SWINEHART HONORED AT BANQUET AND BOOSTER GATHERING AT GRILL

There are few men who have lived in Pecos who are held in as high esteem by our people as is M. L. Swinehart, the first secretary of the Chamber of Commerce Pecos ever had and since that time Pecos has not had another secretary more competent or who got more real results than did Mr. Swinehart. During his visit to Pecos last week he was guest of honor at a hastily arranged dinner at the Oil King Grill Tuesday night.

Mr. Swinehart made mention of an offer to devote the remainder of his life in an effort to relieve Korea of the deadly scourge of leprosy during a talk at the dinner in which he described condition in what has heretofore been called the Hermit nation, where he has spent the last ten years as business manager of the Presbyterian Missions in the country.

"We live comfortably in Korea," Mr. Swinehart said. "We have almost everything that you have in this country but electric lights, and would be perfectly happy were it not for the squalor and unhappiness at our very doors."

"It is not an unusual thing for a leper to come to our door begging to be admitted to the hospital which the Presbyterians maintain in Kwangju, and it often become necessary to disinfect the door knobs where the people have placed their hands."

"There are fifteen thousand lepers in Korea with no quarantine restrictions. Science has developed a cure for this disease, and Dr. Whipple, who is engaged with me, and myself have made a formal offer to the Japanese government, which controls Korea to take charge of isolated leper colonies if the government will furnish several small islands for the purpose and furnish half of the operating expenses. On behalf of the Presbyterian Missions we have offered to construct the hospital buildings and pay the other half of the maintenance expense."

"If the 15,000 lepers can be segregated the spread of the disease can be greatly checked, and I believe eventually stamped out."

Mr. Swinehart was in Pecos for a day and one half looking after some business interests in the Toyah Valley district during a short trip to his country, but plans to leave in about two weeks for his oriental home. Mrs. Swinehart was unable to accompany him. During his trip to this country Mr. Swinehart has spoken before a large number of Rotary and Kiwanis club gatherings and aroused considerable interest in the Korean situation.

Due to a number of other gatherings on Tuesday night many of the friends of Mr. Swinehart were unable to attend the dinner which was given under the auspices of the Chamber of Commerce. There were twenty-seven present.

The declaration that the Toyah Valley country had some of the best soil that he had ever seen in his experience was made by Miles W. Beck in charge of the soil survey now being made of Reeves county under the auspices of the United States Bureau of soils of the Department of agriculture.

Mr. Langham an expert on Alkali soils and inspector from the Pacific district, Mr. Bennett, inspector from the southern district for the U. S. Bureau, and an inspector from the State Department, which has joint supervision regarding the survey with the Federal Bureau have been in Pecos for the past week passing on the quality of these soils so that the proper classification may be placed on the map.

These men, Mr. Beck states has passed very favorable opinions on the quality of the soil in the Toyah and Reeves Valley, and on the highlands west of Pecos, and he declared that in his opinion the greatest need of the farm land in this country was the building of the dairy industry. The greatest need of these soils is "granitic matter," he said, "and the only way to get this matter on the land is to feed the crops to cattle and keep them on the land to fertilize it."

Mr. Beck declared that in his opinion this would develop into a great dairy industry, and that with a dairy centralized in Pecos that the dairy industry would prove a very remunerative one and would be an excellent thing for the country.

Secretary Sutherland reported on the progress of the campaign which seeks the location of one of the five hospitals to be erected by the Public Health Service for the use of tubercular ex-service men. He stated that the application of Pecos had been laid before the head of the Public Health Service by Representative Sutherland and Senator Culberson and that the West Texas and the Texas Chamber of Commerce had promised to take the matter up with the Governor General. Senator Morris Sutherland has been absent from Washington, according to a note from his secretary.

able to handle the matter. Replies have been received from the Texas & Pacific and Santa Fe railroads promising aid in locating the hospital in this section, while numerous letters have been sent out to influential men and organization asking support of the plan.

A committee of four doctors has been named to advise with Secretary Mellon of the Treasury department as to the location of these hospitals, and a copy of the arguments in favor of the Davis mountain site and photographs have been sent to each of them. These men are representative doctors and it is believed that if they can be induced to visit this site they will find the climate so delightful and the location so beautiful that they will decide to locate one of the institutions here.

These doctors are Dr. William C. White of Pittsburgh, chairman, Dr. W. G. Bowman, Pittsburgh, Dr. Frank S. Billings, Chicago, and Dr. Pierce Bailey of New York.

A reply has also been received from the American Legion stating that they had referred the application of Pecos, which was sent them by the local post, to their hospital committee for action. It is expected that the Legion will play a prominent part in selecting the location for one of these hospitals.

President W. H. Browning of the Pecos Chamber of Commerce, presided at the dinner.

JOHNSTON & CLAIR TO OPEN NEW CAFE

Bryan Bozeman and Green have leased for a term of two years the south half of the Shannon building to Johnston and Clair a model cafe. The plans for the interior fittings will call for an expenditure of between six and eight thousand dollars and the lessees intend to open with the most elaborate appointments to be seen in West Texas. The building is now occupied by the Casner Motor Company, who will vacate about May 1st. This business will probably be moved to Fort Stockton.

NEW BAKERY

F. S. Glier and C. E. Buchholz have opened a bakery in the rear of the City Market, using the north part of the building as a salesroom. Mr. Glier is a baker of years of experience and knows how, and Mr. Buchholz also knows how to display and sell the product after it is made. They will use only the best of materials in their bread, cakes and pies and will sell at a price within the reach of all.

This new bakery will be known as the "Home Bakery" and they will put out a one pound loaf for ten cents, and fourteen ounce loaf two for twenty-five cents.

The editor was the recipient this week of a loaf of bread equal to the best and also one pie which could not be excelled.

THE NEW COWAN BUILDING

It is now definitely known that the New Cowan Building will not be built, at least for the present. The owners of the old building have had various estimates made on the cost of replacing the building and at the present demand of labor and costs of material have concluded that it would be a good financial policy to defer the expenditure until labor and material are reduced in price to normal figures. It would cost more than twice as much as it did originally to replace the structure and the owners feel that owing to the steady reduction in all kinds of building material a better income can be derived by waiting. Or in other words they will save more by waiting for cheaper prices than the rent would amount to if the building was finished and rented.

Jim Southard of the Texas Drilling and Development Company entertained as guests at luncheon at his mansion the "Helen S" recently, Mr. Anderson of the Arrohead Oil Co., and Mr. Mahoney of the Blackhawk Oil Company who enjoyed the first course. By arriving late Mrs. M. A. Heller and Mr. J. Van Clark had the pleasure of the second course. As a host, Mr. Southard has no equal; as a chef, Mr. Henderson stands supreme. The menu served consisted of the following:

Four white wings of the sea with the sunny sides up, streak of lean and streak of fat from Armour's famous herd, California beans with Pecos water soup, Sugar corn from the sunny South, famous Canadian black tea, delicious peaches from the Bermuda Islands, chocolate cake "a la Helen S" and staff of life from the Royal Kitchens.

ROAD BOND ELECTION TO BE HELD SATURDAY

Pecos will have an opportunity to fall in line with the other counties along the Bankhead Highway in the construction of roads and incidentally bring what is estimated as three dollars to every one expended into this country this year at the road bond issue election at the court house on Saturday.

Balmorhea and Toyah have fallen in line and as a result \$70,000 will be spent in the Balmorhea district for the construction of a road from Saragosa to the Head Springs, and \$275,000 will be spent in constructing a road from Hermosa to the county line through Toyah. It is up to Pecos to connect with these roads and gain the benefit of these other expenditures. This can be done by voting "yes" at the election Saturday.

Seventy-one representative business men, land owners and voters signed the petition asking for the election, seeing the business sense of obtaining good roads and avoiding a big annual maintenance tax mostly at the expense of the State and Federal governments. The cost of the \$100,000 issue to the local voters is calculated by county Judge James F. Ross to amount to twenty-five cents on the \$100 valuation the first year and at twenty cents the second year and to gradually grow lower. If the bond issue is not voted a maintenance tax of about fifteen cents will need to be voted according to Judge Ross in order to keep up the present dirt roads.

Therefore, it appears to be the use of good judgment to get the road when aid can be obtained in building them, have a good road system that will prove a constant feeder to the Pecos business interest, save money on auto and tire up-keep, and have a good roads system that will last for years.

In order to participate in these State and Federal funds it will be necessary to start work on the roads before July 1. The appropriation to the state required that work be started before the expiration of two years, and this period will be up on July 1. This can be done if the bonds are voted.

In addition to the necessity of doing the work this year, the spending of this big sum here, will turn a great deal of ready cash loose in this community, and this will serve to help local business interests.

It is believed that the State Road Commission will duplicate their record in the Toyah and other cases and give three dollars for roads for the one expended by the district. As the district bond issue calls for \$100,000 this would call for an appropriation of \$300,000 from the State and Federal funds, and would make \$400,000 to be expended in this district. This with the money to be spent in Toyah and Balmorhea would make a total of \$700,000 spent on roads in the county at an expense to the county of \$203,000.

Gravel roads will probably be constructed for the greater part of the distance, with the low spots being cared for by the means of concrete sidewalks. The roads must be constructed according to Federal specifications, although the type of road would be selected by the district.

from the Davis Mountains. The host passed the remark that out there in the beautiful Pecos Valley along the Bell boulevard it becomes at times "powerfully lonesome and his only solace then is his wonderful pipe.

BIG PHOTOPLAYS AT RIALTO THEATRE

"The Breaking Point" registers as a strong, cleverly acted melodrama, well directed and presenting many powerful emotional situations. Although the theme of a long-suffering wife subjected to insult and neglect by a husband who spends his time in the pursuit of illicit pleasures is not a particularly pleasant one, it is so well handled and the element of suspense kept at so high a tension that the entertaining qualities of the picture are undeniable. The sensational slaying of Janeway by his deeply wronged spouse conveys a momentary shock to the spectators, which is instantly softened by the reflection that it served him right. When retribution is meted out to the villain, the average screen patron rejoices and the fact that the heroine's action was involuntary in this instance smooths everything down to a satisfactory finish. Will be shown Monday and Tuesday.

Pierre Landis made the greatest mistake of his career as a Romeo when he allowed the seed of distrust to enter his mind. If he had only stopped to reason it out—but jealousy never reasons, it goes to action. When Pierre came home after a jaunt on the trail and found that his wife had entertained the district parson, he did not wait for her to explain that the parson's horse had picked up a pebble and he could go no further. Instead he heated his branding iron and in the height of his rage plunged its cruel prongs into his wife's fair, white flesh. "That will show the world who you belong to," he snarled. This amazing incident forms the basis of plot in Goldwyn's feature picture, "The Branding Iron." Around it moves a story of swift action, told amid scenes of wondrous beauty by a cast of genuine artists in which Barbara Castleton stars as Joan Carver. It is a story of big hearts and big deeds with never a let up in the suspense from beginning to end. See it Wednesday and Thursday.

Friday there will be shown a big variety program, for those that like the Canadian Northwest there will be a good two reel feature, "The Girl and the Law." Those who enjoy serials, there will be the "Son of Tarzan" by that popular author, Edgar Rice Burroughs. Every episode full of thrills, action, excitement, romance and sensations. There will also be a good comedy, Pathe News, and a big educational feature.

Will Rogers' claim to being the homeliest man in the world can easily be disproved, but even at that he is no screen Apollo and he does not depend upon personal appearance to carry him through a role in his screen plays. He acts and he acts quietly, naturally and humanly. That's why screen fans have hailed him as the greatest of screen comedians. That's the secret of his success in "Cupid, the Cow-puncher," his newest Goldwyn picture adapted from the diverting western story by Eleanor Gates called "Alec Lloyd, Cow-puncher."

"Cupid" Lloyd has made more matches in Briggs City than any other ten persons and the boys on the ranch are just aching for the time when love's arrow shall pierce his own heart. It does, when the youngest daughter of his boss returns from boarding school and then the fun begins—for the cowboys and for Rogers' fans. Will be shown Saturday.

GAS IN BELL WELL AND THE LAURA RESUMED DRILLING THURSDAY

With a flow of gas in the Bell well, the Laura practically prepared to determine the possibility of their showing, the water in the Soda Lake and the Bell Reeves wells cemented off, and good showings generally, Pecos is on edge with anticipation of "something" happening in a number of widely different areas within a comparatively short space of time.

The sensation of the past week has been the gas flow found in the Bell well. This gas made it appearance after a heavy lime rock under an 18 foot sand, was drilled into, and immediately filled the pipe and when capped down to a two inch pipe shot a flame for ten to fifteen feet in length.

Work was immediately stopped on the well and an order dispatched for a string of five and three-sixteenths inch casing to shut off the small water flow encountered in the sand. On the arrival of this casing the drill will be sent downward into the lime rock, and as the gas is wet, with no trace of sulphur, there is every reason to believe that Mr. Bell and the Dixieland syndicate will again have the pleasure of "starting something" in Pecos.

The cement job at the Bell Reeves, now owned by the Ranger Hudson Oil Co., was completed last Saturday, when water above a sand at 1429 feet was cemented off and George Livingston, the driller in charge stated that the drill would not be sent through this sand before Tuesday, April 5.

Drilling was resumed on the Laura well on Thursday afternoon after a long wait for boiler repairs and to set casing. The hole had been pushed to a depth of 2038 feet when operations were stopped two weeks ago until the new string of casing arrived. This reached the well last week, but had not all been set before the difficulty with the boiler occurred.

President Beisang and Treasurer Heller of the Federal Service & Development Co., who arrived last week, were unable to wait here until the well was completed, but Attorney Henry Deutsch is still here to see the thing through. Operations were stopped in a heavy asphalt formation with considerable gas, and there is a general belief that this asphalt is in Pecos as in other fields an indication of the presence of petroleum in the territory.

At the Soda Lake well the cement bridge was set early Wednesday morning, the casing sent down and the job of waiting for the cement to set was started. This cement was placed at 1858 feet, above a showing had at 1863 feet.

Additional interest has been aroused in Ward county by the activities at the Malita well of the Trans-Pecos Oil Co. A considerable hole has been made at this well during the last six weeks, and some very favorable showings are reported by Treasurer B. J. O'Reilly. Twelve and one-half inch casing has been placed in the well, and a ten inch hole carried downward.

The Arthur-Pitts Oil Co., of Texas, which operates the Soda Lake well spudded in the River No. 2, on section 25, block 33, Ward county Wednesday, and were making very good time and had made practically 100 feet late Thursday. From a fact that the No. 1 hole was abandoned due to a bad fishing job, and that the formation is well known, greater speed is anticipated in the drilling of this second hole. The standard derrick was skidded over to drill the second hole.

The Arthur-Pitts company, has also started operations on the Valley well on section 6, block 33. This hole has been pushed down to a depth of below 1800 feet.

Geo. W. Clark of Los Angeles has been in Pecos for the past two weeks awaiting developments. He is an investor in Sunshine stock and oil leases.

Roy D. Barnum came in from Los Angeles yesterday and expects to stay until oil development in the Pecos field takes more appreciable conditions. He is very optimistic concerning present prospects.

W. A. Boole of the Boole Ship Yards, San Francisco, Calif., and associates are at the head of a company, nearly ready to spud in a well on the Joe Gardner ranch, known as the Patton Dome, near Findlay. The elevation where the derrick stands is 3200 feet and their geologist claims they will strike the Texas and Mexico formation at 3200 feet and shallow oil near the 900 foot level. They will use an Armstrong 25 special traction rig, nearly to location and have a California Standard rig on the way from Los Angeles, Garvin and Yates are in charge of the operations and their address is Sierra Blanca, Texas.

Word was received from C. A. Wilson of the Texoiland Syndicate Friday morning stating that he would arrive here on Monday and authorizing the driller, James Roney to begin work on the well. The hole was pushed to 800 feet, but was stopped because of the need of casing. Mr.

Wilson states that he has succeeded in refinancing the company and that he will secure the casing on his way through Fort Worth Saturday.

The new string of casing was set and the water shut off in the Los-Pecos syndicate well near the Bell late Thursday and drilling operations were to start early Friday morning. The shut off was made above 621 feet, and Arch Bell, manager is confident that he will pick up the Bell sands in a very short time.

While the public interest has been centered on the Laura, Soda Lake and Toyah Bell for the past two or three weeks many surprising things have occurred with the Trans-Pecos and the Bell discovery well.

It is reported, and by reliable authority that the Trans-Pecos is now in a fine oil bearing sand and shale with a very strong flow of gas, and is now the center of attractions at Barstow and among local people who have holdings in that vicinity.

It is generally conceded by oil men and geologists who have worked in this field that the Trans-Pecos is at least 600 feet higher on the structure than the Soda Lake, and interesting news may be expected at any time at the "Malita" well, as the drill penetrates deeper and deeper daily into the ground after the liquid gold.

Remarkable progress has been made by this Co's drilling crew in the past five weeks, which is most gratifying to all who know the many troubles and serious drawbacks encountered by this co. in the past. All of which were handled in a most business like and uncomplaining manner by the local representatives of the company.

The Laura well, which has been busy with boiler troubles and setting new casing, resumed drilling at 12 o'clock last night. The new flues have been placed in the boiler and with Santa Fe water for steam purposes there will not be any more shutting down on account of back water. The new casing is all set, the water entirely shut off, the drill is still in the asphalt formation which latter is pronounced by oil experts to be Tampico and California's best hopes. As we go to press, indications for a paying producer are very much in evidence.

U. S. COURT

The United States Court has been in session here all this week, Judge W. R. Smith presiding. The session was short and all business brought before the court was either disposed of or continued.

Roberts Mill Co. versus T. Y. Casey, dismissed for want of prosecution.

Cowden & Blakely versus Texas & Pacific Ry. Co. settled and dismissed.

Mrs. P. Maulding versus Lee Monroe, dismissed.

D. Gomez versus Lee Monroe, continued.

P. C. Jarmilla versus same, continued.

W. D. Hines, Director General vs. C. J. Adair and Midland National Bank, continued.

Josphine Webster vs. Joe Webster suit on foreign judgment, plaintiff took nonsuit.

Commercial Finance Corporation, Detroit, vs. Toyah Valley Sulphur Co., judgment for plaintiff with costs.

C. C. Johnson vs. Harry Jarboe, dismissed by agreement.

EQUITY CASES

E. O. Gray, trustee, vs. Bertha L. Anderson, taken under advisement.

C. E. Collins vs. Ira J. Bell, suit for cancellation of lease. Argued and taken under advisement.

Mrs. M. E. Goodrich vs. Lee Monroe, continued.

The criminal, naturalization and other cases are noted in another column.

The following members of the legal fraternity were in attendance and transacted business with the U. S. Court this week: J. C. Hutchinson, Kansas City, Mo.; Judge Thomas Fort, Roswell, N. M.; Judge Hardy of Jones; Granville & Hardy, El Paso, Texas; Judge C. R. Sutton of Marfa, Texas; Judge D. C. Grantham, Carlsbad, N. M.; H. D. Russell, Midland, Texas; J. A. Doyle, Detroit, Mich. The following attorneys were present in the interest of clients: John B. Howard, Clem Calhoun, J. A. Drane and Ben Palmer.

Dr. J. A. Daniel of the Toyah Valley Sulphur Co. this week received notification of his appointment as postmaster at Orla and has sent in his bond for approval.

This postoffice was discontinued several months ago and it is with pleasure that the Enterprise can again announce its opening since it affords mail facilities to a number of our good citizens who were otherwise put to considerable expense and inconvenience.

R. N. McCarthy, Manager of the commissary of the Toyah Valley Sulphur Co., at Orla will be chief assistant to Dr. Daniel and they together will make a most efficient team.

A MATTER OF CONCERN TO EVERY PARENT

We read in a neighboring exchange recently where the son of a highly-respected family had been arrested for embezzlement. He afterwards confessed to taking the money of his employer to buy finer presents for his sweetheart than the other young men brought theirs and in detailing the life of the lad the paper said: "He had since childhood been pampered by his parents and his every wish acceded to."

WHERE THE MONEY GOES

One day this week more than a ton of mail matter was handled by the Alpine postmaster—all of one class, all mail order catalogues.

The Alpine postmaster says—and he knows—that an average of \$100 a day goes out of Alpine in the shape of money orders to mail order houses for the very things, often, the home merchant has on his shelves, but the fact is not made known," hence the customer seeks the mail order house catalogues, and sends away his money.

And said petition alleging that it is a suit to enjoin the defendants and Ward County Water Improvement District No. Three, and all other defendants from diverting the waters of the Pecos river out of said river above the point of plaintiffs diversion thereof. Plaintiff alleges the ownership of the waters of said river to a continuous flow of more than six hundred second feet per second of time, that it has owned said waters since 1889 that the defendants have interfered with its use of said waters and have undertaken to convert same to their own use to the plaintiffs great damage, that the plaintiff heretofore was decreed a judgment in the Circuit Court of the United States for the Western District of Texas, El Paso Division, fixing and establishing its right to the said waters and the use thereof as against each and all said defendants, and that in cause No. 301 in the District Court of Ward County, Texas, the rights of said plaintiff to the use of said water as a superior right to any use thereof by defendants was established by judgment of said court. That the defendants are disregarding the said rights of the plaintiff and the said judgments and are attempting to take and are taking said water out of said river depriving the plaintiff of the use thereof to its great damage. Plaintiff prays for a decree enjoining the defendants

and each of them from diverting said water of the Pecos River out of said river or in any wise interfering with the plaintiffs use thereof to the extent of a continuous flow of six hundred second feet continuous flow.

special bonds, will total \$16,000,000,000, to \$20,000,000,000. These bonds have been bought by wealthy persons, he declares, because they are tax exempt, and if they were all placed in the hands of these men would have to pay 10 per cent of income tax. During the lay of the Supreme Court in reaching its decision, President Howard the Farm Bureau, had several conferences with banks and real estate men at which he pointed out the danger of attacking the Federal Land Bank Act because its bonds are exempt, and allowed to pass challenged the enormous amount of land and other tax exempt Mr. Howard served notice that the Federal Land Bank Act had been declared unconstitutional, the fate of the country would have been on all other bonds being subject to taxation.—Midland Reporter.

TAX EXEMPT BONDS NUMEROUS ARTICLE

The action of the Supreme Court in holding the Federal Farm Loan Act as valid is a matter of great importance, according to officials of the Texas Farm Bureau Federation, who expressed themselves as being well pleased with the decision. The action against the Federal Land Bank Act has directed attention in a very strong way to the entire matter of tax exempt bonds. H. C. McKenzie, who has been investigating federal taxes for the American Farm Bureau Federation, says that the total amount of tax exempt bonds in the United States, including State, county, municipal, school, road and

LARGEST OF THE PAST WEEK'S WORK IN FT. STOCKTON OIL FIELD

W. Grant, general manager of Grant Oil corporation, is back on a week's trip to El Paso and other points on business connected with company affairs. The shallow well being drilled on section 1, of the Devlin ranch, by the Dome Oil company, has reached the depth of 406 feet, with the well in a gypsum formation. The Pinal Dome Oil company, operating a standard rig on the Devlin ranch, section 208, Burleson survey, is drilling in a limestone strata with the hole down 1,208 feet. The Fort Stockton Oil syndicate, operating with a star machine on survey 602, P. H. Fall grant, is down to its well to a depth of 1,010 feet, operating in gray limestone. The well recently spudded in on section 24, block 26, university lands, by Bower, Hale & Lamb with a 30-horsepower machine is down 300 feet, drilling in redbeds.

Bower, Hale Lamb & Findies, at the location on section 592, G. C. S. F. railway survey, are engaged in the trying ordeal of casing off an artesian water flow which they encountered at a depth of 70 feet. The W. B. Troy well drilling on section 20, block 140, T. & St. L. railway survey, has resumed drilling after being shut down a few days for repairs. The drill is working in limestone strata around 1,125 feet. The Bordner-Shannon company, engaged in drilling to the 1,600 foot on the Sherbino ranch, section 5, block C4, G. C. & S. F. railway survey, with a location about a mile west of the Menzie deep test, is down about 500 feet, drilling in limestone.

The Oregon-Texas Drilling syndicate while engaged in under-reaming construction which prevents the casing to the 750-foot depth, smashed the under-reamer and awaiting the arrival of another under-reamer, before work will be resumed on their deep test, located on section 19, block 140, T. & St. L. railway survey. C. E. Menzie reports that he has agreed with other parties for the location of the drilling of the deep test in the Sherbino ranch, section 5, block C4, G. C. & S. F. railway survey. It is understood that fifty feet of continuous drilling is to take place unless oil in commercial quantities is entered into in a lesser number of days.

The Polk Prospecting company, operating with a national machine on the Barney ranch, section 18, block 140, T. & St. L. railway survey, is down with its well to a depth of 1,000 feet, with the drill in limestone. Statlar, a Benton, Ill., man, a member of the company spent several days here this week and was particularly well pleased with the progress and the prospects for the field.

BOGS AND--HOGS

There are of many kinds, different colors, sexes, sensibilities and intelligences. And like the Biblical story concerning the poor, "ye will find him who refuses to give any of the highway, and the end of the hog who takes the end of the theater and church and makes a coming in later brush past him to the seat. Then there is the post-hog who gets his (and "he" always of the masculine gender) mail and stands in front of the box to read while others, waiting for their boxes, have to look on and wait; who insists, when the windows are closed while the postmaster and his assistants are going to get the freshly arrived mail distributed, that the window be opened and he be given his parcel package, or after closing hours, that the postmaster open the windows and sell him a postage stamp.

The woods are full of hogs. Some of them of the four-legged variety. May his tribe decrease.

RIG AT LITTLE NO. ONE BURNED DOWN SUNDAY

Fire of unknown origin destroyed the rig at Little No. 1, three miles southwest of Westbrook late Sunday afternoon. The tools were considerably damaged but not totally destroyed and some items of the string will be salvaged. The loss is estimated at \$10,000 with no insurance.

No one was at the well when the fire originated. A Buford, tool dresser on the job, left the well at a few minutes after 6 o'clock Sunday afternoon after dressing a bit and fires in the furnace had been extinguished. C. P. Conoway, who lives near the location, detected the flames soon after seven o'clock but upon arrival could do nothing to check them.

D. J. Lewis, driller in charge of the well, stated that he would replace the derrick and tools at once and continue the test. It was reported in Colorado Wednesday afternoon that a new string of tools had been ordered by wire, but Mr. Lewis was out of the city and this report could not be confirmed by him.

Little No. 1, first test to be started by the Renotex Oil & Land Corporation on their Mitchell county holdings, was spudded Saturday, Mar. 5, and operations had progressed satisfactorily during the ensuing week before the rig was destroyed.—Colorado Record.

GIVING OUT
The Struggle Discourages Many a Citizen of Pecos.

Around all day with an aching back, Can't rest at night; Enough to make any one "give out." Doan's Kidney Pills are helping thousands. They are for kidney backache; And other kidney ills. Here is Pecos proof of their merit: Mrs. M. D. Jester says: "I was in bad condition and it seemed I could get no relief. My kidneys acted irregularly, much too often, but not freely enough. I was in great pain. I was all tired out and could hardly get around. After using different remedies I tried Doan's Kidney Pills and they soon put me on my back. Doan's regulated my kidneys and I felt better in every way. I wouldn't be without Doan's Kidney Pills."

A MAN MAY BE DOWNED HEAVY CARRY-OVER OF COTTON

When Abraham Lincoln was a young man he ran for the legislature in Illinois, and was defeated. He next entered business, failed and was seventeen years paying his debts. He was engaged to a beautiful woman—she died.

He entered politics again, he ran for congress, and was again defeated. He then tried to get an appointment in the United States Land Office, and failed.

He became a candidate for the United States Senate, and was badly beaten.

He ran for vice-president and was once more defeated. When you think of your hard luck—think of Lincoln.

CITATION BY PUBLICATION
THE STATE OF TEXAS,
To the Sheriff or any Constable of Reeves County—Greetings:

You are hereby commanded to summon J. J. Turnham by making publication of this citation once in each week, for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Reeves County, to be held at the Court House thereof, in Pecos, Texas, on the fourth Monday in April, A. D., 1921, the same being the 25th day of April, A. D., 1921, then and there to answer a petition filed in said Court on the 22nd, day of March, A. D., 1921, in a suit, numbered on the docket of said Court No. 2117, wherein W. D. Hudson is plaintiff, and J. J. Turnham is defendant, and said petition alleging in substance, that defendant is indebted to the plaintiff upon three promissory notes, the first of said notes being in the sum of \$2,500.00, and the other two notes being in the sum of \$3,000.00 each, all bearing date February 10th, 1920, the first of said notes being due November 1st, 1920; the second note being due May 21st, 1921, and the third note being due November 21st, 1921, all signed by the defendant and payable to plaintiff at Pecos, Texas, all of said notes providing for 8 percent interest per annum from date, payable annually, providing for ten per cent attorney's fees and providing that if any one of said notes or the interest on any of said notes was not paid when due, the holder thereof could declare them all due. That said notes were given for a part of the purchase money of Sections Nos. 20, 25, 28, 36, N 1-2 of 34 and W 1-2 of Section 10, Block 57, Tsp. 1, T & P. Ry. Co. survey, Reeves County, Texas, and that in said notes and said deed the lien was reserved to secure the payment thereof. That the first of said notes is past due and unpaid and the interest on the balance of said notes is due and unpaid and plaintiff has declared all said notes due and payable and sues for the amount of same and to foreclose the said vendor's lien on the lands above described.

Herein Fail Not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Pecos, Texas, this 24th day of March, A. D., 1921.

No Worms in a Healthy Child
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GRAY'S TASTELESS CHILDRONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general Strengthening Tonic to the whole system. Future will cheerfully throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. See the bottle.

The American Cotton Association recently issued some cotton statistics which should deter every farmer from planting over half of his normal cotton acreage. In 1914-15 the world carry-over was 8,835,000 bales, which was then the largest carry-over of record. Recent complications point to a carry-over of 9,700,000 bales of American cotton alone and to this is to be added 1,830,000 bales of foreign cotton.

The world's estimated supply of cotton July 31, 1920, was 5,346,000 bales. The world's production, 1920-21, was 19,778,000 bales, which added to the supply on hand made a total of 25,624,000 bales. Consumption has been 20 per cent below normal and it is believed that requirements of all existing spindles will be filled with 14,044,000 bales, leaving a total of 11,580,000 bales to be consumed in 1922.

Cotton growers can readily understand that if a normal acreage is planted and America produces another 12,000,000 bale and other countries make a normal production there will be a world supply of more than 30,000,000 bales of cotton, whereas normal consumption is less than 20,000,000.

It is said that figures do not lie but that men lie about figures but it seems to be the consensus of opinion that even a half crop will be more than enough to supply the demand for cotton for another year.—Farm and Ranch.

"MARZO e PAZZO"

The Italians have a phrase that rhymes as it should in a land of music and poetry which says: "Marzo e Pazzo," literally "March is crazy."

It is a fact. It is the month when we all love to look out on the morning weather and remark joyfully "this looks like spring." And indeed, March days often look like spring and sometimes even like summer.

But March is crazy. The weather man tells us it is sneyer safe to lay aside our expectations of blizzards even in 40 degrees of latitude—that is, the latitude of Philadelphia—until well after the last day is past. Crazy March, indeed, occasionally leads gentle April astray. One of the worst blizzards ever experienced in the Great Lakes region occurred about the tenth of April some twenty years ago.

We have had an unusually mild winter. Comparatively speaking, it might be said that there has been no winter at all south of the Dakotas and Montana. Everything indicates an early spring with early planting, early breaking out of the buds, and "everything." But crazy March may yet spoil it all. The peach crop may yet be destroyed, as usual.

Still, let's not be pessimistic. Old Boreas may not be too severe. And even if he is, spring will come eventually, if not now, and we'll all be happy and glad again with our sunshine and flowers and all growing things.

Including flies!

The Director of the Census announces, subject to correction, the following preliminary figures for irrigation in Reeves County, Texas:

Acreage irrigated, 1919	13,286
Acreage irrigated 1909	13,986
Percent of decrease	5.0
Acreage to which existing works are capable of supply water, 1920	20,553
Acreage to which existing works are capable of supply water, 1910	17,378
Percent of increase	18.3
Acreage to be irrigated by works either completed or under construction, 1920	36,066
Acreage to be irrigated by works either completed or under construction, 1910	44,858
Percent of decrease	41.9
Acreage available for settlement, to be supplied with water by works either completed or under construction	7,360

It will be seen by above tabulation taken from the U. S. Census report 1920 that the acreage irrigated has diminished 700 acres in the last ten years; that 3,175 acres could be now irrigated by the present supply which is not under ditch; that there are 7,360 acres available for settlement to be supplied with water by existing works under construction. It is very apparent that Reeves county has room for improvement in the number of irrigated acres.

COURTLAND SMITH'S NEW ACTIVITY

Courtland Smith, named by President Harding as assistant to the Postmaster General, in entering public life takes the second step in a life work dedicated to the service of the country people. He has accepted the post because he believes the field before him affords still a greater opportunity than as president of the American Press Association for helpfulness to the farmer, the country home dweller, the country housewife, and the country newspaper.

Trained from boyhood to sense the fact that American life and American development are depending on the tiller of the soil, Mr. Smith has spent all of his working life carrying out the ideals of his father, and has sought to make country life happier and country folks more prosperous, establishing his contact with even the remote sections by means of The American Press Association, whose mission has been to make prosperous the country newspaper. The growth of the prosperity of the country newspaper has meant in proportionate degree a growth in the business and welfare of those to whom the country newspaper makes its appeal.

Strong and respected country newspapers meant to Mr. Smith the ability of the pub-

lisher to put before the farmer publications that were more helpful, more inspiring. He saw that before the country newspaper could efficiently carry out its great service of education that the country newspaper publisher must become financially independent, and in the last eight years he has succeeded in developing country newspaper income from an annual sum of about \$10,000 to an annual income of \$200,000.

It is understood by the writer that Mr. Smith sees in the postal savings banks and in the rural free delivery machinery for greatly extending the happiness and benefit of the rural communities as well as a means of establishing a closer contact between the government and the people, and gaining a more intelligent understanding of wise government functioning. Financially independent, though not a rich man as riches go in these days, the new Assistant Postmaster General makes a personal sacrifice to play his part in the work as he sees it.

In this column of the Enterprise last week a statement was made relative to the Sunday and Holiday mail distribution. The merchants, professional men and others who held boxes before the post office was burned found the access to their mail on Sundays a convenience. The object of the editorial was to spur up the department to give the replacement of the boxes some consideration and was no reflection upon the efficiency of the postmaster nor his very attentive employees. The postmaster, in fact, violates specific instructions from the department when he handles or distributes mail on Sunday.

LEGION MEETING

A banquet to observe the fourth anniversary of entrance of the United States into the World War, a minstrel show and a baseball game with Barstow were decided upon at the weekly meeting of the Richard Briscoe Post of the American Legion Wednesday night.

Tom McClure and Charles Manahan were named as a social committee for April, May and June, and will have charge of the dinner arrangements.

C. A. Young, Dr. W. P. Meredith and Allen Cavett were named as a committee to have charge of the minstrel show, and they will make a preliminary investigation and report arrangements back to the next regular meeting of the legion post in two weeks.

Charles Manahan was appointed to accept a challenge for a baseball game between the Barstow and Pecos posts of the Legion, and to select the team.

Some discussion of the organization of an auxiliary to the Legion Post was had, and it was decided to present the matter to the ladies at the banquet on April 6, and to arrange a meeting date a short time after that date to organize the auxiliary.

Our Most Extravagant Predictions Coming True

We were saying it more than two years ago. They are all saying it now. Some of the world's foremost geologists have been in Pecos. All of them say that Pecos is destined to be another Tampico; that it will in all probability be the world's greatest oil field; that the LAURA WELL of the SUNSHINE-FEDERAL INTERESTS will flow over the top in another hundred feet; that it will be a gusher, and that there is no doubt of it.

WHAT ARE YOU WAITING FOR?

Are you waiting for more evidence to persuade you? If so you are likely to wait until it is too late.

WHAT HAVE WE FOUND?

The sample of oil at our office taken from the bottom of the Laura has been seen, handled and tested by hundreds, and all have the same opinion; Tampico formation and a gusher near.

THE GOLDEN OPPORTUNITY AT PECOS

We have thousands of Acres in the Pecos Field. We were here first and procured gilt-edge oil leases on lands selected by us before anybody else ever thought of Pecos. Wire us if you wish to make an investment. Make known to us how much acreage you want and what price you wish to pay. Better spend a few dollars on a wire and save money, do not wait for more news. The news is already as big as all outdoors.

PECOS IS THE BIGGEST OIL PROPOSITION IN THE OIL WORLD TODAY

We are answering many wires and we will answer yours. We are placing those who have confidence in us, in the cream of this great oil field. Our time is yours and no matter how large or how small your order we will give it the same careful consideration.

PECOS GIRLS TAKE PRIZES AT BAYLOR

The Misses Francis Hubbard and Mozelle Bryan who are attending Baylor College for women at Belton, Texas, were the recipients of two sets of prizes in the social festivities. These young ladies were both proficient students in our high school and were popular with their school-mates. The first prize was received at the Colonial Fancy Dress Party of their class, consisting of about 400 members. Both were considered as wearing the best arranged and most appropriate costumes and carrying the most graceful bearing. The second prize was awarded them for the most original "stunt" devised by the impersonators. The "stunt" was a pantomime of the old scotch poem "Lochinbor." Francis was Loch and furiously dashed to banquet on a stick horse, seized the fair Ellen (Mozelle) and carried her off notwithstanding the protest of her irate father and his assembled guests. They were unsuccessfully pursued by a large number of knights, also on stick horses.

In the stunt competition all of the class in college numbering eight, and the Juniors were participants. The stunt prize were specially designed lamps which the winners will carry in the grand march as emblematic of superiority in some special competition.

BOOTLEGGERS SENTENCED

In the United States Court in session here this week the following were sentenced for violation of the national prohibition act:

Mrs. H. M. Dunn, a native of Arkansas, but recently from Detroit, Mich., was arrested at the Orient Hotel with 11 bottles of "Old Taylor" whiskey in her possession. She pleaded guilty and was fined \$100.00 and costs.

Earnesto Penado was apprehended at Toyah and confessed to a large amount of "Tequila" found with him in a barn by Sheriff Kiser. Plead guilty and fined \$250.00 and costs.

Natividad Valensuela was apprehended between here and Balmorhea with the contraband. Plead guilty fined \$50.00.

Manuel Bustamente and Laz Lujon were arrested together in Loving county. Lujon pleaded guilty, but Bustamente stood trial and was convicted by the Court. They were both fined \$150.00 each and costs.

None of the above prisoners were financially able to pay their fines and they were remanded to the custody of the jailer for thirty days when they will be discharged if they make a paupers oath and that they are unable to pay their fines.

LIBEL SUIT WITHDRAWN

In the United States Court this week. The case of Ira J. Bell against P. H. Solomon of Springfield, Ill., for libel and slander was withdrawn without prejudice by attorney for plaintiff. Mr. Bell will pay the costs of Court. The suit was brought for \$100,000.00 damages.

SARAGOSA NEWS

Rudolph Hoefs was a Pecos visitor the first of the week.

Taylor Conger was a business visitor to Pecos Tuesday.

Misses Jimmie Conger and Laura Williams spent Saturday in Pecos.

Mrs. Sol Mayer came in last Wednesday for a short visit to her husband, Sol Mayer and her son, Edwin.

Mr. and Mrs. J. W. B. Williams and Mrs. P. A. Harbert motored to Pecos Tuesday.

Mrs. Martha Adams, Mrs. C. M. Honaker and Mrs. Hubert Honaker were the guests Tuesday of Mrs. Henry Meyers at Balmorhea.

Harold Farbess left Thursday in his car for Arizona. He intends to visit points in Colo. before returning.

A number of the ladies attended the Missionary Society at Balmorhea last Thursday. The program was very interesting.

W. W. Massey, deputy sheriff of Balmorhea was in this week attending the Federal Court. It seems that "Bill" has apprehended several bootleggers recently, but says that his friends are doubtful of it being real stuff and insist on sampling it, but this he cannot afford. He was instrumental in the arrest of a Mexican bootlegger who pleaded guilty.

SOCIAL EVENTS

EASTER DINING
The apartment of Mr. and Mrs. Allan Cavett was the scene of a delightful one o'clock dinner on March 23. The table appointments of silver, cut glass, china and Maderia embroidered linens was very pretty, with favors of kewpies bedecked in pieces of the wedding gown of the hostess, who is one of last season's most charming brides.

Covers were laid for Mesdames A. E. Wilcox, John Camp, John Hibdon, J. W. Parker and Mr. and Mrs. Allan Cavett.

ENTERTAINS AT DINNER
Mr. and Mrs. Allan Cavett were at home to a number of their friends at a delightful six o'clock dinner Saturday evening.

This occasion was in keeping with former similar affairs at this hospitable home. Mr. and Mrs. Cavett have proven themselves to be adepts at entertaining. The table appointments, the serving and the delicious ly prepared viands were up to the minute, covers were laid for the following: Mr. and Mrs. Roy Wilcox, Mr. and Mrs. Pat Fulgim, Mr. and Mrs. Tom Jones, Mr. and Mrs. Rodger White, Mr. and Mrs. Frank Cavett, Mr. and Mrs. H. C. Glover and the host and hostess, Mr. and Mrs. Allan Cavett.

MISSIONARY TEA
The Missionary Society of the Methodist Church together with other ladies of the church and other invited guests were delightfully entertained Tuesday afternoon at the parsonage. The hostesses were: Mrs. Fred B. Faust, Mrs. O. T. Norwood, Mrs. P. J. Rutledge, Mrs. Joe Hollebeke and Mrs. Andy Waugh. The attractive decorations were suggestive of Easter which was carried out in the menu. There was not a dull moment in the whole afternoon. Mrs. H. N. McKellar rendered a beautiful piano solo. Mrs. Lillian Butler in her characteristically charming manner gave a vocal solo with Mrs. C. B. Jordan as piano accompanist, and two charming and pretty little lasses, Janice McKellar and Nora Belle Hollebeke each gave delightful readings. There were also a number of interesting and instructive missionary contests relative to the work.

The favors were little fluffy yellow Easter chickens.

LADIES COLUMBIA SYMPHONY ORCHESTRA TO PLAY HERE THURSDAY APRIL 7

Attractive Organization Will Present Soprano, Dancer And Several Instrumental Soloists.

The announcement which has been made by Mgr. Wasserman of the Rialto Theatre that the Ladies Columbia Symphony Orchestra will appear in this city on April 7, has aroused considerable interest among music lovers and theatre patrons. This attraction is one of the most unique orchestras that has ever appeared in the United States or Canada. It has a woman conductor, Mme. Frances Knight, a very distinguished musician, and the entire personnel of the orchestra is made up of 30 gifted young lady musicians.

Their program is a particularly happy and versatile one and includes vocal selections by Genevieve Gilbert, soprano, four solo dances by Miss Dorothy Volkey, ranging from the Russian Ballet to toe dancing. Each dance is given in different costume with full orchestral accompaniment. The orchestra travel in its own private sleepers and is making its first trans-continental tour, achieving splendid success at all points.

Their complete program will be published shortly. Meanwhile their appearance is eagerly anticipated by our music lovers.

Reserved seats will go on sale shortly.

MAN COUGHS UP BULLET RECEIVED IN BATTLE OF VICKSBURG, 1863
Lanett, Ala., March 22.—W. V. Meadows, 78, a veteran of the Civil War who was shot in the eye at the battle of Vicksburg, July 1, 1863, today coughed out the bullet and is in his usual good health, despite the fact that he had carried the slug, weighing approximately one ounce, in his head for fifty-eight years.

Mr. Meadows was a member of Company G. Thirty-Seventh Alabama Infantry.—Associated Press.

Nicholas Pfeiffer of Saragosa, a native of Germany, and T. T. Downes, of Toyah a native of Ireland were naturalized in the United States Court here this week. Both of these gentlemen were already thoroughly Americanized and the citizenship papers will entitle them to U. S. protection should they visit their native countries.

PAPA'S MONEY

The idle youth who inherits a fortune is in greater danger than he who faces the muzzle of a gun in the hands of an angry opponent.

The youth who has all the money he wants to gratify whatever whims or indulgences he may crave is as surely headed for the scrap pile as that infant who cut its fingers if handed an open razor.

Mother

Give Sick, Bilious Child "California Fig Syrup"

Give Sick, Bilious Child "California Fig Syrup"

"California Syrup of Figs" is the best "laxative physic" to give to a sick, feverish child who is bilious or constipated.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

"CASCARETS" IF SICK OR BILIOUS

Tonight sure! Let a pleasant, harmless Cascaret work while you sleep and have your liver active, head clear, stomach sweet and bowels moving regular by morning.

NOTICE OF ELECTION

State of Texas, County of Reeves.

On this the 21st day of February, 1921, this court being in regular session, came on to be considered the petition of T. Y. Casey and seventy-two (72) other persons praying that bonds be issued by Road District No. 1, of Reeves County, Texas, in the sum of One Hundred Thousand (\$100,000.00) dollars, bearing a rate of interest to be fixed by the Commissioners' Court not exceeding Five and One-half (5 1/2) per cent, and maturing at such times as may be fixed by the Commissioners' Court, serially or otherwise, not to exceed thirty (30) years from the date thereof, for the purpose of constructing, maintaining and operating macadamized, graveled or paved roads and turnpikes, or in aid thereof.

And it appearing to the court that said petition is signed by more than fifty of the resident property taxpaying voters of said Road District No. 1, Reeves County, Texas, said Road District No. 1, having been established by an order of the Commissioners' Court of Reeves County, Texas, dated the 8th day of December 1913, of record in Book two (2), Page 15, of the Road Minutes Records of Reeves County, Texas, within the following metes and bounds, to-wit:

Beginning at a point where the south boundary line of the State of New Mexico intersects the Pecos River; thence down said Pecos River with its meanders, to the boundary line between said Reeves County and Pecos County; thence in a south-westerly direction along said boundary line to a point where said line intersects the north line of Section No. 37, Block 50, Tsp. 8, T. & P. Ry. Co. Survey; thence west with the said north line of said Section 37 and its continuation to a point where the North line of Section 38, Block 52, Tsp. 8, T. & P. Ry. Co. Survey, intersects the West line of Section 299, Block 13, H. & C. N. Ry. Co. Survey; thence up the West line of Section 299 to its northwest corner; thence in a westerly direction with the Section lines to the southwest corner of Section 107, Block 13, H. & C. N. Ry. Co. Survey thence up the West line of said Section 107, to a point where said line intersects the line between Sections 12 and 13, Block C-10, Public School; thence west with said line, to the southeast corner of Block 55, Tsp. 7, T. & P. Ry. Co. Survey; thence north with the East line of said block to its northeast corner; thence west with the north line of said block to the southeast corner of Section 8, Block C-5, Public School; thence north to the southeast corner of Block 72, Public School; thence north with the East line of said Block 72, to the northeast corner of Section No. 22, Block C-17, Public School; thence west with the north line of Section 22 and 23, said Block C-17, to the southwest corner of Block 55, Tsp. 5, T. & P. Ry. Co. Survey; thence north following the East line of Blocks 58 and 57, Public School, to the northeast corner of Block 57 aforesaid; thence along the north line of Blocks 57, 56 and 53, Public School, to the County line between Reeves and Culberson Counties; thence in a northerly direction following said County line to a point in the south boundary line of the State of New Mexico where said County line between said Reeves and Culberson Counties intersects said State line; thence following said south boundary line of said State of New Mexico east to the place of beginning.

It is therefore considered and ordered by the court that an election be held in said Road District No. 1, of Reeves County, Texas, on the 26th day of March, 1921, which is not less than thirty (30) days from the date of this order, to determine whether or not the bonds of said Road District No. 1, of Reeves County, Texas, shall be issued in the amount of One Hundred Thousand (\$100,000.00) Dollars, bearing a rate of interest to be fixed by the Commissioners' Court not exceeding Five and One-half (5 1/2) per cent, and maturing at such times as may be fixed by the Commissioners' Court, serially or otherwise, not to exceed thirty years from the date thereof; and whether or not a tax shall be levied on the property of said Road District No. 1, of Reeves County, Texas, subject to taxation for the purpose of paying the interest on said bond and to provide a sinking fund for the redemption thereof at maturity.

Notices of said election shall be given by publication in a newspaper published in said Road District No. 1, Reeves County, Texas, for four successive weeks before the date of said election, and in addition thereto there shall be posted notices of such election at three public places in Road District No. 1, of Reeves County, Texas, for three weeks prior to said election, and the following-named person is hereby appointed manager of said election, F. P. Richburg.

Said election shall be held under the provisions of Article 627 to 641, inclusive, of Chapter 2, Title 18, Revised Statutes, 1911, and as amended by Chapter 203, Acts of 1917, and only qualified voters who are property taxpayers of said Road District No. 1, Reeves County, Texas, shall be allowed to vote, and all voters desiring to support the proposition to issue

FINANCIAL REVIEW

Prepared for The Enterprise By The First National Bank in St. Louis.

According to the official report on the stock of cereals on farms in the United States on March 1st, 1921, issued by the Crop Reporting Board of the Department of Agriculture, it is disclosed that the combined aggregate of grain holdings on the farms was of a record volume. The report also showed that the "carry over" was larger than has generally been expected.

The stock of corn in the hands of the growers was estimated at almost half of the record production of last year. Practically the same may be said for oats. Of wheat, the supply, while somewhat less than the amount on the farms in 1917 from the billion bushel crop of 1916, was with that exception the heaviest in our history. It is estimated that the total stock of wheat on the farms and the visible supply at points of accumulation in the country is about 238 million bushels or 23 million bushels more than a year ago. In addition to this, there were at mills and elevators probably 82 million bushels of wheat. The total supply this year on March 1st was in the neighborhood of 328 million bushels as compared with 333 million bushels last year.

Reports covering the winter wheat crop outlook are unofficially regarded as quite satisfactory. While the official report of last December indicated a reduction in the area sown of about 2.8 per cent less than last year. The grain this year went into the winter better than in 1919. There have been complaints from time to time of the Hessian fly or green bugs, but on the whole the crop is believed to have wintered well. If this is true the abandonment of area as a result of winter killing is likely to be much less than a year ago. Thus, the wheat outlook can be considered to be at least up to the average.

DO YOU KNOW?

Lincoln, Garfield, and McKinley were assassinated.

Until the retirement of Woodrow Wilson, William Howard Taft was the only living ex-president following the death of Roosevelt.

Arthur was considered the handsomest of all the Presidents. Van Buren, trained and fitted as a man of fashion, was the most faultlessly dressed of the nation's executives.

Lincoln was the tallest of the Presidents, Madison the shortest, Polk the leanest, Cleveland the stoutest and Taft the largest.

Harrison was the oldest man elected to the presidency and Roosevelt the youngest.

Buchanan and Cleveland were bachelors when they entered the White House; Cleveland married during his first term.

Washington was the only American whose birthday was publicly celebrated while he lived. This day, February 22, is a national holiday. Lincoln was the first President who wore a full beard and Grant the first who wore a mustache.

Adams and Jefferson were signers of the Declaration of Independence and Washington and Madison of the Constitution.

Washington died at the beginning of the last hour of the day, of the last day of the week, of the last month of the year, of the last year in the century.

RECORD ALFALFA YEAR

The growing popularity of alfalfa served to place total receipts of hay in Kansas City at a new high record for all time. The great bulk of daily arrivals was at all times in this class of cured grass. Total receipts for the year will amount to more than 6,800 cars in excess of the supply yarded here the year 1919 and at that time the heaviest year's supply ever marketed through the local hay dealers association. The earlier months of the year found a very stable market at all times and values held close to those paid at the close of the previous year. Corn and feed prices were high and the manufacturers of prepared feeds using alfalfa did a big business. Mills were running full blast at the early harvests, but with the heavy drop in corn and other natural feeds, prices of alfalfa failed to decline in proportion and this practically eliminated the millers from the buying. This was one of the strongest factors in high values the previous year and had it not been for sudden slump in supplies the year would have, perhaps, closed with some very disappointing quotations on this class of hay. However, with the new high freight rate in effect, prevailing values at the close of the year were hardly high enough to insure any great amount of profit to the shipper.—Drover's Telegram.

DODSON WARNS CALOMEL USERS

Calomel is quicksilver. It attacks the bones and paralyzes the liver. Your dealer sells each bottle of pleasant, harmless "Dodson's Liver Tonic" under an ironclad, money-back guarantee that it will regulate the liver, stomach and bowels better than calomel, without sickening or salivating you—15 million bottles sold.

WHAT you lose thru baking failure must be added to baking costs—it has to be paid for.

Calumet Baking Powder will save you all of that. Because when you use it—there are no failures—no losses. Every baking is sweet and palatable—and stays moist, tender and delicious to the last tasty bite.

That's a big saving—but that isn't all. You save when you buy Calumet and you save when you use it.

Pure in the can - Pure in the baking
CALUMET BAKING POWDER
"BEST BY TEST"

It is reasonable in cost and possesses more than the ordinary leavening strength. You pay less and use less. You get the most in purity, dependability and wholesomeness.

In every way — it is the best way to keep down baking costs. That's what has made it the world's biggest selling baking powder — has kept it the favorite of millions of housewives for more than thirty years.

Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Sunshine Cake Recipe
1 1/2 cups butter, 1 1/2 cups granulated sugar, 2 1/2 cups flour, 1 cup water, 2 level teaspoons Calumet Baking Powder, 1 teaspoon lemon, yolks of 9 eggs. Then mix in the regular way.

The above list does not include many shallow wells in the Toyah field, and only those in actual operation in the Pecos Valley field. I know of no oil field that at the same stage of development (20 months) that had so many active operations, and the fact that migratory or seepage oil has shown to a remarkable amount proves beyond question that the big pools are surely here, and it is certain that some of these operations will go into them when they get deep enough, which may be anywhere from 2500 to 4000 ft.

The El Paso-Saragosa well is drilling in the center of Section 221, Block 13 and found a good oil sand at 220 feet, but is going down to bigger production. A contract has been let to develop this shallow sand. I offer for the next ten days the Southeast quarter of Section 220, Block 13, just one-half mile from the El Paso-Saragosa well for only \$10 per acre, straight 88 form. Leases in this neighborhood have recently sold for \$25 per acre. A chance for someone to buy this 160 acres and sell it out in smaller tracts. Phone 16 or call for Walker at the Enterprise office, Pecos Texas.
