

OIL FLOW CONTINUES IN TOYAH-BELL

WAGGONER WELL SUPPLY CO. INVEST \$100,000 IN HOUSE HERE

Another evidence of faith in Pecos and her oil field is the decision of the Waggoner Oil Well Supply Company of Forth Worth, Texas, to invest \$100,000.00 in building an equipment for a branch supply house at Pecos.

J. P. Steel and O. F. Swift, representatives of the company spent three days in Pecos this week and on Wednesday closed a deal for a lease on the Drummond property, which is trackage property and is located just South of the Texas & Pacific tracks and East of the station.

Mr. Steel said Thursday, just before departing for Forth Worth, that a man is to be sent out of Forth Worth to Pecos immediately for the purpose of directing overhauling and changes in the property for the installation of the machinery and equipment which will be rushed to completion here. He said also that supplies will be here ready to accommodate all the demands of drillers and oil men whom he thinks will continue to come here in large numbers.

"We endeavor to be the first on

the field, everywhere oil is discovered" said Mr. Steel, "and we are going to be the first to serve the oil men here."

Speaking of the prospects for a great field here he said: "I have inspected many fields in their beginnings and I have never seen one yet with better ear marks for a great oil field than this one. I have seen good fields come in with far less indications of a field than are to be found here. I see no reason why there shouldn't be plenty of oil over a good area in this section. We have gone over the field, met your hospitable people and have tried to see everything that is to be seen with the result that we are thoroughly convinced that a real oil field has been started. Of course we never know. And we do not pretend to know just what you may have, but to say the least if it isn't a winner we are gambling to the extent of about \$100,000 for we are putting that much into our oil well supply house here."

EFFORTS BEING MADE FOR AN AMPLE SUPPLY OF SOFT WATER

What is perhaps next to the oil field in interest to the residents of Pecos is the present prospect for a supply of soft water for the town.

Efforts are now being made by M. E. Neiderkorn, Manager of the Pecos Light and Ice Company to supply good soft water for Pecos. It is said that soft water is found in the "P" wells, sixteen miles Northeast of Pecos but it is only a question of whether there is sufficient quantity to supply the needs of the town. Mr. Neiderkorn said Thursday that he is going to put a pump on the wells probably within the next week, to ascertain definitely whether there is a sufficient and permanent supply of water there. A sample of the water has also been sent away for chemical analysis. An analysis made here shows that it is good soft water.

"We do not know anything about the amount of water that may be available from these wells" said Mr. Neiderkorn. "But we are making every effort to test the situation out before we go to the expense of laying pipe, establishing machinery or making any promises to the people of Pecos. We appreciate fully the need of good soft water for the town and we will go as far as we can to secure it. The wells out there are six inch holes and have been operated by windmills in the past. It is hoped that there is enough of the water to supply the town. If there is found to be enough, when

our careful test is made by pumping on the wells a sufficient length of time to see if it will hold out, we will then proceed to connect the supply with Pecos, and proper arrangement, I am sure, can be made to run the water through the present distributing mains and pipes to the many homes and business places. No less than an eight inch pipe will be laid from the wells to the town, if the water is found to be in sufficient quantity."

It is well known that Pecos has an ample water supply of the kind we have and it is believed by many to have unusual health giving qualities but because it contains so much solid matter it is difficult to use for household purposes and is not good for making of steam in industrial plants. If the soft water is brought here it will be borne in mind by those back of the undertaking, according to Mr. Neiderkorn, that a sufficient supply should be provided to enable the establishment of refineries and other industries that require soft water.

Mr. Neiderkorn thinks that the test can be completed within the next two weeks. And when asked how long it should take them to lay the pipe and make connection with the city mains, he said this could probably be done within two months.

The Ice Company, of which Mr. Neiderkorn is president, is now shipping mountain water from Balmorhea for making ice.

FAMOUS DRILLER BANKS ON PECOS

No more hopeful operators have ever explored in Texas than the Pecos-Angeles men who are drilling in Scrap section 68, five miles from the Toyah Bell well. In fact they declare they are practically sure of getting oil, as sure as any who ever drilled a well. And they are prepared to go 5,000 feet deep for the liquid gold, if necessary, according to O. F. Scherer in charge of the company's operations in this territory.

The driller in charge at this well is one of the most thoroughly trained and experienced men in this line in the world. He is F. M. Berry who was formerly field manager for the Standard Oil Co., and is considered one of the most practical geologists and successful drillers in the country. He has drilled in South America for the Standard people and was the first to introduce modern oil drilling machinery in the search of oil in Burma, India. And according to Mr. Scherer, Mr. Berry believes the Pecos-Angeles well is as sure for good production as any he has ever drilled. He located this one and is assisting the Pecos-Angeles people in spotting the whole Pecos territory with leases and they are said to have already fastened on several thousand acres here.

The Pecos-Angeles well is now down 725 feet and the twelve and one-half inch casing is being set.

Bishop Schuler, of El Paso, was a distinguished visitor of Pecos last Thursday. He stayed at the home of Mr. ... On Friday morn-

NEW DERRICK TO BE ERECTED FOR BELL NUMBER ONE

Ira J. Bell announces that the Dixieland Syndicate has let a contract to R. G. McDonald for the reconstruction of a derrick over the site of its No. 1 well, the derrick of which was accidentally burned to ground early Saturday morning of last week.

The derrick over Bell No. 2 is being torn down preparatory to being erected over the well where the derrick burned. The work was started Thursday afternoon.

Mr. Bell received some interesting and encouraging letters yesterday from men and friends in various parts of the country who are interested in the well of his company.

One of these was a message from W. M. Strader, Los Angeles, expressing appreciation to Mr. Bell for his splendid business dealings and also expressing sympathy in the loss of the derrick that burned last week. He enclosed a check for \$1,000.00 to apply on the work that is being carried on.

Among the visitors in Mr. Bell's office this week were K. M. Reagan of Chicago, Manager in Chicago for the Ira J. Bell Co., and who on this trip has bought some leases. T. H. McElvain the McElvain-Hoy Coal Company of Chicago is here and also purchased some leases. D. J. Dyer also of Chicago bought leases this week and is here looking over the field. Mr. Dwyer is an advertise-

SUCCESSFUL CALIFORNIANS ARE INTERESTED HERE

Friends and acquaintances of William Rhodes of California, an independent oil operator, who spent much time in the Pecos field a few months ago will be interested in the report of his recent good fortune in successful operations in the California fields. He now has a number of good producing wells and seems to be a good judge of oil lands.

R. S. Miesse, who is associated with Mr. Rhodes, writes that he and Mr. Rhodes are much interested in the Pecos field and are keeping their eyes on developments here. They will probably make an announcement soon concerning operations they plan for this field. Mr. Miesse's address is now 607-8, I. W. Hellman Bldg. Lo Angeles, Calif.

RAPID PROGRESS ON TRANS-PECOS WELL

The Trans-Pecos Oil Company is running day and night on their well six miles east of Pecos, known as Longenecker No. 1, and are this week running the eight and a quarter inch casing.

The vigorous work that is characterizing the efforts of this company together with the log of the well which is being studied closely command much attention from all who are interested in the Pecos oil field.

B. J. O'Reilly of the company announces that everything at this well is going in splendid order and the indications are that the drill will go down rapidly during the next few days. Additional improvements in the form of electric lights and a bunk house have been made recently, at this location.

IRRIGATION MEN OF BUENAVISTA ARE OPTIMISTIC

A delegation of prominent men of the Buena Vista irrigation district were in Pecos Friday to attend the meeting of the Pecos Valley Water Users Association. Among them were R. H. Gray and Judge Fred Brostred, and with them came J. W. Lutz of Forth Worth and W. L. Montgomery of Sioux City, Iowa.

Mr. Montgomery is looking over the Pecos Valley country with a view to making large investments for himself and a large financial concern of the North which he represents. And it was stated by those with him that he is highly pleased with what he has seen so far.

Mr. Gray stated that crops are good this year on the irrigated lands of the Buena Vista district and that a large production of cotton had been made and is about all gathered. A good price was received for the cotton, much of it commanding a premium over the average cotton of Texas, because of the exceptional quality of the cotton raised in this dry climate on irrigated land. He said also that the alfalfa is good and is being put up in large quantities. The Zimmerman tract which these men represent in the conference here represents and investment of a quarter of a million dollars and within the project there are some thirty thousand acres of land subject to irrigation. More water from the proposed Red Bluff dam would mean much more of it under water and producing.

TRANS-PECOS RAISES ITS CAPITAL STOCK

At a meeting of the stockholders of the Trans-Pecos Oil Company Thursday afternoon the capital stock of the company was increased from \$175,000 to \$350,000. This is considered an important action of the company and the officers are looking forward with a greater vision than ever for the success of future development on their holdings.

The company's well in Ward county is now drilling in the blue sandy shale at below 1200 feet.

WEST HAS BECOME EAST

A Dallas dispatch carries the information that a marriage license was issued the other day to J. East

ACTUAL WORK ON SURVEY FOR DAM NOW UNDER WAY

Prospect for the early beginning of actual work on the big Red Bluff irrigation project are growing brighter every day, the latest encouraging news being from Congressman Hudspeth, Washington, to the effect that a government man is now at work on the survey in the Pecos Valley.

The congressman also expressed the belief that the Smith-McNary bill will pass this session of congress. This would allow a \$250,000,000 loan from the government. And according to Mr. Hudspeth "this would, with a favorable report from the survey, make our project come in as one of the first ones to be constructed."

Jack G. Love of the Pecos Valley State Bank, who has been in correspondence with our congressman concerning the irrigation project and who has been very active in its behalf, is happy over the prospects. He received the following letter from Congressman Hudspeth Tuesday:

"I am in receipt of your letter, and I had a personal interview this morning with the Director General of Reclamation, Mr. A. P. Davis, and he stated to me that Mr. H. P. Darden, a reclamation engineer at Denver, had been directed, and was now in the Pecos Valley making survey of the Red Bluff site. I urged Mr. Davis, and he stated that he would comply with my request, to have the survey made as soon as possible in order to have the report here in due time. I stated to him that I wanted a complete survey and investigation in order to determine the feasibility of the project. Now, if his report is favorable, which I trust it will be, I am very much encouraged over the prospect of the passage of the Smith-McNary bill, which would secure a loan from the government for new reclamation projects of \$250,000,000. With a favorable report our project could come in as one of the first to be constructed."

"I have been working night and day with the Irrigation Committee to get them to report out this bill. They have agreed to report it next week and, while it may be early in the Spring before we get it through congress, still when we get it reported and get it on the calendar it will then look like it is in course of passage and, while there will be a tremendous fight on it by members from the East, I believe we have enough Southern and Western congressmen and Senators to put it through."

Sincerely your friend,  
C. B. HUDSPETH.

CHAMBER OF COMMERCE COMMITTEES ACTIVE

In order that the Pecos Chamber of Commerce may operate more efficiently and have a working organization capable of quickly meeting any situation that may arise, a plan of committee organization has been formulated.

The plan adopted by the greater number of similar commercial organizations, that of placing a member of the Board of Directors at the head of each committee has been followed.

The chairman of the committees named below are asked to call a meeting of their respective committees within the next week to talk over their work, calling the secretary into consultation if desired, and be prepared to report to a meeting of the Chamber to be held in the near future.

Sub-committees when needed may be named by consultation with the president.

Committees.

Finance—O. T. Norwood, chairman; R. E. Williams; Walter Brown.

Roads and Tourist Camp—Tom McClure, chairman; Monroe Kerr; I. S. Wessertman.

City Improvement—W. W. Dean, chairman; M. E. Neiderkorn; A. G. Taggart.

Irrigation—D. W. Bozeman, chairman; Jim Camp; R. S. Johnson.

Oil Development—Ira J. Bell, chairman; B. J. O'Reilly; B. Ramsey; O. J. Bryan; Dr. I. E. Smith.

Housing—J. A. Drane, chairman; T. B. Pruett; E. L. Collings.

Trade relations and entertainment—J. J. Sims, chairman; Albert Sisk; B. A. Toliver.

Farm relations—S. S. Vaughan, chairman; R. N. Couch; J. P. Ross.

W. H. BROWNING, JR., President.  
WALTER N. SUTHERLAND.

Pipe Line to Railroad Completed. Big Tanks are Being Constructed

Gushing over the top at intervals for the past ten days the Toyah-Bell No. 2 well, twenty miles north of Pecos has continued to attract much attention. This much showing without any special effort to clean out the well has established in the minds of many oil men the conviction that this is the initial well in a great oil field.

Preliminaries to actually bring in the well are rapidly nearing completion and the cleaning out of the sand in the bottom of the hole which is believed to be hindering the flow is to be started Saturday—or as soon as necessary arrangements are completed for taking care of the oil.

TANKAGE NEARING COMPLETION

The big steel tanks have arrived and are on the ground. Workmen began to put them up Friday morning with the probability that they will be completed by Sunday.

The pipe line, which had to be run several miles, connecting the well with the Sante Fe railroad track was to be completed Friday night. Surveys have been completed for an eighteen car switch track to be constructed along the Santa Fe tracks between the Arno station and the Arno bridge. Although the loading facilities for the oil had not been completed at the time this paper goes to press, a big wooden tank had been erected and ready to care for a considerable amount of the oil that is coming from the well. The materials for the construction of the loading rack and switch are enroute to the site and work is to be started probably Monday or Tuesday morning.

PACK SAND PREVENTS FLOW

It is said that about fifty feet of packed sand is in the hole, and all the oil that comes out has to come through this sand, indicating that a heavy pressure of gas is beneath. Gas continues to rise from the well in clouds.

Satisfactory responses to the agitations of the swab and bailer have been had during all the past week. A flow of about fifteen barrels of what is declared to be a high grade oil has resulted from each swabbing. The oil at present prices, is estimated to be worth \$3.00 per barrel. Because of the oil that has been found the well has been able to operate under its own power the past two weeks.

Because of the reported advance of fifty cents on the Pennsylvania crude oil has added further stimulus to other oil men toward further developments in the field. The oil from the Toyah-Bell No. 2 is said to resemble very closely the standard Pennsylvania crude.

BIG OIL MEN HERE

Many prominent oil men, some representing some of the biggest companies in America have come to Pecos and many leases are being sold daily on the local exchanges. Also many men who reside in other sections of the state but own land in the Pecos territory have come here to look after their interests. Others are coming daily and are figuring with local property owners for sites for various lines of business. The hotels and restaurants are crowded day and night, but the Chamber of Commerce and the hotels are arranging to take care of all who may come. A rooms committee of the Chamber of Commerce is ready to render any service in getting places for all. At the same time the chamber of commerce officials are insisting that none of the local people will be too hasty in demanding high prices. It is planned to avoid boom prices as long as possible.

WILLOUGHBY SPUDS IN WELL SOUTHWEST OF PECOS CITY

Eyes of oil men are now being turned to the location of Willoughby No. 1, section 2, block C-13, Reeves county, on Cowan ranch Southwest of Pecos, which was spudded in Thursday.

This location was made by C. H. Willoughby by an instrument of his own invention which is said to have been made a proven success in locating oil. The instrument has cost thousands of dollars to perfect and the owner of it declares that he is absolutely sure of oil when it gives the proper indication, for, he declares, it has been tested out where oil was found in paying quantities. He is the man who had charge of the Toyah Bell well when the first oil was struck and he claims as good if not better indications for the Willoughby No. 1 on the Cowan ranch.

This location is five and a half miles from the Pecos and Toyah-Bell wells.

A twelve and a half inch hole is started. W. D. Hopper is the driller and he has had thirty-five years experience in the game, having worked in many different oil fields. Mr. Willoughby says that Driller Hopper's faith in the prospect for oil is so strong that he is taking a block of acreage near the well in lieu of cash for part of his services.

Mr. Willoughby is leaving this week for Chicago and New York on

LIQUOR TRAFFIC IN TEXAS BAD, DECLARES NEFF

There is no need of calling a special session of the Legislature any time within the next few months, according to Governor Neff who arrived here Tuesday morning from Austin to address the League of Women Voters state convention at noon today at The Texas.

The Governor said he favored certain legislation that would bring about more strict law enforcement, but that his proposed laws were submitted to the last Legislature and were rejected, and that they now "could wait."

Neff declared that the illicit liquor traffic in Texas "is bad."

"Who is to blame for it?" he was asked.

"I will tell that when I speak Sunday night, Nov. 13, at a mass meeting at Decatur," and added: "At that time I expect to go into the liquor situation in detail and give my views on why prohibition laws are not more strictly enforced."

Decatur churches have called off their Sunday night services on that night and will join in the mass meeting to hear the Governor.

Neff refused to state what his recommendations would be looking toward a better State Training School for boys where "third degree" treatment is alleged to have resulted in the death of one youth and the brutal punishment of many others.

"The testimony taken at the investigation of the institution is now past due at my office," said the Governor. "As soon as it is received I shall review it and then make known my views."

Governor Neff will leave Fort Worth this afternoon at 3:30 o'clock by automobile for Waco, where he is scheduled to receive tonight at the Texas Cotton Palace the princesses from thirty-six states, including two Mexican states.

At midnight the executive will leave Waco for Austin.—Star Telegram.

THREE MOTTOES

"Hitch your wagon to a star." This is the motto of a class of promising young men and women who graduated from high school this year. An employment office in one of the large cities has this placard hanging over the entrance, "Start where you are with what you've got." A farmer's organization has this banner: "Keep your thoughts unbiased and your feet on the ground."

Here we have three good suggestions for young people starting in life. Thousands have graduated from high school and from college this spring and are planning to "start in life." No better advice could be given than that secured by combining these three mottoes: "Hitch your wagon to a star, but keep your thoughts unbiased, your feet on the ground, and start where you are with what you've got."

Ideals of young people are high—and rightly should be—but care must be taken not to let the "green grass" on the other hill be a misleader. In this country people are very much the same wherever they are found; they need about the same services and have the same wants to be supplied. Often the task at hand which looks unworthy at first is the one later sought by the person who "hitches his wagon to a star," but does not keep his feet on the ground. No success is greater than that of a man who makes for himself a place of usefulness where to the ordinary observer, there seemed to be none. This is a time when most men must look for jobs; the jobs are not seeking the man. Only the men are wanted for large places who have made a success by their own efforts in small places.—Indiana Farmer Guide.

MASON BANS DEER HUNTING. Mason, Oct. 19.—More than one hundred land owners and stockmen of Mason county met at the court house in Mason Saturday afternoon for the purpose of organizing a Protective Game Association for this county. The purpose of the organi-

zation is to protect the pastures and live stock of ranchmen and the small amount of game that exists here.

The forming of this organization was brought about because of the report that appeared several months ago in the daily papers, stating that the deer were eating up the crops in this county, leading the public to believe that Mason county needed some assistance in killing the deer here. The stockmen realizing that such a report would bring numerous hunters here from other counties this season, have organized that they might be in a position to keep non-residents from hunting or trespassing upon their property.

It is the intention of the association to hire a sufficient number of game wardens and deputy sheriffs to ride the range to keep hunters out during the entire season. All pastures are to be posted, and it will be the duty of the officers riding, to arrest all trespassers. In order to finance the organization. Each land owner will be assessed a certain amount per acre, and with the funds so derived, and with the co-operation of the ranchmen, it is believed hunters can be kept out of Mason county.

HOMER LAY MAGEE

Homer Lay Magee, youngest son of Thomas R. and Mary Magee, was born at Albany, Mo., March 2, 1882.

His ambition expressed in early life was to preach the gospel of Jesus Christ, and to this end attended the Central Christian College, at Albany. Later he entered Transylvania College, at Lexington, Ky., but failing health would not permit his finishing the courses necessary for graduation. This, however, did not deter him in his ambition to proclaim the message of Gods word, and at the age of eighteen years he practically began a life of ministering unto others—a task performed to a degree of success seldom attained by mortal man. Two terms of teaching in the public schools of Missouri was the only interval since leaving school in which his time was not wholly given to preaching the Word.

It was at the Central Christian College that he met Miss Juliet Jane Duncan, and there began the romance which culminated in their marriage, on December 24, 1902. Three children has blessed this holy union: Julia Esther, Homer L., Jr., and Mary Madeline. The first sorrow came through the death of their only boy, who was taken home at a tender age. One of the consoling thoughts to husband and wife, in the recent dark hours, was that the father would soon be united with their son.

Early in his public life it became evident that he must seek a change of climate if he would carry on the work of his heart's desire to advantage. Advice from friends led him to the Pecos Valley and in March, 1905, the father, mother, and Julia Esther, reached Pecos, where they made their home. Bro Magee assuming pastorate of the Christian church and with the exception of thirteen months, during which time he suffered a complete breakdown, he ministered to the Pecos church during his sixteen years' residence in Pecos. A detailed account of his activities as minister of the church of Christ at Pecos would be too big a task to attempt. The congregation numbering a mere handful in the beginning, has grown steadily from year to year, the last report giving the total membership at 178. The frame building has long been replaced by the beautiful brick building on the corner of Fifth and Elm streets. All came about through his direct effort. His last official act was to present to the congregation the annual report for the fiscal year just ended. It was the best year, financially, in the church's history, and indicated that Homer L. Magee's faculty for usefulness in the kingdom was by no means at an end. There were times when he himself would become discouraged. On one occasion he resigned this pastorate. It was then that his people realized that no other could fill the vacancy. Discussing the situation, one of the elders expressed the sentiment of the board and of the congregation, when he said: "Bro. Magee is worth his full salary were he to just come and sit with us in service, just for the inspiration of his life." Is it any wonder that the labor of such a man bore fruit to such a degree? Nothing too trivial for his personal attention. Truly, he gave his life for others; now, in that better world, he realized what his Lord meant when he said "He that loatheth his life for my sake shall find it." Not only did he give physically, but financially, as well. The tithing system was religiously observed in his household.

As the end approached he realized it, and his thoughts were for others—his loved ones of the family, and the members of his congregation. Every little detail was arranged even to a message sent by him to a beloved co-laborer to preach his funeral sermon. Conscious until a few hours before his end, he talked calmly of affairs, temporal and spiritual, and faced the unknown world with a faith like that of Paul, and like the great apostle, those who are faithful, never wavered. The manner of his death was an answer to his oft-repeated prayer—that he would die in active service of his Lord.

How he will be missed: By his loved ones, to whom he was a loving husband, a kind father, and a dutiful son. His going breaks family

ties here, but, oh, what consolation is in the thought that he will again be united with those loved ones of the family gone on before—and with the family in Christ will miss him, and the inspiration of his memory will be theirs—and incentive to carry on the great work he was called from.

The end came at seven o'clock Monday morning, while loved ones gathered around him; the faithful wife, the two daughters, his father, and father-in-law, and members of his congregation.

Funeral services were held Tuesday afternoon at the Christian church, where were gathered practically the entire resident population of Pecos to honor one who did every thing in his power to make Pecos an ideal place in which to live. Here the body lay in state to be viewed for the last time, amid a mound of beautiful flowers, eloquent of the love of those who knew him.

The services were simple. Bro. Neal read from the 1 Cor. 15; Bro. Garner, on behalf of the ministers of Pecos, spoke briefly, paying high honor to the life of Bro. Magee, stating that in all questions of vital import, Bro. Magee was always on the side of right. J. W. Holsapple, of Temple at Bro. Magee's request, preached the funeral sermon taking his text from Paul's great letter to Timothy (2 Tim. 4:6-9). To those who were intimate with Bro. Magee who were close when the end came know how beautiful this text blended with the life and the death of Homer L. Magee—He had fought the good fight; he went to receive the crown.

Ministers present were: J. W. Holsapple, Temple; Bro. McClure of Fort Stockton; Neal of Midland; Garner and Thurston of Pecos; Ross of Barstow.

Burial was at Fairview Cemetery, where the body was tenderly placed to rest by the side of his baby boy.

The home is lonely; and to grieve is natural; and while human hands are stretched out to extend sympathy to these loved ones, it is their faith in Him whom this loved one preached that will sustain them, and to His loving care we commit them, for He only can heal the heart wounds.

Contributed.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturing of Monocaceticacidester of Salicylicacid. (Advertisement)

MORTGAGEE'S NOTICE OF SALE OF PERSONAL PROPERTY. State of Texas, County of Reeves. Notice is hereby given that the undersigned, W. W. Hubbard, acting under and in pursuance of the authority vested in him by virtue of the certain chattel mortgage given by the Tontland Syndicate, a Trust Estate, to the Armstrong Manufacturing Company, a corporation, organized and delivered May 15, 1920, and duly registered in the County Mortgage Register, Vol. 7, page 294, the said Armstrong Manufacturing Company having heretofore for value sold, transferred and assigned said mortgage and the promissory note thereon described in W. A. Chastain, the present legal owner and holder of same, and as substitute for said Armstrong Manufacturing Company under written appointment by said W. A. Chastain, which said appointment the said W. A. Chastain was by the provisions of said mortgage duly authorized to make in the event said company fails to act according to said provisions and the said company having so failed to act, I, the said W. W. Hubbard, by virtue of said authority, will sell at public auction to the highest bidder, for cash, at the Court House door of Reeves County, Texas, at Pecos City, on the 15th day of November, A. D. 1921, between the hours of 10 o'clock A. M. and 4 o'clock P. M., the following described personal property to-wit: 1 wire line derrick, 2 derrick supports and bolts, 2 derrick braces and bolts, 4 guy line blocks, 1 crane pin wrench, 11 guy line clamps, 4 guy line stabs, 1 drive belt, 2 jack screws (Barth), 1 bolt punch, 1 set bolt clamps, 1 friction fan blower, 1 steel mill dressing, 1 set mud legs, 1 narrow blower hose, 1 bolt blacksmith tong, 1 smithing hammer, 1 cold chisel, 1 straight blacksmith tong, 1 15" monkey wrench, 1 hot chisel, 1 rope turner, 1 file, 1 tool box, lock and key, 1 oil can, together with 1 No. 25 Special Armstrong Kerosene Tractor Drill, Serial No. 28,400 with 15 H. P. Armstrong special kerosene drilling engine, serial No. 901,412, equipped with Webster oscillating magneto, Holley carburetor, glass lubricator, set hard oil cups, one engine oil, one hard oil, set engine wrenches; also the following tools and equipment: 1 10" 800 lb. bit, 2 9 1/2" 400 lb. bits, 2 6 1/2" 350 lb. bits, 1 pair 5"x3 1/2" jags, 1 wire line socket, 1 6 1/2"x18" stem, 1 pair 4" wrenches with handles and eye bolts, 1 10"x10" D. V. ball, 1 8"x12" D. V. ball, 1 6"x14" D. V. ball, 1 4 1/2"x16" D. V. ball, 1 10" bit gauge, 1 6 1/2" bit gauge, 1 No. 2 circle jack, 100' 3/4" galvanized drilling cable, 1000' No. 10" sand line; said property being located on Sub-division 6 in Section 6, Block 2, H. & C. N. R. Co. Survey in said Reeves County. Said sale will be made to satisfy an indebtedness as follows: Two notes dated April 30, 1920, for \$2,000 and \$1,000 respectively, and due May 30 and June 30, 1920, with interest at the rate of 8 per cent per annum from date until paid and attorney's fees and expenses of collection; said notes were executed and delivered by said Tontland Syndicate to said Armstrong Manufacturing Company, payable to said company and are now owned and held as aforesaid by said W. A. Chastain. Said notes are past due and wholly unpaid except the sum of \$500 paid on August 19, 1920, and the amount due thereon, principal, interest and attorney's fees to said date of sale is \$1,102.20, the amount secured by said chattel mortgage. The proceeds of said sale will be applied, first to the payment of expenses of sale, then to the payment of said notes, interest and attorney's fees, the balance, if any, to be paid to the said Tontland Syndicate, its successors or assigns. Said mortgage provides that said sale may be made with or without taking possession of said property. Witness my hand this 21st day of October, A. D. 1921. W. W. HUBBARD, Substitute Trustee.

### TO WHICH CLASS DO YOU BELONG?

The deflation process and the ravages of the boll weevil taken together have caused the Southern farmers to pass through a very trying ordeal during the past two years. Nothing has been like it since the terrible days that followed the war between the States. We all justly feel that farmers have been handed a "raw deal" through the political powers and marketing agencies that be. While this is true, the conditions are here and must be met and a remedy applied so that we will not be caught so badly again. After wide observation and mature deliberation, we have reached these conclusions: The farmers are divided into three great classes: First, those who have given up; those who feel that further efforts to make a success of farming are gone and they are going to try something else. We watch these every day and they have our deepest pity. We pity them for being knocked out by unjust treatment and untoward conditions.

Secondly, we have thousands who

will work on to make a living for their wives and children, but who have but little hope in the future. They feel that both nature and human nature are against them. First that they cannot grow a full crop of cotton and secondly that they cannot find a market for other farm products. These men have our profound sympathy. They are the ones that need both help and encouragement.

The third class are the farmers who are blessed with both a strong courage and a broad vision. They know full well that all mankind must get all that they both eat and wear from the farms. Realizing that they have chosen the first fundamental calling on this earth, they have resolved to stick it out and work out a system that will give them ultimately a high degree of success. These farmers are going to the root of the matter. They know that the first law of nature is self-preservation, and they are making their farms self-sustaining. They know that the soil is the same kindly mother that she has always been, and they are giving her more attention. They know that good cattle, hogs and chickens form one of the essential lines of successful farming

and pure-bred live stock is receiving their attention. They know that to have good live stock that you must have food crops and they are growing larger yields from year to year. They know that a farmer can grow wheat, corn, oats and hay and fertilize his land by the growing of legumes such as crimson clover, hairy vetch, velvet beans and cowpeas; and they are doing it. They know that weevils, insects and various diseases will attack their crops and stock and they are determined to learn how to successfully combat them. They know that the speculator and middle man will rob them if they put themselves in position where they cannot help themselves and they are learning how to better protect their interests from year to year. They know that the road to success in agriculture is beset with many difficulties—but they also know that a strong arm, firm will, sound judgment and persistent effort can overcome all obstacles. These farmers have our highest admiration. It is to these farmers that the future will owe all its progress and betterment. In the language of Col. Perry, we would rather belong to this last class and fail personally, than to belong to the first

and succeed in their way. In our travels we meet a few who have already worked out a system that put their feet upon a firm foundation and as we have said these are not wasting time with walls and complaints, but pushing forward with courage and hope!—Southern Cultivator.

### CHEERFUL WORDS

**For Many a Pecos Household.**  
To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove helpful to hundreds of Pecos readers.  
Mrs. J. B. Prewitt, Pecos, says: "It has been quite a few years since I have needed Doan's Kidney Pills, but before I tried them I had a pretty bad case of kidney trouble. I had sharp pains in the small of my back and severe headaches. I am glad to say Doan's Kidney Pills brought me the relief I wanted. Since then whenever I have felt any soreness across my kidneys a few of Doan's have fixed me up in fine shape." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Prewitt had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

### BUILD A HOME OF YOUR OWN

Look over our plan books and get our estimates.  
Lumber prices are down to normal again, but can go higher.

**Groves Lumber Co.**  
"Everything to Build Anything"  
Paints Too

# The Next Gusher Spudded In

We have Spudded in the Willoughby No. One Well and are drilling. We are going to exert every effort to bring in the next gusher in this field.

## GIVING AWAY LEASES

In order to at once secure enough money to complete this well without delay we will give absolutely free a FIVE ACRE LEASE with each subscription for One Hundred Shares of Stock. If you buy 1,000 shares we will give a fifty acre lease, and if you buy 3,000 shares we will give you a 160 acre lease. All leases close to the well and in our three thousand acre drilling block. This offer will not appear again. Use subscription blank below.

# One Hundred Dollars Bring Fortune

This is no idle talk. It has brought a young fortune to many and will do the same again when the Willoughby Petroleum Company brings in its first real gusher. All those big quick fortunes were made by the companies bringing in a big well and selling out.

## SELL OUT AND DIVIDE

Who cares anything about being all greased up taking care of a lease, marketing or refining the oil? What I want is money. That is what everyone wants. The large oil companies are entitled to the oil and will pay handsomely for a big well and a lot of leases. We have 1,280 acres of leases and are most surely hoping for and expecting to bring in a real Texas Gusher. When we do WE WANT THE MONEY. WE WILL SELL AND DIVIDE THE PROFITS. \$100.00 in the Hog Creek Oil Company paid back \$13,500.00. \$100.00 with the Burk-Waggoner paid \$15,000.00. The Fowler Farm Company paid around \$19,000.00 on the \$100.00 risked just because they GOT A BIG WELL AND SOLD OUT AND DIVIDE THE MONEY.

## THIS MAY BE "AN OLD SONG"

Call this "an old song" or what you may. We are going to drill the well and sell out and hundreds of thousands will NOT BE BENEFITED ONE DIME if we pay ten thousand dollars for every one hundred invested. We are not attempting to "change any man's mind." If you have cold feet, no nerve and no money you will die poor. We risk our own money and time, and work like the devil knowing that we have the Wild-Catter's chance to make a cold MILLION. My work on the Toyah Bell No. Two, the well that was actually "drilled" to below 4300 feet, to find the oil speaks for itself.

The company has a 1,280 acre drilling block, is capitalized at \$200,000.00 divided into 200,000 shares of the par value of \$1.00 each and those who buy these shares and help me bring in my first gusher will be called "Lucky."

**NERVE, NOT LUCK, TO TAKE THE GAMBLER'S CHANCE WITH THE WILD-CATTER BRINGS HOME THE THOUSANDS**

Advertising Representative THE P. M. PRESS ASSOCIATION

PECOS PLACE OF GREAT RESOURCES, EXIT KNOCKERS

Pecos citizens should feel more confident of the future than any other set of folks in the Southwest. This section cannot remain in the state of undevelopment that has existed in the past, for now there is too much known about its wonderful resources. With paying oil already discovered, with a sulphur mine in a state of development, a great potash field not far away, irrigation projects, both great and small already producing bountiful crops and still greater irrigation projects in good prospect how can the Pecos country fail to become speedily the greatest and wealthiest community in the entire Southwest.

NO PROSPECTORS NOW BUT DILIGENT WORKERS

Pecos is no longer a prospective oil field but is the real thing. Prospecting is at an end. The facts are established, the liquid gold is found and it is now merely a question of diligently getting it out of the ground—rather putting down holes and letting it gush out. The proven area is just waiting development. Scores, yes hundreds are turning their eyes this way daily from every quarter of the globe and it is becoming one of the most active places on the face of the earth. But our vision is great enough, our territory vast enough and our hospitality broad enough to take care of the situation and we will do it.

SCHOOLING THAT IS SAFE

That there are 33,250,870 persons attending school in the United States is the statement of the Government Census Bureau. It gives Utah as the most studious state, with 73 per cent of her citizens eligible by age being registered in the schools. Any community or nation that shows a good school record is on the road to prosperity and happiness, if its educational program is well balanced. Ignorance is the most expensive thing any individual, community or nation can have. It is also dangerous. It is dangerous to all our democratic institutions. It is dangerous particularly to the home and the government. It is detrimental to our churches.

APPRECIATION FOR THE PIONEER

It is said that one of man's greatest weaknesses is his lack of appreciation,—or often his failure to express his appreciation—for the exceptional qualities in his fellowman. We often wonder if the community at all begins to show enough gratitude toward the man who invests to the limit either his life or his money in efforts that calculate to develop the community to an exceptional degree. There are men now operating for oil near Pecos who have gone through many difficulties and staked thousands of dollars in efforts to develop the resources that were believed to be ready and waiting for the men who would display enough nerve and determination and sacrifice to bring it to the surface. It is true that dollars are being invested to bring back more dollars but there are few men who will spend as much and risk as much as pioneers. And it is this exceptional determination and bulldog grit that we should appreciate, for such is not to be found in very many places on this old earth. Pecos is appreciative and will be still more so as the days come and go.

According to figures collected by the New York World there were 12,000 persons in the United States killed in automobile accidents in 1920 and one-half a million more injured not to mention the property damage. We venture to say that carelessness was responsible for 90 per cent of this. We were once content to wait on the gait of "Old Nell" but "Lizzie" can't go fast enough now, regardless of the cost.

It is good news that tells of the Kansas City Mexico & Orient railroad extension from Alpine to the West Coast of Mexico. It will materially aid the great stock raising section to the south of Alpine and the Southern Pacific railroad. The road is reported ready to rush this work.

NEW MEN WORK ON ENTERPRISE FORCE

The Enterprise has this week been the direct cause of an increase of five in the population of the town. Mr. H. I. Trout, wife and little daughter, Ramona, of Dallas, will take up their abode here. Mr. Trout came in Monday and the wife and daughter will be here Sunday. Mr. Trout is an experienced newspaper man and has been on some of the best papers in the State and will take the outside work on The Enterprise and it goes without saying that the already high standard of the Enterprise will be greatly improved. In order to take care of the increased business of the plant and that nothing go out that is not absolutely first-class The Enterprise has secured the service of Mr. R. S. Huie of Eastland, who is an experienced and up-to-date pressman who knows the game. He came on Thursday afternoon and at once went to work. With him came his wife.

Mr. and Mrs. Trout are Baptists while Mr. and Mrs. Huie are Methodists and all will be valuable additions to our population.

Since the Pecos oil field is now proven The Enterprise proposes to keep abreast of the growth and needs of the town and will add to the force as is necessary to be able to deliver the goods in the printing line promptly and of the best quality. This time The Enterprise is lining up with men who not only know their business but are Christian gentlemen and not bums.

OTHER OPERATIONS ARE PROGRESSING

The C. W. Bossert rotary core-cutting rig is again working on section 7, block 100, on the Sayles ranch in Culberson county. Matt Crishum has just returned from the Ranger fields where he purchased a string of eight inch casing to be placed in the Owens No. 2 on section 16, block 92. This well was drilled to 2400 feet through some black lime formation that appeared so favorable that work was suspended until casing could be set.

J. D. WESNER BUYS LEWIS-JONES WELL

J. D. Wesner of Breckenridge and H. F. Anthony of Pecos have just closed a contract whereby they take over the standard derrick and tools formerly owned by the Lewis-Jones Syndicate on section 25, block 101, Culberson county, and Mr. Wesner has gone to Breckenridge where he is to ship sufficient tools here to complete the string at the well. The new management plans to begin operations some time next week.

Mr. Wesner is a contractor of the Breckenridge area, and will send some of his employees here to take charge of drilling operations. Mr. Anthony, who negotiated the deal with Mac Sayles, the owner of the leases and derrick, is a Pecos broker. The derrick is located on a block of 13,000 acres on the Sayles ranch. The well was drilled to 500 feet last winter by New York operators when work was stopped because of financial difficulties. The hole offsets the No. 1, which was drilled to 700 feet and lost because of a bad fishing job. The derrick is considered to be exceptionally well located for oil, and the new management announces that they will carry the hole to the proper depth to obtain production.

DAVIS MOUNTAINS ATTRACTS HUNTERS

Beside being the center of attraction for men of wealth, coming here in great numbers the past few days because of oil excitement, there are still scores of others coming this way making Pecos a hunter's mecca because of its being the logical gateway for hundreds who seek sport in the Davis Mountains. The season for deer hunting opened Tuesday morning. There were several cars here from Fort Worth and North Texas points Saturday, Sunday and Monday enroute to the Davis Mountains to be ready for the opening of the deer season.

EXPERIENCES AND OBSERVATION OF AN INCOMING PASTOR

After due process of appointment by a Methodist Conference and a three hundred mile move the writer and family arrived in Pecos October 18, some two weeks ago. Gratitude to God and the good people prompt a word or two on the experiences and observations of this period and place.

When the tired auto travelers arrived at the trees surrounded parsonage beside the handsome and impressive church they found three warm hearted representatives of the Woman's Missionary Society awaiting the party's arrival. Immediately the new-comers were invited in and told to be at home. And there, speaking louder than words, they found a table spread with all manner of good eats, including the proverbial Methodist fowl "all swimming in gravy." Besides these prepared good things, the pantry was found to contain articles edible "from Genesis to Revelation" or other words expressing totality.

And then the ladies telephoned for A. J. Curtis and one or two other stewards. They said they phoned for Curtis because he was president of the official board but the writer has a suspicion that the ladies having had one look at the pastor's homely face thought to administer comfort for a face that was as ugly it hurt, or else they wanted to see what Curtis would do when he met his match. At any rate within a few moments the preacher knew that Pecos would live up to its reaching reputation for fine people, for two Mexicans could not unload and carry like these stewards.

A whole column would not suffice to fully and fairly describe the thankfulness created by a reception that which the writer in years of wondering has not found exceeded if equaled. Blessed be the people of Pecos Methodist church.

Now, if Pecos is notable for the loyalty of its church people to their own church they are equally as fraternal between denominations. The writer has all his life rejoiced in fellowship with other Christian denominations and the prospect here is exceedingly pleasing. Bro. Garner is a dandy good fellow, will pull together fine I know. He is warm hearted and religious and makes one feel at home around him.

And dear Bro. Magee! How I wish the Heavenly Father might have seen fit to grant me a longer acquaintance with him. The brief half-hour of our fellowship, broken as it was by his intense sufferings, revealed to me a man of sterling worth. May his work abide. How my heart goes out for his dear family. And may the Lord direct the church in the selection of his successor.

I have not met other pastors but find the christians of the other churches exceedingly cordial. The congregations that have greeted the new pastor are very fine in quality and in quantity, and have been very appreciative and indulgent hearers.

It would be gross neglect not to mention the fact that every where are found tracks of the former pastor, the Rev. F. B. Faust. Truly he was "in labors abundant," and it is going to make this preacher "hump himself" to keep the gait Faust set.

In conclusion, for this article is already lengthy, the incoming pastor has found a fine people and craves their prayers and co-operation that he may be true to God on their behalf and "add unto then some benefit."

L. L. THURSTON, Pastor Methodist Church.

PANHANDLE CONGRESSMAN MATCHES OHIO LAW MAKER

Washington, D. C. October 25.—Congressman Marvin Jones took Hon. Nicholas Longworth to task today for his attitude on the Muscle Shoals project.

During the War the Government established a nitrat eplant at Muscle Shoals, on the Tennessee River to manufacture nitrate for making explosives for war purposes. After the war the engineers recognizing the value of the tremendous water power and of the established plants urged that dams could be completed at a small expense and fertilizer manufactured for use on the farms. The claim being made that in this way fertilizer could be sold to the farmers at one-half the present cost. Mr. Longworth and others from manufacturing districts strenuously opposed the completion of the project.

The entire project was about to be abandoned when Henry Ford offered to take the whole system off the hands of the Government and to operate it in the interest of agriculture. "For years," said the Texas Member, "Mr. Longworth has been fighting the entire project and picturing

it as public waste and extravagance. The Government has spent some \$60,000,000 there.

"One would think that the gentleman from Ohio would jump at a chance to rid the government of the whole proposition. But all of a sudden when the manufacturer of "Flivers," Henry Ford, offers to pay the government a total of \$214,000,000, Mr. Longworth becomes dumb. The outburst of oratory has not occurred; the flaming patriot has not spoken; the eloquent tongue has been silent. Oh, consistency, thy name is not Nicholas!

"What is the reason for the sudden cooling of the order of all these gentlemen? Can it be that the clause in Mr. Ford's offer that he guarantees to sell fertilizer at a net profit of not more than eight percent frightens the other manufacturers, and that his offer to turn it over to the government in the event of war as a powder plant scares the munition makers?

"There are those in the congress who balk at any legislation which has for its primary purpose the furthering of the interests of agriculture."

FINANCIAL REVIEW

Prepared For The Enterprise By The First National Bank in St. Louis.

The values of both imports and exports for the month of August show gain over July, exports being higher than in any month since March. Exports for August are reported at \$372,000,000, and imports at \$194,000,000, leaving an export balance of \$178,000,000, which was only partially offset by net importations of gold to the amount of \$86,000,000. Comparisons between the months of this year and similar periods last year are apt to be misleading on account of the far higher level of prices which then prevailed, so that although the reported value of exports in the last few months has been only one-half as much as in the same months of 1920, the volume of exports, stated in quantitative terms has actually been greater than the volume a year ago. In other words prices upon which the export valuations are based have declined more rapidly than have exports stated in terms of dollars.

The above is borne out by the fact that the foreign trade index, in which the effects of price changes have been eliminated, stands at 112.5 for exports in July 1921, compared with 101.3 in July 1920 and a monthly average during 1920 of 107.7. This means that in volume our export trade is now larger than in 1920.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

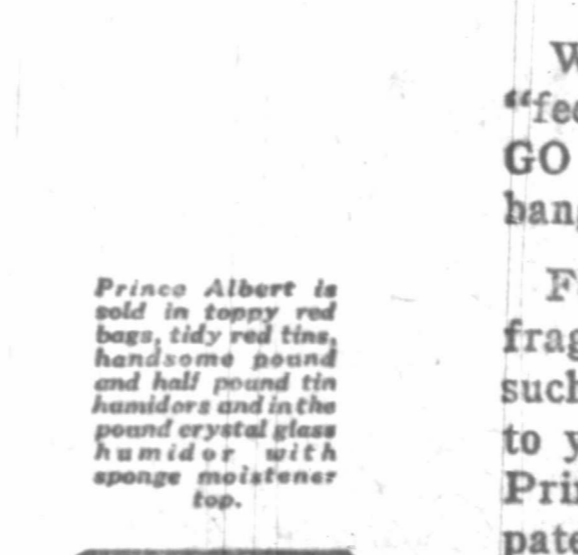

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE (Tablets.) It stops the Cough and Sneezing and works off the Cold. E. W. GROVER'S signature on each box. 25c.

CALOMEL USERS TAKE AWFUL RISK

Very Next Dose of Tracheous Drug May Start Terrible Salivation.

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

TO AUTOMOBILE AND FORD OWNERS

I have opened the Slover Garage in the building known as the Pecos Motor Service Co. Garage where I am prepared to do your repair work promptly and efficiently. Ford Motors overhauled for \$15.00. No charges for examination. All my work is guaranteed and any customer not satisfied with my work can have his money back. A share of your work will be appreciated. WALTER SLOVER.

WATER USERS MEET TO BOOST NEW DAM

Members of the Pecos Valley Water Users Association of Texas met in the office of the Chamber of Commerce Friday afternoon to launch a campaign in behalf of the Red Bluff Irrigation project on the Pecos.

This association is composed of seven irrigation projects in the valley and the officers and patrons of these several companies are enthusiastic in support for the big project which is now in the hands of government officials. They believe that if the great dam is constructed across the Pecos at Red Bluff that it will not only give a more ample water supply for the present irrigated districts but also cause thousands of acres of other lands to be put in. The valley with the present water supply handled and dispersed by the several projects is producing bountifully and the farmers are happy because of the results being accomplished. And it is believed that with the new dam at Red Bluff irrigation can be carried on in such a large scale as to make conditions more favorable both for production and for marketing all the valley's products.

Secretary Sutherland of the Chamber of Commerce has received a copy of the contract between the association and the government for the survey.

DINNER DANCE GIVEN AT JOHNSTON'S CAFE

Twenty couples enjoyed an evening at the Johnston Cafe Wednesday evening when a six course dinner was served and dancing participated in until a late hour. The affair was under the personal direction of S. E. Johnston, proprietor of the cafe who did every thing possible to make the evening pleasant for the young people who were his guests. The tables were placed back against the walls and dancing took place between the courses of the delightful dinner that was served. A six-piece stringed orchestra provided the music.

Owner may obtain shipment prior to time of sale by submitting proof of ownership and paying all accrued charges including cost of this advertisement. GEO. W. HENDERSON, Agent.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn goes hurting, then you lift it right out. Yes, magic!

A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

H. & G. N. RY. LANDS FOR SALE IN REEVES COUNTY

Surveys Nos. 44, 47, 53, 55, E. half of 61, and 63, in Block 4; and Nos. 48; 47 and W. half of 2 in Block 2. The surveys in these blocks are situated from 5 to 8 miles from Pecos City, in the arid part of the Pecos River country and will be sold only in whole sections. Also, surveys No. 49 in block 6 and Nos. 9, 13 and 15 in block 7. Also, surveys Nos. 1, 3, and 5, fronting on the Pecos River, in Reeves county, and Nos. 19 (4 surveys) Pecos county. Also 12 surveys in block 11 and 5 surveys in block 12. None of these are river lands. All are in Pecos county.

All these lands are under lease for oil, gas and mineral purposes and any sale of same will be made subject to such lease.

J. G. LOVE of Pecos is agent for the sale of all these lands situated in Reeves County and application should be made to him for the purchase of same.

There is no local agent for the sale of the lands in Pecos County, and parties desiring to purchase any of same should apply to the undersigned.

EUGENE CARTLEDGE, Agent and Attorney in Fact. AUSTIN, TEXAS

SPOOK PARTY

The high Spookety-spooks, the Misses Callie Ross, Evelyn Somes and Frankie Wilson, kept open house Saturday night, October 31, to a goodly number of lesser spooks, at the "National Convention of spooks" at Hades Hall at The Michigan, who came in regulation regalia of sheet and pillow case, and whose pass word was "Cabbages."

The witch riding the broom, the cat and all other conceivable characters and symbols of a like nature were in evidence, with ghost walking and Jack'o lanterns thus proclaiming the occasion. Many interesting spooky games were played, fortunes told, warnings given and a good time generally had. Delicious refreshments, of cake and chocolate with marshmallows, were served after which the guest spooks in taking leave of the hostesses, "The High Spookety-spooks," proclaimed this to be the most delightful occasion yet held in the spooky realm.

PRAYER AND SELF DENIAL PROGRAMS

At the Methodist church Tuesday, Wednesday and Thursday of next week at three o'clock the following programs will be given by the Woman's Missionary Society.

Sacrificial gifts are asked for Holding Institute, our school for Mexican children at Laredo, Texas, and our Lambuth Memorial Training School for christian workers in Japan:

Personal service through prayer—Mrs. C. S. McCarver.

Prayer.

Hymn—No. 295. Offering. Benediction.

Wednesday.

Leader—Mrs. A. G. Taggart. Hymn—No. 224. Prayer.

Bible Lesson. Silent Intercession.

Incarnating a life through Prayer—Mrs. A. G. Waugh.

Instrumental solo—Mrs. Lillian Butler.

Holding Institute meeting a need—Mrs. J. G. Loye.

Hymn—No. 109. Prayer.

Offering. Benediction.

Thursday.

Leader—Mrs. W. W. Runnels. Hymn—No. 244. Prayer.

Bible Lesson. Prayer.

The woman of Japan—Mrs. Emma Boles.

Memorial Gift—Mrs. O. T. Norwood.

The New Lambuth Memorial—Mrs. Albert Sisk.

Message from Miss Cook—Mrs. Monroe Kerr.

Hymn—No. 255. Prayer.

Offering. Benediction.

A WRONG IMPRESSION

A vicar had his fruit stolen, and the only clue to the culprit was a fingerprint left on an unripe peach. He had a photographic enlargement made.

"Jake," said the vicar, on meeting an individual whom he suspected, "someone robbed my garden the other night."

"Did 'em, sir?" replied Jake, innocently.

"Yes," the vicar continued, sternly; "but the thief left his mark behind him and I can trace him."

"You don't say so?" said Jake, nervously.

"Yes, I do. You see this?"—and the good man produced the enlarged reproduction.

Jake paled visibly.

"I see 'tain't no good denying it," he said, with a sigh of resignation.

"I pinched yer fruit, right enough; but 'ow you got that impression of the seat of my corduroys I'm hanged if I know."

RESOLUTION OF RESPECT

In as much as God in his infinite wisdom has seen fit to remove from our midst Rev. Homer L. Magee, father of our classmate and friend, Mary Magee.

We the Freshman class of the Pecos High School wish to extend our heartfelt sympathy to Mary, her sister, and mother, in this hour of grief and sorrow. We feel it is not only your loss but ours.

—Freshman Class. Annie Mahala Murray, Pres. Joetta Cowan, Sec.

**PERSONAL**

Mrs. B. G. Smith returned Wednesday from a visit of several weeks to friends in El Paso.

Born—To Dr. and Mrs. W. P. Meredith, October 24, a daughter.

Mrs. C. E. Lester of Hereford arrived Wednesday for a visit to her sister, Mrs. Jim Camp.

R. L. Allen, hopeful of the oil situation here, was a visitor to Pecos Tuesday. He has land in the vicinity of the Toyah Bell. His home is now at El Dorado, Arkansas.

W. W. Whitaker and a Mr. Barker of San Antonio have been in Pecos several days looking after interests they have here in the oil field.

Sherman DeRacy of Tucumcari is visiting at his brothers, John DeRay, for the first time in twenty years, also shaking hands with old friends.

Mrs. Hardin Ross has spent the past week in town with her sister, Miss Evelyn Somes at The Michigan.

Born—To Mr. and Mrs. S. A. Fouché, Thursday, October 3, a son. Mother and babe are doing nicely.

Mrs. Ethel Reynolds and son, Heard, are at home from a two weeks trip to Dallas, Fort Worth, Cisco, and Albany, at the latter place they visited Mrs. Augusta Reynolds, grandmother of Heard.

Miss Rose Briscoe returned Sunday from Fort Worth where she was a delegate from the local chapter to the grand chapter of Eastern Star, that convened Tuesday and Wednesday of last week.

K. M. Regan, manager of the Chicago office of Ira J. Bell & Co., is here accompanied by James W. McElvain, Thornton McElvain, and D. J. Dwyer. Mr. McElvain, Sr., is a member of the firm of McElvain & Hoy, Coal operators, and Mr. Dwyer is an advertising man. Mr. McElvain has added to his holdings in the Pecos territory and Mr. Dwyer has made purchases.

Max Krauskopf, son Ben and daughters Ione and Nora, are at home from Cisco where they went after the smash-up at Lorraine when their car turned turtle two weeks ago. Max is all bundled up but is out attending to business. Mrs. Krauskopf is still at Cisco with her parents and is doing fairly well, her brother, L. J. Eppler, who has been here for the past few days with the Krauskopf family returned to Cisco Wednesday.

J. C. Wilson and Alvin Arlinger came down from Loving, N. M., Saturday and were accompanied home Sunday by Mrs. Wilson who had been the guest of her parents, Mr. and Mrs. E. L. Collins, for the past two weeks, and Mrs. Earl Collins and son, who will visit Mr. and Mrs. Wilson for several days.

Mr. and Mrs. B. P. Van Horn of Toyah were down Tuesday in attendance upon the funeral of Rev. H. L. Magee.

Mr. and Mrs. Lee Ligon returned Monday morning from Mineral Wells. Their two months stay there greatly benefited Mrs. Ligon's health.

J. C. Newson of Floydada returned to Pecos Monday morning to spend a few days here looking after his oil interests. He was elated over the recent progress of drilling in the territory to the north of Pecos.

E. E. Dodson and Jack Getz of the Bequa Vista country were in Pecos Tuesday on business. They report the largest cotton crop being gathered ever made in that section. They say, however, that they do not believe that fine irrigated land will pay as well in cotton as in some other crops.

If you own land in Reeves or Loving counties, and want to sell oil and gas leases send me description of land and price for five year commercial lease.

J. W. MOORE, Pecos, Texas. 12-2t.

Dr. and Mrs. Jim Camp, with their little daughter, Nancy Elizabeth, who was recently operated on for appendicitis and whom they carried up to El Paso Sunday for specialists to see returned Wednesday and the little girl is getting along nicely. John Cowan who was also carried to El Paso Sunday accompanied by his wife and her sister, Mrs. Robert Hefner and Dr. Camp is reported as having stood the operation and doing as well as could be expected.

**PURE OIL COMPANY MAN VISITS PECOS**

One of the biggest oil men operating in Texas, E. V. S. Lowerre who is one of the heads of the Pure Oil Company, arrived in Pecos Thursday afternoon. He is here to consider making investments for his company.

Mr. Lowerre is the man who made the deal for seven million dollars worth of Col. Humphrey's interests in the Mexia oil field about ten days ago. The Pure Oil Company is now one of the biggest and most progressive in the country. Should they decide to operate in the Pecos field it will not be on any small scale.

**PECOS SECOND TEAM BEATS BARSTOW 12-16**

Pecos walked off with a well fought game of football in contest with Barstow Wednesday afternoon on the Pecos High grilliron. The score was 21 to 16 in favor of Pecos. The game was between the second teams of Barstow and Pecos High School.

During the first half the Barstow boys made two touchdowns and it looked like they were going to run away with the game. But this was just sufficient to stir the ire of the Pecos players who rallied with sufficient steel to carry off the victory with a large score to spare at the end of the game. The game was played in a clean manner and no roughing was evident. The Barstow boys played hard and showed themselves good material. This is two winners for the Pecos team in contest with Barstow this year.

**BAPTIST CHURCH NOTICE**

All regular services will be held as usual at the Baptist church Sunday, Nov. 6. I wish to call especial attention to the Men's Bible class that meets at the Rialto Theatre every Sunday morning at 10 o'clock. We have had an average attendance of thirty-six for the last month. Come and help us make it fifty. Special music, interesting lecture, and a warm welcome awaits you.

J. M. GARNER, Pastor.

If you own land in Reeves or Loving counties, and want to sell oil and gas leases send me description of land and price for five year commercial lease.

J. W. MOORE, Pecos, Texas. 12-2t. (Advertisement)

**To Stop a Cough Quick**

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 50c. Just ask your druggist for HAYES' HEALING HONEY.

**GORDON, OF RANGER FAME, IS BUSY HERE**

W. K. Gordon, who put Ranger on the map as an oil field, was in Pecos early Tuesday morning and went out to look at the new oil field. His opinions are considered worth much, because of the considerable experience and remarkable success that has characterized his efforts in the oil game. As head of the Texas & Pacific Oil and Coal, Company of Thurber, Texas, he had drilled the initial well in the Ranger field and his company put down more good wells in the Ranger field than any other concern operating there.

**RESOLUTIONS OF RESPECT**

On the 26th day of October, 1921, the Supreme Excellent Commander of the Universe saw fit to call from our midst our dearly beloved companion, W. R. Johnson. He has been called to his glorious reward above, and is no longer seen among the companions here below. In his going we realize that in the midst of life we are in death. His tired and weary feet have at last reached the end of life's toilsome journey, and from the nerveless grasp of his labor worn hands have fallen forever the working tools of life. In spirit, clean and spotless as the lambekin apron that was placed upon the coffin containing his last remains, has made its appearance before that one who sits on the Great White Throne, and has there heard the welcome plaudit. "Well done thou good and faithful servant enter thou into the joy of thy Lord." He has run a good race and has gained admission into the Celestial Lodge above where the Supreme Grand Architect of the universe presides.

While he was a member of the Craft here below he regarded the Holy scriptures as the great light in his profession, and regulated his life and conduct by the divine precepts therein contained. As a citizen he was a quiet and peaceful subject, true to his Government and just to his country. He did unto his neighbors as he wishes that they should do unto him, always acting upon the square. He was at all times a just and upright man, avoiding all irregularity or misconduct that would debase the dignity of his character, or discredit our Ancient and Honorable Order.

By his death the family have lost a loving husband, and a kind and affectionate father, the community a worthy and beneficent citizen, and Pecos Chapter No. 218, Royal Arch Masons, a worthy and valiant companion, whose life dedicated to the sublime principals and tenets of our great institution, and was a living exemplification of the cardinal virtues of our Order, therefore, be it,

Resolved by Pecos Chapter No. 218, Royal Arch Masons, that we tender to his wife, Mrs. W. R. Johnson, and also to his family, our deepest sympathy in this time of sorrow, and be it further

Resolved that as an expression of our bereavement, and in realization of our great loss, a copy of these resolutions be spread upon the records of our Fraternity, a copy furnished the immediate members of his family, and that the same be given to the press for publication. R. S. MIDDLETON, B. A. TOLIVER, GLEM CALHOUN, Committee.

**FINE PIANO TUNING**

Parties desiring to have their pianos tuned or repaired while I am in Pecos this trip will please call me at the Pecos Hotel as soon as possible. Price for tuning \$5.00. I am prepared to make any repair that can be done outside of a piano factory, at reasonable price. F. M. DENTON. 1t\*

**CALOMEL SALIVATES EVEN WHEN CAREFUL**

Treachorous Drug Can Not Be Trusted And Next Dose May Start Trouble.

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue, and excessive saliva dribbling from the mouth. Don't trust calomel. It is mercury; quick-silver.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

The Gummy That Does Not Affect the Head because of its tonic and laxative effect. LAXATIVE MONO QUININE is better than ordinary

**RANCHMAN FORECASTS GOOD TIMES AHEAD**

W. W. Brookfield and L. M. Jones were in Pecos Tuesday from their ranches in Loving county, thirty miles north, and report the condition of the range and stock as good.

"I have been in this section of Texas over twenty years and observed varying conditions but I am not afraid of the future for the stockmen," declared Mr. Brookfield. "There is always one extreme following another, so we may expect the next extreme in live stock market conditions to be in our favor, and I think it will not be very long until we will be getting good prices for cattle. There are also several optimistic views to be taken even of the present price condition of the live stock markets. One is that our range is good and ranchers have saved their range and improve it while the beef markets are low when the prices get high again and the stockmen can afford to enlarge their herds the range will be in first-class condition to handle them on."

Mr. Jones lives in Jermyn, Texas, and is here looking after his land.

**REAL BEAR MEAT, FIRST OF SEASON IS SOLD HERE**

Pecos citizens had the privilege of eating real bear meat this week, the first of the season. It was sold by W. C. Edmondson's market at fifty cents a pound.

Two black bears, young and fat, were killed in the Davis Mountains by C. C. Rody and a Mr. Whipp of

**NOTICE**

No hunting or fishing allowed on U ranch lands. Anyone caught will be prosecuted.—Popham & Popham. be prosecuted. 11-2t\* POPHAM & POPHAM. (Advertisement)

Balmorha and part of the meat was sold to a local market. Men of this section are expecting to do some profitable hunting this season, especially when the weather gets a little colder.

**PRUETT LUMBER CO.**
