Official Paper of the City of Plainview.

TWICE-A-WEEK

Official Paper of the County of Tarrant

VOL. 28. NO. 43.

PLAINVIEW, TEXAS, TUESDAY, JUNE 12, 1917

## PRESIDENT'S MESSAGE PRAISED BY ENGLAND

### GREAT BRITAIN TELLS RUSSIA THAT OBJECT IS TO LIB- ERATE OPPRESSED.

## APPROVES WILSON'S STAND

### Purpose at Outset Was to Defend Country and Enforce Respect for International Law.

LONDON, June 11.—The Russian government's request for a statement of the British war aims was answered by Great Britain in a note to Petrograd of an approval and support of the principles which President Wilson of the United States laid down in his message to Congress.

Following is the text of the British note:

"In the proclamation to the Russian people enclosed with the note it is said that free Russia does not purpose to dominate other peoples or take from them their national patrimony, or forcibly occupy foreign territory. In this sentiment the British government heartily concurs. They did not enter the war as a war of conquest; they are not continuing it for such object. Their purpose at the outset was to defend the existence of their country and enforce respect for international agreements. To these objects now have been added that of liberating populations oppressed by alien tyranny.

### Wants Poland Liberated.

"They heartily rejoice, therefore, that free Russia as announced her intention of liberating Poland, not only Poland ruled by the old Russian autocracy, but equally that within the dominion of the Germanic empires. In this enterprise the British democracy wish Russia God-speed.

"Beyond everything we must seek such settlement as will secure the happiness and contentment of peoples and take away all legitimate causes of future war.

"The British government heartily joined with their Russian allies in their acceptance and approval of the principles laid down by President Wilson in his historic message to the American Congress. These are the aims on which the British people are fighting. These are the principles by which their war policy is and will be guided.

### Ready to Revise Treaties.

"The British government believes that, broadly speaking, the agreements they have from time to time made with their allies are conformable to these standards, but if the Russian government so desires they are quite ready with their allies to examine and, if need be, to revise these agreements."

## GOVERNMENT OFFICIALS ON TRAIL OF SLACKERS.

WASHINGTON, D. C., June 11.—The period of leniency ended tonight for men between the ages of 21 and 30, inclusive, who failed to register for the war army last Tuesday. Provost Marshal General Crowder sent to the governors of all he states a message asking them "to inaugurate from tomorrow a vigorous and effective enforcement of the laws of the selective service for all who have by their failure to register brought themselves under those provisions."

The penalty for failure to register on June 5 is imprisonment for a year and enforced registration, but General Crowder immediately after registration recommended that local registration boards provide for delinquents.

### To Release Those Arrested.

The Department of Justice today notified U. S. attorneys to release those already arrested for failure to register providing they now have General Crowder has nearly completed a draft of regulations to govern exemption boards, and expects to lay it before Secretary Baker in a few days for approval. The general believes no class could be exempted as such, but that local boards should decide on the individual case. He favors use of some device, such as a jury wheel, for drawing the names of those to be examined by the exemption boards.

## CITY ENGINEER IS COMING.

Henry Elrod, of Dallas, who represents Plainview as city engineer in the paving construction, is expected to be here within a few days to handle business matters in regard to the street paving.

## New York Dentist Kills Wheat Smut by New Experiment

Dr. E. J. Johnston, of New York, who gets tired of jerking teeth in New York now and then and invades the Plainview country to do some irrigated farming, says that he believes he has discovered the method of exterminating smut. He is not certain that the theory advanced is an established fact, but he holds no doubts that the treatment has been successful on his farm.

Dr. Johnston says that on the theory of the use of compound oils in spraying methods in California and the oil dip treatment here for hogs, he started to do away with the smut in the same manner. He introduced oil into the well, and the water containing the oil seem to have killed the smut. Dr. Johnston wants it known that he is a firm advocate of the new experiment.

## Santa Fe Adviser Advocates Extensive Hog Industry Here

"The development of the hog business in Hale County has grown far above my expectations," said Avery Turner, Santa Fe adviser, who was in Plainview yesterday on business. "Years ago," he continued, "I saw that the hog business was the salvation of this part of the country, and I gave my earnest and hearty support to every movement to bring about a more efficient and extensive hog cultivation in this country."

Mr. Turner was the first man to realize the possibilities of the hog industry in this part of the country, and he has always been a strong advocate of hog raising. It was through Mr. Turner's urgent efforts that the packing house in Amarillo was established.

## FARMERS MAY SAVE GRAIN BY EFFICIENT HARVESTING.

WASHINGTON, D. C., June 12.—Conservation of grain through efficient methods of harvesting, including stacking wherever labor conditions permit, is recommended to farmers by Assistant Secretary of Agriculture Carl Vrooman in a statement issued today.

"The nation needs every head of grain that can be raised this summer," declared Mr. Vrooman. "Effort must be made to save every ounce of wheat, oats, and rye at the harvest. Each year hundreds if not thousands of bushels of grain are ruined in regions where mid-summer rains occur, because it is allowed to remain on the ground, a prey to the weather. Keep in mind that a bushel of wheat will furnish bread for one person for about 75 laps.

"Harvesting machinery should be adjusted so that there is as little loss as possible in cutting. Care should be taken also to harvest all grain cleanly in the corners, along the edges of the fields, and in lodged spots.

"More than usual attention should be given to shocking. In order that there may be as little waste as possible from exposure to the weather. If at all practicable, the grain should then be stacked as soon as it is cured in the shock. Stacks of bound or headed grain should be built carefully, so that they will shed water. Every blade saved equals a blade produced.

"In threshing, special attention should be given to the adjustment of the concaves and of separating machinery, to make sure that none of the grain is lost with the straw and chaff."

## THE REVEREND ROBINSON TO SPEAK TO YOUNG MEN.

"A Message to the Young Men" will be the theme of the sermon to be delivered by the Rev. Ernest E. Robinson at 8:30 o'clock Sunday evening at the First Methodist Church. Doctor Robinson intends to bring out the connecting link between young America and the world's struggle for freedom and civilization.

## ELKS TO HOLD FLAG DAY.

The regular formal Elks' Flag Day will be observed by the local organization at 2 o'clock Thursday afternoon, at the Elks' Club rooms. There will be no special exercises, but the regular program characteristic of that day will be carried out. An invitation has been extended to attend the exercises.

A. G. Hinn spent Monday in Crosbyton and Lubbock on business.

## Santa Fe President Says Road is Not to Cut Train Service

The rumor to the effect that the Santa Fe contemplated taking off trains on account of the war conditions is an unauthorized report, according to E. P. Ripley, president of the Santa Fe Railroad.

In answer to the report that there would be a general decrease in train service, Mr. Ripley says: "We might have to slow down a bit with other business, but it would be for only a few days. We are confronted with the problem of the transportation of troops, but our program for troop movement is thoroughly understood by everybody having to do with the workings, and it will be carried through without delay or friction. Shippers have been advised of the situation and are co-operating with us to the end that there will result no fuel or food shortage.

"The Santa Fe," says Mr. Ripley, "has no main-line trains in operation which are not needed to take care of traffic. There are also no poorly patronized branch-line trains which are not demanded by the public, in several instances ordered on by the state commissions."

In conclusion, Mr. Ripley says: "As a public-service corporation, the Santa Fe has a two-fold duty to perform—to help with the war abroad and to continue to help build up the country at home, for use after the war is over. If exigencies of the Government require it, the entire facilities of the Santa Fe will be devoted to the service of the Government, even to the extent of cancelling all trains now serving the public."

## NATIONAL HONOR GUARD GIRLS HELP HALE COUNTY OFFICIALS.

The members of the Girls' National Honor Guard of Plainview have again volunteered their patriotic services to the nation by giving their assistance to the county in handling and checking the 1,119 registration blanks for Hale County. There are two copies made of each original blank, one of which is retained at the county clerk's office and the other two being sent to the National Government. Miss Lucille Kinder is in charge of the work.

## GOVERNMENT URGES ECONOMY OF EWE LAMBS.

WASHINGTON, D. C., June 12.—Save every ewe lamb possible for breeding, is the urgent message the Department of Agriculture is sending to sheep owners. Market for slaughter only those being absolutely worthless for breeding stock. There is a strong demand among farmers for breeding stock, and owners of ewe lambs should have no trouble finding a breeding market for them through county agents or the state agricultural colleges. Sheep specialists of the Department believe that although prices for breeding stock now are high, those who start production of wool and mutton on a moderate scale will have no cause to regret purchasing breeding stock at present figures.

## IT'S DR. AND MRS. LLOYD, NOW.

Dr. W. J. Lloyd secretly left Plainview last Sunday without expressing any intentions or motives to his friends. At 2 o'clock in the afternoon the telegraph wires were set in action announcing the marriage of Dr. Lloyd in Sweetwater. The wires kept part of the marriage secret by not giving the name of the young woman he married.

Dr. Lloyd is a graduate of the Atlanta Dental College, having received his professional degree in 1916. Since his graduation he has been associated with Dr. C. D. Wofford, in this city. His home is in Big Spring, where he and his bride are spending their honeymoon.

## THREE PLAINVIEW BOYS ARRESTED.

Three boys, Ernest Moore, Hulan Lange and Barney Mosely were arrested and confined to the county jail yesterday by a special officer of the Santa Fe Railroad, charged with breaking into cars on the Santa Fe tracks. They have been released on bond, and will be tried in the next term of court.

Willie Hilton was in Lubbock Sunday visiting friends.

## State University to Confer Degrees on "Grads" Today

AUSTIN, Texas, June 11.—Contrary to expectations, the commencement exercises of the University were not held in the State Capitol. The Baccalaureate sermon, preached by President Robert E. Vinson, at 8:15 o'clock, Sunday evening, June 10, was held on the University campus. The commencement address and conferring of degrees, usually held in the Main Auditorium some time in the forenoon of Tuesday, Commencement Week, will be begun at 8 o'clock Tuesday, June 12, in order that the exercises may be over before the sun grows too hot. Yesterday was Alumni Day, when great numbers of former students from all over the country were back at the University for reunions.

Dr. W. J. Battle, who has resigned his position as Dean of the Faculties and has accepted the professorship of Greek in the University of Cincinnati, will deliver the address to the graduates on Tuesday morning.

## TEXAS MANUFACTURERS TO MEET AT WICHITA FALLS JUNE 27.

DALLAS, Texas, June 11.—One of the most profitable and interesting conventions ever held in Texas is slated when the "Buy It Made in Texas" Association members meet in Wichita Falls, June 27 and 28. The convention will be a thorough review of the resources of Texas and the possibilities of manufacture and increased production of finished articles. Governor James E. Ferguson, Clarence Ousley, head of the extension department of the A. and M. College; Lieutenant Governor Hobby, Col. L. P. Featherstone, of Beaumont, and the leading manufacturers of the State are to be found among the list of speakers. Prior to the convention, Gus W. Thomson, secretary-treasurer, with Secretary Johnson of the Wichita Falls Chamber of Commerce, will make a tour of the industrial centers of the State, meeting the manufacturers and urging them to attend the meeting.

## THREE TEXAS INFANTRIES ARE CALLED TO NEW YORK

Dr. J. C. Anderson's Son Says Camp Funston Men Are to Be Assigned Next Week.

That the Second, Third and Fourth Infantries of the Texas National Guard has been ordered to the Syracuse Post, in New York, was the news in a letter from Jennings Anderson to his father, Dr. J. C. Anderson. Mr. Anderson was formerly a member of Company L of the Fourth Texas Infantry until five week of instruction at Camp Funston, officers' Training Camp at Camp Funston.

Mr. Anderson also stated in his letter that this week completed the fifth week of instruction at Camp Funston, and after this week the men will be entered into their particular branch of service. He says that he has decided to select the field artillery service, which will remain at Camp Funston. Those of the engineering corps will be sent to San Francisco and the coast artillery members will be dispatched to Fort Monroe, in Virginia. It is generally believed at Camp Funston, according to Mr. Anderson, that the next detachment of troops to Europe will consist of the National Guard. Mr. Anderson says that the boys at Camp Funston have been satisfied with the conditions of the camp and that all have gained valuable military experience.

Mr. Anderson has seen considerable military experience, having been a member of the Colorado National Guard while a student in the Colorado School of Mines, and has served with Company L on the Mexico border since the troops were called out, a year ago last May. When Camp Funston was organized, more than a month ago, he applied and was accepted, where he has been in training ever since.

## ELKS' CLUB PURCHASES \$200 LIBERTY-LOAN BONDS.

Demonstrating the patriotic spirit of thorough Americanism, the Elks' Club of Plainview indorsed the idea of buying two \$100 Liberty-Loan Bonds last Friday night to help America in her battle of civilization. The bonds were purchased in the name of the organization.

## Two Prisoners Use Wooden Key to Make Escape From Jail

Hebert D. Bragg, alias Roy Jones, an army deserter and sentenced to two years in the state penitentiary for stealing an automobile, and C. E. Gibson, who is under arrest on the charge of felony, both escaped from the county jail early last Saturday morning. They made their escape by means of a carved wooden key and an iron rod, which, it is believed, they obtained from the outside. This case is the third case in which the wooden key has served the purpose of escape to prisoners from the county jail.

Sheriff J. C. Terry returned last night from Amarillo, where a man was being held answering the descriptions of Bragg. Upon Sheriff Terry's arrival in Amarillo it was learned that the man being held there was not the person wanted here for escape.

## Final Liberty Loan Drive Displays Steps of Progress Here

The siren voice of the whistle at the light plant last night announced to the citizens of Plainview that there were only four more days left to buy Liberty-Loan Bonds. Tonight at 9 o'clock the whistle will be sounded three times, as a warning that there are only three more days left.

The scheme of this novel and unique idea has been put into practice throughout the nation in the hope of stimulating the people of the land in regard to the shortness of time in which to purchase Liberty Bonds.

The banks, business men and different organizations of the city have launched a final Liberty-Loan drive to be carried through the next three days, with the hope of reaching the amount subscribed to Plainview by the National Government. Every effort will be introduced the three remaining days that will lead to the success of the campaign here.

One of the most active agencies of the campaign the last few days has been the local organization of the Boy Scouts. The members have been working earnestly in an effort to swell the fund, and many of them have obtained successful results. Fay Sawyer has sold more than \$650 worth in the last four days.

## DRY FRUIT AND VEGETABLES.

The Extension Service of the A. and M. College is emphasizing the importance of drying fruit and drying and bringing vegetables in the present crisis. Cans and jars are scarce and high in price. Most fruits and vegetables grown in Texas may be successfully dried or evaporated. Family-sized dryers or evaporators may be purchased for \$5 or \$6, or may be improvised by any one handy with tools. A bulletin on this subject is now in press, and will be ready for distribution about June 1. Meanwhile, those who are not able to buy cans at satisfactory prices are advised to purchase dryers or evaporators.

## CIVIC LEAGUE TO GIVE DINNER.

The Civic League will hold a chicken dinner at the Court House Square next Saturday. The returns from the dinner will be used to build a sanitary fountain at the windmill in the Court House Square, and the committee has requested the co-operation of all persons in making this affair a success.

## TY COBB IS CLIMBING.

CHICAGO, Ill., June 9.—Ty Cobb is back in his old-time batting form. The celebrated Georgian has recently jumped from seventh to third place in the list of American League batters. His average is .335. Tris Speaker is out in front with .365.

Cobb piled up thirty points in his last seven games, getting five hits—two triples, a double and a pair of singles—in one contest. He has driven out fifty-three hits in forty-three games. Chapman, of Cleveland, increased his lead as the premier sacrifice hitter and base stealer, having thirty sacrifice hits to his credit and fifteen thefts. Both, also of Cleveland, is pressing him with fourteen stolen bases.

J. O. Grundy and wife, of Abilene, arrived here Saturday for a visit with their daughter, Mrs. J. P. Davis.

## LOCATING BOARD TO BE HERE WITHIN FEW DAYS

### Plainview Citizens to Assemble at Court House to Welcome A. & M. Visitors.

The West Texas A. and M. Locating Board will be in Plainview at the end of this week or the beginning of next week, was the word given out this morning by E. H. Perry, chairman of the local A. and M. committee. At this hour the definite date of the Locating Board's visit in Plainview is not definitely known, but Mr. Perry will launch methods of informing the public just as soon as definite word is obtained.

Mr. Perry said this morning that it is planned by the committee to arrange some plan of signalling to the community the arrival of the Locating Board, so that the residents of Plainview may assemble at the Court House Square and demonstrate a spirit of welcome to the visiting board.

## NEW BRANCH FOR FOOD-INSECT CONTROL.

WASHINGTON, D. C., June 11.—To enlarge the campaign toward the control of insects infesting stored food products, a new section has been organized in the Bureau of Entomology of the Department of Agriculture. The Secretary of Agriculture has appointed to the new position Dr. E. A. Back, of the Bureau, as Entomologist in Charge of Stored-Product Insect Investigations. This change allows Dr. F. H. Chittenden, who has heretofore carried on the food-insect work of the Bureau in connection with investigation of truck-crops insects, to give his entire time to pests of truck crops, a field also of great importance at this time.

Dr. Back left Washington this week to investigate the grain and food storage situation through the country. He will study present storage conditions and determine the needs, as they relate to insect control, for proper care of the food crops after the coming harvest.

## WAR-TIME ANIMAL FEEDING.

On account of the high prices of all live-stock feeds, the A. and M. College has prepared a special number of the Extension Service Farm News, which contains plain directions for the more economical and profitable use of available feeds for milk cows, hogs, horses and poultry.

While we are considering economy at the family table in order to conserve the human food supply, let us not forget economy in the barnyard and feed lot, in order to make the most of the animal supply.

Write for "War-Time Animal Feeding," Address Clarence Ousley, Director of Extension, College Station, Texas.

## PLANT PUMPKINS IN YOUR CORN.

Pumpkins planted in corn furnish a cheap, appetizing stock feed. They should be planted by the latter part of June, putting a pumpkin seed in every sixth hill and in every missing corn hill. Pumpkins will affect but slightly the stand of corn and a large amount of fine stock feed can be raised.

Pumpkins are relished by cattle and hogs. Fed uncooked and with the seeds, they act as an appetizer and corrector of digestive troubles. Two and one-half tons of uncooked pumpkins are equal to one ton of corn silage to cattle. It has been found that 273 pounds of grain and 376 pounds of pumpkins produced 100 pounds of pork. The low cost of growing, ease of keeping, large yields, and the tonic qualities of a succulent feed available when succulent hog feeds are scarce, make pumpkins well worth while.

## GROCERY STORE CHANGES HANDS.

The Sanderson Grocery Company has been sold to J. T. Hartley. Clyde Ivey, who has been engaged in that store for the last year and a half, has connected himself with the Sewell Grocery.

## KILBANE TO BATTLE LEONARD.

CLEVELAND, O., June 9.—Johnny Kilbane, champion featherweight, Friday signed a contract to box Henry Leonard, champion lightweight, twelve rounds at Canton, Ohio, July 4.

**RECIPIES TO SAVE.**

**Stuffed Cukes**—(1) Take nice cucumbers, wash them, put into boiling water and boil them about 10 minutes. Then remove them quickly, put them between cloths to dry, and then cut them in glass jars. Take good vinegar, add to sugar and whole pepper, bring to a boil, and when cold pour over the cucumbers, and tie up closely. (2) Select button cukes, wash with scalding hot water, and leave to drain; drain, put in jars, and cover with vinegar, poured on hot, and sealed as directed.

**Cucumbers and Onions**—Have about 20 cucumbers and 10 onions. Wash thoroughly and let stand overnight with plenty of salt sprinkled over them. In the morning drain and fill jars, using about twice as many cucumbers as onions. Heat vinegar to 200 jars. It takes but little more than one good-sized teaspoon of vinegar to a jar, and to each cup use a tablespoon of sugar and a small teaspoon of ground mustard. Boil these in the vinegar, then let the vinegar get cold, fill your jars, screw on tops and set in cool place till wanted. These have been kept a year and they were fine. My first filling jars you know how much vinegar to prepare. The jars used are quart size. These make an excellent relish and are much easier than most pickles to prepare.

**Pickled Beans**—String the beans and boil until tender, putting a little salt in the water; then drain in a colander, and when cold put in jars; add one tablespoon of horseradish, sprinkle with cayenne pepper lightly, and cover with good cider vinegar.

**Pickled Cauliflower**—Break the heads into small pieces, and boil in salt and water 25 or 30 minutes; then drain carefully, and place in jars when cold. To white mustard, cloves, allspice and pepper in a bag, put it in water and wash; take the vinegar from the cukes, take out the bag, and the same quart add one-half cup sugar and one-third teaspoon of mustard; pour it over the cauliflower, and cover closely.

**Pickled Onions**—Take one-half gallon cleaned celery, the stems of small white onions, four ounces of minced beef, one-half ounce of minced pork, one tablespoon salt, one-half cup vinegar, one-third cup sugar, one-half cup water, one-half cup oil, and one-half cup vinegar. Wash the onions and celery, and put in jars; then put

them with red and black pepper in equal parts, salt, cinnamon and cloves, and grated horseradish. Cover with strong vinegar.

**Stuffed Melons**—Select melons which are rather soft, yellow, not yet very green; pare, remove the seeds and soft inside, slice, and stick a clove with the blossom end taken off into each piece. Prepare a syrup of three and one-half pounds sugar to two quarts vinegar, and when it boils put in the melons and simmer until they are soft and transparent; then put into glass jars and pour on the syrup, hot; leave until the next day, and they will have settled a little, when fill again with cold syrup left over, and close closely.

**Pickle Pickles**—Take red beets, cook until tender, then peel and cut into dice, put in jars and cover with vinegar spiced to taste. Boil eggs 25 minutes, then drop into cold water; when cold, shell and put in with the

**FOR SALE**—At a bargain, a Jersey 11-4d.

**FOUND**—A bar cameo pin. Owner may obtain same by giving description and paying for this ad at The Herald office.

**MRS. GEORGE HOWE WILSON, LATEST METHOD VOICE TRAINING.** Phone 541. —Apr. 22.

**Fruit Juices**—Select the best fruit, squeeze out the juice, strain it through fine muslin (four thicknesses) or through flannel cloth, add sugar in the proportion of three-fourths pound sugar to one quart of juice, and bring to a boil; use an earthen or porcelain-lined kettle, remove all scum which rises, and put white hot into small bottles, and keep closely corked; or it can be kept in jars.

**Fruit Juice** can also be put up without the use of sugar; strain the juice, and fill it into the bottles to the bottom of the neck only; then cork securely, wire the corks down, and set

**Miss Rebecca Ansley SPIRELLA CORSETIER** Telephone Number 304

the bottles into water up to the neck; let it boil one-half hour, then take from the stove, let them stand in the water till cold, and seal the corks. Juices put up in this way can be used like fresh juices, but when exposed to the air they spoil quickly, so that all must be used at once when a bottle is opened. Small bottles are, therefore, best.

# \$50,000 Owners' Contest to Follow Maxwell's Economy Triumph of May 23rd

Hundreds of Maxwells on May 23rd made good our claim that a Maxwell will go further on a gallon of gasoline than any other 5-passenger car—now, from June 16th to 30th, we expect 40,000 Maxwells to make as good or a better showing than was made on historic May 23rd

May 23d was Maxwell Gasoline Economy Contest Day all over the United States and Canada.

Fifty Maxwell cars went a total of 1,983.6 miles on a total of 50 gallons of gasoline.

The average gallon mileage of those cars was 39.67. And these were privately owned Maxwells—in actual daily use.

Those 892 cars averaged 27.47 miles per gallon of gasoline. More wonderful records are being received daily.

We could rest our laurels on this great triumph—but we don't intend to do that.

## \$50,000 In U. S. Liberty Bonds To Be Given Away Next Time

Now we're offering \$25,000 in U. S. Liberty Bonds as prizes to the 500 Maxwell owners who make the best mileage on one gallon of gasoline. Every Maxwell owner has an even chance to win a bond.

The other half of the \$50,000 in Liberty Bonds is to go to dealers for helping us with this stupendous undertaking.

If you own a Maxwell your chance to win a Liberty Bond is as good as anybody's.

The contest is open to women as well as men Maxwell owners. See us at once for details of the contest.

Enter this history-making competition now. Win a Liberty Bond.

# O.V.B. PAINT

## OUR VERY BEST

### Why We Sell It:

Because it's a paint that you will buy again after the first time. The more durable a paint is, the longer it looks well. To paint with O. V. B. "all that's best in a paint," means just the difference between paying for paint troubles and avoiding them. O. V. B.'s pure lead and zinc, pure colors and driers, pure linseed oil, are uniformly mixed in high power mills. The mixture sets into a **SOLID COAT OF METAL** on your house. This is why O. V. B. paint outwears ordinary adulterated paint.

We want YOU to KNOW O. V. B. BEFORE you paint. Come in today, if you can. Let our color cards and suggestions help pick out your shade combinations.

The Plainview Evening Herald

TWICE-A-WEEK

Published Every Tuesday and Friday Evening by—  
THE HERALD PUBLISHING COMPANY,  
Corner Broadway and Second Sts.

HERBERT S. HILBURN, Editor E. B. MILLER, Business Manager

Entered as second class mail matter July 1, 1914, at the Post Office at Plainview, Texas, under the act of March 3, 1879.

\$3.00 a Year; \$1.00 6 Months. Advertising Rates on Application.

IS HALE COUNTY REPRESENTED IN THE SENATE?

We always thought that Hale County was being represented in the Texas Senate by Senator W. A. Johnson of Memphis, Hall County. Perhaps we have been represented at times, we hope so. But now comes the time when Senator Johnson could demonstrate what he would have us believe when he comes to Plainview campaigning for election.

Here is how he proves his interest in a recent issue of The Hall County Herald, of which he is owner and editor:

Out in Hale County six miles south of Plainview is a switch named Ferguson, at which is located a large tract of land owned by Joe Lee Ferguson, brother of the Governor. Hale County is making strong efforts to secure the West Texas A. & M. College. The Governor has been sorely pinched with debts of late and less than ninety days ago he received a contribution from his brother Joe Lee to pay a \$35,000 note that he had in the Temple State Bank. The Governor is chairman and dominating influence of the locating board which will choose the site for the new college. If Ferguson switch should receive the new college Brother Joe Lee would be greatly benefitted and the Governor's \$35,000 might easily be wiped out. Hale County would be extremely happy and all would move along business lines. We are not a prophet nor the son of a prophet, but when the college is located keep your eye on Hale County and Ferguson Switch. Texas may be given a lesson in practical politics. This is merely a hint of coming events which cast their shadows before.—Memphis Herald.

The "self interview" would hardly befit a man of Senator Johnson's official position, especially when Hale County is in his district and his home town is not even an applicant for the location of the West Texas A. & M.

Be the motives what they may Senator Johnson should have verified his statement before making them. If there was any truth in the statement that Joe Lee Ferguson had land interests at or near the college site there might be an excuse for his statements. Since he has none, there is no excuse, except as it may be an individual one with him.

As a matter of fact Joe Lee Ferguson owns no farm land in Hale County. He has a few town lot in Hale Center, and some land in Lamb County, more than thirty-five miles distant from the tract of land which will be offered the locating committee as a site for the school.

The Herald knows nothing about the loan from one brother to the other, it does not matter in the true light of the situation, but there is an insinuation in Senator Johnson's writings which is rather broad.

Brother Johnson, Hale County does expect to obtain the location of the West Texas A. & M. Its citizens have been working for months with this end in view. We do not expect to use unfair means in obtaining it. We do not appeal to personal favoritism or gain. We do not expect to offer under cover inducements. Hale County's proposition is contained in the brief submitted to the Locating Board. If its claims meet with favor, if the members of the board, after inspection, decide that the location of the College in Hale County will best serve the purposes for which the school is intended Hale County wants and expects the college. If there is another location which will more nearly meet the requirements, the citizens of Hale County will take off their hats to that community and jump in behind the support of the institution at that place.

ARE WE DISSATISFIED?

A few persons have complained recently about the weather conditions in the Plainview country. The weather man has become almost as hated as the ruler of the German people. Yet, are those persons of this fertile Plainview country justified in their cry of distress and dissatisfaction? Would they rather have their crops under two to four inches of water than to have them as they are at present?

In Missouri, the state that has gained the distinction of being God's land because of its fertile productive land, the farmers are suffering even worse than the farmers in this county. Their corn crop seems doomed because of the tremendous rainfall and cold nights, and the wheat will be way below the average. One Missouri farmer has said that if he realizes six bushels of wheat to the acre he will be contented and happy.

On the other hand, the Plainview farmer is almost certain to reap more than six bushels to the acre under the present weather conditions. Has he any reason to be dissatisfied when other districts are suffering worse? No, we hope the majority of the Plainview country farmers will cultivate an optimistic spirit and feel satisfied that they live in this farming country instead of in the land of waters.

WHAT DOES YOUR CONSCIENCE SAY?

Somewhere in Texas a man with an income from a small business had saved \$500 with the idea of purchasing an automobile. He had studied the advertisements, talked the matter over with his wife and prepared to make the purchase. Then, his mind changed. He went to his banker and said, "I guess the needs of my country are more important than his automobile. You can put me down for a \$500 Liberty Bond."

An old negro woman who cleans offices in Houston bought a \$50 Liberty Bond the other day.

Have you bought yours?  
Are you going to help feed the American boys when they march to the battlefield to crush the enemy of our civilization?  
What does your conscience say?

"PALACE" OF BALED ALFALFA HOUSE FARMERS' FAIR.

Farmers in the vicinity of Sunny-side, Yakima County, Wash., did a distinctive thing when they erected a "palace of hay" in which to hold their annual country fair. Some 600 tons of alfalfa were used in building the structure, whose walls were 25 feet high. It not only housed all the exhibits, but a rest room, information bureau, and a grand stand in front of which a vaudeville program was given daily. The hay was loaned by the farmers, and at the end of the fair was auctioned off at a very good price. A picture of the hay palace appears in the June Popular Mechanics Magazine.

CALLS BELGIUM "BABY NATION."

"Little Belgium, the Baby Nation," was the topic of the sermon delivered by the Rev. Ernest E. Robinson last Sunday. Doctor Robinson has now spoken about every nation engaged in the world war, which has taken more than two months' time.

That the "Marsellaise" was composed one night in 1792 by Claude Rouget de Lisle, a French captain of engineers?

That Haydn once said: "The invention of a fine melody is a work of genius"?

PRICE OF WHEAT AVERAGED \$1.73 MORE THIS YEAR.

A summary of the June crop report issued June 8 for Texas and for the United States as compiled by the Bureau of Crop Estimates (and transmitted through the Weather Bureau), U. S. Department of Agriculture, is as follows:

All Wheat.

TEXAS: June 1 forecast, 14,700,000 bushels; production last year (final estimate), 13,200,000 bushels.

UNITED STATES: June 1 forecast, 656,000,000 bushels; production last year (final estimate), 639,886,000 bushels.

Oats.

TEXAS: June 1 forecast, 36,300,000 bushels; production last year (final estimate), 42,750,000 bushels.

UNITED STATES: June 1 forecast, 1,380,000,000 bushels; production last year (final estimate), 1,251,992,000 bushels.

All Hay.

TEXAS: June 1 forecast, 946,000 tons; production last year (final estimate), 838,000 tons.

UNITED STATES: June 1 forecast, 102,000,000 tons; production last year (final estimate), 109,786,000 tons.

Pasture.

TEXAS: June 1 condition, 76, compared with the ten-year average of 89.

UNITED STATES: June 1 condition, 83.8, compared with the ten-year average of 89.5.

Cotton.

TEXAS: May 25 condition, 74, com-

pared with the ten-year average of 79. UNITED STATES: May 25 condition, 69.5, compared with the ten-year average of 79.1.

Prices.

The first price given below is the average on June 1 this year, and the second the average on June 1 last year.

TEXAS: Wheat 279 and 106 cents per bushel. Corn, 172 and 83. Oats, 87 and 47. Potatoes, 244 and 121. Hay, \$15.80 and \$8.50 per ton. Cotton, 20.0 and 12.1 cents per pound. Eggs, 25 and 15 cents per dozen.

UNITED STATES: Wheat, 248.5 and 100.0 cents per bushel. Corn, 160.1 and 74.1 cents. Oats, 69.9 and 42.1 cents. Potatoes, 274.0 and 98.8 cents. Hay, \$15.25 and \$12.46 per ton. Cotton, 20.2 and 12.2 cents per pound. Eggs, 31.1 and 19.0 cents per dozen.

GAINS ON SHEEP.

There are greater opportunities for sheep than many of us see. Many might find sheep profitable with very little expense.

Sheep are generally considered good feeders, that is to say that they have adaptations for producing gains economically. Sheep are next to hogs in their facilities for making gains from a given quantity of feed. They have the adaptation of hogs in that they can convert coarse fodders and hay into gains. They can excel cattle in this respect.

It requires from 9 to 11 pounds of dry matter to produce a pound of gain in steers, according to investigations.

Sheep on the same feed will make a pound of gain on from seven to nine pounds of dry matter.

It was found at the Iowa station that 1.00 pounds of cattle on full feed ate 19.6 pounds of dry matter a day and gained 2.14 pounds; 1,000 pounds of sheep ate 29.7 pounds of dry matter a day and gained 3.75 pounds in weight. The sheep thus ate 48 per cent more feed per 1,000 pounds live weight and made 75 per cent better gains than cattle. But this was not all the advantage in feeding sheep;

they will grow a fleece in addition worth from 75 cents to \$1.50 a head.

Sheep are close grabbers and will thrive on short grass or destroy weeds that cattle will not eat. They will thrive better on short pasture than either hogs or cattle and when given richer feed will make better gains than cattle.

That Mendelssohn at his last public appearance as a pianist played the accompaniments for Jenny Lind, whom he admired extravagantly?

Paint those

Shabby Floors

Painted kitchen floors make housework easier. Acme Quality Floor Paint forms a smooth hard surface that cleans almost as easily as tile. No need of back breaking scrubbing

ACME QUALITY FLOOR PAINT

is inexpensive, a quart covers 75 square feet two coats, and it is easy to apply.

The Acme Quality Painting Guide Book tells all about painting also waxing, staining and varnishing floors; what to use, how much will be required and how it should be applied. Free at our store.

## University Summer Session Will Begin Courses Tomorrow

Word has been received by Superintendent J. W. Campbell from Frederick Eby, dean of the summer session of the University of Texas, to the effect that the summer session will open tomorrow. Mr. Eby frankly contradicts the current rumor that the University would not open its doors because of no appropriation having been made in certain departments of the University. It is also stated in the telegram to Superintendent Campbell that courses will be offered in military science, Red Cross and aviation. The session opens tomorrow, and there will be no alteration in the scheduled program.

### BENEVOLENT LEAGUE MEETS.

The Benevolent League met at 4 o'clock Friday afternoon, at the home of Mrs. C. W. Tandy. The president read an article on "Social Service" from the annual report of the Department of Public Welfare of Dallas.

There were three new members from the Methodist Church, Mrs. B. L. Spencer, Mrs. Sanders and Mrs. Chas. Salging.

Sixteen children, who had not attended the Chautauqua, were permitted to attend the children's play Friday morning, through the kindness of J. F. Garrison.

### DIXIE FOUR CLUB MEETS.

The Dixie Four Club held its regular conference Friday night, at Olton. The following program was rendered:

Piano Solo—Manora Mewshaw.

Reading—Mrs. Stella Mewshaw.

Bogie Man Rag—Madaline and Josephine Abraham.

Dutch Dialect Reading—Mrs. Stella Mewshaw.

Dutch Dance—Madaline Abraham and Manora Mewshaw.

Musical Reading—Mrs. Stella Mewshaw.

Declamation—Madaline Abraham.

Piano Solo—Manora Mewshaw.

Play, "Backward Child"—Madaline and Josephine Abraham.

### NEW MEXICO PERSONS HONOR GUESTS AT HALE CENTER DANCE.

Mr. and Mrs. Nick Alley, of Hale Center, gave a dance Monday evening in honor of Jesse McWhorter, Mrs. W. H. Long and Miss Margorie Beene, of Roswell, New Mexico, at their home. About thirty were present from Plainview. An ice course was served.

### With the Churches

The pastor of the First Methodist Church, the Rev. Ernest E. Robinson, has announced the following subjects for three Sunday mornings, beginning June 17, at 11 o'clock:

June 17. "Moses and His Life Teachers"—June 17.

June 24. "Moses and the Vision Splendid"—June 24.

July 1. "Moses and the Burning Bush"—July 1.

WANTED—GIRL TO DO HOUSEWORK FOR SMALL FAMILY. PERMANENT PLACE FOR RIGHT PARTY. GIVE REFERENCES. \$6 A WEEK. BOX 114.

### First Methodist Church Sunday School.

"If you would have this world-wide war end, you should go to Sunday School and learn the principle of obedience to God. This is a long stride toward universal peace."

There were 402 present Sunday. Let us make it 500 next Sunday.  
SECRETARY.

### Personal News

Mrs. E. B. Miller left Sunday morning for Lamar, Colorado, in response to a telegram stating that her father, E. A. Bannister, is critically ill.

Chris Hin left Sunday morning for Fennimore, Wis., for a visit of a few weeks with relatives there.

Mr. and Mrs. L. A. Knight returned Monday from an extended visit at Mineral Wells.

The Rev. R. E. L. Farmer is conducting a series of revival services at Kress this week. He is assisted by the Rev. P. D. Hardesty, of Lamesa.

Dr. I. E. Gates is assisting the Rev. J. E. Burnett in a series of revival services at Lockney this week.

The Rev. R. E. L. Farmer was in Tullia last Tuesday assisting in the funeral exercises of Mrs. N. J. Bagley.

Miss Lula Goode, of Plainview, who has been instructor in history in the Tullia High School for the last year, was re-elected to that position at a recent meeting of the Tullia school board.

Miss Josephine Goode returned last Saturday to Abilene, where she will attend the summer session of Simmons College. Miss Goode expects to obtain a bachelor or arts degree before returning.

P. Treveno, who has been engaged in the paving-construction work in Plainview, left last night for Dallas, Texas.

Mrs. Walter Hill Long, Mrs. F. F. Beene and Miss Majory Beene, of Roswell, New Mexico, are guests of Mrs. Jim Anderson.

Mrs. Byron Hale, of Amarillo, and Mrs. Silas Maggard, of Hale Center, are visiting their mother, Mrs. R. A. McWhorter.

Miss Marie Patterson, Misses Belle and Annie Ford and Mr. and Mrs. Ford, of Decatur, were here for a short visit Friday.

Dr. J. F. Duncan, of Waco, is visiting his son, J. F. Duncan, Jr.

Mr. and Mrs. L. A. Knight returned home Sunday from Mineral Wells. Mr. Knight's health is very much improved.

That "Summer Is a-Coming In" is the oldest known English folk-song?

That in his "Midsummer Night's Dream" Mendelssohn makes the music imitate the bray of an ass?

Beet-sugar industry shows rapid growth.

Increase From 45,000 Tons in 1897 to 700,000 Tons in 1914—Effect of Federal and State Encouragement.

Remarkable progress of American beet-sugar industry in recent years is shown in report submitted to Congress by the Federal Trade Commission, which says, in part:

"Beet-sugar production has increased from less than 45,000 tons in 1897 to more than 700,000 tons in 1914. In 1870 there were only three beet-sugar factories operating in the United States, and only nine in 1897; but this number in 1914 had increased to seventy-eight. The four principal centers of production are Michigan and North-

ern Ohio, Colorado, Northern Utah and

Southern Idaho, and California, though twelve other states contribute to the total production.

"Rapid development of the industry after 1897 has been largely due to direct encouragement by Federal and State Governments, particularly the former. While customs tariffs have afforded a large measure of protection since 1883, it was not until after the tariff act of 1897 that rapid progress of the industry began. Several States have enacted bounty laws, but they were all soon repealed or declared unconstitutional.

"Average cost of production for 64 factories producing 96 per cent of the beet sugar in the United States during the five years ending with the 1913-14 season was \$3.74 per 100 pounds, including depreciation, which averaged 25 cents. Lowest average cost for any factory for the five-year period was \$2.94 and the highest \$6.45 per 100 pounds. This wide variation was due mainly to differences in the cost of beets per 100 pounds of sugar, but there were also wide differences in the cost of manufacture. Average cost of beets per 100 pounds of sugar for these factories during the five-year period ranged from \$1.64 to \$4.48, while the additional cost of production, including overhead expenses, but not depreciation, ranged from 44 cents to \$2.44. In general, high cost of beets is accompanied by high cost of sugar.

"During five years ended with the 1913-14 season, thirty-seven companies, producing 99 per cent of the beet sugar in the United States, earned an average of 11 per cent on their capital. Average earnings of all the companies, by years, ranged from 16 per cent in 1909-10 to 3 per cent in 1913-14. In no other year, except 1913-14, were average earnings as low as 8 1/2 per cent. The extremely low earnings in 1913-14 were due to the unusually low prices of sugar.

"Reports of costs of growing and selling sugar beets and gross returns from their sale show a wide range of results, varying from actual losses to large profits. The expense of growing and marketing beets is very high. Average annual returns in the various beet-sugar districts for a period of three years ending with 1913 ranged from \$60 to more than \$75 an acre, and the average net profit per acre ranged from less than \$20 to \$40. The highest net profits per acre were found in California, Colorado and Utah. The lowest net profits were in Michigan.

In three California districts net profits ranged from \$38 to \$45 an acre; in Colorado \$27 to \$37; in Utah \$25 to \$37; in Michigan \$17.

"Comparing net profits of beet growing with those of other branches of agriculture, it appears probable that NO OTHER IMPORTANT STANDARD CROP WOULD YEAR AFTER YEAR YIELD BETTER RETURNS PER ACRE THAN BEETS. Many farmers, however, insist they are entitled to better returns on beets than on most other crops. This is because of the unusual care and diligence required to grow them and BECAUSE OF THE UNUSUALLY LARGE OUTLAY OF CASH FOR LABOR. The beet grower contends he should receive a price as high as the profits of the beet-sugar manufacturer will enable him to pay. THE MANUFACTURER GUARANTEES A PRICE FOR BEETS BEFORE THE SEED IS PLANTED, thus assuring the grower a market at A FIXED PRICE. It is therefore urged, on the other hand, that as the manufacturer assumes the risk of a decline in the price of sugar, while the farmer ASSUMES NO RISK WHATSOEVER IN THE PRICE OF BEETS, the latter should be content with the prices he has been receiving. It would be short-sighted for the manufacturer to force down the price of beets to a point unprofitable to the farmer, because the farmer would abandon his crop for others affording a profit."

FOR SALE—In good condition and in use, 10-foot wheel and tower, with 36-barrel heavy sheet-iron tank and tower. C. W. TANDY.

# Wash Goods At Moderate Prices

More women are buying these fabrics now than at any other time of the year. This can be accounted for by the fact that it is to be a wash goods season. In the large collection of these materials which we are showing now are percales, gingham, madras, tissues, lineweave, voile, organdie and many others in a wide range of designs and colorings.

The extremely moderate prices are greatly responsible for the many yards that we are selling daily.

Our dressmakers will help you plan the style if you ask them.

THE STATE OF TEXAS,  
County of Hale.

TAKEN UP by Louis Brosch and Estrayed before Earle C. Keck, Justice of the Peace, Precinct No. 1, Hale County: One red cow about four years old, with left ear cropped, and one red calf with same, with white spots on head, left ear cropped. No brands discovered. Appraised at Fifty (\$50.00) Dollars.

The owner of said stock is requested to come forward, prove property, pay

charges, and take same away, or it will be dealt with as the law directs.

GIVEN UNDER MY HAND AND OFFICIAL SEAL this 2nd day of April, A. D. 1917.

JO W. WAYLAND,  
County Clerk, Hale County, Texas.

That Chopin once said: "I am in this world like the E string of a violin on a contrabass"?

That Puccini's opera, "Madame Butterfly," is based on a magazine story by John Luther Long?

SAFETY FIRST—BUY YOUR COAL NOW

The outlook is for high priced coal. Railway freights increase 60 cents per ton is a certainty. Mines have withdrawn summer prices and advanced present prices 50 cents per ton. This means the retail coal dealer must advance his prices. I have a limited stock on hand, and will maintain present prices as long as it lasts. Better invest a little money in coal now, and don't blame me if you have to pay higher for coal in the near future.

5th and Austin Streets

\$1150 F. o. b. Racine Mitchell Junior—a 40 h. p. Six 120-inch Wheelbase

\$1460 F. o. b. Racine 7-Passenger—48 Horsepower 127-inch Wheelbase

Our New \$1150 Six

Thousands who wanted Mitchells wanted a smaller car. So this year we show Mitchell Junior.

Not too small. The wheelbase is 120 inches—the motor is 40-horsepower. That's way beyond the usual in a car for five.

You have never seen a fine car with such amazing value.

Unique Things

The Mitchell is famous for its hundreds of extra values.

31 Unique Features— 24 Per Cent Added Luxury— 100 Per Cent Over-Strength.

These were all paid for by factory savings, due to John W. Bate. He has spent millions to attain them. This whole plant has been built and equipped by him to build this one type economically.

The result is a great car, built at far lower cost than anyone else could build it. And that saving goes into these extras.

See the Result

See the 31 features which nearly all cars

omit. See this year's added luxury, paid for by savings in our new body plant. We spend 24 per cent more on beauty than last year.

But the greatest Mitchell extra is this double strength in every vital part. Our margins of safety—once 50 per cent—have been doubled in three years.

Over 440 parts are built of toughened steel. All safety parts are vastly oversize. All parts which get a major strain are built of Chrome-Vanadium.

The object is a lifetime car, and tests show that we have it. Cars still in good condition have been run over 200,000 miles.

Cost \$4,000,000

The Mitchells extras on this year's output will cost us \$4,000,000. They cost you nothing, because our factory methods save them.

Compare the Mitchell with cars without these extras. We will abide by your judgment on which car you want.

### GOVERNMENT MAN SAYS PLANT FEED IN PANHANDLE.

The great need of the present year is feed for livestock, and as the planting season for such crops as Sudan, sorghum, and even kaffir for forage, will last until the middle of June in this section, we should plan to produce as much of these as we can. A calculation should be made of the feed that it is expected the live stock on the place will consume, and the crops planted accordingly.

running a dairy, have hogs, or even have small herds of beef cattle, will do well to consider some cultivated pastures as a supplement to their native grass. By using a cultivated or planted pasture one can often save the native grass when to pasture it longer would be detrimental to it and the cattle would lose flesh.

amount of grain if one has good pasture, for them. If one has only a small herd of beef cattle he can supply them with Sudan pasture at profit. Last Summer, as dry as it was, fields of Sudan supported one cow to the acre for the entire summer.

Under the present scarcity of grain and consequently its high price, one should be as economical in its use as is consistent with the highest production. A great saving of grain can be accomplished by the proper use of pasture. Our native pastures are good and should be used as much as possible, though it is not good economy to overstock a pasture, for though one may get more grazing from it for one year, yet in years to come the value of the pasture will have been impaired and the total amount of feed produced in a series of years greatly reduced. Farmers and stock-farmers who are

Sudan grass has been used successfully during the last few years as a summer pasture grass, and excellent results have been secured by its use. Sudan pasture is especially valuable to the dairyman, who must have green feed for his cows, and to be able to turn in on good, green pasture of Sudan when the native grass is dry will greatly increase the milk flow of his herd, cheapen the cost of production, and often turn his operations from loss into profit. This is equally true with hogs, and the man who expects to produce pork for the next few years can not afford to be without a Sudan pasture to grow his pigs on. Pork can not be produced most economically without the extensive use of pasture, and pigs can be grown to 125 pounds in weight with only a limited

If one is not equipped to use Sudan pasture as described, the dairyman, at least, should plant some Sudan or sorghum to be cut while green to be carried to the cows each day. While this may seem to be a great deal of trouble, it will pay largely in cheapened and increased production over a ration that contains only dry roughness.  
No matter what kind of live-stock farming one is doing, plant a Sudan-grass pasture, or a Sudan or sorghum patch for soiling this summer. It will make you money and save grain for human consumption.

That "Home, Sweet Home" was a melody in an opera by John Howard Payne?

Any part of the farm which is not profitable is a tax on all the rest of the farm.

**YES! LIFT A CORN  
—OFF WITHOUT PAIN!**  
Cincinnati Authority Tells How to Dry Up a Corn or Callus So It Lifts Off With Fingers.

**CALOMEL DYNAMITES  
A SLUGGISH LIVER**  
Crashes Into Sour Bile Making You Sick, and You Lose a Day's Work.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.  
If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is time.—Adv.

**Whenever You Need a General Tonic Take Grove's**

The Old Standard Grove's Tasteless Chills Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

The best breeds do not insure the best profits without good treatment.

Calomel salivates! it's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.  
If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50-cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful, and if it doesn't start your liver and straighten you up better and quicker harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose day's work! Take Dodson's Liver Tonic instead and feel fine, full of vigor and ambition. —Adv.

Slow churning will get more fat out of the milk than rapid churning will.

# Cold Days Require Coal

Why is it that some folks always delay their coal buying and the installing of their stoves until the last minute when every member of the family has run the risk of serious cold or pneumonia and until all of the coal and stove dealers are so busy they cannot give the best service? Surely the wise man will not be caught in a blizzard with his coal supply not yet laid in.

We have the supply of coal, we have the prompt service, and the prices are lower now than they will be when winter gets here. Isn't it good health insurance, isn't it good business, isn't it the sensible thing to do to place your order now?

Just phone us at 162 and we will do the rest.

## ALLEN & BONNER

Its the Season for Cream Separators and Incubators. We have the famous DeLaval Separator in all sizes, and Safety Hatch Incubators. Let us show them to you. **DONOHOO-WARE HARDWARE CO.** Phone 80

THE STATE OF TEXAS,

To the Sheriff or Any Constable of Hale County—GREETING:  
 YOU ARE HEREBY COMMANDED That you summon, by making publication of this Citation in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once each week for four consecutive weeks previous to the return day hereof.

Mrs. J. C. Newman, Gladys O. Newman, Emma Gertrude Newman and Virginia Low Newman, who are non-residents of this State, and H. B. Pack, who is absent from the State, to be and appear before the District Court of Hale County, Texas, at the next regular term thereof, to be held at the Court House of said Hale County, Texas, in Plainview, Texas, on the 6th day of August, 1917, then and there to answer a petition filed in said Court on the 1st day of June, 1917, in a suit numbered on the docket of said Court No. 1542, wherein E. C. Hunter is plaintiff and Lois Pack, H. B. Pack, H. G. Pack, D. S. Pack, Mrs. J. C. Newman, Gladys O. Newman, Emma Gertrude Newman and Virginia Low Newman are defendants.

Plaintiff's cause of action being a suit in Trespass to Try Title to Lot Number Twelve in Block Number Twelve in the Town of Plainview, Hale County, Texas, to recover the title and possession of said lot, to establish and declare a certain deed made by C. E. McClelland conveying said lot to J. H. Buntin, "Trustee for J. N. Donohoe, Homer Pack, J. C. Newman, J. M. Graham, J. L. Vaughn, G. S. Hardy and W. B. Sheffey, dated April 4th, 1908, recorded in Deed Records of Hale County, Texas, Volume 15, Page 612, to be a trust for the use and benefit of the Methodist Episcopal Church, South, at Plainview, Texas; and to remove the cloud cast by such deed on plaintiff's title to said lot and to quiet plaintiff's title to said lot.

HEREIN FAIL NOT, and have you before said Court on the first day of the next regular term thereof, this WRIT, with your return endorsed thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office, in Plainview, this the 1st day of May, 1917.

JO W. WAYLAND,  
 (SEAL) Clerk, District Court,  
 Hale County, Texas.

Jack McWhorter, of Roswell, is visiting R. A. McWhorter.

 Men's 15c to.....65c  
 Also blacks, colors and fancies.  
 This is the Plainview hosiery store.

Fresh marshmallows, plain and toasted, at the candy counter. Best place in Texas to buy candy. It is something in the candy that makes it. I dont' know how to make it but I KNOW who DOES. There is 20 years of finding out in it for one thing. Any of it is good and the rest is better. For hot weather fine chocolates are wrapped but still sold at, pound.....25c  
 Got the prettiest bunch of middies you ever saw. They are made up in the latest styles. 65c to.....\$2.00  
 Silk waists.....\$1.25  
 Silk ribbons by the mile—best in America at the price.  
 The daintest laces, yard 5c and.....10c

Fruit jar caps, two dozen for... 25c  
 That's what you may call "going some."

Regular 25c talcum powder, can.....15c  
 A dandy pen tablet, 150 pages, for.....5c  
 25 fine envelopes, wallet flap and other styles only.....5c

I ought to mention toilet paper. Selling the 8 ounce, 3 big rolls for.....25c  
 The 5 ounce, 6 rolls for.....25c  
 Spring clothes pins, dozen.....5c  
 Mouse traps, only the ones that git 'em, 2 for.....5c  
 17 ounce ice tea goblets, 6 for.....75c  
 Tea spoons, set 5c, 10c and.....15c  
 Tin cups, tin pans and kitchen stuff galore. Set up to housekeeping for \$3.60.  
 Dishes of course.  
 It's a mighty good place to save money on hardware—things you are always needing for very little money.  
 For instance, a good 1-2 inch or 5-8 inch cold chisel for.....10c  
 A good screw driver for.....15c  
 The very best claw hammer for.....50c  
 Best hammer handles, 2 for.....15c  
 Oil cans.....10c

 Milk strainers 15c to.....\$1.00  
 Half gallon cups.....10c  
 5 gallon churns.....75c  
 What about a good overall for just.....\$1.00  
 Save yourself for some more work shirts at.....65c  
 Linen handkerchiefs at.....10c  
 That ought to stampede you men.  
 No. 2 wash tubs.....\$1.00  
 No. 3 wash tubs.....\$1.10  
 Not many—better hurry.  
 Patriotic jewelry, flag pins, fobs and rings, only.....10c  
 They are pretty.  
 Beads, the newest, 10c, 25c and.....50c  
 There are 986 more things I ought to tell you about but I can't think of so many things at one time.  
 Little ones fretful? Try a doll for it. Much pleasanter than spanking, 10c, 15c, 25c, 50c  
 Six styles cakes, pound.....20c  
 Better and cheaper than baking.

In U. S. Liberty Bonds Will Be Given Away

Two thousand Maxwell owners' cars in our dealers' gasoline economy contest on May 23rd proved that the Maxwell can do from 30 to 40 miles on one gallon.

Now for the great one gallon owners' contest open to all Maxwell owners, Monday, June 18th. If you are a Maxwell owner you have the

Maxwell Owners' Chance to Win a Liberty Bond

This one gallon Maxwell owners' contest is open to all Maxwell owners. Every owner has an equal chance. The conditions are simple—here they are:—

1. You must own a Maxwell car.
2. You must register with your local Maxwell dealer. You are allowed one trial.
3. Your local Maxwell dealer must send your name and number of your car to us in Detroit and furnish you with a one gallon tank free.
4. Your one gallon trial must be witnessed by three of your own neighbors who are selected by your local dealer.
5. Contest open to women as well as men.

Register With Us At Once So We May Order Your Speecal Red Gasoline Tank

If you are a Maxwell owner, get ready to win a United States Government Liberty Bond.
