PECOS, TEXAS, FRIDAY, NOVEMBER 24, 1922.

\$2.00 PER YEAR, \$1.25 FOR SIX MONTHS.

TOM DUCAN, PROMINENT CITIZEN OF TOYAH, IS DEAD

Sunday morning the community was shocked and saddened beyond expression, when the news was flashed from one to another that their esteemed fellow townsman, Tom Duncan as he was familiarly known, had passed away at about three ten that morning. It was indeed a shock as every one including the immediate family, and left the past few months, that he was improving wonderfully; he had been taken to town a number of times recently, where he had mingled with his old time friends, and he was taking a keen interest in all the affairs of the day. Late Friday evening, however, he had some difficulty in breathing, and Saturday his physician, Dr. Gibbons of Odessa, was summoned, but though every thing humanly possible was done, the difficulty in breathing became more acute Saturday night, and very suddenly the end came. His devoted wife, (of whom it has been said that she holds the record for untiring faithfulness in attendance at his bedside,) and his daughter, Mrs. Albert Tinnin were with him when his spirit took its flight.

Mr. Duncan had been a shut-in for about three years due to an accident which he sustained when he was thrown from a horse. During all this time he was ever the most genial and cheerful host, never losing his fortitude and hope, and made himself truly loved by all with whom he came in contact. Every thing that love and money could do, was done for him, and this together with his indomitable courage, it seemed, would prevail, and he would be restored to health again, but when the Master needs one He calls them and we must submit to His will.

Mr. William Thomas Duncan was an influential pioneer in this section, and none ranked higher in the esteem of his fellows than he. He located here in the early days and his prosperity grew with the growth of the country. He had large ranching interests and has always been an outstanding figure among the stockmen of this section as well as holding important positions, and being a factor in the business world of Toyah. For several years he was vice president of the First National Bank of Toyah and was unusually public spirited and active in the up-building of his home town.

He was born in Mills county, Texas, on the 17th of March, 1869, was the son of James and Elizabeth Jane (Thomas) Duncan both of whom were born in the state of Tennessee, they were among the early pioneers of Texas coming here in the forties, they located in Kaufman county where James Duncan became a rancher; in 1882 he together with his family moved to Jeff Davis county, where he continued in extensive cattle raising business.

Mr. Tom Duncan received the greater part of his education at the schools of Reeves county, which he attended until he was about seventeen years of age. He then began his career in the stock business in Jeff Davis county. He started in a modest way; and the hardships and trials which he encountered soon made a man of him.

In the early days of stockraising in this country, the ranchmen had the open country on which to graze his stock, but as the country developed it was necessary to buy or lease land and this made stock raising a much more costly occupation. With the energy and determination that has always been a characteristic of Mr. Duncan, he devoted himself to his business, and he consequently was wonderfully successful. His policy was to always employ modern methods on his ranch. He was one of the first ranchmen of this section to discard the much loved pony in favor of the automobile. At this time he controlled sixty sections of grazing land, and bought and sold cattle all over this western country. July 29th, 1889, he married Miss Annie Chalk a native of Texas, who has ever been an inspiration to him; assisting him through every hardship to greater achievements.

In politics he was staunch Democrat, he was a member of the Independent Order of Odd Fellows, and of the Woodmen of the World. A quarter of a century ago he became a member of the church at the Skilman Grove camp meeting.

The funeral services were held at the home where a vast concourse of friends had gathered from all parts of the west, and was conducted by the Reverend Dr. Irving of Fort Davis, who paid a splendid tribute to the deceased.

The body was laid to rest in what is known as the old cemetery beside his father and a brother who have gone on before.

The floral offerings were beautiful and many, completely covering his final resting place. There were so many automobiles from surrounding ranches and vicinities, that the last ones had not left the residence when the body had reached the cemetery.

WEST TEXAS STEERS GET HIGHEST PRICE PAID IN YEARS

That the cattle industry is coming back and the price of cattle coming up again will be evidenced by the following sent out to the state press from San Angelo under date of November 18th:

Grown steers in West Texas are selling at the highest prices in three years, ranging from \$55 to \$65.

Two thousand head of 3 and 4-year-old animals have just been purchased in Tom Green and Sutton counties by Fred F. Chase of Council Grove, Kan., and Eugene A. Chase of Junction City, Kan. They paid \$55 a head; 1,000 head were purchased from Russell & Arledge of this city and like number from George S. Allison of Sonora. Delivery will be made next spring.

Chase Brothers have been buying cattle in this section for twenty-five years and said that the grade of the steer secured this fall was on a par with, if not better, than that obtained here in previous seasons. Steadily improving range conditions, due to frequent general rains, have accounted in a considerable degree to the fitness of live stock and present high prices.

The top price so far paid was registered when Sam Waring of Eden sold fifty 3 and 4-year-old Hereford steers to W. O. Shultz of Paint Rock at \$65 a head. Mr. Waring also sold to Mr. Shultz fifty 2-year-old Herefords at \$45.

W. A. Hoffman of Mason county sold to a Kansas buyer early in the month 500 3 and 4-year-old steers at \$60 a round. Delivery has been made and the cattle have been shipped to Kansas.

IN NEW QUARTERS

The Pecos Studio is now located in its new quarters—the Dawson building just south of the Pecos Hotel.

Mr. Howard has secured the very best equipment of the photographers art, and is better than ever able to serve the public. The new electric printer and developer has been installed which will enable him to do better work and turn it out more rapidly. It will be worth your while to call around and pay him a visit whether you are ready for a photograph or not. Note his display ad in another part of this paper.

CONTINUED RAINS ARE WORTH MUCH TO WEST TEXAS

Reeves county is being soaked this week with a slow rain which at times is little more than a drizzle. At that it is really becoming muddy on the streets of Pecos and the country is becoming wet and a fine season is the result. The rain commenced early in the week and has continued almost incessantly during the week.

While the weather has been cool there has been no ice during the week and the rain will do much toward making weeds for winter grazing.

CATTLE MOVEMENTS

The following twenty cars of calves and steers were shipped last week from the valley:

Julius Eisenwine, 5 cars steers and calves; George Duncan, 6 cars calves; W. D. Casey, 9 cars calves and steers.

The above cattle were sold to The Standard Live Stock Commission Company at Wichita, Kansas, through H. F. Anthony of Pecos. Mr. Anthony also sold to Arizona parties one car load of grade bulls from the Odessa neighborhood. The Standard Company of Wichita are advertising the sale, by auction, of 4000 calves and steers from the Fort Davis and Valentine country.

Try one of those 25c want ads and make some money. Others do it; why not you?

ful and many, completely covering his final resting place. There were so many automobiles from surrounding ranches and vicinities, that the last ones had not left the residence when the body had reached the cemetery.

Out of respect to the deceased the business houses were all closed during the funeral.

Besides the devoted wife, Mr. Duncan leaves a daughter, Mrs. Albert Tinnin; three sons, James, Willie K. and Aubrey S. Duncan, a mother, Mrs. Jane Duncan, a sister, Mrs. Frank Billingsa, a brother, Joe Duncan, all of Toyah, and a brother, George Duncan of El Paso, to mourn his loss.

The deepest sympathy of the entire community are extended to the bereaved family.

—Contributed.

Honoring Our Yankee Heroes

President Harding and Former President Woodrow Wilson were the principals in impressive Armistice Day activities at Washington, D. C. In simple ceremony Pres. Harding visited the grave of America's Unknown Soldier, to place a huge floral wreath, as shown in the upper picture.

Former President Wilson broke his long silence when more than 50 admirers marched to his home in Washington to pay tribute. His tribute was to our soldier boys who made the supreme sacrifice.

RUMORS OF ATTEMPTED ASSAULT PROVE TO BE FALSE

Rumors of a serious crime were circulated on the streets of Pecos this morning, which upon investigation proved to have had little foundation. It appears that a hungry Mexican forced an entrance to the residence of Harry Wells of Toyah, in search of food. Mrs. Wells was very much frightened and it is not known how the rumor gained circulation. The sheriff's office was busy on the job early and as it was reported the crime had been committed by a negro, all suspects were rounded up and questioned. On advice from Sheriff Kiser a negro was held by the section master at Hermosa and Deputy Sheriff Middleton brought him to Pecos. He proved his innocence and was turned loose. However, the sheriff arrested the Mexican at Toyah who was responsible for all the excitement and he is now in custody. A probable charge of attempted burglary will be investigated.

SERVICE FREE

For nearly two years the Enterprise has been paying \$12 per month for the Auto Caster service solely for the benefit of its readers and advertisers. During this time many of them have taken advantage of the cut service. The cuts which are made in the Enterprise office comprise the feature cuts scattered over the paper as well as advertising cuts suitable for every line of business. In addition to the cuts you have the advertisements which go with them written by experts in the business.

Those using cuts this week made in the Enterprise from this Auto Caster service are the Pecos City Studio, the Johnston Cafe and the Mint Cafe. Last week the cut in the Rialto Theatre ad was made in this office.

Look over these ads and see if you do not conclude they are worthwhile. An ad for any business in town can be had for the asking and you will have the satisfaction of knowing there is none better. Use it.

PUTTING ON CITY AIRS

Every city of any consequence all over the country has a whistle which blows at intervals to inform the inhabitants of the town unable to own watches of the approach of the working hour, noon and evening hour to close the tools of the day.

For many, many months Pecos has been without this convenience, but it is not to be without it after Sunday.

The Enterprise is informed that beginning Monday the Pecos Power & Ice Company will blow the whistle promptly at 7:00 a. m. 12:00 m. and at 6:00 p. m. each day.

This will prove a wonderful source of convenience to the general public—to those who carry watches as well as to those who do not, and will be greatly appreciated by our people.

Classified ads are inexpensive result-getters.

HUDSETH LEAVES TO VOTE AGAINST SHIP SUBSIDY BILL

That Congressman Hudspeth is always on the job and looking after the interests of his district will be evidenced by the following from a recent issue of the El Paso Times:

Congressman Claude B. Hudspeth is leaving today at noon for Washington so as to be there in time to register his vote against the ship subsidy bill when it is presented in the house.

"I am against the measure," said the congressman emphatically, "because I think it is an effort to hand the corporations something like \$375,000,000 of the people's money as a bounty to take over these ships. I believe that the merchant marine can be made self-supporting under proper management.

"When the matter comes up for a vote, I believe that it will be very close. With the majority the Republicans have they may be able to put it over, but it will be by a close margin."

Congressman Hudspeth is keenly interested in the Smith-McNary bill, which provides means of borrowing \$300,000,000 from the federal government for irrigation projects.

"This is one of the greatest reclamation measures ever proposed," he declared, "and its passage would result in untold benefits to this country, particularly the western section."

"I have hopes of this bill passing, because the Democrats are largely in favor of it. Arizona, New Mexico, Wyoming and Montana, among other states, are very much interested in the bill and the Democratic party would like to make friends of all these."

Congressman Hudspeth stated the bill had been pending for a year! It was favorably reported out by the house irrigation committee last May. Mr. Hudspeth has been a member of this committee ever since he has been in congress. He is in line for the chairmanship and would have undoubtedly got the position if a Democratic congress had been elected.

In spite of the fact that Republicans of the east and north are against the reclamation bill, Mr. Hudspeth thinks there is a splendid chance to have it made a law.

Congressman Hudspeth believes that with the gain made in the election of Democratic congressmen, together with the independents, who he believes will vote with the Democrats, the Democrats will have a working majority in the next house.

Compilation of the total vote polled during the general election in his congressional district shows that Hudspeth got 9,000 more votes in his district than any state candidate.

After the last adjournment of congress, Mr. Hudspeth went to his ranch in Val Verde and Crockett counties. He reported that heavy rains had fallen and the range was in excellent condition.

"Sheep and cattle are fat," he said. "The stockman is certainly

LOOKS LIKE RENEWED ACTIVITY IN PECOS OIL FIELD—NEW OPERATORS TO START WORK

LOOKS LIKE BIG DEVELOPMENT IN PECOS OIL FIELD

J. W. O'Connell, Omaha, Nebraska, capitalist, Dr. J. H. Atkisson, also of Omaha, and other interested parties were pleasant visitors at the Enterprise office yesterday.

These are the gentlemen who secured interests in the Southwestern part of Reeves county of C. H. Willoughby and Mr. Ferguson and will put down the Willoughby No. 2 to pay sand. Mr. O'Connell says that they would like to get to work at once and run a twenty-four hour shift, but that they had failed to connect with a rig. They are now negotiating for the rig of the El Paso-Saragosa outfit and are also at work on other propositions which should enable them to start up in a very few days. They would like to put up a standard rig and will do so but they also would like to get the work to going at once since they have the drillers on the ground and "a rearing to go."

When asked if they would make a deep test, Mr. O'Connell stated: "We are going down to pay. It requires 3500 feet or any other depth to reach it so long as the indications are favorable we will keep going down." It might be said here, however, that they expect to find shallow oil but in case they do not they will test that section of the county thoroughly, going as deep as is necessary to do this. They are men of money and have faith in the field and no expense will be considered until they have secured a well.

They indicated also that they might also, after finishing the Willoughby well, finish up the El Paso-Saragosa well. The Enterprise believes from conversations had with these gentlemen that they are no foreflushers but will do the work and do it without delay once they get started. It also believes that their coming to this field at this time means much to the entire Pecos oil field and will be the means of securing development to a large territory. Gentlemen, the Enterprise bids you a most cordial welcome.

PECOS SECOND FARMER'S DAY SATURDAY, 25TH

Although the weather looks as if it would in a way interfere with Farmer's Day tomorrow, everything is set and ready for a big day just the same. While the weather may not be the very best yet since the farmers will be unable to work on the farms it is believed they will make it a point to get to town and take advantage of the many bargains which will be awaiting them in Pecos.

Several merchants are filling their "bargain table" or counters and making ready for the occasion, besides the prices on all merchandise will be fixed for a saving to the buyers.

Come and don't forget your tickets and be on hand at the drawing. Remember a \$75 stove will be given the whites while a \$75 photograph will go to the Mexican holding the lucky number.

TOYAH ORCHESTRA MAY GIVE RECITAL HERE

A movement is on foot to bring the Toyah Orchestra to Pecos to give a recital under the auspices of The Parent-Teachers Association. The matter will be brought before the association at its next regular meeting to be held the first Friday in December. A number of the active members of this worthy organization have been interviewed and the consensus of opinion is that an evening with this wonderful young body of musicians would be entertaining, instructive and highly appreciated.

If the recital is given, the assistance of local talent is promised. Mrs. Lillian Butler and Mrs. Sam Johnston have signified their willingness to sing, and a very creditable entertainment could be enjoyed by our people.

If satisfactory arrangements can be made the recital will take place after the holidays.

Sell it with a classified ad.

coming back into his own, especially the sheep and goat men. Wool is commanding a good price. I sold my fall clip for 47 cents and mohair at 87 1/2 cents."

BURCHARD NO. 1 WELL

Drilling is in progress on the Burchard No. 1 in the shallow belt about nine miles north of Toyah. This is the third actual drilling test in the Pecos district of C. H. Willoughby's oil locating magnet. First Mr. Willoughby took over the Toyah-Bell No. 2 which was in strictly wildcat territory and all know that in this case his judgment was correct. Then he condemned the shallow test of the Tatum Lease Syndicate in the proven shallow field and but 614 feet from the Leatherman well, one of the best producers in that field. Now he says the drill bit will find oil in the Burchard No. 1 well which is in condemned territory being within a few hundred feet of three dry holes.

Mr. Willoughby asks us to state that "he is not looking for glory, but that what he is doing is being done for the mutual benefit of every the oil development of the Pecos district." He states further that: "He has no intention of attempting to open fields over any extensive area and that wells and oil lands brought in will be for sale as he cares nothing for the oil business beyond wildcatting and making good for his stockholders."

THE LAURA WELL

The Enterprise has repeatedly tried today to get the people at the Laura well to find out the status out there but was unable to get any one. It is understood, however, from street talk, that Granger & Green are preparing to move their rotary rig from that location to the Ramsey No. 2, and that this well will be abandoned so far as they are concerned at any rate.

There has been too much money spent on this location and the showings of oil have been too great to believe that the well will be abandoned and the Enterprise has been unofficially informed that the Laura well will be put down to pay. In all probability this hole, which was put down to about 2700 feet, will be abandoned and a new hole started. It is stated that the Laura is now carrying a lot of free oil which is probably coming from the bottom of the well, but obstructions apparently make it impossible to put this hole deeper.

THE WHEAT WELL

Jim Wheat says that they are making very satisfactory progress in getting things in shape to start work on his well and that in a very short time he will have something worthwhile to tell the public in regards to this location through the Enterprise.

THE BELL WELL

Work is going on steadily and uninterruptedly at the Bell Well and they are drilling today around 3,350 foot level. For the past week they have been through strata of grey lime to white and brown and are now drilling in a gray shale. These strata are each about four feet thick and saturated with oil. According to those most interested the formation could not be more encouraging.

TOYAH-BELL WELL

Just as the Enterprise was getting ready to write "30" on the last bit of copy a phone message came from his wife to Mr. B. Ramsey stating that the Toyah-Bell was again flowing and had filled all the holes near the well with oil. Although the hole is clogged it refuses to down and continues to flow over the top every few days.

WILLOUGHBY WELL

As stated last week operations will be resumed just as soon as Mr. Hopper, the drilling contractor, can complete the Burchard well.

HERSHENSON WELL

Drilling at the Hershenson well continues without let-up. Everything is going along in good shape.

DISTRICT COURT

District court convened Monday November 20th, Judge Gibbs presiding. Little business was brought before the court this week beyond a few judgments taken on foreclosure by default.

The grand jury adjourned Wednesday to reconvene December 4th. No indictments have been presented to the court and further deliberations will be continued next month. There is a long docket to be tried in civil cases this term and Judge Gibbs is anxious to clean it up.

Judge Gibbs left for his home in Midland yesterday and will return Monday.

ADVICE TO THE AGED
Age brings infirmities, such as sluggish bowels, weak kidneys, torpid liver.

Tutt's Pills

have a specific effect on these organs, stimulating the bowels, giving natural action, and imparting vigor to the system.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or destroy the worms, and the child will be in perfect health. Price 25c per bottle.

MEN INSTRUCTIVE FREE BOOK

If you are losing your manly strength—if you are weak, nervous, dependent of suffering from hot water from excess age or other causes CLONSTONE will quickly restore you to normal strength and provide vigor or an change will be made. Write today for free instructive booklet mailed prepaid in plain wrapper.

Richard Lloyd Jones tells Us To Speed Up Safety.

EVER since the advent of the steam engine we have been speeding up, and while that speed has come with inestimable benefit, it has not come without its measure of attendant harm. When the legislature of New York was first asked to grant a franchise for eighteen miles of steam railroad, the right to build this first railroad was not granted without a bitter opposition which contended that it would be unsafe because the engine would scare so many horses that an unwarranted toll of death would result.

The railroad came and those who opposed it were right in their death toll predictions. The engines did scare the horses. There were runaways, and what is worse, there were wrecks on the rails and an ever-increasing list of accidents have been recorded as the iron ribbed mileage multiplied.

But for all this we would not erase the railroads from our maps; we would not go back to the days when even a king would cry "My kingdom for a horse."

The thrashing machine has cost many a thrasher an arm. But we would not go back to the days when we flayed grain on the floor.

Mill machinery and foundry furnaces take their human toll. But we cannot do without them.

We fly sky-high and all too often we read of a fallen flyer. It is the price we pay to learn how with safety to use the swifter way.

The auto brings its price in limb and life. We pay it and speed away.

We have been impatiently seeking speed. With the same impatience we must seek safety. The cost of speed has reached such alarming proportions that the "Safety First" slogan was born.

Observe, we did not cry "Cut it out," nor did we

even plead to "Slow down." We do not want to slacken, much less to stop. On the contrary, we want to speed up. That is progress. But we must speed up safety.

The National Safety Council reports that the compiled figures of preventable accidents in 1920 show a death toll of as many people as live in the State of Nevada. In other words, in one year we wiped out by accident one whole State. That means that it is time to STOP something. It is not speed we should stop. We must stop recklessness.

The man-eating thrashing machine has gone out of fashion. But the fool at the auto wheel is busy. Fatalities from reckless auto driving average thirty deaths a day. We have speed laws, but they are defiantly disobeyed and the violators when arrested are too often dismissed with a modified reprimand or a petty fine.

To endanger the life of another is not a light or laughing matter.

We must adjust ourselves to the auto as the horse did to the train. We make the train run on schedule, limit its speed on curves, slow down at the sign of caution and come to a full stop at the STOP signal. So must we make every auto driver do.

There is but one way to do it, and that is for every community to impose drastic penalty for every offender and for every community to promptly get rid of any officer that fails to arrest the offenders and every judge and magistrate that will not impose the full penalty of the crime.

If it is a crime to take life, it is a crime to endanger life. Speed up safety. It is the duty of every town and county government to get indignantly busy on this all important job. We cannot spare our people in whole state-full lots.

Kellogg's Corn Flakes touch-the-spot

any hour of day or night

"Bobbie dog, guess it makes you hungry, too, to see me eat a great big bowl of Kellogg's for breakfast every morning! But I can't spare any today, Bobbie; honest I can't!"

You can't resist the appeal of Kellogg's Corn Flakes! Pour out a bowl brim full of Kellogg's—big, joyously brown, crisp and crunchy! Was there ever such an appetite treat! And, such a flavor! A breakfast or lunch or supper thrill for big folks as well as little ones.

Get KELLOGG'S Corn Flakes for sure—because Kellogg's are the original Corn Flakes and so deliciously good and so superior in every way that your delight will be boundless. Please understand that Kellogg's are never tough or leathery or hard to eat—they're always crispy!

Kellogg's are sold only in the RED and GREEN package bearing the signature of W. K. Kellogg, originator of Toasted Corn Flakes! NONE ARE GENUINE WITHOUT IT! Have Kellogg's for breakfast tomorrow!

Kellogg's CORN FLAKES

Also makers of KELLOGG'S KRUMBLE and KELLOGG'S BRAN, cooked and krumbled

poem by UNCLE JOHN

It seems to me, Thanks-givin' Day is good for people every way, I wouldn't want to doubt it. . . I'm certain that our blessed Lord forgives our sins an' keeps His word—we couldn't live without it! I've noticed that the thankful man, who does the very best he can to show the Lord he's grateful—is happier a thousand-fold, than one whose gratitude is cold, an' thrives by bein' hateful. I'd rather bless a crust of bread with benedictions sweetly said, than gloat o'er ingrate's splendor. . . I'd thank the Hand that allers feeds, an' suits the blessin' to our needs—an' keeps our conscience tender. . .

If I must dine on rabbit roast, because I can't dig up the cost of gobbler, stuffed with dressin'—I'll down my hare-hop with a smile—in firm belief that, after while, we'll reap a richer blessin'. . . I ain't ashamed to kiss the rod that chastens by the hand of God, yet spares my daily livin' . . . and mebbe that is why I'm here, to celebrate another year—in praises and Thanks-givin'!

HONEY PHILOSOPHY for 1922

THEY tell about Jake goin' into the barn to light his lantern so he could go courtin'. The farmer next door kidded him: "I never used a lantern when I went courtin'," said the farmer, and Jake said: "No, of course not; an' look what you got." There's lots of Jakes out these days with their lanterns, when they ought to be out with their X-rays. What's the use of looking at when you can look in. Lantern marriages mean pretty faces and heads with no adornment but the hair. The only advantage of courtin' with a lantern is that you can blow it out, an' then—ah, happiness doesn't come from object to eye, but faith an' lasting love come from soul to soul, an' you don't need any lantern to see that.

NEXT WAR TO SEE ALL RESOURCES MOBILIZED, SAYS GEN. PERSHING; LAMENTS TIGHTENING OF PURSE

New York, Nov. 18.—Mobilization of the entire resources of the country in the next war is contemplated in plans drawn up by the war department, Gen. John J. Pershing has revealed.

"An efficiency council or board of control" would be the directing force, the general informed the Merchants' Association at New York at Madison Square Garden.

"According to these plans" Gen. Pershing said, "the industrial and manufacturing institutions, agriculture and transportation would be under government control while personnel pertaining to all of them would be mustered into the service as are those that are called to the colors.

"An efficiency council, or board of control, conforming to our experience in the war, would then be placed in charge of all resources, with authority to make such disposition of them as would best promote

Farm Woman and Mule in Hall Case.

The natural curiosity of a mule was an important factor in solution of the murders of Rev. Hall and his pretty choir singer, Eleanor Mills, at New Brunswick, N. J.

Mrs. Jane Gibson, farm woman, in the early evening was riding "Jenny" in search of corn thieves when the mule attracted her attention to the murder party just as the shooting started. Mrs. Gibson came forward as a witness when an innocent boy was accused.

the success of the nation in war. "The initial organization and the system to be adopted should soon be in such tangible form that personnel could be selected and organized in readiness to take up their duties when needed.

Purse Strings Held Tight. "It is the duty of the war department to study the general needs of the country in both men and material to meet the exigencies of war. But our recommendations often go unheeded, partly because those who hold the purse strings will not understand and partly because in the past it has been a more or less popular thing to cry out against the army as being militaristic or dangerous to the liberties of the people or some such ridiculous plea that might appeal to the ignorant voter."

Discussing the function of business in war, Gen. Pershing said: "That the conduct of war is a big enterprise which involves a knowledge of business principles on the part of leaders was vividly brought out during the World War, and preliminary preparation necessary to carry on to success once we become involved in war should appeal to every business man.

"It is regrettable that a greater number of business men with vision do not make the sacrifice and enter public life during peace and give their countrymen the benefit of practical business experience in the management of both national and international affairs instead of leaving those duties to the professional office seeker and the political smooth-sayer.

Bulwark of American Liberty. "In strictly military service, beginning with the revolutionary war, the army has received an average of one important call every year and a list of its existence and besides foreign wars, its services include the suppression of rebellion, insurrection, conspiracy, uprisings and Indian wars—from Shay's rebellion in 1786 down to Villa's raid on Columbus, N. M., in 1916. During all this

You are reading this because you want to see what is for sale. Others will read it for the same reason. When you put in a the big, newsy paper with the circulation. "For Sale" adlet they read it, too. Use THE ENTERPRISE—

I Erred In Judgment Several Weeks Ago

When I wrote our stockholders and friends that "We expect to drill in Quickly." We were forced to shoot several hundred pounds of dynamite in our No. 1 Well by which method it was finally possible to get the casing down.

But I Still Say We Confidently Expect A BIG WELL When We Drill Through The Black Lime

We have worked hard and persistently and like any human beings we want the HONOR of bringing in the first REAL OIL WELL in the Pecos country.

No living man has greater faith than I of the existence of a tremendous oil field under our holdings BUT NOW COMES A MILLIONAIRE backed with the cold hard cash and his one ambition is to BRING IN THE FIRST WELL.

I Must Rely On The Confidence And Support

Of my friends and those who know me for the MONEY TO GET BUSY. With a geologist recommending this ground; with a millionaire checkerboarding around us to the extent of 3,520 acres and ACTUALLY SPENDING HIS MONEY IN DRILLING.

WHY SHOULD YOU HESITATE

When you get 100 shares of stock and a 5 acre lease Free? The lease alone may bring you a small fortune within a few weeks AS ACTION IS NOW ASSURED on the No. 2 Well. You never had a greater OPPORTUNITY. Will you grasp it NOW?

HELP US TO WIN THE HONOR AND SHARE THE MILLIONS AWAITING US ON THIS 3000 ACRES.

Wire or mail your order today—We will HIT THE BALL.

OLD TIMES AND NOW

Perhaps you have mourned over the sorrowful fate and hard times of the early settlers. "Uncle John" of the Excelsior (Mo.) Standard used to do the same things, but he put on his thinking cap, studied a little and reached the conclusion that the old timers were the happy folks and we the ones for whom tears should flow. Here is his story:

"I used to mourn about the trials of my ancestral pioneers—I've filled a million two quart vials with briny, sympathetic tears. I've wept, because of tribulations through which our early settlers went, when I would hear the moist oration about the lod log cabin gent. I've sobbed at how he slew the wasaels, an' skinned his thum' an' cut his toe—"

"But—times has changed, an' I'm reflectin' along the lines of present dread. I've saw some things I weren't expectin'—that any hour could knock me—dead! We've got the crazy benzine flivver—We've got the bull-necked road hog, too—We've got the germs that eat our liver—We've got the bug that starts the dengue! My days and nights are spent in terror—I'll never reach a hundred years—I'll swallow down my bald-face error, about them happy pioneers! I've turned the subject inside out, and I studied it from every angle—I've learned beyond a wrangle that I am the one to weep about!"

Prominent officials of the Gulf, Colorado & Santa Fe railway have just completed an extensive "hand-car" motor trip over the system, visiting every station and meeting merchants and business men in every town and city. Reports to the West Texas Chamber of Commerce indicate that the visit has been instrumental in establishing a better understanding between railroad and the public. Officials declared in a general report after completing the jaunt that West Texas was in the best shape in the history of the line and traffic was at its peak. Other reporting to the organization contend that the visit portends early extension of the line into new territory.

In towns too small to raise large budgets for the support of a Chamber of Commerce and pay salary of a secretary the West Texas Chamber of Commerce recommends the organization of luncheon clubs. These new forms of chamber meet weekly or fortnightly about the festive board, discuss town problems and take unified action. The West Texas Chamber of Commerce has organized many of these abbreviated forms of chamber with startling results. No place, no matter how small, can do without some kind of organization that represents it, and the best way for the small town is a luncheon club. Such clubs are organized free of charge.

State Senator R. M. Dudley of El Paso has announced his candidacy for the mayorship of El Paso. The Alpine Avalanche announces that in case he is elected, Dr. Benjamin Berkeley, mayor of Alpine and president of the Alpine State Bank, may become a candidate to fill Senator Dudley's place.

Dr. Berkeley attended the district meeting of the State Bankers' Association in Pecos a short time ago and made an able talk at the banquet given at the Johnston Cafe in honor of the visitors. While here Dr. Berkeley impressed our people as being able and capable and 100 per cent pure. In case he makes the race he is almost sure to get the support of this section of the district. In case Senator Dudley is elected mayor of El Paso and is out of the race the Enterprise believes no better member for this office could be found in the district. He has the ability to serve us and as far as the Enterprise is able to ascertain his character is above reproach and in case of his election to that office the district would be represented by one whose peer could not be found in the Texas legislature.

The greatest service that could be rendered the Christian people would be to convert them to Christians. —Palatka News.

Some church members will not dubiously resent this as a slander upon the church and Christianity, or at least a very cheap joke, but before we condemn this paragrapher let us take stock on what is going on in the world around us. In the late senatorial campaign and since it ended, some of the most intemperate language used was by church members against one of the candidates, who always bore the reputation of a consistent Christian gentleman, yet he was denounced as a Benedict Arnold to his party, a disappointment to his church, a political and moral bankrupt. All because he opposed the anointed candidate these critics supported. If people calling themselves Christians abuse each other like this, how can they expect to escape criticism from non church members? If we church members expect the world to respect Christianity and the church we must respect them ourselves by refusing to dive to the bottom of the political cess-pool, to hunt out the most disreputable things possible to say about opponents in each campaign. —Baird Star.

The Star is correct in its views. A real case of religion, pure and undefiled, would do more to solve the human problems than all else combined.

The checks are coming in fast during the past few days from those taking advantage of the Enterprise subscription cut rate. Only a few more days remain in which to take advantage of this offer. Remember if you pay now one year will cost you only 25 cents more than a six months subscription after December first.

When Mrs. Gowin of Henretta sued Lee Gowin, her husband, for \$100,000 damage for failing to keep his pre nuptial promises it, perhaps, set a precedent in Texas litigation. While the jury scaled the \$100,000 to \$1,500 the jury, all men at that, evidently believed the young man had no more right to make rash promises to sweetheart than in any other civil transaction. In case this judgment sticks in the higher courts there will in the future be less divorce suits and a considerable number of damage suits in excess of these in the past.

POSTMASTERY

State Press in Dallas News takes the logical view of the postmaster-ship situation. In fact J. J. Taylor is full of good common horse sense and logic and every time he pushes the pencil he makes it say something. In a recent issue of the Dallas News which is one of the South's greatest dailies, partly because Joe Taylor helps to make it so, the latter has the following: Postmaster General Hubert Works has sent out the information that during the present Republican administration there have been 17,774 postmasters appointed. That may be taken as meaning that the ax has been laid on the necks of just that many Democratic postmasters in these United States during Harding's administration. These figures seem astounding, but it has always been the policy of the Republican administrations to put in Republicans wherever and whenever possible, and it is nothing more than had expected.—Pecos Enterprise.

If there were seventeen thousand some odd Democratic postmasters set aside to make room for seventeen thousand and some odd Republican postmasters it is a tragic condition, but one to be borne without resort to revolution or tears. And come to think of it, if there were seventeen thousand and some odd Democratic postmasters postmastering, it signifies that seventeen thousand and some odd Republican postmasters were oozed out of the same number of postoffices to make room for the incoming Democrats. That was during the glad years of W. Wilson's first administration, which was a time of peace, and plenty for Democrats. It is hardly to be denied that the business of conducting the postoffice is a partisan affair. One side is turned out when the other side wins. Some supersensitive critics of party government have called this sort of rotation by the squalid name of "spoils system." It isn't a spoils system. It is only a short cut to putting the faithful in office. All of statesmanship doesn't consist of oratory and parliamentary practice. Some of it consists of dividing the loaves and fishes in a manner calculated to substantiate whatever statesmen are in high authority for the time being. When a person votes the Democratic or Republican ticket habitually and as often as the polls open, it is not too much to suggest that he thereby qualifies himself for a postmastership, provided he can read and write and make bond. The object of government is to secure the blessings of peace and industry, and being postmaster is a peaceable and industrious occupation.

SLEEP, BABY, SLEEP

John D. Rockefeller, Jr., has again laid down the laws of good citizenship. Save your pennies, he says; don't run an automobile unless you can afford it, don't have a phonograph unless you have money for "such luxuries," work eight hours a day conscientiously, obey the authorities, don't violate the

speed laws—except possibly during working hours—and respect prohibition.

Thus the young multimillionaire revamps the reactionary rules of life laid down by the rich or the poor for ages, the recipe that has spread the spirit of socialism further than anything in the world.

Young Rockefeller is possessed of so much wealth he cannot count it. Certainly he never worked and produced it. Doubtless its beginning rests on "thrift and saving" by his father, but it has swollen to countless millions without work.

The youthful Croesus says thought of a six-hour workday is puerile. Naturally the man whose bursting bank account is swelled every minute by picking off a percentage of the production of countless thousands of men is not enthusiastic about cutting down their hours of work. Every little bit helps.

His allusion to the phonograph as a luxury harks back to the dark ages. The phonograph has saved the sanity of thousands of lonely women on the farms and given joy to millions of men and women from whose sweat the Rockefeller millions have sprung.

Mr. Rockefeller's Bible class doubtless sits with mouths agape but the public Bible class, consisting of more than a hundred million people, will be more deeply interested if the young man will tell them how the farmer and the miner and other useful workers in the world can get a just return for their labor, and how the people can prevent the amassing of fabulous fortunes by those who don't work for them.

Having thus expressed ourselves will the spendthrift possessors of talking machines now turn on that charming record entitled, "Sleep, Baby, Sleep."

MAIL ORDER HOUSES BOOMING

Sales totals of the great mail order houses show an enormous increase, particularly in strictly farming sections.

This is not pleasant news for retail stores in our average small towns, but it is what they may expect.

There is only one way in which the insidious mail order campaigns can be combatted, and that is by local merchants frankly explaining their merchandising possibilities to the people through advertising.

It is a well-known fact that the big mail order concerns maintain departments of considerable magnitude to check up the towns where the local merchants appear to lack enterprise.

There they concentrate their batteries of advertising and catalogue distribution.

The mail order house never prospers in a town where the local merchants advertise consistently, because the mail order men know they cannot compete with the local store if the merchant understands his business.

The cheapness with which the big mail order man can buy is more than offset by the low overhead the local merchant can get along with.

To hold his own, however, the local merchant must not hide his light under a bushel.

The public needs educating to a knowledge that they can buy at home as cheaply, that they can actually see what they are buying before they pay for it, and that they do not have to wait sometimes weeks for the delivery of the article they want.

The National Cloak and Suit Company reports a heavy increase in its business, all in the country, though it is doubtful if this great concern carries anything like the life of up-to-date goods carried by local stores throughout the country.

When the merchants get ready to talk plainly to the people they will have nothing to fear from the mail order man, but if they remain silent, then the outsider will surely burrow his way into their profits.

Self-satisfaction has spelled many a bankruptcy.

THE UNION GIN COMPANY

Business at the gin this season has been flourishing. About one thousand bales will have been ginned by tomorrow night which is approximately four hundred bales more than last season.

Mr. J. B. Sullivan manager, estimates that the crop north of the Pecos is over one half picked and predicts that at the least one hundred and twenty-five thousand dollars will be paid our farmers for cotton before Christmas. There will be between eleven and twelve hundred bales gathered.

The gin is in a prosperous condition financially and is in good mechanical working condition. The increased number of bales ginned will almost obliterate all indebtedness and as a paying utility plant is a credit to Pecos and vicinity.

"PLANNING FOR CHRISTMAS"

"They were planning for Christmas. Gathered around the dining room table the children were making out their gift lists, thoughtful looks occasionally giving way to smiles and knowing winks.

"Mother sat knitting, thinking back, perhaps, to the days of her girlhood when she too got quite as much joy out of Christmas preparations as the dear ones about her.

"The old log fire threw out its cheery glare and the house cat, comfortably cuddled on the rug, completed the picture of a happy, contented home.

"Looking up from his paper, John, the oldest boy, looked thoughtfully at his mother, then in hesitating tone asked: 'Mother, what do you want for Christmas?'

"With a smile the mother looked from one to the other and in a voice full of emotion replied: 'My children, all mother wants—all that she could wish for is your love.'

"And that is the richest gift you could possibly bestow; and love cannot be more beautifully expressed than through a photograph."

"Run around to the Pecos City And that is the richest gift you up. He has the latest and best equipment."

THE CRUEL RODEO.

Promoters of a rodeo in Madison Square Garden, New York City, beat the reformers to it by getting out an injunction, keeping them from interfering until the 10-day performance was over.

But now the reformers are up in arms. They announce they are going to have the rodeo folks, managers and cowboys, punished for cruelty to animals, and, furthermore, are going to start a nationwide movement to eliminate rodeos entirely.

They admit that some of the features of dare-devilry required in the handling of cattle on the range have been eliminated in the rodeo, but say their aim is not only to protect the steers from being bulldozed, but also to protect the cowpunchers from risking their lives.

In fact, the Society for the Prevention of Cruelty to Animals takes in a good deal of territory, coming out against all exhibitions in which the performer's life or limb is endangered.

Out here, where the rodeo grew into being, we are not likely to view the exhibit with exactly the same eyes of those in the effete east. But, there, if they are logical, they will start by protecting acrobats and tight rope walkers in circuses, who usually wind up by paying a fearsome penalty for their confidence.

Or aeroplanes? One is surprised that a society for the prevention of cruelty to aviators hasn't been organized long before this.

The easterners, who shudder at the sight of a husky young westerner rowling an outlaw horse, which is doing its best to pitch him into kingdom come, while short-haired men and long-haired women cheer him on, will probably reform the cattle industry next. We believe there was once a movement to abolish branding. Certainly more gentle methods of handling cattle on the range should be adopted, should they not?

How about these terrible stockyards, where they hit 'em on the head with a hammer. What we particularly resent is the intimation that cruelty to animals is practiced in the cattle industry. If the members of the New York Society or the Prevention of Cruelty to Animals knew anything about it, they'd know that the westerner, born and bred on the range, is usually more considerate of his horse than some easterners are of their servants.

The rodeo is typical of the west. It is not gentle, perhaps, but there is such a thing as ruining a nation by too much gentility. Forests and plains are not conquered by gentility. Dynamite is more effective than kind words in making gardens out of deserts.

They may put the rodeo out of business in the east, where it is a spectacle, but they won't make much headway against it here, where folks understand.—El Paso Times.

PECOS CITY STUDIO

THE SMILING VOICE

An unexpected but very sensible reply to the question of what he liked most in America was given lately by a Japanese newspaper man upon returning to his native land after a visit to the United States. Was it the huge buildings, the swift trains, the evidence on every hand of dynamic national energy that won his highest admiration? Were these the impressive things that will linger longest in his memory? Not a bit of it.

Separately and collectively he found much in their favor to say. He admitted that they are fine. But they are not the things which will haunt his dreams of America. What he remembers with most pleasure is "the unbelievably sweet voice, the constant sweet nature, and the extraordinary resourcefulness of the typical American woman telephone operator."

There will be general agreement that this Japanese visitor has paid a deserved tribute to a group of Americans whose labors in an often exasperating and often nerve-straining occupation are performed usually with courteous patience and firm maintenance of poise sometimes unappreciated. He is entitled to a floral tribute from the telephone women of America. More than that he is entitled to the thanks of all reasonable Americans for reminding them from afar of an advantage they perhaps overlook.

And more than that, still he has not only bestowed praise where praise was due but discovered something wholly new to say on a topic worn to a frazzle by countless strangers within our gates who have been harried with questions about it.—New York Herald.

THE CHURCHES

"MORE THAN THEY ALL"

Such is the title of my sermon for next Sunday morning. The occasion is the anniversary of the Woman's Missionary Society week of prayer and self denial. They will probably make special preparations for the occasion, and join me in issuing a special invitation to all, young and old men and women, boys and girls to attend.

There will be Leagues as usual, but no evening preaching on account of the revival announced to begin at the Baptist church.

Remember that Sunday School begins at 9:45 a. m. Come and get, and give your part to its great success.

L. L. THURSTON, Pastor

BAPTIST CHURCH

The pastor has just returned from the Waco Convention. It was indeed a great meeting. A record attendance was reached, harmony prevailed throughout; and the convention went on record heartily and unanimately as opposed to any kind of Evolution being taught in any of our Denominational Schools. They also denounced the unfounded attacks of pastor Norris on the work of the denomination. Confidence and unity prevails among Texas Baptist around the world.

The work at home has gone well in our absence and things are shaping up fine for a real revival of the "Old Time Religion." Our meeting begins Sunday. Let everyone be on hand from the beginning and lend his influence, prayers and efforts to the success of the meeting. This is to be a common ordinary meeting by a simple true-hearted people lead by the local pastor, just a common ordinary preacher. But by the help of the Lord we can do all things. We are looking to Him for leadership, and are praying expectantly that the Grace of God may fill our hearts and flood our souls. The pastor has in mind now a series of sermons on the Fundamental questions of the Bible such as: "Where Art Thou?" "Where is Thy Brother?" "What Doth it Profit a Man?" etc. The public is cordially invited to be in these services. We will meet each evening at 7:30 o'clock. Pray for us and help us and the Lord will take care of results.

Let every one be on hand for the Sunday School hour. Some special words will be spoken to the Business Men's Bible Class.

J. M. GARNER, Pastor.

BRITISH EDITOR SCOUTS SCIENTIFIC DENIAL OF SOUL

The press is carrying an article by James Douglas, of London, England, which is to the point and worth while. Read it and see if you do not believe he is right. The article follows:
Science, it seems, has once more abolished the soul. But the soul has a way of abolishing its abolitionists. That fiery particle is not easily snuffed out by an article or by a presidential address delivered by a neurologist before the British association. I do not believe that Sir Charles Sherrington has done what Darwin, Huxley, and Tyndall failed to do. You and I are more than a clever machine, and life is more than the running of a mechanism.

I may be a sort of gas-engine, but even if Sir Charles Sherrington could explain back to the last stop and stage the working of my nervous system there would be something left that he could not explain. I know I am fearfully and wonderfully made. There is a tiny gravity

bag filled with water in each side of my skull. In each bag there is a patch of cells endowed with a special nerve. A tiny crystalline stone is attached to hairlets of these cells. The nerve of each gravity bag connects through chains of nerve centers with the muscles of all my limbs. The tiny crystalline stones enable me to stand erect and to walk and to swing my golf driver. Another pair of gravity bags postures my head and my eyes. They enable me to keep my eye on the ball, that miracle of the links.

Secret Force.

But what works the gravity bags? What is the will? It and it alone controls the machine of the mind. By its power I can control the rhythm of the swing. This is the mystery which Sir Charles Sherrington cannot solve. He can trace the intricate stages of the transmitted will through the nervous system. But he cannot put his finger on the source and origin of volition.

Harmony.

It uses the nerve-system. It may be true to say that there is no life where there is no nerve-system, but even science cannot say that where there is no nerve-system there is no life. I am conscious of life that is outside my mind. I feel its vibrations in my nerve-system. It is not myself. I know it is conscious of my awareness. It knows I know it knows.

I simplify my knowledge of the soul by accepting the name of God. It is not the mind that knows God. It is the super-mind or super-sense that we call the soul. This is what we mean by the fourth dimension, for the soul is the fourth dimension of the mind, and by it I know things that are beyond the ken of science with its three-dimensional tests.

CLEM CALHOUN ASSISTANT DISTRICT ATTORNEY EL PASO COUNTY

Clem Calhoun, a former well known attorney, and resident of Pecos, appeared as assistant district attorney in the prosecution of Mrs. Frazier, convicted of killing her husband, an El Paso detective. Mrs. Frazier was ten years the senior of her husband and was given a sentence of ten years in the penitentiary. In his summing up for the state, Mr. Calhoun spoke as follows, according to El Paso Herald:

"An older woman always is jealous of a younger husband," said Clem Calhoun, assistant district attorney, who spoke for the state.

"If she had one-tenth the pride she pretends she has, she would have left Frazier long ago rather than to submit to the cruelties she said she did."

The many friends of Mr. Calhoun will be pleased to know of his success in his new field of endeavor. He was an acknowledged good citizen of Pecos, a persistent fighter in legal battles and highly respected by the Reeves county bar and the public.

And then—after the Christmas feast—drive down to the photographer and have a picture taken of the whole family group. Wouldn't it be fun?

Come in, talk it over and make an appointment before the rush is on.

PECOS CITY STUDIO

HEALING VIRTUE FOUND IN MUSIC PROPERLY PLAYED

George Eliot says "For there is no feeling, perhaps, except the extremes of fear and grief, that does not find relief in music—that does not make a man sing or play the better."

And we might even go further than this and say that even in grief and fear, music will prove a source of relief and comfort.

Most of us have unconsciously found rest in listening to music properly played.

The sensation is not only mental but it is a positive fact that certain portions of one's spine seems to respond and relax when soothing melodies are played.

There is no doubt that if a person sit directly in line with stringed instruments beautifully played one can feel the vibrations and the most doleful of blues may be dispelled in this way.

Of course in an equal degree it is possible to upset our pose and nearly drive us distracted by inharmonious noises.

Familiar airs bring pictures to our minds of other scenes, and we can be carried far away from our present worries.

This music properly played has a healing value, or the instant our mind is away from present ills and we forget them, the battle is half won and nature has time to restore us to a normal condition.

A well known cellist advanced a beautiful theory. She said: "Sometimes I feel when I hear good music that waves of sound have been set in motion that go on and until they reach out into space to distances beyond our ken—that maybe this is a means of communicating with other spheres."

Real artists always carry a picture in their minds—some giving it out through the medium of music and others transmitting it by beautiful sounds.

The simple mechanical performance of singing, playing a musical instrument or painting is not art.

The soul of the artist must speak or the result is valueless.

Strange, however, that even the beautiful harmonious thoughts produce wonderful melodies and beautiful paintings we are confronted with the fact some times that some of the

Only Woman Elected in U. S.

greatest artists are violent tempered, erratic individuals.

Doubtless, however, they are a world of help to us.—George B. Burdick in El Paso Times.

MISSOURI JUNIOR RED CROSSERS GIVE CHILD SUNDAY CLOTHES

The Junior Red Cross members of Harrisonville, Mo., are very proud of the fact that they have enabled a little girl to go to Sunday School once more. The child had stayed at home for lack of proper clothes and the Juniors found it out and used some surplus funds, which they had earned at a bazaar, to purchase her the outfit.

This little girl now is the proud owner of a pink organdie dress, a pink ribbon, a blue gingham dress, hose and underwear. The gingham dress was made by one of the Juniors.

The children are enthusiastic over home work and tell the secretary that if ever she needs more help to "just whistle" and they will be right there.

TWELVE-YEAR-OLD GIRL WINS RED CROSS LIFE SAVING CERTIFICATE

Ruth Elberfeld, 12 years old, daughter of "Kid" Elberfeld, manager of the Little Rock (Ark.) Baseball Club, has just received a certificate in the Red Cross Life-Saving Course, which is usually issued only to adults. Ruth took the course in a class of girls, but her work was so far ahead of her age that she finally was put in the adult class. One of the extraordinary feats in the course was the bringing in of a 100-pound man through the water for a distance of 50 yards, towing him and handling him in four different ways, according to the requirements of the course.

The West Texas Chamber of Commerce Textile Commission which recently completed an exhaustive study of the textile industry in the Southeast and Northeastern states report favorably on the prospects of large mills being established in West Texas. They say cotton mill owners appreciate the opportunities extended in this section for institution of textile establishments, finding conditions in this region even better than in the territory where the present plants are operating.

With possibly a single exception every fair held in West Texas this year made money, according to reports to the West Texas Chamber of Commerce. Even the large fairs which expended great sums to bring added and costly attractions show a surplus after paying all expenses. The organization favors the organization and prosecution of the county fair movement to the end that such county institutions may inspire rivalry among farmers and stimulate production of the best products.

Comes 20,000 Miles to Study Cattle.

J. P. Cortes, son of a wealthy Brazilian ranch owner, is working as a common farm hand on the Cedar Croft Herford Farm near Kansas City to study U. S. pure bred breeding and raising methods. He likes it and thinks his long trip here worth all he is learning.

\$700,000 SPENT BY RED CROSS IN SOUTHWESTERN DIVISION IN A YEAR

Money Was Used in Relief and Rehabilitation Following Disasters in the District.

During the fiscal year 1921-22, ending June 30th, the Southwestern Division, American Red Cross expended \$730,886.79 in disaster relief. Part of this came from the National Red Cross funds secured from memberships, part from chapters and parts from individual contributions. This money was expended in disasters in various parts of the division, especially in the flood areas along the west bank of the Mississippi, in Missouri and Arkansas, in Texas, around Fort Worth, and in the Rio Grande Valley, at Burlington, Kan., and at Pueblo, Colo.

The greatest amount of time and effort in any of these disasters went into the rehabilitation of Pueblo and of the district covered by the Rio Grande Valley flood of last June, according to a report from the Southwestern Division, American Red Cross, in St. Louis. Fifteen hundred and ten families were affected by that flood.

The manner in which the Red Cross undertakes these disasters depends upon the conditions to be met. In some cases the local chapters and citizens' committees take charge and the division office goes in an advisory capacity. In others the situation is reversed, and in still others the work is handled jointly by the Red Cross and the citizens.

Relief work in the Rio Grande Valley flood, which was the last disaster of real importance in the division, has been practically closed and the auditing committee, as well as the advisory committee, with the Red Cross director, Henry M. Baker, are compiling their reports, to be submitted to the citizens and to the division. The wide area affected in this disaster has caused the work to be continued longer than would have been necessary, it is believed, but that it has been thoroughly done and has created friendship for the Red Cross among the citizens of the section is evidenced by the letters received at the division office.

The Young Men's and Young Women's Christian Association of Little Rock, Ark., both have thriving life saving classes which were started during the summer by the director of life saving of the Southwestern Division, American Red Cross.

West Texas field products have been drawn upon to complete a comprehensive agricultural exhibit for the Southern Pacific railway to be shown in all important towns and county seats in south, east and west Texas touched by this line, as well as such points in Louisiana and several other states. The exhibits have been furnished by the West Texas Chamber of Commerce. The entire agricultural exhibit will occupy a special car in a demonstration train that will stop at the points on that line, permitting the thousands to study it. The purpose of the operation of the train is to promote better farming and culture of superior field plants. Since thousands of farmers in other sections have already become interested in West Texas, it is likely that the demonstration car will be the concluding factor in causing them to migrate to West Texas.

JUNIOR RED CROSS MAKES GOOD CITIZENS

Through It Children Learn Patriotism, Altruism and Generosity.

The Junior Red Cross exists for the purpose of making good American citizens. This statement was made by an eminent authority in a recent answer to the question, "What Is the Junior Red Cross?" In the United States there are 5,000,000 members of Junior Red Crosses and in the Southwestern Division the membership of children in this organization numbers 434,576 and here is some of the work these children do.

They support work in Europe to children who are in need. They send Christmas boxes of goodies to children who do not have them. They make shipments of garments abroad to the destitute children of war-crippled Europe. But this is not as interesting to Americans, perhaps, as the work which the Juniors do at home. One of the biggest problems in America today, according to experts, is the tremendous amount of malnutrition found among the children of this country. One-third of the children of America are malnourished, according to actual counts. The Junior Red Cross, through its school auxiliaries and growth classes, is seeking to eliminate a large part of this malnutrition and has succeeded to a very gratifying extent.

The Junior Red Cross also is answering the question of how to eliminate individual, group, racial and international hatreds which exist among people today. The polyglot character of the personnel of the average American school gives an excellent field for work of this kind and foreign children, as well as native-born Americans, learn what good citizenship is in their Junior Red Cross activities even more than they do in the patriotic exercises of their school room work. Loyal and serviceable citizenship, that absolute essential to a great democracy, is being created in the breasts of these little foreign-born Americans through the Junior Red Cross activities as it never could be otherwise.

One of the helps to this is the work the children are doing for the disabled ex-service men in hospitals, for the sick and crippled children who need help and cheer, in equipping playgrounds so that sad-eyed little children of the congested districts are taught the joy of a normal childhood. By learning to serve others in these and many other ways, lessons of community spirit and co-operation are taught the growing boys and girls of this country.

Another thing the Juniors are doing is assisting in the promotion of health in their communities by clean-up campaigns and other civil undertakings. On the whole, one of the most constructive pieces of work done in the Southwestern Division, American Red Cross, during the year, in the opinion of those who have studied the situation, is that among the children, which has been carried on through the Junior divisions of Red Cross chapters and the school auxiliaries of Junior members.

NURSE IN SOUTHWEST DIVISION COVERS BIG TERRITORY

Miss Mary Fitzsimon, Washington County (Arkansas) Red Cross nurse, is in charge of one of the largest territories covered by one individual in this capacity in the Southwestern Division. Ten towns are in her district and her work covers all kinds of ailments and illnesses, serious and simple, as well as general sanitation and health information. The well people of one neighborhood in Washington County are particularly indebted to Miss Fitzsimon for having discovered a contaminated water supply which might have caused the illness of the entire community. In cases where contaminated water supplies were not discovered in time, Miss Fitzsimon has been able to offer an anti-typhoid inoculation which has been so successful in the army as a means of stamping out this disease. A group of trachoma cases discovered in July by accident is being successfully treated. The mother of this family already had lost her sight, but the other members probably will be not much the worse after the treatment is finished. A number of ex-service men who have not received their compensation and other disabled soldiers who wanted assistance or vocational training also were cared for during the summer and spring.

CALOMEL GOOD BUT AWFUL TREACHEROUS

NEXT DOSE MAY SALIVATE, SHOCK LIVER OR ATTACK YOUR BONES You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than any calomel and without making you sick, you just go back and get your money. Don't take calomel! It makes you sick the next day; it loosens you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salt necessary. Give it to the children because it is perfectly harmless and can not salivate. (Advertisement)

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers. Don't suffer! A tiny bottle of Freestone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off. When Freestone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated. (Advertisement)

"The Kick-Off"

MONTH'S CATTLE SHIPMENTS SHOW GREAT INCREASE

Shipments of cattle from the various districts of New Mexico during the month of October totaled 116,499 head, according to figures furnished by the Cattle Sanitary board yesterday. These shipments were made to various markets throughout the country.

These figures show an increase of nearly 150 per cent over the shipments of October 1921. Against the total of 116,499 this year, October of last year can show only 48,395. Moreover, reports state that the cattle shipped during the past month were in better condition on the whole than that shipped a year ago.

The Clayton district heads the list, with shipments which total 16,236. The Rincon district is second on the list, with 12,488 head. Alamogordo is third, with 11,110. But Alamogordo gains the place by only three head, Springer being practically on even terms, with 11,007.

The Albuquerque district is in the eighth place. There were 6929 head of cattle shipped from the Albuquerque district. The same number shipped in October a year ago would have given Albuquerque first place—an indication of the great increase this year.

Following is the list of shipments for October:

Springer district	11,007
Jal district	1,973
Clayton district	16,236
Tucumcari district	4,533
Alamogordo district	11,110
Roy district	800
Roswell district	10,057
Aztec district	424
Deming district	9,036
Albuquerque district	6,929
Santa Fe district	5,747
Rincon district	12,488
Carlsbad district	1,555
Lovington district	5,055
Cimarron district	4,842
Vaughn district	6,227
Columbus district	247
Silver City district	8,233
Total	116,499

Grand Opera Hearing for Girl of 16

Marion Talley, 16 years old, daughter of a telegrapher in Kansas City, won a Grand Opera hearing and has been declared the vocal wonder of the day.

subjects of special interests to the doctors of the Southwest will be discussed. The program committee is making an effort to get a physician or surgeon of national reputation to attend the meeting and deliver an address.

In addition to the serious part of the program, the entertainment committee is arranging an attractive program of entertainment for the visiting doctors and their wives. The executive committee is making an effort to have every married doctor bring his wife to the convention and a social committee of ladies is now arranging an elaborate program of teas, receptions and other entertainment for them during the convention. Hotel reservations are now being made and the hotel committee is sending a questionnaire to every doctor in the Southwest in order to be sure to have rooms reserved for them.

SOME NEED AMPLIFICATION

Life, it appears, in addition to other things it has been called, is just one durned vibration after another. Sound and life are but a series of waves or vibrations impinging upon each other. Now a scientist declares that the tender passions is a concrete of vibrations. When people are in love they are merely tuned in to each other's wave length.

It is just like a radio outfit. In the spring the call goes forth, searchingly, tremulously. It beats gently upon the air. The heart throws out its antennae.

And in the next block—or may be the next county, or across the world, somebody is turning in. An eye glance may complete the connection. The vibrations are bridged. Harmony is established. Two souls with but a single thought. Wedding bells and Megeleohn stuff. Static trouble. Broken connections. The lost cord. The rift in the fite. The divorce court. Such is life.—Star Telegram.

Witness my hand, this 3rd day of November, 1922.

E. B. KISER, Sheriff Reeves County, Texas. By R. G. MIDDLETON, Deputy.

CITATION BY PUBLICATION The State of Texas, County of Reeves.

To the Sheriff or any Constable of Reeves County—Greeting: You are hereby commanded to summon Wm. Meyer by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, to appear at the next regular term of the County Court of Reeves County, Texas, to be held at the Court House thereof, in Pecos, Texas, on the 8th day of January, A. D. 1923, then and there to answer a petition filed in said Court on the 29th day of August, 1922, in suit No. 726, wherein Pruet Lumber Company, a Corporation, is Plaintiff and Wm. Meyer and Floyd Goodrich, are Defendants, and said petition alleging:

First. That heretofore, to-wit, on Jan-

(Legal Advertisements) uary 2nd, 1920, the said defendants executed and delivered to plaintiff a certain promissory note bearing date on the date and year aforesaid, being in the sum of \$201.53, due six months after date, bearing interest at the rate of 10 per cent per annum from date and further providing that if said note is placed in the hands of an attorney, after maturity, for the payment of an additional 10 per cent of amount then due, as Attorney fee.

Whereby defendants became bound and liable to plaintiff and promised plaintiff to pay him the sum of money in said note specified, together with all interest and attorney fees, according to the tenor and effect thereof, said note being in words, and figures, substantially described as follows: \$201.53

Pecos, Texas, Jan. 2nd 1920.

Six months after date, I, we or either of us jointly and severally, promise to pay to the order of Pruet Lumber Company, at their office in Pecos, Texas, the sum of Two Hundred One & 53-100 Dollars, for value received, with interest at the rate of ten per cent per annum from date until paid. And in the event default is made in the payment of this note and it is placed in the hands of an attorney for collection, or if collected by suit or through the Probate Court, I hereby agree to pay all costs of collection, including ten per cent of principal and interest then due, as attorney fees; and it is agreed that all signers and endorsers of this note, either as principal or sureties, waive demand, protest, notice of protest and non-payment, and that this note may be renewed from time to time without notice to them. (Signed) WM. MEYER, FLOYD GOODRICH.

Second.

That thereafter on the 23rd day of December, 1920, the defendants executed and delivered to the plaintiff a promissory note in the sum of \$208.90 bearing date on the date and year last aforesaid, payable to the order of plaintiff at Pecos, Texas, due 6 months after date with interest at the rate of 10 per cent per annum from date until paid and further providing for 10 per cent additional on the amount of principal and interest due if placed in the hands of an attorney for collection or suit is brought on same.

Whereby defendants became bound and liable to pay and promised plaintiff to pay him the sum of money in said note specified, together with all interest and attorneys fees. That plaintiff has placed said note in the hands of H. G. Russell, an attorney, for collection, after maturity and contracted to pay him the 10 per cent stipulated in said note, the same being a reasonable, usual and customary fee. The said note is described as follows: \$208.90

Pecos, Texas, December 23rd, 1920.

Six months after date, I, we or either of us, jointly and severally promise to pay to the order of Pruet Lumber Company, at their office in Pecos, Texas, the sum of Two Hundred and Eight Dollars and Ninety Cents for value received with interest at the rate of ten per cent per annum from date until paid. And in the event default is made in the payment of this note and it is placed in the hands of an attorney for collection, or if collected by suit or through the Probate Court, we hereby agree to pay all costs of collection, including ten per cent of principal and interest then due as attorney's fees; and it is agreed that all signers and endorsers of this note, either as principals or sureties, waive demand, protest, notice of protest and non-payment, and that this note may be renewed from time to time without notice to them. (Signed) WM. MEYER, FLOYD GOODRICH.

No. 811.

Third. That said notes are now due and unpaid and defendant, though often requested, has hitherto failed and refused and still refuses to pay the same or any part thereof to plaintiff's damage in the sum of \$201.53 with interest and attorney fees, plus the sum of \$208.90 with interest and attorney fees.

Wherefore, plaintiff prays the Court that the defendant be cited to appear and answer this petition and that he have Judgment for his said debt, being the sum of \$208.90 and \$201.53, with interest and attorney fees and costs of suit and such other and further relief to which, in law or equity, he is justly entitled.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Pecos, Texas, this 19th day of Oct. A. D. 1922. (SEAL) S. C. VAUGHAN, Clerk, County Court Reeves County, Texas.

By H. P. KERR, Deputy Sheriff Reeves County, Texas. 13-4t.

IT'S TOASTED one extra process which gives a delicious flavor

FINE LANDS FOR GOOD FARMERS

Some of the finest black cotton lands the sun shines on; fine fruit lands; fine lands for feed crop, oranges, dairying, poultry and hog raising. Prices right—terms to suit any good farmer. Ask for our new booklet, H. M. Madison, Gen. F & P Agt., S. J. & A. P. Ry., San Antonio, Texas.

Summer Excursions till September 30th. Write Geo. F. Lupton, G. P. A., about them.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

Would you pick up a dime on the street? Then read the ads in The Enterprise. They guide you to merchants who save you dimes, and dollars, too. When it is worth advertising it is worth having.

H. & G. N. RY. LANDS FOR SALE IN REEVES COUNTY

Survey No. 45, 47, 48, 49, E. half of 51, and 52, in Block 4; and Nos. 46, 47 and W. half of 51 in Block 5.

The surveys in these blocks are situated from 3 to 8 miles from Pecos City, in the northern half of the Pecos River country and will be sold only in whole sections.

Also, surveys No. 49 in block 5 and Nos. 5, 13 and 15 in block 7.

Also, surveys Nos. 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12, 14, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 46, 48, 50, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, in block 11 and 1 surveys in block 12. None of these are three lands. Ask me in Pecos county.

All these lands are under lease for oil, gas and mineral purposes and any sale of same will be subject to such lease.

J. G. LEVIE of Pecos is agent for the sale of all these lands situated in Reeves County and application should be made to him for the purchase of same.

Checks to be made agents for the sale of the lands in Pecos County, and parties desiring to purchase any of same should apply to the undersigned.

EUGENE CARTLEDGE, Agent and Attorney in Fact. AUSTIN, TEXAS

PERSONAL

J. G. Love left Thursday for a business trip to Dallas.

Mrs. W. C. Brown and Mrs. Albert A. Ross are visiting relatives in Abilene.

Ed Otto is still handling all kinds of meats and oysters and has no complaint to make as regard to the business.

Attorney B. W. Baker, who is district attorney, was down from Midland this week in attendance upon the district court.

Oscar Buchholz opened his market the early part of the week and is now handling a fine supply of all kinds of meats.

W. R. Rhoads returned Monday from a business trip in Andrews county and states that the range is good and cattle in good condition in that section.

Miss Viera Rhoads is home from a visit to friends in Andrews, Odessa and Midland. Miss Gladys Manning of Midland came home with her for a visit.

Mrs. J. L. Mann and little daughter, Nadine, returned Friday from El Paso where she had been for several weeks with her daughter.

Mrs. C. C. Morrison, who had been seriously ill, but is improving.

G. F. Williams of Yuma, Arizona, was in town the forepart of the week. He was called to Reeves county on account of the death of his father, I. E. M. Williams at Saragosa last week.

Mrs. Mary Boatright this week received the ham of a deer from her brothers who are trapping in the Davis Mountains. So far they have killed two bucks and are having a fine time. The editor acknowledges, with grateful thanks, a mess of this venison which was very delicious.

Mrs. J. W. Parker this week moved into her home, and while the editor and family rather discouraged the move and insisted on her remaining at "home" the lure of the fresh and clean, newly papered rooms was too much of an attraction and she could not resist the temptation. The recent improvement makes her home quite attractive and desirable as well as convenient.

Charlie Schillings returned this week from a sojourn of some months with relatives in and around Toyah. He really went down in that section to make his home and while his people made it as pleasant as possible for him the lure of the west was too strong. Charlie has spent some

forty odd years in Reeves county and became "alkalied" some years ago and it was no surprise to his friends to see him back. He is looking good from the visit and is glad to be home again.

Mr. and Mrs. I. E. Brown, after an extended stay in Chicago, returned home the latter part of last week. Since leaving Fort Stockton Mr. Brown has become helpless from a severe case of rheumatism. Mr. and Mrs. Brown were accompanied home by Mr. George Adams and wife, nee Miss Blossom Brown and little Master Adams. Mr. Brown recently received his degree in law from the Chicago University and with his family is en-route to Los Angeles, Calif., where he expects to locate. — Fort Stockton Pioneer.

The above will be read with interest since Mr. and Mrs. Brown were residents of Pecos when the writer first came here.

Mrs. J. E. Starley was hostess this week to the Thursday Bridge Club. Eighteen members were present, with Mesdames J. A. Drane, M. W. Collic, Ralph Sparks and H. C. Russell as guests. Five games were played, Mrs. Weyer winning high score. Delicious refreshments which were a bit unique were hot mince pie topped with whipped cream, coffee and cheese. Mrs. Starley was assisted in serving by Mrs. W. W. Dean and Mrs. John B. Howard.

County Judge Jas. F. Ross who has been seriously ill during the week caused by a hemorrhage, was reported as having had a good night's rest last night and considerably improved.

Rev. J. F. Loyd was a Pecos visitor today on his way to Fort Stockton where he will preach Sunday. He goes via Monahans.

Rev. Dixon is in Pecos today.

J. C. Short left today for his home at Wichita Falls after a month's visit in Reeves county looking after his farm and ranch property near Saragosa.

Judge J. A. Buck is a Pecos visitor this week in attendance upon district court. Judge Buck is a most successful attorney from a standpoint of winning his cases as well as from the point of getting his fees. He lived in West Texas too long to be satisfied anywhere else and informed The Enterprise that he is "thinking of moving back to Pecos." The thought is only father to the action and we may expect him and his most estimable family back here as real residents of the town most any time now. And it is a safe bet they will receive a most cordial welcome when they do return.

TOM DUNCAN DEAD

A pall of sadness swept over the people of this section of the country when it was announced that Tom Duncan had passed away at his home in Toyah Sunday afternoon at about three o'clock.

Mr. Duncan had been a patient sufferer for the past two years and his going was a relief to the tired and worn body. He had been in this country for the past thirty-two years, and had spent of his money and time in helping to develop it. He was one of the substantial citizens and will be greatly missed. He was a member of the Odd Fellows lodge—was converted some years ago and became a member of the Baptist church.

Funeral services were conducted Monday by Dr. Irvin of Fort Davis a friend of the family of long standing, burial was made in the cemetery near town by the side of loved ones gone on before. Mr. Duncan was born March 17, 1869, and was fifty-three years, eight months and two days old. He is survived by his mother, his wife and one daughter, Mrs. Albert Tinnin and three sons, Jim, Willie and Aumbrey; one sister, Mrs. J. F. Billinglea and brother, Joe Duncan, all of Toyah; and George Duncan of El Paso.

To those who are bowed down in grief over the parting with their loved one is extended the heartfelt sympathy of the citizenship of our county.

DIED

Saturday morning, November 18, the angel of death entered the home of Mr. and Mrs. Rufus Wright and carried away, into life eternal, their little two year-old son, R. L., who was always happy, bright and cherry and who radiated sunshine throughout the household where his fond parents and other loved ones miss him so much.

Funeral services were held at the Christian church Sunday afternoon at four o'clock conducted by the pastor, Rev. C. A. Johnson and burial was made at Fairview cemetery. The Enterprise joins the many friends of the family in deepest sympathy for the bereaved.

CARD OF THANKS

To the good people of Pecos who so kindly gave their aid and sympathy during the past two years while our beloved mother and grandmother was sick in our home, we wish to express our heartfelt thanks and the gratitude of hearts whose heaviness was so often lightened and whose way was made bright by the ministry of friendship and brotherly kindness of our neighbors and friends.

May God bless you richly and make us worthy of the love and friendship so freely bestowed.

A. J. CURTIS AND WIFE,
DONALD M. EUNYON.

CARD OF THANKS

Few people have more cause for gratitude and thanks to the public for condolence and sympathetic help than have we. The people of Reeves county and especially of the Saragosa community were loyal and did everything in their power to alleviate the pain and distress during the illness of our husband and father, I. E. M. Williams, and after death to help in every way possible to console the bereft and for the dead. To all of these we wish to offer our sincere thanks. In times of such distress may you have friends as considerate.

MRS. I. E. M. WILLIAMS,
J. W. B. WILLIAMS,
G. F. WILLIAMS.

LIQUID AMUSEMENT

These new drinks in bottles, Take all of Long Tim's cash. And when he eats an apple, You can hear the blamed thing splash.

HE AND SHE TALK

"You don't make bread like mother used to make."
"Nor do you make 'dough' like Dad used to make."

Procrastination is the thief of time. We protect your family and loved ones day and night with the best insurance. Our Motto: If you lose we pay. Phone 159
