## PECOS PEOPLE PREPARING "TO PREVENT AND FIGHT FIRES"

Proclamations have been issued by the national government and by the state of Texas, setting aside a week—October 2 to October 9, inclusive—as fire prevention week, and our local fire fighters—the Pecos Volunteer Fire Company—has arranged a program for Tuesday, the 3rd, when they make their regular weekly test run.

This run will be made to the public school where a fire drill will be had by the students, following which a program will be had at the school in which the students will compete for cash prizes for the best essays on fire prevention.

The fire company is composed of the following officers: Chief, C. F. Manahan; First Asst. Chief, Tom McClure; Second Asst. Chief, W. E. Turner; President, Ralph Williams; Vice-President, Frank Cavette, and Secretary, and Treasurer, John Ross.

The company has been making extra runs recently, brightening up their fire fighting togs, and in other ways getting ready for the regular run of fall fires.

Through W. W. Dean the school children have been furnished with questionnaires. They are to take this list of questions to their homes and inspect the premises thoroughly, fill out the question blanks, and return to their teacher.

Parents are urged to read the questions and to assist their children in filling them out properly. Any defect found to exist at your home, you are to take immediate steps toward rectifying.

A cash prize will be given by the fire company for the best executed and neatest questionnaire returned to the teachers, who, in turn, will give them to the fire company.

In making his rounds of inspection, Fire Chief Manahan discovered that the fire alarm was disconnected, and had there been a conflagration the firemen would not have known of it other than from mouth to mouth notice. Steps are being taken by the company to improve on the present system of alarm.

As it is, when a fire occurs, some one telephones central "there's a fire." The operator then phones the light company "there's a fire," and then the alarm is sounded. They plan to install a system whereby the telephone operator, on learning of a fire, can close a switch directly connected with the fire alarm, and it is sounded then. Later they plan getting an electric siren.

Parents, read these startling facts, then thoroughly inspect your premises for defects and correct those found:

Each year 15,000 people are burned to death.

Each year 17,000 are injured or maimed by fire.

In 1917 the fire cost per capita was \$2.79.

In 1921 fire cost per capita was \$4.47.

Fire caused the shocking average wastage of \$1,300,000 of national resources each day during last year. Somewhere in the United States \$923 is destroyed by fire each minute of the year. What the showing will be this year, in large measure, depends on you. Help prevent fires.

## WEST TEXAS PIONEER IS FOUND DEAD

Stamford, Sept. 24.—J. L. Jones, a pioneer ranchman-merchant and oil man of West Texas, was found dead in a bath tub at his home here. He had been suffering from ill health for some time. He was 73 years of age and leaves a wife and six children.

The above item will be of interest to Enterprise readers from the fact that Mr. Jones was the husband of a former Pecos lady—Mrs. Middleton who held the office of county treasurer here at one time. Mrs. Jones still has her property here and her relatives are yet living here. Further account of the death of Mr. Jones than the above the Enterprise has been unable to learn.

Mrs. Jones is a most estimable lady and the many Pecos and Reeves county friends of the family will regret to learn of her bereavement and will join the Enterprise in sincere sympathy.

## GILA MONSTER PRESENTED TO JUNIOR COLLEGE; EATS SIX EGGS FOR BREAKFAST

A Gila monster 18 inches long was presented to the department of biology of the Junior College Tuesday by Arthur M. Lockhart, who captured the poisonous lizard on a desert near Phoenix, Ariz. L. T. Bare a teacher in this department, built a cage for the reptile where it was fed a breakfast this morning consisting of six raw eggs.—El Paso Herald.

J. G. Love returned yesterday from a trip to Dallas where he went to take Wallace Connally.

## AMERICANS ON TURKISH FRONT

Uncle Sam shakes a positive head and says we will not be drawn into the European tangle caused by Turk victories over the Greeks and the massacre at Smyrna. However, American representatives are at work to report developments and help in relief work. The photo shows Admiral Mark L. Bristol, with his wife, and Davis C. Arnold, the Director of the Near East Relief, inspecting one of the stations established by the Near East Relief Committee, near Constantinople.

## PECOS VALLEY WATER-USERS ASS'N. MET HERE WEDNESDAY

On Wednesday the Pecos Valley Water-Users Association of Texas held a meeting in the directors room of the Pecos Valley State Bank, in this city, with W. H. Browning, Jr., president of the association, presiding.

The association is comprised of the following projects: Ward County Irrigation District No. 1, represented at this meeting by J. H. Miller of Barstow; Ward County Improvement District No. 2, represented by John Miller, of Grandfalls; Ward County Water Improvement District No. 3, by B. T. Biggs, of Pecos; Imperial Irrigation Company, by E. H. Barron, of Imperial; Pecos River Reservoir Irrigation Co., by R. H. Gray, of Benavista; Farmers Independent Canal Co., by C. K. McKnight, of Pecos, and the Porterville

project, which had no representative. The object of the meeting Wednesday was to get a verbal report from Vernon L. Sullivan, engineer, employed by the Association to make tests of the Red Bluff site. Mr. Sullivan reported that the tests were very satisfactory, and he felt quite sure the government would pass favorably on same.

The real success of the project hinges almost exclusively on the passage of the Smith-McNary Reclamation bill which will be placed before congress when that body reconvenes.

The Smith-McNary bill was a rider, or was pooled, with the Soldiers' Bonus bill, which was vetoed by President Harding near the close of the past session of congress. It will be presented again, however, and the citizenship of this part of the country should use every effort to have our congressmen and senators pass favorably on this measure.

It is thought the report of Fred Bonstedt, U. S. reclamation engineer, will be made, and favorably, too, to the government within two weeks.

The Association is today in receipt of a message from R. F. Walter, of the Reclamation Service, which says: "Denver, Colo., Sept. 28, 1922. Pecos Valley Water-Users Assn., Pecos, Texas. "Geological survey suggests additional field studies desirable on geology of Red Bluff reservoir site. Funds advanced under your contract now over expended about \$300 in drilling, and \$100 available for this purpose. Wire if you wish to advance additional \$1000 to co-operate with above work. If so, when will same be forwarded?"

R. F. WALTER, Reclamation Service.

Mr. Browning assures the Enterprise that the funds for such a purpose are available, and while he has it for that purpose, he will get in telephonic communication with other members of the association today, merely as a matter of form, and get their sanction of the move. Mr. Browning thinks, and it is highly probable, that the term in the message: "Additional field studies desirable," means the going over of the section of the country to be irrigated by the Red Bluff project, by the engineers of the government.

Taking it all in all, members of the association feel optimistic of the outcome of the Red Bluff project, and it is to be hoped that such will go through. With that project a reality, the Pecos Valley will be made to "blossom like the rose."

## TO PUT ON MICOLITHIC FINISH.

C. E. Buchholz has been busy this week priming the front of his business house preparatory to having a micolithic finish put on.

George Kirtley, manager of the company, will come down from the quarry or mines in a short time and do the work. He is an expert in this line and will undoubtedly make of this one of the neatest and prettiest fronts in town.

## OIL DEVELOPMENT LOOKING MORE HOPEFUL—RIGS IN SHAPE TO MAKE BETTER PROGRESS

### METHODISTS PREPARE TO HOLD ANNUAL CONFERENCE

The local forces of the Methodist church are busy as bees getting ready to entertain the New Mexico Annual Conference which meets in its thirty-third annual session October fourth.

This is not the first time this body has been entertained here. The last time it met here was eight years ago and many old acquaintances among the preachers and delegates will be met with pleasure by our people.

The territory of the conference includes all the state of New Mexico and much of West Texas. The last session's minutes show that there are 4 presiding elders, districts; 44 appointments; with 132 local congregations; 12,336 members and with a property valuation of \$749,997; forty-six Leagues with 1535 members; seventy-two Sunday Schools with an enrollment of 11,195 members; fifty-four Woman's Missionary Societies with 1526 members. The total financial footing for the year was \$245,954. There were 3247 members added to the church.

There will be more than one hundred delegates and visitors present. Among the more prominent persons expected may be mentioned Mr. C. W. Everett, manager of the Dallas branch of the publishing house; Dr. C. C. Sealeman, pastor of the First Methodist church of Dallas, coming to represent the interests of the "forgotten man" the worn-out preachers, and also the Board of Hospitals; Dr. E. B. Chappell, of Nashville, Tenn., editor of our Sunday School literature; Dr. T. D. Ellis of Louisville, Ky., secretary of the Board of Church Extension; and Bishop James E. Dickey, of Waco, Texas, who will preside at the conference. Perhaps most notable of all will be the presence of Mrs. Dickey, the Bishop's wife, for never before has this conference been favored with the presence of the wife of one of our Bishops.

The initial or opening service of the conference will be the opening sermon at 8 o'clock Tuesday evening, October 3, by Rev. J. H. Walker, of Deming, N. M., a former pastor here. Then on Wednesday morning at 9 o'clock the conference proper will be opened by Bishop Dickey.

The majority of the delegates are expected to arrive on the trains Tuesday, and all hosts and hostesses are preparing accordingly. It is expected that a large group of cars will meet the delegates and convey them to their conference homes which have already been assigned by the entertainment committee.

EVY BOLES PURCHASES  
ALFALFA FARM

E. G. Boles was in town the latter part of the week and was as gay as a young colt. He states that he had just a few days prior a very good rain over most of his pastures and that on top of that he had just closed a deal for a forty acre alfalfa farm near Saragosa.

Evy has been hit hard by the drouth and in face of it all has held up wonderfully well and though at times he would feel depressed an look blue he has been enabled to hold out very satisfactorily to himself and his better two-third. He is one of our best citizens and a hard worker and usually a very good manager, but no one who has cattle can "manage" satisfactorily, in face of one of the long West Texas drouths. With the addition of this alfalfa farm he will be enabled to better "manage" his cattle interests and his many friends all over the county hope he will not only make good but make money now that there is no chance for his cattle starving.

A Reeves county alfalfa farm is not a bad thing to own and especially for one who is raising cattle. Really those who own and properly manage such a farm, raising bees, chickens, etc., and selling the surplus hay seldom ever are in straightened circumstances, and usually have a good bank account when the other fellow is crying hard times.

Here's hoping that Evy made a good deal in purchasing this farm and that it may enable him to get rich some day.

Mr. and Mrs. V. L. Corey will leave tonight for Minneapolis, Minn., where he will enter the University of Minnesota. Mr. Corey has been manager of the Reeves County Experimental farm and just before leaving stated to the editor that "The Enterprise is the best country weekly paper I ever saw and I have enjoyed reading it very much the past year."

THE BELL WELL

After months of efforts to get the gas cased off and the water shut off below the gas, it seems that a perfect water shut off has been secured in the Bell well, and better time is being made, than at any time since the gas was struck last March. The formation is now a white lime that is looked upon as favorable. The gas is maintaining an even, steady flow and the boilers are making more even steam than they did when fuel oil was being used.

THE LAURA WELL

Mr. Heller, manager for the Sunshine-Federal interests, was in town today and states that drillers at the Laura are making satisfactory headway. Yesterday afternoon a bearing on the rotary outfit was broken which delayed operations but Green and Granger hoped to be working again this afternoon. They were down to the 2420 foot mark when the accident occurred and it is believed they have passed all quick sand trouble and will be going good and making splendid headway within the next three or four days.

## HERSHENSON WELL

Drilling at Hershenson well continued for past week, but was halted yesterday again when their large bit again broke due to defective material. Arrangements are now being made to secure another bit to avoid all further delays. Work will be resumed as soon as possible.

## R. R. LANDRUM

THE WILLOUGHBY WELL

Mr. C. H. Willoughby of the Willoughby Petroleum Co. is now in East Texas endeavoring to raise money with which to carry on the work. The Enterprise has had no report from that well this week.

## PECOS BRASS BAND

For the past two weeks Prof. E. A. Blount of Houston has been busy among the young people organizing what is to be known as the Pecos Brass Band.

### TOYAH-BELL WELL

Work at the Toyah-Bell well for the past week has been mostly pumping and storing oil in the large tanks, which will be used later as fuel when the Granger-Green Drilling Company moves their rotary outfit to the site of the Ramsey No. 2 well.

It was necessary to remove the pump from the Toyah-Bell only once this week, and that was yesterday, and then they found the pump in good shape. Forty barrels of oil was pumped out of 900 feet of the well, and Mr. Ramsey estimates the well is making from 40 to 50 barrels of oil every 24 hours.

That's not so bad, at that, as they have lowered the expense of fuel about 50 per cent. Gas pressure is on the increase, too, as a week or so back the flow would burn only for a short time and then go out. Now gas is used under the boilers and at night it is lighted up out in the yard and continues burning all night.

A water well was put down 60 days ago, and a good flow was reached at 34 feet. Wednesday they tested out the well and after 200 barrels of water had been pumped out, the well still showed no wekening. The quality of the water is equal to that obtainable in Carlsbad.

### THE BELL WELL

After months of efforts to get the gas cased off and the water shut off below the gas, it seems that a perfect water shut off has been secured in the Bell well, and better time is being made, than at any time since the gas was struck last March. The formation is now a white lime that is looked upon as favorable. The gas is maintaining an even, steady flow and the boilers are making more even steam than they did when fuel oil was being used.

Ira J. Bell, who has just returned from a trip east, visited the well today and gives it as his opinion that it is just a matter of sticking to business and a matter of time until the field will be brought in with a good well in the well where oil production in the Pecos field was first discovered.

### THE LAURA WELL

Mr. Heller, manager for the Sunshine-Federal interests, was in town today and states that drillers at the Laura are making satisfactory headway. Yesterday afternoon a bearing on the rotary outfit was broken which delayed operations but Green and Granger hoped to be working again this afternoon. They were down to the 2420 foot mark when the accident occurred and it is believed they have passed all quick sand trouble and will be going good and making splendid headway within the next three or four days.

### HERSHENSON WELL

Drilling at Hershenson well continued for past week, but was halted yesterday again when their large bit again broke due to defective material. Arrangements are now being made to secure another bit to avoid all further delays. Work will be resumed as soon as possible.

### R. R. LANDRUM

### THE WILLOUGHBY WELL

Mr. C. H. Willoughby of the Willoughby Petroleum Co. is now in East Texas endeavoring to raise money with which to carry on the work. The Enterprise has had no report from that well this week.

### PECOS BRASS BAND

For the past two weeks Prof. E. A. Blount of Houston has been busy among the young people organizing what is to be known as the Pecos Brass Band.

Professor Blount is a musician of twenty-five years experience which includes membership in some of the best bands in the country and for the past year has directed bands at Midland and Odessa very successfully.

There are some fifteen or twenty who have purchased new horns and at least thirty-five have signed their intention to join.

We are requested by business manager, H. H. Johnson to state that any who would like to join who have not already become members should see him as they expect to have a band of forty or fifty pieces.

There is nothing along this line that can do more to put a town on the map than a good brass band. Let's everybody wake up and help boost for it.

In city police court this morning a negro plead guilty to vagrancy, and was fined by Judge Palmer. He was arrested yesterday and spent the night as guest of the city, in jail.

ENEMIES OF AMERICA

Success always produces enemies. We are not discussing the external enemies of America, because her danger is not from without; it is from within. Her menace is being generated in her own bosom.

Let us discuss some of them. FIRST—The bad citizenship of good citizens. The banker, lawyer, doctor, merchant, minister, teacher, or other professional and business men who spend their entire time looking after their own interests to the neglect of the public's interest, welfare, and success are bad citizens, undesirable citizens.

When men become so selfish, self-centered, and interested in their own affairs that they will not give

some of their time, energy, interest and talents for the general public's good, they are an enemy to the country. Selfishness creates the bad citizenship of good citizens. SECOND—Disregard for law. There is a growing disregard for law. Men are trying to circumvent law; they are devising every scheme possible to escape the operations of law; they are spending every energy they possess to defeat the judg-

ments of law. This tendency is putting our government in jeopardy. THIRD—Ignorance. Ignorance is a deadly enemy to society. The amount of ignorance in this country is alarming. We discovered it when we drafted the boys for the late war. A large percentage could not pass the examinations.

The time has come for us to demand that the common school education of this land shall become universal and compulsory. Every child should be forced to graduate from the public schools. The Smith-Towner Bill now before Congress ought to be passed, and the Federal government ought to be made to aid the public school system of this country. The little red school house should dot every hill and fill every valley in America; and every child in America regardless of race, color, or condition should be forced to remain in the public schools until graduated from the ninth grade.

poem by UNCLE JOHN

You've made yer mind up, Jenny, so there's nothin' left to say, that I reckon would impress ye to do some other way. . . . You never was a stubborn child, or one that don't behave, but you're mighty sot, I've noticed, on the little things you crave. . . . So, you're goin' to the City—where there's heaps of fine "careers" and worlds of "opportunities" around ye everywhere—I wouldn't want to tie ye to yer mother's apron strings for life, if ye say, is measured by the happiness it brings. . . . When I think about them "type-machines" or clerkin' in a store, where the boss ain't never satisfied, but—allers wantin' more—where there's slim respects fer purity, and everything's fer show, it overcomes me, Jenny, and—I hate—to—see—ye—go! There's often hidden torments in the prospects that allure, and a million tons of riff-raff in the City's social sewers. And the hell of human passion, in the high as well as low,—I may be wrong about it, but—I hate—to—see—ye—go! Yer mother'll recollect ye, when she says the evenin' prayers. Some people think a mother is the only one that cares. . . . But we'll watch the papers closer than we used to do, ye know—and we'll wonder—wonder—wonder, Child—I hate—to—see—ye—go!

For Uncle John

HOMIE PHILOSOPHY for 1922 AUTOCASTER

AND it is written that the miners shall go back to work and that the miners shall strike again, and that the miners shall go to work again, and that they shall continue these backward and forward movements until they shall come to see the folly of it all and understand that that which has a beginning must have an end, and that the sooner man shall avoid the beginning, when the beginning spells disaster and trouble, the better for mankind, the miners included. And it is written that the capitalists shall persevere pretty much the same course of blind approach to the industrial problem; that they shall not seek a solution, but depend on temporary expedients until they recognize the great fundamental, that God will not allow the crushing of humanity, but has destined that man shall improve, themselves included.

Imperial Potentate

James McCandless, Imperial Potentate of the Ancient Arabic Order, Nobles of the Mystic Shrine, was greeted by fifty thousand nobles from all parts of the U. S. when he appeared at the annual conclave at Atlantic City.

distinct mountains making a separate chain. All these are included in the mica district and are filled with mineral. This uplift evidently occurred long after the Cretaceous period as rocks of this formation are found far up the mountain side. The mountains nearest the reduction works is a mass of various kinds of upheaved rocks in which the mica occurs in pockets, in thin and thick lenses and generally diffused through the rocks in fine particles. The mica is found in diabase rocks, pegmatite, gneiss, hornblende, exotite and quartz. Still other rocks contain the mica in more or less quantity. The schists are probably the most numerous of the mica-bearing rocks. Located in a diminutive valley and almost in the shadow of the principal mountain, is the plant consisting of the reduction works, the manager's residence and the other buildings, such as warehouses and experimental workshops. Much of the mineral is reduced to a powder then sacked for shipment, same as bran or flour. There is also an abundance of sheet mica.

There is a never ending source of surprises in the quarries, in the reduction works and the experimental workshops, for constantly new uses are being found for the mica through experiment; as it lends itself to so many uses. Here Manager Kirtley, assisted by Mr. Allerding, have been storing for exhibition the products of their experiments. Faced brick glazed with the mica, in various colors, is one of the products on exhibition, monuments or tomb-stones are shown in the hard cement of which the mica has been worked that rival the most expensive marble; all manner of flower pots and bases for yards, cement building blocks, picture frames gilded with mica dust of various hues, and numerous other fancy designs. One of the best exhibits is in the door and window frames of the manager's residence, treated to a coat of the gold bronze, sparkling in the sun light as though glazed with gold dust. These and many other products of the experimental shop are to be seen. We saw as fine printers gold bronze powder as any printer should wish, and which Mr. Kirtley said could be put on the market at one-twentieth of the present cost of gold bronze. Also there were signs being painted for business and professional men in distant cities that vie with any gold lettering we have ever seen anywhere. But the uses to which this material can be put to is too numerous to mention in a newspaper article. Suffice it to say that in the building trades in the painter's department, in ornamenting household furniture or yard ornaments and a thousand and one ornamental uses about the home, there is no equal.

I have traveled over all the mineral bearing districts of Texas and of adjoining states but have never found such geological wonders as are to be found here. Nature, in one of its wildest moments, seems to have concentrated its efforts there and produced something which, geologists say has no equal in the world, and to which many scientists have been attracted.

The plant and the entire mica field is owned by the Texas Mica Company, as I understand a New York company associated with Mr. Kirtley. The field is an especially interesting one to the geologist and mineralogists as there are many things of interest in addition to the mica. Many well formed garnets are found, although somewhat discolored by probably volcanic heat, also beautiful samples of agates. But the mica is the principal interest. In all the mines so far found in other parts of the world

five colors of this material is all that is found, but here thirty different colors of the mica occur. This is what makes it adaptable to so many uses. Really it is one of the most valuable of Texas' mineral products and a great future is before it. J. H. Ritchie, Geologist, in Ft. Davis Post.

SAD, SO SAD!

There was a lady from Weehawken, From morning till night she'd be talking, But a slip of her tongue Punctured her lung. At her grave stone folks are now gawkin'.

Would you pick up a dime on the street? Then read the ads in The Enterprise. They guide you to merchants who save you dimes, and dollars, too. When it is worth advertising it is worth having.

To Stop a Cough Quick? take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest-Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trace Salve through the pores of the skin stops a cough. Each remedy is packed in one cartons and the cost of the combined treatment is 50c. Just ask your druggist for HAYES' HEALING HONEY.

Table with 2 columns: Train Number, Destination, and Schedule. Includes Texas & Pacific and Pecos & Santa Fe routes.

A TONIC Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 50c.

Ironized Yeast Brings Marvelous Beauty to Skin

Science Now Proves How Complexion is Quickly Beautified Through the Blood. There is nothing in the world today which is producing such a sensation as this simple discovery! Pick out anyone who has healthy rosy cheeks and a ravishingly beautiful complexion, and you have picked out an individual whose blood,

"Ironized Yeast Has Cleared My Skin Quickly and Gloriously!" is rich with vitamins-and-iron. This recipe of Nature, "Ironized Yeast" is now being used by thousands of men and women with startling, yet perfectly natural, results. It gives you yeast-vitamins-ironized, containing iron in the form in which it exists in the human body. It is not a mere mixture of yeast and iron, but is yeast ironized, which is a substance all by itself. Its usefulness, that great beauty robber, gives way to a life-purity which nothing else on earth can produce. Pimples, blackheads, spots, eruptions, they become practically an impossibility! Rosy cheeks, firmer and younger-looking skin, rose-petal purity, velvety softness—all natural! Imagine your favorite cream and powder. To think of it is lovely. To have it, a modern miracle! Begin taking Ironized Yeast today. There is only one Ironized Yeast in the world, sold by all druggists at \$1.00 a package. Each package contains 40 tablets, each tablet is sealed. They never lose their power. M'd only by Ironized Yeast Co., Atlanta, Ga. Get ready to be supremely happy.

Sold and recommended by all good druggists, such as Pecos Drug Company.

GENERAL JACK AT 62

Just four years from the day he launched his now famous drive of American troops against the Germans in France, Gen. Pershing observed his 62nd birthday at a rose-covered desk in Washington, September 14th. All persons using the rifle range who are either members or not are hereby warned against using same without being accompanied by an officer of the club. This is government property and any one abusing it will be prosecuted to the extent of the law. PECOS CITY RIFLE CLUB, By R. W. RODDY, Secretary, 7-2t

MICA MINES NEAR HOT WELLS

While in Hudspeth county recently the writer visited the famous mica mines fourteen miles southeast of Hot Wells, Texas, and twelve miles south of Van Horn. These mines—or perhaps quarries would be a better name—have been operated for more than ten years. The entire formation of the mica-bearing mountains are one of Texas' greatest natural wonders. Through the courtesy of Mr. George Kirtley, the manager, I had the pleasure of going over and examining the quarries and the plant and Mr. Kirtley explained the process of preparing the crude product for market. While there the company made a large shipment to the eastern market. The material is not only shipped to Dallas, where a considerable amount of the product is used, but also to New York and other eastern markets as well as to Canada and some other foreign markets. At some distant period in the earth's history there was here some mighty cataclysm that upheaved a great mountain, bringing up with it portions of all the sedimentary rocks, and this great mountain mass was filled with this mica. This mass of rocks has been shoved up through the Lower Cretaceous formation, greatly bending and tilting these rocks, the whole forming a series of mountains extending over a mile and covering over 800 acres of land. The mountains tower some 600 to 800 feet above the plains. There are eight

# LET'S ALL PULL TOGETHER!

While the money is coming in to finance the Wheat Guarantee Well it is not coming in as fast as it should and I find it necessary to state that it is my opinion that all who are interested in seeing this well put down will have to come in and help raise the money. Since every cent sent in is to be used in sinking the well, it is obvious that the expenses of the promotion is heavy and since I am personally bearing all this expense I desire to raise the money quickly so that I may stop this expense. Therefore I am asking all who want to see

## THE WHEAT GUARANTEE WELL!

started to send in all the money they can and at once. This cannot be a long, drawn-out affair—the money must be raised quickly and the well started. The sooner the well is started the sooner will you be able to realize on the well and on your property in the Pecos Oil Field.

I feel sure the money will be raised but to insure quick action it will be necessary for everyone interested to get busy. Owing to the fact that money is scarce and times are hard and some are holding back waiting for the other fellow it behooves us all who intend to get in on this proposition to do it now. Fill in the coupon below and send it in with your remittance today.

For the benefit of those who have hesitated to get in on this, I am again stating my proposition. Let me urge you, that if you intend taking shares, to do so now, and let's get the well under way. Read all this ad and get busy. Join me, and let's be the FIRST to bring in a paying well in Pecos.

### ONLY 1,000 SHARES WILL BE SOLD

Each share will represent a one-thousandth interest in the well and lease. More than one share may be purchased but in no event will more than one thousand shares be sold.

EACH SHARE will be Forty-five Dollars, or, One Cent Per Foot, to be paid only one cent per foot as the well is drilled.

### MY GUARANTEE PROPOSITION

You send to the Pecos Valley State Bank, Pecos, Texas, \$45.00 for each share you can purchase. This fund will be held in trust by the bank and paid out only as the well is drilled at the rate of one cent per foot for each share, only upon the sworn statement of the driller that he has actually drilled the number of feet for which he asks payment.

JUDGE J. E. STARLEY WILL BE ATTORNEY FOR THE WHEAT GUARANTEE WELL.

### NO PROMOTION STOCK—EVERY CENT GUARANTEED TO GO INTO DRILLING

Not one cent of this money will be handled by me and I will pay out of my own pocket every cent of the promotion money. All I want is a well. I will put into the bank money for my shares just like you do. The well will be drilled under contract. The Toyah-Bell well has shown the contractor just what to expect so he knows what he can do.

Our success will mean a fortune for each share holder. One well will do that. Think of what five acres did at Mexia with a capitalization of thousands of dollars. Here you will have forty acres with only a capital investment of \$45,000.00.

Are you sure to win? I think so. WHY? Because the Toyah-Bell has proven the existence there of a great oil field. I base my opinion upon what I have seen and the opinion of geologists, drillers and practical oil men. We can't afford to stop or miss this great opportunity—what if Col. Humphreys had stopped when he drilled the discovery well at Mexia. It was his second well that made fortunes and so I am confident it will be with our second well—My Wheat Guarantee Well.

### NOW IS YOUR OPPORTUNITY

Get in on this proposition at once for after the one thousand shares are sold no more subscriptions will be or can be accepted. Fill in the coupon below and mail to the Pecos Valley State Bank, Pecos, Texas, Wheat Well Trust Fund, and your certificate will be issued to you.

J. J. WHEAT, Pecos, Texas.

Pecos Valley State Bank .....1922.  
Pecos, Texas.

Enclosed find ..... for \$..... in payment for ..... shares at \$45.00 per share in the Wheat Guarantee Well and forty acres of leases, the well to be drilled in Loving County, Texas, near The Toyah-Bell Well. It is understood and agreed that this money is to be held in trust by you and paid to the drillers of the Wheat Guarantee Well, at the rate of one cent per foot per share of stock purchased by me only upon the sworn statement of the driller that the foot for which he asks payment has actually been drilled. It is understood and agreed that in no event is this money to be paid until such affidavit is tendered in writing and that I am to pay only one cent per foot per share for actual footage drilled. You are to issue me receipt at once for all shares paid for herewith.

Signed .....

The money with which to put down the Wheat Guarantee Well is coming in slowly and while Mr. Wheat feels sure that the money will be raised, it is the opinion of the editor that if the money is raised it will take the united effort of every-one interested in that section to put it over.

Next week some one hundred Methodist preachers of New Mexico and West Texas will gather at Pecos and remain with us for several days. Pecos should have a general clean-up day in order that our little city may be presentable.

The News editor would like to see Coleman county join in the movement being put forth in several West Texas counties to get more milk cows and purebred poultry on the farms. Cotton is the main money crop in Coleman county, but cotton and credit generally goes together and makes a bad combination when a short cotton crop is made especially when the price is also short.

No place under the sun affords better conditions for profitable dairying than does the Pecos and Yah Valleys. We have the ideal climate and produce the best alfalfa grown—both of which are very necessary to the dairy business.

CHARITY BY THE MILLION The Charity Organization Society of New York has not been slow to make capital out of the recent exposure of the beggar on wheels whose chauffeur's financial troubles, led to his exposure as a man who maintained an expensive suite in one of the New York hotels, and who, when the day's work of begging was done, strapped on a pair of aluminum legs, donned his evening clothes, and made merry in the bright lights of Broadway.

It appears, for years the man raked in an average of \$100 a day, dropped into his tin can by sympathetic pedestrians who saw him selling pencils.

has several times been shown to be posterously high and its notorious wood yard and laundry still remain a stench in the nostrils of many persons whose memories are acute.

Its secret black list, distributes "confidentially" among those who support the organization also has left none too good a taste in the mouths of the people.

It is now being pointed out that the police should put an end to the begging pest.

It is known there are at least 5,000 beggars in New York not one of whom takes in less than \$15 a day.

NATIONAL BUDGET ON TRIAL The new director of the budget, General Lord, has before him a standard of accomplishment the administration points to with an excusable feeling of pride.

The books for the fiscal year 1922 recently closed show the year began with a prospective deficit of \$24,468,703 and ended with a surplus of receipts over expenditures of \$313,801,651.

The national debt has been reduced \$1,041,968,844, and a balance of \$272,105,512 remains in the general fund.

It is only fair to say, however, that Secretary Mellon clearly pointed out some months ago that much of the reduction of expenditure is merely a postponement of payments due to a shift in the government's financial operations.

Clam analysis of the results of the budget system do not warrant more than an indication in its favor, though certainly nothing can be said against it. The system has not yet been put to the test, proof of its efficacy being impossible to date.

With a more complete knowledge of the resources of the government now known and a closer tabulation on expenditures that are elastic, the likelihood is that the new budget which is now in hand will be much more accurate than its predecessor.

When General Lord is ready to report, the public will be in a better position to judge the system and its workings and perhaps to appreciate the ground-work laid by General Dawes.

On its face the budget appears to be working in favor of the American pocket-book.

CORN WHISKY. A Dallas physician states that Corn whisky is not recommended as a preventative for dengue fever. This announcement brings forth further argument that "moonshine" is not a sure cure for all bodily ailments.

Corn whisky is not recommended, except by lusers, for anything. Corn whisky, of the present weight and coarseness, is a poison whose lethal quality is dependent upon the dose. Half a pint taken within half an hour is good for blindness, and a whole pint is good for death.

North Texas wholesale markets are quoting the retail trade No. 1 Prairie Hay at \$18 per ton and Alfalfa at \$23 to \$24. Johnson Grass on this same basis is bringing \$12 to \$14 per ton.

TEXAS MARKET NEWS GIVEN BY RADIO Fruits and Vegetables—Sweet Potatoes: Demand has been good all week for sweet potatoes and the movement of available supplies brisk.

Miscellaneous Shipments: The Texas cantaloupe movement to September 16th this and last year stands at exactly the same figure, 161 cars. The watermelon movement to the date mentioned on Texas has totalled 3,908 cars this year against 4,236 last, and this year's onion crop for the entire State has totalled 4,587 cars, against last year's 4,206 cars.

Poultry, Butter and Eggs: In State markets, hens at the present time are bringing 18 to 19 cents to farmers, roosters 7 to 8 cents and fryers 22 1/2 to 25 cents per pound.

Wholesalers are reported paying \$7.50 to \$8.00 per dozen case for eggs. Tuesday in Chicago, eggs classified as fresh gathered firsts brought 28 to 35 cents pe dozen, with refrigerator first bringing 25 to 26 cents.

Chicago butter prices were carried over to Tuesday and Extras brought 41 cents per pound; standard 37 1/2 cents; firsts 33 1/2 to 40 cents and seconds 31 to 32 cents.

Peanuts: The new crop of peanuts is now beginning to get actively into markets both of the State and Nation. This movement has been delayed somewhat in hopes of a rain which would increase yield.

At the present time in Ft. Worth small lots are reported selling from \$1.00 to \$1.25 per bushel of 30 pounds, with offering of old crop No. 1 Spanish bringing 7 1/2 to 8 cents per pound and No. 2's, 6 3/4 to 7 cents per pound.

Shelled stock of the new crop is being offered markets at 8 cents. In Kansas City, on a somewhat dull market, brokers are selling grocers and commission houses, cleaned Virginia Jumbos for 7 1/2 cents and fancy hand picked stock for 6 to 6 1/4 cents.

No shelled Virginia peanuts were quoted. Brokers sales to salters and confectioners in this market Tuesday were about as follows: No. 1 Spanish peanuts, new stock 8 3/4 cents. No. Virginias 8 3/4 cents.

Grain and Hay: On the basis of delivered Group 3 points, Texas Common Points or Galveston, the following bids and offers were made Monday by the Fort Worth Grain Exchange through its publicity Chairman, G. E. Blowitt:

No. 1 Export Wheat Bids \$1.15; Offers \$1.19; No. 1 Hard Milling Wheat \$1.25 and \$1.30; No. 1 Soft Milling Wheat \$1.27 and \$1.30; No. 2 White Corn, No. 2 Mixed Corn and No. 3 Mixed Corn 78 and 81 cents; No. 2 Red Oats 60 and 65 cents; No. 3 Red Oats 58 and 63 cents; No. 3 White Oats 49 and 52 cents; No. 3 Barley 67 and 69 No. 3 Milo Maize, per cwt. \$2.00 and \$2.09; No. 3 Kaffir corn, per cwt. \$2.00 and \$2.09; No. 3 Kaffir corn, per cwt. \$1.90 and \$1.87; Maize heads, per ton \$25 and \$27; Kaffir heads, per ton \$23 and \$26.

In Kansas City's cash grain market Tuesday No. 2 Hard Winter Wheat bought \$1.02 to \$1.09; No. 2 Red Winter Wheat \$1.10; No. 2 Mixed Corn 58 1/2 cents and No. 2 Yellow Corn 58 1/2 to 60 cents; No. 3 White Oats sold for 39 1/2 to 40 cents.

The closing of futures on this market for this day for wheat was 99 cents and for corn 55 3/4 cents.

North Texas wholesale markets are quoting the retail trade No. 1 Prairie Hay at \$18 per ton and Alfalfa at \$23 to \$24. Johnson Grass on this same basis is bringing \$12 to \$14 per ton.

The Houston market Monday quoted Alfalfa hay around \$26.50 to \$28.00 per ton.

Live Stock: Tuesday's trading in Kansas City was somewhat delayed by the late arrival of many trains. On the whole however, steers were steady to strong with the early top of the heavies around \$11.15.

Best yearlings were bid in at \$11.00; Calves and fat cows were steady to weak, with few vealers above \$10.50. Other classes were generally steady.

In the hog division, trading appeared mostly steady, shippers top was \$10.05 and packers' \$10. 140-160 pounders brought \$9.75 to \$9.95. 170-240 pounders were mostly \$9.85 to \$10.00 with the bulk of the 250-350 pounders bringing \$9.60 to \$9.90.

Packing sows appeared 10 to 25 cents higher with the bulk of the better grades bringing \$9.40 to \$9.75 and the best natives \$9.90.

Lambs, in the sheep lots, appeared steady to 25 cents lower, with the top of the natives around \$13.75. General trading in odd lots of sheep was steady.

Cotton and Cottonseed: As compared with Saturday, Monday's cotton market showed declines of around 25 points in the State, with New Orleans unchanged and New York off from 26 to 40 points. As compared with a year ago, Monday's prices in Texas markets this year lead last year's by from 60 to 80 points.

The Tuesday's market appeared practically unchanged from Monday's with the exception of a decline of 15 points. Houston spot market was \$20.40; Galveston and New Orleans 20.50 and Dallas 19.90. The New York spot market for this day was 21.00.

Cottonseed: The general trend of cottonseed markets of the State the past week was upward, farmers receiving at the gin from \$24 to \$29 a ton. At Troy, Saturday farmers received \$28 a ton for seed which on an f. o. b. basis was quoted out at \$31. Cleburne was reported between \$28.50 and \$31.50 with Sherman, Weatherford, Wichita Falls, Texarkana and Tyler around \$24. Corpus Christi all week was practically steady around \$28 to farmers with oil mills paying for the same seed \$31 toward the close of the week.

AUTOMOBILE OWNERS I am associated with J. A. Hardy & Son, Auto Mechanic. Can solve and repair any make of generator or wire trouble. Work guaranteed or money refunded. G. 24 J. T. HUDGINS

T. & P. PLACES ORDER FOR SIXTEEN ENGINES

The following item of news taken from the Fort Worth Star-Telegram shows the T. & P. Railway is still on deck and that the management proposes to continue to operate the trains regardless of the strike. Five of these 4-6-2 type passenger locomotives will be placed on the Toyah-El Paso division, according to information given out by C. D. Johnson, general passenger agent of El Paso.

The article in the Star-Telegram follows: Sixteen new locomotives, to cost around \$1,000,000, have been ordered by Receiver J. L. Lancaster of the Texas and Pacific Railway, for early delivery. Eight are "Government type" 6-wheel switch engines and eight are 4-6-2 type passenger engines. The order was placed with the American Locomotive Company through W. D. Jenkins of Dallas and Houston, Texas representative.

The Pacific 4-6-2 type passenger loco-

CLASSIFIED

FOR SALE.

WHEAT FOR SALE—The very best for seed and chicken feed—2 cents per pound \$9.00. Apply V. Zuber, Saragosa, Texas. 7-41\*

FOR SALE—Ford Sedan in good condition or will consider trade on cattle. Inquire at this office. 6-2\*

GATES TIRES The Tire with the Wider, and Thicker Tread What a Pity It Would Be— With 30 percent to 50 percent bigger mileage in a cord tire—now delivered to you for nearly the price of a fabric— What a pity it would be to lose a thousand or two of those extra miles by having the rubber tread wear out, exposing the cords to the bruising jabs of every stone in the road. That's why a wider and thicker tread is especially important in the cord tires—and that's why Gates Super-Tread Cords have trebled in sales the past 60 days. MARSHALL H. PIOR

# Pecos School Notes Of Interest

Clipped From The Whirlwind

## Opening Game of Season With Old Rival

A game between Fort Stockton and Pecos high schools will be staged on the Johnson field September 30. The fray will be the curtain raiser for some of the best games ever staged on the local grid-iron. The Purple and Gold squad will be in good condition by then; if no accidents occur.

The Stockton "gang", from all reports, will be in great fighting shape. Last season our first game was played against them, it resulted in a scoreless tie. This year each team is going in the game with the determination of getting "first blood."

In justice to your team every one if the first game is won it means a whole lot to a team.

The manager is trying to get games with Midland, our old rival, she took two games from us last fall. Word has come from their camp that they have as good a team as last year.

A game with Big Spring is expected as we did not get a return game last year.

Odessa has already asked for two games, they went down in two games with Pecos last year, so they will come for revenge, be on hand and see something good.

Sul Ross Normal, of Alpine will also be on our schedule for the first time in the history of football. They intend to have a winning team; so it is up to Pecos to wreck their hopes.

Two games with Artesia will be booked if possible. Artesia is also a new rival. The game that will do the team the most good to capture is a game with the second team of the New Mexico Military Institute of Roswell. If this game can be arranged it will be played at Carlsbad.

If such a schedule can be arranged the football fans will see some real gam's this fall. Do you want a good team and do you want to see the games mentioned? Then, you will have to render your help, attend each game and boost your team.

## Francis R. Warn Elected President

Thursday morning the High School elected the officers for the coming year. It was also voted that the "Keeping Up Club" be reinstated in the High School.

Francis R. Warn who graduated in May was elected President of the High School. He should, with the help of each student, make the High School a great success this year.

Miss Opal Biggs was elected as Secretary of the High School. She is a member of the Junior class, and promises to fill her position in a most creditable manner.

Miss Virginia Runnels will perform at the piano during the coming year. She is a candidate for graduation this year.

The election of yell leader could not have been more successful, Miss Callie DeRacy and Bill Dean were selected to hold that position this year. So with a pair of leaders like this, some real pep should be sprinkled over the school this year.

## Candidates Out For Football

Each afternoon you may find the candidates for the 1922 foot-ball team out on the Johnson field whipping into shape. From the looks of the squad the high school will be represented by a fine team. Although the team will weigh less than the teams in the past, it will be much faster.

Members of last years team that have returned to fill a berth this season are: Capt. Wheat, Edmund Caroline, W. D. Cowan, Raymond Norwood, Dick Hefner, Francis Warn, Adam Ross and Pat Moran.

Members of last years second string who intend to make the first string are: Beau Eisenwine, Ted Rhulen, John Wilson, Heard Reynolds, and Charles Hudson. Ben Krauskopf and George Kessler are also determined to make their letter this year.

The Johnson field is in good condition this fall, while it may be a little faster than it was last season, so with the fast team that is developing each afternoon, some snappy games should be exhibited on the local grid-iron.

## HIGH SCHOOL LOOKS GOOD; LARGE ENROLLMENT

The Pecos public schools has at the present time one of the largest enrollment that has ever been recorded in the history of the institution. This year is also intended to be the greatest. The students must do their part.

The High School enrollment reaches one hundred and thirty, fifteen more than the first day of school. Never at any time has the High School been so large, the seating capacity has long been filled, the corners are now full.

The grammar grades show an increase in their enrollment, they

are now one hundred and forty-five strong. They have the distinction of having the largest enrollment of any other department.

The primary department has one hundred and twenty-five registered seeking an education. There is only three teachers in charge of this department. So any of you mothers that have a great deal of trouble with your few children, just think of these three teachers and then wonder how they stayed out of the "bug house." Don't tell me it isn't a task performing the duties of a teacher.

## Thirty-four Sophomores at Meeting

The Sophomore class held a meeting on Sept. 13th, 1922, the purpose of which was to organize for the coming year. Thirty-four members were present at this meeting.

The following officers were elected: President, Cecil Wheat; Vice-President, Jimmy Caroline; Secretary and Treasurer, Bessie Reynolds; members of students council, William Dean and Marjorie Thurston; and class teacher, Miss Mary Nelson. The class colors selected were, green and gold, and for our class motto we selected, "Finish what we start."

The present freshman class is so come but never did we act as they do.

## Program for Keeping Up Club For Oct. 8

1. Song.
2. Introduction—Talk by President of high school discussing the Keeping Up Club from two points—Social and educational.
3. Quartet: Misses Estelle Hicks, Mattie Lee Wilson, Zelma Childers, and Josie Prewitt.
4. Future prospects of a high school orchestra—Mr. Blount.
5. Piano Solo—Virginia Runnels.
6. Debate: Resolved: That the Kluk Klu Kluk should not be allowed—Jo. Brown.
7. Declaration—Mary Magee.
8. Reading—Eleanor Biggs.
9. Four round boxing match. Baiting Wheat Vs. Shamrock Moran. Referee: Suanzal Ross
10. Conclusion—Song.

## Freshman Class Elect Officers

On Wednesday of last week the Freshman class met at the English period and elected officers for the coming year.

Those elected were: President, Gordon Stine; Vice-President, Betty Harrison; Secretary, Nora Krauskopf. Sweet peas were decided upon as the class flower and old Rose and Gold as our class colors. The motto has not yet been decided upon.

After selecting Mr. Joe Bob Humphrey as class teacher the meeting adjourned, there being no more business to attend to.

The first few days of school the Freshman class did not know how to go to their classes without noise and pushing; we could not decide what subjects to take and after deciding everyone took the same subjects which caused the teachers a lot of unnecessary trouble and work, but now we know differently and better which we will now continue to do.

## Class of '23 Organizes

The Senior class met last Wednesday morning to organize the class and elect officers for the following year.

There are at present twenty members in the class, ten boys and ten girls. We are proud of such a large number in the class, and that there is an even number of boys and girls.

Raymond Norwood was elected President; Mattie Lee Wilson, Secretary and treasurer, and Mrs. J. W. Brooks class teacher. Adam Ross and Fern Biggs were chosen to represent the class on the student council. The class colors are purple and white, with white carnations for the class flower.

The motto for the class is: "We finish to begin."

The sweaters have been ordered through the Pecos Mercantile and we hope to get them before cold weather.

With the officers above mentioned in charge, we expect to make this one of the best years in our high school career, and one the P. H. S. will feel proud of.

## Town Team Swamps High School Squad

The first football game of the season was made a thing of the past Friday evening. The High school gridgers played a very fine game; but they lacked the needed tonnage against the heavy crew from town.

The whole game was cleanly played, just a big and little brother affair. Practice is what was sought.

Referee Johnson must be recommended on his services. The game was handled in a very creditable

manner.

Capt. Wheat lost the toss, so the city lads took the choice of goals and kicked off. Fullback White put the pig skin into action. Moran of the school team received the ball and was downed, injuring his shoulder.

Wheat smashed through the line for a four yard gain. A forward pass was attempted, but White intercepted the pass and that changed the tune.

W. Hefner was flung against the line with a gain of a couple of yards. White was chased around right end, only to be downed for a loss. Cavett hit the line for three yards to his credit. The next moment the flea-foot halfback Bell was going down the field, when he was finally checked he had made first down.

White pierced the line for five yards. Hefner made two attempts to put the ball on your side but failed. Bell did his stuff and pushed the leather over for the first counter.

Again the toe of White met with the pig skin which sailed into the arms of Ross, a pretty return of ten yards was made. Caroline plowed through the line for a three yard gain. Then a fumble put the oval in the possession of the townites. The shrill whistle of the time-keeper ended the first quarter. Town team 6, Hi 0.

The next quarter was played in a very snappy manner. A touchdown was added by W. Hefner, but again they failed to collect their extra point.

The High School boys now started to playing and held the heavies till the end. Some of the new men out for the squad made a good showing. Another week of good snappy practice will develop the team so that they will be able to defeat Ft. Scott. If the older gent's are able to recuperate over this spasm, another game will be staged in the near future.

# EFFICIENCY

The word efficiency is yet in its infancy. Only within the last few years has it been used to any extent. It was first applied when it was discovered that a particular workman could do a job, not only better than the average man, but could do it in less time with a greater degree of accuracy.

Skill, speed and accuracy are responsible for the coining of this word efficiency, and they are made possible through the employment of the latest types of machinery.

## TWO WAYS OF DOING A THING

### THE NEW WAY

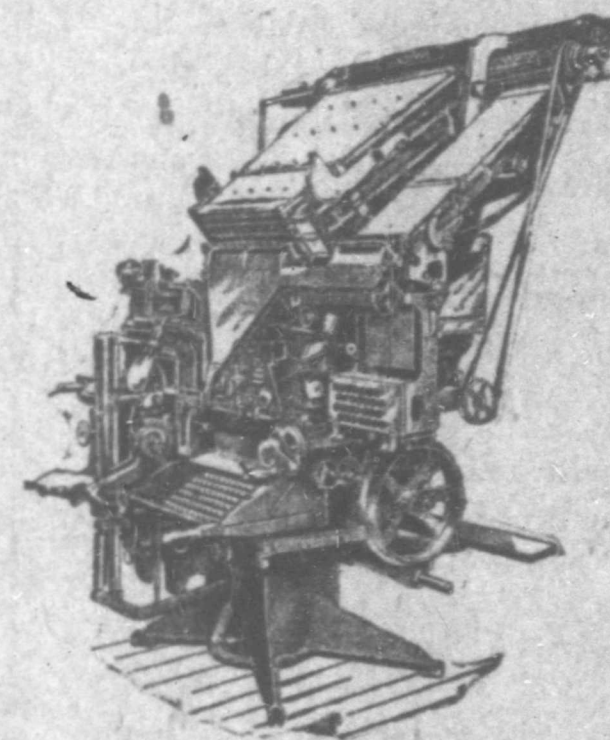

A \$6,000 Linotype machine that casts new type for every job and advertisement.

Does the work of four men.

Equipped with 32 different faces of type that can be changed on a minute's notice.

Also casts ornamental printing material, rule, border, etc.

Metal saw that cuts machine products into any design and measure.

LATEST MODEL MACHINE MADE

### THE OLD WAY

When printing was done by hand it required six times as much time as by machinery.

Type was laid in cases, became worn, the printing surface scratched; rules were bent, nicked and battered and in a few months the office could not possibly do first-class work. Neither could they afford to buy new.

The Linotype has done away with this method.

## REASONS FOR QUALITY PRINTING

THE two Linotype machines in THE ENTERPRISE office are capable of handling any work that falls to them in the shortest possible time—with no exceptions. The new Model 14 is one of the best equipped machines in the State—this is fact.

Without the machines we would have to employ four times as much labor, our floor space increased and additional rent; we could not give you new material with every job; our methods of production much slower, but everyone knows the difference between machine and hand work—it is a short story: Either the hand work costs you much more or the job is done in a haphazard way to meet the low price of the machine work.

THE ENTERPRISE has the only machines in the county and the best skilled workmen on the market.

# "Gold! Gold!"

Back in the '40's it took months for the thrilling news of California's gold strike to cross the continent. Today, a few hours after so important a discovery, the entire story would be known to newspaper readers through the country.

In the early days, news spread by word of mouth. Today, the telegraph and telephone speed the message in to the newspaper office, it is rushed into type, the paper is printed and shortly the news becomes public property.

There are two kinds of news in the paper. One consists of the affairs of other people; their saying, doing and what they're going to do; things that have happened, may happen and didn't happen.

The other kind of news is about your affairs. That's the part you'll find in the advertisements. There's a lot of valuable news there about things you want or will want; things that have to do with your own personal comfort, convenience and every-day efficiency.

Every advertisement carries a personal message to some one. Many advertisements carry messages of vital interest or value to you.

That's why you can't afford to miss the advertisements.

Read them. The advertisements are decidedly valuable to you.

# Richard Lloyd Jones says

WE NEED MORE BURBANKS

The boy in school fifty years ago looking upon the map of the United States in his geography found the vast territory between the Pacific Coast states and the Missouri River designated as the Great American Desert.

Since that time the surveyor has clearly defined the state lines, and into these states hundreds of thousands of brave people have pioneered.

There today great cities stand, sky scrapers pierce the sky, the hammer is heard, business thrives, the parched lands are kissed with irrigation ditches that drain the glaciers' melting flow and spread bounty and prosperity into the lap of an aggressively progressive people.

On that desert land the great Burbank lives. From out that hopeless wilderness he brought forth fruits that have been the wonder of the world.

Daniel Webster was a wise man. But amazement would make him wiser were he alive today. On the floor of the United States Senate he opposed the acquisition of the Oregon territory because he said, "You cannot roll a wheel out there."

Soon after Daniel made this declaration a fellow by the name of Whitman rolled a wheel out there. On his wheel Whitman laid a load of apple tree roots. With them he planted out there what have grown to be the greatest apple orchards in the world.

The changed map has taught anew the old lesson that all things are possible to the men who deny defeat to the men who dare.

Twenty years ago we used to speak of undeveloped sections as "the last west." As we have closed in on these unsettled places we found the new east.

While developing ways to fertile fields in what was once the desolate desert we learned much. Now abandoned farms in New York and New England are attracting the college trained agriculturist of the West. The Carolinas and the Southern States about them are revealing farms that lure the Iowan, than whom there is no better farmer known. Florida, long looked upon as a tangled mass of semi-tropical verdure, is proving to be a matchless garden spot. Good land is everywhere.

Our agricultural colleges are turning out engineers to irrigate and drain; chemists who teach us how to replenish the soil; agronomists who tell us how to grow better grain and captains of commerce who show us how to make a better product-pack and find a better market. These colleges are changing farming from drudgery to a scientific profession.

Lincoln said, "I always plucked the thistle and planted a flower wherever I thought a flower would grow."

Give us more Burbanks; give us more scientifically trained men, and we have land enough in the United States to feed and clothe all the people in the whole wide world.

# FARM PROSPERITY HINGES ON KEEPING WORLD MARKS OPEN

Special to The Enterprise  
By ROBERT FULLER  
New York, Sept. 28.—Otto H. Kahn, International bank and leader in world finances, is back in his New York offices at Kuhn, Loeb & Co., after an extended stay in Europe for a close study of conditions there. His summary is positive when he says:  
"The permanent prosperity of our American farmers depends upon establishing an even keel in world affairs and keeping world farm markets open for our surplus because we have no other."  
Of the Central European nations, Mr. Kahn says:  
"It is appalling to contemplate, especially, the dreadful conditions among the middle classes, their semi-starvation, and, in some cases, actual starvation."  
"In a snarl of animosities, jealousies and apprehensions they need and ask our cooperation, less even in a material sense than as helpful counselors and guides. It seems to me both our duty and our advantage to heed that call. In all modesty, I would venture to say, in a constructive sense, that we could do this."  
"We should deal in a large visioned and liberal manner with the debts due us from the Allied nations, discriminating between war-making loans and those made after the Armistice. I would not relinquish any of our claims as a free gift, but only in consideration of measures leading to mitigation of conditions keeping Europe in turmoil."  
Such a "bargain," the banker asserted, would be a good and profitable investment, resulting in securing not only a moral asset for America, but would be a distinct benefit to us.  
The purchasing power of the European market, he holds, may not for a time be indispensable to our manufacturers, but it is to the prosperity of our farmers, because they have no other market for their surplus.  
Regarding the United States, Mr. Kahn concluded:  
"An era of great prosperity and beneficial progress is within our grasp. The one cloud on the horizon of our contentment and well being has been the disturbed relationship between capital and labor."  
"There is no short cut to the total elimination of such distressing strife, but we must build our hope on the slow but sure remedy of growing reciprocal observance of the golden rule, spirit and practice of give and take, consideration for the rights of the public and a sincere and permanent effort at mutual forbearance and conciliation."

**WELL ACQUAINTED**  
A lawyer had a somewhat difficult witness. He finally asked if the witness was acquainted with any of the men on the jury.  
"Yes, sir," replied the witness, "more than half of them."  
"Are you willing to swear that you know more than half of them?" demanded the lawyer.  
"Well, if it comes to that, I'm willing to swear that I know more than all of them put together."—Ex.

**COLLEGE BOYS ARRESTED—SEND THREATENING LETTERS**  
The following from the Brownwood Semi-Weekly News shows what association will do, whether it be in company of bad boys or the constant association of bad and degrading pictures. While it is not believed that any of our boys are likely to be caught up under similar conditions it is not amiss that they should know the evils of bad company. The article follows:  
A sensation was created in Brownwood late Tuesday by the arrest of two prominent college boys on a charge of attempting to extort money from a citizen through the medium of threatening letters.  
About six o'clock Tuesday Chief of Police J. M. Perry arrested Roy White and John R. Dumenil on a warrant charging them with the authorship of two threatening letters sent by mail to Mr. Cameron Marshall, dean of the school of music of Howard Payne College.  
The letter it is learned, demanded money from Mr. Marshall on the pain of bodily injury.  
The two young men, on being arrested, were taken before the Justice of the Peace, where they waived examination and gave bond in the sum of \$500 each.  
It is learned that both young men admitted their connection with the offense with which they are charged.  
As the letters were sent thru the United States mail it is understood that the offense is against the Federal government, being an attempt to use the mails for fraudulent purposes, and that the cases will be transferred to the Federal court.  
It is understood that Mr. Marshall received the two threatening letters at different intervals, that he turned each letter as received over to the police department, and that investigation by police led to the arrest of White and Dumenil.  
Roy White was a leading player on last year's Daniel Baker football and basketball teams. He is popular in college circles and was held generally in high esteem. His connection with this affair is a matter of much regret.  
Young Dumenil is the son of the oil operator who lost his life a few years ago in an auto accident three miles north of the city. He was recently a high school graduate and a young man generally popular among his associates.  
It may be said without reserve that this blight brought upon the lives of two promising boys has its origin in the influences arising from the growth of Klans. When a secret society can spring up and defy the law and make a spectacular display of its contempt for the courts and sacred rights of individual citizenship then it is easy to conceive the result of this example of petty tyranny and persecution upon the minds of the youth of the country, and the evil example it leaves to be seen here and elsewhere.

**LITERAL LEONARD**  
They were eloping.  
They stopped the car and started to get out in front of the minister's house.  
"Wait a minute, darling," said the eloping swain. "This is not the right place, after all."  
"Why?" purred the one, and only one.  
"See that sign. It says—no hitching here."

**THIS PEDDLER WAS NOT PREPARED TO DIE**  
Not long ago a Baptist missionary was driving along in a certain community in West Texas, the sun had gone down behind the western slopes and the mantle of darkness was over-spreading the western plains and in a kind of an out of the way place, and very lonesome like, he overtook an Italian peddler, on foot with his pack on his back. And in the goodness of his heart, he asked the peddler to ride. The invitation was accepted, and so he pitched his merchandise in the rear end of the jitney, and took his seat besides the divine and after the usual preliminaries about the weather, how hot and dry it was, the missionary turned and looked the peddler in the face and said to him, my Brother, are you prepared to die? In answer to that query, the Italian gave a scream and jumped head foremost out of jitney, skidded under the wire fence and out across the pasture into the darkness of night. The missionary is still holding his pack of merchandise and still ready and ever willing to explain to him the plan of salvation.—Colorado Record.

**THAT'S SERVICE**  
"Waiter!" yelled the angry customer, "these apples are not fit for a hog to eat!"  
"M' sorry, sir," replied the civil man with a towel on his arm. "If you will wait just a minute I will get you some that are, sir."

**FOURTH BROWN CHAMP**  
Pancho Villa is our first brown-skinned ring champion, the little Filipino flyweight winning the title by knocking out Champ Johnnie Huff at Brooklyn. Villa is not content with the 105 pound title. He now wants to fight Champ Joe Lynch for the 112 pound title.

**CALOMEL SALIVATES AND LOOSENS TEETH**  
The Very Next Dose Of This Treacherous Drug May Start Trouble.  
You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.  
If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.  
Don't take calomel! It makes you sick the next day; it looses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

**THE GUINNEE TONIC DOES NOT AFFECT THE HEAD**  
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 30c.

**\$2.50 PER YEAR.**  
The Sunday edition of the El Paso Herald which contains 8 full pages of comics, 6 of which are in 4 colors; 2 pages of "Herald Junior" for boys and girls, and 2 pages of magazine features, together with 24 pages of news and other good reading matter, is now sold to mail subscribers at \$2.50 per year.  
Every ranchman and every household in the Pecos Valley ought to have the big Sunday El Paso Herald, the greatest newspaper value for the money in the southwest.  
No Worms in a Healthy Child  
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

**DEATH OF AN AGED CITIZEN**  
John Jones, a resident of Carlsbad for eight years and a man about 82 years old died Wednesday night of disease incident to old age, at the home of his daughter, Mrs. Jim Dillahunty, in South Carlsbad.  
"Grandpa" had been sick for several years, but his last illness was only of eight weeks duration. He was converted under the ministry of Rev. B. L. Nance, while the latter was assisting in a meeting held here three years ago, and died in the faith of the Gospel.  
Besides Mrs. Dillahunty and Wiley Jones of Wichita Falls, he has two sons, and a daughter living, some in Oklahoma and others in Texas, who were unable to attend the funeral. The services were conducted at the grave side in City Cemetery, Rev. Ira Harrison officiating.  
"Grandpa" was conscious until the very close of life; a short time before passing calling his sister, he asked her to again kneel by his bed and pray which she did, and his spirit went out on the wings of prayer, to the God whom he had loved and trusted. Sympathy is extended to the bereaved relatives and especially the aged wife who survives him.—Carlsbad Current.  
The Dillahunty's are well known to many Reeves county citizens who will sympathize with them in their bereavement.

CITATION BY PUBLICATION.

The State of Texas, To the Sheriff or any Constable of Reeves County—Greeting: You are hereby commanded to summon Alfred Tinsley, E. F. Duncanson, L. G. Duncanson, Alfred Duncanson, Florence Livingston, C. C. Benson, Roy D. Barnum, E. H. Archer, W. S. Yates, E. Berry, J. S. Harvey, O. J. Ruckman, M. C. Cowart, O. O. Ringold, J. G. Nagin, L. H. Johnson, J. Russell Terhune, A. B. Clair, D. J. Brady, I. N. Glover and S. E. Johnson as defendants, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Reeves County, to be holden at the Court House thereof, in Pecos, Texas, on the third Monday in November, 1922, the same being the 29th day of November, 1922, then and there to answer a petition filed in said Court on the 29th day of June, 1922, in a suit numbered on the Docket of said Court No. 2248 wherein A. S. Chapman, P. C. Chapman, A. B. Reese, D. S. Jones, Ed. Jones, S. T. Jones, Hy. Frazer, E. M. McHenry, E. M. Purcell, May Daisy P. Wright a feme sole, and Mrs. C. E. Bew a feme sole, are plaintiffs, and The Sunshine Oil Corporation, Alfred Tinsley, Jan. B. Howard, E. F. Duncanson, L. G. Duncanson, Alfred Duncanson, Florence Livingston, a feme sole, G. E. Benson, Roy D. Barnum, E. H. Archer, W. S. Yates, E. Berry, J. S. Harvey, D. J. Ruckman, M. C. Cowart, D. O. Ringold, J. S. Nagin, L. H. Johnson, J. Russell Terhune, A. B. Clair, D. J. Brady, I. N. Glover and S. E. Johnson are defendants, and said petition alleging that on the 29th day of May, 1921, the defendants, John B. Howard and Alfred Tinsley entered into a written agreement with W. M. Johnson of Havasack, New Jersey, by the terms of which said W. M. Johnson, in consideration of the sum of \$100,000, all in cash, to the order of Section 17, Block 2, H. & G. N. R. Co. Survey, Reeves County, Texas, conveyed to said defendants, Tinsley and Howard, all the oil, gas, coal and other minerals in and under the land therein described, including said section 17, subject however to the reservation by said W. M. Johnson of certain royalties in case of production of oil, gas or other mineral, and further providing that it operations for the drilling of an oil or gas well be not begun on the land described therein within one year from the date of said lease, then said agreement shall be forfeited as to both parties unless the lessee or their successors or assigns shall pay to the lessor on or before each of the anniversaries of said lease according to the date thereof, the per cent for the period operations are delayed, but such a royalty cannot be maintained by such payments for a greater delay than three years without the written consent of the lessor, payments as provided in said lease shall be deemed complete, when made or tendered by a deposit of the amount of the credit of the lessor in the Austin National Bank, Austin, Texas, and further providing that if said lessees shall sink a well and discover oil, gas or other minerals within the limit of time provided in paragraph 4, then said instrument shall be in full force and effect so long as minerals are found and produced in paying quantities.

SECOND. That in said instrument the said W. M. Johnson was designated as lessor and the defendants, Howard and Tinsley as lessees. That said instrument and conveyance include the following lands: Sections 31, 33, 35, 37, 39, all in Block 1; Sections 11, 13, 15, 17, in Block 2; Sections 45, 47, 49, 51, 53, 55, and 57 of Section 45, all in Block 4; the W 1/2 of Section 37, 43, 45, and 47, all in Block 5, all in the H. & G. N. R. Co. Survey, Reeves County, Texas.

THIRD. That plaintiffs are the owners by mesne conveyance of the right, title and interest of the said W. M. Johnson in and to said section 17, Block 2.

H. & G. N. RY. LANDS FOR SALE IN REEVES COUNTY

Surveys Nos. 45, 47, 49, 51, 53, E. half of 55, and 57, in Block 4; and Nos. 45; 47 and W. half of 51 in Block 5.  
The surveys in these blocks are situated from 1 to 2 miles from Pecos City, in the arvidian belt of the Pecos River country and will be sold only in whole sections.  
Also, surveys No. 49 in Block 6 and Nos. 9, 13 and 15 in Block 7.  
Also, surveys Nos. 1, 3, and 5, fronting on the Pecos River, in Reeves county, and Nos. 13 (a str. survey) Pecos county.  
Also 12 surveys in block 11 and 3 surveys in block 12. None of these are str. lands. All are in Pecos county.  
All these lands are under lease for oil, gas and mineral purposes and any sale of same will be made subject to such lease.  
J. C. LOVE of Pecos is agent for the sale of all these lands situated in Reeves County and application should be made to him for the same.  
There is no local agent for the sale of the lands in Pecos County, and parties desiring to purchase any of same should apply to the undersigned.

THE PECOS ENTERPRISE

PERSONAL

Chas Fitzgerald was on the sick list the forepart of the week.

Richard Lynn went over to Toyah Thursday for a short visit with friends there.

Miss Kate Stapp of Nevada, Mo., arrived Wednesday for a visit to her sister, Mrs. J. E. Smith.

Milton Eudaly, prominent Grandfalls citizen, was a business visitor in Pecos Wednesday of this week.

Wilburn Ward arrived home this week from Arizona for a visit to his mother, Mrs. Mary Ward.

Mr. and Mrs. J. J. Pope of Toyah were in Pecos Wednesday, the guests of their niece, Mrs. W. M. Garlick.

Mac Camp was down from El Paso and Tom Camp in from the ranch the early part of the week transacting business.

Will Eudaly, who is doing engineering for the roads of the highway system, was a Pecos visitor for a day or so this week.

Sheriff E. B. Kiser has been on the sick list this week and confined to his room. He is reported as improving this morning.

County Surveyor A. M. Randolph who has been seriously ill for several days was much improved this morning.

W. G. Smith left the early part of the week for Shreveport, La., after a visit for several days to his mother, Mrs. I. E. Smith, who is on the way to recovery.

W. D. Randolph came in from Balcones Wednesday and will stay with his mother while awaiting the arrival of his son, Isa Earl, from Oklahoma Friday.

Mr. and Mrs. W. M. Day are the happy parents of a ten pound son, born to them September 27, christened Edsel Knox. All concerned are doing nicely.

Mrs. Maggie Mattock came in from the Imperial Valley in California this week for a visit with the family of Brawley Oats, Mrs. Mattock being a niece of Brawley.

Chas Kindall, wife and mother, expect to leave tomorrow for Los Angeles, California, where they will remain until an oil well is developed in the Pecos field.

Mrs. I. E. Smith, who has been seriously ill for several weeks, is greatly improved and in a fair way to recovery. This news will delight the many friends of Mrs. Smith and the doctor.

Preaching Elder J. C. Jones of the Methodist church was here Saturday afternoon and Sunday and on Sunday morning preached a fine sermon to the Methodist congregation.

Mrs. W. T. H. Baker after a most delightful visit to her sons and their families, John Baker of Pecos and Bob Baker of Saragosa, left this week for her home at Mineral Wells.

Pete Hollebeke, Sr., who lives under the shadow of old Mount Guadalupe, the highest mountain east of New Mexico, piercing the clouds at an elevation of more than nine thousand five hundred feet is in Pecos this week visiting his sons.

Jim Hicks this week loaded his belongings onto his wagon and came in from the ranch where his wife and son will spend the school year. They were looking for a residence in which to move their belongings Monday. Jim says it is very dry in his section of the county.

J. J. Pope of Toyah was a business visitor in Pecos Wednesday. Mr. Pope is one of Toyah's best citizens and one of the old residents of that town who still commands the esteem of the citizen of the entire county by his honesty and upright living. He is running his rooming house in days of yore and getting by.

W. R. McDermott came in Wednesday morning for a visit with his daughter. He had been visiting relatives at Stephenville and Big Lake just before coming to Pecos and after a few days visit to his daughter here and with his many friends will return to his home at Fort Worth. Mr. McDermott is looking well and happy and talks pleasantly of his visits.

A message from Mrs. J. W. Parker at Anson received this morning, is to the effect that she will return to her home in Pecos Saturday morning after an extended visit to relatives and friends in Anson, Stamford, Stephenville and Hamilton. No woman ever lived in Pecos who has more warm friends than Mrs. Parker, and every one of them will be delighted to learn that she is coming home.

Judge T. B. Anderson, justice of the peace at Barstow, and one of the older citizens of that burg in point of residence, was in Pecos Wednesday shaking hands with friends and looking fine and chipper for a seventy-year-old kid. Mrs. Anderson is still in Mineral Wells and the Enterprise is glad to note that she is improving in health and will more than likely be home again at an early date.

THE CHURCHES

BAPTIST CHURCH

The pastor is at home again and back on the job. He was delighted to find that everything had moved along so well in his absence. The Sunday School reached the two hundred and forty mark in attendance while the pastor was away holding a meeting. This is a fair sample of the church work as a whole. Every department of our work is moving along well.

Sunday marks the beginning of an itinerary of the Pecos Valley Baptist Association. This is in keeping with the all State Motor tour put on by the denomination. While the pastor will be here Sunday morning Rev. Reuben Smith will preach. Rev. Jeff Davis, field secretary for West Texas, will speak at night. Let's give these men a good hearing.

All other services will be as usual. Remember if you are not in a Sunday School a warm welcome awaits you at our church. We have a class that fits you.

The pastor hopes to meet a big crowd of men at the men's class Sunday morning. Be there.

J. M. GARNER, Pastor.

THE PRESBYTERIAN CHURCH

All of the regular services will be held at the Presbyterian church next Sunday.

Sunday School at 9:45.  
Morning Worship at 11:00.  
Christian Endeavor at 7:00.  
Evening Worship at 8:00.

The revival has just closed, and we feel that we have been greatly benefitted by it in that we as a church have been revived and strengthened in the faith. So let us not get back in the old ruts again. If we get back into the habit of staying away from church we can very easily lose all that we have gained through the meeting. Therefore let us get into the harness and put into practice the things which we have learned during the meeting.

Special attention should be given to the mid-week prayer services. We have begun a study of the Confession of Faith and Church Doctrine. We are very anxious that a great number will meet with us so that we may study together what is our position in regard to the fundamental truth of the Bible. Every Presbyterian in Pecos should come to these services, and take advantage of this opportunity to learn about the doctrines of the church of which you are a member.

LOCAL CHURCH CLOSES YEAR.

Next Sunday will conclude the first year of my pastorate of the Pecos Methodist church.

During the year all departments of the church have functioned with fair success. There has been added to the young people's organizations an intermediate Epworth League; while the senior League has had a record breaking attendance and interest.

The Woman's Missionary Society has done splendid work and looks the future in the face with courage and hopefulness.

The Sunday School, with compiled figures of attendance by monthly averages for twelve years, shows that fourteen more have attended on an average this year than during any other year in the history of the church. It has issued to it and its friends thirty-four teacher training credits.

To God is due the credit for all that is worth while in every department and I take pleasure in so acknowledging here and now.

But what I started to say is that next Sunday will close the preaching services of the year and I would be glad to have all members, and all friends not attending some other church, be present. Let us come praying for a good day in His name.

Added to the fact that this is the closing day of the year's ministry it is also promotion day in Sunday School and everybody should attend. It begins promptly at nine-forty-five. Come.

L. L. THURSTON, Pastor.

C. W. Tudor was thrown from his horse at the Pawkett place, three miles southwest of Pecos last Saturday, and sustained a broken collar bone and severe bruises to his left side. While the wounds are very painful, they are not considered serious. Mr. Tudor was on his way to his ranch and had stopped at the Pawkett place to look after some cattle he has there. The horse he was riding stepped on some chicken wire, became frightened and began pitching. He bucked through a gate and Mr. Tudor was knocked off. While he is confined to his home, he sits up in a chair part of the time, and it is thought he will be able to be out on the streets within a week or ten days.

Attorney Clem Calhoun was in town from his home in El Paso for a day or so the forepart of the week, leaving Wednesday for his home. Mr. Calhoun was formerly a resident of Pecos and a hustling attorney. He states that he is doing well in El Paso and making many friends. Clem will make his mark as an attorney if hard study, close attention to business and hustling will get him to the top. He is a splendid fellow and a good lawyer and has had phenomenal success in his practice.

Ernest Hesse, well known carpenter and contractor, will probably accept a position on one of the railroads running into El Paso in a short time. He was a Pecos visitor this week.

Mayor Ben Palmer was a business visitor in El Paso the forepart of the week.

B. P. Van Horn was over from Toyah Wednesday driving a new Ford which he had purchased recently. Mr. Van Horn is one of the citizens who has done much toward keeping Toyah on the map all these years.

Mrs. W. T. H. Baker left Wednesday for her home at Mineral Wells after a visit to her sons, John and family in Pecos and Bob and family at Saragosa, and hosts of friends in Pecos and the creek country.

Ray Arnold, who recently sold his alfalfa farm near Saragosa was in town Thursday and called on the Enterprise to extend his subscription and stated that he would move from the county at an early date but had not decided just where he would go. Mr. Arnold is a good citizen and a valuable man to the county and it is with regret that the Enterprise has to announce his removal from our county.

J. W. B. Williams, one of the most prosperous farmers and alfalfa growers of the Toyah Creek country, was in town again this week attending to business matters. Mr. and Mrs. Williams are of the best families of the county and are always selling something as well as buying, and therefore always have plenty to pay for their table needs as well as maintaining a good bank account.

A message Sunday from the Rev. L. G. Haggard to Mrs. Haggard's parents, the Rev. and Mrs. C. S. McCarver, announced the arrival on that morning at their home of a bouncing son and to say that Mr. McCarver was all smiles when relating the story to the Enterprise editor is putting it mildly. The Enterprise family extends congratulations and wishes for the young man a long, happy and prosperous career.

Mrs. C. M. Haughton and children departed last Saturday for Los Angeles, where they go to spend the winter with Mrs. Haughton's parents. Already Charlie is accepting invitations to dine out, and is to be found at the postoffice following the arrival of each incoming mail from the West.—Ward County News. The many Pecos friends of Mrs. Haughton hope they may have a delightful time while away, and will see to it that Charlie is not neglected while in Pecos.

Miss Gussie Richburg, of Pecos, is visiting this week with the family of Mr. and Mrs. J. H. Miller.—Ward County News.

WALLACE CONNALLY GOES TO DALLAS HOSPITAL

Mrs. J. H. Anderson and son, Wallace Connally, left Sunday for Dallas, Texas where Wallace will enter Heller Temple Clinic, a Masonic hospital, and remain for two months.

Wallace Connally was stricken with infantile paralysis at the age of three years. He is now 12 years old. The disease left him badly crippled. It looked for a time that he would have to go on through life in his deformed condition, but through the big heartedness of some of our citizen, his condition was called to the attention of the Masonic order, and Dr. B. H. Carroll, surgeon, will give his attention to the lad's case.

The boy was perfectly willing to undergo the operation necessary, which, we are informed, is of a minor nature, and was to have been performed last Tuesday.

Mrs. Anderson, his mother, will remain in Dallas until her son is convalescent and ready to return home.

It isn't probable that Wallace will ever walk without the aid of crutches. The delay in giving his case attention has been too long, but it is thought by physician that he will be greatly improved, and that when he leaves the institution, he will at least, "walk upright, like a man." The boy is a cheerful little fellow, and we wish him the best of success.

MISS EDNA OTTO SUSTAINS BROKEN LIMB

Miss Edna Otto, eldest daughter of Mr. and Mrs. Ed Otto, while at the home of Mrs. Tidwell on the X ranch fell and broke one of her lower limbs on Monday night of this week. All the men folk were out on the works at the time and she could not be brought in until the following afternoon when the broken limb was so badly swollen that it could not be set.

The family physician has been treating the swollen part since that time in an effort to reduce the swelling so that an examination could be made and the bones set. She was resting nicely today and not complaining of a great deal of pain.

Rev. A. C. Johnson, Charles Fitzgerald, Mrs. Ed Vickers, Mrs. Elmer Johnson, Mrs. J. N. Green, Mrs. Sam-Prewitt and Mrs. Yates and Mrs. Fuller of Barstow constitute a party that will leave tomorrow for Marfa to attend a district meeting of the Christian Church that convenes there the early part of the week.

Ira J. Bell came in this week from Fort Worth and was out to the well this morning.
