## PLAINVIEW BANK DEPOSITS ALMOST THREE MILLION

RESOURCES NEARLY \$3,500,000—  
CASH IS \$1,116,709.75—CAPIT-  
AL \$435,590.97

According to the statements of the three banks of Plainview, made under call of the comptroller of currency and the state banking commissioner, these institutions on Nov. 17 had on deposit \$2,702,760.45; resources of \$3,466,863.09; cash and sight exchange of \$1,116,709.75, and capital, surplus and undivided profits of \$435,590.97.

This is indeed a fine showing and is one the officers and stockholders of the banks take great pride in. It also shows that Plainview has ample banking facilities to handle the business, industrial and agricultural needs of the Plainview country.

The statements show as follows:

Deposits:	
First National	\$1,941,279.33
Third National	771,035.30
Guaranty State	90,445.82

Resources:	
First National	\$2,296,548.02
Third National	1,029,859.25
Guaranty State	140,445.82

Cash and Exchange	
First National	\$805,331.45
Third National	228,208.95
Guaranty State	83,169.52

Capital Stock, Etc.	
First National	\$226,767.02
Third National	158,823.95
Guaranty State	50,000.00

This is the best showing ever made by the banks of Plainview, and indicates that the people of this section have lots of money. Had the railroads been able to handle the wheat and other crops the deposits would have been much more than shown above.

Loans and Discounts:	
First National Bank	\$1,224,100.10
Third National Bank	623,326.05
Guaranty State Bank	53,576.97

## GUARANTY STATE BANK MAKES FIRST STATEMENT

Shows Deposits of Nearly Hundred Thousand—Officers Pleased at Business

The Guaranty State Bank publishes elsewhere its first statement of its business, as made to the state banking commissioner at the close of business Nov. 17. President R. S. Beard says he is gratified at the showing made, as the bank was only about five weeks old at the time. The number of customers is increasing daily, and the next statement will show a great increase over this one.

The resources show to be \$140,445.82, deposits \$90,445.82, cash \$83,169.54, and loans \$53,576.97.

The officers of the bank are Mr. Beard, president; L. P. Barker, vice president; C. D. Hensley, cashier.

## Coal Strike Continues

The coal strike continues, as the majority of the strikers are still refusing to go back to work. Many mines are in operation, but they are unable to keep up with the demand and the nation's supply of coal is rapidly dwindling. About forty per cent of the normal amount of coal is being produced. A crisis is rapidly approaching.

The conferences are still in progress in Washington.

## County Court Orders

County court will convene Monday. The following is the jury for the first week:

T. J. Vines, J. F. Jackson, H. C. Barron, J. E. Sheon, W. H. Ragland, A. E. Pipkin, A. S. J. Martin, O. E. Winslow, R. E. Dennis, W. R. Norfleet, Charles Horne, J. J. Barton, J. C. Holcombe, M. S. Hudson, S. L. Crouch, Fielding Helm.

## Government Food Control Again

Friday President Wilson revived the federal control of the national food supply by transferring it to the attorney general's department, so he can handle the matter of combatting the increased cost of food. The supply of sugar will be taken over at once and administered.

## Will Play Canyon Normal

The Wayland college football team will play Canyon Normal at that place Thanksgiving.

## RAILROAD MEN MEET TO CONSIDER BIG STRIKE

National Leaders Holding Secret Meeting to Consider Walkout Before Dec. 1st.

Chicago, Nov. 25.—National leaders of the four great railway brotherhoods held a secret session today at which the insistence of many local unions that a strike of all railway workers in the United States be called by December 1 to enforce demands for a general increase in pay, was given serious consideration, according to information obtained here tonight from union railway men. It was said by one union official that many of the delegates who are now in Cleveland went there with the specific purpose of forcing the general committee to call the nation-wide strike.

The union officials in Chicago, from whom the information was obtained, stated that so far as they were aware, the secret conference in Cleveland had not yet reached the point where resolutions or motions for the strike actually had been presented, but that the discussion concerning it today, according to their information, was favorable to the project and that the tie-up could be expected within three days.

## FIRST NATIONAL BIGGEST BANK ON THE PLAINS

Resources Two and Third Million—Deposits Nearly Two Million Dollars

Mr. E. C. Lamb, president of the First National Bank, tells us he is very much gratified at the showing made in the statement of the bank as made to the comptroller of currency as of Nov. 17. The report shows the First National to be the largest bank on the Plains, and indicates a healthy increase over the last statements of the two banks—First and Citizens—in September.

The deposits of the bank are now \$2,296,548.02, the cash and exchange is \$805,331.45. The loans and discounts are \$1,224,100.10. This indicates that the bank is on a solid foundation, enjoys the confidence of a large clientele and is capable of taking care of any size business transaction that this section needs.

The statement in detail will be printed in Friday's News.

The First National and Citizens National Banks were consolidated about a month ago, with Mr. Lamb as president and R. A. Underwood as vice president.

## Preferred Charges Against Governor

Hon. H. P. Davis passed through here yesterday en route to Silverton. He is now an agent for the state department of agriculture, having recently resigned as a member of the legislature from Van Zandt county. He was the man who first preferred charges asking impeachment of Jim Ferguson in the lower house, following Senator Johnson's charges in the senate. A supporter of Ferguson made the assertion that there was not a member of the house that had the nerve to prefer charges, whereupon Davis called the challenge. Davis is an old-fashioned Baptist parson, and has the nerve of a government mule, and is not afraid of man or the devil, for that matter.

## F. G. Hudgins Sells Ranch

F. G. Hudgins has sold his ranch of ten sections near Abernathy to Fort Worth parties, for \$45 an acre. Included in the sale were 400 cattle, 2,000 sheep, and many horses and mules, and the total consideration was \$346,000.

This is one of the biggest ranches in the county. Mr. Hudgins acquired it many years ago, he being a pioneer cattleman of this section.

The new owners will take charge of it soon, and make many improvements, so we are informed.

## Norwood Girl Goes Away

Miss Norwood, who was seriously injured in the auto tragedy north of Plainview in September, has recovered sufficiently that she will be taken to her home in Dallas tomorrow. The doctors say she will fully recover. She has been in the sanitarium here since the accident.

## New Telephone Directories Out

This week the local telephone exchange distributed new directories to its subscribers.

The services at the church will begin at 10 o'clock, and Rev. Gordon Lang of the Presbyterian church will deliver the sermon. The church choirs of the town will join in furnishing the music for the occasion. The program will be as follows:

Prelude.

Benediction.  
Everybody should attend.

Herm and Hood of Foch (formerly Hermligh) near Snyder, are here to buy four thousand carloads of Hale county threshed maize and kaffir to be shipped to California. They are paying \$1.90 per 100 pounds. They are pioneer and prominent grain buyers of the T. & P. country. They will ship the grain in refrigerator cars which have brought California fruits east and but for such shipments of grain would be returned to California empty. They will buy in Plainview and Hale Center.

Russ Jones from Port Lavaca is in the county buying maize and kaffir heads, for shipment to the district near Corpus Christi, which was devastated by the gulf storm in September. He wants fifteen hundred cars of heads for shipment, and is paying \$20 a ton.

## FOSTER INSISTS THAT BIG STORMS ARE COMING

Warns People Not to Take Ocean or Lake Trips About December 21

Though eminent and trustworthy astronomers declare there is nothing to be feared in regard to the grouping of the planets on one side of the sun about December 17, and that possibly such groupings have occurred a number of times in the existence of the universe, Foster, the weather prophet, declares that there is danger from severe storms, and in his weekly predictions issued Nov. 21, has the following to say:

"But you should be on guard, with yourself and belongings in good shelter during the nine days centering on December 21. Don't make any ocean or lake voyages at that time. You will probably regret it if you do. Lives and property may be saved by finishing your outdoor affairs during the nine days centering on Dec. 11."

The editor of the News has been asked many times, "what do you think about it?" Of course we are not qualified to give any answer worth while, for we know nothing about the matter. But, we are not at all alarmed, for we have more confidence in what the more eminent and not sensational astronomers say. Foster depends on just such alarming predictions as this to give himself wide publicity and cause a larger sale and distribution of his weather predictions.

Why should anybody be alarmed if the world were to come to an end? People should live every day in such a way that they are ready for any eventuality. We haven't much patience with people who are afraid to die, or who look upon death with horror. With us it is a rather fascinating experience that we look forward to as much as we would a trip around the world, for instance.

## MISS DOOLEY GETS LIMB BROKEN IN ACCIDENT

Car Turns Over East of Town Sunday Afternoon, when Wheel Collapses

Miss Myrtee Dooley, age 17 years, of Eastland, guest of the family of Mr. Davis, who recently moved here from Eastland, got her right leg broken below the knee and her left wrist sprained Sunday afternoon, when a Dodge car in which she and Miss Davis and two youths were riding was turned over on the dump across the lake just beyond Fred Weyler's farm, three miles east of town. The others were slightly injured.

The car got to zig-zagging on the dump, and one wheel collapsed, causing the car to fall into the water alongside the dump. The car was badly damaged.

## THIRD NATIONAL BANK MAKES ITS BEST SHOWING

Resources Over Million Dollars, Deposits More than Three-Quarter Million

The statement of the Third National Bank as per close of business Nov. 17th, is the best ever made by that bank, and the officers are indeed proud of it.

The resources show to be \$1,029,859.25, the deposits \$771,035.30, cash and exchange \$228,208.78, with loans and discounts \$623,326.05.

The Third National was organized less than ten years ago, and since has had a continual and increasingly rapid growth, and especially so this year. L. A. Knight is president, W. A. Donaldson, vice president and T. Stockton, cashier.

The official statement will be published in Friday's News.

## Six-five Persons Held Up

Near Tell, Childress county, several night ago three men heavily masked and armed held up a negro festival, composed of negro cotton pickers and a few white people who were present as spectators, and robbed the entire bunch, sixty-five, relieving them of over \$600. No clew to the highwaymen.

## Only One Train Changes

The Santa Fe will put on a new schedule for its trains on the trans-continental line Sunday. The only change on the line through Plainview will be the night southbound train, which will leave Amarillo at 9 o'clock, or 10 minutes later than at present.

## WAYLAND TO RECEIVE \$100,000 IMPROVEMENTS

### TO IMPROVE ADMINISTRATION BUILDING, BUILD DORMITORY INSTALL HEATING PLANT

Wayland college is to receive \$100,000 from the funds to be raised in the \$75,000,000 campaign which the Southern Baptists will inaugurate Sunday, Nov. 30, and continue for one week, closing Dec. 7. The administration building of the college will be completed, the heating plant installed and a new dormitory erected.

The quota of Plainview Baptist church in the drive is \$100,000 and is to be paid in five yearly installments.

Local committees of the Baptist church have given out an announcement of the manner in which that portion of the \$75,000,000 fund which is to be spent in Texas will be distributed. Texas Baptists are raising \$16,000,000, and a great part of that amount will be spent on Texas institutions. # What Baptists Have Done

Wrought consistently through the ages for absolute democracy and the right of self-determination in matters of religion and government.

Established in Rhode Island the first commonwealth on earth in which there was absolute civil and religious liberty.

Waged continuously the battle for personal liberty and shared their victories with all the people.

Through united activity they were largely instrumental in securing the first amendment to the federal constitution which guarantees freedom of speech, freedom of religion and the right of petition.

From the inception of the American revolution till now they have been conspicuous for patriotism and loyal support of the government.

Have been outstanding champions of education from the kindergarten to the seminary and the university and for the extension of educational privileges to all the people.

In John Clarke they furnished the author of the public free school system in America.

In Henry Dunster they furnished the first president of Harvard University, and through Thomas Hollis and his descendants established the Hollis chair of theology at Harvard, the first in the United States.

Brown University, in Rhode Island, the first institution of higher learning in the middle states, was founded by the Baptists, while Vassar College, the premier of institutions of higher learning for women, was founded by John Vassar, a Baptist.

William Carey, of England, a distinguished Baptist, is the father of modern missions, while Adoniram Judson and Luther Rice, American pioneers in foreign missions, were Baptists.

Through Joseph Hughes Baptists founded the first Bible societies; B. F. Jacobs, a Baptist layman of Chicago, originated the International Uniform Sunday School lesson system; Marshall A. Hudson, a Baptist layman of Syracuse, N. Y., originated the Baraca Sunday School Class Movement.

The U. S. census shows that during the past ten years Baptists have increased more rapidly in this country than any other denomination.

## Baptist 75 Million Campaign

Is the five-year plan of Southern Baptists for extending the gospel of Jesus Christ and this program of Baptist achievement at home and to all parts of the world.

If you believe this big undertaking is worth while prepare to make a worthy offering in cash and five-year pledges through the Baptist church of your community during

### Our Day of Thanks

Commemorating the day of thanks is a national trait of the American people. It is never forgotten, and it is never indifferently observed.

No matter how humble or obscure a person may be, there is always something for which thanks may be given.

The president has designated Thursday, Nov. 27, as Thanksgiving Day, and has exhorted the people to render grateful homage to the source from which all blessings flow.

The Divine Being bestows His blessings in many ways, and in various degrees, but always as He in His infinite wisdom deems best. We may marvel, but it is not for us to question.

Although our country is torn with dissensions, and rumblings are everywhere, we yet have much for which to give thanks.

Our men have returned from the fields of war, undaunted in spirit, unchecked in the march of victory. Some have not returned, but the mark of a hero is above every grave.

Our fields have yielded bounteous harvests and our factories have given generously of their products.

Money has been plentiful and but little distress has been found.

Sickness has been at the minimum and the death rate has been small.

With the world in a turmoil, we of America retain yet even a small measure of tranquility, with hope rearing its head as a beacon light of the future.

Let us give thanks for the blessings we have enjoyed, with the hope that when another Thanksgiving arrives with the cycle of time peace may abide with us all.

The home of J. M. Redfearn in Canyon caught on fire last week, but was put out without much damage. The Redfearn family used to live in Plainview.

### Will Ask for City Marshal

John Blair tells us he will be in the race for city marshal. He has lived on the Plains since the pioneer days, and in Plainview for several years, and is well known.

The phool-osopher on the corner says "The difference between a mule and a Ford is, that you want to make your will before you twist the tail of a mule and say your prayers before you twist the nose of a Ford. The danger part of a mule is in his rear, while the danger part of a Ford is its front. They both will kick the stuffin' out of you if you monkey with them."

## MUST WEAR DARK CLOTHES

Strict Rule for Employees in Factories Where Work is Done on Gold.

Clothes of a dark color are not favorites where work is done on gold. In fact, in many such factories a dark suit of clothes is absolutely demanded, and even a light waistcoat may lose a man a job. The reason for this is that any stray grains of gold that may get on the clothing can easily be caught on a dark suit, while they might get away from the establishment if light clothes were worn.

That such a rule was enforced among gold workers one man learned recently when a Bohemian gold beater applied to him for a helping hand. The Bohemian said that he had not been in this country long, that he had had a chance to obtain a good job at his trade, but that the place had been refused him because he turned up with a light suit and waistcoat on, and they were the only clothes he had.

The man whom he approached was struck by the story and offered to help him out if it proved true. He went to a factory with him and found out that the man could have the job if he presented himself within an hour clad in the proper clothes. So a suit of desired kind was obtained for him and sure enough he got the job.

"You may think this is strange," said the foreman of the factory, "but it means quite a lot to us. Every man's clothing is carefully examined when he leaves the place at night and the gold is brushed off whenever we see any on his clothing. It is impossible to hide even tiny grains on a dark background, but in the case of a mixed or a light suit we might easily lose quite an amount of gold, and gold isn't anything you want to lose even in small quantities."

### Strasbourg to Honor De L'Isle.

It is a pleasant detail in the coming edition of a memoir at Strasbourg to Rouget de l'Isle and his "Chant de guerre de l'armee du Rhin," which became "La Marseillaise," that the chairman of the committee in charge bears the name and is a direct descendant of Mayor Dietrich, in whose house the song was first sung. Little enough when De l'Isle composed it did he foresee either that his song would provide inspiration for a French revolution or that time would bring him a permanent memorial in a Strasbourg that had passed out of French possession and come back again. The author himself suffered both by loss of his commission and by imprisonment, first because the adoption of his song by the Revolution made him suspected of revolutionary beliefs by what power still remained to the older government, and later because his lack of enthusiasm for the revolution made him an object of an attack by the new leaders.

### Porpoise Killed Shark.

How a bottle-nosed dolphin, a porpoise commonly called the seahog, slew a 6-foot shark, is described by Galveston (Texas) fishermen, who say they witnessed the killing from the causeway which connects Galveston Island with the mainland.

The seahog, according to the books, is a "most sociable and gregarious fish," but these fishermen declared there was nothing sociable about this dolphin. When the shark was within a few feet of the porpoise the fishermen saw the seahog charge, a gray streak in the water. It struck the shark squarely amidships, they declare, ripped it open and then tore the body into pieces.

The theory of the fishermen is that the porpoise fought to protect its single young one, which the shark was menacing.

### His Caddie's Advice.

Clergyman (playing at historic St. Andrew's for the first time, to caddie)—What is that yawning abyss in the distance, caddie?

Caddie—That's hell, sir.

Clergyman—Indeed! What a name to give a bunker!

Caddie—You see, sir, it's called hell because since ye get in ye canna get out.

Clergyman (after playing and landing in the bunker calls for his nibble and plays a good shot out of the hazard)—What have you got to say to that now?

Caddie—A' that I hae to say, sir, is when we dee tak' yer nibblek wi' ye.—Portland Telegram.

### Slang Is a Necessity.

"My friend," said the fussy old gentleman, "why do you say you must 'toddle along? You are in the prime of life and walk with the easy tread of a banker."

"Sir," said the facetious citizen, "if everybody were as particular about the choice of words as you are, book reviewers would write up baseball games and heckling the umpire would become a lost art."—Birmingham Age-Herald.

### Prevalence of Deafness.

The last census showed that there are in the United States 89,287 persons who are totally deaf. Dr. Wendell C. Phillips of New York told the Philadelphia College of Physicians recently that in New York city there are at least 100,000 persons more or less incapacitated as a result of partial deafness, and of these probably 80 per cent are of the working class.

### Prices for Canadian Wool.

### CANNON BALL MOTOR CO. OFFICIALS INDICTED

The following is taken from the Santa Fe New Mexican of November 8th, and is all the information we have on the subject:

That the Cannonball Motor Co., The Western Tire Manufacturing Co. and the C. A. Roberson Brokerage Co. of Texico had been under federal investigation came to light today in the announcement by Assistant United States Attorney J. O. Seth, that ten indictments had been found against officials of the three companies charging them with using the mails to defraud.

The indictments were found by the United States grand jury in Santa Fe, but announcement was withheld until all the men indicted had been placed into custody. They are now under bond. They include two Colorado bankers, and a county judge of Texas.

Plans for the plant at Texico were said to have been sent out making Texico look like Pittsburgh, according to Mr. Seth. He said the tire company built a small building and bought some second-hand machinery and that the motor company purchased an office building but had not begun building a plant. The brokerage company was said to have been organized primarily to sell stock in the other two concerns.

It is estimated, Mr. Seth said, that the companies got in cash between \$350,000 and \$400,000 from stock buyers in New Mexico, Southern California, Colorado and Texas, and he added, the greater part was paid out as commissions.—Portales Valley News.

Silvertown Girl Severely Injured

The Ford belonging to Ernest Jones overturned last Friday night with six young people in it, hurting Maude Burson pretty severely, and she is still in a serious condition. It is thought that some of her ribs were broken and she was hurt otherwise internally, but strong hope is felt that she will soon recover. Those in the car were Misses Maude Burson, Anna Mae Hays and Iveta Joiner,

and Messrs. Ernest Jones, Amos Turner and Wells McClendon. Some of the rest of them were considerably bruised up, but Maude was the only one who was seriously hurt. She was pinned under the car, while the others were thrown away from it.—Silvertown Star.

### Eclipse of the Sun

There was an annual (ring) eclipse of the sun Saturday morning at about nine o'clock, the first of this particular kind since 1908. The moon came between the earth and the sun, shutting off the sun's rays in the center, thus forming a ring around the moon.

It was total down beyond Big Springs, but only partial here, and few people noticed it.

They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowness is so enticingly different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette after-taste or any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Domestic tobaccos and are smooth and mild, but have that desirable full-body and certainly hand out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camel the stiffest tryout, then compare them with any cigarette in the world at any price, for quality, flavor, satisfaction. No matter how liberally you smoke Camels they will not tire your taste!

Miss Neal of the Panhandle Produce Co. informs us that the turkey market is temporarily depressed on account of Thanksgiving orders having been filled. Within a few days the buying for Christmas will begin, and prices will be two or three cents more.

The hog market continues to decline, only 12c being paid.

The feed market is looking up, and prices are highest so far this season. Buyers are coming from down in the state and the prices are increasing, and will doubtless continue to do so as the days pass into winter and spring.

Hides continue to drop in price, but shoes go up.

The increased movement of wheat and other feedstuffs over the railroads is causing increased markets everywhere.

The price of eggs is very high, and it is predicted that they will reach higher before Christmas, however, 60c is very high and it is likely best for growers to sell as fast as they can get eggs.

# ANNOUNCEMENT

Just a small change in our business

We take this method of notifying our customers and friends that we will make a change in our business on December 1st.

We will discontinue free deliveries on December 1st.

We have always run a free delivery, while we knew that it was very expensive to do this. It has gotten so that the expense is so great that each delivery costs from 20c to 30c.

Some one has to pay this or we are the losers and we have decided to discontinue free delivery on above date.

We will also sell for strictly cash and will not make any charge tickets to any one.

Groceries are very high and most everything is going higher regardless of reports to the contrary.

By cutting out this extra expense and getting the cash for everything we sell we can sell goods cheaper.

We hesitated to make this change but believe it will be the best for our customers and ourselves in the long run.

If any customer want deliveries made we will have it done but will make an extra charge for this service.

Look for some hot prices in Friday's paper to begin Monday, Dec. 1st, and we believe that you will appreciate that we will sell for less than with present expense.

We hope to retain all our old customers and gain many new ones that want to save money on their groceries.

Everything will be sold for strictly cash to everyone.

We want all the fresh butter and eggs and will pay top cash prices.

We are located in the Grant building, next door to Reinkens, and will appreciate your trade.
