FRIDAY, SEPTEMBER 24, 1915

PLAINVIEW, TEXAS, VOLUME 26, NUMBER 78

## HUNTER TELLS OF LIFE OF UNITED STATES SAILOR

### BRITISH AND AMERICAN SAILORS OFTEN FIGHT MINIATURE BATTLES WHEN THEY MEET.

## AMERICA, "GOD'S COUNTRY"

### Boys of the Navy Who Have Seen the Civilized World Say America Is the Fairest Land.

At the request of The Herald, D. G. Hunter, of the U. S. S. Helena, at Hankow, China, has written a letter telling of customs and manners of the Chinese people he has met in the Orient. Mr. Hunter is a son of Mr. and Mrs. E. C. Hunter, of Plainview. With the letter, he sends two interesting views, one of the city of Hankow, one of the big European centers of China, and the other a view along the river front showing the Japanese Consulate Buildings.

The letter follows, unabridged:  
"U. S. S. Helena, Hankow, China,  
"August 15, 1915.

"Dear Sirs:  
"On receiving your letter of June 16, I must say that I was very much surprised, and agreeably surprised at that. In your request that I write about my impressions on China, I think you have the idea that I am a writer on travels. I am not, and I am afraid that my poor efforts may be met with ridicule. But after putting the idea into my head, it has caused me to try, so I will give you the best that I can do in this line.

"China, on the whole, is still the old, old nation that she was centuries ago. It is true that European civilization has done much in awakening the more educated class of people to the ever increasing needs of their country. But most of the evidences of civilization are to be seen only on the coast and in the valleys of those rivers which are navigable for commercial reasons. In the interior you still see the old ways and customs of the ancient Chinese. The ways of everything is still very crude. But it is the impression many have that the crude ways are kept in practice in order to give employment to the millions of working people. There are thousands who own nothing more than the clothes on their backs. And, again, there are thousands who live in little flat-bottomed boats called 'sanpans,' and these are allowed ashore only a few hours a day. If modern ways were introduced there would cease to be the means of a livelihood for some millions of people, who would soon starve. As it is, the wages paid are so low that in times of crop failure there are many who do starve.

"Now I will change my subject and say a few words about the dress of the Chinese. As probably some people have read, the Chinese as a people do not wear 'quakes' any more since the country became a republic. But the people, men and women, still cling to the inevitable trousers. You see very few who wear European clothes. And almost all of them, especially in the ignorant classes, still cling to a good many of their pagan superstitions. It is a very familiar sight to see a man shooting off firecrackers and down on his knees 'chin-chining' for wind in the bow of his boat, and at night you see a string of boats, one after the other, filled with Chinese beating tom-toms and singing chants for fair weather or for rain, just as the case may be. But, on the whole, they seem to be a happy people and to love their country.

"In Shanghai, that port of ports, you see almost every nationality in the world—British, French, German, Spanish, Russian, Italian, Swede, Hindu, a very few negroes, and a class of people known as Russian Jews. There are not so many Americans, however. But there is a class of people that are by themselves: they are the 'half-castes' of every nationality—Japanese-American, Chinese-American, English-Japanese, English-Chinese, and the great majority are Japanese or Chinese blood crossed with Portuguese. Some of these 'half-cast' women are the most beautiful women in the world in the symmetry of form, but in spite of all this they are repulsive in most ways. This last view I have stated is the view of the men I have associated with during my stay in the Orient, mainly sailors of the United States. As to the

## FAIR ASSOCIATION PRESIDENT PASSES OUT A FEW BOUQUETS.

### Wouldn't Even Expend Fifteen Cents on the Knecker, but Has Only Praise for the Booster.

President C. E. White of the Hale County Fair believes the Fair is worth while, and has expressed his appreciation of assistance rendered the association in a note to The Herald.

"Every superintendent was a competent, faithful and loyal worker," he says.

"The Woodruff Lumber Company furnished all the lumber used by the Hale County Fair Association free of charge, except for that part which was sawed into short lengths."

"The incubator awarded on the largest display of poultry to S. S. Sloneker was donated by the M. M. Johnson Incubator Co., of Clay Center, Nebraska."

"The Quick-Meal Oil Stove which was used by the girls in their baking contest, and also the utensils, was furnished by the Plainview Hardware Company. The Heliotrope flour was furnished by Pierson & Smith."

"Otis Shropshire was the 'Johnnie-on-the-Spot' man, and gave much assistance during the preparation and dishwashing of the Fair. Just a few like him will make a success of any undertaking. Work counts points."

"Too much cannot be said to the praise of the Boy Scouts. They are great men in the making."

"A full page would be too small space to give praise to those who deserve it, and a one-inch single is plenty of space for the knocker of the Fair, so we omit his name and reserve the fifteen cents for a better purpose."

"Great is the spirit of the Hale County men who made it possible to place on exhibit the greatest show in West Texas."

## FRED BARTSCH THINKS MOST MONEY IN RAISING GOOD STOCK.

### Demand for Good Horses Is Always Strong and the Price Is Good; Cost of Raising but Little Higher.

Fred Bartsch is a practical farmer and stockman of years' experience. He has made a success of his business in the North, and has been likewise successful in the South Plains country.

Yesterday Mr. Bartsch called at The Herald office, and in the course of conversation he remarked: "I can't see why the farmers and stockmen don't raise better horses. It takes no more feed for a good horse than for a poor one. When the buyers come to get South Plains horses they want the very best we have, and only the best are bought."

"The people who want to buy horses want heavy horses, and good ones. A good heavy horse, sold young, is worth \$200, where the lighter horse is worth only \$125. Even if we do not want to keep the heavier horses for our own use, this is the kind that the buyers want, and the type the market is demanding. Except in the first cost of stock, it is just as cheap to raise good stock as poor stock."

## THE STATE DISMISSES EIGHT CASES AGAINST J. C. GARRISON.

### Two Transferred From Floyd County to Briscoe County; Originally There Were Eleven Indictments.

J. C. Garrison, of Lockney, now has only two cases against him. Originally there were eleven indictments. Yesterday the State dismissed eight cases, and Mr. Garrison had previously been acquitted of one charge. The two remaining cases have been transferred to Briscoe County.

These cases were over alleged irregularities in the conduct of a bank at Lockney.

## FORT WORTH MARKETS.

FORT WORTH, Texas, Sept. 24.—Hog receipts, 2,000; 10 cents higher. Top \$7.75; bulk \$7.55 to \$7.70; light \$7.60 to \$7.75; mixed \$7.50 to \$7.65; heavy \$7.60 to \$7.50. Cattle receipts, 1,800, including 200 calves; steady. Sheep, 100; normal. Daggett-Keen Commission Co.

## J. J. ELLERD BUYS SECTION OF LAND FROM J. R. SCOTT.

J. J. Ellerd has purchased from J. R. Scott section 15, block 8, Hale County, twenty-two and one-half miles southwest of Plainview, for a consideration of \$5,896.50.

## Water--A Blessing and a Curse

Plainview has practically no natural drainage, and the growth of the town has been so rapid that a well formulated plan for city drainage has not been worked out. Improvement has been made in the past two years, but Plainview is not well drained yet.

Near the residences of J. M. Adams, H. J. Dillingham and A. C. Hatchell a puddle of water, which often becomes stagnant, is left standing.

Around the hitching racks at the court yard, puddles of muddy water stand for days after the rain.

Two years ago water stood on North Pacific Street near The Herald office for days after a rain; now the water is confined in the ditches in front of the Fulton Lumber Company's office and in front of The Herald office, but even after the hard rains of the past three days, the crown of the road is dry this morning; whereas eighteen months ago it would have been a mere mud puddle. The street is better, but at the expense of the adjoining places of business.

The puddles around the court yard, in the main business section of the town, are a disgrace to the city of Plainview and to Hale County.

Plainview needs an adequate plan for drainage. Well drained, the cost of upkeep on our streets should be less. By keeping the puddles drained off, health conditions will be better.

Plainview's underground water, pure in analysis and bountiful in supply, is a great asset and a blessing. Stagnant water above ground in the town is a menace to health and is a curse.

## 4.02 INCHES IS RAINFALL FOR WEEK ENDING TODAY

### Wheat Sowing Delayed and Row Crops Need Sunshine, but a Season's Being Made.

The rainfall today, as recorded by the government gauge at the Texas Land and Development Company's office, has been .93 of an inch. The total for the week has been 4.02.

Farmers tell us that the row crops are needing sunshine and that they are behind with wheat sowing, but they also state that the heavy rains mean that the best wheat season of years is being stored in the ground.

Attorneys who were in Floydada yesterday attending court state that there was a heavy rain there, probably totalling as much as five inches.

The Amarillo country has been receiving light showers through the week. Reports indicate that the rain has been general over the Panhandle and South Plains country.

## HALE COUNTY GETS FIRST PLACE AT PANHANDLE FAIR

### Unconfirmed Report Says Hale Won in Each of Twenty-Eight Classes Entered.

Indirect advices from the Panhandle State Fair, at Amarillo, state that the Hale County exhibit, superintended by Jim Pipkin, of the Texas Land and Development Co., and C. K. Shelton, won first in the county exhibit class 323, and that Hall County won first in 325. The last-named class barred counties having irrigated products.

It is stated that Hale County entered in twenty-eight classes and secured a ribbon in every class entered.

A special train of three coaches was made up in the Plainview yards this morning for Amarillo. Seventy-five persons, mostly members of the Elk lodge, bought tickets for the train, which departed at seven-twenty-five o'clock. Today is Elk Day at the Panhandle State Fair.—Plainview, Clovis and Dalhart all sent large delegations. The local Elks had with them the Plainview band, with twelve pieces. They were awarded first place in the Elk parade there, competing with other lodges of the Panhandle and New Mexico. Plainview had the largest delegation of any.

Tomorrow is Panhandle Press Day at the Fair. Local members of the Panhandle Press Association will probably attend.

## MATSLER BUYS CITY LOTS.

W. R. Matsler has purchased from Miss N. F. Calvert lots one, two and three, block 21, of the New Subdivision of Lakeside Addition to the City of Plainview. The consideration is \$2,000.

## J. E. TEST INJURED.

J. E. Test left yesterday morning for Amarillo to be treated. An unusual strain in lifting a heavy horse which was being treated at the Overall Barn Wednesday caused a rupture.

## FLOYD COUNTY JURY GIVES GARTIN VERDICT NOT GUILTY.

### Arrest by Hale County Officers Follows Acquittal, and Gartin Makes \$5,000 Bond.

J. B. Gartin, charged with rape, was declared not guilty by a Floyd County jury yesterday. Immediately afterward he was arrested on a similar charge by Hale County officials. He readily gave bond in the sum of \$5,000. He lives at Petersburg.

## FUNERAL ADDRESS OVER JOS. PENDHAYN'S REMAINS.

Following is an extract of the funeral address delivered by Dr. I. E. Gates, prior to the removal of the body of Joseph Pendhayn, the aviator who met death at Plainview during the Hale County Fair, to Geneva, Nebraska:

"Joseph Pendhayn, the brilliant young Austrian, in making his last flight over the aviation field at Plainview, Texas, by some unexplainable and unknown cause, while in the air seventy feet or more above the earth, fell with his machine, totally wrecking the machine and with fatal injuries to himself.

"Hundreds of people were watching him as he glided through space as gracefully as an eagle, and were both shocked and horrified to see him fall to his death. His cultured, beautiful wife witnessed the awful tragedy.

"As one of the representative citizens of Plainview, I express the universal sorrow of all our people to his young wife. We weep with her as we look into his face for the last time and bid her goodbye and a God bless you. Our people had come to have high regard and respect for both Mr. Pendhayn and his wife, because they were cultured, refined, modest and unassuming; notwithstanding they were pioneers of the air and pathfinders in a wider civilization.

"Mr. Pendhayn was a gentleman, and that is one of the highest tributes that can be paid to any man. Like most great men, he lived a clean life, including a steady nerve, a clear brain and a heroic spirit. He was only 27 years of age, but life is not measured by length of days, by breaths drawn, by pulse beats, but by what you accomplish. Measured by this standard, he did not live in vain. Like many other good men in trying to advance the civilization of the world, he paid the price with his own life.

"Men who accomplish much in life must of necessity take some risk. Had it not been for heroic spirits like our friend whom we mourn today, America would not have been discovered, the ends of the earth not traversed, no cables to join continents, no power to run our engines, no light to illuminate our cities, no messages flashed by lightning, no bridges to span deep canyons, no trains to pull our commerce, no ocean liners to plunge through surging waters, no serums to cure our maladies, and no freedom for the infinite spirit of man made in the image of an infinite God placed in a world to subdue it and have dominion over it on land, on sea and in air.

"Mr. Pendhayn, the young, buoyant, joyous, optimistic, heroic spirit, he was willing to take his place among earth's young immortals who vied with death to accomplish what weaker spirits would not undertake—to subdue the air.

"Peace to his sleeping dust, and may his heroic spirit make its eternal home above the clouds in God's eternal home above the clouds in God's eternal blue, where the tragedies of life never come, and where adventurous spirits may serve Him in a wider and more glorious field of service.

"As an expression of our sympathy and love, we cover his casket with flowers and tenderly place his body on the train with the prayer that loving friends in Nebraska may place his form beneath the sod, mingling their tears with ours for his loved ones over the sea and especially for his young wife, who without him must make the most and the best of life."

Sunday morning will be the annual promotion day for the Baptist Sunday School, says T. E. Richards, superintendent. There will be a general re-arranging of classes and promoting of pupils.

In the afternoon there will be a re-organization of the Sunbeams and the Junior B. Y. P. U., and again at seven o'clock p. m. the Senior B. Y. P. U. will meet to reorganize and plan their work for the winter.

## COLLEGE STUDENTS WANT WEEK TO HELP GET THROUGH.

### Several Young Men Attending Wayland Are Dependent Upon What They Can Earn During the Year.

A number of young men who have entered Wayland Baptist College are desirous of getting work to assist them in paying their way through college.

Anyone needing help can see Rev. O. L. Hailey, president of the college, or phone 627.

## FRENCH AERIAL CORPS BOMBARDS STUTTGART

### PARIS TELLS OF RAID, AND BERLIN, TOO, SAYS FOUR WERE KILLED BY AIRMEN.

## GEOFRE DEVELOPING NEW PLAN

### Almost Continuous Use of Artillery Along Whole Line Is Idea of Allied Commanders.

PARIS, Sept. 22.—French aviators have bombarded Stuttgart, capital of the Kingdom of Wuerttemberg, according to the French official communication issued tonight. They dropped about 100 shells on the Royal Palace and the station. They were bombarded at different points along the way. The text of the statement follows:

"The same artillery activity continues to the north and to the south of Arras, as well as between the Somme and the Oise.

"To the north of the Aisne a violent bombardment has occurred in the region of Ville Aux-Bios, where we compelled the enemy to evacuate a fortified post which we have occupied.

**Both Sides Busy.**  
"In Champagne both sides have been employing their heavy guns at a large number of points. An enemy patrol which attempted to penetrate our lines was completely destroyed.

"An artillery action of particular intensity has been in progress in the Argonne on the western outskirts and in the region of Haute Chauchee.

"On the heights of the Meuse to the northwest of Bouchet our batteries demolished the works and caused an explosion in the lines of the enemy.

"The cannonading likewise has been violent in the forest of Apremont on the Lorraine front and in the Vosges in the sectors of the Meurthe and the Fave.

"In retaliation for the bombardments by the Germans of open towns and civilian populations of France and England, a group of aeroplanes set out this morning to bombard Stuttgart, capital of Wuerttemberg. About a hundred shells were dropped on the Royal Palace and the station. Our aeroplanes, which were cannonaded at different points along the line, returned in safety to their base."

BERLIN, Sept. 22, via London, Sept. 23.—An official statement issued here today says:

"Enemy airmen with German marks on their aeroplanes appeared at 7:10 o'clock this morning over Stuttgart, dropping bombs on the town, killing four persons and wounding a number of soldiers and civilians. The material damage was quite unimportant. The airmen were fired at by our anti-aircraft troops, and disappeared in a southern direction at 8:30 o'clock.

"Owing to the fact that shortly after 7:45 o'clock the military authorities were informed of approaching German airmen, the population could only be warned when it was comparatively late.

"A German airman arrived over Stuttgart at 9:30 o'clock. He was fired on from below for a short time, until he was with certainty recognized as a German airman. He landed unhurt near the town."

## New Plan of Campaign.

General Joffre, the French commander in chief, and the allied commanders on this front—Field Marshal Sir John French and King Albert of Belgium—are developing a new plan of campaign that involves the almost continuous use of artillery on a vast scale along the whole line.

The allies are now methodically maintaining their shell fire for days at a time without infantry attacks, dropping projectiles upon the charred front into every fifty-yard square and repeating the process—a deadly, automatic, unceasing pounding. The heavy-calibered guns send their storms of shells upon the lines of first reserves behind the lines and upon bridges and provision trains.

## BULGARIA WILL MAINTAIN ROLE OF ARMED NEUTRALITY.

LONDON, Sept. 23.—M. Radoslavoff, the Bulgarian Premier, has announced to his supporters the signing of a convention with Turkey for the future maintenance of armed neutrality on the part of Bulgaria, says the Times correspondent at Sofia in a dispatch printed this morning.

**TEXAS IS YET SEARCHING FOR A MAN WITH A "BOOT."**

Three Promising Candidates for the Kicking Position; First Game Is With T. C. U.

UNIVERSITY OF TEXAS, Sept. 21.—"Windy" Kelsey, last year's reserve who went in two or three times for short periods last season at full back, seems to be the most likely candidate for the kicking position on the 1915 team. In practice he is kicking high spirals 50 to 55 yards with good form. P. Simmons and Lingel, new men from Denison, are also strong contenders for kicking honors. Lingel played in the back field on the Denison High School team last year, and Coach Al-

lerdice has given him a strenuous workout with the "T" men at quarter back during the last few days. At this position he showed up well, considering the fact that he had never played quarter before and that he was in fast company. During the past few days he has alternated with Stephens, Bob Simmons and Rayworth Williams at quarter.

The "old line," with Carlton in Jordan's place at guard, has held aloof from the swarm of new contenders; each day when the coach picks his team these old reliables are selected, and changes occur only in the back-field position. Nevertheless, the feeling is pretty confident here that several linemen will have to share their places with others before the season

ends. Scrimmage will probably be begun about Friday, and a strenuous workout is expected for Saturday. The first game of the season, which will be played here with T. C. U., is scheduled for a week from Saturday, and three or four heavy scrimmages will be had before that time.

**KRESS.**

KRESS, Texas, Sept. 23.—Rob Rousser ordered a car load of coal Monday a week ago, and several neighbors went to Kress and hauled the coal home for winter.

Mr. and Mrs. A. J. Harris are the happy parents of a baby boy, which was born Wednesday, the 15th.

George Bagley and family came to Kress Friday, from New Mexico, to visit relatives, and will go to San Saba County to make their home with Mr. Bagley's mother, Mrs. Bagley.

Mr. and Mrs. T. A. Oliver, Mr. and Mrs. Gregg, Mr. Scheihagen and family, Mr. and Mrs. Hamilton and Mr. Davis and family went to Plainview Thursday to attend the Fair. Friday many more from Kress went to the Fair.

Mrs. Lemaster and son, Elbert, moved to their home in Kress Saturday, for the benefit of the public school.

Rex Robinson, from Lubbock, came to Kress Saturday to visit home folks.

We had quite a little rain Saturday, and a little sprinkle Friday.

Rob Ormsby was a caller in Kress Saturday.

Henry Behrends and Miss Lena Botine were married, in Iowa, recently, and came to Kress Friday a week ago to visit a few months with his parents, Mr. and Mrs. H. Behrends, of Auburn.

Mrs. H. Dustman has been on the sick list for over a week, but is improving a little. Her husband came home last week from Iowa and Illinois, after visiting relatives.

F. T. Skipworth and family came home last week from California, after a visit with his daughter, Mrs. Hastetter.

Mrs. Will Rousser was a caller in Kress Monday.

Belton Yates, the 23-month-old son of Rev. and Mrs. B. Y. Dickinson, of Kress, won second honors in the better-babies contest at the Hale County Fair last week, his score being 96 1/2 per cent.

Rev. B. Y. Dickinson preached at the M. E. Church Sunday at 11 a. m., and Rev. O. P. Kiker, presiding elder of the Plainview District, preached Sunday night.

The fourth quarterly conference was held at the M. E. Church Monday morning, with Rev. O. P. Kiker presiding.

There will be no preaching service at the M. E. Church next Sunday, on account of the pastor filling his regular appointment at Happy.

C. McFarland went to Kress in his auto Tuesday.

**RUNNINGWATER.**

RUNNINGWATER, Tex., Sept. 23.—The people of this community are recovering from the effects of the Hale County Fair.

We are glad to report that Walter Phillips, who is at Amarillo, is doing nicely after his operation.

Last Friday half of the afternoon was spent by teachers and pupils in improving the looks of the school yard.

We have had quite a bit of rain this week, which is hindering the harvesting.

We saw Mr. Kindred coming from Plainview Tuesday with a binder trailing his wagon.

We understand that Friend Bailey is a fixture in this community for at least five years, having leased S. W. Waddill's place, two and a half miles west of here.

Work will begin soon on Mr. Waddill's barn, which was razed to the ground some time back by a wind-storm. We understand that it will be enlarged.

Rev. S. J. Upton began a meeting here Tuesday night.

**BELLEVIEW.**

BELLEVIEW, Texas, Sept. 23.—A rain, variously estimated at from two to four inches, fell here Wednesday.

Most of the Belleview people attended the fair.

J. T. Terrell has sold 40 tons of alfalfa this week.

Pearl, the eldest daughter of Mark Bell, has been quite sick.

Col. T. J. Tilson had business in Plainview Thursday.

Kerk Willis, of Hunt County, has moved to this community.

**MATCHES SCARCE IN ENGLAND.**

A prospective scarcity of matches, and the present shortage of wood used therefor, is noted by English newspapers. Consul Homer M. Byington, of Leeds, comments:

"Frequent criticisms are heard of the quality of matches now being sold, and a study of freight rates by American manufacturers might prove interesting in determining whether competi-

tion in this market could be inaugurated."

Louisiana established a new high record for petroleum production last year, the state's output being 14,369,435 barrels.

L. R. Pearson had business in Amarillo Wednesday.

**Get It Where They Have It and Guarantee the Quality THE R. A. LONG DRUG STORE**

**The Best Mill**

Cannot grind good flour from poor wheat, nor can the human body get good health from food and drink which is not fitted for the individual.

Right food—the kind the system requires, goes a long way toward putting one on **The Road to Wellville.**

This road leads to comfort happiness and long life.

**Grape-Nuts**

is a delicious food scientifically prepared from wheat and barley.

In the making, the starch of the grains is partially pre-digested for quick and easy assimilation—and furnishes the nourishment Nature requires for the daily rebuilding of the body and brain.

It pays to keep oneself in the highest condition of physical and mental vigor.

**"There's a Reason" for Grape-Nuts**

Sold by Grocers everywhere.

**WOYF MIX.**

Bad Food and Good Health Won't Mix.

The human stomach stands much abuse, but it won't return good health if you give it wrong food.

If you feed right you will feel right, for proper food and a good mind is the sure road to health.

"A year ago I became much alarmed about my health, for I began to suffer after each meal, no matter how little I ate," says a Denver woman.

"I lost appetite and the very thought of food grew distasteful, with the result that I was not nourished and got weak and thin.

"There was no one to shoulder my household burdens, and come what might I must bear them, and this thought nearly drove me frantic when I realized that my health was breaking down.

"I read an article in the paper about some one with trouble just like mine being benefited by Grape-Nuts food, and acting on this suggestion I gave Grape-Nuts a trial. The first dish of this delicious food proved that I had struck the right thing.

"My uncomfortable feelings in stomach and brain began to disappear, and in a short time I was again myself. Since then I have gained 12 pounds in weight through a summer of hard work, and realize I am a very different woman, all due to the splendid food, Grape-Nuts."

**LONGHORN SQUAD IS NOW FIFTY-FIVE STRONG**

Eighty-Three Took Examinations for Admission to University Monday; Increase of One-Third Over 1914.

UNIVERSITY OF TEXAS, Sept. 20.—The Longhorn football squad, now 55 men strong, has begun the second week of training. Although Coach Al-lerdice now has five full teams on Clark Field, there are still a few high-school stars who are expected to join the camp this week.

The weather has been unusually favorable up until Monday for preliminary training. Most of the men have been pulled down a few pounds in weight, but they are much firmer muscled and trim in their movements. A few simple plays have been given the teams preparatory to scrimmage work, which will probably begin the latter part of the week.

The problem of selecting a quarterback and a kicker for this year's team has received most of the attention of the coaches. Half a dozen entirely new men have been tried out at quarter, with old men in the line and back field, thus giving the youngsters an opportunity to "feel" themselves in fast company. The entire squad has been given an opportunity to kick the ball, and the coaches' eyes have been on sharp lookout for a likely punter.

With only seven more days of practice before the first game of the season, the process of selection must soon begin. The light gym suits will soon be changed to regular football togger and scrimmage work substituted for running down punts and passes.

Examinations for admission were held in the University Monday. Eighty-three candidates stood examination, which is about a third more than last year, and considerably more than any year previously. Fall-term classes will not begin before next Monday.

**KILL WEEVILS AND MOTHS.**

Missouri University Man Says They Make No. 4 Out of No. 2 Wheat if Not Checked.

By T. J. TALBERT, Missouri College of Agriculture.

"A stitch in time saves nine," but even the nine may not remedy the damage one would have prevented. Unusually late threshing has left the grain in the stock or shock exposed to the attacks of the grain moth and the weevil this year. Fortunately, a rather simple, cheap treatment with carbon bisulphide will destroy all the weevils and moths that infest stored grains. This liquid looks like water, but when poured on rags or into shallow pans on the top of grain rapidly forms a gas so much heavier than air that it goes among the kernels, destroying all weevils and moths.

The temperature, size, shape, and tightness of bins or granaries are important factors. It is not worth while to fumigate when the temperature is below 60 degrees F. More sulphide is required and even then unsatisfactory results are obtained.

One pound of liquid for every thirty bushels of grain will be enough if the bin is tight and the temperature above 70 degrees. Another pound should be used for every 200 cubic feet of space above the grain in the bin.

The liquid may be thrown directly on the grain without injury, but better results will be secured by pouring it into shallow pans, scattered over the surface, or, if these are not available, it may be poured upon old rags or cotton waste. One-half pound, or, at most, not more than a pound, should be poured into each pan. The liquid may be poured down through a gas pipe in order to get it near the center and bottom of very large bins. Plug one end of the pipe with cotton

or old rags, push it down through the grain and then remove the plug by pushing a rod down through the pipe.

The granary or bins should be kept closed as tightly as possible for 36 hours, and if the seed is not to be sowed, for 48 hours. The grain will be just as good for feed after treatment as before, but if it is to be sowed, care should be taken not to use too much bisulphide or to fumigate too long. It is often convenient to apply the liquid Saturday afternoon and fumigate until the next Monday morning.

The gas is very explosive, and no lighted cigars, pipes, lanterns, or matches should be allowed in or near the building until it has been thoroughly aired. The work should always be done in the day time. Cost may be kept down by securing commercial bisulphide instead of the more expensive chemically pure liquid often kept by drug stores. Store keepers will doubtless be glad to order the more economical form if it is not already in stock.

**HOG MARKET IS UP.**

Plainview Shippers Will Consign to Fort Worth and El Paso Commission Men Next Week.

The hog market is up. Morrison & Watson, of Plainview, and other shippers will consign early next week to the Fort Worth and El Paso markets. The rainy weather of the past week has prevented the usual shipments.

Morrison & Watson state they are finding the El Paso market good.

Improved five-acre block and five-room house in west part of Plainview and eighty-acre farm to exchange for a modern cottage. Address "J," care of Herald.

Electrical traction has made possible the conquest of the Pyrennes by transportation men, no steam railroad having been able to conquer their grades.

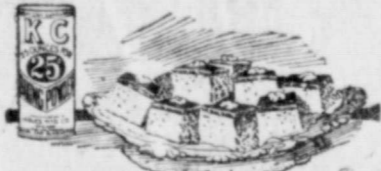

A two-faced doll's head has been patented, each having a different expression, one being covered with the hair when the other is exposed to view.

**Nut Cake**

Simply Delicious

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

In giving this recipe, Mrs. Hill believes it to be one of the best all-around cake recipes it has been her good fortune to make. The simplicity and uniformly good results will appeal to every housewife

K C Nut Cake

One-half cup butter; 1 1/2 cups granulated sugar; 3/4 cup milk; 2 cups flour; 2 level teaspoonsful K C Baking Powder; 1 cup of nut meats chopped fine; whites of 4 eggs, beaten dry.

Sift flour and baking powder together, three times. Cream the butter, add the sugar; then alternately, the milk and the flour mixture; lastly the whites of eggs and the nut meats. Bake in a sheet in a shallow pan thirty or forty minutes. When cold cover with the icing and decorate with whole nut meats. This is also an excellent white cake recipe when nuts are omitted.

Chocolate Icing One cup granulated sugar; 1/2 ounce chocolate; white of 1 egg, beaten dry; 1/2 teaspoonful vanilla extract; 1/4 cup water.

Stir the sugar, chocolate and water until the mixture boils; cover and let boil three minutes. Uncover and let boil till when tested in cold water a soft ball may be formed; beat into the white of egg, then beat until cold, add vanilla.

The nut caramel frosting given on page forty of the K C Cook's Book may be used in place of the chocolate frosting, if desired. A copy of the Cook's Book, handsomely illustrated in 9 colors, will be mailed free, if you will send the colored certificate packed in 25-cent cans of K C Baking Powder to the JAMES MFG. CO., Chicago.

**WET YEAR ON THE PLAINS**

Yet Under Irrigation Wheat Yielded 51 Bushels

WE INVITE the public to visit us in our new office and warehouse on the track west of the Gulf Refining Co's. yards. Here we have a complete line of irrigation well machinery and repairs. One irrigation at the right time this year would have added enough in bushels yield to have placed an irrigation plant on every 300 acres of wheat in Hale County.

Can you afford to be without a well? It probably will mean the making of a crop to you next year. While some of your neighbors go dry or have a half crop.

Test under irrigation this year 63 pounds. Mr. Dry Farmer have you got this kind of wheat? You can raise the bumper crops too if you will install a complete Layne well system We will treat you the whole year O.

## GIVE THE CHILD A CHANCE.

Just at this season the schools of Texas are beginning to get under way. There will be many a youngster out of school this year—many more than next, for next September the compulsory school attendance law will be in effect.

There are very few homes in which it is an absolute necessity for boys and girls of scholastic age to assist in earning a living for the family. Small excuse can be offered for keeping a boy or girl away from school. Often sacrifices, which at the time seem immense, must be made to keep children in school; but the return, if the child improves his time, is value received for the cost. Regardless of the cost, no boy or girl should be taken from school until grammar school has been completed.

The boy who will stop short of a good college or university training is slow to see the signs of the time; for more than ever before the world is calling for trained men. The lines are being more closely drawn between the prepared and the unprepared man. Negligence in improving opportunity is the only disgrace of unpreparedness.

The assertion has been repeatedly made by men who have experience which entitles them to speak authoritatively that any boy, unnumbered with the responsibility of caring for a family which is dependent upon him, can pursue whatever course he desires in any of the colleges or universities of the land.

Often the mistake of allowing the time for preparation to pass unheeded is seen when it is too late to make reparation.

Dr. A. C. Ellis, director of the extension department of the University of Texas, has made a detailed and exhaustive study of the financial value of an education. He has in his possession facts and figures on the subject which are surprising in their scope.

Just at the beginning of the new school year the statements of so eminent an authority are interesting: "Of nearly five million uneducated men and women in America only thirty-one have become successful enough in any kind of work to find a place in the lists of eight thousand of the leaders of various enterprises in America. A study of this list of eight thousand shows that only one child in one hundred and fifty thousand without an education has been able to become successful in any line of work, while children with a common school education, in proportion to their numbers, have accomplished this four times as often; those of high school education eighty-seven times as often, and those of college education eight hundred times as often. The question which every thoughtful parent must ask is, 'What chance am I giving my children?'

"No matter at what sacrifice," Dr. Ellis concludes, "nor how strenuous the effort involved, these facts show that no boy or girl in the grammar school should stop until he has finished the high school, and no boy or girl in the high school should give up his education until he has gotten all the benefits that he can from college or university training."

Many a parent is making a sacrifice of other things to keep the children in school, and what more in return can be asked than a wholesome appreciation on the part of the child of the opportunity afforded it? And can youth ask more than a chance or old age more than a consciousness of duty done and good performed?

## HUNTER TELLS OF LIFE OF UNITED STATES SAILOR

(Continued from Page One.)

view of others, I have no statement to offer, for I would not wrong these people.

"An American sailor has to associate with many classes of people and many nationalities in the Orient, and, in a general way, their opinions of these people run along the same lines.

"Before the great war in Europe started there were many men-of-war in the harbors, and many a battle royal has taken place between the sailors of different nations while on shore. The European sailors, as a whole, completely ignore the Japanese and Chinese sailors. The American and German sailors seem to get along together the best, while most of the battles seem to fall between the American and English sailors. These are not merely battles of drunken men, but there seems to be a long-felt grudge between these sailors, and I have seen men whom I have known personally never to touch liquor to jump in and fight like everything with their bunch against some foreign sailors.

"Now, a few more words and I will close for my first attempt, for I sure would like to see this in print.

"The people in the interior of the States who have never seen 'Uncle Sam's Navy' seem to think our navy is 'The Navy' and the 'One Navy' of the world. And it is a most impressive sight to see sixteen or twenty dreadnoughts in battle formation—a sight that makes a man straighten up and feel proud that he is an American! But we have seen some of the work of the world-famous cruiser 'Emden,' of Germany, whose remarkable record is second only to that of the 'Alabama,' of the Confederate States of America, and, believe me, it sure shows that the other navies are there with the goods. And the best navy that Uncle Sam can get is none too good for the United States, the country which the sailors out here call 'God's Country.' I am associating every day with men who were around the world with the fleet a few years ago, and their opinion is the same everywhere—it is 'God's country for mine!'

"Now I will close my letter, and if this passes the censorship and goes to print, I will try again.

"I am,  
Respectfully yours,  
D. GRATZ HUNTER.

Judge H. C. Randolph is in Floydada on business.

M. T. Howard, of Clarendon, was here last week on business.

Floyd Howard, of near Silverton, had business in Plainview during the early part of the week.

Ed Dunaway was in Amarillo Thursday.

Albert Hinn is in Clovis, N. M., on business.

## SOCIETY

Telephone Number 72

### MRS. OSCAR COLLIER HALCYON CLUB HOSTESS.

Mrs. Oscar Collier, 410 White Street, was hostess Wednesday afternoon for the Halcyon Club. The steady rainfall throughout the afternoon only tended to make the interior of the home more attractive to the guests as they were warmly greeted by the hostess.

After a number of entertaining games of Forty-two, the dominoes were removed and a tempting salad course served to the members and the following special guests of the hostess: Mesdames Dee Miller, J. J. Lash, W. W. Underwood, D. L. Millican, Tom Carter, A. B. Martin and George Saigling and Anna Witte.

Mrs. J. W. Willis will entertain the club Wednesday, October sixth.

### MRS. JOHN P. CRAWFORD HOSTESS HIGHLAND CLUB.

Such a pleasant, pretty party was the meeting yesterday afternoon of the Highland Club, with Mrs. John P. Crawford as hostess! Roses and nasturtiums were featured in the adornment of the rooms for the welcoming of the members and additional guests.

Forty-two, the chosen game of the club, was enjoyed until the serving of a beautifully appointed two-course luncheon by Mrs. Crawford, assisted by Mrs. H. C. Randolph and Mrs. Tom Carter.

The club will meet with Mrs. Edgar B. Hughes Thursday, October seventh. The special guests yesterday afternoon were Mesdames R. A. and W. W. Underwood, D. H. and Elmer Sansom, Everett Dye, W. L. Harrington, G. B.

Doubleday, A. B. Martin, George Saigling, H. W. Harrel, C. W. Tandy and E. T. Coleman, and Misses Effie Casey, Sarah Ross and Hallie Groce.

### G. W. LAND MARKS ANNIVERSARY BY BANQUET TO HIS STUDENTS.

Host Is Recipient of Gifts, Expressing Esteem, From His Pupils.

The student body of Farmer's Business College, the patrons and a few special friends were tendered a banquet Wednesday night by G. W. Land, principal of the school.

The affair took place in the commodious new home of the school, over the Donohoo-Ware Hardware Store, and was given by Mr. Land commemorating his thirty-first birthday and the thirteenth anniversary of his career as a teacher.

Everett Bryan, on behalf of the students, presented Mr. Land with an elegant ivory dresser set. He was also the recipient of other handsome presents, among them a beautiful birthday cake, gleaming with thirty-one candles, marking the milestones in the life of the popular host.

Despite the inclement weather, some eighty-odd guests were present, who thoroughly enjoyed the bountiful hospitality extended.

The invocation was by Ben Sebastian. During the elegant, five-course banquet, the following toasts were offered, with Paul Bryan toastmaster: "The Past"—Miss Metlock. "The Present"—Frank Bowron. "The Future"—Wayne Bridges.

"The Faculty"—Robert Fletcher. Address—W. J. Foster. Address for Student Body—Everett Bryan.

"Heart-to-Heart" Talk—G. W. Land. College Song—Student Body.

Menu.

### FINE ARTS FACULTY WAYLAND BAPTIST COLLEGE IN RECITAL.

"Each one an artist in her line" was the verdict given Tuesday night by the large audience present at the recital given by the Fine Arts Department of Wayland Baptist College.

The recital was given at the Baptist Church. Those who took part were Miss Jeter, pianist; Miss Donnell, teacher of voice, and Miss Brown, teacher of expression.

The following program was given:  
"A May Morning" (L. Deza)—Miss Donnell.

"The Soul of the Violin" (Merrill)—Miss Brown.

(a) Romanze, Op. 28, No. 11 (Schumann); (b) Novelette, Op. 21, No. VII (Schumann)—Miss Jeter.

(a) Rendil Serino al Ciglio (G. F. Handel) (From the Opera Sosarme); (b) Porgi Amor (W. A. Mozart)—Miss Donnell.

"A Christian Soldier" (Cook)—Miss Brown.

"The Swallows" (Frederick H. Cowen)—Miss Donnell.  
Cantique D'Amour (Liszt)—Miss Jeter.

(a) "Hullo" (Sam W. Foss); (b) "It"—(Kipling)—Miss Brown.

Ed Meacham had business at Alley Switch Wednesday.

### AT THE METHODIST CHURCH.

"The Ideal Christian" will be the subject of Rev. J. W. Story's sermon at the 11 o'clock service Sunday morning at the Methodist Church. There will be special music.

A cordial invitation to be present is extended to everyone.

### CHURCH OF CHRIST.

Rev. W. F. Ledlow, president of Lockney Christian College and pastor of the Plainview Church of Christ, will preach Sunday morning at eleven o'clock and Sunday evening at eight-thirty o'clock.

Mrs. E. Dowden accompanied Mrs. Joseph Pendhain to Amarillo Sunday. Mrs. Pendhain was met in Kansas City by relatives who accompanied her to her home in Geneva, Neb.

O. C. Layne, of the Layne & Bowler Company, returned yesterday from Amarillo, where he has been assisting with the exhibit of the Layne & Bowler Company at the Panhandle State Fair. J. B. Farmer is in Amarillo.

Judge L. C. Penry had business in Amarillo Wednesday.

Mrs. E. J. Deal and son, Nelson, who have been visiting Mrs. E. E. Roos for some time, left Thursday for Cape Girardeau, Mo. Nelson has been spending the summer with Mrs. E. E. Roos.

W. A. Shofner and children, Miss Mildred and Sanford, left yesterday for Port Lavaca, Texas, where the children will enter school.

Geo. B. Roberts, of Stephenville, who has been visiting his aunt, Mrs. J. M. Shafter, and family, left yesterday for Amarillo, where he will attend the Panhandle State Fair before returning to his home. He was here during the Hale County Fair, and is much in love with the South Plains.

Byron Sanford, who has been visiting his brother, Ben O. Sanford, left yesterday morning for his home, in Covington, Texas, where he will enter school.

L. D. Gamble, of Floydada, was here yesterday morning en route to his home, after a visit in Lubbock on business.

B. C. Hubbard returned from Amarillo yesterday. He has been attending to business there and taking in the Panhandle State Fair.

Bob Meyers returned yesterday from Lubbock, where he had been on business.

**AMERICAN EXPORT TRADE,  
FISCAL YEARS 1915 AND 1914.**

WASHINGTON, D. C., Sept. 23.—A detailed account of leading articles contributing to the record-breaking exports of the fiscal year 1915 is supplied by the following table compiled from the June, 1915, "Monthly Summary of Foreign Commerce," shortly

to be published by the Department of Commerce.  
New high levels were touched during the closing month of the year, and while certain classes show a decrease for the year, nearly all of them now participate in the general advance. Cotton, agricultural implements, lumber and naval stores are the notable exceptions.

**Leading Articles of Export, in Order of Magnitude in 1915**

**OUR MISNAMED RUINS.**

**Misleading Titles Which Have Been Ignorantly Given to the Mesa Verde Cliff Dwellings.**

Many visitors to the prehistoric Cliff Dwellings of the Mesa Verde National Park, in Southwestern Colorado, are astonished to find that what is commonly described as a dwelling is not properly a dwelling at all, but a village or city. The celebrated Cliff Palace is not a palace. Neither is Spruce Tree House a house, nor Balcony House a house. Each of these is a complete town which once, in the dim ages before the earliest Indian tradition, was an organized community, often of considerable size.

The arrangement of houses in a cliff dwelling of the size of Cliff Palace, for example, is characteristic and intimately associated with the distribution of the social divisions of the inhabitants. The population was composed of a number of units, possibly clans, each of which had its own social organization more or less distinct from others, a condition that appears in the arrangement of rooms. The rooms occupied by a clan were not necessarily

connected, although generally neighboring rooms were distinguished from one another by their uses.

**ENORMOUS CROPS OF LEMONS.**

Twenty thousand acres in young lemon trees in California will soon come into bearing and double the domestic supply. The crop for the year ended August 31, 1915, was 6,667 cars, or 132 per cent more than last year. These large increases in production will call for a serious study in marketing the lemon crop of the United States.

The California Fruit Growers' Exchange lemon shippers have organized a company to manufacture by-products from the lower grades of fruit. The plant is under construction, and the business will be handled on a co-operative basis, the growers receiving the full returns for the by-products after the cost of operation is deducted. From one and one-quarter to one and one-half million dollars' worth of lemon oil, citrate of lime, and other lemon by-products are imported annually into the United States. These products can be manufactured successfully in California from the lower

grades of fruit that are not worth shipping, as well as from fruit that demoralizes the markets because of its inferior quality.

**ROSSELL PREPARING FOR BANKERS' ASSOCIATION MEET.**

Roswell, N. M., is getting ready for a record attendance at the New Mexico Bankers' Association meeting, October 4 to 9.

The State Livestock and Products Exposition will meet at the same time. This exposition is incorporated.

Your family and friends want pictures of you as they are accustomed to see you—pictures with your natural, conversational expression.

Such portraits are a pleasure for us to make and for you to have made. Drop in and have a chat—you will hardly know you are being photographed. This is modern photography—the result is a natural, intimate likeness.

**SHERIFF'S SALE.**

THE STATE OF TEXAS,  
 County of Hale.  
 BY VIRTUE of a certain order of sale issued out of the Honorable District Court of Hale County, on the 9th day of September, 1915, by B. H. Towery, Clerk of said court, against J. W. McClelland, Prudie R. McClelland and Hugh McClelland, for the sum of Two Thousand Six Hundred and Fifty-one Dollars and Eighty-eight Cents (\$2,651.88), and costs of suit, in cause No. 1196 in said court, styled Horace Gooch vs. J. W. McClelland et al., and placed in my hands for service, I, J. C. Hooper, as Sheriff of Hale County, Texas, did, on the 9th day of September, 1915, levy on certain Real Estate, situated in Hale County, described as follows, to-wit:

Lots Nos. 7 and 8, in Block No. 6, in the McClelland Addition to the town of Plainview, Hale County, Texas, according to the map or plat of said addition of record in the Deed Records of Hale County, Texas, and levied upon as the property of said J. W. McClelland. And on Tuesday, the 5th day of October, 1915, at the Court House door of Hale County, in the State of Texas, between the hours of ten a. m. and four p. m., I will sell said property at public vendue, for cash, to the highest bidder, as the property of said J. W. McClelland, by virtue of said levy and said order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Plainview Evening Herald, a newspaper published in Hale County.

WITNESS my hand, this 9th day of September, 1915. J. C. HOOPER,  
 Sheriff, Hale County, Texas.  
 By J. F. FRYE, Deputy.

**TRY IT! SUBSTITUTE FOR NASTY CALOMEL**

tarts Your Liver Without Making You Sick and Can Not Sallivate.

Every druggist in town—your druggist and everybody's druggist—has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may sallivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it. --Adv.

**To Drive Out Malaria And Build Up The System**  
 Take The Old Standard GROVE'S TASTELESS chill TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

# HOOSIER WEEK SALE

**\$1.00 DOWN—\$1.00 A WEEK**

**Sale Begins Tomorrow, September 25**

## Hoosier Features

### Pure Aluminum Table Top. A Scientific Pantry.

The pantry part of the Hoosier Cabinet is arranged scientifically so you can store in it forty or more packages—all the supplies you ever need—and can reach any one of them instantly without disturbing the others.

**Food Guide**, containing economical menus.

**Valuable Salad Chart.**

**Convenient Doors**, accessible at all times.

**An Automatic Calendar.**

One of the most ingenious parts of its equipment is the Automatic Calendar which tells you instantly the day and date of any month for twenty years.

**Want List and Bill File.**

**Ant Proof Casters.**

**Food Timer.**

**Cook Book Holder.**

**New Patented Flour Sifter.**

Shakes flour thru four times faster than old styles.

**Glass or Metal Sugar Bin.**

**Warp-Proof Construction.**

A place for everything and everything in its place.

### You Save Many Dollars

By being built on a scientific standard, the Hoosier avoids the great cost of constant corrections, a saving that goes to you, the purchaser. The additional savings through the enormous sales of Hoosiers keep the cost per cabinet very low. Thus it is sold at a standard low retail price in every town through one reliable dealer whose profit per cabinet is also small.

These savings in total make an economy of many dollars for you when you buy a Hoosier.

### Few Cents a Day

This money economy you can count. You can figure easily how a few pennies a day pay the whole of the small Hoosier price. But the value to you of the time and labor you save, and your increasing satisfaction every day you use your Hoosier, not even you can measure.

Note wide cupboard space—uncruttered by partitions or cubby holes

**This is "HOOSIER BEAUTY"**  
**The National Step Saver**

**Cabinet No. 1552**

The Most popular kitchen cabinet in the world. **Price \$39.00**

## Why 800,000 Use It

With a Hoosier you can hardly help being quick with your work. Meals are ready in much less than the usual time. The cabinet keeps your work in order and is easy to keep in order itself. You can take it apart in two minutes and dust out every corner. Even the ends outside are sanitary and dust proof—no ledges to catch dust. There is not a nook where anything can hide. You can even roll it to the door or window for a complete inside and outside bath of sun and air. It moves so easily on ball-bearing steel casters that sweeping behind it is less work than sweeping under a chair.

### Your Duty to Yourself

All this saving of energy and of countless steps and hours makes the difference between being fagged out and *not* being fagged out at the end of the day. Your work is hard enough at best and you owe it to yourself and your family to secure this saving of your health and strength.

### No Experiment

When you put a Hoosier Cabinet in your home, you are investing in leisure hours. There is no experiment about it. The 800,000 women who use the Hoosier have perfected its convenience with their practical suggestions. Every worthy device invented for saving kitchen work has been tested at the factory and adopted in the Hoosier Cabinet, or rejected, according to merit.

### A Scientific Machine

The Hoosier has no frills. Nothing in it is a guess. It is a scientific labor-saving kitchen machine. In buying it, you save all risk of a costly experiment in your own home. You get the benefit of *all* the practical kitchen labor saving devices that have been made.

### Built for Long Use

The Hoosier is simple, strong and complete. Every part works perfectly. Where labels improve convenience, each part is labeled. The Hoosier lasts for generations.

**This is the first opportunity ever offered the people of Hale County to buy these FAMOUS HOOSIER CABINETS on such terms**

Note wide cupboard space—uncruttered by partitions or cubby holes

**This is the "HOOSIER WONDER"**  
**\$9 Below Standard Price**

**Cabinet No. 1550**

This cabinet with white enamel upper cupboard is the lowest priced high-grade kitchen cabinet ever made. It does not contain all the conveniences of the other Hoosier models, and is not so big, but it is a wonderful value for the money. **Price \$30**

## THE "HOOSIER DE LUXE"

**Cabinet No. 1554**

This cabinet is generally conceded to be the most beautiful kitchen cabinet so far produced. It is the famous "Hoosier Beauty" entirely coated with the best grade of white enamel, inside and out. Its spotlessly white surface seems always to radiate cleanliness. For fine apartments or tiled kitchens nothing could be more appropriate.

**Price \$43.00**

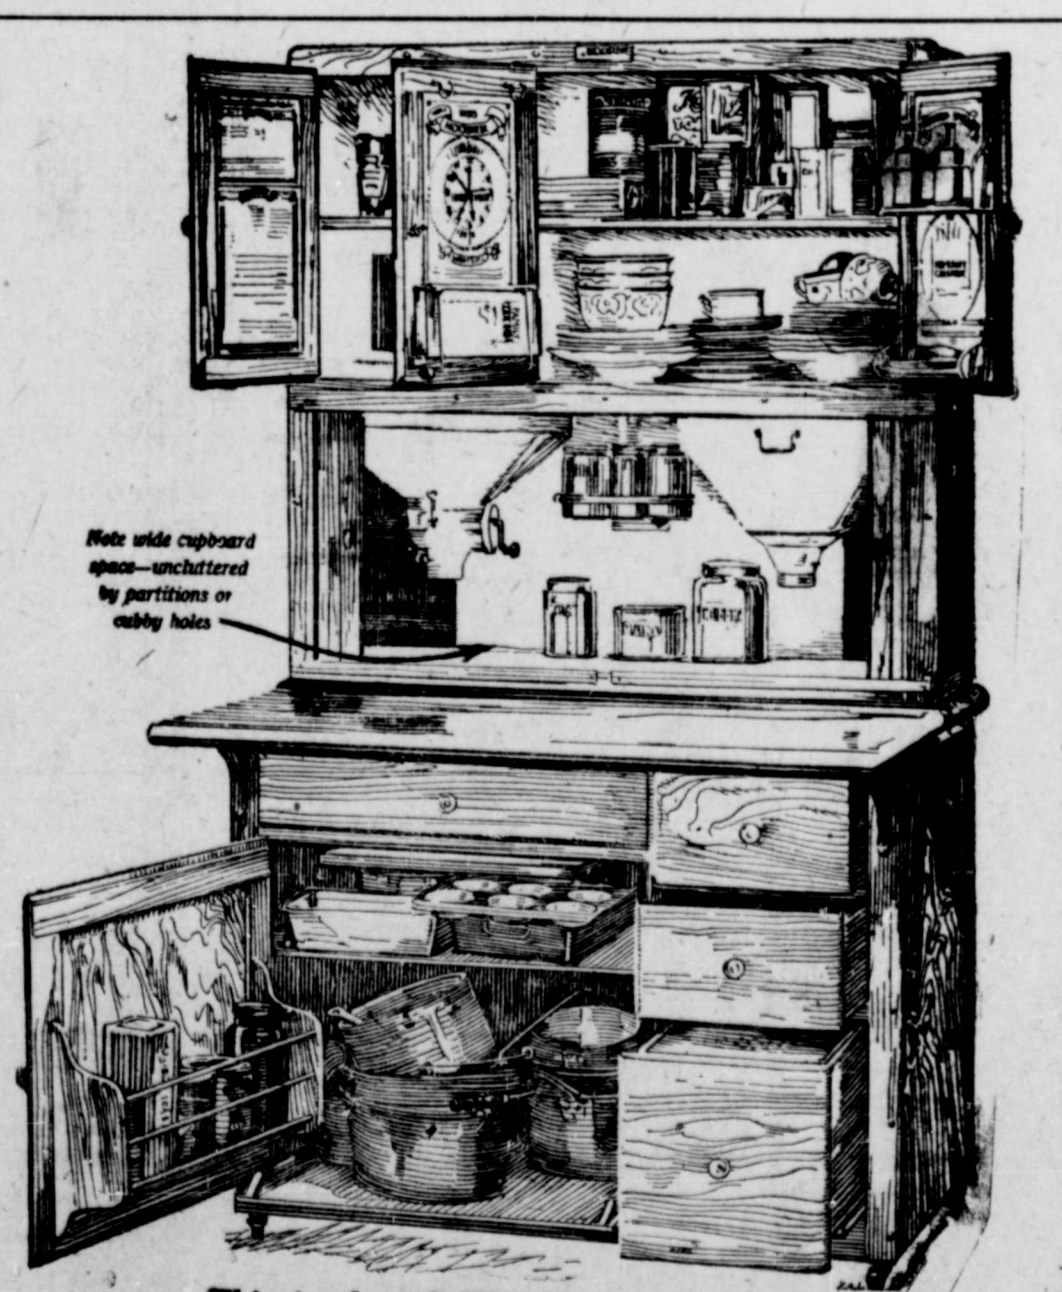

The Hoosier moves easily on ball-bearing steel casters. This feature enabled the Hoosier designers to give you extra storage space without increasing your labor of sweeping. This is a great improvement over the old style, so-called sanitary leg base which wasted valuable space without removing the necessity of stooping over or moving the cabinet for sweeping.

You can take the Hoosier entirely apart and dust every corner or give it a complete sun and air bath. There are no hidden cubby holes or closed pockets or partitions to harbor germs, bugs or dirt. The Hoosier is kept clean because it is so easy to clean.

### SEE THE

**Hoosier Display**

In our window this week

Note wide cupboard space—uncruttered by partitions or cubby holes

**This is the "ROLL DOOR HOOSIER"**  
**With the only sanitary, removable roll doors**

**Cabinet No. 1553**

This is the only sanitary roll door cabinet made. The doors, you will notice, slide in open grooves—not in closed pockets which cannot be cleaned. This cabinet has all the conveniences of the "Hoosier Beauty" except such extra conveniences as are provided on the "Hoosier Beauty" extra hinged doors. **Price \$39.50**

**E. R. WILLIAMS FURNITURE AND UNDERTAKING**  
**PHONE 105**
