RUN-OFF PRIMARY NEXT SATURDAY IS IMPORTANT

EVERY DEMOCRAT SHOULD VOTE—GREAT ISSUES ARE AT STAKE

The second or run-off primary will be next Saturday, for governor, lieutenant governor and associate justice of the supreme court.

Of course the governor's race overshadows the others, and every democratic man and woman qualified to vote should do so. On another page is the list of the presiding officers at each voting box in Hale county.

The democratic county committee has practically no money to pay the expenses of holding the election as the other primary cost about \$600, and the committee asks that the people of each voting box get persons to hold the election free of charge. Several presiding officers have agreed to do this. As the ticket is so short the work will be easy and require the services of only three persons except at Hale Center and the two Plainview boxes.

The indications are that Bailey will be overwhelmingly defeated, but those in domination of Texas by the Standard Oil Trust and old liquor machine must not fail to vote. Every person who is for Bailey can be depended upon to vote, and Bailey's only hope of success is that many of those opposing him will not take enough interest to vote. It would be the greatest calamity possible were Bailey to be nominated. Every woman who is qualified to vote should do so.

MRS. BRITAIN SUFFERS PARALYTIC STROKE

Is In Very Serious Condition In Fort Worth; Little Hope of Recovery

The News has a letter from Rev. G. I. Britain saying Mrs. Britain suffered a stroke of paralysis in that city Sunday, and is very seriously sick, the doctors giving the family little hope of her recovery. She has been sick for some time at the home of her son, at 1954 College Avenue in Fort Worth.

Her many friends on the Plains will regret to know of her being sick.

SUGAR AT 10c OR 11c BY JANUARY PREDICTED

Chicago, Aug. 21.—Sugar will be 10c or 11c a pound by January, Russell J. Poole, secretary of the City Council's high cost of living committee, stated in submitting the result of investigations today.

The country's best crop will be from 30 per cent to 40 per cent larger than any ever before produced, he also predicted.

The report states that the new Cuban crop will be about 4,000,000 tons, or three times the 1914 crop.

Mr. Poole said that "if consumers will begin now to buy as little sugar as they can get along with, they will have 10c or 11c sugar by Jan. 1, as there is no shortage."

Passenger Rates Not Raised

The state railroad commission holds that as the state law in Texas provides 3c a mile is the highest passenger rate railroads in this state can charge, it refuses to order an increase. The freight rates in the state are ordered increased 33 1-3 per cent.

John Lucas, local Santa Fe agent, declares he knows nothing of the refusal of the state railroad commission to permit the increase in passenger rates, but has received an order from the Santa Fe to add 20 per cent after tomorrow.

The best plan for those purchasing tickets to points in Texas is to require a receipt from the ticket agent, so they can get their money back if the 3c a mile of the state holds good.

League Meeting is Called

President Wilson has issued the call for the first meeting of the League of Nations, which is to be held November 15.

George Bethel, who used to live in Plainview, writes to us that he has moved from Detroit to Adrian, Mich., where he hopes to make his home the next hundred years, so he says. It is peculiar that good people will continue to live in an arctic country when they can live in the Plainview country. Of course, every person to their taste," said the girl when she kissed the cow.

First Christian Church

Mr. and Mrs. J. L. Stephens have gone to Rockdale, Milam county, to look after the harvesting of crops on the Stephens farms. They will be away several months.

ONLY DEMOCRATS WILL BE ALLOWED TO VOTE

Election Officer Has Right to Swear and Exclude Anybody He Doubts

While doubtless thousands of republicans, socialists and other anti-democrats will vote for a certain candidate in Saturday's primary, every effort will be made to keep anything but democrats from voting.

The presiding officer of the election can make any person swear to the following, and such affidavits have been prepared and sent to each voting box in Hale county, "That I am a democrat, and will support the democratic nominees, National, State and County at the ensuing general election."

Even after the party makes this affidavit, if he has been heard to say he does not intend to vote the democratic ticket in November, or if the judge believes he will not do so, he can exclude him from voting. The election judge has all power in the matter.

COMMODITIES SHOW DECLINE IN JULY

Prices of Clothing Reveal the Most Notable Decrease—Down About 4 Per Cent

Washington, Aug. 19.—Wholesale prices of commodities declined approximately 2 1-3 per cent during July in the United States, according to a report by the Department of Labor. The decrease in cloths and clothing materials was the most notable shown in the department's list of index numbers, amounting to 5 1-2 per cent, while foodstuffs declined 4 per cent and farm products generally 2.9 per cent.

At this point, the department reported, prices were still above levels of July 1919, food articles having increased during the year 24.1 per cent, cloths and clothing 12.4 per cent, and fuel and lighting materials were products which showed no decrease during July 1920, according to the department's statistics, but, on the contrary, increased by 2 1-3 per cent, making their current level the more disproportionate to other commodities.

AGRICULTURAL AND LIVE STOCK EXHIBITS WILL BE GREAT AT NW. TEXAS FAIR

Many Counties and Individuals Will Have Displays—Large Crowds of People Must Be Cared For.

The agricultural display at the Northwest Texas Fair to be held in Plainview Sept. 27, 28, 29, 30, Oct. 1, will require two large tents, and they will be located on the lots on the west side of the square. The displays will not only be from Hale county, but nearly every other county in this section of the state, and will be by far the greatest collection of farm, orchard and garden products ever shown in Northwest Texas. Very attractive premiums are being offered for county exhibits, individual farm exhibits and for individual products. The farmers are urged to save the very best products of their farms to offer at the fair.

In addition to the general agricultural display above mentioned the wheat and cotton departments will be separate. Nearly \$800 is being offered in special premiums in the wheat division and \$500 in the cotton division.

J. W. Kazemeier, poultry husbandman of the A. & M. college, has reserved a 10x20 ft. space for displays, demonstrations and conferences relative to poultry husbandry. Miss Lillian Hazel, poultry expert, will be in charge of the display.

The federal department of agriculture in Washington has advised that

it will take up the matter of having grain and cotton demonstrations during the fair.

Walter Burris of Arlington has agreed to grade the poultry show. There will be many poultry demonstrations and conferences during the fair.

Keith Catto, superintendent of the sheep department, has offered two sweepstakes prizes amounting to \$25 in his department.

While there will be many exhibits and various other attractions, the agricultural and livestock displays will be the most important, and around these two is the Northwest Texas Fair being built.

The ladies of several churches of the town are making preparations to serve lunches during the fair. The matter of securing rooms for the many visitors is going to be a serious one, and the fair committee urges that people begin to prepare to rent rooms. Every family in the town that can possibly furnish one or more rooms will please see the secretary. The officers of the fair expects as many as 25,000 people each day of the fair.

Much advertising is now being put out, and the catalogues will be issued in a few days.

Certificate of Ratification Signed By Governor

Nashville, Aug. 24.—Governor A. H. Roberts has certified to the Department of State at Washington that Tennessee has ratified the Federal suffrage, senate leaders said today. Governor Roberts, according to Representative Miller and Attorney General Thompson, mailed the certification to the Secretary of State.

This following the granting of writs of certiorari and supercedes in the State Supreme Court by Chief Justice Landson.

These writs took injunction proceedings from the lower court and enabled the governor and other state officials to act, it is held.

The certification was sent to Secretary Colby by registered letter, shortly before noon, it was stated. Similar certifications were sent to President Wilson, Vice President Marshall and the speaker of the lower house of Congress.

Last week the legislature adopted, but pending a motion to reconsider, the anti-suffragist members left the state in a body, going to Alabama, thus breaking a quorum, so that certification could not be made before the 26th, which is the last day of grace in order to let women vote in November. An injunction was also sued out by the anti's, but the supreme court now steps in and clinches ratification.

POLES ROUTING RUSSIANS CLEARING COUNTRY FAST

DECLARED IMPOSSIBLE FOR BOL-SHEVIKI TO REFORM ARMY IN POLAND

London, Aug. 24.—The Russian defeat in Poland is so completely and overwhelming that there is no possibility of the Bolsheviki reforming their shattered armies on Polish territory, press dispatches declared today.

The prediction was made that all Red troops would be ejected from the occupied areas before the end of the week. Bolsheviki prisoners taken to date total more than 90,000 according to unofficial advices. Sixty thousand of these were taken in the Warsaw area and the remained in the Danzig corridor.

In addition to the number of prisoners and huge stores of materials taken, the Poles have forced 10,000 Bolsheviki to take refuge in east Prussia, where they will be interned.

Frantic efforts of the Bolsheviki to extricate themselves from the trap north of Warsaw has resulted in a series of military reverses.

General Haller's army has cut the last line of railway communication forcing the Reds to abandon most of their artillery and transport. Polish cavalry detachments are constantly at the heels of the fleeing Russians and low flying airplanes add to their panic with machine gun fire. Four Bolsheviki divisions were said to have been completely wiped out in this area, through prisoners and casualties.

IT'S A LONG WAY TO DEAR OLD TEXAS
(Air: Tipperary.)

Up to Kansas City came a Farmer men one day,
With a lot of Homeseekers, they were feeling fine and gay;
Singing songs of Rio Grande, cold beer and mugs of ale,
Till the Farmer got excited, then shouted out this tale:

Chorus.
"It's a long way to dear old Texas, it's a long way to go,
It's a long way to dear old Texas, to the best land I know!
Good-bye Tom and Jerry, farewell Rock and Rye,
It's a long, long way to dear Old Texas when Missouri
goes dry."

Farmer wrote a letter to his friend in loway,
Telling him of things he'd seen, since leaving there to
stay,
Bringing rain by telephone makes the best crops in the
land,
And Farmer's friend began to sing to his Friend on the
Rio Grande.

Chorus.
Nebraska began to dream about the things that Texans do,
Said to Kansas people let's see this "rumpus" through,
Then they got together with suit-cases in their hands,
And bought their Railway tickets to the Lower Rio
Grande.

—Join the excursion to the Rio Grande Valley every Mon-
day night.

land has become soured and a chronic

PEOPLE WILL PAY

The railroad owners and employees,
in discussing the increase of 35 per
cent in freight rates, claim that there
should not be any increase in the
price of goods and commodities be-
cause of the increase.

But you can depend upon it, there
will be an increase and the producer
and the consumer will pay it.

As a sure evidence of this fact is a
new paper price list just received by
the News, which shows the paper man-
ufacturers on account of the increase
of freights on coal, wood pulp and
other raw materials that go into the
manufacture of print and job papers
have increased their prices. The whole-
sale paper dealer on account of the
increased price charged by the factory
and the extra freight charges has in-
creased his prices, and then of course,
freight rate from the wholesale point
to Plainview is increased 35c to 55c
per 100.

The News figures that the increased
freight rates will add to its expense
account \$375 to \$400 a year—more
than \$1 a day!

Of course we cannot stand this en-
tire extra expense, and must in some
way cover it; just how we don't know.

It follows that every business is
affected by the increase in freight
rates. Hence, the retailer must needs
increase his prices, which will mean
a still higher cost of living. This
in turn will cause labor to seek addi-
tional wages—and thus the pyramid-
ing will continue.

Where the whole matter will lead
to, we cannot see; but it must stop
somewhere. If a tower is built too
high will topple and fall. The same
thing can be said of prices.

"Let us keep to the point," is the
advice of the Houston Chronicle, which
says editorially: "Let one be deceiv-
ed by the unimportant details or false
issues that have been dragged into
this campaign. Ex-Senator Bailey is
undesirable as the democratic nomi-
nee in this state, not only because
of what he stands for, or pretends to,
but because of the crowd he repre-
sents. Under cover of his candidacy
the old machine is getting together
again. Should he be nominated, this
state would once again go under the
yoke of that combination which gave
its politics such an ugly twist from
ten to twenty years ago. The fact
that ex-Senator Bailey is anti-Wilesp,
anti-league, anti-suffrage and anti ev-
erything else which has made the
democratic party great during the
last decade is necessarily of some
importance. Of the same importance
is the fact that he is leading the old
machine or trying to, back to power.
Gradually the old war horses, so-
called, are rallying to his support—
the war horses that blocked prohibi-
tion, education and liberal legisla-
tion for so many years. If Texas
wants them to control again, all she
has to do is to put ex-Senator Bailey
in the governor's chair. If she wants
the old liquor gang, reassembled un-
der a new name, to dominate affairs,
all she has to do is to repudiate Pat
Neff. If she wants the railroad lobby
re-established and re-entrenched at
Austin, all she has to do is to swap
Wilson democracy for Baileyism. Men
who believe that this state has made
substantial progress since ex-Senator
Bailey and his following were thrown
out of power should not pause to in-
quire further. If he and his follow-
ing come back, this state will merely
cross out the most it has accomplish-
ed during that time. If he and his
following come back this state will
go in for another era of false, costly,
hypocritical economy. If he and his
following come back this state will
again go under the invisible govern-
ment which it once learned to know
with such bitterness."

**PROMOTERS AND BEGGARS
FLOCK TO THE PLAINS**

Prosperity Brings All Sorts of People
to Relieve Natives of Their
Money

"Easy money" is the slogan of a
lot of people in this old world of our's
—if they don't have to work for it

There is four million dollars on de-
posit in the banks of Hale county.
This is about \$2,000 for each family
in the county. This is an evidence of
unparalleled prosperity.

This great prosperity has been
nourished far and near, and has caused
a horde of mendicants, solicitors, field
agents, promoters, agents, schemers,
swindlers and gamblers to flock to the
Plains.

There are many crippled, blind and
other maimed persons who beg nick-
els, dimes and quarters.

There are numerous religious work-
ers and field agents who are soliciting
for churches and homes of unfortun-
ates of all kinds.

There are agents for various educa-
tional and eleemosynary institutions
and missionary causes.

There are itinerant insurance agents
and stock promoters, both oily and
otherwise.

There are peddlers for this, than
and the other thing.

All are here for one thing, and that
is—to relieve the local people of their
hard earned money, they are here to
secure money without working or
shedding any sweat in getting it.

They are believers in the old say-
ing "A sucker is born every minute."
Some of these transients represent
worthy objects, but most of them are
here for selfish reasons.

Local firms and citizens of Hale
county represent every activity that
these itinerants represent. Local peo-
ple are honest and we know them.
They deserve your support.

The best plan is to absolutely re-
fuse to give a nickel to or buy a dol-
lar's worth of anything from any of
these itinerants.

If you wish to contribute to char-
ity, there is a United Charities or-
ganization in Plainview.

If you wish to contribute to church
or religious work, do so through the
pastors of the local churches.

If you desire to help your church,
schools or delegates, send your check
to Wayland college or to the pastor
of the local church you belong to.

If you want to buy any kind of in-
surance, but it through the local
agencies, whose reliability you know.

If you wish to buy stock or invest
your money consult your banker and
discuss fully with him the reliability
of any promotion scheme that is put
up to you, and if possible invest your
money in Hale county property or busi-
ness enterprises.

Learn to say "no" in loud tones to
every promoter, agent, solicitor and
beggar that importunes you for your
money. Don't be "worked" for a
"sucker."

If the people of Hale county will
conserve their money there will be
"good times" here for many years.

The oil fields of the state the past
two years took hundreds of thousands
of dollars out of Hale county, almost
all of which was a clear loss. Let's
learn a lesson from that.

A good philosophy of life is to do
your level best—and then let the re-
sults take care of themselves.

Statistics show that one man in
1500 operates a wheel-barrow, while
one man in fifteen operates an automo-
bile. Yet, we speak of this as a
"building nation."

Every returning vacationer gets
back impressed with the fact there is
no town better than Plainview and
mighty few as good. Also that for a
summer climate the Plains offers ev-
erything that any other place can
show.

The noted flyer, Ormer Locklear, of
Fort Worth, who recently fell and was
killed in California, left an estate of
only \$500, so the records show. This
is less than he received for 2 or 3
days' flying. It is easy come, easy
go, with no thought of tomorrow, with
many persons.

It is stated that a well known citi-
zen of Plainview has declared public-
ly he intends to go into Saturday's
primary and vote for Bailey, and that
in the November election he will vote
for Debs for president. Such men
should not be permitted to vote in a
democratic primary.

"The editor of the News has heard
no preacher speak against Mr. Bailey
nor has he seen one word in print
from any preacher against him. We
have seen much in Mr. Bailey's
speeches in which he condemns the
preachers. We do not, however, know
of any preacher who is supporting
Mr. Bailey. This may be the reason
for Mr. Bailey's railings against the
clergy," says the Marshall Morning
News.

Mr. Bailey says he told the war
workers that government bonds would
go below par, and he adds that they
have. True, but the government is
not responsible for the fact that the
bonds are not selling at par. The
bonds are a promise of the govern-
ment to pay face value at the expira-
tion of a stated number of years.
The government also agrees to pay
a stated amount of interest at named
periods. The government is keeping
its promise. The interest is being paid
as it falls due. When the day for the
payment of the bonds falls due the
government will meet its obligation in
full. That is to say, the bonds will
be paid. Therefore the fact that the
market shows these bonds are below
par is no fault of the government.
Those who have offered their bonds
below par are the responsible parties.
When the claim was made that these
bonds represented a good investment
it was true. It is true today. They
draw interest, are non-taxable and
have the best security in the world—
the American people. The man who
denounces the bonds and who refused
to aid in inducing the American peo-
ple to purchase them is making and
has made a mistake. Mr. Bailey
would have shown up more patriotic
if during the war he had gotten out
and helped sell bonds, instead of aid-
ing Germany by advising people not
to buy bonds.

Governor James M. Cox, in his South
Bend speech to 3,000 voters, declared
that \$15,000,000 are being contributed
to the Federal Reserve Bank "by
selfish interests," and that Wall Street
interests were planning "to emasculate
the federal reserve act, in event of a
republican victory by providing that
bankers only shall be eligible to at fe-
deral reserve board membership, to se-
cure power over credits and interest
rates." Governor Cox is the democra-
tic nominee for president. He is
champion of the federal reserve bank
act. Texas democrats should think
After thinking they should vote on
Aug. 28 against Bailey. If they break
the democratic line in Texas, if they
nominate a bitter and contemptuous
opponent and critic of the democratic
federal reserve bank act for the office
of governor they are repudiating their
candidate for president, their presi-
dent now in office, a democratic con-
gress and the wisest law that was ever
enacted for the protection of the Amer-
ican people.

REPUBLICANS FOR BAILEY

The republicans are well known as
smooth schemers. The Texas Repub-
lic, the republican state organ, pub-
lished by Mose Harris in San Antonio,
is openly urging republicans to go in-
to the primaries next Saturday and
vote for Bailey, as "his nomination
will benefit the republican party," and
doubtless if primary election officers
are not careful to stop republicans
from voting thousands of them will
do so.

The scheme of the republicans in
urging Bailey's nomination is two-
fold.

First, because of the bitter fight
Bailey has been making upon the
democratic administration of Presi-
dent Wilson, of which he declares not
one act has his endorsement, if the
great democratic state of Texas were
to nominate Bailey it would be a great
blow to the chances of election of the
democratic presidential and congress-
ional tickets in November, and a
great victory to the republican ticket.

Second, very eminent lawyers point
out that Mr. Bailey has not been a
bonafide citizen of Texas for more
than five years, as the constitution
of the state declares a man must be
in order to eligibility for governor,
hence if Bailey should be nominated
next Saturday and elected in Novem-
ber, the republicans would contest
Bailey's right to become governor, the
courts would hold him ineligible and
declare the candidate getting the sec-
ond largest vote in the general election
to be elected governor. As the repub-
lican candidate will get the second
largest vote in that election, of course
he would automatically become gov-
ernor.

It is a beautiful scheme the repub-
licans are trying to put over the dem-
ocrats of Texas.

No republican, socialist or Amer-
ican party man should be permitted
to vote in Saturday's primary. Elec-
tion officers in Hale county should
stand guard over the ballot box and
permit only true democrats to vote.

The Amarillo Tribune says Tom
Watson of Georgia "come pretty close
to being a militant socialist." Evidently
the editor of the Tribune knows
little about Watson and has read none
of his books or writings. He has
written several books against social-
ism, and they are used as text-books
by speakers in opposition to social-
ism. We have read many of his edi-
torials against socialism, and he is
bitter and scathing in his denunciation
of that cult and its principles and
teachings. Call Tom Watson any-
thing, but never a socialist. He has
been one of the brightest men and
ablest writers in the whole country,
but continually fighting the special
and predatory interests and others
who sought to prey upon the common
people. Watson in his old age has be-
come soured and grouchy and now
fights at everything. Evidently old
age is digging at him, and it is too

14. Expenses very low—no tuition (except for private instruction) free texts books, cheap board.

There is no need for the young people in the Panhandle and Plains to go away from this section for college advantages, when all of the above unexcelled facilities are to be found in the West Texas State Normal College, Canyon, Texas.

J. A. HILL, President,

Practically everyone of the itiner-
ants who are coming here are fakers
and swindlers. Let 'em alone. Hold
on to your cash. Thrift stamps and
government certificates are gilt-edge
investments; they carry a low rate
of interest, but it is sure. 99 out of
100 instances they will prove more
lucrative than the "get-rich-quick"
propositions of the fellows who are
flocking to the Plains just now.

Lubbock County Population
The census shows the population of
Lubbock county to be 11,096, an in-
crease of 7,472 in the past ten years.

City Board of Equalization
L. M. Faulkner, G. C. Keck and
Geo. J. Boswell have been appointed
as city board of equalization, and
will begin their work at once.

MOTOR TRANSPORTATION INCREASES IN VALUE

"Today, the man who buys an automobile gets more for his money than ever before," says Hart & Blair, Chevrolet dealers, who handle Chevrolet passenger and commercial cars.

"The modern automobile is the product of experience, it is capable of delivering more mileage, of affording greater comfort and convenience. It is equipped with every essential to complete satisfaction.

"The manufacturer has learned how to eliminate unnecessary weight, and substitute strength and balance in construction. This affords greater dependability and economy of operation.

"He has learned how to increase quality by producing cars in large quantities.

"Standardization of design has enabled the manufacturer to purchase materials in such vast amounts that lowest prices are assured. He is able to install the finest modern machinery and factory methods. These insure the best in workmanship, and pay for themselves over and over in the time and labor they save.

"But the purchaser not only receives increased value in cars produced in quantity. He also has profited by experience in the use of these automobiles.

"He has seen hundreds of thousands of these cars in daily use. He has observed their capacity for service and their adaptability for every transportation need. He has learned how to get the utmost value from his car by putting it to innumerable tasks.

"The more a man uses a car himself, the more he observes automobiles in the service of others, the more he realizes that the profit he can secure from his investment depends only on the extent to which he puts it to work."

Gentlemen:

At the request of **R. A. Welch and Son** of Red Oak, Oklahoma, I am enclosing herewith photograph of Council Hill Buster, Grand Champion Poland China Boar at the recent Texas State Fair. This boar is a son of Buster's Giant and a grandson of Giant Buster, and one of the greatest Poland China Boars alive.

Council Hill Buster was purchased in Mr. Welch's last Winter's sale by **Parvin and Cunningham** of Prosper, Texas for \$11,050.00 when he was but a pig. After searching all over the North for a real boar Mr. Welch finally came to Texas and paid **Parvin and Cunningham** \$7,000.00 to get this boar back. He is one of the very best of the breed.

Sunbeam Band

The Sunbeam band of the Baptist church met last Sunday at 3 p. m., with Mrs. Laura Robinson, as president.

They were quite a crowd of little folks present—38 in number, and a very interesting program was rendered. There were some features of interest suggested, which will probably lead to a more wide-awake activity on the part of both parents and children.

One of these is "Any child failing to comply with his or her number on program will contribute 5c extra to Sunbeam treasury." The Sunbeam band being divided into two separate groups, a decision was made that the group obtaining most new members by December 1st shall be entertained by the other group.

Also, the child memorizing the greatest number of passages of scripture by December 25th, is to be presented with a handsome bible.

The program for next Sunday is as follows:

In the morning service he spoke on "The Cross of Christ" and at night on "Love Made Practical." Mr. Stockton sang in the morning and Mrs. Patty at night.

All services next Sunday at the usual hour. The pastor will preach on subjects of vital interest. Special music will be provided and crowded houses are expected.

Remember our revival meeting to begin Sunday, Sept. 5th. Dr. H. W. Virgin of Amarillo will do the preaching. Strangers and visitors are especially invited to all our services.

MEANT TO HAVE THAT SUGAR

Grains Too Large for Bees to Carry, They Converted It Into Sirup and Bore It Away.

A French professor, named Bonnier, tells in a paper bearing the difficult name of Revue Hedomadaire, a tale of the intelligence of the busy bee. On the Paris-Lyon railway, near the biological laboratory at Fontainebleau, he says, some coarse granulated sugar had been spilled in a heap beside the track. Bees came and tried to carry off the sugar, but the grains were too big for a bee to carry. Did they give up? Not these bees. They flew to the neighboring water trough, laden themselves with all the water they could carry, flew back to the sugar pile, and threw the water on the sugar. Soon the top of the pile was converted into a sirup, in which the bees busily rolled themselves until each and all were coated with sirup, when they flew away to their hives. There they got rid of their cargo and returned for more; and, whenever they got down to the coarse granulations, they resorted again to the water trough. Countless bees engaged in the operation, and kept at it till no sugar was left. So far as one recalls, this is a new example of intelligence in insects, and one is glad that somebody was there, that July day, in 1918, to see and chronicle it.

Stalking Seals Difficult.

The seal's sun naps on the arctic ice are continually disturbed by his dreams of his enemy, the polar bear, or at least that seems a reasonable way of interpreting his behavior, for after sleeping for 30 seconds or perhaps a minute, he will wake up, raise his head as high as he conveniently can, which is 14 or 16 inches, and make a complete survey of the horizon. If nothing suspicious is seen, this survey takes about ten seconds, after which he drops his head on the ice again and sleeps a minute more, says a writer in the Argonaut.

Sometimes the ice is a little rough in his vicinity and you can crawl up and shoot him from behind cover, but more frequently he has chosen a level expanse where no concealment is possible, and you must, therefore, approach him realizing that he is going to see you before you are near enough to shoot.

Reveal Life of Old Pompeii.

Excavations of Pompeii in the ancient "Street of Abundance" have resulted in such extensive finds that the life of the street can be almost entirely reconstructed. The principal discovery is that of a huge "thermopolium," a kind of public house. This is in a state of perfect preservation, and an exact idea can now be obtained of a Roman place of refreshment. There is a long row of wine jars so placed that it seems that the vintner was in the act of pouring wine from one into the other when overtaken by the catastrophe.

Tomorrow.

A movement to abolish tomorrow is now in order. Among all the things that cause trouble to humanity in general, tomorrow is probably the worst offender. Nothing happens tomorrow in just the way we expect, and in most cases dread. The time we spend in wondering what tomorrow will do, and in worrying about it in advance, if applied to today, would fortify us against the unexpected more than anything else. Tomorrow is the most uncomfortable place there is to dwell in. Yet most of us live in it most of the time.—Life.

REINKEN'S

VOTE AGAINST BAILEYISM

NEXT SATURDAY

The time for sober thought as to which of the candidates for governor you will cast your ballot on Saturday, August 28th, has arrived.

On the one hand there is Pat M. Neff, a man whose record is spotless, a Simon-pure Democrat, a proven patriot and one who is in every sense of the word a progressive.

On the other hand one finds Joseph Weldon Bailey.

There are a score of reasons why the people of Texas will not nominate Bailey for Governor, any one of them sufficient to drive from his side those who desire good, clean government and a forward looking Democrat as chief executive of Texas.

He is not a resident of Texas, his home for many years having been in Washington, D. C.. He is not in touch with Texas affairs or the owner of Texas real estate.

He is not a Prohibitionist, for he tells the people he favors the making of intoxicants, even in the private home.

He is not in favor of Woman's Suffrage, and neither were the men who lived during the period when women was considered the beast of burden.

He is not in favor of a single act of President Wilson's Administration, including the declaration of war against Germany, and he has said so many times.

He will not endorse the Democratic platform nor the principles which have been espoused by Cox and Roosevelt, although he has been asked time and again to state his position.

He is not in favor of the Rural Free Delivery or the Parcels Post service, against both of which measures he thundered on the floor of the United States Senate. Yet he would pose as a friend of the farmer.

He opposed, in the senate, the Child Labor Law, which has done so much to safeguard the health of the woman and children of the nation.

He opposed the Pure Food Law, and in a recent speech ridiculed the law having to do with Milk Inspection.

He opposed the Democratic party, as a party, when he returned to Texas a year ago and at Covington and Fort Worth declared he could go no further with the Democratic party. In conference with Jim Ferguson he conspired to organize the American party, but later changed his mind and became a candidate again as a Democrat.

He defended Lorimer in the United States Senate, at a time when both good Democrats and good Republicans were holding their noses.

He opposed every Democratic President since the Civil War and opposed W. J. Bryan when a candidate three times.

He has never yoked his name with any piece of constructive legislation; on the other hand his name has been yoked with Republican reactionary leaders and the Waters-Pierce Oil Corporation in a most unenviable manner.

When you think of the great Panama Canal you wonder why Bailey joined in with the great transcontinental railroads in opposing its construction.

He refused to make even one four-minute speech for his country or the boys in the trenches when the nation was at war, but since the war he has been quick to criticize everything connected with it.

Does Bailey think the people of Texas will elect a man with such a record as this, the governor of the state?

No, Bailey thinks nothing of the kind.

He knows today that he is a defeated man.

Therefore, desperately grasps at every straw in the hope of bolstering up his waning political fortunes.

He is seeking to prove to the people that Pat M. Neff, his political opponent, is the same kind of man Joe Bailey is, in the hope that he can so defeat him. He knows that a candidate such as himself is ought to be defeated.

He therefore maliciously and slanderously in a recent speech declared that Pat M. Neff was a draft evader, alleging he had been born on November 26, 1872, when as a matter of fact, if he had made the slightest investigation, he would have learned that Neff was born on November 26, 1871, and was not required to register under the law, being nearly a year over the draft age.

The following affidavits prove beyond a doubt that the statement made by Joe Bailey and circulated by some of his supporters, was absolutely false and without foundation.

Pat Neff Not Within Draft Age

THE STATE OF TEXAS,
County of McLennan.

I, Mrs. I. E. Neff, being duly sworn on oath, do state that Pat M. Neff, who is a candidate for Governor of Texas, is my son, and Pat M. Neff was born November 26th, 1871, near Moody, Texas.

Witness my hand this, the 21st day of August, 1920.
MRS. I. E. NEFF.

Sworn and subscribed to before me, by Mrs. I. E. Neff, this the 21st day of August, 1920.

(Notary Seal) ESPA STANFORD,
Notary Public in and for McLennan County, Texas.

THE STATE OF TEXAS,
County of McLennan.

Before me, the undersigned authority, on this day personally appeared the parties whose names are signed to this instrument, each of whom being by me duly sworn, doth state:

That we have personally examined the old family Bible of Noah Neff and his wife, Isabella E. Neff, the father and mother of Pat M. Neff, who is now a candidate for Governor, and we find that the Bible is an old faded book with broken back and under the column in the family record marked births among others is the following:

"Pat Morris Neff was born November 26th, 1871." We find that the handwriting in which this and the other entries on this page are written in old styled, faded but clear.

We further state that Neff, having been born in November, 1871, was not within the draft age and was not required to register.

Witness our hands this, the 21st day of August, 1920.

FRANK B. TIREY, County Attorney, McLennan County.

The above misrepresentation is not the only one that may be expected between this date and Saturday.

Voters Should Be on the Alert for Falsifying Circulars

gotten out on election day for the purpose of changing votes at the eleventh hour, when the cowardly authors of such circulars know there will be no time in which to prepare answers or get the facts by the supporters of Mr. Neff.

The very fact that a scurrilous circular is put out among the voters at the close of the campaign should be your authority for branding it a malicious lie.

Then go and cast your ballot for Pat M. Neff and clean, progressive, Democratic government in Texas.

Remember: The judge of election is the sole judge of a voter's qualifications to vote in this election. The Republicans and Socialists will seek to vote in this Democratic primary in order to help Bailey. Every Republican and Socialist vote should be challenged and thrown out.

If You Drove Through Glass

You'd expect some badly cut tires—perhaps a blow out or two.

It's just as natural to have your battery go dead when you forget to put in water or keep up charge.

Even the Still Better Willard with Threaded Rubber Insulation needs regular attention. 136 manufacturers of cars and trucks have selected Threaded Rubber Insulation.
