EXCELS ALL OTHERS

"Pride of The Plains" is the most widely used flour on the Plains to-day

A Few Important Features we Wish to Emphasize:

The people say: "PRIDE OF THE PLAINS Flour is as good, or superior to any in the market."

It is manufactured exclusively from Plains Grown wheat, which has been awarded the blue ribbon prize over all others in the country.

It makes more loaves of bread per hundred pounds of flour than any other, according to actual tests made by Darst & Dillingham's bakery and Mr. Alrept of Floydada.

Our processes of cleaning, washing and separating, are the most up-to-date methods in the milling business.

Our Head Miller, Mr. R. S. Norman, is undoubtedly as capable a man in all detail work in the connection with the production of a fine grade of flour as any man of the trade.

Four-fifths of all the people using flour in Plainview have given testimony of their perfect satisfaction with "Pride of The Plains" flour.

The Harvest Queen Mills is a home enterprise, buys wheat and other grains from the farmers, pays the highest prices, all of which keeps money at home.

These are a few Facts that cause a continually increasing demand for 'Pride of The Plains Flour'

If you have not recently had occasion to use "PRIDE OF THE PLAINS" FLOUR, we will appreciate a trial. Once a customer always a customer

DOUBLE HEADER BILL IS SIGNED

GOVERNOR COLQUITT APPROVES AMARILLO-EL PASO BILL.

Announcement of New Court is Hailed With Joy by the Attorneys of Plainview.

Austin, Texas, April 1st.—Governor Colquitt signed the Amarillo-El Paso Court Bill today, after having vetoed the separate Amarillo court bill, creating a supreme judicial district at each of the two cities, numbered respectively seventh and eighth.

Judges have not been appointed an Governor Colquitt states that he will not make the appointments until Sep-

tember, at which time the legislature will meet.

Views of Judge Reeder.

Aside from the Associated Press report to the Daily News this information came to Amarillo yesterday in the form of a telegram to Hon. C. B. Reeder, whose interests, like that of all Amarillo attorneys, has been keen in the matter.

The signing of the Amarillo-El Paso bill was followed by the veto of the Amarillo bill proper. It will be recalled that there was passed a separate bill authorizing the establishment of a Court of Civil Appeals in

Amarillo, separate and apart from the El Paso bill, and that another bill offered and passed authorizing the establishment of a court in both Amarillo and El Paso, or two separate courts provided for in the one measure. It was the individual or separate bill that was vetoed yesterday afternoon by the chief executive of the state.

Must Appoint Judges.

Speaking yesterday to a representative of the Daily News, Judge Reeder said: "The Amarillo-El Paso bill passed the legislature without the enacting clause and it will become a law June 11. At that time there will have to be judges ready to open the court and assume the active operations. It matters little that Governor Colquitt has said he will not appoint the court until September. He has doubtless been besieged by applicants and their friends until he feels that he would like to escape the appointments altogether. This does not relieve him of the responsibility, and he will have to make the appointments to meet the needs of the situation.

"There is cause for gladness among the lawyers and litigants throughout the Panhandle country. It means a great saving of time and of money as well, to all interested in the work of the appellate court. We may hope to get our matters taken on appeal cleared from the docket with much greater dispatch than ever. There are so many features that are desirable about the establishment of a court in the Panhandle, that it would be useless to attempt to enumerate them."

It will now be up to the citizens of Potter county to furnish a building for the housing of the court of appeals in Amarillo. It has been stated that the county commissioners court at whose head Judge W. M. Jeter stands, is ready for its part in placing a building at the disposal of the coveted tribunal.

Statement has been made to the effect that the present jail building will be refitted for use by the court of appeals. The building, after being remodeled will furnish one of the best structures occupied by an appellate court in the state. It is of the same general line of material as that intro-

duced into the court house and is sufficiently close to the county and district courts, and at the same time removed to an extent that there could be no conflict at any time.

The library will doubtless be furnished by the local bar, as this has been done in many instances upon the establishment of a new court of civil appeals. The time for arrangement is so short that Potter county will be called upon to get busy so that she may not be held blamable for retarding the wheels of the new tribunal, which are to start within a few months at most.

In the meantime there is need for activity. In this belief, all are agreed and there will be a season of work incident to getting ready for the proper installation of the new court.—Amarillo News.

POPULATION OF POTTER 11,822.

 The plaintiffs claim said land by chain of title as follows: Patent above described; deed from Mary A. Brewster, who was the surviving wife of J. A. Brewster, conveying said land to Geo. W. Brewster; deed from Geo. W. Brewster conveying said land to J. R. Keene; deed from Leona Sebastian, who was one of the heirs of J. R. Keene and her husband, B. E. Sebastian to W. W. Toney and J. P. Toney, deed from Belle D. Bryan and her husband W. S. Bryan to W. W. Toney and J. P. Toney, said Belle Bryan being one of the heirs of J. R. Keene; decree of the District Court of Hale county, Texas, partitioning the said J. A. Brewster Homestead Survey, plaintiff, Mrs. Pearl Powell, being the sole heir at law of J. P. Toney, who died intestate; and that the only claim of said defendants to said land is by virtue of their being heirs of J. A. Brewster, deceased.
 Plaintiffs further show to the Court that they and those whose estate they have, have had and held continuous, peaceable and adverse possession of said above described lands, cultivating using and enjoying the same for more than ten years before the filing of this suit.
 Wherefore plaintiffs pray that defendants be cited by publication to answer this petition and that upon a hearing hereof they have judgment for the title restitution and possession of the said premises, costs of suit, and all other relief to which under the law and the facts they may be entitled, and that the Court enter all such decrees and orders as is necessary to fully and finally settle the title to said premises.
 Herein fall not, and have you before said court, on the first day of the next term thereof, this writ, with your endorsement thereon showing how you have executed the same.
 Given under my hand and seal of said Court, at office in Plainview, this 24th day of February, 1911.

WANTS TO BUILD ROAD.
Mr. Elwood Believes Road Should be Built from Big Springs North.
 The following clipping from the Big Springs Herald may be of interest to some of our readers along the line of railroad building:
 "Mr. Elwood, a capitalist from Illinois, passed through the city this week en route to his ranch in the Plains country. In conversation, he stated that he was anxious to see Big Springs secure a road from here to Hereford and in case the proposition is put underway would be willing to give \$100,000 and right-of-way through his lands. He further stated that it would not require much effort to insure this line of railroad if he would get in behind the movement."
 This road would conveniently come by Lubbock and would no doubt take up the old trail of the Panhandle Short Line, that was a very prominent railroad project in this part of the country at one time. Mr. Elwood is a heavy land owner in this part of the state and his great inducements would no doubt have some effect on the final completion of a road through this territory.—Lubbock Avalanche.
 Mr. Elwood is the owner of the famous "Spade" ranches that cover such a large area in West Texas. It is said that he pays \$50,000 a year taxes on his ranch property and as a pasture land is given in at low figures, one can get an idea as to the size of his holdings. The ranch southwest of Plain-

view in Lamb, Bailey and Hockley counties alone, comprises about 500 sections.
 If it is true that Mr. Elwood now wants a railroad, it would appear that that gentleman has experienced a metamorphosis for contingent railroads mean the dissolution of the big ranch and Mr. Elwood has always said heretofore that he did not care to cut up any of his empire holdings.
 J. V. Boston of Kress, Texas was in Plainview Monday and while here bought of Mr. Patterson a well-bred "Kentucky White Stallion" Mr. Boston expects to stand him this season at his home place near Kress. He also owns and is standing again this season "Oliver," one of the best Jacks in the South Plains. The sire of this Jack was imported from Spain and he is of equally as good breeding on his dam side. Mr. Boston believes in a better grade of stock for the South Plains which is highly commendable.
 The railroads have put on an "Onion Special" running direct from Laredo to northern markets, where this toothsome vegetable is eagerly awaited, early Texas onions being a delicacy greatly enjoyed by the people of the north.
 The first shipment of onions of the season was made from Laredo last week and train loads will be shipped daily from now on to the northern and eastern markets. During the season of 1910, Laredo shipped approximately 2,000 cars, according to the estimate of the Laredo Board of Trade, or two-thirds of the onion crop of the southwest, while the shipments during the coming season are expected to reach at least 2,500 cars.
 The Commercial Clubs of the state are cultivating close relations with the farmer. In many instances, agriculture is the leader in club work. Securing immigration, increasing production, improving public highways, improving livestock has been a part of the work of clubs and many county fairs have been held, where agricultural products have been exhibited with satisfactory results. But the Beaumont Chamber of Commerce has taken the lead in organizing the farmers of that section into an association for the marketing of their products.
 The price is the thing. The Commercial Clubs that can open up a better market for the farm products have accomplished as much as if they had secured a factory for there is no prosperity like that of the farm and a Commercial Club can render no better service to a community than by co-operating with the farmers in the marketing of their product.
 The Texas farmer has learned well the lesson of diversification. Our corn crop is making rapid gains on King Cotton. We are raising our own wheat oats and hay, and our vegetables supply the northern and eastern markets. We are not only diversifying our products but we are feeding it on the farm, fattening our stock and using it in raising another crop.
 The March Federal Crop Reporter shows 60,435,000 bushels of corn in the granaries of the Texas farmer on March 1st, which is 34 per cent of the total output; we have 4,865,000 bushels of our oats on hand which is 20 per cent of the total output and we have 2,629,000 bushel of wheat which is 14 per cent of the total yield.
 Our supply of cereals is sufficient to carry us through until the next year, which adds to the independence of the Texas farmer.
 The proper disposition of a crop is as important as raising it and the above figures show that the Texas farmer is a close student of practical farming and is financially able to manage his affairs.
 A Holstein breeder claims the banner record of economical production. One of his cows made 19 pounds of butter in seven days. She was fed about six pounds of bran and as much alfalfa as she would eat daily. Her feed cost 16c per day and her milk yield was about 64 pounds or 22 quarts.
 Dairying has become one of the most important branches of farm industry. Do not fear that the present high prices will not continue, for the number of milk cows and the amount of butter made does not keep pace with the increase of population the country over. Butter must go higher rather than lower under present conditions.

WOMAN FOR MAYOR.

Mrs. Ella Wilson of Hunnewell, Kansas Ties Male Candidate.

Hunnewell, Kan., April 4.—Mrs. Ella Wilson is now mayor in this town.

At the city election yesterday she and O. M. Akers were tied for the office. At first it was suggested that the two candidates draw lots for the office. But that did not appeal to the male voters. They said if Mrs. Wilson could race a man to a tie she ought to have the office. Therefore, the judges of the election declared her elected. It was she who proposed to clean up Hunnewell.

TULIA GETS WATERWORKS.

Tulia, Texas, April 5th.—Yesterday was election day in Tulia and Dr. E. Lee Dye and T. F. Gilliland were elected as aldermen to succeed themselves without opposition.

At the same time there was submitted to the voters of the city the proposition of issuing \$22,000 bonds for waterwork and \$5,000 for electric lights, which was carried by a vote of 112 for to 26 against, so Tulia is to have waterworks and an electric light plant under the management of the city.

It is understood that the city authorities shall proceed with the preparation and sale of the bonds and the construction of the plant as rapidly as possible.

At the same time there was submitted to the voters of the city a proposition of granting to the Northwest Texas Telephone Company, a twenty-four franchise, which resulted in favor of granting the franchise by a majority of two votes.

Quite a lot of enthusiasm is being manifested by the members of Plainview's M. W. A. Band. We understand that about twenty-five have instruments and are practicing regularly. But we also understand that they have no instructor, which is rather essential for a first-class band. The citizens of the town should assist this worthy enterprise. The music of a

band concert on the court house square would mix well with the mellow moonlight of a summer night.

In the Cottolene cake-baking contest at Vickery-Hancock's, Wednesday, a very nice display of some forty cakes were auctioned off for the benefit of the cemetery association. The prizes tendered were as follows: 1st, Mrs. H. W. Potts; second, Mrs. C. R. Lee; 3rd, Mrs. P. D. Hunsaker; 4th, Mrs. L. L. Dye; prize for cake baked by girl under twenty years of age, Miss Beulah Rushing.
