

CONGRESS ASKED FOR 1,108 MILLION

Estimates Submitted Monday Are \$22,864,067 in Excess of Appropriations for Last Year.

\$400,000 FOR CATTLE TICK

Requests Fall \$39,255,066 Below Estimates for 1915; Many Economic Investigations Planned.

Congress will have to appropriate \$1,108,681,777 to operate the government of the United States during the fiscal year, 1915, according to the estimates prepared by each department and sent to the House Monday by Secretary McAdoo of the Treasury, according to advices from Washington.

The estimates submitted today are \$22,864,067 in excess of the appropriations for the last fiscal year, but their total falls \$39,255,066 below the estimates for that year. Exclusive of the post office, the estimates are as follows:

- Post Office Department, including the parcel post, \$306,953,117.
- Legislative establishment, \$7,533,331.
- Executive establishment, \$30,809,

City to Fort Benton, \$300,000. Many increases are sought for the army. One of the principal military items is \$300,000 for military aeronautics, of which \$150,000 is to be spent for fifteen aeroplanes, declared to be necessary if the United States is to keep abreast in this science and "be prepared to cope with other first class powers in case of war."

Big Sums for the Militia.

The estimates for the organized militia are larger by many millions than in previous year. Sums of \$1,350,000 for field camps of instruction, \$404,250 for equipment of coast artillery armories, \$2,100,000 for field artillery material and 3 million dollars for ammunition for such artillery for militia are asked.

Although the Panama Canal probably will be in operation long before the close of the fiscal year of 1915, the War Department estimates that \$26,326,985 must be appropriated for the canal that year, of which \$2,551,830 is wanted for fortifications. Of this \$1,268,580 is to be spent for quarters for ten companies of coast artillery and \$780,825 is for installation of ten 6-inch guns, seven 14-inch guns and twenty-eight 12-inch mortars.

One of the most interesting items in the long list of estimates is that of \$475,500 for salaries and expenses of

for \$100,000 to be used in investigating the cost of production of articles dutiable in the United States, in leading countries where they are produced. These investigations are to go full into wages, material, cost, profits and other features.

McAdoo Needs An Assistant

Secretary McAdoo estimates that he will need 1 1/2 million to collect the income tax. The secretary reports that the work of his department is heavy and asks for an appropriation of \$5,000,000 for an "assistant to the secretary," and for \$50,000 "for investigation and experimentation to secure better methods of administration."

The Department of Agriculture asked Congress for \$400,000 to use in eradicating the tick. This department lines itself up with the Department of Justice and Congress in the effort to delve into the operations of the cold storage dealers. It asks \$50,000 to investigate the preparation for market, the storing, freezing and other operations incidental to the transportation of poultry and eggs; \$15,000 to look into similar operations in fish; \$25,000 for an oyster investigation, and \$25,000 for a biological investigation of food and drug products, with \$654,300 for the enforcement of the pure food and

CHRISTMAS JEWELRY

If you have an eye for the artistic you'll enjoy examining our Jewelry and Silverware for Holiday Gifts.

W. W. W. Set Rings, "in which the sets do stay"; also a full line of band and signet rings; Hamilton Watches, the world's greatest railroad watches; Geo. L. Payne Bracelets, best made; Solid Gold Brooches; Stickpins; Neck Chains; Lodge Emblems.

Let Us Furnish the Gift You Will Buy in Something Useful for Your Home

There isn't a present you could give that would be more practical or more appreciated than some nice piece for the home from our big stock of shelf and heavy hardware. Not only a gift at Christmas time but something that can be used for years, and this big store has never been in so good a condition to give any thing you might desire, in the matter of selection.

- | | |
|-------------------------------|-------------------|
| Percolators | Shot Guns |
| Baking dishes | Skates |
| Chafing dishes | Silverware |
| Carving sets | Chinaware |
| Safety Razors and just razors | Queensware |
| Pocket knives | Toys |
| Rifles | Children's wagons |
| | Velocipedes, etc. |

These are only a few suggestions--let an inspection of our stock suggest more.

Plainview Hardware Co.

Phone 293

268. Judicial establishment, \$1,242,110. Department of Agriculture, \$19,061,332.

Foreign intercourse, \$4,447,042. Military establishment, \$105,937,544. Naval establishment, \$139,881,953. Indian affairs, \$10,208,865. Pensions, \$169,150,000. Public works, \$97,917,592. Miscellaneous, \$84,393,213.

Permanent annual appropriations, \$131,196,407.

Asks \$2,300,000 for Rivers. For continuing rivers and harbors work the War Department says it needs \$41,483,895, which includes for completion of authorized contracts in Ohio River below Pittsburg, \$1,976,000, for construction of locks and dams, same location, \$1911,000; Ohio River below Pittsburg improvements with a view to securing a navigable depth of nine feet, 5 million dollars; improving Mississippi from head of passes to the Ohio, 6 million dollars; Mississippi from Ohio's mouth to Minneapolis, \$2670,000; improving Missouri River between mouth and Kansas City, 2 million dollars, and from Kan-

special attorneys, examiners and agencies of the bureau of corporations, an increase of \$300,000 over last year.

Into Money Trust Facts.

This increase is due to the plan projected for additional work to be done by the bureau of corporations. This plan has to do with: "The facts on stocks and bonds issuing directorates, etc., the economy and efficiency of trusts and interstate corporations, and conflicting state laws." The bureau of corporations. Congress is reminded, was authorized to investigate the business of interstate concerns in the act of creating it. The proposed trust investigation would seek to show whether the modern trust or system of "monopolistic units" can do the required work more cheaply and advantageously than smaller units. Between forty and fifty additional special investigators will be needed by the department. "We may not be able to solve the problem dogmatically," a foot note says, "but we can adduce a great body of facts which will throw light upon the question."

The department of commerce asks

drugs act. The sum of \$54,250 is wanted to "investigate" insects and insecticides, particular attention to be devoted to malaria-bearing mosquitoes and the ordinary house fly.

Money for Road Experiments.

The department wants \$166,330 for investigating road making, with \$70,000 for field experiments. A request is made for \$194,140 to collect and diffuse information concerning the best methods of marketing and distributing farm products and \$50,000 for demonstrations, in co-operation with the states, of methods of live stock raising in cotton and cane sugar states.

The State Department evidences its determination to house American representatives abroad in buildings furnished by the Government in asking \$150,000 for the purchase of a site and the construction of an embassy building in the City of Mexico, \$140,000 for the purchase of a site and construction of a building for the legation at Berne, Switzerland, and \$150,000 for the construction of an embassy building on ground owned by the United States in Tokio.

For continuing work on public build-

ings already authorized the Treasury Department puts in an estimate of \$6,111,283.

EDITOR SEES PRAISEWORTHY SPIRIT IN FOOTBALL GAME.

C. L. Hobart, of the Holden (Mo.) Progress, is another editor who sees in football a developer of the "fair play" idea. Mr. Hobart says of the

big Missouri-Kansas game played recently: "It was a great game--good, clean, manly sport, honestly played and honestly refereed. But it was more than that. There was loyal championship to alma maters but no rancor."

"The K. U. band formed an 'M' on the field and marched toward the Missouri bleachers, playing the Missouri hymn. It was a most gracious thing

to do, and the Missourians went wild. The Missouri band thereupon gave up their seats to the Jayhawkers, and sat on the ground."

The nut growers' exhibit at Houston will be shown in Dallas at the National Corn Exposition, which will be held at the State Fair grounds in February.

OVERLAND PRESIDENT BUYS EDWARDS-KNIGHT PLANT

Detroit Manufacturer to Build Garford-Knight Cars at Elyria, Ohio, Factory.

John N. Willys, president of the Willys-Overland Company, of Toledo, and head of several other concerns prominent in the automobile industry, has purchased the plant and all license right, stock and equipment of The Edwards-Knight Motor Car Company, of Hartford, Conn. With the close of the deal, Willys still further secures the position as one of the leaders of the automobile industry, having secured what is declared to be one of the most desirable licenses in the business, says a Toledo, Ohio, dispatch.

When the Edwards-Knight motor car was announced several months ago, automobile experts declared it the most up-to-date product in the American market. The car is built along the most modern lines approved by the sleeve-valve motor, worm drive, four speed transmission, Lancaster spring suspension, wire wheels and many other important me-

chanical features.

Willys has announced his intention of building the new cars, which will be known as the Garford-Knight, in the big and modernly equipped plant he owns at Elyria, Ohio.

H. J. Edwards, designer of the Edwards-Knight car, has been retained by Willys and will go to the Elyria plant as chief engineer, directing the production of the latest Willys acquisition.

MICHIGAN COW GIVES 1,000.5 BUTTER IN YEAR--A RECORD.

College Bravura 11, a nine-year-old Brown Swiss cow owned by the Michigan Agricultural College, has established a new world's record for milk production by animals of her breed. In the year ending November 20, she yielded 19,304.6 pounds of milk, which tested 4.102 per cent and made 1,000.5 pounds of butter.

MORE AUTOS IN NEW YORK THAN GERMANY AND FRANCE.

The growth of the automobile industry, and the use of these horseless vehicles, in the United States is

shown in some figures recently given out. During 1912 automobiles in this country paid in registration and license fees \$5,638,878—a figure which exceeded the value of our exports of automobiles in 1906. In 1911 we exported automobiles to the value of \$16,924,341, and in the following year the total reached \$23,703,989. In 1912 we had nearly as many automobiles in New York State as there were in France and Germany combined.

GROWS 25,000 BUSHEL SWEET POTATOES ON 120 ACRES.

C. W. Jones, known as the "Sweet Potato King" of Oklahoma, has just harvested 25,002 bushels of sweet potatoes from a tract of 120 acres planted this year. Ninety acres of this land was under irrigation through a system he has constructed and operated himself.

Mr. Jones expects to average \$1.50 a bushel for the potatoes, but the price usually runs up to about \$1.50 by Christmas and later in the winter.

RESOLUTIONS OF RESPECT.

THE STATE OF TEXAS,
 County of Motley.

In the District Court of Motley County, Texas: To Its November Term, A. D. 1913.

To the Honorable Judge of Said Court: We, the undersigned officers and Bar of this Court, would respectfully and sorrowfully suggest and make known to the Court at this time, that on the 16th day of October, A. D. 1913, the Honorable L. W. Dalton was claimed by the icy hand of Death, and

taken from our midst;

And, whereas Mr. Dalton, who resided at Plainview, Hale County, Texas, was a distinguished citizen of this State, an able, faithful and fearless lawyer of this Court, who had for many years enjoyed an extensive practice throughout this Judicial District, and was well known, well beloved and admired by as large a circle of friends and admirers as any man in this part of the State ever enjoyed, having endeared himself to the people of this country and district, the laity as well as the profession of which he was a member, by his faithful and conscientious work among them as an attorney, and

Whereas, Mr. Dalton was a true friend of the Court, always seeking to aid and never to hinder the true solutions of the many difficult problems coming before the court; and, whereas his professional conduct toward and among his brethren of the Bar was always open, courteous and performed in due regard to a high conception of professional ethics, though always vigorous and forceful when being discharged in behalf of his client, yet ever taking into consideration the rights of others; and, whereas we know Mr. Dalton to have been one of the brightest, ablest and hard-working lawyers of this State, one who loved to practice his profession, because by so doing he could and did help others, and not alone for the emoluments of his work; now, therefore,

BE IT RESOLVED, That in the death of Honorable Lacy W. Dalton the State has lost one of its brightest and most brilliant men, this Judicial District is deprived of one of its ablest and most successful lawyers; this Court has lost a true and trusted friend and advisor, while the Bar has parted forever from a professional brother whom it loved, trusted and respected, and whom it knew to be true and faithful to every trust, and whom the Court, the citizens and the Bar of Motley County and the Fifth Judicial District mourn sincerely and sorrowfully.

BE IT FURTHER RESOLVED, That the sympathy of this Court, its officers and the Bar practicing here hereby extend to the bereaved family of our departed friend our sincere sym-

pathy and condolence in the loss of their faithful and loving husband and father, and that they be furnished with a copy of this resolution by the Clerk of this Court, after the same shall have been spread upon the Minutes of the Court.

ISAAC O. NEWTON,
 District Attorney;
 C. B. WHITTEN,
 AUSTIN C. HATCHELL,
 A. B. CRANE,
 J. E. RUSSELL, Sheriff;
 T. C. IRBY, JR.,
 RICHARD A. SEAY,
 District and County Clerk,
 Motley County;

B. G. WORSWICK,
 T. T. BOULDIN,
 G. E. HAMILTON.

Upon the unanimous expression of the Bar who practice at this Court, it is ordered that the foregoing resolutions of respect and condolence for Hon. L. W. Dalton be adopted and spread upon the Minutes of the District Court of Motley County, Texas, and the Clerk of said Court is instructed to prepare and furnish his family with a Certified Copy of these resolutions.

JO A. P. DICKSON,
 Judge of 50th Judicial District,
 Presiding.

KILLING CATTLE ADVANCE; STOCKERS AND FEEDERS WEAK.

Kansas City Market Unsteady; Hogs Gain After Last Week's Loss; Sheep and Lambs Lower.

Kansas City Stock Yards, Dec. 3.—Smaller receipts of cattle last week allowed sellers to advance prices on killing grades 25 cents, up to Wednesday, but stockers and feeders sold barely steady, and there was not much doing after Wednesday last week. Receipts to-day are 12,000 head, market 10 to 15 cents higher on cows and butcher grades, and around steady on steers and stockers and feeders.

For some reason Chicago continues to report a very bad market, prices there to-day ruling 10 to 15 cents lower, notwithstanding the run is but 26,000, as compared with 35,000 the corresponding Monday last year. Beef consumption is being held down by the fact that retailers have not reduced prices in line with reduction in the wholesale price of beef since a year ago, or the lower selling price of live animals.

Imports are cutting very little figure in the beef market. Prime finished cattle are scarce at Kansas City, prime heavy steers quotable up to \$8.50, though the best here to-day stopped at \$8.25. Odd head of fancy yearlings sold at \$9.00 last week, good native cows worth \$6.00 to \$6.75. Veals are higher, tops \$10.00.

Quarantine receipts are running short, for two reasons—restriction of the quarantine territory, on account of moving the tick line farther south, and also because of lighter feeding this year. Receipts of quarantine cattle to-day, 34 cars; top meal-fed steers \$7.10. A few shipments of range cat-

When Friends Come to Call

IT is reassuring to know that you can prepare a dainty repast for your guests easily and quickly. For luncheon, for delicious dinner dishes, for a little supper after the theatre or the game of bridge, an Electric Chafing Dish will prove its usefulness many times over. It allows you to prepare any number of tid-bits right at the table easily, quickly, without leaving your guests.

An Electric Chafing Dish

is simple and safe to use and costs little to operate. There is none of the risk attendant on the use of alcohol fuel; no danger of discovering at the last moment that your supply of fuel is exhausted. The combined beauty and utility suggests an Electric Chafing Dish as an ideal Christmas Gift.

INDUSTRIAL CONGRESS TO AWARD HONOR BADGES.

In Addition to Cash Prizes Aggregating \$10,000; Medals Will Be Given Contestants.

At the annual convention of the Texas Industrial Congress, in Dallas, on December 17, besides awarding 160 cash prizes, aggregating \$10,000 in gold, to those Texas farmers who have made the best showing of net profits in the year's competitive crop production, there will be given to the winners the honor badges of the Congress.

The most highly prized decoration of the British military and naval services is the Victoria Cross, a small broken Maltese cross made from metal taken from the guns captured in the Crimean War. The cross bears the inscription "For Valor." Two are given every year to the soldiers or sailors, if any have been recommended, who have shown the most self-denying bravery in battle—usually in rescuing the wounded under fire. Everybody in the army and navy is eligible, from the humblest mule-driver or deck-hand to the commanding officer. The cross is worth, intrinsically, probably as much as thirty cents, but it has been the means of enriching the annals of the British service with deeds of heroism through the call it makes for self-forgetfulness for the general good.

The badges of the Congress are also emblems of honorable achieve-

ment; and, while no risk of life has been involved, they stand for pluck, persistence and painstaking carried to the highest degree in better farming, the greatest constructive work in the world. It is an honor in the State to be the greatest producer of farm products at the lowest cost, to have carried farm living a step further toward success and better conditions. The badges are awarded in this spirit, and should be so received and worn by those who have won them, and so viewed by the people of the sections from which the winners come.

The badges are enamelled medallions suspended from the clasps by blue, red, white and yellow ribbons. The blue ribbon, with a medallion in Roman gold, indicates the winner of the first prize in each class; the red ribbon, with the medallion in rose gold, the winner of the second prize; the white ribbon, with the silver medallion, the winner of the third prize; and the yellow ribbon, with the medallion having a bronze finish, the winners of all other prizes.

While intrinsic value has nothing to do with what the badge stands for—as shown by the Victoria Cross—the badges of the Congress are handsome enough in design and finish to be worn with pride for their beauty alone, as well as for the high honor which they represent.

The following prizes will be awarded:

Class A, Four-Crop Model Demonstration Farms—First prize, \$1,000; second prize, \$500; third prize, \$250;

A Christmas Gift for ALL THE FAMILY

Christmas without music would be like June without roses. The seven ages of mankind love music. That's why a Victor Talking Machine is the greatest gift of all. By all means be assured of the presence of one of these instruments in your home on Christmas morning. And all the money in the world today couldn't buy sweeter or more lasting music, nor any more perfect or simple method of producing it. With a Victor you can invite the artists to your home for a Christmas concert.

Among our other lines you should consider the gift value of our big line of jewelry, diamonds and watches, Libby's cut glass, Conklin's self-filling Fountain Pens, Eastman Kodaks and supplies, Edison Phonographs, Norris candies, and our numerous other small gift articles.

STORE PHONE 44

tle are here to-day, including Colorado and Panhandle yearlings and two's, at \$6.35 to \$7.10, cows \$5.25 to \$7.00, common canners \$4.45.

Hogs sold lower last week, but the market is being sustained by broad fresh meat demand, moderate receipts and light average weight, the latter point working two ways, namely, in reducing total pounds of pork and in enabling bacon producers to work to maximum capacity.

Run to-day is 7,000 head, market 5 to 10 cents higher, top 7.77½, bulk \$7.35 to \$7.70.

Sheep and lambs sold higher last week, but the market is 10 to 15 cents lower to-day. Local prices have been running above Chicago for two months, and will likely do so all winter, because of few on feed in Kansas City's territory, and many in that of Chicago.

Receipts here to-day, 10,000; Chicago, 45,000. Top lambs to-day \$7.65; top in Chicago \$7.50. Yearlings are worth \$5.35 to \$6.25, wethers up to \$5.25, ewes \$4.60, feeding lambs around \$6.00.

J. A. RICKART, Market Correspondent.

NONPOROUS PAPER MADE FROM SEAWEED.

Inventor Claims That Noninflammable and Waterproof Product May Be Made from "Algin."

After 10 years of investigation and experimentation, Thomas Ingham, of Liverpool, has developed a seaweed product which he terms "algin" and uses in the manufacture of noninflammable cinematograph films and of a paper which is claimed to be water, flame, and germ proof, and odorless, writes American Consul Horace Lee Washington, of Liverpool, England. The writer tested a sample of the film as produced by Mr. Ingham; and, whatever its other properties may be, the sample tested was certainly not inflammable.

As to the paper, the inventor claims that any quality or thickness of paper may be treated, and, by his seaweed process, made either waterproof or noninflammable, or both; and he cited a number of uses for which the paper should be particularly adapted, such as wrapping perishable goods for transport and for lining refrigerators, it being a nonconductor of heat.

(The consul's complete report—giving additional information and accompanied by samples of film and treated paper—will be loaned to interested persons by the Bureau of Foreign and Domestic Commerce, Washington, D. C.)

A SUGGESTION.

By the restaurant pay desk stood the manager, greeting each outgoing and incoming guest with a seraphic, managerial smile.

The smile grew broader, and, if possible, sweeter, as an elderly man, looking well fed and comfortable, approached to pay his bill. When he had collected his change, he turned and noticed the beaming manager.

"By the way," said he, "you say on your bills-of-fare that you are always glad to receive suggestions from customers as to any possible improvements that occur to them?"

"That is so, sir—that is so!" answered the smiling one. "Have you any suggestions you wish to make?"

"Well—er—yes, I have. You state that you make your own sausages in this establishment, do you not?"

"That is correct, sir—we do!"

"Well, then, I would suggest that you let some one else do it. Good morning.—From Answers (London).

Franklin Six-Thirty Touring Car \$2400.00 Hundreds of Pounds Lighter

It may not be much of a trick to build an automobile, but to build one hundreds of pounds lighter, many degrees stronger, far more economical and a great deal more comfortable than others is really doing something.

To make a 2,725-pound six cylinder car of the size and ability of the Franklin Six-Thirty, carrying the equipment that it does, is not just building an automobile--it is a great achievement.

Then to make such a car at a popular price is going still further. The Six-Thirty sells for \$2,400 f.o. b. Dallas.

The Franklin Company has specialized on this Six-Thirty. The specialist gains the most knowledge, the most power and most results.

The results in the Six-Thirty are wonderful riding and driving ease, light weight, economy, safety and long life to the car.

tion. A number of the patrons were present, and they all had nice things to say of the work. The teachers were greatly encouraged by the appreciation of the parents. The teachers try to make the school just like home. They work together with the parents to develop the manhood and womanhood of the boys and girls. No pains are spared to make all the school practical.

The first dam in Holland's great project for draining the Zuider Zee will reclaim 500,000 acres.

Engineering experts representing the city of Glasgow, Scotland, have come to the United States to study tramways and bridges.

MAKE HENS WORK FOR FOOD.

A Poultry Expert Says Exercise Will Increase Egg Production.

Hens, like hobos, ought to be made to work for their food, according to N. E. Chapman, poultry expert at the Minnesota College of Agriculture, writing for the Minneapolis Journal.

Mr. Chapman believes the failure to make hens work is one of the principal reasons why eggs are scarce now. Another reason they do not lay, he said, is because they are often so housed that they have cold feet.

"There ought to be lots of straw and litter in the chicken house," said Mr. Chapman. "The grain ought to be thrown into the litter, so the hens will have to scratch for it. The exercise is good for them. It will keep them warm and healthy. Pullets rightly cared for ought to be averaging a dozen eggs a month now. They will begin to lay before they get their full growth if they are given the right care. They should supply the eggs while the old hens are moulting. During November, December and January old hens will not lay many eggs. They will hardly average an egg a month."

Corn meal, shorts, ground oats, oil

meal, beef scraps, skim milk, green food, clover, alfalfa, grit, shells and charcoal are recommended by Mr. Chapman as the best food for chickens this time of year.

Reports of a scarcity of eggs are prevalent all over the country, Mr. Chapman said. He believes the price will be unusually high before mid-winter. The number of eggs in cold storage, he said, is smaller this year than last. This, he said, has been attributed to the warm weather during the summer in the Southern States, resulting in the production of eggs that were of a poor quality for storing.

START YOUR LIVER; DON'T STOP WORK.

Dodson's Liver Tonic Acts Mildly, but Surely; Lively Up the Liver and You Stay on Your Feet.

It is the experience of calomel users that if they take enough of the drug to have the desired effect, it seriously interferes with their work the day after. But this is the least important item, for calomel is often a dangerous drug and acts on the system violently.

Don't take chances with calomel. Get a bottle of the pleasant, safe and perfectly harmless Dodson's Liver Tonic, guaranteed to take the place of calomel. Instead of making you feel worse the next day it makes you feel better—and you actually are better, for no remedy in the whole world livens up the liver, regulates the bowels and really rejuvenates the system any better than this dose.

You are the sole judge of its merits. R. A. Long Drug Co. is fully authorized to hand you back your money without question if it fails to please you—and relieve you.

Remember, if you feel constipated and bilious, what you need is Dodson's Liver Tonic. A large bottle and a good guarantee for 50 cents from R. A. Long Drug Co. —Adv. 76.

STRENGTH FOR OLD PEOPLE

A Simple Remedy Which Favors Longevity.

You act as though you just wondered how you are going to get through this trying season and do your work.

You may be overworked or have had a bad cold which has left you without strength, ambition or much interest in life; in fact you are all run-down.

Let us tell you that Vinol, our delicious cod liver and iron tonic, is just the remedy you need to rebuild wasting tissues and replace weakness with strength.

A prominent Boston lawyer says: "My mother, who is 76 years of age, owes her good health to Vinol as since taking it she can walk farther and do more than she has for years. I consider it a wonderful blood making and strength creating tonic."

We have such faith in Vinol that if it does not quickly build you up, restore your strength and make you feel well again, we will return your money. Try Vinol on our guarantee.

P. S. If you have Eczema try our Sazo Salve. We guarantee it.

To Prevent Blood Poisoning apply at once the wonderful old reliable DR. PORTER'S ANTISEPTIC HEALING OIL, a surgical dressing that relieves pain and heals at the same time. Not a liniment. 25c. 50c. \$1.00.

Near Austin, Texas, on the Walker farm, spinach is being grown extensively. There is more than 1,500 acres devoted to this product on the Walker farm, and the new plant will soon be ready for marketing.

THE MISTRESS PROBLEM.

No Trouble in Securing Good Servants if Housewives Were Considerate.

This voice of the mourning mistress is heard from coast to coast, and her lament has come to be known Nationally as the "servant problem." The matron of Boston, New York and Philadelphia contends that the problem interferes with all of her intellectual life, hampering her club pursuit of advanced theories in domestic science. The Kansas farmer's wife groans over a coin-minting harvest which summons an army of hands and nobody but herself to cook for them. The California homemaker sighs for the days when the Japanese applied their juggler's skill to the pirouetting of pancakes, and the Chinese their decorative art, as a Los Angeles housekeeper reports, to adorning the fruit cake with "Prepare to meet thy God" in pink icing. Now the Orientals are accumulating wealth on the ranches, and the mistress seeks maids who don't exist.

What's the matter with the servants? I sought light, and I felt that nowhere could light better be found than with the large and formidable person who presides over the employment agency. From downtown New York to Harlem I sought her. Uptown, in the regions of the modest apartments, she deals in the maid-of-all-work, or housework, as the black Pearl or white Tilda is known to the trade.

Further down comes the district of smarter apartments on the Riverside Drive or upper Broadway; here she often furnishes a waitress to assist the cook. But the headquarters of the employment agent are in the shipping district, where ladies seeking peplum blouses and short-vamp footwear may also seek demure waitresses and emotionless butlers.

There was no beating about the bush. "What's at the bottom of the whole servant problem?" I asked her.

Thereupon she exploded her bomb. "The mistress problem," she replied.

"And what's the matter with the mistresses?" I pursued. Instead of making a direct reply, Mrs. Maltbie eyed me thoughtfully for a moment, then she said: "I wonder if Annie is here this morning." She rose, went into the other room and returned with a neat, intelligent-looking girl of the American-born German type.

"It's all right to talk before this lady," Mrs. Maltbie said to the girl. Annie glanced me over questioning-

ly. "Isn't that an elegant caracol coat she's got on?" Mrs. Maltbie led off. "Let's see, which one gave it to you, Annie?"

"It was lady-before-last, the one on Madison Avenue," the girl replied.

"You get lots of handsome gifts?" I inquired.

"Yes, a lot." She nodded significantly. "They don't want these things any more and they hand 'em out easy. They think they can make up for a lot o' bad treatment that way, but a caracol coat ain't the same thing as three square meals a day, and I'd like to tell her so."

A growling servant may fail to prove convincing to our ears, but a woman like Mrs. Maltbie, shrewd and just, dealing with hundreds, thousands, on both sides of the Great Gulf, knows what she's talking about. When she makes these statements in the nature of a summary they become a revelation.

"What Annie told you is typical," she said. "The bill of fare she gave you is the average in many of these big houses that set a separate table for the servants. The cook does the marketing, the best she can, out of an allowance that's so small it wouldn't feed a family of kittens properly. And these girls have to do hard manual labor on it. The mistress don't realize—she goes nibbling around at tea rooms and candy stores. Sometimes the servants are fed from what's left from the family table, and that's likely to be scraps."—Collier's Weekly.

HALE CENTER.

December 4.—Continued rains make the wheat better and better. Although the acreage is greater than it was last year, every farmer says, "I wish I had planted more wheat." The ground is perhaps wetter than it has been before in five years. Everybody is jubilant over the prospects for a crop next year.

Thanksgiving was observed in Hale Center. Besides a program rendered by the school, Rev. Mr. Koker, of the Presbyterian Church, preached a Thanksgiving sermon, in the auditorium of the school building. Brother Koker is an orator of no mean degree; besides, he had taken time and pains to prepare his discourse. The auditorium was nearly full of people. Those who did not attend lost the greatest treat of the day.

In addition to the above, there were specimens of school work on exhibi-

WHAT A MAN EARNS.

Have you ever noticed how often
it is that the men who are afraid they
may earn more than they receive gener-
ally have very unimportant jobs? The
men who get most are usually
those who worry least about "getting
it." They are too busy doing some-
thing.

THEIR FAVORITE COLOR.

A Missouri youth received \$50,000
on condition that he marry within one
year. The boy is deluged with mes-
sages from maidens who are willing
to wed. Our sisters are the most
obliging creatures in the world, as
well as the most lovable, but it some-
times takes the "long green" to turn
their attention your way.

WHEN CALICO WAS THE RAGE.

In the morning edition of The Kan-
sas City Star recently appeared this
item in the "Forty Years Ago" col-
umn:

"Calico appears to be all the rage
just now among the fair sex of Kan-

sas City, and when well made up, no
material looks better, especially when
hung upon a pretty shape with a smil-
ing, handsome face."

And we wonder why the cost of liv-
ing is so high to-day!

True, calico was more expensive
forty years ago than at this time; yet
that sentence explains the one reason,
more than all others, why living costs
are so high to-day.

CONVENIENCES COUNT.

What do you get out of life?

You get food, sleep, clothing.

Suppose you make \$50,000. About
all you get out of that is the food you
eat, your clothing, the home in which
you live; with a tour across the ocean,
or maybe two.

You get the mental enjoyment of
good entertainments, lectures and
plays; the spiritual ministry of good
sermons.

There is larger joy in seeing your
family enjoy all of these things.

You may have the satisfaction of
helping with some civic improvement,
or giving liberally to some public en-
terprise.

Consider it in whatever light you

will—

What you get out of life depends
very largely upon the conveniences
which you have around you, and the
conveniences which your wife and
children may enjoy. Your own effi-
ciency in DOING things is largely
measured by this.

Do you know of anything which
would add more to your convenience
and to the happiness of those whom
you love, or to the upbuilding of your
town—than street light and side-
walks?

WASHOUTS PLAY HAVOC WITH FT. WORTH MARKET.

Cattle Are Selling Steady; Hogs Sell
at \$7.40 to \$7.70; Sheep
Hold Firm.

Heavy rains played havoc with rail-
road service Tuesday. About fifty
carloads of cattle were here for the
forenoon market, and at noon seventy-
one loads were still back, although all
should have been in prior to 10:30
o'clock. Receipts for the day were es-

timated at 3,500 cattle and 600 calves.
Opening market was about steady on
steers, 10 cents higher on butcher
cows, strong on stocker cows, steady
on bulls and a quarter higher on
calves. Steers sold at \$5.50 to \$6.90,
butcher cows \$4 to \$5.75, heifers \$5 to
\$7, bulls \$4 to \$5 and calves \$5.50 to
\$7.25.

With about 800 hogs on offer, mar-
ket opened slow and steady, but soon
faced a decline and close was gener-
ally 5 to 10 cents lower. One load
notched \$7.85. Bulk of sales made a
range of \$7.40 to \$7.70.

Sheep receipts were close to 600
head. Market was steady.
DAGGETT-KEENE COM. CO.,
By A. M. KEENE.

CANYON, MCGREGOR AND MEMPHIS ARE CLEANEST.

Plainview comes Ninth in 5,000 Class;
Ballinger and Gonzales Are
Tied for First.

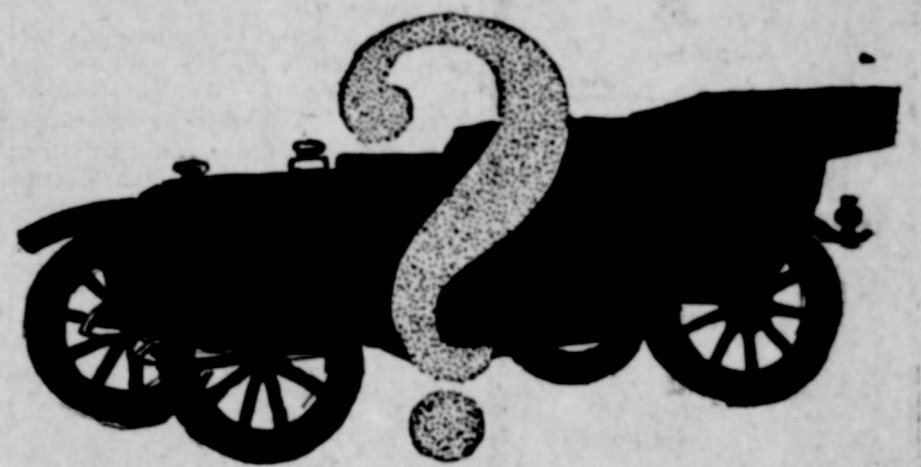

Plainview is rated ninth in the Hol-
land Clean-Town Contest. We fell
down on streets, vacant lots and al-
leys, particularly in the business sec-
tion. Dr. Carrick says that our resi-
dence section was much cleaner than
the business section. It was practi-
cally impossible to get non-resident
property owners to clean up their va-
cant lots; and difficulty was experi-
ence in persuading local people to
clean the other fellow's premises.

Our street drainage was not good, in
one or two places; the habit of throw-
ing papers and trash into the streets
has not yet been relegated.

Dr. Carrick graded us 100 per cent
on water supply; 19 out of a possible
20 points on sewage disposal and sani-
tary conditions of public buildings.

Memphis and Gonzales, which won
first in their respective classes last
year, again take rank in their respec-
tive classes, but Gonzales' score is tied
by Ballinger and Memphis divides
honors with Canyon and McGregor.
Brownwood, which won last year in
Class A, is outranked by Abilene, Bon-
ham, Denton and Marshall.

Dr. Carrick says: "It is wonderful
to observe the results of co-operation
on the part of a people joined together
in the work of town cleaning. This
clean-town idea has come to stay. It
will be as much a part of our civic
life as our political system, our side-
walks, our street paving and our fire
departments. All of the towns in last
year's contest have shown great im-
provement over my initial visit."

Duncan's Pharmacy
"The Store Where You Feel at Home"

Hundreds of Christmas Shoppers

Are Looking to The Herald, Especially to its Advertising Columns for Suggestions in Planning Their Holiday Lists

Time was when folks didn't shop that way, when they simply went down town and "looked around" until they happened upon something that struck their fancy. But that haphazard practice has passed forever. It is too wasteful of time, energy and shoe leather.

Nowadays the real Christmas shopping is done at home, by the fireside, or beneath the glow of a library lamp. There it is that lists are arranged to the smallest detail, so that when the shopper finally sets forth he knows exactly what he wants, what it will cost and where to get it.

The merchant who relies simply on the location or the size of his store or on window displays or signs to sell his goods is out of step with the progress of the age. He is hopelessly forestalled by the merchant who goes into the homes and sells the shoppers there.

An advertisement in every issue of The Herald from now till Christmas would place the merits of your wares in the homes of hundreds of Christmas shoppers--it would be the very greatest force you could possibly exert toward making this the BANNER SEASON of your business existence.

LOCAL AND PERSONAL

R. M. Ellerd came yesterday from Tulla.
 John P. Lewis, of Lubbock, is a visitor in Plainview.
 J. E. O'Bryan, of Channing, Texas, is a visitor in Plainview.
 C. N. McFarland, of Hart, Texas, is a visitor in Plainview.
 H. W. Wallace, of Memphis, Texas, was in Plainview Wednesday.
 W. A. Davidson was down from Amarillo, on business, yesterday.
 J. J. Rushing brought in six prospectors from Kansas Wednesday.
 C. Milner went to Tulla today to install a pump for the Layne-Bowler people.
 Rev. J. T. Hicks left today for Canyon and Bovina, to attend church conferences.
 L. T. Lester, of Canyon, came in Wednesday to visit L. A. Knight for a few days.
 W. T. Johnson, of Marietta, Texas, was here this week looking after his land interests.
 Mrs. A. B. DeWald, of Abernathy, is transacting Christmas shopping in Plainview to-day.
 T. W. Sawyer went to Sweetwater Wednesday, on business for the Harvest Queen Mills.
 J. R. Meriwether, a business man of Lockney, passed through here yesterday on his way to Dallas, on business.
 Mrs. J. C. Atwood, of Abernathy, is attending Court, in connection with the probate of her late husband's will.
 Mrs. M. T. Lloyd, who has been here visiting her daughter, Miss Leila Lloyd, returned today to her home, in Lubbock.
 J. W. Messer, who has been visiting relatives at Lockney, passed through here today, on the way to his home, in Chanutte, Okla.
 J. A. Stephens came in from California Wednesday to visit his sister, Mrs. C. H. White. He will go on to Washington, D. C., in a few days.
 Mrs. Mollie Brandt returned yesterday from Roswell, N. M., where she went to get her two small children, who have been visiting friends there.
 K. Barker and wife and daughter, Esther, went to Amarillo today for a few days with their boys, Byrd and Arthur, who are in the rubber business there.
 Mrs. C. S. Farrington, who has been here visiting her daughter, Mrs. C. E. Packham, returned Wednesday to her home, in Woodward, Okla. Mrs. Packham returned with her.

Rev. J. M. Harder went to Clarendon today, where he will preach Sunday.
 L. C. Penry returned today from Dickens, where he has been attending court.
 E. L. Brown, of Lubbock, was looking over the Shallow Water metropolis yesterday.
 J. M. Murphy returned Wednesday from Wichita Falls, where he has been on business.
 H. C. Whitworth went to Canyon Wednesday, on business for the Layne & Bowler Co.
 Master W. B. Rushing came in yesterday from Lubbock, where he has been visiting his aunt.
 Geo. A. Nicholson and family left today for Manitou, Okla., where they will make their home.
 Tom Shafer and wife returned today from Tulla, where they have been visiting Mrs. Shafer's parents.
 Rev. M. S. Leveridge and W. O. Owens, of Tulla, attended the District Stewards' meeting here Wednesday.
 Joe and J. F. Durham and B. F. McLain, of Shamrock, who have been here looking at the country, returned Wednesday.
 E. J. Taylor, J. R. McCann and J. W. McFarland came in yesterday from Nebraska, en route to Hurley. They like the looks of the Plainview country.
 H. E. Hume an old timer of this country, was down from Amarillo yesterday, on business. He came to this country before Hale County was organized, and Estacado was county seat of what is now nine counties.
 Dr. J. C. Anderson returned yesterday from a visit to Central Texas. Dr. Anderson says that rivers in that section are the highest he ever saw them; and he lived in that section for many years.
 Rev. J. T. Hicks, late Presiding Elder of the Plainview District, has been in town this week, getting ready to move to his new work, on the Amarillo District. Mrs. Hicks and children will go to Clarendon for the rest of the school year.
 Editor J. C. O'Bryan, of the Channing, Texas, Courier, was here this week, on his first trip to the Plainview country. He was well pleased, and said that it was all that it had been represented to him and that he would probably invest here.
 S. H. Finch came in Wednesday from Walsenberg, Colo., where he has been for the past two months. Walsenberg is in the center of the Colorado coal strike, and Mr. Finch said he helped guard the mines for one night. He will probably go back after the strike is settled.

S. L. Fleener and wife, of New Sharon, Ala., came in Thursday to see the country. They were well pleased and will probably make their home here.
 J. M. Payne and wife, of Whitfield, are visiting J. P. Howard, brother-in-law of Mr. Payne. Mr. Payne is taking examination for teacher's certificate.
NOTE OF THANKS.
 We wish to extend our sincere appreciation of the many kind words and acts tendered during our bereavement.

ELK MEMORIAL SUNDAY
 BY C. S. WILLIAMS.
 C. S. Williams will give the memorial address for the Elk Lodge at 3 o'clock Sunday afternoon. Services will be held in the lodge room. Memorial service is for the deceased members of the lodge. Friends of the order are invited to attend.
PAIN IN BACK AND RHEUMATISM
 Torment thousands of people daily. Don't be one of these sufferers when for so little cost you can get rid of the cause. Foley Kidney Pills begin their good work from the very first dose. They exert so direct an action on the kidneys and bladder that the pain and torment of backache, rheumatism and kidney trouble is soon dispelled. They are worthy a trial, as a trial is the only sure test. They contain no habit-forming drugs. R. A. Long's Drug Store. —Adv. 83

Have you ever seen a horse laboring under a load that a team ought to be hauling? You probably have and you felt sorry for the horse. A real driver feels just as sorry for a laboring motor.

Over-exertion is wearing.
 Horses can't stand up under it. Men break down under it. Machinery goes to pieces.
 Conservation means money in your pocket. Conservation in motor cars means power and plenty of it.

Buick Power
 Is the boast of every Buick owner. A Buick can go anywhere any car can and many places where others can't. The famous Buick overhead valve motor is guaranteed to have more speed than any other type of motor on the market.

Every Moving Part Fitted to a Hair's Breadth

Plainview Machine and Auto Shop
 E. E. ROOS, Proprietor

Buick Reliability
 A Buick will always take you anywhere you want to go, and will always bring you back.
Buick Durability
 You can drive your Buick 150,000 miles and spend less for repairs than you would on some cars that have run less than 10,000 miles.
Buick Economy
 You can get more mileage to a gallon of gasoline with a Buick than you can with any other car ever made.
Buick Service
 Buick Service is backed by the biggest automobile building concern in the world. You can always get parts and you can get them quick. Where there's life there's always the Buick sign, and the Buick sign is always a sign of good treatment.

Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests.

DR. PIERCE'S Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system.

States a joint declaration by the two governments against their action. But without awaiting a reply from this country, England gave notice, October 9, 1823, to the French ambassador, of its unfriendly attitude in the affair.

Putting the Policy into Use.

President Polk took the first step toward the extension of the principle, in 1845. The northwest boundary was again in issue, this time with Great Britain, and the administration was committed to the annexation of Texas.

"It should be distinctly announced to the world," said Polk, "as our settled policy, that no future European colony or dominion shall with our consent be planted or established in any part of the North American continent."

Again in 1848, when the question of the occupation of Yucatan arose, Polk issued a second manifesto against the acquisition of such territory by voluntary transfer or cession.

The interference of the United States in Mexico, resulting in the withdrawal of the French in 1866, and President Cleveland's declaration to Great Britain in connection with the Venezuelan boundary dispute, in 1895, are notable examples of the recognition of the doctrine in our foreign policy.

MONROE DOCTRINE VIRILE FORCE AT NINETY YEARS.

It Was December 2, 1823, That President Monroe Recommended "Hands Off" Policy.

It was December 2, 1823, ninety years ago this week, that President Monroe, in his message to Congress, gave formal announcement to the policy of the United States regarding foreign interference in American affairs.

The Monroe Doctrine is the embodiment of an idea expressed in various forms by Washington, Adams and Jefferson, as well as Monroe. It is a declaration, in effect, that we should never entangle ourselves in the broils of Europe; nor ever suffer Europe to intermeddle with affairs of North or South America.

Yet it does not deny the right of any nation to enforce indemnity for injuries to its subjects, physical or financial, but it applies only to territorial aggression by foreign powers, whether temporary or permanent.

The Reason for the Doctrine.

The doctrine is based upon two passages in Monroe's message. The first passage referred to the boundary dispute in the Northwest, then going on between Great Britain, Russia and the United States, Russia having assumed to exclude foreigners from disputed territory extending to the Fifty-first

Parallel. But the conditions which inspired this passage and its language show that it related to any acquisition of territory by original occupation or settlement, and that it did not include acquisition by gift, purchase or conquest.

The controversy was settled in 1825 by a treaty with Russia, but the doctrine was again asserted in 1826 by President J. Q. Adams in the proposed instructions of the delegates to the Panama Congress.

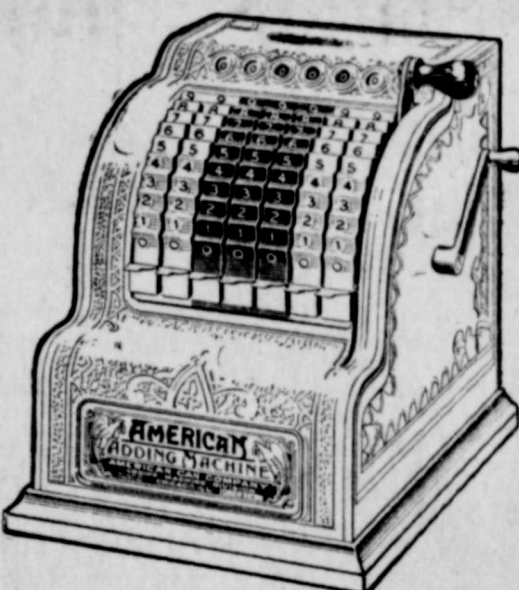

In Defense of South America.

The second part of the Monroe message related to the proposed action of the Holy Alliance as announced by the resolutions of the Congress of Verona in November, 1822, directed against the system of representative government in Europe, and aiming at replacing the Spanish yoke upon the necks of the South American colonies.

The action of the powers threatened English commercial interests already established with these Latin states, and England proposed to the United

The American Adding Machine

The Latest Adder Costs But \$35 See our exhibit—ask for 10 day's trial

Here is a new price on a competent Adder. On a machine that is rapid, full-size and infallible.

The very latest machine, built by men who know, in one of the largest metal-working shops.

It is an individual Adder, to be placed on one's desk, close to one's books and papers. To take the place of the central machine requiring skilled operators.

It is also intended for offices and stores where costly machines are a luxury.

The price is due to utter simplicity, and to our enormous output. Seven keys do all the work.

Each copied number is shown up for checking before the addition is made.

The machine will add, subtract and multiply. With very slight practice anyone can compute a hundred figures a minute. And the machine never makes mistakes.

Countless offices large and small, are getting from these machines the highest class of service.

Now we make this offer so that offices everywhere may learn what this machine means to them.

Ten Day's Test

We will gladly place in any office one American Adder for a ten days' test.

There will be no obligation, and charges will be prepaid.

Compare it with any non-lister—even the costliest. Let anyone use it. See if any machine can serve better than this.

Just send us this coupon and we'll send the machine.

Herald Publishing Co., Plainview, Texas.

Please send us an American Adding Machine for ten days' free trial.

Muffins

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine. When muffins are on the breakfast table, nobody cares for meat or eggs and they would be served more often if this meal were not prepared so hurriedly that there is no time to make them.

One-Egg Muffins 2 cups flour; 2 slightly rounded teaspoonfuls K C Baking Powder; 1 teaspoonful salt; 1/2 cup sugar; 1/2 cup melted butter or lard; 1 egg; 1 cup water or milk. Sift dry ingredients together three times.

Graham Muffins 1 cup graham flour; 1 cup pastry flour; 2 level teaspoonfuls K C Baking Powder; 1 to 2 level tablespoonfuls sugar; 1/2 teaspoonful salt; 1 egg; 1/2 cups milk or water; 2 to 3 tablespoonfuls melted butter; mix and bake as One-Egg Muffins. Graham batter should always be quite soft to insure light and moist muffins.

To Young Married Folks and Those Who Will be Married During the Holidays

We will give FREE a nice wedding present with every complete housekeeping outfit purchased

What is Nicer for Christmas

- than a sectional bookcase for your husband's reading room? than an Axminster or Velvet Rug for your wife's living room? than a dining suite, table, chairs, buffet, china closet, etc., for the family dining room? than a skirt or shirtwaist box for your daughter's bed room? than a comfortable rocker for the old folk's lounging room?

collection of their claims for indemnity. The requirements of the Monroe Doctrine as a National policy were fully met with the assurance to the United States of good faith on the part of the powers concerned and that no Venezuelan territory would be taken in settlement of the indemnity.

SOUTH LEADS IN LUMBER.

Texas Jumps from Eighth to Sixth Place in Year; Washington Barely Leads Louisiana.

How rapidly the South is surpassing the West in the production of lumber is shown by the latest figures, just issued for the United States and published in the New York Times.

While Washington, with a production of 4,099,755,000 feet in 1912 holds first place in the country, the increase for that State was only 35,000,000 feet over the total for the preceding year. On the other hand, Louisiana, which was close behind last year, with a total output of 3,876,211,000 feet, showed an increase of 310,000,000 feet, while Mississippi, which was third, with a production of 2,381,898,000 feet, gained 340,000,000 feet over the previous year.

In 1911 Oregon was in third place, but last year gave way to North Carolina. Texas went up from eighth place in 1911 to sixth place last year. Arkansas dropped from sixth to seventh place. Virginia went up from twelfth to eighth. Wisconsin dropped from seventh to ninth. Michigan held tenth position, and Minnesota fell from ninth to eleventh place.

The figures show that the Southern States and the Pacific Coast States are the leading producing sections. Both showed an increase of output over the previous year, but the increase in the South was greater. The census for 1900 gave the Southern States 38.7 per cent of the total output of the country. In 1907 this had increased to 45.7 per cent, and last year it was 51.4 per cent.

Among the various species of lumber produced, yellow pine maintains its long lead, the total for that wood cut in the Southern States being 14,470,617,000 feet. Douglas fir was second, but a long way behind, with an output of 5,175,123,000 feet.

AGE NO BAR. Everybody in Plainview Is Eligible. Old people stooped with suffering,

Middle age, courageously fighting. Youth protesting impatiently; Children, unable to explain; All in misery from their kidneys. Perhaps a little backache first. Urinary disorders, dropsy may quickly follow.

Doan's Kidney Pills are for sick kidneys. Are endorsed by thousands. Here's Plainview testimony: Mrs. W. J. Mitchell, W. California Ave., Plainview, Texas, says: "I can say that Doan's Kidney Pills are a good remedy for those afflicted with

weak kidneys. We got our supply from the Long Drug Co. and gave them to a child who had trouble with the kidney secretions. Doan's Kidney Pills were the only remedy that brought beneficial results."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and take no other. —Adv. 76

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Theodor's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

Get a package today. Only a quarter.

Salves Can't Cure Eczema

In regard to skin diseases, medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid. WASH THE GERMS OUT. A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D.D.D. Prescription. This penetrates to the

disease germs and destroys them, then soothes and heals the skin as nothing else has ever done. A 50 cent bottle will start the cure and give you instant relief. We have made fast friends of more than one family by recommending this D.D.D. Prescription to a skin sufferer here and there, and we want you to try it now on our positive pay guarantee. D.D.D. Soap keeps the pores clean; ask us. R. A. LONG'S DRUG STORE.

PUBLIC SALE!!

I am moving to Plainview and will sell at public auction 1 mile north of the old Allen place, 3 1-2 miles west of Hale Center, my live stock and farm implements at 10 o'clock

Friday, December 12th

used to the best advantage, and if every one would do the same there would be less tuberculosis, because there would be fewer weak lungs.

STATE MEDICAL COLLEGE HAS HIGHEST RANK.

The largest freshman class since the requirements were raised for admission to the Medical Department of the University of Texas has registered at Galveston. There are 73 first-year men registered.

The Medical Department requires one year of college work for entrance. The highest standing of this branch of the State's educational system is attested by the fact that it is rated by the American Medical Association at A-plus, the highest possible rank. The total registration in the department is 273.

THE LAST LAUGH BEST.

By J. G. W.

Then.

For years uncounted from the mountains high
The brooklets flashed with laughter to the plain,
Nor ceased their merriment as on they ran
Thro' silent deserts, parched and sere and dead.

Now.

Then with commanding power, and labor vast,
Man came, and turned the brooklets from their course,
Spreading their waters o'er the famished plain.
The brooks are silent, but the desert laughs.

AGRICULTURAL TRAINING AT STATE UNIVERSITY.

The recent demand for agriculture in secondary schools has been so great that it has been impossible to supply teachers for the position created. The Regents of the University of Texas, realizing the need of a course that would train teachers for this work in Texas, have established the School of Agricultural Education in the University. Professor William S. Taylor, B. S., Kentucky State University, and M. S., University of Wis-

consin, has been elected as head of the Department, and Mr. H. C. Winkler, instructor in Agricultural Botany, has been transferred to this department. It is the purpose of the School of Agricultural Education to give that training which will best prepare teachers for instruction in secondary schools. The courses have been prepared with this end in view, and educational principles to guide the teacher of secondary agriculture will be especially emphasized.

A TRIED AND PROVED GUARANTEE.

Man Bought a Bottle of Dodson's Liver Tonic, Then Took It Back and Asked for His Money and Got It.

A man recently tried out the guarantee which R. A. Long Drug Co. gives with every bottle of Dodson's Liver Tonic. He bought a bottle and then went back to the drug store and said the medicine hadn't helped him.

This druggist just reached into his cash register and took out a half dollar, the price of the bottle of Liver Tonic, and handed it back to the gen-

PHONES 35 and 355

tleman. But he didn't take the money. He owned up that he was just trying the guarantee and, as a matter of fact, he had found Dodson's Liver Tonic the best remedy for constipation and biliousness he had ever tried. "Why," he said, "my wife wouldn't be without a bottle in the house for anything. It's the best thing in the house for the whole family, and the medicine that I prefer to take or to give to my children for a lazy liver."

R. A. Long Drug Company sell Dodson's Liver Tonic and guarantees it to start the liver without violence. It is taking the place of calomel everywhere. If you buy a bottle and don't find this pleasant-tasting vegetable liquid the best thing to start a lazy liver, he will hand your money back with a smile. --Adv. 75

GOAL KICKING SOUNDS DOOM OF TOUCHDOWN.

Harvard, Yale and Princeton Made 29 Points in 3 Big Games Without Scoring Touchdown.

It is regarded as an index to the new order of things in football that Harvard, winner of first place in the rating of Eastern teams this fall, has won this honor without scoring a single touchdown in either of its two most important games, says a Boston football critic. Harvard defeated Yale and Princeton by field goals entirely, notwithstanding that Harvard has a better team than either, according to many observers in all-round football.

The absence of the touchdown play is made still more remarkable by noting that Yale also made no touchdown against Harvard or Princeton and Princeton made none against Yale or Harvard. In this triangle of major teams, 27 of the 29 points were made by goals from the field, the other 2 being due to a freak safety, which is a unique record in the annals of Harvard-Yale-Princeton football.

Charles E. Brickley, the Harvard star, with five goals in one game, carries off the undisputed honor of being the most brilliant player of the Eastern teams. In fact, the next best record that can be recalled is the feat of Walter Eckersall, who put four drop-kicks over the bar in a game against Wisconsin several years ago.

EIGHT HUNDRED ENROLL FOR BIBLE STUDY AT AUSTIN.

University Students Have Strong Young Men's and Young Women's Christian Associations.

Nearly fifty per cent of the students of the University of Texas are members of the Young Men's and Young Women's Christian Associations. The membership of the Young Men's Christian Association for the

entire year last year was 542. This year to date it is 646. Eight hundred were enrolled in Bible Study classes last year, while this year to date there are 665.

The Young Women's Christian Association has as its membership 535 girls out of the 683 attending the University.

STAND UP STRAIGHT AND AVOID TUBERCULOSIS.

American Medical Association Says First Requisite in Avoiding White Plague Is Lively Lungs.

The first essential in the avoidance of tuberculosis of the lungs, or consumption, is to keep the lungs strong, so that if the germs are breathed they can do no harm, says the American Medical Association.

One of the most important things in keeping the lungs strong is to keep the chest wide open, so that the lungs can be properly used. If the body is drooped or stoops, or if the shoulders are allowed to drag forward (round shoulder), or if the head is carried forward instead of well back over the shoulders, the chest must be flattened, the breathing must be shallow, and the lungs, not being freely used, become weak.

It is in this type of chest that tuberculosis usually begins. The consumptive is usually narrow-chested, with drooped shoulders and with the head craned forward. While the development of a strong, well-formed chest is one of the most important factors in preventing tuberculosis, the same thing is to be desired if the disease has once started. Not only should we live in the open, but we should stand up straight and learn to "throw a big chest," so that the lungs can grow strong and the fresh air be taken in.

The runner, the singer, or any one who is obliged to make sustained effort is taught to stand and sit with the chest high, so that the lungs can be

In our line of beautiful evening and dancing frocks you will find a great variety of the newest shades and materials, including charmeuse silk, crepe, pleated and flowered chiffon, and cloth, handsomely trimmed in fur, jewels and the dainty Venice and Shadow laces.

We also have a most gorgeous display of afternoon gowns, consisting of the most exclusive Lucille models.

One exquisite model is of peacock shade uncut velvet with bodice of gold cloth, veiled with blue chiffon trimmed in gold lace.

Another beautiful creation is of imported black brocaded silk crepe, handsomely draped with corsage of embroidered old blue chiffon over bodice of black Chantilly lace.

Another is a most stunning French pattern of mushroom gray with the new Poirot lamp shade skirt--with blouse of liberty pink satin, elaborately embroidered white corsage.

We are receiving new goods in all lines nearly every day and are keeping our stock up to its usual high standard regardless of reductions.

*Queen
Quality
Shoes*

**The Most Popular
