

## CURRENT WEEK'S WORK OF THE LIVE OIL MEN IN THE FORT STOCKTON FIELD

The Pinal Dome Oil company, drilling with a standard rig on the Devlin ranch, section 208, Burleson survey, is still working in redbeds, with the hole down 1125 feet.

The Blackshere-Texas Oil company with a well going down on section 26, block 18, university lands, is drilling under direction of Ryan Ligon, is making hole very fast with the drill down in the neighborhood of 175 feet.

The Pinal Dome Oil company, drilling well No. 2—a shallow well—on the Devlin ranch, section 2, Burleson survey, is working in limestone at a depth of 278 feet. A strong showing of gas is being made in this hole and most encouraging indications of oil at no great depth. Water is shut off and the hole is in good shape for the continuance of drilling.

The Star-30 machine of Bower, Hale & Lamb & Findies arrived this week and is being hauled out to the location of the first well to be drilled by the company on block 592, T. C. F., survey northwest of the Mirabeau well four miles and in the immediate vicinity of a blow-out that makes the site look very favorable for oil.

The Bordner-Shannon Oil company, with a location on the Sherbino ranch, section 55, block C4, G. C. & F. survey, is going along with the drilling of its well in a most expeditious manner, with the hole down to the 200-foot level. H. N. Bordner, an old-timer in direct charge of the drilling is chock full of optimism and feels most certain that the company will bring in a well around the 1,600-foot level.

Bower, Hale & Lamb, drilling with a 30-star machine on section 24, block 26, university lands, just north of the Orient track, about 12 miles from Fort Stockton, started the setting of 10-inch casing to the 300-foot level Tuesday. With the setting of casing complete, bailing out the water will hold up drilling for a few days. Pat Lamb, the member of the firm in direct charge of the drilling, is crowding the work with all the energy and intelligence at his command.

The W. B. Troy well, being drilled by Dave Humphrey a mile east of the miracle well of the Grant Oil corporation, on section 20, block 140, T. & L. railway survey has been making more or less gas for the past week. The bailer, unfortunately, was lost Sunday afternoon, dropping from near the top to the bottom of the hole, 40 feet down, entailing a fishing job which stopped drilling for a time. The Troy well is beginning to look very fascinating to the eyes of the men who are giving close attention to the operations in the Fort Stockton field.

The Oregon-Texas is engaged in setting a new boiler this week and, concurrently, has two trucks busy hauling out about 800 feet of 12-1/2 inch casing which will be set at once. With boiler and casing in place drilling will be resumed and the work pushed more expeditiously, if that is possible, than at any time in the past. J. H. Christensen, the general manager and a member of the board of trustees is very well pleased with the possibilities attending the well. Speaking of the Grant shallow wells, Christensen said: "You can take from me that the well No. 4 is sure setting out some oil. I know that to be a fact for one of our truck drivers hauled forty barrels of fuel oil and set it in our tanks yesterday."

R. S. Badeley came in from Chambliss, Ill., the first of the week. Mr. Badeley has been directly interested in oil development work in the Fort Stockton field, almost from the very beginning of activities and, in connection with J. W. Grant, the manager of the Grant Oil corporation,

controls thirty-two sections in block 10, H. & G. N. railway survey. Mr. Badeley anticipates the starting of active drilling operations on a location in block 10, soon to be determined. He is, happily, one of the strong men, financially, identified with the Fort Stockton field and, it is most pleasing to note, has full faith in the field, which he is persuaded is going to prove up as good as expected by the most ardent optimist.—Pioneer.

## NATIONAL PETROLNM DEVELOPERS MEET

The regular semi-monthly meeting was held at the Oil King Grill Saturday night just after a big feed at that popular eating house.

President J. Van Clark occupied the chair and Secretary B. G. O'Reilly and his assistant Edmund O. Brook being in their places.

The meeting was an enthusiastic one and discussions full and free. It was the consensus of opinion that each member of the organization is entitled to and shall have access to the logs of the various wells when it will in any way help him in his drilling operations, and it was so voted.

It was set out clearly and without equivocation of doubt that the National Petroleum Developers intend to see that their members send out advertising matter which will bear the acid test as to truth and that which can be proven when parties are brought to Pecos thereby. In other words they must have the goods and be able to "show them."

A set of Magnet fishing tools was ordered constructed by the operators by which it is hoped to clear the wells of any iron, steel or other metal which may in any manner have gotten in the hole. These tools are to be the property of the organization and can be used by any member in need of it.

The next meeting will be at the Oil King Grill, on the 26th instant, at 7 o'clock instead of 8 o'clock, as heretofore.

## OIL SAND FOUND AT LAKE ARTHUR

J. C. Wade who operates the stage line between here and Roswell, informs us that the National Exploration company's well at Lake Arthur is showing some very promising signs of becoming a good producer when the artesian water is cased off so as to give the oil a chance to be saved.

Day before yesterday at three o'clock, the water, sand and oil was coming to the surface with a pressure of at least 700 pounds and the large volume of water was showing that oil in the forms of rainbows. The drillers encountered and penetrated 20 feet of pure Pennsylvanian sand when this oil was discovered and they are now busy trying to case off the water. It is said it will take about three weeks for this to be accomplished and no one knows just how much oil has been found until the water has been cased off. This well is 2 miles north east of Lake Arthur.—Carlsbad Current.

## CAPITALISTS LOOK OVER PECOS OIL AND LAND SITUATION

Carl Tennis, vice-president of the State Savings Bank of Sioux City, Ia. and Ted. A. Hogg representing the Western Syndicate, Ltd., of Denver, Colo., accompanied by J. W. Lutz of Buena Vista, Tex., were here for a few days this week. They came in from Fort Stockton where they investigated the oil situation. They were here to look over the Pecos oil fields and to investigate the irrigated land situation. These gentlemen are visiting the Pecos Valley in the interest of Iowa and Colorado capitalists. They left yesterday and the results of their visit is not yet known.

## LOCAL FIRM DOING BIG BUSINESS

On Wednesday of this week the O. J. Green Mercantile sent out to the Toyah Creek country three truck and two trailer loads of groceries and feed.

Since putting on a free delivery to Toyah Creek and Toyah this establishment reports a very satisfactory increase in business.

This proves that a little amount of energy and advertising will do. The merchant who works on the theory that "everybody knows me" is courting bankruptcy. You should not

forget the fact that "everybody" knows the mail order houses just as well as he does you and that they are constantly going after "everybody" with strong, forceful, business getting advertising.

## CATTLE SALE

H. F. Anthony, the hustling stock man purchased last week from Reeves county ranchmen for Port Doggett of Fort Worth, eight cars of calves which were shipped to Fort Worth Saturday. The average price paid was in the neighborhood of \$25.00 the following were the parties selling: Oates Bros., three cars; Frances Popham, three cars; Hubert Honaker, one car; Stuckler & Wright, one car.

## STRATTON WELL IN WARD COUNTY SPURRED IN LAST SATURDAY AT 4 P. M.

The following article with the cut of derrick and rig furnished the Enterprise by Mr. Stratton will be found interesting reading as it will give readers an idea not only of the character of machinery being used but of the country which is being exploited.

Without any previous announcement M. M. Garvin, the man who brought in the Bell Discovery Well that caused one of the biggest stampedes in Texas Oil History to this city, started the machinery and the massive drill bit and drill stem, weighing in the aggregate three and one-half tons, commenced pounding its way to the liquid gold believed to lie below. The start was made in the presence of the drilling crew, Mr. and Mrs. Stratton, their son and a lone cow puncher who happened to be riding by and stopped for a visit. The drill for the present will run by daylight hours only and up to the time of going to press had eaten its way 80 feet into the earth.

The history of this well, that is the incident leading up to its location, prove unusually interesting reading and the several geologists who investigated the vicinity for the promoters of this enterprise prophesied wonderful things for it. Dr. R. M. Holden of New York City, the locating geologist, said it was on the very apex of a huge anticline that ran to the South where the Pinal Dome, a strong California producing company are now drilling, and that seeps from that anticline would be developed by the Grant people who were drilling eight miles to east. He further stated that the Permian rock would be reached probably from 50 to 100 feet but the drill found that formation at ten feet and the management of the well are jubilant over that fact for it proves that the well is located correctly at a point where the uplift was the greatest. Dr. Holden's success in foretelling the Grand find and his location, as above ex-

plained, would indicate that he was also correct when he stated that a big oil sand would be developed at 900 feet that was capable of being developed into one of the greatest oil fields of Texas. Dr. Hugh H. Tucker worked out the vicinity later in the interest of Brooks & Turner, who planned at that time to drill a well near-by and Dr. Tucker's findings harmonized with those of Dr. Holden. Fourteen years previous a California geologist went over the land and predicted that it would ultimately develop into a big oil field and that if the owner would drill an oil well then he "would make more money in 60 days in the oil business than he would in 60 years in the cow business," but the cow man of that date was afraid of oil as it spoiled the water for stock drinking purposes. Last year Charley Houghton and W. W. Hubbard took "Doodle Bug Smith" over the ground and as they expressed it, "turned him loose." He rapidly traced the structure and mapped out the oil pool practically as described by Dr. Holden. Each of these men, working alone and without the knowledge of then or since, that any others had geologized the vicinity, arrived at the same conclusions and located the most favorable drilling spot within 200 yards of each other.

The machinery is complete, of the heaviest and best makes, and it is claimed for it that no better outfit was ever installed in any oil field. Driller Wolf of the Toyah-Bell No. 2, loaned Mr. Garvin two of his best men for a few days in getting the machinery ready to work and they, as well as the numerous visitors to the well since it started up are loud in their praise of the entire equipment. Regardless of the favorable geological predictions made by the men named above, Mr. Stratton thought best to start work with an outfit capable of going to any desired depth so that lower sands also might be successfully developed.

## DRILLING IN PECOS OIL FIELD GOES ON AND SHOWINGS GOOD

The oil situation in the Pecos fields looks very encouraging as The Enterprise goes to press this week. At least two wells and maybe four will be at a depth next week, provided nothing occurs to prevent the hole being made which is believed will prove an expected oil sand and it is not altogether improbable that The Enterprise will come out some time next week announcing the bringing in of at least one of these wells.

Mr. Willoughby, in town this morning reports Toyah-Bell No. 2 drilling steadily at 2580 feet in a Pennsylvania formation. Mr. Willoughby is very generous but the company are refraining from making any statements and prospects justify a continuation of drilling. C. V. Potterton of Hayer, New Mexico, is here the guest of Mr. and Mrs. C. H. Willoughby and says he is more than pleased with his investment.

At the Trans-Pecos well on section 206, block 341, Ward county, the crew are trying hard to get down to the pay sand. The men are practical oil field workers of many years experience in Kansas, Oklahoma and Texas and thoroughly understand their business. This well is a short distance from the Soda Lake well of the Arthur-Pitts Oil Co., of Texas, which well has an exceptionally good showing. These wells may be brought in at any time and our people are watching their development with much interest.

The repair parts for the Rotary drive of the Los-Pecos syndicate arrived Tuesday by express and drilling was resumed yesterday when they had reached a depth of 565 feet. The Okell core barrel arrived yesterday from Los Angeles, and was sent to the well. Arch Bell, Manager, says they expect to make faster speed now as this core barrel will show exactly what is being drilled through, it being long enough to take seven feet of cutting as they lay in the ground.

The Laura well is being pushed down to pay sand as rapidly as the night and day forces can push the work. The water has been completely shut off and it is believed they are now drilling in cap rock with very encouraging showing.

The Bell-Reeves is said to be about ready to be brought in and reports are current on the streets that it may come in tomorrow, but The Enterprise thinks this hardly probable.

Work is going along satisfactorily in other wells so it is reported, but The Enterprise has had no word from the operators.

The Ellsworth-Reid Norma E. well near the West wells in Reeves county and being drilled near where water wells were drilled several years ago and on which oil showed in quantities sufficient at least for use on windmills in the neighborhood, was drilling at 145 feet Wednesday in hard rock and sand. They have had to use no casing up to this depth and have been making splendid time. Mr. Ellsworth has contracted for another hole which will be drilled with the same Armstrong rig as soon as this well is completed.

President Alfred Tinally of the Sunshine Oil Corporation, came in from Los Angeles, California Thursday morning and says he has come to see the Laura well brought in a producer and expects to remain in Pecos until it is unless some unforeseen something prevents. He is looking unusually well himself and states that his family are all very well. Accompanying Mr. Tinally were Major Brady and Mr. De Pascal, both interested in the Sunshine Oil Corporation.

Mr. Tinally is sure the Laura will now be brought in in a very short time and says that when it does come in there will be as soon as the trains can bring them at least 5,000 Los Angelans in Pecos. He also states that Pecos is not the only place to feel the depression which is now sweeping the country but that California is even harder hit than this country.

Mr. Tinally is the real pioneer in the Pecos Oil field where he has spent much time and money and The Enterprise is

sincere in the hope that the Laura well will come in a real gusher in the next few weeks and that he may realize his fondest hopes and not only regain the money spent here but may be able to gain a million or so besides. He is a big, generous and congenial fellow and one of the very liveliest one Pecos has ever had.

## KNIGHTS OF PYTHIAS TO ENTERTAIN

There will be a banquet held at the Court House on Saturday night in celebration of the 57th anniversary of the founding of the order of The Knights of Pythias. Pecos Lodge 388 hold this celebration yearly. Prominent speakers are expected to entertain the Knights, their wives and sweethearts. Music will be furnished by Mrs. Lucile Leeman, piano, and Richard Lynn, violin. There will be several presentations made of solid gold jewels to veterans of the order. Knights who have been members of the order for twenty-five consecutive years are in line for these remembrances. There are about nine such members in the local lodge. Invitations have been extended to Knights at Toyah and vicinity and it is expected there will be a large attendance.

## AMERICAN LEGION ENTERTAINS

The American Legion Social program was appropriately opened at the new club rooms of the Richard Briscoe Club in the Mathis Building on Tuesday night when members of the post and their lady friends enjoyed an evening at forty two. There were about forty present.

A lunch was served during the evening. It is the plan of the post to hold weekly gatherings during the winter season, and to invite the ladies to a number of these affairs. Some slight rearrangements in the building are now being completed before the rooms are in the condition desired by the boys. The post now has a paid up membership for 1921 of about 25, but is hopeful of greatly increasing this number.

## THE LIGHT PLANT SITUATION

Mr. M. N. Erlinbach, of the Pecos Light and Power Co., is busy installing meters in the residences. He recites quite a varied experience with some of our people who mistake him for a book agent. Some of the residents jump on him about the rate of 5 cents per light. He tries to convince them the rates will be the same as charged by the old company, but they say they read "5 cents per light in The Enterprise, and what The Enterprise says is so." The five cent rate is for the street lights only.

Mr. M. N. Erlinbach left for El Paso yesterday to hurry up the equipment necessary for the plant, and when a boring bar is received, it will only be a week or so before the plant will serve the subscribers at night only, for a while. It will be about six weeks before both night and day service will be inaugurated and the plant will commence manufacturing ice.

The dilapidated, soiled and tattered condition of the silk shirt in the bread lines of our large cities reflects the passing of the wearer's short course of affluence and imprudence. As long as it holds together and its loud stripes and vulgar colors still retain traces of its poistine magnificence, he indignantly spurns the free labor beaureau's offer of \$2.50 per day and board. He boasts of having received one hundred bucks per week as a spotter, at a munition factory, and overalls and honest labor at less wages would be more humiliating to him than the bread line. Sic transit gloria mundi.

"Who buys your product?" No matter if you are a farmer selling crops, a worker in a factory, mine, railroad, store, etc., selling your labor—somebody else must buy what you have to sell OR YOU LOSE.

Who is that buyer but YOURSELVES?

Who buys your product?

How can you keep working unless you keep on buying?

You can't.

Keep on buying what you need now—or the man who would buy the things you depend on for a living cannot buy. Each helps the other.

No man ever became strong through fasting. No store ever increased its sales by suspending advertising. Advertising is like food. It makes a business grow. And NEWSPAPER advertising is the roast beef of advertising mediums. What about your store's advertising menu? More advertising "food" will make your business healthier and more prosperous.

## DOCTRINE OF BUY IT NOW SUCCEEDS

Campaign Makes Headway in Dallas and Other Parts of Country.

The persistent efforts of the managers in hammering home the ideas of the "Buy It Now" movement are meeting with gratifying success, both locally and in other sections of the State, according to I. I. Lorch, local director of the drive.

"The campaign is making continued headway, not only among the merchants of this city, but the stream of inquiries and telegrams received from other cities of Texas is proof conclusive of the soundness of the doctrine being preached to the public through the medium of the advertising with which the city and the State are being blanketed," Mr. Lorch said Saturday.

Private individuals and business firms are daily asking for supplies of advertising with which to collaborate in the movement. The realization that business will be greatly stabilized and inactive plants revived and put back to work by the same policy of buying now, is circulating among the people.

### Series Advertising.

Today the series of advertising posters, street car ads and window and door signs will convey the sentiment of the campaign with the following slogan: "Your money keeps the wheels of progress turning. Buy what you need now."

The advertising has been run in consecutive order, each day a new series of slogans being released from the headquarters.

The consensus of opinion gleaned from many conversations with local business and professional men, bankers and politicians, indorses the movement without reservation and expresses the belief that if the campaign be waged on a sufficiently expansive scale it will be an effective means of converting a dull spring season into a normal one.

Business men as a whole say that the public has not only abandoned the "buying strike" which crippled business for quite a while in the latter part of 1920, but has substituted therefor an indifference to buying that has been the cause of numerous factories closing down. The public has ceased to buy in the hopes that

prices will be lowered. This policy is declared a false one by the majority of local dealers, both retail and wholesale. It prevents a sufficient circulation of ready money, causes an unnatural business depression and closes down manufacturing plants. The effect is an indirect reflection on the business man as well as the customers. The boomerang effect of the policy of waiting for lower prices instead of buying now is thus pointed out by business men and leaders of the "Buy It Now" movement.

### Will Prevent Breadlines.

Some business men who refused to permit their names to be used were frank in their discussions of results that would occur if the public persisted in delaying its purchases. They called a spade a spade and said the drive was designed to prevent a recurrence of bread lines and soup kitchens which made their appearance in other dull seasons. The fact that unemployment did not start until the public began to defer its buying was pointed out by Mr. Lorch. He declared there was no way to open the factories unless the public provided the necessary means to that end by buying the products manufactured by the plants.

Artists who assisted in designing the posters for the Red Cross and Liberty Loan drives have been enlisted in preparing advertising matter for this drive.

The motives of the campaign have been indorsed by leading business houses, the Chamber of Commerce and private individuals.—Dallas News.

## FORWARD, NOW TOGETHER

The time has come for all of us in America to move forward—unitedly and with determination—into an era of sound prosperity.

We are due to come into our own now is none too soon.

We must make up our minds to go ahead—flash this signal all along the line.

The way is open if our will is strong.

The wheels of industry will turn in response to our command, expressed in terms of action.

It is up to you, to all of us, to say the right word and do the right thing to stabilize business. Stability waits on activity plus faith that all is well—faith in ourselves, in one another, in business.

Faith is the very foundation of prosperity. Make it the cornerstone of your thinking and of your action.

Today, let us start putting our shoulders to the wheel, all together. Let us work a little more, think a little harder, buy without foreboding—and sell with a conscience. We must keep a clear eye out for the other fellow's interest as well as our own.

The one rule which assures a full measure of prosperity is the Golden Rule. It is simple, sure, safe. Work this rule and let it rule your work.

Some say there has been a breaking down of faith by the recent scramble to "get while the getting is good." Even if that is so, we must dismiss from our minds that phase of reaction from war endeavors and declare for new, high standards.

Nothing tangible is holding us back. The fundamental factors making for prosperity are all favorable.

At heart American business is solid. At heart American men and women are courageous.

We must show the world, each

other, ourselves, what American spirit really means.

Forward, now, together, confidently!

A message from the Associated Advertising Clubs of the World.

## ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy in boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Two negro porters in a barber shop were commenting on the fact that in their opinion members of their race stand a good chance of getting political appointments. The leader was interrogated by his companion: "Jim who did you vote for, for President?" Jim replied, "Why for the man who was elected, Mr. Hardin, who do you suppose I voted for?" The other negro said, "Well I voted for Mr. Hardin too, but the White Folks had a candidate also."

## A Tonic For Women

"I was hardly able to drag, I was so weakened," writes Mrs. W. F. Ray, of Easley, S. C. "The doctor treated me for about two months, still I didn't get any better. I had a large family and felt I surely must do something to enable me to take care of my little ones. I had heard of

## CARDUI The Woman's Tonic

"I decided to try it," continues Mrs. Ray . . . "I took eight bottles in all . . . I regained my strength and have had no more trouble with womanly weakness. I have ten children and am able to do all my housework and a lot of outdoors . . . I can sure recommend Cardui."

Take Cardui today. It may be just what you need. At all druggists.

**EXCAVATIONS SHOW EARLY CIVILIZATION**

Expedition Is Made In New Mexico By Leading Scientists.

Santa Fe, N. M., Feb. 12.—When Europe was plunging through the terrors of the middle ages and along about the time Attila, the Hun, was ravaging the civilization of Rome, another civilization of a different type was in a fairly well perfected state in Western North America. The center of this civilization as well as center of trade and commerce was Pecos, N. M., about twenty-five miles east of Santa Fe.

This was determined definitely, according to Dr. A. V. Kidder, by excavations conducted by himself and assistants last summer. Dr. Kidder was aided by Dr. E. A. Hooton, a specialist in physical anthropology and Dr. Carl E. Guthe, who had just returned from his exploration among the Mayos in Central America.

The scientists opened more than 300 graves and examined some 1,000 skeletons. Homes had been built upon ruins of previous habitations and the bodies of the dead buried in the ruins had increased to such an extent that the Indians of Pecos, some eighty years ago, deserted their thousand-year-old city and moved to Jemez because the waters had become contaminated.

**Preserved Cliff Dwellings**  
Cliff dwellings of a thousand rooms, well preserved specimens of the past civilization and unusual examples of early day pottery and household utensils were recovered, according to the report on the excavations recently made public. Castenada, the chronicler of Coro-

nod's explorations 380 years ago, mentions but one pueblo at Pecos, obviously the north house. Excavations last summer showed that there had been a pueblo at an early period, on the site of the south house, which had been abandoned and reduced to a mere heap of ruins before the coming of the Spaniards. In the interior of the mound there was uncovered one ground floor chamber in excellent preservation. Its roof was almost intact; from the beams still hung the dark loops that had been used to suspend goods of the owners and on one smokeblackened log are a series of handprints, large and small slapped on in white wash.

To explore the extensive north house, which originally must have had more than a thousand rooms, and walls of which still stand almost three stories high, trenches were started simultaneously at the east entrance and the west edge of the mesa. The western trench was run along bed rock and after passing through burials four feet deep, encountered the foundation walls of an early building, the presence of which had been suspected. This was cut through and the trench struck a large oval pit which proved to be a treasure house fifteen feet deep, ten feet wide and twenty feet long, built in a natural crevice in the mesa. About its edge was a neatly made coping wall two feet high and it resembled somewhat the cenotes at Chichen Itza and elsewhere in the Maya field in Yucatan. The cistern yielded an unusually full and unmixed collection of artifacts and pottery from the earliest times to the Pajaritan or Fourth Glaze period. When the cistern was cleared it was bridged over and the trench was continued. Another zone of skeletons was discovered and some of the best pottery thus far found was taken from the graves.

In another trench ruins were encountered similar to those of the prehistoric walls of the palace of governors at Santa Fe, built long before the coming of the Spaniards. The similarity was traced to the ruins upon which the Santa Fe, structure had been constructed and which had been built by Ornate or his successor in 1608.

Other trenches revealed a large series of cooking jars painted oiled and one nest of ceremonial pots wedged between rocks and yet quite undamaged. With these were many handsome shell ornaments, two sets of bone flutes, two very large tobacco pipes, one of them elaborately carved, thirty-six buffalo horns, part of a wooden dance headdress and many specimens.

**Ruins Encountered.**  
In one place were found two underground knives or ceremonial chambers. Both were built in the earliest time, about the beginning of the Christian era, one of them later serving as a burial place.

By careful observation of the stratified fillings in the lower part of the rooms, co-ordinated with an intensive study of the successive incre-

ments of masonry that had gone into their construction, Dr. Guthe had been able to work out and record by plans and elevations the exact history of the growth of this section of the pueblo from the foundation of the town, perhaps 2,000 years ago down to the time of its abandonment about eighty years ago. Pecos apparently is the longest continuously inhabited city of the American continent.

The Museum of New Mexico owns the site excavated.—Dallas News.

**UNDERREAMER WON'T LOSE LUGS**

Well Drillers A. J. Tulles and E. G. Adams, who had a six-month's tediously monotonous job fishing for underreamer lugs in the Midland, got so sick and tired of their many abortive attempts to bring the lost lugs to the surface from a depth of over 1700 feet, that they put their ingenious heads together and devised an underreamer that can't drop lugs off into a well.

They have applied for a patent on their invention, which they have practically tried out and found to make good every time. In addition to being non-loseable, the lugs, which are in two sizes, are interchangeable. A ten-inch stem lug can be used on a twelve-inch stem, and a six-inch on an eight-inch stem.

As lost lugs in a hole are the most tiresome things to fish for, their invention will, if it practically comes up to their expectation, be snapped up by drillers everywhere, and ought to net the inventors a handsome little fortune.—Baird Star.

**LIFT CORNS OR CALLUSES OFF**

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone ointment but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet the skin beneath is left pink and healthy and never sore, tender or irritated.

**Give Your Children a Chance**

Of course you want your children to have a better chance than you had—every good father does. You want your daughters to marry well and you want your sons to have enough capital and sufficient education to begin their farming careers almost at the point you have reached after years of toil.

Many a farmer has found in pure-breds the solution for the two outstanding problems—how to keep the children contented with farm life, and how to start them out so that they are bound to achieve success.

One Ohio farmer's plan is typical. When his eldest son was 12 years old he went to the bank and borrowed \$350 to buy a registered bull and two registered heifers. In eight years this investment has grown into a pure-bred herd which has provided schooling for three children, a comfortable home for the family and a permanent, prosperous business for himself and the boys. "I didn't have to beg the youngsters to stay on the farm," the father says, "they got to liking the cattle." Pure-breds do

keep the children on the farm; they do make farming a profession worth following.

Doubtless you started with scrubs—maybe you haven't even yet overcome this handicap to success. Let your children start with pure-breds—they deserve it. And let them start, too, with that great service weekly which has contributed so much to the cattle-raising industry—THE COUNTRY GENTLEMAN. Just \$1.00 buys 52 helpful issues. Use the coupon below—today.

Foreign Advertising Representative  
THE AMERICAN PRESS ASSOCIATION

In building the splendid community in Alpine and Brewster county the Avalanche wants a hand. It wants to pull, not retard. A newspaper in any community is an asset along with the churches and schools. Its columns reflect the energy, the enterprise and push of its community. It speaks longer, louder and more persistently than could a hundred orators from as many platforms. It gives far more than it receives, knowingly and willingly gives it. It carries its messages into the outside world, it is the hand that stirs the waters and makes their healing qualities possible. The Avalanche pleads for a chance to help in bringing to the world a picture of the greatness of this section of this great state.—Avalanche

The cattlemen of this country—have suffered more in actual loss than any other set of producers, and to you as a Cattle Raiser, Ranchman, Farmer the question is asked, "What are you going to do to better your condition?"

All such questions are going to be dealt with during the Buyers and Sellers Convention which is to be held in Amarillo on February 22-23-24, 1921. By means of co-operation, the proper application of the force of the Buyers and Sellers Livestock Association you may hope for and anticipate a prosperous year during 1921, but the destinies of your business, as far as they can be worked out by your Association, will be largely guided by the amount of interest manifested by each member, and it becomes your duty, as a member, to lend your support and presence.

### PECOS NOW, AND THEN

That a definite reduction in the cost of living will be in operation for several years is the prediction of the best informed business interests. Investment authorities claim this will be more noticeable in the next three or four months, and declining price and wages will mean an increased purchasing power of the dollar. The farmer, merchants and manufacturers are suffering from the collapsing values. There are no predictions, and experts' food prices do not believe the downward tendency will ever reach the pre-war figures. The consumer would welcome the announcement of the retailer which would reflect the wholesale prices, but the retailer meets the situation with the plea that he cannot be expected to reduce as long as he is obliged to pay \$2.00 in wages when he used to pay one dollar for the same amount of labor. Increased rent and overhead expenses attack him in the same ratio and the consumer can expect rack bottom prices when the rent and wage question is more equitably adjusted.

The consumer is suffering from the cost of clothing, shoes and dry goods, and the display tag in the windows which announces "was \$12.00 now \$4.98" does not favorably appeal to the intelligent buyer. It more than likely creates a suspicion of past attempted profiteering. The retailer will always be the price guide of industry, and the Reeves county consumer shows an undisguised appreciation for the weekly publication and distribution of price lists of food and other articles by two of our prominent merchants. These price lists printed by The Enterprise are studied with as much care and diligence as the weekly Sunday school lesson. The first price list was published in March 1916, a very small schedule, compared with the present weekly editions.

A comparison of a few prices for the year 1916 and now may be interesting to our readers. Potatoes can be bought at retail today cheaper than in 1916. Sugar sold in 1920 at retail for 27 cents, now 10 cents per lbs. 100 lbs of best flour, 1916, \$6.50, now \$5.00. The wholesale price of flour jumped from \$2.00 per hundred in 1914 to \$7.50 in 1920. Swifts premium bacon 1916, 21 cents, 1921, 36 cents. Pink beans 15 lbs. for a dollar, in 1916, 1920, 10 lbs, 1921, 12 lbs. Arbuckles coffee, 19 cents in 1916 25 cents now Premium Hams 1916, 21 cents; 1920, 38 cents; 1921, 36 cents; 5 gals Col Oil, 1916, 70 cents; 1920, \$1.20; now 85 cents. Lard 1916, 14-12 cents, now 30 cents. Hogs were quoted on the Pecos Worth market this week at from \$7-

50 to \$9.40 per 100 lbs., on the hoof. A hog will dress out about two thirds of its live weight in marketable meat and the packer receives an additional income from by-products. Every part is utilized except the squeal. The blood is congealed and pressed into jet jewelry and novelties.

## PULLING CASING AT BRYANT NO. ONE

### SALVAGE ORDER CAME THIS WEEK AND WORK IS UNDER WAY

It would be a long, long dream that never had an ending, now wouldn't it? Midland people, and a lot of The Reporter's readers in all sections of the country, from San Francisco to New York, have been dreaming for almost two years about Bryant No. 1, Midland's defunct oil test nine miles south, becoming an oil gusher, a gusher, or what not, but it seems to be all over now. Our dream has faded and died, our oil bubble has busted, and we can't see an oil rush this way with a spy glass, for this week an order came to Driller Tennant to pull already under way, we understand, the casing and salvage all he could, and the work of destroying our hopes is already under way, we understand.

We had great hopes last week that this was not to be. It was up to Midland people to keep the test going, and it was thought that we'd do it, but we didn't. At meetings of the Chamber of Commerce it was voted that we offer the West Texas Oil Corporation no inducement, no help in going further with the test, and so their decision was to abandon the project, and there you are.

We now can only watch the progress at Big Spring and Pecos. An assured field at either or both of these places will renew the interest at Midland. Also a test is soon to start on the Wolcott ranch 25 miles north of Midland, with S. E. J. Cox behind it, and we have no doubt but what it will be thorough. Already much material is on the ground, a forfeit of \$5000 has been put up, and Cox is said to be a stem-winding hustler.

So what's the use to fume? We've got just about the best country on earth, without any oil. Then, too, the financial tone all over the country is optimistic; optimism is the keynote in all business circles, and when times are good, we'll tell the world you can't keep Midland out of her share of the jake.

Of course, we'd like it if Midland could have hurried up with an oil rush, a sure enough one. We'd like to have led other towns in a bonanza of the sort, but we've dreamed dreams before, and are no worse for the dreaming.

No, we don't now expect any more oil activities in the immediate vicinity of Midland, not soon; not, as a matter of fact, until Big Spring or Pecos have their dreams come true.—Midland Reporter.

Brother Watson is a hum dinger on optomist of the first class and a logician seldom encountered in the newspaper game. He's right, is always right for that matter. He occasionally gets the blues, but when he does, under similar circumstances, the other fellow would have fits. Just hold tight, Bro. Watson and you'll not have to wait long before you are reaping the reward for your efforts. You are right, Midland and the Entire West Texas have seen worse times and have recovered and recovered quickly. Without oil wells we have the best country on the face of the earth. With them no man can expand his mind sufficiently to grasp the good things in-store for her. Pecos will shortly bring in one gusher after another until the world will stop and take notice, then the grouch will disappear and West Texas will come into her own.

## INDIGESTION OR UPSET STOMACH

"Pape's Diapepsin" is the quickest, surest relief for Indigestion, Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only a few cents at drug store. Millions helped every day.

## NEBRASKAN FOUND DEAD--HAD 50 DOGS 37 CATS

Swan, Neb., Feb. 12.—When Silas Breen, 68, bachelor farmer, failed to appear at the postoffice for his mail for a few weeks neighbors investigated.

Breen's body was found in his home practically eaten away by the cats and dogs which he had kept. He died of smallpox. Among the animals found about the place were eleven small poodles, one dachshund, three water spaniels, one St. Bernard, eleven bulldogs, three Scotch collies, five airedales and sixteen mongrels. A total of 50 dogs, 37 cats, a cellar infested with white mice, the remains of a dozen canary cages, several broken bowls of goldfish and a barnyard of animals dying of starvation were among the effects of the dead man.

Breen had not been known as a recluse and had appeared normal in every respect. He had few visitors and thus his peculiar hobby of collecting animals was unknown.

In his writing desk was found an envelope containing \$4500 in bills and a note asking that his animals be provided for in case of his death until a home could be found for them.

Breen came to Holt county, Neb., many years ago. His wife ran away with another man. He married again, but his second wife died during the honeymoon and Breen returned to his ranch.

He was born and spent his boyhood days on a farm near LaSalle, Ill. Ten years ago he made a third attempt at matrimony. With the birth of a son, who died in infancy, the woman became an invalid and Breen spent all of a good fortune on her, but she died.

## WATER FOR YOUR STORAGE BATTERY

Water is as necessary to Battery life, as it is to plant life. The water should be distilled and not rain water and it should be put in regularly, at least once every two years. You can easily put this water in, but I will gladly do it, if you prefer. I am also equipped to recharge and repair any make Battery. I carry a complete line of Willard Battery parts, Rental Batteries and Willard Threaded Rubber Batteries. Threaded Rubber Insulation outlast the battery plates. It will not check, warp, crack or carbonize. It prevents "bone dry" shipment and stocking of Batteries, so that the battery reaches you in a new condition. Wood Insulated Batteries are filled with acid before leaving factory, Batteries standing in stock with acid in, deteriorate same as in use. The Willard Threaded Battery is the only battery that can be shipped and stocked absolutely "bone dry;" no deterioration. Buy this brand and you will get the only battery that is free from the familiar wood separator trouble, expensive replacement, carbonizing, perforating, checking and cracking. Willard Threaded Rubber Batteries are standard on 172 makes of motor cars and trucks and on export models of two others. Since the first of the year Willard Batteries have been sold on a new price level. The same Willard quality backed by the same authorized Willard Service.—Pecos Battery Co., Phone 303. 1t.

### NOTICE IN BANKRUPTCY.

In the District Court of the United States for the Western District of Texas, No. 33 in Bankruptcy.

IN THE MATTER OF GEORGE WASHINGTON STANCLIFF, BANKRUPT.

To the creditors of George Washington Stancliff, Bankrupt:

Notice is hereby given that on the 10th day of February, 1921, George Washington Stancliff was duly adjudged a bankrupt and that the first meeting of his creditors will be held at my office over The First National Bank in Pecos, in Reeves county here within said district on the 3rd day of March, 1921, at 10 o'clock A. M., at which time the creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before such meeting. This the 11th day of February, 1921.

BEN RANDALS, Referee in Bankruptcy.

## "CASCARETS" FOR CONSTIPATION

Just think! A pleasant, harmless Cascaret works while you sleep and has your liver active, head clear, stomach sweet and bowels moving as regular as a clock by morning. No griping or inconvenience. 10, 25, or 50 cent boxes. Children love this candy cathartic too.

Insurance rates on dwellings and contents advance March 1st, See W. Dean, Insurance. 26-tf.

Habitual Constipation Cured in 14 to 21 Days

LAX-FOS WITH PEPSIN is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but does not take regularly for 14 to 21 days to induce regular action. It stimulates and refreshes. Very Pleasant to Take. 60c per bottle.

## PICNIC OF TOYAH VALLEY FARMERS

The benefits of co-operative marketing under the state plan were explained to the farmers of the Toyah Valley at Saragosa on Tuesday by Sarn H. Dixon head of the State Department of Markets and Warehouses.

Mr. Dixon's plan is for the farmers to pool their crops and offer them on the market in big lots through the State Bureau, thus getting the higher prices that would be paid by the retail distributor or manufacturer instead of allowing their products to be handled by a number of middlemen and paying the profits which these men exact.

"The only way for this plan to work is for the farmer not to have a bale of hay, or a bale of cotton for sale, declared Mr. Dixon. If each farmer refuses to sell to the hay or cotton buyer in small lots, and the man next door to him also refuses to sell, the buyer must pay the highest market price. But if the man next door will sell when you refuse the price offered by the buyer, that price will rule in the local market. The only answer to the problem is organization. You must organize to pool your products and give the authority to sell them at the highest market price possible."

Mr. Dixon explained similar marketing systems now in vogue among the fruit growers of California, among the sugar cane raisers of Georgia, and the sweet potato growers of Virginia. He described the conditions in these districts before the organizations were made, and the market was glutted with the products and the local prices went to below cost of raising. Organizations were perfected, a marketing system put in operation and he declared that today more products are being raised, and that a ready market at a good price had for all the products.

"You cannot go into any of these communities and buy a sweet potato, any sugar syrup or fruit from the growers," declared Mr. Dixon. The grower may give you some of his products, but the only place you can buy them is at the warehouse and at a price thoroughly satisfactory to the organization."

Mr. Dixon quoted a number of instances where the State Bureau had secured higher prices for the products than was offered on the local markets. "We cannot help the individual," he declared. "We cannot get better prices on a few bales of hay or cotton, but can get a better price for a bigger quantity. If you farmers will pool your stuff you will save the expense incident to the pooling of it by the buyer, and you will get the better price."

Mr. Dixon was accompanied on his trip here by J. L. McConkie of Wichita Falls, president of the State Farmer's Union. Mr. McConkie was not feeling in the best of health on Tuesday and did not make a talk, but remained over in the Valley during the week, and was to address a gathering of farmers at the school house at Saragosa Friday night.

W. H. Browning, Jr., president of the Chamber of Commerce, and Walter N. Sutherland, secretary, who were with a delegation of Pecos business men who attended the meeting, gave short talks on the subject of co-operative marketing.

The Pecos business men were guests of the housewives of the Saragosa district at the meeting and enjoyed a dinner of fried chicken and everything that a farm housewife knows so well how to prepare. There were several hundred at the gathering, which was an all day affair. Short programs were had in the morning and afternoon, J. W. B. Williams, vice-president of the Toyah Valley Farmer's Union presiding. A. C. Bain, manager of the Toyah Valley Market and Warehouse Co., of Pecos, also spoke of the plan of his concern, and offered its facilities to the farmers in their scheme for co-operative marketing.

Among the Pecos people attending the meeting were: T. B. Prueitt, Sully Vaughan, Rev. Fred B. Faust, I. J. Sims, Mr. and Mrs. W. W. Dean, Mrs. B. R. Stine, Mr. and Mrs. A. C. Bain, Rev. Mathews, R. E. Williams, W. H. Browning, Jr., and Walter N. Sutherland.

## DODSON KILLING CALOMEL HABIT

Don't sicken or salivate yourself or paralyze your sensitive liver by taking calomel which is quicksilver. Your dealer sells each bottle of pleasant, harmless "Dodson's Liver Tone" under an ironclad, money-back guarantee that it regulates the liver, stomach and bowels better than calomel without making you sick—15 million bottles sold.

Saturday Specials. Choice any man's Overcoat in the window \$12.00. Pecos Bargain House.

**HOUSEWORK IS BURDEN**

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for thousands of women. Read what Mrs. J. H. Shepherd, Baird St., Midland, Tex., says: "Quite a few years ago I had occasion to use Doan's Kidney Pills. I had a great deal of trouble with my kidneys and back. At times my back would feel so sore and lame the least work would be a drudgery. I would have headaches and on stooping over, I would get so dizzy, everything would turn black in front of me. I was caused a lot of inconvenience by the too frequent action of my kidneys, and I was all played out, with no ambition to do anything. I started taking Doan's Kidney Pills and they cured me entirely. I haven't been troubled since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Shepherd had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Insurance rates on dwellings and contents advance March 1st. See W. W. Dean, Insurance. 26-tf.

**A TONIC**

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

A. S. Koonce, who has recently taken editorial charge of the Alpine Avalanche is making of that paper the very best Alpine has had since this writer has known the paper. He is not only a splendid writer but a good booster for his town and a live wire.

The following, which is well worth reproduction here, is a sample of his editorial work:

There are two classes of people one meets with in this life—the Thinker and the Dreamer. To which class do you belong?

The Thinker is the incarnation of deep, constructive thought that contributes to the progressive evolution of the world; he conceives gigantic projects and figures them out on a practical and serviceable basis; he transforms the ideal into the real, moulds wonderful machinery out of the offerings of the earth, originates great and useful principles out of intangible nothingness and gives to the world constructive achievement and progress.

The Idle Dreamer is the lazy drifting, ethereal mind who mentally dissipates the sunny hours of life, building air castles and conceiving get-rich-quick schemes, giving birth to flighty thoughts and impractical theories.

The Idle Dreamer is going in one direction—downward; the Thinker is going in the opposite direction—upward.

Elbert Hubbard once said: "There are two kinds of thought—new thought and second-hand thought. New thought is the thought you, yourself, think; the other kind is supplied to us by jobbers."

Thoughts are children of the mind. As they are conceived and developed, so in accordance will their character be when they reach maturity. The ability to think is the greatest inheritance of man. Without the power of imagination, life would be a void, for all the flavor of life is concealed within the petals of the mind.

Thought is the basis of all human achievements. Imagination is contemplation, plus meditation, plus anticipation. The mind may be likened to a great field of fertile soil which is capable of producing the most beautiful and fragrant flowers, and on the other hand will just as quickly and willingly grow weeds and briars.

Some men pass through life without discovering the valuable "veins of mineral" that are concealed within their minds. You are constantly followed by one who is using every atom of his ability to pass you—to fit himself to take your place; he has designs on your job. If you are an Idle Dreamer, he will soon displace you. The Thinker lives in a mental mansion constructed of the finest marble, (character) fitted throughout with finest furniture, (habits), while the Idle Dreamer lives in a mental hut, overgrown with a tangled thicket of carelessness, surrounded with brushy hedges of wasted effort.

Which do you choose to be—a Dreamer or a Thinker?

**To Stop a Cough Quick**

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

Just ask your druggist for HAYES' HEALING HONEY.

**AN ADVERTISING JINGLE.**

One step won't take you very far, you've got to keep on walking, One word won't tell him who you are, you've got to keep on talking; One inch won't make you very tall, you've got to keep on growing; One ad won't get you anywhere, you've got to keep on going.

**ASSIGNEE'S NOTICE.**

States of Texas, County of Reeves.

To the creditors of Monroe Slack:— You are hereby notified that Monroe Slack of the County of Reeves State of Texas, on the 17th day of January A. D., 1921, executed a Deed of Assignment, conveying to the undersigned all his property, for the benefit of such of his creditors as will consent to accept their proportional share of his estate and discharge him from their respective claims, and that the undersigned accepted said trust, and has duly qualified as required by law.

All creditors consenting to said assignment must, within four months after the publication of this notice, make known to the assignee their consent in writing, and within six months from the date of this notice file their claim, as prescribed by law, with the undersigned, who resides at Pecos, Texas, which is also his post-office address.

Witness my hand this 8th day of January A. D., 1921.

S. C. MUCK, Assignee. 26-3t.

OF THE

**GREATEST BARGAINS IN OIL AND GAS LEASES EVER OFFERED FOR SALE IN ANY OIL FIELD**

The Big Standard Rig which spudded in last Saturday on Section 25, Block B-19, Public School land, Ward County, is in all probability the biggest outfit in the field and possibly the best as everything is new and of the latest and best makes.

The driller in charge, Mr. M. M. Garvin, who brought in the Bell Discovery Well that made Pecos famous in oil history, is of the opinion we will reach the oil sand in sixty days. The best investments in the field are leases about that well. See those described below and buy them quickly before the prices advance.

Every acre described below has been geologized by reliable men having state and national reputations and pronounced PRIME PROSPECTIVE OIL LANDS.

Original leases were all written for 5 years on 88 form producer's blanks, abstracted and titles approved by my attorney the Hon. W. W. Hubbard of this city.

Having resigned my official positions with the Toyah Valley Oil Company, I am now transacting a general oil investment business and offer a service which I believe unequalled by any other dealer in the entire Trans-Pecos region.

10 acres or more will be sold from any tract described, and at the price named. All cash, or three equal monthly payments, as desired.

Some attractive drilling propositions open to reliable parties who are prepared to immediately drill either shallow or deep wells.

**THIS WEEKS LEADER**

This land lies due north of the 40 ft. tower Keystone rig on Section 5, Block O, Ward County. 480 Acres 1-2 to 1-1-2 Miles from this rig in Section v, Block F. G. & M. M. B. & A. Survey .....\$6.00 Per Acre

5 year commercial leases dated September 27, 1919, with annual rental of 25 cents per acre. Never before in the history of oil development has such choice, close in acreage been offered at such a ridiculously low prices. It cannot last long—RUSH IN YOUR ORDERS.

**LANDS IN WARD COUNTY, TEXAS**

Section 37, Block A, G. & M. M. B. & A. Survey, 640 acres at .....\$3.00 Per Acre  
Section 38, Block A, G. & M. M. B. & A. Survey, 480 acres at .....\$1.00 Per Acre  
Section 39, Block A, G. & M. M. B. & A. Survey, 320 Acres at .....\$5.00 Per Acre  
Section 40, Block A, G. & M. M. B. & A. Survey, 160 acres at .....\$6.00 Per Acre  
88 Form, 5-year producers' lease, dated April 8, 1920, with annual rental of \$1.50 per acre paid to April 8, 1922. Title derived from an estate owning the lands for over forty years, known by all lawyers here to be good and approved by our attorney.

These lands lie 1, 2, 3 and 4 miles northeast of Monahans along the marvelous structure traced by the famous scientist and geologist of New York City, Dr. R. M. Holden, whose report has been corroborated by other eminent men since he examined the field. Dr. Holden stated as follows:

"You have traversing these lands both shallow and deep oil streams and pools of greater magnitude than any field I have ever had the privilege of examining. The first oil sand should be penetrated at 900 feet and will be found to be of unusual depth, capable of being developed into one of the greatest oil fields in the world."

Section 98, Block A, G. & M. M. B. & A. Survey, 400 acres at .....\$3.00 Per Acre  
Section 99, Block A, G. & M. M. B. & A. Survey, 320 acres at .....\$1.00 Per Acre  
Section 100, Block A, G. & M. M. B. & A. Survey, 240 acres at .....\$5.00 Per Acre  
88 Form, 5 year producers' lease, dated September 27, 1919, annual rental of 25 cents per acre.

These lands lie 1, 2 and 3 miles northeast of the Toyah Valley Well No. 3, now drilling. About half of the acreage embraced in each of these sections has been purchased by business and professional men in Pecos, who are fully advised as to the situation throughout the entire field. If you are looking for good acreage "betwixt and between" present development and big future possibilities, these lands are what you want.

Sections 73 and 82, Block N, G. & M. M. B. & A. Survey, 80 acres reduced from \$50.00 to .....\$30.00 Per Acre  
Section 1, Block O, G. & M. M. B. & A. Survey, 120 acres reduced from \$40.00 to .....\$20.00 Per Acre  
Section 10, Block O, G. & M. M. B. & A. Survey, 160 acres reduced from \$30.00 to .....\$15.00 Per Acre  
88 Form, 5-year producers' lease dated September 27, 1919, with annual rental of 25 cents per acre.

The first two sections named lie immediately north of Section 25, Block B-19 public school land, on which one of the best standard rigs with heavy machinery in the entire field is now drilling.

Valley Well No. 3, now drilling. The other two sections lie one and two miles west of those sections.

If you are looking for a choice oil lease right up against immediate development in the field these will suit you.

**LANDS IN LOVING COUNTY TEXAS**

The wonderful Bell well was brought in on the lower end of an oil structure in Reeves County, (the derrick standing exactly two miles from the Loving County line), that runs to the northeast through Loving County. The greatest oil structures in the entire Trans-Pecos region are in Loving and Ward Counties and unquestionably those counties will develop into the hub around which production will thin out as distance increases.

Sections 32, 40, 42, and 48, Block 55, Tsp. 1, T & P. Survey, 80 acres of each section at .....\$5.00 Per Acre  
These lands are along the Santa Rosa structure, on which several wells are drilling in Texas and fifty or more in New Mexico.

Section 16, Block C-24, public school land, 60 acres at .....\$4.00 Per Acre  
This section is on the apex of the Bell structure and a most excellent buy.

Section 20, Block C-24, public school land, 90 acres .....\$6.00 Per Acre  
All of the above lands are 88 Form, five years producers' lease, dated June 3, 1919, with annual rental of 25 cents per acre.

This section lies close to the apex of the Bell structure, east of the deep test location of the Pinal-Dome Company, and three miles north of the Leeman well of the Sunshine Oil Company, which commenced drilling about a year ago. Probably no better purchase at the same price was ever offered in this field.

West one-half Section 33, Block 54, Tsp 2, 320 Acres or less at .....\$10.00 Per Acre  
This is what is known as a Texas and Pacific Railway Company lease, demanding a rental of 50 cents per acre each six months. Rental paid to March 1, 1921. Requires no abstract, but will furnish attorney's opinion showing good title. Land lies due north of the Bell well and due west of the Toyah-Bell No. 2, the deepest test in the field whose drill for two weeks has been passing through rich oil bearing limestone. A gusher is expected any day.

**SOME UNUSUAL OFFERINGS**

Section 44, Block 56, Tp. 1, T. & P. Survey, 465 acres at .....\$2.50 Per Acre  
This Land is not only on the Biggest Oil Structure in the Entire Field, on which the Toyah Valley Standard Derrick for their Well No. 1 is located, 6 miles to the north, but they lie in the Pecos River Valley and are shown on the geological maps issued by the State of Texas as the best Permian Oil Lands in the entire field.

Section 4, Block 57, Tp. 1, T. & P. Survey, 160 acres at .....\$10.00 Per Acre  
Section 11, Block 57, Tp. 1, T. & P. Survey, 240 acres at .....\$8.00 Per Acre  
Five year commercial leases dated August 18, 1920 with annual rental of 25 cents per acre.

These lands lie one half mile and one mile respectively from the biggest and heaviest standard rig ever erected in Loving County, and on top of the greatest and best defined structure in the State of Texas. Never before in the history of oil development were such bargains offered and I strongly advise ordering these by telegraph.

**E. L. STRATTON, Oil Investments**

Suite 1, Syndicate Building

Pecos, Texas

All prices quoted cancelled the moment the next well shoots Oil.

# NOTICE

### All Land Lease, Permit Holders and Royalty Owners

who are interested in development of the field in the vicinity of Section 8, Block C-20, public school lands, Reeves County, communicate with ARROHEAD OIL COMPANY, Pecos, Texas.

### Permit Holders

If you want to block in your acreage and prove it up thru a well to be drilled in above vicinity advise us fully in your first letter what you have, give full description first letter.

## ADVERTISING IN THE COUNTRY WEEKLY

(Newark, N. Y., Union-Gazette)  
Advertising in the country weekly is the most valuable advertising in the world. Expert advertisers say it is not only the most valuable but the most scientific advertising in the world. Advertising in the magazines has to be general, for the reason that the average magazine that you receive today was set in type several weeks ago, and the advertising copy was probably prepared several weeks before that. This means that advertisers in the magazines have to anticipate conditions several weeks in advance of the time the copy is prepared.

This is not so with advertising in the country weekly, for the country weekly has the advantage over the magazine because of the weekly circulation in a comparatively small territory. The name of merchant or business man who is selling the goods can be placed in this advertisement. This is impossible in magazine advertising, which covers sometimes the whole nation.

The weekly newspaper also is considered the best advertising medium in the world by expert advertisers for the reason that it has a more legitimate association with the family than a magazine or daily newspaper.

No local merchant can afford not to advertise in weekly newspapers of the better class. It is a sad commentary upon small town business men that they don't see the advantage of them carrying an advertisement in the small town paper every single week. Such an advertisement is the cheapest salesman that the merchant can employ. The money spent in advertising in the better class of weekly newspapers is an investment and not an expense; and it is the best paying investment that the merchant can make; but one in a thousand publishers of the weekly papers is compensated, anywhere near what he is worth to the merchants lives and to whose interests he dedicates his life. Every editor of a weekly newspaper is constantly working in behalf of every merchant in his community, whether that merchant patronizes the local paper or not; but every merchant of every community unfortunately, does not have the business common sense and the business foresight to see that it is to his own personal advantage to help support the country editor by advertising—telling the people in the newspaper what he has; how it can be used, and what it costs.

## FINANCIAL REVIEW

Prepared For The Enterprise By The First National Bank In St. Louis.

The Bureau of the Mint has recently issued a preliminary statement of the quantity and value of the gold and silver produced in the United States and its possessions during the calendar year 1920. This compilation has been made with the assistance of the United States geological survey. From the figures thus prepared it appears that gold and silver production of the country declined in 1920 as compared with 1919—gold having declined proportionately more than silver. The decline amounting to 434,378 fine ounces valued at \$10,834,000 and the decline in silver amounting to 117,941 fine ounces. In the case of silver, value has been difficult to estimate due to the violent price fluctuation of the metal during the last year.

The gold produced in this country during 1920 was less than one-half that produced in 1915. Silver production on the other hand has been much smaller. In 1920, 56,564,504 fine ounces were extracted which compared with 74,961,075 fine ounces for the year 1915. The price of silver, however, measures up differently due to the lower price obtaining for the metal during the calendar year 1915. The value of the 1915 production, in spite of its larger volume, was only \$37,397,300 as compared with \$57,420,325 for the smaller output of last year. From the preliminary estimates of gold produced in the several states, territories and possessions of the United States, California leads with a production of 692,190 fine ounces valued at \$14,305,000; Alaska is second with a production of 380,034 fine ounces valued at \$7,856,000; Colorado is a close third with a production of 368,298 fine ounces valued at \$7,613,400. The total gold produced during 1920 amounting to 2,395,017 fine ounces having a value of \$49,509,400.

### A CORRECTION.

W. G. Yates brings the information that the well of the Consolidated Sulphur Co., in section 26, block 111 is only 76 feet deep and waiting for repairs on engine. He states that they expect to resume operations about March the 1st. It appears that The Enterprise in a previous issue stated this well was down six or seven hundred feet. The Enterprise is glad to correct this, or any other error appearing in these columns.

### No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly proves the question, and acts as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

## NOTICE OF ELECTION.

STATE OF TEXAS  
COUNTY OF REEVES.

On this the 31st day of January, 1921, this court being in special session came on to be considered the petition of E. B. Daniel and fifty-six other persons praying that bonds be issued by said Road District No. 2, of Reeves County, Texas, in the sum of forty thousand dollars, (\$40,000.00), bearing interest at a rate to be fixed by the Commissioners Court not exceeding five and one-half (5 1-2) per cent, and maturing at such times as may be fixed by the Commissioners Court serially or otherwise, not to exceed thirty years from the date thereof, for the purpose of constructing, maintaining and operating macadamized gravel, or paved roads and turnpikes or in aid thereof.

And it appearing to the court that said petition is signed by more than fifty of the resident property tax paying voters of said Road District No. 2, of Reeves County, Texas, said Road District No. 2, having been established by an order of the Commissioners Court, of Reeves County, Texas, Dated the 26th day of May, 1919, and of record in Book Two, Page 129, of the minutes of Road District No. 2, of Reeves County, Texas, within the following meets and bounds, to wit:

Beginning at a point in the east line of Section 12, Block 72, Public School, where the Texas and Pacific Railway track crosses said line; thence in a southerly direction following the west boundary line of Commissioners Precinct No. 1, to the southeast corner of Section 48, Block 55, Tsp. 7 T. & P. Ry Co. to the southeast corner of Block C-11, Public School; thence south following the east line of Block C-12, and C-13; thence west following the south line of Block 13, to the county line between Reeves and Jeff Davis Counties where the south line of said block C-13 crosses said County line; thence following the said County line to San Martine Springs; thence in a northerly direction following the County line between Culberson and Reeves Counties to a point in said county line where the North line of Section 4, Block 53, Public School, crosses said line; thence east following the north line of Blocks 53, 56, and 57, Public School, to the northeast corner of Block 57, thence south following the east line of Blocks 57 and 58, to the southwest corner of Block 55, Tsp. 5, T. & P. Ry. Co., thence east following the south line of said Block; thence east along the north line of Sections 23 and 22, Block C-17, Public School to the northeast corner of said Section 22, said Block C-17; thence south, following the east line of Sections 22 and 21, said Block C-17, Public School; thence South following the east line of Block 72, to a point in the east line of Section 12, said Block 72, the place of beginning.

It is therefore considered and ordered by the court that an election be held in Road District No. 2, of Reeves County, Texas, on the 8th day of March 1921, which is not less than thirty days from the date of this order, to determine whether or not the bonds of said Road District No. 2, of Reeves County, Texas, shall be issued in the amount of \$40,000.00, bearing interest at a rate to be fixed by the Commissioners Court, not exceeding five and one-half (5 1-2) per cent and maturing at such times as may be fixed by the Commissioners Court, serially or otherwise, not to exceed thirty years from the date thereof, and whether or not a tax shall be levied upon the property of said Road District No. 2, of Reeves County Texas, subject to taxation for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof, at maturity.

Notice of said election shall be given by publication in a newspaper published in said County, for four (4) successive weeks before the date of said election, and in addition thereto there shall be posted notices of such election at three public places in Road District No. 2, of Reeves County, Texas; said election shall be held at Toyah, Texas, and the following named person is hereby appointed manager of said election; C. C. Cargill.

Said election shall be held under the provisions of Articles 627 to 641, inclusive of chapter 2, title 18, revised statutes 1911, and as amended by chapter 203, acts of 1917, and only qualified voters who are property tax payers of said Road District No. 2, of Reeves County, Texas, shall be allowed to vote, and all voters desiring to support the proposition to issue bonds shall have written or printed on their ballots the words:

"For the issuance of bonds and a levying of taxes in payment therefor."

And those opposed shall have written or printed on their ballots the words:

"Against the issuance of bonds and the levying of taxes in payment therefor."

The manner of holding said election shall be governed by the laws governing general elections in this State.

A copy of this order signed by the County Judge of said County shall serve as proper notice of said election, and the County Judge is directed to cause said notice to be published in a newspaper published in said Reeves County. (There being no newspaper published in Road District No. 2, of Reeves County, Texas.) for four successive weeks next proceeding such election and cause to be posted a notice thereof at three public places in road District No. 2, of Reeves County, Texas, for

three weeks prior to said election.  
25-5t. JAS. F. ROSS,  
County Judge, Reeves County, Texas.

## NOTICE

Notice is hereby given that the Annual Meeting of the Stockholders of The Pecos Railroad Company will be held at the general offices of said Company in Pecos, Texas, on Wednesday, March 2nd, 1921, at the hour of 12 noon, for the purpose of selecting a Board of Directors for the ensuing year and for such other business as may come before such meeting.

The Annual Meeting of the Directors of said Company will be held on the same date and at the same place, immediately after the meeting of Stockholders.

J. G. LOVE Sec. 1-24-5t.

## CITATIONS BY PUBLICATION

THE STATE OF TEXAS

To the Sheriff or Constable of Reeves County—GREETING:—

You are hereby commanded to summon E. P. Howard by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, to appear at the next regular term of the District Court of Reeves County, Texas, to be holden at the Court House thereof, in Pecos, Texas on the 25th day of April, A. D. 1921, then and there to answer a petition filed in said Court on the 31st day of August, 1920, in suit No. 2017, wherein L. E. Bell and M. M. Garvin are Plaintiff, and E. P. Howard is Defendant, and said petition alleging in substance that on and prior to March 9, 1920, the plaintiffs were the owners of an oil and gas lease on the SW 1-2 of Section 87, Block 33, H. & T. C. Ry Co. Survey, in Loving County, Texas, on which day they assigned an undivided one-half interest in said lease to the defendant; that the consideration for said assignment was the defendant's promise to drill a well for oil and gas on said premises to be begun within 90 days from March 9, 1920, and to prosecute same in accordance with the terms of the agreement between plaintiffs and defendant; the defendant further agreeing that in case said well was not begun within said 90 days the plaintiffs should have the right to cancel said agreement and defendant agreed to reassign, in such event, said undivided one-half interest in said lease to plaintiffs; that defendant failed to begin said well within said 90 days or at any time and the plaintiffs have cancelled said agreement and demanded of the defendant the reassignment of said undivided interest; that defendant has failed and refused to reassign same as that said lease is of great value, to-wit: \$64,000; and plaintiffs pray for judgment decreeing rescission and cancellation of said assignment, for costs of suit and for such other and further relief in law and equity as they may be entitled.

HEREIN FAIL NOT But have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Pecos, Texas, this 9th day of February, A. D. 1921.

S. C. VAUGHAN,  
Clerk.

District Court, Reeves County, Texas.

By—C. E. Allison, Deputy.

Issued this 9th day of February, A. D. 1921.

S. C. Vaughan, District Clerk.

By C. E. Allison, Deputy.

## SHERIFF'S SALE.

The State of Texas,  
County of Reeves.

By virtue of a certain Alias Execution issued out of the Honorable District Court of Reeves County, on the 19th day of January 1921 by S. C. Vaughan Clerk of said Court against Bell Reeves Oil Company, for the sum of Two Thousand Nine Hundred Eighty Two, and 13-100 (\$2,982.13) Dollars and costs of suit, in cause No. 2083 in said Court, styled First Nat'l Bank of Pecos, Texas, and placed in my hands for service, I, E. B. Kiser as Sheriff of Reeves County, Texas, did on the 21st day of January, 1921, levy on certain Real Estate situated in Reeves County, Texas, described as follows, to-wit:

All right, Title, and interest of the Bell Reeves Oil Company, in and to a five years Commercial Oil and Gas Mineral lease, on the E. 1-2, of the S. E. 1-4, of Section 18 in Block No. 2, H. & G. N. Ry. Co. survey Containing Eighty (80) Acres in Reeves County, Texas, and levied upon as the property of said Bell Reeves Oil Company. And on Tuesday, the 1st day of March, 1921, at the Court House door of Reeves County, in the Town of Pecos, Texas, between the hours of ten A. M. and four P. M. I will sell said lease at public vendue, for cash, to the highest bidder, as the property of said Bell Reeves Oil Company by virtue of said levy and said Alias Execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Enterprise a newspaper published in Reeves County.

WITNESS my hand, this 21st day of January 1921.

E. B. KISER,  
28-3t Sheriff Reeves County, Texas.

## SHERIFF'S SALE.

The State of Texas,  
County of Reeves.

By virtue of a pluries execution issued out of the Honorable District Court of Hill County, Texas, on the

Pope Prospecting Co.		Pecos	18		B-140	300	Drilling.
Republic Well		Pecos				2365	Oil and Gas.
Tatum Well		Reeves				550	

The above list does not include many shallow wells in the Toyah field, and only those in actual operation in the Pecos Valley field. I know of no oil field that at the same stage of development (20 months) that had so many active operations, and the fact that migratory or seepage oil has shown to a remarkable amount proves beyond question that the big pools are surely here, and it is certain that some of these operations will go into them when they get deep enough, which may be anywhere from 2500 to 4000 ft.

The Enterprise gives all the OIL NEWS which is authentic and gives it while it is news. Read The Enterprise and keep posted.

# Getting Your MESSAGE

## To the People You Desire to Reach

That is the desire of every man who has a business message for the public.

Thousand of dollars are spent every hour of every day by advertisers, and ninety-five per cent of it is spent with newspapers.

And there's a reason for this.

The newspaper puts your ad where you want it to go.

And the work is done quicker, and more thoroughly than it can be done in any other way.

Because the newspaper is on intimate terms with the people.

It goes right into the homes.

It becomes fireside company.

And is read by all the family.

Not so with the circular. The circular is a thing despised by most housewives, because it means litter in the yard or the home.

And the ash-can or the waste-basket gets the most of them.

If the circular does get into the home it is apt to be consigned to the fire by the first one to get hold of it.

And if read at all it is usually read by the "just one person" into whose hands it falls.

But the newspaper—the newspaper is read by the whole family.

Let The Enterprise man talk it over with you.

## PERSONAL

Mrs. Henry Avant, of El Paso, is the guest this week of Mrs. Haygood and family in this city.

Hamilton, the Shoe repair man returned the forepart of the week from a ten days trip east of here.

B. C. Lanier, a hustling oil man of Toyah, was a business visitor in Pecos Wednesday of this week.

Mrs. A. F. Norwood, and two daughters, of Henretta, are visiting the Norwood family in this city this week.

C. R. Troxel has returned to his home in Toyah after a stay of about two months in the Oklahoma oil fields.

Jack Jargensen and Charles Kendall are busy this week on the Stratton well. This well is South of Monahans on the Estes ranch.

Clem Calhoun, County Attorney will leave tomorrow for East Texas on legal business. He expects to be gone about one week.

Mrs. I. L. Barlow was in Pecos Wednesday, shopping she returned to her home Thursday morning via the P. V. S. Railway.

Mrs. P. T. Hammond, who has recently taken over the South Side Hotel property, is visiting at Roscoe. She will return next week.

Mrs. Brown of Oklahoma, came last week to be with her mother, Mrs. M. E. Rray, who continues to be seriously ill, at the home of her daughter, Mrs. A. J. Curtis.

W. D. Johnson of Kansas City and brother, of the late F. W. Johnson was in Pecos the forepart of the week attending to business matters.

J. A. Hardy and family returned the early part of the week from Dallas, where they went to accompany the body and attend the funeral of Mrs. Hardy's brother who died in El Paso last week.

A. G. Taggart of the Pecos Mercantile Co., left the forepart of the week for Lovington, New Mexico, via Carlsbad, on a business trip. Mrs. Taggart accompanied him for the pleasure of the trip, and to keep him company.

Judge J. A. Drane received a telegram from Porter A. Whaley, General Manager of the West Texas Chamber of Commerce, notifying him he had been elected to the executive board of that body, at a recent meeting held in Ranger, Texas.

At a recent meeting of the West Texas Chamber of Commerce at Ranger our fellow townsman, former county attorney and president of the Pecos Chamber of Commerce, J. A. Drane, was elected one of the directors. This is a just tribute to a man who has made good and is worthy of the honor conferred.

Mr. R. R. Youngblood of the Hoban district, one of our prosperous and prominent citizens met with a severe accident last Monday. He fell down a well in which a centrifugal pump was operating and was caught in the belting and machinery. His body made several revolutions, before the machinery was stopped, his clothes torn from him and in other ways received serious injuries.

As will be noted several of Pecos progressive merchants are putting on special thrift Sales weekly in which two or three or more, items are placed on sale at real bargain prices. If the buyers of these Specials will mention the fact when making their purchase that they saw the ad in The Enterprise and pick up these bargains when offered these Money-Saving bargains will continue to be put on the market. The merchants of Pecos are doing their part and its up to the buying public to keep these Sales going.

Labor statistics show there were 2,325,000 workers out of employment at the close of the year 1920. These figures do not include the regular attendance at the fountain. When Dr. Magee can spare a minute to look out of his office window for signs of rain, he generally fails to see anything, but the dry bunch on the plaza. He has come to the conclusion that no one in Pecos works but Mr. Joplin and himself. Jack Love sometimes makes a sagger at it, but the effort is lacking in force and pressure. Mr. Joplin, who is always on the job, can truthfully boast about his business, which has been "picking up" ever since he started it.

Mrs. J. W. Moore came in Monday night for a fortnight's visit at the home of Mr. and Mrs. T. E. Williams in North Carlsbad. Mrs. Moore is a friend of long standing of Mrs. Williams and her cousin who is visiting here. Mrs. Moore's home is at Pecos. —Carlsbad Current.

## THE CHURCHES

**CATHOLIC CHURCH**  
Mass celebrated every second and fourth Sundays as follows: 8:30 for English speaking population and ten a. m. for Spanish speaking people of Pecos.

## SOCIAL EVENTS

### EUEZLIAN CLASS ENTERTAINED

Miss Amanda Bean was hostess to the Euzelian Class of the First Baptist church on the evening of February 11th at the beautiful home of Mrs. F. W. Johnson.

Victrola music and delicious home made candy and fruit was intermingled with the business of the evening adding to the spirit of the occasion social entertainment as well as work. The purpose of the meeting was to sew for the children of Buckner's Orphans' Home at Dallas and much was accomplished under the supervision of Mrs. Johnson and Miss Linnie Jeffords.

Before adjourning sandwiches and cocoa were served to the following: Misses Beuna Payne, Zelma White, Lucile Brooks, Vera Thompson, Linnie Jeffords, the hostess, Mrs. Johnson and Mrs. Payne. The class meets the second Friday night in each month and new members are always very welcome either at the meetings or at the Sunday School hour.

### BRIDGE CLUB

A pretty Valentine affair was the luncheon with which Mrs. Hugh Roberson entertained the Bridge Club. Red and white hearts were used as decorations and candle lights added to the delightful effect.

Mrs. David Tudor and Mrs. H. B. Prickett tied for high score in the games, which followed the luncheon. Beside the club members, guests were: Mrs. Carl Smith, Mrs. David Tudor, Mrs. H. B. Prickett and Mrs. Ira Bell.

### MISS LIGON ENTERTAINS IN HONOR OF GUEST.

On Tuesday evening Miss Cornelia Ligon entertained with a Valentine party in honor of her guest, Miss Mary Welch of DeKalb.

The house was decorated with fern and the Valentine symbols. Progressive forty-two was enjoyed until a late hour when a salad course was served.

The guests were: Misses Stewart, Rutledge, Heard, Crawford, Forester, Mrs. Mitchell, Miss Welch and Messrs. White, Fyler, Cole, Ewing, Glasscock, Eubank, Brewster, Edmonson, Denny and Haygood. Mrs. John Camp and Miss Lucy Ligon, assisted the hostess in serving.

### ENTERTAINS BRIDGE CLUB

The Bridge Club was entertained Thursday afternoon of last week by Mrs. H. C. Roberson at her suburban home north of town at a one o'clock luncheon. The house decorations were in valentines which was carried out in the score cards.—Bridge was played at five tables and high score was made by Mrs. W. W. Dean.

Those present besides the members of the Clubs were: Mrs. Jamsq, Mrs. Ira Bell, Mrs. H. B. Prickett, Mrs. W. A. Hudson, Mrs. Marian Snow Hubson, Mrs. David Tudor and Mrs. Carl Smith.

### VALENTINE PARTY.

A social event in Toyah of more than ordinary proportions was that given Thursday afternoon of last week by Mrs. Albert Tinnin and Mrs. Finley-Holmes, two prominent social leaders and charming hostesses of Toyah, at the beautiful brick bungalow home of Mrs. Tinnin, where they were at home to their friends from

two to five o'clock at a Forty-two Valentine party.

The decorations were elaborate in valentines of various shapes and fashions, pinned everywhere. The window shades were drawn and the electric lights furnished pleasing and mellow illumination.

The house party, besides the hostesses was composed of Mrs. George K. Jackson, of Hoban a former resident of Toyah and an intimate friend of Mrs. Tinnin and Miss Margie Holmes and Miss Georgie Daniel. All were becomingly and elegantly gowned. The guests were met at the door by Mrs. Jackson, then they were ushered to the blue room, where they were relieved of wraps, and given the favors of red and white carnations.

Games of Forty-two were played at eleven tables, the tally cards and score pads were heart shaped valentines. The Toyah orchestra furnished music for the occasion throughout the afternoon. A salad course with the valentine idea, angel food cake and hot chocolate were served. Those to enjoy this hospitality were: Mesdames. Theo. Andrews, C. C. Cargill, J. J. Pope, B. F. Powell, Mac Sayles, Frank Seay, M. McAlpin, M. A. Grisham, H. H. Luckett, V. Van-Geison, J. B. Young, W. E. Morton, By Johnson, Tom Duncan, F. J. Billingslea, Joe Duncan, Tom Roberts, W. Clifton, C. A. Kurhup, B. C. Lanier, Harry Wells, Harry McTier, S. D. Coalsen, Mary Wadsworth, C. R. Troxel, Sam Koen, E. B. Daniel, Wm. Robinson, A. H. Smith, Hugh Padgett and Mesdames. Leavell, Wheelis, Brown, Bernard and Hayes, and Misses Irene Andrews, Helen Rhrup, Laura Jarrell, Harrol, Jones and Roberts.

### GEORGE WASHINGTON PARTY.

Mrs. Ralph Williams, Mrs. Clay Slack and Mrs. Hugh Roberson constitute a charming trio of hostesses at a George Washington party Thursday afternoon from two-thirty to five o'clock at the home of Mrs. Williams. The two beautiful daughters of Mrs. Roberson, Misses Elise and Elinor and the attractive Miss Evelyn Slack dressed as Martha Washingtons and with powdered hair were able assistants to the hostess through the afternoon. The color scheme was the national colors of red, white and blue and the symbols were in keeping with the occasion. The tally cards, for the games of forty-two played at fourteen tables, were red hatchets tied with white and blue ribbon. The lunch sets were decorated with red and blue cherries. An ice course with cherries and cake was served.

## MOTHER

"California Syrup Of Figs" Is Child's Best Laxative.

Beware! Say "California" or you may not get the genuine "California Syrup of Figs" which doctors recommend for babies and children of all ages. Nothing else cleans the little bowels and regulates the child's stomach and liver so gently, so thoroughly. Directions on each bottle. But you must say "California." Don't be talked into an imitation fig syrup which hasn't the delicious, fruity taste or the perfect "laxative physic" action.

## DANDRUFF MAKES

## HAIR FALL OUT

Immediately after using "Danderrine" you can not find any dandruff or falling hair, but what pleases you most is that your hair seems twice as abundant; so thick, glossy and just radiant with life and beauty. Get a 35-cent bottle now. Have lots of long, heavy, beautiful hair.
