

WOMEN FAVOR SELLING LAND

Would Give Plainview Permanent Fund of \$5,000 a Year, They Say AT \$10 AN ACRE

Committees Are Appointed for Fly Campaign; Will Install Four Drinking Fountains

"A flyless town" is what the women propose to make of Plainview this summer. More than 7,000,000 flies were trapped and burned last year. By beginning early, if your place is kept thoroughly clean, the women say there will be very few flies.

At its meeting Wednesday the civic League appointed Mesdames L. D. Rucker, C. W. Tandy, R. S. Charles, A. W. McKee and Miss Rosa Fowle a committee to take up the fly campaign and arrange preliminaries.

The Civic League also heard a report of the committee which the Federated Clubs appointed to meet with the City Council regarding certain matters of school sanitation. This committee was asked by the Council to meet with the Public School Board, and upon invitation of the board they attended Tuesday's meeting.

The school board, the league was told, voted to pipe city water to the West Side School, and the women's clubs will put in four drinking fountains inside of the building. Contract has been let for sewer connections. Superintendent B. M. Harrison and the clubs are working hand in hand for improvement of some conditions at the public schools.

It was the sense of the Civic League that Hale County's school lands should be sold just as soon as possible. The club was told that if these lands could be disposed of at \$10 an acre it would give Plainview schools a fixed income of about \$5,000 a year from interest charges. A committee was appointed to confer with the County Commissioners in an effort to dispose of the lands. This committee to Mesdames L. Lee Dye, G. C. Keck, J. N. Donohoe, C. R. Hairfield, R. S. Charles and Professor B. M. Harrison.

Mrs. W. A. Todd was appointed chairman of the rest-room committee. Mrs. R. S. Charles and Miss Edna Mayhugh were appointed as purchasing committee for school improvements, to confer with Professor B. M. Harrison.

Mexican President Calls Midnight Cabinet Meeting to Discuss Plot Against Government

By United Press

MEXICO CITY, Mexico, Feb. 10.—Machine guns mounted on the palace roof guard every entrance to the Mexican President. Houses about the President's palace have been commandeered and 2,000 guards are posted about the palace.

The Mexican President called a cabinet meeting at midnight to discuss means of suppressing another plot which he is alleged to have discovered against his government. The Mexican President believes that he is in constant danger.

General Rudolph Reyes, who has been exiled to Europe, it is decreed, must leave his family in Mexico City as hostages against any plotting by him to injure the Huertian government.

BANK PRESIDENT GOES BEFORE JURY

Attorney General Will Indict Cashier of Wrecked Memphis Institution; Other Arrests Urged

By United Press

MEMPHIS, Tenn., Feb. 10.—Other officials of the wrecked Mercantile Bank than President Hunter Raine will be tried for alleged defalcations. At first the State refused to institute other proceedings than those against the President. To-day Attorney General Estes says that he will bring charges against Cashier Anderson for accepting deposits when he knew the bank insolvent. It has been urged that the State issue warrants against all officials and directors.

President Raine will be taken before the Grand Jury this afternoon. On another occasion President Raine was accused of using bank funds for speculation.

MOB OF 50,000 STORM GOV'T

Japanese Are Angry With Parliament and Cabinet; Scores Are Injured

By Associated and United Press.

TOKIO, Japan, Feb. 10.—A mob of 50,000 stormed the Japanese Parliament to-day. The seething mass of humanity broke down entrance gates to Parliament house and surged toward the legislative chamber. Only after scores had been injured was peace restored. Untold damage would have resulted from the raging mass of humanity except for efficient police service, reinforced by hundreds drawn to meet the contingency.

The people were enraged at a vote of Parliament to sustain the Government, and because the Cabinet had charged that Japanese naval officers accepted bribes to have warships built in Germany.

"CANDY FOR WOMEN" CHICAGO'S SLOGAN

Miss Marion Drake Will Use Coffee Wagons in Campaign Against "Bath-House John"

By Associated Press.

CHICAGO, Ill., Feb. 10.—"Candy for women" seems to be the slogan of candidates here. Last night Thomas H. Donohue, candidate for alderman, distributed more than a thousand boxes of candy to prospective women voters at political meetings.

Miss Marion R. Drake, aldermanic candidate against "Bath-house" John Coughlin, announces that she will use coffee wagons in her campaign. Miss Drake believes that men as well as women will be helped by a cup of coffee, and she says that her plan is entirely honorable.

"Bath-house" John Coughlin has never worried much about his plans meeting "ethical standards." He has held his place against all comers for a long time. He uses something stronger than coffee.

More than 150,000 women will vote in Chicago at this election. Total registration of men and women is 700,000.

WOMEN ARE THE SOLDIERS IN AMERICAN REVOLUTION

Miss Margaret Haley, Who Has Done Much to Give Ballot to Own Sex, Predicts Betterment of Laws an Civilization As Result

CHICAGO, Ill., Feb. 10.—Women in politics, not as the end, but as the beginning, of a great world movement for the betterment of laws and the improvement of civilization, are the soldiers if the Second American Revolution which Miss Margaret Haley, of Chicago, leader of the Illinois tea party of protest against the injustices of an unequal taxation system, prophesied to-day as the result of woman suffrage in Illinois.

Miss Haley, who has done more than any other one woman in Illinois to give the ballot to the women of the State, is preaching to the women of Chicago, and through them to the women of the rest of the country, the gospel of their obligation to do their parts in sustained ideals of government and citizenship. She is also practicing what she preaches. For she has taken the stump in the Thirtieth Ward of Chicago against the candidate for alderman who has been endorsed by the machine politicians whose representatives from the Fourth Senatorial District broke faith with the women who had won their promise to vote for measures of public benefit. She's out in the Fourth District to break the power of the organization that didn't play fair with the women at Springfield. And she's doing it because it's good politics and good citizenship.

Margaret Haley knows both. For fifteen years she has been fighting for the rights of the people of Illinois. For many of those years the fight was a losing fight. It is still a bitter controversy, but the rewards of her long, unselfish, valiant service are beginning to come. To her is due the fact that great corporations of Illinois now pay the taxes which they dodged successfully, and with the connivance of politicians, for so long that her exposure of the conditions which they had created long was regarded as an anarchistic attack upon organized society. To her is due the significant fact that the initiative and referendum came within one vote of the 102 required for its passage in Springfield. (The reason it didn't have the hundred and second vote is the reason why Margaret Haley is now agitating the women in Representative Hubert Kilens' home district.) To her is due legislation that has bettered municipal conditions for every taxpayer in the State. And to her fighting courage, her idealism, her determination, is due primarily the fact that the women of Illinois have as much of the franchise as they now enjoy.

Invaluable Aid Given Women by Miss Haley.

For when the legislative committee of the woman suffrage organization went to Springfield to take up again the disheartening fight of twenty years against the State Legislature's refusal to grant even partial suffrage to the women of Illinois, it was Margaret Haley's information of legislative connections and legislative methods that gave these women invaluable aid. And when the bill, having passed the Senate and the House through the friendship of a Democratic Lieutenant Governor, Barrett O'Hara, and of a Democratic Speaker of the House, William McKinley, came to Governor Dunne for signature, the chief executive of Illinois stated that it had been the work that Margaret Haley and the Chicago Teachers' Federation had accomplished for good government in the State and the city that had predisposed him to the cause of woman suffrage.

Once before he signed the bill, again on the day when he signed the document that made law the most important bill of the last session and when he drew Margaret Haley in to the group who surrounded him for the occasion with the remark that she was the woman who'd converted him to suffrage, and a third time at the triumphal banquet given to honor the women who had secured the passage of the law, Governor Dunne gave to the plucky little woman the credit of her long years of labor.

Worst Enemies Do Not Question Disinterestedness.

"It was Margaret Haley's disinterested work for the cause of better government and higher ideals in politics," he said, "that made me believe in the necessity of having women vote." Her worst enemies—and she has bitter ones—never have questioned the disinterestedness of her motives. The Chicago Teachers' Federation is her life work. She literally slaves for its welfare, and slaving for it, she advances the cause of women quite as much by virtue of her personality as by reason of her arguments.

For the man or woman who believes in a cause beyond-question of self-

DIVE MEN LOSE RECALL PETITION

Cannot Oust Young California Senator Who Introduced Red-Light Bill

By Associated Press.

SAN FRANCISCO, Calif., Feb. 10.—The recall petition started against State Senator Edwin Grant of California, who introduced the red light injunction and abatement bill in the last legislature, has completely failed. Registrar Zemansky of San Francisco says that the petition recently filed with him contained 2740 names only 1427 of which were valid, while 2334 were necessary to make the petition effective.

Elected by Women.

Senator Grant was elected by the place a notorious politician, Eddie Wolf, who for sixteen years had represented that city. The survey said: "The replacing of Wolf by Grant was one of the first political results from woman suffrage in this city."

The recall petition was started by Andrew Einsfield, on the ground that Grant, in fathering the redlight abatement law and in supporting other legislation had transgressed the will of the people who had sent him to the Senate.

MAKING LITTLE FARM PAY

It should be the ambition of every gardener and small land owner to own and operate a green house. Farmers in general might also find such buildings profitable especially where they go in for mixed husbandry and supply produce to private customers. For the truck farmer who has his business near a city there can be no question about the profitability of his building a green house as large and equipping it in the most modern style that his ability will permit.

It is not merely that such an appliance will add to his income but it will afford constant satisfaction to the gardener of taste and enterprise. He will be able to expand his business and add to his profit through a well equipped greenhouse and at the same time he will be able to carry on a great many simple but important experi-

ments with relation to soil culture, successor crops and what we may term fancy farming.

Another argument is that a greenhouse will enable a farmer to cultivate flowers all through the winter season which is usually a time of the year when he has little profitable work to do. One good sized greenhouse will give considerable daily employment to the average family. It will at least require the whole time of one energetic person. With two or three of the family to help the business can be pushed in a systematic and thorough way. One of the best features about it is that the owner can take advantage of any special or sudden market demands for his products. Such opportunities come up every season in the city markets and the wise gardener who has the proper facilities can make money fast during such times.

It is true that many of the gardeners and small farmers do not possess the money to build and equip a greenhouse, but all of them should have such an enterprise in sight and work to that end. It is even wise to borrow the capital for such a modern institution.

A gardener may erect a small house as a lean-to adjoining one of the other buildings thus making it inexpensive to build and affording protection from waste of heat. Place the lean-to on the south side of the building and put the foundation below the frost line. In this way there will be a saving of fuel. A small heating plant will provide a paying investment.

The profit side of such an enterprise is an important feature but it is not all just think of the pleasure you can have in turning winter into summer—the fun of picking strawberries, lettuce, radishes or butter beans when the temperature out of doors is hovering around zero. Your regular truck garden can also be given a much earlier start by preparing tomato plants, cabbages, etc., in the greenhouse.

There are men who believe in spring plowing and purposely defer the turning over of the soil, no matter what the conditions of the work may be in the fall. All such farmers are laboring under a mistaken theory. Soil does not have sufficient time for absorbing and using the chemical powers of manure when it is plowed just before the seed is put into the ground. Cultivation of certain kinds is needed in the spring and all through the growing season but the top earth and the common fertilizer should be turned under as long as possible before planting time.

Ordinary barnyard fertilizer is of no value unless it is thoroughly rotten or decomposed before it is put on the ground. If it can be placed under the soil five or six months before it is called upon to produce a crop it will then be intermingled with the soil and its manifold chemical properties will be distributed according to the laws of nature. The physical condition of the soil is injured by a constant loss of organic matter. As this organic matter is taken up in plant growth the soils become less mellow, they plow up hard and lumpy, they crust after rains and cultivate at all times with growing difficulty. The crusting of the soil, due to the lack of organic matter, is one of the most serious physical defects.

MILLIONS FOR

President Is Drafting Bill to Ap-

Overflows

CHICAGO, Ill., Feb. 10.—Thirty mil-
lion dollars will be expended for the
prevention of floods and the relief of
flood sufferers, if plans which are be-
ing matured at Washington are car-
ried out.

Announcement was made to-day by
Edmund Perkins, President of the Na-
tional Drainage Congress, that Speak-
er Champ Clark and Senator John
Sharp Williams, of Mississippi, are co-
operating with the President in fram-
ing a bill providing an appropriation
of this amount for this purpose.

Mr. Perkins thinks that much of the
money may be used this year. He says
that floods along the Mississippi River
do not occur until April. The money
will be used to strengthen the levees,
build new dykes and construct reser-
voirs to hold back flood waters.

The flood districts of the United
States are losing an important oppor-
tunity by not pushing anti-flood legis-
lation, Mr. Perkins thinks. He says
President Wilson, the War Department
and the Department of Interior are all
favorable to appropriations for this
purpose.

HUSBAND RESCUED
DESPAIRING WIFE

After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up in Despair. Husband
Came to Rescue.

Catron, Ky.—In an interesting letter
from this place, Mrs. Bettie Bullock
writes as follows: "I suffered for four
years, with womanly troubles, and during
this time, I could only sit up for a little
while, and could not walk anywhere at
all. At times, I would have severe pains
in my left side.

The doctor was called in, and his treat-
ment relieved me for a while, but I was
soon confined to my bed again. After
that, nothing seemed to do me any good.

I had gotten so weak I could not stand,
and I gave up in despair.

At last, my husband got me a bottle of
Cardui, the woman's tonic, and I com-
menced taking it. From the very first
dose, I could tell it was helping me. I
can now walk two miles without its
tiring me, and am doing all my work."

If you are all run down from womanly
troubles, don't give up in despair. Try
Cardui, the woman's tonic. It has helped
more than a million women, in its 50
years of continuous success, and should
surely help you, too. Your druggist has
sold Cardui for years. He knows what
it will do. Ask him. He will recom-
mend it. Begin taking Cardui today.

DELIGHTFUL PARTY WITH MRS. BROMLEY

Were you ever fortunate enough to go to a party where everything was as "merry as a marriage bell," where there was no crinkle in the rose leaf, no disappointment of any kind to mar the pleasure of the occasion? Such was the case yesterday afternoon when the beautiful new home of Mrs. J. J. Bromley was thrown open to a large number of guests.

Mrs. Bromley, her mother, Mrs. J. O. Rountree, and Miss Cora Rountree were the hostesses, each one extending a cordial welcome to the arriving guests.

Ten tables were provided for Forty-two and Five Hundred. Around these tables were gathered two score of merry, happy women, who thoroughly enjoyed the interesting games, the pleasure of each other's society and the gracious hospitality of the home.

At the clearing of the tables, embroidered linens were spread and an elegant, elaborate luncheon was served, including chicken salad, peas in patties, hot rolls, poinsetta salad, coffee, boule, and angel and devil food cake.

Those present were Mesdames Scott Gale, H. W. Harrel, L. C. Wayland, C. C. Gidney, H. C. Randolph, C. W. Tandy, E. T. Coleman, J. F. McClelland, T. C. Shepard, C. A. Shepard, J. M. Adams, J. H. BOSTON 11 BELOW COLDEST IN YEAR

By Associated Press.
NEW YORK, N. Y., Feb. 12.—Temperature here is 1 degree below zero to-day. Northern parts of the State report 30 degrees below. There is much suffering.

Fifty families in New York City were driven into the streets by an East Eighteenth Street apartment house fire. Charles F. Murphy, Tammany leader, passed the fire on his return from a political banquet. He was attracted by the squalid families out in the street, and provided sufficient funds for all homeless.

The cold wave is general over New England and the Mississippi Valley.

BOSTON, Mass., Feb. 12.—The temperature here is 11 degrees below zero. This is the coldest weather the Puritan metropolis has experienced for years.

Coal miners of this country average \$600 a year in wages.

UNION STOCK YARDS, CHICAGO, Ill., Feb. 12.—Six thousand cattle are here to-day, market steady; also 30,000 hogs, the price being five to ten cents lower.

STOCK YARDS, FORT WORTH, Texas, Feb. 12.—There are 4,500 cattle offered to-day, including 600 calves; market steady.

Two thousand eight hundred hogs have been received; market slow and ten cents lower. Top, about \$8.70; bulk, \$8.50 to \$8.65; light, \$8.00 to \$8.50; mixed, \$8.40 to \$8.60; heavy, \$8.50 to \$8.70; pigs, \$6.00 to \$7.00. Sheep numbered at 200; steady. Daggett & Keen.

OLD MAN HURT IS BETTER

Mayor Dorsett says Half Frozen Man is Out of Danger.

"Old man Hurt is better today, but he is by no means out of danger," Mayor Dorsett says today. It seems that Mr. Hurt got out of bed sometime Friday night and was overcome by cold. He fell to the floor and was found unconscious next morning.

Mayor Dorsett took him some bed clothes from the jail and good women applied hot water bottles until circulation was revived. Dr. Lindsey, who is attending him, says that the old man kicked against a trunk Friday night until he knocked his toe nails off. He lives just across the draw.

DISTRICT COURT GRANTS MRS. ESPY DIVORCE.

Mrs. Charles Espy, formerly Miss Matlock, was granted a divorce in the District Court this afternoon by Judge Kinder. Desertion was offered as cause. Mrs. Espy said that her husband left her in 1910. She now lives with her mother on a ranch 14 miles northeast of Plainview.

The percentage of idleness among the trade unions of the State of New York for the year ending September 30, was greater than any preceding year since 1896 with the single exception of 1908.

SWISHER'S BIG WELL SUCCESS

ing nearly every dollar of the bonus had been collected, one or two subscribers being out of town who will pay their share when they return.

Every man who has given a check for his part of the bonus has done it cheerfully, and felt like that it was money well invested.

Big Capacity Well.

Three efforts have been made heretofore to get an irrigation well of a large capacity in the Tullia district. Each time the effort failed. People who knew the country, however, attributed the failure to the inferior pump used and not to an insufficient supply of water. So sure were they about it that a committee composed of A. E. Martin, W. C. Dinwiddie, and W. W. Underwood, backed up by the following pledged amounts:

- Scott Tracy Hardware Co., \$100
- White & Kirk, \$100
- Cantrell & Shows, \$100
- First National Bank, \$125
- Vaughn Brothers, \$100
- Tullia Bank and Trust Co., \$125
- J. C. Cowan, \$100
- Dr. C. W. McFarland, \$50
- W. C. Hulsey, \$50
- Murphy Grocery Co., \$50
- Dr. E. Lee Dye, \$50
- S. F. Flores, \$25
- W. C. Dinwiddie, \$25
- Dennis Zimmerman, \$25

offered a bonus of \$1,000 for anybody who would put in a well—not for a show—but who would install a pumping plant for his own use in irrigating his fields with a capacity of not less than one thousand gallons per minute.

L. Klous & Son who own a five section stock farm just north of town had faith enough in the under-ground supply of water to undertake the expenditure of putting down the well and installing an irrigation plant, and they signed a contract with the bonus committee to put in the well.

MRS. W. W. LAKE

Tells Others How to Get Strong and Well.

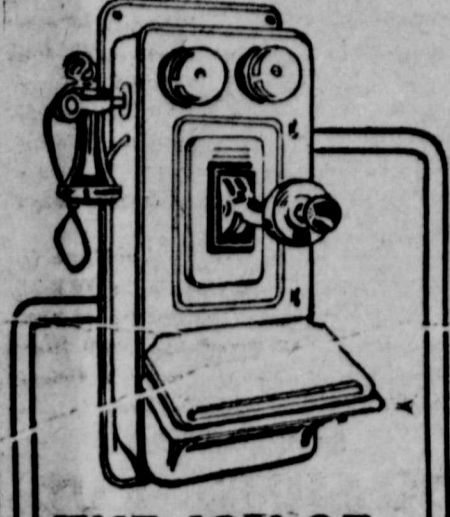

Mrs. W. W. Lake of Aberdeen, Miss., says: "The gripe had left me in a weak, run-down condition from which I suffered for some time. I tried different remedies but nothing seemed to do me any good until I took Vinol, from which I received great benefit. My cough is almost entirely gone and I am strong and well again, and I am glad to recommend Vinol to others who suffer as I did."

Mrs. Lake's recovery was due to the combined action of the medicinal elements extracted from cods' livers—combined with the blood making and strength creating properties of tonic iron, which are contained in Vinol, and her cough disappeared as a natural result.

We guarantee that Vinol will do all we claim and will pay back your money if Vinol does not satisfy you. P. S. Stop scratching, our Sazo Salve stops itching. We guarantee it. J. W. WILLIS DRUG CO., Plainview, Texas.

flow or reservoir of water that has been tapped at other places on the Plains was under the surface of Swisher county, have demonstrated the correctness of their intention with the success of the Klous well.

The same people who put in the Klous well have moved over to the Vaughn Bros. section just south of town and will duplicate the Klous well for the Vaughns.

The Buick Overhead Valve Motor is guaranteed to develop more power and to give more mileage per gallon of gasoline than any other motor of its size, either American or foreign make.

It's the Difference That Counts

There's a difference in the way different motor cars run; a difference in appearance, a difference in where they can go and where they can't, and a difference in the cost of operation. It's this difference the careful buyer wants to know about.

A Buick car is built in the Buick shops and means better material and better workmanship at a minimum of cost, a combination which gives the Buick owner the most for his money.

A Buick owner is the most satisfied owner in the world.

He can't go any distance without finding a Buick dealer--if he wants one. And the Buick sign is always a sign of good treatment.

The 1914 line is Delco started and ranges from \$950 to \$1985, f. o. b. Flint. No matter what you're driving, we can make you better pleased.
