## SUCCESSFUL EPWORTH LEAGUE DISTRICT CONFERENCE HELD

Seventy-Six Delegates Were in Attendance—Programs Were Inspirational.

The Epworth Leagues of the Plainview District met in conference at the Methodist Church in Plainview Wednesday, July 26, with Rev. A. L. Moore, the presiding elder of the district, in the chair. After the devotional service, conducted by the chairman, the work of the conference was begun.

T. G. Scheihagen, of Kress, was elected temporary secretary, after which the following persons from the various charges were seated as delegates: Abernathy—Rev. B. Y. Dickinson; Floydada—Earl French and Miss Myrtle Thompson; Floydada Mission—Misses Roberta Wood, Grace Bagwell, Ruby Dunavant, Annie Lee Heard and Edith Williams; Hale Center—Rev. B. H. Oxford, Mrs. B. H. Oxford, Miss Erma Oxford, Mrs. T. F. Mounts, Joe Mounts, and Misses Sammie Mounts, Mavis Terry, Ruth Ferguson, Garnett Shepherd, Willard King, Daisy Wilson and Marie Wilson; Kress—Rev. L. G. Haggard, Rev. J. F. Moore, T. G. Scheihagen, Willie Moore, Damon Kerr, and Misses Ruth Moore, Joan Moore, Aline Kerr and Mattie Schel-hagen; Lockney—Rev. J. A. Sweeney, Mrs. J. A. Sweeney, Bell Downs, John Visor, Claud White and Misses Maude Byington, Ethel Wells, Burrell Visor, Clara Quilian and Josephine Nichols, and Mrs. F. A. Campbell and Miss Frances Lide, visitors from Chapel Hill; Plainview—Rev. J. W. Story, Mrs. W. M. Wilson, Mrs. J. J. Clark, Mrs. L. D. Rucker, Misses Esther Upton, Zula Rosser, Lois Pack, My Hardin, Eva Jones, Nora White, Annie Lou Waddell, Ruth Story, Noema Harris, Gladys Speer, Gilbert Moore, Eleanor Fairris, Leona Wade and Marie McDonald, and Messrs. H. B. Cogdell, Thos. Williamson, H. C. Howard and O. D. Coan; Silvertown—W. R. Blockson, Mrs. W. R. Blockson, and Misses Napsi Blockson and Marguerite Blockson; Tulla—Mrs. W. A. Porter, Mrs. M. G. Stamford, Misses Vera Porter, Janona Love, Alma Ross and Velma Ward, and Messrs. Edwin Shearer, Raymond Wilson and Tedd Miller.

The program was splendidly rendered, for the most part a general discussion following each topic as discussed by the person to whom it had been assigned. The program follows:

"The League as a Source of Future Leaders for the Church"—Miss Vera Porter, of Tulla, and Mr. Scheihagen, of Kress.

"Practical Application of the Missionary Spirit Through the League"—Miss Myrtle Thompson, of Floydada.

"The Epworth League as a Source of Spiritual Power in the Church"—Miss Mavis Terry, of Hale Center.

"The Epworth League as a Place Where the Missionary Spirit May Be Developed Through the Study of and Reports from the Fields"—Miss Ruth Story, of Plainview.

"The Epworth League as an Agent in the Awakening of the Social Consciousness"—Miss Burrell Visor, of Lockney.

"The Senior Epworth League as a Goal to Which the Children May Look Forward"—Earl French, of Floydada.

"The Senior Epworth League as a Help in Directing the Activities of the Children"—Miss Mary Speer, of Plainview.

"The Epworth League as a Training Ground for the Inner Life of the Individual"—Miss Sammie Mounts, of Hale Center.

"How Can I Help My League to Be More Efficient"—General Discussion.

"The Value of the Epworth Era"—H. C. Howard, of Plainview.

"The Epworth League as a School for the Study of God's Word"—By L. H. Haggard.

"The Epworth League as a Means of Making the Religious Life Attractive for Young People"—Mrs. W. R. Blockson, of Vigo Park.

Toward the close of the afternoon session the business part of the conference was transacted. After some spirited discussion, Lockney was chosen for the next session of the conference. The conference also voted to raise \$25.00 for extension work.

The following officers were elected for the ensuing year:

President—Earl French, Floydada.  
Vice President—Miss Maude Byington, Lockney.  
Secretary—O. D. Coan, Plainview.  
Treasurer—T. G. Scheihagen, Kress.  
Era Agent—Miss Vera Porter, Tulla.

## SUBMISSION KEEPS ITS LEAD; SIX COUNTIES NOT INCLUDED

Brooks Is Unquestionably Third in Race for Senate—Colquitt and Culberson in Run-Off.

Returns on submission are outstanding in 2 pro counties and 4 anti counties, according to the Texas Election Bureau. An unofficial count from El Paso shows submission losing there, 1,090 to 528. However, submission is 2,204 votes in the lead, without counting the El Paso vote. Eastland and Clay Counties have not sent in returns, and El Paso, Bandera, Culberson and Presidio, anti counties, have not been officially heard from. The total vote for submission thus far counted is 155,555, and against 153,351.

### The Senatorial Race.

The new totals in the race for United States Senator give Culberson a further lead over Brooks, the three leading candidates now standing as follows:

Colquitt, 107,050.

Culberson, 89,233.

Brooks, 72,870.

## Texas Should Excel In Dairying

"There is no reason why Texas should not excel Wisconsin as a dairy state," is the statement of Dr. R. A. Moore, one of the best known farm scientists in the United States and a member of the faculty of the University of Wisconsin. "Dairying has proven the great mortgage lifter in Wisconsin," continuing the quotation. "If in the frozen north such wonderful progress in dairying is possible, what are the possibilities in sunny Texas?"

## Hearing of the Rate Case Is Postponed Until September 12

For the second time the docket of the Railway Commission of Texas has been postponed. Circular No. 5046, issued in Austin July 26, postpones the August docket until September 12, the commission having ordered, through Allison Mayfield, chairman, that all matters set for public hearing before the commission at its August term, beginning Tuesday, August 8, be postponed for hearing at the September date.

## \$1,000 WORTH OF FEED LOST IN FIRE ON ED SEVIER'S FARM

Wednesday night Ed Sevier, who lives nine miles northwest of Plainview, lost by fire \$1,000 worth of bundle feed stuff, mostly kaffir of last year's crop. Mr. Sevier and his sons were away from home and there was no one to fight the fire but Mrs. Sevier and the small children. Mr. Sevier has thirty or forty head of livestock on his place, and will feel the loss of the feed keenly.

## TEXAS SHARE OF GOOD ROADS APPROPRIATION IS \$291,927.81.

WASHINGTON, July 26.—Secretary of Agriculture Houston has certified to Governor Ferguson that Texas now has available in the Federal treasury \$291,927.81 for the construction of good roads between now and June 30, 1917, when the Government fiscal year ends.

This is the Texas share of the \$5,000,000 recently made available for good roads construction this year through the passage of the good roads bill. The appropriation for Texas is larger than for any other State.

Before the funds are available, however, the State must match dollar for dollar with the Government, and in the event this is not done this year the fund will remain in the treasury to the credit of Texas.

## WOODMEN TO WICHITA FALLS.

A large number of W. O. W. members are attending a district meeting at Wichita Falls. There are sixteen in the party. Among them are Capt. J. W. Carter, Hal Lattimore, Dick Jordan, Solon Clements, L. D. Griffin and D. Fyffe.

## INCREASED PAY FOR GUARDSMEN

WASHINGTON, July 26.—Increased pay for officers and men of the regular army and National Guard in active service for the Mexican emergency, improved camp conditions to safeguard their health, and authorization for them to vote in field at the coming Presidential election were provided in amendments to the army appropriation bill agreed to today by the Senate.

The amendment giving soldiers in the Mexican service authority to vote in the field at the national election passed without opposition. As a safeguard to the health of soldiers, an amendment was adopted appropriating \$250,000 for construction of wooden floors and screens in troop tents along the border.

## Hauser of Kress is Shot Accidentally at Sanderson

SANDERSON, Texas, July 27.—Lee Hauser, of Kress, was accidentally shot late Wednesday evening with a .30-caliber army rifle. The bullet grazed his right leg, inflicting a flesh wound, and passed through his left leg half way between the knee and hip, breaking the thigh bone. He has been transferred to the base hospital at Marfa for treatment.

## DOVE WILL HOLD FARMERS' INSTITUTE HERE AUGUST 2.

Will Be in Behalf of Farmers' Congress at Amarillo, August 24 to 26.

August 2 at 2:30 p. m. D. C. Dove, assistant organizer of farmers' institutes, representing the State Department of Agriculture, will be in Plainview in behalf of the Panhandle Farmers' Congress, which is to meet in Amarillo August 24 to 26, inclusive.

It is probable that H. M. Bainer, Agricultural Demonstrator for the Santa Fe lines, will be here on that date, also.

## TRAIN SERVICE BROTHERHOODS VOTE IN FAVOR OF STRIKE.

ST. LOUIS, Mo., July 27.—The strike vote of the four train service brotherhoods, which ended at midnight, resulted overwhelmingly in favor of a strike.

Confidential advices received from all sections of the country justify the forecast that from between 96 and 98 per cent of the brotherhoods' membership has voted in favor of a Nationwide strike, affecting practically every railroad in the United States and approximately 450,000 employees.

## BIRTHS.

Born, to Mr. and Mrs. J. W. Richards, July 22, a boy.

Born, to Mr. and Mrs. M. Morris, July 23, a girl.

Born, to Mr. and Mrs. D. B. Crouch, July 25, near Hale Center, a girl.

Born, to Mr. and Mrs. R. A. Underwood, July 27, a boy.

## MRS. LIDA COATS DEAD.

Mrs. Lida Coats died of drowsy yesterday morning at 6 o'clock, at the home of J. E. Massey. The body was prepared for burial by W. F. Garner and taken to Lockney that afternoon.

Mrs. Coats was a widow, thirty-seven years of age. She was a daughter of W. C. Reagan, of Lockney.

Mr. and Mrs. M. E. Merrell, of Lubbock, are the guests of Mrs. G. C. Keck this week.

Mrs. J. R. Kerley and little daughter, of Amarillo, are visiting with Mrs. Kerley's parents, Mr. and Mrs. G. C. Keck.

Miss Ethel Hammer, of Olton, is the guest of Miss Dorothy Vanderpoel this week.

Mrs. C. W. Boyd and son left yesterday morning for Post City, where they will visit with relatives.

W. E. Boyd returned to Knox City yesterday, after a visit with his brother, C. D. Boyd.

## CHAMBER OF COMMERCE TO BE IN GOOD ROADS MEETING

Federal Appropriation of \$85,000,000 Will Be Discussed and Method of Appropriation Explained.

Appointed by the Chamber of Commerce as representatives to the Texas Good Roads Congress at Medina Lake, August 17 and 18, Mayor W. E. Risser and E. E. Roos will probably attend. At this time others are considering attending, but so far as is now known only the two will go. The matter has been brought to the attention of the Commissioners' Court, and it is possible that one or more of the commissioners will attend.

San Antonio is making preparations to entertain not less than 2,000 Texas Good Roads enthusiasts at the meeting of the Good Road's Congress, August 17, 18 and 19. According to Secretary D. E. Colp, who is touring North Texas in the interest of several good-road projects, unusual interest is being evidenced in the meeting and its possibilities for the united efforts of all good-roads forces in the State.

Many counties are going to make an effort to secure their pro rata part of the \$301,050 that is available the first year to Texas from the \$85,000,000 Federal road bill. Among the requirements made of states participating is that they have a State Highway Department. Texas has no recognized highway department, and one of the objects of the Road Congress is to attempt to immediately secure the proper organization of such a department, thereby securing to Texas its share of the Federal aid, if counties and sections appropriate an equal amount. Texas' share for the five years will be \$4,515,750.00.

Aside from that feature of the meeting, the programs will be so arranged that the attendant can have the benefit of a short course in "the right kind of roads to build" and how to present a bond issue to the people so it will carry. Some counties have failed to carry bond issues, and the combined experiences of attendants from counties which have built systems of good roads will be of special benefit to citizens of those counties.

## SOIL STOVE FIRE CAUSES SMALL LOSS AT GLENN HOME.

An oil stove caused a small fire in the residence of C. L. Glenn Wednesday morning. The fire was extinguished with damage only to the amount of \$37.

## Dick Ivey Shot and Killed at Mount Calm, Hill County

Mr. and Mrs. R. F. Ivey left this morning for Mount Calm, Hill County, in response to a message saying that their son, Dick Ivey, had been shot and killed this morning.

A special wire to The Herald from Fred Long, sheriff of Hill County, in reply to a query, states that the killing of Dick Ivey occurred in Limestone County, just across the line. "Tim Luckey shot Ivey with a shotgun," he states, "over rental matters. They had had some previous trouble. Tim Luckey and his brother are now in jail at Groesbeck, Texas, the county seat of Limestone County."

The Herald's query to A. R. Henderson, sheriff of Limestone County, was answered as follows:

"A farmer by the name of Richard Ivey was shot and instantly killed this morning at five o'clock at his place, about twenty miles northwest of Groesbeck. The weapon used was a single barreled shotgun. One load of shot took effect in the face. Ivey was married. Deputy Sheriff W. T. Blair arrested Tim and Frank Luckey, brothers, and brought them to the county jail here. A rumor was current on the streets there late this evening that there was a likelihood of a mob's coming after the men arrested, but it proved incorrect. However, a number of the dead man's neighbors came to Groesbeck and asked that the men arrested be given a speedy trial."

Guy Ivey has received the following telegram from Wilburn Ferguson, brother-in-law of Richard Ivey: "Richards was shot while feeding this morning. Killed instantly. No witness to shooting. Evidence shows murder. Two who did shooting in jail without bail. Shot once with shotgun in left jaw."

## SANTA FE WILL ASSIST IN DEVELOPING DAIRYING

AGRICULTURAL AGENT RECOMMENDS DURHAM COW AS COMBINATION MILK AND BEEF PRODUCER.

## JOHNSON TO SPEND YEAR HERE

"Bossy" Changes Wisconsin Farmer From Borrowing Class to Holders of Fat Bank Accounts.

The Santa Fe Railway has turned its attention to encouraging dairying in Hale and Lubbock Counties on an intensive scale. J. L. Johnson, assistant agricultural demonstrator with the Panhandle and Santa Fe, will spend the major part of the coming year in these two counties in the interest of the farmers. He has orders from C. L. Seagraves, colonization agent, to remain in this territory until the work has been completed.

One of the best features of Mr. Johnson's plan is that he not only encourages dairying, but he promises to have a good market for those who have cream to sell. He will personally look after the details of providing a market.

The Durham cow is recommended by Mr. Johnson, for the reason that this breed furnishes a good flow of milk and at the same time are good beef cattle, a combination which he considers essential in dairying at this time on the South Plains.

Mr. Johnson's plan is very similar to that which has been advocated by County Agricultural Agent Dr. R. F. Hare, who is at this time absent from the city, attending the annual short course at Texas A. & M. College.

The bankers of Plainview have agreed to furnish money for the purchase of dairy stock where farmers are not in position to buy cows outright and to accept payment in monthly installments which will depend in amount on the cream checks received. Experts from the Texas Agricultural and Mechanical College will select the cows, going to sections which have the best stock, and each cow thus imported will be of known value as a milk producer. Thus the "boarder" will be eliminated at the start.

Mr. Johnson has been in consultation with the president of the Chamber of Commerce, Chas. Reinken, and other business men of the city. He has received much encouragement.

Mr. Johnson is enthusiastic about alfalfa as a feed for dairy cattle. He says, however, that the man who has a dry farm and does not find alfalfa will find Sudan grass splendid feed. Stock like it and it has a high feeding value. It is a prolific dry-farm crop. Mr. Johnson believes this section is ideally situated to go into the commercial dairy business. The climatic conditions, good water and cheap feed are contributory to success from the beginning.

The Santa Fe will aid in every possible way to develop the industry.

The fact that in 1900 the farmers of Wisconsin, as a class, were borrowing money at the rate of 8 per cent and that now they are depositors and get three per cent interest on their surplus money, is cited by Mr. Johnson as an evidence of the profitability of the dairy business in that State. Wisconsin leads the world in dairying. There are more than 1,700,000 milk-producing cows in that State, and 2,000 cheese factories and milk-condensing plants. It is practically the growth of a decade. From a class of mortgage makers the Wisconsin farmers have evolved into a class of business farmers with plenty of capital and a deposit of surplus money.

It is Mr. Johnson's hope that the earnest co-operation of all the people of this district be given in prompting this new industry.

**INFANTILE PARALYSIS.**

By SAMUEL G. DIXON, M. D.,  
Pennsylvania Commissioner of Health.

Infantile Paralysis is a disease that affects the nervous system. It often causes death, and, again, the acute stage frequently subsides and leaves paralysis of one or more limbs that often lasts through life.

Today we do not know what causes the disease, therefore preventive measures must be broad. You must keep the children away from insect life, such as flies, mosquitoes, fleas, bed bugs, ticks, ants, lice, etc. You should see that all rats and mice around the building are killed. Pet cats and dogs should be washed with a two per cent carbolic acid solution. Everything should be kept clean about the home, including the children.

Children should be fed well, but not indulged in large quantities of water, ice cream or other frozen dishes on a full stomach, as that will often cause acute indigestion and render them susceptible to other diseases. In other words, the digestion should be guarded carefully.

Children should have plenty of sleep. They should not associate with other children that are sick. Their homes should be well ventilated, but screened. All foodstuffs should be protected.

Children's mouths should be rinsed out and their throats gargled with Dobell's solution after each meal. If the children are too young to rinse or gargle, wash the mouth with a piece of fabric dipped in Dobell's solution. Children should be kept out of crowded places.

The youngsters should not be permitted to sit on the damp ground nor have their bodies chilled, day or night. They should not bathe in cold water.

**KANSAS CITY STOCK MARKET IN DETAIL.**

**KANSAS CITY STOCK YARDS,** July 24.—The break last week stopped cattle loading today to a great extent, and receipts dropped to 10,000. There was a light run at all the markets, and prices opened strong, unevenly higher, some sales called 25 cents up.

**Beef Cattle.**

Top steers sold at \$9.90, not up to the limit of the market by about 50 cents. Choice pulp steers sold up to \$9.35, same price the same cattle brought a week ago. Kansas wintered steers are scarce, but are quotable up to \$8.50. Some plain 1,100-pound steers sold at \$7.45, out of the same pasture that produced steers at \$7.50 last Monday, showing that nearly all the decline on that kind late last week was regained today. Oklahoma cattle were plentiful today, and the movement from that section is now on for good for the balance of the season. Best Osage wintered steers sold at \$7.90 to \$8.25, good grassers \$6.50 to \$7.50, light grass steers \$6.00 to \$6.40. Quarantine steers were all from Oklahoma, best at \$7.65, 10 cars of Wilson & Selfridge steers, from Okmulgee, 1,202 pounds, at \$7.50, light steers \$5.75 to \$6.50, cows \$4.50 to \$5.40, 36 cars in all. Best cows in native division sold at \$7.50, good cows \$6.00 to \$6.75, veals up to \$11.00.

**Stockers and Feeders.**

The low point of the year was touched late last week, sales 50 cents to \$1.00 below the opening of the week. A good many buyers appeared today, and as the run was far below expectations, prices stiffened 10 to 20 cents. The good cattle sold at \$6.50 to \$7.50, useful cattle at \$5.75 to \$6.25.

**Hogs.**

Receipts were moderate last week, but packers were bearish and the market closed at the low spot. Today the run is 8,000 head, market 10 cents higher. Quality is good, and weights are heavier than heretofore, 206 pounds last week, 10 pounds heavier than same week last year. Top price today is \$9.80, 15 cents above last Friday, and bulk of sales \$9.50 to \$9.70. In spite of the depression last week, the situation is regarded as strong, and no further break is expected at this time.

**Sheep and Lambs.**

The market was 10 cents higher today, following weakness every day last week. Eight cars of Idaho lambs topped the market, at \$9.90, 72 pound average, natives sold at \$9.50 to \$9.85, yearlings worth up to \$8.00, wethers \$7.50, ewes \$7.00. Receipts are running very light, 4,700 here today, and the supply promises to run light for a month to come. Feeding lambs sell up to \$9.00, breeders \$7.50 to \$8.00, light young ewes today at \$8.50.

Market Correspondent.

**LUBBOCK RAILWAY COMPANY FILES CHARTER AT AUSTIN.**

AUSTIN, Texas, July 25.—The State Department today approved and filed the charter of the Lubbock & Great Northern Railway Company, of Lubbock, capital \$150,000.

This corporation proposes to construct a line of railroad from the town of Lubbock to a point of intersection with the Missouri, Kansas & Texas

Railroad in Collingsworth County, passing through portions of Hale, Floyd, Briscoe and Hall Counties. Incorporators are J. M. Elliott, S. S. Houston, E. V. Leak and others.

# Heliotrope Flour

A carload of this superior flour is here and we want to emphasize how popular it is proving itself in the home of the discriminating cook. We started selling this flour in a modest way by having a few good cooks interested; this number grew, and has continued to grow until now the merits of Heliotrope Flour are well known in many homes, and the flour is growing in popularity. A product of this kind which can grow in favor and stand up under the most severe tests car after car surely is no experiment and the housewife takes no chances in including it as a regular commodity in the kitchen.

## Better Buy a Supply Now as Flour is Going Up

We can supply you most any day now with nice young frying chickens. We are also paying especial attention to a variation of your menus by providing a nice assortment of vegetables and fruits in such assortments as the best markets afford.

# Saxon's

Do not delay in getting yours. We will be pleased to demonstrate the many merits of this popular car.

At the present time there are many thousands of Saxon "Sixes" in the hands of owners. They have been driven millions of miles. They have climbed hills, participated in races, pulled through deep mud and sand, operated in snowy weather and hot. They have met every condition of road and climate that ever falls to the lot of a motor car. So the fact that Saxon "Six" owners are enthusiastic over its performance is definite indication of its unusual quality.

**TEN CONVERSIONS IN BAPTIST MEETING AT ABERNATHY.**

ABERNATHY, Texas, July 26.—Misses Mabel and Nita Pipkin are spending a week or two on a visit to relatives in Canyon.

Postmaster J. C. Arnett was a business visitor to Lubbock Monday.

Prof. G. R. Henderson, of Stamford College, was in our city one day last week in the interest of that institution.

Will Crow, while trimming a horse's hoof the other day, let a knife slip and cut his thigh pretty badly, but is able to walk around again.

Mrs. Hardesty and son, George, of near Cleburn, are visiting the family of her son, R. M. Hardesty.

On Tuesday of last week several auto loads of young people of Abernathy went to Hart Camp for a two days' outing and fishing trip. They

report a very fine time.

Tom J. Fletcher was elected as justice of the peace of this precinct in last Saturday's election.

Miss Myram Steward returned last Wednesday from Austin, where she went as a delegate from the Economics Club of Abernathy to the State meeting.

The Baptist revival in progress at this place has resulted in ten conversions to date (Tuesday night). Rev. J. T. Burnett, of Plainview, is doing the preaching. Large crowds are in attendance, and much good is being accomplished.

Elbert Overton and Tom Fletcher were business visitors to Plainview Wednesday.

**HAPPY UNION CHALLENGES ALL THE SINGING CLASSES.**

HAPPY UNION, July 25.—The excitement of the election is over, and this community has settled down again and all are singing do, ra, me, and are happy to know that they are enjoying life, even though it is very dry and hot.

The farmers are hauling lots of wheat to town these days, and the price is getting better every day, which is encouraging, and if it would only rain there would be a larger wheat crop sown in this community this year than was ever known before.

The singing school, under the management of Prof. John Huffstetler, of Lubbock, is doing fine, and all who attend are reaping great benefit, and we fully believe Happy Union will have one of the best, if not the best, classes in the county by the time this school closes, and we will be ready to challenge the other classes of the county in class singing for the Hale County banner at our next Singing Convention, which meets with the Plainview class the 4th Sunday in August. We

are going to have a grand concert and box supper at the close of the school, Thursday night, August 3rd. The concert will be free, but we will sell the boxes to the highest bidder, and we extend to every one a hearty invitation to be with us, and we promise to entertain you while here.

A FRIEND.

**OLTON NEWS ITEMS.**

OLTON, Texas, July 26.—Work on the high school building is moving along nicely.

The young people had a party at the home of Mr. and Mrs. Lowell French Monday night. All report a nice time.

Mr. French's mother, two sisters, two brothers and two nephews have been visiting him and his sister, Mrs. Yauger, but have returned to their home, at Waxahachie, except his mother, who will spend the remainder of the summer at Olton.

Well, the primary is over, and most of the Olton candidates got a sad disappointment.

Professor Green has gone to Dallas to select and buy the furnishings for the new school building.

**CO-OPERATIVE SHIPPING SUCCESS WITH SCARCELY ANY CAPITAL.**

Doing a business of nearly \$18,000,000, with scarcely a complaint about management of prices, and with a saving frequently amounting to \$50 to \$60 a carload over the prices offered by local shippers, the co-operative live stock shipping associations are making a record that is exceeding expectations, according to the figures in a new bulletin on "Co-operative Livestock Shipping Associations," issued by the division of agricultural economics, University Farm, St. Paul. This is done with the investment of scarcely a dollar in capital. There are about 250 live stock shipping associations in Minnesota. Reports made in 1914 by 46 associations to the University of Minnesota showed that the average amount of stock sold in a year was \$71,875. Usually the managers are paid from 5 to 7 cents per hundred-weight for shipping stock and 2 or 3 cents usually is set aside as a sinking fund to cover losses. Ordinarily a car is shipped and sold at a cost of not more than \$15. Local buyers, the report indicates, try to make about \$75 a carload, to cover the expense and trouble of collecting and shipping the stock. Live stock shipping associations in Minnesota are organized without capital. They do not buy anything. They give no credit. Each consignment of stock is a separate transaction, covering a time of only a few days. The manager is merely a personal agent of the seller. Minnesota live stock shipping associations contain from 50 to 1,500 members. The usual number ranges from 100 to 200. A shipment of about 15 to 20 cars is the usual amount of business done each year.—Breeder's Gazette.

**SOME SILAGE DOPE.**

Everyone who has used a silo has observed that at times the silage becomes hot, says C. H. Eckles, of the Missouri Agricultural Experiment Station. This is generally noticed on the surface during mild weather as when the silage is being fed in rather small quantities. Many have supposed that the entire mass of silage becomes very hot and that a certain amount of heat is necessary to preserve it. Agents of various types of silos have also taken advantage of the lack of general information on this subject to make claims for or against certain types of silos on the ground that the temperature of the silage is influenced by the particular construction. The Missouri Experiment Station decided two years ago to get the facts. Electric thermometers were placed in silos to take the temperatures. A bulb was placed in the silo during filling at any point where it was desirable to take the temperature. This bulb had wires leading to the outside of the silo, so that the temperature could be taken with an electrical device at any time. Temperature readings were taken near the center of the silage mass and at the wall at frequent intervals during two seasons in from eight to ten silos, including stave, iron, tile, Gurler and concrete. It was found that the temperature in the depth of the silage is never high, as is so often thought. After filling, the temperature rises from 5 to 10 degrees the first few days, and then slowly declines during the fall and winter until it reaches the lowest point, 40 degrees, in March. In good silage the temperature seldom goes more than a few degrees above 100 F., and may not go above 90. The only high temperatures found are at the surface when the air comes in contact with the silage. Furthermore, a temperature much above 100 means loss of silage, as some of the material is being actually burned to make the heat.

the silage. Furthermore, a temperature much above 100 means loss of silage, as some of the material is being actually burned to make the heat.

Mold will raise the temperature some. Corn put in the silo in a mature condition develops more heat than that put in green.—San Antonio Express.

Disease starts in places of filth—but it doesn't stay there.

Eighty-five million dollars to be expended within the next five years on good roads in the United States! And Texas can get a liberal slice of that amount. Hale County should investigate the matter of securing a portion of that fund. Co-operative work on the part of towns interested in the improvement of the Borderland Route or the Puget Sound-to-Gulf Highway might be productive.

### PROVIDING HOMES OUR SOCIAL PROBLEM.

"The United States has many social questions to settle in the near future, and nothing will take the place of its ability to provide good homes for those who desire to sit under their own vine and fig tree. Land without population is a wilderness and population without land is a mob."—The Late James J. Hill.

### IS INTERVENTION NECESSARY?

At a time when the United States is neither at peace nor at war with Mexico the question of intervention is attracting no little attention.

This must be remembered: Although it seems that there is little national unity in Mexico, there is one thing which might cement the natives in a union, and that is repulsion of American occupation.

America can establish a government of force in Mexico and temporarily maintain law and order for American citizens living there and for the Mexicans themselves. But would her attitude be understood? Will the Mexican people—which is composed of one-fifth American, two-fifths Indian and two-fifths mixed, we are told—see the philanthropic motives Columbia might have, or will they see only ulterior motives.

Another question that arises is, are we in position to maintain a government for any length of time—that, of course, conceding our right morally and otherwise to intervene—without complicating ourselves in foreign difficulties and without making a burden on our Government financially and otherwise?

Are the Mexican people ready for a government that would simply be a protectorate? Are they capable of self government? Why didn't the limited self government of Madero survive? Is any method other than the despotic rule of a Diaz applicable? Can the United States afford to arouse the enmity of the South American republics, with whom she is now on passably friendly terms and with whom she is building a profitable commerce? In the interests of humanity in general should the United States send her forces into Mexico and risk the establishment of a provisional government until such time as she could withdraw and leave the country to its own destiny safely? Is the Mexican case parallel in any particular with the case of Cuba?

### THE MOVIES BRING A MORE PERFECT RACE.

The moving picture is the drama of form and action, rather than idea.

In the right kind of picture plays the most beautiful people in the country speak to us with their faces and bodies.

We want to be like the movie actors, and we want our children to be like them. So we become interested in eugenics, and find that it is not much more than wholesome living on the part of parents and prospective parents.

We become interested in economics, and find that it is simply the problem of providing all people with food, clothing and shelter, so that they may have as good bodies as the people on the screen, and education so that they may be as graceful.

The moving pictures give us vistas of the great outdoors, and out of the dark theater we go to find it for ourselves.—Wichita Beacon.

The possibilities of the movie is limited only by the vision of the producers of our films. It has an educational value, latent or expressed. We differ on what is good for the movie to present, just as we do on what is good in private conduct. Fundamentally the movie is powerful. It needs only the direction of an awakened public opinion.

## Food for Thought

Have we not learned that not stocks nor bonds nor stately houses nor lands nor the product of the mill is our country? It is the spiritual thought that is in our minds. It is the flag and what it stands for. It is its glorious history. It is the fireside and the home. It is the high thoughts that are in the heart, born of the inspiration which comes from the stories of others, the martyrs to liberty; it is the graveyard in which our careful country has gathered the unconscious dust of those who have died. Here, in these things, is that which we love and call our country rather than anything that can be touched or handled.—Benjamin Harrison.

Violence ever defeats its own ends. Where you can not drive you can persuade. A gentle word, a kind look, a good-natured smile can work wonders.—Hazlett.

Never lose an opportunity of seeing anything that is beautiful; for beauty is God's handwriting. Welcome it in every fair face, in every fair sky, in every fair flower, and thank God for it as a cup of blessing.—Emerson.

A fool with a majority on his side is the greatest tyrant in the world.—Sir George Lyttleton.

### FEDERAL AID FOR ROADS.

On June 29 Congress passed a bill providing for co-operative work between the Nation and the several States in the improvement of roads. This bill was the result of several years of earnest effort on the part of Senator Bankhead, of Alabama; Congressman Shackelford, of Missouri, and a number of their associates who had a practical knowledge of the difficulties attending the economical and efficient management of road betterment in their home districts.

The essence of the bill is co-operation. Any State desiring to take advantage of the benefits of the act must submit to the Secretary of Agriculture a statement of the roads which it desires the Federal Government to aid in building. Where a State does not carry on such work the bill contains provision for extending Federal aid to counties. If the Secretary of Agriculture approves the projects, the Treasurer of the United States will set aside at once the share of the cost assumed

by the United States, which is not to exceed half of the total estimated expense. This money will be furnished from time to time as the work proceeds. The plans, specifications and estimates for the project must have the approval of the Secretary of Agriculture as a preliminary step in this co-operation.

This places the management of the Federal-aid work in the hands of the State highway officials, but it lends to these officials the powerful support of the United States in demanding greater efficiency and better judgment in the spending of the \$300,000,000 now paid out annually in this country for road work. State officials have been badly handicapped in the past by local influence and political interference, which have caused even more trouble in county and township work. Under the provisions of this bill there will be abundant opportunity in every State to demonstrate the value to the taxpayers of competent engineering and economical and efficient construction. The United States Office of Public

Roads and Rural Engineering, which will act for the Secretary of Agriculture in carrying out the Federal obligations for which the bill provides, has had charge of road construction throughout the country and its methods have the hearty support of contractors who have had experience with it and wish to do business on a perfectly straightforward basis so as to give a dollar's good results for every dollar received.

One of the great problems facing road officials is the maintenance of roads. The bill requires the Secretary of Agriculture to refuse further Federal aid to State or local authorities which do not maintain properly all roads built with money received from the National Government. This provision is not a harsh one, for due notice must be given of the unsatisfactory maintenance of any road, and the Office of Public Roads and Rural Engineering has been authorized for many years to give advice to local authorities on the subject, so that co-operation in this vital feature of highway administration is nothing new.

The bill appropriates \$5,000,000 for co-operative work on a share-and-share-alike basis, during the year beginning July 1, 1916, \$10,000,000 for 1917-18, and so on up to \$25,000,000 for 1920-21. This means, in substance, that a large part of the permanent road improvements in the country will be conducted on the basis of the highest efficiency which close co-operation between the highway officials of the different States and the Federal Government can develop. The bill also provides for spending \$1,000,000 annually for ten years on roads and trails in the National Forest reservations, so as to make them more accessible and productive of a larger income to the Nation. FAIRFAX HARRISON, President, American Highway Association.

### WRITING THE EPITAPH.

When a popular sea captain had died, four leading men of the hamlet were selected to write an epitaph, and it was decided that each should write a line. The first wrote his easily. The second, puzzled a little, then wrote his. The third followed even more slowly. But the fourth wrote as if inspired, and the whole verse read:

"Here lies the captain of the sea,  
Here lies him, here lies he,  
Hallelujah, hallelujah,  
A, B, C, D, E, F, G." —Harper's.

### CITATION BY PUBLICATION.

THE STATE OF TEXAS,  
To the Sheriff or any Constable of Hale County—GREETING:

YOU ARE HEREBY COMMANDED, That you summon, by making Publication of this Citation in some newspaper published in the County of Hale, if there be a newspaper published therein, but if not, then in any newspaper published in the 64th Judicial District; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 64th Judicial District, for four weeks previous to the return day hereof, S. P. Ellett, whose residence is unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Hale, at the Court House thereof, in Plainview, Texas, on the 7th day of August, 1916, then and there to answer a Petition filed in said Court, on the 6th day of July, A. D. 1916, in a suit numbered on the docket of said Court No. 1233, wherein Arrah L. Williams is plaintiff and S. P. Ellett is defendant. The nature of the plaintiff's demand being as follows, to-wit: THE STATE OF TEXAS,  
COUNTY OF HALE.

In District Court of Hale County, Texas, August Term, A. D. 1916. To the Honorable Judge of said Court: Now comes your petitioner, Arrah L. Williams, a feme sole, who resides in Hale County, Texas, hereinafter styled plaintiff, complaining of S. P. Ellett, who is a transient person and whose residence is unknown to this plaintiff, hereinafter styled defendant, and for cause of action represents and shows to the court as follows, to-wit: That plaintiff and defendant were formerly husband and wife; that on the 5th day of August, 1914, a valid divorce decree was entered by the District Court of Hale County, Texas, dissolving the marriage relation theretofore existing between them; that on or about the 1st day of September, 1914, plaintiff was lawfully seized and possessed of the following described land and premises, situated in Hale County, Texas, holding and claiming the same in fee simple, to-wit:

All the N. W. ¼ of the S. E. ¼ of Sec. No. 16, Blk. JK-3, Cert. 3-380, issued to G. C. & S. F. Ry. Co., more particularly described in deed from J. T. Graves and wife to plaintiff recorded in vol. 34, p. 84, Hale County deed records, to which reference is here made for a better description. Also The E. ¼ of the S. W. quarter of

Block 87, Alexander & Westmoreland addition to the town of Plainview, said county and state, less ten feet along north side of said quarter reserved for alley, more particularly described in deed from C. L. Gilbert and wife to plaintiff, recorded in Hale County deed record vol. 23, p. 552, to which reference is here made for a better description.

That on the day and year last aforesaid, the defendant unlawfully entered upon said premises and ejected plaintiff therefrom and unlawfully withholds from her the possession thereof, to her damages in the sum of one hundred dollars; plaintiff further says that prior to the last-mentioned date, plaintiff and defendant, while permanently separated, entered into a separation agreement and the above-described land was purchased with the proceeds of other property received by her in said agreement, and that said property is and has always been since its acquisition her separate estate, purchased with her own money for her sole and separate use at a time when she and defendant were permanently separated, and that she claims said property as her separate estate and has always so claimed it, and that defendant does not now and has never had or held any interest in same; that said property was not mentioned in said decree, and that having been acquired prior to the dissolution of the said marriage relations, without any disposition of same in said decree clouds plaintiff's title; that plaintiff claims said land and premises from and under a regular chain of valid transfers and deeds from the sovereignty of the soil, and as her separate property, and that the exact nature of defendant's claim is unknown to this plaintiff, but she alleges same constitutes a cloud upon her title.

Wherefore premises considered plaintiff prays that defendant be cited to appear and answer herein and that on final hearing hereof that she have judgment cancelling all claim of defendant to said land and that it be adjudged to be her own separate estate

free and clear from any claim of defendant, for costs of suit and for such other and further relief, both general and special, as in law or equity she may be entitled to.

MARTIN, KINDER,  
RUSSELL & ZIMMERMANN,  
Attorneys for Plaintiff.

HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing

how you have executed the same. Given under my hand and seal of said Court, at office in Plainview, Texas, this, the 6th day of July, A. D. 1916. B. H. TOWERY, Clerk District Court, Hale County, Texas. (SEAL)

## A Carload of Bewley's Best Flour Just Arrived

In the face of a rising market on flour we bought this flour right and mean to give our customers the advantage of our purchase. While they last we will give a neat little cook book with each sack of this flour sold.

### Bewley's Best Means Better Baking of Bread, Pastry, Biscuit and Cake

Many pages might be written to cover the story of how Bewley's Best Blue Ribbon Flour is made, of how the grain is selected, cleaned, inferior grains eliminated, etc.—of the preserving and preparing of these best grains for use in this brand of flour—of the process of grinding, sifting and purifying until all is put into by products and lower grades, leaving only the white, sound granules of uniform size and composition for the cream of the mill,—the Blue Ribbon brand. The fact could be established that a barrel of this flour will make more loaves, absorb more water, give more strength, be more economical, etc., than any other flours.

We will not attempt to relate the whole story. All we ask is that you try a sack with your next order.

## ANNOUNCEMENTS.

Miss Adeline Irick will entertain this evening in honor of Miss Maude Dotson, of Olton, who is the guest of Mrs. J. J. Clark.

The mothers and children of the city who would not otherwise have an opportunity of an outing are this afternoon being entertained with an outing and picnic lunch at the "three-mile" grove.

## MUSICAL FETE NETS PUBLIC LIBRARY FUND OF \$20.

Last night, on the lawn at the Presbyterian Church, a musical fete was given for the benefit of the library. As a result, \$20 was added to the Public Library fund.

A very attractive program was rendered. Miss Thrash delighted her hearers with a number of readings; Miss Maude Wilson gave two delightful vocal selections; Miss Nannie Mae Dunaway rendered a piano solo, and little Virginia Sansom and Frances Powell charmed the audience with songs and recitations. The songs and drills by the twelve little girls and by the twelve young ladies were special features on the program. The closing number of the program was the chorus "Santa Lucia."

## HONORING MRS. R. W. LEMOND.

A pretty hospitality of Thursday evening was a party given by Mrs. Elmer Sansom, 801 Galveston Street, in honor of Mrs. Robert W. Lemond, of Wichita, Kansas.

Decorations of nasturtiums beautified the rooms. "Eighty-four" gave pleasure during the afternoon. When the games had ended ice cream and cake were served. In the center of the trays, on which the ice cream and cake were passed among the guests, was an attractive embankment of nasturtiums.

The list of guests included Mesdames E. B. Hughes, J. O. Wyckoff, A. G. Hinn, W. L. Harrington, D. F. Sansom, L. A. Knight, John Crawford, E. H. Bawden, T. C. Shepard, and R. W. Lemond, of Wichita, Kansas.

## THURSDAY BRIDGE CLUB.

Mrs. G. C. Keck was hostess yesterday afternoon to the Thursday Bridge Club.

Those present other than the club members were Mrs. S. J. Murray, of Sherman; Mrs. M. E. Merrill, of Lubbock; Mrs. J. R. Kerley, of Amarillo, and Miss Mary McKinnon, of Floydada.

Delightful punch was served during the afternoon.

## THE "5 W'S" MET WITH MISS OTELIA GRAHAM.

Miss Otelia Graham was hostess to the "5 W's" this week.

After the girls had spent a pleasant hour in her home and when ice cream and wafers had been served, they departed for Lake Plainview, where they spent the remainder of the afternoon rowing, and, too, a watermelon feast was enjoyed out in the boats on the lake.

The next meeting will be with Miss Lois Hatcher.

## BIRTHDAY DINNER OF FOUR SERVED IN ARMSTRONG HOME.

On Wednesday Mrs. W. B. Armstrong gave an elaborate birthday dinner in honor of her daughter, Miss Alma; her brother, F. F. Stokes, of Lampasas, whose birthday was on Wednesday; her son, L. G. Armstrong, of Italy, who had a birthday on Tuesday, and William Armstrong Wood, a little grandson of Los Angeles, whose birthday came on Thursday.

The delightful and prettily planned dinner was served at noon to the following: Mrs. E. A. E. Fullwood, mother of Mrs. Armstrong; Mr. and Mrs. F. F. Stokes and Stewart Fullwood, all of Lampasas; Mrs. Fred B. Wood and children, of Los Angeles; Mr. and Mrs. L. G. Armstrong, and little daughter, of Italy, Texas; Mr. and Mrs. W. B. Armstrong and Miss Alma Armstrong.

The affair was an unusual one, and will long be remembered by the host of relatives present.

## WEDNESDAY BRIDGE CLUB.

Miss Edna Harrington was hostess this week to the Wednesday Bridge Club, at her home, 701 West Eleventh Street.

Sunflowers made an effective decoration.

There were three tables of bridge. The substitutes were Mrs. L. S. Kinder, Mrs. J. O. Wyckoff and Mrs. D. F. Sansom.

An ice course was served at the close of the games.

## SMALL WELLINGTON GUESTS ARE HONOREES AT PICNIC.

Three cars loaded with little folks went out to the "three-mile" grove yesterday evening about three-thirty, returning home at eight-thirty. This enjoyable affair was arranged by Mrs. W. B. Rushing and Mrs. J. B. Maxey, and was given in honor of Victor and Julian Glenn, of Wellington.

The first delightful event of the affair was the picnic supper. Then the rope swings were made, and swinging and games proved to be joyful amusements. But last and best of all in the minds of the little folks came the ice cream and the watermelon feast.

The following enjoyed the occasion: Edna Ruth Cochrane, Rebecca Williams, Emmett and Ellis White, Harold and Virginia Hinn, Kathryn Reinken, Billie and Jeanette Ellen Holmes, Dorothy Goodwin, Betsy Miller, Marguerite Looney, Margaret Willer, Frank Pearson, Jr., Charles Ellerd, Nelson Lindsay, Lucian Morehead, Dorothy Whitson, Lindsay Broom, Cecil and Olga Rushing, W. B. and Dorothy Rushing, Monette and Leedy Moxey, Homer and Robert Maxey and Victor and Julian Glenn, of Wellington.

Mr. and Mrs. V. T. Glenn and children, of Wellington, Texas, are visiting with Mr. and Mrs. F. S. Pearson.

F. N. Jordan, tax assessor for Hale County, upon completion of his tax rolls, reports 7,926 horses and mules listed in the county, 30,945 cows, 19,175 hogs and 9,045 sheep.

W. E. Winfield left Tuesday for Hot Springs, Ark., taking with him "Uncle" Joe Biles, who goes there for the benefit of his health.

Little Miss Eloise Simmons, of Dallas, is the guest of her friends Kathleen and Louise Graves, on Walnut Street.

I. E. Hoyle came in Wednesday from Oklahoma City for a visit with his mother, Mrs. Q. D. Hoyle.

Mr. and Mrs. M. O. Hoyle left Wednesday for their home, in Kansas City, after a visit with their mother, Mrs. Q. D. Hoyle.

Mr. and Mrs. L. B. Bradley and children, Miss Goldina and Karl, of Waco, who have been visiting with Mr. Bradley's sister, Mrs. S. P. Brown, returned home Wednesday.

Rev. L. G. Haggard left this morning for Kress.

## A MEDICAL OPINION OF WHISKY.

"Every pint of whisky a man drinks shortens his life by eleven hours, and every pint of beer he drinks steals twenty-five minutes from his life." This statement is taken from "Alcohol—Its Influence on Mind and Body," a book by Edwin F. Bowers, M. D., and just off the press of Edward J. Clode, New York.

Dr. Bowers has gathered his facts and statistics from life insurance tables, scientific tests and the experiences of scientists in this country and in the countries of Europe. Dr. Bowers declares that alcohol is neither stimulant, medicine nor food, and that its use, even in the smaller amounts, works definite, measurable harm to mind and body.

Many thousands of cases of deaths were investigated to arrive at these conclusions. It is this sort of investigation that is making an outlaw of John Barleycorn in so many States and countries.—Kansas City Star.

## SOME USES OF RICE.

Department's Food Specialists Suggest Several Ways of Serving This Nutritious Cereal.

The experts of the Federal Office of Home Economics of the Department of Agriculture have been studying the uses of rice, a food which can be served in many palatable ways all the year, but which seem particularly appetizing in summer.

Boiled rice prepared in southern fashion, so that all of the grains are kept separate, is sufficiently attractive in appearance to justify its slight wastefulness, except, of course, where strictest economy is necessary. Slowly add a cupful of thoroughly washed rice to a quart of rapidly boiling water, which contains 2 level teaspoonfuls of salt. If carefully done, the boiling (which should continue all of the time the rice is cooking) will not be stopped. Stirring is not permitted, as this will break the rice grains. About 20 minutes is sufficient to cook the rice, which can be tried from time to time by taking one or two grains between the fingers. Pour off all the water from the cooked rice, cover with a cloth, and place in a warm part of the stove, so that the grains will swell. To remove the starchy material from the outside of the grains, cooks sometimes turn the cooked rice into a strainer and pour 1 quart of hot water over it before covering with a cloth and allowing to steam and swell. A cupful of raw rice cooked in this way will give over 4 cupfuls of very white and light, boiled rice. The water drained off from the rice can be used in soup making, to save the starch and mineral matter which it contains.

If one wishes to use a fireless cooker, add a cupful of well washed rice 3 cupfuls of boiling water, in which 2 level teaspoonfuls of salt are dissolved. Cook for 5 minutes and then put in a fireless cooker. In 2 hours the rice should be done. If any water remains unabsorbed it can be drained off. Rice varies somewhat in the amount of water it absorbs, and the housekeeper accordingly should vary the amount of water used.

Rice cooked as described above is

excellent when served as a vegetable with meats, as in the well known "chicken and rice." Such uses of rice are particularly wholesome in the period when "old potatoes" are not very palatable and "new potatoes" have not yet appeared in the locality or are high in price in market.

Another dish which has almost as good an appearance may be prepared by cooking rice in a double boiler, without stirring, and using about three cupfuls of water and a level teaspoonful of salt to each cupful of rice. If a more savory dish is desired, skim milk, whole milk, meat broth, strained tomato juice, or vegetable broth may be used in place of water. Rice may also be combined with protein-rich foods, such as milk, cheese, and eggs, for use in place of meat, or with small amounts of vegetables, to make the latter "go further." Of course, such a dish does not contain as much tissue-building protein as if it were made entirely of meat, but when the meat provided ordinarily is generous and the aim is to reduce the cost without lessening the attractiveness of the food, such combinations as well worth trying.

The following recipe for an economical dish made with rice and left-over mutton may prove useful:

### Steamed Mutton and Rice.

4 cups cooked rice.  
2 cups cooked mutton cut into small pieces.  
1 teaspoonful salt.  
Few drops onion juice.  
1 tablespoonful chopped parsley.  
1/4 cup bread crumbs.  
1 egg.  
1/4 teaspoonful pepper.  
Stock or water as needed.  
Grease a mold or a bowl of about 1 1/2 quarts capacity and line with cooked rice. Heat the meat with the other ingredients, using enough stock to make a mixture that is moist, but will hold its shape. Pack the meat in the center of the mold and cover with

the remaining rice, grease the cover of the mold (if a bowl is used, a plate will serve to do so), steam or cook in water enough partly to cover the mold until the contents are thoroughly heated through. Turn on a hot platter and serve with tomato sauce.

The above recipe, it will be noted, suggests the use of bread crumbs instead of flour for thickening, which is often a way of saving bread which might otherwise be wasted, and which is also one way of securing variety, as a different texture results from that when flour is used.

If one finds it convenient, cold lamb, veal, or chicken may be used in place of mutton in preparing this dish.

As the basis of a sweet dessert, rice is always useful, especially so for invalids and little children. If combined with milk and eggs it makes a very nutritious dish, as well as one easily digested. Plain boiled rice, cooked either in water or in milk, and served with a little stewed fruit, maple syrup, honey, or other simple flavor, makes a more wholesome dessert for children than rice puddings or pies, because it is less likely to upset the digestion or to destroy the appetite for simple foods.

Cold rice, particularly that which is cooked so that the grains are separate, is a good addition to vegetable salads, combining well with celery, string beans, and tart apple. If one wishes, some chicken cut in small pieces also can be added.

It is well to remember that when rice is used abundantly in the diet it is particularly desirable to include generous amounts of green vegetables and fruits also, in order that a supply of vitamins and of mineral substance adequate in kind and quantity may be provided.

## Motor News of General Interest

### RANCHING BY AUTO.

The versatile cowboy has already cinched his saddle onto the hood of a motor car and roped steers as readily as from the hurricane deck of a cowpony. Now they are riding fences with autos down in New Mexico. Whether the cowboy will ever come to ride herd with the motor car or cut out calves in the round-up, we do not know. They play auto polo at the fairs, and "what man has done man can do," especially a cowman. We do not imagine that the garage will ever quite take the place

of the remuda, although the motor car will more safely negotiate the holes in a prairie-dog town than will the bronco. A statement of the various uses for the auto which have already been found on the cattle ranch would make interesting reading in this transition period. —Breeder's Gazette.

### FORD FIGURES IN WORK OF CONSTRUCTION IN CALIFORNIA.

A Ford car recently figured in a very spectacular event in Southern California and performed a work which probably nothing else but a Ford could do. Severe storms and floods had washed away six miles of roadway in the Santa Anna Canyon and seriously crippled the mammoth power plant of the Edison Company that supplies electricity to that part of the State.

The only way of reaching the head works—so thoroughly had all roads and means of approach been obliterated—was through a six-foot tunnel which is ordinarily used as a flume to convey the water from the dam down to the powerful turbines in the valley below. Here was a very tough engineering problem, which was finally solved by P. H. Ducker, chief of transportation. He called one of the Edison Company's fifty Fords into service. The Ford was more than equal to the emergency. For thirty days it plied up and down this tunnel, haul-

ing in all 7,200.00 pounds of cement. On the car's very last trip, it caught fire and all the woodwork was destroyed. The Edison Company, however, has had the car rebuilt, in slight recognition of the remarkable and picturesque service which it rendered in their emergency.

### ENDORSES TOURING WEEK.

Walter E. Flanders, president and general manager of the Maxwell Motor Company, Inc., of Detroit, has endorsed the movement for a national automobile touring week, August 6th to August 12th. Manufacturers of automobiles and accessories are co-operating to make this event such a success that it will be a pleasurable annual festivity, and Mr. Flanders looks on it as a healthy sign of the public's growing interest in motor touring. The automobile editors all over the country are giving the movement their support, and the result is widespread publicity of keen interest to motorists.

There is no doubt but that the motorist who uses his car for touring gets the maximum out of it from the standpoint of health and enjoyment. More over, it brings a more intimate knowledge of the country traveled. The automobilist will find beauty spots he didn't know existed within a brief ride of his home.

"This is a movement that deserves the unqualified support of motor car manufacturers and all others interested in the trade," said Mr. Flanders. "I believe it makes for a more cordial relationship between the manufacturers and the public. Besides, the benefit to the industry is obvious. It will instill a larger desire for motor cars in the minds of those who do not own them and it will create that demand at an ideal time for the motorist."

"This is the natural time of the year to buy a car. August, September and October are by far the most enjoyable motoring months of the year. The roads are in the best possible condition and the weather is ideal for touring."

"It is certainly appropriate that a brief season be set aside as a fitting testimonial of appreciation for what the automobile has done to add comfort and enjoyment to the daily life of millions."

"It will be primarily the week of the motor car owners, during which time their thoughts will be especially directed to the great boon the automobile has given them. If the plans of the promoters carry out, every country road will swarm with tourists during 'Touring Week.' Now is the time to get the old car ready or buy a new one, if you intend to take part."

### HINTS TO CAR OWNERS.

A relief cock with a handle that is vertical when the valve is closed is liable to work open if the plug loosens through wear. The best way to remedy such a trouble is to throw out the offending cock and buy a new one with a spring to keep the plug tight as it wears. Another method is to fill the hole in the plug with a piece of brass wire, carefully shaped to the contour of the plug, and drill a new hole in such a position that the handle will be pointing downward.

Do not forget to inspect the steering gear at least once a week. If the steering wheel shows a sudden increase of lost motion, find the trouble immediately. It is probably due to the adjustment of the ball and socket joints coming loose. Look over all the bolts and nuts and see that they are properly secured; not merely tight, but held from turning by split pins, lock nuts or lock washers. Also see that the front wheels are in alignment, i. e., that they do not toe in or toe out. If they do the tires will wear rapidly. Adjust by means of the tie rod that connects the two wheels.

A vital point to watch is the king pin (the king bolt on which the front axle turns), as a serious accident may occur if one is worn through and breaks. Look at them carefully from the front and compare them with other cars until your eye is trained. If they throw the axle down a little they are beginning to wear too much. This sometimes happens to a new car on account of failure of the oil or grease to reach all parts of the pin. Where this trouble is suspected, jack up the axle and try the wheel. If the knuckle shows much movement the pins should be replaced. Do not mistake a loose wheel bearing for a worn king pin, however.

To tell if there is water in the carburetor, draw off some gasoline on the hand. If there is water mixed with the gasoline the gasoline will wet the hand, the water will be repelled and formed into globules, like rain on wet paint. If you draw off all gasoline or all water it will be difficult to tell unless you remember that gasoline evaporates more rapidly than water. Blow on it and you can readily decide. If water is found it must all be drained off.

### This Is The Car That—

Established a non-stop record in Texas, from Fort Worth to Galveston, traveling 421 miles on July 15 between 3 a. m. and 7:15 p. m., without stopping for a single moment the car, the engine or making a mechanical adjustment!

This record was made over the roughest of roads, with deep gullies to make; soft, shifting sands to plow through, and rain-soaked bottoms that would test the traction power of the mightiest of motors. Twenty-one and a half gallons of gasoline were used for the 421 miles, averaging about 20 miles to the gallon of gasoline. The total time for the trip was sixteen hours and fifteen minutes. This record demonstrates what the "490" CHEVROLET can be expected to do in actual service of owners. The car was a stock car, taken from the floor of the salesroom without previous selection, and carried four passengers and their baggage.

What more do you want—what more can you expect, in a car at any price?

Starts Your Liver Without Making Every Druggist in town—your drug—You Sick and Can Not Sallvate.

Every druggist in town—your druggist and everybody's druggist—has noticed a great falling off in the sale of calomel. They all give the same reason—Dodson's Liver Tone is taking its place.

Calomel is dangerous and people know it, while Dodson's Liver Tone is

perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel

today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. —Adv.

**\$100 Reward, \$100**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Mary's King is one of the biggest, smoothest Duroc-Jersey Boars of the breed. He weighed over 600 pounds at 15 months of age. He won second in Junior Yearling Class in Kansas and Oklahoma in 1914. Trace his parentage back and you will find prize winners on both sides. He is siring the kind of pigs everybody wants.

**IRRIGATION PUMPS RUNNING IN THE IRICK COMMUNITY.**

IRICK, July 26.—Farmers are very busy irrigating, but a good rain would be appreciated.

Mr. and Mrs. Ed Smith were transacting business in Floydada Monday.

Mr. and Mrs. J. E. Jackson were shopping in Plainview last Wednesday.

Hardin Jackson and Elmer Wahn were in Plainview Tuesday.

Judge Lam and family, of Ray County, Missouri, are visiting with their son and brother, Fred L. Lam, and wife.

Mr. and Mrs. A. Cooper and family, of Lockney, visited with Mrs. Caaper's parents, Mr. and Mrs. Wm. Mayben, Sunday.

Elmer Wahn was a Lockney visitor Sunday.

Mrs. Ed Smith went to Plainview Tuesday, returning home on the afternoon train.

Mr. and Mrs. Fred L. Lam visited with Mr. and Mrs. Richard Bowman Sunday.

Miss Tina Jackson visited with friends near Alken last week.

Frank Smith called at the B. F. Smith home Sunday afternoon.

Mr. and Mrs. Ben Smith and son, Albert; Miss Lizzie Smith and little nephew and Miss Flossie Jackson, of Lockney, visited with Mr. and Mrs. J. E. Jackson and family Tuesday evening.

**MOUNT VERNON ICE CREAM SUPPER A SUCCESS.**

MOUNT VERNON, Texas, July 25.—Mount Vernon people are not so busy now, as most of the threshing is done and everything is so dry just now that there is nothing doing in row crops.

Our ice cream supper the 15th was quite a success. There were about seventy-five present.

Mount Vernon Sunday School met last Sunday at 3 o'clock, and a contest has been arranged between the young men's class and the senior class of girls. The one that gets the most new additions to the class between now and the third Sunday in August will be entertained by the other class with a picnic at Pioneer Park. You will have to hurry, boys.

Miss Gladys Thomas is at home again.

Miss Lucile Brazile and Miss Clyde Thomas are spending the week end with Misses Mabel and Bill Tie, in Plainview.

For the benefit of the young people, a Y. P. L. Society will be organized in the near future.

H. A. Milner was pleasantly surprised Monday when two of his brothers he had not seen for some years visited him. J. V. Milner and wife and little daughter, Florence, and Mr. Morris and son came from Friona, Texas, in a car. B. F. Milner and A. Watson came from Blanket, Brown

County, Texas. All are very much in love with this country, and talk favorably of making the Plains their future home.

O. Milner and wife and little son also spent Monday night with his father, H. A. Milner. It was quite a reunion of relatives, and not one had the least hint the other was to be there.

Vernon Wright, Claude Fletcher, Mrs. Harp and Miss Berdie Fletcher are spending the week end on an outing, fishing and hunting.

Misses Johnnie and Mary Rodgers spent last week with Stanley and Mildred Dunman.

**HALFWAY LOCAL NEWS.**

HALFWAY, July 27.—Our farmers are very busy plowing stubble.

The drought still prevails, but most every one is optimistic, hoping that enough rain may yet come to make feed stuff.

A. W. and H. M. Withers, of Lockhart, who, with their families, have been visiting their sister, Mrs. G. W. Lewellen, left for home this morning. These people made the trip through in their cars.

Mrs. Tom Stanton and baby daughter, of Plainview, are the guests of the Dye family.

Messrs. Jones and McCarty and their families, of Roaring Springs, are guests of the Dye family.

J. H. Helm left Sunday for Center, Colorado, where he will visit for a week with his father-in-law, Rev. Foley, and accompany his wife, son and daughter home.

Mr. and Mrs. I. J. Helm and son, Frank, left for Bosque County in their Maxwell last Tuesday.

Bryan Dye is employed on the new school house at Olton.

Mrs. William Barrett was quite sick Sunday.

Mrs. J. W. Dye, Mrs. James Dye, Clabe and J. W. Dye, Jr., Kathleen Smith, Mr. and Mrs. John Davis and Misses Edna and Mell Stewart, and others, have been in to Plainview to the Blair entertainments this week.

Wm. Barrett is the proud owner of a new Ford.

Mrs. B. B. Huguley and son, Harry, attended church in Runningwater yesterday.

Miss Almira McComas and Miss Bertie Lee Allen, delegates to the Home Economics Convention at Austin, returned home Friday.

See the Poultry Prices ad. of RUCKER PRODUCE CO. in this issue of The Herald. Bring us your Poultry.

**BAPTIST MEETING WILL BEGIN NEXT SUNDAY.**

The Truett meeting will hold its first service at the big tabernacle, just north of the City Hall, Sunday, July 30th, at eleven o'clock, and will continue two weeks, having two services each day. If you are interested in making Plainview and Hale County still more a desirable place for people to live, attend this meeting every day. We have the banner county for the hog and cattle industry, made so by putting forth our best efforts in this line. Now let us link hands in opening the way for a higher and purer people. If we will only give God a chance in this meeting He will bless us. Man is made in the image of God; then why not live up to our standard?

If you appreciate churches and Christian people in a town or county where your family is, then it's your duty to attend this meeting; but if you should prefer a town and county for your home without Christian influence, then you, above all other men, need to attend this meeting.

Then come, one and all, and hear Truett, the greatest spiritual preacher living today. Free camp grounds will be furnished; free ice water at the tabernacle all the time; the best music in West Texas, and the best and largest choir. Tell your friends that Plainview, the Baptist Church and Rev. I. E. Gates, our pastor, are extending a welcoming hand to all.

**COMMITTEE.**

**CARD OF THANKS.**

I want to thank one and all for any consideration that was shown me at the polls on last Saturday.

—Adv. W. M. JEFFUS.

**TO THE CITIZENS OF THE 13TH CONGRESSIONAL DISTRICT:**

This means is taken to express my deep appreciation of the overwhelming vote tendered me in the race just closed.

To the thousands of men who follow the plow, to the men who work beside the flaming forge, to the railway boys, on whose brave shoulders rests the commerce of this country; to the business and professional men, to the newspaper men, who, without exception, have been generous to me, and to those who toil everywhere, all of whom supported me so loyally, I owe a debt of gratitude that no language can express. It is appreciated beyond measure. I only hope that I may show myself worthy of this magnificent expression of your confidence

and trust. The assistance and support of each and every citizen of this district is earnestly requested, and I pledge the best energies of my life to the people

who have seen fit to call me into their service, and assure you that my endeavors will be alike impartial to the whole district and the whole people. —Adv. MARVIN JONES.

## What's Next?

The election is over. Some are pleased, others are not pleased. The question now is what will be the next big event in the community. As long as none is announced you can't afford to wait to "spruce" up for a special occasion. You should make your appearance your daily concern. On it depends your success as a factor in the community. Every day should find you in the "pink of condition" if you are to be a success among successful men. Better take an inventory of your clothes; there are always some which will benefit by an application of
