HANBY ARRIVES WITH THE DENVER PREMIUMS

BRINGS BIG HOLT LOVING CUP, RIBBONS, SPECIAL AWARDS, AND MEDALS.

NAMES OF PRODUCERS GIVEN

Chamber of Commerce Secretary Thanks Growers and Other Contributors for Assistance.

In the Chamber of Commerce headquarters is now displayed the large loving cup won by Hale County for having the best county display at the International Soil-Products Exposition and International Dry-Farm Congress, which have just closed, at Denver. Dr. J. D. Hanby, who, with E. H. Perry, had charge of the exhibit, returned Monday morning with the trophies. Mr. Perry is yet in Colorado on business.

There are also the first, second and third ribbons, the special awards and seven bronze medals which were won by Hale County. The premiums total one hundred four.

In speaking of Hale County's success, Colonel R. P. Smyth, secretary of the Chamber of Commerce, said yesterday to a representative of The Herald: "That splendid array of premiums was made possible only by the work of individuals who have Hale County's best interests at heart. We want to thank every man who contributed in money, in produce, in time, or in any other way to the success of this exhibit we sent to Denver."

Colonel Smyth has furnished the following list of premiums and by whom the produce was grown:

Best county display, first, Hale County; best ten heads dwarf black-hulled kaffir, first, Dick Estes; best ten heads red kaffir, first, O. E. Winslow; best ten heads feterita, first, Dick Estes; best 20 heads German millet, first, Mrs. R. G. Barbee; best bale upland cotton, first, Dr. J. D. Hanby; best sheaf German millet, first, Mrs. H. B. Tatum; best vine Spanish peanuts, first, Mrs. Barbee; best vine cowpeas, first, L. A. Dalmont; best bale Sudan grass, first, J. W. Longstreth; best peck Sumac sorghum seed, first, C. E. White; best peck Orange sorghum seed, first, Walter Austin; best bushel red winter wheat, first, Fred Weyl; best half bushel white onions, first, George Duckwall; best 12 stalks rhubarb, first, L. N. Dalmont; best red Hubbard squash, first, A. M. Kruger; best white summer squash, first, L. S. Kinder; best six kershaws, first, Mrs. J. E. Jackson; best half bushel Southern Queen potatoes, first, Col. R. P. Smyth; best plate Huntsman apples, first, E. W. Byars; best three watermelons, first, Mrs. J. T. Spence; best bushel winter wheat (irrigated), first, J. W. Longstreth; best plate Northern Spy apples, first, Col. R. P. Smyth; best plate Northwest Greening apples, first, Col. R. P. Smyth; best Stark's Delicious apples, first, W. P. Lash; best plate Smith's Cider apples, first, Col. R. P. Smyth; best plate quinces, first, Ernest Spencer; best plate Willow Twig apples, second, Col. R. P. Smyth; best ten heads dwarf black-hulled kaffir, second, J. E. Ellerd; best peck Spanish peanuts, second, C. E. White; best peck Tennessee Red peanuts, second, C. E. White; best sheaf black emmer, second, E. H. Perry; best sheaf German millet, second, Mrs. R. G. Barbee; best vine of peanuts (any variety), second, Mrs. R. G. Barbee; best bale alfalfa, second, J. W. Longstreth; best Amber sorghum, second, C. E. White; best sweepstakes on sorghum, second, Walter Austin; best bushel white spring emmer, second, B. L. Moore; best six egg plants, second, A. M. Kruger; best twelve ripe peppers, second, A. M. Kruger; best six pumpkins, second, J. E. Jackson; best six squash (any variety), second, A. M. Kruger; best peck threshed kaffir, second, H. B. Tatum; best peck threshed feterita, second, C. E. White; best plate Huntsman apples, second, L. N. Dalmont; best plate Ingram apples, second, L. N. Dalmont; best plate Northwest Greening apples, second, L. N. Dalmont; best plate Stayman's Winesap apples, second, R. P. Smyth; best ten plates of apples, second, Col. R. P. Smyth; best display of apples (individual grower), second, R. P. Smyth; best collective display of grass seeds, third, C. E. White; best ten heads of

ELLERD ORATORICAL CONTEST ATTENDED BY LARGE CROWD.

Mrs. Hattie Quisenberry and Mrs. W. E. Palmer Win Largest Prizes of Cash.

The Ellerd Oratorical Contest was held Friday evening, at the Methodist Church, before a large audience. There were two subjects, "Woman's Mission" and "Prohibition." Four prizes were offered two of fifty dollars each for the best oration delivered on each of the subjects, and two of twenty-five dollars each for orations on each of the subjects, to be judged on composition and thought only. Mrs. Hattie Quisenberry won first on "Woman's Mission" and Mrs. W. E. Palmer first on "Prohibition," and the prizes on composition alone went to Mrs. Hattie Quisenberry on "Woman's Mission," and to Robert Hailey on "Prohibition."

The seven who competed for prizes were Harry Phelps, Albert Terry, Mrs. W. E. Palmer, Fay Sawyer, Robert Smith, Lockney, L. A. Hartley and Mrs. Hattie Quisenberry.

This the second contest of the kind Mr. Ellerd has fostered. He bears the expense of the contests personally. It is his intention of having the orations winning published and distributed free of cost to those who want them.

REV. AND MRS. J. W. WINN CELEBRATE GOLDEN WEDDING.

Friends of Popular Old Couple Give Hundred Dollars in Gold as Remembrance.

Rev. and Mrs. J. W. Winn have passed the golden milestone in their matrimonial journey. They celebrated this event yesterday by keeping open house at their home, on East Sixth Street.

At eleven o'clock a. m., Rev. I. E. Gates, pastor of the Plainview Baptist Church, revived the memories of fifty years by performing anew the marriage rite.

Eleven children were born to Mr. and Mrs. Winn, three sons and eight daughters, all of whom are living. Four of these were present yesterday.

As a token of esteem and respect, one hundred dollars in gold was given the popular couple by their friends and fellow church members. Other handsome presents were received.

Chocolate and cake were served throughout the day to the sixty-odd guests who called to offer their congratulations and good wishes.

CLARENDON HERE SATURDAY.

Seth Ward's Old Rival Reported to Have Good Team; Played Normal Close Game.

Seth Ward College will play Clarendon College here Saturday afternoon, at the East Side grounds. Coach Henderson, of Seth Ward, says that the game will be called at four o'clock, sharp.

Clarendon has a strong team, and the games between Seth Ward and Clarendon have always been interesting. This will probably be one of the best games Plainview will see this season.

The Clarendon team will outweigh Seth Ward. Their coach, Professor Moore, is a Swanee man, and it is stated he has a good team. In their opening game, with the Normal at Canyon, Clarendon was beaten by only one touchdown. The team Seth Ward will play against Clarendon Saturday is probably the strongest team the local school has ever had.

KEYS BUYS PARTNER'S INTEREST IN GREENHOUSE.

Also Buys Residence Now Occupied by Lum Terry.

E. S. Keys has purchased the interest of W. H. Jeffries, his partner, in the Plainview Floral Company. He has assumed control of the business.

Mr. Keys has also purchased the house now occupied by Lum Terry and family, and will move into this house about the twenty-fifth of October.

L. F. COBB ATTENDING MEETING OF GRAIN DEALERS.

L. F. Cobb, proprietor of the Cobb Grain Company, which has elevators at Plainview and at Floco, is at Peoria, Ill., attending a meeting of the National Grain Dealers' Association, of which he is a member.

PAN-AMERICAN CONGRESS RECOGNIZES CARRANZA

Three of Six Countries Give Official Advice That They Will Follow U. S. Policy.

WASHINGTON, Oct. 10.—Official advices have been received here that the governments of Argentina, Brazil and Chile are in accord with the decision of the United States to grant recognition to the party led by General Carranza as the de facto government in Mexico.

It became known today that some of the South American governments long before yesterday's conference had authorized their diplomatic representatives to favor the recognition of General Carranza in the Pan-American deliberations.

President Wilson several days ago indicated to Secretary Lansing his acquiescence in the plan proposed.

The form in which recognition is to be accorded has not been decided, but it may be done by formal notification to Eliseo Arredondo, authorized representative here of the Carranza government. Extension of recognition is expected within a week.

Will Place Embargo on Arms.

This will result in the immediate order of an embargo on arms against factions opposed to the Carranza government, a step which will materially weaken the resources of the Villa element, which intends to continue the fight in Mexico.

Miguel Diaz Lombardo gave out a statement tonight in behalf of the Villa faction declaring that, while it was a source of satisfaction that the United States had shown its sympathy with the Mexican Constitutional revolution against Huerta by recognizing a revolutionary faction, nevertheless it was intended to demonstrate by further military operations that the Carranza party's supremacy was temporary.

George C. Carothers, American Consular Agent, telegraphed the State Department the substance of a long interview he had had with General Villa at Juarez, in which the latter explained in line with utterances to the press last night that he intended to continue fighting Carranza. No mention was made of withdrawing protection to foreigners, as reported in press dispatches, but officials realize that the legal responsibility for protection of foreigners rests always with the recognized government for all parts of the country, whether in rebellion or not.

Americans for this reason were recently advised to withdraw from Northern Mexico, but many of them have failed to heed the State Department's advice.

May Follow Precedent.

The Washington Government during the Taft Administration took the position, however, that even when a recognized government existed in Mexico City the leaders of rebellious factions were personally responsible for acts of their followers, and gave warning to this effect. This precedent probably will be followed in the event of difficulties now in Northern Mexico.

Although the documents presented to Secretary Lansing and the Pan-American conferees by Eliseo Arredondo on behalf of General Carranza on which the decision to recognize the Carranza party was based, have not been made public, it became known that the first chief had given explicit assurances with reference to the protection of foreigners, claims, amnesty for political offenses and the treatment of the clergy.

PASTURING SEVEN HUNDRED LAMBS ON PEARSON FARM.

Texas Land and Development Company Turning Alfalfa into Mutton.

Seven hundred lambs have been recently purchased by the Texas Land and Development Company and placed on the Pearson farm, where they are being pastured on alfalfa. This bunch of feeder stuff was purchased from Sanson & Son, J. W. Longstreth, general manager of the T. L. & D. Co., believes alfalfa on hoof, in the form of mutton, will find a ready market at prices which will make feeding profitable.

J. P. CRAWFORD BUYS CALVES.

J. P. Crawford has purchased of J. A. Taylor, of Quitaque, a hundred head of calves for May delivery. The price was \$37.50 per head.

WAYLAND A TOY FOR BOYS FROM SETH WARD COLLEGE

Henderson Plays Subs and Has Score of 72 to 0 at End of Third Quarter.

By a score of 72 to 0, Seth Ward College won the first game in two years from Wayland Baptist College. At the beginning of the fourth quarter the game was called, on account of rain and wind.

A pleasant surprise was sprung when Coach Geo. R. Henderson's squad from Seth Ward College trotted on the East Side field. There was "pep" in their step and the fellows showed good form. But the biggest surprise was after Wayland Baptist College had kicked off and Perdue, of Seth Ward, returned the ball twenty-five yards. He made a good run, and the interference formed for him was perfect. Seth Ward carried the ball for the first touchdown by a series of end runs. From that time on it was clearly Seth Ward's game.

Henderson has developed some good interference. His team yesterday showed the best form of any team that has played in Plainview in the past three years. Stokes Bishop and Nelson Perdue are speedy men, however, and often got away from their interference, which was too slow.

Thomas' men from Wayland show lack of training. The line buck was the play most used by Wayland when they secured the ball, and they were not able to make gains through the heavy Seth Ward line. Two years ago the Wayland team played Seth Ward close games, but the squad has degenerated during the past year, during which time there was no team at Wayland. The old players have gone to other schools, and Wayland has nothing but new material.

Seth Ward has cancelled the game with Wayland for Thanksgiving Day, and will play Farmer's Business College, which team seems to be a formidable contestant for city championship.

McCord, of East Side School, refereed the game and Coach Saunders, of Farmer's Business College, umpired. Bolin, of Seth Ward, was field judge.

Seth Ward started the game with the following line-up, which was changed so that every sub on the team could have a work-out:

Haynie, right end; Walls, left end; Upton, left tackle; McDonald, right tackle; Formway, right guard; Russell, left guard; Rushing, center; Perdue, quarter; Rutchett, full back; Bishop, left half; H. Quinn, right half; substitutes—Johnson, tackle; Miller, tackle; Jordan and Page, guard; Jim Story, left end; Ott, right end; Haynie, quarter; Perdue, half; Ott, half; Chilton, tackle.

LAMB COUNTY COMMISSIONERS MEET WITH HALE COUNTY COURT.

Straightening Out Matters of Taxes on Sections Which Lie in Both Counties.

The County Commissioners of Hale and Lamb counties have been meeting in joint session this week to straighten out the matter of taxes on sections which lie in both counties. Often owners of sections lying partly in Hale County and partly in Lamb County would pay taxes for the entire section in one county. In making up the tax records it has been found necessary to apportion the taxes and have a reckoning.

The matter has been left up to the tax assessors and tax collectors of the two counties.

Attending the court from Lamb County were C. H. Carl, George Arnett, L. L. French, Harry Bond, Robt. McQuillon and Arthur P. Duggan.

JUDGE RANDOLPH BACK FROM KANSAS CITY AND ST. LOUIS.

Judge H. C. Randolph, attorney for the Texas Land & Development Company, returned this morning from a visit on business to Kansas City, St. Louis and other cities of the Central West. He reports business conditions in these cities good.

According to Judge Randolph, Missouri has suffered crop losses on account of heavy rains. South and West of Kansas crop conditions, however, are flourishing.

James McBride, of Crosbyton, visited friends here through the week-end.

MILE OF PENNIES WANTED TO BUY VICTROLA FOR SCHOOL.

Lamar Mothers' Club Wants to Interest Every Mother in District in Work of Organization.

The Lamar Mothers' Club held an enthusiastic meeting last Friday afternoon. The following plans were discussed:

First, it was agreed that the club could not do its best work unless every mother in the district was interested. It was decided that every mother should receive an invitation for the next meeting.

Second, the program committee was asked to select a suitable subject or book, and to outline a course of study for the term. Practical topics that bear upon the problems of Lamar School will be included.

Third, the mothers, realizing the children's great need of first-class music, determined to buy a Victrola. To start the fund, the "mile of pennies" plan was selected.

The meeting adjourned to meet the second Friday in November. All patrons are earnestly requested to attend.

MEXICANS WANT MONEY.

Pay Checks of Santa Fe Construction Gang Strip Merchants of Their Cash.

Today is Columbus Day, celebrating the anniversary of the discovery of America by the pioneer sailor. It is also Santa Fe pay day, and Plainview merchants have been besieged for cash by Mexicans on the construction gang laying heavy steel out of Plainview. The banks being closed, there was a shortage of cash. The pay checks brought in by the small horde of Mexicans stripped the safes and tills of several merchants of currency and silver.

VERNON MINISTER WILL HOLD MEETING FOR CHURCH OF CHRIST.

Brother of H. E. Skaggs to Preach Opening Sermon Sunday Morning at Eleven O'clock.

Rev. W. P. Skaggs, evangelist, of Vernon, Texas, will begin a series of gospel meetings Sunday morning at eleven o'clock at the Church of Christ. Rev. Skaggs is a brother of H. E. Skaggs, of this city, and is highly recommended by his denomination as a man of forceful speech and splendid personality.

The general public is invited to the services.

KAFFIR-MILO ASSOCIATION FIELD SECRETARY HERE.

Would Interest All Counties in Sorghum-Grain-Growing Belt in Work of Club.

J. K. Wester, field secretary of the Texas Kaffir and Milo Maize Association, was in Plainview yesterday and today in the interest of the farmers in each county in the kaffir-and-milo maize-growing belt in the work of the association, which is primarily to exploit these grains in the markets of the East and North with a view to increasing the market price by creating a strong demand.

While here, Mr. Wester conferred with the vice president of the association, J. W. Longstreth, and Colonel R. P. Smyth, secretary of the Chamber of Commerce.

CENTRAL HIGH SCHOOL TO PLAY FLOYDADA HERE.

Friday afternoon the Central High School will play their opening game, on the East Side grounds, with the Floydada High School eleven.

Central High is developing a fast team, and there is a report that the Floydada team is also fast and strong. The boys are expecting an evenly matched game.

The Central High team has matched games with Lubbock, Silverton and Amarillo.

TWENTY-EIGHT FROM FARMER'S GO TO LUBBOCK FOR GAME.

This morning Professor G. W. Land, principal of Farmer's Business College; Coach Saunders, and twenty-eight students of Farmer's Business College boarded the train for Lubbock, where the Farmer's eleven will play Lubbock this afternoon.

Coach G. R. Henderson, of Seth Ward College, will referee the game.

AUSTRO-GERMANS HOLD OLD SERBIAN CAPITAL

SERBS FALL BACK TO JOIN ANGLO-FRENCH; NO PITCHED BATTLE EXPECTED SOON.

GREECE IS A SPECTATOR

Germans Have Abandoned Attempt to Retake Territory From British South of LaBassee.

LONDON, Oct. 10, 10 p. m.—The Austro-Germans are now in full possession of Belgrade and the heights surrounding the city, and have begun an advance eastward toward the mountains which the Serbians last year so stubbornly defended against the Austrians.

For some time to come the invaders, it is expected, will have to fight only the rear guards, whose duty it is to delay their progress, for the Serbians will doubtless do as they have done on previous occasions—fall back until they have reached positions in which they will have the best opportunity of holding their ground. In fact, military writers here do not expect a pitched battle on this front for ten days or a fortnight, by which time the allied forces landed at Saloniki should have joined hands with the Serbians.

Bulgarians Look On.

The Bulgarians, so far as is known, have not yet made any incursion into Serbian territory, and it is believed that they will withhold their hands until they know how matters go with the Austro-Germans. Some Balkan authorities, indeed, still believe that the Bulgarians will not interfere with the movement northward of the Anglo-French expedition, for to do so would immediately bring the shells of the sea ships into their ports on the Black and Aegean Seas, probably followed by the landing of Russian troops at Varna and Burgas and of other allied troops at Dedeagatch.

Greece and Roumania remain interested spectators, although the former has given assurance of her benevolent neutrality toward the allies. Representatives of the entente have furnished the Greek Government with information concerning the agreement between Bulgaria and Germany, which, it is asserted, gives the Bulgars a free hand to deal not only with Serbia, but with Greece as well, should the central powers win.

Fighting in West.

The fighting on the various fronts brought about little or no change in the situation today. The Germans, after two days' heavy fighting, in which, according to British and French accounts, they suffered a severe reverse, have abandoned for the moment the attempt to recapture territory won from them by the British south of LaBassee. They do claim, however, to have retaken from the French some trenches each of Souchez and at Tahure, in Champagne.

Field Marshal von Hindenburg is making slow progress in his operations against Dvinsk, and, although he claims to have taken more of the Russian positions, he does not appear to be much nearer the city than he was two weeks ago.

South of the Pripet River and in Galicia the tide of battle flows and ebbs. First the Russians then the Austro-Germans attack and counter-attack, and where during the summer miles of country would change hands in a day, now it is a question of defending some isolated village. The heaviness of the roads doubtless is largely responsible for this.

HIGH SCHOOL STUDENTS WILL PUBLISH MONTHLY.

"The Edisonian" Is Name of Paper, Which Will Be Handled as Laboratory Work.

The students of the Central High School are going to publish a monthly paper, which will carry current public school news and compositions and stories by High School students.

The staff of the new publication is: Harold Bain, editor; Frank Buchanan, business manager; Will Elmer Barnes, eleventh grade; Eloise Howard, eleventh grade; John Boswell, ninth grade; Mabel Sanderson, ninth grade; Chauncey Gidney, ninth grade; Reuben Miller, ninth grade; Cleo Gist, eighth grade; Paul Frye, eighth grade; Mamie Skaggs, eighth grade; Leslie Randolph, eighth grade.

**CHARLES LAWRENCE BAKER
DISCOVERS VALUABLE STONE.**

**Brewster County Has an Immense
Deposit of Novaculite, a Valuable Oil Stone.**

While engaged in exploration in the mountains of West Texas, Professor Charles Lawrence Baker, of the Bureau of Economic Geology, University of Texas, found large deposits of Novaculite. This is a valuable oil stone heretofore found in the United States only in the Ouchita Mountains of West Central Arkansas.

Professor Baker has been making extensive studies of the minerals of West Texas during the past eighteen months. He was in Plainview for several days, and many here will remember him.

The Novaculite in Texas is found in north-central Brewster County, along the line of the Southern Pacific Railroad from Haymond westward to beyond Marathon. A small area of it is found north of the railroad north and northeast of Marathon, but it has by far its largest extent south of the railroad, in which direction it is found for fully fifteen miles.

Novaculite is a very fine, very hard, brittle, siliceous rock of a color varying from pure snow-white to a slightly bluish watery tint. There are two kinds—the "Arkansas" and the Ouchita—stones, of each of which there are both hard and soft grades. The "Arkansas" stone is very hard, very fine-grained, and slow-cutting, and is used chiefly by engravers, wood carvers, jewelers, dentists, machinists, tool-makers, and cutlery-makers. The "Ouchita" is a hard stone which wears away comparatively fast, and both cuts the steel rapidly and produces a fine edge. It can be used for razor hones as well as for sharpening common tools. For sharpening small-pointed or very fine-edged tools, the "Arkansas" novaculite is considered to be the best whetstone in the world.

The novaculite in the Marathon region out-crops in numerous long, narrow, and sharp northeast-southwest white ridges. The ledges are nearly always steeply upturned by the very intense folding to which the rocks of the region have been subjected. The rock when exposed at the surface is always much shattered into small pieces, but probably larger-sized, unfractured blocks are to be obtained at a few feet beneath the surface. Some prospecting must be done before the real quality of the stone can be determined. This also was the case in Arkansas, where the rocks in the surface exposures are always very much broken by the various agencies of weathering.

A large amount of this novaculite is situated close to the railroad, but cost of transportation to market is very great. Nearly all of the Arkansas rock is shipped to New England and there manufactured. If the West Texas rock were shipped to New England, the higher freight rates would probably be a serious handicap in competition with the Arkansas material, but it appears probable that if works for the finishing of the oilstones could be erected near or at the quarries, the finished product could be marketed at the same rate or even cheaper than is now possible in New England. On the other hand, a large part of the present market for oilstones is located in the manufacturing states of the Northern and Northeastern United States. Of the material shipped to New England from the quarries near Hot Springs, Arkansas, about seventy-five per cent of the "Arkansas" stone and about fif-

ty per cent of the "Ouchita" stone is wasted in the process of manufacture. By manufacturing in the vicinity of the quarries, the cost of freight on the waste rock would be saved.

Tests to determine the quality of the West Texas novaculite are now being made at the laboratory of the Bureau of Economic Geology. The real value of the West Texas novaculite can be determined only after the deposits have been thoroughly prospected, but the probability is that these deposits will prove to be of considerable value.

**KANSAS CITY STOCK
MARKET IN DETAIL.**

KANSAS CITY STOCK YARDS, Oct. 8.—Cattle receipts since Monday have been moderate, but the total for the week is heavy, 78,000 head. The market has been very good, killing grades of cattle showing strength each day, and closing 10 to 25 cents higher for the week. Stockers and feeders remain firm, except the lowest grades, that kind selling between \$5.50 and \$6.25, being at the season's low level. Prime native cattle have sold up to \$10.20 on the open market, one single head at \$11.50, and exhibition cattle in the Royal car lot division at \$10.30 to \$12.25. Middle grades of corn-fed cattle are selling strong, at \$8.50 to \$9.65. A drove of branded Westerns sold at \$10.00 yesterday, having been purchased here as feeders 60 days ago at \$8.50 per hundred. This deal looks encouraging for feeders.

Range receipts have been liberal, although the Panhandle is still shipping lightly. Panhandle feeders sold at \$8.00 on the open market, yearlings up to that price, bulk of the Panhandle stockers and feeders at \$7.00 to \$7.65. Colorado has sent in liberal supplies, beef steers from that state selling at \$6.65 to \$7.25, yearlings and twos at \$7.00 to \$7.50, one car of feeders from Durango, exhibited at the Royal, at \$8.15.

Fifty cars of Idaho cattle have been here this week, beef steers at \$6.85 to \$7.25, feeders at \$7.25 to \$7.40, cows \$6.00.

Quarantine receipts are of small volume, and poor grade, steers largely at \$5.50 to \$6.50, one lot \$6.75.

Eastern orders are still shut out of Chicago, through quarantine regulations, and are being filled here, a strong help to the market. Country demand has been the largest of the season this week, and promises to continue very heavy through this month.

The hog market has made good advances, ending the week with a rise of 10 to 15 cents today. Large order buying for Eastern killers is the main reason for the advance here, coupled with rather moderate supplies. Heavy

and medium weights have advanced most, heavy hogs selling up to \$8.45 today, within a nickel of the top. Bulk of sales today ranged from \$8.00 to \$8.45, showing a remarkable advance in the last month on rough heavy hogs, \$1.75 per hundredweight in some cases.

Sheep and lambs are irregular, but in view of the near approach of the end of the range shipping season the situation looks strong for sellers. Packers are anxious about the probable supply of good lambs, and wired inquiries to Western points this week on that point. Hence, attempts to depress prices this week are not taken seriously. Best lambs sold today at \$8.70, bulk of the lambs around \$8.60, fat ewes worth \$5.50 to \$6.00, feeding lambs selling at \$8.25 to \$8.35, breeding ewes \$6.25 to \$7.50, feeding ewes \$4.50 to \$5.50. J. A. RICKART, Market Correspondent.

LIBERTY.

LIBERTY, Texas, Oct. 6.—A large crowd attended services at this place Sunday.

Charley King and family dined Sunday at the home of Mr. Hartley and family.

There will be singing at this place Sunday afternoon at 3 o'clock.

Miss Ethel Yowell, of Runningwater, is visiting with Misses Alma and Emma Boston at present.

Master Joe Boston is numbed among the sick at present.

Mrs. Lemaster and son and Miss Eileen Groff were the guests of W. F. Beard and family Sunday.

E. E. Freeman and family dined Sunday with Will Cates and family.

Some few of our people attended the Hale County Singing Convention, at Stoneback, Sunday. We understand the next convention will meet with us, the fifth Sunday in this month, October 31st.

Albert King and wife visited the latter part of the week with Mrs. King's parents.

Mr. and Mrs. Willie Miller, of Plainview, visited relatives in these parts last Sunday.

J. C. Fuller and family and Nick Klein and family spent Sunday at the home of John Seipp.

The Liberty Social Club will meet Thursday, October 7, with Mrs. John Garstang.

C. P. Seipp purchased an Overland roadster Saturday.

Some of the Liberty people attended services at the Holiness meeting in Plainview Sunday.

There has been planned a box supper on Friday evening, October 15th.

GOVERNMENT CROP REPORT.

WASHINGTON, D. C., Oct. 7.—Estimates of crop production and prices for the State of Texas and for the United States, compiled by the Bureau of Crop Estimates (and transmitted through the Weather Bureau), U. S. Department of Agriculture, are as follows:

Corn.

State: October 1 forecast, 176,000,000 bushels; September 1 forecast, 167,731,000 bushels; final estimate last year, 124,800,000; price, October 1, to producers, 62 cents; year ago, 79 cents per bushel.

United States: October 1 forecast, 3,030,000,000 bushels; September 1 forecast, 2,985,000,000 bushels; final estimate year ago, 2,673,000,000; October 1 price, 70.5 cents; year ago, 78.2 cents.

Wheat.

State: Estimate this year, 21,080,000; final estimate last year, 14,066,000 bushels; price, October 1, to producers, 102 cents; year ago, 97 cents.

United States: Estimate this year, 1,000,000,000 bushels; final estimate last year, 891,000,000 bushels; October 1 price, 90.9 cents; year ago, 93.5 cents.

Oats.

State: Production estimate October 1 is 39,100,000 bushels; September 1 forecast, 41,247,000 bushels; final estimate last year, 22,500,000 bushels; price, October 1, to producers, 39 cents; year ago, 45 cents.

United States: Production estimate October 1 is 1,520,000,000 bushels; September 1 forecast, 1,408,000,000 bushels; final estimate last year, 1,141,000,000 bushels; October 1 price, 34.5 cents; year ago, 43.3 cents.

Potatoes.

State: October 1 forecast, 2,880,000 bushels; September 1 forecast, 2,690,000 bushels; final estimate last year, 2,684,000 bushels; price, October 1, to producers, 105 cents; year ago, 113 cents.

United States: October 1 forecast, 368,000,000 bushels; September 1 forecast, 405,909,000 bushels; final estimate last year, 405,921,000 bushels; October price, 48.7 cents; year ago, 64.7 cents.

Rice.

State: October 1 forecast, 7,430,000 bushels; September 1 forecast, 8,268,000 bushels; final estimate last year, 8,102,000 bushels.

United States: October 1 forecast, 26,300,000 bushels; September 1 forecast, 26,261,000 bushels; final estimate last year, 23,649,000 bushels.

Houston, Texas, October 7.

PROTECT THE GARDEN AGAINST WINTER WEATHER.

WASHINGTON, D. C., Oct. 11.—At this season many inquiries come to the United States Department of Agriculture regarding the protection of garden plants and shrubs during the winter. Such flowers as peonies and hollyhocks will come up again the following year if they are properly protected during the winter, while others, like cannas and dahlias, which are more accustomed to warm climates, must have their roots or bulbs dug up and stored in a cellar. The Department's specialists give the following suggestions for "putting the garden to bed":

Hardy Perennials.

Cover hardy perennials, such as peonies, larkspur, hollyhocks, columbines, iris, platycodons, and perennial poppies, with a good coating of manure or other litter to a depth of 3 or 4 inches. This will hold the frost in the ground and keep the plant from alternately freezing and thawing.

Cannas and Dahlias.

As soon as the tops of cannas, dahlias, gladiolus, caladiums and similar plants are killed by frost, dig up the roots or bulbs and store them in a cellar where the temperature will remain at 55 degrees, and should never go below 50 or above 60 degrees. Do not shake any more earth from the clumps of cannas and dahlias than is necessary in removing them from the ground. Place the plants on racks or slat boxes so the air may circulate freely through them. No frost must reach the roots nor must they become too warm or dry.

Hydrangeas.

Hydrangeas (semi-herbaceous) will last through the winter out-of-doors, if properly cared for. The tops should be protected with straw or brush. This may be held in place about the bushes with a little manure or stones. The flower buds of the hydrangea form in the fall, and this cover will keep them from winter killing while shielding the bush from winds and sun.

As a rule, shrubs should not be trimmed in the fall. This process is timely immediately after the blooming period, if this is in the spring, as in the case of the snowball. If the shrubs bloom in the fall, as do some hydrangeas, the rose of Sharon, and some lilacs, they should not be cut directly after blooming, but in the spring of the following year. Lilacs, snowballs, and mock oranges should be let alone during the winter, being neither trimmed nor covered with straw and manure.

Roses.

Some roses, as the briar and rugosa, need no protection, but other varieties, such as the hybrid-perpetuals, teas, and hybrid-teas, often need special care.

Cut the tops to within 30 inches of the ground. Cover the roots with coarse manure or leaves or similar litter. Hold this in place by brush from deciduous trees or shrubs.

Mounds of earth about six or eight inches in height should be drawn about the base of the rose bushes to keep them from mice. As an added protection against mice, permit the ground to freeze slightly before winter protection is supplied. In fact, roses should not be protected until after the first light frost.

Climbing roses usually need no protection during the winter unless they are a particularly tender variety.

MOUNT VERNON NO LONGER IN DANGER.

Engineering Skill Stops Wearing Away of Historic Site on Potomac River.

The high bluff on which stands Mount Vernon, the home of our first president, says the Popular Mechanics Magazine, has for years been in danger of gradually sliding into the potomac. This danger became acute a few years ago, when it was discovered that a new landslide was beginning that threatened to destroy the broad lawn in front of the mansion itself, and engineering work, recently completed, was begun at that time to save the historic site from further damage.

The ground slopes from the mansion to the edge of the bluff, and from this point drops steeply for a hundred feet or more to the edge of the Potomac. The river at this point is a wide tidal estuary, and the action of the waves has caused a steady erosion at the foot of the bluff.

Underlying the bluff are stratas of sand, clay and sandstone, which, on investigation was found to be saturated with water, and this, combined with the erosion of the waves, has resulted in landslides that have doubtless been going on intermittently for ages.

To cure the trouble, a small drainage tunnel was first driven in the bottom of the sandstone stratum and carried back from the river front a distance of about two hundred feet. From this tunnel a heavy flow of water immediately started, and this flow continued for several months. At the end of that time the flow diminished to a

moderate amount, and has remained practically constant ever since. To prevent further erosion at the foot of the bluff through the action of the waves a heavy masonry wall was then built along the edge of the river.—Exchange.

Sanitary advantages are claimed for a Detroit inventor's shaving mug, in which the pressure of a plunger forces a portion of liquid soap out of a dust-proof chamber into the main cup.

"La Camille" Front Lace Corsets

A perfect fitting gown depends on your corset. Buy your corset first.

La Camille Corsets not only combine style and comfort, but, best of all, hold their true form after long and continuous wear. That is the real Corset test and one that La Camille has never failed to meet. Then the exclusive features appeal. The rigid "Ventilo" back permits a continuous circulation of air and eliminates pressure on the nerves and blood vessels of the spine. The "Ventilo" front shield prevents laces from marking the flesh.

HAVE YOUR CORSET FITTED

You have your gowns fitted and your shoes fitted, and you should by all means have your corset fitted. Our corsetiere will give you a fitting, as well as advice in the selection of a model best suited to your figure.

AT SPORTS BE SPORTSMANLIKE.

The South Plains schools and colleges are new in the field of organized athletics. Football, baseball, track and basketball are yet in the making.

For a team to excel another is splendid, so splendid that the desire to be on the winning side is strong enough at times to make us lose sight of the real purpose of the game, and cease to be sportsmanlike.

It is a fine thing to win, but it is a better thing to remember the spirit and demand which licenses the game. It is thrilling to be on the winning side, but there is no satisfaction in knowing that your team won through unfair means.

If you're beaten, you're beaten, and that's all. The opposition was the stronger. When the game's over, it's history. The next game's the place for retaliation.

Unfortunately, Texas schools did not always have the keen conception of sportsmanship they now have. Those who have watched its development through the last ten years will recall the incidents which caused Texas University and Texas Agricultural and Mechanical College to break athletic relations. Both sides lacked in sportsman ship, and blamed the other for the lost virtue. They will recall the incident which caused Austin College and Trinity University to nurse a strained relation through several years.

Sportsmanship is a quality akin to gentility and refinement, and in the group is as much to be admired as either in the individual. The one is dual in nature, in that there is to be considered "crowd psychology" in developing it in a group, and, as well, the individuals who act severally and separately. The latter qualities, refinement and gentility, purely individual, are not instantly attained, but must be developed.

BEST SHEEP STATE HAS NO RANGE.

Many people have associated together the ideas of sheep-raising and large open range. This has been the Texas and New Mexico method of raising sheep. But Ohio, the greatest sheep and wool-producing state in the Union, has no wide range and raises its sheep on land worth a hundred dollars an acre on the average.

Sheep will eat grass and weeds which other animals will not touch. The sheep is the gleaner of the farm, and a good flock can be kept on any farm with practically no cost. The Texas farmer who is looking about for something with which to make his farm more productive might well consider the sheep.

The Best Editorial of the Day

HOW THE WORLD EMPTIES AND FILLS.

Twenty-one years ago Coxe's Army marched to Washington. All the papers were full of it. Mention Coxe to anybody over thirty-five years old and see the understanding in his face. Know Coxe and his blooming army? Well, I should say so! Now try Coxe on men and women in the twenties. Just try it. It will open your eyes. Coxe? Who the blazes is Coxe? Looks of confusion and ignorance.

Coxe, you see, quit advertising. That is, the Coxe publicity ceased. And the world has filled up with people who never heard of him. Millions and millions of them.

That is the way of some advertisers. They speak up a few times and then go back to their factories. There, by George, we've told 'em! And then old Father Time begins to work. And the undertaker. And the parson armed with a marriage license. And the baby carriage. And rheumatism. And, first thing you know, the world is peopled with new bosses, new buyers and new housekeepers who never heard of you. Incredible! What!—never heard of me? No, never heard of you. Sorry to disappoint you.

Man is provided with a great big ego. If he didn't have it he couldn't stand it to live. Without an ego he would probably take one look at the moon and go and jump in the lake. Now, the best thing that an ego does is to give you a fine feeling of permanence. Of course you aren't permanent, and your better sense tells you so. But Mr. Ego keeps trying to make you think you are. What he aims to do is to make you feel comfortable. Nice thing to have around—an ego. You need him in your business. But don't believe everything he tells you. He is the most agreeable and ever-present liar on your premises.—John M. Siddall, in the American Magazine.

STATE MANAGER INDIANA LIFE INSURANCE CO. HERE.

J. W. Popham, of Dallas, State manager of the State Life Insurance Company of Indiana, has been in Plainview for the past two days conferring with McClelland, Todd & Lowe, district agents for the company.

Do you ask to be the companion of nobles? Make yourself noble and you shall be. Do you long for the conversation of the wise? Learn to understand it and you shall hear it.—Ruskin.

Mrs. Silas Maggard, of Hale County, spent the week-end with her parents, Mr. and Mrs. R. A. McWhorter.

Press Comment

HALE SETTING THE PACE.

Hale County has won a large number of premiums at the International Dry-Farming Congress now in session at Denver, Colo. In fact, they seem to have almost a monopoly on the premium taking. Among them is first prize for the best county exhibit. There is no doubt that this is the most favored section in the matter of crops, climate, and lots of other good things, in the entire country; and the only reason all of the counties hereabouts are not loaded down with "blue ribbons" is that we don't see fit to take the time and trouble that would be required in getting together and forwarding our exhibits. The News feels that our own people have not taken proper advantage of opportunities along this line, and hopes to see more interest awakened.—Clarendon News.

A loafer is a man who won't work and who can't invent a scheme that will.—Atlanta Journal.

HALE COUNTY MAN FAVORS IRRIGATION.

Robert Alley, well known Hale County irrigation farmer and hog breeder, passed through the city today.

Mr. Alley has 160 acres under irrigation this year, 50 acres of which are in milo maize, with an assured yield of 150 bushels per acre, while 60 acres of alfalfa will aggregate eight tons per acre. Mr. Alley says that even in rainy weather irrigation pays.—Amarillo Daily Panhandle.

THE SANTA FE RECORD.

President Ripley and his aids on the Santa Fe Railroad have just reported their most successful year, both in gross and net earnings. Other competing railroads have skinned through with a little more net to their credit than last year and a big slump in gross. Whatever the special circumstances, it is true that the Santa Fe is standing up while others are falling down. It might be due to big crops or peculiarly favorable transportation routes. It might also be because the

history of the Santa Fe since 1896 does not read like a chapter from a stock broker's diary.

When Mr. Ripley took hold as president of the railroad, in 1896, it was just coming out of a receivership bath, which it seems was necessary, or at least happened, even before the Interstate Commerce Commission was in existence to be blamed. There were 6,435 miles of line, hopelessly bankrupt. The results of the preceding year had been a net deficit of \$4,433,380, after the payment of fixed charges. By June 30, 1915, the earnings equaled 9.1 on the common stock, there were 11,000 miles of road in the system, and Santa Fe securities were not going begging on the market,

even during the scare year of 1914.

President Ripley's service has been to show that there is no limit, unless it is a sky limit, to success in railroad management, and that it pays to keep a railroad in the railroad business. The Ripley management has given its attention to providing transportation business, and the main and controlling office has been located here in Chicago, without any reference to the chances on the stock exchange. In addition, the Santa Fe has operated these twenty years through the wild and woolly West, where others have told us the favorite before-breakfast sport of the natives is to tear up railroad tracks. It has worked under the Interstate Commerce Commission,

higher operating costs, and all the other enemies of a modern David.

But we do not want to minimize the tangles of interstate and intrastate regulation and rising labor, fuel, and taxation costs that railroad managers have to contend with. We do want to emphasize President Ripley's efforts. Their failures and his success make him a marked figure in public estimation.—Chicago Tribune.

ANNOUNCEMENT.

The Epworth League social which has been announced to be held at the home of Rev. and Mrs. J. W. Story has been postponed indefinitely.

The Central Mothers' Club will meet Friday afternoon at 3:30 o'clock, at the Central School Building.

NEW OFFICERS INSTALLED BY THE BROWNING CLUB.

The initial meeting of the Browning Club was held October 9th, at the home of the matron, Mrs. J. C. Anderson. The following officers were in-

stalled: President, Miss Rebecca Longmire; vice president, Miss Mary Williams; secretary, Miss Nelle Sanson; treasurer, Miss Viola Justus.

The study course for the ensuing year will be "Browning and Tennyson," as outlined by the Extension Department of the University of Texas. The relation between Browning and Tennyson is clearly expressed by Dr. Stafford Brooks in the following paragraph:

"Parnassus, Apollo's mound, has two peaks, and on these, for sixty years, from 1830 to 1890, two poets sat, till their right to these lofty peaks became unchallenged. Beneath them, during these years, on the lower knolls of the

mound of song, many new poets sang, with diverse instruments, on various subjects, and in manifold ways. They had their listeners; the muses were also their visitants; but none of them ventured seriously to dispute the royal summits where Browning and Tennyson sat, and smiled at one another across the vale between."

The next regular meeting will be held October 29th, at 3:30 o'clock, with Mrs. J. C. Anderson.

REPORTER.

MISS DUGGAN GIVES RECITAL AT KRESS.

Miss Bernice H. Duggan, of the Fine Arts Department of Seth Ward College, gave a recital at Kress Saturday night, October 9, under the auspices of the Woman's Missionary Society of the Methodist Church.

There was a large audience present, which was expecting a treat, and was not disappointed. Kress rarely, if ever, has such entertainments. The attention was held from the first

throughout the evening, and all pronounced the entertainment very good indeed. The program was a varied one, consisting of pathetic, humorous, and dramatic selections, and, on the whole, was uplifting in its influence. If Miss Duggan ever returns to Kress, she will be accorded a warm welcome.

REPORTER.

ST. MARK'S CHURCH DINNER.

The dinner given Friday night by the Ladies' Auxiliary of St. Mark's Episcopal Church was beautifully served. The home of Dr. and Mrs. L. C. Anderson, 314 White Street, was thrown open for the event, and was elaborately decorated with cut flowers.

The dinner was for gentlemen only. Twenty-eight were seated at the tables, which glittered with cut glass and silver. The courses were served by the choir girls of the church. Misses Electra Anderson, Zelta and Resanne Hulen, Norine Vickery and Elizabeth Hunsaker.

During and after the dinner hour an informal musical program was given, consisting of Victrola music and vocal numbers by Mrs. Grady Lindsay.

The dinner was contributed, and was prepared by the ladies themselves, bringing in a clear profit of more than sixteen dollars, which will be used for the financial needs of the church.

GREAT BRITAIN SUBJECT FOR TRAVEL STUDY CLUB.

"The Physical Characteristics of Britain was the leading topic of the Travel Study Club Saturday afternoon. Mrs. J. W. Longstreth, leader, made a talk upon the subject.

During the round table the following interesting topics were discussed: "Religion of the Conquerors," "St. Augustine," "Synod of Whitby," "Battle of Chester," and "A Visit to Chester."

There was a good attendance, and during the business hour Mrs. W. W. Underwood was elected to membership.

WEEK-END AT TULE CANYON.

Mr. and Mrs. J. W. Longstreth, Mr. and Mrs. George Saigling, W. S. Fife, Mr. and Mrs. E. B. Miller and children, and H. S. Hilburn spent the week-end at Otus Reeves' ranch on Tule Canyon.

VESPERS AT SAINT MARK'S.

Vesper services were held Sunday afternoon at four o'clock at St. Mark's Episcopal Church by W. H. Mason, lay reader. A beautiful song program was given.

Miss Eula Mae Peace returned Saturday from Lockney, where she has been teaching expression in the Christian College.

THE USE OF GREEN MANURE IN ALFALFA GROWING AT YUMA.

New Era and Groat Cowpeas Have Been Found Best Varieties for Increasing Yield.

WASHINGTON, D. C., Oct. 11.—The report of experiments conducted during the year on the Yuma Reclamation Experiment Farm, near Yuma, Arizona, shortly to be issued by the United States Department of Agriculture, devotes special attention to a discussion of the method of raising Durango cotton, and also discusses alfalfa and sorghum culture in this region. One section of the report is devoted to Sudan grass, and there is mention of experiments with hemp, flax, and broom corn.

The following advice on the use of green manures, taken from this report, should be of interest, especially to alfalfa growers:

One of the most important values of alfalfa is its usefulness as a preparatory crop. It is the best green-manure crop yet found when all phases of its benefits are considered. However, a stand of alfalfa is often difficult to establish on very light sandy areas or on spots in fields where heavy grading has exposed the sandy subsoil. Apparently, the difficulty experienced in establishing alfalfa stands on these soils is not a deficiency of plant food, but a very irregular moisture content of the soil. This condition has been found to be most economically improved by the addition of a summer green-manure crop of cow-peas. Cowpeas when planted in a good seed bed have produced on sandy soil approximately 4 tons of green manure per acre. Alfalfa may then be seeded in the fall and become established for the following season.

At the experiment farm the alfalfa yields have been increased 2 tons per acre by this culture. The field operations of growing and plowing under this crop of cowpeas would cost not to exceed \$4 per acre. If 2.3 acre-feet of water are applied to this crop at 50 cents per acre foot, the water will cost \$1.16. Cowpea seed has been bought f. o. b. Yuma at \$8 per 100 pounds. If planted at the rate of 30 pounds per acre, the seed would cost \$2.40, making a total cost of \$7.56 per acre for two extra tons of alfalfa, which in 1914, when hay was cheapest, was worth \$12.10, netting a profit of \$4.54 on the first year's results, as well as the residual effect on the soil. In an effort to determine the best varieties of cowpeas to be grown as a summer-manure crop, a collection of five varieties was grown under comparable conditions for green-manure production and also tested for seed and hay production.

Of these varieties there are two, the New Era and the Groat, that appear to be distinctly superior to the others in green-manure or hay production. If local seed production is to be considered, they are equally valuable for this purpose. Both are early-maturing varieties, the New Era being 7 to 10 days earlier than the Groat. One other variety, however, the Whipoorwill, not included in this test, is known to succeed well under these conditions.

HALFWAY.

HALFWAY, Texas, Oct. 7.—Our farmers are back in the fields again after our recent heavy rains. The lakes in this community have more water in them now than they have had for a number of years.

Mrs. Noah Halscy has been quite sick the past few days, but is recovering at present.

Easil Huguley and family and J. E. Stewart returned from New Mexico Monday. These gentlemen have had cases of "New Mexico fever," and actually have the audacity to say that that country is ahead of this. Pucelle Huguley went on to the Tucumcari fair, and will not return until the last of the week.

Mrs. J. W. Dye gave a dinner on Tuesday in honor of her mother's, Mrs. E. A. Puckett's, seventy-eighth birthday. A few friends and relatives were present.

Our school house is about complete and Claitor, of Petersburg, arrived on Sunday and our school opened on Monday morning, with an enrollment of forty-six. We are glad to find that our teachers came with the determination of keeping "The Banner" another year.

Our school house is about complete now, and we consider it second to no other rural school building in the county.

Mrs. Emerson and children have moved to Halfway for the benefit of the school.

The University Home and School did not meet on the regular time, on account of bad weather, but will meet on Saturday night, October 9th. Everyone is cordially invited to come.

Mrs. Emerson, Mrs. R. L. Hooper, Chester and Velma Hooper, Willard Dye, Clyde Huguley and Nelson Smith all attended the pie supper at Mayfield last Saturday night.

Clabe Dye and Miss Lena Kayser,

Bryan Dye and Miss Elvina McComas, J. W. Dye, Riley Gilbert, Albert Kayser and Miss Mell and Edna Stewart, all attended the "Lucky Tull" pony and attended the "Lucky Tull" pony and day night.

According to a Paris mathematician, the adoption of Greenwich time as the standard for France has increased the lighting expenses of every French household about one per cent. Call 72 for Typewriter Paper.

Large Dairy Farmers Use Texaco Roofing

THAT in itself is one of the strongest recommendations for this particularly valuable Texaco Product.

Dairy farming, with its necessarily large investment and its costly live stock, has become a valuable and efficient industry.

The experienced business man engaged in it uses Texaco Roofing to protect his cows from rain and damp.

Texaco Roofing is a paying proposition for him. Not only for the protection afforded, but for the low cost of upkeep and the ease with which it is applied. These features make it doubly valuable on your house, barn or factory.

Lay it yourself and make a perfect roof.

Get in touch with the Texaco agent in your town. Let him explain Texaco Roofing to you.

It is a worthy representative of the whole line of Texaco Quality Products.

List your lands with us for sale, we will appreciate an opportunity to serve you.

We give special attention to lands of non-residents, render, pay taxes, lease and collect leases, inspection and reports made.

Our business is simply "LAND"

Write us how we can serve you
Otus Reeves Realty Co.
Plainview, Texas

Surgeon General Rupert Blue of the U. S. Public Health Service Says:

"I WANT TO WARN YOU AGAINST THE CRAZE PEOPLE IN THIS COUNTRY HAVE FOR WHITE FLOUR. THE WHITEST FLOUR IS NOT THE BEST; IT IS NOT THE PUREST; IT IS ONLY THE DEAREST, AND WHEN YOU BUY IT YOU BUY LOOKS AND NOT NOURISHMENT. IN ORDER TO MAKE IT WHITE, SOME OF THE MOST NOURISHING AND ESSENTIAL COMPONENTS OF THE NATURAL WHEAT HAVE BEEN TAKEN AWAY."

These "nourishing and essential components" are the priceless mineral phosphates of the grain, known as the "tissue salts," indispensable for perfect health of body, brain and nerves.

Everywhere food scientists and physicians are sounding a like note of warning, for a host of ills is following the pernicious practise of casting out these elements in the milling process, and that, simply to make the flour look white and pretty. Neurasthenia, anemia, Bright's disease, constipation, rickets, and a lowered resistance against disease in general, are some of these ills.

More and more thinking people are waking up to this evil. There's a way out.

Grape-Nuts

FOOD

made of whole wheat and barley, retains all the nutriment of the grains and those "essential components"—the mineral elements. This splendid food was devised years ago to supply this very lack in ordinary food and fortify the system against the onslaughts of disease. It does it wonderfully well.

Grape-Nuts comes ready to eat, convenient, economical and nourishing, and has become a house holdword in thousands of homes for its sterling food values and delicious flavor.

"There's a Reason" for Graps-Nuts

—sold by Grocers everywhere.

STOVES! STOVES!

This season of early fall with cool, damp mornings and evenings produces many annoying colds, cases of la grippe, and kindred ailments unless the home and the office are properly protected with a quick heating, economical stove.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

DRS. SMITH & SMITH Will be at Dr. Owens' Office in Plainview every Tuesday. Specialists in the Treatment of PILES, FISSURES, and all RECTAL DISEASES. No cutting, tying and cauterizing. Treatment safe and sure. No detention from business or pleasure.

JUDGE FOR YOURSELF. Which is Better—Try an Experiment or Profit by a Plainview Citizen's Experience?

away places. It's different when the endorsement comes from home. Easy to prove local testimony. Read this Plainview case: P. C. Russell, Moreland St., Plainview, says: "I have used Doan's Kidney Pills, procured from the Long Drug Co., for acute lameness in my back and sluggish kidneys. They have certainly helped me and are the only medicine that ever gave me lasting benefit."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Russell had. Foster-Milburn Co. Props., Buffalo, N. Y.

BY VIRTUE of a certain Execution issued out of the Honorable County Court of Hale County, on the 9th day of October, 1915, by B. H. Towery, Clerk of said Court, against J. J. Barton for the sum of Six Hundred Twelve Dollars and Thirty Cents (\$612.30) and costs of suit, in cause No. 434 in said Court, styled E. L. Melton versus J. J. Barton, and placed in my hands for service, I, J. C. Hooper, as Sheriff of Hale County, Texas, did, on the 9th day of October, 1915, levy on certain Real Estate, situated in Hale County, described as follows, to-wit: Lots 15, 16 and 17 in Block number 95 in the town of Abernathy, Hale County, Texas, and levied upon as the property of J. J. Barton. And on Tuesday, the 2nd day of November, 1915, at the Court House door of Hale County, in the City of Plainview, Texas, between the hours of ten a. m. and four p. m., I will sell said property at public vendue, for cash, to the highest bidder, as the property of said J. J. Barton, by virtue of said levy and said Execution. And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Plainview Evening Herald, a newspaper published in Hale County.

DR. S. C. ROSS, D. V. M., Veterinary Surgeon and Obstetrician. Graduated Kansas City Veterinary College April 8, 1915. Calls Answered Day or Night. Lockney, Texas.

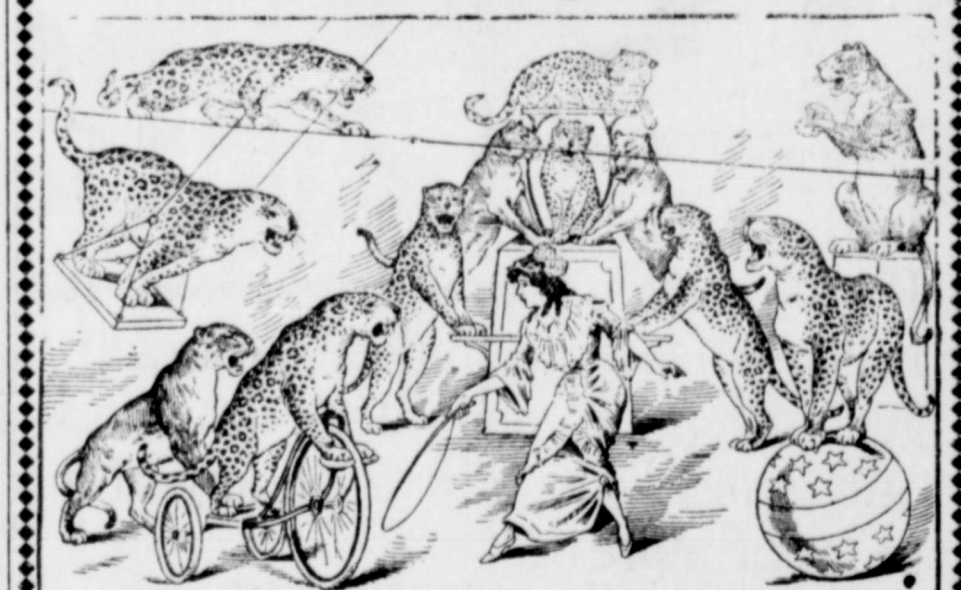

CEO. ALLEN The House Reliable. Oldest and Largest PIANO and MUSIC HOUSE in Western Texas. Latest Sheet Music, MUSIC TEACHER'S Samples, etc., etc. Catalogue and BOOK OF OLD TIME SONGS FREE for the asking. Established 1896. SAN ANGELO.

Something new is an experiment. Must be proved to be as represented. The statement of a manufacturer is not convincing proof of merit. But the endorsement of friends is. Now, supposing you had a bad back. A lame, weak, or aching one. Would you experiment on it? You will read of many so-called cures. Endorsed by strangers from far and near. Manuscript Covers at THE HERALD. —Adv. 1t

It Always Helps says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give CARDUI The Woman's Tonic a trial. I still use Cardui when I feel a little bad, and it always does me good." Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years. Get a Bottle Today!

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Starts Your Liver Without Making You Sick and Can Not Salivate.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; since cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

The list first given above shows premiums awarded to these growers in competition with the entire world, both irrigated and dry-farming products. The last list shows awards made to Hale County over all the dry-farming countries of the world. The Plainview Chamber of Commerce wishes to sincerely thank each grower for his or her contribution to this exhibit, and we invite you to call at the Chamber of Commerce and see the display of premiums awarded.

R. P. SMYTH,
Secretary.

For Your Figure there are many Gossard Corsets

at \$2, \$2.50, \$3.50, \$5, \$6.50, \$7.50 and to \$25

Once you have observed the style, wearing quality, comfort and value of the original Gossard front-lacing corset, your corset problem will be ended forever. It is worn by millions of women, and advocated by thousands of physicians, dressmakers and couturiers. You are invited to see the new models authorized by The H. W. Gossard Co. in their

6th Semi-Annual Proclamation of Authoritative Corset Styles Fall and Winter 1915-16

The importance of being correctly fitted to your new Gossard before selecting your new suits and dresses cannot be emphasized too much.

This importance is fully recognized in this store. Here, thanks to the inherent qualities of the Gossard, and to the great care paid to correct corset fitting, faulty figure lines are improved and good lines are maintained. Nothing is left to the imagination. What the Gossard does for you is at once apparent.

All models are not extreme. All are youthful in effect. And in addition to their hygienic and exclusive style features, the new Gossard corsets offer a selection of materials that are at once smart and beautiful.

It will be a pleasure to give you a trial fitting at your convenience. When may we expect you?

The Ideal Figure

UNCLE SAM SAYS:

For Prosperity 'Tis Here

Throw your shoulders back and get the get-there step in your stride. Look at these prosperity figures.

100,000,000 people at peace and at work.
\$187,000,000,000 of wealth.
New wealth from the earth yearly:
Crops \$6,044,480,000
Live stock products \$3,828,456,000
Total farm products \$9,872,936,000
Yearly products of metal \$ 882,980,156
Non-metal minerals \$1,562,324,861
Minerals un-specified \$ 500,000
Out of the earth yearly \$12,318,741,017

Isn't this enough to cheer you up? If you haven't dressed up yet it isn't too late to redeem yourself. Just drop in and deck yourself out before our mirror, in any of a score or more of

Kuppenheimer Styles

Whisper the price you want to pay, select any of the handsome patterns that suit your particular fancy, and the bargain will be made.

Suits and Overcoats \$15.00 to \$40.00

Look at our windows for exhibit of "what's what" in men's fixin's.

A better suit than you have had before for \$15.00

Digest of the Day's News

On a charge of trying to monopolize the transportation traffic of New England, eleven directors and former directors of the New York, New Haven & Hartford Railroad, and Edward D. Robbin, general counsel of the road, face trial tomorrow in the Federal Court before Judge Hunt, of New York.

A new anti-treating regulation in connection with the use and sale of intoxicants went into effect Monday in London and surrounding sections.

An eight-months session of the Supreme Court of the United States began today. Six hundred and sixty-two cases are now awaiting disposition.

The Panama Canal will not be again opened before the first of the year, according to statements made to representatives of the press agencies. Ten months will probably be required to remove the debris of recent land slides completely.

For the first time in forty-four years the saloons, restaurant and hotel bars of Chicago were closed Sunday. Mayor Thompson issued an order a week ago requiring closure.

WILD ANIMALS OF JONES BROTHERS TO BE SHOWN HERE.

Wild animals play a big part in the Jones Brothers' Shows, which will be in Plainview October 23, according to their advance man, who was in Plainview Saturday with his fourteen helpers in a private car. European novelty acts and acts featuring trained animals are parts of the program.

FLOYDADA.

W. R. Simmons, of Plainview, was in Floydada Tuesday on business.

D. L. Alexander, civil engineer, of Plainview, will assist Surveyor G. A. Linder for several weeks in this county on work now under way.

Rev. G. I. Brittain and wife returned from Plainview, Texas, in a Ford car, last Saturday evening. They purchased the car while there. They contemplate moving from here to Plainview now, and will probably move to Abernathy later on. He preached his farewell sermon to Ochiltree folks Sunday night.—Eagle-Investigator.—

WANTED—160 to 640 acres, improved or unimproved. Will pay spot cash for right kind of place. Address in writing "SPOT CASH," in care of Herald, giving description, location, and full details. 4t.

ANNOUNCEMENT

E. S. Keys has purchased the half interest in the Plainview Floral Company formerly owned by W. H. Jeffries. He will become responsible for all debts of the company and collect all outstanding accounts due the company. The new policy of the company will be to give Plainview a bigger and better floral company.

WINTER BULBS We have just received a big shipment of all kinds of winter bulbs and can supply your need for all purposes.

PLAINVIEW FLORAL CO. Phone 195
