PLAINVIEW, TEXAS, FRIDAY, FEBRUARY 20, 1914

NUMBER FIFTEEN

PANAMA OPEN JUL. 1; GOETHALS

**Understood Governor Will
Ask Extra Appropriation
of \$23,000,000**

DEFENSES ARE AMPLE

**Colonel Goethals Is Opposed to
Free Tolls for American
Boats**

WASHINGTON, D. C., Feb. 20.—The Panama Canal will be in operation by July 1, according to estimates of Colonel George W. Goethals. Colonel Goethals arrived to-day for conference with President Wilson. He has always been opposed to free tolls, the Colonel told reporters to-day.

Danger from slides which might close the waterway is not to be considered, Colonel Goethals thinks. He says that minor slides are possible when water reaches full level in bulwara cut.

The Colonel denied that the canal is inadequately protected. He says that the defenses are practically complete, and that they are ample for any emergency.

It is understood that Colonel Goethals will ask for an appropriation of \$23,000,000 to complete the canal. This would increase the amount \$7,500,000 over the present fixed appropriations.

Black Hand Asks \$5,000; Wrecks Store

CHICAGO, Ill., Feb. 20.—Three buildings were partially destroyed and twelve persons injured when a bomb exploded in the basement of Leonardo Melone's grocery store to-day. Melone's place is located in the Italian quarter of Chicago. The explosion is thought to be the work of the Black Hand Society. Black hand letters had demanded \$5,000 of Melone, but he paid no attention to the request.

RETURNING SPANIARDS SAY REBELS BURY MEN ALIVE.

MADRID, Spain, Feb. 20.—Atrocious outrages are being committed by the rebels around Torreon, according to stories brought home by Spaniards returning from Mexico. Stories of the shooting of seventy-five Spaniards and the burial alive of many others by rebels at Torreon were published throughout Spain to-day. The incidents were vouched for by Spaniards home from Pera Cruz.

PUTNAM NATURAL GAS CHEAP TO FACTORIES

PUTNAM, Tex., Feb. 20.—The people of this place are rejoicing over the completion of a gas pipe line from the Moran field. This line was laid by the Pioneer Natural Gas company and they have announced that gas will be turned into the mains immediately. With the ultimate completion of the line a very low rate will be accorded factories. It is expected that along with this and other advantages the town will witness an unprecedented wave of growing activities.

INDIANA WIFE MURDERERS ELECTROCUTED TOGETHER

MICHIGAN CITY, Ind., Feb. 20.—John Chirka, age 40, and Harry Rasico, age 35, were both electrocuted today. They were charged with wife murder. The three children of Chirka visited him before the execution. They will be sent to relatives in Austria.

POWDER WORKS EXPLODE; KILLS 7 IN SCOTLAND.

EDINBURG, Scotland, Feb. 20.—Seven persons were killed and many others seriously injured to-day by an explosion in the Nobel Powder Company's works. The force of the explosion wrecked the powder mills. Debris was blown long distances, and the concussion was felt for miles.

PASTOR OF BRADY COMMERCIAL SECRETARY

BRADY, Tex., Feb. 20.—At a meeting this week of the directors of the Commercial Club Rev. T. P. Grant, pastor of the Presbyterian church was chosen secretary of the club. Rev. Grant succeeds Rev. D. R. Hardison who resigned the position.

3 MEN ROB QUEEN & CRESCENT TRAIN OF \$40,000.

Masked Bandits Rifle Registered Mail and Escape Near Birmingham; Nobody Disturbed.

BIRMINGHAM, Ala., Feb. 20.—More than \$40,000 was taken by three masked robbers who held up the Queen and Crescent passenger train near here last night. Definite information as to the amount of booty secured is not obtainable. The estimate is based upon what is known to have been carried by the train.

Only registered mail was rifled. Other contents of the car were not disturbed. Nobody on the train was bothered. The work was done without special hurry and the masked men were deliberate.

No trace has been found of the robbers to-day.

STRIKES COSTLY TO WORKERS.

Net Loss in Millions Shown by Reports for Last Decade in Great Britain.

LONDON, England, Feb. 20.—A profit and loss account for the strikes of the last ten years, prepared from the board of trade returns, supplemented by details furnished by trade union leaders in the principal industries, shows that the loss to the organized workers alone, from stoppages due to disputes of all kinds, has been £17,413,188 in wages.

Against this net gain in wages resulting from disputes is returned at £2,714,340, leaving a net loss of £14,698,848.

In the same period the working classes as a whole have secured advances in wages estimated at over £15,000,000, but the greater proportion of these advances have been obtained through conciliation machinery.

Of every 100 strikes or other disputes recorded, fifty have been won by the employers, twenty-five by the workers, and the remaining twenty-five compromised.

MINISTERIAL STUDENT GETS SEWING MACHINE

G. S. Upton Surprised When He Wins; Many Women are Disappointed.

G. S. Upton a Ministerial Student at Seth Ward.

G. F. Upton a ministerial student at Seth Ward College won a \$50 Ruby Sewing machine given away by J. F. Coan and Son last Saturday. The person drawing this machine was supposed to ask an authorized person, "Who Get the Sewing Machine Coan is giving away?"

The question was not effective unless asked at a time which had been designated and sealed in an envelope. Much interest had been created and women visited the popular variety store all Saturday afternoon.

It was with considerable disdain that the good women saw a mere boy capture the prize and Mr. Upton was a much surprised boy when he was told that he was the lucky individual. He has not indicated what he proposes to do with the machine. Of course he can't sew.

Coan & Son are going to give away a piano in a short time.

CRESCENT OIL ENGINE TO OPEN LOCAL OFFICE.

McDowell Gray, sales agent for the Crescent Oil Engines, will open permanent office in Plainview. He is temporarily located in the Ware Hotel.

Mr. Gray visited Plainview sometime ago. He believes in the Shallow Water Belt, as is demonstrated by the fact that he is locating in Plainview to sell engines for irrigation pumping. He expects a remarkable development during this year.

ROCKEFELLER JEERS LAW ENFORCING SPEECH

NEW YORK Feb. 20.—"Things are changing in the business world," said Dudley Field Malone at the annual dinner of John D. Rockefeller, Jr.'s bible class last night.

"If you are a poor cheese maker and smuggle in your cheese, or a millionaire, and smuggle in a diamond, you will have to go to jail. The law will be equal for all but it will also be applied equally."

John D. Rockefeller, Jr., applauded for fully two minutes.

MANUEL RODRIGUEZ AND MISS MARIA MARALEZ WERE MARRIED THIS MORNING

at 9 o'clock in the County Clerk's office, Judge W. B. Lewis officiating.

Mr. and Mrs. Rodriguez left to-day on the north-bound train for a short trip.

THE IDEAL MOTHER.

—Webster in New York Globe.

WILL GROW MILLION SWEET POTATO PLANTS.

Plainview Floral Company Has Extensive Business in Plants, Shrubs and Cut Flowers.

A million sweet potato plants! Can you conceive of that many? That means perhaps half a dozen million big sweet potatoes next fall! Makes you hungry now, doesn't it?

The Plainview Floral Company sold 400,000 sweet potato slips last year. They propagated more than 300,000 at their plant on North Pacific Street and shipped in 100,000. This year Messrs. Jeffries & Keys don't expect to ship any in. They do anticipate larger trade, and are getting ready for it.

A hot bed approximately 100 feet long and about 6 feet wide is being prepared. From this Mr. Jeffries says that he expects to take more than a million slips; to be more nearly exact, Mr. Jeffries plans to dispose of about 1,200,000 sweet potato slips this spring.

The Plainview Floral property is becoming one of the beauty spots around Plainview.

"WAIT TILL I GET IT," SAYS TOM BALL.

Houston Man First to Reach Fort Worth; 5,000 Expected at Elimination Convention.

FORT WORTH, Texas, Feb. 20.—Tom Ball was the first prohibitionist leader to arrive for the elimination convention to-morrow. "Wait until I get it," was Ball's only answer to queries as to whether or not he would accept the nomination for Governor.

The vote which he received last Saturday is a compliment which the Houston man evidently appreciates. More than half of the delegates will come to the convention instructed for Ball.

The arrangements committee has decided to hold the convention at the First Baptist Church. It is estimated that this auditorium will seat 3,000 people. Fort Worth is getting ready to take care of 5,000 delegates.

EGGE-CORLETT TO HANDLE PACKARDS AND OVERLANDS.

EGGE-CORLETT announce that they will add the Packard automobile to their Overland line. These men have the Overland agency for 39 counties in Northwest Texas, and their Packard agency will be co-extensive with the Overland. Egge-Corlett have one of the most modern garages in West or Northwest Texas; they also carry a complete stock of supplies and accessories.

PRESIDENT OF PERU BANISHED TO PANAMA.

LIMA, Peru, Feb. 18.—Former President Billinghurst was exiled to-day on a steamer bound for Panama.

PIONEER NEWSPAPER MAN DIES AT SHERMAN.

SHERMAN, Tex., Feb. 20.—J. F. Bowles a pioneer North Texas newspaper man died today.

W. A. Shaffer left today for the Eastern markets.

"HABEAS CORPUS FIRST"—JEROME.

Prosecutor Says Thaw Must Fight This Out Before Judge Aldrich Considers Bail.

CONCORD, N. H., Feb. 20.—The fight of Harry K. Thaw to prevent his return to the asylum for the insane at Mattawan, New York, was begun to-day. There also comes up the question of his securing temporary freedom on bail.

William Travers Jerome insists that the question of bail for Thaw cannot be considered until the court acts upon the writ of habeas corpus filed by the State of New York for his return to prison. Arguments for both sides were submitted in printed briefs.

It seems certain that the case will go to the Supreme Court. Jerome has already declared that he will carry it there if the decision is favorable to Thaw, and it is certain that attorneys for the defense will not surrender their man without a most stubborn defense.

Thaw's respite in Concord seems to have improved the man considerably. He wore a neat suit of marked design to-day when he appeared before Federal Judge Aldrich, but had none of that jaunty air which formerly marked the New York spendthrift.

NEXT MEETING IN PLAINVIEW.

Mrs. H. M. Baggerly Is President of Order of Eastern Star.

LUBBOCK, Texas, Feb. 21.—The Order of Eastern Star school of instruction appointed to be held in Lubbock, convened to-day. They unanimously accepted the invitation of Plainview Chapter to meet with them the first Tuesday in May.

The following officers were elected for the coming term:

President—Mrs. H. M. Baggerly, of Happy.

First Vice President—Mrs. Towle, of Lubbock.

Second Vice President—Mrs. Ella McWhorter, of Plainview.

Secretary and Treasurer—Mrs. Claxton, of Hale Center.

Critic—Mrs. Rebecca Robinson, of Lubbock.

TWO GREENHOUSES NOW IN PLAINVIEW.

There will be two greenhouses in Plainview this year—that of the Plainview Floral Company, on North Pacific Street, and the "Rozena," located on the same street to the south.

Mrs. R. P. Frazier is proprietor of the last. She has sold cut flowers for a good while. Her greenhouse is steam heated and contains a wealth of hot-house plants and a ready supply of cut flowers. Trailing plants, palms and ferns are special features of the greenhouse, which is managed, directed and taken care of by Mrs. Frazier herself.

Messrs. Jeffries & Keys have one of the most extensive greenhouses and cut-flower industries in West Texas.

WEST ORANGE, N. J., Feb. 20.—

Post Office inspectors to-day arrested George Bernhardt, a cook, charged with threatening the life of President Wilson. He is held in lieu of \$1,000 bail to await Federal action.

Three months ago the President began receiving letters which threatened him with death. These were signed "God's Son." The communication also told of the destruction of the City of Washington, the inspectors say.

Barnhardt is reported to have escaped from a Philadelphia asylum.

SNYDER, TEXAS, Feb. 21.—

News was received to-day that a farmer named Shirley, 35 years old, committed suicide last night at his home, 20 miles southeast of here, by taking carbolic acid. He leaves a family. No cause was made public.

A very light rain, measuring fifteen hundredths of an inch, fell here Wednesday.

SENATE REJECTS ALL AMENDMENTS.

Will Not Exempt Canal Tolls and Immigration from Arbitration in Spanish Treaty.

HASHINGTON, D. C., Feb. 20.—The Senate to-day rejected amendments to the Spanish General Arbitration Treaty which provided for the exemption from arbitration of questions pertaining to Panama tolls, immigration and all other matters involving the Monroe doctrine.

This test indicates a desire of President Wilson for the renewal of all treaties in their general terms. It has a substantial Senate majority.

WOMEN'S FIGURES RUINED BY DECREES OF FASHION.

Majority of Girls Entering California University Deformed Because of High Heels, Tight Lacing, Etc.

SAN FRANCISCO, Cal., Feb. 19.—Mrs. William E. Magee, head of the women's department of physical education at the University of California, was emphatic to-day in saying that the dictates of fashion are destroying the old ideal of womanly grace.

"Five out of every six women entering the university," said Mrs. Magee, "when examined this year were found to be afflicted with flat feet or broken arches. This is due directly to the high heel shoes which fashion decrees.

"Last year we had an epidemic of deranged internal organs, caused by tight lacing.

"Curvature of the spine is common, and, while it could be easily prevented by exercise and sensible dressing, it takes a year to correct even a minor case.

"Girls coming to the university to-day show a decided increase in such deformities as crooked necks, crooked spines, round shoulders, and flat chests. All of these are imputed at once to the slothy pose which is fashionable."

EAST SIDE AND HIGH SCHOOLS AT BASEBALL

Second Teams of Two Schools Play 9 to 9 Game; Return Match

It was a "rip-roaring" good game of baseball that was pulled off at the High School grounds yesterday afternoon, as the boys put it.

The East Side Second Team came over to clash with the High School Second Team. The game was a hot one from the words "play ball" and the boys went after it with some "pe" — The final score was East Side 9; High School 9.

The batteries and the teams lit it up as follows:

East Side Pitchers	High School
"Arapaho Bill"	Hub Vines,
Jim Mitchell	Sug. Barnes
Catchers.	
Harold Brashear	Bill Sharp

The East Side announces that as soon as their schedules with out-of-town teams has been fulfilled they will demand a return game from the High School team to even up on their old adversaries.

MEMPHIS, TEXAS, Feb. 20.—

State Superintendent of Banks to-day announced that the shortage of President Raine of the defunct Mercantile Bank amounts to \$1,091,750. The money was used in cotton speculations. Complete audit was finished to-day. It shows remaining assets sufficient to cover 60 per cent of deposits.

Depositors of the defunct bank will receive 50 per cent of their accounts. Liquidation expenses are estimated at 10 per cent.

The capital stock and surplus of the bank will be wiped out. That means that stockholders get nothing. Raine is still in jail, pending trial on his charge of embezzlement. He refuses to make any statement.

EL PASO, TEXAS, Feb. 20.—

William Benton, an English ranchman and mine owner, was tried by court martial and executed in Juarez Wednesday night. He was accused of plotting against Villa. This information was given to Mrs. Benton to-day by Consul Edward and the details of the affair were wired to Secretary of State Bryan.

Advices from Washington state that Bryan confirms the report, but refuses to give details. Benton disappeared in Juarez Tuesday night.

Villa has gone. He left suddenly to-day for Chihuahua. It is suggested that imprecations called down upon the rebel leader because of his murder of the English ranchman Benton may have hastened his departure.

The execution of Benton is stigmatized by the latter's friends as wanton murder. No single act of the rebellion, not even excepting the Cumbre Tunnel disaster, has stirred so much indignation in El Paso. Benton was popular; there were many moist eyes here and muttered imprecations when it was learned that Benton had faced the firing squad.

"No foreigner is safe in Mexico," is the general comment here to-day.

Benton owned one of the most valuable ranches in Mexico. He had gone to remonstrate with Villa about depredations of the rebels, and was unarmed. It is known that he quarreled with Villa, and some believe that Villa killed him and gave out the story of a court martial to cover his murder.

WASHINGTON, D. C., Feb. 20.—

Following a cabinet conference Secretary Bryan ordered an immediate investigation of the killing of Benton. It is feared that Villa's act may cause serious international complications.

WOODROW GREEN LEFT TODAY FOR FT. WORTH.

T. E. Richards of the Rich-lie store returned home today from the Northern and Eastern Markets.

WONT GIVE UP WATER RIGHT

Secretary of War Reverses Himself on Roanoke River Project

BENEFITS TO STATE

Federal Government Will Prevent Monopoly of Navigable Streams; Also Discrimination

WASHINGTON, D. C., Feb. 20.—Secretary Garrison today reversed himself on the Roanoke river dam project. He originally approved a plan to turn over to private companies valuable water power rights along the Roanoke.

The secretary's subsequent action is interpreted that the administration will at least partially endorse the conservation ideas advanced by Gifford Pinchot.

In a letter today from Secretary Garrison to Chairman Adamson of the House Committee on Inter-State and Foreign Commerce, the administration's conservation policy was made plain. The Secretary says that no surrender of the Federal Government's powers to regulate what shall be done with navigable streams will be considered.

Individual states will be given entire supervisions over actual operations of the stream. The only supervision to be retained in this respect will be to prevent discrimination or monopoly. All benefit, financial or otherwise will accrue to individual states.

Audit Shows Bank Shortage \$1,091,750

MEMPHIS, TEXAS, Feb. 20.—

State Superintendent of Banks to-day announced that the shortage of President Raine of the defunct Mercantile Bank amounts to \$1,091,750. The money was used in cotton speculations. Complete audit was finished to-day. It shows remaining assets sufficient to cover 60 per cent of deposits.

Depositors of the defunct bank will receive 50 per cent of their accounts. Liquidation expenses are estimated at 10 per cent.

The capital stock and surplus of the bank will be wiped out. That means that stockholders get nothing. Raine is still in jail, pending trial on his charge of embezzlement. He refuses to make any statement.

EL PASO, TEXAS, Feb. 20.—

William Benton, an English ranchman and mine owner, was tried by court martial and executed in Juarez Wednesday night. He was accused of plotting against Villa. This information was given to Mrs. Benton to-day by Consul Edward and the details of the affair were wired to Secretary of State Bryan.

Advices from Washington state that Bryan confirms the report, but refuses to give details. Benton disappeared in Juarez Tuesday night.

Villa has gone. He left suddenly to-day for Chihuahua. It is suggested that imprecations called down upon the rebel leader because of his murder of the English ranchman Benton may have hastened his departure.

The execution of Benton is stigmatized by the latter's friends as wanton murder. No single act of the rebellion, not even excepting the Cumbre Tunnel disaster, has stirred so much indignation in El Paso. Benton owned one of the most valuable ranches in Mexico. He had gone to remonstrate with Villa about depredations of the rebels, and was unarmed. It is known that he quarreled with Villa, and some believe that Villa killed him and gave out the story of a court martial to cover his murder.

WASHINGTON, D. C., Feb. 20.—

Following a cabinet conference Secretary Bryan ordered an immediate investigation of the killing of Benton. It is feared that Villa's act may cause serious international complications.

WOODROW GREEN LEFT TODAY FOR FT. WORTH.

T. E. Richards of the Rich-lie store returned home today from the Northern and Eastern Markets.

SOCIETY

MUSIC AT K. P. CELEBRATION BY SETH WARD STUDENTS.

Delightful Ceremonies Mark Fiftieth Anniversary of Founding of Order of Knights of Pythias.

In celebration of the golden anniversary of their order, the local lodge of Knights of Pythias issued more than two hundred invitations for last night, which met with a ready response by their members and friends.

The guests were met in the ante-room of the lodge hall by Mesdames W. A. Morter, L. C. Peary and C. C. Callaway and Miss Sarah Ross, all of whom served punch to the arriving guests.

Bannister's Orchestra furnished music during the early part of the evening.

At the appointed hour the following officers marched in and took their respective places: C. C. Callaway, chancellor commander; W. A. Morter, vice chancellor; Dr. J. C. Anderson, prelate; Frank Pearson, master of exchequer; Dick Estes, master at arms.

Appropriate ritualistic ceremonies were held by the three ranks of the order, interspersed with music by the male quartette of Seth Ward College and a ladies' quartette composed of Mrs. Lloyd Mayhugh and Misses Rosa Fowle, Myrtle Wade and Beulah Hoyle.

Mrs. Cora E. Pritchett had charge of the vocal music, which was interspersed with music by the orchestra.

The program closed with pithy and to-the-point addresses by R. C. Joiner and R. M. Ellerd.

Upon invitation of Ross D. Rogers, the entire party adjourned to The Ruby and enjoyed the fine pictures featured for last night.

SETH WARD BOYS WORKING FOR ORATORICAL CONTEST.

Robert Hendry Won Second Place at Clarendon Last Year; Winner Goes to Austin.

Oratory is absorbing the attention of the boys at Seth Ward college now. The preliminary to the contest held at the State University is one goal; the valuable prize offered by R. M. Ellerd for the best oration on prohibition is the other incentive.

At Clarendon last year Robert Hendry, representing Seth Ward, won second place. He was less than 1 point behind the first man. The Seth Ward boy expects to gain considerable from his last year's experience, and his fellow students are strong in their belief that he will win first place. A number of men will enter both tryouts—for the State contest and for the prohibition prize.

LOCAL STORE SELLS 14 MILES OF CANVAS.

Plainview Mercantile Co. Is Complimented upon Its Progressiveness; Plains Country Praised.

Fourteen miles of canvas! Had you ever thought of measuring canvas by the mile? Maybe we had better make it yards. Well, that means 23,000 yards. That is how much Gulf LL and Uniform C sheeting Plainview Mercantile Co. purchased last year from Smith & Parker, Houston.

W. A. Shofner, manager, is in receipt of a letter from the Smith-Parker people complimenting him upon the volume of business done during 1913, and also containing praise for the entire Plains country.

The letter says, in part: "Please allow us to compliment you on your statement of January 1. We have always regarded the Plainview Mercantile Company as one of the most satisfactory accounts on our books."

"You may be interested to know that last year you handled 23,000 yards of our Gulf LL and Uniform C. This would be about 14 miles of canvas and would reach nearly half way down to Floydada from Plainview."

"From all the reports that we have had, 1914 promises to be an excellent year in the Panhandle. Our orders from that section certainly indicate that there is considerable building going on."

CHRISTIAN ENDEAVOR PROGRAM

First Presbyterian Church, Sunday, February 22, 1914, 6:30 P.M.

Rules for Young Business Men and Women. Prov. 22:1-29.

What Kind of Worker is Successful? Mrs. S. Parks.

How Can We Obtain Church Help in our work? Miss Hunt.

What are the Rewards of Work Well Done? Mr. Kirby Scudder.

How is our C. E. Society a training school for business? Miss Mattie Lee Wright.

Why is it right to be diligent in business, yet wrong to give our best energies to building up a great fortune? Dr. L. W. Pennock.

MRS. HUGHES IS HOSTESS.

Highland Club Enjoys Reception at West First Street Home

One of the most delightful women's meetings of the winter was that of the Highland club yesterday afternoon at the home of Mrs. E. B. Hughes, 515 West First street.

Pretty score cards adorned with violets, suggestive of the coming spring were punched by Mrs. Peyton Randolph during the series of absorbing games.

Promptly at 5 o'clock a beautifully appointed two course luncheon was served by Mrs. Hughes, assisted by Misses H. C. Randolph, J. O. Wyckoff, J. W. Grant, J. P. Crawford, Misses Effie Casey and Rosa Fawle. The menu included cream chicken in patties, cream potatoes and French peas, ripe olives, fruit salad, coffee, hot rolls plum pudding and white loaf cake.

The guest for the afternoon were: Mesdames Tom Carter, Scott Gale, T. C. Shepard, L. C. Wayland, H. W. Harrel, R. West Lemonds, J. W. Grant C. C. Gidney, J. C. Anderson, Peyton Randolph, W. E. Armstrong.

The next meeting of the club will be with Mrs. J. Murray Malone, Thursday, March 5.

DR. LOWREY TO SPEAK SUNDAY AT BAPTIST CHURCH.

Dr. B. G. Lowrey, of Amarillo, is one of the great laymen of the South. His distinguished father was one of the famous men of Mississippi, and the son perpetuates the family honor.

Since leaving his native State and coming to Amarillo, Dr. Lowrey has been offered the United States Senatorship by the Democrats of Mississippi, but he steadfastly refuses to be turned aside from his life work of Christian education.

He will speak three times to the people of Plainview next Sunday. H. H. STREET.

PROGRAM FOR MYSTIC CLUB, SATURDAY, FEBRUARY 21.

Leader—Mrs. L. S. Kinder.
Roll Call—Present-day Progress in Ecuador.

Lesson—Chapters VI, VII and VIII, South America.

Magazine Review—Mrs. R. W. Branhan.
Paper—"Some South American Presidents"—Mrs. L. Lee Dye.

FAITHFUL SERVANT PASSES TO REWARD

Dan Jones had Spent Fourteen Years in Active Service; Raised in Bell County

Dan Jones passed away at 2 o'clock this morning. While none of his relatives were at his bedside a number of his friends were with him to do all in their power to make his going easy. Dr. Barr of this city was in attendance at the time of his death.

Dan took sick suddenly about 9 o'clock yesterday evening. His friends noticed that his appearance was not as usual but thought it was only a slight attack of indigestion. A little later he went to his bed from which he never again arose.

Dr. Barr did all that was possible to lessen the pain. Shortly after 2 o'clock Dan closed his eyes for the last time and breathed no more.

Dan Jones was born in Bell county fourteen years ago. When six years old he came to this city. Since his coming to this country he has been prominent in the upbuilding of the community and has done many a faithful service to his friends. He lived at 300 North Grover at which place the funeral rites were held this morning.

Dan's owner states that it may be possible that Dan's harness can be shortened to fit another horse which will have to fill Old Dan's place.

PEARSON ANNOUNCES FOR CITY ATTORNEY.

The Herald has been authorized to announce the candidacy of L. R. Pearson for City Attorney. Mr. Pearson has lived in Plainview a long time. He studied law at the University of Texas, and has been associated in the practice of law with Otis Trulove during the past year.

T. E. Richards and Miss Mittie Higgins, trimmer for the Rich-lier Store, will return tomorrow from the Northern and Eastern markets.

Mrs. F. Jones who has been visiting in Hereford for the past few days, returned home today. She was accompanied by her mother Mrs. Barnetson.

Mr. and Mrs. H. M. McDonald of Keyser, West Va., passed through today enroute to Floydada where they will make their future home.

Judge W. B. Lewis visited Center Plains School to-day.

The Reporter—An Assignment

The fifth house from the corner in this row—
Little black tents against the night sky's indigo.
Beside the door I flashed a match to find
The number right—and sudden blankness took
my mind!

I hesitated, peering from the gloom
Beneath the shade into the yellow lighted room,
Curious, justly, in my errand's name;
And then I blamed myself, though I was not to
blame.

A woman sat beside a table spread
For one, but supper time was hours past; her head
Bent low for listening, while at her thighs
A sleepy child was frowning, gouging fists in eyes.

The woman stirred; I saw her young, worn face.
She glanced, impatient, puzzled at the empty
place.

I gulped, and knocked. God knows the words I
said!

I asked her, somehow, if she knew that he was
dead!

—Paul Scott Mowrer, in the Smart Set.

"OUR FUTURE WIVES" WARNED

Boys of Tulane University Form Club and Issue Proclamation

"WHAT TO WEAR"

Students Threaten to Boycott All Who Fail to Comply With Rules

NEW ORLEANS, Feb. 19.—Not since the days of the cave men has masculine assurance dared issue an ultimatum to femininity as that just sent by the organization of the students of Tulane university known as "Our Future wives" club.

The club has as its purpose the dictation of dress selection of every woman. It is an organization of young men who have developed the stern purpose of correcting female faults and of widening the scope of choice they may have in the choosing of women for their future wives.

The fifteen members of the organization have pledged themselves to taboo socially every young woman who does not literally adhere to the list of regulations which has been prescribed as dress limitations. Young women who refuse to be guided by the ukase of the club will find that none of the young men will extend any social invitations to them, they will discover, it is promised, that they have been sadly and most completely 'cut.'

At its annual meeting the club drew up and adopted a proclamation. This document was mailed in copy to every young woman student in Newcomb college. The young women recipients read the following:

"1. We will look upon no young woman who favors or spends more than \$15 a year for hats. Only one hat should be worn throughout the year. We think it possible that hats may be trimmed over and worn for several years.

"2. No cosmetics should be used. Powder might be used in case of sallow girls.

"3. Perfumes are absolutely under the ban as a needless and disagreeable expense.

"4. Additional hair should not be bought. It is extravagant and contrary to the purpose of nature.

"5. Not more than \$40 a year should be expended for dresses and suits.

Wedding Ring Jewelry Enough
"Jewelry, with the exception of a wedding ring, is no adornment, to our way of thinking. Off with diamonds, rubies, pearls and the like.

"7. Silk stockings are the one extravagance allowed. Scientists say that silk stocking prevent the wearer from being struck by lightning.

"8. Five dollars a year is the necessary amount for shoes.

"9. Lace of all descriptions, making for an appearance of frivolity should not be used in dress.

"10. All other necessities of dress should not cost more than \$25 a year."

BENEDICT SELLS PRIMM ENGINES FOR IRRIGATION.

TULIA, Tex., Feb. 20.—Klaus & Sons have purchased an 80-horsepower Primm engine from P. C. Benedict. Mr. Benedict has also sold Vaughn Bros. an 80-horsepower Primm. Both of these parties will use the big engines for pumping their wells, with which they expect to irrigate considerable acreage this season.

ALBERTA PLOWS RUN ALL NIGHT

A Missouri Preacher's Independent Income

CROP FAILURES

But He Is Well On Way to Success Now On His 2,000 Acre Wheat Ranch

FULTON, Mo., Feb. 20.—The Rev. Lacy P. Scholling, a former Missourian, a graduate of two universities and two Bible colleges, who left the pulpit when he discovered that he was hindered in his work by ultra-conservative members of his flock, has come back to Fulton for a visit.

Seven years ago Scholling was a student at the University of Missouri, and of the Missouri Bible College at Columbia. While pursuing his studies he preached once a month in a neighboring town and after his graduation at Columbia he went to Chicago where he completed a course in the University of Chicago proper and the divinity school. He went to the state of Washington where he preached two years.

It was there that he felt the need of a competent income so that he could continue his ministerial work unhampered. He went to Alberta Canada and bought 2000 acres of wheat land from the Canadian Pacific Railway.

Had Much to Learn

In this enterprise he was assisted by his father and brothers. He purchased a gasoline tractor and gang plow that would turn 40 acres of sod per day. The first season he plowed about 1000 acres of the land and reaped no harvest. The second and third proved likewise.

He knew a great deal about theology but soon found that he would have to learn a great deal more about the farm operated on such a large plan. Scholling said today:

"The first season I had every imaginable obstacle. I had to buy an oil engine and my machinery at a big outlay of money, perhaps \$8,000. had to haul gasoline in wooden barrel for fifteen or twenty miles. Anyone who is experienced with gasoline knows that it is a very volatile fluid and easily evaporates. I had to use gasoline to plow the sod as coal for fuel was out of the question. The Canadian duty on gasoline was high enough and the price of fuel was staggering. I am now paying 21 cents per gallon for coal oil for fuel.

Unlike Missouri Farming
"Farming in Missouri is as unlike the method in the Northwest as day is unlike night. The sun shines nearly all night up north and we run our gang plows 24 hours a day. The sun sets about 10 o'clock and rises about 3 but it never gets real dark and with the assistance of an acetylene headlight we have no trouble in turning the prairie sod all day and night. Our forces shift at 7 o'clock at night and morning. By farming in that way we have to employ the services of an expert engineer and blacksmith to keep the machinery and plows in good condition, at wages from \$50 to \$75 per month. We get our hands from an employment agency at Calgary.

"We worked every day in the week at first. We had no place to spend our Sundays, and our neighbors were miles away. Our nearest neighbors today are about a mile and a half from us. We do observe the Sabbath

Girls Hit High Living Cost College Maids' New Menus

- ALL THIS FOR \$1.20
Some "Eats" in Bill Too.
Here is the makeup of a lunch for twelve, which costs only \$1.20 as prepared by Mills' college girls.
- Butter, 1/2 lb. \$.18
 - Bread, two loaves10
 - Lettuce, 6 heads10
 - Oil, 1 cup06
 - Eggs, 1-3 dz.10
 - Flour, 1/2 cup,02
 - Gelatin, 1 box15
 - Sugar, 1 1/2 lbs.07
 - Milk, 3 pints15
 - Chocolate, 1/2 pound12
 - Codfish, 1 lb15
- \$1.20

It was chosen because it combined food value with variety. Each luncheon was a marvel of delicacy, nutrition and economy. In no case did the cost exceed \$1.20 and in some it was as low as \$1.15. A dime in the hands of the student chefs made a wholesome meal on the dining table. The concoction of a savory 10 cent dinner achieved, the young caterers are now learning how to turn out mammoth bread puddings, batches of ginger bread 25 times the ordinary size and other desserts of a quantity to fill the sweet tooth of 120 diners. **Ginger Bread Too, Yum, Oh, Yum.** The catering is done on the college campus and the students enjoy the labors of the chef. Miss Esther Stelmback, a senior of the department of domestic science, had to take first turn at the wrestling with the huge batter of gingerbread. She had to buy plan and attend to the baking of the goody which was served in the college refectory to 120 girls. It was served on the minute and it wasn't burnt, heavy or soggy. The diners are very critical and consider it a breach of etiquette to ignore any shortcomings in cooking or seasoning.

- OAKLAND, Cal., Feb. 20.—The girls of Mills College, Oakland, have today dealt a blow to the demigod, High-Cost-of-Living. They have evolved a menu for twelve on a dime a guest and there is nothing cheap about it but the price. All the ingredients that a student needs for the noonday meal, not snubbing proteid, starch or flaver, can be found in this three course luncheon of—
- Lettuce salad with dressing.
 - Codfish balls.
 - Bread and Butter.
 - Snow pudding with custard sauce.
 - Chocolate.
- The menu is one of thirty submitted by the students in the new course of

The three wathwords of the college chefs are palate, purse and proteid. The usual order among caterers is reversed and the girl students learn the science of getting the most food value for the least money.

now in our crude Western way. Some of the boys play the banjo while others make pictures and still some of them spend their spare time in hunting the gophers and wolves. Our houses are mere shanties. We have modernized them by putting in water. A hydraulic ram provides the pressure.

"We begin threshing in September and thresh until Christmas. We have our own separators and our graneries are on movable skids in the fields. The graneries are placed on the skids and dragged with the engine and separator to the cluster of shocks. Each granary holds about 60 bushels of grain.

Our average yield this year was 41 bushels of wheat per acre while his goig to the market at 70 cents per bushel. We have about 15,000 bushels ready for the market now.

"We have the choice of an Eastern

Market through Winnipeg or a Western Market through Vancouver. The Western market is better. If we don't want to sell our grain the railroads will store it for us in carload lots at 5 cents a bushel for three or six months and by means of options in the grain market we can insure ourselves against sudden drops in the grain market.

"Our weather is little colder to us than yours, although our ground frosts six to seven feet each winter, for which reason the water and sewer pipes of Calgary, about fifteen miles from our farm, are laid about 15 feet deep. A glimpse of the northern light is worth a trip to our country from Missouri.

"I expect to continue to preach but I want to preach independently and in my own way. I am going to continue to farm."

Several Hundred Dollars In Prizes

TO BE DISTRIBUTED BY

THE TWICE-A-WEEK HERALD

In Its Grand Piano Voting Contest

The Capital Prize Which Will Be Given By

The Herald

is to be an

Elegant \$400 Obermeyer & Sons Piano

Like Cut Shown Here

Many of the Merchants of Plainview have contributed valuable prizes and will give "Herald"

Vote Coupons

with Cash purchases

Rules and Regulations Governing Contest are as Follows:

1. ANNOUNCEMENT.—This Piano and Popular Ladies' Voting Contest will be conducted fairly and honestly on business principles, strictly with justice and fairness to all concerned. With the above principles, it will be an assured success.

2. PRIZES.—The capital prize will be an Obermeyer & Sons' Piano. Also other valuable prizes to the amount of many dollars, which are announced herewith.

3. CANDIDATES.—Young ladies in this and adjoining towns are eligible to enter this contest, and the party receiving the largest number of votes shall receive the beautiful \$400 Obermeyer & Sons' Piano, and other premiums will be distributed in accordance with the contestants' standing at the final count.

4. TIE IN VOTES.—Should any of the contestants tie in votes, The Publishers Music Company will award a similar prize according to standing at the final count.

5. VOTES CLASSED.—Votes will be issued in the following denominations:

New Subscriptions, 600 votes	\$ 1.50
Renewals, 500 votes	1.50
Renewals, more than one year, 600 votes	1.50
Back Subscriptions, 400 votes	1.50
5 years New Subscriptions, 5,000 votes	7.50
10 years New Subscriptions, 12,500 votes	15.00
20 years New Subscriptions, 30,000 votes	30.00

INSTRUCTIONS.—Results as to standing of votes will be issued after 30 days. No votes accepted at less than regular price of paper concerned in this contest. No one connected with this paper will be allowed to become a candidate in this contest or work for contestants.

Votes after being voted cannot be transferred to another. Be sure to know whom you are going to vote for before coming to the ballot box, as the editors or anyone will positively not give any information on the subject. The key to the government ballot box shall be in possession of the awarding committee during the contest.

For the first 30 days the paper will run a 25-vote coupon, which can be voted free for any lady contestant.

Contest to run not less than 90 days. Closing of contest will be announced 25 days in advance of closing. The right to postpone date of closing is reserved, if sufficient cause should occur.

The contest shall close on a day which will be announced later. Ten days prior to closing contest the judges will carefully lock or seal ballot box and take same to the Citizens' National Bank, where the same will be in a place where voting can be done during business hours and locked in a vault at night until close of contest, when the judges will take charge and count same and announce the young ladies winning, in their turn.

The last ten days all voting must be done in a sealed box at the bank. If you do not wish anyone to know whom you are voting for, place your cash for subscriptions, together with your coupons, in a sealed envelope, which will be furnished you, and put same in ballot box. This will give everyone a fair and square deal.

Call For and Save Your Tickets Beginning TODAY for Some Young Lady Will Appreciate Them

CRITICAL PERIOD IN POULTRY YARD

Chickens Must be Closely Watched and Hatching Prepared For at Once

How about that incubator? If you have decided that you are going to have one this season get your order to the manufacturer early so that you will not be disappointed by a tardy arrival at the freight station.

For hatching an extra-early stock incubators should be laid in the middle of the month. This will give you chicks early in March and with careful brooding they should be ready to lay in the fall, when eggs are scarce.

Many amateurs, however, especially those who are interested in Mediterranean breeds, defer starting their incubators before March 1. Those who raise the American or Asiatic varieties would do well to start early as these breeds take longer to develop.

Be sure that your flock has been built up for an effective breeding season. It is cheap insurance against poor hatches and puny chicks to use eggs only from healthy, vigorous stock. Separate the best matured and developed stock from the others, feed them well, and use only their eggs for the hatching purposes.

Many authorities give as an absolute rule for success in mating pens for breeding, to place 2-year old males with pullets and cockerals with the older hens.

As soon as you complete the arrangement of your breeding pens dispose of your surplus males, reserving but one or two for possible change in the make-up of the breeding pens. The idle males are expensive loggers.

If you want to have some broilers this spring the incubators should be started early in February.

If you folks have been kept in doors all winter be sure that the weather is fairly settled before turning them out toward the latter part of this month. Sudden changes are very often disastrous. The cold, damp days of early spring leave much havoc in their wake in the poultry yards.

If you want to utilize the service of some of your broodery hens this summer, be sure that they are in earnest before you place any eggs under them. Hens that are broody in the early months are very often changeable, just like the weather this month.

Be sure that your water supply is ample and clean at all times. Another wise precaution is to see that the eggs for hatching are not chilled in the nests before gathering them. Eggs reserved for hatching should be kept at a temperature of from 50 to 60 degrees, and on their side. They should be turned once or twice a day.

Don't forget the three evil D's—draft and dirt. All of them are costly to the poultry keeper. If you have glass doors in your poultry house look to it that they are cleaned often. A lot of sunshine may be kept out by the dust that is the result of a scratching litter and settled on the glass.

Before you start your incubator run it a few days before putting in your eggs to be sure that it is in running condition.

RUNNING-WATER

RUNNINGWATER, Texas, Feb. 20.—Mr. and Mrs. Wright entertained several friends at dinner last Thursday. Those who enjoyed the day with these hospitable people were Mr. and Mrs. C. F. Knight, Lewis Knight, Donnie Knight, Mr. and Mrs. Farmer Locke, Miss Fannie Locke and Walker Locke.

Mr. and Mrs. Ed Monzingo, who had the misfortune to lose all the household goods in a fire some weeks ago, are the guests of Mr. and Mrs. J. E. Stewart.

The Misses Locke entertained a number of their friends on the 14th. The young ladies met in the afternoon for a "quilting bee." Supper was served at six o'clock, and later in the evening delicious refreshments were served to the young men and young ladies, and also to a number of the older folks.

LITTLEFIELD

LITTLEFIELD, Lamb County, Tex., Feb. 20.—Mr. G. T. Hillburn, one of Littlefield's pioneer settlers, died early Monday, after a brief illness in which pneumonia developed, and he was buried this afternoon. He is survived by a widow and six children. This is the first death that has occurred in this community and the first grave to mark the site of the cemetery.

C. J. DUGGAN, Correspondent.

this church in our midst. Rev. A. B. Roberts, of Plainview, will preach the first sermon in this church since its removal to Runningwater on next Sunday, February 22nd, at 11 o'clock a. m., and Rev. J. N. Coker will fill his regular appointment in the afternoon and evening. R. E. Fruin, assisted by the men of the neighborhood, is making the needed repairs on the building.

Monday afternoon while lowering the church building, after its removal here from Plainview, one of the jacks slipped a cog. Mr. Fruin was struck by the handle and rendered unconscious for some time, but no serious results followed the accident.

The Sunday School, organized here one month ago, is being well attended. Sunday night a prayer meeting was organized.

Mrs. L. A. Matlock and daughter, Neta, were in Plainview Tuesday. Misses Dorothy Matlock and Lois Morton spent Saturday night with Misses Winnie and Allie Edmonson.

Allie Marie, daughter of Rev. and Mrs. B. L. Ray, is quite sick with whooping cough.

HALFWAY

HALFWAY, Texas, Feb. 20.—Sunday School at Halfway is improving.

There will be preaching here Saturday and Sunday by the pastor, Rev. W. R. Triplett.

Mrs. R. L. Hooper called on Mrs. Willis Tuesday evening.

Mrs. W. D. Hooper was a pleasant caller at Mrs. Triplett's Friday afternoon.

Mrs. Miller visited with Mrs. Emerson Monday.

A few of the ladies decided to spend the day with Mrs. Triplett on Wednesday, the 11th, and as it was Brother Triplett's 42nd birthday, she gave him a surprise birthday dinner, and it was truly fine. The afternoon was spent in pleasant conversation and music. All left feeling that Brother and Sister Triplett are generous entertainers, and wishing for Brother Triplett many happy birthdays.

Misses Sadie and Bernice Miller entertained with a nice dinner on Saturday for the following guests: Misses Ruby, Ploma and Lenell Triplett, Corine and Mattie Heath and Mildred Emerson.

Misses Ploma and Lenell Triplett spent Friday night with Misses Sadie and Bernice Miller.

Mrs. Emerson took little Joe to the doctor Saturday.

Little Mary Triplett and Joseph Emerson have been on the sick list but we are glad to report them better.

Mr. Emerson has sowed about 40 acres of oats. The land is in fine shape.

Mr. Miller had business in the city Saturday.

HERALD PIANO CONTEST CLOSES MARCH 27TH, 1914.

—at— I P. M., SHARP.

On the counts made of the ballots on February 17th, the vote of the respective contestants on this count was as follows:

It is only a few days now until the final count, and we urge upon you the necessity of getting out and doing a little hard work. No one contestant is so far in the lead that any other of the contestants cannot pitch right in and make a winning race, but you must put the "punch" in your work to do so.

You cannot wait until two or three days before the final count and then feverishly work yourself to death and hope to make any headway. It cannot be done! START NOW! WORK TODAY, TO-MORROW AND EVERY DAY up to the closing date. Work systematically and cover your territory thoroughly. Your friends are all willing and consider it a privilege to help you, so get busy and see them.

On the final count the bonus offers will be:

For seven new subscriptions the contestant will receive 4,200 votes and a bonus of 8,000 votes, making a total of 12,200 votes.

For seven renewals contestant will receive 3,500 votes and a bonus of 6,000 votes, making a total of 9,500 votes.

For seven back subscriptions contestant will receive 2,800 votes and a bonus of 4,000 votes, making a total of 6,800 votes.

For 40 Merchants' Coupons contestant will receive 1,000 votes and a bonus of 1,000 votes, making a total of 2,000 votes.

ALFALFA CLUB BACK EAST

From the Boston Transcript. Worcester county has an Alfalfa Club which has had one meeting this year at which about forty towns were represented and will hold another soon to consider ways and means of developing the crop from which at takes its name.

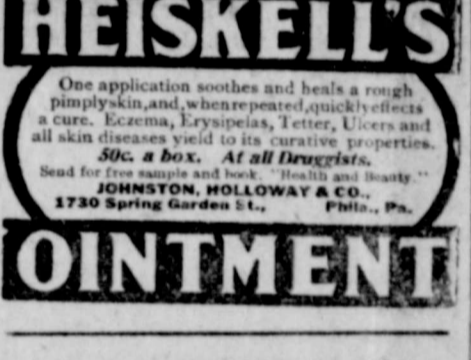

Interest in this most valuable of the forage plants has been extending gradually from the West to the East. It does well in Ohio and is gaining a profitable footing in New York, so there is apparently no good reason why it should not be made one of our New England staples. It is one of the richest nitrogen bearers in the entire list of forage crops and improves the land as well as furnishes the best kind of food for all kinds of stock.

If alfalfa could be raised here generally it would not only be a boon to the dairymen but would encourage the raising of beef cattle, which is an industry that should be revived in this section.

From Boston Transcript. Marjorie, age 5, had been given some chocolates of various sizes. Picking up a little one she said: "This is a baby chocolate," and of a large one, "this is a mama chocolate." She then swallowed the smaller chocolate and lifting the larger one to her mouth to eat it also, said: "Don't cry baby, your mama is coming."

HEISKELL'S OINTMENT

One application soothes and heals a rough pimply skin, and when repeated, quickly effects a cure. Eczema, Erysipelas, Tetter, Ulcers and all skin diseases yield to its curative properties. 50c. a box. At all Druggists. JOHNSTON, HOLLOWAY & CO., 1730 Spring Garden St., Phila., Pa.

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEDFORD'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

The Baking Powder Question Solved

Solved once for all by Calumet. For daily use in millions of kitchens has proved that Calumet is highest not only in quality but in leavening power as well—unfailing in results—pure to the extreme—and wonderfully economical in use. Ask your grocer. And try Calumet next baking day.

Received Highest Awards

World's Pure Food Exposition, Chicago, Ill. Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or inferior baking powder. Don't be misled. Buy Calumet. It's more economical—more effective—gives fresher results. Calumet is far superior to your milk and soda.

LOCKNEY

LOCKNEY, Texas, Feb. 18.—Everything seems to be moving along in the even tenor of the way. The earliest and best preparations for crops are now being made.

Mr. N. A. Guire and daughter, Miss Grace, of the Mickey community, were shopping in Lockney to-day. Miss Grace will remain in Lockney, the guest of Mrs. J. B. Downs, throughout the week. Mr. Guire is a progressive farmer from California, and says he sees a great future for the Shallow Water Belt of the Lockney and Plainview countries.

Mr. C. E. White, the seed man, from Plainview, was in Lockney the other day and left a nice display of seed with the E. P. Thompson Hardware Co.

We learned to-day that Felix H. Jones, of Gatesville, who was just recently tried for the murder, last August, of Frank J. Battle, was acquitted by a jury of twelve honorable men. His many friends at Plainview and Lockney will be glad to know that he has been vindicated.

Your correspondent is an ardent reader, and I would like to say that The Evening Herald is the best and quickest daily I have ever read.

FLOYDADA

FLOYDADA, Texas, Feb. 20.—A light rain fell here this forenoon. A cold northwest wind is blowing now, with prospects of snow.

Mr. O. P. Darsey is in Chicago on a combination pleasure and business trip, he having left Saturday.

Miss Myrtle Nelson is home on a visit to her parents. She is a student in Wayland Baptist College, at Plainview.

The Carnation Club held open session at the home of Mr. and Mrs. W. L. Boeuer on Friday evening, February 13. Rook was the diversion of the evening. At the close of fourteen games, Miss Anna Irick proved to be the successful one, she having won twelve games. Refreshments were then served, consisting of the following: Marshmallow salad in tinkle cups, rosettes, cheese straws, Jello with whipped cream and cherries. The color scheme of white and pink was beautifully carried out. About 50 guests were present.

Messrs Roy K. Bruner and J. C. Darsey made a trip to Plainview last Tuesday, returning on Wednesday. They report a lively time in the little city.

Jno. Fawver, of Plainview, is here, having arrived Wednesday. He is making a visit to his little daughter who is here with her aunt Mrs. Altman.

The younger set enjoyed a social at the home of Mr. and Mrs. E. B. Thompson Friday.

Ira Gamble is in Dallas this week attending the convention.

The Misses Nelson who have been visiting their uncle, Harry Weatherly and family left yesterday for their home in Clarendon.

At a call meeting of the Democrats at the court house last Saturday Rev. G. W. Shearer was elected as a delegate to attend the Prohibition Convention to be held in Fort Worth on Feb. 23. H. E. Smith was elected as his alternate.

CHALK

CHALK, Texas, Feb. 20.—Rev. Spears preached here Sunday at 11 o'clock to a large crowd.

Mr. and Mrs. C. S. Lewis spent Sunday with Mr. and Mrs. Merchant.

Miss Allie Glover and Mr. Garland Glover spent Saturday night and Sunday with Miss Olga Hurst.

Misses Ermine Vining and Ottis Bryan visited Miss Bess Delany Sunday.

Our basketball boys played Ginsite Saturday, the game resulting in a high score for Ginsite; but our boys were not used to playing without rules, so that accounts for the beat.

Calvin Merchant was painfully hurt by a fall one day recently, getting a bruised hip. The injury, though painful, was not serious.

Leonard Reufra and Wm. Stinson were transacting business in Paducah Saturday.

Bruce Spears received a telegram to go to Fort Worth Sunday. He will

likely be back this week.
Miss Lena Anderson was on the sick list Saturday and Sunday.

There was a singing at the home of Mr. and Mrs. Chas. Delansy Sunday. A large crowd was present and all report a good time.

LUBBOCK

LUBBOCK, Texas, Feb. 20.—A special train consisting of four cars with a large number of officials stopped here yesterday on their inspection trip over the new cut-off. New train service will be inaugurated on March 1st. This will consist of a daily local passenger from Clovis to Lubbock; also a local freight each way. This arrangement is temporary, as it is the intention to put on through service as soon as possible.

GEO. W. BRIGGS

SNYDER

SNYDER, Texas, Feb. 20.—The Commissioners' Curt of Scurry County has ordered an election for April 4th on a proposition to issue \$15,000 of 5-30 five per cent bonds to pay for balance on the steel bridges already built in the county.

HALE CENTER

HALE CENTER, Texas, Feb. 20.—Last Saturday, at Hale Center, the basketball teams of Hale Center and Petersburg played a game of basketball. The game resulted in a score of 10 to 7 in favor of Hale Center.

Next Friday afternoon the Hale Center public schools will render a Washington program at the High School auditorium. Friday evening Mothers' Club will render a program at the same place, and use the proceeds to make a payment on the furniture of the reading room. The new rugs and chairs and tables make the reading room more inviting than it was before. Over \$100 has been spent for furniture for the room.

Many citizens of Hale Center have been attending court in Plainview this week.

Mr. Dan Lanford has put another barber shop in Hale Center. The one already here and Dan's make two.

Farmers are nearly "up with their work." They have their lands in fine condition and they are proud of the prospects for a crop.

TULIA

TULIA, Tex., Feb. 21.—Mr. George Walker, a prominent young man of the north part of Swisher county, was married to Miss Annie Wakefield, an accomplished young lady of Canyon, last Saturday night. The wedding took place at the home of the bride's parents. Sunday the bride and groom, accompanied by Miss Angel and Miss Ruth Wakefield and Mr. Cleveland Baker, students of the State Normal, and by Misses Ona and Dale Evans, of Happy, came to Tulia and were guests at a noon lunch spread by Mr. and Mrs. W. W. Stephenson. The happy young couple are at home at the Walker home, near Happy.

Mrs. George Weaver and Mrs. Lee Satterwhite returned Tuesday afternoon from Wortham, Texas, to which place they were summoned some ten days ago on account of the dangerous illness of Mrs. Weaver's baby, she having been in this country several weeks for the benefit of her failing health. So much does this climate agree with her that she brought the children with her on her return trip, and Mr. Weaver will arrive in a few days with his immigrant car and they will make Tulia their home.

Hon. Don H. Culton left to-day for Fort Worth to participate in the State Prohibition Democratic Convention Saturday. Mr. Culton was elected a delegate in the county mass meeting held here last Saturday, and was unanimously instructed to cast Swisher County's vote for Col. Thomas H. Ball as the choice of the prohibition Democrats of this county for Governor.

B. B. Bridgers, of Chickasha, Okla., is here looking after his ranching interests twenty miles northeast of

Tulia. Mr. Bridgers is authority for the statement that the Harris 5-section ranch 20 miles northeast of Tulia was recently sold to John Simpler, a prominent Oklahoma stockman. Mr. Simpler is expected to come here and take personal charge of his newly-acquired ranch.

Twenty wagons were here Tuesday to haul the household goods, etc., of three Nebraska families out to Nazareth, a prominent German colony twenty miles west of Tulia. These new families are John Heiman and two Messrs. Albright. There are more than fifty families now in the colony, and every improved farm in that enclaved.

Judge William F. Hendrix received a telephone message yesterday afternoon that his father was dangerously ill at Canyon. Judge Hendrix left immediately for the bedside of his aged father.

Rev. G. B. Airhart, who has just been called to the pastorate of the Tulia Baptist Church, is expected to arrive within the next few days, with his family, from Alvarado, and will be ready to take active charge of the work the first Sunday in March.

TULIA, Tex., Feb. 18.—Tulia's Chamber of Commerce held a very enthusiastic meeting this afternoon and several matter of importance pertaining to the development of Tulia were attended to.

A committee consisting of J. C. La Prade, cashier of the First National Bank, Judge W. B. Hale, president of the Tulia Bank and Trust Company, and Judge W. C. Dinwiddie, trading stockman of the county were appointed to visit Plainview and invite the Pearson Syndicate to begin development of their Swisher county lands with the assurance that our citizens will heartily co-operate.

The Syndicate lands consist of several sections in Swisher county and the fact that they understand and are financially able to develop the irrigated lands behooves the citizens of Swisher county to lend them every encouragement in taking the lead in this development which is certain to make Swisher county the home of many prosperous and contented irrigation farmers.

The wells now in operation assure this.

One of these wells is located near the railroad track four miles north of Tulia and a guaranteed test of 1,500 gallons of water per minute.

People who travel the railroad are constantly inquiring about this well and the Chamber of Commerce has instructed Secretary Dan. H. Culton, to have erected suitable sign boards calling the public's attention to the Klaus farm which is intended to grow 250 acres of irrigated feed crops this year, the water to be supplied from one well.

President L. F. Kirk was instructed to appoint a committee to arrange for a Get-to-Gether Banquet and invite one or two irrigation experts to be present at this meeting and address the meeting. This committee is composed of Dr. E. Lee Dye, G. C. Hutchinson and Dennis Zimmerman. They will arrange for this club banquet in the very near future.

HURLEY

Ashton Wilterding is visiting his mother and brother near Hurley this week.

Dr. Wayland drove over from Plainview in the interest of Life Insurance this week.

Geo. Doubleday of the Hurley Hotel is in Dallas this week.

Rev. R. V. Morehead has just returned from Pecos City, N. Mex., where he was called on account of the death of his brother.

Contract was let this week for a large irrigation well.

Hiram Bearden is moving a house from Fiona to the North End of the Hurley valley this week, he is moving the house a distance of forty-seven miles and is using thirty two head of horses.

E. H. Buhrman and brother are shipping a car load of fat hogs to the Ft. Worth markets this week. This is the first car of hogs to be shipped out of the Hurley valley over the new railroad.

Mr. Rutherford, our hustling coal dealer is unloading another car of coal this week.

Russell McDonald and wife are vis-

iting their parents at Hurley this week.

The box social given by the Pilgrim workers was a decided success. The baskets and boxes sold to the amount of \$21.

The Waman Bros. have sold their interest in the Hurley Machinery Co. to Mr. Sam Dillard.

Mr. Dillard with his brother, who is already a member of the firm will continue to operate the machine shops and sell and repair pumping machinery.

After April 1 Hurley will be a money order post office.

DIMMITT

DIMMITT, Texas, Feb. 18.—J. W. Houston and Miss Eunice Ewing, from the south part of the county, passed through Dimmitt Saturday in their Ford car, en route to Hereford.

Commissioners' Court was in session last week for three days, transacting the regular routine work.

The Court ordered a telephone installed in the Court House giving connection with the Castro County Telephone Company's line.

A number of rabbit ears were exhibited at this term of Court, making a total of 4,316 killed and presented to the Court since December 15. We feel that this will be of much good to the farmers and, as we all depend on the farmers, we feel that it is of benefit to all in Castro County.

The special election held in School District No. 8, at the Killough School House, on the 7th of this month to determine whether or not there should be a tax levy for not to exceed fifty cents on taxable property in said district, resulted in a unanimous vote in favor of said tax.

The Court ordered and has established four road precincts, and has made same to correspond with the Commissioners' Precincts, appointing only one overseer to each road district. The following men were appointed to supervise the work in their respective districts: Precinct No. 1, Simon Braddock; precinct No. 2, H. C. Jackson; precinct No. 3, Joe H. Green; precinct No. 4, A. C. Grant.

The farmers are doing considerable listing and harrowing, and they say that the soil was never in better condition for farming.

Rev. Hargin, of Happy, filled his regular appointment at this place Sunday and Sunday evening.

A number of citizens of Castro County met at the Court House Saturday and instructed R. M. Eller, of Plainview to cast their ballot at the prohibition convention at Fort Worth, on the 21st of this month, for the nominee for Governor.

Kenneth Rowan and Clarence Dixon left last week for Kansas City with two cars of sheep for the market which had ben fed on ensilage at the Dixon Ranch.

Mr. and Mrs. Beecher Rowan left Tuesday for Kansas City and other points in Missouri for a visit and to transact business.

G. L. McLean has returned from

New Mexico, where he has been for an outing. He reports a good time.

Dock Loveless has been in charge of the blacksmith shop for the past two weeks.

A. W. Taylor passed through Dimmitt Saturday with two large culverts, which he means to put on Running-water Draw, making the roads in that precinct in good shape.

It is generally understood that the C. T. Herring irrigation well, in the southwest part of Castro County, will be in operation this spring. We hope it will, and feel assured that if it runs it will be a success.

J. W. Houston has employed J. F. Easter, County Surveyor, to survey his land and lay out ditches. This land will be under irrigation this spring.

IN ANTE-RENO DAYS

"Wel, Thomas," said father, "what did you learn at Sunday school today?"

"Nothing!"

"Oh, surely there was some information."

"Well, Solomon hasn't lost any of his wives."

SEVERE BRONCHIAL COUGH

Doctors Feared Lung Trouble, Restored to Health by Vinol.

The medical profession does not believe that lung troubles are inherited, but a person may inherit a weakness or tendency to them.

Mrs. Kate Heckman, Springfield, Ohio, says: "A few years ago I was in a very bad run-down condition, and the physician told me I had consumption. I tried another physician, and he told me I had ulcers on my right lung. I quit the physicians and started on 'Vinol.' Today I am perfectly healthy, and that is why I recommend 'Vinol.'"

Vinol soothes and heals the inflamed surfaces and allays the cough. Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

P. S.—For any skin trouble try our Sazo Salve. We guarantee it. J. W. WILLIS DRUG CO., Plainview, Texas.

The Stomach Is the Target 
Aim to make that strong—and digestion good—and you will keep well! No chain is stronger than its weakest link. No man is stronger than his stomach. With stomach disordered a train of diseases follow.
Dr. Pierce's Golden Medical Discovery
makes the stomach healthy, the liver active and the blood pure. Made from forest roots, and extracted without the use of alcohol. Sold by druggists, in liquid form at \$1.00 per bottle for over 40 years, giving general satisfaction.
If you prefer tablets as modified by R. V. Pierce, M. D., these can be had of medicine dealers or trial box by mail on receipt of 50c in stamps.

ALL KINDS OF GROCERIES
of the highest quality are always to be found in our establishment. Here you can find plenty of good things with which to grace your table and stock your larder. Tea, Coffee, Sugar, Butter, Eggs, Flour, Breakfast Foods, Canned Goods, etc., and all of the purest and best qualities are here at your call, and we deliver all orders promptly and correctly. A full line of choice Crackers and some superior qualities of Cheese. We solicit your custom and promise you satisfaction.
WRIGHT & DUNAWAY
PHONES 35 and 355

OATS THAT WON

And will "win" for you if you plant them. Ira W. Hall bought a few bushels of seed oats from us last season and produced more bushels and the best quality of oats than did any other farmer in Hale County. We exhibited these oats at the Amarillo and Dallas fairs and won the money; yet there are farmers who plant of the poorest to be had and then cuss this country for not getting their seed back. Say, brother farmer, better come in and get a few bushels to insure getting your seed for another year, a few cents extra for some real "SEED" will make you dollars at harvest time, and you will like the country fine and be a booster.

Plant the good kind and reap, or the poor kind and weep.

C. E. WHITE SEED CO., Plainview, Texas

BROWN & MILLER, Publishers

Began As Messenger.

Charles N. Whitehead has been appointed vice president of the Missouri, Kansas and Texas Railroad in St. Louis. He is 36 years old. Rather young for a position so responsible, isn't it?

In 1896 he began work as a messenger. His work was well done; off hours were used for study. He mastered shorthand and became a stenographer in the New York offices of the "Katy."

It was not until 12 years had elapsed that the messenger-boy-stenographer received any notice from his superiors. At least, that is the way it seemed to outsiders. Evidently notice had been given him, for in 1905, from the position of stenographer to the general counsel, he was made assistant secretary. In 1906 he was made secretary, and in 1909 he became secretary and treasurer.

Nine years ago Charles N. Whitehead was stenographer; to-day he is vice president. Twelve years of plodding preparation laid the foundation for that meteoric advancement. It was the attention to the duties of a messenger that made it possible for a vice president to grow. He did the little things well.

His enemies made the great Greek philosopher and statesman scavenger of Athens in order to humiliate him. "If the position does not honor me, at least I will honor the position," the great man said as he took up his onerous duties. His enemies were beaten and hushed.

Anything that comes your way, young man, is worth doing well. The bigger the man the better he does his job—always!

The human race is divided into two classes—those that go ahead and do something and those who sit and inquire "Why wasn't it done the other way?"

Chester N. Whitehead went ahead and did something—and did it well. He is vice president of a great railroad system at 36 years of age. He climbed there from stenographer in 9 years. But he spent 12 years as messenger, clerk and stenographer.

The despicable little things are stones out of which your temple of success, as well as your character, is built.

Preserving a Climate.

Telegraphic reports yesterday and to-day indicate another devastating flood in California. The suffering and loss caused by these floods invoke sincerest sympathy. Yet some of California's citizens are so staunch in the denial that there is any flood condition that one loses his regrets in his admiration for the heroic in the Golden State.

The Chicago Tribune says:

"California's struggle with the elements is heroic, and, although any mention of it is bound to give pain, if not to cause anger, it deserves comment. The generally glorious climate of the West Coast has its days off and is subject to some of the accidents which are bound to happen in the most blessed vales, but California, content with nothing but perfections, eliminates them by denying them."

"Inasmuch as a Californian's enjoyment of other folks' meteorological mishaps is something akin to ecstasy, we are privileged by precedent to examine the rare humors of a censorship of weather."

"I know it is not polite," writes Edward F. Cahill in the San Francisco News Letter, "to mention floods or earthquakes anywhere in California. I know a case where a San Francisco daily paper lost hundreds of subscribers in a certain interior city because it printed a sensational account of a flood, with pictures of prominent citizens being ferried across the streets in boats. The newspaper was accused of maliciously giving a black eye to the town. Right now two Stockton papers are engaged in slang-whanging competition of mutual abuse because the Mail printed a flood forecast and warning for the town, issued by the Government prophet in Sacramento, and forgot to call him a liar. The rival paper at once caught up the lapse, and accused the Mail of issuing a special 'flood extra.'"

"So in the Chico Enterprise the other day I saw a solemn editorial warning addressed to its contemporaries forbidding them to use the word 'flood' in any sort of connection with the town of Chico. At the same time, the editor felt himself free to print an entertaining story of small boys chasing fish on one of the main streets of the town."

Such little eccentricities as occasionally mar the conduct of the generally glorious West Coast weather are bound in the end to be eliminated by this rigorous censorship. Deviations from normal will be prevented by ignoring the deviation.

"Has a merchant who handles umbrellas and raincoats any social standing in California?"

Shallow Water Farmers Lea.

You have probably read the dispatch published elsewhere in this issue from our staff correspondent from Lubbock, who is making a trip through the South Plains country in the interest of its farmers.

In his article he says: "South Plains farmers have always been good home-builders, but they have of late put forth extra effort, seemingly, to make their residences attractive. It is not that the houses are more expensive or elaborate. The overshadowing point is that whatever is built is substantial, sanitary and convenient."

What better evidence could be asked for to demonstrate that the farmers in Northwest Texas are alive to their necessities and opportunities?

Thought, study and care are to-day making home dwellings and out-houses on the farms more "substantial," more "sanitary" and more "convenient" for the same amount of money which was expended formerly on the old-style structures.

Farmers in this Shallow Water country don't wait to be led. They lead.

They lead in home-building, as in many other respects.

The Agony of Christ In Gethsemane By "Billy Sunday"

"And being more in agony he prayed more earnestly; and his sweat as it were was great drops of blood, falling down to the ground."—Luke xxii: 44.

Infidel have seized upon certain verses of Scripture and have given as a reason for their unbelief that the statement therein contained did not agree with their opinion. One of these verses is that which I have just read,—"and being in great agony, he prayed more earnestly; and his sweat was as it were, great drops of blood, falling down to the ground."

For, says the infidel, it is a physical impossibility for a man to sweat blood. This is a lot of nonsense because you have two good eyes and have always known good sight, should you say there are no blind. They have never heard of such a happening they say; alright, but because you say that you never heard of a man sweating blood don't say that God didn't.

When I was a boy I used to hear men say that the Bible could not be true as it was absolutely impossible for a man to fast forty days and live. They thought that settled it, but along came Dr. Tanner and he fasted for 40

days, and he fasted a third time for sixty days and after that we did not hear anything more about a man not being able to fast forty days. The infidels quit quoting Tom Paine's "Age of Reason" on that point.

When a man gets chesty and puts his old theories up against God then God always brings a man forward to show that he is an old marplot and an old liar.

Dr. Witheroy, Pastor of the Presbyterian church in Chicago,—he went there from Boston—says he knew of a man who had a wayward son. He had not heard of that boy for nine years. Then one day, they sent him word that he was in prison. He had committed a murder and had been tried and was about to be executed. He had refused to tell anything about his family until he was face to face with death, then he told them and they wrote to his father to ask what should be done with the body.

Dr. Witheroy said that in his agony the father sweat drops of blood. If an earthly father sweat drops of blood for one son who had done wrong it is strange that Jesus sweat drops of blood for all men who were in danger

of hell?

When Jesus sweat drops of blood there in the garden it was a new sight for the angels. The had seen their brother angels rebel against God and the yhad seen the conflicts that followed and they had seen their brother angels buried over the battlements of heaven. The had seen Sennacherib come up with his men and they had seen 180,000 Assyrians laid low with the sword when the ange lof God smote them in the night. They had seen Shadrach, Meshack and Abednego cast into the fiery furnace for refusing to bow themselves down to idols and had seen them come out from it unharmed. The had seen the brave Daniel hurled into the lion's den for refusing to bow the knee to anyone save Jehovah and they had seen him come out from that old den of wild beasts alive. But never before had the angels beheld such a sight as when they looked down upon the garden of Gethsemane and saw the son of God kneeling there, sweating drops of blood as he agonized over man.

In this text there are many lessons valuable to us and especially valuable just at this stage of the campaign.

The first lesson is that the divine cup is bitter. It is bitter to fallen angels and to fallen man and it was bitter to the fallen Christ. Think of the sight. Think of Jesus staining his garments with the blood sweat not because of any fault of his own or of any sin, for He was without sin, but because of His anguish over man.

God hates sin and so do I. So will every man on this earth who lays a claim to decency. If you don't hate sin you will if you ever change your ways and try to be decent.

He didn't sweat those drops of blood because of any physical suffering. It wasn't because of any fear of death for if Jesus had been afraid to die He would have been a coward and He was no coward, although he would have been if God had said to: "I don't want to die. I want to stay here as long as I can and so did Jesus but He was not afraid to die. No. He was because of his grief for man."

A great martyr said as he stood in the midst of the flames that were devouring his body: "Though you see the flesh fall from my body, I absolutely feel no pain."

I you every had any doubt about a literal hell, a fiery hell, when men remain forever, it would al vanish as I see Jesus Christ in the Garden of Gethsemane, agonizing because men would not accept Him and were going to hell.

Hell must be an awful place. The fact that God went to the trouble He did to send Jesus Christ to this earth to work out His plan of redemption proves that it must be an awful place. I think it should give us a new vision.

Yes, it was a bitter cup for Jesus.

Oh! don't be careless professors of Christianity for another minute. Don't you dare to make a cold, formal prayer when you come to address the Almighty God! Don't you dare to regard this campaign in a critical and carping way. Oh hell must be an awful place when Jesus was in such agony to think that men were going there. You're a big fool if you go to hell but it will be your own fault if you do. God don't want you to go there. He has sacrificed his son and what more could He do? I am doing all I can to keep you out of hell. I have stood here and preached and did all I could and if you won't be saved, all right!—Go to Hell.

When Jesus was being led out to be sacrificed women followed Him and wept and he turned to them and said: "Daughters of Jerusalem, weep not for me, but weep for yourselves and children." For he said "For if they do those things in a green tree what shall they do in a dry?" Jesus meant that they should not weep for Him but for those who were about to crucify Him. He meant there was more reason to weep for them than for Him.

So don't weep for other troubles but weep for your own souls; don't worry about my vocabulary sister, but get on your knees and pray for your own salvation. Don't worry over my accents, you'd better olok after your own faults. The Jews pressed the cups to His lips and told Him to drink. Jesus said: "Isn't there some way in which I can avoid this?" and God said: "No, there is no other way" and Jesus drank the cup.

We learn still another lesson—the power of prayer. Every man and every woman that God has used to halt this sin cursed world and set it going Godward has been a Christian of prayer. Martin Luther rose from his bed and prayed at night and when day came he called his wife and said: "It has come." History records that on that very day King Charles granted religious tolerations for which Martin Luther rad prayed.

John Knox, whom his queen feared more than any other man, was in such agon yof prayer that he ran out into the street and fell on his face and cried "Oh God, give me Scotland or I'll die." And God gave him Scotland and not only that He threw England in for measure.

When Jonathan Edward was about to preach his great sermon on "Sinner in the Hands of an Angry God," he prayed for days and when he stood before his congregation and preached it men caught at their seats at the terror and some fel lto the floor and the people cried out. "Mark Edwards, tell us how we can be saved."

I believe that if you will pray as you ought to pray that you will have more people at the altar in the next week than you have had in al lthe weeks that have passed. Yo have never had the people of this community in such a frame of mind as they are now and you may never have things this way again. Now is the time to save souls. If you can't save them now God pity you for you never will.

An old infidel, a blacksmith, said he could refute any argument that a Christian could make. There was an old deacon there—he was a baptist. He told his wife and they got down on their knees and prayed until 3 o'clock in the morning. That morning the old deacon hitched up and drove over to see the man. He went into the blacksmith shop and the old infidel was standing there. He said: "My wife and I prayed for you until 3 o'clock this morning." Then his eyes filled with tears and he sobbed and turned away. He could not think of one of the arguments he had prepared. He drove back home and told his wife, "I have made an old fool of myself. It was all for nothing. When I saw him I just told him that we had prayed for him, then I broke and could not think of another thing to say, and came home."

THE DRUMMER EXPLAINS TO THE PORTER.

In the meantime the infidel went into his own house and said to his wife: "I heard a new argument this morning," and she said "What was it?" He said the old deacon drove over to the shop and told me that he and his wife had prayed for me until 3 o'clock in the morning, then he sobbed and turned away. And the infidel said: "Let's hitch up and go over to see them. I'd like to talk to him." And they drove over and told the deacon why they had come and it wasn't long until the old deacon had him on his knees and he was saved.

A mother had some daughters and they were frivolous, croquetish girls and she could not get them to give up their pleasures and live for God. She prayed for them and finally one day she said to them, "I am ashamed of you. I am almost sorry that I bore you and held you on my knee. You care more for other than you do for God and your mother. Others ask you to go with them and you go. I ask you to go with me and you won't go. I am going into my closet and pray for you. I don't know that I will ever come out alive."

She went in and prayed. The hours went by and still she prayed. Finally there was a knock at the door and one of the daughters stood there. She was weeping and said: "Mother, I want you. So the two went and prayed and the hours went by and presently another daughter came and joined them and before night came all of those girls had found Jesus."

Then we learn a lesson of a spirit of deep concern over the soul. The spirit of concern that we find in the Bible puts to shame many who are in Pittsburg. Some of you have been coming to these meetatain shrd been coming to this tabernacle ever since these meetings were begun but you have just sat there. You have not put fort ha hand to bring anyone to Jesus. If you are one of those you are absolutely worthless so far as God is concerned. He looks upon you as an unprofitable servant. How can you sit by when souls are going to hell? What are you going to say to God about it after a while?

Go and see an unsaved person die and read the obituary notice and realize that he was unsaved and see what you think of it. Someone may say. "How do I know how God feels about it? How do I know that heis really concerned over sinners. I know it. It would be a sinful presumption if I didn't. If God cared as little for the souls of men as some of you do not a soul would ever be saved. It is not possible for the human mind to have a greater conception for mind to have a greater conception of God than is revealed to us in Jesus Christ. For a man to say that he loves God and then turn his back on Jesus Christ is an insult to the Almighty. You will find in him just what your heart has been looking for and you will find it nowhere else. I have never seen a minister who preached doctrines, and creed, and evolutions and all such things who had any concern for his people. Jesus Christ is in a hurry to save this world and there never was an age when the people were so hungry for the truth as they are today. The angels don't care anything about railroads in Alaska. What do the angels care about political principals? What do they care about pictures of art and science? Theonly thing they are interested in is the souls of man. If you want to hear the bells of Heaven ring, get down on your knees. Tell a sinner about Jesus Christ if you want to hear the Heavenly bells. Nothing will swing open the prison doors and bring men out of sin like prayer. I can see Jesus in the garden and looking down on Jerusalem and saying Oh Jerusalem, Jerusalem, thou that killest the prophets and stoned the men which were sent unto thee, how often would I have gathered my children together, even as a hen gathering her chickens under her wings, and ye would not. It is a matter of history that from that Day Jesus turned away from the Jews. He never appealed to them again. He turned to the Gentiles—but God's got a plan for the Jews, so Jesus is God made manifest in the flesh. Did you ever weep over the sins of the people? Did you ever weep over the evils of the multitude? If you never did, then there is something wrong with your religion. If God Almighty had no more concern about Pittsburg than some of you, Pittsburg would have been in hell long ago. If God Almighty was no more anxious about Pittsburg than some of the preachers I could name, this city would have been condemned long ago. I've been here long enough to see that. Salvation all come through Jesus. You've got to see Jsus in order to see God and you've got to see God in order to enter Heaven. The hope of the world is in Jesus Christ. The hope of America is in Christ, not in free trade it is not the banking system; it is not the tariff reform, or conservation of natural resources or the ship problem or the currency. We don't need more

could refute any argument that a Christian could make. There was an old deacon there—he was a baptist. He told his wife and they got down on their knees and prayed until 3 o'clock in the morning. That morning the old deacon hitched up and drove over to see the man. He went into the blacksmith shop and the old infidel was standing there. He said: "My wife and I prayed for you until 3 o'clock this morning." Then his eyes filled with tears and he sobbed and turned away. He could not think of one of the arguments he had prepared. For a man to say that he loves God and then turn his back on Jesus Christ is an insult to the Almighty. You will find in him just what your heart has been looking for and you will find it nowhere else. I have never seen a minister who preached doctrines, and creed, and evolutions and all such things who had any concern for his people. Jesus Christ is in a hurry to save this world and there never was an age when the people were so hungry for the truth as they are today. The angels don't care anything about railroads in Alaska. What do the angels care about political principals? What do they care about pictures of art and science? Theonly thing they are interested in is the souls of man. If you want to hear the bells of Heaven ring, get down on your knees. Tell a sinner about Jesus Christ if you want to hear the Heavenly bells. Nothing will swing open the prison doors and bring men out of sin like prayer. I can see Jesus in the garden and looking down on Jerusalem and saying Oh Jerusalem, Jerusalem, thou that killest the prophets and stoned the men which were sent unto thee, how often would I have gathered my children together, even as a hen gathering her chickens under her wings, and ye would not. It is a matter of history that from that Day Jesus turned away from the Jews. He never appealed to them again. He turned to the Gentiles—but God's got a plan for the Jews, so Jesus is God made manifest in the flesh. Did you ever weep over the sins of the people? Did you ever weep over the evils of the multitude? If you never did, then there is something wrong with your religion. If God Almighty had no more concern about Pittsburg than some of you, Pittsburg would have been in hell long ago. If God Almighty was no more anxious about Pittsburg than some of the preachers I could name, this city would have been condemned long ago. I've been here long enough to see that. Salvation all come through Jesus. You've got to see Jsus in order to see God and you've got to see God in order to enter Heaven. The hope of the world is in Jesus Christ. The hope of America is in Christ, not in free trade it is not the banking system; it is not the tariff reform, or conservation of natural resources or the ship problem or the currency. We don't need more

could refute any argument that a Christian could make. There was an old deacon there—he was a baptist. He told his wife and they got down on their knees and prayed until 3 o'clock in the morning. That morning the old deacon hitched up and drove over to see the man. He went into the blacksmith shop and the old infidel was standing there. He said: "My wife and I prayed for you until 3 o'clock this morning." Then his eyes filled with tears and he sobbed and turned away. He could not think of one of the arguments he had prepared. He drove back home and told his wife, "I have made an old fool of myself. It was all for nothing. When I saw him I just told him that we had prayed for him, then I broke and could not think of another thing to say, and came home."

I believe that if you will pray as you ought to pray that you will have more people at the altar in the next week than you have had in al lthe weeks that have passed. Yo have never had the people of this community in such a frame of mind as they are now and you may never have things this way again. Now is the time to save souls. If you can't save them now God pity you for you never will. An old infidel, a blacksmith, said he

(Continued on Page Seven.)

Crescent Oil Engine Pumping Units for Irrigation

THE CRESCENT pumping unit has been especially designed to meet the demand for high efficiency, simplicity, fuel economy and to be operated by a workman of average intelligence.

THE CRESCENT OIL ENGINE is a two-cycle valveless type with hot-ball ignition. It is simple in construction, reliable and does not require constant attention while in operation. *The engine is designed for the use of low grade oils.* The consumption is less than one pint per brake horse-power hour.

THE CRESCENT pumping unit is made of the best material and workmanship. Before shipment a severe service test is given the engine. Only a small area of floor space is required.

The Crescent Oil Engine is for heavy duty, built for hard service and belongs to a distinct class of prime movers. Gasoline Engines burning the light distillates or illuminating oils, are not to be compared. Light duty engines are, as a rule, only fit for scrap after one year's hard service.

Troubles and Shut Downs are largely eliminated, as there are:--

No

- Exhaust or Intake Valves
- Cams, Gears or Push Rods
- Carburetors
- Batteries or Magnetos
- Electric Timers, or Spark Plugs

GERMANY RICHEST EUROPEAN NATION

Since Accession of Present Kaiser Carl Helfferich's Book Shows Germany has Passed Both England and France

INCOME OF 10 MILLION DOLLARS

Agricultural Production Has Increased in "Vaterland" While Falling Off in Rival Territory; France Richest Per Capita

(Foreign Correspondence.)
BERLIN, Germany, Feb. 5.—Germany is Europe's richest state. It easily beats France, both in total wealth and total income; and it beats England, too. In the whole world it is exceeded for income and wealth by the United States only.

People brought up on the notion of "poor Germany" now rub their eyes, but Germany's march to material pre-eminence is entirely of recent date; the whole process has taken place in the twenty-five years of the Kaiser's reign.

During the Kaiser's jubilee, last summer, the theme was dwelt upon within numberless anniversary books. It was put forward also in a commemorative work issued on the fortieth anniversary of its foundation by the great Dresdner Bank. Now it is dealt with by Prof. Dr. Carl Helfferich, an unchallenged authority, who emphatically proclaims that France and England, until lately Europe's two richest states, are far behind Germany in all that makes for material prosperity.

Professor and Millionaire.
Dr. Helfferich is one of the new Germany's most interesting personalities. He is known to the public mostly as director of the Deutsche Bank, as a prominent member of the antiagrarian Hansa league, as one of the scientific multi-millionaires who make Germany at once rich and learned. He is, however, more than this. He is a professor; he has helped to negotiate international treaties and has a diplomatic title; he is a traveler; is a friend of Kaiser Wilhelm; and, finally, he writes big books as easily as he writes big checks.

He has published works on colonialism, banking, trade policy, and half a dozen other subjects. He still is a youthful man, barely past forty. The book, "Deutschland's Volkswohlstand 1888-1913," is the latest of his literary achievements, and just now it is being quoted with chuckles of contentment by Germans who have worked to put their once hungry fatherland at the head of economic Europe.

Income Easy to Compute.
Helfferich's most startling argument is that Germany is richer than England in total income and total capital wealth. Most statisticians believed until lately that Germany's bigger working population gave it a bigger national income than France's, but that France was ahead in accumulated wealth. Helfferich shows that Germany is far ahead of France in national wealth as well as in income, and that it also is, though less markedly, ahead of England in both domains.

Germany, says Helfferich, owes this to its more rapidly increasing population, taken with a much higher average income than obtained when Kaiser Wilhelm came to the throne. In Germany income is fairly easy to compute, because the German states levy income tax on even small incomes. As a rule, the limit of exemption is \$180. The proportion of Germans exempted dwindles rapidly. In 1886 two out of three heads of families had smaller incomes than \$180. Fifteen years later the proportion had fallen to two-fifths. With a bigger population the number of exempted persons fell from 21,000,000 to 16,000,000, and the number who paid rose from 10,000,000 to 21,000,000. In former years the national income of Germany was \$5,250,000,000. In 1911 it had grown to \$10,000,000,000.

Average Income Per Person \$150.
A German's average income, counting men, women and children, is \$150. This is a large sum for Europe. In France, which counts as a rich country, the average income is only \$128. England is still ahead of Germany in average individual income, but Germany's much bigger population leaves England, as well as France, behind in total income.

Against Germany's total of \$10,000,000,000 stands a French national income of \$8,750,000,000 and an English national income of about the same amount. This comparison shows Germany with an income of \$1,250,000,000 more than its chief rivals, and if it liked to pinch its population it could spend every year an extra \$1,250,000,000 on armaments without reducing itself to penury.

In total capital wealth Germany's superiority is still more marked. Germany owes this to its bigger population. In per capita wealth it still is

behind France, and, therefore, behind England. France, after all its trials, remains the European state in which the individual has the largest accumulated wealth. Helfferich, after sifting the best authorities, puts the individual's capital wealth, counting money, investments, real and personal property at:

France	\$1,480
England	\$1,275 to \$1,450
Germany	\$1,125 to \$1,225

As Germany has a population which is about 20,000,000 greater than Great Britain's and about 26,000 greater than France's, its total national wealth exceeds theirs.

England has a small chance of catching up, and France has no chance at all.

Industrial Efficiency Growing.
Their chances are all the smaller because Germany's industrial efficiency is growing at a great speed, and even in domains where the numbers employed are falling off, production is growing rapidly. This is most marked in agriculture. In England and elsewhere in Europe greta industrial development always is accompanied by agricultural decline. In Germany this has not happened. Year by year more and more working hands abandon the country and the farm and crowd into town and factory. The proportion of Germans employed in agriculture has fallen off heavily, and there has even been a decline in the absolute number. Less men are tilling the land than formerly. In spite of this the agricultural production has not only not fallen off but has gone on increasing nearly as rapidly as the industrial output.

In 1882, 42 per cent of Germans lived on the land; in 1907 only 28 per cent. In 1885 8,500,000 lived in towns of over 20,000 inhabitants, whereas in 1910 22,000,000 lived in towns of that size. The actual farming population declined in fifteen years from 19,000,000 to 17,500,000. This smaller farming population was tilling land which, all round, is the worst in Europe. Yet Helfferich shows that Germany has been producing more rye, wheat, oats, barley and potatoes per acre tilled than fertile countries like Russia, France, Austria-Hungary, Canada and the United States. This is the result of science, machinery and improvement.

Fast-Growing Output.
Agricultural output has gone on increasing with fewer working hands, and there has thus been set free a vast number of hands for industrial work. During the Kaiser's reign the coal output has increased 176 per cent. The production of pig iron has grown 341 per cent and the value 509 per cent. When Wilhelm II. ascended the throne Germany produced 1,000,000 tons of potash. Now its production is nearly 9,000,000 tons. Potash is almost the only natural product in which Germany is richer than its rivals. But in iron, where it has no such advantage, it has beaten England; and it is now beaten only by the United States.

Every year Germany's income increases by \$250,000,000. This alone would account for a vast increment of capital. But Germany's main cause of superiority is that it does not spend what it earns; and that it invests its savings productively. In this it differs from England, where little is saved, and from France, which saves enormously but hides its gold in the family stocking or puts it in safe but unprofitable foreign loans.

The German way is different. Out of its \$10,000,000,000 annual income Germans spend on themselves only \$6,250,000,000. The empire, the state governments and the municipalities take from the remainder about \$1,750,000,000. The rest is saved and nearly all this saved money goes into home enterprises, which produce further wealth.

VILLA AGREES TO FIGHT OUTSIDE OF TORREON.

JUAREZ, Mexico, Feb. 20.—General Villa to-day agreed to establish a neutral zone at Torreon. He told General Scott, in telephone conversation, that he is willing to fight the Federals outside of the city if they will leave non-combatants safe in their rooms.

General Villa is making extensive preparations for the campaign against Torreon. He will be well equipped with arms and ammunition.

The Agony of Christ In Gethsemane

(Continued from Page Six.)
colleges or universities. We need a great tidal wave of religion.

One time I found a little boy in the street. After that boy had been restored to his mother, I found that the mother had been frantic for his return. She could not do enough to show her appreciation. It opened my eyes and I said: "God I know how you feel about this unsaved world; I know how that mother felt about that little lost child."

I never see a man or a woman or boy or girl that I do not think that God has a plan for them and wonder what it is. He has a plan for each of us. He will use each of us to his glory if we will only let Him. We can defeat His plan if we want to.

Finally, we find that God honors the spirit in deep concern for the unsaved. This concern comes from the clear realization of man's relation. I never know a high critical preacher to save them from hell. Such preaching is not of God and He will not bless it. It is of the devil. If you haven't got in your heart a concern for the unsaved—even if you are a deacon or preacher or elder,—yes, even if you are a preacher,—go right down there in front and fall in the sawdust and ask God to forgive you.

Nothing makes such joy in heaven as the salvation of the soul. Kneel by that old drunkard there, kneel by the thief, kneel by that fallen woman and you will set the bells of Heaven ringing. The angels don't care a rap about your wealth; they don't care about your wealth; they don't care about your culture. It is the salvation of sinners the angels care about.

CONVICT GUARDS DROWN IN HOUSTON SHIP CANAL.
HOUSTON, Texas, Feb. 18.—Isom Taylor and Roy Bailey, convict guards, were drowned to-day in the ship canal near here. They had started in pursuit of a prisoner. Convicts are being worked in this vicinity, and one of the men had secured his freedom by swimming the canal.

Race With Dolls To Ship; Girls' Pleas Move Captain

SAN FRANCISCO, Cal., Feb. 20.—Two beautiful little girls, Hope and Etell Glenn, 4 and 5 years old, are happy today, miles out on the Pacific Ocean, because they have their favorite dolls and can exercise their 'mother love' but they narrowly missed sailing without them.

As the Oceanic liner Ventura sounded its hoarse signal for "all visitors ashore" and the big steamer was ready to cast off and square away for the trans-Pacific voyage at 2 o'clock yesterday afternoon, the two girls were looking despairingly over the rail of the upper deck.

Captain Is Moved

The eyes of the two were focused on the gang plank and their anxiety was for the return of their uncle, Robert

S. Woodward, with their dolls, which had been forgotten by their mother, Mrs. E. Woodward Glenn, in hasty preparation for sailing for Honolulu until forty minute sbefore sailing time. At once myriads of gloom scintillated before the eyes of the little girls as the crowd aboard made merry.

The children made a double appeal. They appealed to their uncle to hurry to their home 2825 Broadway, get the dolls and bring them aboard. They appealed to Captain J. L. Cowell to hold the ship until their uncle's return.

Ship Sails on Time

Captain Cowell told their mother that he had read Eugene Field's "Little Boy Blue," that the poem had left a lingering impresison on him and

P. C. Benedict Manager for Texas Branch

Headquarters at the Ware Hotel, Plainview, Texas

Plainview, Texas, Feb. 20.

Mr. Customer:--

Had it ever occurred to you that practically all groceries bought in Plainview come from the same wholesale sources?

Did you know that we buy and sell for cash, therefore buying more advantageously and having no bad accounts?

Don't you know that we can sell for less because we don't maintain a delivery system?

Do you know that we have no rent or expensive clerk hire to pay? Who benefits?

Get our prices and think it over.

Yours truly,
East Side Grocery

SAYS GRAFTERS FOUNDED U. S.

Profit of 40 Million Made by Writing Constitution

"SPECIAL INTEREST"

Farmers Bought Securities at a Few Cents and Sold at Par, St. Louis Man Says

ST. LOUIS, Mo., Feb. 20.—That the men who drafted the constitution of the United States, were not patriots but grafters who made a profit of 40 million dollars through the writing of that historic document, was the statement today of Julson King, executive secretary of the National Popular Government League, in an address before the City Club here.

Special Interests in Patriots

"The theory that the men who wrote the constitution and obtained its adoption were the unselfish patriots that history pictures them, is not correct. The real creators of the constitution were the men of special interests in their time."

"The made millions by buying national soldier's scrip at five, ten and twenty cents on the dollar and disposing of the paper at par after the adoption of the constitution."

Nearly All Bought Bonds.

"Records at the Treasury in Washington, show that forty-one out of the fifty-five men who drafted the constitution had some of the depreciated paper in their possession."

he would hold the ship a few minutes if necessary, for the return of their uncle.

Woodward, by the use of a taxi, returned to the vessel a few minutes before the gang plank was hoisted and the children sailed away in high glee.

Mrs. Glenn will visit Mrs. Renton Hinds of Honolulu. She is accompanied by Mrs. Anatte Cheney, who goes to Honolulu to meet her son, Captain Bridges, aid to General Bell.

DAY WILL GROW ALFALFA AND HOGS

Plainview Man Is Installing Layne Pump; Will Grow 400 Porkers

J. Walter Day, of this city, is now having a new pump installed on his place ten miles south of Plainview. The pump is a No. 5 Layne & Bowler. That he will put four hundred hogs on his farm before the first of April was a statement Mr. Day gave out this morning. There are now seventy acres of alfalfa on the place, and he expects to pasture the hogs on one-half of this plot.

The remainder of the three hundred and twenty acres Mr. Day says he will put into irrigated row crops.

As soon as the new pump is installed, Mr. Day says that he will immediately start irrigating. He is expecting big returns this year from the most favored money proposition on the South Plains, alfalfa and hogs.

LINERS CARRYING 1,400 EMIGRANTS GO TOGETHER.

NAPLES, Italy, Feb. 18.—White Star liner Celtic and Fabre liner Madonna, the latter carrying 1,400 emigrants, collided here to-day. Both vessels were seriously damaged and will put to port for some repairs. No casualties are reported. There was a near-panic among the emigrants when the mighty hulks shattered each other.

SHALLOW WATER LAND CO. PUMPING TO-DAY.

The Demonstration Farm of the Shallow Water Land Company started pumping this afternoon.

The company now has in about forty acres of alfalfa, twenty-five acres of wheat and twenty acres of oats. The remainder of the one hundred and twenty acres that the company is farming will be put to row crops.

WILSON ASSURES LEADER FRIENDLY TO ALASKA BILL.

WASHINGTON, D. C., Feb. 18.—President Wilson to-day assured Representative Underwood, majority leader in Congress, that he is supporting the Alaska Bill. It had been reported that the President was opposed to the measure.

CHICAGO OPENS FIRST MUNICIPAL GROCERY

CHICAGO, Ill., Feb. 18.—The first Municipal Market to sell staple groceries to unemployed at cost was opened here today. Some of the staples were sold at fifty per cent of the price regularly charged in the city.

Thornton Jones, Jr., of Amarillo, is here this week visiting relatives.

Second Hand Goods

If carefully selected frequently give just as satisfactory service as new furnishings. The cost to you is much less.

All of our large second hand stock has been picked by experts; every piece carefully chosen. Each article represents a bargain for you.

We have a shipment of

New Rugs and Floor Coverings

These are unusual values. They were bought at close margins and we offer you the advantage we secured in this purchase. That means low price.

A good floor covering is a protection for the entire family against cold.

Does your furniture need some repairs? An hour's work may make the rocker good as new.

We have made expert preparation to do all kinds of repair work.

All 1914 Demands of
Automobile Dealers and Buyers
Are Fulfilled in the

The Complete line of Four Cylinder and Six Cylinder Cars

Electric Cranking, Lighting and Ignition--Left Hand Drive and Center Control

READ those display lines again. They contain the biggest news, the most important message that will appear in all the announcements on 1914 cars. America's leading dealers--the men who sold 30,900 Buicks last year, and have sold 150,000 in all--find that we have overleaped their highest expectations.

There is Buick model for every man who intends to buy any car. You who look closely to expense will find that that there are cars that sell for some less than Buicks. But count what you get; count upkeep cost; count market value after years or months of use; count daily satisfaction in certainty of service, comfort, convenience, appearance and pride of ownership.

Those who know the Buick have already decided on it as their 1914 car, regardless or equipment, because of what the car is fundamentally, because of the Buick Overhead Valve Motor with its greater power, speed and economy, Buick dependableness--with all the proved improvements--everything which is latest and best in automobile construction.
