Four Reasons Why You Should **Buy Your Ford Car This Month**

The unprecedented demand for Ford Cars througout the winter months has taken the entire output of the Ford plants working at capacity, indicating that the demand this Spring will be far in excess of the number of Ford Cars that can possibly be built

January was the tenth consecutive month in which retail deliveries exceeded 100,000 Ford Cars and Trucks. Requirements for February, the month when preparations are already under way for Spring business, called for 148,407 Cars and Trucksmore than 24,000 in excess of the number we can possible produce.

III

Ford dealers in many parts of the country are already finding it neccessary to specify future delivery dates on Ford Products because there are no reserve stocks to draw from.

IV

Your order placed now will protect you against delay or disappointment later on-It is the only way you can be assured of reasonable prompt delivery.

We consider it important to give you these facts so that if you are planning to purchase a Ford Car, Truck or Fordson Tractor for use this Spring or Summer you can list your order at once and take advantage of our dealer's first opportunity to make delivery.

PROCEEDINGS OF THE TEXAS LEGISLATURE Work Being Done By Both Senate and House Now in Special Session.

Austin, Tex .- With less than two weeks left for completing the work of the special session, work speeded up at the state capitol with the result that nine occupation tax bills were introduced in the lower house of the Texas legislature Monday by Representative Patman. The measures would levy a gross re-

ceipts tax of 2 per cent on wholesale pistols. jewelers, 2 per cent on wholesale tobacco dealers, 11/2 per cent on moving ably by committee. picture film distributors, one-half of 1

soft drink dealers.

Approximately 50 county tax collectors from over Texas were in Austin Monday conferring with members of the legislature and to appear before committees urging amendments to the Bonham delinquent tax bill. The collectors are seeking to have restored provision which gives tax collectors 5 per cent for delinquent tax collections.

Austin, Tex.-Passage of twelve measures, two finally, one in both houses, four in the house and five in the senate, marked the legislative work of the second week of the special legislative session. Only one measure-the judiciary appropriation bill-succeeded in passing both of the branches during the past week.

The house continued its work of deliberating on revenue and law enforcement measures. Early in the week the Patterson quo warranto bill, which had passed the week before, but had been held up for investigation, was sent to the senate. The Abney hotel bill is the only other law enforcement bill to pass the house during the week.

In revenue measures the house

Monday's Senate Proceedings. Austin, Tex.-Engrossed eleemosy. nary appropriation bill with minor amendments.

Finance committee reported house judiciary bill unfavorably and substituted senate judiciary bill.

Referred to federal relations com mittee house concurrent resolution on recognition of Mexico.

Monday's House Proceedings.

Austin, Tex.-Adopted resolutions approving step toward federal recognition of Mexico and criticising a federal cotton production estimate.

Adopted resolution favoring appropriation and raising revenues to provide a \$15 annual per capita apportionment for public schools.

Defeated bill to levy a 50 per cent tax on the sale, lease or rental of

Five highway bills reported favor-

Twelve new bills introduced, includ per cent on mining companies, includ- ing occupation tax measures on gross ing oil, gas and sulphur, one-fourth of receipts of wholesale dealers in jew-1 per cent on packing houses, one-half elry, tobacco, musical instruments, of 1 per cent on brokers, 1 per cent on soft drinks, confections, moving picwholesale dealers in musical instru- ture film distributors, mining compaments and three-fourths of 1 per cent nies, packing houses and brokers, and each on wholesale confectioners and licensing cotton classers.

Friday's Senate Proceedings.

Austin, Tex .- Passed finally, \$271, 000 emergency appropriation bill, \$52,-000 deficiency appropriation for adjutant general, \$15,400 general dedifiency appropriation bill, three local crop are good. measures.

Adopted resolution by Wirtz calling for investigation by federal officials of recent federal cotton report.

By vote of 13 to 9 ordered quo war ranto bill printed. Voted down motion by Pollard to re-

consider vote by which educational appropriation bill passed.

Adopted house concurrent resolution inviting William Jennings Bryan to address joint session and senate concurrent resolution inviting Alvin Owsley to address joint session.

Declined to recommit Clark bill to repeal \$600,000 reclamation and flood control bill.

Eleemosynary and departmental appropriation bills set as special orders Monday.

Bill introduced by Ridgeway proposes to require voters to declare party affiliations on poll tax returns.

Lieutenant Governor Davidson read placed on final passage two bills of into journal statement disapproving general importance, the Smith inherit- demonstration by Ku Klux Klansmen ance tax bill and the Bonham delin- in hall of representatives Thursday.

Rotary Club Organizes at Marfa

On last Tuesday at noon, a number of Marfa business men, after an invitation from an organizer of Rotary International, met at a luncheon at the Johston Cafe, for the purpose of considering the organization of a Rotary Club at Marfa. After the luncheon, a discussion was had as to the principles of Rotary, its objects and purposes. It was determined that an organization of this character would be of interest to those present and would not be hindrance but an assistance to the commercial organizations already functioning.

An organization was perfected with the following officers.

H. O. Metcalfe, President,

No. a.

W. B. Mitchell, Vice-President.

Ben S. Avant, Secretary-Treasurer.

J. F. Fischer, Sgt. at Arms.

An application was immediately forwarded to the International Organization for a charter. The details of the organization are being worked out and the members of this new organization for Marfa are confident that it will seon be a going concern.

The following is an article on Rotary work outlined by Jamie Heron, who recently lectured on the Chautauqua Platform here in our city and gives the reader an idea of the great good that can be accomplished through such an organization.

We are glad to note that Marfa will soon boast of a Rotary Club and we can say that it will do a great deal of good for this community.

The more we know of Rotary, the more we know that we don't know, but, one thing is certain, the more we know of Rotary the more we want to know Our desire becomes intense for greater understanding of this wonderful force for good that has literally charmed the whole world Rotary has been established around the world in twenty-five different countries, with over a thousand clubs and over eighty thousand members. Rotary is growing. It is still going on, but are all Rotarians going on with Rotary. I am afraid that we have many members in Rotary who look upon Rotary as a luncheon cluba place where they meet a bunch of good fellows once a week, have a lunch and a good time for an hour or so and let it go at that.

Rotary is more than a club, or a number of federated clubs, it is a movement the like of which have never been known since the Christ started it on this earth over two thousand years ago. It is a movement for putting into action the principles of the Golden Rule. The meeting together once a week, the luncheon, the singing, the goodfellowship and the instructive talk, is a process-a means to an end-a school where men grow in understanding of

humble: No man can ever become the Rotarian he ought to be who does not know how to apply humility. Humility is a fine art. It is the fine art of being natural. It is the opposite to false dignity. Webster says that dignity is "Worth," and worth is silent, so when we parade our

worth, or our accomplishments, taking on to ourselves an atmosphere of holier-than-thou, we are discounting our worth, belittling that which we have accomplised. In other words, making asses of ourselves, but often that is fwhat the world calls dignity. I call it bluff and that is just what it is. Let's be the man God meant that we should be, Let's sell ourselves to ourselves. Here is the way I do it: 234

1. al

When in the silence of the night. When darkness hugs the world so tight, When all is bushed and quiet with sleep, Ther, haunting memories 'round me creep; When I can spend that hour alone And meet the man I've never known: When I can meet him face to face And there commune with ME apace.

When I can take myself in hand And measure up just where I stand: When I can gaze into my heart And see my worth on life's chart: When I can look back o'er the road And count the times I've shirked my load And estimate the hours I've spent On things that were not permanent.

When I can realize the crime Of spending worthlessly my time. When I can call things by the name I ought to and accept the blame: When I can place where it belongs The reason for my countless wrongs.

When I can pile in one great heap My faults-the harvest I must reap.

Then, knowing what I am, can say, From this time onward, from today-I'll work-I'll serve-I'll will to win. To mould a better man within: So, when I furn the searchlight on The faults I had will all be gone. And there will stand revealed to me The man God meant that I should be.

When you know that you know yourself you can sell yourself to others. That is, you can sell your sincerity and your leadership. Have you ever asked yourself the question-of what kind of a leader you are? Every business man is either a leader or a driver. Have you sold your leadership to those who work with you?

Leaders of men, where have you been? Why are ye not leading your men? Why are ye not forging ahead? Know ye not men want to be led? Why persist in driving behind, When men if led, will follow blind?

If we think so, it will be-make up your mind. Business is business, and when understood, Buiness is service for all human good, And service means striving to give Sincere effort, aiding others to live. Trusting all men-all men will trust you-Believing all men for all men are true. Success and happiness comes without strife, If business is service-then business is life.

service Service We are only beginning to undertand what SERVICE really means. It is the most misunderstood and misused word there is in the whole of the English language. Webster tells us that "Service" is the work of a servant, a domestic or a subordinate and that a servant is one who serves, or is in the service of another. Rotarian Frederick Sheldon, of Sheldon's School of Salesmanship, Chicago, who gave to Rotary it's motto: "He profits most who serves best," says, "that service is a law, a natural law, a fundamental, and that a servant is one who applies the law of service." This is my definition of service and servant, which I have reasoned out from what Christ said to His disciples when they asked Him who the greatest man was: "Whosoever among you would become chiefest, or greatest, let him become the servant of all." Here is my definition in verse::

The Chiefest Servant of them all is he Who plans his life to serve unsparingly, Who sets his aims and life's ambitions high, Then works to fill the minutes as they fly, With honest effort to accomplish deeds Which benefit and help all human needs,

Serivce is divine. It is not effort as so many people speak of it as being, but it is a quality in effort. It is the heart and soul quality in whatever we do. We get paid for effort but not for service. Who would venture to place a money value on the product of the soul? The pay we get as the result of our efforts, keeps us, but the service we put into our efforts builds the man within us. It builds our business and it builds our lives It is the quality that you put into the goods you make that makes them the very best possible. It makes them easily sold. It makes them stay sold, and it makes the ultimate consumer hungry for more of those goods. Which proves that our motto is true: "He profits most who serves best." If Service is one of God's laws, then the man who understands that law and applies it fearlessly needs no other law. He is unfolding his life the way God means him te and he is building his life the Rotary way.

The climax of Jamie Herron's Rotary message was a oneact play by Rotarian Roger Noble Burnham of the Honolulu Rotary Club, entitled: "The Spirit of Rotary." The play is an exemplification of how one Rotarian got so filled with the principles and teachings of Rotary that he applied them fearlessly in the business in which he was assistant manager, that he was able, eventually, to change the policy of the business and to make over the character

Rotary. The real Rotary is to be found in the hearts of mene

To get the Spirit of Rotary one must go after it. It will not come to you and you cannot get it alone. The Spirit of Rotary is born in the hearts of men as they mingle together in good fellowship. Once every week Rotarians gather around the luncheon table; every man there representing a different business or profession; some with an abundance of money and more with but very little, but all recognize and estimate each other on the common level of quality of effort instead of quantity of effort. It is the man within the man that name; we greet each other as dear old friends; we chat and chaff and sing and play together, and unconsciously the spirit of Rotary is born in each one of us. It becomes a living force within us, compelling us to be happy. We are as boys again, eager for the companionship of each other. Did not the Great Master Rotarian say that "to enter the kingdom of Heaven we must become as little children." I believe that we are approaching the Kingdom of Heaven when we gather together for our Rotary Hour.

Rotary for Others

The splendid thing about the Spirit of Rotary is when once you get it you are not content until you give it away to some one else. You have to go after it to get it and when you get it you cannot keep it until you give it away. The Spirit of Rotary is not something to enjoy at the meetings and leave it at the meeting place until you come again next week. No, it is a living force for good, the atmosphere of the living God has surrounded you and you must take it away from the meetings with you and put it to work in your home, your neighborhood and in your business. Be fearless in applying the principles of Rotary and it will help you to build the man God means you should be. You will be giving Rotary to others and let this be your prayer. It is a poem by Rotary Meags:

Help me to live from day to day In such an unforgetful way, That even when I kneel to pray My prayer shall be of others.

Help me in all the work I do To ever be sincere and true, And knowing what I would do for you, Must needs be done for others.

Let self be crucified and slain, And buried deep and all in vain May efforts be to rise again Unless it be for others.

And when my work on earth is done, And my new work is Heaven's begun, May I forget the crown I've won While thinking still of others.

Others, Lord, yes others-May this my motto be-May I live for others, That I may live for Thee.

Rotary, Our Responsibility

王王

Yes, dear friends, we Rotarians are responsible for the application of principles of Rotary in the community in which we live. We are ambassadors of this beautiful code of life to all others in our communities. It is not enough to go through life just making a living-we must build a life, and in building, we must help others in building their lives in order that we will build the life of the community the Rotary way.

Leaders of men, the day is past When humans as machines are classed; When underpaid are underfed. Men do their work because they dread, Men are driven who work for need And do no more than earn their feed.

Leaders of men, because thou hast Not led you workers in the past, Because of selfish lust for gain, And business ethics to maintain. Because ye would not take the helm, Men sought leadership outside your realm

Leaders of men, do ye not know The child is born and he must grow To follow, or one chance in ten Perhaps he may lead other men; Whether leading or following, can If led aright, become a man.

Leaders of men, do ye not see Your great responsibility-

For men who follow must advance; To be happy, must have a chance To achieve their life's ambition, And to better their condition.

Leaders of men, your attitude Must be sincere and understood. But if your friendliness is a bluff, Your men will hate you like enough, But familiarity that's true Will bind all men in love to you.

Leaders of men, you'll see your men Not working for, but with you then, Ic help you serve humanity: The servants that you ought to be, And you will prifit none the less But add success and happiness.

Leaders of men, you who employ No other way can bring you joy No other way can you supplant False leadership men do not want. But leading with sincerity Will bring to all prosperity.

Business is Service

Above all things that Rotary teaches us is that business is a service to humanity and not just a means of making money. "He profits most who serves best," our motto, is absolutely true. Rotarians are proving it every day. They are runnning their businesses on the idea of Service, not Self. This is my idea of business: Business is business we've often been told, Successful business is measured in gold, ÷ . Do the other man first or he'll do you. Trust no man-not one-for no man is true, Each man for himself, "Old Nick" for the last, Are terms in business we've used in the past, And we cared not how we were cussed and slammed; And we got all we could and the public be damned, Business is business, whatever we think it, It may be a god-it may be a trinket; It may be a mill for grinding out gold. A mart where humans are bartered and sold, It may be a trap to catch all we can, A snare for strangling our fellow man, It may be a virile, strenuous game Which we play to win glory and fame, It may be a ladder to climb to power, To be hailed by some as the man of the hour, It may be a joy-ride of riot and dash To gather a rep for spending the cash, Or it may be a service to human kind. .1 of the owner of the business.

It is a message right from the heart of Rotary to every Botarian and a direct appeal to all Rotarians to measure all that they do by the Golden Rule and apply the principles of Rotary. This little play gives the non-Rotarian . clearer insight into the workings of Rotary and what Rotary stands for in the community. In other words, this message does sell Rotary and Rotary's big purpose.

Rotarians, your Big Job right now is to sell Rotary to the community in which you live. You can do that best by selling it to other similar clubs, such as Kiwanis, Lions and Exchange Clubs that are working along the same lines as Rotary. These Clubs are not rival Clubs but they are Brother Clubs, and if they are not unfolding or operating on the same high principles as Rotary, then I say that Rotary is partly to blame. Rotary cannot do this big job alone. No one Club can, but all Clubs in the Community co-operating with each other to understand service and the Golden Rule, can build the life of a Community the right way and make it a better place to live in.

INTERSCHOLASTIC LEAGUE

Build on Humility

There is only one base upon which to build our Rotary life and that is the base of humility. It takes a big man to be humble, and it takes a big man to be a Rotarian. He must be big enough to be little enough to be big. It is easy enough to be humble if we only think so. Humility means adjusting, detouring, going around to go on. No man ever became truly great who was not

Iron From Cuba.

Along the north shore of Cuba, near the sea at its eastern end, in three areas which formerly appeared to be simply expanses of barren ferruginous soil, recent exploration and test have shown that there exist deposits of a very pure iron ore, amounting to 2,000,-000,000 or 3,000,000,000 tons. When deprived of the large percentage of water which it contains, this ore will yield from 40 to 45 per cent of iron. Ore from this source has already been exported to the United States.

Hughes Joins in **Fight for Court**

Washington .- Participation by the United States in a permanent court of international justice was advocated Friday by Secretary Hughes in an address before the American Society of International Law as indispensible to any plan for the prevention of war and the promotion of peace.

"Whatever else we should have," Mr. Hughes declared, "we need at once a permanent court of international justice. No plan to promote peace can dispense with it. We shall make no progress toward the prevention of war if we adopt a perfectionist policy." Among the "actual needs" for a

world court the secretary cited the requirement of the nation for such a tribunal as a means of disposing of "its own controversies" and judicially adjusting international disputes. Existing means of arbitration, he said, "leave much to be desired." He declared the court "an establishment separate from the league (of nations), having a distinct legal status created by an independent organic act."

LOSSES BY FIRE IN TEXAS IN MARCH TOTAL \$346.145

Austin, Tex.-During March 196 fires, with an aggregate loss of \$346.-145, were reported to the state fire marshal. The report just issued does not show the losses for any of the larger cities except Houston.

The loss under the classification "Unknown," as usual, leads all other classes, with defective wiring a close second. Thirty-four fires from unknown causes were reported, with an aggregate loss of \$116,365. Fires originating from defective wiring totaled 18, with loss of \$84,154. Six incendiary fires, with \$8,200 loss, were reported.

Cigars or cigarettes caused six fires, with a loss of \$4,646. Matches caused six fires, with loss of \$1,572. Explosions resulted in five fires, with loss of \$31,685. Classifications of other fires are as follows:

Defective flue 29, loss \$12,501; sparks on roof 20, loss \$988; overheated stove or pipe 17, loss \$9,665; oil stove or lamp 15, loss \$23,008; "And that is right, too," said Mr. adjoining building six, loss \$6,308;

Orange Juice is Excellent for the Kiddies.

(Prepared by the United States Department | tablespoonfuls of sugar or more if the of Agriculture.)

Orange juice supplies vitamins and valuable mineral matter necessary for proper growth and physical well being. Physicians now recommend it even for bables because it provides vitamin C, the vitamin in which milk is most likely to be lacking and withbut molded in an orange rind basket out which scurvy and other disorders often occur. Oranges are equally valuable for older children and grownups, and the United States Department of Agriculture recommends their use at any meal. At breakfast it is usually convenient to serve either the whole fruit or the plain juice, but there are other simple ways of using them that give variety to the meals sert instead of cream. and do not involve long cooking such as might lessen the value of vitamin C.

Delicious Beverage.

For example, a delicious and nutritious beverage may be made by mixing two-thirds of a glass of juice with the white of one egg beaten to a froth. An orange gelatin dessert also is de-

Austin, Tex.-Commissioner of Agfculture George B. Terrell Friday, discussing immigration, labor supply and wages, said the immigration law hould be "tightened rather than loosened," and that increased wages is a hopeful sign of business revival. His statement follows:

FAVORS TIGHTENING

IMMIGRATION LAWS

Labor Supply and Wages Dis-

cussed at Length By State Officials.

"E. H. Gary, head of the Steel Trust, and the United States Chamber of Commerce, representing 'big business,' are demanding that the immigration act of May 19, 1921, as amended by resolution No. 55 of May 11, 1922, be loosened up,' and that more immigrants be admitted to this country in order to furnish big business cheaper labor. The president and some of his cabinet are lending listening ears to this demand. Those who want America for Americans must be on their guard.

"The operation of the present immigration act for only a short time orange juice is unusually sour; when has been very beneficial, and is conthe mixture is cool add the juice of tributing cause of the increase of half a lemon and the orange juice. wages and business revival. Strain into a mold, and set in a cold

"For the year closing June 30, 1921, under the operation of the old immigration law, 805,228 immigrants were admitted to this country, and for the year closing June 30, 1922, under the new law, only 309,556 immigrants were admitted-about half a million less.

"By prescribing quotas to be admitwhites of two eggs beaten stiff. Beted from the different countries the fore the gelatin mixture begins to set, law has kept out many undesirables. beat it gradually into the egg whites, The quotas of immigrants allowed by then allow it to cool and set. Soften one ounce (one- sible will think of additional ways in the committee from Texas, are op-There is many a good man leading half box or one envelope) of gelatin which orange juice can be included in posed to 'loosening' the law, but are in this country now than we can easily assimilate, and we should see that they are 100 per cent American before others of the same type are admitted. "I want to see more jobs filled by Americans and fewer filled by hyphenated aliens, who bring their bolsheviki ideas and bomb-throwing inclinations to this country, before we admit others of this type to discredit organized labor and weaken American ideals. There is no real scarcity of labor in this country. There is a scarcity of very cheap labor, and I hope such scarcity will always exist. "The commissioner of agriculture and the commissioner of labor of this state have watched the labor supply and the demand for labor, and we have had some applications from persons wanting to get employment and fewer applications from those desiring to employ labor, and practically no applications from farmers wanting to employ labor; so there has been no labor shortage in this state. There has been some emigration of Mexicans from Texas, and negroes from states east of Texas to the north, but it will not prove detrimental to the South, and to start for home it started to rain. the boy finally leaves home to earn will teach the North a lesson that they
