INSTITUTE WEEK IN PECOS WAS ATTENDED BY THE TEACHERS OF SIX COUNTIES AND DO A GOOD WORK

The Enterprise is indebted to Miss Mary Nelson, one of Pecos' best and most obliging teachers for the following write-up of the institute which has held the boards in Pecos this week:

The Consolidated Teachers Institute composed of teachers from Culberson, Ector, Loving, Reeves, Ward and Winkler counties was opened Monday, September 4, with devotional exercises conducted by Rev. L. L. Thurston, pastor of the Methodist church of Pecos. Judge Ross, who said that he had been welcoming teachers to Pecos for the past hundred years, and who, we hope, will continue to welcome them for the next hundred years, delivered the address of welcome, which was responded to in a very happy manner by Mr. J. E. Watson of Odessa. The Institute was then organized with Mr. Watson as conductor and Mrs. Lillie W. Cole of Pecos as secretary. Mrs. Brooks, Miss Love and Miss Fields were appointed to act as a program committee.

The Institute then divided itself into three different sections for work, primary, intermediate and high school. The primary and intermediate sections have been fortunate in having as a leader Miss Margaret White, of Bonham, Texas, who is an instructor in the Denton Normal, but who at present is on leave of absence from that institution working on her Ph. D. degree in Columbia University. Miss White has also given two lectures before the general session of the institute that were interesting and instructive.

On Monday and Tuesday Mr. Daugherty, of A. & M. College spoke on the extension work of his school and of the advantages enjoyed by the students.

Since Monday was Labor Day the Institute voted to take a one-fourth holiday in order that the members might attend a tennis tournament.

On Tuesday the devotional exercises were conducted by Rev. J. M. Garner, pastor of the Baptist church of Pecos. Dr. Tucker of Dallas presented the Cause of Near East Relief in a very effective manner, and appealed to all the teachers to do what they can for the cause in their own community.

On Wednesday the devotional exercises were conducted by Rev. J. L. Spears, pastor of the Presbyterian church. Besides the regular work of the day, Mr. Woody Browning of the Pecos Valley State Bank gave a very instructive talk on the Federal Reserve Banking System.

On Thursday Rev. Thurston again conducted the devotional exercises. A number of subjects of educational interest were discussed during the day by members of the Institute.

Most of the day Friday was given over to a discussion of interscholastic league work which has come to have such an important place in the year's work.

The Institute has been especially fortunate in its entertainment features this year. It has numbered among its own members Misses Minter and Fields of Odessa who have rendered very pleasing musical numbers and Miss Treadaway, also of Odessa who has given several delightful readings. Mrs. Butler of Pecos favored the Institute with a vocal solo on Wednesday morning and on Thursday Mr. Richard Lynn, also of Pecos, rendered two violin selections to a very appreciative audience.

A quartet composed of Misses Zelma Childers, Mary Ellen Coon, Mattie Lee Wilson and Estelle Hicks, members of the Pecos High School also sang. Both Mr. Lynn and the quartet were accompanied by Mrs. Butler. On Friday Mrs. Kenneth Slack gave a very entertaining reading.

One feature of the Institute was the "pop" meeting held on Wednesday afternoon to awaken the spirits of the teachers who had been lulled almost to repose by the warm stillness of the afternoon. After various college songs had been sung and yells given, the flagging interest was revived to such an extent that the remainder of the day's program was finished with unusual zeal.

The ice cold watermelon feast given by the Parent-Teacher Association Thursday evening to the teachers attending the Institute on the beautiful lawn of the home of Capt. and Mrs. W. W. Dean was a most enjoyable occasion.

Despite the fact that several speakers who were expected, failed to come, the institute has been a success from every point of view. It has been conducted in a very informal manner by the members themselves, and its wide-awake leader Mr. Watson has kept things from lagging. Following is a list of the sixty-four members with the schools in which they teach:

- Toyah.
 - Mr. A. H. Smith, Supt.
 - Ruby Adams
 - Nannie May Green
 - Bess S. Smith
 - Mrs. A. H. Smith
 - Verole Teague
 - Certane Humphries

THE MEADORS MURDER TRIAL HAS BEEN MOVED TO SAN ANGELO

The trial of Andy Meadors, charged with the murder of Asa Rawls on a ranch in Andrews county, and which was given much publicity when the son was tried on the same offense and given ninety nine years at Barstow early this year has again been changed from Garden City to San Angelo on change of venue. The case was one of the most revolting in the history of West Texas.

BUYS SIXTEEN CARS OF CALVES

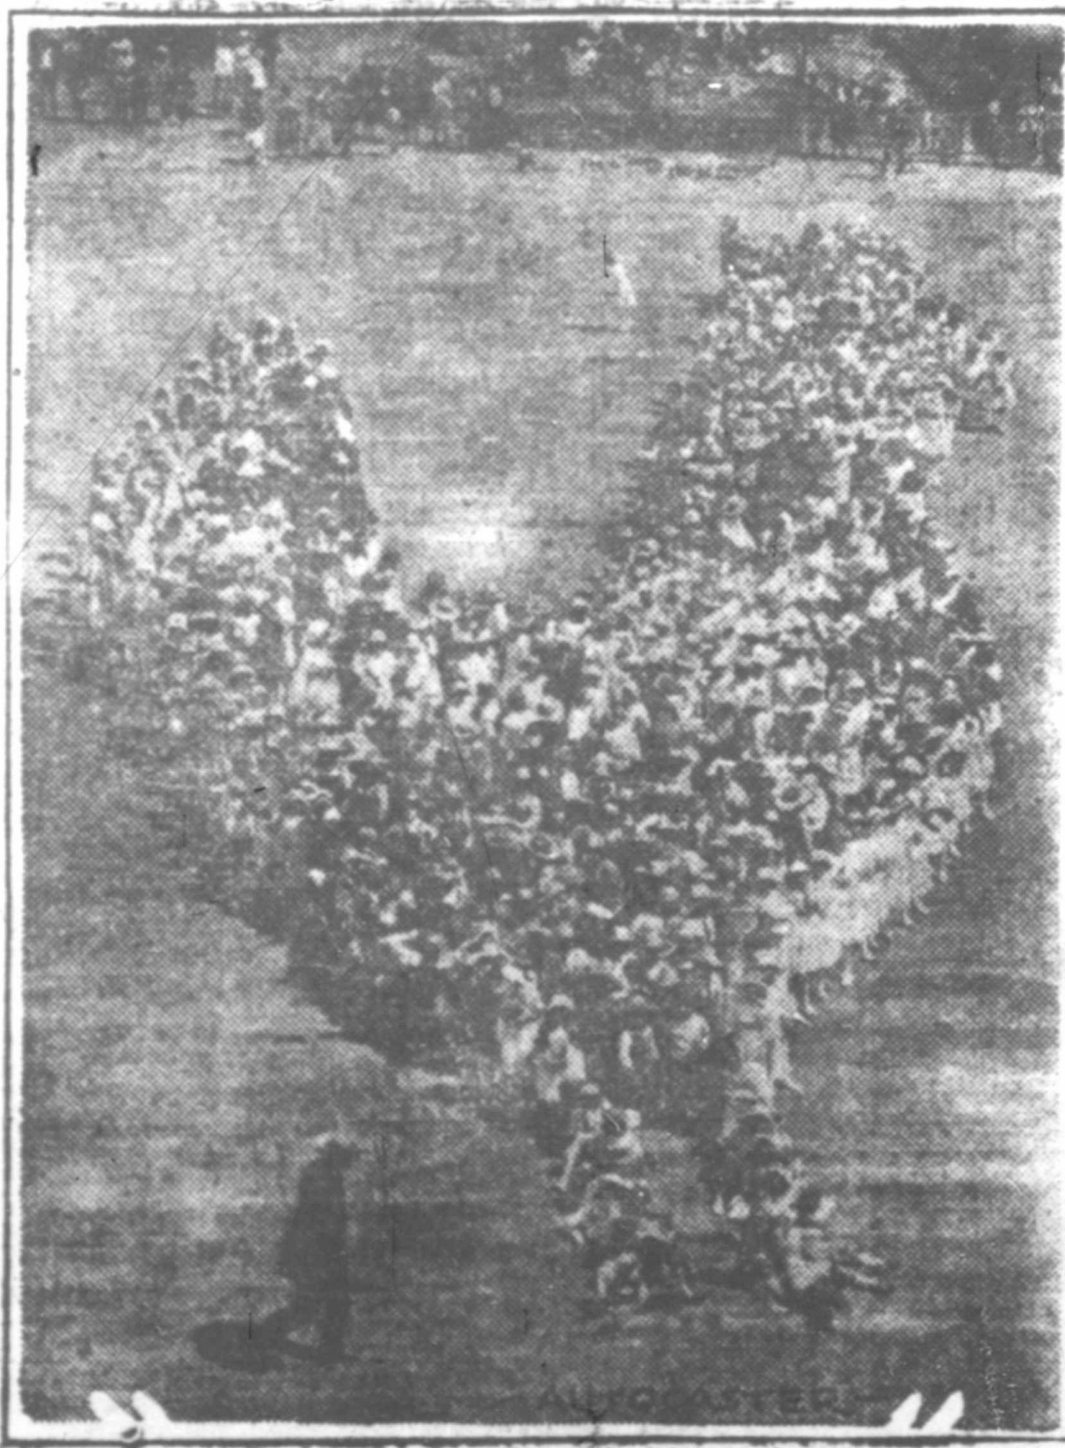

H. Oliphant, of Wichita, Kans., who has been here for several days, bought sixteen cars of calves, which he is shipping out from Fort Stockton and Girvin. Those of our ranchmen that were reported to the Pioneer as selling to Mr. Oliphant, were H. F. Stephenson, Will, Ed and Arthur Harrah and Mr. Corder.—Ft. Stockton Pioneer.

AREA PLAN OF TUBERCULOSIS ERADICATION INCREASES

The plan for eradicating tuberculosis in cattle from entire areas, such as counties, is daily growing in popularity according to reports coming to the United States Department of Agriculture. The idea has taken hold in Michigan and is spreading rapidly. Already five counties have been freed of the plague, and reports from the inspector in charge for the Government show that the boards of supervisors have appropriated money and made provisions for cooperating with State and Federal forces. When one county joins the ranks for eradication its action stimulates others to follow. The prospect for ultimately ridding the country of the disease never looked so promising as at present, say those in charge.

Kiddie Chicken for Burbank

The Corn and Garden Club boy and girl winners of California at Petaluma recently posed in a living tribute to Luther Burbank, the plant wizard, who was set to greet them. Their grouping built up the monster chicken, as shown in the photograph.

THE STATE DEMOCRATIC CONVENTION ENDORSES DAVIS MOUNTAIN PARK

Copy of a telegram sent the Enterprise by Hon. W. W. Stewart of Balmorhea which will be of interest to Enterprise readers all over this section of Texas is as follows:

"W. W. Stewart, Balmorhea, Texas.
Resolution endorsing Davis Mountain State Park passed practically unanimous by convention.
(Signed) D. E. Colp."

This is no bad omen for the Park and with the support, almost unanimous, of the Democratic State Convention it looks as if the legislature would have very little trouble in passing the bill creating it. Mr. Stewart has done some very faithful and efficient work in this connection and his reelection as our representative practically assures the passage of this bill and the creating of the Davis Mountain State Park.

THE FEDERAL AID ROADS ARE INCREASED 600 MILES

Nearly 600 miles nearer the goal of a completed system of highways for the United States is the report of the Bureau of Public Roads of the United States Department of Agriculture for the month of July. The final goal, the construction of a system of approximately 180,000 miles of Federal-aid highway consisting of a network of trunk lines and secondary roads reaching into practically every county is still a long way off, but we are 5,382 miles nearer than at the beginning of the year according to the bureau.

Completed Federal-aid roads now total 18,299 miles with 14,912 miles under construction and approximately 60 per cent complete. Including projects not yet under construction Federal-aid roads in all stages now total 40,338 miles.

There is no indication of any slackening of the greatly increased rate of progress which began with the season of 1921 as the States continue to pour in plans for new projects and place them under construction as rapidly as possible. Nearly twelve and one-half million dollars was obligated to new projects in June and July, and in the week ending August 5 reports were received of the letting of 68 new projects and announcements of 57 to be let.

At the present time the force of the bureau is taxed to the limit with the examination of new plans and projects, inspection of roads under construction and the planning of the Federal-aid highway system which is being gotten into final shape.

H. A. Colbert of Walnut Ridge, Arkansas, is here on a visit to Mr. and Mrs. B. G. Smith. Mr. Colbert and the Smiths were neighbors before the latter came west. Mr. Colbert states that they do not know any such animal as complete failure of crops in his section of the country. The lightest crop he ever raised during his nearly fifty years of residence on the same place was eighteen bushels of corn to the acre, besides they raise everything else needed to keep the wolf from the door. Mr. Colbert and daughter are on their return trip home from a visit to a daughter in El Paso whom they have been visiting for some two or three weeks.

DEVELOPMENT IN PECOS OIL FIELD IS PROGRESSING SATISFACTORILY LAURA DRILLERS ARE READY TO GO

THE PECOS GIN WILL START OPERATIONS MONDAY THE 11TH

The Enterprise is informed that cotton ginning will commence Monday, Sept. 11. Cotton is coming into Pecos today and there are some bales already here. The Union Gin has been thoroughly overhauled. New saws and double cleaner have been installed and Mr. J. B. Sullivan, manager of the gin, promises improved service. It is estimated that from 1,500 to 2,000 bales will be ginned this season.

BARSTOW RECEIVES FIRST BALES

Ward County's first bale of 1922 cotton came in Monday, and was ginned free by the Farmers Gin Company.

The cotton was grown by Sefernio Martinez, a Mexican tenant on one of the farms of the Hillside Land & Irrigation Co. The bale weighed 473 pounds, and was bought by the Barstow Cotton Company, which netted the owner \$104.06, or 22 cents per pound, including premium.

Continued dry weather and a shortage of irrigation water has materially affected the cotton crop in the valley and the yield will be much shorter than was expected. Picking is getting under way, and all gin plants will be running on full time next week. It is expected that the majority of the crop will be out in sixty days.—Ward County News.

WASTING GOOD MONEY

It's pretty hard to convince a merchant that he had better drop his money down in the well than pass it over to a fly-by-night advertising solicitor, the smooth guy who drops in with a publicity scheme that isn't worth a minute of time or a cent of money. It takes some people a good while to learn that the money spent in a newspaper would infinitely bring better returns.

This country is filled to the brim with smooth young men who do nothing but think up publicity schemes. Once they have framed a catchy one they beat it to the smaller towns to "unload" on the merchant who believes that any kind of advertising is good advertising, and who thinks that novelties and time cards, and stock booklets with his name upon them are actually business getters. These young men don't ply their trade so much in the large cities, because there is usually a commercial club or a board of trade ruling against just the sort of thing they seek to dispose of. But in towns where every merchant has to think out his own plan of advertising, and where he hasn't tried to understand the inside workings of these fly-by-night schemes, the waste of good money goes right on. And the funniest part of it is that the merchant who bites actually pays cash in advance and takes the smooth young stranger's word for it that he is going to get more than his money's worth.

We are strong for every kind of advertising that will pay the man who advertises, but we detest fakes. That is why we spend a good deal of time regretting that some merchants can't see what successful merchants long ago learned—that of all forms of advertising known to man—nothing has yet been found as good as space in the home paper.—The Minden (Neb.) Courier.

LETTERED MEN

know the power of knowledge. Knowledge is the truth about Persons, Places, Things.
For instance: If you had time to count all of the letters used by the printers of this page, you would find more "e's" used than any other letter. The letter "t" comes next, then "o," "a," "n" and so on with "q" least used.

That is all very interesting, but not very valuable knowledge. However, the words these letters spell can prove valuable to you. In the news and advertising columns of The Enterprise the regiment of e's, t's, o's, a's and n's, tell both interesting and valuable messages every week—if you will but read and profit.

Read the ENTERPRISE Advertise in THE ENTERPRISE BE WISE! GET RESULTS!

Mrs. J. R. Parks of Big Springs came in Thursday for a visit to her daughter, Mrs. Roger White and family.

Mrs. Charles Manahan returned Sunday from a delightful visit of several weeks in California.

THE BELL WELL

Although no report has been given from the Bell Well this week it is understood they have resumed drilling and are making satisfactory headway.

THE LAURA WELL

The Enterprise understands that Granger & Green who have the contract for the finishing up of the Laura Well of the Sunshine Federal Co., were waiting today for water. So far they have gone down in the hole but have not had enough time to find out where they are but the contractors have no fears of the ability to put the well down in the shortest possible time. If water and plenty of it is furnished, say the contractors, we will show the people of Pecos some real drilling and results in the next ten days. Everything is set and ready and rearing to go and no trouble is anticipated by the contractors. A car of water is expected from Carlsbad today and the Federal people are also hauling water from town in truck loads to keep the well going and the drillers expected to fire up and proceed with the drilling this afternoon.

THE TOYAH-BELL WELL

B. Ramsey was in town yesterday and returned to the well with a new brass cylinder which they are installing in the pump today. They have been having considerable trouble with the iron cylinder which wears out the leathers too frequently to make much headway. Mr. Ramsey hopes with the new cylinder to reduce this trouble to a minimum, and believes he will get anywhere from one to three hundred barrels of oil per day from this well when he has it well under way. In drawing the tubing Thursday preparatory to placing the new cylinder this well would flow over the top pure oil at each joint of tubing removed and kept the crew at work drenched with pure oil.

THE WILLOUGHBY PETROLEUM COMPANY

It is believed that a perfect water shutoff will be secured in the Willoughby No. 1 well this week the casing being set back in black lime defined as Lower Cretaceous and which shows a distinct oil saturation. The drillers feel so confident of bringing in a well they have agreed to accept stock for a good portion of their wages and have assured Mr. Willoughby that they will continue drilling regardless of wages.
Less than fourteen thousand dollars have been spent thus far in the development of the company's three thousand acre drilling block which is no doubt by far the smallest sum spent for like development and with the bringing in of an oil well it is easily seen that those who are fortunate enough to have money invested will stand for a phenomenal profit.

It is planned to temporarily suspend operations on the No. 2 well and use both crews on the No. 1 well running night and day until the oil has been developed.

COUNTRY NEWSPAPER ETHICS

"Sometimes we are criticized for withholding unpleasant facts from the paper, and it may be a short-sighted policy to pursue. But there are other hearts to consider and we are always willing to forego a real scoop for the satisfaction of treating a fellow-creature as we would have him treat us."

Thus remarks Austin Callan in the Del Rio News.

Mr. Callan speaks further: "A man may commit some very grave offense. His conduct might be such that he does not deserve any consideration, and what a juicy, fat story the wreck of his honor makes for a newspaper. People love to read of such misfortunes, too. We all start the day with the recitals of crime and distress. But somewhere there are eyes that see each story of that kind through scalding hot tears; there are hearts that almost break as they read the ugly charges. And, when it is not altogether inconsistent, might we not have a care for such unfortunate?"

"We had rather suppress a piece of news that shoots a dart into the heart of a sorrowing wife or mother, than to print a damaging insinuation under the disguise of keeping our readers informed of 'carry-over' in the great battle for moral uplift."
"Our mission is to help not to hurt. We harbor no hatred and herald no harsh intimations against human creatures. When we fight it is in support of a principle and against some falsely founded clan that seeks to usurp governmental powers and to tear down the guarantees of the United States Constitution. This we consider our duty, because it involves the welfare of the republic. But such a duty stands above little veiled personal attacks that are not only cowardly but odious to real men."

NO POINT OF CONTACT.
From the Birmingham Age-Herald.
"Your vacation problem is not yet settled?"
"No."
"If you have any relatives in the country, why don't you pay them a visit?"
"I happen to be the poor relation. They are traveling in Europe."

JUST AS A FAVOR.
From the London Opinion.
"Why is he called the Prince of Wales?"
"The King gave him that name to please Lloyd George."

Political Chaos

Who doubts for a moment that there is at this time more or less political chaos in this country?

The political chaos of this country is approaching the political confusion in other parts of the world. We have't political parties today as they were understood at one time in the history of this country. We have what might be called political organizations carrying the names of ancient political parties.

In other words, the political parties have a name to live but they are dead.

The reason they are in this condition is because they have abandoned great fundamental principles of government, and doctrines of the Constitution. They abandoned them hoping that they might surrender principles for policies.

You can't build a great party on a policy; it must be built on a principle.

If the parties of this country are to be revived and invigorated you must inject into their backbone the

virus of inviolable principles, fundamental doctrines, constitutional programs.

Men tell you that the reason for the chaotic political situation of today is the primary election law. They say that the direct primary has destroyed party organization and responsibility. They want the primary law repealed. The primary law will not be repealed. It ought to be amended and in the following particular:

FIRST: Amend the law by creating the right to hold a PRE-primary party convention. If the party would meet in a pre-primary convention and nominate a ticket

this would not prevent any individual or any number of individuals from using the provision of the direct primary law and filing their declaration of candidacy for office.

It would have the effect, however, of making the individual stand alone, on his merits, and independent of party support.

The pre-primary convention would file its slate under the same provision. When that slate was filed, the candidate under that filing would have the support, endorsement, and influence of the party.

In that way you would crystallize the party, restore its organization, responsibility, and accountability, and at the same time you would preserve to the individual the right to file independently under the primary law.

SECOND: You ought to amend the primary law and raise the qualifications for office. Men who are not qualified for the position have no right to be elected. If you want to save representative government raise the standard of office holders.

Poem by UNCLE JOHN

Accordin' to palaver, which we seldom fail to hear, we're totterin' on the brink of certain doom. . . . We're hoverin' o'er the stage of dissolution, mighty near. . . . We're flounderin' in the shadder of our tomb! We're due to have a panic, an' a POOR OLD universe strike,—we'll never see the taxes any lower. . . . The cattle market's busted—O, you U. S. never seen the like,—and every bloomin' bank will close its door! There won't be any money, an' there won't be any coal. . . . They tell us in their every-day palaver,—we can't escape calamity, to save our little soul, or add another woe to our cadaver.

It's true the crops is splendid, and the meddler-grass is tall; the country's full of everything to eat. . . . Old Dobbin seems to fatten in his sanitary stall—the souper-sixes crowd him off the street! The golf-link an' the movie-show is peopled to their gates,—The billion-dollar prize-fight draws the crowd. . . . The biggest diamond market is in these United States, where jewelry that's phony ain't allowed! But we mustn't let delusions shiet out the awful truth, that poverty has got us by the pants. . . . The crack of doom pursues us, like a never-failin' sleuth—we haven't even got a fightin' chance!

From Uncle John.

HOMIE PHILOSOPHY for 1922

There was a man out in Long Island a week or so ago who took a horse around to a chap that runs a riding academy and he offered to sell the animal at a bargain.

"What's wrong with it?" asked the riding master. "Why, nothing," said the man with the horse. "It's really a fine animal for riding or driving. It's gentle, has lots of spirit and good staying power." The riding master asked the man why he wanted to sell it. "Well," he said, "my wife now has a baby and since she has the baby she has no time to take care of the horse." There were folk who criticized that man forgetting that it's a nice thing to be kind to animals and see they fall into good hands.

"He who would a courtin' go"

TEXAS PROGRESS NOTES

Gas from the mains of the Lone Star Gas Company is now available in Mexia and other cities in the region around the Currie Gas field.

The new telephone building at Gonzales has just been completed. It is designed especially to afford service to customers and comfort for employees of the company.

Construction has begun on the transmission line of the Texas Central Power Company between Corpus Christi and Kingsville. It is a part of the extensive program of interconnection of plants by the company to assure service.

Extensive extensions and repairs are to be made at once on the Thordale telephone system. Orders have been placed for new material.

It required \$73,000 to cover the minor items of improvements in Dallas by the Dallas Power and Light Company for the months of July, August and September. Each item going to make up the total in this expenditure being less than one thousand dollars.

Extensive improvements are being made by the Lone Star Gas Company at many places on their lines in preparation for the winter's demand for gas. A very heavy ap-

propriation is being expended for this purpose.

There are enough baseball players in the Houston Lighting and Power Company to support several teams making an entire league in amateur baseball. The Company encourages this form of amusement among its employees.

Construction work has begun on the high-tension transmission line of the Texas Central Power Company between Corpus Christi and Kingsville. It is a part of the interconnecting system of the company in South Texas.

The new engine with its foundation that is being put in at Quanah by the light and power company there will weigh 175 tons.

City officials and electric light men are co-operating with Corsican business men for the white way that is to make the city unique for artistic street illumination.

Reconstruction and incidental local re-routing of the Coleman Ballinger telephone line of the West Texas Telephone company will afford rural subscribers improved service.

The Lone Star Gas Company is securing gas from eleven fields and has about completed installation of a compressor system that will maintain

a steady flow of gas to the many cities that depend on this company for gas. The improvements making this summer amount to more than a million dollars.

Waco has installed a system of ornamental lights at Cameron Park. Extensive improvements including underground conduits in the business section are to be made at once by the telephone company at Victoria.

Electric line extensions are being made by the Oil-Belt Power Company in Breckenridge.

Seizing the Opportunity

"Where are you going in such a hurry?" asked Mrs. Bibbles.

"Over to John Jagsby's house," said Mr. Bibbles. "He has just telephoned to ask if I could lend him a corkscrew, and I'm taking it myself."

"Couldn't you send it?"

"Mrs. Bibbles," said Mr. Bibbles, in cutting tones, "the question you asked me shows why most women are unfit to lead armies and make quick decisions in business deals involving millions. When the psychological moment arrives they don't know what to do with it."—Birmingham Age-Herald.

Men Who Will Run Grain Growers, Inc.

The complete reorganization of the U. S. Grain Growers, Inc., has been made. E. H. Cunningham of Cresco, Ia., secretary of the Iowa Farm Bureau, was elected president of the Board of Directors and chairman of the Executive Committee. J. F. Reed of St. Paul, president of Minnesota Farm Bureau and R. A. Cowles of Bloomington, Ill., are the other members of the executive committee.

IMMINENT.

From the Richmond Times-Dispatch.
"Mary, hasn't that young Thingumbob proposed to you yet?"

"No, Mother; but he is teaching me to drive his car and swim."

WHY WE GO WRONG.

From the Washington Star.
"Most of our mistakes," said Uncle Eben, "ain't due to badness of heart so much as dey is to takin' de wrong kind of advice."

Piles Cured in 6 to 14 Days
Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. Instantly relieves Itching Piles, and you can get restful sleep after the first application. Price 60c.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

Amaze Your Friends With Your Complexion

Do you want a clear fresh glowing skin—free from even the slightest trace of pimples or blackheads? You can have it easily. And so quickly that your friends will be amazed at the change in your appearance. Simply take Ironized Yeast—two tablets with each meal. Then watch the results. Before you know it, every pimple and blackhead will have disappeared and you will have a clean, youthful velvety skin—the kind that is envied by everyone. Ironized Yeast supplies your system with certain vital elements now lacking in your food—the very elements needed to keep your skin beautiful. You won't believe what a wonderful change it can bring in your complexion until you try it. Get it from your druggist today or mail postcard for Famous 3-Day FREE Test. Address Ironized Yeast Co., Dept. 99, Atlanta, Ga. Ironized Yeast is recommended and guaranteed by all good druggists.

Sold and recommended by all good druggists, such as Pecos Drug Company.

This new sugar-coated gum delights young and old.

It "melts in your mouth" and the gum in the center remains to aid digestion, brighten teeth and soothe mouth and throat.

There are the other WRIGLEY friends to choose from, too:

The Wheat Guarantee Well

YOUR OPPORTUNITY 1 Cent A FootPer Share.....

All interested in this section of the country have a common interest with me in the Loving County OIL FIELD which has been proven by the TOYAH-BELL WELL.

Like most "first" wildcat wells in an oil field it has served the purpose of demonstrating the existence of an oil field and has told its tale of the depth to be drilled, the stratas to be encountered, the condition of the producing strata, etc., so that the second well should be easily and quickly drilled into a good producer.

It is to the interest of all of us to develop this oil field and I have determined to give my time and effort to working out this plan which is the best that has been suggested.

NEW AND UNUSUAL PROPOSITION

I propose to GIVE ABSOLUTELY FREE the drilling site of a forty acre lease, take shares in common with you, pay all promotion expenses, so that those taking shares will pay only the actual cost of drilling a well.

THIS LEASE WILL BE LOCATED NEAR THE TOYAH-BELL WELL. NOTED GEOLOGISTS FAMILIAR WITH THE FIELD WILL MAKE THE LOCATION.

ONLY 1,000 SHARES WILL BE SOLD

Each share will represent a one-thousandth interest in the well and lease. More than one share may be purchased but in no event will more than one thousand shares be sold.

EACH SHARE will be Forty-five Dollars, or, One Cent Per Foot, to be paid only one cent per foot as the well is drilled.

MY GUARANTEE PROPOSITION

You send to the Pecos Valley State Bank, Pecos, Texas, \$45.00 for each share you can purchase. This fund will be held in trust by the bank and paid out only as the well is drilled at the rate of one cent per foot for each share, only upon the sworn statement of the driller that he has actually drilled the number of feet for which he asks payment.

JUDGE J. E. STARLEY WILL BE ATTORNEY FOR THE WHEAT GUARANTEE WELL.

NO PROMOTION STOCK—EVERY CENT GUARANTEED TO GO INTO DRILLING

Not one cent of this money will be handled by me and I will pay out of my own pocket every cent of the promotion money. All I want is a well. I will put into the bank money for my shares just like you do. The well will be drilled under contract. The Toyah-Bell well has shown the contractor just what to expect so he knows what he can do.

Our success will mean a fortune for each share holder. One well will do that. Think of what five acres did at Mexia with a capitalization of thousands of dollars. Here you will have forty acres with only a capital investment of \$45,000.00.

Are you sure to win? I think so. WHY? Because the Toyah-Bell has proven the existence there of a great oil field. I base my opinion upon what I have seen and the opinion of geologists, drillers and practical oil men. We can't afford to stop or miss this

great opportunity—what if Col. Humphreys had stopped when he drilled the discovery well at Mexia. It was his second well that made fortunes and so I am confident it will be with our second well—My Wheat Guarantee Well.

NOW IS YOUR OPPORTUNITY

Get in on this proposition at once for after the one thousand shares are sold no more subscriptions will be or can be accepted. Fill in the coupon below and mail to the Pecos Valley State Bank, Pecos, Texas, Wheat Well Trust Fund, and your certificate will be issued to you.

J. J. WHEAT, Pecos, Texas.

.....1922.

Pecos Valley State Bank
Pecos, Texas.

Enclosed find for \$..... in payment for
..... shares at \$45.00 per share in the Wheat Guarantee Well and
forty acres of leases, the well to be drilled in Loving County, Texas, near
The Toyah-Bell Well. It is understood and agreed that this money is to
be held in trust by you and paid to the drillers of the Wheat Guarantee
Well, at the rate of one cent per foot per share of stock purchased by me
only upon the sworn statement of the driller that the foot for which he
asks payment has actually been drilled. It is understood and agreed that
in no event is this money to be paid until such affidavit is tendered in
writing and that I am to pay only one cent per foot per share for actual
footage drilled. You are to issue me receipt at once for all shares paid
for herewith.

Signed

VALLEY MILLS TRIBUNE EDITOR IS TO TAKE A REST

Editor Wm. H. Carter of the Valley Mills Tribune has laid down his quill and relinquished his job to Clyde P. Stapleton who has been connected with the publication of that paper for the past twelve years. As reasons why he is laying down the bat Mr. Carter has the following to say in his farewell say to his readers:

For the past 27 years we have been at the bat, and we say it ourselves, have done considerable work during that period. Several years ago we contracted rheumatism and have spent much time and money trying to overcome it and since our coming to Valley Mills 13 years ago last May, we have not only had the rheumatism, appendicitis and in fact everything except the bubonic plague, it seems, but have held up under all until a few months ago when our sight began to fail. We have just undergone an operation and will soon try another in order to restore same, which means more than anything in a physical way to us.

The Enterprise editor has known Mr. Carter for years and is sorry to learn of his plight, but hopes he may soon recover from all his ailments and again get back into the harness. Better come to West Texas, and we will serve you better than that. You may get beat up occasionally by some unscrupulous cuss but no West Texas editor ever at any one time has had half as much trouble as you report in your farewell address.

WHY TEXAS IS PROSPEROUS

A gratifying fact about Texas is, that regardless of the reaction from two major strikes and the natural mental disturbances growing out of politics, the State is prosperous.

A cursory survey of the State newspapers, not the ones of the cities alone, but the representative papers as a whole, indicates that there is a lot of practical sanity in business. Perhaps, three lean years liquidation by firms and individuals, learning to live more simply and within the bounds of reason, have much to do with the condition. Nevertheless, the condition exists—a condition of fundamental prosperity.

With the cotton crop harvest under way the corn crop promising a large increase over previous years, a bigger program of diversification in farming than has ever happened in Texas before; with the farmers coming together through the Farm Bureau in cooperative marketing, healthy business conditions seem to be guaranteed.

Each year, with the crop abundant—that is to say the crop of the agriculturist the crop of the mines, and the crop of the seas—the rejuvenated wealth of the nation is born. Our farmers have been diligent and they have been frugal. To their wisdom and their frugality is due the steady growth and the progress of the towns and the cities.

It is interesting to observe in this connection that some of the prosperity we are enjoying is due to a peculiar situation in constructiveness that has come with sounder financing of cities, counties and States. That is to say, the floating of bond issues for public works and for road construction has flooded the State with finances pending the harvest.

Never before has Texas witnessed so many bond issues for new schools as during the months of June, July and August. The amount of the bonds mounts far into the millions. Never before has there been so huge a program of road building, backed up with federal aid, as obtains in Texas today.

In most instances bonuses have been paid for bonds. Capital has been seeking non-taxable securities, and all Texas bonds, approved as they are by the Attorney General, have been regarded gilt-edge.

The money from these bonds has been put into immediate usage, and employment has been given to thousands upon thousands of men in the various counties and cities where the public works are undertaken. The money in turn has come to the merchant; and, in turn, the merchant has had to increase his stock, which spells a turn-over for the jobber and manufacturer.

Many have wondered at the prosperity; and, in a measure, the answer is: In dull

times to build; just as the financier realizes that in dull times it is always the right time to gather in good securities which, because of the depression, are down. This means that by fall when the harvest is in, the lean period will have been successfully passed; and, with good prices for cotton and corn, for cattle and for truck, Texas may be characterized as "sitting on top of the world."—Texas Commercial News.

EXPLANATION OF KEEPING COOL

The problem of hot weather is not, as some folks seem to think, how to keep the heat out. The body temperature stocks pretty close to the normal point of 98.6 degrees Fahrenheit and unless the air temperature gets above that we do not take on heat from the air.

For heat like water, runs down hill. It passes from a higher to a lower temperature. The steeper the grade the faster the flow. That's where the difficulty comes in. For we have to keep our internal temperature at the normal point, whatever it may be outside, and there is only a thin skin and some clothes between. When the weather is cold we have no trouble in getting rid of the heat we produce from the food we eat for it runs off rapidly, so rapidly that we have to put on more clothes to check it. But as the air temperature rises nearer to that of our own the current of escaping heat slows up and finally sets back if the temperature goes over 99. We shut down the furnace in our houses when winter goes. But we cannot shut down the furnace inside of us, because the works would stop. Our internal furnace serves as a power house as well as a heater. We have to keep the engine going night and day, and that requires a certain amount of fuel, though of course we do not need so much in summer time as when we shave the heating plant, too.

Heat Must Be Gotten Rid Of.

A man who is not doing much, "just up and about," will have to have 2,400 calories of food a day. If he is working, he will need five hundred or one thousand more. So even if he lives in idleness he has to get rid of heat at the rate of one hundred calories an hour on the average, which is about as much heat as is given off by four ordinary electric lights.

Now this heat can be got rid of in two ways:

It can run away or be carried away.

It will run away if the temperature of the surrounding air is enough lower than the body and there is enough, not too much, cloth between.

It can be carried away by water. Water can carry away more heat without showing it than anything else in the world. A quart of water will take on a calorie of heat and only show a rise of less than two degrees Fahrenheit. When a quart of water evaporates, it carries off about five hundred calories. If, then, you sweat a quart this is the quantity of heat you are getting rid of, providing the perspiration evaporates from the skin.

When You Need a Fan.

Here is the difficulty. If the air holds already all the water it can take up, then you cannot get the benefit of the absorption of heat through evaporation. So when the air is saturated with moisture; or, as the weather man puts it, when the humidity is 100, then you say "this is muggy weather" and you complain that the heat is intolerable even though the thermometer does not stand high.

Our own internal thermometer, sense of temperature, only registers loss and gain. You feel warm when you are gaining heat. You feel cool when you are losing heat. You can only lose heat by evaporation when air is cooler than your skin. You can only lose heat by evaporation when the air is drier than your skin.

Remember, it is only the layer next to your skin that counts. If the air there has a temperature of 99 degrees and a humidity of 100 per cent, then you cannot get cool either way. In that case you must drive away the layer of hot moist air and let something that is drier and cooler get at your skin, which you can do by means of a breeze, or in default of that, a fan.

BE MORE AGREEABLE AT HOME

If you would care less for what persons outside your family think about you and more about what those in your home think of you, it is more than likely that you would conduct yourself in a way more pleasing to those who are entitled to the best there is in you. Isn't it true that you make little effort to be agreeable in your home and every effort possible to win the good graces of others? If some of those friends who know you in a social and favorable way, knew you as they do in your home there would be less respect for you. You know what sort of a person you are. You know the side you show the world. Are you not ashamed sometimes, when you think how you treat the members of your own little home? Why not make yourself happier by a real effort to be courteous and considerate of those near and dear? Why save all your good and bright happy ways for the "crowd," in other words, mere friends or acquaintances?—Houston Chronicle.

MUSIC CLASS OPENS

Mrs. Lillian Butler announces to her pupils and to any prospective pupils the opening of her class in music, Monday, September 11th, at the residence of Mrs. O. J. Green near the school building. For further information telephone No. 136. (Advertisement)

THE CHURCHES

THE PRESBYTERIAN CHURCH

It is very encouraging to see the interest in the Church work reviving as it is. The attendance last Sunday was far above the average. We sincerely hope that this is an indication of the fact that the summer vacation is over and that we are to have continued interest throughout the fall and winter.

All the regular services will be held at our church next Sunday. Sunday school at 10:00 a. m. Preaching at 11:00 a. m. Christian Endeavor at 7:00 p. m. Evening worship at 8:00 p. m. The subject for the morning worship is "Incentives To Soul Winning." For the Evening Worship, "The Fool's Vineyard."

The Christian Endeavor Society has not been meeting during the summer months, because of the fact that so many were out of town for the summer, but we hope that everyone who is interested in this organization will meet with us Sunday evening and help us to get reorganized and in good working order for the fall and winter months.

Special mention should be made of the fact that we are beginning our mid-week prayer meetings the study of the Church Doctrine. We are to study next Wednesday evening what we believe in regard to Predestination, and God's Eternal Decrees. We hope that a great number will take advantage of this opportunity to acquaint themselves with the fundamental doctrines of Presbyterianism. Come and join with us in the Mid-week prayer service, and we believe you will find that you have spent your time well.

METHODIST CHURCH

I am penning you this line, dear friend, to remind you and myself that we have a mighty big job and a mighty fine job and a mighty profitable job and the best Master that ever was. All this being true we are each to get on the job and let neither personal interest nor worldly relations shake us from it. You and I are thinking, "If every member of my church was just like me, what sort of a church will my church be?" Would the Sunday School run over, and would everybody stay for church and would each be back for Leagues and for evening preaching? Would everybody try to please God and act as in the sight of the all-seeing Eye?

As pastor, my heart is heavy when we fail and glad when we measure up to the Bible Standard.

Hoping you may read this I am
 Cordially yours,
 L. L. THURSTON, Pastor.

BAPTIST CHURCH

We had our annual election of teachers and officers of the Sunday School Wednesday night and the following selections were made: Supt. H. H. Johnson; Assist. Supt. A. G. Taggart; Secretary, Balsef Hefner; Supt. Junior department, Mrs. F. L. Johnson; Supt. Primary department, Mrs. B. A. Toliver; Supt. Beginners department, Mrs. F. W. Johnson; Supt. Cradle Roll, Mrs. G. C. Parker. Teachers for all departments were: J. M. Garner, Mrs. J. T. Hefner, Mrs. R. B. Norman, Mrs. E. L. Collins, Mrs. J. C. Wilson, R. B. Norman, Miss Edna Harris, Mrs. L. W. Anderson, Mrs. J. G. Murray, Mrs. Will Glasscock, Mrs. Gid Rowden, Mrs. John Camp, Mrs. Frank Joplin, Mrs. J. M. Garner, Mrs. B. A. Toliver, Mrs. Clinton Ezell, Mrs. W. E. Poer, Mrs. F. W. Johnson, Mrs. H. H. Johnson. There are several other officers of the Sunday School and all of the general officers of the church yet to be elected. A committee has been appointed to make recommendations.

The work continues to grow, a fine spirit prevails in every department of our work. We had seventy-one present in the mid-week prayer service this week, which speaks well for the church. The Sunday School had a hundred and seventy present last Sunday and expect to have at least two hundred next Sunday. The teachers are taking a new interest in their work and the pupils seem more determined than ever to build up the school.

The preaching services have not lagged in the least. People continue to apply for membership. Two joined the church Sunday night. We trust that this spirit will continue and believe that it will.

The pastor will leave Sunday night for Fort Worth where an all-state rally meeting is to be held on Tuesday, Sept. 12. We expect to perfect plans at this meeting which will help us to go over the top in the campaign for the general denominational work this fall.

All regular services will be held Sunday. The public is invited to participate in all of the services.
 J. M. Garner, pastor.

Dr. L. H. Lamkin of Natchez, Miss., was a Pecos visitor this week looking after his oil interests in the Pecos oil field. Dr. Lamkin is a very prominent and wealthy citizen of his country and the Enterprise understands one of the finest surgeons in the country. Dr. Lamkin expressed himself as well pleased with the looks of the country as an oil field and with the work of development going on here.

Marshall H. Prior, in El Paso "cattleman" but plain vulcanizing and tire salesman in Pecos, spent Monday and Tuesday in El Paso looking after business matters and having a good time.

TEXAS COTTON CROP REPORT SHOWS DAMAGE LAST 30 DAYS

The report of the acreage and condition of the Texas cotton crop up to Sept. 1st, was compiled by R. E. Yantis, Statistician, and made public today by Commissioner Geo. B. Terrell. The report shows great damage to the crop caused mostly by drought, during the last thirty days.

In giving out the report Mr. Terrell said:

"This report covers 193 counties, practically all the cotton producing counties with from one to fifteen reports from each county. The reports received are from presidents and secretaries of Farmers' Institutes, County Farm Demonstration Agents, County Commissioners, bankers, merchants and individual farmers, and verified, as far as possible, by our field men. The drought seems to be the cause of the greatest damage, as a large per cent of the cotton was late, especially in the western and northwestern part of the State and in the flooded districts, and had no mature bolls when the drought set in. Damage by boll weevil and leaf worms are also reported. The report indicates a condition of 58.67 per cent, and a yield of one fifth of a bale per acre, while our report for August 1st indicated a condition of 71 per cent and a yield slightly more than one fourth of a bale per acre.

Taking the Government figures of 12,312,000 acres, planted, which I believe to be too high, it indicated a yield of 2,462,400 bales, as compared with 2,179,145 bales produced last year.

If the yield in the other States is as low in proportion as that of Texas, the total crop of the South will be less than 10,000,000 bales, and warrants a price of 30 cents per pound. There will be a cotton famine next year and nothing short of a conspiracy can keep the price from advancing.

The report by districts, and the average for the State are as follows:

Report of Cotton Acreage, Condition and Yield (September 1st).

Group	Counties	Average	Condition	Yield (acres to bale)
Western	30	113pc.	64.74pc.	4.6
Northwestern	44	182pc.	53.54pc.	6.1
Southwestern	45	118pc.	57.61pc.	6.4
Central	35	99pc.	64.74pc.	4.6
Eastern	39	94pc.	66.35pc.	4.4
For State	193	106pc.	58.67pc.	5.2

The many friends of Mrs. E. A. Farnum will be glad to know that she is continuing to improve.

Mrs. I. E. Smith, who has been ill for the past three weeks with a returning fever is slowly improving.

FIRST NATIONAL BANK

Pecos, Texas
 Pecos, Texas, June 10th, 1922.

Mr. Valentine Zuber, Saragosa, Texas.
 Dear Sir:—

Our records show that on August 11th, 1919, we paid your check in favor of J. W. R. Williams for \$10.50.

Very truly yours,
 (Signed) G. C. PARKER,
 51-4t. Assistant Cashier.

The above check was given for use of hay baler.
 VALENTINE ZUBER.

GATES TIRES

The Tire with the Wider and Thicker Tread

Have You Noticed This Change—

Motorists who never bought cord tires before are doing so today.

Our production of cord tires in August was 84 per cent greater than ever before—a big factor in their lower cost to you.

And Gates Super-Tread Cords—like Gates Fabric Tires—are built with the wider and thicker rubber tread that always gives you two or three thousand extra miles.

MARSHALL H. PIOR

THE AMERICAN LEGION TO MEET IN WACO SEPT. 11-13
Waco, Texas, September 3.—Doughnuts, doughnuts and the doughnut girl will meet at the annual convention of the Texas department American Legion in Waco, Sept. 11 to 13. The reunion will bring vividly to mind memories of the days over there.

The Salvation Army will have a four-fold part in making the Convention period a happy time for the former service men, and in showing the Legionnaires that their welfare is as much the concern of the Salvation Army as it was in the days of the war.

Lieut.-Col. George Wood of Dallas, Commander of the Salvation Army in the Southwestern Division, will address the Convention at the opening session on Sept. 11th, conveying to the war veterans the greetings of the Salvation Army and telling them of what the Army is doing and is planning in their behalf.

The Salvation Army is co-operating with the housing committee in Waco and is preparing to provide accommodations for a number of the delegates and their friends.

It is also planned to throw open the downtown hall for a rest room, making it a replica of the old time Salvation Army war camp huts. Here the veterans will find a place to rest, to write letters, read news matter and other facilities for their comfort.

Doughnuts and coffee also will be handed over by the lassies just as they were over in France. Every doughboy and those who accompany him to the convention will be eager to renew old friendships across the counter of the doughnut "dugouts."

A booth will be erected near the convention hall and another will be installed in the rest room, where the boys may have their doughnuts and coffee whenever they care for them. The lassies are prepared for a wild scramble, just as there was when the Salvation Army placed doughnut dugouts all over Kansas City last year for the National Legion Convention.

Col. Wood has ordered Salvation Army officers from adjacent cities to be in Waco during the convention and they will bend their energies toward making the reunion one of the most glorious the boys have had since they returned from France and the camps in this country.

TO THE PUBLIC

This is to notify the public that the Enterprise is now printing requisition blanks for the Pecos Independent School District. The editor is informed that no bills will be allowed, by this board unless said account is covered by written requisition by purchasing agent of Board, properly signed and numbered. All bills rendered must bear order number.

THE PASSING OF THE SERVANT

The era of the menial is passing away. While America has been growing in wealth and population, those occupied in personal service have been greatly decreased. Their places have been taken by machinery, as shown by the increase of those who design and build labor saving devices. With this revolutionary change has come a great increase in the number of educators, indicating a rise in the level of general intelligence. These facts have been extracted from the recent census bulletin on comparative occupational statistics by Paul W. Brown, editor of America at Work. He comments:

"The revelation contained in the pivotal document may be compressed into a single phrase. It shows the passing of the servant in the house. Modern democracy, in a land blessed with cheap power, is doing away with menial service.

"This fact is tremendous. The relation of master and personal servant is as old as the race. An increase of wealth in the past has always meant a vast increase in the great army of personal servants. The census bulletin reveals in American society a tendency exactly counter to this.

"Chambermaids diminished 26 per cent; personal attendants—ladies maids, nursemaids and valets—27 per cent; laundresses and laundresses not in laundries, 63 per cent; general servants—maids of all work and the like decreased in number a trifle more than 20 per cent. We produced in the decade ending with 1920, 18 per cent more bushels of wheat, 45 per cent more tons of coal and 52 per cent more tons of iron than in the previous decade; and yet this nation, instead of having 15 per cent more persons employed in the blacking of other peoples' shoes, the brushing of other peoples' clothes, the sweeping of other peoples' floors and the cooking of other peoples' food, reported from one-fifth to one-fourth less workers in these occupations. The servant in the house is passing. If the present tendency keeps up, there will literally be nobody but the family.

"The secret lies in the perfection of the machine. The place of the man in the shop has been taken in increasing number by the machine, but Polly has been left to put the kettle on, without thought of mechanical competition or substitution. In the compass of a few years we have changed all that. The causes have been long at work, but the real transformation has been wrought during the last decade. There are families everywhere—plenty of them—who make the trip to Europe and own grand pianos who have no servants and do not expect to have them. A laundress and cleaning woman give two or three days a week to such a family, and by the aid of a vacuum, the power washer and the electric flat iron her work is made easier and her accomplishment much more than doubled. Years ago the electric light needing neither care nor attention, abolished the old race of "slaves of the lamp"—the kerosene lamp.

"Mother makes toast on the table with an electric toaster; the coffee simmers beside it in an electric percolator. She has a power dishwasher—and the power operated ice box with miniature refrigerating plant, is already with us. Mechanical appliances chop our meat, stone our raisins, extract fruit juices for her jellies and whip the cream for her cakes. Electricity curls her hair or dries it after her swim. And when she pauses at the end of the day Caruso sings for her guests "La Lonna Bobile" and a producing piano Godowsky plays a Chopin nocturne."

NEW PUZZLE GAME

The El Paso Times is today publishing in our paper a New Puzzle Game, the object of which is to see who can find the largest number of words, naming objects contained in the picture, the names of which start with the letter "P." They are offering \$1,250.00 in cash prizes with a First Prize of \$750.00. These Puzzle Games have been in operation throughout the country for some time and many valuable prizes have been won by participants. Why not solve this puzzle and bring one of these big prizes to our own community?

CATTLE-DIPPING RECORD AGAIN BROKEN IN TEXAS

Texas broke its own cattle-dipping record when in July 6,783,503 dippings in that State were recorded by the Bureau of Animal Industry, United States Department of Agriculture. The figure is more than 150,000 greater than the dippings for June, which, as recently announced, broke all records for progressive tick eradication since the work began in 1906.

There are nearly 10,000 vats in operation of which more than 200 were built during July. The rapid progress being made in eradicating ticks is the result of thorough preparation and the excellent spirit of cooperation among the State and county officials, cattle owners, and representatives of the United States Department of Agriculture.

I find in life that most affairs that require serious handling are distasteful. For this reason, I have always believed that the successful man has the hardest battle with himself rather than with the other fellow. To bring one's self to a frame of mind and to the proper energy to accomplish things that require plain hard work continuously is the one big battle that everyone has. When the battle is won for all time, then everything is easy.

—Thos. A. Buchner.

Try one of those 25c want ads and make some money. Others do it; why not you?

LOOKING FOR THE BEAUTIFUL IN COUNTRY LIFE

For his own part, if the writer had to list offhand the country sights and sounds that give him most delight, he would mention:

The serenity and strength of ancient oaks, unmoved by all the storms of a century;

The stately grace and majesty of tall tulip trees with erect, fair trunks, wearing at great heights their crowns of green in summer and gold in autumn;

The rich, mellow note of the raincrow, uttering his prophecy in the dampness of a cloudy dawn;

The smell of hay and old haylofts;

The low song of the corn-blades as they grasp brotherly hands across the furrows when winds blow over the fields;

The grateful warmth of the spots where the cows lay as one goes to milk on a wintry morning;

The clean, white limbs of sycamores against their background of green foliage;

The rank and ditropical, Amazon suggesting luxuriance of a squash-vine or pumpkin vine in full leaf and blossom;

The ever-grateful smell of freshly-plowed earth, and the prosperous, comfortable, "well-fed" feel of a rich soil filled with humus;

The pungent, aromatic smell of fat light-wood, and the more subdued fragrance of freshly cut oak;

The rare beauty of form, so much beloved by artists, of grape leaves and hanging grape bunches;

The penetrating, mouth-watering fragrance of ripe Scuppernongs at dewfall in early September;

The rare beauty of a line of longleaf pines silhouetted against a twilight sky;

The grace of well-kept meadows or lawns with straggling wild flowers on the edges reminding one of Swinburne's line—

"Where tides of grass break into foam of flowers."

The cheerful, cherub-like babble of little brooks as they hurry down to the greater streams in the lowlands;

The unburied but steady and resistless movement of the rivers as they sweep majestically past overhanging willows to their home in the far-off sea.

—The Progressive Farmer.

"The Rexall Store"

EFFICIENCY

The word efficiency is yet in its infancy. Only within the last few years has it been used to any extent. It was first applied when it was discovered that a particular workman could do a job, not only better than the average man, but could do it in less time with a greater degree of accuracy.

Skill, speed and accuracy are responsible for the coining of this word efficiency, and they are made possible through the employment of the latest types of machinery.

TWO WAYS OF DOING A THING

THE NEW WAY

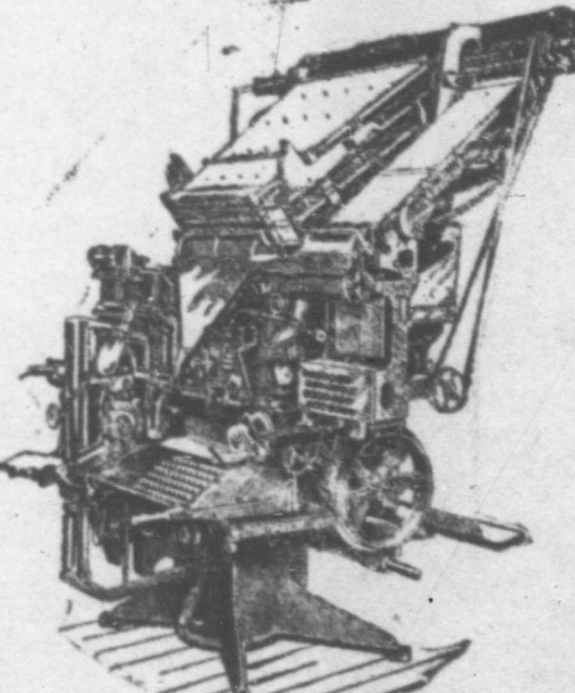

A \$6,000 Linotype machine that casts new type for every job and advertisement.

Does the work of four men.

Equipped with 32 different faces of type that can be changed on a minute's notice.

Also casts ornamental printing material, rule, border, etc.

Metal saw that cuts machine products into any design and measure.

LATEST MODEL MACHINE MADE

THE OLD WAY

When printing was done by hand it required six times as much time as by machinery.

Type was laid in cases, became worn, the printing surface scratched, rules were bent, nicked and battered and in a few months the office could not possibly do first-class work. Neither could they afford to buy new.

The Linotype has done away with this method.

REASONS FOR QUALITY PRINTING

THE two Linotype machines in THE ENTERPRISE office are capable of handling any work that falls to them in the shortest possible time—with no exceptions. The new Model 14 is one of the best equipped machines in the State—this is fact.

Without the machines we would have to employ four times as much labor, our floor space increased and additional rent; we could not give you new material with every job; our methods of production much slower, but everyone knows the difference between machine and hand work—it is a short story: Either the hand work costs you much more or the job is done in a haphazard way to meet the low price of the machine work.

THE ENTERPRISE has the only machines in the county and the best skilled workmen on the market.

Richard Lloyd Jones says

RADIO WILL FILL TENTS AND HALLS

In most towns by this time the annual Chautauqua is over or soon will be. September and October are the county and State fair months. These are the big get-together festivals of the American people.

I talked recently with a radio expert and enthusiast who enumerated at length the inestimable benefits, both recreational and educational, of this marvelous little mechanism. Rather boastfully he said, "Radio will ultimately eliminate the Chautauqua, the lecture and entertainment platform."

He predicted that the itinerant musician will stay in his studio and the lecturer in his library, while the country folk from Maine to Oregon will need only to open up their receivers and a perpetual Chautauqua is theirs at their firesides.

In answer to all this, I said, "Well, we are still going to have our fairs."

"Yes," he said, "that's because the fair is a thing to SEE, not hear."

"That," I replied, "is why the Chautauqua is as secure as the fair. The eye is a greater educator than the ear."

We learn more by seeing than by hearing. The concert violinist puts personality into the bending of his bow. His manner quite as much as his music becomes part of the emotion. We may hear him a hundred times a year but we do not get the full message of his melody until we see him invest himself in his fiddle.

Oratory is still good when reduced to type and put in a book. But the oratory that sways with inspiration and convinces most has the personality of the man as well as the abstract thought of the theme.

"Seeing is believing," runs the ancient adage. A positive person is more convincing than an abstract principle.

Radio will add to our wealth of education, entertainment, and inspiration, but it will subtract nothing. The multiplication of good roads is going to bring the country folk out to see the master minds that they may better appreciate the worth of all the radio brings to them in their homes.

Nor did our friend take into his too quick deduction the human hunger for fellowship. We like to be together, to hear and see good things together. We love to laugh together. When our hearts are touched with sweet sentiments, deep emotions, we like to feel the comradeship of company. We want to applaud together. Whoever heard a hermit hurrah?

We like to greet friends. It's nice to be neighbors. It's fun to say "howdy." It is living to ask, "Did you hear that, or see this?" We like to SEE what we can do. We like to see what the other fellow can do. That's why we go to the county fair and the State fair; that's why we go to the Chautauqua tent and the Lyceum hall. That's why the movie lures.

The radio is going to make us want more and not less. It is going to whet our appetites for more fine things and more fellowship with fine things. Radio is going to draw together talent and attendance. It is going to fill our tents and halls.

REALISM RUNS RAMPANT

They tell us that Realism now runs rampant; that it has driven Romance out of the world. They ask us, Where are the fairies? And what has this realism done to Love, that Love no longer sings his way along, but covers in back alleys, for fear that the Freudians will get him?

Think of those purple days of old when a fellow could propose to a girl and she would believe anything he said! Now, even before he speaks, she has him ticketed and classified. If she marries him, she does it not because she doesn't know everything about marriage, reputation, complex, obstructions, and all—but only because she is under the temporary embarrassment of not having experienced personally the thing that has been so graciously and completely dissected for her by the experts. It is really quite a joke on so many of us, to think that after all this exposure of our emotions and desires, or whatever you choose to call the mass of stuff about us that has been tabulated, we should still be weak and foolish enough to go through the forms of love and continue to get married. Perhaps in a short time we shall have risen above this sort of thing.

Take any modern writer that you will, it does not matter much. They are all good, like the motor cars. They will transport you anywhere you want to go. Some of them are more highly geared than others. Some have effective shock absorbers. Some of them go twenty miles to the gallon, and some only ten. But the chances of being dumped out on some dark road, of having to be towed home, are quite negligible. And the literary roads are so much better than they were.

As soon as some new writer, more lucky or more daring than the rest, marks out a new road, he is immediately followed by others. The road is then properly curbed and guttered and macadamized and becomes public property. Any

REV. T. F. CUNNINGHAM, WHO WILL CONDUCT MEETINGS AT THE PRESBYTERIAN CHURCH

We are all looking forward with a great deal of interest to the coming of Rev. T. F. Cunningham to Pecos, Sept. 17. Rev. Cunningham has the highest recommendations as an Evangelist. He has had a wide experience in the field of Evangelism. His work everywhere has been highly appreciated. His messages are full of enthusiasm. He has a message for everyone.

You cannot afford to miss these services. They will be a great blessing to you if you will put other things aside and throw your soul into this meeting. We want everybody to feel that they have a special invitation to come and hear this Evangelist, and to cooperate with us in making this one of the most successful meetings that has ever been held in Pecos.

short story writer can now write the story of the rich man's son who is driven away from home by his father, starts a plant of his own in some remote village, and like Joseph in Egypt, awaits for the old man to turn up. An anonymous gentleman wrote "The Mirrors of Downing Street." Another anonymous gentleman followed with the "Mirrors of Washington." There is now nothing to prevent anonymous gentlemen anywhere from writing about the mirrors of anything. It is getting to be so easy to be a successful creative artist, that one does not even have to create any more. I know an artist who first originated a set of characters. He now has them drawn over and over again by another minor artist, and still another furnishes the ideas, and, without doing anything at all, he enjoys an income estimated from \$75,000 to \$100,000 a year.

The thing that we call Realism is merely the embargo that science has placed upon the creative instinct, so that our modern writers report only the things they see and not what they feel; for, so busy are they traveling about, that they have no time to feel anything. The skill with which they turn out their enormous output is astonishing and highly interesting; but it does not make us feel what they have not felt. Why should it? They know ev-

FINANCIAL REVIEW

Prepared for The Enterprise By The First National Bank In St. Louis.

The preliminary report of cotton conditions and estimated production as of July 25th, given out on August 1st by the Department of Agriculture, which indicated a condition of 70.8 and a production of 11,449,000 bales, gave a radical upward impetus to the cotton market, principally because the great majority of private estimates had reported improvement in the condition of the crop during July, with none of the private condition reports as low as that of the government. As a result of this expectation on the part of the trade that the condition figure of August 1st would be higher than the one given out on July 1st, there had been considerable speculative selling of cotton during July with a resultant short interest which was impelled to cover by the unexpectedly low figure officially published. The upward movement which took place upon its publication.

FOR NATIONAL BEAUTY HONORS

The Annual National Beauty Pageant at Atlantic City, N. J., already has two winning entries. Above is Miss Gertrude Shoemack, who folks of Harrisburg, Pa., selected as their prettiest girl. Below is Miss Lorraine Paskey, who will represent Toledo, O. These are the first two entered. All states will be represented.

lication was short, and to date has not been sustained.

Fundamentally, the cotton situation has not changed materially since the report of July 1st, which gave a condition of 71.2 and an estimated yield of 11,065,000 bales. At the present time, with one month estimated for both cotton exports and domestic consumption, the total American consumption and exports of cotton for the year ending July 31st, will approximate 12,500,000 bales. The total crop for the 1921, plus the carry-over and imports on August 1st, 1922, is around 2,500,000 bales compared with 6,500,000 bales the year before. This indicated carry-over added to the recent estimate of the present crop and normal imports should furnish about 14,000,000 bales of cotton as a total supply for the coming year. If the consumption over the cotton year 1922-1923, is only as large as in the one just closing, the surplus on August 1st, 1923, would be only about 2,000,000 bales.

If you want to sell your chickens and eggs for cash see J. W. Moore, Pecos, Texas. 44-tf.

FIRST NATIONAL BANK Pecos, Texas Pecos, Texas, June 10th, 1922.

Mr. Valentine Zuber, Saragosa, Texas.

Dear Sir: Our records show that on August 11th, 1919, we paid your check in favor of J. W. B. Williams for \$10.50.

Very truly yours, G. C. PARKER, Assistant Cashier.

(Signed) 51-4t.

NEXT DOSE CALOMEL MAY SALIVATE YOU

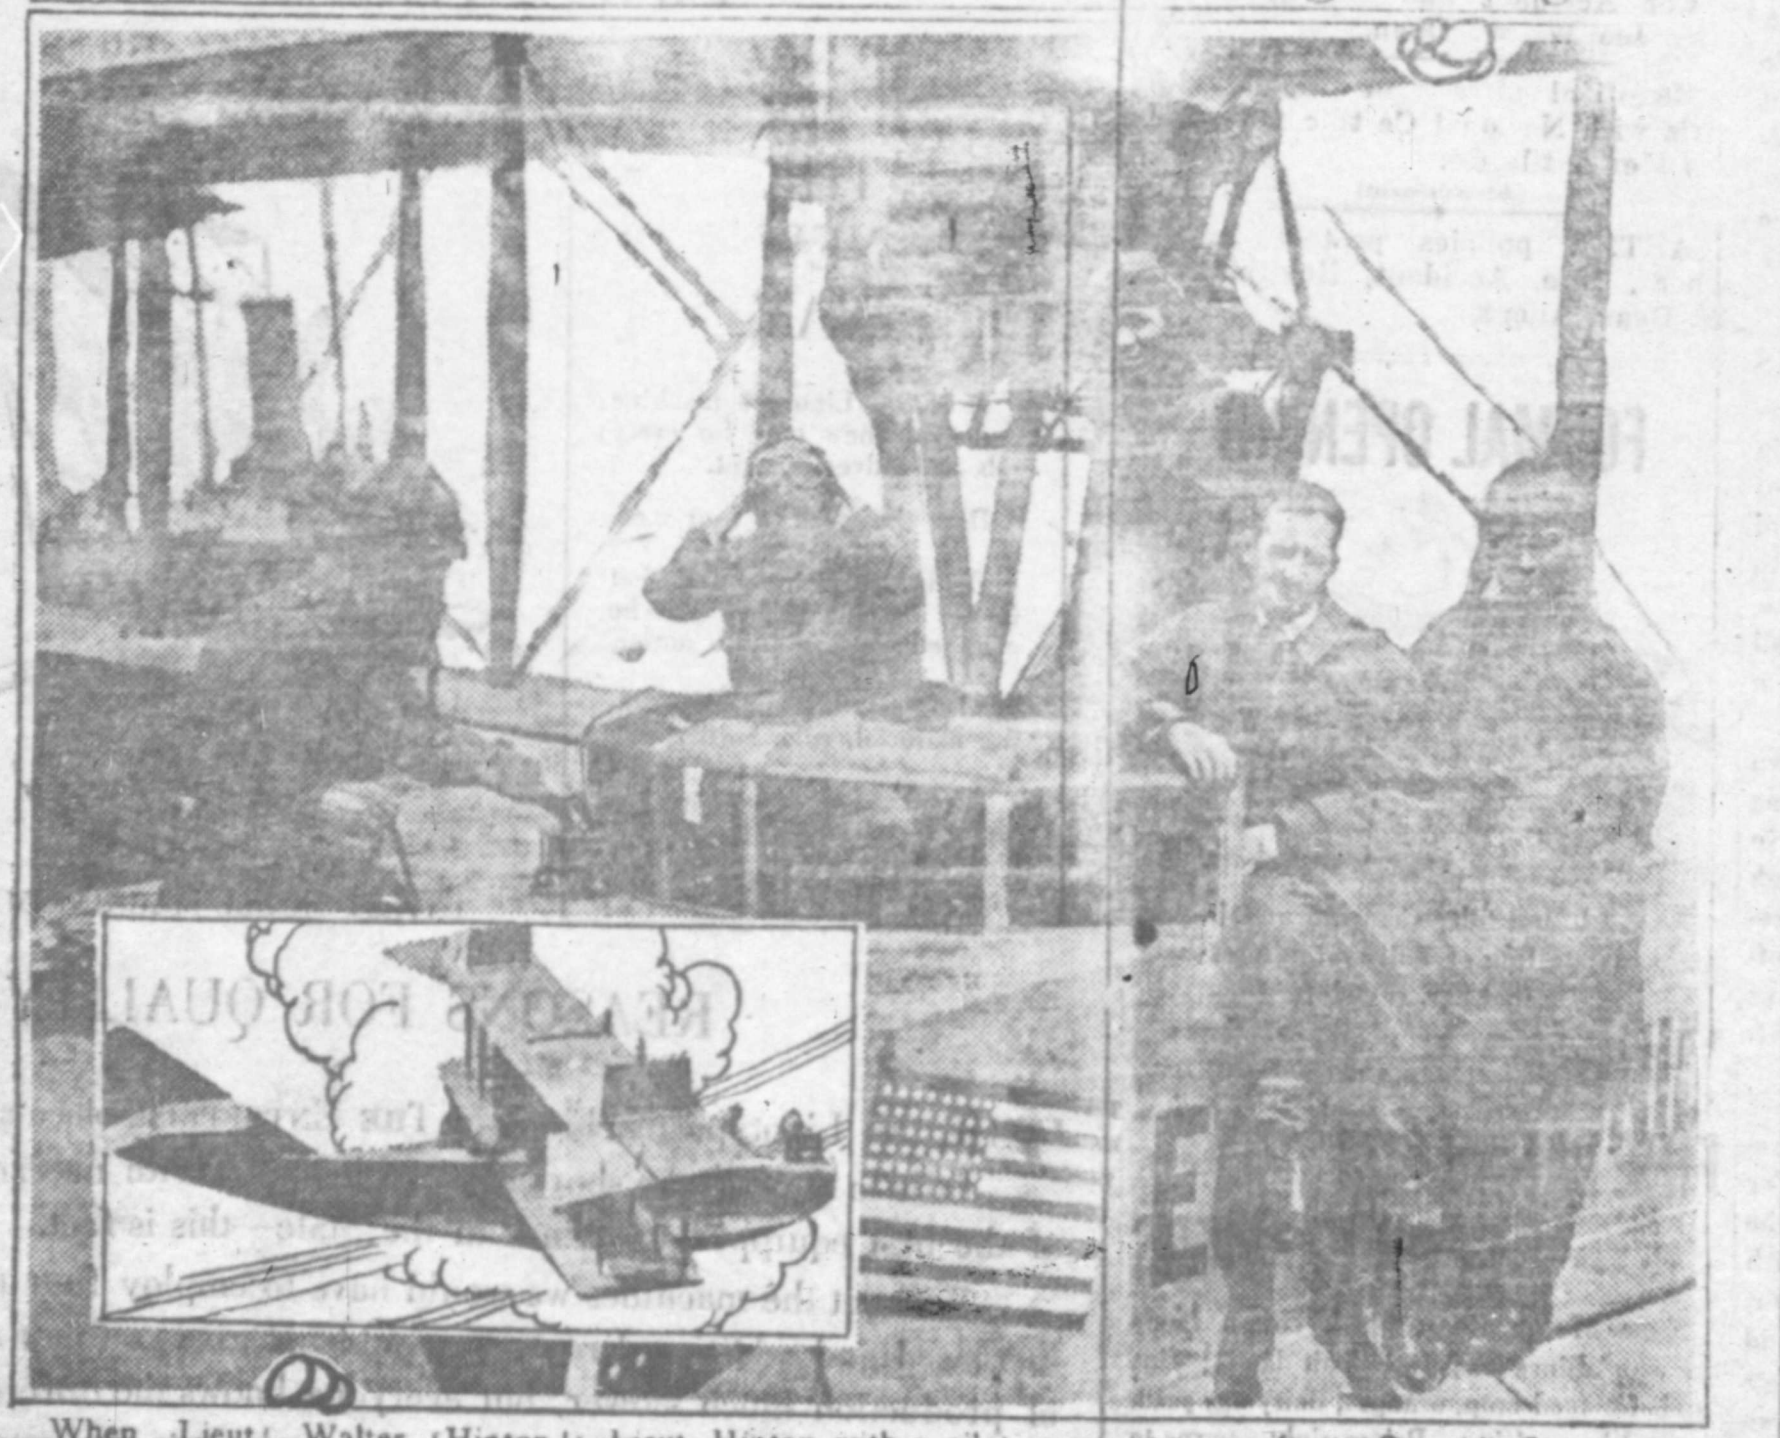

IT IS MERCURY, QUICKSILVER SHOCKS LIVER AND ATTACKS YOUR BONES. Calomel salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. That's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel. It is a pleasant vegetable-liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Calomel is a dangerous drug, besides it may make you feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No salts necessary. Your druggist says if you don't find Dodson's Liver Tonic acts better, than treacherous calomel your money is waiting for you.

Colds Cause Grip and Influenza LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

\$2.50 PER YEAR. The Sunday edition of the El Paso Herald, which contains 8 full pages of comics, 6 of which are in 4 colors; 2 pages of "Herald Junior" for boys and girls, and 2 pages of magazine features, together with 24 pages of news and other good reading matter, is now sold to mail subscribers at \$2.50 per year. Every ranchman and every household in the Pecos Valley ought to have the big Sunday El Paso Herald, the greatest newspaper value for the money in the southwest.

No Worms in a Healthy Child All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic on the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

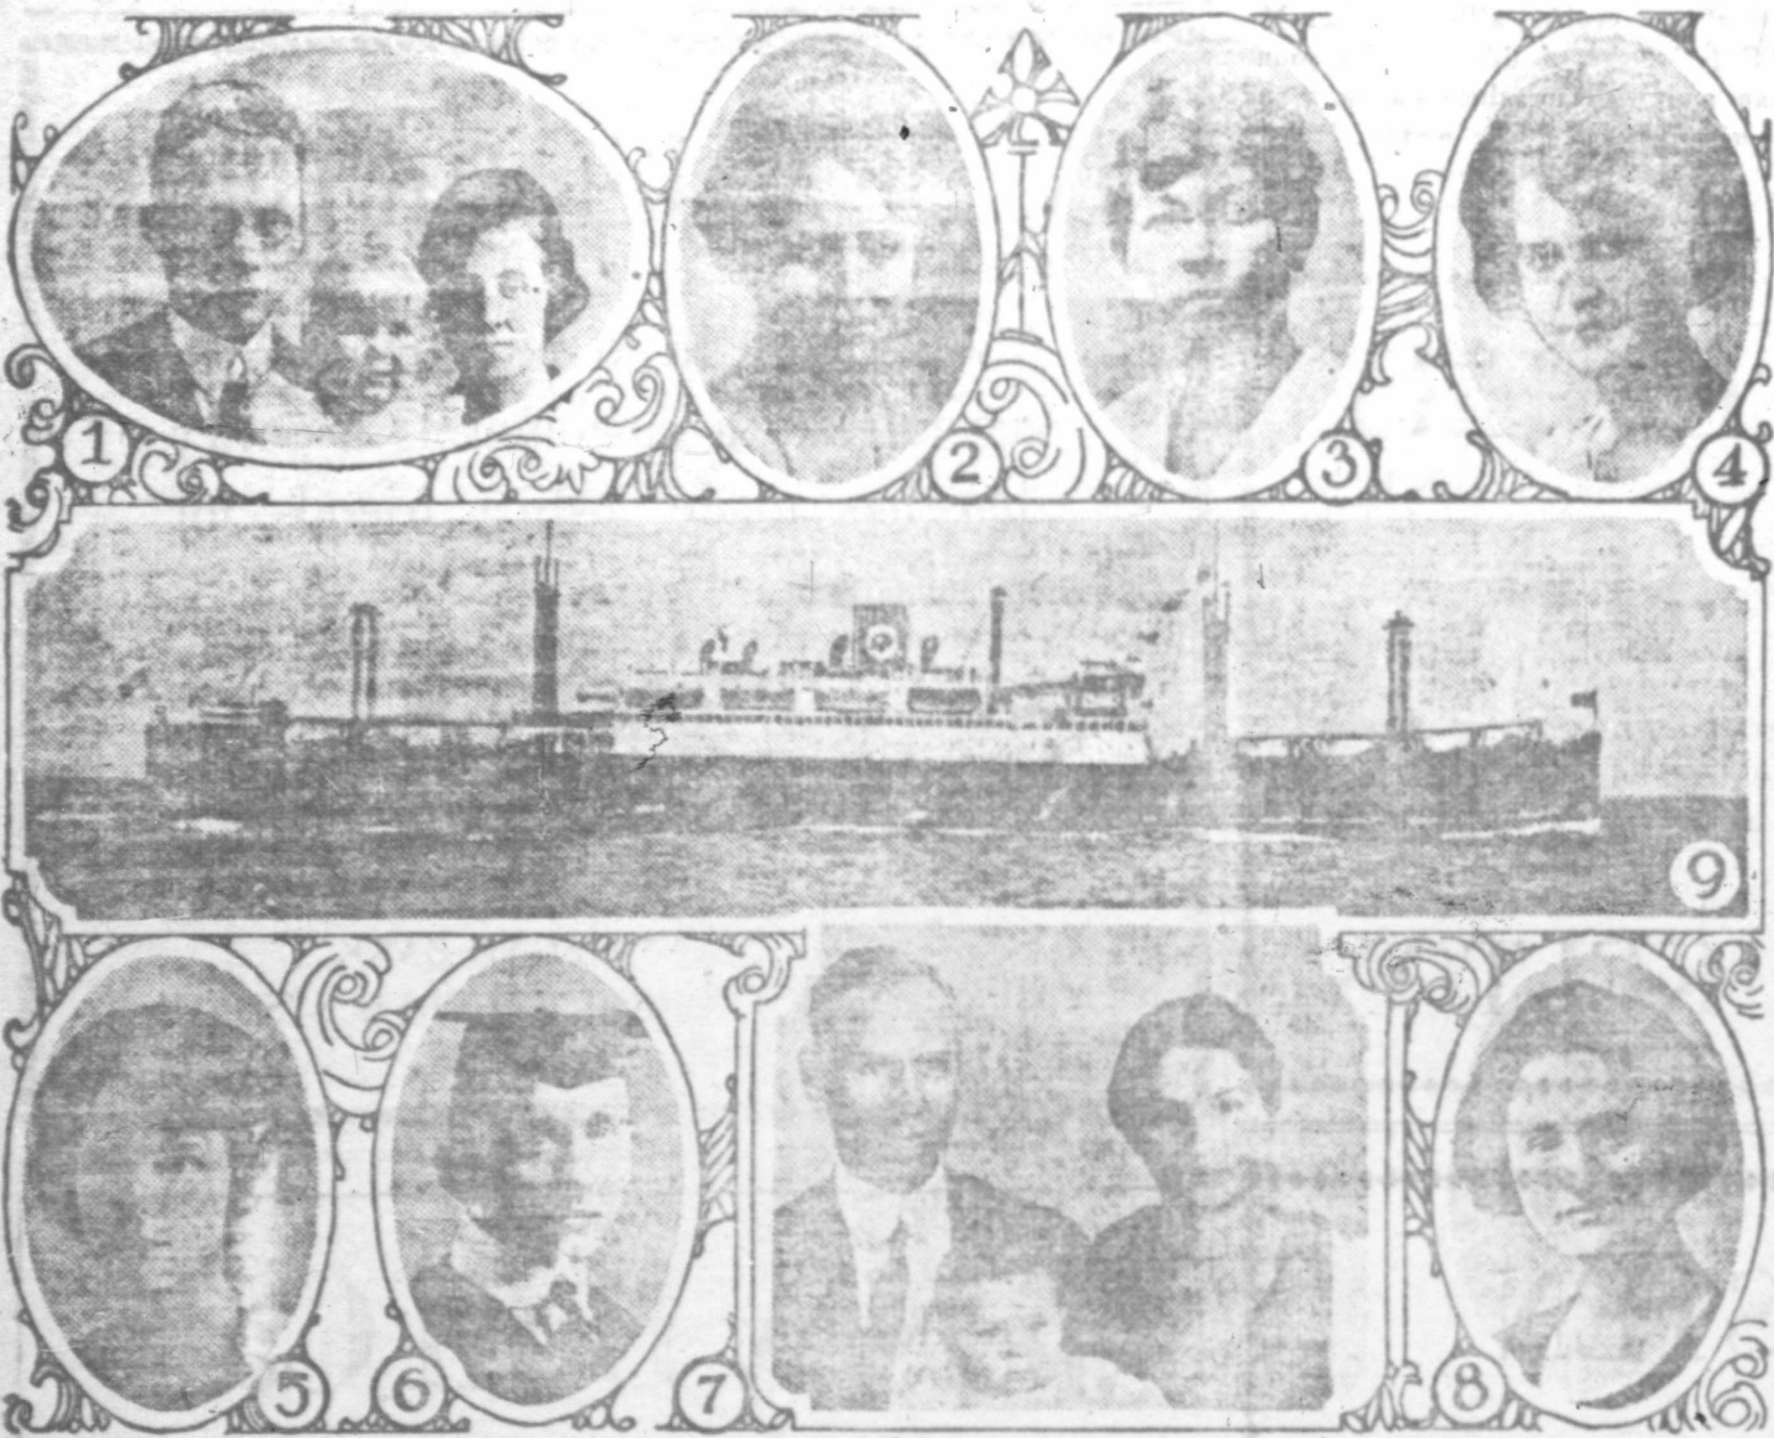

Uncle Sam's Neptune Ace On Longest Flight

When Lieut. Walter Hinton, U. S. Navy, flew the first seaplane across the Atlantic in 1919, he wrote his name in history. He is now on another assignment, in a Navy plane flight from New York to Rio de Janeiro, which if completed will be a record trip of 8,400 miles. Lieut. Hinton with a pilot, a mechanic, one newspaper man and a Brazilian passenger, left New York August 17th and is expected to reach Rio September 7th, in time for the opening of the Brazilian Centennial Exposition. All down the Atlantic coast Hip-

ton's craft, the Sampaio Correia, encountered heavy head winds and was often turned back. This is one of the biggest seaplanes yet built by Uncle Sam. The pictures show Hinton (indicated by arrow), and crew. Insert shows seaplane at start of the flight, just before raising from the water

Ten Young Texans Sail For Foreign Mission Service In Distant Lands

Mr. and Mrs. Paul C. Porter and young daughter (1) of Waco, who will do educational work at Sao Paulo, Brazil; Miss Josephine Ward (2), Austin, who will do educational work in Kaifeng, China; Miss Louise Willis (3), Waco, who will do educational work in Kaifeng, China; Miss Lois Howard (4), of Brownwood, who goes to North China; Miss Jennie L. Swearingen (5), Bellville, who will do educational work at Heliohorizonte, Brazil; Rev. J. R. Mashburn (6), DeKalb, who will do evangelistic work in China; Dr. and Mrs. W. P. Meredith and young daughter (7), of Pecos, who will do medical work at Oghomos, Nigeria, Africa; Miss Nell-Hall (8); Hightower, who will teach home economics in Kaifeng, China.

WITH the sending out this season of fifty new missionaries by the Foreign Mission Board of the Southern Baptist Convention, 250 new workers have been sent to foreign fields during the 75 Million Campaign, or one-half the goal that was set in the number of workers to be provided during that movement. It is anticipated the remaining 250 will go out during the remainder of the Campaign period that will expire in December, 1924. The workers going out this season will enter the fields of China, Japan, Africa, Palestine, Brazil, Argentina, Uruguay, Chile and Mexico.

Inasmuch as the largest missionary effort of the denomination is centered in the Orient, the larger portion of the workers sailed from Seattle Saturday, September 2, on the Admiral Liner President Jackson for stations in China and Japan. The missionaries for fields on other continents sail from New York on various lines and some of them will not depart until September 30.

distinction of being the first architect ever sent out by the Foreign Mission Board, and his appointment indicates the vast extent of the Southern Baptist work in that country. More than half of the total number of missionaries in the employ of this board are located in China, where the results of their labors are very gratifying to the officers of the Board.

Large interest centers, also, in the launching of an intensive missionary work in Palestine, to which country there go Rev. and Mrs. Fred Bunyan Pearson of Moulton, Ala., and Rev. and Mrs. J. Wash Watts, of Laurens, S. C. Some native missionaries are already at work in Palestine, and the outlook there is considered very encouraging, despite the present complicated political and racial controversies.

of 900,000,000 people, or one-half the total population of the globe.

And the results on the field have kept pace with the larger investment in the work and number of workers. Since the outset of the Campaign the Foreign Mission Board reports the organization of 117 new churches, 21,723 baptisms, 211 new Sunday schools with a gain of 17,576 pupils, native contributions to Baptist work of \$1,003,390.68, and \$29,642 treatments administered by missionary physicians. Churches on the foreign fields, exclusive of the new territory in Europe and the Near East, now number 622 with 64,251 members. There are also 971 Sunday schools with 53,691 pupils, and 694 mission schools of all grades with 26,507 students.

Varied Types Workers Sent
Included in the list of missionaries are preachers and evangelists, teachers, doctors, nurses, one architect, one expert in domestic science, and special workers among women and children. William Earle Hines of Spartanburg, S. C., who goes to Shanghai to supervise the construction of all missionary buildings in China, enjoys the

Campaign Brings Enlargement
In addition to the sending out of 250 new workers to foreign fields the 75 Million Campaign has made it possible to increase the number of native workers from 771 to 1172, to practically double the missionary equipment in the older fields of China, Japan, Africa, Italy, Brazil, Argentina, Chile, Uruguay and Mexico, and to enter the new fields of Spain, Jug-Slavia, Hungary, Roumania, Southern Russia, Palestine and Siberia. Southern Baptists now have a practically unbroken string of mission fields encircling the globe, and a possible mission audience

Expense Rate Is Low
More than \$6,250,000 net has gone from the Campaign into foreign mission work, and so economically have these funds been handled, the Board reports, that 96.24 cents out of every dollar has actually reached the foreign fields, only 3.74 cents out of each dollar being required to care for the total cost of administration. But with these larger receipts and economical administration the Board is unable to meet the demands upon it, and at its last annual meeting it was compelled to reduce the requests of the missionaries on the field for appropriations by more than \$1,000,000.

PARENTS! THAT SON OR DAUGHTER—WHAT ABOUT THEIR FUTURE

Their ability to think, to do, to act, according to the laws of a well-trained mind will measure their success and prominence.

How to get the most of this important training in the shortest time and at the least cost, is the question that a catalogue from America's largest Business Training School will answer. Whenever a group of parents get together, whether it be at home, church or picnic and the question comes up as to the kind of an education to give a boy or girl, some well-informed parent or patron of the Tyler Commercial College, Tyler, Texas, will tell of the advantages of this famous institution and what wonderful results its students accomplish at small expense. Read in our catalogue the endorsements from parents who have patronized this institution, and note what they say as to the thoroughness of our training, and the moral surroundings of the students while in school. Read the many endorsements from former students showing their success. Read the endorsements of business men who employ our graduates. Read the description of our extensive practical courses of study, and you will see that the Tyler Commercial College ranks among the foremost educational institutions of the country. When your son or daughter has graduated from this institution they will hold a diploma that represents efficiency that will not only be a passport into the best salaried positions, but will bring personal popularity and happiness. They will not have to go back home and wait for something to turn up, they can go into the business world and turn something up.

Fill in and mail for our free catalogue today.

CITATION BY PUBLICATION.
The State of Texas, To the Sheriff or any Consable of Reeves County—Greetings.
You are hereby commanded to summon Alfred Tinsley, E. F. Ducommun, L. C. Ducommun, Alfred Ducommun, Florence Livingston, G. E. Benson, Roy D. Barnum, E. H. Archer, W. S. Yates, E. Berry, J. S. Harvey, O. J. Rockman, M. C. Cowart, O. Ringold, J. G. Naguin, L. H. Johnson, J. Russell Teshner, A. B. Clair, D. J. Brady, L. N. Glover by making publication of this Citation once in each week for four successive weeks previous to the return day before in same newspaper published in your County, to appear at the next regular term of the District Court of Reeves County, to be held at the Court House thereof, in Pecos, Texas, on the third Monday in November, 1922, then and there to answer a petition, filed in said Court on the 29th day of June, 1922, in a suit, numbered on the Docket of said Court No. 2248 wherein A. S. Chapman, P. C. Chapman, D. B. Reese, D. S. Jones, Ed Jones, S. T. Jones, Hy Frasier, S. A. Mahoney, E. M. Purcell, Max Daley, F. Wright's firm and Mrs. C. E. Berry are plaintiffs, and The Sunshine Oil Corporation, Alfred Tinsley, Jas. B. Howard, E. F. Ducommun, L. C. Ducommun, Alfred Ducommun, Florence Livingston, G. E. Benson, Roy D. Barnum, E. H. Archer, W. S. Yates, E. Berry, J. S. Harvey, O. J. Rockman, M. C. Cowart, D. O. Ringold, J. G. Naguin, L. H. Johnson, J. Russell Teshner, A. B. Clair, D. J. Brady, L. N. Glover and S. E. Johnson are defendants, and said petition alleging that on the 29th day of May, 1922, the defendants, John B. Howard and Alfred Tinsley entered into a written agreement with W. M. Johnson of Harwood, New Jersey, by the terms of which said W. M. Johnson, the owner of Section 17, Block 2, H. & G. N. R. Co. Survey, Reeves County, Texas, conveyed to said defendants, Tinsley and Howard, all the oil, gas, coal and other minerals in and under the land therein described, including said Section 17, subject however to the reservation by said W. M. Johnson of certain royalties in case of production of oil, gas or other mineral, and further providing that it operations for the drilling of an oil or gas well be not begun on the land described therein within one year from the date of said lease, then said agreement shall be forfeited as to both parties unless the lessees or their successors or assigns shall say to the lessor on or before each of the anniversaries of said lease according to the date thereof, the year here for the period operations are delayed, but such a vitality cannot be maintained by such payments for a greater delay than three years without the written consent of the lessor, payments as provided in said lease shall be deemed complete, when made or tendered by a deposit of the amount to the credit of the lessor in the Austin National Bank, Austin, Texas and further providing that if said lessees shall sink a well and discover oil, gas or other minerals within the limit of time provided in paragraph 4, then said instrument shall be in full force and effect as long as minerals are found and produced in paying quantities.

SECOND.
That in said instrument the said W. M. Johnson was designated as lessor and the defendants, Howard and Tinsley as lessees. That said instrument and conveyance include the following lands:
Sections 31, 32, 33, 37, 39, all in Block 11, Section 11, T. 22, N. 23, in Block 41, Section 11, T. 22, N. 23, and 2 1/2 of Section 41, all in Block 41, W. 1/2 of Section 27, 43, 45, and 47, all in Block

5, all in the H. & G. N. R. Co. Survey, Reeves County, Texas.

THIRD.
That plaintiffs are the owners by some conveyance of the right, title and interest of the said W. M. Johnson in and to said Section 17, Block 2, and in and to said agreement in so far as it covers said section.

FOURTH.
That the defendants Alfred Tinsley and the other defendants, do not comply with the terms of said agreement heretofore set out but do default thereunder. That they did not on or before the anniversary of said lease pay to plaintiff or their predecessor the sum of the past due for an extension of the time of drilling on said land and have not paid said sum on or before the subsequent anniversaries thereof, nor did they on or before the anniversary of said lease begin the drilling of a well on any of the land described therein nor have they begun such well at the time of the filing of this suit or tendered any royalty.

SIXTH.
That three years has expired since the execution of said lease and plaintiffs and their predecessors have not agreed in writing for an extension of the time for drilling on said land.

SEVENTH.
That during the year 1920, the exact date of which is unknown to plaintiffs, the Sunshine Oil Corporation constructed a pretentious rig and derrick on Section 15, described in said lease and pretended to drill what is known as the Grogan Well.

The same was and a bonafide effort to comply with said agreement, and said rig and machinery was neither designated nor constructed nor in condition to drill an oil or gas well on said land, but was wholly unfit for such purposes, that after moving said derrick and rig on said Section 15, the said defendants did not drill said well with diligence to completion, but after a few months of negligent and ineffective efforts they abandoned the work thereon at a depth of less than 900 feet

and since said time have not proceeded further therewith, and no other well has been begun on said land by anyone at any time.

EIGHTH.
That defendants are claiming rights under said lease agreement to said Section 17, thereby clouding plaintiff's title and destroying the market value of their said land.

Premises considered, plaintiff prays that the defendants and each of them be cited to appear and answer herein upon final trial, they have judgment cancelling said lease declaring same to be void and forfeited and removing the cloud created thereby from the plaintiff's title, for costs of suit and such other and further relief to which in law or equity, they are justly entitled.

Herein fail not, but have before said Court, on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness Clerk of the District Court of Reeves County, Texas.
Given under my hand and the seal of said Court, at office in Pecos, Texas, this 18th day of August, 1922.
S. C. VAUGHAN,
Clerk District Court, Reeves County, Texas.
By No. 2248, in District Court, P. C. Chapman, et al. vs. Sunshine Oil Corporation, et al., Citation by Publication.
Issued this 8th day of August, 1922.
H. F. KERR, Deputy.

H. & G. N. RY. LANDS FOR SALE IN REEVES COUNTY

Surveys Nos. 45, 47, 53, 55, E. half of 61, and 63, in Block 41; and Nos. 43, 45, 47 and 49, half of 61, in Block 5.

The surveys in these blocks are situated from 5 to 8 miles from Pecos City, in the eastern belt of the Pecos River country and will be sold only in whole sections.

Also, surveys No. 49 in block 6 and Nos. 9, 13 and 15 in block 7.

Also, surveys Nos. 1, 3, and 5, fronting on the Pecos River, in Reeves county, and Nos. 19 (a river survey) and 21, in Reeves county.

Also 12 surveys in block 11 and 3 surveys in block 12. None of these are river lands, and are in Pecos county.

All these lands are under lease for oil, gas and mineral purposes and any sale of same will be made subject to such lease.

J. G. LOVE of Pecos is agent for the sale of all these lands situated in Reeves County and application should be made to him for the purchase of same.

There is no local agent for the sale of the lands in Pecos County, and written desires to purchase any of same should apply to the undersigned:

EUGENE CARTLEDGE, Agent and Attorney in Fact.
AUSTIN, TEXAS

250.00 FREE!

The picture above contains a number of objects and articles, the names of which begin with the letter "P". You can readily see such objects as "Piano," "Pig," "Pony," etc. The others are just as easy to find and you don't have to turn the picture upside down or sideways to see them. There is no trick at all to this puzzle; just get out a pencil and paper and write down the names of the objects and articles you can find.

ELEVEN BIG CASH PRIZES will be given for the eleven best lists sent in. The answer having the largest and nearest correct list of visible objects shown in the picture will be awarded First Prize; second best, Second Prize, etc.

Everybody Join In!
The Times Picture Puzzle Game is a game in which all can participate. From the youngsters to grandpa and grandpa. All the objects in this picture have been made perfectly plain and with no intent to disguise or hide them. It's simply a test of skill, your ability to find the objects shown in the picture determines the prize you win. Gather all the members of your family together this evening and see which of you can find the most.

THE PRIZES

Prize given if no subscription has been sent in.	Prize given if one subscription has been sent in.	Prize given if two or more subscriptions are sent in.
1st Prize ... \$20.00	\$25.00	\$75.00
2nd Prize ... \$5.00	\$10.00	\$20.00
3rd Prize ... \$3.00	\$5.00	\$10.00
4th Prize ... \$2.00	\$3.00	\$5.00
5th Prize ... \$1.50	\$2.00	\$3.00
6th Prize ... \$1.00	\$1.50	\$2.00
7th Prize ... \$1.00	\$1.00	\$1.50
8th Prize ... \$1.00	\$1.00	\$1.00
9th Prize ... \$1.00	\$1.00	\$1.00
10th Prize ... \$1.00	\$1.00	\$1.00
11th Prize ... \$1.00	\$1.00	\$1.00

Follow These Rules:

- This puzzle is open to all men, women, boys or girls who is not an employee of the El Paso Times or of an employee's family living in a home, the residents of El Paso or El Paso (Pecos) territory. It costs nothing to take part in the game.
- Answers should be written on a separate sheet of paper only and numbered consecutively 1, 2, etc. Write your full name and address on the top of each sheet. All answers must be mailed before midnight Monday, September 25, and addressed to T. J. Desmond, Puzzle Manager, The El Paso Times.
- Only words which are found in the English Dictionary will be counted. Hyphenated and obsolete words will be considered as errors. If the singular of a word is used the plural can not be counted, and vice versa. Words of the same spelling can be used only once, even though used to designate different objects. The same object can be named only once, although any part of the object may also be named. Where more than one word is equally applicable to the picture, any one of them will count.
- The person sending in the largest and nearest correct list of words beginning with the letter "P," naming objects shown in the picture, will win First Prize; second nearest, Second Prize, etc. One point will be given for each correct "word" and for each one correct off for each incorrect word or punctuation. Neatness, style or hand-writing have no bearing upon the deciding of the winners.
- All answers will receive the same consideration, regardless of whether or not a subscription is sent in.
- Persons may work together in preparing their list, but only one prize will be awarded in each household. Not more than one prize will be awarded to any group outside of the family, where two or more have been working together.
- In the event of a tie for any prize offered the full amount of the prize will be paid to each person on tie.
- The three following well known men of El Paso having no connection with the El Paso Times, will act as judges:
A. Schwartz, president El Paso Chamber of Commerce; Fabian Stolaroff, president El Paso Athletic Club; Harvey Borley, National Bank.
- Their will use their respective Webster's New International Dictionary, and conscientiously to assist their decision as final and conclusive.
- Those names will meet directly following the close of the Puzzle Game and the names of the prize winners and the winning list of words, together with the correct list which is made up by the judges from the correct words submitted by contestants, will be published in the Times and the prize awarded just as quickly thereafter as the judges can complete checking.

SUBSCRIPTION RATES:
Payable in Advance.
Three Months ... \$ 3.25
Six Months ... 6.25
One Year ... 12.00

One year six months' subscription and one six months' renewal or two new three months' and two three months' renewals are equal to one new yearly subscription. Two subscriptions means two six months' subscriptions, not three months.

A new subscriber means one who has not taken the El Paso Times for at least thirty days.

YOU CAN WIN \$750.00

It costs nothing to take part and you don't have to send in a single subscription to win a prize. If your list of "P Words" is awarded First Prize by the judges you will win \$750.00. If you would like to win more than \$20.00, we are making the following special offer whereby you can win higher cash prizes by sending in one or two six months' subscriptions with remittance to cover to the El Paso Times.

LET'S SHOW: If your answer is awarded First Prize by the judges and you have sent one six months' or two three months' subscriptions to the El Paso Times, you will receive \$250.00. (See second column of figures in prize list.)

OR: If you are awarded First Prize and have sent two six months' subscriptions (one of which must be new) or four three months' subscriptions (two of which must be new), or one new subscription for a full year, you will receive \$750.00. (See third column of figures in prize list.)

Your own subscription will count as one, and you can get the subscription of a friend or neighbor and we can take subscriptions to start at any later date by sending in your subscriptions give full instructions on a separate sheet of paper from that on which you send in your answer.

PERSONAL

Mrs. McGregor is in Lordsburg, N. M., visiting relatives.

George Harris was a business visitor to Austin last week.

Mrs. E. A. Otto went up to Roswell, N. M., Saturday for a visit of a few weeks to home folks.

Mrs. Bob Stevenson and little daughter left last week for Mundy for a visit to relatives.

Mrs. Harry Anderson and son, Tommie, are spending a few days down on Toyah Creek this week.

Mrs. J. O. Toliver left last week for Stephenville where she will spend the winter with relatives.

Jim Grayson was over from Toyah the early part of the week shaking hands with friends.

Mrs. Arch Bell left Saturday for California where she will spend a few weeks making a much needed rest.

Miss Fannie Quillian and Miss Alice Leeman went up to El Paso last week where they will teach the ensuing year in the Eddy Effington school.

Mr. and Mrs. W. H. Cox and two children left Saturday for her home in Ill., after a visit to Mrs. Cox's sister, Mrs. W. B. Oats and family.

Mr. and Mrs. J. P. Gilardi and two children came in this week for a visit to the family of Judge and Mrs. J. W. Wedley, parents of Mrs. Gilardi.

Mr. and Mrs. Max Otto and two children returned to their home in this city Tuesday from Lorenzo, Texas, where they had been guests for a week at the home of Mrs. Otto's parents, Mr. and Mrs. Tom Kelly.

Mrs. L. M. Lawson and children went over to Toyah Wednesday to join Mr. Lawson who has a position there in the Barber shop. These people will be very much missed by their many friends in Pecos who wish them much prosperity and happiness in their new home.

Miss Eunice Otto left Tuesday for Stanton, Texas, where she will enter the school conducted by Sisters of Mercy for the coming term, this being the third year of her attendance there. Her mother, Mrs. Ed Otto, accompanied the young lady to the school, and returned to her home here the following day.

W. M. Hopper who is drilling the Wiloughby wells in the southwestern part of Reeves county, was a Pecos visitor Monday of this week and stated to the Enterprise that they had not yet got a complete water shut-off at the number one well but hoped to do so in a day or two. He also stated that they would not go any deeper until they had a complete shut-off since the indications for a real oil well looked too good to take any chances with the water ruining it. Mr. Hoper is one of the old drillers in this field and has put down many water wells all over the country and is capable of drilling in an oil well.

Mrs. M. E. Ray, the invalid mother of Mrs. A. J. Curtis, was moved to the sanitarium this week and will be in the hands of Mrs. Morrison while Mr. and Mrs. Curtis make an overland trip in their car up through New Mexico and in the Panhandle of Texas to give Mrs. Curtis an outing and a much needed rest. Mother Ray, as she is lovingly called by friends, has been confined to her bed for nearly two years and her daughter, Mrs. Curtis, has been a most faithful and attentive nurse. She needs this trip and her friends are glad she can have it. She makes a parting request that the friends continue to make their visits to the dear mother at the sanitarium during her absence.

Jas. H. Walker and Postmaster M. C. Maseky was over from Balmorhea Wednesday. Mr. Walker states that the big lake and reservoir above Balmorhea is almost dry and their irrigation water is cut short. The alfalfa is needing rain and there will not be much more until or unless they get more water from some source. Balmorhea people are working faithfully upon another storage reservoir further up in the mountains and Jim says he believes they have a fine chance of getting work started on this at an early date. There is no way of estimating the good another reservoir would do that section of the country since it would furnish an abundance of water for all purposes, and it is to be hoped that they succeed in getting it put in.

On last Saturday's Express, the editor received a fine crate of cantaloupes shipped to us from Pecos, the shipper being C. Buchanan. Mr. Buchanan's oldest daughter has been cooking for, waiting on, washing for and trying to boss the editor for the past twelve years, and for this reason Mr. Buchanan remembers us every year with a fine crate of the famous Rocky Ford cantaloupes, raised on his own farm in the Pecos valley. The ones were as fine as the world can produce and we extend to the old gentleman thanks for the nice treat. May he live through many more summers and continue good deeds.—Santa Anna News. Mr. Buchanan is one of Reeves county's best men and to be a member of his family is a long way of being bad.

LAND OF SNAKES

A. Ward and T. M. Travillon of the Mosley community were in Deport on business Tuesday and they report killing a large moccasin snake at the Burchinal corner that was three and a half feet long and about three inches across the body. It was found near its nest, and when disturbed, opened its mouth and small moccasins about ten inches long began to race into their mouths for protection. After shooting the reptile, twenty young snakes were taken from it and twenty-five others found in the nest that did not get an opportunity to get to their mother. The young snakes would strike at the men, but they were all killed with sticks and carried to Fulbright by Dell Greer.—Deport Times.

Mrs. P. B. Smith and daughter, Miss Marie, are back home from spending the summer with relatives in El Paso. Miss Smith announces that she will open her music class in the M. M. Leeman residence on Monday of next week. Miss Smith is a very successful teacher and her class of last year showed marked improvement.

Robert Morrison who left Pecos Friday of last week on a business trip to Galveston wrote Sunday from Big Sandy that he had gotten that far on his trip, having lost two days so far on the way due to a lasting connection on the trains. If he keeps up this lick he will probably get back home in time to eat Christmas turkey with the home folks.

Wiley Cassels was in town from the Marfa country on Wednesday of this week and says that country is in fine condition—plenty of grass and the cattle are all fat. He informed the editor that he would go on to El Paso for a visit to his brother, Ben, whom he has not seen in about a year.

J. J. Wheat returned the early part of the week from a business trip to Kansas City.

Attorney Jno. B. Howerd was a business visitor in Midland the forepart of the week.

B. F. Seay was over from Toyah on business Thursday of this week.

Sheriff Kiser is attending the State convention of Sheriffs at Abilene this week.

THE STATE OF TEXAS

To the Sheriff or any Constable of Reeves County Greeting:

You are hereby Commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Reeves County, a copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the Estate of Sid Kyle, Deceased.

Mrs. Minnie Kyle has filed in the County Court of Reeves County, an application for the Probate of the last Will and Testament of said Sid Kyle, Deceased, filed with said application, and for Letters Testamentary which will be heard at the next term of said Court, commencing on the second Monday in October, A. D. 1922, the same being the 9th day of October, A. D. 1922, at the Court House thereof, in Pecos, Reeves County, Texas, at which times all persons interested in said Estate may appear and contest said application, should they desire to do so.

Herein Fail Not, but have you before said Court on the said first day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Pecos, Texas, this 29th day of August, 1922.

S. C. VAUGHAN, Clerk County Court, Reeves County, Texas.
By H. P. Kerr, Deputy.

JOHN BROCAT, Proprietor.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 30c. Just ask your druggist for HAYES' HEALING HONEY.

Mrs. G. B. Finley returned this week from a visit during the entire summer to his mother at San Angelo and other relatives in East Texas.

T. N. Wilson was up from his Saragosa ranch Wednesday of this week and says his cattle are all doing nicely although it is very dry in his country. He has been saving his grass at home for the winter and moving his stuff around where it has rained so that they might get the benefit of the green grass.

Friends of Reverend and Mrs. Hubert Mann Smith are invited to be present at the marriage of their daughter Isabel Oregon to Mr. Robert Harry Ratliff on Wednesday the sixth of September at four o'clock in the afternoon at their home—Alpine Avalanche. Pecos friends of the Smiths, all of whom are dear in the hearts of our people, will hope that Mr. Ratliff is worthy of this splendid young woman and wish for them happiness and prosperity through a long wedded life.

You will find my place first door south of Pecos Drug Store, where I have a nice line of Fall Hats and Millinery. You are cordially invited to come in and see my line.

MRS. R. F. KELTON

SAY LISTEN

Lumber has commenced advancing. To those who contemplate building anything soon, better get busy as this is the day of surprises.

Pruett Lumber Co.

Mrs. H. L. Magee and daughter, Miss Mary, arrived home last week from Missouri and Kentucky where they spent the summer with relatives. Miss Julia Magee, the elder daughter, stopped in Fort Worth where she will enter the T. C. U. at the opening of school.

Miss Ruth Lewis, the charming young daughter of Mr. and Mrs. Seth Lewis of Midland, returned to her home Monday after a pleasant visit to her Uncle Bob Lewis and family and Uncle Evy Bowles and family and to her many friends in Pecos.
