OUR EDITORIAL PURPOSE

"Be just, fear not; let all the ends thou aimest at be thy country's, thy God's and truths."—Shakespeare.

The new president of Mexico has issued a proclamation putting the country under prohibition.

Fancied dignity is the sure road to degradation, whereas humility leads by an unerring law to exaltation.

There isn't much wrong with the kind of man who feels good when a friend of his has a streak of good luck.

We are doubtless old-fashioned, for we have never seen any sense in a man using dumb-bills for exercise, when he can chop wood or cut weeds.

Editor Fred Haskett of the Childress Index should eradicate the millions of grasshoppers that are devastating crops in his country by feeding them on gin water.

Some of the unions up North are contending for a five days working week, in order to give laborers two days of rest. Why work at all? Why not everybody stop working—it is a great bother, anyway.

A local citizen who is thirsty declares that "licker and liberty have departed." We must acknowledge that "licker" has gone the way of the dodo. But liberty is still doing business at the old stand.

Georgia republicans have disgraced themselves by electing a negro for national committeeman. The decent republicans of the South have a hard time trying to make the party respectable.

When Chairman Hayes declared in his speech to the republican convention that "we are going to capture the offices," he got more applause than did another speaker. The republicans are surely a hungry bunch. The elephant has been without feed for eight years, you know.

Professional begging is very lucrative. At Vernon last week it was shown that a mendicant, who proved to be an imposter, some days received as much as \$150, however most days his receipts ran from \$25 to \$60. People should give nothing to traveling beggars. The city authorities should not permit them to work the town.

The Beacon says "we know how buttermilk is made, but there is too much mystery connected with the Alfalfa tea business." Of course you don't know how Alf-alf-a Tea is made. It is the mystery in its making that prompts a big drink manufacturing syndicate to offer for the exclusive right to make it \$50,000, with an additional royalty on every gallon made.

Gov. Edwards of New Jersey, candidate of the liquor interests for the democratic presidential nomination, urges that the people of the United States rise up and repeal the prohibition amendment. He is barking up the wrong tree. Forty-six of the forty-eight states voted to ratify the amendment. Does the tail ever wag the dog? If it were left to a vote of all the people of the United States possibly four-fifths would vote for continuance of prohibition. Prohibition has come to stay.

The lamentations of Job were mere jazz songs of joy compared to the wail of the Lockney Beacon when it contemplates the candidacy of Pat Neff for governor. It declares it declares it "would rather support Debbs than Neff." That is a very strong assertion, which we are quite sure the Beacon really does not mean to be taken in earnest. While Mr. Neff's land blank is not at all admirable, yet he is an able man, a Christian gentleman and a true American. While the News is not supporting any man for governor, if Mr. Neff is elected he will give the people of the state a good administration.

Dr. F. M. Bralley is president of the girls' College of Industrial Arts at Denton. He is an all-round man in addition to being a school president. A few days ago he declared "The pathways of life are populated with educated fools who have little or no conception of the realities of life. Many of the studies making up the curriculum of our colleges and universities are taught only because they were taught fifty or a hundred years ago in the European universities." He is a strong advocate of vocational training. He would train both the brain and the hands, to do the practical things of every day life.

Try a News Want Ad.

The great lawgiver, Moses, provided a land law whereby the land was apportioned among the people, and though it might be lost by debt or sold under stress, it was returned every 50 years to its original family ownership, at which time, called "The Year of Jubilee," there was practically a new social beginning. The rise of great landlords and a moneyed class was impossible under such a system, although the interim of 50 years gave ample scope for individual initiative to assert itself under fair competitive conditions.

GOV. HOBBY COMMENDED

Gov. Hobby is being commended by the commercial and agricultural interests and the general public of Texas for sending state troops to Galveston to protect the non-union dock laborers who have taken the places of the strikers.

The strike has been on for more than three months and millions of dollars' worth of manufacturing goods and agricultural products have been tied up in the port, thus handicapping and doing great loss to the commercial and agricultural interests of the state. The strike was called in sympathy with a strike in New York.

Why should strikes be permitted? Why should the public be made to suffer because laborers and employers get at loggerheads? Laws should be enacted at once prohibiting strikes and providing arbitration for all disputes.

Also, whenever a man has a job and wants to work nobody has the right and should not be permitted to threaten or intimidate him or say he shall not work. If needs be, the entire armed forces of the nation should be used to protect the man who wants to work.

Gov. Hobby is making Texas a good governor. He deserves the endorsement and help of the people.

BOOST FOR THE FAIR

The West Texas District Fair association has been organized, and will hold its first fair in Plainview the latter part of September.

The organization is ambitious. It expects to have a fair that will cover this section, and hopes to build up a great institution here which will be second only to the state fair, and will bring thousands of people together at each exhibition to see the wonderful display of farm, orchard, garden and ranch products.

If the people of the Plainview country will properly encourage this undertaking it will succeed and become a valuable asset to the county, growing in importance as the years pass.

Every business man and citizen of the town and county should co-operate with and encourage the fair. Let's make it a sure enough big fair.

JOHN IS DEAD

The U. S. supreme court Monday upheld the national prohibition amendment, thus forever banishing John Barleycorn from this land.

Levy Mayer, the head counsel for the liquor interests, said on hearing of the decision, "The fight is lost. The avenue of the courts is now exhausted."

The fight against John Barleycorn has been a long and bitter one—for John was a resourceful, unscrupulous and brutal fighter. But right always wins in the end.

America as a sober nation can dominate the world from every standpoint. Drunken nations cannot compete with sober nations.

In a few years people will have forgotten that there was ever such a thing as a saloon, and the coming generation will not want whiskey.

The decision of the supreme court means "bone dry" prohibition—that is the only kind that should be permitted.

Prohibition has come to stay.

Mr. Neff is out in a second letter explaining his "land plank." The more he explains it the worse he gets bogged up. Trying to ride two horses going different directions is a hard job—and always results in a calamity.

American manufactures 700,000,000 matches a year or 6,500 matches for each inhabitant. Thousands of men are employed, millions of dollars invested and vast forests cut down to meet the demand. Never sneer at the humble match.

Ex-Senator Chauncy Depew, the New York humorist, facetiously said in a speech at the republican convention that "all Wilson wanted at Versailles was heaven on earth." Well, there were so many there who had contributed to having a lot of hell on earth that it was good to have at least one man who stood for heaven.

A farmer asked us the other day to use our influence with the bunch on the corner to get them to help in the harvest fields. We have great influence with the bunch except on the question of work. They are constitutionally opposed to working, and their view on the subject is like the law of the Medes and the Persians—change it not.

In Hale County

All years is good years, There's never need to whine, But some of them is better, And this one's extra fine. For things is lookin' bully, In this land of bounty, And the songs of birds is ringin' Here in bloomin' Hale county.

IN A MINOR STRAIN

If some Plainview men were as big as they imagine they are the streets would have to be widened in order to let them pass along.

It is alright to believe that the Lord will provide. But you should not get the idea that he Lord is going to do your hustling for you.

A woman may flee from other kinds of temptations. But she'll stop in front of a milliner's window.

Visit of the Stork

Born to Mr. and Mrs. H. L. Stockton, near Plainview, May 10, boy; named Carl Marvin. W. L. McMillan, Petersburg, June 5, girl.

Want Passenger Rates Raised

Chicago.—Equalization of porpo increased freight rates between passenger and freight service was urged at the sessions of the executive committee of the American Farm Bureau Federation. It was declared that the farmers pay from 60 to 65 per cent of the freight revenue received by the railroads and that the passenger service should bear an equal raise in rates.

Drilling Oil Well at Friona Friona, June 9.—The Prairie Oil & Gas Company is putting down a

well here which will be sunk at least 4,000 feet to get production, it is claimed. A derrick 106 feet high has been erected and 4,500 feet of casing are on the ground. The company has 1,700 acres of leases in the vicinity of the well. The hole is down over 1,250 feet.

GRANARIES---GRANARIES

There will be such a CAR SHORTAGE that you will be forced to hold your wheat, Mr. Farmer, and it is to your advantage to build "GRANARIES" to care for it.

ACT now and be in position to save your WHEAT and get from FIFTEEN CENTS to FIFTY CENTS per bushel more than you would in case you had a chance to sell as you thresh, so beware

And,

Too, the cost is not so great, for we will furnish you a bill of material for a cost of about fifteen cents per bushel on a small GRANARY and on larger ones, the cost will be a little less.

PHONE ONE-SIX-THREE FOR SERVICE AND QUALITY

Removing callouses by taking off the pressure

from one or more of the bones which form the ball. Callouses on the sole are caused by pressure of the foot becoming lower than those on either side of it.

Bones in this exposed condition are forced to bear more weight than nature intended. To prevent it from forcing through, nature thickens the flesh beneath the bone by forming a callous. To further protect you, nature makes these callouses sensitive so that you will step on the lowered bone more carefully.

Complete relief from your callouses comes when you support the lowered bone in normal position with a Wizard Adjustable Arch Builder and Callous Reliever.

Beneath these all-leather Arch Builders and Callous Relievers are overlapping pockets, so located that inserts of any desired thickness can be placed in exactly the right spot to support the dislocated bones in normal position. Adjustments are simply made by shifting inserts or changing their thickness.

Being all leather, Wizard Lightfoot Adjustable Arch Builders and Callous Relievers are light, flexible and are worn without one being conscious of them.

Corns, weak arches, irregular walking or any other form of foot trouble permanently cured—consult our expert. This professional service is free.

Our \$16.50 value \$13.85

Mr. and Mrs. Roy Davis of Howe, Hunt county, are here to spend the summer, while he looks after the wheat harvest on his farm near East Mound school.

Mr. Golden and little daughter, who live nine miles east of town, returned this morning from down in

the state, where they had been to attend the funeral of his father.

Ivy Moon of Hale Center was in town yesterday. He said business continues good in his town. The wheat crop around there is good, but some fields are more or less affected with smut.

36 Farmers wrote this Advertisement for PLYMOUTH TWINE

FOR over twenty years I have been a user of Plymouth Twine. When I ran out of Plymouth I used other twine. This gave more or less trouble, but I have always found Plymouth Twine of uniform thickness.

In the thousands of pounds I have used I have never found a poor ball. It works equally well in a corn or wheat binder. Plymouth Twine is free from knots and snarls. It stands up in the twine ball until all used up. It never gets tangled. It will bind more straw per pound than other twine. It is the best in the long run. The most economical twine the farmer can use.

36 TWINE USERS.

EVERY statement in this advertisement was taken from letters written by actual users of Plymouth Twine—by men who are up against the same difficulties that you meet. They find that Plymouth helps them. It will help you.

R. C. Ware Hardware Co.

SOCIETY

Officers for Library Board

The following officers have been elected by the Library Board: Mrs. Murray Malone, president; Mrs. R. E. Meyers, vice president; Mrs. F. W. Vanderpool, secretary; Mrs. Claud Power, treasurer.

Civic League is Beautifying Town

On June 2nd, the regular monthly meeting of the Civic League was held with seven members present.

Committees reported having planted flowers around several of the lamp posts, at the fountain in the court yard, and on the west side of the city hall. Flowers consisted of Dahlias, Violets, Asters, Honeysuckles, Virginia Creepers and Zenias seed, most of which were donated by Mrs. Hooper.

The Civic Improvement committee reported willingness to co-operate with the League in their efforts to beautify vacant plots of ground and promises to have ground in plaza on paved streets, prepared for planting grass and trees this fall and attend to watering them.

On motion made by Mrs. Harrel league decided to have Maple trees planted this fall in center of plaza, in memory of our soldier boys, and to make the time of planting, a ceremonial occasion. All those who feel like contributing a Maple tree in memory of some loved one are asked to do so.

It was also decided to urge a more general observance of Arber Day, Feb. 22, than has heretofore been given.

Mrs. E. Lee Dye, Pres.
Mrs. Sansom, Sec.

Get-Acquainted Social At Presbyterian Church

There will be a Get-Acquainted social for the new pastor and family of the Presbyterian church, Monday, June 14th, at 7:30 p. m., at the Presbyterian church. All members and friends of the church are urged to be present.

Methodist Women's Missionary Auxiliary Will Meet Monday

The Woman's Missionary Auxiliary of the Methodist church will meet Monday afternoon at 3 o'clock at the church.

The program for the afternoon promises to be one of the most important given by the auxiliary for some time.

The delegates to the annual Woman's Missionary conference in Amarillo, Miss Ansley, Mesdames Boner, Williams, Dye and Carter, will give their reports, also delegates to the district meeting at Hereford, Mesdames Jones and Neal, will have a place on the program.

Prominent Musicians Will Give Concerts in Plainview

Three programs by very eminent musicians will be given in Plainview next Fall. A committee of local citizens have guaranteed the expense of the concerts.

One concert will be by Miss LoDesca Loveland, soprano. She is the daughter of Dr. Frank Loveland, one of the lecturers at the recent chautauqua, and a talented vocalist.

The second program will be by Edgar Schafeld, baritone.

The third will be by the Paulo Cruppe Co., violin, cello and piano, and also a tenor singer.

Will Hold Banquet

The members of the Automotive Association will participate in a banquet at the Cozy Cafe, in the Speed building, next Monday night.

Marshall-Nelson

Mr. E. S. Nelson and Miss Vera Marshall were recently married in Post City. The bride is the eldest daughter of Mr. and Mrs. J. E. Marshall of this city, and is held in highest esteem by all who know her. The groom is a prominent young expression of Clyde Texas.—Hale Center Record.

Club Will Meet With Mrs. Clyde Phillips

The Hale Center Needle Club will meet with Mrs. Clyde Phillips, Wednesday afternoon, June 16. Members will answer to roll call with "Current Events."

PETERSBURG

June 7.—Wheat begins to ripen. The harvest will begin the last of this month.

Rev. Brown and wife, who were badly burnt by a gasoline lamp, are getting along nicely. They are in the Lubbock Sanitarium.

Joe Jay, who is making his home in Cisco now, has been here with his parents for a few days, looking well and prosperous.

Mrs. Hannah has been spending the week with relatives in Amarillo. Prof. Pinson left Monday for the Canyon Normal. He has accepted his position here again.

School closed Friday. The programs were good both nights, and were appreciated by the patrons.

Mrs. Legg and son, Eugene, will spend the summer with her father at Proctor. She will teach here again.

Mr. Goode of Plainview was the guest in the Chas. Schuler home on Monday night.

Miss Pearl Roberson of Siloam Springs, Ark., has been here visiting her brother, and her many friends. She will attend the summer normal

JAP WOMEN DEMAND MUCH

Their Ideal Man Would Have to Be Something Above the Ordinary Run of Humanity.

The Japanese magazine Chouquovo Gohano (virtuous woman) invited its Japanese women readers to send in their opinions on what constitutes an ideal husband. Here are the thirteen virtues they demanded of a Jap hubby:

- He should not be greedy.
- He should not spend too much time "priming."
- He should have a manly appearance.
- He should not be too familiar with other women.
- He should express himself clearly.
- He should make prompt decisions.
- He should have high ideals.
- He should never show himself in the kitchen.
- He should never criticize the coiffure or the gowns of his wife or any other women.
- He should not bore his wife by telling her all his pet tastes.
- He should not drink too much.
- He should not be a dude.
- He should not be too jealous.

The symposium aroused the humor of the Japanese males, who sent in some suggestions of what constitutes an ideal wife. They paraphrased the last of the thirteen points and all agreed that "she should not be too jealous."

Invisible War Vessels.
Owing to the enormous range and accuracy of modern naval guns it is highly important for small war craft which depend upon speed rather than armor plate to weather the attacks of the enemy to render themselves as invisible as possible. Heretofore a dark-gray paint has been considered the best color to apply to a war vessel. Now experiments are being made with varieties of colors. Ideas are being borrowed from the mimicry of nature. We find certain animals coated with spotted fur and other ones upon the nature of their environment. In exactly the same way certain naval authorities are trying to render torpedo boats invisible by painting wavy stripes on them, which at great distance are scarcely distinguishable from the natural wave formation of the ocean's surface.

Bidding for Wine Tanks.
Wooden wine tanks made useless in California by prohibition still can be counted in the asset column of their owners. Buyers from Argentina, France and Italy, are already bidding for well-seasoned oak tanks. Redwood tanks are not as popular, but may be purchased by the foreign buyers.

H. Romero-Day of Buenos Aires is the first foreign buyer in the field, says an exchange. He is trying to obtain options before Pierre Martens of Paris and M. Collin of Rome arrive in California. Only 4,000 of the 14,000 wine tanks in the state are of oak. It is said Mr. Romero-Day is authorized to buy a shipment of knocked-down tanks for shipment to his country.

Norway's Building in London.
The British dominions now have great buildings in London, where their activity is centralized and proclaimed to the world. So far no foreign nation has an establishment of this kind, but Norway has acquired Victory house, Charing Cross, where Norwegian activity in London will be centralized. The sum paid for the building and site is \$1,125,000, the whole amount being raised by public subscription in Norway.

"The Woman Who Fed London."
One of the most interesting figures brought into the limelight of publicity during England's great railway strike was Miss E. M. Hopwood, now called "the woman who fed London." Miss Hopwood was secretary to a large commercial firm in the north of England, and her business ability was so well recognized that when the ministry of food was organized, she was called to the service of the government. She scored such success in her emergency warwork that she was appointed at the beginning of the railway strike as food distributing officer for the whole metropolitan area.

Mr. and Mrs. John Ryden and Mr. and Mrs. Paul Ryden and child will leave Saturday morning in their car for a trip of two months to their old home in Minneapolis, Minn.

Ruth and Albert Dickey of Amarillo are spending the summer with the family of their uncle, W. F. Cunningham in the Sunshine community.

Harry Edison to C. B. Gray, section 5, block P & F, 444.9 acres, \$14,681.76.

Advertise and Keep Alive

Do you load it at muzzle
When you want a shot or two?
Do you wind it with a watch key
Like your father used to do?
How'd you like to hop a horse car
Like you did long years ago?
Don't an auto beat an ox-cart?
Well, I rather reckon so.

Do you argue that an hour glass
Beats a Waltham all to swash?
Do you use the same old system
Keepin' books and countin' cash?
Do you trim a goose quill neatly
When you want the ink to flow?
Don't you think there's been improvement
In the last decade or so?
Tell us, are you advertising
In the same old foolish way
That your grand-dad did before you,
And persist, "It doesn't pay"?
Think the whole world knows your
address?
Cause it hasn't changed in
years??"

Wouldn't the pathos of such logic
Drive a billy goat to tears?
Just a card is all you care for?
Hidden, lonesome and unread,
Like the sign upon the tombstone
Telling folk that you are dead.
Wake up, and take a tonic,
Bunch your hits and make a drive!
Run a page and change your copy,
Advertise and keep alive!

The Cost of War

"Give me the money that has been spent for war, and I will purchase every foot of land upon the globe. I will clothe every man, woman and child in an attire of which kings and queens would be proud. I will build a school house on ever yhillside, and in every valley over the whole earth; I will build and academy in every town and endow it. A college in every state and fill it with able professors; I will crown every hill with a place of worship, consecrated to the promulgation of the gospel of peace; I will support in every pulpit an able teacher of righteousness, so that every Sabbath morning the chime on one hill should answer to the chime on another round the earth's wide circumference; and the voice of prayer, and the song of praise should ascend like a universal holocaust to heaven."—Henry Richard, in Encyclopedia of Quotations.

D. F. & R. to Have Fine Theatre

The construction of a new theater building to cost \$90,000 will begin immediately on the property between the new Ray & Johnson and the Green Brothers furniture buildings on Polk street. The theater will be erected by Sam L. Morris and has been secured by Dye, Ford & Rogers on long time lease. The new theater will be known as the Olympic.

The new building will be modern in every detail, built of white brick and terra cotta, three stories in front. The lobby and foyer will be floored with inlaid tile and the auditorium and balcony floors will be of concrete. The theater is designed to seat 700. Upholstered chairs are to be installed in both auditorium and balcony.

An electric gushing fountain will be placed in the foyer. A private telephone booth, rest rooms and toilet rooms will be conveniently located for the use of the patrons.—Amarillo Tribune.

I Chose the Tractor Built by the Farmers

Hart-Parr Company knows that a tractor that works all right on the factory floor may act differently when it is hitched to three plows, cutting their way through mother earth. They know that conditions vary in different sections, and they have built the Hart-Parr 30 to meet the actual conditions. They have done this by getting the farmers' viewpoints.

The Hart-Parr chief engineer and assistants travel throughout the farming communities of all America, making notes, incorporating new ideas, asking advice, watching the Hart-Parr 30 perform in the field under all conditions. RESULT: the Hart-Parr 30 IS A TRACTOR BUILT BY THE FARMERS, through the constructive brain of one of the nation's foremost tractor engineers.

The most important thing that the farmer want is POWER, and the Engineers work into the construction of the Hart-Parr 30 every practical engineering device to accomplish this end.

Accessibility to various parts of the Hart-Parr 30 is another feature much appreciated by tractor users; the convenience of the Belt Pulley—the fact that the Hart-Parr 30 burns kerosene as successfully as the other tractors burn gasoline—abundant power for three plows—the solid cast steel frame—are all details incorporated because the farmer insisted upon them.

When you hear a Hart-Parr owner say, "I choose a tractor built by farmers"—you know it's true.

The Hart-Parr 30 is a tractor built for the farmer, by the farmer.

Many of the old Hart-Parrs that plowed the virgin prairies of the Northwest are still in use today after 10 to 16 years of service.

NINETEEN YEARS TRACTOR BUILDING EXPERIENCE

Keep Tires Inflated

Seventy-five per cent of all automobile tires are damaged by being run without proper inflation, according to the engineering division of Iowa State college.

Tires should be pumped up so that they carry twenty pounds pressure per square inch of diameter of the tire. The only sure way to tell the pressure of a tire is with the use of a gauge test. Such as kicking, feel-

ing or noticing the manner of its resting on the road are not good indications. A reliable gauge is a good investment.

Soft tires break their fabric easily when they strike a sharp obstacle in the road, while a properly inflated one passes over it with but little damage.

The idea that tires should carry less pressure in hot weather is all wrong, say the engineers, since when

the tire is soft there is more damage done by heat and contact than could be done by a little extra inflatio. A tire generally blows out when heated due to a former crack in the fabric when it was not properly inflated.

See that the valves are in good shape or they will allow the escape of air and then the tire becomes soft before the driver notices it. The easiest way to test a valve is to turn the wheel so that the valve stem is

at the highest point and then immerse it in a glass of water. If bubbles appear in the water the valve leaks.

Amarillo Boy Drowns

Eschol Saye, age 18, son of A. Saye, Amarillo contractor, was drowned in the Palo Duro canyon near Happy yesterday afternoon. He and others were in bathing.
