## CITY CONSIDERS STREET LIGHTS

Council Appoints Committee to Confer with Business Men Regarding Expense of Illumination.

### WILL ASK COUNTY TO HELP

All Trash Must Be Burned in Iron Receptacles Between Sunrise and Sunset.

Street lights for Plainview! Not yet, but the Council wants more illumination. At its meeting Tuesday night a committee was appointed to canvass the town with a view to seeing if business houses would stand a portion of the expense of street lighting in the business section. The County Commissioners will be asked to pay a portion of the expense for lighting the public square.

A proposition has been made to the City Council to install a 500-watt light at the top of a 35-foot pole on the four corners of the public square; also to put a similar light at Third and Pacific and Third and Covington Streets. The installation will cost \$12 for each light; there will be a maintenance charge of \$7 a month for each light.

Undoubtedly pedestrians who happened to be caught out during the recent rains would favor street lighting heartily. At least a few unfortunate report that they reached home in a condition much more bedraggled than would have been the case if they might have seen where they were stepping.

The Council also passed an ordinance requiring all persons to burn trash at the back of their store buildings in iron receptacles, not nearer than eight feet to any building, and between the hours of sunrise and sunset.

### HE LIKES THE HERALD.

D. W. Wallace Thinks Best Way to Tell of Country is to Send "Weekly Letter."

D. W. Wallace thinks The Herald is the best county paper published, and Mr. Wallace is helping blanket the country with The Herald. "I am sending out five copies of The Herald already," he said last week as the Herald man wrote his receipt, "and I guess you had better send the paper to my brother at Austin, Texas. That is the best way I know to interest people in this country."

Mr. Wallace is a prosperous farmer near Lockney. He believes that a farmer can prosper on the South Plains if he uses common-sense methods adapted to the conditions here. Every farmer ought to raise live stock and chickens, as well as feed stuff, according to Mr. Wallace.

### CHINA WOULD SWAT THE FLY.

Permission is Given to Translate Kansas Health Almanac into Chinese.

Topeka, Kans., April 22.—Dr. J. S. Crumline, secretary of the Kansas Board of Health, has received a letter from the Women's College at the Methodist Mission of Nanking, China, asking for permission to translate the Kansas health almanac into Chinese for free distribution there. Permission was granted by Doctor Crumline. Copies of the almanac have been asked for from practically every country in the world. It contains arguments for preventing disease by fighting the house fly and practical sanitary and health rules.—Kansas City Star.

### TREES AND SHRUBBERY NEEDED FOR PLAYGROUND.

The Civic League is asking the donation of trees and shrubs for the East Side Playground. This ground was given by the school board; it is the block lying just west of the East Side School.

If you have a tree or flower of any kind the ladies ask that you turn it over to them; they would also be glad to have cash contributions. Mrs. L. Lee Dye will receive all gifts.

H. D. Hyde put in the hydrants on the playground without charge.

Life is not an idle one.

But iron dug from central gloom,  
And heated hot with burning fears.

And dipt in baths of hissing tears.

And batter'd with the shocks of doom,  
To shape and use.

—Tennyson.

## RAIN COVERS EXTENDED TERRITORY; FROST, TOO.

Precipitation at Plainview Is 1.24; Thermometer Goes Down to 34 Degrees Thursday Morning.

The weather man reports 1.24 inches of rain this week. Forty-six-one-hundredth fell Monday morning. The light fall throughout most of the week will be of immense benefit to farmers. Wheat was beginning to need rain. The downpour will start all field crops and gardens off in fine shape.

Freezing weather was reported over Western Union wires for Thursday morning, but the mercury stopped just two degrees above the ice mark. It registered 34. Considerable frost formed, but it does not seem to have done much damage to fruit.

The rain seems to have fallen south to Sweetwater, throughout the Pecos Valley and for a considerable distance down the Fort Worth & Denver. It also fell over the North Plains.

### DEPUTY DISTRICT MATRON TO VISIT EASTERN STAR.

Mrs. Robinson, of Lubbock, Will Be Guest of Mrs. L. C. Penry on Official Visit.

Mrs. Robinson, of Lubbock, deputy district grand worthy matron of the Order of Eastern Star, will make an official visit to the local chapter of Eastern Star this week. While in Plainview she will be the guest of Mrs. L. C. Penry, on Slaton Street, who is worthy matron of the local chapter.

There will be a call meeting of the Eastern Star in the Masonic Building at 2:30 o'clock Friday to meet Mrs. Robinson.

### HATCHELL IS VICE PRESIDENT.

State Undertakers' Association Gives Plainview Man High Honor.

A. A. Hatchell, of Plainview, was elected Second Vice President of the State Undertakers' Association, which met in San Antonio, Texas, last week. This association is composed of about three hundred undertakers from all over Texas.

Galveston was chosen for the annual meeting which will be held in April, 1914.

### CIVIC LEAGUE CALLS MASS MEETING.

The following program is arranged for the big mass meeting at the Opera House Tuesday evening, April 23:  
Music—By the Band.  
Solo—Miss Mildred Buchheimer.  
Introductory Remarks—Judge J. E. Lancaster.  
Illustrated Lecture, "The Fly"—Prof. R. L. Marquis, of the Canyon Normal.  
"The Civic League of Plainview"—B. O. Brown.

### SUNDAY AT CALVARY BAPTIST CHURCH.

The pastor will be absent from his pulpit Sunday, and is glad to announce the following order of services for the day:  
9:45 a. m.—Sunday School.  
11 a. m.—Sermon—Dean Reynolds, of Wayland College.  
7:30 p. m.—B. Y. P. U.  
8:30 p. m.—Sermon—Dr. I. E. Gates.  
C. R. HAIRFIELD, Pastor.

### IS PAINFULLY BURNED WHEN GASOLINE EXPLODES.

C. W. Barnes received severe burns about the head and arms yesterday, when he spilled some gasoline on a heated engine. Mr. Barnes is in the employ of the Plainview Creamery Co. Dr. Gidney says that his burns will not permanently disfigure the young man.

### COUNTY COURT NOTES.

The jury was empaneled for April term of Hale County Court Monday. The case of the State of Texas vs. Choc Morgan was disposed of by Mr. Morgan pleading guilty to one indictment; nine other indictments were dismissed. Wednesday the case of R. A. McWhorter vs. R. M. Bridges, to secure action under contract, was taken up. The court will adjourn Saturday.

### INVENTS KAFFIR HEADER.

William Jackson, of Plainview, has invented a milo maize and kaffir corn header, according to reports sent out from the United States patent office.

## DALLAS BOOSTERS WADE THRU MUD

Trade Evangelists Say That Precipitation Has Followed Them Through Entire Trip.

### PLAINVIEW MOST TALKED OF

South Plains Metropolis Is on Everybody's Tongue; Visitors Anxious to See Development.

The Dallas Trades Boosters have come and gone. According to their statement, Plainview is indebted to them for the splendid rainfall of the past week. Rainfall has been just ahead of the excursion train, the boosters say, ever since they reached the Pecos Valley.

The train consisted of nine cars. The party left Dallas April 17, via Fort Worth, Wichita Falls, El Paso, Pecos, and up the Pecos Valley to Roswell; thence to Amarillo. They will reach Dolls Friday morning. At El Paso the visitors went across into Mexico and were entertained with a genuine Spanish bull fight.

There were 110 in the party. However, not nearly that many ventured forth at Plainview. It was raining hard when the special stopped at the Santa Fe depot. The streets were covered with water. A few of the more hardy Dallasites did venture up town through the rain. In the afternoon a stop of some thirty minutes was made. The sun was shining and a number of the visitors did get to the square.

"Plainview is the most-talked-of town we have visited," said the visitors. "Everywhere they are talking about Plainview and the Shallow Water Belt." And our visitors were pleased with what they saw. Those who expressed themselves, however, marvelled that a town so widely known for its live citizenship as Plainview would permit its principal thoroughfare from the depot to town to remain unpaved—much less without even a sidewalk.

On the return from Lockney well No. 3 of the Texas Land and Development Company was running. It was immensely interesting to the visitors.

### BRYAN SERVED SOFT DRINKS.

No Diplomatic Circles Are Talking About Secretary's Grape Juice.

Washington, D. C., April 22.—Diplomatic circles were, in animated discussion today of Secretary Bryan's dinner party the other night to some forty distinguished members of the diplomatic corps, at which unfermented grape juice was served in place of the variety of wines which customarily have a place. Officialdom talked so much about the innovation that the story leaked out.—Kansas City Star.

### FEDERAL COURT AT AMARILLO.

Judge E. R. Meek Is Holding Two Week Term in Panhandle.

Amarillo term of the United States District Court for the Northern District of Texas opened Monday. District Judge Edward R. Meek, of Dallas, is presiding. Marshal Captain William J. McDonald, Deputy Marshal Larkin B. Farish, Court Reporter George W. Parker, District Clerk L. C. Maynard and District Attorney William H. Atwell are also in Amarillo.

The court has a regular session of one week. Because of the large amount of business to be handled there will be a special session through an additional week, says the Dallas News.

### STORK FAVORS GIRLS.

The records give four births in Plainview and Hale County this week, all girls. They were: On April 17, to J. W. Boaman and wife, a girl; on April 18, to P. H. Bryan and wife, a girl; on April 21, to R. E. Rumpy and wife, a girl; on April 23, to James B. Farmer and wife, a girl.

### GOOD RAIN AT LITTLEFIELD.

Littlefield, Lamb County, Texas, April 24.—Splendid rains fell over this portion of the South Plains country Tuesday and Wednesday. This, added to the rains which had fallen Sunday night, has put the best season in the ground that the country has had for a long time. The farmers are very busy and the cattle men are rejoicing over the splendid grass which these rains insure.

## MORGAN COMMENDS SOUL TO CHRIST

Will of Financier Directs His Heirs to Defend Faith at Any Cost.

### PAINTINGS TO WIDOW

Son and Three Daughters Are Each Bequeathed \$3,000,000; \$1,000,000 to Art Museum.

The will of the late J. P. Morgan contains remarkable expressions of faith in the Almighty, and directs his children to defend the Christian faith at all hazards. The will was made public in New York City Saturday night. The great financier, in his last "testament," says, in part:

"I commit my soul into the hands of a Savior in full confidence that he will present it before the throne of my Heavenly Father, and I direct my children to maintain and defend at all hazards and at any cost of personal sacrifice the blessed doctrine of the complete atonement of sin through the blood of Jesus Christ once offered, and through that alone."

A trust fund is provided for the widow sufficient to yield an income of \$100,000 a year. Besides this, Mrs. Morgan will get a country place and a town house on Madison Avenue, and also all the art works that Morgan had accumulated. Each of the three daughters and the son is given \$3,000,000, held in trust. A million dollars is given to Herbert Satterlee and William P. H. Wright, as patrons of the Metropolitan Art Museum and the American Museum of Natural History. The widow of Charles E. Tracy, a brother-in-law, gets \$1,000,000. Other bequests are left to St. George Episcopal Church and to the support of missionary stations in the diocese of New York.

### CHANGES IN BUSINESS.

Plainview Firms Will Make New Connections May 1.

With the coming of May a number of changes will take place in business firms of Plainview. Hartley-Mise Hardware Company will incorporate under the name of The Plainview Hardware Co. J. T. Hartley, W. T. Mise and J. A. Wade are the incorporators. The firm of Hartley & Mise opened for business January 1, and will enlarge their stock after incorporation. J. A. Wade has been in the wall paper and paint business in Plainview for some time. The new firm will make no change in store location.

D. M. Thomas, of Plainview, and W. A. Miller, of Williamson County, have formed a partnership, and will be open for business shortly, under the firm name of The Plainview Buggy Company.

### EPISCOPAL LADIES

RECEIVE \$10.65.

The ladies of the Episcopal Guild received 10 per cent of cash sales at R. A. Long's Drug Store Saturday. The sum realized was \$10.65. Mr. Long says that he will make a similar offer to the ladies of other churches on different dates.

### FORD IS POPULAR.

Barker & Winn have sold and delivered thirty-five Ford automobiles in Plainview and adjoining territory since December 12. More than 1,200-00 Fords are now in uses in the United States.

### EPWORTH LEAGUE.

The Epworth League of the M. E. Church will render the following program at the meeting on Sunday afternoon, April 27, at 4 o'clock: "The Italian in America"—Professor Hendry, Leader.  
Bible Lesson—Mark 7:24-30; Matt. 15:21-28.  
"The Italian in His Home"—Social, Religious and Industrial Environment—Miss Speer.  
"Race Characteristics"—Mr. Darden.  
"The Italian in America"—Social, Religious and Industrial Environment—Mr. Harris.  
"The Italian an American Citizen—His Thrift and Ambition"—Miss Hill.  
"Our Opportunity and Obligation"—Miss Wheeler.  
Miss Wade will sing.  
Songs from the Hymnal.

## FURNISHES QUICK SERVICE FOR DALLAS TRADE BOOSTERS.

Southwestern Telephone Co. Makes Connection with Train from Dallas in 11 Minutes.

In just 11 minutes after the special train carrying the Dallas Trade Boosters pulled into Plainview yesterday a member of the party was talking with his wife, in Dallas. The train was equipped with telephone service throughout.

Joe Ryan, Local Manager for the Southwestern Telephone Co., had his men on hand, and as soon as the excursion train stopped connection was made with the local line. "Nearly as quick as the local service in Dallas," said a visitor.

### PIONEER PARK WELL PRODUCES MUCH SAND.

Rain Delays Work on Lake Park "Gusher"; Drilling Is Complete on Pioneer No. 2.

Pioneer Park well number 1 was brought in Saturday. This is the fourth well pumped by the Texas Land and Development Company. The well has produced more than 1,300 gallons of water a minute, according to Engineer Charles, of the Development Company, and is pumping more sand than any well yet drilled. More than 2,000 cubic feet of sand has already been discharged by the big centrifugal pump.

The second well on Pioneer Park tract has been drilled and concrete work is being placed for the pump. Mr. Charles says that this well shows the finest water-bearing gravel of any yet put down.

Just as soon as the water from this week's rains dries up drilling will begin on the big well just north of the Santa Fe depot. A derrick was built last week. The well at the depot will furnish water to the 35-acre lake which the Development Company will include in its park.

### A \$200,000 CATTLE SALE.

Stock of Comanche Indians Brings \$41.00 a Head.

Lawton, Okla., April 22.—The biggest deal in live stock ever consummated in Oklahoma since days when cattle herds roamed the prairies without confine of pasture fence is today's sale of the cattle herds of the Geronimo band of Apaches.

The bid of M. Sanson, of Fort Worth, Texas, \$41.00 a head, was high, and to Sanson and his associates has been awarded the entire herd of approximately six thousand cattle. With Sanson are associated in the deal W. H. Quinette and S. A. Elrod, of Lawton; J. H. Stine, Chickasha, and T. L. Burnett, Wichita Falls, Texas. If the herd counts out six thousand head they will net the Apaches \$249,600. The count will begin May 15.—Kansas City Star.

### MUST SPRAY TREES NOW TO GROW CHOICE FRUIT.

State Entomologist Urges Growers to Combat Insects; Farmers' Institute Saturday.

J. W. Neill, Director of Farmers' Institutes, and E. A. Miller, Assistant Entomologist of the Texas Department of Agriculture, came in from Lockney today. They will hold a Farmers' Institute at the Court House at 2 o'clock Saturday afternoon. Mr. Neill will talk on crop rotation, seed selection and culture methods. Mr. Miller will talk on insect control, with particular attention to the apple worm and other fruit insects.

Mr. Miller urges all growers to spray their fruit. It means the difference between plenty of choice fruit and practically no fruit at all, Mr. Miller says. "This is a good fruit country," Mr. Miller says. "But the growers cannot expect to be rid of insect pests unless they exterminate them. These pests bother fruit growers everywhere."

Last year Mr. Miller urged Hale County growers to spray. Those who did so matured good fruit; those failing to spray lost practically all of their fruit. The apple worm is one of the easiest to control, according to Mr. Miller, but it must be taken in hand—spraying is necessary.

Farmers' Institutes were held in Lockney and Floydada.

Rev. J. W. Saffie is in Plainview from a trip to Merkel, Post City and other points in the interest of Wayland College. Brother Saffie reports encouraging conditions all over the South Plains.

## LIVE FLIES MEAN DEAD CHILDREN

Kill One Fly Early in the Season and You Destroy Swarms of Pests, Says Cleveland News.

### CAMPAIGN WORLD-WIDE

Civic League Names Committee to Take Care of Flies; Boys and Girls Getting Traps Ready.

"When you see one fly at this time of year, you see the mother or father of hundreds of thousands of flies. And when you kill that one fly early in the season, you kill vast swarms of pests unborn," says the Cleveland (Ohio) Times.

And when you kill that ONE fly early in the season, you kill vast swarms of pests unborn.

No well-informed man or woman needs to be told how flies spread disease. The seek the vilest filth to deposit their eggs; they light with their spongy feet upon decaying matter of all kinds. The disease germs stick to the fly's feet. And the fly, having laid its eggs and provided for the next generation of flies, hurries to your sugar bowl, or to your child's face, and spreads the germs of disease wherever he goes.

The mild winter makes this a most dangerous year for flies.

The crop of this year depends upon the number that have escaped death through cold, and this spring the number that will start the summer crop is ten times as great as usual.

There is no task more important than wiping out disease—and dangerous disease comes from the tiny germs of which flies the carriers. If the flies were destroyed, the germs of disease would not be carried to the faces of sleeping children, or to the food that is eaten. To kill flies alone and banish them from the country would do more to save life than any ONE thing that intelligent human beings could accomplish now.

### Preventive Work Efforts.

You know what wonderful work the Government did at Panama, in New Orleans, in Cuba and elsewhere, drying out yellow fever, simply by destroying mosquitoes. No man can possibly get yellow fever unless he is bitten by a mosquito carry the yellow fever germ.

When the breeding ground of the mosquitoes was covered up and the mosquitoes destroyed, yellow fever disappeared at once.

The Government eventually will fill in marshes, and thus wipe out the mosquito as effectually as wolves and rattlesnakes have been wiped out. Human beings acting collectively can do for the flies what the Government will do for the mosquitoes—and the main thing is that each should do his share. Screen your windows, kill the early flies and teach your children to kill them.

### KILL THE FLIES AND SAVE THE CHILDREN.

Deliver Flies Tuesdays.

The Civic League has appointed three ladies to receive flies and record the standing of contestants. Contestants on the East Side will deliver flies to Mrs. L. D. Rucker, 219 California Avenue; contestants on the West Side and grades 1, 2 and 3 at Central School will deliver flies to Mrs. A. W. McKee, 410 Archer Street; contestants above the third grade at Central School will deliver flies to Mrs. R. S. Charles, 210 Grover Street.

Flies must be delivered in lots of one pint or more on Tuesday mornings between 8 and 9 o'clock. The judges will count one-half pint of flies and after that measure all turned in.

### Getting Traps Ready.

The boys and girls are manifesting considerable interest in the contest. Many an embryo camper has fashioned fly traps since the contest was announced. A number of boys are going into the thing in a business-like manner. They propose to place half a dozen traps in various places. There can't be too many traps. The thing of being paid for a sport so fascinating as trapping appeals to the youths of Plainview.

Any boy or girl fifteen years old or under within two miles of the Court House is eligible. There is a first prize of \$15, second prize of \$10, third prize of \$5 and twenty prizes of \$1 each. Then, Mr. Henderson, Manager of the Texas Land and Development Company, offers a special prize of \$25 to the winner. The contest closes July 1.

Mrs. Judge Hardwick, of Abilene, is a visitor at the home of Rev. and Mrs. S. A. Barnes.

### SWEET POTATO, TOMATO AND CABBAGE PLANTS---in any quantity

All plants large and hardy. Ready for open planting.

Window and Porch Boxes already planted and ready for delivery. No trouble to you. No two alike. Big assortment to select from or we can design boxes to suit you.

### For Your Rose Garden

We offer you the best in Rose Buds, Yearlings and Two-Year-Olds. A heavy line of Bedding Geraniums and Chrysanthemums. All plants that go to the open in Spring.

The addition to our Greenhouse is almost complete. We will keep, in season, all kinds of garden plants—Sweet Potato Slips, Tomatoes, Pepper, Cabbage, etc.; also a supply of best bulk Vegetables and Flowers.

#### CUT FLOWERS.

We propose to keep on hand at all times everything in Cut Flowers and Pot Plants found in a first-class Greenhouse.

#### BIRDS AND FISH.

We have a number of beautiful species of Canaries, Red Birds and Gold Fish for your home.

## Plainview Floral Company

W. H. JEFFRIES and E. S. KEYS, Proprietors  
North Pacific Street Telephone No. 195

### Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

#### For the Bowels

If you only know as much as we and those who have used them know about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Rexall Orderlies; and you know that if a medicine appeals to a child, it will appeal to grown-ups.

#### Rexall Orderlies

help chase gloom, dispel blues and make you feel happy by their splendid tonic, cleansing and strengthening effect upon the bowels. They act to free the system—and keep it free—from the distress and ill feeling that naturally results from irregular and inactive bowels.

Rexall Orderlies do this quietly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause

of bowel ills and in a short time usually make unnecessary the continued use of physics and purgatives, thus tending to stop such unhealthy habits as may have been formed.

#### Make Us Prove This

We do not ask you to take our word for this. We want you to make us prove it, and at no cost to you.

Buy a box of Rexall Orderlies at our store. Use them once, or use up the whole box. Then, if you are not thoroughly satisfied, just come back empty handed and tell us. Without obligating you or questioning you we will return the money you paid us for them.

Doesn't that indicate that Rexall Orderlies are at least worthy of trial? Doesn't it prove our faith in them? Doesn't it merit your confidence? Could any offer be more fair to you?

We particularly recommend Rexall Orderlies for children, delicate and aged persons. Rexall Orderlies come in convenient vest-pocket size tin boxes. 12 tablets, 10c; 36 tablets, 25c; 60 tablets, 50c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at The Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

#### FEEL RIGHT ALL THE TIME.

Don't Let Periodical Spells of Lazy Liver Ruin Your Temper and Spoil Your Work.

If your liver doesn't behave right all the time—if it sometimes stops working and you become bilious and "headachy"—don't take calomel, but try Dodson's Liver Tone.

You are safe in taking Dodson's Liver Tone. It's a harmless, pleasant vegetable remedy that starts the liver without stirring up your whole system, as calomel often does. It is especially good for children who need a liver tonic once in a while, but who should not be dosed with strong drugs.

Dodson's Liver Tone is sold by R. A. Long Drug Co. This store guarantees it with a clean open-and-shut guarantee—your money back with a smile if it fails to satisfy you. Price, 50 cents a bottle, and your money is

as safe as if you had it in your pocket. If you need the medicine you need it badly—if it doesn't satisfy you—your money back. Buy a bottle from R. A. Long Drug Company today under this guarantee. —Adv. 17

#### BLACKLEG.

The Stockman's friend tells how to prevent Blackleg without vaccine (dead shot) and raise male or female at will. Price 50 cents, postpaid. Satisfaction guaranteed.

We can supply your wants with the best Coal all the time. COBB & ELLIOTT. —Adv. 21

When in need of a good Paper Hanger or Painter, phone 459. PLAINVIEW DECORATING CO., W. D. Jordan, Manager. —Adv. 22

### PEANUTS AS FOOD HELP HOG RAISERS.

Stockman Declares He Doubled Money by Using Peanuts and Milo Maize.

"Peanuts and Pigs" make a most profitable combination, according to the experience of numerous successful farmers. Local men seem to be taking up the idea of planting peanuts more extensively for feed. R. P. Mayhugh says that he will plant sixty acres this spring; J. F. Garrison will have a considerable patch of peanuts at Garwood.

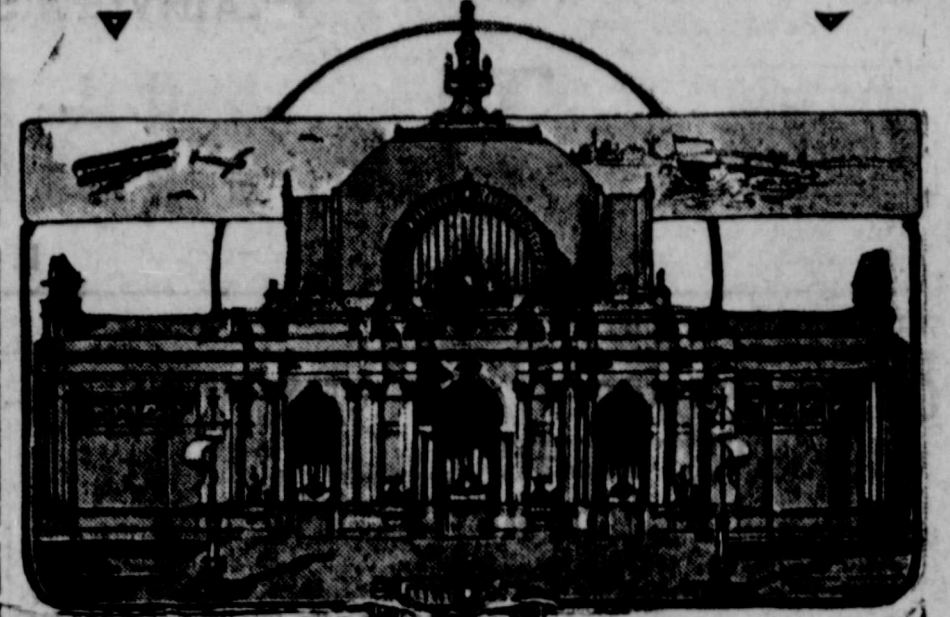

Experienced growers say that peanuts will stand as much dry weather as either Kafir corn or maize, once they are started. Both the vines and the nut make a superior food. C. W. Post has topped the market twice on peanut-fed hogs. Nor is the Battle Creek specialist alone in successful growing of hogs on peanuts.

W. B. Starr, assistant agricultural agent of the Texas & Pacific Railway Company, headquarters at Longview, in discussing the care and feeding of his stock with a representative of the Texas Commercial Secretaries and Business Men's Association, said: "I have now ready for market 182 head of hogs that will average 180 pounds each. These hogs were raised on peanuts and milo maize, which I find will produce twelve pounds of fat to the bushel, at the rate of a pound to a pound and a half a day. I believe that I have doubled my money on my stock, for the use of peanuts and milo maize has minimized the cost of feeding for below the cost of corn.

"Peanuts are now selling at 72 cents per bushel on the market, but by feeding them to the hog, the price per bushel would be \$1, providing the hog sells for 8 cents, and even at 6 cents for the hog, your peanuts, as a food, are worth 75 cents per bushel, and besides you are spared the cost and trouble of harvesting and marketing the crop, which will amount to at least 10 per cent.

"Therefore, I find it cheaper and more profitable to let the hogs run at large on the peanut and milo maize fields than to harvest the crops. I once believed that hogs could not be raised successfully without corn, but that theory has been dispelled by experimenting with peanuts and milo maize, two crops that abound extensively in my section of the country and are as good fat producers as corn and the cost per bushel is far less."

### PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.

DESIGN of the Motor Building at the Panama-Pacific International Exposition. This structure will be one of the largest of the exposition palaces, approximately 275 feet front by 800 feet deep, covering about 219,000 square feet, or more than five acres. The dome, which surmounts the center of the front portion of the building, is 130 feet high and surmounted with a turret composed of the prows of modern motor boats, each carrying a searchlight. This point will be used by Mr. Ryan, the chief of illumination of the exposition, for the purpose of lighting up the grounds and adjacent buildings. Other groups at the base of the building will convey, allegorically, the uses of electricity, gas and other mechanical devices which compose the motor. Its modernity is in harmony with the nature of the exhibits which it will house, and its triumphal character is emblematic of that triumph of modern transportation, the automobile. The groups of statuary surmounting the attic will be allegorically carried out to typify the triumph of the motor over the elements. The main group in front will be a sort of quadriga of automobiles typifying the conquest over the land. On the sides will be allegories of the motor boat and the aeroplane, respectively, typifying the victory over the sea and air. On either side of the entire length of the building there will be a frieze 10 feet high in bas relief, giving the history of transportation from the early log cart up to the most modern development of the automobile.

#### WINTER TRUCK SEASON CLOSES.

San Benito, Texas, April 23.—The winter truck season has closed here, and during the first three months of the year 744 cars of truck, exclusive of local express shipments, left this point. The lettuce shipments this year from the lower Rio Grande Valley have shown a decided increase over shipments made last season, and the prices were satisfactory. Seventy-four cars of lettuce were shipped from here alone, the total shipments being 200 cars from the valley.

The shipping of spring vegetables will begin next week, and will consist of beans, tomatoes, cukes, green peppers, okra, egg plant, watermelons and cantaloupes.

For the best Nigger Head Coal see the ALFALFA LUMBER CO.

#### WILL DEDICATE MAINE MEMORIAL MONUMENT.

All Available Battleships Will Take Part in Exercises at New York May 30.

All available battleships of the Atlantic fleet have been ordered to participate in the dedication of the Maine memorial monument, at New York City, May 30, according to reports from Washington.

The battleships which will be mobilized at the naval station on the North River will include the Wyoming, Florida, North Dakota, Delaware, Vermont, South Carolina, New Hampshire, Kansas, Virginia, Georgia, New Jersey and Rhode Island.

Everything Second-Hand at WATSON'S.—Adv. 23

LIGHT STEERS IN DEMAND.

Kansas City Buyers Easy on Beef; Stockers Also Slow.

Kansas City Stock Yards, April 21.—After Wednesday last week there was a better demand for all kinds of killing cattle, and the week closed steady to 15 cents lower on them.

Stock cattle and feeders ruled steady during the week, though trade was slow at the close. The run today here is 11,000 cattle, and the market is steady to 10 cents higher.

Today a string of 10 carloads of desirable stock steers, weighing around 700 pounds, sold at \$7.75, considered cheap for anyone looking for frame rather than flesh.

While the general market horizon does not look beefy, there are about 100,000 big cattle at distilleries in Illinois, Indiana and Kentucky ready for the shambles, and which will probably run in the next 30 or 60 days.

After a bad break the first of last week, hogs made some gains, but the situation is still weak.

Eastern demand for light hogs is not quite as strong as heretofore, and all weights are selling closer together.

Sheep and lambs declined 25 to 50 cents last week, without any visible reason, and pessimism ruled at the end of the week.

10 cents higher, lambs at \$8.30 to \$8.60, yearlings worth \$7.50, wethers \$6.75, ewes \$6.40. Texas goats sold at \$4.50 today, and 103-pound clipped Texas wethers \$6.15.

TWO MILLION AND A HALF VOTED FOR GOOD ROADS.

Fort Worth, Texas, April 23.—The State-wide campaign that is being waged in Texas for good roads has resulted in the progressive citizens in ten different counties voting a total of \$2,300,000 in bond issues during the first three months of 1913 for improved highways.

Eighteen good roads bond elections, involving a total of \$2,975,000 were held during the first quarter, but in eight of these the issue met defeat for lack of the necessary two-thirds majority, in most instances, with a consequent loss to the cause of improved highways in Texas of \$675,000.

The Commissioners' Courts in various road precincts of nine counties have set dates for good roads bond issue elections in which a total of \$1,100,000 will be voted upon.

The following counties reported road precincts voting favorably upon the bond issues for good roads this year: Harris, \$1,000,000; Navarro, \$400,000; Matagorda, \$300,000; Robertson, \$150,000; Calhoun, \$130,000; Chambers, \$100,000; Frio, \$80,000; Atascosa, \$20,000; Cameron, \$20,000.

Issues were defeated in the following counties, Caldwell, Robertson, Lavaca, Callahan, Eastland, Colorado and Dickens.

Commissioners' Courts have set dates in April for good roads bond elections in the following counties: Milam (two elections), Hays, Brazoria, Limestone, Polk, Midland, Case, Henderson, and in Kerr County in May.

The action of the Thirty-Third Legislature in passing the Terrell Highway Bill creating a State Highway Department is notable, and the good roads cause in Texas is expected to be benefited materially thereby. The bill provides for a State highway engineer to design plans for good roads and to make tests of road material, etc. The need for a State law for scientific road work has been badly needed for years, and many counties have withheld voting bonds to build good roads for this reason.

HOW TO GET NEW SETTLERS

The County Farm Bureau to Guarantee All Statements Made by Real Estate Advertising—Community Farm Credits Introduced.

[National Crop Improvement Service.] In many of the county farm bureaus the land committee is, perhaps, the most important of all, especially in the newer states. In several counties this committee has invited to be registered with them all of the land for sale in the county.

The plan now is to advertise this land for settlers, guaranteeing through the farm bureau every statement regarding this land.

The price of the land so listed should be maintained for one year so that when settlers are attracted to this land, local grabbers cannot take advantage of them by boosting prices.

Arrangements should be made with a finance committee to back up these settlers, not only by enabling them to secure the land, but by providing them with funds for the proper equipment of the farm. This is the practical solution of farm credits in America.

It is estimated by the immigration agents of the railroad companies that each family, properly located, is worth \$1,500 a year to the community.

It will be appreciated that a great many persons, who would like to get back to the land, would be encouraged to apply for such farms, if they could be assured that the county farm bureau would not only protect them from land sharks, but would provide an expert agriculturist, who would advise them and keep them from making mistakes, due to inexperience.

Muskogee, Oklahoma, has experimented with this plan and secured 16 new families in six weeks, merely by guaranteeing the advertisement by the Muskogee Commercial club. There is, probably, more lying about land than any other commodity.

DON'T PLANT WEED SEEDS

You Can Have a Weedless Farm if You Fan Your Seeds, Plow and Disk and Use Sulphate of Iron—it Will Pay You to Fight Weeds.

[National Crop Improvement Service.] Owing to its early maturity, barley is an excellent crop for clearing the land of weeds, as it is cut before they mature seed. After the crop is removed the land can be plowed or flaked, thus destroying the weeds that are growing in the stubble. Further cultivation will kill any that survive this treatment or appear later. In the semi-arid regions this additional cultivation is of considerable value in conserving the moisture for the succeeding crop.

It has been authoritatively estimated that the money loss in small grains on account of dockage, freight and other incidental expenses connected with weed seed, is equivalent to 1.11 per cent of their total money value.

On this basis the total annual money loss to the farmers of the United States in small grains alone in account of weeds is about \$25,500,000.

This estimate does not include the loss on account of the nutrient stolen from the ground or the stunted growth of the cereal on account of the weeds present.

Were all these conditions taken into consideration, with the coarse grains and grasses included, the results would be startling, and our carelessness in this respect so apparent as to awaken action to recover his enormous loss.

The habit of paying this weed toll has so accustomed us to the loss that we are blind to the fact that it is entirely unnecessary.

Science has made it possible to eliminate the weeds and grow grain in their place. The sulphate of iron process is a proved success and is entirely within the reach of every farmer's pocketbook.

Make it easy to pay taxes by going into the fields once each year and destroying the weeds; the increase in yield will not only pay taxes, but leave a good margin of profit in addition.

FARMER NEEDS COUNTY AGENT.

He Don't Always Do What He Knows He Ought to Do Any More Than Any Other Man.

[National Crop Improvement Service.] The farmer is like most business men in other lines. He has to be taught, solicited, canvassed and argued with before he can see the advantages of doing things right rather than wrong. He needs the kind of prodding given by the salesman who induces business men to buy an adding machine, typewriter, cash register, or to insure their lives, and to convince a man to do what he has long thought he would do some time. Therefore the county agent who undertakes this work of crop improvement will have to labor to induce his friends to do what they have long known they should have done.

SEED CORN SENSITIVE.

[National Crop Improvement Service.] Think of your seed corn as you do of your live stock—horses, cattle, hogs, etc. Full of life and calling for as intelligent, careful attention—as full of promise, and profit as they and much more sensitive to neglect. Under unfavorable conditions a single night may change it from "very good" to "very poor" and hardly give you an inkling of what has happened.

NORTH CAROLINA PREACHER TO HOLD CAMP MEETING.

Pentecostal Mission Invites Those of Faith All Over World to Camp on Grounds.

Rev. W. R. Farris is sending out invitations to a "world-wide" camp meeting which will be held at the Pentecostal Mission in Plainview, June 1 to 15. It is planned to have an old-fashioned camp meeting—tents on the ground.

Rev. R. B. Jackson, of Falcon, N. C., will conduct the meeting. His assistants have not yet been named.

YOUR KIDNEYS.

Plainview Residents Must Learn the Importance of Keeping Them Well.

Perfect health means that every organ of the body is performing its functions properly.

Perfect health cannot be enjoyed if the kidneys are weak and disordered. Thousands testify that Doan's Kidney Pills have a renewing action on weak kidneys.

What this remedy has done in so many cases of this kind is the best proof of its merits.

Read the following. It's testimony gratefully given by a Tulla resident:

Mrs. S. G. Mitchell, Tulla, Texas, says: "One of my family was afflicted with a lame back that made it almost impossible for him to attend to his work. Doan's Kidney Pills cured him, although other remedies had failed."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sale agents for the United States.

Remember the name—Doan's—and take no other.—Adv. 17

PROPOSED AMENDMENT TO THE STATE CONSTITUTION AUTHORIZING THE ISSUANCE OF BONDS FOR THE PURPOSE OF THE CONSTRUCTION OF THE NECESSARY BUILDINGS FOR THE UNIVERSITY OF TEXAS AND ALSO FOR BUILDINGS OF VARIOUS INSTITUTIONS, AND AUTHORIZING IMPROVEMENT BONDS FOR THE PURPOSE OF NAVIGATION, IRRIGATION, CONSTRUCTION OF BRIDGES AND THE MAINTENANCE AND OPERATION OF PUBLIC WAREHOUSES.

(S. J. R. No. 18.)

SENATE JOINT RESOLUTION. To be entitled A Joint Resolution proposing and submitting to a vote of the people of Texas an amendment to Sections 49 and 52 of Article 3 of the Constitution, authorizing the issuance of bonds and the levying of a tax to pay the interest and sinking fund on same for public improvements.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Sections 49 and 52 of Article 3 of the Constitution of Texas be amended so as to hereafter read as follows, to-wit:

Section 49. No debt shall be created by or on behalf of the State except to supply casual deficiencies of revenue, repel invasion, suppress insurrection and defend the State in war or pay existing debts, and no debt created to supply deficiencies in current revenues shall ever exceed in the aggregate at any one time five hundred thousand dollars. The Legislature, however, shall have power to authorize the issuance of bonds to be approved by the Governor for the purpose of purchasing additional ground and erect necessary buildings for the University of Texas, including a medical department, an Agricultural and Mechanical College and all departments and activities of a complete university of the first class. The revenue received from the permanent University fund shall be available for the payment of interest on these bonds and for the creation of a sinking fund for their redemption at maturity, and the Legislature shall also have power to issue bonds for the construction of necessary buildings for State institutions. The Legislature shall also have the power to authorize the issuance of bonds secured by lien on the real property of the penitentiary system to be approved by the Governor for the purpose of constructing buildings and making permanent improvements.

Section 52. The Legislature shall have no power to authorize any county, town or other political corporation or subdivision of the State to lend its credit or to grant public money or thing of value in aid of or to any individual association or corporation whatsoever or to become a stockholder in such corporation, association or company, provided, however, that under LEGISLATURE provisions any county, any number of adjoining counties or any political subdivision of the State or any defined district now or hereafter to be described and defined within the State of Texas, and which may or may not include towns, villages or municipal corporations upon a vote of a majority of the resident property taxpayers voting thereon who are qualified electors of such district or territory to be effected thereby in addition to all other debts may issue bonds or otherwise lend its credit in any amount not to exceed one-fourth of the assessed valuation of the real property of such district or territory, except in case of improvement of rivers, creeks, and streams, in building levees to prevent overflow, in which case the bonded indebtedness may be for an amount not to exceed one-half of the assessed valuation of the lands of the district to be reclaimed; and, except, further, that the total bonded indebtedness of any city

### NOTICE.

All announcements of any church, pertaining to services, are welcome to the columns of The Herald FREE; but any announcement of a bazaar, ice cream supper, or any plan to get money, is looked upon as a business proposition, and will be charged for accordingly.

Subscription Price .... \$1.00 per year (Invariably in advance)

### A REMARKABLE DOCUMENT.

Perhaps the most remarkable paragraph in the will of the late John Pierpont Morgan was its first; indeed, no will of modern or ancient time holds a more sublime utterance.

The great financier calls upon his children to defend to the extent of personal sacrifice the Christian religion, and at the same time he submits his soul in to the keeping of a personal Saviour. The Man of Galilee comforts the peasant and priest, the humblest citizen and the possessor of royal fortune. Jesus Christ is Saviour of the whole world.

### WHY NOT PLAINVIEW!

This week has been given over to the cleaning of Columbia and to speeches on hygiene and health by city and University speakers. Pictures will be shown to the public on two evenings. Sanitation, health and civic improvement will be the topics for discussion all week.

These subjects should be of interest to every Columbian, and the meetings should be well attended. Learn how to improve the public health, how to rear your children so that they will grow up healthy and strong. Learn the many ways in which you can improve the appearance of your backyard and at the same time make it sanitary. Learn what to do with the garbage. All these things will be told at the various meetings. Go and help Columbia clean house. — University Missourian.

### THE PATRIOTISM OF PEACE.

This week we celebrate the anniversary of San Jacinto. Bonham, Fannin, Crockett, Travis, Bouie, Houston—these men builded better than they knew when they founded the Republic of Texas. History records no more revolting acts than Goliad and the Alamo; it records no more sublime heroism than that of the Saxon in the struggle for freedom from Mexico.

No youth has a heritage more glorious than that of a boy in Texas. Three-quarters of a century have but served to stir an empire, and our commonwealth is asking for men of action. The farm, the factory, the counting house, the mine, asks for men—not one man, but a million.

Remembering San Jacinto, let us resolve to be worthy sons of those sires. May we fight the battle of peace no less bravely than they met the conflicts of war. Advancing a step beyond our fathers—let us resolve to leave this land more fit for human

habitation, more fertile in production than when we received it.

The duties of citizenship of a Republic are heavy. May we be men of vision.

### FOR PRACTICAL EDUCATION.

The new Board of Administration of the Kansas educational institutions, which was established by the last Legislature, has made a beginning which promises something of larger moment; i. e., its inauguration of a series of agricultural high schools.

Kansas is an agricultural State; it ought, therefore, to teach its citizens agriculture—scientific agriculture.

The State of Texas owes it to its agricultural empire to do what Kansas is doing. The South Plains faces conditions peculiarly its own in an agricultural way. This country should be the center for agricultural education suited to the needs of the soil and rainfall.

An agricultural school on the South Plains would prove a big dividend-paying investment to the growing empire State of the American Union.

### A SPRINGTIME REMINDER.

Estimated in dollars, this week's rain means a round million to Plainview. We rejoice.

A bit of that million should be capitalized into dividend-paying conveniences right now.

Traveling men visit Plainview; they congratulate the town upon its industry; they remind us that everybody is talking Plainview. It looks good. But they remind us—"Why not a sidewalk from the depot uptown?" All the talking a fellow hears boosting a town doesn't overcome his disgust when he must trudge through South Plains mud from the railroad station to the public square.

Incoming visitors remind us that other visitors are coming; and all of them ask—"Why doesn't a LIVE TOWN build a sidewalk along its main thoroughfare?"

Our own inconvenience—stepping in the slicky mud—inspires the reminder—why doesn't Plainview build a sidewalk along North Pacific Street? Speed the day when a person may walk dry shod along Plainview's thoroughfares!

### PINK PILLS OR REFORM!

A Washington dispatch says the Pujo Money Trust Committee will report that a "money trust" really exists, and that J. P. Morgan & Co. is the dominating influence in it. Further, the committee will report that the Clearing House Committee of New York exercises an arbitrary, despotic, uncontrolled and irresponsible power over the finances of the country that is dangerous in the extreme. As a remedy, the committee will recommend that clearing houses be incorporated and all their acts shall be subject to judicial review.

This seems to be confirmation of the view that the chief value of the "money trust" investigation lay in getting before the country in authentic form information which was no particular secret. Its recommendation to incorporate clearing houses is about as valuable as a pink pill for a case of smallpox.

The banking system of the country is to be thoroughly revised, and when it is clearing houses will be replaced by co-operative banking organizations which will be responsible and under control. The single function of the clearing houses will be to clear exchanges from banks, and all their other functions will be transferred to regulated and well-ordered institutions.

An adequate reform of the whole banking system is the remedy for all the centralization, all the tyranny and all the despotism uncovered by the Pujo Committee.

### "SWAT THE FLY" IS A GOOD SLOGAN.

However, "Swat the Breeding Places" Is Thought by Civic League to Be More Effective.

In the search for breeding places, no accumulation of rubbish of rubbish of any kind must be ignored. Even old rags and papers under proper moisture conditions will afford breeding places. All such substances should be removed or destroyed.

On issuing from its pupal sheath, the first impulse of the adult fly is to feed. After its rest in the pupal condition, during which time it has taken no food and has subsisted by the physiological consumption of the fat cells stored up during the last larval period, it has naturally become hungry, and it flies immediately to the first point offering sustenance.

The sense of smell of the typhoid fly must be very keen, although its selection of attractive odors undoubtedly differs from our own. It is very catholic in its choice of food: the milk jug and the freshly-baked custard pie are apparently equally in favor with the slop bucket, the garbage pan and all sorts of unmentionable filth.

The fly drinks as well as eats, and liquids apparently containing little that will help it to exist, are sought by it, but it especially prefers semi-liquid mixtures.

The story of the man who entered a dimly lighted railway restaurant and asked for "a piece of that huckleberry pie," and was informed that it was not huckleberry, but custard, is literally true. Dr. Theobald Smith phrased it very happily in a paper written a few years ago in the following words: "When we go into public restaurants in mid-summer, we are compelled to fight for our food with the myriads of house flies which we find there, alert, persistent and invincible."

Observation shows that flies rest from preference upon vertically hanging cords of window curtains, on the supports of chandeliers, and objects of that general character. This has resulted in several arrangements by which strips of sticky fly paper are suspended from the ceiling, and has given in many cases satisfactory results.

It is possible to poison flies rather satisfactorily by putting a lump of

sugar in a saucer partly filled with water and adding white arsenic. This is dangerous where there are children or house dogs or cats about.

Another fly poison, harmless to man, but very satisfactory for killing the flies, is a mixture of formalin and water placed in shallow dishes. Use one part formalin to five or six parts water. This should be sweetened with sugar or made attractive by adding milk.

The burning of Pyrethrum Powder and also the dropping of 20 drops of carbolic acid on a hot shovel is said to be effective in killing flies.

### WILL OPEN CANAL IN 1913.

#### Colonel Goethals Repeats Prediction for Panama Waterway.

Washington, D. C., April 22.—Colonel Goethals, chief engineer of the Panama Canal, in a report to the War Department today reiterated the hope that he would pass a ship through the canal before the close of the present year.

The statement came in response to an inquiry from Secretary Garrison as to whether it would be possible to grant the request of Captain Amundsen, the explorer, that he be allowed to take his ship, Fram, through the canal when he starts for the Antarctic regions from the West Coast of South America next winter.

Colonel Goethals said: "The opening of the Panama Canal for the passage of vessels has always been predicated on the question of slides and the completion of the lock gates. The present schedule contemplates admitting the water into Culebra Cut early in October and the completion of one flight of locks at either end of the canal at that date. The passage of boats then depends upon the condition of the slides. It is hoped that we may be able to pass a ship before the close of the year, and if this can be accomplished the Fram will have no difficulty in making the transit of the canal, and every facility will be offered for its doing so. No assurance, however, can be given in the matter at this time."

### WARNING!

The public are hereby informed that the "pay orders" issued by our several foremen are not cashable by

### "OH, THE FLIES, THE PESKY FLIES!"

The flies, the flies, the pesky flies! They crawl upon the bread and pies, And on each bite of food we eat They wipe their nasty, dirty feet.

They buzz around defying foes; They dance upon your face and nose; And then, without apparent fear, They dig and tunnel in your ear.

They light upon your hairless head At early dawn when you're abed; They fly and frolic everywhere, And make the housewives almost swear.

They fall down in the crock of cream, And there they lay in peace to dream. They get mixed in the raisin cake, And everything our mothers bake.

They drop down in the coffee cup, And in the lasses get mixed up. With nimble feet and active wing, They leave their germ on everything.

And then their presence they explain With dots upon the window pane. Then bring the swatter forth and swat, And teach the flies they must not dot.

Bring out the sticky paper sheet, That nabs the insects by the feet, And holds them struggling for their breath Until they die a lingering death.

But do not use the ancient trick, And dope the flies and make 'em sick; For this will cause them, so they say, To dot their little lives away.

any one except our cashier at our own office in Plainview, and then only to the employes to whom the money is due. Furthermore, these orders are not transferable and do not represent value to any one except the employe, himself, and then only when the Superintendent's signature is recognized as valid by our proper official.

TEXAS LAND AND DEVELOPMENT CO.

Adv. by M. D. Henderson, Mgr.

### COMMUNITY CORRESPONDENCE

### LITTLEFIELD NOTES.

Littlefield, Texas, April 22.—A splendid rain fell here and over this part of the South Plains country yesterday. Weather is still threatening, and more rain is expected. The amount is sufficient to start farming operations in earnest here, and will be of tremendous benefit to the cattle interest.

Miss Willia Armstrong, of Cone, Texas, arrived in Littlefield Saturday, made arrangements for a three months' subscription school, and began teaching in the public school building this morning.

### WHITFIELD.

April 21.—Rev. Winn preached here Sunday.

Mr. King and Rev. Mr. Gates and a few more passed through here Sunday.

Mr. and Mrs. Spurgeon, of Pomona, Calif., arrived last week, and will make their home near Plainview.

Mr. and Mrs. Woodrow, of Plain-

view; Mr. and Mrs. Spurgeon, of California, and Mr. and Mrs. Palmer and family were guests of Jas. Pullen and wife Sunday.

A fine rain fell here Monday. Wedding bells faintly sound in this locality.

The young people enjoyed the party at Mrs. Lemaster's Saturday night. The Sunday School at Plainview is progressing nicely.

### PRICE.

April 24.—There was preaching here Sunday, by Rev. Winn, of Plainview.

A fine rain fell here Wednesday, which was enjoyed by all the farmers. The singing at Mr. Garner's Sunday night was well attended.

Mrs. H. H. Blackerby and son Earl went to Plainview last week. Little Bertie May Garner has been quite sick the past week.

Mrs. Will Lovvorn was hostess to Mr. Jesse Lovvorn, Mr. Alton Blackerby and Louis Hollie and Oda Francis Sunday afternoon. All had a good time.

The party at Mr. and Mrs. H. F. Walling's Friday night was well attended.

Mr. and Mrs. Neal were pleasant callers at the Walling home Sunday.

Mr. Earl Blackerby has been quite sick this week.

Misses Ruth Taylor and Leona Walling were guests of Mrs. H. F. Walling Friday afternoon.

There was a big crowd at Sunday School Sunday.

Mr. and Mrs. Randolph and two children were the guests of Mr. and Mrs. Pet Walling Sunday.

Mr. J. C. Hague went to Plainview Saturday, on business.

Mr. W. A. Williamson has been quite sick the past week, but is improving now.

We wish to thank the good people of Plainview and surrounding country for the most liberal patronage you have given us in.

If you have never moved among strangers you cannot know how to appreciate such hospitality as we have received at your hands—"We were strangers and you took us in"

The piano contest continues under the same rules as we have announced before.

We are going to give you some good bargain next Monday and Tuesday at our sale for cash besides five piano votes for every one cent purchase. Come to see us.

### Scudder Grocery Co.

Telephone 244

Plainview, Texas

We solicit your patronage and assure you that your smallest purchase is appreciated.

# A MISUNDERSTANDING

A few understood from our "closing out" suit ad that we were going out of business. That is a mistake. We will carry everything we now carry and more but will **discontinue suits** only.

We urge you again to take advantage of our closing out prices on suits.

# SHELTON BROTHERS

Judge George L. Mayfield returned from Tulla Tuesday.

Mrs. J. J. Lash leaves this week for a trip to Shawnee, Okla.

M. E. Spurgeon and family moved to Hale County last week, from Pomona, California.

Hear Prof. R. L. Marquis on "The Fly" at the Opera House Tuesday evening at 8 o'clock.

Geo. Zwieble is in Plainview, from Sedgwick, Kansas. Mr. Zwieble formerly lived in Plainview.

Mrs. W. N. Thomas, of Amarillo, is in Plainview this week visiting her parents, B. F. Gouddy and wife.

W. M. Pearce, of Seth Ward College, will preach for the Methodist people at Tulla Sunday, morning and evening.

A. A. Hatchell, of Plainview, was elected second vice president of the State Undertakers' Association, which met in San Antonio last week.

Ed M. Tyson came in Tuesday to visit his daughter, Mrs. Bill Bates. Mr. Tyson has just returned from an extended trip in South America.

Mrs. Woodmansee and little grandson came in Monday from Prescott, Ariz., for a visit with her son, Lee Kimbie, proprietor of the Busy Bee.

J. M. Shafer, wife and son, Tom, returned Wednesday from Erath County, where they have been some weeks, visiting. The trip was made in their Hupmobile car.

The mass meeting at the Opera House Tuesday evening, April 23, will be full of interest from start to finish for every man, woman and child in Plainview. It is free.

Frank Wilson, Superintendent of Schools at Texhoma, Okla., was in Plainview Saturday and Sunday, visiting The Herald family. Frank was a schoolmate of "ye" editor.

Mrs. Tom Carter returned from Denver, Colorado, Tuesday. Mr. Carter is yet in Denver. His friends will be glad to know that Mr. Carter's health is improved. Mrs. Carter is visiting her parents, Mr. and Mrs. J. T. Mayhugh, on Restriction Street.

Dr. I. E. Gates preached the dedicatory sermon in a new church at Crosbyton Sunday. Dr. Gates says the clouds began to gather before he had finished his sermon, but he beat the rain into Plainview by two hours. The doctor insists that he "stirred things up mightily."

Mr. and Mrs. O. D. Anding, of Amarillo, visited Rev. and Mrs. S. A. Barnes this week.

A grandchild of Mrs. L. Lee Dye died at Tulla Tuesday. Mrs. Dye left on the afternoon train to attend the funeral.

M. D. Henderson, Manager of the Texas Land and Development Company, is making a trip to St. Louis and Chicago this week.

Sam Deen, of Anntia, Iowa, was a visitor at The Herald office today. This is Mr. Deen's first visit to the South Plains for three years. He owns land between Plainview and Olton.

Z. E. Black went over to Floydada with the Dallas Boosters' train Wednesday. Zenas says wheat looks mighty good between Plainview and the Floyd County seat. The rain extended all the way.

### THE SUPREME THING.

Life is too short for any vain regretting;

Between the swift sun's rising and its setting.

We have no time for useless fears or fretting.

Life is too short for any bitter feeling; The years speed by, and on their wings bring healing.

We have no room for anything like hate;

This solemn truth the low mounds seem revealing

That thick and fast about our feet are stealing—

Life is too short for aught but high endeavor.

Too short for spite, but long enough for love;

And love lives on forever and forever.

—Farm Journal.

### CARD OF THANKS.

Mr. R. F. Stewart and family kindly avail themselves of this means to express their heartfelt thanks for the kind ministrations of their many friends during their hour of bereavement through the loss of a kind and loving father.

MR. R. F. STEWART,  
MRS. R. F. STEWART,  
MASTER DEAHL STEWART.

### FEDERATION MEETING WAS POSTPONED.

The meeting called for last Wednesday at the Christian Church for the purpose of federating the clubs of Plainview was postponed on account of the rain, and will be held Wednesday afternoon, April 30, at 4 o'clock at the Christian Church. The ladies are urged to attend this meeting.

### A CARD OF THANKS.

I wish to express my sincere thanks to my many friends for their kindness to me while I was laid up in the hospital. I feel keenly the interest of the people of Plainview in my misfortune. I am indebted to the Fire Boys and the Elks, but not more than to a host of other citizens. All I can say is "Thank you."

### WAITING.

I could say nice things about him; I could praise him if I would; I could tell about his kindness, For he's always doing good. I could boost him as he journeys O'er the road of life today; But I let him pass in silence, And I've not a word to say; For I'm one of those now waiting— Ere a word of praise is said, Or a word of comfort uttered— Till the friend we love lies dead.

I could speak of yonder brother As a man it's good to know; And perhaps he'd like to hear it, As he journeys here below. I could tell the world about him, And his virtues all recall, But at present he is living, And it wouldn't do at all; So I'm waiting, yes, I'm waiting, Till the spark of life is fled; Ere I raise my voice to praise him I must know that he is dead.

I appreciate the kindness That he's often shown to me, And it will not be forgotten When I speak his eulogy. I should like to stand in public And proclaim him "friend of mine;" But that isn't customary, So I give the world no sign Of my love for yonder brother, Who has often helped me here; I am waiting, ere I praise him, Till I stand before his bier.

—Edgar A. Post.

A SILO ON EVERY FARM

The Silo Committee in Every Farm Bureau Should Get Busy at Once—Farmers Should Build Silos Early—Bankers Ready to Finance a County-Wide Campaign.

[National Crop Improvement Service.] The average farmer waits until his corn is almost in the milk before planning his silo, when, as a matter of fact, he should be planning it the winter previous, said a noted agricultural expert recently. The farmer should plan his silo before he plants his crops, otherwise he cannot tell how much corn to plant for ensilage purposes.

As the winter is past, the next best thing the farmer can do is to figure out right now how big a silo he wants and plant his corn crop accordingly. If he has also read up some good literature on silos, such as he can get free from Uncle Sam's agricultural department at Washington, from the state agricultural schools, or the leading cement companies, he probably knows how large a silo he wants. Experts say that it is better to get the capacity by having a tall, narrow silo than a short, wide one, as at least two inches must be fed off every day after the silo is unsealed and feeding commenced.

If the farmer is far-seeing, he will put in the foundation for his silo immediately after the spring plowing and planting, and then, in the first days of late spring and early summer he can economically build his concrete silo. Long before the corn has begun to ripen his silo will be finished. As a silo should not be filled for at least three weeks after being erected, so that the concrete may properly harden, it can readily be seen that the early building is most advantageous to the farmer, not only on account of the labor, but also because the silage will be 100 per cent better if cut in a succulent state, just when the corn is in the milk.

Bankers' associations all over the country are discussing farm credits, and in many places the plans are being laid to finance all permanent improvements at a very reasonable rate, either on long time or short time.

HOW TO GROW OATS.

[By C. W. Warburton, United States Bureau of Plant Industry.]

[National Crop Improvement Service.] Oats grow best on soils with good water-holding capacity, as they require a great deal of moisture. When grown for grain, phosphorus is usually the most important fertilizing element which can be added. Very rich soils, especially if deficient in phosphorus, cause rank growth, with lodging as a result. When grown for hay or forage nitrogenous fertilizers may be used.

Oats are usually grown in the rotation after a cultivated crop, and are used as a nurse crop for grasses or clover. They are sometimes grown in combination with other crops. When grown with barley large yields of grain for feeding can be obtained, while with Canada field peas or vetch excellent forage is produced.

Kind of Soil. Oats do best on a rather loose, well-prepared seed bed. The common method of sowing the grain broadcast in cornstalk land without preparation and covering it with the disk harrow is careless and uncertain. Thorough preparation of the seed bed is strongly advised.

CORN EXPERIMENTS.

Minnesota College Shows Corn Crop Can Be Doubled.

[National Crop Improvement Service.] An acre of corn planted in check rows, hills three feet and six inches apart, has 3,566 hills; and, with three stalks to the hill, contains 10,668 stalks. If one stalk in each hill produce a ten-ounce ear, the yield per acre will be 31.7 bushels. The average yield for ten years in Minnesota has been but 29.4 bushels. The average yield of corn per acre in Minnesota for 1909 was 34.8 bushels. From this it is easily seen that on the average two stalks out of each hill do not produce ears at all or are missing. What is immensely more important than large ears is a field of corn in which every stalk produces a good eight or ten-ounce ear. Three eight-ounce ears per hill will practically triple the present average yield. If care is used in selecting only choice seed ears, lost strides will be made in increasing corn yields.

RAZOR BACK SEED CORN.

[National Crop Improvement Service.] H. M. Cogwell of Rock Island says: "I recently saw a razor back pig four years old that had good feed for four years and weighed 85 pounds. In the same yard were eight-months-old pure bred pigs that averaged 300 pounds. There is just as much difference between scrub and pure bred corn as there is between razor back and pure bred hogs. There is too great a proportion of razor back seed corn planted in the United States."

SOIL ROBBING A CRIME.

[National Crop Improvement Service.] The time will soon come when it will be a crime in law—as it is a crime in fact—to rob the soil, and each state will insist that every man shall restore whatever elements of fertility he removes from the soil and add a liberal percentage for postarity. There is no question but that a state's domination over its acres, and conservation of soil is the most important of all.

SPRING LAKE.

(Delayed from last week.)

April 8.—Ralph Baker, of Plainview, is visiting home folks.

M. E. Cleavenger has bought another fine team.

B. Barnertson and Sons have bought 20 fine Jersey cows, and will sell cream.

B. C. Axtell, of Topeka, Kansas arrived Wednesday for an extended visit with his brother, O. C. Axtell.

The Christian Endeavor Society will hold their semi-annual election Friday night.

S. W. Downs, our genial mail carrier, says "This here parcels post business makes the mail sack powerful heavy." We are glad to see he don't "kick" about it.

P. D. Vore and M. E. Cleavenger were Olton visitors Friday.

The yearly district school meeting was held at the school house Saturday. P. D. Vore and D. B. Shifflet were elected trustees for the county; M. E. Cleavenger and C. E. Bales, district trustees.

S. W. Downs has purchased another horse.

Ewing Haisell, of Vinita, Okla., is among us again.

Mrs. Morse, who was injured in an automobile accident and who is under a doctor's care at Hereford, is making very rapid improvement.

The ladies of the church at this place recently held their yearly elections for their Missionary and Aid Societies. The officers for the former are: President, Mrs. O. C. Axtell; vice president, Mrs. M. E. Cleavenger; secretary, Mrs. E. U. Rudd; treasurer, Mrs. H. L. Harris. For the latter society the following officers were elected: President, Mrs. J. I. Phipps; vice president, Mrs. J. V. Rudd; secretary, Mrs. L. J. Linvill; treasurer, Mrs. R. O. Frenzell.

KRESS.

April 24.—Miss Ruby Ross, of Tulla, visited Nettle Moore Saturday and Sunday.

Mr. and Mrs. Box entertained a number of young people Saturday evening.

Miss Inez Valentine spent the weekend in Kress, with her sister, Miss Olene.

Mary Morrison, of Tulla, visited Mrs. Ethel Sunday.

Miss Ethel Williams went to Plainview Saturday, returning Sunday.

SHERIFF'S SALE.

THE STATE OF TEXAS, County of Hale.

BY VIRTUE of a certain Order of Sale issued out of the Honorable District Court of Hale County, on the 3rd day of April, 1913, by W. H. Box, Deputy District Clerk of said County, against J. M. Murphy and W. W. Jones, for the sum of Seven Hundred and Twenty-Eight Dollars and Forty-Two Cents, and costs of suit, in case No. 934 in said Court, styled The First National Bank of Plainview, Texas, (a corporation) vs. J. M. Murphy and W. W. Jones, and placed in my hands for service, I, J. C. Hooper, as Sheriff of Hale County, Texas, did, on the 3rd day of April, 1913, levy on certain Real Estate, situated in Hale County, described as follows, to-wit:

Part of survey Number Thirty-Four, Block JK2, surveyed by virtue of Cert. No. 4-646, issued to the G. C. & S. F. Ry. Co., as described by metes and bounds as follows: Beginning at a point 60 feet north of the Northwest Corner of Block No. 40, in West Boswell Heights Addition to the town of Plainview, and 30 feet east of the West Boundary line of said survey No. 34, for the Southwest Corner of this tract, thence East 220 yards, thence North 440 yards, thence West 220 yards, thence South 440 yards to the place of beginning. (And whereas said Judgment has been credited with Two Hundred Dollars, I will therefore sell said property in satisfaction of the Balance of said Judgment, which is the sum of Five hundred and Twenty-Eight Dollars and Forty-Two Cents) and levied upon as the property of said J. M. Murphy and W. W. Jones. And on Tuesday, the 6th day of May, 1913, at the Court House door of Hale County, in the City of Plainview, Texas, between the hours of ten a. m. and four p. m., I will sell said land at public vendue, for cash, to the highest bidder, as the property of said J. M. Murphy and W. W. Jones, by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Hale County Herald, a newspaper published in Hale County.

WITNESS my hand, this 3rd day of April, 1913. J. C. HOOPER, Sheriff of Hale County, Texas.

Rheumatism as a result of kidney trouble, stiff and aching joints, backache, lumbago and sore kidneys, all yield quickly to the healing and curative qualities of Foley Kidney Pills. They regulate urinary irregularities, and restore normal action. John Veltbert, Foster, Calif., says: "I suffered many years with kidney trouble, and could never get relief until I tried Foley Kidney Pills, which effected a complete cure." Contains no habit-forming drugs. R. A. Long's Drug Store. —Adv. 17.

ALL SCHOOL CHILDREN WHITE.

Scholastic Census Gives Hale County Increase of 1,504 Over 1910.

The scholastic population of Hale County is 1,814, according to a report just issued by the State Department of Education, and the total apportionment at \$6.81 per capita is \$12,425.90 for the 1912-13 term.

It is customary to multiply the scholastic population by five, in order to ascertain the true population of the county, and on this basis Hale County has a population of 9,070, an increase of 1,504 over the Federal Census of 1910.

The scholastic population of the independent districts of Hale County is shown in the following table:

Table with 3 columns: District, White, Colored, Total. Rows for Plainview and Balance of Co.

LAND FOR SALE.

480 acres, being N. E., S. E. and S. W. Quarters of Survey No. 132, in Block D. No. 2, Hale County, Texas, INSPECT TRACT. Make me your best offer first reply. Must sell quick. A bargain. J. A. DuBOSE, Adv. tf. Hawkinsville, Ga.

CHRISTIAN ENDEAVOR LESSON FOR APRIL 27.

Subject—"The Bible in Missions." Acts 17:1-12. Dally Readings—"Bible Revival"—Neb. 8:1-8. "Eager Listeners"—Isa. 1:1-4. "Noble Students"—Matt. 7:24-29. "The Great Expounder"—Luke 24:13-33. "The Living Book"—Heb. 4:12-16. "The Reader's Blessing"—Revelation 1:1-3.

Verbeck, the great missionary to Japan, got his first Bible class as the result of the finding by some Japanese of a little Dutch Testament floating on the waters of the Nagasaki harbor.

During the time of fierce persecution in Madagascar the native converts divided their Bibles for safer keeping, and some of them buried the Book, and dug it up occasionally to read it.

A Chinese bought a Bible and took it to his village. Within three years, solely by the reading of that Bible, a church was established, and the astonished missionaries were summoned to dedicate it.—Endeavor's Daily Companion.

BIG GERMAN MILLET SEED FOR SALE.

I have 400 bushels, at \$1 a bushel. HENRY JONES, northwest part of town. —Adv. 18-pd.

WATSON sells on installments. Adv. tf.

THERE IS MONEY IN KAFFIR-FED HOGS.

One Poland-China sow purchased in the fall of 1907 brought Charles N. Bancroft, a stockman of Bickford, Okla., and manager of the Roman Nose Gypsum Company, more than \$4,000 in profits realized off her progeny in four years. Mr. Bancroft annually raises about 500 head. On his ranch overlooking the Roman Nose Canyon and in the valley between its ponderous walls Mr. Bancroft has an ideal stock farm, of which every year about 100 acres are planted to Kaffir. Another 100 acres is in alfalfa. In the last five years Mr. Bancroft's hogs have never brought less than within a nickel of the top, and once they topped the market at Oklahoma City. The pigs are fed all the ground Kaffir they will eat up clean. The hogs also get Kaffir heads and they follow the steers. As late as January 25, fifty fine brood sows were still grazing on alfalfa pasture, which, in the sheltered bottom, was constantly sprouting. A spring crop of at least 250 pigs and another equally as large in the fall is the rule on the Bancroft place.

When J. M. Rimmer, a farmer near Mangum, Okla., last year raised an average yield of 75 bushels of milo off seventy-five acres and a like average yield off twenty-five acres of Kaffir, he reasoned in this manner:

"Ten bushels of Kaffir or milo will produce a gain of 100 pounds weight in a hog. My 4,125 bushels of milo, therefore, will make an increase of 41,250 pounds weight in hogs and my Kaffir of 1,875 bushels should make 18,750 pounds gain. Sold as threshed grain the milo and kaffir would bring about 35 cents a bushel, or in round figures \$2,000. Converted into pork it will bring \$3,900, or just about twice as much."

Late in January the writer visited the Rimmer farm, two miles north of Mangum, and saw one of the most promising herds of hogs in Oklahoma. Sixty brood sows were raising 100 healthy, happy fall pigs and 100 May and June pigs were fattening for the market, and had attained an average weight of about 160 pounds on a diet of milo and alfalfa pasture. For six weeks the hogs had no other grain but milo, fed in the heads, the alfalfa pasture having dried up and was not expected to be in a condition to pasture before March 1. Mr. Rimmer, to supply roughage, was preparing to feed Kaffir in bundles, an immense stack of which was standing close by the inclosure ready for use. On the crest of

Telephone Number 13

a hill overlooking the Rimmer farm stood a 100-ton silo, filled with Kaffir silage off about twelve acres. Its contents had not been disturbed, as yet, the Kaffir and milo grain amply supplying the needs of the 260 hogs, six fat work horses and five mules, and twenty steers and milk cows that constitute the live stock on the Rimmer farm. The sixty sows were to bring an average of five pigs in March, and with alfalfa pasture on 100 acres this spring and another large yield of Kaffir and milo next summer they will be fattened at a maximum cost by fall, thus making the hog production on the farm about 500 head in the first eighteen months of Mr. Rimmer's experiment. A registered Duroc-Jersey boar is the pride of the establishment. Mr. Rimmer cultivated his land level instead of listing or ridging it. This, he says, is essential to getting the best results in growing Kaffir or milo. Though Mr. Rimmer failed to get a stand on part of the field because of heated seed, he realized a large yield. He winter plowed to a depth of eight inches and harrowed it three times until it was perfectly level. In April, after the ground had warmed, he planted Kaffir with a double row corn planter, using a hollow wheel and planting rows forty-two inches apart. He says a hollow wheel is best because it firms the ground on each side of the seed without packing it above the seed. Mr. Rimmer was careful not to cultivate till the "suckers" from the joint at the ground level were about four inches high, so as not to destroy them. Previously he harrowed the stand twice. Shallow cultivation with "Buzzard Wing" sweeps followed three times in intervals of about fifteen days. The crop off twelve acres was harvested early in November and put in the 100-ton silo; the balance was tsacek in the open. The milo was harvested about the same time, but was headed and the heads placed in large bins convenient to the hog pens, from which it could be easily thrown to the hogs. Dwarf milo was the variety grown by Mr. Rimmer.

The Rimmer farm consists of 320 acres, of which 100 acres are in alfalfa and fifty acres in native grasses. Little of it is planted in corn, for in the seventeen years that the owner has been on the place he reports just five crop years and from twenty-five to seventy-five bushels per acre.

As to the type of seed used by Mr. Rimmer, he selects every head from which he intends to plant his Kaffir or milo. He chooses a compact, heavy head with a long central stem, and with each of the branches well filled with grain. That he knows what good seed is is proved by the fact that he sent Kaffir seed to the International Dry Farming Congress at Colorado Springs in 1911, where it won first prize.

Mr. Rimmer intends to raise peanuts this year, letting the pigs root out the goobers. He also will raise at least seventy-five acres of milo and probably fifty acres of Kaffir. Experience has shown him that milo or Kaffir for a month, or an even longer period, is an excellent ration for hogs, and that with green pasture in the spring, summer and fall, the hog raising industry becomes a very simple problem for the Oklahoma farmer.—Victor H. Shoffel-Mayer, in Southwest Trail, published by the Rock Island Railroad.

USE OF CALOMEL PRACTICALLY STOPPED

For Bilious Attacks, Constipation and All Liver Troubles. Dangerous Calomel Gives Way to Dodson's Liver Tone.

Every druggist in the state has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place. "Calomel is often dangerous, and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," says R. A. Long Drug Co. Dodson's Liver Tone is personally guaranteed by R. A. Long Drug Co., who sell it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of sluggishness, you have only to ask for your money back. It will be promptly returned.

SHERIFF'S SALE.

THE STATE OF TEXAS, County of Hale. BY VIRTUE of a certain Order of Sale issued out of the Honorable District Court of Hale County, on the 9th day of April, 1913, by W. H. Box, Deputy District Clerk of said County, against A. D. Summerville and Myrtle Summerville for the sum of Two Thousand Two Hundred and One Dollars and Twenty-Two Cents, and costs of suit, in cause No. 913 in said Court, styled J. A. Price et al. vs. A. D. Summerville et al., and placed in my hands for service, I, J. C. Hooper, as Sheriff of Hale County, Texas, did, on the 9th day of April, 1913, levy on certain Real Estate, situated in Hale County, described as follows, to-wit: Lot No. 6, in Block No. 24, as shown by the Original Plat of the Town of Plainview, Hale County, Texas, and levied upon as the property of said A. D. Summerville and Myrtle Summerville. And on Tuesday, the 6th day of May 1913, at the Court House door of Hale County, in the City of Plainview, Texas, between the hours of ten A. M. and four P. M., I will sell said Lot at public vendue, for cash, to the highest bidder, as the property of said A. D. Summerville and wife, Myrtle Summerville, by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Hale County Herald, a newspaper published in Hale County. WITNESS my hand, this 9th day of April, 1913. J. C. HOOPER, Sheriff, Hale County, Texas.

"Tickled to Death"
With the liberal patronage that we have received from the people of Plainview and the surrounding country. Our appreciation is sincere. Our aim is to make our dealings pleasant as well as profitable for us both. We believe in a square deal. When we tell you that we can save you money on anything in our line we mean it.
Aside from selling you new goods for less money we buy or exchange for old furniture, otherwise it would go to the attic or barn to be in the way and go to waste.
We have a nice clean line for you to select from in both new and second hand goods. See us before you buy.
Don't forget that we have a first class repair shop in connection. Satisfaction guaranteed or your money back.
Yours for business,
W. E. WINFIELD

Demonstration

Saturday, April 26th

Not a demonstration of what Plainview land will produce but the Greatest line of

Coffee and Tea

ever shown in Plainview.

We will be pleased to have

You

call at our store and those that are

Particular

as to the

Coffee or Tea

they use.

Our line of Coffee and Tea is one of the best and oldest lines on the market but new to Plainview.

We have other new articles besides this.

These Coffees and Teas will surprise you, because they are so good.

Every package is guaranteed to please you.

A "KNOCK" ON JUNIOR DENOMINATIONAL COLLEGES.

A law was passed a few years ago by the Legislature of Texas granting to the "A" class schools in the State the right to grant eachers' certificates to those students who complete fifteen hours or five full courses in the college and three hours in the Department of Pedagogy.

This was only a just recognition of the work done in those Christian Colleges. The result has been that within the last few years all of those schools have built up large Departments of Education, and have sent out some of the best teachers that we have.

During the last session of the Legislature a bill was introduced to allow Junior Colleges the privilege of having teachers' certificates issued to their students who have completed the work equivalent to that done in the larger schools when certificates are granted.

This bill that we have mentioned passed both Houses and was vetoed by Governor Colquitt. It had been ardently supported by the representatives from the Panhandle districts, and because of personal assurance given to us by Representative Hunt, we have reasons to believe that if he had remained in his place the measure would have passed in spite of the veto of our great(?) Governor.

But now we come to the second "knock." At a recent meeting of the Panhandle Teachers' Association, which convened at Canyon, Texas, the following resolution was passed:

"Resolved, That we commend Governor Colquitt's action in vetoing the bill granting Junior Denominational Colleges the right to issue teachers' certificates to persons preparing to something else."

There are several very erroneous implications in that resolution. The first absurdity hinted at is that everybody else except Junior College authorities have the power of discerning when granting certificates, whether or not the person to whom the certificate is granted means to teach school always.

Again, it is suggested that students of Junior Denominational Colleges do not become school teachers. We suppose that those who framed that resolution think that the denominational schools only teach students who expect to be preachers or missionaries.

What a mistake! Only about ten per cent of all of the denominational school students, in both the larger and smaller schools, are of those classes. What is this ninety per cent going to do? We have already answered this question in the beginning, when we stated that many of the best positions in the public schools of Texas are filled by students from these schools.

We have no fight to make on any institution that is working for the education of the people. But we will state that often such resolutions as the one passed at Canyon grow out of pure prejudice against church schools. We advise students to go to the Normal Schools, the State University and schools of other denominations from the one to which Seth Ward College belongs whenever the individual's situation seems to make it advisable.

\*\*\*\*\* Skilled Physicians \*\*\*\*\* Prescribe Dry Zenzal and Moist Zenzal for Eczema because they get results quickly and surely. Long Drug Company. 18 \*\*\*\*\*

would a graduate of our Junior Colleges. The credits given to the students of the Normal Colleges by the State University proves this statement.

We do not believe that the principles of Christianity that are taught in the Junior Denominational Colleges, and that are not usually taught in the State schools, especially Normals, are hindrances to the qualifications of a teacher. We do not believe that a teacher should be elected to a position in our schools who is not a Christian.

This article is not intended to condemn any school. The most of our school work has been done in the public and State schools of Texas. If a good public school was available we would send a child of ours there until he had finished. Then we would send him to a Christian College. We wish to promote the work of education in the section in every way that we can, but we believe in recognizing every piece of work at its real value, no matter where it comes from.

W. M. PEARCE.

COULD NOT TEAR DOWN OLD ALAMO.

San Antonio, Texas, April 21.—An impression has got about in different parts of the State that the Alamo Heroes' Monument Association proposes tearing down the old Alamo Mission and erecting the monument on that spot. This could not be done if it was desired, for the Alamo Mission and the old fortress belong to the State, and are guarded with jealous integrity.

The exact site for the Alamo Heroes' Manument has not been decided, further than that it will be erected on ground hallowed by the blood of some of the brave men that gave up their lives in its defense. There is ample property from which to choose without seeking to obtain State property. The monument may be erected on property donated by the city of San Antonio or on some other site purchased expressly as the monument site. It will be within the shadow of the old Alamo Mission and will enhance the simple beauty of that ancient chapel, instead of detracting from it.

SHERIFF'S SALE.

THE STATE OF TEXAS.) County of Hale.)

BY VIRTUE of a certain Order of Sale issued out of the Honorable District Court of Hale County, on the 3rd day of April, 1913, by W. H. Box, Deputy District Clerk of said County, against J. M. Murphy and W. W. Jones, for the sum of Seven Hundred and Twenty-Eight Dollars and Forty-Two Cents, and costs of suit, in cause No. 934 in said Court, styled The First National Bank of Plainview, Texas, (a corporation) vs. J. M. Murphy and W. W. Jones, and placed in my hands for service, I, J. C. Hooper, as Sheriff of Hale County, Texas, did, on the 3rd day of April, 1913, levy on certain Real Estate, situated in Hale County, described as follows, to-wit:

Part of survey Number Thirty-Four, Block JK2, surveyed by virtue of Cert. No. 4-646, issued to the G. C. & S. F. Ry. Co., as ddescribed by metes and bounds as follows: Beginning at a point 60 feet north of the Northwest Corner of Block No. 40, in West Boswell Heights Addition to the town of Plainview, and 30 feet east of the West Boundary line of said survey No. 34, for the Southwest Corner of this tract, thence East 220 yards, thence North 440 yards, thence West 220 yards, thence South 440 yards to the place of beginning. (And whereas said Judgment has been credited with Two Hundred Dollars, I will therefore sell said property in satisfaction of the Balance of said Judgment, which is the sum of Five hundred and Twenty-Eight Dollars and Forty-Two Cents) and levied upon as the property of said J. M. Murphy and W. W. Jones. And on Tuesday, the 6th day of May, 1913, at the Court House door of Hale County, in the City of Plainview, Texas, between the hours of ten a. m. and four p. m., I will sell said land at public vendue, for cash, to the highest bidder, as the property of said J. M. Murphy and W. W. Jones, by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Hale

Ford Printer's ink won't make the car go. There's only one reason why 200,000 new Ford's can't possibly satisfy this season's demand. The car itself is right with a rightness that is unmatched anywhere at any reasonable prices. Our great factory has produced nearly a quarter of a million Model T's. Prices: Runabout, \$595; Touring Car, \$670, f. o. b. Plainview, with all equipment and electric lights. For particulars see Barker & Winn, Plainview, Texas, or Ford Motor Company, Detroit, Mich.

County Herald, a newspaper published in Hale County.

WITNESS my hand, this 3rd day of April, 1913. J. C. HOOPER, 18 Sheriff of Hale County, Texas.

ELECTRIC FANS BEING PLACED IN MAJESTIC.

Now that the summer season is here and people begin coming out more at night, they naturally think of the Motion Picture Show as a pleasant place to spend an hour or two. Of course, they want the place they patronize to be cool and sanitary, as well as the performance to be first class.

The Majestic Moving Picture Show of Plainview is absolutely meeting the above requirements. The place is being fitted up with two stationary and two oscillating 16-inch fans. These fans will be so arranged that, in connection with the ventilation the place now has, the Majestic will be one of the coolest and most sanitary Motion Picture houses in Western Texas.

These facts, in connection with the high-class entertainments that will always be shown, will insure the people of Plainview a place that they should well be proud of. Adv. 17

RECOMMENDED FOR A GOOD REASON.

Because they cured him of kidney and bladder trouble, C. H. Grant, 230 Waverly St., Peoria, Ill., tells the result of his taking Foley Kidney Pills. "Backache and congested kidneys made me suffer intense pains. Was always tired and floating specks bothered me. Took Foley Kidney Pills and saw big improvement after third day. I kept on until entirely freed of all trouble and suffering. That's why I recommend Foley Kidney Pills. They cured me." They are tonic in action, quick in results. R. A. Long's Drug Store. Adv. 17

## USE OF IRRIGATION WELLS ON THE PLAINS

The Pump Will Keep "Lessening Land Problem" at Bay for Many Years Yet to Come.

By Z. E. BLACK.

We read in the Sacred Writ that "a river went out of Eden to water the garden." Perhaps there would have been no garden, with its famous apple tree, had it not been for the river. Certain it is that there would be but few and indifferent garden patches on the Plains of the Southwest were it not for the river which goes out from the Rocky Mountains in Colorado to

irrigate them. The existence of this river was unknown until three years ago, and yet compared with it the mighty Mississippi is but a tiny brook. The people of Western Kansas, Northwest Texas and Eastern New Mexico knew that there was everywhere a supply of pure water for their suction pumps, operated by windmills, but no one attempted to exploit the moisture-bearing strata that might lie beneath this first water vein. An account of how the Plains of the Southwest developed their underflow for irrigation may prove helpful for other sections that are perhaps overlooking such opportunities. This portion of the United States was formerly called a desert. It contains practically no running streams, or springs, or arroyos, that may be dammed. The rainfall ranges from fifteen to twenty-four inches per annum. When the windmill began to deliver water into surface tanks, stock raising became general and extensive. More than a score of years ago the farmer came and clucked to the plow mules. He found that Kaffir, maize, broom corn, sorghum, wheat, oats and such crops would usually make fair crops under precipitation alone. He also discovered that in order to raise vegetables the tiny stream from his windmill was essential. Realizing that irrigation would mean maximum yields of all staple crops every year, as well as the ability to grow many delicate varieties of plants and trees, he sought for a means to supplement the rainfall on a larger scale. Large reservoirs were built and several mills set to pumping into the same; but a windmill seldom produces more than twenty gallons per minute, and so the irrigation of large acreages was impossible.

APPLE ORCHARD WHICH HARVESTED 2,000 BUSHELS IN 1912. Courtesy of the E. E. Winn Realty Co.

power. Crude oil, costing from 4 to 6 cents per gallon and testing thirty-nine to forty-two Baume scale, is a popular fuel. Where the lift of the water is between thirty and sixty feet, the cost of pumping an acre foot of the same is approximately \$1. Pumping expense alone considered, \$2 per acre per annum will usually cover the cost of irrigating most crops. A 1,500-gallon-per-minute well will take care of 160 acres, the flooding system being used. With proper installation, every well so far has been a success. The bottom of the water-bearing strata has not yet been reached, but several wells have demonstrated that the underflow so far discovered amounts to a solid stream fifty feet deep. Since these strata range under a section larger than Illinois, this may well be called "the world's largest river"—unless there are larger such rivers waiting to be discovered. However, these strata are too far from the surface over the majority of the Plains for economical pumping for irrigation. Where the lift is more than 100 feet, no attempt has so far been made to utilize the centrifugal pump in this section. Naturally, the less the lift the more the profit in irrigated crop growing.

### World's Largest River.

It is thought that this subterranean stream, so long unknown, must have its origin in the melting snows of the Rockies. It has been shown that it is slowly flowing to the southeast. The Colorado, Brazos, Red, Canadian and Arkansas Rivers have presumably been its outlet on its way to the Gulf of Mexico. Many people think that even if a well were put on every 160 acres of the shallow water portions of the Plains it would be impossible to exhaust the supply. It is a question of much discussion as to which is the more satisfactory for pumping, gas engines or electricity. A \$350,000 central power plant at Portales, N. M., is furnishing the irrigationists in that district with "juice." However, a group of English capitalists who are backing a \$3,500,000 irrigation project in the vicinity of Plainview, Texas, are using gas engines almost altogether. The local agent for the owners, the Texas Land and Development Company, announces that the 60,000 acres, planted to truck, fruit, alfalfa, etc., will be irrigated by 400 wells, which will average 1,200 gallons each. Each of these wells will be equipped with an individual pumping plant, operated by separate engines. The engine seems to be the most popular so far, partly because of the absolute independence of the owner.

It would be impossible to chronicle all the advantages that irrigation is bringing to the southwestern plains. Compact communities is no small item, since it means better schools, churches, mail delivery, social advan-

tages, co-operative marketing, etc. Compact communities are impossible under extensive "dry farming" or stock raising. The irrigated sections of the Plains have acquired more citizens and broken more land in the last three years—since the coming of the centrifugal pump—than in the ten years preceding that event. This crop insurance of rain-like water is transforming \$10 and \$20 land into \$100 and \$400 land, and the returns will pay big dividends on those valuations. It is seldom that "dry-farmed" maize will yield forty bushels to the acre. In 1912 one plainsman harvested 119 bushels of maize to an acre off of his irrigated farm. Under rainfall alone few portions of the Plains make more than three tons of alfalfa to the acre. Irrigation means five and six cuttings of the hay, each averaging from a ton

average price is \$15 per ton. Some Plains farmers have netted \$500 per acre from young bearing orchards, with truck between the rows, under irrigation methods. Celery, strawberries, cantaloupes, tomatoes, Bermuda onions, lettuce, sweet and Irish potatoes, asparagus, parsley, tomatoes, cucumbers, sugar beets and such truck are made possible and profitable under irrigation. One man netted \$250 per acre off irrigated onions, followed by a crop of Mexican beans in the same season. Irrigation makes two crops of many varieties of truck possible where one could not be grown before. In the orchard irrigation means healthy trees and no stunted fruit.

### Soil is Fertile.

The soil of the Plains is from three to six feet deep and of an alluvial nature. It is very rich, having never been leached of its fertility by floods. However, the big crops of wheat take off year after year were rapidly sapping its strength. That is the danger of the grain crops—selling the soil with the crop. Irrigation has made possible an infinite variety of crops which may be properly rotated, and thus build up the farm rather than weaken it. There are few portions of the United States where irrigation would not come

not have been more surprised. Sawyer's argument is that the farmers are the support of the State. He calls attention to the fact that in only two or three cities in Kansas does manufacturing and jobbing interest, manufacturing and jobbing business overbalance strictly agricultural trading. He advises bankers to attend farmers' institutes, learn what they are for and what they do, and declares that the banks of any county could afford to support a demonstration farm to work out experimental crops for the farmers. He adds: "One of the serious problems confronting the farms now is the question of conservation and marketing. They raise a crop of wheat and sell it, and so much strength is gone from the land. They raise a crop of corn and sell it, and so much strength has been taken away. Kansas ought to mill all of its own wheat and it ought to feed all of its own corn and ship flour and fat cattle instead of corn and wheat, finishing the product of the farm right where the raw material is grown. "The banks ought to encourage stock feeding. They ought to go out to the farmer and offer to help get the cattle, see that they are properly fed and prepared for the market and then see that the manure goes back

onto the farm." Sawyer knows whereof he writes, because he was a State banker at Newton.—Kansas City Star.

### DALLAS LEADS IN BUILDING PERMITS FOR FIRST QUARTER.

During the first three months of the year 1913 there was a total of \$6,219,605 issued in building permits in the nine cities of Texas ranking in population, and the indications are that this year will witness all previous rec-

ords in building permits being broken in the "Lone Star" State. The building permits for the first quarter of 1912 were \$5,450,784, or \$768,821 less than for the same period of this year. The building permits for March, 1913, alone aggregated \$2,396,992, the high mark for this year. Although Wichita Falls, Texas, has a population of 13,500, the permits for March in that city amounted to \$107,250. The building permits in the nine leading cities in population for the first quarter of 1913 are as follows:

### ADVISES BANKERS TO GIVE FARMERS MORE ATTENTION.

New Kansas Commissioner Says Men Who Sow Soil Are State's Mainstay.

Topeka, Kans., April 19.—"Quit petting the business man and pay more attention to the farmer," is State Bank Commissioner Sawyer's first message to Kansas State bankers. If Sawyer had sent them word to wear red neckties and golf caps the bankers would

Former President Roosevelt once said that "even five acres in a good irrigation district are enough to support a family." The pump will keep the "lessening land problem" at bay for many years yet.

### SHRINERS GOING BY AUTOMOBILE.

Colorado Tourists Planning Overland Trip to Dallas for Imperial Council.

H. R. Way, accompanied by Mrs. Way, drove into Plainview Monday from Colorado Springs. Mr. Way is making the trip from Colorado to Dallas to lay out a route for the Colorado Shriners who will visit the Texas metropolis for the Imperial Encampment next month. The "Pathfinder" car spent the night in Plainview. Tuesday morning Mr. and Mrs. Way were taken out to see some of the big wells before starting on their run to Dallas. Mr. Way

### DALLAS WANTS 1,800 AUTOS FOR SHRINERS.

President of Automobile Club Names 100 Men to Secure Fifteen Cars Each.

Fifteen hundred automobiles will be needed by the Shriners' Entertainment Association in caring for visitors in attendance at the imperial council meeting May 12-15. The Dallas Automobile Club, through its president, P. G. Keene, is now busy with preparations for securing the required number of cars. President Keene completed yesterday the first move in the campaign by appointing 100 committee chairmen, and each of these chairmen is expected to secure fifteen cars. To each Mr. Keene is addressing a letter outlining just how he asks each to co-operate with the automobile club. He says, in part: "The Shriners are coming to Dallas, from 20,000 to 30,000 strong, and from all sections of the globe. The Dallas Automobile Club has promised Hella Temple of Dallas to command and to get together 1,500 automobiles—300 a day for a period of five days, beginning May 11. While this is a big thing, it can and must be an entire success. "No entertainment like it has ever been afforded any convention anywhere in the world. The Dallas Automobile Club will be talked about all over the world."

FATTENING CATTLE ON KAFFIR CORN AND MAIZE. Courtesy of the E. E. Winn Realty Co.

in handy at some seasons of the year. We insure our lives, our homes and even the lives of our stock. Why not insure the life of our crop, or, rather, assure it? If irrigation is not a benefit, would irrigated land remain at its present high figure? Now that inventive genius has perfected the internal combustion engine and the centrifugal pump, thus vastly increasing the irrigable area, it behooves every man to see whether or not he can irrigate his land from wells, if not on a gravity project.

says that 200 automobile owners from Denver, Colorado Springs and Pueblo have agreed to go to Dallas in their cars. He expects that some of these may drop out. Even then it seems that a brigade of Colorado cars will cross the South Plains to the Shriners' meeting in Dallas May 12-15. The roads around Plainview, Mr. Way said, were the best he found on the entire trip, this far. E. M. Hutton, the "Royal man," is in Plainview this week.

### TEXAS CABBAGE BENEFITS STRICKEN.

St. Louis, Mo., April 23.—The Mercedes Commercial Club, of Mercedes, Texas, shipped two cars of cabbage to the St. Louis market during the past week which were sold for the benefit of the flood sufferers of Ohio. The product was sold at public auction, and nearly \$500 was received for it.

# After the Rain Comes Gardening

We have a complete line of garden tools that are dependable—not the loose handle, poor metal kind that go to pieces in a Season.

### HOW TO PROTECT POTATOES FROM INSECTS.

Urging the farmers to guard against the invasion of insects which will destroy the Irish potato crop, Prof. E. J. Kyle, dean of the School of Agriculture, has issued the following statement:

"Irish potatoes are up to a good stand in practically all sections of the State. Prospects indicate that all kinds of insects will be worse this year than in previous seasons. The Colorado beetle is already at work on the young potato vines. Every person growing potatoes should examine the vines closely and be prepared, as soon as he sees that the insects are doing damage, to spray the vine thoroughly with the following preparation: Two and one-half pounds of arsenate of lead, fifty gallons of water, to which may be added five pounds of copper sulphate and five pounds of stone lime; the latter mixture is a fungicide, and is used for controlling blight. This material should be gotten immediately, from any druggist, for if the grower waits until the insects begin to damage the vines the crop will be destroyed before he can collect the materials."

### TO STUDY THE RURAL CONDITIONS OF EUROPE.

Fort Worth, Texas, April 23.—The feature of the work of the Texas Farm Life Commission this summer will be the trip of S. A. Lindsey, of Tyler, Texas, chairman, to European countries to make a practical, first-hand study of rural conditions and farmers' finance systems.

Judge Lindsey, with other Texans, will represent the "Lone Star" State on the American Commission appointed by the Southern Commercial Congress, the Texas committee being more than double the representation of any other State in the Union.

Representing Texas will be Judge S. A. Lindsey, of Tyler, chairman of the Texas Farm Life Commission; Prof. C. A. Austin, a lecturer on present-day farm life problems in the extension department of the University of Texas; J. E. Farnsworth, vice president of the "Southwestern Telegraph and Telephone Company; W. W. Dexter, editor of the State Bankers' Journal, and Francis W. Wozencraft, of Dallas, a senior in the University of Texas; Clarence Ousley, editor of the Fort Worth Record, and Col. J. S. Williams, of Paris, representing the Farmers' Union.

The commission will leave New York on April 26, and Naples will be the first stop. At Rome the commission will be tendered a reception on

May 10, to be attended by King Victor Emanuel and Queen Helene of Italy. Seventy days will be spent on the European continent, and the following countries will be visited: Italy, Hungary, Austria, Germany, Denmark, Sweden, Holland, Belgium, France, England and Ireland.

### APPENDICITIS BOOK FREE.

The Adler-I-ka book, telling how you can EASILY guard against appendicitis, and how you can relieve constipation or gas on the stomach INSTANTLY, is offered free this week by J. W. Willis, Druggist. —Adv. 16

Lots of Second-Hand Rockers at WATSON'S.—Adv. 17

### COMPLIMENTARY MOTION PICTURE MATINEES.

Below is a list of the prominent business men of Plainview who are furnishing a free matinee at the Majestic every Saturday afternoon to their out-of-town customers and will be given for those people only who live outside of the city limits of Plainview.

The merchants and business men of the town want the country people to take advantage of this free entertainment, and want them to feel that it is a slight token of their appreciation to the people in Hale County who do their trading in Plainview. Complimentary tickets to the entertainment can be secured at any of the business houses listed below. Ask for them.

R. C. Ware Hardware Co., J. W. Willis Drug Co., R. A. Long Drug Co., Carter-Houston Dry Goods Co., Vickery-Hancock Grocery Co., Duncan's Pharmacy, J. C. Woodridge Lumber Co., Donohoo-Ware Hardware Co., Fulton Lumber Co., Wright and Dunaway Grocery Co., E. R. Williams' Furniture Store, Stephens and Sams' Grocery Store, Elk Barber Shop, Elk News Stand, E. T. Coleman, Coal and Grain Dealer; Boyd Grocery Co., City Bakery, Shelton Bros., Dry Goods and Furnishing Store; Sewell Grocery Co., Busy Bee Cafe, H. C. Whitworth, News and Cigar Stand; Jo W. Wayland, Men's and Boys' Furnishings; G. W. Graves Saddlery Co., The Necessity Store, Scudder Grocery Co., Hatchell & Johnson Grocery Co., G. S. Fairris' Grocery Store, Delmonico Cafe, The Surprise Store, Hartley-Mise Hardware Co., Plainview Lumber Co., Alfalfa Lumber Co., Cochran's Studio, Plainview News, Hale County Herald, Warren & Sansom's Grocery Store.

Any merchant not on this list who wishes to appear thereon may do so by notifying the Manager of the Majestic Theater.—Adv.

## A Very Fine Smoke A Very Small Price

Surprise yourself—right now. Step up to the nearest cigar case and exchange a nickel for one J. M. M. SMOKER. Smell it, taste, light it, smoke it. Delight yourself with a taste, fragrance and aroma just as delicious as you have been accustomed to in cigars costing from twice to five times as much.

If you'd rather pay a nickel for a cigar than a quarter you can't do better than get the J. M. M. SMOKER. You'll get your money's worth, and then some. You'll get a genuine, Cuban, hand made, clear Havana cigar and all the pleasure and satisfaction that only a genuine Havana cigar can give. It's a fact. One smoke will prove it.

J. M. Martinez Company, TAMPA, FLORIDA. Florida Tobacco Company Distributors

### THE TEXAS SHEEP.

Census reports show that we have 2,945,953 sheep and goats in Texas, making an increase of 427,312 over the reports of ten years ago, and they are distributed in every county in the State, and our rural population is therefore largely interested in sheep and consequently affected by the tariff on wool.

The sheep is the greatest politician of all animals. He has entered most every political campaign since the beginning of the Government, and in the present tariff bill his fleece is the paramount issue. As a statesman he has pretty well held his own. Many times he has been ejected from the Congressional halls only to return a welcome guest. He holds the center of the political stage in National affairs today, and the most learned minds of the country are diligently studying his fleece. Texas takes high rank among the wool-producing States.

WATSON has a housefull of Second-Hand Goods.—Adv. 17

### HALE COUNTY FARMERS ENTER \$10,000 CROP CONTEST.

Many Are Competing for Prizes to Be Given by the Texas Industrial Congress for 1913.

The following progressive farmers in the Plainview country have entered the \$10,000 crop contest being conducted by the Texas Industrial Congress. The classes in which they expect to contest are entered after the names:

- P. B. Snyder, Plainview—Irrigated forage crop.
- L. N. Dalmont, Plainview—Unirrigated forage crop.
- Ray E. Wardlow, Hale Center—Unirrigated forage crop.
- Clyde L. Cox, Plainview—Unirrigated forage crop.
- Jim Anderson, Hale Center—Irrigated forage crop.
- Joe Workman, Plainview—Unirrigated forage crop.
- Lillian Bolton, Petersburg—Irrigated forage crop.
- E. C. Ebeling, Plainview—Unirrigated forage crop.
- Howard M. King, Hale Center—Unirrigated forage crop.

### IRRIGATED FORAGE CROP.

- Mark G. Snyder, Route 1, Plainview—Irrigated forage crop.
- B. S. Arnold, Abernathy—Unirrigated forage crop.
- Robert J. Clark, Hale Center—Irrigated forage crop.
- J. F. Morrison, Plainview—Irrigated forage crop.
- B. F. Cox, Plainview—Irrigated and unirrigated forage crops.
- Les Ebeling, Plainview—Unirrigated forage crop.
- J. S. Simpson, Plainview—Texas Corn Club.
- High B. Tatum, Plainview—Unirrigated forage crop.
- Cecil Homan, Olton—Unirrigated forage crop.
- S. S. Sloneker, Plainview—Unirrigated forage crop.
- Stella M. Tatum, Plainview—Unirrigated forage crop.
- J. V. Tull, Jr., Plainview—Unirrigated forage crop.
- H. V. Tull, Sr., Plainview—Unirrigated forage crop.
- Guthrie White, Plainview—Irrigated forage crop.
- Floyd White, Plainview—Irrigated forage crop.
- Wilber Overall, Plainview—Unirrigated forage crop.
- Lillian Bolton, Petersburg—Texas Corn Club, Texas Cotton Club.
- P. B. Snyder, Route 1, Plainview—Irrigated forage crop.
- Chas. B. Rees—Irrigated forage crop.

### WILL ADDRESS FINANCE FORUM.

New York, N. Y., April 22.—Word has been received here by the Finance Forum committee of the Finance Forum of the Y. M. C. A. of New York City to the effect that Edwin Chamberlain, of San Antonio, Texas, has accepted an invitation to address this body on May 7. Mr. Chamberlain is chairman of the Texas Farm Life Commission's sub-committee on Rural Credits, and he will speak on the development of the Southwest.

### TEXAS STRAWBERRIES IN ACTIVE DEMAND.

Kansas City, Mo., April 22.—Fresh Texas strawberries are arriving here in car load shipments. The demand for the berries is active and the product from the "Lone Star" State is bringing top prices. The majority of the shipments are being received from the vicinity of Alvin, Texas.

### NITRATE OF SODA AS A FERTILIZER.

Dr. G. S. Fraps, State Chemist, has the following to say about the use of nitrate of soda as a fertilizer: "Nitrate of soda should not be used as a fertilizer alone in greater quantities than 100 pounds per acre. In connection with acid phosphate and potash it may be used in large quantities, especially on truck crops such as cabbage, cauliflower, or strawberries. It may also be used to advantage on oats at the rate of 100 pounds per acre, being applied as a top dressing in the spring. It contributes to the development of leaf and foliage rather than to fruit. It costs from \$60 to \$70 per ton. If land is "run down," I think it would be better, to use acid phosphate in connection with a rotation of crops in which are grown peas, alfalfa, or some other legume, and plow them under or graze them off. This not only adds nitrogen to the soil but also increases the vegetable matter, and thereby improves its physical condition."

MONEY TO LOAN.—Real estate loans 5 per cent, simple interest; long time, small monthly payments. See C. A. BOWRON, Jeweler. —Adv. 17

### EARLY CLOSING.

We, the undersigned Grocery Merchants, Bakeries and Market men of Plainview, are now working from 12 to 16 hours each day. Such long hours are a detriment to the health of our employes and ourselves, and too much work for our teams.

We realize that some rest is needed for all that are working in these places of business, and we agree to close our places of business at 7 o'clock p. m., Saturdays excepted, beginning Monday, April 21st.

We will thank our customers to give their orders early, so that the delivery men will not have to be out so long.

- Signed by SEWELL GROCERY CO., BOYD GROCERY CO., VICKERY-HANCOCK GRO. CO., STEPHENS & SAMS, SCUDDER GROCERY CO., SAM L. SEAY, HATCHELL & JOHNSON, WARREN & SANSON, WRIGHT & DUNAWAY GRO. CO., J. M. SANDERSON, H. J. DILLINGHAM, R. W. OTTO. —Adv.

### "THE BUILDING OF A STATE."

Fort Worth, Texas, April 22.--In a recent address before the School of Business Training of the University of Texas, on "The Building of a State," Judge S. A. Lindsey, chairman of the Texas Farm Life Commission, pointed out the fact most forcibly that it is humiliating that Texas, with all her advantages and immense wealth, is away down in the foot in farming and education. In part, he said:

"When I learned that twenty-odd States spent more on education than Texas; that nearly half the States had consolidated their rural schools and were giving rural and city children vocational training, and compelling attendance, and that the permanent school funds of all these States put together were not equal to ours, I stopped crowing and went to work, and have found the field white unto

harvest."  
"The Building of a State" is being distributed free in pamphlet form by the Texas Commercial Secretaries and Business Men's Association upon written request.

### SOME USES FOR ASHES.

Several people have asked, "What shall we do with ashes?" These are a few of the many ways that they can be used to advantage:

Mixed with salt and lime and sprinkled with water and pounded, they make a very good floor for the poultry house. They will lighten the soil of the garden, and dug into the soil around rose bushes will improve the roses and keep insects from troubling them, and will benefit other shrubs as well. Use them to fill low places and in place of lime for all, or many, unsanitary places. Any left

over should be put in some sort of receptacle inside the fence next the alley ready for the city cart to remove at regular intervals, probably once a month.

### TRAVEL STUDY CLUB TO STUDY JERUSALEM.

The following program has been arranged for the meeting of the Travel Study Club to be held on Saturday, April 26 in the Club Room at the City Hall:

- Leader--Amy Glenn.
1. Define the limits of Palestine.
  2. Compare the Gethsemane of the present with the Gethsemane of eighteen centuries ago.
  3. Mention the historic places in the vicinity of the Mount of Olives.
  4. Give a list of the places lying within a radius of a few miles of Jerusalem, and the historical value of each.

5. How much of the ruins of Solomon's Temple can be seen today?

6. Give date and description of Solomon's Temple.

7. Where is the "Jew's Waiting Place," and how are the scenes there suggestive of the checkered history of the Jewish race?

8. Sketch a brief history of the Jew's wanderings, and their banishments.

9. Give a description of their torture.

10. How and for what purpose were the Jews received in Christian cities?

11. Why was all this misery inflicted on the Hebrew race, and was it just?

12. Give the "Miracle of History" regarding the Jews' loyalty to their father's faith.

13. Give a summary of the Jew's contribution to Christianity.

14. Who was Lord Beauchamp, and give an instance of his typical defense of his race.

15. Name some of the most famous Jewish musicians, artists and actresses.

16. Give the pre-eminence of the Jews as financial agents of the world.

17. What great philanthropist came from the Jewish race?

18. The Jews observed how many kinds of years? Name and define each.

Your troubles are ended when we do your work. Try us--Painting and Papering. PLAINVIEW DECORATING CO. Phone 459. W. D. Jordan, Manager.

### EVERY KANSAS SCHOOL TO TEACH ART OF COOKING.

New Theory Is That Domestic Economics Begins at the Bottom, Not the Top.

Topeka, Kans., April 19.--A cookery and home economics department in every graded school in Kansas is the announced plan of the State school authorities. Already interpretations of the laws governing the purchase of supplies have been obtained, placing stew kettles and sauce pans on equal basis with erasers, and flour and oil, salt and pepper on a footing with crayon and coal.

Miss Adah Lewis, of the home economics extension department of the Kansas Agricultural College, has itemized a kitchen outfit that at retail costs \$9.90, and county superintendents who have ordered one for each country school in their respective jurisdictions have obtained them at wholesale for less than \$8 each.

Seventh and eighth grade girls are required to do an hour's work each day in the home economics department, and this includes itemizing the cost of the dishes that are prepared. The classes are divided in three sections--one for mixing food, one for cooking and one for care of the table.

In most of the country schools the classes are held from 11:30 into the noon hour, and the entire school is served a warm lunch from the raw materials the school children bring, instead of the usual sandwiches and cake.

Miss Lewis has prepared a special text book, which is printed by the State. For several years the State has been giving \$500 a year to each high school having a domestic science course, but it was argued that high school work did not reach where the home economics were most needed. After 1916 each Kansas teacher must pass a satisfactory examination in domestic science as well as in agriculture.--Kansas City Star.

### LUBBOCK PROMOTES STUDENT BODY ARMY.

Led by a suggestion from Lubbock County promoters, it is deemed probable that more than 300,000 students from Texas public schools will attend the Dallas State Fair, Saturday, November 1, this year. Already the Santa Fe officials in Amarillo have been asked to consider the matter of low rates for the round trip, together with special equipment for the excursion-

ists. Lubbock County proposes that each school within her borders shall compose a company and that these companies shall be joined together in a county regiment. Another detail of the proposition is that the students shall be uniformed in the regulation cloth of the army, made in "cowboy" style, providing necessary variations for the sexes.

Just what action the schools of Potter and adjoining counties may take in this matter is not known at present, but it is said that already a number of counties in various sections of the State are enthusiastic in their endorsement of the scheme.

Another suggestion of the Lubbock County organization is that each child in the schools who will be in position to make the trip be encouraged to earn the money necessary for himself or herself, as the case may be.

It is pointed out that this effort will prove a beneficial stimulus to the habit of earning and saving money by the younger people of the community.

### BIG SURPRISE TO MANY IN PLAINVIEW.

Local people are surprised at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, the German appendicitis remedy. J. W. Willis, Drug-gist, states that this simple remedy antisepticizes the digestive system and draws off the impurities so thoroughly that A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY. --Adv. 17

### HIGH SCHOOL NOTES.

The Parent-Teachers' Association held their last meeting for the school year last Friday. One of the subjects, upon which they acted, was the drinking fountain. They reported that they had collected forty-five dollars for the purpose of installing drinking fountains in our school buildings. We already have two installed in the High School Building, and two will be installed in the Lamar School Building this week. These fountains will be thoroughly tested, and the best ones picked. More will be installed, in both schools, before the first of next term. This is an important subject, and the parents, teachers and pupils have all been interested in it for some time. We are glad to get these fountains and wish to thank the Parent-Teachers' Association for them.

Mrs. F. L. Brown visited the High School on Friday of last week. We were glad to have Mrs. Brown with us.

Monday morning the attendance of the tenth grade was eight. We don't know whether they stayed at home on account of the rain or because it was San Jacinto Day.

Mr. Brown, the editor of The Herald, spoke to the pupils of the ninth

and tenth grades at the High School on True Patriotism. He convinced us that the United States is in a fair way to lose her prominence in this old world if she does not wake up to the way her resources are being wasted. He proved, beyond a possible doubt, that we must wake up and replant our lands in trees and stop the waste of our natural resources. A student of modern history can not help wondering how a nation whose people are as ignorant as the Russian people can become a world power. Mr. Brown convinced us that it is because of her vast resources; when the resources of a nation are gone, that nation will certainly decline. As a patriotic people, let us wake up and mend our failing resources while we can do so by stopping the waste.

R. L. Marquis, of Canyon City, will be in Plainview on Monday, April 28, and will speak at the mass meeting at the opera house that night. His subject will be "The Fly." In the afternoon he will speak to the school children on "Mouth Hygiene."

The tenth grade of the High School took and passed successfully an examination on the first book of plane geometry.

Last Friday the Plainview High School baseball team played the Nor-

mal at Canyon City. A game was matched for Saturday with the Canyon High School, but only four of the high school boys played. As a result our boys were beaten. Hooper pitched the game against the Normal, Friday. He got nine strike-outs to the Normal pitcher's ten. The Canyon boys got three home runs, and eleven other hits. Our boys got ten hits. Among the best of these were a two-base hit by Vines and two-base hits by Hooper, Vaughn and Fullingim. The second game Fullingim and Hooper pitched for our boys. Hub Pritchard, an ex-leaguer, pitched for the Canyon boys. The hits for Plainview were a home run by Vines, two two-base hits by Vaughn and a three-base hit by Fullingim. The Plainview boys reported that they had the time of their lives while in Canyon City.

### MABEE BEATS SANDERS.

Oklahoma Man Is Presented with Gift by Friends After Last Bout.

Roy Mabee again demonstrated his superiority in the wrestling game Monday night by getting two straight falls from Jack Sanders, of Minneapolis, Minn. The first fall was won with a body scissor after 28 minutes; a hammer lock and half nelson won second fall in 31 minutes.

Sanders weighed 200 pounds, Mabee 185 pounds, just before going on the mat. It was perhaps as grueling a match as Mabee has won in Plainview. The Minneapolis man was alert in pinches, quick on his feet and his weight handicapped Mabee. The Oklahoma man came out of a number of bad-looking places. He knows the game better than Sanders. Mabee's endurance, his alertness and his coolness make him an unusually clever wrestler.

Joe Snyder got two falls from Carr, of Hale Center, in the preliminaries.

Tuesday morning Mabee's friends in Plainview presented him with a handsome suit of clothes in appreciation for his work on the local mat. Mr. Mabee has won many friends in Plainview. His manly attitude at all times has done much to popularize wrestling. A host of friends will welcome him if he concludes to return in the fall.

Mr. Mabee leaves this week for Oklahoma.

### TEXAS ONIONS REACH CHICAGO.

San Antonio, Texas, April 22.—On April 15 there had been 70 cars of Texas Bermuda onions shipped from all points, the Laredo section supplying the earliest carloads. On April 10 the first Texas onions to arrive on Northern markets reached Chicago, and the stock showed good quality for the first arrival and moved well, according to reports. Digging has started in earnest in the Laredo district and, weather permitting, more than 400 cars will be moved from all stations in the next week.

### THE STATE OF TEXAS, County of Hale.

Whereas, by virtue of the authority vested in me as trustee, named and appointed in a certain deed of trust recorded at page 70 of volume 5 of the real estate mortgages of Hale County, Texas, executed and delivered to me on the 1st day of January, A. D. 1912, by J. D. Kendrick for better securing the payment of one certain promissory note for the sum of Fourteen Hundred Dollars (\$1400.00), fully described in said deed of trust, executed by the said J. D. Kendrick and payable to the order of the First National Bank of Knox City, Texas, due on the 1st day of March, 1912, and bearing interest at ten per cent per annum from date until paid, and also providing for the payment of ten per cent additional upon the amount of principal and interest as attorneys' fees, if not paid at maturity and if placed in the hands of an attorney for collection;

And, whereas, the said First National Bank of Knox City, Texas, is the holder and owner of said note and the said J. D. Kendrick has made default in the payment of same and the same is now past due and unpaid, principal, interest and attorneys' fees by reason thereof and as provided for in said note and in said deed of trust;

And, whereas, I have been requested by the said First National Bank of Knox City, Texas, to enforce said trust, I will offer for sale, between the legal hours thereof, to-wit, ten o'clock A. M. and four o'clock P. M., at Public Auction to the highest bidder for cash, on the first Tuesday in May, A. D. 1913, the same being the sixth day of said month, at the Court House Door in the Town of Plainview, in Hale County, Texas, the following described property, to-wit:

All of a 640-acre tract of land situated in Hale County, Texas, known as Survey No. 39, in block A-1, save and except 8.55 acres heretofore granted to the A. T. & S. F. Railway Company, and save and except 542 acres conveyed by deed of trust to H. G. McConnell, Trustee for A. N. Deering, dated April 18, 1911, the part of said section conveyed by the deed of trust as hereinabove mentioned and to be sold as herein advertised, consisting of all of the above-named survey which is situated on the north side of said railroad, including about 90 acres of land, the same having been patented on April 11, 1881, to J. J. Stevens, Assignee of the East Line and Red River Railroad Company by patent No. 91, volume 60, to which reference is here made for particular description, together with all the rights, members and appurtenances thereto belonging or in anywise incident.

Witness my hand this 1st day of April, A. D. 1913.  
H. G. McCONNELL,  
—Adv. 17. Trustee.

Butter for Table

Cottolene for Cooking

The Happy Go-Between

# Cottolene

Cottolene is not for table use, but it is the best cooking fat for all shortening and frying. If you are using butter in your kitchen you are paying at least twice as much as necessary to secure the same results with Cottolene.

Another point of economy about Cottolene—use one-third less than you would of butter or lard

Cottolene is a clean, pure product, and makes wholesome, healthful, digestible food, because it is a vegetable and not an animal fat.

Made only by THE N. K. FAIRBANK COMPANY

### TRY THIS RECIPE:

#### FRIED FISH

Fry Trout, Perch, Herring and other small pan fish whole. Cut large fish in 1 inch thick slices, 2 or 3 inches square. Remove skin and bones from sliced fish, wipe dry, roll in bread crumbs or fine meal, then in beaten eggs, then in crumbs, and fry in deep Cottolene hot enough to brown a bit of bread while you count sixty. Drain well before serving, or simply cover with seasoned meal and brown on each side in hot Cottolene in frying pan.

## The "Just-Right" Kind

Here's the syrup for your cakes, waffles, bread—just thick enough but not too thick—sweet with a delicate, sugar-honey sweetness—absolutely pure—simply delicious.

# White Swan CANE SYRUP

is just the pure juice of Louisiana sugar cane boiled down to the proper consistency and canned without the loss of a particle of the sugar. Better than the law requires.

Your Grocer will be glad to recommend it because he knows you'll come back for more.

Waples-Platter Grocer Co.  
Dallas - Denison - Ft. Worth

# White Crest Flour Best By Test

It doesn't cost more than Flour that is worth less and results are always satisfactory when you bake with it.

# Chase & Sanborn's Coffee

Is pure Coffee with a pure Coffee taste and aroma. The memory lingers when you drink Chase & Sanborn's Coffee.

# WRIGHT & DUNAWAY

Sell Both in Any Quantities

An ounce of Carbolized Lime is worth a thousand swats when used as a preventative in the "Swat the Fly" campaign. Use it freely about the barn and other places where the flies congregate. It's but a short distance from the barnyard to your table.

## BETTER THAN SPANKING

Spanking will not cure children of wetting the bed, because it is not a habit, but a dangerous disease. The C. H. Rowan Drug Co., Dept. 1913, Chicago, Ill., have discovered a strictly harmless remedy for this distressing disease, and, to make known its merits, they will send a 50c package, securely wrapped, Absolutely Free to any reader of The Hale County Herald. This remedy also cures frequent desire to urinate and inability to control urine during the night or day in old or young. The C. H. Rowan Drug Company is an Old Reliable House; write them today for the free medicine. Cure the afflicted members of your family, then tell your neighbors and friends about this remedy.

## Why Women Have Nerves

The "blues"—anxiety—sleeplessness—and warnings of pain and distress are sent by the nerves like flying messengers throughout body and limbs. Such feelings may or may not be accompanied by backache or headache or bearing down. The local disorders and inflammation, if there is any, should be treated with Dr. Pierce's Lotion Tablets. Then the nervous system and the entire womanly make-up feels the tonic effect of

### DR. PIERCE'S FAVORITE PRESCRIPTION

when taken systematically and for any period of time. It is not a "cure-all," but has given uniform satisfaction for over forty years, being designed for the single purpose of curing woman's peculiar ailments.

Sold in liquid form or tablets by  
druggists—or send 50 one-cent  
stamps for a box of Dr. Pierce's  
Favorite Prescription Tablets.

## Instant Relief from Eczema

You can stop that awful itch from  
eczema and other skin troubles in two  
seconds.  
Seems too good to be true—but it is  
true, and we vouch for it.  
Just a few drops of the simple, cool-  
ing wash, the D.D.D. Prescription for  
eczema, and the itch stops instantly.  
We give you enough to prove it for 50  
cents.  
Now, if you have tried a great many  
sures for eczema and have been disap-

pointed, do not make the mistake of  
refusing to try this soothing wash. All  
other druggists keep this D.D.D. Pre-  
scription—go to them if you can't  
come to us—but if you come to our  
store we will give you the first dollar  
bottle on our positive no pay guaran-  
tee. That D.D.D. will stop the itch at  
once.  
D.D.D. Soap keeps the pores healthy;  
ask us about it.

### CHAPTER XVII.

A Green-Eyed Billy.  
"Have some candy?" said Miss Ce-  
cilia, offering a big box of bonbons  
to Billy, who was visiting her.

"Where'd you git 'em?" he asked, as  
he helped himself generously.

"Maurice sent them to me this morn-  
ing."

Billy put all his candy back into the  
box.

"I don't believe I want noney yo'  
candy," he said, scowling darkly. "I  
reckon you likes him better 'n me any-  
how, don't you?"

"I love you dearly," she replied.

The child stood in front of her and  
looked her squarely in the eye. His  
little form was drawn to its full, proud  
height, his soft, fair cheeks were flush-  
ed, his big, beautiful gray eyes looked  
somber and sad.

"Is you in love with that red-  
headed Maurice Richmond, an' jes' a-  
foolin' o' me?" he asked with dig-  
nity.

A bright flush dyed crimson the  
young lady's pretty face.

She put her arm around the childish,  
graceful figure and drew the little boy  
to the sofa beside her.

"Now, honey, you mustn't be silly,"  
she said, gently, "you are my own,  
dear, little sweetheart."

"An' I reckon he's yo' own, dear,  
big sweetheart," said the jealous Billy.  
"Well, all I got to say is this-her: If  
he's a-goin' to come to see you ev'ry  
day then I ain't never comin' no mo'.  
He's been a-carryin' on his foolishness  
'bout 's long as I can stand it. You  
got to choose 'tween us right this min-  
ute; he comes down here mos' ev'ry  
day he's tuck you drivin' more'n fifty  
hundred times, an' he's give you all  
the candy you can stuff."

"He is not the only one who comes  
to see me," she said smiling down at  
him. "Jimmy comes often and Len  
Hammer and Will Reid. Don't you want  
them to come?"

"Don't nobody pay no 'tention to  
Jimmy," he replied contemptuously;  
"he ain't nothin' but a baby, an' them  
other mens can come if you wants 'em  
to; but," said Billy, with a lover's un-  
erring intuition, "I ain't a-goin' to  
stand for that long-legged, sorrel-top  
Maurice Richmond a-trottin' his great  
big carkiss down here ev'ry minute. I  
wish Aunt Minerva'd let me put on  
long pants tomorrer so's we could git  
married." He caught sight of a new  
ring sparkling on her finger.

"Who give you that ring?" he asked  
sharply.

"A little bird brought it to me," she  
said, trying to speak gayly and blush-  
ing again.

"A big red-headed peckerwood," said  
Billy savagely.

"Maurice loves you, too"—she hoped  
to conciliate him: "he says you are  
the brightest kid in town."

"Kid," was the scornful echo,  
"cause he's so big and tall, he's got  
to call me a kid. Well, he'd jes'  
a-wastin' h'fself lovin' me; I don't  
like him an' I ain't a-goin' to never like  
him, an' soon's I put on long pants  
he's got to get 'bout the worses' lickin'  
he ever did see."

"Say, does you kiss him like you  
does me?" he asked presently, look-  
ing up at her with serious, unsmiling  
face.

She hid her embarrassment in a  
laugh.

"Don't be foolish, Billy," she replied.  
"I'll bet he's kissed you more'n  
fifty hundred times."

"There's Jimmy whistling for you,"  
said Miss Cecilia. "How do you two  
boys make that peculiar whistle? I  
would recognize it anywhere."

"Is he ever kiss you yet?" asked the  
child.

"I heard that you and Jimmy  
whipped Ed Brown because he imi-  
tated your own particular whistle.  
Did you?"

"How many times is he kiss you?"  
asked Billy.

The young girl put her arm around  
him and tried to nestle his little body  
against her own.

"I'm too big, anyway, for your real  
sweetheart," she said. "Why, by the  
time you are large enough to marry I  
should be an old maid. You must have  
Frances or Lina for your sweetheart."

"An' let you have Maurice!" he  
sneered.

She stopped to lay her flushed  
cheek against his own.

"Honey," she softly said, "Maurice  
and I are going to be married soon;  
I love him very much and I want you  
to love him too."

He pushed her roughly from him.

"An' you jes' 'ceived me all the  
time," he cried, "an' me a-lovin' you  
better'n anybody I ever see sence I's  
born? An' you a Sunday-school teacher?  
I ain't never a-goin' to trust no-  
body no mo'. Good-by, Miss Cecilia."

She caught his hand and held it  
fast. "I want you and Jimmy to be my

little pages at the wedding, and wear  
dear little white satin suits all  
trimmed with gold braid"—she tried  
to be enthusiastic and arouse his in-  
terest; "and Lina and Frances can be  
little flower-girls and we'll have such  
a beautiful wedding."

"Jimmy an' Lina an' Frances can be  
all the pages an' flower-girls an'  
brides an' grooms they wants to, but  
you can't rope me in," he scornfully  
replied. "It's done with you an' I ain't  
never goin' to have me mo' sweet-  
heart long 's I live."

### CHAPTER XVIII.

#### Closer Than a Brother.

It was a bad, rainy day. Jimmy and  
Billy were playing in Sarah Jane's  
cabin, she, however, being in happy  
ignorance of the fact. Her large  
stays, worn to the preaching the night  
before, were hanging on the back of a  
chair.

"Ain't I glad I don't have to wear  
no corset when I puts on long pants?"  
remarked Billy, pointing to the article.  
"Ain't that a big one? It's twice 's  
big 's Aunt Minerva's."

"My mamma wears a big co'set,  
too," said Jimmy; "I like fat wom-  
ans 'nother sight better 'n lean ones.  
Miss Minerva's 'bout the skinniest  
woman they is; when I get married  
I'm going to pick me out the fattest  
wife I can find, so when you set  
in hee lap at night for her to rock you  
to sleep you'll have a soft place to put  
your head, while she sings to you."

"The major—he's mos' plump  
enough for two," said Billy, taking  
down the stays and trying to hook  
them around him.

"It sho' is big," he said; "I believe  
it's big 'nough to go 'round both of  
us."

"Let's see if 't ain't," was the other  
boy's ready suggestion.

He stood behind Billy and they put  
the stays around both 'little bodies,

while, with much squeezing and gog-  
gling, Billy hooked them safely up  
the front. The boys got in front of  
Sarah Jane's one looking-glass and  
danced about laughing with glee.

"We're like the twines what was  
growed together like mamma read me  
'bout," declared the younger child.

Presently they began to feel un-  
comfortable, especially Jimmy, whose  
fat, round little middle was tightly  
compressed.

"Here, unhook this thing, Billy, and  
let's take her off," he said. "I'm  
'bout to pop open."

"All right," agreed his companion.  
He tugged and pulled, but could get  
only the top and bottom hooks un-  
clamped; the middle ones refused to  
budge.

"I can't get these here hooks to  
come loose," Billy said.

Jimmy put his short, fat arms  
around him and tried his hand, but  
with no better success. The stays  
were such a snug fit that the hooks  
seemed glued.

"We sho' is in a fix," said Billy  
gloomily; "look like God all time let-  
tin' us git in trouble."

"You think of more fool stunts to  
do, William Hill, than any boy they  
is," cried the other; "you all time  
want to get us hooked up in Sarah  
Jane's corset and you all time can't  
get nobody loose. What you want to  
get us hooked up in this thing for?"

"You done it yo'self," defended the  
boy in front with rising passion.  
"Squeeze in, Jimmy; we jes' boun' to  
git outter this 'fore somebody finds  
it out."

He backed the other child close to  
the wall and pressed so hard against  
him that Jimmy screamed aloud and  
began to pound him on the head with  
his chubby fists.

Billy would not submit tamely to  
any such treatment. He reached his  
hand behind him and gave the  
smaller boy's cheek a merciless pinch.  
The fight was on. The two little boys,  
laced up tightly as they were in a  
stout pair of stays, pinched and  
scratched, and kicked and jerked.  
Suddenly Billy, leaning heavily against  
Jimmy, threw him flat on his back  
and fell on top of him.

Bennie Dick, sitting on the floor,  
had up to this time watched the pro-  
ceedings with an interested eye; now,  
thinking murder was being commit-  
ted, he opened his big, red mouth and  
emitted a howl that could be heard  
half a mile. It immediately brought  
his mother to the open door. When  
she saw the children squirming on  
the floor in her only corset, her indig-  
nation knew no bounds.

"You, Jimmy Garner, an' you, too,  
William Hill, yuh little imps o' Satan,  
what you doin' in my house? Didn't  
yo' mammy tell you not to tamper  
wid me no mo'? Git up an' come here  
an' lemme git my co'set off o' yuh."

Angry as she was, she could not  
keep from laughing at the sight they  
presented, as, with no gentle hand,  
she unclamped the hooks and released  
their imprisoned bodies.

"Billy all time—" began Jimmy.

"Billy all time nothin'," said Sarah  
Jane. "Tain't no use fo' to try to lay  
dis-her co'set business onto Billy;  
both o' yuh is ekally in it. An' me

a-samin' fo' to go to three runess dis  
week an' a baptizin' on Sunday.  
S'pose y' all 'd bruck one o' de splints,  
how'd I look a-presidin' at a shupel  
'thout nare co'set on, an' me shape  
like what I is?"

"Who's dead, Sarah Jane?" asked  
Jimmy, hoping to stem the torrent of  
her wrath.

"Sis' Mary Ellen's las' husband',  
Brudder Littlejohn—dat' a-who," she  
replied, somewhat mollified at his in-  
terest.

"When did he die?"—Jimmy pursued  
his advantage.

"He got 'way fom here 'bout moon-  
down las' night," she replied, losing  
sight of her grievance in his flatter-  
ing interrogations. "You know Sis'  
Littlejohn, she been married goin' on  
five times. Dis-her 'll make fo' gen-  
tlemans she done buriet an' dey ain't  
nobody can manage a fun'el like she  
kin; 'pears like hit jes come natchel  
to her. She sho' is done a good part  
by ebery single husband' too, an' she  
's figgerin' to outdo all the yuthers'  
wid Brudder Littlejohn's co'pse."

Sarah Jane almost forgot her little au-  
dience in her intense absorption of  
her subject. "She say to me dis morn-  
in', she say, 'Marri'ge am a lott'ry, Sis  
Beddin'el, but I sho' is drawed some  
han'some prizes.' She got 'em all  
laid out side by side in de buryin'  
groun' wid er little imige on ebery  
grave; an' Sis Mary Ellen, seein' as  
she can't read de writin' on de tomb-  
stones, she got a diff'unt little animal  
a-settin' on ebery head res' so's she  
kin tell which husband' am which.  
Her fus' husband' were all time a-bunt-  
in', so she got a little white marble  
pa'tridge a-restin' on he' head, an' hit  
am a mighty consolement to a po'  
widda 'oman fo' to know dat she can  
tell de very minute her eyes light on  
er grave which husband' hit am. Her  
secor' man he got er mighty kinky,  
woolly head an' he mighty meek, so

## HOW CHRONIC COUGHS

Are Being Cured by Vinol.

Did you ever cough for a month? Then just think how distressing it must be to have a cough hang on for three months.

Mrs. Maria Primrose, of 87 Newell Street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough, which kept me awake nights for fully three months, and felt tired all the time because my rest was broken so much. The effect of taking your cod liver and iron remedy, Vinol, is that my cough is gone. I can now get a good night's rest, and I feel much stronger in every way."

It is the combined action of the medicinal elements, cods' livers, aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient in curing chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol, with the understanding that your money will be returned if it does not help you.

Take Hall's Family Pills for constipation.  
—Adv. 17

she got a little white lamb a-settin' on  
he grave; an' de nex' husband' he  
did n't have nothin' much fo' to dis-  
guess him fom de res' 'cep'in' he so  
slow an' she might sigh rack her brain  
off, twell she happen to think 'bout  
him bein' a Hardshell Baptis' an' 'so  
powerful slow, so she jest got a little  
tarrapin an' sot it on him. Hit sho' am  
a pretty sight jes' to go in dat  
buryin' groun' an' look at 'em all, side  
by side; an' now she got Brudder Lit-  
tlejohn to add to de res'. He de on-  
liest one what's got er patch o' whis-  
kers so she gwine to put a little white  
cat on he' grave. Yes, Lord, ef any-  
think could pearten' a widda 'oman  
hit would be jes' to know dat yuh  
could go to de grabyard any time yuh  
want to an' look at dat han'some  
c'lection an' tell 'sactly which am  
which."

Sarah Jane stopped for breath and  
Billy hastened to inquire:

"Who else is dead, Sarah Jane?"

"Tain't nobody else dead, yit, as I  
knows on; but my two cousins is tur-  
rible low; one 's got a hemrage on de  
lung an' de yuther 's got a congestin'  
on de brain, an' I lows dey 'll bofe  
drap off 'twix' now an' sunup tomor-  
ra." Her eyes rolled around and hap-  
pened to light on her corset. She at  
once returned to her grievance.

"An' s'posin' I had n't 'av' come in  
here when I did? I'd 'a' had to went  
to my own cousins' fun'el 'bout nare  
co'set. Y' all gotta go right to y' all's  
mamas an' Miss Minerva dis very min-  
ute. I low dey 'll settle yo' hashes.  
Don't y' all know dat Larroes ketch  
meddlers?"

(To be continued.)

## Gave Up Hope

"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chadbourne, N. C. "They grew worse, till I would often faint. I could not walk at all, and I had an awful hurting in my side; also a headache and a backache.

I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used, I could do all my work. All the people around here said I would die, but Cardui relieved me."

## TAKE CARDUI The Woman's Tonic

For more than 50 years, Cardui has been relieving woman's sufferings, and making weak women strong and well. During this time, thousands of women have written, like Mrs. McPherson, to tell of the really surprising results they obtained by the use of this purely vegetable, tonic remedy for women.

Cardui strengthens, builds, restores, and relieves or prevents unnecessary pain and suffering from womanly troubles. If you are a woman, begin taking Cardui, today.

## FOR 20 YEARS, THE FAMOUS LEADER FOR POWER

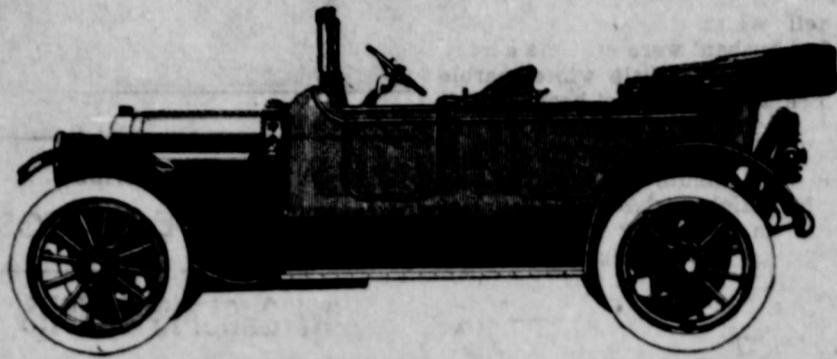

APPPERSON BROTHERS knocked the bottom out of the A. L. A. M. formula, because the powerful JACK RABBIT motor proves it is just as nonsensical to say that all motors of equal piston displacement are equally powerful as to maintain that all men 24 years old, 6 feet tall and weighing 180 pounds can do the same amount of work in the same length of time.

### 45 H. P.

TO DEVELOP 45 H. P. out of a 4 1/2 x 5 motor, we use T Head cylinders cast separately, 2 1/2-inch valves, 2-inch crank with 5 bearings, hollow crank shaft oiling system, sliding vein water pump, and honey-comb radiator to keep the motor cool. We use 36c aluminum in our crank case against other makers' 6c malleable.

OTHER MOTORS with cylinders the same size deliver less power. Other 45 H. P. motors are much larger—a burden to themselves. The APPERSON 45 H. P. motor is the only motor advertised at 45 H. P. that really develops that much power. No car in the world attempts to compete for power with the

OUR AIM—To Satisfy Each Individual Purchaser.

### TEXAS INDUSTRIAL NOTES.

Rock Island.—"Dairying and Hog Raising" will be the subjects discussed at the Farmers' Institute meeting to be held here on April 23. Unusually good prices received for hogs and cattle raised in this vicinity has created enthusiasm among the farmers near here. Two cars of fat cattle recently shipped from this point averaged 1,414 pounds each.

Beaumont.—The Beaumont Chamber dry goods store, which is to be financed principally by local capital. The rapid growth and prosperity of wholesale houses in other lines justifies the confidence of the Beaumont people in the possibilities of a dry goods business.

Wichita Falls.—Building has been unusually active in this city during the past few months, and in March the building permits totaled \$107,250.

Freeport.—Invitations have been sent out and a suitable program arranged for the holding of "Farmers' Day" here on Saturday, April 19. The object of the meeting will be to discuss the erection of a cotton gin here and other subjects of importance to the farmers in this vicinity.

Denton.—Vigorous preparations are being made to take care of the many hundreds who are expected to attend the College of Industrial Arts homecoming celebration, April 18 to 21. The program includes speeches by Governor Colquitt and State Superintendent Bralley.

Fort Worth.—Fort Worth will claim the distinction of having one of the longest continuous "white ways" in the entire country if the plans of the North Side Improvement Club are carried out. The club proposes to extend the cluster lamps along the new viaduct and northward toward the packeries on Exchange Avenue, a distance of about three miles.

Houston.—The old depot under the new Main Street viaduct in this city is being removed, preparatory to the erection of the new \$200,000 M. K. & T. railway passenger station. Work on the structure is scheduled to begin at an early date.

Wichita Falls.—Among the larger industries to locate in Wichita Falls within the past week is a cotton glove factory. Hillburn Brothers, with headquarters in Dalhart, have announced that they would establish a factory here in the near future. It is understood that another plant will be located at El Paso.

Alpine.—Elaborate preparations are being made for the celebration in honor of the completion of the Kansas City, Mexico & Orient Railway to a connection with the Southern Pacific at this point. It is planned to have the celebration April 24th and 25th. A large crowd from West Texas points is expected to attend.

Sabinal.—Preparations are being made for the entertainment of the delegates to the fifth annual Dry Farming Congress, which convenes here July 15, 16 and 17. It is said that the conference will be the most important ever held, and a large attendance is expected.

Marlin.—The Texas Circuit of County Fairs has been organized here. A number of counties were represented, and a permanent organization was perfected. C. W. Adams, of Marlin, was elected president and J. C. Miller, of Crockett, secretary.

Bryan.—That the much-talked-of Bryan & Central Texas Interurban will be built in the near future now seems assured, according to a dispatch from Austin, to the effect that the articles of incorporation of the concern had been approved. The line will connect Bryan and Wilcox, Burleson County.

Mexia.—What is considered one of the largest gas wells ever developed in this country has just been struck on the Broadnax tract near this city. It is estimated that about 30,000,000 cubic feet of gas was escaping before the well was finally capped. The pressure is between three hundred and fifty and four hundred pounds to the square inch. The well is known as the Mexia Oil & Gas Company well No. 11.

Dallas.—Advices from all parts of the continent point to a record attendance at the thirty-ninth meeting of the Imperial Council, Ancient Orders Nobles of the Mystic Shrine, which convenes in this city Tuesday, May 13. Practically every temple in Shrinedom will be represented.

Cleburne.—Announcement has been received here of the proposed additions to the Santa Fe shops in this city. The improvements will cost in the neighborhood of \$1,000,000. Cleburne will soon rival Topeka, Kansas,

# Wonderful!

## The New 1913 Saginaw With the Patented Angle Steel Rib

Last season's Saginaw Silo was pronounced utterly perfect by dairymen and stockmen all over the country. For 1913 it was wholly unnecessary to attempt improvement. Yet, despite this, we came out with this 1913 Model. The big feature of the 1913 is the **ANGLE STEEL RIB**. This ingenious invention adds about 50% to the life of a Silo. And that's wonderful, when you consider the Saginaw is already known to be the strongest and most durable Silo ever built.

### Doing the "Impossible"

The Angle Steel Rib has done what other Silo makes only a year ago considered impossible. It has given you **SHAKE-PROOF** and **TILT-PROOF** silos. All because the Angle Steel Rib absolutely prevents any up-and-down slipping of the staves. Moreover, this marvelous invention forever ends the remote possibility of your Silo caving in when empty.

This Angle Steel Rib is a Structural Steel Reinforcement, curved to the curve of the Silo. It is slotted in strong, malleable brackets which are securely attached to alternate staves. Each rib is free to move and adjust itself to any variation in the diameter of the Silo. Built on the same structural principle as the big "I" beams used in giant steel frame buildings. One Bag reinforces the other. Think of what it means to have these brackets, unbreakable Angle Steel Ribs encircling your Silo! To fully appreciate the patented Angle Steel Rib, you must get our new free Silo Book, which pictures and explains all.

### Other Noted Features

The Saginaw was famous first as "The Silo with the All-Steel Door Frame." Then followed the Saginaw Insect-Proofing Hoop. Next came the celebrated Saginaw Base Anchor. And now comes the Angle Steel Rib—the most outstanding feature of all.

### 5 Big Factories

The Saginaw is far the most popular Silo on the market. Five mammoth Silo factories have had to be built. Last season we received orders for 57 Silos in a single day.

### Strong as a Skyscraper

The Saginaw Silo, with its steel frame staves is as solid as a modern city skyscraper. It cannot blow down, it cannot twist, it cannot warp; it cannot collapse; it cannot shift on its foundation. Like a steel oak, it is rooted to the ground by the Saginaw Anchoring System.

### Bright, Clean Silage

No rank, sour silage ever comes out of a Saginaw. It is sweet and pure close to the edge, right next to the walls. Animals love the enticing flavor and thrive wonderfully on the rich, succulent food. Don't get a Silo that spoils silage.

### Get Latest Silo Book

Our latest book on Silos is about ready for mailing. It not only fully describes the 1913 Saginaw, but also contains a wealth of information on Silo Building and Silage. Don't miss getting it. Write for it—our letter, come in and get your book and we'll talk it over.

### Put on a Stock Saddle

I am making all the time a full line of Hand-Made Team and Buggy Harness out of Pure Oak Leather at less price than you can buy factory-made harness.

We carry a full line of Horse Collars, all sizes and the best makes at the lowest price; Blankets, Bridles of all kinds, Buggy Whips of the best makes, fine Spurs and Bits; in fact, we have the most complete Saddlery and Harness House in the Panhandle. Call and look through.

## Geo. W. Graves Saddlery Company PLAINVIEW, TEXAS

as a railroad shop center, according to authorities in that line.

Clarksville.—A shipment of sixty thousand crappie and black bass has been received from the Government fish hatcheries at San Marcos and placed in the Red River Country Club's lake six miles south of the city.

**PROPOSED AMENDMENT TO THE STATE CONSTITUTION PROVIDING ALL STATE, DISTRICT, COUNTY AND PRECINCT OFFICERS WITHIN THIS STATE SHALL BE COMPENSATED BY THE PAYMENT OF A FIXED SALARY.**

(H. J. R. No. 41.)

**A JOINT RESOLUTION** Of the Legislature of the State of Texas, proposing an amendment to the Constitution of the State by adding to Article 16 thereof a new section to be known as Section 58, providing for the tenure and compensation of public officials.

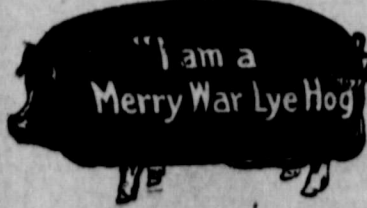

**Be it resolved by the Legislature of the State of Texas:** Section 1. That there be added to Article 16 of the Constitution of the State of Texas a new section to be known as Section 58, which shall read as follows:

Section 58. All State, district, county and precinct officers within the State of Texas shall hereinafter be compensated by the payment of a salary to be fixed or provided for by the Legislature.

Sec. 2. The Governor of this State will, as directed by the Constitution, make publication of this proposed amendment in the manner and for the time as required by the Constitution, the amendment to be voted upon by the qualified electors for members of the Legislature of this State at the general election to be held for State officers on July 19, 1913, the returns of which shall, as provided for in the Constitution, be made to the Secretary of State, the result ascertained and proclamation made as provided for in Section 1, Article 17, of the Constitution. There shall be written or printed on the ballots to be used at such election "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing term of office at four years;" and also "against the adoption of Section 58, Article 16, as an amendment to the Constitution for certain officers and fixing their term of office at four years;" and those favoring the adoption of said amendment shall erase the language "Against the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by running a pencil or pen through the same, and those opposing the adoption of said amendment shall erase the language "for the adoption of Section 58, Article 16, as an amendment to the Constitution, providing a salary compensation for certain officers and fixing their term of office at four years," by ### SUMMARY OF WORLD NEWS OF THE WEEK.

Buildings of the Kansas Penitentiary, at Lansing, destroyed by fire, are to be rebuilt without delay. The prison inclosure is to be enlarged. The fire inflicted \$500,000 loss.

J. B. Henderson, former United States Senator from Missouri, and Brigadier-General of Missouri troops during the Civil War, died at his home in Washington and was buried at Arlington National Cemetery. He was the author of the Thirteenth Amendment to the United States Constitution, forbidding slavery.

Surgeon-General Blue, of the Public Health Service at Washington, has informed Dr. Friedrich Friedmann that a license for the interstate sale of his tuberculosis vaccine will not be issued until he reveals the exact nature of it and the method of its preparation and the claims made for it have been substantiated by official tests and investigations.

The Rev. Ernest C. Webb, son of Millionaire E. T. Webb, of Webb City Mo., who forsook the easy life for the pulpit, in his first sermon in a Kansas City church, said that he hoped the church would be filled every Sunday with men in overalls and women in calico.

Funeral services for J. Pierpont Morgan were held at St. George's Protestant Episcopal Church, New York, where he had attended for half a century. Business in Wall Street was suspended during the funeral hour. A special train conveyed the funeral party to Hartford, Conn., where final services were held at the Morgan mausoleum.

The 412-mile All-Alaska Sweepstakes dog race over the snow from Nome to Candle and return, was won by Fay Delezene, driving his own team, in 75 hours and 18 minutes. Delezene trailed Johnson, the runner-up, all the way except the last few hours. Johnson came in second in 77 hours and 40 minutes. "Scotty" Allen was third, 78 hours and 50 minutes. The three participated in the \$5,000 purse.

A vast political strike, planned by the Belgian Socialist trade unions, has begun in that country. At least 250,000 men laid down their working implements. The strike is for manhood suffrage. Workmen are now entitled to one vote. University graduates and property owners are entitled to two and three votes. The workmen want this condition equalized. The strike extends throughout the country.

Miss Jessie Wilson, daughter of President Wilson, declined social invitations at Richmond, Va., to visit Josephine Blair, 8 years old, who had written to the President requesting him to tell his daughter to call on her, as "she wished to see her very badly." Miss Wilson was in Richmond to attend a convention of the Young Women's Christian Association.

Willis L. Moore, chief of the United States Weather Bureau, was removed from office by President Wilson Wednesday for "gross irregularities and the use of the powers of his office for private and personal advantage." The President has also referred charges to the Department of Justice for investigation. It is alleged public money was spent and public employee's time utilized in booming Moore for Secretary of Agriculture.

An anti-alien land ownership bill, designed primarily to prevent Japanese from acquiring title to real estate, in order to avoid discrimination, but prohibiting any alien from holding property for more than one year, except upon his declaration of his intention of becoming a citizen, was passed by the lower house of the California Legislature by a vote of 60 to 15. Friends of the bill insist that Japan's rights under her treaty with the United States are respected in the bill. President Wilson is giving his attention to the bill in the hope of abating Japan's opposition to it.

Secretary of State Bryan is receiving congratulations on the birth of his fifth grandchild. It is a boy, the son of Lieutenant Reginold Owen of the Royal Engineers and the former Ruth Bryan Leavitt.

James M. Lynch, of Indianapolis, President of the International Typographical Union, it is announced, is slated for public printer under the Wilson administration.

Carl Hagenbeck, famous animal collector and exhibitor is dead at his home, near Hamburg.

Boys riding horseback who called themselves Joe and Johnny Franklin, 12 and 14 years old, and who attracted much interest to themselves by the statement that they were on a 480-mile dash from Cushing, Okla., to their mother, at Brookfield, Mo., were arrested on their arrival at Brookfield

on a telegram from the Anti-Horse Thief Detective Association of Davenport, Okla., which stated that their story was fiction and that they had stolen the horses on which they made the journey.

The belief is growing in London that Joseph W. Martin, Memphis cotton broker, who disappeared a few days ago in the metropolis, is alive. Detectives have been unable to find a reason why he should have vanished so completely, though his firm in Memphis is in financial trouble.

The first change in the policy of Morgan & Co. since the death of J. P. Morgan is the establishment of a publicity bureau, under the direction of Daniel F. Kellogg, who has been financial editor of The Sun. He is to receive \$25,000 a year for his work.

Rogers V. Scudder, of St. Louis, Mo., President of the Wesco Supply Co., killed himself Sunday at his home at Kirkwood. A mental breakdown caused by a physical collapse from overwork is the cause assigned. When called for luncheon he went into the bathroom and fired a bullet into his temple. He was 48 years old.

Arthur P. Richardson, of 5533 Cates Avenue, St. Louis, Mo., former head of the Richardson Grain Co., and until recently one of the leading commission men of that city, pleaded guilty to forgery in Judge Withrow's court and was sentenced to five years in the penitentiary. He had obtained money and credit on duplicate and forged bills of lading on grain shipments. Arrangements were made on his own request to take him to Jefferson City on the first train. It is said the discrepancies in his accounts run to over \$80,000.

Plans for raising and spending \$100,000 to advertise Missouri and its advantages were discussed by the Publicity Committee of the Business Men's League and the State Federation of Commercial Clubs at a luncheon at the Mercantile Club, in St. Louis, Mo. The Post-Dispatch has offered \$100 for the best reasons why people should come to Missouri.

There are now a million people in St. Louis, Mo., and its suburbs, according to an estimate of the Gould Directory Co., which has just completed the 1913 City Directory. The estimate of the increase in the city proper during the past year is 14,000. —St. Louis Post-Dispatch.

### PROPOSED AMENDMENT TO THE STATE CONSTITUTION PRESCRIBING QUALIFICATIONS FOR DISTRICT JUDGES OF THIS STATE AND PRESCRIBING THEIR TENURE OF OFFICE.

(S. J. R. No. 11.)

A JOINT RESOLUTION. Amending Section 7, Article 5, of the Constitution of the State of Texas, relating to the creation and formation of judicial districts, the terms of compensation and qualification of the judges of the district courts, and the times of holding court.

Be it resolved by the Legislature of the State of Texas:

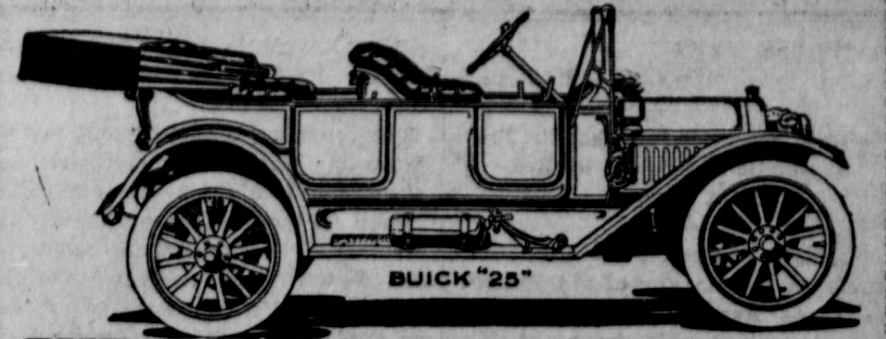

Section 1. That Section 7, Article 5, be amended so as to hereafter read as follows:

Section 7. The State shall be divided into as many judicial districts as may now or hereafter be provided by law, which may be increased or diminished by law. For each district there shall be elected by the qualified voters thereof, at a general election, one or more judges, each of whom shall be a citizen of the United States and of this State, who shall have been a practicing lawyer of this State, or a judge of a court in this State for six years next preceding his election; who shall have resided in the district in which he was elected for two years next preceding his election; who shall reside in his district during his term of office; who shall hold his office for a period of four years, and shall receive for his services an annual salary of three thousand dollars, until otherwise changed by law. Court shall be held by a district judge at the county seat in each of the several counties at such times and in such manner as may be prescribed by law. The Legislature shall provide for the holding of the district court when the judge thereof is absent, disabled or disqualified from acting. The district judges who may be in office when this amendment takes effect shall hold their offices until their respective terms shall expire under their present election or appointment.

Sec. 2. The Governor of the State of Texas is hereby directed to issue necessary proclamation for the submission of this amendment to the qualified voters of the State of Texas at an election to be held on the 19th day of July, 1913, at which election all voters favoring this amendment shall have written or printed on their ballots the words: "For the amendment of Section 7, Article 5, of the Constitution of the State of Texas, relating to district judges and district courts," and all voters opposed to said amendment shall have written or printed on their ballots the words: "Against the amendment of Section 7, Article 5, of the Constitution of the State of Texas, relating to district judges and district courts."

Sec. 3. The sum of five thousand dollars or so much thereof as may be necessary is hereby appropriated to pay expenses for carrying out the provisions of this resolution. JOHN L. WORTHAM, Secretary of State.

**1913 PRESS MEET**

WON BY AMARILLO.

Business Session of Panhandle Press Association Followed by Brilliant Banquet.

Through oversight, the following article on the meeting of the Panhandle Press Association was crowded out of last week's issue of The Herald:

The meeting of the Panhandle Press Association, with forty members in attendance, opened Saturday morning in the large auditorium of the West Texas State Normal at Canyon.

The morning session was opened with a jovial and earnest address by Hon. R. B. Cousins, president of the West Texas State Normal, who extended on behalf of Canyon and the faculty of the Normal a generous welcome to the association.

A. C. Elliott, the gifted editor of the Hereford Brand, and Hilton R. Greer, managing editor of the Amarillo Daily News, responded to the hearty welcome extended the Press Association.

W. D. Butler, professor of mathematics at the North Texas Normal College, at Denton, was present, and when called upon by President Cousins made a brief address, magnifying the worth of an outspoken press and urging newspaper workers to greater endeavor.

The afternoon session was devoted to business of the organization, President Arthur G. Richardson presiding. At the conclusion of the program, the election of officers was taken up, resulting in the election of C. W. Warnick, editor of the Randall County News, Canyon, president; A. C. El-

liott, of Hereford, vice president; Miss Ida M. Farrell, Glazier, secretary-treasurer.

The crowning entertainment feature of the day was the banquet given the association at night by the citizens of Canyon in the Baltimore Hotel. Professor B. A. Stafford, of the faculty of the West Texas Normal, presided. Responses to toasts were spicy, and the applauses were as a repeated encore.

The next meeting of the association goes to Amarillo—the second Saturday in April, 1914.

**SETH WARD COLLEGE NOTES.**

For the last two Sundays Mr. Pearce has been out of town with some of the young preachers who belong to the Seth Ward Ministers' Association. On the second Sunday he went with Mr. Wilkins to fill his appointments at Whitfield and Prairieview, and last Sunday with Mr. Ross to fill an appointment at Happy Union.

Seth Ward student body is feeling happy over the decision given in the debate with Wayland last week. The faculty and students appreciate the many courtesies extended them by the Wayland people that evening.

Rev. A. E. Butterfield gave a lecture in the auditorium on last Monday evening. His subject was "The Blanket Indians." Mr. Butterfield lived as a missionary among the Indians for fourteen years, and his lecture is both interesting and instructive.

The College lost a fine, one-hundred-dollar Jersey cow last week.

Mr. and Mrs. Germany, of McLean, Texas, have bought a lot on College Hill, and are improving it. They will build a home here, and have already put up a store. Mr. Germany says he will carry a nice, up-to-date stock of groceries, and his business will prove a much-needed convenience for the people of this community. Mr. Germany is a brother of Mrs. J. E. Brown and Mrs. M. F. Gardner.

Seth Ward College tries to live up to modern ideas of civic attraction and healthful surroundings. In addition to the four hundred and fifty trees put out on the campus last spring, we have planted this season a considerable number. Additional flower beds have been made, and vines and flowers have been planted. We have frequent clean-up days, and our grounds are kept in good condition.

The faculty and students are busy winding up the year's work and preparing for commencement. Commencement exercises begin with the Grand Concert on Saturday night, May 17th, and close with the graduating exercises Wednesday morning, May 21st.

At a recent meeting of the Board of Trustees, the following teachers were re-elected for the term of 1913-14: President W. M. Pearce, Miss Shook, Mr. Schuhmann, Miss Betts, Miss Williams. Miss Willie Floyd, of Abilene, Texas, was elected to the Intermediate work. Miss Morgan, who has had that work this term, is going to Southwestern University another year. Mr. Hendry goes from here to the University of Pennsylvania, where he will study medicine. Miss Daniel is planning to study in New York, and Mr. Herrmann will go to Europe again this summer.

**ALAMO CITY LEADS IN SALES.**

San Antonio, Texas, April 23.—This city is highly elated over the announcement from Austin to the effect that San Antonio leads all Texas cities in the sale of Red Cross Christmas seals. There were \$1,139.12 worth of seals sold here.

PROPOSED AMENDMENT TO THE CONSTITUTION OF THIS STATE AUTHORIZING THE ISSUANCE OF BONDS FOR IMPROVEMENT DISTRICTS, AND ALSO FOR THE OPERATION OF PUBLIC WAREHOUSES FOR STORING, HANDLING, CLASSING, MEASURING, WEIGHING, ELEVATING AND LOADING AGRICULTURAL PRODUCTS.

(S. J. R. No. 4.)

**JOINT RESOLUTION.**

A Joint Resolution proposing an amendment to Section 52, of Article 3, of the Constitution of this State:

Section 1. Be it resolved by the Legislature of the State of Texas, that Section 52 of Article 3, of the Constitution of the State of Texas, be amended so as to hereafter read as follows:

Section 52. The Legislature shall have no power to authorize any county, city, town or other political corporation or subdivision of the State, to lend its credit or to grant public money or thing of value in aid of, or to any individual, association or corporation whatsoever, or to become a stockholder in such corporation, association or company, provided, however, that under legislative provision any county, any political subdivision of a county, any number of adjoining counties, or any political subdivision of the State, or any defined district now or hereafter to be described and defined within the State of Texas, and which may or may not include towns, villages, or municipal corporations, upon a vote of a majority of the resident taxpayers voting thereon, who are qualified electors of such district or territory to be affected thereby, in addition to all other debts may issue bonds or otherwise lend its credit in any amount not to exceed one-fourth of the assessed valuation of the real property of such district or territory, except that the total bonded indebtedness of any city or town shall never exceed the limits imposed by other provisions of this Constitution, and levy and collect taxes to pay the interest thereon, and provide a sinking fund for the redemption thereof, as the Legislature may authorize, and in such manner as it may authorize the same, for the following purposes, to-wit:

(a) The improvement of rivers, creeks and streams to prevent overflows, and to permit of navigation thereof, or irrigation thereof, or in aid of such purposes.

(b) The construction and maintenance of pools, lakes, reservoirs, dams, canals and waterways for the purposes of irrigation or in aid thereof.

(c) The construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof.

(d) The construction, maintenance and operation of public warehouses for storing, handling, classing, measuring, weighing, elevating and loading agricultural products. Provided the Legislature may establish such means and agencies as may be necessary for accomplishing the purpose of this amendment and if a State warehouse commission be provided for, their term of office shall be fixed by the Legislature.

Sec. 2. The Governor is hereby directed to issue the necessary proclamation for submitting this amendment to the Constitution to the qualified electors of the State of Texas on the third Saturday in July, same being the 19th day of said month, and the amendments proposed to Section 52 of Article 3, as above indicated, shall be voted upon separately.

Those favoring the amendment to authorize road or other public improvements by a majority vote, shall have written or printed on their ballot: For amendment to authorize road and other public improvements by a vote of a majority, and those opposed to said amendment shall have written or printed on their ballot: Against amendment to authorize road and other public improvements by a vote of a majority.

Those favoring the issuance of bonds for the construction of public

warehouses shall have written or printed on their ballot: For the amendment authorizing the issuance of bonds for the construction of public warehouses for agricultural products. Those voting against said amendment shall have written or printed on their ballot: Against the amendment authorizing issuance of bonds for the construction of public warehouses for agricultural products.

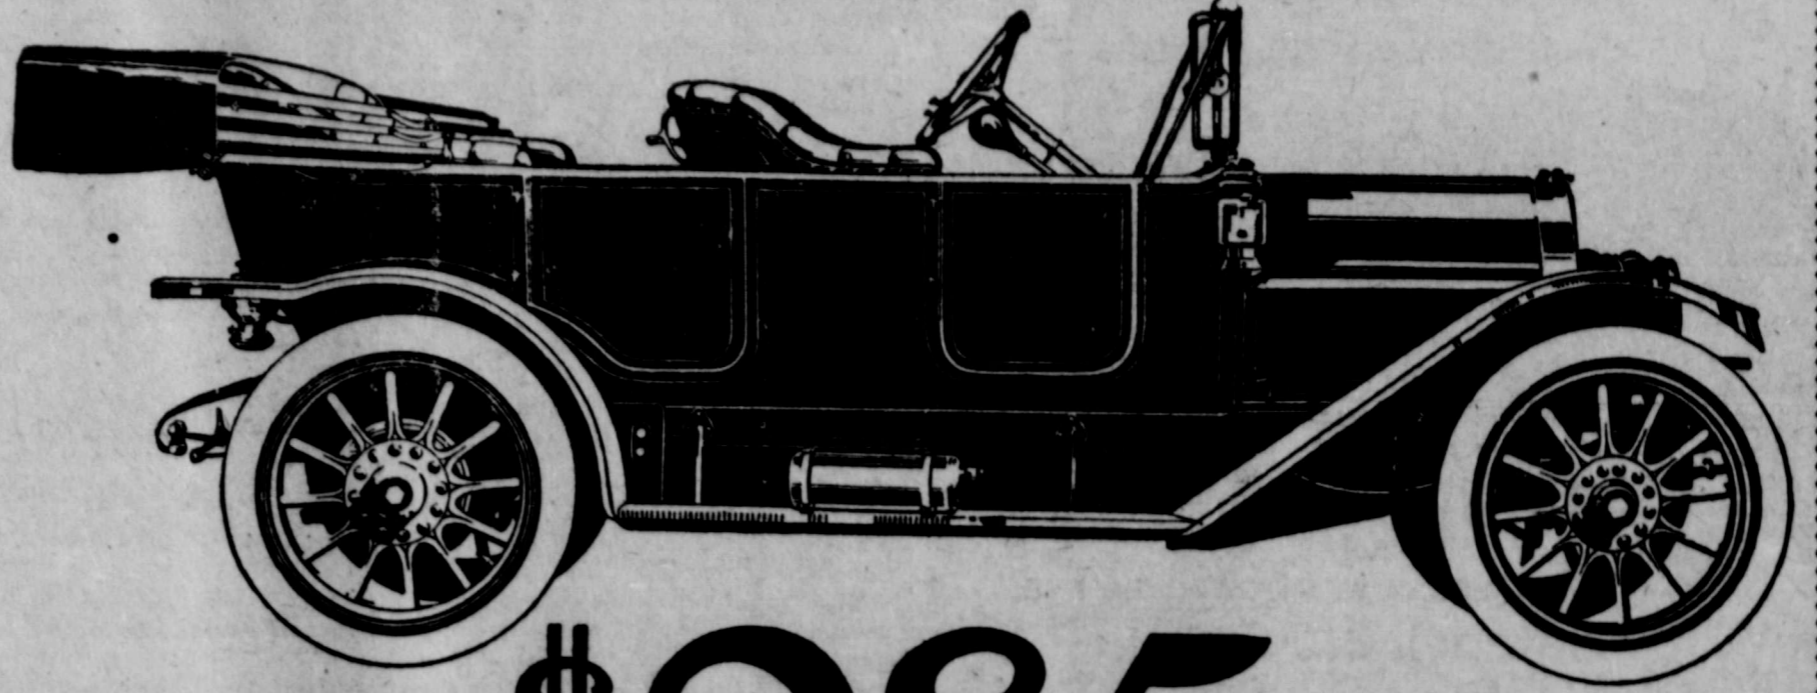

Sec. 3. The sum of five thousand (\$5,000) dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication, proclamation and election.

JOHN L. WORTHAM, Secretary of State.

(A true copy.)

**A CARD.**

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar Compound fails to cure your cough or cold. John Bernet, Tell, Wis., states: "I have used Foley's Honey and Tar Compound as a family medicine for five years, and it has always given the best of satisfaction and produced good results. It will always cure a cough or cold. For children it is indispensable, on account of its pleasant taste and its freedom from opiates. Refuse substitutes. R. A. Long's Drug Store.—Adv.

Beauty that captures the eye—  
Distinction that gets a second glance—  
Class—these are part of the surplus value you get when you buy an

*Overland*

**How can they do it?** Here is the answer: Just consider two automobile manufacturers. One builds five thousand cars in one season and the other (The Overland) produces forty thousand in the same time. A certain tool and machine equipment, which is needed by both manufacturers, no matter how few or how many cars they make, costs, say, \$100,000. The cost of all manufacturing equipment must ultimately come out of the manufactured goods. That principle holds good for all manufactured articles, whether they be peanut roasters or automobiles. To the manufacturer of only five thousand cars the cost of this \$100,000 equipment is, therefore \$20 per car; to us it is only \$2.50 per car. When you multiply this saving by the many special appliances in use in the Overland plants, the fact that we offer you an absolutely high-class and fully-equipped car at the low

price of \$985 ceases to be a wonder and becomes a plain business proposition and a matter of mere arithmetic.

Then imagine a site of ninety-four acres all dotted with buildings, testing roads, transportation facilities, a floor space of 3,789,720 square feet, seven thousand workmen, and the most up-to-the-minute machinery equipment that money can buy. That is the home of the Overland, a home in the full sense of the word, because every part used in the construction of the car enters here at one side of the plant, in the form of raw material moving ever onward in a steady stream, to leave at the other end, a product finished in every detail, and ready for the road.

The whole process goes on continuously hour by hour, day by day, each machine doing its part, each operative skilled in the one department, yet the whole factory so balanced and run that the greatest number of cars can be produced under a system that permits no part to double on its track or to go to the same machine twice.

Come in and take a look at the big \$985 Overland. Compare it with other cars. Take a ride in it. It involves no obligation on your part. Then draw your own conclusion. That's all.
