless they can have a front seat in the band wagon.

It is often said that a fool and his money soon part, but the mystery to us is how a fool and his money ever got together.

It takes a big man to meet adversity with a smile, and it takes a man just as big to hold his head when riches are suddenly thrust upon him.

Among those who have good records for sitting up with the dead—are former members of the anti-prohibitionist party.

The fate of his whiskership in Mexico furnishes further vindication for those who contend that a man's face is no place to grow alfalfa.

Of late we hear a great many demands for people "to do things and mix with it some intelligence." If the laugh is to be in unison, we can't hold out much longer.

Since the oil boom hit Pecos and property values have advanced far beyond their normal values it is no wonder that former residents now up in heaven wear the buttons of their vests, leaning over the gold bannisters longingly looking at home.

There are two jobs that we are not hankering for: one is holding a yearling bull by the tail and the other is being president of Mexico. Don't expect too much of human beings; you are one and you have never set the world on fire yet.

A good many people who don't own Liberty bonds own automobiles. We are thinking of putting a sign in our window that reads like this: "Keep smiling—it costs like h— to live but it is worth of it."

It is about time that county political aspirants start besieging the public with the usual round of annual handshakes. The ticket lottery at a Kentucky blue grass racing track didn't have anything on the G. O. P. convention at the "Windy City" last week.

THE CHURCHES

CHURCH OF CHRIST Preaching morning and evening by the regular minister and the Bible school and Christian Endeavor at the usual hours. The members expected and the public invited to all services. HOMER L. MAGEE.

THE BAPTIST CHURCH Do you believe a Christian has eternal life as a present possession? Do you believe the impenitent, dying in sin, consciously goes to a place of darkness, misery and eternal woe as the inevitable consequence of sin? The pastor of the Baptist church will discuss the following subjects next Sunday morning and evening: "Eternal Life" and "Eternal Death."

We will have fine singing, both congregational and special at both services. Bring a friend with you. W. A. KNIGHT, Pastor.

TOYAH IS FAVORABLE FOR AN INDEPENDENT DISTRICT

Toyah may have an independent school district as a result of the action taken by the house of representatives last week. The bill passed the house favorably with a unanimous vote and it is felt that it is sure to pass the senate the same way.

This will give Toyah the full power to conduct her own school system and to create her own school funds and care for them as she sees fit.

R. E. THOMASON INVITED TO SPEAK IN TOYAH ON JULY 4

E. B. Daniel, chairman of the committee empowered to engage speakers for the big three-day celebration beginning July 4th, sent invitations to Governor W. P. Hobby, Congressman C. B. Hudspeth, R. E. Thomason, Pat M. Neff, Representative Stewart and County Judge Ross of Pecos. It is expected that most of the invitations will be accepted, which will assure the celebration committee of a fine lot of orators.

The Time to Buy is on a depressed market, and the time to sell is on a boom. The oil and gas market is at a low tide now, but will not be so much longer. If you are in the market for oil and gas leases now is the time to buy. I have a few well-located leases on patented land with good title at a price that will double in value in the next sixty days. Pecos property is a good buy at this time. I have some well-located business and resident lots at a bargain. I have been in the land business in Pecos for about fourteen years and know the value of every section of land in Reeves County. J. W. MOORE

WANTS BETTER SYSTEM FOR FARMERS' CREDIT

Dallas, Texas, June 17.—The Texas Chamber of Commerce is planning to mobilize public sentiment for a better system of farm credit in Texas and has announced the following rural credit committee, which will formulate policies along this line: J. D. Stephenson, farmer, Dallas; S. A. Lindsley, federal land bank, Houston; Joe Hirsch, chairman of agricultural commission of American bankers association, Corpus Christi; Clarence Ousley, Fort Worth; W. M. Spilaw, professor of economics of University of Texas, Austin; F. M. Law, Texas bankers association, Houston; B. F. Brown, A. & M. College, College Station.

Decreasing man power on the farm must be supplanted with horse and motor power and with improved labor-saving implements and devices, according to the policy of the Texas Chamber of Commerce. The purchase of these implements will mean credit for a longer period than one year and to this end a special effort will be made to interest bankers and other business men in providing this credit and also to the working out of a permanent system of "middle-term" credit based on personal security.

SOME PLAIN FACTS ABOUT HEALTH

THE HYPOTHESIS.
There are 10,000 or more deaths from tuberculosis every year in Texas. There are 90,000 cases of active tuberculosis in Texas.

THE PROPOSITION.
To prevent 65 per cent of these deaths. To restore 60,000 of these active cases to health.

THE METHOD.
Anti-tuberculosis organizations, health crusades, etc., will help and it is hard to overestimate their value; but

We will get no lasting, tangible results in the campaign until you as an individual, as a committee of one, see the necessity of making a personal effort.

You will have no society to organize; you will have no committee to appoint; you will have no free space in the newspapers to solicit, nor will it cost you one cent.

What can I do? is a logical question to ask and so simple is the answer that you will probably laugh but

Get disgusted with the man who spits in your face.

He does it every day, twenty times every day, in twenty different ways. When he spits on the floor; when he spits on the sidewalk; when he spits at the cuspidor; when he coughs and when he sneezes without covering his mouth.

Yes, there are other things you can do. You can put your children to bed at nine o'clock; you can give them a quart of whole milk each day; you can build that new house mostly of windows and sleeping porches; you can see that your dairyman eliminates the tuberculous cows from his herd and that he does not employ tuberculous people. You can do all these things and more but the main thing, the big idea, is—

To frown on the man who spits in your face!

TEXAS LAUNCHES VAST ROAD BUILDING CAMPAIGN FOR '21

Ranger, Texas, June 16.—This would start with an account of records made and records broken, as news stories are sometimes prone to do. Texas, of all states, leads the nation in the matter of good roads; not good roads built, but good roads projected and good roads being built. At the most recent count, appropriations in the Lone Star State were more than \$84,000,000 for roads.

Of this amount, the oil country, famed for its roads from coast to coast, is well to the fore in the matter of money to be invested in its highways, and Eastland county, heart of the Ranger field, leads the nation in good road projects.

When your eyes need attention, don't experiment. I am permanently located in Pecos. Ask any of my hundreds of customers about me. Office in Slack's Jewelry Store. S. C. Muck, optometrist. 44-2t

If you want oil leases send your money to F. P. RICHBURG LAND & RENTAL CO. All titles to the land guaranteed to be o. k. 23-tf

Remember you get "more goods for less money" at the Pecos Bargain House. Strictly cash. 35tf

We own our own leases; better buy now before it is too late. O. J. Green & Co. 43-2t

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezezone removes corns from the toes or calluses from the bottom of feet the skin beneath is left pink and healthy and never sore, tender or irritated.

PEGOS C. OF C. TURNS DOWN PUBLICITY TOUR

The Pecos chamber of commerce will not join the Western Texas Publicity Campaign, was the decision reached by its members this week. The cost is out of proportion to the good derived and the chamber believes it is too busy to join the campaign.

All efforts will be brought into line in an endeavor to swing the Red Bluff dam project and financial aid extended to capacity. It is the opinion of the commerce members that Pecos should build her growth on a more substantial product than oil and once the Pecos Valley is irrigated throughout it is assured that it will only be a question of time until the city will be in a metropolitan class.

The chamber went on record this week as contributing \$2,100 as its share to getting the dam project across and every effort will be expended in its behalf until some action has been taken by congress.

FINISHED UP ZIMMERMAN PROJECT IN PECOS COUNTY

L. C. Lessnich and W. R. Challman passed thru Pecos Tuesday returning to Sioux City, Iowa. They have just completed the Zimmerman irrigation project near Girvin, Pecos county. The tract is the one being so widely advertised now by the Jackson settlement promoters of Fort Worth.

FORESIGHT AND THRIFT.

The savage eats when he finds meat. He gorges and sleeps and between times starves. The civilized man lays up. In abundance he prepares against famine. He builds barns and warehouses.

Thrift implies self-control. We are casters of self, not slaves of self.

Thrift implies self-respect. We do not wish to become a burden upon others. Hence we lay up something for our lean days.

Thrift means decency. The decent portion of the race accept their due responsibilities, carry their share of the burdens, justify their existence by cheerfully doing their part of the world's work.

Thrift means patriotism.

Thrift means love of family.

Thrift means you are not a boaster, a sponge or a nuisance.

Thrift means using your strength to protect your weakness, your health, to take care of your sickness, your fortune, to protect against your misfortune.

Thrift means you are not ashamed of your past; you are content with your present; and you are unafraid of your future.—The Helix.

**PURINA
COW CHOW FEED**
MAKES A FULL BAG

Two or three pounds more milk in every cow's bag every day means a big extra profit at present milk prices.

This increase is possible by the use of Purina Cow Chow Feed, which costs only about a cent a cow more per day than the average ration.

The reason Purina Cow Chow Feed produces such heavy increase is that it contains 20% digestible protein (24% crude), the maximum amount a cow can assimilate and keep in the best condition.

Every ingredient used in Purina Cow Chow is a feed of recognized value. There is no cheap filler. Every pound yields more milk in the pail.

Try a ton and you will understand why veterinarians insist on Purina Cow Chow.

STOCKMEN CALL ON FEDERAL RESERVE BANKS FOR LOANS

WOMEN WILL GOVERN CITY OF JEWETT, TEX.

Jewett, Texas, June 14.—Women who now hold the reins of government in Jewett have mapped out an energetic program for their administration. They came into power at the spring election. Mrs. Hattie Adkinson is mayor and she has five sister aldermen. The only man remaining in office is the town marshal. He used to be supported by fees but the new regime put him on a salary.

The women have already started a clean-up campaign. They are considering street improvements and the collection of back taxes, or new taxes if necessary, to pay for them. Revision of the traffic laws and enforcement of the stock laws are also projected.

The women came into office by slight majorities, 20 votes in several instances being sufficient to overturn tradition.

UNEARTH MOONSHINE STILL AT ROSWELL

Roswell, N. M., June 13.—As the result of a night's work by Sheriff C. A. Recter and federal officers Greeg and Beckett, the county is standing guard over a large quantity of tequila, corn moonshine whiskey and alcohol and two Mexicans are in jail facing charges of moonshining. The thin brew was found stored in a cave dugout and underneath the floor of the pool hall. So proficient were the moonshiners that they had a choice of three varieties in store for beverage seekers.

SAFE CRACKER GETS \$1000 IN ROSWELL

Roswell, N. M., June 1.—The big safe at the A. T. and S. F. freight depot was blown open last Tuesday morning at four o'clock and a sum of money less than \$1000 was taken. The night man at the depot was held up and locked in a box car during the robbery.

The burglary bears all the earmarks of a professional and two charges split the safe in less than ten minutes. No trace of the safe cracker has been found as yet.

SARAGOSA NOTES

(Too late for last week.)
Mr. Topping of Whittier, California, who has the selling of Saragosa town lots in charge, has made several sales the past two weeks.

H. H. Forbes and E. R. Cox have leased the building opposite the depot and are putting in a garage. The interior of the building is to be renovated and fitted up in first class shape. A line of tires and tubes and automobile accessories will be handled. Mr. Forbes will be in entire charge of the mechanical department and he needs no introduction as to his mechanical ability as he has done considerable automobile work in and around this vicinity and his work has stood the test.

Miss Margaret Wagon, who has been teaching in the El Paso schools the past year is here for a few days visiting her sister, Mrs. Jesse Williams.

C. W. Stancliff has purchased a lot near the depot and is erecting a dwelling and office building thereon.

J. W. Lancaster has purchased a lot on Railroad avenue and has moved a house on it and will reside there.

Rev. W. A. Fulbright, the Methodist pastor, filled his regular appointment here Sunday.

T. N. Wilson has gone to Cisco for a visit with relatives.

John Bush left Sunday on a business trip to El Paso.

Mrs. I. E. M. Williams is visiting her son at Yuma, Arizona.

THE COMMON PEOPLE.

(By Walt Mason.)
The common people around me troop, the Toms, the Dicks and Harrys; one builds himself a nice new coop, one dies, another marries. The bankers clad in gaudy rags, his bank has marble portals; the hostler carries down his nags, and both are common mortals. The tinsmith makes our motor cars, the blacksmith works his bellows, the poets soars among the stars and all men are common fellows. We are equal at our birth, one kids just like another; and when we tumble off the earth, what man above another? I walk along the churchyard isles and pensive, muse and ponder; the granites reared in costly piles above that grave o'er yonder; and there a poor man sleeps alone a friendless wight and daffy, above his head a simple stone, devoid of epithaphy. And both are sleeping just the same, the poor man and the Croesus; on earth they played the common game, and now they're gone to pieces. In youth we are all gay and vain, in middle age we're sober; and all of us have aches and pain when life has reached October. The king who has God given right to be a nation master, must leave his downy couch at night to hunt a porous plaster. It makes me tired to hear the talk of strata and of classes; we're just the plain old human flock, we're just the common masses.

I am prepared to do hemstitching and picoting at reasonable prices at my home in Pecos and will appreciate the patronage of the Pecos and out-of-town people. Mrs. Tom Harrison. 43-4t

Rumors that the federal reserve banks have tightened up on negotiable cattle paper are unfounded, according to letters received from Congressman Hudspeth and Governor Harding.

Cattle men of the Pecos valley country say that the banks have shut down their loans to cattle raisers, while the market is at a standstill and prices low. Loans to tide them thru the market fluctuations are forthcoming and according to W. F. Scarborough of Midland, an executive board member of the Panhandle & Southwestern Stockmen's association, the situation is alarming both to the stockmen and to the public.

Congressman Hudspeth says "I strongly advise that you ask your local bankers to get in touch with the federal reserve system in this matter. I think the fault has been that the small banks were scared too easily. While some member of the federal reserve board may have advised the curtailment of loans, Harding, the governor general, states to me that he never did advise the curtailment of loans and that there is ample money in the country for all immediate needs."

"I think an extensive circulation of the following letter from Governor Harding will do a great deal among your banks in easing up the financial situation."

Governor Harding is quoted in his letter as saying, "that the federal reserve banks have been advised of the board's view of the necessity of sustaining the live stock industry and they have been told that if necessary they may, by rediscount with other federal reserve banks, place themselves in sufficient funds at any time to meet demands for accommodations made upon them by member banks offering eligible cattle paper for rediscount."

"The board has not been advised by the federal reserve banks in the cattle raising districts that they are in need of additional funds for this purpose nor has any advice come to the board of the refusal of federal reserve banks to rediscount eligible cattle paper for their member banks. The board has, on the other hand, been advised that the federal reserve banks are keeping close watch on the situation and doing everything in their power to be of assistance to the cattle raisers. They are amply able, for the present, to take care, out of their own resources, any demands made upon them by member banks for this class of accommodation, and should it become necessary later on for them to rediscount with other federal reserve banks, the transactions would be consummated in the course of a few hours and without their being obliged, even temporarily, to suspend their loaning operations."

Let it rain; ye need it. Buy your groceries and feed here. You need the goods, we need the business. O. J. Green & Co. 43-2t

Hats at half price, both ladies' and children's, pattern hats and tailored hats in a new variety of shapes and colors. On balcony at Pecos Bargain House. Mrs. Doyle Garrison. 44-1t

SOUTH IS TURNING AGAINST CALOMEL

Mr. Dodson, the "Liver Tone" Man, Responsible for Change for the Better.

Every druggist in town has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place. "Calomel is dangerous and people know it." Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle doesn't cost very much but if it fails to give easy relief in every case of liver sluggishness and constipation, just ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable, remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience—all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day.

SHERIFF'S SALE

THE STATE OF TEXAS, County of Reeves. By virtue of an alias execution issued out of the Honorable District Court of Reeves county on the 29th day of May, 1920, by the clerk thereof, in the case of Frederick Flanders versus Dixie Irrigation Company, Thospe Brothers, a firm composed of Clall O. Thorpe and Charles H. Thorpe, and Charles H. Thorpe, No. 389, and to me, as sheriff directed and delivered, I will proceed to sell, within the hours prescribed by law for sheriff's sales, on the first Tuesday in July, 1920, it being the sixth day of said month, before the courthouse door of said Reeves county, in the City of Pecos, the following parcels of land and real estate: Situated in Reeves County, Texas, known and described or referred to as follows: Subdivision No. 11 of the Dixie Irrigation Co.'s plat of Section 19, in Block 5, in H. & G. N. R. Co. survey, respective County, Texas on file in the office of the county clerk of Reeves County, Texas and recorded in Vol. 10, of the deed records of said county, at page 455, said subdivision No. 11 containing 11 acres, more or less, and being that proportion of said section 19 aforesaid lying and being situated north and west of the Arno Co-operative Irrigation Company's right of way of its main canal.

Also lots 1, 2 and 4, of A. C. Bindner's Subdivision of said section 19, in Block 5, in H. & G. N. R. Co. Survey, Reeves County, Texas, according to plat thereof on file in the office of the county clerk of Reeves County, Texas, and recorded in Vol. 10, of the deed records of said county, at page 24, said lots 1, 2 and 4, containing 105 acres, more or less.

Also all that part of Subdivision No. 5, of Dixie Irrigation Company, in Reeves County, Texas, according to plat thereof on file in the office of the county clerk of Reeves County, Texas, and recorded in Vol. 10, of the deed records of said county, at page 455, situated and lying south and westerly of the right of way of the Arno Co-operative Irrigation Company, in said county, Texas, containing approximately 12 acres, more or less.

All of said lands herein situated about 25 miles northerly from the City of Pecos in the vicinity of the Ira J. Bell discovery oil well and generally known as a portion of the lands of the Dixie Irrigation Company. Levied on, on the 29th day of May, 1920, at 11:10 o'clock a. m., as the property of Dixie Irrigation Company, Thospe Brothers, a firm composed of Clall O. Thorpe and Charles H. Thorpe, and Charles H. Thorpe, to satisfy a judgment amounting to \$672.44 together with said interest and the rate of six per cent per annum from October 18, 1907, to the date of sale, and costs of executing this writ, less than three credits therein and accrued on said respective credits at said rate of six per cent per annum from the date of said respective payments or credits until the date of said sale, to-wit: January 8, 1908, \$527.21; November 2, 1909, \$481.40; and January 7, 1913, \$964.00; said judgment being in favor of the plaintiff, Frederick Flanders, and by him sold and assigned to and now owned by John B. Desjardis.

Given under my hand this 29th day of May, 1920. 43-11

H. B. KISER, Sheriff.

THE STATE OF TEXAS.

To the sheriff or any constable of Reeves county, greeting:

You are hereby commanded to summon the Western Bank of Denver, Henry M. Bosty as assignee of the Western Bank of Denver, and the unknown successors, stockholders, officers and legal representatives of said bank, W. C. Brown, George A. Black, Oscar A. Searns, Henry M. Bosty, Mrs. Helma, Cons M. Shackelford and the unknown heirs, devisees and legal representatives of each of said persons, Oscar A. Searns, trustee, and Mr. — husband of Cons M. Shackelford, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published the 70th judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 70th judicial district, to appear at the next regular term of the District Court of Reeves county, to be held at the court house thereof, in Pecos, Texas, on the 4th Monday in November, A. D. 1920, the same being the 22nd day of November, A. D. 1920, and there to answer a petition filed in said court on the 9th day of June, A. D. 1920, in a suit, numbered on the docket of said court No. 2080, wherein the W. Kenney Land & Investment Company and Day Monroe, Trustees, are plaintiffs, and S. V. Biggs, Della A. Biggs and the above named parties are all defendants and said petition alleges in substance that said S. V. Biggs and Della A. Biggs on the 21st day of June, 1911, executed and delivered to the W. Kenney Land & Investment Company, aforesaid, 25 principal promissory notes for \$1,000 each, maturing July 1, 1916, with 10 interest coupons for \$50 each affixed to each note, of which notes six with 7 coupons affixed to each remain unpaid, and to secure the payment of said notes said S. V. Biggs and Della A. Biggs also executed and delivered to the W. Kenney Land & Investment Company, a trust deed upon certain real estate including the following: A trust forming a part of Section No. 3 in Block No. 4, H. & G. N. Ry. Co. Survey in Reeves County, Texas, beginning at a stake on the boundary line between the said — and — and Section No. 3 and Section No. 2 of same block and survey distant 498 and 3-10 varas North 56 and 2-4 degrees east from an iron pipe marked 2-3 B 1, said pipe being distant 2822 varas north 56 and 3-4 degrees east from the northwesterly corner of said section No. 3; running thence south — 33 degrees and 13 minutes east 484 and 1-2 varas thence north 56 degrees and 45 minutes east 666 and 7-10 varas to a point on the bank of the Pecos river; thence up said river with its meanders which are fully set forth in said petition, to a stake at the common corner of said sections; thence south 56 and 1-4 degrees west 791 and 7-10 varas to the place of beginning containing 50 acres more or less.

Also the following described tract situated in Brewster County, Texas, to-wit: Survey No. 35, Block G-5, of the western of Las Lomas tract in the records of Pecos County, Texas, and dated March 10, 1902, but by mutual mistake said first described tract was described as being in Block No. 3 instead of Block No. 4; that thereafter said S. V. Biggs and Della A. Biggs conveyed said first described tract and other lands to George Easton by deed, retaining a Vendor's lien against all land described in said deed to secure the payment of \$1,200 of said principal debt with interest thereon from January 1, 1913, at 10 per cent per annum and said Easton thereafter conveyed, by deed, to O. A. Searns, trustee, said first described tract and another tract of land situated in Reeves County, Texas, viz: The south 1-2 of Section No. 30, in Block 55, Township 6, T. & P. Ry. Co. Survey, and by the terms of said deed reserved a Vendor's lien upon all the lands therein described to secure the payment of the aforesaid lien of \$1,200 and interest as aforesaid, by reason of which facts plaintiff has acquired a Vendor's lien against the said last hereinbefore described tract of land in said county of Reeves County, Texas, and said Searns as trustee thereafter conveyed each of the three aforesaid tracts of land to said George H. Black; that said S. V. Biggs conveyed said tract in Brewster county and said Della A. Biggs owned said tract in said Section No. 3 in fee when said deed of trust was given; that each of said defendants claim some part in said lands or some part thereof but that all such interests, if any there be, are junior and inferior to the lien of said deed of trust and praying judgment deprecating said deed of trust be returned to correctly describe said first described tract in said section No. 3, that plaintiff recover judgment on said unpaid principal notes and interest coupons for \$5,400 with interest thereon from July 1, 1916, at the rate of 10 per cent per annum and be adjudged to have a valid and subsisting Vendor's lien against said lands, 1-2 of said Section No. 30 in Block 55, in Township 7, T. & P. Ry. Co. Survey in Reeves County, Texas, for \$1,200 of said debt with interest thereon from January 1, 1913, at the rate of ten per cent per annum, that said Vendor's lien and said deed of trust be ordered foreclosed and the right title and interest of said defendants and of each of them, if any they have, in said premises or any part thereof be determined and forever foreclosed, barred and set off for costs of suit and for such other relief as may seem to the court to be just, equitable and proper.

Heads fall not but have before said court, as in aforesaid regular term, this writ with you return thereon, showing how you have executed the same. Given under my hand and the seal of said court, at office in Pecos, Texas, this 9th day of June, A. D. 1920.

S. C. VAUGHAN, Clerk, District Court, Reeves County. By VANNIE INGLE, Deputy.

Every time we see one of these long-haired Mexicans carrying a harp down the street, our desire to become an angel gets a setback.

Don't forget to stop in at the Elite after the show and try some of that delicious cream. 43-11

It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

THE STATE OF TEXAS, County of Reeves. By virtue of an alias execution issued out of the Honorable District Court of Reeves county on the 29th day of May, 1920, by the clerk thereof, in the case of Frederick Flanders versus Dixie Irrigation company, Thospe Brothers, a firm composed of Clall O. Thorpe and Charles H. Thorpe, and Charles H. Thorpe, No. 389, and to me, as sheriff directed and delivered, I will proceed to sell, within the hours prescribed by law for sheriff's sales, on the first Tuesday in July, 1920, it being the sixth day of said month, before the courthouse door of said Reeves county, in the City of Pecos, the following parcels of land and real estate: Situated in Reeves County, Texas, known and described or referred to as follows: Subdivision No. 11 of the Dixie Irrigation Co.'s plat of Section 19, in Block 5, in H. & G. N. R. Co. survey, respective County, Texas on file in the office of the county clerk of Reeves County, Texas and recorded in Vol. 10, of the deed records of said county, at page 455, said subdivision No. 11 containing 11 acres, more or less, and being that proportion of said section 19 aforesaid lying and being situated north and west of the Arno Co-operative Irrigation Company's right of way of its main canal.

Also all that part of Subdivision No. 5, of Dixie Irrigation Company, in Reeves County, Texas, according to plat thereof on file in the office of the county clerk of Reeves County, Texas, and recorded in Vol. 10, of the deed records of said county, at page 455, situated and lying south and westerly of the right of way of the Arno Co-operative Irrigation Company, in said county, Texas, containing approximately 12 acres, more or less.

WEDDINGS

GOODNER-TUDOR. Dr. and Mrs. W. B. Goodner announce the marriage of their daughter Lessie to Mr. David Kavanaugh Tudor, to take place on Tuesday, June 15, at Dublin, Texas.

Miss Goodner was a former teacher in the city public schools of Pecos and is well known here. Mr. Tudor is a ranchman and the son of C. W. Tudor, one of the big land holders in the Pecos valley and owner of one of the finest ranches. He is well known in this neighborhood and has a large circle of acquaintances. While his friends all wish him the crown of success under the assumed double yoke, it is to be said that it takes a good oarsman to keep the skiff afloat on the rolling seas of matrimony, but David hasn't ridden the range these many years for nothing and his friends know him to be the man than can do it.

The Pecos county extend the wishes of a long and prosperous future to this young couple.

NOTICE OF APPLICATION TO REDUCE A PART OF MORRIS ADDITION TO ACREAGE.

Notice is hereby given that C. L. Morris, the owner of Blocks Nos. 2, 3, 4, 5, 6, 7, 8 and 12; and Lots Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 in Block 10, and Lots Nos. 11 and 12 in Block 14, in the Morris Addition to the town of Pecos City, Texas, has filed a petition with the Commissioners' court of Reeves County, Texas, asking for an order of said court to reduce the said above described blocks and lots to acreage property, and cancelling that part of said Morris Addition which is covered by the above described lots and blocks.

Said Morris Addition, and said lots and blocks being subdivisions of section No. 9, in block 5, H. & G. N. Ry. Co. survey in Reeves County, Texas, and said addition and subdivisions are not included in an incorporated city or town.

Any person or persons interested in the above described lots and blocks are hereby commanded to appear before the Honorable Commissioners' Court of Reeves County, Texas, on the 12th day of July, A. D. 1920, at the court house in the town of Pecos City, in said county, then and there to protest, if they desire to do so, against such order.

Given under my hand and seal of the County Court at office in Pecos, Texas, this 16th day of June, A. D. 1920. (SEAL) S. C. VAUGHAN, Clerk County Court, Reeves County, Texas. By VANNIE INGLE, Deputy. 44-21

THE STATE OF TEXAS.

To the Sheriff or Any Constable of Reeves County, greeting:

You are hereby commanded to cite all persons interested in the estate of F. W. Johnson, deceased, to appear at the next regular term of the County Court of Reeves County, to be held at the court house thereof on the 22nd day of July, A. D. 1920, to contest, should they desire to do so, the appointment of W. D. Johnson, filed in said court, which will then and there be acted on; for the probate of the last will and testament of said F. W. Johnson, deceased, filed with said application, and for letters testamentary upon the estate of said F. W. Johnson, deceased.

Heads fall not, but have you before said court on said first day of the term of said court, this writ, with your return thereon showing how you have executed the same.

Given under my hand and seal of said court, at office in the city of Pecos, Texas, this 12th day of June, A. D. 1920. (SEAL) S. C. VAUGHAN, Clerk County Court, Reeves County. By VANNIE INGLE, Deputy. 44-21

160 Acres for Sale or Lease.

If reader is interested, see or address Mrs. J. I. Clare, Room 6, King Palace Hotel, 203 1-2 Main Street, Fort Worth, Texas. Phone L, 4173. 30-11

You had better buy those shoes while you can get them at big reductions at O. J. Green & Co. 43-21

Let us furnish your table; we furnish hundreds of the best homes in Reeves county; why not yours? O. J. Green & Co. 43-21

AN ORDINANCE

For the protection of Public Toilets, and to keep the same clean, decent and sanitary; and to prevent a penalty for the violation of said ordinance.

Be it ordained by the City Council of the Town of Pecos City: Article 1. It shall be unlawful for any person to place any effete matter, filth, dirt or urine upon the floor or walls of any public toilet within the corporate limits of the City of Pecos City, Texas; or to create any mal nuisance in or about any such public toilet; or to write anything upon the walls of any such public toilet containing any vulgar, indecent or obscene language or words, or draw or place thereon any vulgar or indecent pictures of any kind; or to place or deposit anything in or about any such public toilet that is objectionable, offensive or unsanitary; or to place any newspaper or any thick or heavy paper or any substance of any description whatsoever in any stall in any such public toilet, which paper or substance is calculated to or liable to stop up, clog, obstruct, injure or choke such stool or the pipe or sewer with which said stool is connected in any way to deface, damage or injure any such public toilet.

Art. 2. Any person violating any of the provisions of any of the ordinances hereinafter enacted, or guilty of a misdemeanor and upon conviction therefor shall be fined in any sum not less than Five Dollars nor more than One Hundred Dollars.

Art. 3. A public toilet, within the meaning of this ordinance, is any toilet within the corporate limits of the Town of Pecos City, Texas, which has been erected or located, or is to be erected, or which is owned, maintained or operated by the Town of Pecos City, or by Reeves county, or by said City and County jointly, for the benefit, use or convenience of the public.

Art. 4. This ordinance does not repeal any other ordinance or ordinance whatever relating to toilets, sewers, waterworks, language or sanitary rules and regulations, or by any ordinance relating to nuisances, but this ordinance is cumulative and additional to all such ordinances, rules and regulations.

Passed and approved this 8th day of June, A. D. 1920. Mayor of the Town of Pecos City. Attest: E. EASTERBROOK, City Secretary. 43-21

See Hayes for Oil Leases—1-acre tracts and up to 10,000. Write Postoffice Box 947, or phone 44, Pecos. 12-41

Clocks repaired. We have a man who will do your clock repairing promptly. Monroe Slack. 44-21

LADY LAURA LIMERICK Dear Sunshine: You're surely mistaken, My faith in Miss Laura's unshaken; I simply let loose Of some pent balloon juice Getting hungry some ducks to rake in.

For I've bet on the lady myself, And I'm sure she is worthy the pelf; But I let go the spurt With no intent to hurt, Nor with thought she was laid on the shelf.

I'm sure she will kick in some day As fair as the flowers in May; And if we don't rush her She'll pop in a gusher And wash all our troubles away.

So Sunshine, don't get me in wrong, With Miss Laura I wish to be strong, So when the great feast Spread for folks west and east Is held, I may join the gay throng. —T. R. S.

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BRUNO QUININE is better than any Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 30-

Essex Reveals True Economy Not Limited to But One Advantage

The question of motor car economy is not limited to gasoline mileage. It includes oil, tires and particularly repair costs. The Essex consumes no more gasoline than other cars of similar capacity. And it is a common remark of all owners that it requires hardly any oil. As for its tire economy, many reports are so remarkable that we repeat them only with the explanation that they are exceptional rather than average. One owner has a record of 29,600 miles on one set of tires that appear good for several thousand more miles of use. The repair requirements are so slight that it has given Essex a distinctive position among all cars.

"MORE GOODS FOR LESS MONEY"

TEXAS

REAL DRILLING FOR OIL

The Sunshine Oil Corporation announces the beginning of two more deep test wells in the Pecos field.

This company is now drilling three deep test wells in the Pecos field.

These are the Laura No. 1, the Leeman and the Victory.

Tinally No. 1 will be drilling within thirty days.

Laura No. 1 is about six miles north of Pecos; the Leeman is drilling in Loving County, northwest of Pecos; the Victory is drilling in Ward County, about twelve miles east of Pecos. Laura No. 2 will be drilled on Section 69, Block 4, immediately north of Pecos, and Tinally No. 1 will be drilled on Section 20, Block C-6, south of Pecos.

All will be deep test wells, drilling with fully equipped standard rigs, capable of drilling more than 4000 feet, and constitute a thorough test of the famed Pecos oil fields. The locations of these wells give an adequate idea of the vast acreage controlled in the Pecos field by the Sunshine Oil Corporation.

The Sunshine Corporation is the Pioneer Oil Company in the Pecos field. This company began the first deep test well ever started in this field. This well, the Laura, is now nearing the second oil sand and competent oil men believe it will be a producing well very shortly. The Laura is drilling night and day.

The company's two new wells, soon to be started, are fully equipped with steel crown blocks and steel shafts. They are among the best equipped drilling outfits ever erected in the State of Texas.

There is oil in the Pecos field, and the Sunshine Corporation is prepared to get it and will get it. Pecos is already a proven field, with flowing oil, and we have no doubt whatever of striking oceans of it when we have reached the deep sands with our five deep test wells. We prophecy, as do all experts, that Pecos will be the biggest oil field on the North American continent.

The development being done by this company is a conclusive evidence of our faith. If we have so much faith you will be justified in having at least some faith. Your faith, whether great or small, will bring you big returns on money put into Sunshine leases. We think you cannot possibly fail. If we win you will win, and we are certain that we shall win. Write us for information concerning leases. There is big money in Pecos for the men who put in with us. Fortunes have already been made; more and much larger fortunes remain to be made.
