**LOCKNEY.**

**Building Phone Line to Flomont.**  
The Lockney-Flomont phone line will be completed and in operation by the middle of next week. U. S. Crum is contractor on the work, and it is said that the line he is erecting will be first-class in every particular.

The line has been much needed and will be a means of bringing a vast amount of trade to Lockney. The road from Lockney to Flomont has been much improved during the past twelve months; the cap rock graded and a bridge built below the cap that will make transportation comparatively easy.

In this connection it might be stated that the Flomont country has the finest crops it has seen for years. An immense crop of cotton will be marketed from there this season.

Prof. E. C. Nix and family left Monday for Plainview, where they will reside. Professor Nix will be dean of Wayland College next year. The many friends of this estimable family regret to lose them.

**MEN STENOGRAPHERS' TEST.**

By United Press

WASHINGTON, D. C., Aug. 25.—A shortage of men stenographers in Uncle Sam's Civil Service list caused a general examination to-day in all principal cities to fill "holes" in the departmental service. Entrance salaries are from \$70 to \$75 a month. Many Bureau chiefs here still refuse to have women typists.

**CATHOLIC WOMEN FORESTERS MEET.**

By United Press.

CHICAGO, Ill., Aug. 25.—The Women's Catholic Order of Foresters opened its annual national convention in the Hotel LaSalle here to-day. Eleven hundred delegates were present, representing 70,000 members of the organization in 32 states.

There will be a solemn requiem high mass at St. Mary's Church to-morrow morning, in memory of deceased members of the order.

**MICHIGAN IS TESTING JAMES PRIMARY LAW.**

By United Press.

DETROIT, Mich., Aug. 25.—The James primary election law, which eliminates enrollment in political parties, received its first extensive try-out in Michigan to-day, when a whole grist of prospective office-holders sought nomination. European war news overshadowed the primaries, and there was little interest. An extremely light vote was forecasted.

The list of nominations to be made by all parties was extensive. Thirteen Congressmen were to be nominated by each party; complete legislative tickets chosen and nominations made for the offices of Governor and Lieutenant Governor.

Interest in the primary centered in the fight in the Republican ranks for the Governorship nomination. The names of five candidates—Mayor Geo. E. Ellis, of Grand Rapids; Chase S. Osborn, of Sault Ste. Marie; Aelx J. Groesbeck, of Detroit; Frederick C. Martindale, of Lansing, and W. S. Linton, of Saginaw, appeared on the ballot, but it was conceded that the real fight was between Osborn, former Governor; Martindale, Secretary of State, and Groesbeck, chairman of the State Central Committee.

Governor Woodbridge N. Ferris was unopposed for renomination on the Democratic ticket, and Henry R. Patengill, of Lansing, former Superintendent of Public Instruction, had the Progressive field to himself.

**SAN FRANCISCO ADOPTS ITS NEW POSTAL PLAN.**

By United Press

SAN FRANCISCO, Calif., Aug. 25.—The new postal plan, whereby the bulk of San Francisco's mail will be handled at the Ferry Building, and thus save several hours and considerable expense, has been approved by Washington officials, and the arrangements it was decided to-day will be put into effect next December. The plan was approved by Postal Inspector Bushnell, who was sent here from Washington to make a thorough investigation of the scheme. Nearly ninety per cent of San Francisco's mail passes through the Ferry Building, and by handling it there the delay and expense of hauling it to the main post office, at Mission and Seventh Streets, will be saved. The new plan means that the entire working force at the post office will be reorganized. The saving will not only affect incoming and outbound mail, but will mean a quicker distribution of local mail, especially to and from the central business and financial districts.

**WORKING TO IMPROVE COMPENSATION LAW.**

By United Press.

SCHENECTADY, N. Y., Aug. 25.—Discussion of further improvement of the workmen's compensation law, and the best means of defending it from any possible hostile legislative attacks, was the important work before the annual convention of the State Federation of Labor, which opened here to-day. Delegates representing all the unionized trades from every section of the state were present when the convention was called to order, in Red Men's Hall.

**PRESBYTERIAN REVIVAL  
CONTINUES ANOTHER WEEK.**

Sunday was a great day for us at the Presbyterian Church. The attendance at both services was fine, the house being full at night in spite of the mud.

The sermons on "Life in Increasing Fullness" and "The Palm Tree and the Bay Tree" were gems of thought and spiritual power. Brother Caldwell has a message for the church as few men seem to have, and his plain, practical presentation of the truth carries conviction to every heart. His preaching no less reaches the unsaved, and more than twenty made definite decision for Christ at the morning service.

The meeting continues to grow in interest and power and the Gospel is gripping the people.

Our meeting will continue for another week, and all are cordially invited to join with us in this effort to help Plainview and reach the unsaved. Services at 10 o'clock in the morning and at 8:15 o'clock at night.

**WOODMAN TEAM HOME  
FROM GALVESTON MEET.**

The Woodmen returned Monday from Galveston, where they had been in attendance at the district meeting.

Fort Worth and Dallas carried off Fort Worth and Dallas carried off the prizes for degree team work. As one of the Plainview boys said, "We were too new in the work to win any prize, and then, too, we had such a big district to contend with."

But the Plainview team did good work just the same even if they didn't win a prize. The prize will come for them in the future.

**SEWING IS FEATURE OF  
METHODIST SOCIETY MEETING  
WITH MRS. WHITE.**

Circle No. 2 of the Methodist Missionary Society held a pleasurable and profitable meeting Friday afternoon with Mrs. Charles E. White, 614 Jones Street.

The large attendance of ladies brought their dainty finger work and sewed industriously until the serving of iced tea, ice cream in cantaloupes and grapes by the hostess. A good-sized collection was taken for the needs of the church.

The next meeting will be with Mrs. E. F. McClendon.

**QUAIL MORE PLENTIFUL.**

Clint Shepard Says More Than He Has Seen Before.

Mexican quail and "Bob Whites" promise to be plentiful in the Plainview country this fall. Clint Shepard says that he has never seen so many before. He has been around these parts for a long time.

A plentiful supply of quail in the sand hills and along the canyons means fine hunting when the season opens.

**KANSAS CITY MAN SEES  
BRIGHT OUTLOOK AHEAD.**

James T. Brady Thinks Conditions Are Improving in Financial Market.

KANSAS CITY, Mo., Aug. 20.—James T. Brady, Cashier of the Southwest National Bank of Commerce, said, in part, yesterday at a noon luncheon at the Hotel Baltimore, to the Kansas City Association of credit men, that the present hope now was to open up trade with warring nations. "I believe other countries that need our food-stuffs will assist in arranging conditions so that this can be done."

"If we knew how long the war would last, it would not be difficult to arrange our financial matters satisfactorily. It was announced only yesterday that J. P. Morgan interests had been granted the right to finance shipments of wheat to France, and a New York bank has been given the same privilege to finance shipments to England, and as a result the price advanced five cents.

"There is absolutely no need of local conditions not being good. We have the greatest wheat crop, the largest oat crop, and the promise of fair corn crops in this vicinity.

"The financial conditions were never better; in fact, the financial conditions have improved since the war began. The improvement has been phenomenal during the last month. The reason is that Europe for some time has felt the coming of the present crisis, and has been preparing for it. The fact that Europe took out of this country something like \$105,000,000 in gold before the war started, and nearly that much since it began, shows that war was being prepared for. If it were not for other conditions this would not be felt in the United States, for this country has the greatest crops in history, and other conditions are good. Of course, for all the money taken away, securities will be left.

"My advice is to keep cool, guard business closely, and remember that certain conditions exist. Again I repeat that there is no need for local unrest.

**TO THE MOTHERS AND WOMEN OF  
PLAINVIEW AND VICINITY:**

Do you think that Texas should have an institution where a girl who has made a mistake in life may have a chance to correct her mistake?

We want all those who think such an institution should be established to join hands with the Board of Control and Finance Committee of the "State Girls' Training School and help us raise the necessary funds for its establishment. The State of Texas is to furnish \$25,000 when we raise an additional \$25,000, and we now have about \$10,000 of the necessary amount, and are asking the women of Texas to raise the balance by giving us \$1.00 each. Can't you give this much for this most-needed and worthy institution?

The week of November 8th-14th, has been set aside for the campaign to be waged to secure these funds, and there will be a woman appointed in your community to take charge of this campaign. Her name will be announced later, and you can give her your dollar or send it direct to the undersigned.

We expect to raise at least \$15,000 in this campaign, which will insure the establishment of the Girls' Training School of Texas. The entire amount raised in this special campaign by the women of Texas will be used in the erection of a Main or Educational Building. This building is to be dedicated to the women of Texas, and an inscription to that effect will be placed on the cornerstone.

If you haven't a dollar that you can lay aside now, you can surely lay aside at least 10 cents a week, so that by November 8th you can have the much-needed dollar.

As mothers and women, you should certainly feel very much interested and join in showing the men of Texas that the women of Texas believe in lending a helping hand to a fallen sister.

Any information you may desire will be gladly furnished. Sincerely,

QUENTIN D. CORLEY,  
Chairman, Finance Committee, State Girls' Training School.

Rev. C. S. Field was a passenger over the Santa Fe southbound Tuesday afternoon, returning home to Fort Worth from Plainview. He had intended to stop in Lubbock, representing the Texas Sunday School Association, but, learning of the union revival in progress, postponed his visit to this city.—Lubbock Avalanche.

**Memoirs of Napoleon**  
In Three Volumes

The personal reminiscences of Baron de Méneval, for fourteen years private secretary to Napoleon Bonaparte, bring out, at no history can, many enlightening and interesting side lights on the character of that greatest of leaders. De Méneval's descriptions have the pungency and interest possible only because he was an actual eyewitness of the scenes and incidents of which he writes. Their reliability and historical interest can be judged by the fact that the very conservative French Academy publicly recommends them.

Rev. and Mrs. McCall being with us, those present received a more vivid and lasting impression of the work in that country. Mrs. McCall gave an address on the geography and manners and customs of the country. Mr. McCall then followed, telling us of the effects and results of reading the Bible by these people. These good people have spent 20 years in Brazil, and the information they are giving us is certainly a treat.

## Houston Says Plaids Much in Evidence for Woman's Wear

In an interview with C. R. Houston, who has recently returned from St. Louis, Mr. Houston tells of autumn styles that are soft and subdued in coloring and military in effect.

Plaids are much in vogue, especially for coats—not brilliant in coloring, but beautifully blended in harmonious colors, the broad belt and cape giving the soldier-like touch that is so popular this fall.

Many of the handsome suits shown at Carter-Houston's are in Russian Green and different shades of Wisteria. Tunic skirts are worn with short coats, and plain skirts with long coats. Combinations of different colors and materials are much in evidence, thus giving the careful house mother an opportunity to show her skill in planning and contriving an up-to-date suit out of two different materials or colors.

Mr. Houston said in regard to the much-talked-of high prices: "So far, the war has not even affected the cost of imported articles, as most of the present stock in the United States was purchased before the war commenced. "But," Mr. Houston continued, "just wait; in about sixty days all foreign articles will soar out of sight, and some of them it will be impossible to get at all."
