

# MORE INTEREST DEVELOPS FOR POTASH MINING

That interest in the development of a great potash industry in the Pecos country is becoming greater every day is emphasized by the visit of H. W. Hoots of the United States Geological Survey this week.

Mr. Hoots declares that he has found a stratum of potash in two wells in this vicinity—the Pinal Dome northeast of Pecos and the River well south of Barstow. He further says that it is evident in sufficient quantities and at a sufficiently shallow depth to justify mining for it on a large scale. The depth at which it appears in these holes, according to Mr. Hoot's figures, is similar, indicating that the stratum possibly underlies the whole territory between these two wells and no one knows how far east and west it may extend. It is known also from tests

made that potash has been found in several different places in the Odessa territory.

Mr. Hoots said that core tests are being made by several representatives of corporations interested in the development of potash in this section of the State and that some interesting facts may be available for announcement soon.

While here this trip he collected specimens taken from the Pinal Dome, Trans-Pecos and Toyah Bell wells, showing the logs of those holes. He declared also that the oil prospect is looking better every day.

D. D. Christner of Big Spring, and formerly of the United States Geological Survey, is to move to Pecos, arriving here the latter part of this week, and establish an office here as consulting geologist. He has been associated with Mr. Hoots.

## CURRIE SMITH JOINS

### H. F. ANTHONY IN PECOS

What promises much in the handling of live stock business in Pecos is the coming here this week of Currie Smith of Ft. Stockton, who is well known in that section and in the Pecos country. He will help H. F. Anthony in Mr. Anthony's Pecos office. The prospects are good for some large live stock deals by these men in the near future. Mr. Smith's family will move here later.

## GIRL BREAKS ARM

Miss Mary Allen Coons, daughter of H. D. Coons, was the victim of an accident last Saturday when she fractured her right arm in an effort to crank a Ford car. The large bone in the arm was broken but the setting of the fractured bones was done well and Miss Mary is able to be back in the High School, where she is a student.

A quiet mind tendeth to a level head.—Safed the Sage.

# BRECKENRIDGE MAN TURNS ATTENTION TO PECOS COUNTRY

C. M. Caldwell, of Breckenridge, the biggest man in the great Breckenridge oil field, was a visitor in Pecos the past week and may start operations soon on land that he has north of Pecos.

Mr. Caldwell has had a remarkable career and wonderful success has come to his hands in his oil operations. He is not a pretentious man but one of sterling worth to every community where he has interests. He now has 120 producing wells on his land and is said to have an income of several thousand dollars per day. He gives liberally to educational and religious causes and puts his money back of all interests to help the towns where he has business interests. He owns the Breckenridge Daily American, has interest in the water works and other industrial concerns there.

He made a brief talk at the lay-

men's service at the Baptist church in Pecos Sunday, as he was kept over here Sunday morning on account of missing a train he was intending to catch for El Paso, where he went to go on a deer hunt in New Mexico mountains with Dr. T. V. Neal, pastor of the First Baptist church of El Paso. He is to be back in Pecos Saturday and said he would probably be here often from now on. He has a ranch which is north or northwest of Pecos which he will drill on probably in the near future.

"I want to impress on you now," said Mr. Caldwell to the Baptist church audience Sunday morning, "that you will in all probability have a great boom on in this town soon and thereby have an opportunity to do good in a way incomparable to your thinking now. For geologists tell us and I think they are right, that there is oil in great quantities in this field.

# SUNSHINE LAURA DRILLING NOW IN HARD LIME

The Laura well, seven miles from Pecos, being drilled by the Sunshine Corporation, has been looking more promising the past few days than ever before.

At 2670 feet the drill encountered a very hard limestone of a gray color and it took twenty-four hours to penetrate ten feet of this formation. Steady work is pushing the operations at this location and under the hopeful and vigorous leadership of Manager Tinnally it is believed that sensational developments may be expected at this site soon.

# WESNER-ANTHONY OUTLOOK IS GOOD

J. D. Wesner passed through Pecos Sunday en route to Breckenridge from the Wesner-Anthony well, on the Mark Sales ranch, Block 101, Section 25, Culberson county.

This well, which was taken over recently by Mr. Wesner, in connection with H. F. Anthony of Pecos, is now making good progress under the vigorous management of Mr. Wesner. No well in the entire field has more or better equipment, it is said, than this one has now. An abundance of supplies, to guard against delay from breakdowns or fishing jobs, are at the spot.

# WATER ENGINEER EMPLOYED WITH RED BLUFF PLAN

Vernon L. Sullivan, irrigation engineer of El Paso, was engaged to act as consultant with the government engineers during the geological survey of the Red Bluff project at a meeting of the executive committee of the Pecos Valley Water Users' Association of Texas in the Chamber of Commerce rooms Saturday.

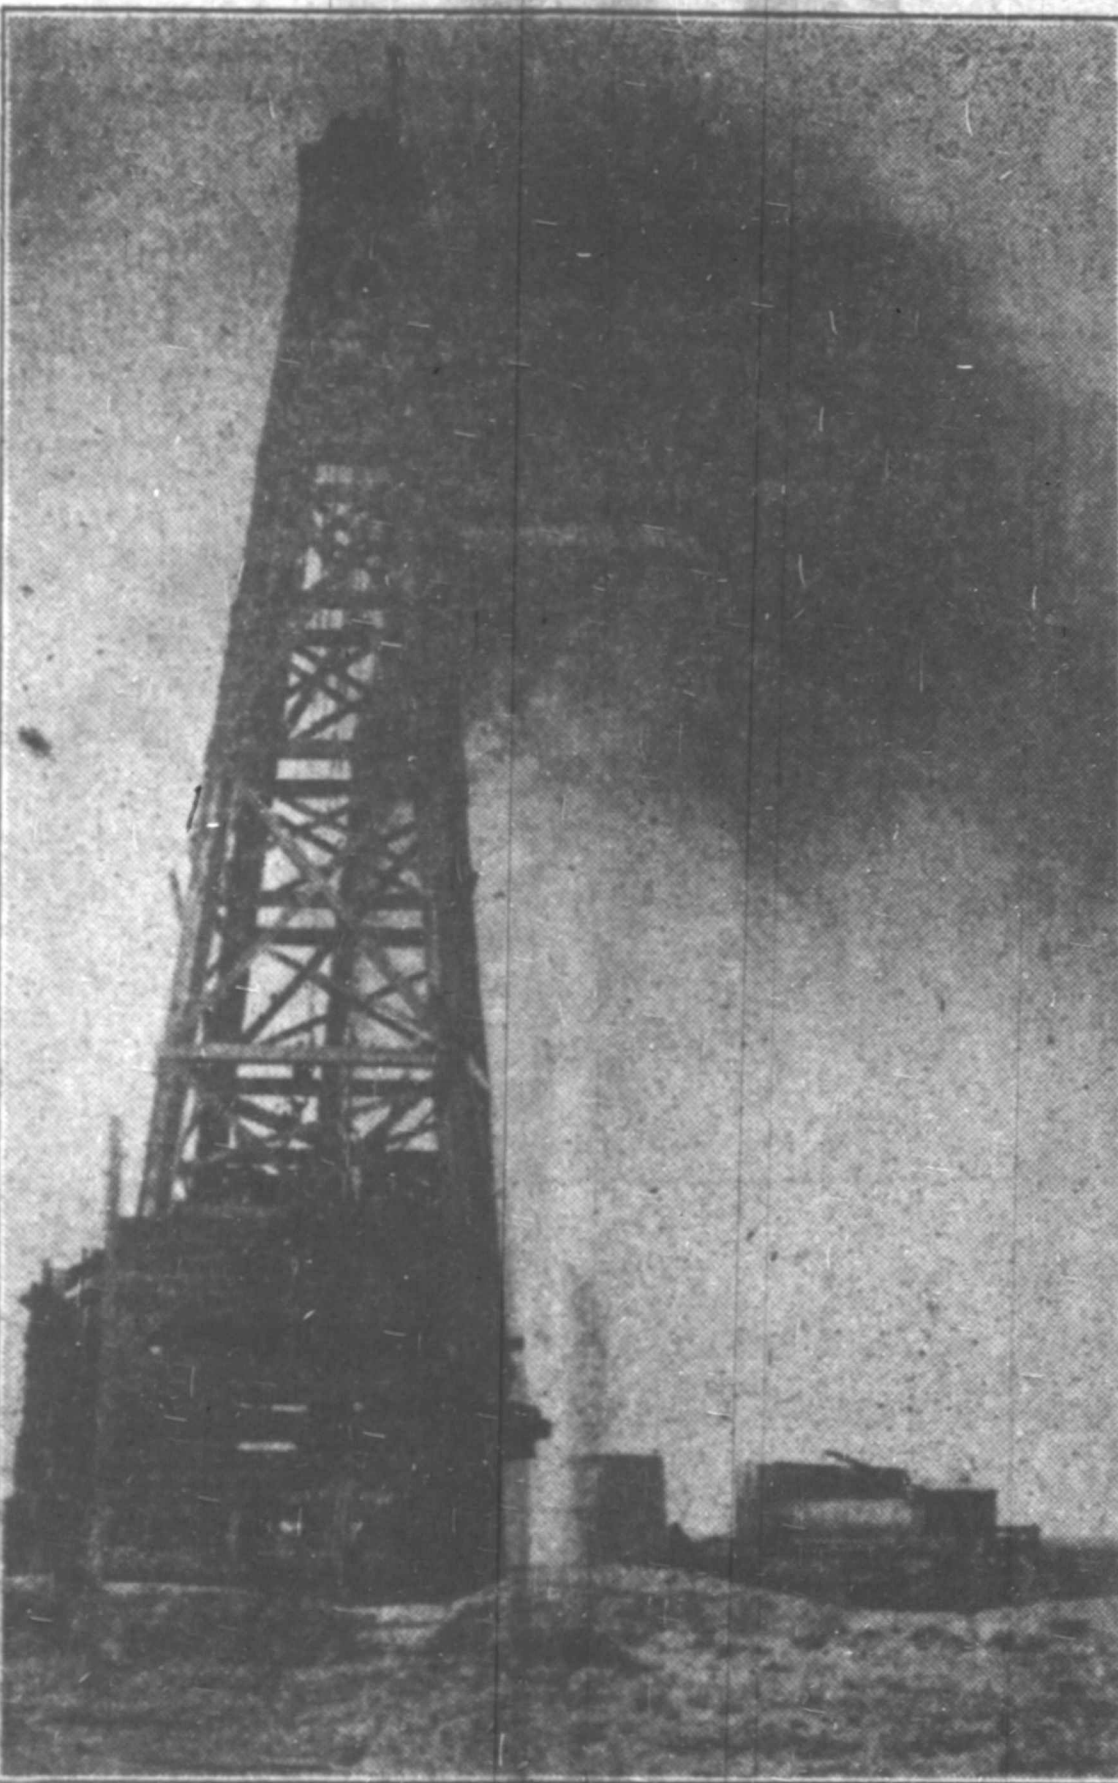

Mr. Sullivan will spend whatever time is necessary at the location while the survey is going on in order to give the benefit of his intimate knowledge of the reservoir site beyond Red Bluff. He was selected because of his long experience in this kind of work and also because of his acquaintance with the conditions of the Pecos Valley.

N. H. Darden, the government engineer, is expected to take up his work about December 1.

# BOOTLEGGING IS CHARGED FOR TWO

Two men, Dave Vaughn and Rays [unclear], were arrested by officers this week on a charge of bootlegging liquor. Federal agents together with Deputy Sheriff Middleton, found the men in the Patrol community, about ten miles north of Pecos. It is alleged that the men each had about a quart of liquor on his person while at a dance.

# THE TOYAH BELL IN ACTION

This cut, furnished by E. L. Stratton of Pecos, is made from one of the most recent photographs of the Toyah-Bell well, the discovery well of the Pecos field and which is increasing in production every day.

# TOYAH BELL IS INCREASING AS WORK GOES ON

The Toyah-Bell, the discovery hole in the Pecos field shows an increase in its production every day. Its actual capacity now is twice what it was a few days ago.

The increase in the oil flow that is coming from the well by heads is showing rapidly as the sand and water that have retarded the flow are removed. The sand bridges the hole every time when a good flow heads over the top. It then has to be bailed out and it is stated by B. Ramsey, manager of the company, that as soon as this sand is under control the oil will flow continuously. It is already, however, a good paying well.

Great crowds go to the site of the well every day and hundreds have witnessed the oil flowing, during the past few days. Prominent officials of the Santa Fe Railroad Company, who visited the well this week started on their return trip home and after reaching the Arno station, several miles from the well, could witness the oil going over the derrick from there.

Business men and other oil men of the Pecos field have utmost confidence in the ability and integrity of Mr. Ramsey, who is managing the drilling of the Toyah Bell and are of the opinion that he is working cautiously and carefully and that the time being spent in making the well flow continuously is necessary because to bridge over, but which is gradually decreasing in its menace to the

cause of the sand that has continued oil's effort to reach the top. He is a man of conservative manner. He doesn't talk for publicitign except answer to direct questions, so he is regarded by those who know him, as a matter-of-fact man,—one of the calibre and appearance who makes the impression of a real hard working mining engineer. He leaves the impression that he is after the money that the actual production of oil in paying quantities from his well will provide.

Furthermore, Mr. Ramsey declared, when questioned Friday morning, just before this paper goes to press, that he plans to drill other wells on their holdings in the vicinity of the Toyah Bell. He said work on new locations will begin as soon as the Toyah Bell is put in good shape and the oil is entering the market.

# OIL WELL SUPPLY COMPANY OPENS BIG BRANCH HOUSE

That the Waggoner Oil Supply Company, with headquarters at Ft. Worth, means business in opening a hundred thousand dollar branch house in Pecos has been verified by the arrival of cars of material and supplies this week.

Actual work has already begun on the building and a lot of the supplies to be carried here are already being unloaded.

Representatives of the company were here two weeks ago and closed a deal for the Drummond property, just south of the Texas & Pacific

tracks and across the street east of the Orient Hotel.

R. W. Davis is the manager of the Pecos branch house of the company and is already here getting the building in shape and the supplies unloaded. Two cars have arrived and three more are on route now, with others still to follow later. With Mr. Davis is M. B. Smith and both are from Breckenridge, where they have been with the Waggoner people's house there. Mr. Davis' wife will arrive later. The first shipment of supplies consists of stems, fittings, bailers, wrenches and engines.

# DISTRICT COURT OPENS IN PECOS WITH A VERY LIGHT DOCKET

District Court for the regular term at Pecos was convened Monday morning at 10 o'clock with only a light docket to handle. The grand jury was convened and there were four indictments returned by this body, two for bootlegging and two for theft. Two divorce cases were on the docket and a divorce was granted in each case.

District Judge Charles Gibbs, District Attorney Baker and the official court reporter from Midland were on

amount of business at hand court adjourned until next Monday. The grand jury adjourned also until December 2.

The personnel of the grand jury is as follows: Sam Prewitt, foreman; Geo. Daniels, V. E. Pruett, C. C. Boyd, A. B. Burchard, J. W. B. Williams, H. W. Hinkle, B. A. Toliver, A. J. Curtis, W. W. Dean, R. P. Hicks and W. W. Brookfield.

Charged by indictment of the grand jury this week with bootlegging liquor, Hill Lewis and Jack Witter of Pecos were placed under arrest by county officers Wednesday.

# CALIFORNIA MAN HAS PLANS TO PLANT 600 ACRES VINYARD HERE

Good prospects for grape growing on a large scale are now in the making for the Pecos section.

A letter received by The Enterprise Wednesday from John S. Knox of Cledele, California, indicates that he will probably start a grape vineyard of several hundred acres in fine grapes in the near future. He said so in his letter. He has 915 acres between Pecos and Balmorhea, the soil of which is said to be of the kind that grows fine grapes and other fruits. One or two prominent business men of Pecos to whom the communication was shown declared that Pecos would surely back with all assistance possible any step toward developing suitable soil in this territory for the growing of grapes or other fruits on a large scale.

It is not known yet whether Mr.

Knox's land can be supplied with sufficient water to grow the entire acreage planted in a vineyard but it is certain that there is plenty of soil with water available in this territory that is ideal for growing vineyards of several hundred acres. It is possible that Mr. Knox and associates will visit this section soon with definite plans of launching their venture, and if the land which he already owns cannot be watered sufficiently it is possible that other lands will be secured.

It has been known for several years that this climate and soil around Pecos, where water in sufficient quantities can be secured, will grow grapes and other fruits with far better color and flavor than many of the rich growing districts of California and the Ozarks in the East.

# DECREASE IN FREIGHT RATES IS ANNOUNCED BY COMMISSION

What is considered good news to farmers of the Pecos Valley and all the Southwest is the report of the reduction of freight rates on certain farm products.

On last Monday an order was issued by the Interstate Commerce Commission, requiring all railroads to put approximately 16 per cent decrease on hay and grain shipments in territory from the Mississippi Valley to the Pacific Coast. It is estimated that this means a saving of about \$38,000,000 annually to shippers in

the Western territory. A few days prior to this announcement the railroads opened negotiations with the commission by suggesting a ten per cent decrease in freight rates on all agricultural products. This proposal included live stock and it is believed that an actual reduction will be effected for live stock shipments within the near future. Such a decision is looked for by some stockmen and is very much needed especially at this time when live stock prices are so low.

# 27 CENTS FOR GASOLINE

New York, Nov. 23.—The Standard Oil Companies of New York and New Jersey, announced another advance of one cent a gallon in the wholesale price of gasoline. The price in New York now is 27 cents a gallon.

# WILLOUGHBY HAS GOOD PROSPECTS IN NEW DRILLING

With everything in first class condition drilling is going on rapidly on Wiloughby No. One, which was spudded in just a few days ago. By the time this paper goes to press it is expected, according to reports, that the drill should be below the 100-foot mark.

Only a few inches below the grass roots, the drillers spudded into cretaceous lime rock and the first hundred feet is practically all of this same formation. All surroundings, geological data and the general prospect of this hole is said to be exceedingly promising.

The entire three thousand acre drilling block, belonging to the Wiloughby Petroleum Company, has been abstracted. The title is said to be in first class shape and everything for the company's future protection finished up. Mr. Wiloughby, who has just returned from a business trip East, is one of the most enthusiastic and untiring workers in the entire Pecos country.

# HILA MORGAN TO GIVE PLAYS HERE

What the Hila Morgan Theatre Company's advance agent describes as a "tent theatre company which shows moral, clean and high class shows" will begin its playing in Pecos Monday night.

The big tent is to be pitched on the vacant lot on Main street, just north of the Court House. The show Monday night will be "The Brat," a play "owned and operated by a little woman who has made a big success by presenting to the public entertainment of the clean and better kind, at low prices."

Hila Morgan is described as the "Doll Comedienne."

Other plays advertised are "In Old Kentucky," "Daddy Long Legs," "Pollyanna," "The Girl From Out Yonder," "Lena Rivers," "The Trail of the Lonesome Pine" and "Buddies." Vaudeville between acts.

There will be free admission to women Monday night for the initial play with the payment only of the five cent war tax.

# PECOS-ANGELES TO DOUBLE ITS SHIFT

The Pecos-Angeles well, which is about four and a half miles west of the Toyah-Bell well in Loving county, is still drilling and making good headway. Arrangements are being made to put on a day and night shift within the next few days, so as to keep the drill pounding away constantly. The drill is now close to the 950-foot stage.

# METHODIST HOME COMING SUCCESS

That the Methodist Home Coming Day in Pecos last Sunday was a big success has been shown in many ways according to the pastor, the Rev. L. L. Thurston.

The Rev. Mr. Thurston is delighted with the attendance, both in church service and Sunday school, as a result of the special day advertising. He said that it was probably the largest attendance for regular service that has been recorded here in his church for some time. The work of the church is progressing along fine lines now, according to figures which he gave out this week. He is very enthusiastic over the outlook.

**A TONIC**

Groves' Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Groves' Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c. (Advertisement)

**PECOS VALLEY LODGE No. 736,  
A. F. AND A. M.**

Pecos, Texas, Nov. 10, 1921.  
Whereas, The Supreme Grand Master has, in his all wise providence, seen fit to remove Brother Wiley R. Johnson from our midst, to become a member of that Celestial Lodge above; and

Whereas, Brother Johnson leaves behind to mourn his loss a sorrowing wife and children, an aged mother and other bereaved relatives; and

Whereas, Brother Johnson had ever worn his apron with equal pleasure to himself and honor to the Fraternity, and had by his example been an inspiration to other and younger brothers to live together in peace and harmony;

Therefore, Be It Resolved, That Pecos Valley Lodge No. 736, A. F. and A. M., with a keen appreciation of its own loss and that of the community, extend to the bereaved family this resolution of sympathy and respect; and

Furthermore, Be It Resolved, That a copy of this resolution be sent to the press of this city; and a copy spread upon the minutes of this Lodge, that all may know of the loss suffered by the untimely death of this brother.

Respectfully submitted,  
JAS. F. ROSS, JR.,  
CHAS. A. YOUNG,  
H. S. WOODS,  
Your Committee.

**GRAPES IN MESILLA VALLEY**

George W. Frenger, chairman of the industrial committee of the Las Cruces Chamber of Commerce, co-operating with the Dona Ana County Farm Bureau and Robert C. Stockdale, county horticultural agent, announces that a large number of farmers in various parts of the Mesilla Valley, will each plant from two to five acres in grapes this fall with a view to working out an industrial problem.

"There is every reason to believe that the grape industry can be developed to a highly profitable point," Mr. Frenger said. "The records which date back as far as 1681, when the Franciscans came to this valley from Portugal and Spain, show that the industry flourished more than 200 years ago and that practically all kinds of grapes, including the best European varieties, thrive in this district."

The New Mexico Agricultural College has placed its approval on the Mesilla Valley experiments in grape growing. Several farmers planted from one to ten acres of grapes this fall.

**ROOSEVELT TO  
ELEPHANT BUTTE**

Construction of a highway between the Roosevelt dam of the Salt River Valley project and the Elephant Butte dam on the Rio Grande in New Mexico, is well under way. This highway is expected to be completed in a year. It opens up fertile valleys back from the railroads and is one of the finest scenic routes in the West. Silver City, New Mexico, is the most important town on this route.

**INEXPENSIVE MEAT**

Wilson Shook, of San Saba, killed 1,225 rabbits in ninety days with a target rifle. Shook says his record was 85 in one day.

**GIVING OUT**

The Struggle Discourages Many a Citizen of Pecos.

Around all day with an aching back, Can't rest at night; Enough to make any one "give out." Doan's Kidney Pills are helping thousands.

They are for kidney headache; And other kidney ills. Here is Pecos proof of their merit:

Mrs. M. D. Jester says: "I was in bad condition and it seemed I could get no relief. My kidneys acted irregularly, much too often, but not freely enough. I was in great pain. I was all tired out and could hardly get around. After using different remedies I tried Doan's Kidney Pills and they soon put me on my back. Doan's regulated my kidneys and I felt better in every way. I wouldn't be without Doan's Kidney Pills."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Jester had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Advertisement)

**NATIONAL PARK MEETING CALLED**

A mass meeting of citizens of Southwestern States interested in a National park for this section of the country is to be held in Las Cruces, New Mexico, Saturday, December 3.

The purpose of this meeting is outlined in the following letter which has been received by The Enterprise:

"A mass convention of all the people of the States of New Mexico, Arizona and Texas interested in the creation of a National park, to be located in the State of New Mexico, for the purpose of health, recreation, philanthropy, business and enjoyment of grand scenery, by order of the temporary organization of the Southwest National All-Year Park Association recently created in the way and for the purpose explained in the committee's letter herewith accompanying, is hereby called to meet at Las Cruces, N. M., on Saturday, December 3, 1921, to perfect a permanent organization, select a name for such park when created, adopt a proposed congressional enactment for the creation thereof, and ways and means for bringing the same into existence and any other business pertinent to such purposes.

"All persons attending are to have a voice and vote upon all matters coming before the convention. This

is a public invitation to every citizen of every Southwestern State interested in the subject matter, and to every newspaper and its representatives, State or county and city officials, boards of trade, chambers of commerce, or business organization, and to every religious, social or other civic organization, all of which are asked to attend or send representatives.

"Will you kindly see to it that your community is organized and represented at this convention.

Very truly,  
W. A. HAWKINS,

**NOTICE TO CREDITORS**

No. 35, In Bankruptcy.  
In the United States District Court for the Western District of Texas, In the Matter of Jim Payne, Bankrupt.

The creditors of said Jim Payne are hereby notified that he has filed a petition for a certificate of discharge in bankruptcy, and that the same, under an order of said Court will be heard before Ben Randals, Referee, at his office in Pecos, Texas, at 10 o'clock in the forenoon, on the 28th day of December, A. D. 1921, at which time and place the creditor of said bankrupt may appear and show cause, if any they have, why the prayer of said petition should not be granted.

D. H. HART, Clerk.  
By J. F. CAROLINE, Deputy.  
Dated November 17, 1921.

**ONE OF OUR GREATEST NEEDS**

"Trained leadership in agriculture is one of the greatest needs of Texas."

That's what President Bizzell of the Agricultural and Mechanical College told the teachers' institute of Hunt county yesterday.

If the people of Texas could grasp the full significance of that declaration—recognize its overshadowing importance—and get a vision of what concerted and continuous effort to provide that leadership would mean to Texas, the future would bring greater progress and prosperity to the State than the average man dreams.

Economists everywhere are beginning to realize that one of the biggest needs of the world—one of the essential steps toward the highest standard of material well-being it is possible to reach—is to increase the per capita production in agriculture.

President Bizzell said that the time has come to tell the plain truth that agricultural education—that the facts relating to it and the opportunities and advantages which it offers should be plainly set forth.

And in order to emphasize that statement we would add that the time has come to tell the truth about agriculture.

Agriculture—or rather the percentage of the population engaged in agriculture—has been lagging behind the van of progress for years. Agriculture itself as a science has progressed greatly. But the great bulk of the men engaged in it have not kept pace with that progress. And they have not begun to keep step with the other branches of industry.

The period since the Civil War has been a wonderful period in this country and in the world. In every branch of organized industry—except agriculture—the average product of each man at work has more than doubled. Indeed, it has nearly tripled in some of them. In other words in all industries—except agriculture—the average worker is producing between two and three times as much as the average worker produced in 1850. The average worker in agriculture has remained almost stationary. A careful examination of the latest figures would show that today the per capita production in agriculture is not 30 per cent higher than it was in 1850.

And yet there are individual farmers whose product is more than twice that of the average farmer of 1850.

That circumstance is chiefly responsible for the condition of a great percentage of the farmers today. The people actually living on farms today constitute about 34 per cent of the population. And that 34 per cent of the population produces only 23 per cent of the national wealth annually. That means that the other 66 per cent of the population produces 77 per cent of the wealth. With such a situation existing there is no way that could be devised by which the average individual of the 34 per cent engaged in farming could be provided that a material standard of living equal to that of the average individual of the other 66 per cent of the population.

And yet the whole population depends upon farming for its primary necessities. And the whole of the remainder of industry depends upon farming for its very existence.

If there were no farming there could be nothing else. Farming is the very foundation of civilization.

There is only one way out of this. The great progress in other industries—the great increase in the production of the average worker in other industries—has been due to the increase of the application of capital and improved methods to production.

The extent to which capital can be applied to agriculture is perhaps more limited than in the case of other industries. But the extent to which skill can be applied to it is greater. There has been immense progress in discovering improved methods, both in the matter of production and the entire conduct of agriculture. But they have not been applied. The only way out is to apply them. And the only way they can be applied is through trained leadership. There are too many unskilled workers in agriculture.

There ought to be a highly skilled agricultural agent in every farming county in Texas. There ought to be one in every farming county in the United States, for that matter. But we are talking about Texas. And yet if the attempt was made tomorrow to install a county agent in every county there would not be nearly enough highly trained leaders to go round.

The way out, therefore, is along the path of agricultural education. We ought to be giving more attention and more effort to that in Texas than to anything else. For it is along that path that our greatest progress lies.—Star Telegram.

Of the 15,000,000,000 inhabitants on the globe it has been estimated that three die every two seconds, 90 die every minute, 5,595 every hour, 137,736 every day and 50,000,000 yearly.

There were 623,869 marriages in France last year against 312,036 in 1913. The number of births over deaths for 1920 was 150,000, compared with 58,000 in 1913.

**LEARN BUSINESS AT WEATHERFORD**

It is no longer necessary for young people of this part of Texas to travel long distances to reach a school qualified to teach them practical office methods. There is now a school at Weatherford, the Texas Business College, that offers every advantage of Eastern schools in preparing young men and women for well paid office positions. A unique feature of the training is a special course in "How to Market Your Services."

This instruction teaches students how to get and hold the better class of positions and no extra charge is made for this novel service. A Home Study Department is another new feature for those who find it impossible to go to Weatherford. The new term opens just after the Christmas holidays. Write the president, T. H. Gatlin, today for a catalog and full information. Texas Business College, First National Bank Bldg., Weatherford, Texas.

**OWNER FOR WALLET WITH \$57,000 SOUGHT**

Chicago, Nov. 25.—The owner of a lost wallet containing \$57,000 is today being sought by Charles S. Neumann, president of a flour company, who picked up the muddied wallet from the gutter.

"If the owner does not claim the money within a reasonable time, I'm going to split the \$57,000 between the Red Cross and the Child War Sufferers of Europe. If he does and gives a reward, I shall do it the same way."

**NOTICE TO HUNTERS**

If you have any luck and bring down a nice buck, get a cat or soyote skin or a good bird specimen and want it mounted or made into a rug, phone or call at Walker's Tailor Shop.

Nelson Phillips has resigned as Chief Justice of the Supreme Court of Texas. He is succeeded by Attorney General C. M. Cureton, who has been appointed by Governor Pat M. Neff. It is believed that First Assistant Attorney General will be appointed Attorney General.

To Stop a Cough Quick take HAYES' HEALING HONEY, a cough medicine which stops the cough by heating the inflamed and irritated tissues. A box of GROVES O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Groves' O-Pen-Trate Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 50c. Just ask your druggist for HAYES' HEALING HONEY. (Advertisement)

**Thanksgiving Day  
November 24, 1921**

Will always be remembered as one of the great days in American history. The greatest of all wars was finished more than three years ago; the hard times that followed are rapidly passing away, and our own Nation, always first in every great movement for humanity, is taking the lead in efforts to stop all future wars and the other great nations are falling in line.

We rejoice here at home because of many things, life, health, strength and limitless opportunities. A great oil well is being brought in and who can doubt that before another year passes Pecos will have become a city and every vicinity bustle with life and activity for oil, the Greatest of All Magicians, works wonders over night. Money will be plentiful beyond our wildest expectations and money is the greatest human power. It will be up to us to use it wisely for the greatest good to ourselves and others.

Those who read my advertising in this paper each week know that I offer Safe Investments at Low Prices. If, without delay, you take advantage of my service, when another year rolls round you may be residing high up on Easy Street, for oil, the Maker of Millionaires, has changed the address of thousands in Texas the last year and your turn may come next.

For small or large investments, drilling contracts, or agency connections, always address

It is not things, but false opinions about things, that trouble mankind.—Epictetus.

CLEAN UP

Now that the freezing weather has killed all weeds and grass it is a good time to clean up and burn off around the premises of many places in Pecos where the appearance of the property would be greatly helped thereby.

WILL WOMEN END WAR?

Cullen F. Thomas, candidate for the United States Senate, in addressing members of the Texas Federation of Women's Clubs at Ft. Worth, the other day declared that "From this time on women of America can strike for the cessation of war and demand that the principles of the world development and power be based on construction, not destruction, and they will be heeded."

THE BIG END OF TAXES

It is said that 97 per cent of the government's taxes have been going and are now going to pay for things incident to past wars, present military equipment, maintenances and preparation for possible future wars, while three per cent goes to maintenance of the civil side of our government.

OIL IS KING TODAY

We said it last year, the year before, and the year before that—and we say it again—OIL IS KING TODAY. Compare this gigantic industry with any other, reason it out, go over all angles, and you will agree with us.

THE BETRAYAL OF A NATION

The history of the fight to destroy the League of Nations, or at least to make it impotent, is being written much earlier than many politicians anticipated. The motive behind the fight was thought to be successfully hidden in the innermost recesses of the minds of those who conceived the plot and executed it.

Prior to the receipt of the Treaty of Versailles and League of Nations document in this country, but after party leaders had been informed somewhat of its scope, Senator Lodge, Knox (now deceased), Brandegee and a few other party leaders met in secret at a prearranged dinner party where Senator Lodge presented his plan to restore the Republican party to power.

"President Wilson has brought back from France the most important State document ever formulated in the history of the world. If the Senate of the United States ratifies this League of Nations covenant and treaty of peace, it will be known, heralded and recorded as an achievement of the Democratic party."

In this statement Senator Lodge acknowledged the Treaty of Versailles and League of Nations as the greatest State document ever formulated in the world. His objection to it was that it was the product of a Democratic President and a Democratic administration.

This editorial is not written in support of the League of Nations but in condemnation of all party leaders, Democratic and Republican, whose loyalty to party and to their own selfish interests is greater than their loyalty to the nation itself.

How long will we continue to send men to the United States Senate and to the House of Representatives whose only thought is for political power and who subject the welfare of the nation to whims of leaders who play the game from a professional standpoint and according to rules of a half century ago?

"Woman Beats Polecat's Brains Out," reads a newspaper headline. That there is no undertaking beyond the determination of a woman, once her head is set or her anger aroused, is proven again by the story that was carried under the above mentioned headline.

"Woman Beats Polecat's Brains Out," reads a newspaper headline. That there is no undertaking beyond the determination of a woman, once her head is set or her anger aroused, is proven again by the story that was carried under the above mentioned headline.

out as a result of the encounter and commiserated. But what of all this. The good dame now had more than worthy cause for getting some new clothing, for bobbing her hair—and the bad eye, of course, the oculist can fix that up brown. The moral of this incident, which is reported in one of our New Mexico contemporaries as fact, is that if one wants to do anything and enough it will be done, especially if it is a woman who is doing the wanting. And that there is nothing too repelling for a woman to do if it is necessary to be done.

BRIEF NEWS

Members of the National Farmers' Union, in session at Topeka, endorsed Henry Ford's gigantic proposal to buy the navies of the world at junk prices and then develop the 1,000,000 horsepower of Mussel Shoals.

FLYING AUTOMOBILE IS PERFECTED BY FRENCH

Paris, France, Nov. 23.—A flying automobile is the latest development in the French aero world. A successful demonstration of an ordinary automobile with folding wings, two engines, one of ten horse power for land going and the other of 300 horse power for air travel, was held recently at Duc, Seine-Et-Oise. The machine performed all the usual feats of an airplane and also of an automobile.

BOND MARKET IS HELPING BUSINESS

The bond market saw on last Monday the highest peak of prices for the year, in New York. New offerings were being grabbed in addition to the continued sale of the listed bonds. This means increased activities in many lines and is regarded as a very hopeful sign for the unemployed thousands in many cities of the East and South.

NEW LAW REDUCES GOVERNMENT TAXES

A Washington Dispatch tells of the signing, by President Harding, of the new Government tax law, in which every citizen of the land is greatly interested. The new measure repeals the excess profits and transportation taxes, does away with most of the so-called nuisance and luxury taxes, reduces individual taxes all along the line and increases the corporation income tax from 10 to 12 1/2 percent.

WARD COUNTY GETS ROAD BUILDING FUND

News reached Pecos Friday morning to the effect that Ward county, joining Reeves county on the East, had been awarded \$100,000 of the Federal and State road funds made available by recent Government appropriations. Ward county was among the nineteen counties that applied for aid from the nine million dollars fund which was distributed by the State Highway Commission at its meeting in Austin this week.

FOR RENT—Pasture nine miles of Pecos that will carry 500 head cattle

THANKSGIVING IS WELL OBSERVED BY PEOPLE OF PECOS

All Pecos observed Thanksgiving day in a typical holiday fashion, Thursday. All stores, banks, postoffice and other places of business closed for the day and the streets of the town were as quiet as they ordinarily are on Sunday.

A general Thanksgiving service was held in the Christian church by representatives from the several churches. The meeting was well attended, the auditorium of the church being nearly filled. The Rev. L. L. Thurston, pastor of the Methodist church, presided. The Rev. J. M. Garner, pastor of the Baptist church, preached the sermon, and his message was a very forceful and timely deliverance. Music was provided by a choir of representatives from several churches.

In the afternoon, basketball and football games were played between the Midland High and the Pecos High schools' teams. Pecos came off victor in each event, the score in football being 14 to 0. This makes Pecos winner in two out of the three games with Midland this year. A large crowd witnessed the games Thursday afternoon.

One of the most interesting events of the entire day was the basketball game between Pecos and Midland girls of the respective high schools. The score was 36 to 8 in favor of Pecos. The local line-up was composed of the following young ladies: Estell Hicks, Stella Kiser, Velma Gentry, Delma Alexander, Josie Prewitt, and Edna Boles. Miss Mary Nelson was referee. Good and clean playing was done by both sides.

RAILWAY MEN ARE PECOS VISITORS

F. P. Cruice of Topeka, Kans., Manager Agricultural and Industrial Department of the A. T. & S. F. Ry. Co., and W. E. Goodloe, of Amarillo, Division Freight and Passenger Agent of the A. T. & S. F. Ry. Co. and P. & S. F. Ry. Co., spent Monday and Tuesday in Pecos.

That there is a great future for this section in the way of oil and irrigation developments is the opinion of these men. While here they went out to the Toyah-Bell well and were greatly impressed with this well as a producer. They are of the opinion that other development will start in the near future.

"I see no reason why Pecos country should not become, in the very near future, a great fruit country," declared Mr. Cruice, who is familiar with all the agricultural and irrigation sections of the West and Southwest. "The soil here is very similar to that in the Salt River Valley of Arizona, where such great crops are grown and where fine grapes and other fruits do exceedingly well."

A dinner was given the men at the Mint Cafe Monday night by Secretary Sutherland and members of Pecos Chamber of Commerce.

REAL ESTATE BARGAIN

In order to settle an estate the Guardian has authorized me to place on the market 584 acres of land on Toyah Creek in Reeves County at a price that will move same. Mrs. Lillie W. Cole, Agt. 1t

LEGION POST TO START ON PLANS FOR A BUILDING

At a meeting of the American Legion Richard Briscoe Post Wednesday evening the Executive committee was instructed to proceed with plans for the erection of a building for the use of the local post members and also that may be used for other public purposes. It is stated that the building will probably be started within the next few days. It will have an auditorium and offices for the Legion.

Arrangements have been made for a lease on a piece of property near the City Hall and there is more than \$1,000 in the building fund with which to start operations. The Executive committee consists of W. W. Dean, Dr. Jim Camp, John Ross and C. A. Young. It was the time for regular election of officers and the following were elected: Commander, William Ross; Vice Commander, R. S. Johnson; Adjutant and Historian, Barney Hubbs; Finance Officer, Chas. A. Young.

NOTICE OF APPLICATION FOR ORDER OF LEASE—ESTATES THE STATE OF TEXAS.

To the Sheriff or any Constable of Reeves County, GREETING: YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Reeves, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

Notice of Application for Order of Lease—Estates. The State of Texas, To all persons interested in the Estate of W. J. Walker, Deceased, Mrs. O. P. Walker, Administratrix of the Estate of W. J. Walker, Deceased, has filed in the County Court of Falls County, an application for an order to lease the interest of said estate in Sections 42 and 43 in Block 29, Public School Lands, Loving County, Texas, each section containing 640 acres of land, for the purpose of drilling, mining and operating for gas, oil, other minerals or metals, which will be heard at the Court House at Marlin, Texas, on the 10th day of December, A. D. 1921, at which time all persons interested in said estate are required to appear and show cause why such application should not be granted, should they choose to do so.

Herein fail not, but have you then and there before said Court this writ, with your return thereon endorsed, showing how you have executed the same. Given under my hand and the seal of said Court, this 19th day of November, A. D. 1921. W. F. TURNER, Clerk County Court, Falls County, Texas. 1t

It is certain that not all of the investment in the Pecos Field will make money. God willing ours is going to. It is a matter of personal honor with us to spend this money in the wisest and most judicious manner possible. It is our intention that the persons who put their money into this company will not only have a square deal, but that everything possible will be done to win for them the fortune which they failed to win in the other fields. A few years ago it was Burkburnett—then Ranger—then Breckenridge—then El Dorado—then Mexia—and last—and greatest of all—PECOS. They say that opportunity knocks at your door but once. It isn't true. New opportunities are presented to you every day—and some of them several times. Grasp this opportunity. Wishing won't bring you wealth. If your wishbone is where your backbone ought to be you will never be wealthy. Yesterday is gone. Tomorrow will never come, but Today is here, and the man or woman who waits are the ones who want in later life. Let your best judgment decide, but right now you can get in on development of thousands of acres of land owned by the company. You can share in the tremendous fortune that is sure to result from the bringing in of gusher production on our acreage. If ever there was a chance for a real "cleanup" this is it. Give yourself this chance. Don't make the mistake of hanging fire on this deal. Fill in the order blank below, attach thereto remittance to cover your order and get it in the mail. It is opportunity. GET IN NOW.

## The Way to Win

All of us cherish the wish for a larger income and wonder oftentimes if Fortune will ever find us. The history of the captains of finance reads much alike in one respect and that is that those who grasped their

## HUGHES LEADS IN DISARMAMENT MEET

America, under the leadership of Secretary of State, Hughes is leading in the plans before the Conferences being held this week at Washington by representatives of world powers.

The conference has closed the formative period of its deliberations, the major aims of the powers have been declared. America has declared definitely and plainly her desires for disarmament to a decided degree, the first proposal along this line being for the declaration of a ten year holiday in shipbuilding. This proposal was greeted with favorable comment on the part of the other leading powers sitting at the counsel table. England has made her plea for abolition of the submarine. China has set forth in ten points demands for an open door policy. Japan has asked for more battleships. France has asked for the retention of submarines and for a standing army sufficient to cope with Germany.

These were the main propositions announced for the conference's deliberation and upon this agreement "in principle" has been reached by the delegates of the powers around the counsel table. It now remains for the details to be threshed out and the agreements reached in definite form and on paper. But it is yet hard to tell whether the meeting means more armament or less armament, with the indications slightly favoring the latter.

You may need some help again sometime better pay up—O. J. Green Merc. Co. 1t.

## To Acreage Owners and Buyers:

The PECOS VALLEY OIL FIELD is coming to the front.

The PECOS VALLEY will be a big oil field shortly.

Many fortunes are made or lost in a new oil field, and the man that has first hand, reliable information, makes the money.

Real EXPERT information is necessary and worth a lot of money at the proper time.

If you own acreage here and your residence is elsewhere, you need expert advice from now on.

If you figure to buy oil properties here, you need expert advice also.

For the last two years I have been at the services of one of the oil corporations here, the first corporation to make extensive geological surveys of his field and open and prosecute drilling operations in Reeves, Loving and Ward Counties.

I have obtained day by day, by personal experience, work, study and association with some of the best Geologists that have made various surveys of this field, informations and data of immense value.

A special Geological report and survey on a certain tract of acreage, would cost hundreds of dollars, and not all oil investors or oil property owners can afford to employ and pay big prices to technical experts to secure special reports on what they want when they want to buy or sell, unless it involves a large amount of money. They generally rely upon public information, friends advice, hearsay, luck or promoters' literature, etc. and most of the time buy valueless properties or sell valuable acreage at the wrong time.

On account of my work in this field, the experience and knowledge I have of it, my past experience in other fields, and my constant study and observation of all development work now going on, am prepared to give CONFIDENTIAL INFORMATIONS on any piece of prospective oil property, or any well in this field, by mail or wire, at any time, for \$5.00, and such informations, if taken as they are, can be worth a lot to you, or save you from loss at the present or in the future.

If you are an oil man you need my advice and wires more than anyone else as they will be worth hundreds of dollars to you in railroad fares and time.

When you come to the conclusion that you need disinterested expert advice, and you must have it in a hurry, write me what you want to know enclosing money order or check for \$5.00, state if you want an answer by mail or wire, and I will give you the information and advice you ask, based on my own knowledge of actual facts and conditions as they are.

Reports and surveys of any tract at prices to be agreed upon.

**A. V. DE PASCALE**

Oil Scout and Engineer  
PECOS, TEXAS

## FINANCIAL REVIEW

Prepared For The Enterprise By  
The First National Bank in  
St. Louis.

The most outstanding event in financial circles this past week was a general cut in the discount rates of Federal Reserve banks to 4½ percent in New York and Philadelphia and 5½ percent in other cities. The reasons for the importance of this action vary, but an easier money conditions and more satisfactory speculative conditions is looked for by many.

Previous cuts in rates have had only a limited effect on either call or time money rates and the commercial rate has yielded only slightly. There is little reason to suppose that the latest cuts will have any more immediate effects in rates to individual borrowers.

The demand of member banks, instead of increasing with cuts in rates, has become smaller and, seemingly, these banks are little influenced by rates when such accommodation is needed.

The likelihood of the effects of a reduced rate being transmitted to individuals is lessened also when it is considered that with business at a high level only 40 to 50 percent of the member banks avail themselves of the borrowing privilege. Customers of the other banks are only indirectly affected.

The question involved in the situation is not so much the rate on loans, but the type of paper discounted. If a less selective policy is pursued, the effect of the lowered rate will be passed on to the public much more quickly than under other conditions.

In business and financial quarters, it is felt that the industrial situation and the restoration of buying demand is far more important than cheaper money. An equalization between prices of different kind of goods must be effected to restore business activity and bring about any considerable advance in security prices.

### IN BREWSTER FIELD

It is safe to say that the Twin Cities company will not get down to drilling in their well on the Kokernot ranch near Hovey this week, partly due to the trouble they are having getting the casing down and caving. These and other well difficulties are what is always expected in deep wells. This well is now down 1930 feet and as it has had several good showings of oil and gas it is a very promising test; in fact so much so that the management feels confident of a good well.

The Nine Point Oil Company's well, according to Mr. Fennell, the field manager, is getting along nicely, and has had alternate stratas of shale, sandstone and limestone. The indications are of the best. It is encouraging to find the sand and shale stratas growing thicker as they go down. The managers are very enthusiastic over the prospects in this well. The structure where this well is on is considered very favorable.

Manager Riggle of the A. & T. Company has started work again at the well on the W. H. Kokernot ranch and everything seems to be running smooth again. They say the well will be pushed right along.

The Portland Syndicate well is again going down rapidly and is now over 1200 feet. It, too, is having alternate lime and sand stratas with shale.

The Western Petroleum Company will finish casing the Wilson No. 2 and then after cleaning the hole will begin drilling in. Some of the company officers are on the ground. President Haddock and Mr. Schuler were at the well a few days ago and the latter will remain until the well comes in.

The Bone Springs Syndicate still waiting for extras and it may be some time before it is again in good running order. When it starts to drilling again they will very likely develop the shallow sand which they found at about 50 feet and which contains a fine showing of oil. It is now clearly demonstrated that the Bone Springs Valley is the shallow oil district of Brewster county as far as drilling has progressed. The formation is entirely different to any found elsewhere in Brewster county and is considered most favorable for oil.—The Avalanche.

### WORLD'S LARGEST

#### FIG ORCHARD

The largest single fig acreage in the world, the J. C. Forkner fig gardens at Fresno, are to have an addition of 2,000 acres of the Black Mission variety, making the Forkner plantations 18,000 acres in extent. The new subdivision extends from the city limits to the San Joaquin river, a distance of over ten miles. The survey made includes a Riverview boulevard from the city of Fresno to the river which will be one of the most beautiful scenic highways in the state of California.

Baron Takahashi has been appointed as minister of finance of Japan. He is the premier of the Japanese cabinet and one of the most influential officials of the world powers. His appointment is considered well in the light of United States political affairs. He is reported to be for a reduction of military equipment. He was partially educated in the United States and speaks English fluently.

### IT PAYS TO ADVERTISE

In The Pecos Enterprise. Rates 40 cents an inch or 10 cents a line for readers.

# GET IN ON THE TOYAH BELL!

Where The Oil Is Gushing And The Willoughby No. One Well  
**WHERE THE DRILL IS POUNDING**  
And a Five Acre Lease That May Be Worth \$50,000.00 Within A Few Months. Three Hundred Dollars May Make You Independently Rich.

The large companies are accepting the Pecos Field as proven and are expressing their faith in the field by investments running into fabulous sums. The oil sand in the Toyah Bell is pronounced a true Pennsylvanian sand, the oil declared to be from 38 to 40 gravity and refining interests have bid \$2.75 per barrel for the oil. Those who have the courage to follow the big companies and who wisely invest a few hundred dollars now will undoubtedly wake up some morning in the near future to find themselves made rich over night just as many poor people were made wealthy at Burkburnett, Ranger, Eastland, Mexia and other world famed gusher fields. Mexia promises to outstrip all the other fields of Texas and who can doubt that the Pecos field may within the next few months surpass even Mexia. With oil gushing from a true Pennsylvanian sand of so high a quality to command \$2.75 per barrel in these days of low priced oil, the cheap drilling, ready railroad facilities and a ready market in California for the gasoline, everything indicates that the Pecos field will equal if not surpass all the other big fields.

**TAKE NO CHANCES. GET IN WHERE THE OIL IS GUSHING**

To the readers of the Enterprise I need no introduction. Everyone knows how, as President of the Pecos Natural Oil Company, I worked and struggled for almost a year and all know that it was my personal work and persistent efforts together with contracts entered into with men of means that finally brought in the Toyah Bell well. My past record and work in this field speaks for itself. When I start a well it is going to be completed. I was the first to spud in a well after the oil went over the crown block at the Toyah Bell and am determined to bring in the next gusher. The Willoughby No. One well is drilling steadily but I want to rush the drilling. I am determined to bring in the next gusher through the co-operation of the small investors, the people who have never known what riches really mean and I am also determined to make them real money. The small investor hesitates until the big opportunity is gone. Dollars are few and were earned by the sweat of the brow and it pays the poor man or woman to be cautious but it also pays to grasp a real opportunity when it comes.

## A THREE IN ONE INVESTMENT

In order to quickly finance the drilling of the Willoughby No. One well I am offering a few thousand shares of stock in the Pecos Natural Oil Company. This stock was never sold below the par value of \$1.00 before the Toyah Bell came in and I am offering it at \$2.00 per share. This will put you in where the well is gushing. Stock in the Willoughby Petroleum Company is \$1.00 per share and with each 100 shares we are giving you absolutely free a five-acre lease near the well. The POOR MAN'S opportunity. For \$300.00 you get 100 shares of stock in the Pecos Natural Oil Company, 100 shares in the Willoughby Petroleum Company and a five-acre lease. You get in where the oil is gushing at the Toyah Bell well, you get in where the drill is pounding at the Willoughby No. One well and a five-acre lease. Three chances to become wealthy from a \$300.00 investment. Don't "play the oil game," but get into the "oil business" with a man who does not claim to know it all, but you must admit that I drilled a deep well, in less time and on less money than any of the Wise Guys and every man got a square deal. I was in the field before the oil started gushing and have 3,000 acres in a solid block and am drilling almost in the center of the 3,000 acres of leases. All I promise is to do my best and to give you every dollar that is coming to you from a fortune too large to comprehend when we have brought in the Willoughby No. One well. I am going to sell out and divide up. Do you want in on it?

## IF SO USE THE LINE BELOW

C. H. Willoughby, Pecos, Texas, inclosed find three hundred dollars. Issue me 100 shares of stock in the Pecos Natural Oil Company, 100 shares in the Willoughby Petroleum Company and assign me a five-acre lease near the Willoughby No. One well.

Full Address.....

## TEXAS LEADS IN UNDERTAKING FOR DIVERSIFICATION

Dallas, Texas, Nov. 25.—"Texas is leading the South in the campaign to maintain and increase the extent of diversified farming as practical this year, and in preventing any increase in present cotton acreage for 1922," according to E. F. Shropshire, secretary-manager of the United Campaign for Better Agriculture for the State.

"At the recent cotton convention at Birmingham, Alabama, at which every cotton producing State was represented, the campaign program as outlined by Texas, at the conference in Dallas on September 16th, was adopted, practically without change, as the program for the entire cotton belt.

"TEXAS LIVE AT HOME DAY NOVEMBER 19th, promises, from information received throughout the State, to be a success in practically every county of the State.

"It was also agreed by the officials at the Birmingham conference that every cotton State will be called upon to hold like meetings in every county. This movement covers the cotton belt to the remotest community and is backed by the leading farmers, bankers, and business men of every county in the South. Our people have at last realized the folly of the one crop system and everywhere express the determination to live at home and make cotton a surplus or money crop. This action will demonstrate to the world that the people of the South realize the responsibility resting upon them; and cotton will be made a blessing instead of a curse to those who produce it.

"These pledges made on LIVE AT HOME DAY throughout Texas at all Southern States will hold the cotton acreage down to present figures and make each farm self-sustaining, and these pledges lived up to, will bring high prices and prosperity next fall instead of low prices and hard times, which will result if acreage is increased and an average crop of twelve to thirteen million bales is produced.

All of which are positively used by this unusual company.

IN THE FORT STOCKTON FIELD

Bower, Hale, Lamb & Findies, with a location on Section 592, G. C. & S. F. Railway survey, are still busy fishing pipe, tools and other odds and ends that are obstructions to drilling out of their well, and with the completion of the fishing job, casing will be set preparatory to the resumption of drilling.

Grant No. 6—the old Oregon-Texas well—will be in process of drilling in a few days. The operators have secured a new boiler and as soon as it is properly set and steam connections made, drilling will be resumed at the 1,280-foot level, where drilling was brought to a halt, as the result of burning out a boiler.

Tony Mayer, general manager, field superintendent, and petroleum engineer of the Terre Haute syndicate, was called away the first of the week to effect an amicable settlement of some business affairs in which some of the members of the syndicate had unwittingly involved themselves and which, it was feared by Mr. Mayer, might place in jeopardy some of the syndicate finances.

The Pinal Dome Oil Company, drilling eight miles northeast of Fort Stockton, on Section 208, Burleson survey, is down with its well 3,300 feet, says Manager Kerr, with the drill working in a mineral stratum closely resembling anhydrite—anhydrous sulphate of lime.

Bower, Hale & Lamb, operating a heavy star machine on Section 24, Block 26, University land, are down with their well around 1,600 feet, drilling in a limestone stratum. Under the direction of Field Manager Pat Lamb, the work is moving along in a very encouraging way and if the

drill bit confirms the geological findings, this well will be drilled into oil at some point between 2,000 and 2,500 feet, at no far distant day.

Superintendent Eddleman of the Detroit Oil Company, in charge of the rotary machine drilling on Section 28, Block 10, H. & G. N. Railway Company survey, says the drillers have made hole to the depth of 360 feet, with the bit working in limestone.

Field Manager M. H. Mason of the Polk Prospecting Company is of the opinion that business adjustments will soon be perfected in a manner sufficiently satisfactory to justify the resumption of drilling in the company's well located on Section 18, Block 140, T. & St. L. Railway Company survey, a quarter mile south of the Grant Oil Corporation shallow wells.

The Humphreys Company, drilling the David well on Section 55, Block C4, G. C. & S. F. Railway survey, has completed the truckage of sufficient fuel oil to fill the tankage, set casing to the 740-foot level to shut off water, and has resumed drilling, with the hole down to the depth of 820 feet, the bit working in a brown shale.—Ft. Stockton Pioneer.

Governor Neff urges school children to read carefully after the proceedings in the Arms Parley at Washington. He says it will be history soon and every young man and young woman will need to be familiar with what is transpiring in the disarmament discussion.

**No Worms in a Healthy Child**  
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILI TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or disperse the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

LETTER FROM D. D. PARRAMORE To Whom it May Concern:

This will introduce you to Mr. Axtell of the Hila Morgan Tent Theatre Company, who have just finished a two weeks' engagement at Abilene. This company came to Abilene very highly recommended by some of our friends in the East, and while here entertained under the auspices of the Sunshine Nursery, a charitable organization of which Mrs. Parramore is president. We found them to be the finest kind of people to do business with, and their entertainments as a whole were much better than we usually get with the annual Chautauques. We found them to be perfect ladies and gentlemen, and they played to the best in town and they will leave Abilene with the best regards of the Abilene people. This is no cheap tent show company. But as I would call it, a nice family of people giving splendid entertainments of a high class order. Any courtesies you might show them will be appreciated by their friends here. Yours truly,  
D. D. PARRAMORE.

This company comes to Pecos next Monday for a week's engagement.

**THE WAY OF IT**  
Our elevator boy says: "Newspaper guys are funny. Whenever they meet they always ask, 'What do you know?' The other says, 'Nothing,' and then the paper the next morning is filled with news."—Portland Oregonian.

"Garage," now used exclusively as a name for the housing for a motor vehicle, was originally used in France to denote a place for keeping boats, rolling stock, etc.

Honors come by diligence; riches spring from economy. — Chinese Maxim.

JOE LAYNE, SR., DIES

The following extracts from a letter to Major Bomar from Mr. Joe Layne, Jr., of Memphis, Tenn., explains itself:

"Dear Sir:  
Received your letter of the 12th. My father passed away on the 19th of August, 1921.

He was sick about eight weeks of anaemia, which you know is a disease that destroys the red corpuscles of the blood.

"When he went to the hospital he had less than one-fifth of the blood he should have had. He had three transfusions of blood from my sisters, but none took effect. Each transfusion consisted of a little more than a pint of blood."

This is sad news to the hosts of friends that Mr. Layne had in Pecos. None knew this gallant gentleman but to love him and none loved him but to praise.

It is announced that due to the drop in general farm crop prices farmers in the Rio Grande Valley of the El Paso vicinity will probably devote much of their acreage the coming year to vegetables and truck. It is estimated that 250 acres will be planted in cabbage, which will go on the market in July and August. This year's experience is said to show that an average of ten tons an acre can be harvested at a cost of \$90 to \$125 per acre, while a return of about \$20 to \$75 can be expected with an average of about \$25 a ton, making the income around \$250 per acre.

**Habitual Constipation Cured in 14 to 21 Days**  
"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

RECEIVERSHIP ASKED FOR GENERAL OIL CO.

Houston, Texas, Nov. 25.—Suit has been filed in the Sixty-first District Court requesting a receiver for the General Oil Company. This company, which was organized by S. E. J. Cox, but who lost control of it some time ago through court action, is now in the hands of M. McDonald, H. D. Copley, K. C. Barkley, George F. Liebrandt and J. F. Cinnans as trustees.

The suit is being brought by the Lincoln State Bank, the State Bank of West Pullman, James H. Murphy, Richard M. O'Brien, H. Nelson Wallace, T. C. Frederick, Gregory Hoyman and Theodore Mallers, all of Chicago.

Judge Walter E. Monteith has set next Friday at 9 o'clock for a hearing and cited the defendant to show cause why a receiver should not be appointed.

CALOMEL GOOD BUT AWFUL TREACHEROUS

NEXT DOSE MAY SALIVATE, SHOCK LIVER OR ATTACK YOUR BONES

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

New York, Nov. 25.—Samuel Josephson, landlord, was sentenced by Court of Special Sessions today to pay a \$250 fine and spend thirty days in the workhouse for failure to supply hot water to a tenant. The tenant, Benjamin Sheinmen, testified Josephson had cut off the hot water in an effort to compel him to vacate his apartment.

Nineteen counties asked State and Federal aid in road building at the monthly meeting of the State Highway Commission, Monday, at Austin, under the new Federal act. There is available for apportionment under this act a total of \$4,225,000. Ward and Reeves counties are included in the list asking for aid.

Rogues differ little. Each begins first as a disobedient son.—Chinese Proverb.

CALIFORNIA-CARLSBAD INTERESTS TAKE OVER KANSAS-CARLSBAD OIL CO.

A deal of vast importance was closed yesterday through Scott Etter's office, whereby E. H. Nix, representing California capital, takes over the well and about 20,000 acres of leases on Black river, south of Carlsbad.

While the consideration is not made public, it is learned through Fred Sproul, who closed the transaction for his people at El Dorado, Kansas, that the value of the property involved is in the neighborhood of \$50,000.

Mr. Nix is the man who financed the Blue Bird well here, and Scott Etter is their Carlsbad representative.

Mr. Etter and Mr. Nix declined to give details further than to admit the closing of the deal and that possession is being taken of the well and tools at once.

These people have already spent about \$100,000 here and have asked no favor except the support and good will of the people, which they will have in this new venture.—Carlsbad Argus.

EASIER MONEY

The strength of the investment market has been a dominant feature of the financial market—this occasioned by the recovery in bank reserves, and the lower tendency of interest rates, which has raised bond and other prices. The Federal Reserve Bank has reduced their loans about two-thirds, and today have about a half billion dollars more gold than a year ago.

The money supply is freer than in a good many years.—The Oil World.

Mr. Edison says he hates to think of the world fifty years from now—meaning, as little Benny says, that he fears the change. We hate the same way, but because we fear there will be no change.—Fort Worth Star-Telegram.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.  
When Freezone removes corns from the toes or calluses from the bottom of feet the skin beneath is left pink and healthy and never sore, tender or irritated.

"WHADDA THEY MEAN, DISARMAMENT?"

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as sold in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy in boxes of twelve Bayer Tablets of Aspirin in cost few cents. Druggists also sell by the package. Aspirin is the trade name of Bayer Manufacture of Monocetate ester of Salicylic acid.

# Society

## DINNER PARTY

Mr. and Mrs. S. C. Vaughan delightfully entertained Thursday of last week at a six o'clock dinner party at their beautiful and well regulated home in the north part of town. The table appointments were all that could be desired, and the turkey with its accompaniments and other delicacies were prepared to a queen's taste and the serving was most delightfully done. The decorations were in massive bouquets of yellow chrysanthemums. After-dinner games of progressive "42" were played. Those to enjoy this delightful hospitality were Mr. and Mrs. Tom McClure, Mr. and Mrs. H. R. Anderson, Mr. and Mrs. Ralph Williams, Mr. and Mrs. C. B. Jordan, Mrs. Lillian Butler, Mrs. Ethel Reynolds, Misses Maggie Glover and Rose Brascoe, Dr. W. B. Lynd and W. R. Glascock.

## BRIDGE CLUB

The Thursday Bridge Club held an interesting meeting with Mrs. Hugh Roberson at Mrs. Marion Hudson's home, last week. Garden flowers were used in decoration and a dainty two course luncheon was served at the conclusion of five games.

Later in the afternoon a business meeting was called and officers for the year were elected.

Joining the members were: Mrs. C. J. Charske, Mrs. Carl Smith, Mrs. Ralph Williams, Mrs. David Tudor, Mrs. Tom Jones, Mrs. Harry Woods, Mrs. Lewis Roberson, and Mrs. M. W. Collier.

## BIRTHDAY PARTY

Henry Stewart invited the Seventh Grade and a few other friends to help him celebrate his fourteenth birthday last Friday evening.

There were 38 in all, and with guessing games and contests, fortune telling and a whole circus of wild animals, there was not a dull moment. Refreshments were served at 10:30. A color scheme of white and yellow—class colors—was carried out.

Henry received many useful gifts. He presented each guest with a class pin and Miss Hope with guest prize.

## THE REV. JANNIS HONORED

The following write-up has been received from Mrs. Felix Shultz of Toyah:

A social affair was given on Nov. 21st, in honor of Rev. Father Jannis, at the home of Mr. and Mrs. J. Frederick Lawney, at Toyah, Texas, by his Catholic Parishioners.

The autumn colors were used in decorations and a salad and ice course was served. Games, dancing and music was enjoyed by all.

At the close Rev. Father thanked all who had made the evening a success and expressed a wish that e'er long all might meet again. By the expression on the guests' face as they made their adieu left nothing to be said as to the enjoyment of the evening.

Another "affair" will take place at the home of Mr. and Mrs. Felix Shultz New Year Eve.

## DINNER-DANCE IS GIVEN THURSDAY

Mr. and Mrs. S. E. Johnston entertained at the Johnston Cafe with a dinner-dance Thursday evening, honoring fifteen guests. A six course dinner was served with Turkey in abundance.

The following attended: Mr. and Mrs. B. Ramsey, Mr. and Mrs. Roy Barnum, A. M. Thomson, a Mr. Smart, Mr. and Mrs. J. E. Barnard and children, J. G. Georgan, Judge Will Brady, Dr. C. J. Magee and Mr. and Mrs. Johnston.

Congress claims it's awake; others say a wake.—Flint (Mich.) Journal.

## HERE IS WHERE WE PUBLISH OUR NAMES

## Personal

Members of the Pecos Enterprise family were guests around a Thanksgiving table at the Johnston Cafe Thursday noon, Mr. and Mrs. John Hibdon having given the dinner for the employees of The Enterprise and their families.

Mrs. Hibdon was hostess, and in the absence of Mr. Hibdon, who is on a hunting trip in the mountains, John Hibdon, Jr., took his father's place at the other end of the table as host.

A delightful six course Turkey dinner was enjoyed, the eating being of the high quality which are found in the menus provided by Mr. Johnston's chef and served in that splendid manner which characterizes the splendid services of this popular cafe.

Those present were: Mrs. Hibdon, Mrs. J. W. Parker, John Hibdon, Jr., Mr. and Mrs. J. B. Wilson, Mr. and Mrs. R. S. Huie, H. J. Gaither, Mr. and Mrs. Horace I. Trout and daughter, Ramona.

Before leaving on his hunt Mr. Hibdon declared Thursday a full holiday for the force at the printing plant, so none in Pecos enjoyed more of a real Thanksgiving than the members of The Enterprise family.

## JOE KINGSTON RUSHED TO PECOS FOR AN OPERATION

Joe Kingston, prominent ranchman, was rushed to Pecos Friday afternoon from his ranch, in the mountains in the Southwest part of the county, for treatment. He was carried to the S. W. Anderson home and Dr. Jim Camp was called to examine him. It was feared appendicitis was the cause and that a surgical operation may be necessary.

## STEPHEN'S SHOP IS MADE LARGER

Walter F. Stephen has moved the Stephen Barber Shop to new quarters, one door east, in the old Chamber of Commerce building.

The new shop is equipped with five chairs and with modern hot and cold water connections. Other up-to-date equipment is to be installed shortly. Mr. Stephen has been in Pecos for seven years, having come to this country from Stephenville, Erath county, where he was reared. He is handling a large trade in his new location.

## LANDS

Along the Pecos Valley Southern R. R. offer opportunities unsurpassed to the man of ordinary means. Farming is done by irrigation. A large portion of the land is under-laid with an inexhaustible supply of water, which is found at a depth of 110 to 200 feet and when drilled rises to within 12 to 35 feet of the surface where pump is set, and continuous pumping will not lower.

In the Balmorhea district water for irrigation is furnished by mammoth springs and reservoir. Never a shortage of water. The soil is exceptionally productive. Alfalfa, cotton, cantaloupes and fruits return good profits. Farmers in 1921 made money.

Climatic conditions are very favorable to the growing of crops. A delightful place to live.

Improved and unimproved lands for sale on easy terms.

A. A. KINNEY  
General Immigration Agent  
P. V. S. R. R.

Mr. and Mrs. Joe Patterson of Carlsbad, New Mexico, were weekend visitors last week to Mr. and Mrs. S. C. Vaughan.

Mr. and Mrs. Duncan of Balmorhea were the guests this week of Mr. and Mrs. J. S. Cormack.

Born, to Mr. and Mrs. Edwin Hoef, Monday, November 14, a son.

J. V. Howerton of the First State Bank of Abilene was in Pecos Tuesday on business and meeting his many acquaintances and friends here.

Arthur and Elmer Trout of Abilene were in Pecos this week, visited their brother, Horace Trout, for a day and then went on to the mountains, where they will hunt for about two weeks.

E. B. Evans and son, E. B., Jr., went to the ranch in Loving county Monday for several days, to be spent in a round-up.

Mr. J. B. Wilson and Mrs. Mary Boatright are visiting friends at Balmorhea this week. A trip into the mountains is a part of the week's program of amusement.

Mr. and Mrs. W. R. King of Llano arrived in Pecos Wednesday morning to make this their home. Mr. King is an automobile mechanic and will be with the Johnson Garage. Mrs. King is a sister of Mrs. J. M. Garner.

Mrs. J. Ward and Mrs. S. F. Kirksey left Wednesday on the eastbound Texas & Pacific Sunshine special. Mrs. Ward is to join her relatives at Big Spring to spend the winter and Mrs. Kirksey is returning to San Antonio to join her husband.

Miss Virginia Fischer of St. Louis, has returned home after a visit here with her sister, Mrs. Donald Sexton Bell.

John Cowan, who was confined to his bed many weeks is now well and able to be out. He has been able to be on the streets the past few days, and meet many of his friends. Since his operation at El Paso a few weeks ago, he has been improving rapidly.

Mrs. Vernon Hicks, Miss Lillie Poe and Miss Gussie Richburg went to Clint Thursday morning to spend the Thanksgiving holiday with Mrs. Green Silman.

C. E. Smyer of Clovis, N. M., Superintendent of the Pecos division of the Santa Fe railway was a visitor in Pecos Friday. He said he never saw more promising prospects for a town in this section of the country than Pecos has now.

## FIRST GRADE AT SCHOOL TO HAVE HALF-DAY SHIFT

Superintendent P. J. Rutledge announced Wednesday that, beginning next Monday, students of the First Grade in the public school of Pecos will attend in half day periods. Half of them will attend in the forenoon and the other half in the afternoon. There are said to be about fifty-five pupils in this section and there are three teachers. There is said to be room for only about forty pupils and there are new ones coming in constantly.

Superintendent Rutledge announced also that it may be necessary to teach the second and third grades on the same basis a little later, because of the lack of room to handle the increasing number of pupils in these classes.

## TEACHERS LEAVE FOR ANNUAL MEET

Superintendent of Schools P. J. Rutledge of Pecos, Superintendent A. H. Smith of Toyah and Miss Mira Hillard of Pecos have gone to Dallas to attend the State Teachers' Association, which convenes there Friday night. Miss Hillard left a little early and stopped off at Big Spring a day or two to visit.

The meeting of the association this year is expected to be the best ever. More than 5,000 teachers from the schools of the State are expected to attend.

**DRILLING FIELD NOTES**  
After several days spent in under-reaming and carrying their eight-inch casing to the 1,300-foot level the Trans-Pecos Oil Company in Ward county has practically completed this work and will be drilling in new hole early next week. The casing is to be set on a shale formation.

Cooke & O'Brien have reached a depth of below 700 feet in eastern Ward county. They are drilling seven miles north of Monohans with a rotary rig.

After installing a new drilling cable and sand line the Pinal-Dome Corporation resumed drilling operations at below 3,800 feet Saturday. This well is being watched by many.
