NUMBER THIRTY-EIGHT

HOW MANY PEOPLE IN FIFTEEN YEARS?

Statistical Expert of Southwestern Telephone Company Figuring on Future of Plainview.

TO PROVIDE FOR GROWTH

Rebuilding Now to Take Care of Increase Which Will Follow Development of Country.

How many people will live in Plainview fifteen years from now? Interesting question, isn't it?

The commercial engineers of the Southwestern Telegraph and Telephone Company are in Plainview to answer that question to their own satisfaction. Upon the accuracy of their estimate is likely to depend the saving of thousands of dollars, which might otherwise be lost should the telephone plant be built beyond its possibility to return reasonable interest upon investment, or should it prove inadequate before the natural life of equipment and apparatus installed.

These experts in estimate, mindful of economic problems which confront the officials of a great public service company in providing adequate facilities without waste of capital, will make an accurate survey of Plainview as it is to-day, and take into account the past growth of the community. They will then consider the character of the surrounding country in its ability to support life. They will study this information in connection with artificial influences which tend to regulate the growth of a city, and estimate what the growth of Plainview will be.

The engineers will make an accurate house count, studying the town section by section. All houses will be classed as to rental value, to show the character, and population will be divided as between those occupying private houses and those who live in lodging houses and hotels. The vacant lots will be tabulated and vacant houses noted. Then all of these facts will be recorded, to show the possible development of Plainview.

Improvements Based upon Knowledge.

In Plainview Commercial Engineer D. C. Rosser, of the Southwestern Company, will be represented by O. C. Greber, field engineer, in charge of estimate work. Mr. Greber will be assisted by G. M. Stevenson and F. C. Bookout. These gentlemen will make up the statistics for Plainview and forward them to company headquarters, at Dallas. As soon as their work has been gone over and approved, Mr. Greber says it will probably be made public.

The experts of the Southwestern Company in this way are able to apply scientific information to their estimates for improvements. Guesswork has been superseded by accurate knowledge.

It is the intention of the Telephone Company to provide facilities in advance of the demand for service. In this respect it is interesting to compare the telephone companies of the United States with the publicly owned and operated companies of Europe. In France, for example, applicants for telephones must wait until the plant returns enough money to pay for extensions, which are made in order of application.

More Phones in Texas Than France.

Mr. Greber says that in Paris, France, an average of ten years elapses before a telephone is installed after the contract for it has been signed by the government. The superiority of American service is further demonstrated, Mr. Greber says, from the fact that New York City has more telephones than London, Paris and Berlin, all three. Through advertising its service and making plans to adequately take care of patrons before they had applied for telephones, the Southwestern Telephone Company, Mr. Greber says, has more telephones to serve the 4,000,000 people in Texas than there are in all of France, with 40,000,000 people.

The telephone company expects to be in its new building before September 1. Work on the new toll lines to Amarillo, Lubbock and Floydada will begin just as soon as all of the material comes in.

The Southwestern Telephone Company is reconstructing its entire plant in Plainview.

W. A. Brewster, of Lockney, was here Thursday, en route to Mineral Wells, where he will spend a few days for his health.

HAS PURCHASED GROUND FOR NEW SANITARIUM.

Dr. Guyton Will Build Modern Hospital Near Wayland College; Ready January 1.

Dr. J. V. Guyton has purchased a tract of land 120 x 140 feet on Wayland Heights, and expects to begin work on a sanitarium within a few days. Plans have not been completed; so that actual work may be delayed two or three weeks. However, Dr. Guyton says that the new building will be ready for occupancy by January 1.

The new sanitarium will be modern in every respect, Dr. Guyton says. The sanitarium is in charge of Mrs. J. V. Guyton, and is open to all physicians. Mrs. Guyton is a graduate nurse and has had wide experience.

Dr. and Mrs. Guyton came to Plainview, from Seminole, Texas, nearly a year ago. Dr. Guyton says that the hospital has taken care of about 200 patients during that time.

STREET AND ALLEY REPORT ADOPTED.

Street and Alley Committee Reports to Council on City's Streets.

At a special meeting of the City Council yesterday afternoon the following report from the Street and Alley Committee, B. E. Mitchell and Dr. J. H. Wayland, was adopted:

"To the Honorable Mayor and Council of the City of Plainview, Hale County, Texas:

"Sirs—We, your committee on streets and alleys, beg leave to make the following report on water drainage of the town of Plainview, as per surveys and profile of Mr. Whittis, now in the city's employ as civil engineer:

"1st. We find Grover Street from P. & N. T. Railway to BR, south, to be the most natural and practical way, as per profile, as a base outlet to dispose of the great volume of water coming from Highland Addition.

"2nd. We find that Moreland Street from its intersection with Restriction Street to Cottage Street, to Main Street, thence to Dye Lake, thence to McClelland Draw, thence to Brazos River, to be a natural flow and drainage way; hence the most practical way to control and dispose of that great body of water that has heretofore been flowing down Pacific and other streets into the heart of our city after heavy rainfalls.

"3rd. We also find that Alexander Street from P. & N. T. Railway to intersection of West Third Street to BR, west, and Fairbanks Street from Lake Street south to Draw, as per profile, the most practical drainage streets for water falling on the west side of Highland Addition.

"4th. From these 'base lines' as drainage ways, when completed as per profile, all other streets can be made to conform thereto and give complete drainage to our city.

"Respectfully submitted,
"B. E. MITCHELL,
"J. H. WAYLAND."

PLAINVIEW CREAMERY MAKES 500 POUNDS OF BUTTER.

200 Pounds Churned Today; Shipments to Amarillo for Week Total 300 Pounds.

Today the Plainview Creamery churned two hundred pounds of butter. The total amount of butter for the week was approximately 500 pounds.

During the week 300 pounds were shipped to Amarillo. Today's shipment to that point was 120 pounds.

BACK FROM COLORADO.

S. A. Jackson and wife and Mrs. T. J. Faught and daughter, Miss Hattie Faught, of Snyder, Texas, passed through Plainview today at noon, returning to Snyder from an auto tour through Colorado. Mr. Jackson reports a delightful outing and cool weather in the mountains. He said that it had rained continuously on the return trip until he got as far south as Swisher County.

FRACTURED HIS ARM BY FALL IN WELL.

J. H. Davis fractured his arm and bruised himself badly when he fell into the pit of Mr. Iring's well, east of Plainview, Saturday. It seems that Davis fell headlong about 25 feet. He was about town Wednesday. The well was being pumped for irrigation purposes.

TOWN INSPECTION BEGINS AUGUST 1

Participants in Holland's Clean-Town Contest May Be Graded at Any Time After Friday.

CLEAN YOUR PREMISES NOW

Civic League Urges Citizens to Help Plainview Make Good Showing.

Dr. M. M. Carrick, medical director in charge of Holland's Clean-Town Contest, announces that inspections of towns will begin August 1. His tour will continue until all towns are inspected and scored. In order to decide between towns making close scores, second and even third inspections may be made by Dr. Carrick.

Dr. Carrick will not give out any information as to the date on which any town may be visited by inspectors. Each town must be ready for inspection without warning on and after August 1.

The women of Plainview have been urged that individual citizens should clean up. In many cases the response has been most admirable. In other cases individual property owners have failed to make any response. In too many of the alleys Dr. Carrick would find weeds they would also stare at him from vacant lots and along some of the public streets.

The Civic League hopes to secure a general clean-up before next Friday. The women have been untiring in their efforts. Mayor Dorsett has promised to cut the weeds on vacant lots, charging them up to property owners; the law requires resident property owners to clean up, but it is hoped that town pride, as well as questions of personal health, will induce individuals living in Plainview to clean their premises without any resort to official action.

Plainview must compete with towns having 2,500 and not more than 5,000 population. They are Ballinger, Bay City, Big Springs, Brady, Calvert, Childress, Cisco, Dublin, Georgetown, Gonzales, Haskell, Honey Grove, Kingsville, Mineral Wells, Polytechnic, San Marcos, Stamford and Sweetwater. Sixty-two Texas towns are entered in the three classes into which contestants have been divided.

Each town entered in the contest will be inspected and scored upon the following points:

Condition of Streets, Parks and Alleys.

Water, Water Supply and Drainage. Collection and Disposal of Garbage. Removal and Disposal of Sewerage. Condition of Vaults and Privies (if no sewer system).

Condition of Vacant Lots.

General Appearance of Homes.

Ventilation and Care of Public Buildings and Semi-Public Buildings.

Public Conveniences, especially those for schools.

Presence of Flies, Mosquitoes and Other Disease-Carrying Insects.

Handling and Exposure of Meat, Fruit, Pickles, Ice, Milk and Milk Products, and other Food Products Offered for Sale.

Such Special Conditions as may directly affect the Health or Cleanliness of a town.

All inspections will be made wholly at the expense of Holland's Magazine, and will be under the personal supervision of Dr. M. M. Carrick, medical director in charge.

To the town making the best score in each class a sanitary drinking fountain for each of the public school buildings within its corporate limits will be given.

The value in dollars in winning the Clean-Town Contest can hardly be estimated. The town winning will be advertised in nearly every newspaper published in America as the "cleanest town."

BIG RAINFALL HERE THIS AFTERNOON.

In Less Than Three Hours 2.6 Inches of Rain Fell in Plainview.

The heaviest rainfall in years occurred this afternoon between 3 and 6 o'clock, when, according to the local weather man, J. F. Sander, 2.6 inches was recorded. Sunday .08 of an inch fell, and yesterday the gauge showed .06 of an inch. This makes 2.74 inches since the first of July, or 10.38 inches since the first of the year. The last heavy rain was registered on June 30.

Call The Herald for Business Cards.

GULF REFINING CO. TO OPEN HERE

Warehouse Is Being Built; Sixty Thousand Gallon Storage Tanks.

READY IN THIRTY DAYS

Will Handle All Coal Oil Products and Maintain a City Service.

M. Bushnell, of Waco, is in Plainview in the interests of the Gulf Refining Company of Texas. Today he started work on a new warehouse, which will be forty by forty when completed. Within a few days he will install four tanks of fifteen thousand gallons capacity each. The company plans to keep large quantities of all coal oil products stored here, and will maintain adequate city service.

The depot will be located at the end of White Street, near the Santa Fe Railway.

Mr. Bushnell says that within the next thirty days the sales department of the Gulf Refining Company will appoint a manager for the local branch and will open the depot for regular service.

Mr. Bushnell supervises the construction of depots for the Gulf Refining Company, and will remain in Plainview until the work on the local warehouse and storage tanks is completed. Mrs. Bushnell accompanied him to Plainview.

KATY COMPROMISE AGREEABLE TO STATE.

Attorney General Admits Settlement of the Case Has Been Discussed.

Austin, Texas, July 23.—Attorney General Looney, who returned from Greenville this morning, confirmed the report that a proposition looking to a compromise and settlement of the State's suit for injunction and \$15,000,000 penalties against the Missouri, Kansas and Texas Railroad has been up for discussion in his department.

"The subject has only been discussed," said the Attorney General, but, while not caring to tell just how far the negotiations will go, he gave the impression that if the Katy agrees to eliminate the State's objections, the suit will be dismissed.

Attorney General Looney said it was the policy of his department to compromise any suit, if it was found to be to the interest of the people. An amicable settlement of a case out of court, he says, is a great deal better than to fight the case.

Since it became known that a compromise was in sight and that part of the exactions would be new mileage, as described in last night's dispatch, the Attorney General has received numerous telegrams asking that one requirement compel the Katy to build from McKinney to Denton. Senator Johnson wants a Katy Branch to build from Wellington to Memphis, Hall County, and Senator Townsend would welcome the Waco-Trinity link, as it would mean 100 miles of new railroad in his Senatorial district.—Dallas News.

YOUNG MEN'S BUSINESS LEAGUE IN CALLED SESSION.

Speakers Stress Need for Co-operation Between Plainview's Commercial Bodies.

A called session of the Young Men's Business League was held this afternoon at 2:30 o'clock. In spite of the threatening weather there were twelve representative young merchants present. The tenor of the speeches this afternoon was that the young business men of Plainview should "get together" and organize themselves thoroughly to solve local trade problems.

J. F. Duncan and H. J. Dillingham were the principal speakers. Their talks were along general lines, but particularly stressed the need of the three commercial organizations—namely, the Chamber of Commerce, the Business Men's Association and the Young Men's Business League—getting together. The organizations are in no way opposed, and will not interfere with one another in their work. The plan is to make each of these an integral part of a broader co-operative organization.

The Young Men's Business League will meet the first and third Fridays of each month.

MISS AMY NASH GIVES FRIENDS A SURPRISE.

Former Sweetheart Marries Popular Plainview Girl While She Is Visiting in Temple, Texas.

Miss Amy Nash and Allen Colwell, of Cameron, Texas, were married Tuesday evening, July 22nd, at Temple, Texas. Miss Nash had gone to Temple with her mother two weeks ago to visit relatives.

Mr. Colwell is road manager for the Chicago Light and Power Company. He met Miss Nash while in Plainview three years ago while he was employed at putting in Plainview's waterworks system. He came to Plainview last Monday and found that his lady love had gone a few days previous to Temple, Texas. Mr. Colwell spent one day in Plainview, and then went on to Temple, where the marriage was solemnized.

Mr. and Mrs. Colwell left immediately for Western Canada, where Mr. Colwell has a contract for putting in a sewer nineteen miles long and six feet deep.

BILL BROWN'S WOLF AND DOG TEAM HERE.

Man in Charge Claims to Be Ex-Mail Driver from Nome, Alaska.

Driving a team composed of a wolf and four dogs, a man who gives his name as Bill Brown came into Plainview Wednesday evening. To a Herald reporter the man said that he is an ex-mail driver. The miners of the Fox Trading Company, according to his story, have put up \$10,000 to his \$500 that he could not leave Nome, Alaska, with a dog-and-wolf team and return in six years, visiting the capitals of every state of North America before he returned, and bring back with him, dead or alive, one of the animals he started with. He says that he left Nome, Alaska, in May of 1912 and that so far he has visited thirty-eight of the capitals of the United States. His journey ends at Washington, D. C.

When questioned by a Herald reporter about the bet of \$10,000, and where it was held in trust, the man's story was incoherent. At any rate, his dog-and-wolf team is attracting attention wherever he goes. He has stamps from many post offices in the United States, and statements from mayors of a number of towns and villages.

PHOTOGRAPHERS IN SESSION SEE FIRST PHOTOGRAPH.

Among the Eight Hundred Members in Convention, One Hundred and Fifty Are Women.

R. E. Cochrane, of Plainview, is in attendance on the thirty-third annual convention of the Photographers' Association of America, which opened in Convention Hall at Kansas City at 1:30 o'clock Monday afternoon, with eight hundred photographers attending. More than 150 of these were women. The morning was spent in registering members.

Among the photographic exhibits is a display of ancient photographs and deguerotypes. This collection includes a group collection of the first photographers' convention, in Boston, and child photographs of nearly all the living members of the association. A copy of the first portrait photograph, which was made by Draper in 1839, is included in this collection, says the Kansas City Star.

In photography women rank equal with men, according to Miss Katherine Jamieson, of Pittsburgh, Pa., president of the woman's federation of photographers, and Missouri women are among the leaders. There are only two studio demonstrations of negative making by women. There are Miss Bell Johnson, Monroe City, Mo., and Miss Emma Gerhard, St. Louis. Missouri also has the largest number of women members in the photographers' association.

MISS BARCLEY, OF LUBBOCK, HONORED ON HAY RIDE PARTY.

Miss Lillie Barclay, of Lubbock, was honored guest Saturday evening at a picnic and hay wagon ride at the grove three miles east of Plainview. Twelve couples of young people, with abundance of good things to eat, left town in the late afternoon on a hay wagon and spent the evening in the open.

Miss Barclay was the guest of Miss Pattie Dalton while in Plainview.

See The Herald for Book Work.

ASK PROTECTION FOR AMERICANS

State Senate Passed Resolution Demanding Protection of Americans in Mexico.

LIQUOR QUESTION AGAIN

Entire Subject May Be Reopened If Governor Colquitt Complies with Requests for Amendments.

According to a special wire to the Amarillo News, yesterday, by a vote of 12 to 10, the Texas State Senate adopted the Hudspeth Mexico resolution, which urges the Texas delegation in Congress to use their best efforts for the protection of American lives in Mexico and on the Mexican border. The resolution also calls attention of the National Government that it should redeem pledges adopted in the Baltimore platform to protect the sacred rights of the American citizen abroad and at home. The resolution will be sent at once to President Wilson. The same resolution, by Burress, in the House came up for consideration today, but action thereon was deferred until tomorrow.

By the introduction in the Senate today of a resolution by Senator Westbrook, requesting the Governor to submit legislation looking to the amendment of the Allison liquor bill, many Senators believe that the liquor question will be reopened should the Governor grant the request. The author of the bill wants to amend the bill so as to permit wholesale druggists to ship to retail druggists in dry territory. Liquor for medicinal purposes. It is also intended to pass an enabling act to the Webb liquor bill which would prevent interstate shipments of liquor into prohibited districts in Texas.

Resolution Created Stir.

In the House today Representative Cox, of Ellis County, created a stir when he introduced a resolution that the Governor be invited to address the House so as to disprove the reports that have been circulated that the Executive and the Legislature were not working in harmony. The resolution provoked considerable opposition, and was finally laid to rest by being referred to the committee on State affairs.

Retirement of Bonds.

The Senate bill providing for the retirement of \$500,000 of State bonds with the oil fine money came up for consideration, but, on motion of Mr. McAskill, it was decided to defer consideration and have the bill printed in the Journal. This may mean the defeat of the bill, and in the meantime this money may be turned into the general revenue fund.

Appropriation Bill.

The House is now considering the appropriation bill providing for appropriations for the executive departments, which carries 2,000,000 appropriations. An amendment was adopted cutting out an appropriation of \$4,000 to purchase a portrait of the late John H. Reagan.

"Blue Sky" Law.

Representative Williams today introduced in the House his "Blue Sky" Law, in accordance with the recommendations of the Governor.

HEAVY RAINS IN PANHANDLE AND SOUTH PLAINS.

Rains Yesterday Were Not of General Character; Only Light Showers in Some Sections.

Trainmen on the Santa Fe report a three-hour rain at Sweetwater yesterday. No rain fell at Lubbock, according to their reports.

Conductor Thompson, of the Floydada branch line, said that .97 of an inch fell at Floydada.

A miniature cloudburst fell near Kress during the evening and a good rain is reported from the Petersburg neighborhood.

Press reports indicate that at places the rains were unusually heavy, but were not of a general character.

HERALD INSTALLS NEW FOLDER.

The Herald Publishing Co. installed a new Omaha Folder yesterday. By concerted action of the entire force, despite the "devil," the new folder was put up so that The Herald might come out without delay.

Mr. and Mrs. W. Y. Price are spending a few days in the mountains of New Mexico, on pleasure.

Just One More Big Day

Tomorrow night our big Clearance Sale closes. Don't be too late to get some of the many bargains we will offer you tomorrow. Many lines have been added to during this sale and our entire stock is new and clean.

Plainview Mercantile Co.

REPORT ON AGRICULTURAL CONDITIONS IN EUROPE.

Judge Lindsey Sums Up His Investigation of Conditions in Continental Europe.

Chairman of Texas Farm Life Commission finds agriculture is not only an active industry, but a business one as well.

London, England, July 9.—What has my investigation of rural conditions in Continental Europe taught me? I can speak for myself only, for the Commission has made no verdict, and will not until a careful study of all evidence gathered has been made. Answering the question asked above for the London correspondent of the Hearst papers in America, I replied:

First: Agricultural advance within the last dozen years is evident. This advance is due mainly to the following causes: Rise in prices of farm products; better methods of production, which includes the intelligent uses of fertilizers, the universal planting of carefully bred and selected seeds, and the raising of the best types of farm animals obtainable; co-operative preparation of farm products for market, and co-operative selling in wholesale quantities, and to systems of finance and credit suited to agricultural needs. Thus agriculture in Continental Europe is not only an active industry, but a business as well, thoroughly efficient in production,

marketing and finance.

Higher Prices Due to Superior Product.

Second: That prices of agricultural products in Continental Europe are higher than they are in the United States, and that this is due to ample home market protected in all instances from competition with American products by distance and transportation charges, and in many instances by tariff laws, and the excellent and attractive condition farm products are put into for market.

Third: Agricultural prosperity stimulates all branches of industry and fills a nation with strength, contentment and general prosperity, with all the appearance of permanency.

Fourth: That co-operative preparation of farm products for market, co-operative marketing and co-operative agricultural financing and credits help the industries and business of a nation, because these are but the complements of agriculture, without which it is inefficient, and by means of which the nation is fed more cheaply and at prices more uniform than in our own country, where agriculture receives smaller returns.

Fifth: Rural credits and rural finance are built upon the same principles as commercial credit and finance. It is as feasible to construct a system of finance and credit for agriculture as it is for commerce, and a system of credits and finance suited to the needs of agriculture are as helpful and stim-

ulating to agriculture as they are to commerce and business. Commerce and agriculture are so unlike in their nature that it is quite improbable that one system of finance and credit can be constructed that will comprehend the needs of both. And, lastly, that rural banks and credit societies are not hurtful to commercial banks, but are helpful. I have seen many instances where commercial banks purchase the debentures of land mortgage institutions and discount the paper of rural banks and credit societies.

Sixth: The greatest good of co-operative preparation of farm products for market, co-operative selling and co-operative financing is that they educate the farmer in the school of business, build character by rewarding it, open his mind to the ways and needs of all business with which he becomes an ally and his heart to his fellow man whom he aids and from whom he receives aid, causing him to realize as only experience can teach the value and strength of collective enterprise.

Seventh: Compulsory and vocational education gives to the citizens of Europe preparation for life and habits of thoroughness which if our people possessed, along with their initiative and resourcefulness, would make ours easily the strongest people of the world.

"White Lilac" Flour is Best. Ad. 11.

"CLEAN TOWN FIRST," SAYS CIVIC LEAGUE.

Secretary Tells How Women Cleaned Up "Friendship Village" in Long Ago.

Most readers of our best literature are familiar with Zona Gale's stories of "Friendship Village." One of the current magazines has a sketch of hers telling how they cleaned up this same village, and I am requested to condense the same for these notes.

Calliope Marsh and a neighbor are discussing the disposal of garbage, when the former expresses herself in this wise: "Sometimes I've had a kind of a day nightmare. I've looked up and down the village, at all the little streets, green and treey as they are, and at the front doorways all flowered up, and at all the families of little children inside 'em; and then I've imagined into it all the other things I knew was there—the garbage hole or the garbage heap in the back yard or the alley, left there, open, day in and day out, breeding flies and disease—and all the alleys the same, or more so! And I says to myself that I am ashamed of all of us, that any of us is talking about anything else, ever."

"I know it," says Mis' Toplady. "I've often thought of that, and if anybody's kitchen was to be as dirty about its garbage as the town is we'd report it to the health officer."

"I looked at Mis' Toplady and she looked at me—and our minds was made up."

"Let's clean up this town's garbage," says she.

"Let's," says I. And that was all there was to it. That is all there ever need be to anything for your town. Let two or let one make up a mind to clean it up, and the strength will come and the way will come. When Christ said, "Where two or three are gathered together in my name" He didn't mean just prayer meeting—He meant life!

"So we proposed a plan to the Friendship Village Married Ladies' Cemetery Improvement Society, and Mis' Silas Sykes spoke right straight up, 'Mercy,' says she, 'what is ladies coming to?' 'Coming to their senses,' says I, dry. 'Why?'

"When I think," she says, sorrowful—"when I think we met first in a parlor, brought our embroidery, had tea and seed cakes, and then organized to make our cemetery beautiful—and now we are talking garbage!" I

see her shudder. 'Well,' says I, soothing, 'don't you feel so bad about it, Mis' Sykes; them same original ladies all had open garbage holes in their back yards, full of flies and diseases. We ain't so remote from 'em. Think of that, and be comforted.'"

How they did it in next week's notes. CIVIC LEAGUE SECRETARY.

THE HEAT WAVE IN ALASKA.

A Temperature of 89 in the Shade Is Causing Great Discomfort.

The following from Dawson will be a surprise to many:

"The heat wave which is troubling the East is also causing suffering in the Klondike, where outside opinion has us wallowing in snow the year round. Owing to the excessive heat the past two weeks, Greenfield & Pickering are operating their stages at night instead of the day until the temperature becomes lower. The heat has been very hard on horses engaged on the road. One horse came in bleeding from the effects. It is said to have been as high as 125 above zero, Fahrenheit, in the sun. The highest registration in the shade was 89, Charles Payson, weather observer, says that was the highest ever registered in Dawson. Dawson is reveling in the heat. The fact that the old town can thaw out good and plenty is not troubling most of the people. Some develop a perspiration without exercise, and fans are even put into commission. Some of the old timers from the hot belt have been trying to find linen duds, and a number have appeared in white duck, just like

Willie-off-the-Yacht. Porous underwear, or no underwear at all, is the popular thing, and collars are being abandoned by the good folk of surplus adipose tissue.—Douglas Island (Alaska) News.

One 4-room bungalow house, extreme northwest portion of Plainview. See or phone REUBEN M. ELLERD. —Adv. 11.

THE DIFFERENCE BETWEEN "THE SUMMER GIRL" AND "THE SUMMER WOMAN."

While the former is having a "good time," the latter is too often dragging around nervous, run down, tired out, with aching back and weary limbs, sleepless and wretched. Often it is kidney trouble, not female trouble, and Foley Kidney Pills are a direct and positive help for the condition. Mrs. M. J. Strickland, Mt. Willing, Ala., writes: "Please send me another bottle of Foley Kidney Pills. They do me all the good. I can not sleep at night without them." R. A. Long's Drug Store. —Adv. 19.

It is the aim of the Herald to constantly improve its service. With this object in view we have just installed the Omaha newspaper folder illustrated below:

Prompt Service on Job Work

We have in stock big assortments of bond and other papers for stationery; linen and bristol cards for calling or business cards; poster paper for circulars; commercial statements; note heads; shipping tags; book and pamphlet papers and covers; gummed paper; second sheets; menus; program paper; cardboard for window cards; wedding stationery; legal paper; milk checks; etc. We have a full line of inks in all colors.

PROVES BENEFIT OF SPRAYING.

Professor Howard, of M. U., Finishes Experiments in Orchards.

Columbia, Mo., July 21.—The farmer or fruit grower who still clings to the idea that spraying does not aid in the production of fruit will be convinced when he sees the report of W. L. Howard, of the department of horticulture of the University of Missouri. By taking orchards here and there over the State, Professor Howard has just finished a series of experiments that show that practically all unsprayed fruit is ruined by dis-

eases or insects.

In one orchard where a part was sprayed and a part was left unsprayed, only 1.2 per cent of the Arkansas Black apples could be classed as clean fruit after the trees had been left unsprayed. In the same orchard, where the same brand of apples had been sprayed, the crop of clean fruit was 76.7 per cent. Another orchard of Missouri Pippin apples experimented with the same way resulted in 2.1 clean fruit for the unsprayed part and 88.5 for that part which was sprayed.—Kansas City Star.

SHOWING A BOY THE BEAUTY OF WORK.

George had been working hard all the evening over the twentieth chapter of the first book of Caesar. At length he closed the book with a slam. "I think I won't go to college, after all," he said to his family.

"Why not?" asked his father, in surprise, for the great ambition of George's life had always been to go to college.

"Because the entrance examinations are so hard," said George. "I'd have to work and worry all this year to pass my preliminaries and then go at it again harder than ever for the finals. It's no joke!"

"That's true," said his father, gravely. "It isn't a joke. What will you do instead?"

"Oh, go to work somewhere," George answered easily, as visions of money in his pocket on Saturday nights and carefree evenings without lessons rose up before him.

"Let's see," replied his father. "That means getting up an hour earlier every day than you get up now. It means starting in as an errand boy on a par with the boy who was blacking boots last week. It means no more afternoons to play in, except, perhaps, on Saturdays in the summer. It means doing exactly as you're told all day long, or else hunting for a new job. It means staying an errand boy, or porter, or perhaps a clerk at \$10 a week, unless you work harder than you ever had to work at school. No one makes any advance in business without hard work."

George sighed dismally. "It's work, work, everywhere, and I hate work!" he said.

His father turned upon him sharply. "If you forget everything else I have ever told you," he said, "at least remember what I tell you now: The man who hates work goes through life with a ball and chain dragging after him. He has a curse upon him that blasts his life. The hobo and the tramps are haters of work. Sneak thieves and thugs and worse are haters of work. So are most of the men at the bottom of the industrial scale. They hated work, and dodged it, and slighted what they had to do, and did just enough to hold their jobs,

and they stay at the bottom, hating work still!"

Suddenly the father's tone changed. "When we saw the football game at Cambridge last year," he asked, "do you remember the inscription on the Stadium, 'Dedicated to the joy of manly contest'? Learn that 'joy of manly contest' with hard work, my boy!"

"Don't run away from work, George! Don't be afraid of it! Meet it bravely, with the joy of manly contest in your heart, and day by day you will begin to find the struggle good, and out of it will come one of the supremely great and enjoyable things of life!"

George sat quiet for a time. Then his jaw closed with a snap. "I'm going to begin right now," he said, "and I'm going to know what this chapter's about!"—Youth's Companion.

CAN THE GOOD PRODUCTS.

Home Cannery Makes Savings Possible, Says Farm and Ranch.

"Canning may be made a profitable side of fruit growing where one has a surplus of fruits and vegetables and where there is a market for the home canned product," says Farm and Ranch. "While there is a limit to the consumption and no one should expect too much from a small town there are opportunities for good products canned on farms.

"The canner is very valuable because it takes care of the surplus—not the over-ripe, the culls or the inferior products, but the surplus of good products. Nothing but the best should be canned. If the inferior, over-ripe and otherwise objectional fruits and vegetables are not worth placing on the market fresh, this is certainly not worth canning, when more labor and expense is required.

"Even though you can for home use alone, it will not pay you to put up the inferior products that are not salable fresh. Can the good fruits and vegetables and dry, make cider, vinegar, etc., or feed the culls to hogs.

"The home canner saves good fruit and makes it possible for the home to utilize the fruit, vegetables, etc., in an economic manner. It is a mistake to expect the canner to save products that are not worth saving. It will save good products and create a demand for articles of which there is a surplus or for which there is little or no demand. The canner is a valuable piece of equipment to provide the home with choice products and sometimes cash when more is canned than is required to furnish the home."

DON'T YOU OWE YOURSELF SOMETHING!

Your Money's Worth IS WHAT YOU GET EVERY TIME YOU TRADE WITH US

Anything from a 5c purchase to a complete housekeeping outfit. Trade with us once and you will come back again. We value a satisfied customer as one of our best assets. Our aim is to give you a little better service than the other fellow and more for your money. We are here to stay and as we believe among the best class of people in the U. S. and hope to build a business of which we can be proud by fair dealings and low prices. We now have the best assortment of new and second hand house furnishings of any house of its kind on the Plains, and can please you both in Quality and Prices. If you are going to take a trip and need anything in the trunk, suit case, or hand grip line don't fail to see us before you buy. We have them in all grades and for less money.

We will make you some interesting prices on Lawn and Porch furniture; something substantial that will last for years at a small cost. When you think of anything for the home think of Winfield, we buy or exchange new goods for the old. Our motto is "if it isn't good we make it good." Yours for fair dealings and close prices.

W. E. WINFIELD

Successor to Nash & Co.

**We have a complete line of the celebrated
Henney and
Freeport
Buggies
Tennison Harness and
Mandt Wagons**

We buy and sell horses and mules. Bring us you live stock you want to trade for a new buggy, wagon or harness. We will also take your old vehicle on a new one.

See us before you buy. It means money to you and to us.

Plainview Buggy Co.
Plainview, Texas

**TURN WASTE INTO MONEY
BY AID OF PORKERS.**

J. M. Baldwin Says Hogs Make Small Farmer Independent Despite High Cost of Living.

"Many farmers consider they are not farming unless they have 160 acres. Yet, much money has been made on the small farm if handled right. It is true that it requires considerable grass land to grow cattle or sheep. But, there are many dollars to be made in raising hogs, and it may be done on a smaller farm," says J. M. Baldwin, in Farm and Ranch.

"There is much said these days about the high cost of living, but the man with 40 acres or a small truck farm may lighten the expense of his living each year by raising a few hogs. The man who is buying his pork at the city market, in many cases, is having an unnecessary expense.

"On the small farm there are not many things that may be grown into money quickly. The small bunch of hogs is soon large enough to bring a handsome check for the labor required, aside from the meat and lard

necessary for the family use.

"The hog often comes into market value just at the time when taxes or interest may be due on the mortgage. There are any number of items that may be mentioned that the porker may easily pay for. A few pigs soon grow into dollars and are a very handy money maker.

"A few acres of pasture, a small amount of the corn raised, waste fruit, slop and many other things may be turned into dollars through the pigs. Any man who is willing to make a little effort may accomplish much. It must be remembered that the pig is growing into money while you are asleep.

"There are farmers who are courting expense by not investing in a few porkers. It is true there are many who specialize in raising fruit, dairy or poultry. These same people may easily have a few pigs to help pay expenses and have their own meat at first hand. Take the meat bill of almost any farmer, and it will be found to be no small amount.

"Hogs are not hard to raise. The amateur farmer may raise them the same as his neighbor. Of course, the nearer expert he is the more likely of

large returns. Yet, the amateur may turn several dollars in this manner and still supply the family.

"There is, perhaps, nothing that has done more to help raise the mortgage off the little farm than the hog. The man who knows he has money coming for hogs, baring disease, has no small item to his credit. He becomes a better citizen and has more credit and a fatter purse than the man who carries his bacon home under his arm.

"Get a pig and grow your own meat. It is mighty fine to have your own ham and shoulders to cut into when it is 15 or 20 cents a pound, and have the real, good pork taste thrown in."

**BIG HEALTH EXHIBIT
AT TEXAS STATE FAIR.**

**Prevention of Mental Diseases to Be
Featured by National Association;
Tuberculosis, Too.**

There is to be a splendid health exhibit at the State Fair this fall. Dr. Manton M. Carrick, chairman of the tuberculosis committee of the United Charities, says in the Dallas News. He has just received notice that the 6,500-pound exhibit from the National Association for the Prevention of Mental Diseases will be shown. Already he has arranged for the exhibit from the United States Health Service along with that of the Chicago Department of Health. There will be, in addition to the rest, a complete anti-tuberculosis exhibit.

Dr. Theodore W. Salmons, director of studies of the National Association for the Prevention of Mental Diseases, has prepared the exhibit to come from that organization, and will likely visit Dallas at the time of the State Fair. There will be four or more attendants and demonstrators in the big exhibit place.

**FINDS HEN EGG
6 1/2 BY 7 3/4 INCHES.**

J. C. Cummins brought a hen's egg to The Herald office Wednesday which measured 6 1/2 by 7 3/4 inches around. The egg contained no mysterious lettering, and did not possess extraordinary value, except in its enormous size.

Mr. Cummins has lived in Hale County about 11 years. He finds that a man can do more work here than it is possible to do in lower altitudes, and he believes that if a man works intelligently he can farm successfully. Of course, he must adapt himself to conditions, somewhat different to those

of Illinois, Iowa or Missouri, Mr. Cummins says.

**FLIES FORERUNNERS
OF PESTILENCE.**

The fly is the undertaker's traveling salesman and is a noble servant of the grim monster, Death. This is the fly season, and eternal vigilance is the price of health. Every house should be well screened and a vigorous war of extermination should be waged on every fly that crosses the threshold. It has been estimated that if every person would kill ten flies per day for thirty days there would be no flies upon the face of the earth. A swarm of flies hovering over the table and contaminating the victuals with slime and filth is disease entering the home. —Amarillo News.

**HOME FOR BIRDS
IN NEW GREENHOUSE.**

Plainview Floral Company Building
Addition to Plant Thirty by
One Hundred Feet.

The owners of the Plainview Floral Company are increasing their floor space by three thousand square feet.

Adjoining the present greenhouse a new one 30 by 100 feet is being built. The front end of the new structure will be used for an aviary. Cuban parrots, Australian parrakeets, white jays, canaries and other species of birds will be kept in stock. A packet seed department will also be added.

The greenhouse proper will be adapted for the growth of carnations. A modern greenhouse heater will be installed in this room.

HOT IN ERATH.

Rev. A. B. Roberts returned Wednesday from Erath County, where he went to help in a revival meeting. Brother Roberts says that he had a great meeting. He was accompanied home by his sister, who is 69 years old. She says that Wednesday night is the first rest she has had for weeks, because of hot weather. She finds nights on the Plains delightful.

FREE MATINEE.

Below is a list of the merchants of Plainview who are offering free entertainment at the Majestic every Saturday evening to their out-of-town customers only. Shows at 1:30 and 2:30 o'clock:

Blaingame & Klinger, Boyd Grocery Co., Sewell Grocery Co., Busy Bee Cafe, Jo W. Wayland, Shelton Bros., Warren & Sanson, Necessity Store, J. M. Sanderson, W. E. Winfield, Geo. S. Falriss, Carter-Houston D. G. Co., R. A. Long Drug Co., J. W. Willis Drug Co., Wright & Dunaway, Duncan's Pharmacy, Donohoo-Ware Hardware Co.

This list is open to any business house in Plainview. —Adv. 1f

ACTS ON THE LIVER.

Dodson's Liver Tonic Livers Up the Liver—Is More Than a Mere Laxative.

Calomel was for years the only known medicine that would stimulate the liver. But calomel is often dangerous, and people are not to be blamed for being afraid of it.

Within the last few years many medicines have been put out to be used instead of calomel, but their effect is on the BOWELS—not on the liver. R. A. Long Drug Co.'s drug store says that the only real liver medicine to actually take the place of calomel is Dodson's Liver Tonic, a mild, harmless, vegetable liquid that R. A. Long Drug Co. recommends to take the place of calomel and which gives prompt relief in cases of constipation, biliousness and sluggish liver.

So confident are R. A. Long Drug Co. that they give their personal guarantee with every 50-cent bottle of Dodson's Liver Tonic. You can be sure that you are getting Dodson's by asking at this store if they are giving you the medicine they personally guarantee to refund money on if unsatisfactory. —Adv. 38

NOTICE.

Oh, you boys! We have a full line of Baseball Goods. DONOHO-WARE HARDWARE CO. —Adv. 1f

SONG BIRDS

Recently we received a shipment of White Javas, beautiful white song birds. They are imported from Java, an island of the East Indies group. They rival the mocking bird for clear sweet notes.

Parrots and Parakeets

In the shipment were a half dozen Cuban Parrots. These birds are guaranteed to talk. If they don't talk, we will get you one that will. They are young and you can train them as you like.

The Parakeet is an Australian bird. This specie has been taught to talk.

In a few days we will build an addition to the greenhouse for the express purpose of keeping the birds in an attractive apartment. We plan to keep birds in stock at all times.

Our trade has been growing and we are going to increase our floor space over 1000 square feet. We appreciate your trade and are preparing to give you the most up-to-date service.

Cabbage Plants

In our beds are a large number of late Fall Cabbage plants now ready for transplanting. See us at once for them.

pretty? There are so many ways it can be done.

The walls of the kitchen can be painted with a yellow or Delft blue. They can be finished in wash paint that is sanitary and requires very little effort to keep clean. The woodwork can be white or it may be a darker shade of yellow, both of which take very little time to keep clean. The shelves may be covered with white enamel, or oilcloth, neatly put on with brass-headed nails. If the closet room is limited, the saucepans may hang from brass hooks on the walls, ranging from the smallest to the largest sizes. A series of brass hooks is placed over the sink like those at the sides of the shelves, and on these are hung different sizes of enamel spoons, dippers and measures. The dishpan and drainer are kept out of sight in the sink closet.

If the kitchen is finished in blue, which is very effective, a roller of white wash with a broad blue border may be placed on the door leading to the pantry. Dutch curtains of blue and white crash on brass rods are placed at the windows. The kitchen table, when not in use, also has a blue and white crash cloth.

Underneath one of the windows two pine shelves may be placed and painted to match the rest of the room. They hold the cook books, which are covered with removable covers of the blue and white crash.

Window boxes can be fitted for the kitchen windows, one to hold parsley, which is most luxuriant, another to contain sweet alyssum, which blooms late in the spring, and at a third window a plain board shelf may be placed, where a sewing basket, book or magazine may be laid. A large rocking chair, standing at this window, affords a restful place for odd minutes, especially on busy days.—Mary H. Northend, in the *Mother's Magazine*.

THE U. S. SHORT OF BEEF.

Meat Must Be Imported from South American Countries.

Washington, D. C., July 22.—After years of exporting beef to other countries, the United States is preparing to become an importer of this commodity.

Simultaneous with the statement of the Department of Commerce that there has been a tremendous decrease in the exportation of cattle, tonight came the announcement that Dr. A. D.

Melvi, chief of the bureau of animal industry, intends to sail within a few days for South America to prepare for the shipment of beef from the southern countries to this. He will advise the packers on American requirements.—*Kansas City Star*.

LANE SEES U. S. MEAT SUPPLY IN REINDEER.

Advocates Federal Railroad in Alaska to Open Up Immense Territory; Grass Waist High in Places.

Chicago, Ill., July 22.—There should be about 900 miles of Government-built railroad in Alaska, in the opinion of Secretary of the Interior Franklin K. Lane, who is here on his way west for an inspection of Indian reservations and several irrigation projects, says a dispatch to the Fort Worth Record.

"I believe that Alaska should be aided as far as possible in opening up her immense resources," the Secretary said. "The first step should be a Government-owned railroad to the seaboard from the coal fields. Let Congress appropriate money for the first Alaskan railroad and there will be in the next two years a colonization movement to the northern territory which will pale into insignificance the rush to the Government lands within the Nation proper.

"Alaska has 65,000 acres of land where the grass grows waist high in the summer. It is tillable soil. Thousands of reindeer graze on the moss-growing ranges, and there is no reason why, with proper transportation facilities, Alaska should not supply the Nation with a meat that is more tasty and nourishing than beef."

THE OVERLAND APPEARS IN THE ROLE OF A RACING CAR.

Though they were not manufactured for racing cars, and were only hastily prepared for contest work by their individual owners, four Model 69 Overlands, in widely separated sections of the country, have recently shown considerable class in speed and endurance competitions. Two of the cars started in races in California, one in the first automobile race ever held in New Mexico, and the fourth in an endurance run in Wisconsin.

The Cobb-Evans Auto Company, of Fresno, Calif., has added two notable achievements to its string of racing honors since the national holiday. On July 4th, one of their stripped Overlands, with Thomas McKelvey at

the wheel, took fourteenth place in the big Pacific Coast road from Los Angeles to Sacramento. But 19 of the 43 starters in the race finished, the gruelling pace set over 446 miles of good, bad and indifferent mountain and valley roads, through rivers and up and down hills having eliminated the 24 other contestants. The showing of this little Overland in this contest is considered especially remarkable since the high-priced foreign and American cars, one of which had a 120-horsepower motor, were among the entrants. The strenuous nature of the run is shown by the fact that within eight miles, in the San Francisco Canyon, the river of that name had to be forded no less than 40 times. On Sunday, July 6, Fred Wiseman, driving another little Overland belonging to the Cob-Evans Co., took first prize in the free-for-all race held at Sacramento. Three American cars and one big foreign car were the other contenders for honors. Another stock Overland, fitted with

a racing body, took first prize and the prize in New Mexico's first motor car contest, an endurance run from Albuquerque to Santa Fe and return. Still another Overland, owned and driven by Dr. H. S. Roby, gave material assistance in the winning of the Wisconsin Motorist trophy, the prize in a Milwaukee Inter-club endurance run, for the Milwaukee Automobile Club. This organization met the Milwaukee Athletic Club on June 28, each entering 11 cars for the run of 15 miles to Lake Geneva and return. Three cars in each club were penalized, the Athletic Club's entries having 171 black marks against them to their competitors' 81. The Overland was one of the cars to finish with a perfect score, standing the difficult run as well as did the higher-priced and higher-powered car of which it was a running mate. Spirella Corsetiere—MR3. JACK MOORE, Phone 415, Plainview, Texas. —Adv.

CARE FOR MACHINERY AND INCREASE PROFITS, HE SAYS.

Head of Department of Agronomy at A. and M. Instructs Students in Farm Management.

"Take care of your machinery," says Dr. J. O. Morgan, head of the Department of Agronomy at the A. and M. College. Dr. Morgan is in charge of the instruction offered to A. and M. cadets on farm management and farm machinery.

"More than one Texas farmer buys an expensive mower, binder, cultivator, disc, maybe a thresher, in season, and then leaves it out to take the rain, snow and sleet of the winter. A good shed may be built up for a very small amount, and this will amount to a saving of a number of years in the life of the machinery.

"Crop profits are eaten up by the purchase of machinery, and the day has passed when a farmer can leave his labor-saving devices standing in the open without paying a heavy penalty for his neglect or carelessness," says Dr. Morgan.

HOW TO MAKE THE KITCHEN ATTRACTIVE.

Has it ever occurred to you that for the same amount of money an attractive rather than an unattractive kitchen can be made? This part of the house, where the housemother spends much of her time, receives little consideration along convenient or attractive lines. Why not have it

THE UNRELIABLE MULHALL.

The Mulhall disclosures are interesting chiefly because they have given dramatic publicity to conditions which persons familiar with Washington conditions have long known to exist. For this reason they have been immensely worth while. They have demonstrated vividly the workings of that invisible government against which all progressives have revolted.

In justice to individuals mentioned by Mulhall, however, it should be borne in mind that he is to be believed only when he has documentary evidence to back up his story. He was fond of impressing his employers with the fact that he could "handle" Congressman So-and-So, even when he never had met the man. It made him seem important to the men paying him.

A man so unscrupulous as Mulhall doesn't gain reliability when he forsakes his old ways and squeals on his former employers.—Kansas City Star.

FIFTEEN YEARS' GROWTH.

The Southwestern Telephone Company has experts in Plainview going over the field. These experts will determine, so far as physical forces control, how much Plainview will increase in fifteen years.

Plainview's growth is dependent, in large measure, upon the efforts of the individual citizen of Plainview. To make the most, individual effort must be organized. The future of Plainview depends upon you—very largely upon your efforts in co-operation with your neighbor for the upbuilding of the community.

During the next half decade not fewer than half a dozen railroads will project their lines into Northwest Texas. These roads will converge at Plainview, Lubbock or some other town proximate to these two. They will go where most inducements are offered; and inducements don't mean altogether the bonus subscribed when the road is ready to build.

Tonnage counts largely in determining the course a railroad will take. Intensive agriculture in Hale County will have more influence in turning railroads this way than any other one factor.

A clean town, and a united citizenship, can play large part. So far as you are concerned, how big will Plainview be in fifteen years?

GIRL GUESSED RIGHT.

Mildred was visiting her soldier brother at the barracks.

"Sis," he said, "I wish you had said you were coming. I'm on duty, but a fellow bandsman of mine will show you the sights."

The girl naturally asked many questions of her brother's friend as they went the round.

"Who is that man?" she inquired, pointing to a color sergeant. "Oh, he once shook hands with the king!" said her escort. "That's why he wears a crown on his arm."

The gymnastic instructor, with a badge of crossed Indian clubs on his arm, was standing in the yard.

"That's the barber," replied the girl's companion, in answer to her inquiry. "Can't you see he's wearing the scissors?"

A number of stars upon the cuff of a veteran next aroused her cavalier. "Guides us home by the stars when we've lost our way on night maneuvers."

"Very interesting!" said the girl, with a twinkle in her eyes.

Then, noting his bandsman's badge—the model of an ancient stringed instrument—she asked sweetly of her escort:

"I suppose that design on your arm shows that you're the regimental lyre?"—London Answers.

AN OUNCE OF PREVENTION.

Dispatches say that 50 girls were burned to death Tuesday in a factory fire at Binghamton, N. Y. "In twenty minutes the building was ruins."

It is suggested that fire drills had been practiced so often that the employees had become careless.

The regrettable feature about the fire is that a four-story building should be constructed of material so that it could become a mass of ruins in 20 minutes.

This incident recalls the fact that each year America is appalled by a similar (more often more numerous) holocaust. The annual fire loss of Chicago is \$6,000,000. Berlin, about the same size, loses only \$300,000 from fire. The cost of fire in America every year is \$200,000—twenty times that of Germany. And the death list is even more shameful in comparison with Continental Europe.

Germany has no more efficient fire fighters than we have. But Germans believe in fire prevention. In Berlin every fire is traced to its origin. Nearly always somebody is to blame, and the guilty person pays the cost of putting out the fire, as well as for its damages.

Lawmakers in every American commonwealth might well consider the question of liability for fires, and for constructing buildings which are nothing more than fire traps. Two hundred million dollars is a large premium to pay for slipshod construction and criminal carelessness. America's death list from fires has become a National shame.

102 North Pacific St. PLAINVIEW, TEXAS 107 West Main St.

HOW TO ACHIEVE A SUCCESS.

[National Crop Improvement Service.] Many communities spend time and money in trying to develop resources that they haven't," says Mort L. Bixler, Secretary Meridian Progressive League, Meridian, Miss. "They imagine that factories are necessary to make a city, and yet commercial clubs have often secured factories, which have been rank failures on account of the lack of natural resources. We believe that, in order to achieve the greatest success, every community must develop its agricultural resources and in order to do this, the business men must co-operate with the farmers in bringing about modern methods.

"Many communities overlook the greatest item, and, like the old fable of the 'Dog and the Water Dog,' in attempting to grasp something possessed by others, neglect that which they already have."

PROFITABLE FARM MANAGEMENT.

By Jason Woodman, County Agent, Kalamazoo, Mich.

[National Crop Improvement Service.] No farm is permanently profitable unless the system practiced by the farm operator not only maintains soil fertility and crop production, but provides a uniform distribution of remunerative man and horse labor throughout the year. During the coming season a careful study of the methods practiced on some of the best managed farms in the county will be made for the purpose of placing before those who care for them practical systems of profitable farming, based not on theory but on the experience of successful Kalamazoo County farmers.

SOY BEANS AND VETCH.

[National Crop Improvement Service.] As between soy beans and vetch there are several points to consider. Vetch undoubtedly has a better mechanical effect on the ground; that is, it fills it better with fine, hair-like roots, makes plowing easy, and a splendid seed bed for the crop following, with little work in preparing that seed bed. On the other hand the soy bean roots deeper, and the whole plant decays more quickly than vetch, making the humus and nitrogen it supplies more quickly available than in the case of vetch. Repeatedly we have noted the immediate benefit of soy beans on the crop following, whether the beans were cut for feed, hogged down or turned under. The effect of vetch is apparently not so immediate, or is extended over a longer period of the rotation. And the last distinction between vetch and soy beans is in the matter of cost; soy beans for an acre of cover crop costing about \$1.25, while vetch for an acre costs about \$3.50.

B. Y. P. U. ENCAMPMENT CLOSSES AT PALACIOS.

New High Record for Attendance; Much Interest Was Shown in Class Work.

Palacios, Texas, July 23.—The twenty-third annual convention and twelfth annual encampment of the State Baptist Young People's Union of Texas closed its two weeks' session with a sermon by Rev. James A. Francis, D. D., Boston, Mass.

The encampment this year has been a gratifying success in every particular, a larger attendance has been registered than ever before, there has been more interest in class study work and training and the awarding of more diplomas for efficiency. The crowd this year taxed the encampment grounds and city to accommodate, but the officers have taken care of all without any inconvenience.

J. R. Francis opened the early morning services on the last day of the encampment with an address on Mary and Martha. Dr. John A. Held, San Marcos, held two classes this morning in order to complete his work, having arrived a day late for the

program. His class showed an attendance of 300. Miss Marie Buhlmyer, of the Baltimore emigrant station, spoke at the noon hour. No classes were held at any of the pavilions today, all finishing up yesterday. A message from Dr. Johnson Meyers, D. D., Chicago, who spoke before the convention last year, was read.

HEARD FROM AFTER TWO YEARS.

Radford, Arctic Explorer, Has Collected Splendid Specimens of Wild Animal Life and Vegetation.

Winnipeg, Man., July 23.—After a silence of two years, word has been received from Radford, the Arctic explorer. His half-breed guide has reached Herschell Island for supplies. The explorer has collected splendid specimens of wild animal life and vegetation, but expects to remain two years longer. He has been exploring continuously for four years.

Call The Herald for Business Cards.

PRACTICAL BAKING LESSONS

This is the first of a series of lessons which will appear on this page every week. There is a growing interest in home baking, as women are coming to realize that their own baking is far superior to the product of the bake shop and costs much less. In this department I will show you how always to have "good luck" with your baking. This is altogether a matter of having the right materials, putting them together the right way, and properly controlling the oven.

Nevada Briggs

Bread Flour and Pastry Flour

OUR mills make two kinds of flour; one from hard Spring wheat called bread flour, the other from soft Winter wheat called pastry flour. The bread flour has a larger percentage of gluten which dissolves slowly and makes the flour harder to mix, so that it is less desirable than the soft wheat or pastry flour for quick baking. Pastry flour when pressed tightly in the closed hand, should feel soft and pack closely, retaining its form after the hand is opened, and showing the imprints of the fingers. If, on the other hand, the flour seems dry and harsh to the touch, and cannot be pressed dry into a form, it is bread flour, and will give good results only when a slow working leaven like yeast is used.

Pastry flour costs no more than bread flour and it is so much better for cakes, biscuits, muffins and all kinds of pastry that it should be kept on hand and regularly used. Please do not confuse pastry flour with the expensive packages of cake flour or the self-raising flour, which are sometimes called "Pastry Flour" and "Biscuit Flour." If you will remember that bread flour is a Spring wheat flour and pastry flour is a Winter wheat flour, and make it clear to your grocer which you want, you will be sure of getting it.

How to Make Delicious Biscuits

For biscuits let us select pastry flour, a good sweet shortening, a double-raise baking powder and sweet milk or water. Milk is to be preferred, as it browns the biscuits better. First, measure correctly and sift together at least three times, the flour, salt and baking powder. It is important to blend the baking powder thoroughly with the flour. Then with a fork or the finger tips work the shortening thoroughly into the flour and mix to a soft dough with the milk or water—just as soft as can be handled. Roll out very lightly, or better, spread and pat the dough out thin with the hands. Handle as little as possible after wetting. Then cut in small shapes for the oven, for small biscuits are very much better than large ones. If baked quickly, as biscuits should be, a large biscuit does not get the proper heat to raise and bake the center of the biscuit. A small biscuit raises perfectly, bakes better, is more palatable, and is easier to digest.

Biscuits should always be baked on a sheet or in a very shallow pan, as the biscuits should be above the sides of the pan in order to have the heat get to them quickly. If baked in a deep pan the sides shut off the heat, and the biscuits are likely to flatten out and run together and have heavy centers. Never

Copyright 1913 by Joyce M. Co.

Next Week's Lesson: "CAKES."

crowd biscuits in a pan, but keep them well apart, allowing a passage between them for heat. The oven should be very hot, so that the biscuits may raise, bake and brown nicely in about 15 minutes.

I mentioned above that a double raise baking powder should be used. This is of especial importance with biscuits. With the old fashioned single acting baking powders it was necessary to have the oven ready so that the biscuits could be put in the moment they were mixed, but with K C Baking Powder you can mix your biscuits hours in advance if you like, letting them stand, and still have perfect biscuits when raised. In fact, it is entirely practical to mix a batch of biscuits before supper, bake what you want for that meal, and set the remainder of the dough away in the ice box until morning, when you can have freshly baked biscuits for breakfast without the loss of a moment's time in mixing. That you can do this with K C Baking Powder is due to the fact that it is virtually a blend of two baking powders, one of which commences to act as soon as the dough is mixed, the other commencing as soon as it is reached by heat. The dough after being mixed, will stay in a partly leavened condition for hours. Then when the heat is applied it will finish raising.

Recipes Worth Saving

- Baking Powder Biscuits: 2 cups pastry flour, 2 tablespoonsful shortening, 3 level teaspoonfuls K C Baking Powder, About 1 cup of milk or water, 1 teaspoonful salt. Graham Biscuits: 1 1/2 cups white flour, 1/4 cup graham flour, 3 level teaspoonfuls K C Baking Powder, 2 level teaspoonfuls shortening, 1 level teaspoonful salt. One cup milk or more if needed. (Graham usually requires more milk.) Dixie Biscuits: 2 cups flour, 3 level teaspoonfuls K C Baking Powder, 2 level tablespoonful shortening, 1 cup milk. Roll in sheet 1/4 inch thick, spread with butter. Fold over half and cut and bake as other biscuits. Nut Biscuits: 2 cups flour, 1 teaspoonful salt, 2 level teaspoonfuls K C Baking Powder, 3 level tablespoonful shortening, 3/4 cup milk, 1/2 cup chopped nuts.

Things to Remember

- Use pastry flour and a double acting baking powder, such as K C. Measure materials correctly. Mix lightly. Cut in small shapes. Use a sheet or very shallow pan. Have the oven very hot. If baking on gas, oil or coal stove, bake on upper grate; if using a wood or coal range, on the floor of the oven.

Seth Ward College, July 25, 1913.

Dear Former Student and Friend:--

We continue our solicitation for your help in advertising Seth Ward, and securing new students for next term.

Tell all prospective students of the recognized superior advantage offered at Seth Ward, and that we are anxious to enroll them if they wish to go to school to learn, and expect to abide by the regulations of those in authority.

There is no time like the beginning of a new school year. Be on hand September 2 and bring some one with you.

Plainview Mercantile Co.

LOCAL AND PERSONAL

Mrs. Meron Tucker, of Tulsa, was here Tuesday.

Ira Broyles, of Lockney, was in Plainview Friday.

R. Hecler, a merchant of Lubbock, was here Thursday.

Dr. E. M. Harp, of Abernathy, was here today, on business.

Dr. A. H. Lindsay and wife left today for a ten days' visit to Galveston.

Frank Lock returned to Canyon Thursday. He is attending the Normal.

J. C. Garrison, of Lockney, returned Thursday from a business trip to Amarillo.

Mrs. J. M. Leach returned to her home, in Beaver Dam, Kentucky, Thursday. Mrs. Leach has been here visiting the families of her sons, the Leach brothers.

George Bower came over from Olton today, in his Overland.

Boston Wilson, of Oklahoma City, was here this week, prospecting.

Mr. and Mrs. J. H. Parnell, of Abernathy, were visitors here this week.

T. W. Sawyer left Thursday for Lamesa and Lubbock, on business.

Born—July 22, to Mr. and Mrs. John Spurrier, 8 miles northeast of Plainview, a boy.

Joe Harris, of Monticello, Arkansas, was here Wednesday, looking after his land interests.

Mrs. J. B. Maxey and child left today for Lubbock, where they will visit Mrs. W. B. Atkins.

Miss Wade, of Ballinger, who has been the guest of Miss Myrtle Wade, returned to her home today.

Mrs. S. W. Shaver and child, of Fort Worth, were in Plainview Wednesday, en route to their home, in Fort Worth. They have been at Floydada, where Mrs. Shaver's father, Rev. G. I. Brittain, has been dangerously ill.

Joe Hess left Thursday for Lubbock.

Otis Trulove went to Amarillo Wednesday.

N. A. McChristian and wife, of Miami, were here Thursday, prospecting.

Geo. Sanders was operated upon yesterday at Guyton Sanitarium for appendicitis.

Ellis Capter left Thursday for Denver, Colorado, where he will spend his vacation.

A. J. McDowell, who has been visiting relatives here, returned to his home, in Snyder, Thursday.

Mrs. J. H. Murdock, of Dalhart, is in Plainview for a two weeks' visit with her parents, W. Munger and wife.

Guy Jacob and Mr. and Mrs. L. A. Knight attended the Panhandle Bankers' Association, in Amarillo, this week.

Miss Dott Hosford, of Waxahachie, was the guest of Mrs. L. A. Matlock, of Runningwater, at the Ware Hotel Thursday.

Rev. G. F. Fair and wife left Thursday for Lubbock.

L. W. Dalton left Thursday for Crosbyton and Seymour.

Miss Cassie Tierce, of Lockney, was here Thursday, en route to Millsap to visit relatives.

Mr. and Mrs. W. R. McCluskey, of Spring Lake, were here Thursday to meet Mr. McCluskey's brother from Albuquerque.

Dr. W. H. Flamm has returned from Amarillo, where he attended the convention of the Panhandle Medical Association.

Mesdames Walter Sullivan, of Olton, and H. J. Harrington, of Fort Worth, were here Wednesday, visiting and shopping.

Dr. M. A. Traweek, of Matador, was in Plainview Wednesday. He had been spending his vacation fishing in the Palo Duro Canyon.

L. W. Dalton and C. D. Russell went to Crosbyton yesterday. Mr. Dalton went from Crosbyton to Seymour, to attend legal business.

Miss Mae Hanks, of Sweetwater, was here Tuesday, on her way to Copperas Cove, where she will visit her sister, Mrs. H. S. Wright.

J. H. Lockett, of Floydada, and his sister, Mrs. Mary E. Franke, of Vallo, were here Thursday on their way to Abilene, where they will visit relatives.

Rev. J. T. Nicholson was in Plainview Wednesday, en route to his home, at Post City. He has been conducting a series of revival meetings at Roaring Springs.

Mr. and Mrs. L. H. Cooper, of Lockney, were here Wednesday, on their way to Lubbock to attend a meeting which is being conducted by Rev. A. J. McCarty.

Miss Annie Lou Robinson, of Brandon, Miss., who has been visiting Mrs. W. M. Pearce, at Seth Ward, the past two weeks, returned to her home Thursday.

Mrs. J. W. Shepard, her son J. W., Jr., of Plano, Texas; her daughter Mrs. I. L. Shepard, of Amarillo, and John Haggard, of Plano, Texas, came to Plainview Friday to visit at the home of Clint Shepard.

J. T. Egan, of Denton, Texas, was here this week looking for land to open a stock ranch. Mr. Egan said that he thinks this a fine farming country, and that shallow water and irrigation will develop it rapidly.

J. N. Neely and wife, of Amarillo; S. S. Neely and wife, of Little Rock, Arkansas, and J. C. Russell, of Amarillo, have been guests this week of Dr. A. H. Lindsay and family. They left Thursday for their respective homes.

J. L. Keller and wife were here Thursday, returning from Hale Center, where they have been visiting their son, A. L. Keller. Before returning to their home, in Crass Plain, Callahan County, they will visit in New Mexico.

GERMINATION OF OATS.

The Habit of Sowing Seed Without Re-cleaning.

[National Crop Improvement Service.] Reports received from the school tests in the various parts of the country regarding the condition of seed oats vary greatly. In several counties in Illinois the tests were even as low as 10 to 20 per cent.

Mr. C. A. Russell, in charge of the Grain Standardization Laboratory in Decatur, made an effort to test a representative number of samples, and while the oats were of mongrel varieties, in most cases the tests resulted on an average of 95 to 96 per cent. The samples were taken from the seeders in the fields, and represent seed actually planted. Mr. Russell says:

"There does not seem a scarcity of seed oats in this section, although the bulk of oats here stood in shock during several days of wet weather, and consequently are badly stained and a good many of them were bin burnt. The farmers seem to have avoided bin burnt oats in this section. The worst feature we have noticed is that most farmers are in the habit of sowing oats without re-cleaning."

KNOW YOUR COWS.

Cow Testing Clubs are Very Necessary to the Success of the Dairy-ing Business.

[National Crop Improvement Service.] The demand for dairy products of all kinds is increasing faster than the supply. This must result in high prices for the raw material. The farmer will receive good prices for cream. This ought to be an incentive to every farmer who is situated so that he can produce more good cream to keep more cows and better ones. Don't be afraid of overdoing the cow business. The good cow is the best investment on the farm. Why not have more of a good thing?

Thousands of dairymen have owned and handled cows nearly all their lives and yet are poor judges of cows. The reason for this is that the knowledge which they have gained from their experience is superficial. They have never compared their judgment or experiences with actual records or tests. They have a vague conception of the type of a good dairy cow, but it is based more upon their personal opinion than upon evidence or fact. Dairymen are coming to a better realization of the fact that milk producing qualities in a cow are accompanied by a general conformation that is quite characteristic. Dairymen who make a nice profit from the business familiarize themselves with the general characteristics of a good dairy cow, and make a careful study of the relation they bear to economical production.

Mrs. R. J. Parsons and daughters, Misses Bess and Clara, of Waco, arrived today for a several weeks' visit with the family of W. Y. Price.

Barker & Winn sold a Ford automobile to David Tudor today.

CIVIC LEAGUE NOTES.

As perhaps you all know, Plainview, under the auspices of the Civic League, has entered the Holhand's Magazine contest for the cleanest town in Texas. With this in view, the League appointed three ladies to inspect the public buildings of the city, to see if any "house cleaning" was necessary before the coming of the inspector, at any time.

This was a task the committee undertook reluctantly, for they didn't want the men to think that they were interfering where they had no business. But, for the sake of cleaner and more sanitary towns, the women all over America have had to make it their business to stir up action. So it is, the women of Plainview realize that if we are to have a clean, healthy town they will have to awaken in the men a sense of civic pride that will make them willing and anxious to do their part.

The committee is sorry not to be able to report all public buildings in clean condition. On the other hand, they found conditions such as to merit this public report:

The County Court House toilets, lavatories and cuspidors were found in a dirty condition. At the City Hall and railroad station the same neglectful toilet conditions were found. Even the churches did not prove that "Cleanliness is next to godliness." When the committee visits these places again they hope to find a change for the better, not for the sake of winning the Holland's prize, but for the sake of decency and good health.

MRS. J. F. GARRISON,
Chairman;

ELK-CROSBYTON GAME POSTPONED.

Wednesday afternoon seventeen ball players and a number of rooters arrived in Plainview from Crosbyton for a ball game between the local Elk team and the Crosbyton team. Rain Thursday made it necessary to postpone the game indefinitely.

The Elks left this afternoon for Lockney, to play the Lockney team. In the game this afternoon the local team defeated the Lockney squad two to nothing. The game was called in the fifth inning on account of rain.

CORRESPONDENTS WANTED.

The Herald wants correspondents in every community on the South Plains. The news items of your community are of considerable interest to all of our readers. If you are willing to act as correspondent, write The Twice-a-Week Herald for further information.

OLTON.

July 23.—A fine baby boy was born to Mr. and Mrs. J. A. Hooper Saturday, July 12.

Mrs. Robt. McQuillen has been ill for the past few days, but is improving at this writing.

Miss Adaline Irick, of Plainview, spent Saturday night and Sunday at the Clarke home.

Mr. and Mrs. R. R. Patterson, of Rotan, are visiting Mrs. Patterson's parents, Mr. and Mrs. G. M. Phillips.

Mr. and Mrs. J. D. Johnson, of DeLeon, are visiting Mrs. Johnson's parents, Mr. and Mrs. G. M. Phillips, and Mr. Johnson is also looking after his telephone system here.

Mrs. L. Aiken, of Maypearl, Texas, is visiting her sister, Mrs. D. C. Yanger.

Quite a number of friends gathered together and surprised Mr. George Bower, at his home, south of Olton, Tuesday night, this being Mr. Bower's birthday anniversary.

Mr. and Mrs. R. H. Miller are visiting relatives in Hereford and taking in the water carnival this week.

Dr. and Mrs. Lindsay, of Plainview, visited at the Bohner home Sunday.

Mr. and Mrs. J. J. Clark and their

son and daughter and Miss Maude Dotson, Mr. and Mrs. Robt. McQuillen and Mr. and Mrs. Pugh and daughter attended the ice cream social at Halfway Friday night.

Mr. and Mrs. E. Rudd, Mr. Wm. Taylor and Mr. George Abbott and children, of near Spring Lake, were in Olton on business last Friday.

Mr. and Mrs. D. B. Shifflett, of Spring Lake, were in Olton Tuesday.

Mr. W. H. Willis and Dr. Davis, of Littlefield, were in Olton Tuesday.

HALFWAY.

July 23.—Elder W. R. Triplett is conducting a revival meeting in Center Plains at this writing.

Mr. W. W. Pinkerton is in very poor health, and expects to go to Mineral Wells Monday, in the expectation of receiving benefit.

Mr. J. E. Stewart is sick.

Mr. E. Heath lost a fine horse last week.

Mr. Kleingast called Dr. Barr out to wait on a horse of his that was very sick last week.

The ladies of Halfway served an ice cream supper at Mr. Pinkerton's last Saturday night. All seemed to have a good time.

Mrs. Dick Hooper's aunt, Mrs. Miles, is visiting her this week.

The Baptist ladies' have a very interesting Aid Society, and would be glad if all the ladies would attend.

Rev. Ross' meeting begins next Sunday at 11 o'clock.

Rev. Triplett's meeting begins on Saturday night before the third Sunday in August.

ABERNATHY.

July 23.—Mr. and Mrs. M. Z. Holland, Miss King and Mrs. L. E. Crow were Plainview visitors one day last week.

Mrs. R. M. Hester has visitors this week.

Mr. R. N. Eddleman, of Joshua, Texas, has been visiting his uncle, Mr. R. M. Hardesty, of this city.

Mrs. Anna Pearson was a Plainview caller Wednesday.

Miss Reba Merrill went to Lubbock Wednesday, where she will spend a few days.

Mrs. W. H. Ragland returned from Plainview Tuesday, where she has been having some dental work done.

Master John DeWald left for Mineral Wells to-day, where he will spend a month with his grandmother.

Mrs. A. B. DeWald, accompanied by her sister, Miss Nell Lattimore, and her little daughter, Anna Joe, returned from a several weeks' visit with her mother, of Mineral Wells.

The ice cream supper at Mr. Belcher's last Friday night was a grand success, and everybody certainly enjoyed it.

Ice cream suppers are very popular these beautiful moonlight evenings.

Watermelons are soon going to be ripe, so people who have watermelon patches had better watch them pretty closely.

The Royal Neighbors of America gave a banquet in honor of Mrs. Emma Hoagland, the organizer, last Monday evening, after the regular meeting of the lodge. They invited their husbands, wives and sweethearts, and all had a nice time. Mrs. Hoagland says she is more than pleased with the camp, and she leaves a very enthusiastic camp with thirty-two members. The following officers were elected for the term: Oracle, Edna M. Crow; vice oracle, Louisa Merrill; past oracle, Minnie Stambaugh; chancellor, Ida Pearson; outer sentinel, Claudia Darden; inner sentinel, Margaret Fletcher; marshal, Grace Evans; assistant marshal, Clara Jones; graces, Helen Evans, Susie Ragland, Dovie Gibson, Minnie Nice and Lula Darden; managers, Luther E. Crow, Ida Harral and Reba E. Merrill. Mrs. Hoagland left today for Lubbock, where she expects to work for a few days.

Mr. J. R. Harral's daughter and family are visiting him a few days.

Mr. J. M. Thomas gave the young folks a party last Saturday evening. There was a large crowd, and everyone enjoyed themselves, as we always do when we go there. Ice cream and cake was served for refreshments.

KRESS.

A good rain fell here Sunday-forenoon.

Mr. J. Bush was a business caller in Plainview Monday.

The Missionary Society had an ice cream supper at Mrs. Thompson's Friday evening.

Mr. and Mrs. Sam Bailey, of Oklahoma, arrived Friday to visit their parents, Mr. and Mrs. F. T. Skipworth, and other relatives.

Farmers are cutting wheat, and some are threshing.

Mr. Los Knight and family started Monday for East Texas, to visit relatives.

Mr. and Mrs. Fred Overly visited last week with his sister, Mrs. George Rousser.

Mrs. Bookout and Mrs. Capon were visiting Tuesday at Mrs. J. Bush's, west of Kress.

A revival meeting will begin next Sunday at the M. E. Church.

J. F. Nix, of Plainview, will preach at the Baptist Church next Sunday at 11 o'clock.

John Brewbaker, wife and daughter, Nellie, of Tulsa, were visiting at Mrs. Overly's Wednesday.

Mrs. Smallseeke, from Indiana, and

FAULTLESS STARCH CO.
KANSAS CITY, MO.

International - Overland - Service

Every Overland has behind it the greatest system of international automobile service in the world. Every Overland owner is entitled to all the privileges of this vast system. It is the most highly developed and finely organized service in the industry.

It is probably difficult to grasp or comprehend the immensity and completeness of such a world-wide system. Its thoroughness, advantages and importance is best understood, and appreciated, by the tens of thousands of Overland owners who use it.

There are over 3,000 Overland dealers. This great service chain is closely wrapped around the entire globe. It daily serves, supplies and satisfies over one hundred thousand Overland owners. You will find Overland Service Stations, at your service, in every civilized section of both hemispheres.

Overland parts are stocked in every country under the sun. A special staff of "parts auditors" constantly travel all over the world, checking this stock and keeping it

up-to-date. These men study and anticipate your needs in the many different countries—and see that you get what you want when you want it. A large force of men at the Overland Executive Offices do nothing but keep in touch with and keep tab on the efficiency of this system. It is never permitted to fall below a certain standard.

Overland owners are never put to the inconvenience or annoyance of waiting days or weeks for parts to come from the factory. No matter what part of the civilized world you are in, you can always get whatever you require in a few hours. And all this is the result of establishing, developing and maintaining what has grown to be the most far-reaching system of automobile service in the world.

Service is a matter to which you should give more consideration. The establishment of the Overland system has cost hundreds of thousands of dollars. It is always at the command of every Overland owner in any part of the world.

Mrs. Thomas, from Tennessee, are visiting their parents, Mr. and Mrs. T. R. Bony.

CARBON BISULPHIDE FOR KILLING PRAIRIE DOGS.

College Station, Texas, July 19.—Concerning the use of carbon bisulphide for killing prairie dogs, Dr. G. S. Fraps, State Chemist and chemist to the State Experiment Station at A. and M. College, makes the following statement:

Q.—"Which is considered more deadly, to set fire to carbon bisulphide or to use it without setting fire to it? We use it for killing prairie dogs. The method usually employed is to saturate three or four balls of dry horse dung; drop all but one down in the hole; then strike a match and drop the last ball and the match into the hole at the same time. This ignites the carbon in the bottom or near the bottom of the hole. As soon as the carbon is lighted the hole is covered with dirt. Some contend that this is a mistake to set fire to the carbon.

"Will carbon bisulphide deteriorate in any way after being kept some time in a vessel that is not air tight?"

A.—"Carbon bisulphide is very poisonous to small animals, such as prairie dogs. It is more poisonous than the carbon dioxide and sulphur dioxide produced when it burns. In my opinion, therefore, it would be better to apply carbon bisulphide, and close the hole without setting fire to the carbon bisulphide. It would be better, also, to make the application in the morning, before the ground heats up. Carbon bisulphide does not deteriorate in a vessel which is not air tight, but it does evaporate."

Announcement

My Practical Baking Lessons Will Appear on This Page Every Week

So much interest has been shown in my work, and so many ladies have asked me why I did not publish my lessons, that I have prepared a series covering practically the whole field of home baking.

By special arrangement with the Manufacturers of KC Baking Powder and the publishers of this paper, the lessons will appear on this page every week, beginning this week.

I have tried to make these lessons thoroughly practical and I believe that every one contains at least one recipe worth saving, and some new idea that every housewife can adopt to advantage and that will repay a careful reading.

Sincerely
Nevada Briggs

KANSAS CITY STOCK MARKET FLUCTUATES SHARPLY.

Cattle Variable; Hogs Going Higher; Lambs Declining in Live Stock Center.

Kansas City Stock Yards, July 21.—Cattle prices diverged sharply last week, good to choice beef cattle selling strong to 15 higher, while grassers took a loss of 25 to 60 cents. Fear of drought, and expectancy of a heavy run of dry weather cattle today, hurt the market last week. Rains Saturday saved the situation, and the supply here today is but 15,000, and it is moderate at other points.

Fed steers are selling strong to-day, grass cattle steady, stockers and feeders, which are most susceptible to weather influences, are 25 to 40 cents higher. The supply of quarantine cattle today is 150 car loads, market steady to strong and active, steers selling at \$5.50 to \$7.30.

Missouri fat cattle, which have held the center of the beef stage here for several weeks, will be out in a short time, and distillery cattle, now running freely to Eastern markets and furnishing packers the bulk of their heavy bullocks, will all be marketed this month. The trade expects substantial improvement in dry-lot cattle prices, and buyers will soon be eager for the good, heavy Greenwood County, Kansas and other grass steers of quality.

Country buying promises to be a strong feature. Shipments from Kansas City to that trade last week were 14,000 head, as compared with 4,500 head same week a year ago. Killers' demand will be fully as great this fall as last, and country buying will be heavier.

Prime steers are quotable at \$9.00 here, top today \$8.85, best heifers worth \$8.75, cows largely at \$4.75 to \$6.75, veals today \$8.50 to \$9.75, stock steers \$4.75 to \$7.00, feeders \$6.50 to \$7.50.

Hog price tendency is upward Early sales today were 10 cents higher, though bulk of business was on a steady basis. Receipts, 9,000. Top today was \$9.20, bulk \$9.00 to \$9.15.

A feature is the absence of heavy bred sows, and also of pigs, showing a disposition to raise hogs, and an indication of health among the herds. Eastern hog demand is insistent, and will likely increase, which prevents present high range of prices from being considered top heavy. Eastern buyers took more than 5,000 hogs from here last week.

The sheep and lamb market is most erratic. After reaching \$8.50 the middle of last week, spring lambs tumbled precipitately, and the best sell today at \$7.50.

Sheep are not quite so acrobatic, though ewes are down around \$4.15, against \$5.00 one day last week. A rise just as sudden would be consistent for the sheep market. Receipts today, 4,000. J. A. RICKART, Market Correspondent.

LUNCHEON AND TEA GOODIES.

Sugar Cookies.—Take one cup of sugar, three-fourth of a cup of butter, a quarter of a cup of sweet milk, two eggs well beaten, three teaspoonfuls of baking powder, a pinch of salt, and add cinnamon or nutmeg, or both, to taste. Add enough flour to make a dough to roll, cut out in round, thin cakes, sprinkle with sugar, and bake in a quick oven.

Tea "Dainties."—Take two cups of powdered sugar, half a cup of butter, a cup of sweet milk, the whites of four eggs, a teaspoonful of lemon extract, two teaspoonfuls of baking powder, and flour enough to make a stiff batter. Beat this batter hard for ten minutes before putting into heated patty tins. Bake quickly and allow to cool, then ice with a soft icing made from whites of eggs mixed with enough powdered sugar to make it stiff.

Scotch Quick Cakes.—Rub three-quarters of a pound of butter into one pound of sifted flour, mix into it a pound of granulated sugar and a large tablespoonful of powdered cinnamon. mix to a dough with three well-beaten eggs, roll out into a sheet, cut into round cakes, and bake in a quick oven. These cakes require but a few minutes to cook.

Anise Drops.—Beat a cup and a half of sugar and three eggs together for half an hour and add a pint of flour and half a teaspoonful of anise seed. Grease pans with beeswax, drop spoonfuls of the mixture upon them, and bake quickly.

Roxbury Buns.—Mix half a pound each of butter and sugar with three pounds of sifted flour, rubbing them together thoroughly, and add a pound of currents, washed and dried, some caraway seed, and three ounces of yeast. Set the paste to rise for an hour. Mix well and then let the dough stand again till it is well risen; then roll up and shape into small cakes. Place these on small baking sheets in a hot oven and bake.—Kansas City Star.

While away these spring evenings listening to a "Victor." J. W. WILLIS DRUG CO. has them. —Adv. tf.

THE VALUE OF GOOD STOCK.

A dairyman who was just beginning with some good cows asked a man who knew something of the business if it would pay to buy a fine bull. The reply was that the dairyman could not afford not to own a fine bull, and that in the course of five years the loss from breeding to a scrub, or a bull of unknown pedigree, would go into the thousands.

The dairyman had 30 cows. Calculating that half the calves would be females, and that at least 10 of them would be worth saving, with the service of a fine bull, and that with a scrub none of them would be valuable, the difference, counting the good calves at \$25, would be quite a sum.

The dairyman at once took the train to a breeder whose cattle were known to be of the finest, and that dairyman is now satisfied that he saved a lot of good money. Counting 10 good calves the first year, and the continued increase for five years, and the improvement in quality, the sum will foot up to some thousands in the five years.—Farm and Ranch.

BANKING BY MAIL NEW POSTAL BANK PLAN.

"Banking by mail" is the latest Government innovation in connection with the postal savings system, says Associated Press reports from Washington. Hereafter deposits and withdrawals may be made by mail. When the postal savings system first was put in operation postmasters were forbidden to permit deposits by such persons as were not patrons of the post-office in which they sought to bank. This was found to work a real hardship on a certain class of would-be depositors, and Postmaster General Burleson abrogated the rule. Postmasters throughout the country now are being advised of the change.

MARRIED AT LOCKNEY.

His name is H. B. Hale—at least he said as much.

In an uninterested manner he told a Herald reporter that C. K. Brumley, of Thurber, and Miss Josie Day, of Lockney, were married last evening at the home of the bride's parents, in Lockney. Rev. Henderson officiated.

At any rate, Mr. H. B. Hale boarded the train with the bride, and if Mr. Brumley is not Mr. Hale, the groom is scheduled to do a Lockinvar stunt.

IMPORTANCE OF HEALTHY KIDNEYS.

Plainview Readers Should Learn to Keep the Kidneys Well

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly, to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching frequently begins, and is often accompanied by some irregularity of the urine—too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 50 years. You will make no mistake in following this Plainview citizen's advice:

Mrs. T. B. Irwin, 202 Jones Street, Plainview, Texas, says: "When we have had occasion to use a kidney remedy we have taken Doan's Kidney Pills. They have never failed to be of benefit."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and take no other. —Adv. 33

CITATION BY PUBLICATION.

THE STATE OF TEXAS, To the Sheriff or any Constable of Hale County—GREETING: YOU ARE HEREBY COMMANDED, That you summon, by making Publication of this Citation in some newspaper published in the County of Hale, if there be a newspaper published therein, but, if not, then in any newspaper published in the 64th Judicial District; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 64th Judicial District, for four weeks previous to the return day hereof, W. V. Kennedy, Edward Kennedy and R. S. Lemons, whose residences are unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Hale, at the Court House thereof, in Plainview, Texas, on the 4th day of August, 1913, then and there to answer a Petition filed in said Court, on the 7th day of June, A. D. 1913, in a suit numbered on the docket of said Court No. 963, wherein L. W. Elliott and M. J. Elliott, R. W. Elliott are plaintiffs and W. V. Kennedy, Edward Kennedy and R. S. Lemons are defendants. The nature of the plaintiffs' demand being as follows, to-wit:

STATE OF TEXAS, County of Hale.)

In District Court, August Term, 1913.

To the Honorable District Court of said County: Now come L. W. Elliott and M. J. Elliott, who are husband and wife, and R. W. Elliott, all of whom reside in Hale County, Texas and are hereinafter styled plaintiffs, and, complaining of W. V. Kennedy, Edward Kennedy and R. S. Lemons, herein-after styled defendants, and whose places of residence are unknown, show to the Court:

That heretofore, on the 1st day of January, 1913, plaintiffs were lawfully seized and possessed of the following described tracts of land lying and being situate in Hale County, Texas, claiming, holding and owning the same in fee simple, to-wit:

FIRST TRACT: Beginning at 4 pits and stake at the Southwest corner of the D. P. Goodwin Homestead Pre-emption Survey; thence North 1,456 feet a 3/4-inch pipe; thence West 1,320 feet a buggy boxing for corner; thence South 1,456 feet 4 pits and a cedar post at the Southwest corner of the S. A. White Homestead Pre-emption Survey; thence East 1,320 feet to the place of beginning, containing 44.13 acres of land.

SECOND TRACT: Beginning at the center of the D. P. Goodwin Homestead Pre-emption Survey, a wagon spindle; thence South 1,320 feet; thence West 1,320 feet to 4 pits and stake at the Southwest corner said Goodwin Survey; thence North 1,456 feet to a 3/4-inch pipe; thence East 1,170 feet; thence South 136 feet; thence East 150 feet to the place of beginning, containing 43.66 acres of land.

THIRD TRACT: Beginning at the Southwest corner of the aforesaid D. P. Goodwin Homestead Pre-emption Survey; thence West 1,320 feet a stake at the Southwest corner of the S. A. White Homestead Survey; thence South 531.7 feet, a stake and 3 pits; thence East 1,320 feet a stake; thence North 531.7 feet, to the place of beginning, containing 16.11 acres of the J. E. White Homestead Survey.

FOURTH TRACT: Beginning at Goodwin Homestead Pre-emption Survey the Southwest corner of the said D. P. Goodwin Homestead Pre-emption Survey; thence East 1,320 feet; thence South 531.7 feet; thence West 1,320 feet; thence North 531.7 feet, to the place of beginning, containing 16.11 acres of the E. M. White Homestead Survey.

And that on the day and year aforesaid the defendants unlawfully entered upon said premises and ejected the plaintiffs therefrom and unlawfully withhold from plaintiffs the possession thereof, to plaintiffs' damage in the sum of Five Thousand Dollars.

Plaintiffs claim said lands by chain of title as follows: Patent from the State to M. E. Black, assignee of D. P. Goodwin, Patent No. 176, Vol. 28, recorded in Vol. 1, page 62, of the Patent Records of Hale County, Texas; deed from M. E. Black to A. E. White, dated Oct. 19th, 1906, recorded in Book 6, page 572, Deed Records of Hale County, Texas; Patent No. 282, Vol. 30, of Record Book 1, page 209, Patent Records, Hale County, Texas, to Ed M. White; Patent No. 570, Vol. 30, of Record Vol. 1, page 396, Patent Records of said Hale County, to S. A. White, who married T. J. Black; Patent No. 569, Vol. 30, recorded Vol. 1, page 395, Patent Records, Hale County, to J. E. White; deed from J. E. White et ux. to Ed M. White, dated Feb'y 6th, 1906, recorded Vol. 12, page 446, Deed Records of Hale County, Texas; deed from T. J. Black et ux. S. A. Black to R. W. Elliott, dated Oct. 17th, 1907, recorded Vol. 16, page 437, Deed Records of Hale County, Texas; deed from Ed M. White and wife, A. E.

White, to Mrs. M. J. Elliott, dated October 12th, 1907, recorded Vol. 16, page 438, Deed Records of said Hale County; deed from Ed M. White and wife to Mrs. M. J. Elliott, dated October 12th, 1907, recorded Vol. 16, page 439, Deed Records of said Hale County; deed from Ed M. White and wife, A. E. White, to Mrs. M. J. Elliott, dated October 12th, 1907, recorded Vol. 16, page 440, Deed Records of said Hale County; and that the only title under which defendants claim any part of said lands is the deeds herein-after mentioned.

And Plaintiffs show that on the 26th day of April, 1909, plaintiffs signed, executed and delivered to W. V. Kennedy a certain deed, in form a general warranty, dated said day, and now of record in the Deed Records of said Hale County, Texas, Vol. 23, page 43, which said deed purports to convey unto said W. V. Kennedy a one-half interest in the north 120 acres in the townsite of Petersburg as shown by plat of said town on file in the Deed Records, except Blocks 7 and 8 and one acre deeded to T. B. Phillips by L. W. Elliott and wife, M. J. Elliott, and 3 acres deeded by L. W. Elliott and wife to Chas. Schuler and ten acres to W. V. Kennedy, further described as 120 acres out of a survey transferred to M. J. Elliott and L. W. Elliott by Ed M. White et al. And that on the same day, April 26th, 1909, plaintiffs signed, executed and delivered to said defendant, W. V. Kennedy, a certain deed, in form a general warranty deed, dated said day, and now of record in the Deed Records of said Hale County, Texas, Vol. 20, page 470, which deed purports to convey to said W. V. Kennedy ten acres off of the south side of a 120-acre tract of land conveyed to us by Ed M. White et al., and more particularly described as a strip of land 2,463 by 180 feet, and includes the northwest part of Block 4 and north part of Blocks 15, 22, 33, 40, 51, 58 and 69 as shown by margin line east and west on Petersburg Townsite plat, Hale County, Texas. And plaintiffs say that both said deeds are invalid and not binding against these plaintiffs, and should be cancelled, annulled and held for naught, and that the record thereof should be cancelled, annulled and held for naught, because, as plaintiffs show to the Court:

That at and before the said day of the execution of said deeds these plaintiffs resided at the said Town of Petersburg, where said land is situated, and owned and possessed at and near said town other lands, and were desirous of having a railroad constructed into and through said town; and that said defendants, W. V. Kennedy and Edward Kennedy, at and just prior to the date of the execution of said deeds, came to said town of Petersburg, and, acting together for the purpose of acquiring from plaintiffs the land in said two deeds described, and for the purpose of defrauding plaintiffs out of said land, represented to plaintiffs, and promised and assured plaintiffs, that they, said Kennedys, would build, construct, complete and equip a railroad from the town of Memphis, Texas, to and through the said town of Petersburg, within two years from said date, and would have such road completed and trains running thereover within said time of two years from the said date, if plaintiffs would make said deeds of conveyance; and represented to plaintiffs that they were financially and otherwise able to so build, construct, complete and equip such a railroad, and would do so within two years.

That plaintiffs had no knowledge of the matters about which said representations, promises and assurances were so made, and relied wholly on the said representations, promises and assurances so made by said Kennedys, and, so relying thereon, signed, executed and delivered said two deeds last above mentioned to said W. V. Kennedy; and plaintiffs show to the Court that they would not have made or delivered said deeds nor either of them but for said representations, promises and assurances so made by said defendants.

And plaintiffs further show to the Court that all and every of said representations, promises and assurances were falsely and fraudulently made by said Kennedys for the purpose of swindling plaintiffs out of their lands; that said representations, promises and assurances were made by said Kennedys without any expectation or intention of fulfilling them or any of them, and without any ability to perform or fulfill them or any of them. That said Kennedys were, in fact, mere adventurers, and had no financial ability or standing, and did not have the ability to construct any such railroad; and plaintiffs say that the execution of said deeds was procured by fraud.

And plaintiffs further represent and show to the Court that said deeds were signed and delivered by plaintiffs to said W. V. Kennedy, they, plaintiffs, relying fully and wholly on the representations, promises and assurances so made by said Kennedys as hereinabove set out; that no money or other thing of any value whatever was

given, paid to or received by plaintiffs for their said land or for the execution of said deeds, and that the only consideration for said land and for the execution of said deeds was the representations, promises and assurances so made to them by said Kennedys, as aforesaid; and plaintiffs further show to the Court that said Kennedys have wholly failed to perform or do any of the things which they so represented, promised and assured plaintiffs they would do; and have broken each and every of said representations, promises and assurances so made; that no railroad has ever been built into or anywhere near said town of Petersburg by said defendants nor by any one else; that plaintiffs have gotten nothing for their said lands; and plaintiffs said that said deeds are absolutely without any consideration to support them, and that the consideration for said deeds, if any ever there was, has wholly failed.

WHEREFORE, Plaintiffs pray that defendants be cited to answer this petition and that plaintiffs have judgment for the title, restitution and possession of the four tracts of land herein first described, for a cancellation and annulling of said two deeds and the record thereof, and that said deeds and the record thereof be hereafter held for naught, for costs of suit, and for all other relief in law and equity to which they may be entitled under the evidence.

Attorneys for the Plaintiffs.

HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office, in Plainview, this, the 27th day of June, A. D. 1913. (SEAL) B. H. TOWERLY, Clerk District Court, Hale County, Texas.

By W. H. BOX, Deputy. 40

CITATION BY PUBLICATION.

THE STATE OF TEXAS, To the Sheriff or any Constable of Hale County—GREETING:

YOU ARE HEREBY COMMANDED, That you summon, by making Publication of this Citation in some newspaper published in the County of Hale, if there be a newspaper published therein, but, if not, then in any newspaper published in the 64th Judicial District; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 64th Judicial District, for four weeks previous to the return day hereof, W. V. Kennedy, Edward Kennedy and R. S. Lemons, whose residences are unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Hale, at the Court House thereof, in Plainview, Texas, on the 4th day of August, A. D. 1913, then and there to answer Plaintiffs' First Amended Original Petition filed in said Court, on the 27th day of June, A. D. 1913, in a suit numbered on the docket of said Court No. 964, wherein Ed M. White and A. E. White are plaintiffs and W. V. Kennedy, Edward Kennedy and R. S. Lemons are defendants. The nature of the plaintiffs' demands being as follows, to-wit:

Ed M. White and A. E. White) vs.) W. V. Kennedy et al.) No. 964. In District Court, Hale County, Texas.

To the Honorable District Court of said County:

Now come the Plaintiffs, Ed M. White and wife, A. E. White, and file this their First Amended Original Petition in lieu of their Original Petition filed herein on the 7th day of June, 1913, and for such amendment and for cause of action, and complaining of the defendants, W. V. Kennedy, Edward Kennedy and R. S. Lemons, whose places of residence are unknown to Plaintiffs and to plaintiffs' attorneys, show and represent to the Court:

That heretofore, on the 1st day of January, 1913, plaintiffs were lawfully seized and possessed of the following described tract of land, situate and being in Hale County, Texas, holding, owning and claiming same in fee simple, to-wit: Beginning at an iron pipe 1,853 feet south of a wagon spindle driven in the ground at the center of the D. P. Goodwin Homestead Pre-emption Survey of 160 acres; thence south 990 feet; thence west 987.1 feet; thence north 990 feet; thence east 987.1 feet, to the place of beginning, containing 22.43 acres of land; and that on the 24 day and year aforesaid the defendants unlawfully entered upon said lands and premises and ejected plaintiffs therefrom and unlawfully withhold from plaintiffs the possession thereof, to plaintiffs' damage in the sum of two thousand dollars. Plaintiffs further show that they hold, claim and have title to said tract of land by title as follows:

Patent from the State of Texas to plaintiff Ed M. White, No. 282, Vol. 30, of record in the Patent Records of Hale County, Texas, Vol. 1, page 209; and that defendants have no title to said lands or any part thereof, so far as these plaintiffs know, unless it be under the deed hereinafter mentioned.

And for further cause of action against said defendants, W. V. Kennedy, Edward Kennedy and R. S. Lemons, these plaintiffs show to the Court that on the eighth day of January, 1909, plaintiffs signed, acknowledged and delivered to said W. V. Kennedy a certain instrument in writing, a general warranty deed, bearing date said day and year, and now of record in the Deed Records of Hale County, Texas, Vol. 20, page 280, by the terms of which deed plaintiffs conveyed to said W. V. Kennedy certain lands in Hale County, Texas, described in deed as follows: Beginning at an iron pipe 1,853 feet south of a wagon spindle at center of the D. P. Goodwin Survey; thence South 990 feet to stake; thence West 987.1 feet to stake; thence North 990 feet to stake; thence East 987.1 feet to stake, containing 22.43 acres of land. And plaintiffs show to the Court that said deed of conveyance is invalid and not binding against these plaintiffs, and should be cancelled, annulled and held for naught, and the record thereof should be cancelled, annulled and held for naught, for the following reasons:

1st. At and prior to the time of the making of said deed, plaintiffs lived at the Town of Petersburg, Hale County, Texas, and had and owned and possessed certain other lands besides the lands in said deed described, and were, together with many other persons residing in and about said town, very desirous of seeing a railroad constructed into said town, and of seeing said town and the community thereabout grow and develop; and that said defendants, W. V. Kennedy and Edward Kennedy, at the time of the executing of said deed and before then, came to said town of Petersburg and represented to plaintiffs and promised and assured plaintiffs that if they, plaintiffs, and other persons would do certain things, including the conveyance to said W. V. Kennedy the lands in said deed described, that they, the Kennedys, would build, construct and complete a railroad from Memphis, Texas, to and through the said Town of Petersburg, and would complete said railroad and have trains running thereover within two years from that time; and represented to plaintiffs that they, said Kennedys, were able financially and otherwise able to so build, construct and equip such railroad, and would so build, complete and equip same and have trains running thereover within two years from that date, if plaintiffs would execute said deed.

That plaintiffs had no knowledge of the matters about which such representations, promises and assurances were so made by said Kennedys, and relied wholly on the said representations so made by them, and, so relying on said representations, signed, executed and delivered to said W. V. Kennedy but for said representations, promises, agreements and assurances so made by said Kennedy.

And these plaintiffs further show to the Court that all and every of said representations, promises and assurances so made by said Kennedys were falsely and fraudulently made by them for the purpose of swindling plaintiffs out of their said land, and were made without any expectation or intention of fulfilling them or complying with or performing them, and without any ability to perform or keep them. That said Kennedys were, in fact, mere adventurers, without any financial standing or ability. And plaintiffs say that the execution and delivery of said deed was procured by fraud.

And these plaintiffs further show that said deed was signed, executed and delivered by plaintiffs to said W. V. Kennedy, they, plaintiffs, relying on said representations, promises and assurances so made by said Kennedy, as aforesaid; and that no money or other thing of value whatever was given to plaintiffs or received by them for said land in said deed described or for the execution and delivery of said deed, and that the only consideration for said deed, and for said land in said deed mentioned, was the said representations, promises, assurances and agreements on the part of said Kennedys, as above set out, and to the effect that they, said Kennedys, would build, construct, complete and equip a railroad into and through said town within two years from the said date of said deed, and have trains running over said railroad within that time; and plaintiffs further show the Court that said Kennedys have wholly failed to perform or do any of the things which they so represented, promised and assured plaintiffs that they would do, and have broken each and every representation, promise and assurance so made; that no railroad has ever been built into or anywhere near said town of Petersburg by said defendants or any other person; and

that plaintiffs have gotten nothing whatever for their said land; and plaintiffs say that said deed is absolutely without any consideration to support it, and that the consideration therefor, if any there ever was, has wholly failed. And Plaintiffs further say that said W. V. Kennedy and Edward Kennedy were acting together in all said matters.

Wherefore, plaintiffs pray that defendants be cited to answer this petition, and that upon a hearing hereof that plaintiffs have judgment for the title, restitution and possession of the lands hereinabove described; that said deed and the record thereof be cancelled, annulled and declared void; that plaintiffs have judgment for costs of suit, and that they have all other and further relief both in law and in equity to which, under the evidence, they may be entitled.

Attorneys for the Plaintiffs.

HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

By W. H. BOX, Deputy. 40

CITATION BY PUBLICATION.

THE STATE OF TEXAS, To the SHERIFF or any Constable of Hale County—GREETING:

You are hereby COMMANDED to SUMMON the heirs of W. H. H. Kilty, by making publication of this citation in some newspaper of Hale County, Texas, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once in each week for eight successive weeks previous to the return day hereof, to be and appear before the Honorable District Court of Hale County, Texas, at the next Regular Term thereof to be holden in the County of Hale, at the Court House thereof, in the City of Plainview, Texas, on the 4th day of August, 1913, then and there to answer a petition filed in said Court on the 23rd day of May, 1913, in a suit numbered on the docket of said Court, No. 960, wherein B. E. Crego is plaintiff and the heirs of W. H. H. Kilty, deceased, are defendants; the nature of the Plaintiff's demand as stated in said Petition being as follows:

STATE OF TEXAS, County of Hale.) IN THE DISTRICT COURT, August Term, 1913.

To the Honorable District Court of said County: Now comes B. E. Crego, of Aurora, State of Illinois, hereinafter styled Plaintiff, and, complaining of the Heirs of W. H. H. Kilty, deceased, whose names and places of residence are to Plaintiff unknown, hereinafter styled Defendants, shows and represents to the Court:

That heretofore, on the 1st day of August, 1912, Plaintiff was lawfully possessed of the following described tract of land lying and being situate in Hale County, Texas, holding, owning and claiming the same in fee simple, to-wit: The J. L. King Homestead Pre-emption Survey, described by metes and bounds as beginning at the Northeast corner of the W. F. Addison Survey; thence east 950 varas; thence south 950 varas; thence west 950 varas, to the northeast corner of the J. McClinton Homestead Pre-emption Survey; thence north to the place of beginning, and containing one hundred and sixty acres of land; and that on the day and year aforesaid the Defendants unlawfully entered upon said premises and ejected the Plaintiff therefrom and unlawfully withhold from him the possession thereof to his damage in the sum of Three Thousand Dollars.

Plaintiff further shows to the Court that he claims and owns said land by chain of title as follows: 1st, Patent from the State of Texas granting said land to J. L. King; 2nd, Deed of General Warranty from said J. L. King and wife conveying said land to Herman Schulz, dated October 1st, 1908, and of record in the Deed Records of Hale County, Texas, Vol. 17, pages 203-4; 3rd, Deed from said Herman Schulz conveying said land to W. H. H. Kilty, dated May 27th, 1910, and of record in the Deed Records of said Hale County, Texas, Vol. 24, pages 623-4, in which deed of conveyance the Vendor's Lien was expressly retained to secure the payment of four notes of even date with said deed, each for the sum of \$425.00, and due respectively July 1st, 1912, 1913, 1914 and 1915, and each note providing that failure to pay any note or any installment of interest when due shall at the option of the holder mature all said notes; 4th, Transfer and assignment from said Herman Schulz of said notes to this Plaintiff; which transfer and assignment also conveyed to this Plaintiff all the right, title and inter-

est owned or held by said Herman Schulz in or to said land, and which transfer and assignment was in writing, dated July 1st, 1910, and recorded in the Deed Records of Hale County, Texas, Vol. 25, page 357, and conveyed to this Plaintiff the superior legal title to said lands;

That the only title or interest in or to said lands or any part thereof held or claimed by Defendants, so far as known to this Plaintiff, is under said deed from Herman Schulz to said W. H. H. Kilty, above described. And Plaintiff says that said notes in said deed mentioned are long since past due and have never been paid, and are and remain wholly unpaid, and Plaintiff has rescinded said contract of sale, because of the failure on the part of Defendants and said W. H. H. Kilty to pay said notes. And Plaintiff further shows that said W. H. H. Kilty is dead.

Wherefore Plaintiff prays that Defendants be cited by publication as provided by law in such cases, and that upon a hearing he have judgment for the title, restitution and possession of said above described tract of land, and for all relief to which under the law and the evidence he may be entitled.

MATHES & WILLIAMS, Attorneys for the Plaintiff.

HEREIN FAIL NOT, and have you before said Court on the first day of the next term thereof, this WRIT, with your return endorsed thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at my office in Plainview, this the 23rd day of May, 1913.

B. H. TOWERLY, Clerk District Court, Hale County, Texas. By W. H. BOX, Deputy. 41

COOL COLORADO In a comparative sense with its numerous incomparable attractions and resorts for vacationists and those needing health-renewing influences, it is but a few steps away and the Fast Double-Daily Through Trains of the Ft. Worth & Denver City Railway. Including through sleepers between Denver and points on the T. & S. V. & T. & P. and M. K. & T. Rys., as indicated hereon, eliminate travel hardships and inconveniences and assure unbroken comfort and pleasure in both directions. If in doubt, let me send you some Colorados, in booklet form, free! A. A. GLISSON, G. P. A. Ft. Worth, Texas.

A Very Fine Smoke A Very Small Price Surprise yourself—right now. Step up to the nearest cigar case and exchange a nickel for one J. M. M. SMOKER. Small it, taste, light it, smoke it. Delight yourself with a taste, fragrance and aroma just as delicious as you have been accustomed to in cigars costing from twice to five times as much. If you'd rather pay a nickel for a cigar than a quarter you can't do better than get the J. M. M. SMOKER. You'll get your money's worth, and then some. You'll get a genuine, Cuban, hand made, clear Havana cigar and all the pleasure and satisfaction that only a genuine Havana cigar can give. It's a fact. One smoke will prove it. J. M. STATE UNIVERSITY SOLVES HIGH COST OF LIVING PROBLEM.

Student at Austin May Live on Less Than \$10 a Month; Pie 5c.

Despite the high cost of living, students at the University of Texas who find economy necessary and who plan their individual menus carefully, are able to secure meals for less than ten dollars a month, says the University of Texas Bulletin. The manager of the University Commons shows that this is frequently done under the Cafeteria plan of serving meals. Each man waits on himself.

A schedule showing the bill of fare and prices is posted for each meal, and the cooked food arranged so that it is kept hot while displayed before the hungry boys. First, the student provides himself with a tray, paper napkin, knife, fork and spoon, and then chooses his meal from a number of possible selections. Another student serves him, still another checks the items and gives him a Harvey House slip calling for the proper change, and a third student, when the meal is eaten, collects the money due.

For more than four hours each day the large dining hall presents anovel scene; some students are coming in for meals, some are loading their trays with food; some are carrying their meals to quiet corners; some are

settling with the cashier; all seem to enjoy the opportunity of choosing their own food and waiting on themselves. But the price of pie is 5 cents.

This is a sample bill of fare for the non hour: Bread, 1 cent; Butter, 1 cent; Toast, 1 cent; Buttermilk, 3 cents; Sweet Milk, 3 cents; Jam, 3 cents; Syrup, 2 cents; Coffee, 3 cents; Soup, 5 cents; Beans, 4 cents; Potatoes, 4 cents; Cake, 3 cents; Fruit of several varieties, 3 cents; Pie, 5 cents; Roast Beef and Gravy, 8 cents; Cocoa, 4 cents; Ham and Egg, 10 cents.

BATTLESHIP GOES TO AID OF AMERICANS.

Capture of Neaport Near Vera Cruz Results in Appeal for Protection of Foreigners.

Mexico City, July 21.—Tuxpan, a maritime town, 145 miles northwest of Vera Cruz, was captured by rebels under Jose Vega Saturday after a hard fight, says a dispatch from the City of Mexico in the Fort Worth Record. In answer to an appeal from the British consular representative, the United States battleship Louisiana, with Rear Admiral Frank F. Fletcher aboard, has sailed for that port.

Tuxpan is situated on a river five miles from the Gulf of Mexico. It is an oil center and a considerable number of Americans reside there. If it

should become necessary to give protection, Admiral Fletcher would have to land a force, as the Louisiana could not proceed beyond the gulf.

GARRISON PLEASUED BY WAR CAMPS IN TEXAS.

Secretary of War Sees the Texas City Army Post by Automobile.

Texas City, Texas, July 21.—"To say that I am pleased with the condition I find the camps of the Second Division in is expressing it mildly," was the way Lindley M. Garrison, Secretary of War, expressed himself today after a whirlwind automobile ride through the camps of the soldiers stationed at Texas City, under the command of Major General William H. Carter.

Accompanied by Wood, The War Department official, accompanied by Major General Leonard Wood, chief of the army staff; Major General J. B. Aleshire, chief of the quartermasters' corps; Captain S. J. Shindel, of the army staff, and the Secretary's private secretary, reached Texas City at 12:30, from Galveston.

At 4:30 o'clock the party returned to Galveston, where Secretary Garrison was the honor guest at a dinner given at the Galvez by I. H. Kempner, a prominent citizen of Galveston.—Fort Worth Record.

ferers from chest complaints.

Beets are fattening, and good for people who want to put on flesh. So are potatoes.

Celery and onions are nerve tonics.

Cranberries are a stringent, and correct the liver when it is suffering from inaction caused by overeating.

Dates are nourishing and also prevent constipation.

Grape juice is a laxative, but the skin and seeds are likely to cause constipation.

Honey is a good substitute for cod liver oil.

Lemon juice is excellent as a gargle for sore throat.

Lettuce has a soothing effect on the nerves, and is excellent for sufferers from insomnia.

Onions are conducive to sleep. They quiet the nerves and are good for colds.

Parsnips, like sarsaparilla, are good for the blood and to tone up the system.

Tomatoes are good for a torpid liver, but they should be avoided by gouty people.

Water cress is an excellent blood purifier.

START PARCEL POST FIGHT.

Burleson Summoned to Senate to Explain Lower Rates.

Washington, D. C., July 22.—Postmaster General Burleson was summoned today to appear before the Senate post office committee Thursday to explain by what authority he purposes to reduce parcel post rates.

The summons is believed to be the start of a fight to prevent the extension of the parcel post system as proposed in plans recently announced.

LET FOOD BE YOUR MEDICINE.

Many Fruits and Vegetables Are Good for Common Ailments.

Many of the most familiar fruits and vegetables have distinct medical values, says the Kansas City Star. The proper attention to the things we eat, then, will make them serve both the purposes of food and medicine, and will enable us to save some of the money spent on remedies and doctor bills. The following are some articles of diet which are known to have medicinal qualities:

Apples, carrots and Brazil nuts are excellent for sufferers from constipation. Asparagus stimulates the liver. Bananas are beneficial to suf-

COULD USE MORE CREAM, HE SAYS.

J. N. Morrison Urges South Plains Farmers to Build Up Small Dairy Herds.

A Plainview industry which directly benefits country as well as town is the Plainview Creamery and Bottling Works. J. N. Morrison, proprietor, says that his creamery could be of more benefit to the farmers if they would produce more cream. He purchases seventy-five to one hundred gallons of cream each week; but the farmers of Hale County might find market for two or three times that much if they would only build up dairy herds to produce the cream.

Mr. Morrison says that he made 250 pounds of butter Wednesday. He also makes about 50 gallons of ice cream every day.

Some South Plains farmers are finding out that a good cow produces a constant cash income. When every farmer maintains a small herd of good cows, together with a silo, he will have added a considerable source of income to his farm.

OKLAHOMA VISITORS LIKE SOUTH PLAINS.

I. S. Mahan Finds Wonderful Changes During Absence of Seven Years.

I. S. Mahan, secretary of the Oklahoma State Fair Association, came in Wednesday from Oklahoma City. He was shown over Hale County yesterday by A. E. Harp. Mr. Mahan was in Plainview seven years ago; but there wasn't a brick house here then. So that our visitor was surprised to find a town of 5,000 people. Mr. Mahan's verdict was the universal one—"a wonderful country." He thinks the majority of our people don't have any conception of the possibilities for development by means of irrigation from our big wells.

J. L. Wilkin and Boston Wilson, of Oklahoma City, came in Monday. Mr. Wilkin is associated with A. E. Harp. The Oklahoma State Fair opens September 23 and continues until October 4th, Mr. Mahan says.

SPENCER GETS BID ON CITY'S BONDS.

Today City Secretary Spencer received a telegram offering 94 per cent and interest to day of delivery, subject to approval by their attorneys.

This means a discount of \$1,320 on the recent \$12,000 bond issue. This bond issue was for the construction of crossings, and sidewalks wherever it is found necessary for the city to build sidewalks.

This offer is not as high as other offers, some of which were par and accrued interest, but on investigation these offers were not accepted.

ADOPTS NEW POLICY TOWARD MEXICO.

President Will Treat Both Factions Alike; to Stop Buying of Arms.

President Wilson has decided to treat all Mexican factions alike, and will enforce neutrality on the strictest terms, depriving both the Huerta administration and the Constitutionalists of the privilege of importing arms or ammunition from the United States, according to Associated Press reports from Washington Wednesday.

Constitutionalist representatives in Washington protested that, inasmuch as Huerta had not been recognized, that party ought not to have the privilege of buying arms. The new policy will interfere with the plans of the Huerta forces, which recently placed large orders for arms and ammunition with United States firms.

A strong feeling in Congress favors lifting the embargo and giving both sides equal opportunity to equip themselves.

WALLER TAILORING COMPANY INSTALLING NEW MACHINERY.

The Waller Tailoring Company has received this week and will install Tuesday and Wednesday of next week new machinery in their new location, in the O'Keefe Telephone Building, on Wayland Boulevard.

The equipment received will make the new establishment the most pretentious cleaning and pressing house on the South Plains. In addition to their modern machinery, the company is placing two French driers of the most modern type, one for ladies' apparel and the other for men's. In the shipment there is also a vacuum cleaner and a drying tumbler and complete equipment for the installation of the Bowser system of underground storage of gasoline.

ROBEY COMMISSIONER IN BOUNDARY SUIT.

Attorney General Looney Announces That He Has Selected Greenville Man for Place.

Greenville, Texas, July 23.—Attorney General Looney has announced that he will have Charles C. Robey, of this city, appointed special commissioner to represent the State of Texas in the boundary line suit between Texas and New Mexico, pending in the Federal Supreme Court.

This is one of the thirteen original boundary line suits, and is numbered 13 on the Supreme Court docket. Hearings will be taken at various border points and elsewhere. Mr. Robey probably will go to Washington about August 15 to arrange for the hearings. He was the special commissioner to take evidence in the suit of the State vs. the Magnolia Petroleum Company et al., and the record he made in that case got him the new commission.

THEY SUFFERED FROM COLD FEET.

Dallas Ladies Who Are Motoring Over South Plains Would Purchase Foot Warmers.

They suffered from cold feet, so they said. But it wasn't the usual sort. They hadn't lost their nerve, and they weren't quitters.

They were both brunettes. Of course, they were pretty. At least, that is the way O. D. Coan describes them. They were members of a party of four motoring west from Dallas, and passed through Plainview Tuesday. Mr. Coan didn't have the foot warmers. He did furnish them a number of articles for their trip westward.

The altitude of the South Plains and the cool breezes were in such contrast with the temperature at Dallas that the two ladies wanted a foot warmer to use at night.
