PLAINVIEW, TEXAS, FRIDAY, FEBRUARY 23, 1917

REDUCED RATES ASSURED SWINE BREEDERS' CONVENTION

C. DANA GIVES ASSURANCE OF
CO-OPERATION OF SANTA FE
WITH SWINE RAISERS.

50 MEMBERS ARE EXPECTED

Program Includes Best Hog Men in the
Southwest, L. B. Burke, Dr. F. R.
Jones, Tom Frasier, and Others.

Reduced rates on the Panhandle & Santa Fe, Rock Island, Fort Worth and Denver and Texas & Pacific Railways for the Panhandle Swine Breeders' Association, which meets in Plainview, March 30 and 31, are practically assured. C. C. Dana, general passenger agent of the P. & S. F., has agreed to make excursion rates on the Santa Fe lines, and other railways are expected to acquiesce in the request.

Among the men who have been secured to appear on the program are L. B. Burke, Texas A. & M. College; Dr. F. R. Jones, of College Station; Tom Frasier, of Fort Worth; C. C. French, of College Station; G. F. McCracker, of Decatur, one of the leading exhibitors at the Texas State Fair; W. P. Jones, of Childress, president of the State Duroc-Jersey Association; Lon Alexander, of Childress; Major W. J. Puffe, of Claude; Geo. R. Quesenberry and J. W. Pipkin, of Plainview. Others will be added to the list of speakers for the two days.

A conference was held yesterday in Amarillo between members of the Y. M. B. L. entertainment committee and Harry A. Nelson, of Miami, president of the Panhandle Swine Breeders' Association. The formal program is practically arranged. Mr. Nelson says the policy of the program committee is to place no name on the program unless direct assurance has been given that the speaker will be in attendance and be prepared to say something when he comes. Six speakers will be selected for each day, and leaders of discussion of the various topics will follow the speakers.

Mr. Nelson states that he conservatively estimates that one hundred fifty swine breeders will attend the convention.

He is now in communication with H. K. Saunders, of Little Rock, Ark., one of the most successful swine men in the Southwest.

The local entertainment committee plans an automobile tour of the Plainview country on Friday afternoon and a banquet on Saturday evening, to which the citizens of the town will be invited, that they might meet the visitors. The local committee is H. S. Hillburn, Geo. R. Quesenberry, P. J. Woodbridge, W. A. Nash and W. E. Risser.

DR. E. E. ROBINSON TO BE PASTOR METHODIST CHURCH

Rev. J. W. Story Becomes Pastor of
the Methodist Church in
Clarendon.

Rev. J. W. Story, for the past two and a half years pastor of the First Methodist Church, is to become pastor of the Methodist Church at Clarendon. Rev. Story is to be succeeded by Dr. E. E. Robinson, of Amarillo, formerly presiding elder of the Amarillo District. The change is to take place immediately.

These appointments followed a conference yesterday in Clarendon of the bishop and cabinet of the Northwest Texas Conference.

Rev. Story was formerly presiding elder of the Clarendon District, maintaining his residence in Clarendon. He and his family have made many warm friends in Plainview in their stay here. Dr. Robinson is considered one of the strongest pulpits men in the Northwest Texas Conference.

BAPTIST LAYMEN AT SILVERTON.

The Baptist Laymen rendered a program at Silvertown Sunday, and took a collection for the benefit of Wayland College.

Those who went were: C. L. Glenn, G. E. Lewis, T. W. Sawyer, J. D. McGowan, Dave Hammer, Mrs. G. J. Williams and Miss Amy Glenn.

A. G. Hinn was in Amarillo Wednesday on business.

EXAMINING TRIAL OF TOM DUKE BEGUN THIS AFTERNOON

He Was Released This Morning Under
\$500 Bond, Awaiting Examining Trial;
Stant Ray, Bondsman.

Tom Duke, one of the three men held in connection with the burning of the Duke Grocery Store and the Akers' Furniture Store, was released this morning on \$500 bond by Justice of the Peace Earle C. Keck. His bond was signed by Stant Ray. He was to appear for an examining trial this afternoon at two o'clock. When the time for his trial to begin had passed, some apprehension was held by the officers as to whether he would appear. The county court room was packed when he arrived, more than a half hour late.

The examining trial was started this afternoon. The other two men being held, R. B. Duke, brother of Tom Duke, and T. J. Williamson, brother-in-law, will be given an examining trial. District Attorney A. C. Hatchell is here today from Floydada in connection with the cases.

A HALE CENTER YOUTH DIES A VICTIM OF HIS OWN HANDS

Body of Youth, Lee Baber, Who Took
His Own Life, Shipped to
Gilman, Mo.

No reason can be assigned by the friends of Lee Baber for his committing suicide late yesterday evening. So far as can be ascertained, he made no statement of his intention to any friend. He left no note. His friends say that he was not given to despondency.

New improvements have been partially completed at the Pryor place, near Hale Center. Lee left yesterday evening for the new barn to feed the stock. When he failed to return after the usual time his foster parents, Mr. and Mrs. J. H. Pryor, became alarmed, and investigation was made. Lee Baber was found dead, his body dangling from a rafter, and a noose of driving reins was around his neck. His feet were touching the maize heads piled on the floor.

Judge Charles Clements held an inquest, giving a coroner's verdict of suicide.

Lee was a pupil in the Hale Center public school, Miss Lacy Dalton, who recently accepted a position there, being his teacher.

The body was prepared for burial by W. F. Garner, of Plainview, and shipped this morning to the home of the deceased's father, in Gilman, Mo. It was accompanied by Mr. and Mrs. J. H. Pryor, who have reared the boy, his mother having died when he was an infant.

Man Injured When Passenger Train Smashes Into His Car

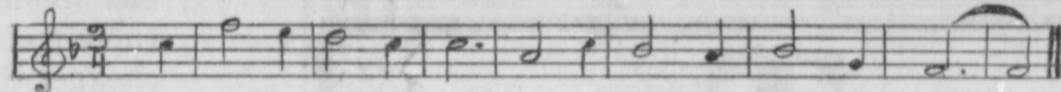

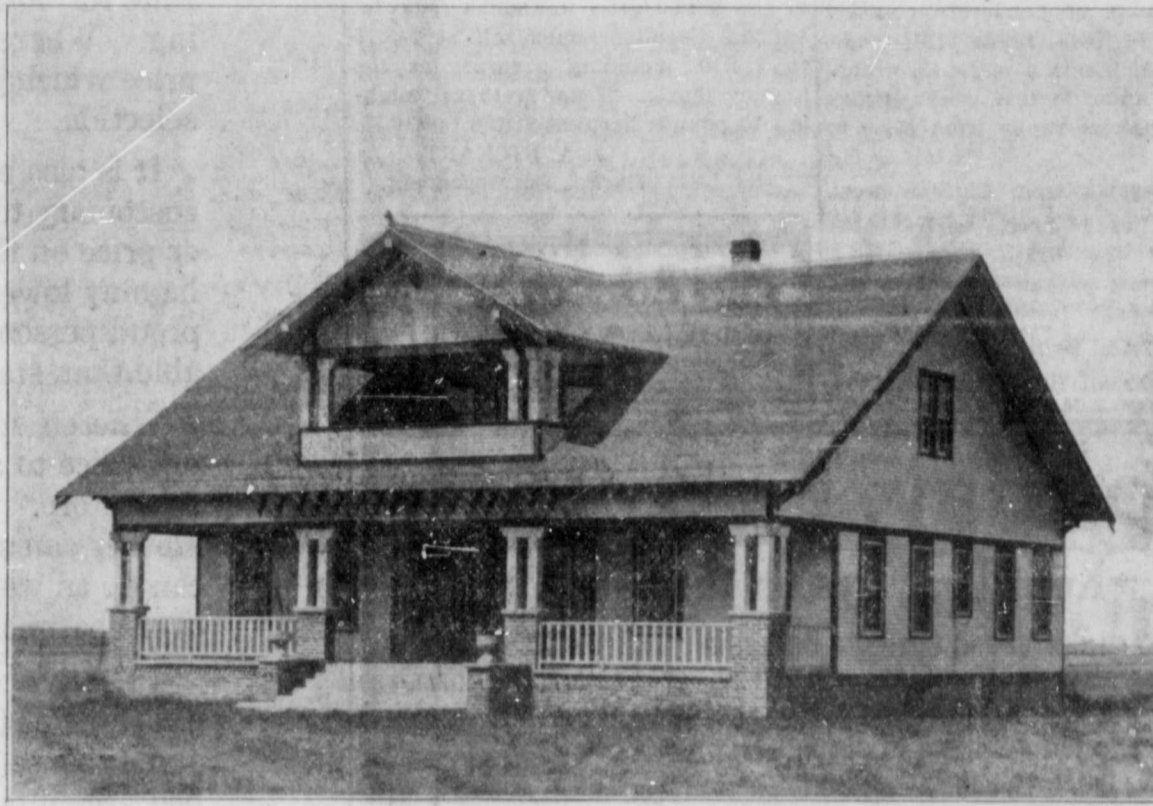

The north-bound Santa Fe passenger train smashed into a Studebaker car Saturday morning, February 24, at the crossing near the home of J. G. Seipp. The driver, who was the only occupant of the car, was placed on the train. It is thought that his injuries are serious. The name of the injured man is not known, but it is thought that he is A. M. Laird, of Pando, Texas. The car was badly damaged.

BILL PROPOSED WOULD MAKE DISTRICT COURT TERM LONGER.

Efforts will be made to secure the passage of a bill in the Thirty-fifth Legislature providing for the lengthening of the term of District Court in the Sixty-fourth Judicial District for Hale County to seven weeks, instead of six, as now prevails. The term of the Floyd County court, which is now four weeks, will be changed to five weeks, under the terms of the proposed bill. The increase in number of cases filed in these two counties has made necessary the proposed changes. The term of Swisher, Lamb and Castro-Bailey County courts will remain as it has been, two weeks. The crowded condition of the calendar of the Legislature may preclude the passage of the bill at this session.

H. S. Avent was in Floydada this morning on business.

Pigs and Prosperity Are Synonymous In The Panhandle and Plains Country

PIGS AND PROSPERITY—GOOD HOMES FOLLOW IN THEIR WAKE.

HOME OF HARRY A. NELSON, PRESIDENT OF PANHANDLE SWINE BREEDERS' ASSOCIATION. MR. NELSON RAISES FANCY CHICKENS, PURE-BLOOD HORSES AND HOGS ON HIS FARM NEAR MIAMI, TEXAS. HE BELIEVES THE SOUTHWEST, ESPECIALLY THE PANHANDLE AND PLAINS COUNTRY, IS JUST ON THE VERGE OF AN ERA OF GREAT PROSPERITY. MR. NELSON WILL BE IN PLAINVIEW FOR THE PANHANDLE SWINE BREEDERS' ASSOCIATION MEETING, MARCH 30 AND 31.

ENJOYABLE WEEK-END PARTY FOR PETERSBURG YOUNG FOLK.

PETERSBURG, Texas, Feb. 19.—Today is like a late fall day—just cold enough for the fire to feel comfortable, and "Old Sol" is trying to drive the clouds away, while the wind is playing hide-and-seek with them.

E. B. Shankle and L. S. Claitor spent last week in Plainview, serving on the grand jury.

Mrs. Marcus Gregory invited the following young ladies to spend the week end with her, February 19th: Misses Maude Pinson, Annie Hughes, Evelyn Claitor, Laura Knupp, Alyce Wiese, Bease Gartin, and Annie Hegl. The girls were having a jolly "hen party," and laughing over the fact of the boys being left out, when a car was heard to stop at the gate. Then the girls rushed up stairs to hide. Soon the room was full of boys, but the girls—where were they? Imagine the disappointment! A search was instituted, which resulted in finding the girls. Then a sure-enough party began. Victrola music, with other digressions, made the evening one long to be remembered. The young men present were Sam Mason, Lillburn Claitor, Oscar Patterson, Carl Thorpe, John Hegl, Fred Wiese and Poe Greer.

The Mothers' Club served lunch at Professor Bull's sale, and realized \$26.40.

The Needlecraft Club met with Mrs. Mat Gregory Thursday, February 15th. Quite an enjoyable afternoon was spent. Mrs. E. B. Shankle and Mrs. Tom Davis were guests of the club.

The Valentine party given by Misses Hughes and Gartin, at the home of Professor and Mrs. Bull, was a surprise to Miss Evelyn Claitor, who was sick the first of the week, was a grand success, and the young ladies were highly complimented on the decorations, contests and life-book entertainment, as well as the two-course lunch. So the birthday of the good old Bishop Valentine was observed by our young people with love and good will.

Rev. J. W. Saffle filled his appointment at the Baptist Church Sunday. Mrs. Davis, mother of Mrs. C. D. Hughes, has been quite sick for the past few days. We hope she will soon recover.

Miss Faye Garrison spent the week end in the L. C. Claitor home.

Ed White, C. D. Hughes, Eb Baird and John Hughes visited in Slaton Sunday.

Miss Annie Hegl took dinner with the Misses Moon Sunday.

Miss Maude Pinson visited her sister, Mrs. Legg, in Abernathy, last week.

ABERNATHY NEWS.

ABERNATHY, Texas, Feb. 22.—The little snow last week was very welcome, but a nice rain just now would please the people.

Nat Jones has just completed his new residence, in North Abernathy.

Rev. J. H. Bone was down from Hale Center Tuesday for a few hours.

Emmet Williams was a business visitor in Lubbock Tuesday.

Mr. and Mrs. W. B. Tudor were visitors to Slaton from Saturday till Monday.

The Woman's Missionary Society will give a Chicken Pie Supper and Social at the hotel Saturday night. They will have plenty of music and other entertainment. Everybody come.

We understand that Abernathy is soon to have a newspaper. Come to Abernathy.

Brower Hannah, of Plainview, spent Tuesday with home folks.

Miss Myram Steward came down Sunday from Hale Center for a visit with friends.

A. E. Pipkin and Charles Smith were business visitors to Plainview Tuesday. Rev. Carver, the new Baptist pastor, will preach at the Baptist Church next Sunday morning and evening. Everybody is invited.

W. H. Thompson and family have returned from a visit to Clarendon.

Professor A. D. Payne is able to be back in school, after several days' absence on account of the measles.

SILVERTON ORGANIZES LOCAL YOUNG MEN'S BUSINESS LEAGUE.

J. W. Pipkin, J. M. Waller and E. B. Miller went to Silvertown Wednesday night to assist in the organization of a Young Men's Business League at that place.

An enthusiastic representation from Silvertown and Briscoe County elected N. L. Ball, president; Dr. Dickinson, vice president; Ed McMurtry, secretary; A. E. Freeze, assistant secretary, and Frank Bain, treasurer. The elected officers were made a committee to submit a constitution and by-laws to the general body at a meeting in Silvertown Tuesday, February 27. It is probable that the rules of the Plainview league will be adopted.

Several problems of vital local interest were discussed.

J. D. Pelphry attended the Buyers and Sellers' Convention and automobile show in Amarillo. The Studebaker dealers of the Panhandle and Plains were the guests at a banquet of the Vaughn Automobile Company, distributors for the Studebaker in this territory.

WEST TEXAS A. & M. BILL SIGNED BY THE GOVERNOR.

AUSTIN, Texas, Feb. 20.—Governor Ferguson today signed the bill creating an agricultural and mechanical college for Western Texas appropriating \$500,000 therefor. The Governor used a pen of Texas gold in signing the bill. The college is to be located west of the ninety-eighth meridian and north of the thirtieth degree parallel, and the site is to be picked by a commission composed of Governor Ferguson, Lieutenant Governor Hobby, Speaker Fuller, Commissioner of Agriculture Davis and Superintendent of Public Instruction Doughty. The numerous western towns which hope to land this prize will now become active in raising bonuses and making attractive offers to secure the college. It is not expected that the locating committee will make any trips of inspection until after the Legislature finally adjourns.

The Governor also signed today the bill creating the John Tarleton Junior Agricultural and Mechanical College, at Stephenville, which is also in West Texas. By the terms of this bill the State accepts the property of John Tarleton College, said to have a value of \$250,000, and in return obligates itself to establish and maintain a junior A. & M. College, particularly to teach agriculture best adaptable to the West and its semi-arid climate and soil. The institution has a student loan fund of \$75,000, which is to be loaned at 5 per cent to needy students on proper terms. It will be the first real students' loan fund in a Texas State institution.

SECOND ACADEMIC DEBATE TO BE HELD AT WAYLAND MARCH 2.

The second of a series of three academic debates will be held at Wayland College March 2, for the possession of the Marvin Jones loving cup. On February 2, the Philomathesian Literary Society, upholding the affirmative side of the question of United States' intervention in Mexico, won from the Euglossians. K. C. Lee and C. R. Smith represented the Philos and Robt. M. Miller and Gus Neil, the Euglios.

The question for March 2 is embargo on foodstuffs. The Philos will have the negative side and the Euglios the affirmative. Philo speakers will be J. A. Covington and J. B. Adams, while Rufus Brazil and Tom Johnson will represent the Euglios. The final debate will be held on March 30.

SOUTH PLAINS LAMBS BRING KANSAS CITY TOP, \$14.85.

Two loads of lambs shipped by Judge L. S. Kinder, from his ranch, were sold in Kansas City Monday for \$14.85 per hundredweight. The lambs

IMPETUS GIVEN PLAN FOR ATHLETIC PARK

HALE COUNTY MAY BE EXHIBITOR
AT TEXAS STATE FAIR; Y. M.
B. L. DISCUSSES PLANS.

RECEIVE 12 NEW MEMBERS

Silvertown Auto Road Will Be Completed in Near Future—Contract Has Been Let.

Twelve new members, J. M. Lipscomb, S. J. Woodruff, J. E. Majur, C. Willard Smith, J. C. Anderson, Jr., J. D. Hatcher, Will Stockton, Jo. W. Wayland, A. M. McMillan, Ross Towery, Caswell Franklin and Carl G. Rosser, were received into the Young Men's Business League last night at the regular semi-monthly session, at the Barker-Winn Building.

In the absence of the president, L. R. Pearson, J. M. Waller, vice-president, presided. There was a good attendance, and interest was manifested in the numerous propositions which were brought before the league.

Professor J. W. Campbell, chairman of the athletic park committee, reported that the committee recommends that the League take up the proposition of an athletic park, to be arranged on the block east of the Lamar School Building, the trustees having granted permission to use the block. The plan of the committee is to erect a seven-foot board fence, lay out baseball, basketball and football grounds, erect a grandstand, and improve the park in an up-to-date manner generally. It is thought that the cost of the park can be met by display bill boards on the fences and by rental of the park. The committee does not bind the League financially in their plan, but will secure men able and willing to finance the proposition. Several members present volunteered to buy space on the fences for advertising purposes.

It was suggested that the League work up a baseball team, and the plan met with general approval, though no official action was taken. The matter of the athletic park is left with a committee, Professor J. W. Campbell, W. F. Garner, M. J. Baird, Olin Brashear and F. F. Hardin.

The committee on arranging for the upkeep of Lake Plainview reported that they were busy and would have a definite proposition to submit to the League soon. J. M. Waller, Dr. J. C. Anderson and W. E. Risser are members of this committee.

The League pledged its support to the committee from the citizens' meeting of the county on the A. & M. College matter, and commended the committee on its work in the interest of the South Plains district.

The League endorsed the Wayland College campaign movement and renewed its pledge of co-operation to President R. E. L. Farmer, who reported that \$25,000 of the needed \$30,000 has been raised. A public meeting will be held Tuesday evening at the Baptist Church to raise the remainder of the money needed.

A report from the conference held in Amarillo Wednesday by members of the Panhandle and Plains Exhibit Association was made by Secretary Z. E. Black, who attended the meeting. Last year, according to Mr. Black's report, ten counties were represented at Dallas. The cost to each for space was \$46.15. This year the State Fair Association agrees to furnish space free of charge. A. W. Read, of Memphis, was appointed as a representative of the exhibit association to go to Dallas soon and make final arrangements for the space necessary. A new executive committee was selected. It consists of Dr. Lloyd of Vega, Porter A. Whaley of Amarillo, A. W. Read of Memphis, A. P. Duggan of Littlefield and Z. E. Black of Plainview. The board will hold its next meeting in Plainview.

Chairman Waller reported for the Silvertown auto road committee that work would soon be started on the highway. The contract has been let. The League is also to co-operate with Clarendon in the extension of a highway from Oklahoma through Clarendon to Silvertown and thence to Plainview.

The sugar-beet proposition was brought up, and several interesting talks were made on the subject. A committee of five, A. G. Hinn, E. B. Miller, Col. R. P. Smyth, M. D. Henderson and Dr. C. C. Gidney, was appointed to handle details of this proposition.

Community Correspondence

GRANDMA BABBITT DIED, AT HILLSBORO, FEBRUARY 16.

LONE STAR, Feb. 21.—Sunday School was well attended Sunday, and good singing was heard. Mr. Estes led.

E. G. Foster and family visited in Canyon and Amarillo last week.

Miss Vera Smith, of Canyon, visited home folks Friday, returning Monday to her school work.

Many of the old settlers were made sad by the news of Grandma Babbitt's death, on February 16. Mr. and Mrs. Babbitt are well known in this county, having lived here many years, and they have many friends in Plainview, who will regret to learn of her death, in Hillsboro. She fell some weeks ago and fractured her hip, from which she never recovered. She was 81 years of age.

Mrs. E. C. Dodson and daughter, Bulah, motored to Canyon Saturday, and were joined there by Virgil and Maire Dodson and visited E. C. Dodson, in Amarillo, where he has been the past few days with a car of bulls, waiting for the sales on the 21st and 22nd of this month.

The singing at Mr. Smith's Sunday evening was well attended and enjoyed by all.

Charlie Huffman and daughter, Edna, visited in Tulla Saturday.

There is many an acre of sod being broken out in this part of the country this spring.

Farmers are nearly through sowing oats and are getting ready for their spring crops.

Mr. Livesay and son, Johnny, were callers in Amarillo and Canyon last Friday and Saturday.

KANSAS CITY STOCK MARKET IN DETAIL.

KANSAS CITY STOCK YARDS, Feb. 19.—Steers lost 25 cents last week, and sold steady today as the decline, cows and heifers and stockers and feeders steady today and not much change from a week ago, receipts 14,000 cattle today. Hogs sell strong right along, the market opening with weak prospects, but quickly getting on a strong basis today, receipts 12,000, top \$12.45. Sheep and lambs made gains last week, but lambs are off 10 to 15 cents today, sheep steady, receipts 18,000 head, lambs \$14.50, ewes \$11.75.

The best natives here brought \$11.10, short-fed steers \$9.25 to \$10.50. About 70 cars of pulp-fed cattle ar-

The Quinine That Does Not Affect The Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of R. W. GROVE, 25c.

rived, of all kinds, best steers selling at \$10.75 to \$10.80, some common steers at \$7.00, cows at \$8.00, bulls \$8.00. Idaho pulp-fed steers sold at \$9.75 to \$10.70 last week, and Arizona hay-and-barley steers brought \$9.75 to \$10.15. Butcher grades sell steady right along, cows up to \$9.00 or \$9.50, odd head of bulls \$9.00, heifers \$10.50, veals \$13.25.

Numerous lots of choice fleshy steers sold at \$10.50 to \$11.10 last week, but market closed 10 to 25 cents lower on them. Stock steers, met a good demand, prices ranging from \$7.00 to \$9.60, common grades slow and weak. Today the feature was the sale of 9 cars of Landergerin coming-threes, from Groom, Texas, 810 pounds, at \$8.85, which sets a mark for pounds-actoins at Amarillo this week. Stock cows and heifers range from \$5.50 to \$9.00.

Lower reports from Chicago were entirely ignored here, early sales steady, and the finish strong to 5 cents higher, top \$12.45, equal to the best price paid last week, medium weights \$12.40, lights \$12.20. Anything with decent finish weighing 230

pounds or up can be counted on to bring the top or within a nickel of it here. Light hogs are coming up pretty fast, getting within 20 cents of the top middle of last week, but dropping back a little at the close. Pigs lost 50 to 75 cents, but a quick recovery is expected on them, while light weights are apt to go still closer to the top. Bulk of sales today ranged from \$11.80 to \$12.40. Shipments from Utah, Colorado, Arizona, New Mexico and Texas sold to good advantage here last week.

Lambs reached \$14.75 last week, but are 10 to 15 cents lower today, and the best here today brought \$14.50, fair to good lambs \$14.00 to \$14.40, clipped lambs around \$13.00, yearlings \$13.00 to \$13.50, ewes today at \$10.50 to \$11.75, the latter a new high top, some of the \$11.50 ewes in Omaha today at \$11.30. Feeding lambs sell at \$13.70 to \$14.30, including shearers at the higher figures. Texas wethers weighing 70 pounds brought \$10.50 to \$10.75.

"The Advantages of Trading at a One Price Cash Store"

"One price to all is the only way to do business—it saves time for both the clerk and customer by eliminating bargaining. Where one price prevails the clerk has only to name the price which gives the customer more time to concentrate on selection.

It is also a saving to a timid or proud person. If it is customary to cut the prices, the merchant has to place a higher price on the goods than he expects to receive in order that he may lower the price and still make a profit. The timid or proud person would rather do without or pay more than he is able than stand and bargain with the clerk.

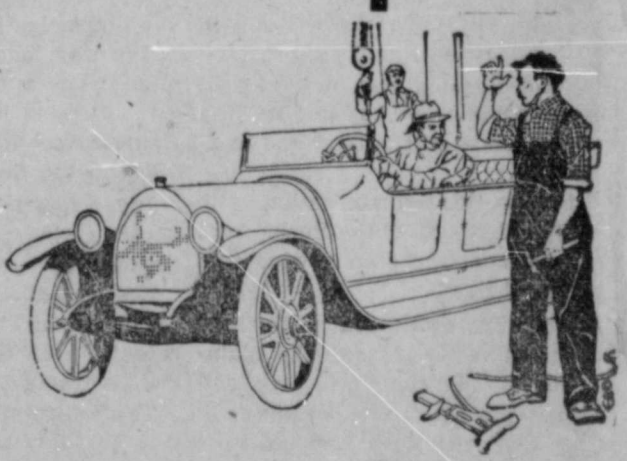

Where a merchant puts a fair price on his goods and has one price to all, the people in general have more confidence in that store. Another important advantage is that the busy mother can send her child to shop for her and know that he can do as well as she, and rest assured that he will not be over-charged.

The advantages of a Cash System are that it cuts down the expenses of the store by eliminating so much bookkeeping and expense of collecting. It also saves loss to the store from bad accounts which invariably follows a credit system. For these reasons the store that sells for cash can afford to sell cheaper than the store that sells for credit, making a saving for both the store and the customer, to say nothing of the friends made by the store in avoiding hard feelings over disputed accounts."

The above by Miss Gladys Stovall awarded first prize by Mrs. Dye, Mrs. Jo Wayland and Mrs. Elmer Sansom.
Second prize to Sadie Earle Adams.
Third prize to Leslie Bruner.

The P. & O. No. 111 Lister

This lister is known to farmers wherever sold as P. & O. No. 111, but the improved type is called No. 111 on account of important improvements.

There are more of them in the hands of farmers than all other makes combined,—over 2,000 sold by one dealer in one county in West Texas. The special features on this Lister made it deserving of its immense sale. Its use is not confined to preparing for row crops; it is now almost universally used for plowing for small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soils of the West from blowing away.

The adjusting link on front end of beam is an important exclusive feature of the No. 111, absolutely preventing the point from running below the desired depth. The wheels are provided with dust-proof boxes, an immense help in the sandy loam lands of the West. The feeding device absolutely deposits only seed at a time of any of the row crops, besides can be equipped for both corn and cotton. You will have to see this wonderful improvement to appreciate it. The tilting hoppers allow change of plates without emptying them. Furnished with either disc or shovel covers. This Lister embodied many other important features that will convince you that it is the best on the market.

The P. & O. No. 123 4-Wheel Lister

This lister has all the advantage of the No. 111 and in addition has rear wheels. This is desired in many localities as it enables the operator to see the seed as planted. The rear wheels have cushion springs to hold them in line with the row and following the unevenness of the ground and conform to the ridge without straining the rear frame, compelling also, the Lister to remain in proper working position at all times. The friction lock disengages automatically, allowing the wheels to castor and turn round in a very small space.

We manufacture the most complete line of Two Row Implements on the market. Ask your dealer and if you cannot be supplied through him, write us for circular and special introductory offer.

DALLAS, TEXAS

The Man from the Country

An Excerpt From an Address Before the Rural Life Conference of Missouri by Dr. Harry R. McKeen.

and the best school.

The second reason is for the sake of the country. In saying that I am saying nothing derogatory of those who have already labored and served and loved in these great rural districts. As I travel from state to state and see what has already been accomplished, I stand amazed at the wonderful things that have been done. Despite all that has been done in the days past and gone, however, it is going to take the greater man and the greater woman to carry on the work of the great rural districts in the future.

In the olden days land was cheap. If one bit of land was worn out it was easy to move to another, and thus our forefathers wandered from place to place, until finally the tide of emigration turned backward, and we are being compelled to improve the lands that have already been gone over.

It is going to take a greater man in the great rural districts tomorrow to farm than it took in the days gone by. The farmer of tomorrow must understand soil; he must understand crops and crop rotation; he must understand the great problems of agriculture that have been discussed here at Missouri Farmers' Week.

Rural civilization is becoming more

and more complex. Not only must we increase our production, that the world may be fed, but we must devise the means of marketing this product. Today we have 100,000,000 people. In the tomorrows we will have a thousand million, and that thousand million people must be fed—and you people in these great rural communities are to feed the world or see it starve, and the rural village merchant is to be the distributor.

It is rather an alarming fact that, during the decade closing in 1910, the population of this country increased 21 per cent and the increase in agricultural products was only 10 per cent. This is worthy of our closest attention.

The villages are the trading centers of these rural communities, and responsible for the distribution of the products of the soil to the world. And thus there is an added responsibility both to the man who produces and the man who distributes the products of the soil to the world market.

Therefore, we want the best homes, the best churches and the best schools in these great rural communities of ours—first, that when our children go to the city we shall have laid a foundation in the lives of these young men

and young women in such a way that when they do go to the city they will be able not only to withstand the temptations of the city, but become constructive factors and forces in building the city's civilization.

Second, we must have the best home, the best church and the best school in these rural districts for the sake of the country community.

I am coming to read my history from a new angle. I find that the nations rise and fall just in proportion as they have great rural civilizations.

Turn, if you will, to Rome, and we discover that Rome fell, not because Nero fiddled, but because her farmers left the soil and placed slaves there, so that when the Goths and Vandals came from the north no one deeply interested was there to resist their advance. And thus we find that giant civilization crumbling because the rural people had failed.

Now the question that arises in your minds is: Can these conditions be improved? Can we build a great rural civilization? Can the decline that is already come be regained and we go on to greater and greater things?

I can best prove to you that this can be done by citing several practical illustrations of what has been accom-

plished. I wish you could have gone with me over the 20,000 miles that I traveled last year and have seen a little church struggling upward here, a county superintendent leading his teachers and working on these problems; have seen a teacher here and there establishing the things Mrs. Cora G. Lewis brought to you tonight, and wish you could have caught a glimpse of Kansas, Missouri and in Arkansas, wherever I have been, gradually the heaven is beginning to work. Things are slowly but surely becoming better. I will take time to tell you the story of the work done by Mathew Brown McNutt, of Illinois.

Mr. McNutt took a little, discouraged rural church and in a period of twelve years led the congregation from one of the most discouraged and disheartened to become one of the best communities in America. Mr. McNutt accomplished this by getting in touch with the young people in the community first by means of a singing school. It was only a step from a singing school to a literary society, the Young People's Society and the Sunday School of his church. Then he got in touch with the older people of his

(Continued on Page Four.)

A Miracle of Performance

The Hupmobile Again Demonstrates Its Marvelous Efficiency in the 20,000-MILE "UNITED AMERICA" TOUR

The "proof of the pudding is in the eating." One can't go behind the records, and the record made by this sturdy, staunch reliable Hupmobile, in the most severe test that has ever been put on a motor car of any make, has been so wonderful—so amazing—that automobile men all over the country are asking: "What is it in the Hupmobile—what particular quality or feature—that is responsible for such marvelous performance?" The answer lies in these three things: Absolutely correct principle and design; painstaking and careful mechanical construction, and the best materials that can be put into an automobile.

The "United America" Tour was conceived in the interest of better roads throughout all sections of the United States. The Hupmobile used was donated for the purpose by J. Walter Drake, president of the Hupmobile Corporation, and C. E. Salisbury and G. R. Lipe were the drivers selected to make this remarkable tour. All State capitals were to be visited and the car, with the two drivers and William Krohne, camera-man, left Washington, D. C., on the evening of August 28th. Since that date 14,230 miles have been logged, 36 capitals have been visited, all sorts and conditions of roads, good, bad and indifferent, have been

traversed. From the time when the car was sent away from Washington by United States Good Roads Commissioner Page until the present, it has had every sort of road experience that America can furnish. It has traveled the polished, finished boulevards of the North and East; it has trekked the sand wastes of the Great American Desert; it has been, at times, 153 miles away from the nearest telephone or gas station; it has been 50 miles from water; it has purred unceasingly in the rarified atmosphere of the Rockies and throbbed uncomplainingly in the lowlands of the South. Not once has it faltered. Not one single defect has appeared. Beyond a minimum amount of tire trouble, and the few necessary road adjustments, absolutely no work of any character has been necessary. It has come through its Gargantuan labor with an absolutely perfect score. It has made a record that no motor car, irrespective of cost or of any other consideration, can hope to surpass. It has made automobile history and has forever established as a fact the contention of the Hupmobile engineers that the properly designed, high-speed four-cylinder motor can not be surpassed in performance by any other design of motor known to the automobile world.

Any "Hup" Can Do Likewise

Every motor made and sold by the Hupmobile Corporation is capable of performing this same feat, for Hupmobiles are "consistently good." There is no such thing as a "poor Hup," for the factory inspections are so careful, and so thorough, that it is quite impossible for a poor car to get out into the service of an owner.

More than 50 per cent of all Hups made are sold to those who have already owned and driven Hups and know exactly what they are getting. Could there be a more wonderful proof of quality?

A Stock Car All Through

The car used in this test was, in every detail of design, construction and equipment, a stock Hupmobile. Even down to the tires regular equipment was used. Not a single "special" equipment or even adjustment was furnished or made for this great test. The car is exactly like the ones now waiting, at our showrooms, to prove to you maximum luxury and convenience in this "best medium-priced car in the world." We are simply stating facts when we say that we could take any car in our establishment and duplicate this marvelous record.

Let Us Show You—Today

We are anxious that you see, and know, and come to appreciate the wonderful efficiency of this great automobile. We want you to take a ride in it—to drive it—to put it through the most severe test you can think of. We promise you in advance that it will come through with flying colors, but we are willing, even anxious, to let you be the judge. Come in today and let us show you, or phone and we will come to you—any place you may suggest. Our idea is this: If we can have an opportunity of demonstrating the Hupmobile to you before you buy another make, you will certainly buy a Hup. Its superiority is so plain that any man—or any woman—can see it immediately.

5-Passenger Hupmobile \$1260 Delivered 7-Passenger Hupmobile \$1440 Delivered

In addition to selling the Hupmobile we have taken the distribution of the SCRIPPS-BOOTH—THE CAR OF COMFORT, ELEGANCE, BEAUTY and EFFICIENCY. The very car you have longed for. It's here for your inspection. The price delivered is \$995.

THE MAN FROM THE COUNTRY.

(Continued from Page Three.)

community, and that community became an efficient one, and it stands now as one of the most notable of country communities in this great rural movement.

I would also like to tell you in detail the story of the work accomplished at Sargent, Neb. In this community were three little bits of churches. The buildings were of the store-box type, membership small and competitive.

You have seen this store-box type of church scattered all over the country everywhere. If you go into some of them you absolutely have to shut your eyes if you want to worship Almighty God, because you wouldn't see anything conducive of real worship.

The church people of this community came to realize that conditions were not just as they ought to be, and determined, so far as possible, to make a change in the situation. So two of the churches agreed to unite their congregations, and all but seven of the third church threw their force and power with the united church. (I think that when these seven go to heaven they will ask Almighty God to fence off a little calf pasture for their own benefit.)

What is the situation now? This community has a church that cost them \$17,500, complete from cellar to garret. It has an auditorium that seats about 800 people. It has a Sunday School room for each and every class, a magnificent gymnasium in the basement, and assembly halls, parlor and rooms for the accommodation of the entire community. The membership of this church went from 123 to 460, and its influence has extended out, not only throughout its community, but throughout the entire county, and has become one of the strong factors for the building of that section of the State of Nebraska.

Or I would tell you the story of the work done by W. E. Halbrook, in Central Arkansas. If such work as this can be done in a little backwoods community of Arkansas, what can't we do in these larger and better communities of some of the other states?

One Sunday morning about fifteen years ago a little bit of a lad sat and heard a preacher talk on the subject of education. He broached the matter to his father, and his father was opposed to his getting the education, and said to the lad:

"What would you do with an education if you had it?"

The lad was determined, and that fall he walked out of that community, with his worldly goods in a small package, went into Tennessee and entered a normal school. At the end of three years he graduated with honors. On the day of his graduation one of the great cities of Tennessee offered him

a position as principal of one of its schools. He was tempted to accept this, but thought of his brother and his father's neighbors' children in the mountain district. He said:

"Gentlemen, I thank you for the honor, but I must go back to the mountains."

Back he went. He became the teacher of a little log-cabin school house in his own community. At the end of two years he was supervisor of four log-cabin school houses. Then came the need of a high school. He talked the matter over with the patrons of the schools. They said: "We don't need any high school. Our young folks are getting education enough now, and don't need any higher learning. Education will take our young people away from our homes and out into the cities."

"The very fact that you feel that way about it is the strongest argument as to why you ought to have a high school," was the reply.

The question was voted on and turned down by a vote of about five to one. But Mr. Holbrook was determined the school should be established. One of the lumber companies became interested, and told him if he and his young men would get the timber out of the mountains they would give the lumber. Led by the teacher, these young men went out into the mountains; they cut the timber, some of it in such inaccessible places it had to be lowered into the valley by means of a block and tackle. They hauled it to the mill and with their own hands

planed the lumber and builded one of the most beautiful little high school buildings I have ever seen—not beautiful in the way of architecture, perhaps, but beautiful because of its product!

Many times when I go into communities men take me in their autos or walk me about the community to show me magnificent schools, a splendid church, or their beautiful library. These are wonderful in their way, but I prefer to be shown the products of these institutions. The question is not what kind of a building do you possess, but what are the products of that institution?

We are making a living that we might make a life. Life is more important than the living, though the kind of living helps shape the life. Across the platform of the Choctaw school have gone in ten years one hundred and fifty-five graduates. These may not have gone out into the world as teachers, preachers, doctors, lawyers, bankers and business men, but, to my mind, the most splendid part of it is that the majority of the graduates of this school have gone back to their own rural communities and are there investing their lives to good advantage in community development.

The tragedy of rural life today is that the most of these splendid young men and young women going into our educational institutions are going out into the great centers instead of returning to give their trained minds to the development of the community.

GIVING FOR EDUCATION.

Of all the things that a man can do, in our opinion, one of the most lasting monuments to his name can be established by giving to promote the right sort of education.

We take this opportunity to congratulate our neighbors, the people of Hale County, upon the work they are carrying on just now in raising \$30,000 for Wayland Baptist College. It is reported that more than \$23,000 of the amount has been raised. It is understood that if Hale County secures the \$30,000 the school will receive another \$30,000 from the Executive Board of the Baptist General Convention. Too much cannot be done for education,

especially the kind that Wayland College is helping in.—Amarillo News.

L. M. Faulkner and wife left yesterday for a visit at El Reno, Oklahoma.

We are now carrying a complete stock of parts for Chevrolet Cars. We are prepared to do your overhauling job on any car. We re-grind cylinders and fit them with new pistons, rings, etc. When you need tires or tubes, remember we carry a full stock of the Goodyear, Plain, Non-skid and Cord Tires. We carry a complete stock of parts for Chevrolet Cars. We repair and re-charge storage batteries, repair starters, generators and magnetos.

PASS NEW FEDERAL JUDGE FOR WEST TEXAS BILL.

WASHINGTON, D. C., Feb. 19.—The House today passed the Culberson bill, amended to give an additional judge for the Western District of Texas, which will be agreed to in the Senate. The Senate bill provided for creating a new district in the West, but was not accepted by the House committee. It is provided that the new judge, who shall have his residence in El Paso, will be named by the President.

Representative Garner secured passage of the Culberson bill making Wichita Falls a court town in the Northern District of Texas, with two terms of court annually, the first Monday in March and the third Monday in November, with stipulation that the local authorities shall furnish accommodations without cost to the Government. The Wichita Falls division will include the counties of Archer, Baylor, Clay, Cottle, Foard, Montague, King, Knox, Wichita, Wilbarger and Young.

It is understood that the additional judge for the Western District also will be employed to relieve the congestion of business in the Northern District, and his tour for holding court probably will include Del Rio, Pecos, El Paso, Amarillo and Wichita Falls.

MARY PICKFORD, "America's Sweetheart," in "The Pride of the Clan," Tuesday and Wednesday, February 27 and 28, at THE OLYMPIC. 1t.

FORMER SHERIFF ANDERSON NOW ENDORSES TANLAC.

Prominent Houston Man Says "Money Could Not Buy the Good It Has Done Me."

"Money could not buy the good Tanlac has done me, and I gladly recommend it for what it has done in my case," said Hon. Archie R. Anderson, of Houston, Ex-Sheriff of Harris County, a few days ago.

Mr. Anderson needs no introduction to the people of Texas, as he is unquestionably not only one of the best known, but one of the most popular men that ever held public office in "The Lone Star" State. After serving as Deputy Sheriff of Harris County for 12 years, Mr. Anderson was elected Chief of Police of the city of Houston. He had occupied this office only a short time when the Sheriff of Harris County died. Mr. Anderson's friends then persuaded him to make the race for the unexpired term of Sheriff, to which he was easily elected. He was honored by re-election seven different times, and served the people in this important office for 15 consecutive years. Four years ago Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston, and is a large

property owner and foremost citizen of this interesting and prosperous city. "I was in a run-down condition," continued Mr. Anderson, "and had no appetite at all. I could hardly sleep at night, and never felt like getting up in the mornings. I was so tired. I had the worst form of indigestion, suffered all the time from gas on my stomach, and was continually belching up undigested food. I had to take my coffee without sugar, as when I drank it with sugar I would just belch for hours. I would bloat and swell up like I was poisoned, and suffered with neuralgic pains of the worst sort, and nothing seemed to help me only in a temporary way. I just can't tell you how I did suffer for the past four years and up to the time I began taking Tanlac, a few weeks ago.

"When I read the testimonials of some who had been relieved of troubles like mine, I just felt like I couldn't make a mistake by taking Tanlac, and it has done even more for me than I had expected. I began to feel better after taking my first bottle, and have just now started on my third, and I'm a different man already. I sleep like a log now and eat just any and everything I want without the slightest discomfort afterwards. I am glad to endorse Tanlac, because it does the work, and I'm telling all my friends just what I'm telling you. I never felt better in my life than I do since tak-

ing Tanlac. I am willing for you to publish my statement and let every suffering person who may wish benefit by my experience with this great medicine."

Tanlac is sold in Plainview by Long-Harp Drug Co.—Advertisement.

Keeps Your Stove Shining Bright

Gives a brilliant glossy shine that does not rub off or dust off—that remains on the iron—that lasts four times as long as any other.

Black Silk Stove Polish

Is in a class by itself. It's more carefully made and made from better materials.

Try it on your parlor stove, your range, or your gas stove. If you don't find it the best polish you ever used, your hardware or grocery dealer is authorized to refund your money.

MISS WEST OF CARTER-HOUSTON'S TELLS OF STYLES FOR SPRING.

Miss Elizabeth West, who returned Tuesday from Eastern markets and a week's training at the Kabo Corset School, in Chicago, reviews in the following interesting manner the styles which are being shown for the spring of 1917:

"High colors and sport styles prevail this season, and are perfectly beautiful to look upon. For the lady who has grown tired of the dull shades of the past several seasons, there are many bright colors to choose from.

"The word 'sport' seems to apply to outdoor and indoor wear alike, for sport styles are used for morning, street and afternoon wear, and beautiful creations we have, too.

"Spring suits are made of a variety of materials, including serge, poplin, poret, twill, velour and jersey, in both wool and silk, as well as crystal cord, taffeta, khaki kool shantung, and silk populin; and even crepe de chine is shown very prettily made into suits and suit dresses. All of these are shown in the shades of apple green, chartreuse, oyster, gold, magenta, navy, grey, tan, bisque and rookie.

"For dresses, Georgette crepe for the more dressy wear is very strong, while crepe de chine, taffeta and khaki kool are all used to a great degree, as well as the many stripes—praisley effects, polk dots and Chinese designs in different materials. The designs cannot be too large nor too bright for the spring season. Many beautiful touches of hand embroidery and beads are used. Dresses are made up in a combination of materials, oftentimes.

"The coats of this season range in length from the short sport coat of 24 inches to what is called the coat dress, which can really be used as either a dress or coat. Coats are in beautiful shades and styles and colors, and run about the same as suits.

"Waists are very pretty of Georgette, chiffon and crepe de chine, and there are many touches of embroidery or beads as trimming. Many are made

entirely of Paisley chiffon; in fact, Paisley effects are shown in dresses, waists, hats, bags and skirts. While some are made entirely of it, others have only touches. Many of the new separate collars have touches of Paisley. The new bags are also of Paisley leather.

"Many silk skirts are being worn of both plain and striped silks, as well as the Chinese design. Often the skirt is pleated all round, with big pockets of every shape. The barrel skirt is a new one, and if not made narrower at the bottom often the pockets are put on in such a way at the hips as to give the barrel effect. The suit dress often has a white skirt of khaki kool, silk or wool jersey, with the coat of a contrasting color, while, again, the skirt will be trimmed around the bottom with a band to match the coat.

"A lady's wardrobe is hardly complete without either a suit or a suit dress on her list. There are so many styles in the suit effect! The separate coats have many styles of big collars.

"Boots are shown in both two-tone and solid-color effects, while pumps with hose to match the dress promise to be good as the season advances.

"Parasols are very pretty, and carry out the sport idea that so much prevails.

"In fact, every woman ought to be pleased this season, no matter how

"GOODS THAT SPEAK FOR THEMSELVES"

Spring's Latest Silk Dresses

Our Spering Dresses for afternoon wear will appeal to the most exacting tastes. They are extremely rich in fabric, developed in quiet colors and along simple lines. We are not showing the fussy, gaudy dresses which so soon become conspicuous and of which you tire so soon.

These Dresses sell for \$12.50 and up

Why Not Let Herald Want Ads Work For You?

Here is what Mrs. Austin Vaughn of Abernathy, Texas, says of a want ad which cost her 69c:

"Abernathy, Texas, February 9th, 1917. Plainview Evening Herald:

I had such good results from the ad I put in your paper about my chickens am sending another. I sold all I had to spare through the ad. I want these two put in two weeks each. They come to 46c each insertion and two publications of each will be 92c. Am enclosing check for same, and oblige.

MRS. AUSTIN VAUGHN."

Ask anyone who has used Herald want ads what he thinks about their pulling power. The fact that you see the same advertisers coming back with more want ads is a mighty good indication.

EGGS from choice stock full-blood S. C. Brown Leghorns, beauties, \$1.00 for 16. Also eggs from beautiful White Pekin Ducks, 50c for 12. MRS. AUSTIN VAUGHN, Abernathy, Texas. Tues. 2t-pd.

FOR SALE—Young broke work mules and mares. See R. W. VANDERLICE or TOM THOMPSON. Feb. 22-pd.

We work only experts in our Repairing and Refinishing of Furniture. HANDY MAN'S SHOP. Phone 475. tf.

FOR RENT—Two newly papered rooms for light housekeeping. Second door north Herald Office. tf.

WANTED—To plow large tracts. Can complete contracts promptly. Work thoroughly and quickly done. Advise me at once, so that I may complete spring plowing schedule. BOX 416. 2t-pd.

FOR SALE OR TRADE—Five brood sows, subject to registry, and 20 shoats, weight 50 to 80 pounds. MRS. CORA STEVENS. tf.

FEED.

Try Rice Bran and Rice Polish, the best and most economical feed at prevailing prices. D. F. SANSOM & SON. tf.

We renovate Feather Beds. Have them cleaned before you put them away in the spring. HANDY MAN'S SHOP. Phone 475. tf.

WANTED—To plow large tracts. Can complete contracts promptly. Work thoroughly and quickly done. Advise me at once, so that I may complete spring plowing schedule. BOX 416. 2t-pd.

HOGS for sale. G. L. HOFFMAN, one mile east of Seth Ward. 1t-pd.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making Every druggist in town—your drug-You Sick and Can Not Salivate.

Every druggist in town—your druggist and everybody's druggist—has noticed a great falling off in the sale of calomel. They all give the same reason—Dodson's Liver Tone is taking its place.

Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. —Adv.

WHAT IS LAX-FOS
LAX-FOS is an improved Cascara (a tonic-laxative) pleasant to take. In LAX-FOS the Cascara is improved by the addition of certain harmless chemicals which increase the efficiency of the Cascara, making it better than ordinary Cascara. LAX-FOS is pleasant to take and does not gripe nor disturb stomach. Adapted to children as well as adults. Just try one bottle for constipation. 50c.

Cold Days Require Coal
Why is it that some folks always delay their coal buying and the installing of their stoves until the last minute when every member of the family has run the risk of serious cold or pneumonia and until all of the coal and stove dealers are so busy they cannot give the best service? Surely the wise man will not be caught in a blizzard with his coal supply not yet laid in.
We have the supply of coal, we have the prompt service, and the prices are lower now than they will be when winter gets here. Isn't it good health insurance, isn't it good business, isn't it the sensible thing to do to place your order now?
Just phone us at 162 and we will do the rest.
ALLEN & BONNER

SMASHING CLEARANCE SALE OF BANKRUPT DRUG STOCK

We have purchased from the receivers the drug stock of the J. W. Willis Drug Co. and while a single article of the old stock remains it must go at a price which is so far below cost that it can't stay on the shelves or in the showcases.

Everyday Necessities Sacrificed Without Regard

We have paid no attention to what things you need every day should bring us. The only thing we want is to get them out of the store. If you can get anything like the values we offer don't, don't bother to read further; you won't be interested. But if we can convince you that the prices below are based on values almost unheard of, keep reading, for you will be the one to gain.

Everything Must Move! It Makes No Difference About the Price!

We expect to start business in the storeroom formerly occupied by Willis Drug Co. with a clean, new stock of Drugs and Drug Sundries. We don't want the old goods in the house, and won't have them. Now, by "old goods" we don't mean worn-out, worthless articles. There are some goods that are not worth retail prices; these we have cut to the quick—in fact, we are practically giving them away at way below cost and way below their worth. There are other articles as good as new which couldn't be bought wholesale today in large quantities at anything like the prices we are offering them to you.

Every Article in the Store Reduced—Nothing Reserved

Understand clearly that this is not an attempt to get rid of a few undesirable lines, but it is a bonafide CLEARANCE SALE—where every article in sight and out of sight is cut to pieces on price. We can't enumerate the entire stock here, but the prices given will indicate that we mean business in moving this stock out where the people can use it, at prices which they can't afford to let get by.
