AUTOMOBILE ASSOCIATION FORMED IN PLAINVIEW

SIXTY DEALERS IN CARS, TRACTORS, TRUCKS AND ACCESSORIES MEMBERS

An automobile association was formed in Plainview yesterday composed of sixty dealers in cars, trucks, tractors, accessories and oils.

The purpose of the organization is to look after the interests of the associated businesses, and to promote good roads, etc.

The officers elected are:

President, T. C. Shepard; 1st vice president and director of arrangements, Bob Harte; 2nd vice president, L. P. Barker; secretary, A. C. McClelland; treasurer, W. G. Mathes.

Committee on constitution and by-laws—A. C. McClelland, W. F. White, P. B. Barber.

Membership committee—Dot Harco, Frank Armstrong, Aiva Hooper.

Board of directors—W. F. White, chairman; P. B. Barber, E. Q. Perry, J. C. Hooper, Frank Armstrong.

Committee on entertainment—Bob Harte, chairman; W. Turner, Oliver Anderson, E. C. Richards, Carter Lindsay.

The matter of holding an auto show was discussed but passed to another meeting.

Will Average Ten Bushels

Bradford Cox of east of Plainview is recognized as one of the most successful wheat farmers in the county. He has been over Hale and Foyd counties and estimated the yield this year will average ten bushels or more per acre for the two counties.

Farmers Busy Planting Cotton

The farmers of Hale county are now busy planting cotton. The acreage this year will be greatly increased over that of last year.

Three new gins are being erected in the county—in Plainview, Abernathy and Petersburg.

Gas May Go to 50c

It is predicted that the price of gasoline will continue to climb, and may reach 50c a gallon. The local retail price has been 31c for two or three months. In some places, especially in the East, the price is higher.

K. P. Grand Chancellor Coming

Chas. Brewington, grand chancellor of the Knights of Pythias of Texas, will be in Plainview June 14, to visit the local lodge. R. B. Tudor says a big lodge meeting will be held, and all Pythians are urged to attend.

CONE JOHNSON HEADS DEMOCRATIC DELEGATION

DELEGATION TO NATIONAL CONVENTION GOES INSTRUCTED AS TO CANDIDATES

The democratic state convention at Dallas this week was all one way—1,333 votes pledged to the administration and forty-two contested, in which contests administration delegates were seated.

Everything was done in a harmonious way, and a loyal state delegation was sent to San Francisco to cast Texas' forty votes. A number of women were named as delegates. The delegates are pledged to vote against any modification of the prohibition laws. The national administration, the league of nations and woman's suffrage were endorsed.

McAdoo was endorsed for president but the delegates go uninstructed.

The delegates from this congressional district are W. A. Palmer of Hemphill county, R. A. Underwood of Hale county; alternates, H. P. Hill of Wheeler county, Mrs. R. S. Thompson of Potter county. Presidential elector, T. B. Barton of Potter county.

Delegates at large elected include: Cone Johnson, Tyler; Gov. W. P. Hobby, Austin; Cullen F. Thomas, Dallas; M. M. Crane, Dallas; Marshal Hicks, San Antonio; T. M. Campbell, Palestine; Thomas H. Bail, Houston; Clyde A. Sweeton, Greenville; Hugh N. Fitzgerald, Fort Worth; J. A. Kemp, Wichita Falls; Barry Miller, Dallas; I. W. Stephens, Fort Worth; Mrs. Minnie F. Cunningham, Galveston; Margie E. Neal, Carthage; Mrs. W. E. Spell, Waco and Jessie D. Ames, Georgetown.

LAMB COUNTY MAY VOTE ON \$250,000 ROAD BONDS

Plan to Build Two First Class Roads Across County—Thinks Will Carry

Fred Schriener of near Olton was here Tuesday attending the Bankhead highway meeting.

He stated that it was planned to hold an election in Lamb county in July or August to vote \$250,000 road bonds, and that he is of the opinion the proposition will carry by a vote of 9 to 1.

It is planned to build a first-class highway each way across the county, and may hard-surface all or part of it, as some good hard-surfacing material is found in abundance in the county.

It is proposed to join up with the Bankhead highway, which extends through Hale and Lamb counties.

Buys Interest in Bakery

H. M. Cawrey has bought a half interest with Lynn Pace in the Pace bakery, and the firm name has been changed to Pace & Cawrey. Mr. Cawrey has been baker in the bakery for two or three months.

Bankhead Highway Convention May Be Held Here

Dr. Kelley of Arkansas, field agent for the central or four-states division of the Bankhead highway, while here this week stated that he would urge that the divisional convention be held in Plainview in July.

The division extends from Hot Springs through Western Arkansas, Oklahoma, the Texas Panhandle and Plains, and Eastern New Mexico, and three hundred delegates will likely attend.

Plainview has extended an invitation to the association to hold the convention here.

ROUND ABOUT TOWN.

Dr. J. E. Nunn of Amarillo was here Thursday attending Wayland college commencement and a meeting of the board of trustees, of which he is a member.

Geo. Doubleday and family, formerly of Plainview, have moved back to Amarillo from Fort Worth, and he and his two sons have positions in the Amarillo National Bank.

Mr. and Mrs. Milsap of Jones county have been here for some days visiting their daughter, Mrs. Chil Slaton. Mr. Milsap has informed us that crops are good in Jones county, but that planting has been delayed by continued rains.

C. E. O'Neill of Galesburg, Ill., and daughter-in-law, Mrs. L. P. O'Neill of Fort Worth, were here Monday en route to his farm near Petersburg to spend several days. Mr. O'Neill says the spring was very late in his state, and was rainy and cold.

Miss Beulah Mae Henderson returned from Lockney Friday morning, where she attended the Epworth League annual conference Tuesday, Wednesday and Thursday. She reports and interesting conference. The conference will meet at Merkel next year and will last for four days.

T. A. Miller of Fort Worth came in this morning to attend to business matters and visit his brother, D. L. Miller. Mr. Miller has since the opening of the Ranger oil field been engaged in dealing in oil lands, leases and royalties, and we understand has profited greatly. He used to be one of the proprietors of the Cash Grocery here. He says fine rains have fallen most everywhere and crops from Fort Worth to Plainview could not be better.

1219 Enrolled Past Year

Superintendent W. E. Patty informs us that 1,219 pupils were enrolled in Plainview public schools the past year.

So far, it has been acknowledged, the campaign committee of Gen. Leonard Wood has spent about \$750,000, of which \$500,000 has been contributed by W. C. Proctor.

Another Rain Wednesday

A heavy rain fell here Wednesday afternoon and night.

FIFTH ANNUAL CHAUTAUQUA IS NOW BEING HELD

LARGE CROWDS ATTENDING—PROGRAMS INTERESTING, ENTERTAINING

The fifth annual Plainview chautauqua, under the Redpath-Horner bureau, is now in progress. Large crowds are attending the programs, afternoons and nights. The sale of tickets has already gone beyond the amount of the local committees guarantee.

The programs begun Wednesday will close Monday night.

Hilton I. Jones gave an instructive lecture on electricity Wednesday night. Harry L. Fogleman, efficiency expert lectured last night; he also delivered an address to business men on salesmanship at the Methodist church at noon. Ernest C. Mobley, formerly of Amarillo, lectured this afternoon on "America at the Cross Roads." He addressed the Kiwanis club at its weekly luncheon at noon today.

Candidates Must File Names

To Candidates for County and Precinct Offices:

You are hereby requested to meet with the democratic executive committee on the third Monday in June, at 2 o'clock in the afternoon, at the courthouse, for the purpose of having it decided by said committee whether a plurality or majority vote shall nominate.

You are hereby notified that the law requires a candidate to file with me, not later than the Saturday before the third Monday in June, a written request for his name to be printed upon the official ballot as a candidate for the nomination or position named therein, giving his occupation and postoffice address, giving the street and number of his residence, if within a city or town, such request to be signed and acknowledged by him before some officer authorized to take acknowledgement to deeds.

W. W. KIRK,

Chairman, Democratic Executive Committee.

Visits of the Stork

Born to Mr. and Mrs. Everett B. Rosser, Plainview, May 15, girl; named Cassie Marie.

Chas. W. Davis, Plainview, May 29, boy; named Chas. W. Jr.

Rex Duke, near Hale Center, May 17, girl; named Betty Jane.

K. C. Sterrett, Abernathy, May 13, girl.

Four-Inch Rain Wednesday

F. Davenport was in town Thursday morning, en route to Amarillo, and reported that a four-inch rain fell on his farms seven miles north of Lockney Wednesday afternoon and night.

He has 1,300 acres in wheat this year, besides other crops.

Barges and Granaries

The lumber yards are furnishing considerable material for the building of granaries and barges for the handling of the big wheat crop that will be harvested, beginning within less than a month.

Democratic Committee to Meet

The Hale county democratic committee will meet in Plainview Monday, June 21, at 2 o'clock, to decide whether to hold a majority or second primary for county nominations.

Each member of the committee is urged to be present, also each candidate for county office.

Prof. L. B. Morris, of the Plainview public schools, has been elected superintendent of the public school in McGregor.

PLAINVIEW RED LETTER EVENTS

Attend the meeting at the court house at 2 o'clock this afternoon to plan for the county fair next fall.

Boost for a big Fourth of July celebration. Let's make it a hum-dinger.

Remember the big bargain sales by Plainview stores will continue the rest of May. You had better hurry!

WILSON VEToes PEACE RESOLUTION—GIVES REASONS

WOULD MEAN COMPLETE SURRENDER RIGHTS OF U. S. TO GERMANY, HE SAYS

Washington, May 27.—President Wilson vetoed the peace resolution today and informed congress he could not become a party to the peace program framed by republican leaders of the senate and house, because he considered it would put an "ineffaceable stain" on the nation's honor.

To establish technical peace by such a method, the president said, in his veto message, would be to effect a "complete surrender of the rights of the United States so far as Germany is concerned" and to relinquish all the high purposes which led the nation into war and which were embodied in the rejected treaty of Versailles.

The president's veto apparently brought to a final deadlock efforts of the president's administration and congress to agree on a peace program.

Republican leaders conceded they could not pass the resolution over the executive's veto though an attempt will be made in the house tomorrow and on both sides it was predicted that the issues of the treaty controversy would have to be fought out in the political campaign with democrats and republicans blaming each other for the failure to effect a state of peace.

The president did not indicate whether he might again submit the treaty to the senate for ratification but he said the resolution raised again the question of whether the United States would withdraw apart from the rest of the world or join with other nations in attaining the end for which the treaty was framed.

The veto had been expected and republican leaders made plans to close the incident promptly by a record vote on re-passage of the resolution. Mostly senate and house leaders refrained from comment.

Oil Towns are Now Dull

A former Plainviewian, who is civil engineer for one of the big oil corporations with headquarters in Fort Worth, was here this week, and said Fort Worth, Ranger and the oil boom towns are now quite dull, and getting duller.

The oil boom seems to have passed, and the speculation part has about ceased. Many of the oil wells have ceased to produce oil in paying quantities. Many of the drilling companies are moving to other fields from Ranger and Desdemona.

Marriage Licenses

O. B. Guin and Miss Ola Temples, May 19. Both parties live north of Lockney on the F. Davenport farms. They were married here that day by Dr. E. E. Robinson.

Charles L. Bolding and Miss eVda LeMay, May 20. Both parties live near Floydada, and were married at the court house the same day.

J. A. Covington and Miss Esther Mitchell, May 22.

Bug Graves Pardoned

Bug Graves, who was convicted in the district court of Crosby county, April 18, 1919, of the murder of Joe Wrotan, in the Wake community and sentenced to serve 25 years in the penitentiary, has been recently pardoned.—Ralls Banner.

Alf-alf-a Tea Being Sold

The Plainview Bottling Works is now actually making Alf-alf-a tea, and it is being sold at some of the cold drink fountains in Plainview. Try it, and be convinced that it is a delectable drink.

PANHANDLE BAPTIST ASSEMBLY WILL BE HELD HERE

Programs at Wayland College June 16-20—Addresses by Prominent Men

The Panhandle Baptist Assembly will be held at Wayland college, in Plainview, June 16-20, so announcement was made yesterday by Dr. E. B. Atwood, president of the college. A number of prominent Baptists will be present and take part in the programs at the assembly, among them being Dr. F. S. Groner, secretary of the state Baptist convention. A large attendance is anticipated. The program includes addresses as follows:

Sunday School Work—Sec'y Wm. P. Phillips.

E. Y. P. U. Work.—Sec'y T. C. Gardner.

Missions and Denominational Work—Gen. Sec'y F. S. Groner.

Devotional Hour.—Dr. O. L. Powell.

Inspirational Addresses.—Dr. H. W. Virgin, H. J. Matthews, D. M. Gardner, J. R. Hicks, W. L. Tubbs, W. H. Sims, J. E. McClurkin and others.

Million Bushels Wheat Crop in Hale County

Albert G. Hinn, proprietor of the Harvest Queen Mills, told the editor of the News this week that he estimated the total yield of wheat in Hale county this year will be one million bushels. The acreage is about 100,000 acres, hence it seems the average will be ten bushels, according to his estimate.

PRINT PAPER PRICES ARE STILL SOARING

PRICE IS NOW 15c POUND—WAS 8c LAST CHRISTMAS—2c FOUR YEARS AGO

The price of print paper is now 15c a pound and freight. It was 2c a pound four years ago, and was 8c a pound January 1st, when the News increased its subscription rate from \$1.50 to \$2.00 a year. The blank paper that goes into a year's subscription to the News is now about \$2.50 a year, not counting the ink and postage.

Not only is the price high and will go to 20c a pound soon, but it is hard to get. The News has a standing contract for a ton of print paper each month from one of the largest paper houses in the west. This month we asked for an extra ton to take care of the deficiency caused by printing so many large circulars for the big sales and the trade excursion advertising. We have a letter from the paper house saying: "We cannot let you have but 500 pounds extra, which we are shipping. You will simply have to quit using print paper for circular work. We will be able to furnish you a ton of paper each month, at the market price, and can do this regularly, out you must keep within this supply."

So that is the way the matter is. It is folly to expect us to continue to longer send the paper at \$2.00 a year, and thus lose more than 50c on each subscription. It is our intention to within a few days raise our subscription rates, also our advertising rates will be raised June 1.

Caught Big Black Bass

L. M. Faulkner, Bob Bonner and several other local citizens went fishing the week end on the Tule creek and canyon at the Reeves ranch in Swisher county. They caught one five-pound black bass, several four-pounders and a number of smaller ones, besides other fish. For fear that somebody might think the stories were an exaggeration they brought the heads of the biggest ones to town to show them—it is always best you know for a fisherman to substantiate his stories.

They also dug out four young coyotes and brought them to town alive.

Predicts \$5 Wheat

Seattle, May 21.—Five dollar wheat may be expected before the 1921 crop is harvested, Louis Hill, chairman of the board of directors of the Great Northern railroad, said today. He said it has been impossible for growers to hire enough men to plant the crop and that they would be hampered by lack of harvest hands.

PLAINVIEW TO HAVE A GOOD BASE BALL PARK

ELKS RAISING \$1,250 BY SELLING 125 SEASON TICKETS AT \$10

Plainview is to have a good base ball park, with ample grand stand facilities, etc.

The base ball committee of the Elks lodge is taking subscriptions for 125 season tickets, with grand stand seat, at \$10 each.

The cost of the proposed park is \$1,250. The place will be fenced in and grand stand built.

This is a good move, as the Elks and the high school have excellent base ball teams, so have most of the neighboring towns, hence interesting games should be played here this summer.

Auto Wheel Aligner

The McGlasson-Armstrong Rubber Co. has just received a front wheel aligner, to accurately measure the alignment of automobiles. It is said that fully half of the cars have their front wheels out of alignment.

Cattle Loans Given Preference

The federal reserve banks have been ordered to give preference to loans to livestock raisers, in order to help them out of the present credit emergency.

Runningwater Defeats Kress

Runningwater gave Kress a defeat in an interesting closely contested fourteen-inning game of baseball Friday afternoon at Runningwater, the score being 6 to 5.

We have noticed that it is not hard to get a girl with dimples to smile.

Sympathizing with the under-dog is alright in theory, but most people had rather give him a kick than a pat.

Even the bees are on a strike. They have cut down the production of honey and the price has increased greatly.

Dwight Lewellen has "flew the track" in the gubernatorial race. The fact is Dwight was never very much in the race.

The A. & M. college has sent out a bulletin declaring that "buttermilk is a good drink." Sure it is, it ranks second only to Alf-alf-a tea.

We once were young but now we are older, and we have noticed that every time a new way to make money is discovered, a dozen new ways to spend it are found.

A Hale county citizen says he hasn't taken a vacation in fifteen years. That's nothing; some of the bunch on the corner haven't done a lick o' fwork for twenty years.

Worse and more of it. Is Texas to be forever bothered with him? It is announced that Joe Bailey is to return to Texas and begin another campaign, and will speak at Atlanta June 9.

Editor Haskett of the Childress Index says a sow in that county dropped a litter of nineteen pigs, and has only fifteen faucets to care for them, hence, if raised, the others will be bottle pigs.

The assassination of Carranza proves quite conclusively that Mexico is still far from being capable of self-government. What to do with poor old Mexico is indeed a problem for Western world statesmen.

The doctors have advanced their obstetrics charge; the cost of food, clothing and everything used during life is double what it used to be; the undertakers have advanced their prices 200 per cent, and the grave-diggers are charging more. Doubtless the purgatorial entrance fees have been advanced, also—and they now get us "coming, going and gone."

Never before was there such a weak and unpromising list of candidates for the presidency, both democrat and republican, as now before the people. Each and everyone has some fatal defect. Surely of all times this country now needs a great statesman to pull it through the reconstructive period, but where will such a man be found? Surely not among those being groomed for the presidency.

A certain way to get "bumped off" is to become president of Mexico. A nation that assassinates her chief men is far down in the scale of civilization. The nations of the Western hemisphere should join and appoint a joint commission to take over Mexico and rule the country until a sound strong government, peace and prosperity are restored—then turn it back to the Mexicans. Civilization demands that such be done.

It has come at last—civil service pensions. President Wilson this week signed a bill providing for the retirement of government employees and their pensioning for life, after having served a certain number of years. Government employees have been lobbying for this law for twenty-five years or more. It is a mighty bad law. Why should the tax-payers, who have to work hard, save and do without things in order to have something to live on when old, be made to pay pensions to government employees who work seven hours a day, get two months' vacation at full pay each year, have many holidays without being docked for the time, and who get good salaries regularly? It is an outrage that congress and the president have foisted upon the taxpayers of the country. It is a burden that should not be put upon their shoulders. A government employee who cannot save enough in twenty-five or thirty years to live on the rest of his life don't deserve any help or sympathy.

The Texas Republic, republican, of San Antonio, appeals to Bailey, when he is defeated in the July primary, to lead his 100,000 supporters into the republican party in the November election, and attempt to elect the republican state ticket and throw the electoral vote to the republican presidential ticket. So far as the News is concerned, we hope that Bailey will quit the democratic party and join the republicans. He has been more of a republican than a democrat for many years. He has been trying to destroy the democratic party and build up the republican party for a long time. We had rather have him in the other party fighting openly, than in the democratic party acting the traitor. Yes, by all means let Bailey and those he can lead go to the republicans.

IT'S NOT FAIR

We have heard during the past week or more a great deal about the topping of prices.

Clothing and dry goods prices have been cut 20 to 50 per cent. Some say it is the beginning of permanent lower prices; others say it is but temporary and is merely the semi-annual clearance sales.

Retail food prices have been affected very little, though the prices paid farmers and stockmen for their products have broken considerably. Hence it seems to us that the producers are the ones being made "the goat" in this lower price crusade.

If the producer gets a lower price and the consumer has to pay the same, who is it that benefits from the break in prices?

You can depend upon it that both the producer and the consumer get it in the neck every time.

The price of a steer which it has taken a stockman four years to raise at great cost of feed, more than double within the few hours or days that it takes to pass through the middlemen to the consumer.

The same can be said of the products of the farm from the time they leave the hands of the farmer until they reach the consumer.

It isn't right for the middlemen to more than double the price paid the stockman for a steer, a hog, or a sheep.

It isn't right for the middleman to more than double the price paid the farmer for his produce.

It isn't right to charge the consumers \$3.00 a bushel for peaches that were bought in East Texas at 30c f. o. b. the cars, when the freight and other expenses of handling are less than 25c.

Of course, we all knew that the first persons to feel the effects of lower prices would be the producers—not that it is right they should do so, but because it always happens that way.

The producer is nearly always made the "goat."

In Illinois "Buy Nothing Clubs" are being organized, the aim being to refuse to buy luxuries and things that a person can get along without. If most everybody would do this for thirty or sixty days prices would seek a much lower level. As long as people buy everything they see or hear about, just that long will prices be skyhigh.

A New Mexico newspaper man was fined \$500 a few days ago for permitting a boy under 14 years of age to work in his shop. There is a federal anti-child labor law which does not permit anyone under fourteen to work in a manufacturing plant, and newspaper offices are so held. This means that there will be fewer printers as the years go by, as unless a boy begins working as "devil" at an earlier age he rarely becomes a printer, or at and above that age he wants higher pay than a newspaper can afford to pay for an inexperienced hand, especially as an apprentice is always for a year or more worth less than nothing in an office. Some of our so-called "uplift" laws are indeed crazy affairs.

President Wilson has asked the senate to permit this country to accept a mandate over Armenia, for he "believes it is the wish of the American people." It is quite evident that the president does not know the wishes of the American people as well as he thinks he does. If the matter was left to a vote of the people of this country it is a safe bet they would turn it down by an overwhelming majority. This country should not take a mandate over any country in the old world; it should keep itself out of their racial hatreds and politics.

Mr. Bryan has come out boldly against the proposed acceptance of this country of a mandate over Armenia. He argues that it is not right for this country to do so, besides violating the very basic foundation upon which America was laid. Democrats and republicans in congress are up in arms against the proposal. Surely it will be overwhelmingly rejected. It should be.

The female vote of the nation is causing the leaders in both parties to lose lots of sleep. The women are showing an independence that is heart-rending to the political bosses. Then, they are threatening to vote against any party or candidate that favors repeal of the prohibition laws. This threat puts a crimp in the plans of the liquor forces and the thirsty patriots.

MERITED HONORS

The Plainview Trade Excursion of three days last week was a success, and its success was due to the energy and management of the several young men who had it in charge.

Paul Barker mapped out the route and schedule, and piloted the excursion. The schedule was a good, easy one, and everything moved on time. This was an important factor in the success of the enterprise.

G. V. Smith had charge of the general arrangements before and during the excursion, and he did his work well. He worked out all details and saw that they were properly executed.

Sidney P. Miller as treasurer and head of the advertising committee deserves credit for his excellent work. He and his committee raised about \$1,000 for the expense of the excursion, and he had supervision over the publicity matter put out advertising Plainview as the logical trading point of this section. His work was very efficient and effective.

Prof. R. M. Crabb was director of the band, and looked after the musical program at each stop. The band was a leading factor in securing a crowd at each town visited.

The quartette composed of Messrs. Cram, [Burkett, Truesdale and Cousineau, with the assistance at times of Mr. Englemann, added much to the entertainment of the people through their songs. Their "goat song" and their "Nobody Knows What Troubles I Have" song brought applause every time.

The orators of the excursion were Messrs. A. E. Boyd, A. C. Hatchell, J. G. Chancey, R. A. Underwood and R. H. Knoohuizen, and their happy optimistic, boosting talks were appreciated by the people who heard them.

There were others who had smaller parts in the excursion, in fact it was a fine set of fellows who made the trip.

And, by the way, we might mention that Wm. Gouldy and Sid Miller also looked after the young ladies in the towns along the route, and invited them to visit Plainview soon and often, whether they buy anything here or not.

THE WINNING CARD

Fogleman, the business efficiency expert and lecturer on salesmanship, in his address at the chautauqua last night laid special emphasis on un-failing courtesy.

The business man, the clerk, the laborer, everybody in fact, who is discourteous to customers, in fact to anybody, falls short to that extent. Discourtesy indicates lack of proper breeding, or a course streak, or a mental lapsis in the person who indulges in it.

Persons owe it to themselves as well as all others whom they come in contact with to be courteous all the time.

One discourteous clerk or employee can drive away more business than other clerks coupled with big appropriations for advertising can bring. The employee who is not courteous deserves "firing."

Courteousness is a winning card. Discourteousness and grouchiness are losing cards.

The grouch is always discourteous. Smile, even if your liver is out of order—and you'll be a winner, for people will like to do business with you.

Economy in individual expenditures, reduction of non-essential loans by banks, increased production and improved transportation are needed to reduce the cost of living and deflate credits, Governor Harding of the federal reserve board declared Tuesday in responding to a senate resolution of inquiry. It is not legislation but individual effort—work hard and economise—that is needed to settle the greater part of this country's present troubles.

It is said the American people are spending a million dollars a day for coffee, and that since national prohibition became effective the increase in coffee drinking has been great. Well, what of it? While it is quite sure that coffee drinking is to some extent injurious, it has never made a brute out of a man, nor brought him and his family to sorrow and poverty, neither has any man ever gotten drunk on coffee and gone home and tried to kill his family.

Most every man will pay his debts—when he has the money to do so. But few are willing to do without luxuries in order to pay their debts.

RED STAR VAPOR OIL STOVE

Works Like Gas

Is the most modern oil stove made. It produces a heat equal to a gas burner. It gives the best service, is economical, sanitary, simple to operate, its oven bakes perfectly, and the Red Star is made to last many years' hard usage. It roasts, bakes and fries—for its heat is easily regulated. The Red Star is handsome in design, and made in a number of sizes and styles. Burns kerosene, gasoline or distillate.

In Appreciation

We very much appreciate the interest shown in our first Tractor Show and Demonstration.

We trust that those of you who witnessed it are satisfied as to what an important place the tractor must play in the farming of the South Plains country—that you and your neighbors who do not now own tractors will decide to make the investment.

To those who were prevented from being present we suggest that you investigate various makes of tractors and decide early upon the one you feel will best meet your needs.

If there are other questions in your mind or further demonstration desired the dealers below will be more than pleased to be of service.

SOCIETY

Miss Esther Mitchell and Judson Covington Marry

At the home of the bride's parents, Mr. and Mrs. B. E. Mitchell, in this city, Sunday evening at 6 o'clock, Miss Esther Mitchell became the bride of Mr. Judson Covington, relatives and a few close friends witnessing the ceremony, which was performed by Rev. Harlan J. Matthews. Both were prominent students in Wayland college the past year. The bride graduated from Plainview high school in 1918. The groom was a student in Wayland before the war, but joined the army and saw more than a year's service across seas. He then returned to Wayland, graduating this year.

They will make their home in Floydada, and he will act as field agent for Wayland college this summer.

P. H. S. Seniors Entertained at J. H. Slaton Home

Monday night Miss Lela B. Slaton, salutatorian of the Plainview high school graduating class for this year, entertained the seniors at the home of her parents, after the commencement exercises at the high school.

The evening was pleasantly spent, and delicious refreshments were served.

The following teachers were also guests: Prof. R. W. Hamilton, Mrs. Vera Glasscock, Misses Lela Goode, Evangeline Matthaeh and Jessie Gilstrap.

Miss Ruby Hatcher and C. A. Shook Marry

C. A. Shook and Miss Ruby Hatcher were married Monday night by Rev. Harlan J. Matthews.

She is the daughter of Mr. and Mrs. J. D. Hatcher and he is the son of Mrs. L. E. Shook. They are well known young people of the town and have many friends who wish them much happiness and prosperity.

Civic League Will Beautify Street Corners

The Civic League is launching a plan to plant flowers in the circle around the light posts in the center of the streets at corners.

Those interested in the matter and will assist in this work will kindly phone Mrs. L. L. Dye, No. 288, president of the League.

The Board of City Development has agreed to co-operate with the ladies in beautifying the town.

Miss Bennett Given Farewell Luncheon

Miss Beulah Belle Bennett was honoree at a farewell luncheon given at the home of Mrs. A. B. Martin on Monday night, prior to her departure

for her home in North Texas. She has been a member of the public school faculty.

The luncheon was a four-course affair, and covers were laid for Misses Bennett, Mary Fox, Murtrice Saffles, Effie Murphy, Alma Armstrong, Flora Meadows and Evangeline Matthaeh.

Miss Josephine Goode to Marry Ralls Man

Announcement has been made that Miss Josephine Goode, daughter of Mr. and Mrs. R. J. Goode, of this city, will be married to Mr. Paul M. Stockton of Ralls, June 24th.

The bride-to-be has been a teacher in Plainview public school the past year.

Library Board Will Meet

The Library Board will meet next Wednesday afternoon at 3 o'clock at the library. All librarians or representatives of the board are urged to be present as there will be important business to be transacted.

Circle Met With Mrs. A. G. Hinn

Circle No. Four met at the home of the chairman, Mrs. A. G. Hinn, on May 24th.

Despite the fact that some of the leading members were seriously ill, a good attendance was had.

Mrs. Scott of Missouri was a pleasant visitor.

Bible study was completed up to the book of Leviticus. In a short business session the matter of early payment on the auxiliary pledge was discussed and stressed.

The meeting adjourned to meet with Mrs. J. L. Martin at her home on Galveston Street, June 24th.

Allen Buys Fine Wyandottes

W. J. Klinger, secretary of the West Texas Poultry Show, has sold his entire flock of White Wyandotte chickens to Mr. O. L. Allen of the Aiken community. In this flock is the cockerel that took first place in Wyandotte class at the show in December, 1919. With the facilities that Mr. Allen has this flock will be brought up until it will be the best in West Texas as he has a first class foundation for starting. Mr. Allen will for a short time be able to furnish settings at special prices.—Adv.

Ten miles used to be a long way

WHAT a difference in these motor-car days, when every point in the county is hardly more than "just around the corner."

People's ideas are changing, too.

They're beginning to figure out how much it is costing them to keep a car. And the man who is doing the greatest amount of figuring is the man with the moderate-price car.

There still seems to be a notion in some quarters that any tire is good enough for a small car.

That's not what the man who owns it thinks.

In recommending and selling U. S. Tires we are trying to see his side of the propo-

sition—finding out what he wants in a tire and giving him that.

Large or small, U. S. Tires are built to only one standard of quality—the standard that produced the first straight side automobile tire, the first pneumatic truck tire.

Every tire that bears the name "U. S." is built the best way its makers know how. It isn't the car, but the man who owns the car, that counts with the oldest and largest rubber concern in the world.

As representatives of U. S. Tires in this town, we offer you the benefit of our experience and advice in settling your tire problem.

Select your tires according to the roads they have to travel:
In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.
For ordinary country roads—The U. S. Chain or Usco.
For front wheels—The U. S. Plain.
For best results—everywhere—U. S. Royal Cords.

CHIC COAT ON RUSSIAN LINES

There is no style that has more chic character than that of the Russian blouse and none so becoming to thin women. Here is a perfectly new achievement in a coat cut with remarkable cleverness in Russian blouse lines, although it is not a blouse at all. Its designer is to be credited with about the most original piece of work that the season has so far presented.
 In this model of tan-colored cloth, the fullness that is usually belted in, in the Russian blouse, is cut away at the waist line, and arranged in plaits above and below it, in the manner shown by the picture. A folded belt is smartly trimmed with round buttons and the long sleeves flare and turn back at the waist.

**IN SACRED MEMORY
 OF OUR NATION'S DEAD
 DECORATION DAY
 1920**

In silent, reverent tribute to the memory of our fallen dead, this nation mourns today.

On every Decoration Day, we bring to the graves of the heroes of this land our flowers, our tears, and our benedictions: as, consecrated to the memory of their valor and high courage, we pledge ourselves anew to keep the faith with them.

Sleep sweetly on, our Nation's dead,
 Where Southern sunbeams glance;
 Beneath the violets of the North—
 The poppy fields of France.
 Sleep sweetly, too, where none can see,
 Beneath the troubled waves—
 Today our flowers, our hearts, our love
 We lay upon your graves.

Sleep sweetly in your olive drab,
 Or in your gray or blue,
 There is a moment of love
 In every heart for you.
 Sleep sweetly on, in quiet repose,
 Within your simple grave,
 Our blessings on your resting place
 And for the gift you gave.

*The Hart-Parr 30 Record at the Big Ohio Tests Show
 The Results of Many Years of "Knowing How"*

The farm tractor built by "The Founders of the Tractor Industry" developed 26 1-2 drawbar horsepower, 96 per cent more than the average of all other three-plow tractors in tests. In making this record the Hart-Parr 30 plowed 10 1-2 inches deep in old timothy sod at 3.08 miles an hour.

The Hart-Parr 30 is built entirely in our own big factory—a large output at a low manufacturing cost. If tractors were sold by horsepower developed, the Hart-Parr 30 would be worth from one-third to three times more than any other three-plow tractor in the Ohio tests.

Joe Mounts, who has been attending Clarendon college, came home Thursday.

J. L. Monroe returned from Amarillo Friday morning. He attended the Panhandle convention of I. O. O. F. and D. of R.

Yes! The Dallas boosters stopped here Friday morning.

Mr. and Mrs. J. E. Cox left Friday for Cloudcroft, N. M. They went in their car and expect to make an extended trip into the West and Northwest before returning home.

Prof. W. G. Sears went to Austin Sunday morning in the interest of our school.

Nick Alley and wife, Mrs. M. K. Alley and Mrs. J. J. Roberts, Jr., came in from Dallas Saturday night. They made the trip in Mr. Alley's car.

Silas Maggard and family and Mr. and Mrs. R. M. McWhorter left for New Mexico Friday to visit relatives.

Mr. and Mrs. T. F. Mounts and daughters, Hattie and Maetta, returned Saturday evening from their overland trip to points south and east. They report a splendid time.

Editor G. R. Scott and daughter, Elizabeth, left for Dallas Saturday night.

Dr. R. W. Sanders and wife and niece, Miss Gertude Hunt, left Saturday afternoon to be gone a few weeks. Mrs. Sanders goes to Oklahoma and Iowa, and the Doctor expecting to visit several California points.

Prof. D. A. Snellings and family arrived Saturday night from Higgins to spend Sunday with their many friends here. The Professor was on his way to the State University.

Rev. H. A. Lynch from Cincinnati Ohio, has accepted the pastorate of the Presbyterian church here.

Rev. J. H. Bone was down from Miami Saturday on business. He has sold his residence here to Ed Short.

Misses Grace and Jessie Bryant and Merle Bailey are home from Clarendon college.

Miss Byrd Shepard returned from Miami Monday, where she had spent the past three weeks with her grand parents, Rev. and Mrs. Bone.

Lower Shoe Prices Next Spring

Washington, May 25.—Lower shoe prices late next winter and spring were predicted today by Edward A. Brand, secretary of the Tanned

Council of the United States, testifying before a senate committee of inquiry. He said price declines could not occur before that time, as shoes are made up far in advance.

Texas Republicans Split

The republican state convention in session at San Antonio resulted in a

That Drop Seat Pleases Every Man

No wonder farmers are loud in their praises of SHIELDALS. That Drop Seat saves them the bother of "undressing" at intervals during the day. No need to take this suit off as you must do with the ordinary closed back suit. Just undo the back waist band buttons and the seat drops down.

And you get all the roomy, non-binding comfort, complete protection and safety about machinery afforded by one piece suit.

Tailored in Khaki, Blue and Brown Denim. Sturdy quality. Reinforced seams. Finished selvaige in pockets. Generous oversize. Your dealer should have Shieldals. If not, send us his name and your size and we will supply you through him.

THE CRACK O' DOOM FOR NASTY CALOMEL

Folks Abandoning Old Drug for "Dodson's Liver Tone," Here in South

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with your bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is

bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can not sallyate or make you sick.

WAVE OF SPENDING APPEARS RECEDING

Federal Reserve Bank Notes Declines in Prices of Livestock and Lumber

Dallas, May 26.—Demand for the public for luxuries and semi-luxuries decreased noticeably in April, according to the Eleventh Federal Reserve district bank report made public today.

Automobile salesmen reported more conservative buying by the public and sales of silk and the like by department stores slumped, the bank said.

"Other developments might be mentioned that point to a reaction from extravagance," the report stated. The nation wide tension in the money market was also declared to be making itself felt in the eleventh district, but it was also asserted there was no ground for serious alarm as regards financing essential requirements.

Farming conditions were reported more encouraging despite the adverse early season.

All through the report a downward trend in prices was indicated. This included live stock and lumber, but an advance in crude oil of 50 cents in the Texas coastal fields was registered.

Building was reported on the increase as compared with the same month of 1919.

To Drill for Oil Near Rock Creek

We have been reliably informed that preparations are being made to drill an oil well on the Allison place near the site of the Rock Creek school house, and that work will begin on it as soon as the equipment can be put on the ground. We learn that a geologist has been over the ground and made the location on top of the hill on the west side of the place, south of the Silverton-Tollia road. It is about 10 miles west of Silverton. Mr. Allison has large holdings near Vernon, the new addition to the oil fields, and no doubt is able to make a thorough test. Mr. Kinchlow, who lives on the place, has been taking leases on other lands in the vicinity, we understand.—Silverton Star.

Crisis in Freight Blockade

A grave crisis involving the industrial life of the country is said to now prevail in the railroad circles on account of the freight blockade which was started by the recent strikes of railroad switchmen. Unless the government at once takes charge of the matter things will be tied up almost completely.

Georgia Democrats Repudiate Wilson

EGG LOSES EIGHT PER CENT BY CARELESSNESS

Mishandling and Mismanagement Responsible for High Proportion of Unmarketable Products

Of the 1,957,000,000 dozen eggs produced annually in the United States it is estimated that nearly 8 per cent of those marketed are a total loss.

This is due largely to improper handling between the farm and the market. Many farmers look upon eggs as a by-product, and the returns as so much clear gain. The hens forage for living; eggs are gathered whenever convenient and kept almost anywhere. With such carelessness and a combination of mongrel stock, dirty nests, and stolen nests of broody hens, unconfined males, late-maturing pullets and other undesirable conditions, it is any wonder that the product includes a high percentage, and small cracked, dirty, stale, heated and even rotten eggs?

Occasionally the accumulations of all these kinds of eggs are taken to the country merchants and exchanged for merchandise. The merchant usually buys these eggs, "case count," paying the same price for all kinds and sizes, provided the shells are unbroken. Small production results in small or frequent shipments.

If possible, only non-fertile eggs should be produced for market. Fertile eggs deteriorate rapidly and are more the cause of much loss. A broody hen on the nest, or exposure to a temperature from the other sources, is liable to start incubation, causes all such eggs to be rejected when they are candled.

Eggs should be cared for carefully. Provide plenty of nests and keep them filled with clean nesting material; gather the eggs at least once a day (twice would be better), and store them in a well ventilated place, which must be kept as cool as possible. It is preferable not to wash eggs which are to be marketed, as washing removes the natural mucilaginous coating of the egg and opens the pores of the shell, so that washed eggs do not look or keep as well as eggs not washed. However, dirty eggs should not be marketed, and such eggs should either be used at home or cleaned before marketing.

In spite of the greatest care, it some times happens, under ordinary farm conditions, that an occasional bad egg appears among those sent to the market. All eggs from stolen nests or any not picked should be candled if they are marketed. Candling is the process of testing eggs by passing light through them so as to reveal the condition of the contents. A simple candling outfit may be made of an ordinary pasteboard or small wooden box, sufficiently large, after the ends have been removed, to be placed over an electric light or small hand lamp. Several holes to supply air to the lamp. A hole should be cut in the edges on which the box rests. The box should be large enough to prevent danger of catching fire.

Candling is done in the dark. Each egg is held to the hole in the side of the box, so its condition may be seen. An egg that shows any defect should not be marketed.

Prices Are Being Reduced

The prices of clothing and dry goods in the larger cities of the country are being reduced 20 to 50 per cent, and some declare it the beginning of permanent lower prices.

Retail food prices have been but little affected so far, but the prices of cattle, hogs, sheep, cotton, corn and other products in the hands of the producers have broken considerably.

HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prine, of this place, says: "After the birth of my last child...I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time... I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. Cardui about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles...After about the second bottle I felt greatly improved...before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. E D should help you, too. Try it.

PRAIRIEVIEW

May 26.—Farmers are very busy at this time planting their crops. Wheat in this community is looking pretty good since the rains.

Three of the Edelman children are sick with the whooping cough.

W. G. Williams and son, J. C., moved their cattle to their Castro county ranch last week.

P. H. Connally and family of

Plainview were visiting their son, Pat, on Monday.

Earl Raper and wife were visiting home folks at Lockney last Wednesday.

Everyone is preparing for the Hale county singing convention which will meet at this place next Sunday, May 30. Everyone is invited to attend.

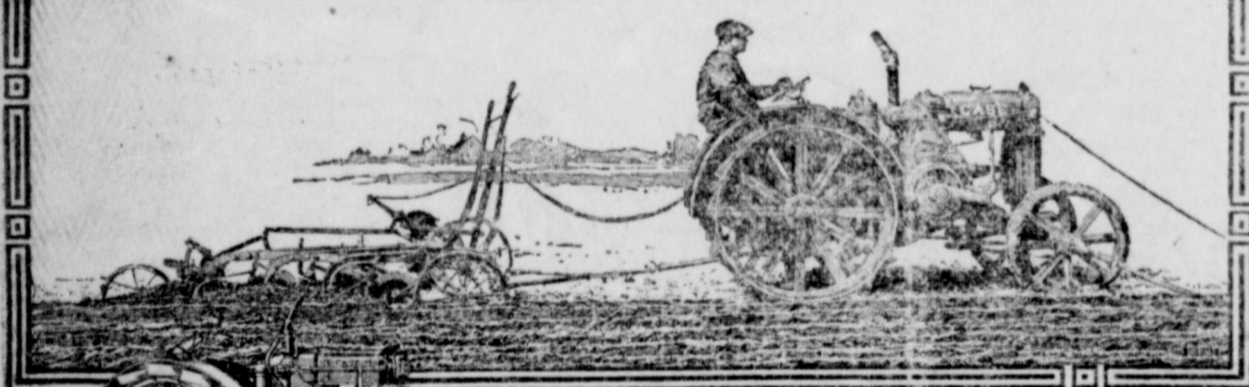

Rev. J. P. Ingle filled his regular appointment here Sunday afternoon.

Most everyone from this community attended the tractor show and demonstration in Plainview Saturday.

Grover Lemaster visited in Plainview Saturday night.

Dwight Lewellen has "few track" in the gubernatorial race. The fact is Dwight was never very much in the race.

Case 15-27 Kerosene Tractor

Pulls 3 or 4 Plows

In fields where plowing is difficult—tough or baked soil, stiff grades, etc.—this Case 15-27 Kerosene Tractor will pull 3 plows easily. Where conditions are favorable, this tractor can pull 4 plows.

So it is a favorite on the average farm. It is neither too large nor too small.

In addition to its field work, it is designed for belt work, having the pulley properly placed. It will drive a Case 26x46 Thresher equipped with feeder and wind stacker or other machines requiring similar power.

The Case 15-27 has abundant reserve power. While rated at 15 horsepower on the drawbar, it can deliver more than 18

horsepower. While rated at 27 on the belt, it can deliver 33 horsepower. It is ever ready for the hardest jobs. It never tires.

All gears are cut steel, enclosed and run in oil. It has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece main frame. This affords the use of all spur gears.

A Case Siphon Thermostat controls the cooling system and insures complete combustion of kerosene. A Case air washer delivers clean air to the carburetor.

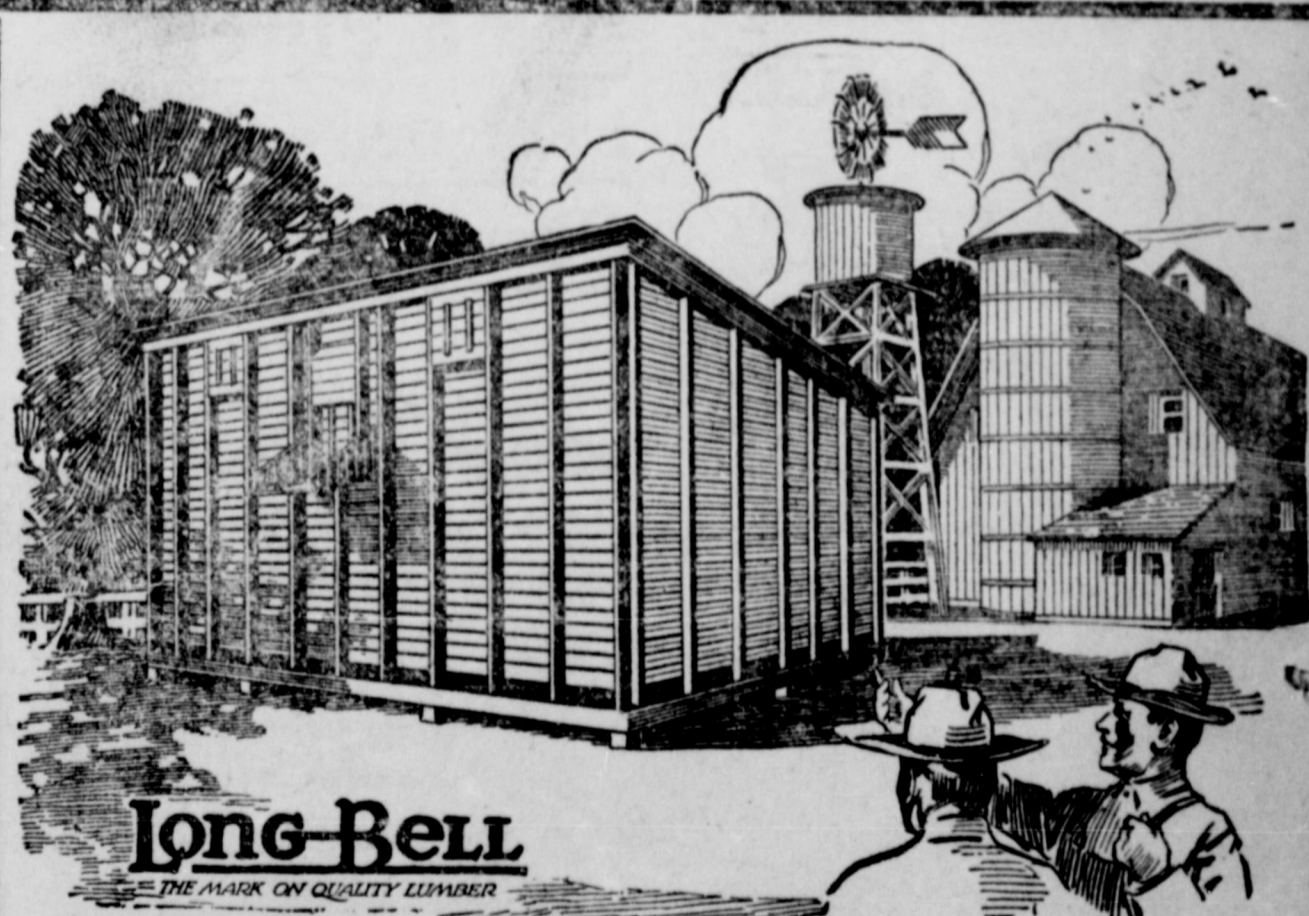

There are dozens of betterments found only in this tractor. You should be familiar with them, so that you may make a careful comparison.

May we have the opportunity soon to point out Case superiorities?

Long-Bell

THE MARK OF QUALITY LUMBER

A Better Price For Wheat

"That granary makes me money on every bushel of wheat I put in it. It is built of wood because wood keeps grain in better condition than any other material. It's easy to build with lumber and my granary was built in a hurry. The shiplap was nailed on the inside of the stalling, and I'll have the siding on next month.

Every good farm building is a money-saver or a money-maker. A granary keeps your wheat in good condition until you are ready to sell it. That means a better price for your wheat.

Experience has taught us what kind of storage buildings are best for your needs. It has also taught us what kind of lumber is best for each particular purpose. This service is yours for the asking.
