## VICE PRESIDENT MARSHALL

### LECTURES HERE NOV. 27

#### PEOPLE FROM OTHER TOWNS BUYING TICKETS TO HEAR HIM

Vice President Thos. R. Marshall will lecture in Plainview Saturday night, Nov. 27, at the Methodist church. His topic will be "Americanism," but it will not deal in party politics, nor refer to the League of Nations.

Vice President Marshall is one of the ablest men of the nation, and is an eminent lecturer with a humorous vein that predominates as he clinches his epigrams and arguments. He was for several terms governor of Indiana and has been presiding officer of the federal senate for eight years, and has been very active as vice president on account of President Wilson being in Europe during the peace parleys and sick the past year.

The Chamber of Commerce is promoting the sale of tickets, which are \$1 each, and as the seating capacity of the church auditorium is limited people should secure tickets at once, as only enough tickets will be sold to fill the house.

Secretary John Boswell has this week visited most of the nearby towns and placed tickets on sale, and already one or two places have sold out and ordered additional tickets. Many people from all over the Plains will hear Mr. Marshall.

A reception committee from the Board of City Development will entertain Mr. Marshall.

#### J. L. Stephens Dies Suddenly

J. L. Stephens, well known citizen and large property owner of Plainview, died very suddenly of apoplexy this afternoon between four and five o'clock.

He and some other parties were out in the country looking at some land, when suddenly he began to feel a hurting about the heart. He felt so faint that he told the others to go and look about the place and he would try to get to town, but he died on the way.

The funeral will be held at the family home Saturday afternoon.

Rev. Harlan J. Matthews will conduct the service.

He leaves a family, and Lee Stephens is a brother. He was highly esteemed by the people of the community.

The Stephens families came here from Rockdale some years ago. They own the Third National Bank building and other brick business houses in Plainview, also properties in the country, and large farms in Milam county.

#### Unit Thanksgiving Service

The churches of Plainview will unite in a Thanksgiving service. This year the service will be held at the Presbyterian church on Thursday, Nov. 25th, at 10 a. m. Rev. J. W. Israel will preach; Rev. Harlan J. Matthews will offer the Thanksgiving prayer; Rev. G. W. Davis will read the scripture lesson, and Rev. J. P. Ingle will read the President's proclamation.

The singers from the various churches are requested to meet at the Presbyterian church on Tuesday, Nov. 23rd, at 7 p. m., to rehearse music for the Thanksgiving service.

We have much for which to be thankful this year, let everyone arrange to attend this Thanksgiving service.

#### You may not believe it, but you can do a heap more for yourself than you will do for you.

## GERMANY WOULD HOLD HER FORMER COLONIES

#### Note to League Says Does Not Consider Herself Bound by Treaty

Geneva, Nov. 19.—The German government no longer considers itself bound by the clause of the Versailles treaty by which Germany surrenders her colonies to the allies, according to an official note which was presented to the League.

The note declares the allies have not fulfilled their undertakings regarding the clause of the treaty concerning the allotment of the German colonies and mandates. It adds, that having signed the pact of the League of Nations, Germany understood she would be admitted to the League and consequently take part in the allotment of mandates, but that now she no longer considers herself bound by that clause of the treaty.

#### Santa Fe Changes Schedule

The Santa Fe has made minor changes in the schedules of trains through Plainview, the northbound morning train coming at 8:06, one minute later than heretofore, and the southbound at 8:35, fifteen minutes earlier. No other trains are affected.

## WOULD ESTABLISH MILK CONDENSARY IN PLAINVIEW

#### Minnesota Capitalist Writes Proposing to Install Plant Costing \$375,000

J. A. Meek of Minnesota has written a letter to the Chamber of Commerce saying he had read in Minneapolis newspaper articles from Plainview telling of the success of dairying in the Plainview country and the ideal conditions which prevail here.

He states that he would be glad to look into the matter with the purpose of establishing a dehydrating plant (milk condensary) here for the purpose of handling milk by taking the water and germination out of milk and put it in cans. He says the plant will cost \$375,000 and that he can finance the proposition in New York. He owns a big milk condensary in Kansas, and is highly rated in the mercantile directories.

Full information will be sent him by the secretary of the Chamber of Commerce, and he will likely come here to make investigations.

#### C. H. Patton Passes On

C. H. Patton died at his home one mile east of town Wednesday night at 7 o'clock. Last February he contracted blood poisoning in one of his legs, and it had to be amputated, since which time he gradually declined in health until the end came.

The funeral took place in the parlors of the Plainview Undertaking Co. yesterday afternoon, Rev. S. J. Upton conducting the service. Interment followed at the cemetery.

The deceased leaves a widow. Mr. Patton was born in Pennsylvania, and was seventy years of age. He and his wife moved to Plainview thirteen or fourteen years ago, and for many years conducted a restaurant on the north side of the square, and later the Rock Hotel, last year moving to their place near town. He was genial and honest and was liked by everybody who knew him, and his death is deplored by the people of the community.

His casket as draped with an American flag, and if we are not mistaken he served in the federal army and was a member of the G. A. R.

#### Public Auction Sales

Clint Alexander will hold a sale at his place near Ellen, next Tuesday. A list of the stuff to be sold appeared in Tuesday's News. Auctioneer W. A. Nash will have charge of the sale.

#### Plainview High to Play Abilene

Plainview high school football team will play the Abilene high team in Abilene Thanksgiving Day.

## CITY MAY FINANCE SEWERAGE WARRANTS

#### AUSTIN PARTY PUTS UP FORFEIT TO BUY \$70,000 WARRANTS

It may be that the city will be able to finance its present sewerage extension and improvement with the sale of \$70,000 worth of warrants issued some time ago, but which the party who had promised to buy them failed to do so.

Mr. Hogue of Austin was here this week, and promised to buy the warrants which draw 7 per cent interest, at 90c on the dollar, and put up a forfeit of \$250 to bind the deal while looking into the legal phases of the matter. The contract expires Nov. 26.

If this deal goes through it will be unnecessary to hold the \$100,000 bond election called for December 1st, and it will be called off.

#### PLAINVIEW WINS IN TWO GAMES TODAY

#### High School Defeats Floydada and Wayland Wallops Canyon Normal

Plainview football teams were victorious in two games this afternoon. Plainview high school defeated Floydada high school at that place by a score of 38 to 0. The high school team has not been defeated in three years.

Wayland college won over the Normal at Canyon, the score being 20 to 7.

#### Wheat Price Still Lower

Wheat continues to drop in price—even if the republicans won in the election—and is now down to \$1.45 to \$1.50 a bushel, having broken 9c yesterday and 10c today.

The indications are that the price will go even lower.

The price of cotton is down to about 15c for middling, but as practically no middling is coming in the price ranges from 7c to 15c.

Many farmers are holding their wheat, hoping for a raise. This is alright where they have money, owe nothing and do not have to borrow money, but where bills have to be stood off or money borrowed we doubt very much if it will prove a paying proposition, as interest on borrowed money, the loss from rats, etc., will likely eat up any hoped for increase in price. Slow marketing in order to pay necessary expenses in order not to have to borrow would seem the best for farmers who wish to hold longer.

#### About People You Know

Frank M. Daugherty of Gainesville has been appointed as one of the two men to be personal representatives of Gov. W. P. Hobby at the inauguration of Gen. Oregon as president of Mexico, in the City of Mexico Dec. 1. Mr. Daugherty owns a ranch in Floyd county, and spends considerable time on it, visiting Plainview often.

The editor of the News has a letter from Rev. Edwin C. Boynton, who was pastor of the First Christian church of Plainview three years ago. He has been pastor of the church at Huntsville since leaving the Y. M. C. A. work at the end of the war. He says he and Mrs. Boynton still have a warm feeling in their hearts for the Plains and hope to some day come out here. He is chairman of Walker county in the present Red Cross campaign.

#### Plainview Pastor Elected Member State Baptist Committee

Pastor Harlan J. Matthews of the Baptist church was honored during the recent meeting of the Baptist convention at El Paso by being put on the Executive Board of the convention and by being selected as one of the number to preach on Sunday. He having preached at the Highland Park Methodist church.

## BOY SCOUTS HOLD ANNIVERSARY CELEBRATION

#### NEW OFFICERS ELECTED—PAST YEAR HAS BEEN VERY PROSPEROUS

The local Boys' Scouts celebrated the ending of another Scout year Saturday night at the Scout home with a good "feed" and election of new officers. The luncheon consisted of hot chocolate, sandwiches and cake.

F. E. Offlighter, scoutmaster for the past year, resigned on account of pressing business and a beautiful signet ring engraved "S. M. 1920" was presented to him by the Scouts in appreciation of services rendered during the year.

The first of September the Scouts enjoyed a week in camps in Tule canyons.

The organization now has a band of about thirty members and is rehearsing regularly under the direction of Mr. Wright.

The Scouts are a live bunch and parents and friends are invited to be present at regular meetings every Saturday night at 7 o'clock, and learn the benefits of Scouting.

The standing of the Boy Scouts on Jan. 1st, 1920, was as follows: 100 Scouts became Scout Master, was 13 enrolled, 63c in treasury. Present standing: 59 enrolled and about \$130 in treasury.

Brush, assistant, Frank Fellows; No. 3, Everett Dye, assistant Alfred Farmer; No. 4, Lavon Covington, assistant, Eugene Wilmeth.

There were 39 Scouts present.

#### STATE LAWS RELATIVE TO SUNDAY OBSERVANCE

Whereas, the laymen of the various churches in Plainview, are conducting a campaign for the betterment of its citizenship and to bring about the enforcement of our Sunday laws, we the publicity committee, respectfully call the attention of the public to the following state laws on the question of Sunday observance.

Art. 299: Branch's Penal Code: "Any person who shall hereafter labor, or compel, force, or oblige his employees, workmen, or apprentices to labor, on Sunday, or any person who shall hereafter hunt game of any kind whatsoever on Sunday within one half mile of any church, school house, or private residence, shall be fined not less than ten nor more than fifty dollars."

Art. 302: Branch's Penal Code: "Any merchant, grocer, or dealer in wares or merchandise, or trader in any business whatsoever, or the proprietor of any place of public amusement, or the agent or employe of any such person, who shall sell, barter, or permit his place of business or place of public amusement to be open for the purpose of traffic or public amusement on Sunday shall be fined not less than twenty nor more than fifty dollars."

It is our intention and purpose to assist the people of Hale county to begin to realize that it is our great privilege to work for six days in every week and to have the Sabbath day for rest. And each of us should do all in our power to see that our Sunday laws are not forgotten and to raise our standard of civilization up to that point which best speaks for itself.

H. V. TULL, E. R. HANKS, T. R. BUTLER, Committee.

#### Examination for Postal Clerk

A civil service examination will be held in Plainview Dec. 11 for postal clerk. The examination will be held by the local secretary, W. Oliver Anderson, and those interested can secure application blanks and information from him at the post office.

#### Beef and Pork Wagons

Since the price of cattle, hogs and sheep have declined so greatly, quite a number of farmers are killing animals and peddling them out in town at lower prices than the local butcher shops charge.

#### Board of City Development

The Board of City Development met Wednesday night. It endorsed the movement for a city park, and appropriated \$250 toward the expenses of holding the annual West Texas Poultry show next month.

#### Chickens Show at Floydada

A poultry show is in progress in Floydada and several Plainview citizens have chickens on display there.

## H. V. TULL'S BROTHER DEAD FROM ACCIDENTAL SHOT

#### Was Captain in Army and Dropped Pistol—Burial Was at Riesel

Captain John Tull, V. S. A., died in Junction November 9, during an operation following an accidental shooting. The wound was received November 1 while returning a service revolver to its holster.

Captain Tull was a brother of H. V. Tull of Plainview, and was at the head of the supply troop, Third Texas cavalry, was sent to Fort Riley by Col. G. B. Rogers to take a three months' course in cavalry training. He was 40 years old, and a veteran of the Spanish-American war. When the national guard troops were called out for duty at Galveston, Captain Tull was among the number to go. He remained at his station there until sent to the training school.

Funeral services were held Friday morning at Riesel, his old home, at 10 o'clock. A military escort was furnished by Col. Rogers. Captain Tull is survived by his wife, two sons, his mother, who lives in Austin, and by three brothers, E. B. Tull of Munday, H. V. Tull of Plainview, and Dr. J. L. Tull of Vernon. All were present at the funeral, except H. V. Tull, who was unable to reach Riesel for the services.

## DECIDE TO PUSH CAMPAIGN FOR PARKS

#### COMMUNITY HOUSE WILL BE DEFERRED UNTIL PARKS ARE SECURED

The committee composed of representatives of various commercial, civic and literary organizations of the city held a meeting last night in the Guaranty State Bank, to further discuss the city parks and community house matter.

J. B. Maxey of the sub-committee reported that it would cost around \$150,000 to erect a community house with an auditorium with a seating capacity of 3,000 and with the other rooms and departments that would be included. One of 2,000 seating capacity would cost considerably less. The committee considers that it will be impossible at the present time to put over the community house, and a resolution was adopted that building of the community house be deferred and that the committee take active steps to secure one or two parcels of land in Plainview for city parks.

#### Gidney Buys Dowden Place

Dr. C. C. Gidney has bought the E. Dowden farm, seven miles south of Plainview, from Spencer Bros. of Cisco.

The Dowden place comprises a section of land, four hundred acres of which is in wheat. There is also an orchard on it, and it is well improved. For a long time, when Mr. Dowden lived on it, it was one of the show farms and orchards of the Plains. We understand that Dr. Gidney paid cash for it and got it at a bargain considering present values.

#### Santa Claus Letters

Already the News has received several letters from children to Santa Claus. The News invites the children to send in their Santa Claus letters and they will be published in an edition early in December, in plenty of time for Santa Claus to act on the requests. Address the letters to Santa Claus, care Plainview News, and mail or bring them to our office.

#### Park Dalton County Attorney

Parke N. Dalton, former Plainview boy, was elected county attorney of Crosby county at the recent election. He has been practicing law in Crosbyton for a couple of years or more.

#### Fine Weather Again

The past several days the weather on the Plains has been almost ideal, and makes us forget about the bad spell last week.

Walter S. Ayers of Chicago, was here this week, visiting old-time friends. He was for several years before the war general sales manager for the Texas Land & Development Co. lands here, with headquarters in Chicago, and brought hundreds of homeseekers here to look at the lands. For several years he has been and is now industrial commissioner for the New Orleans Great Northern Ry Co., whose lines are in Louisiana, and his headquarters are in Chicago.

G. L. Phillips has been granted permission by the commissioners' court to close certain streets and alleys in Runningwater and throw back into acreage property certain blocks and lots, after publication of legal notices.

## RED CROSS ROLL CALL

### CAMPAIGN IS SUCCESS

#### WILL EMPLOY NUTRITION DIRECTOR TO WORK THROUGH PUBLIC SCHOOLS

Gerald V. Smith, director of the Red Cross fourth roll call for Hale county chapter, informs us that the campaign is progressing satisfactorily. The committees are at work and are securing many renewals of membership, also new members. The campaign will close Thanksgiving Day.

A meeting of officers of the chapter was held yesterday, Miss Lutie V. Burkholder of St. Louis, district manager, being present. It was decided to have a trained nurse for this chapter, and she will have headquarters in high school a part of the week and in the homes of Hale and Lamb counties. Her work will be in the nutrition department and she will teach the children what, how and when to eat.

There is about \$3,000 in the local treasury, some of which will be used for this purpose. Half of the money gotten in the present roll call goes into the local treasury, and the other half to the national treasury.

The meeting yesterday afternoon was composed of the officers of the Red Cross chapter, and representatives of the mother's clubs of Plainview schools. G. V. Smith was named as publicity chairman for the chapter; Dr. E. O. Nichols, chairman of public health committee; Dr. J. F. Jones, chairman first aid committee. Other chairmen will be named later.

The new nurse will be director of what is termed the nutrition clinic, and it is hoped later to engage in other activities within this chapter looking to the better health of people.

## PRE-WAR PRICES FOUND IN GRAIN

#### Corn and Oats Are Sacrificed Wholesale in Day's Trading at Chicago

Chicago, Nov. 19.—Pre-war prices made their first appearance today in the grain market. Corn and oats were sacrificed wholesale in the trading pits until both cereals were squarely on an ante-bellum basis of value. Transactions in wheat were also of great volume, with prices slashing in progress. Reported unsettled general business conditions furnished the background, and large supplies of feedstuff were said to be in sight with livestock being rushed to market instead of being held on farms, according to reports. Wheat showed itself the most sensitive of any board of trade commodities and stopped falling only after having broken 9 3-4 cents a bushel. Bear leaders conceded that farmers were to a large degree successfully maintaining a holding policy as to wheat, but took the ground that the wheat must be sold some time and that in the meantime, Canada was supplying the urgent demand in this country and was furthermore glutting United States markets with Canadian cattle as well.

## ABERNATHY

Nov. 16.—Abernathy high school organized two literary societies—Pierian and Demosthenian—Friday night, October 29th. After a program was rendered by the school, the citizens organized a literary society for the outsiders. There will be keen competition between these societies, as a premium of \$15 has been offered to the society that gives the best programs during the school term.

The school is preparing to make a stiff fight for the championship in spelling at the interscholastic meet. We are devoting every Monday night to old fashion spelling matches.

Prof. A. G. Harrison, our principal, went to Austin last week in the interest of the school, as we are working for affiliation as first class school.

The Abernathy high school basketball girls defeated the Hale Center girls last Thursday in a game in the court of the latter, with a score of twenty-five to twenty-two.

The Abernathy high school basketball boys defeated the town boys in a game Friday, the score being twenty-eight to twenty.

Mrs. T. B. Stone entertained the Old Maids and Old Bachelors one night last week. All present reported an enjoyable time.

Mrs. R. L. Heath of Merens and Mrs. Mary E. Ethridge of Poyner were visitors at the home of J. M. Fields the past week. Mrs. Heath while here purchased the R. M. Hardesty farm south of town.

The City barber shop was visited by Robbers the other night.

Miss Opal Thomas and Mr. Vergil Merrill were united in marriage Sunday night at Hale Center.

Mr. and Mrs. Goodson of Junction are visitors at the home of Mrs.

## UNGRATEFUL PEOPLE

"Vanity of Vanity; all is vanity," saith the preacher. Four of the five great statesmen who won the war for the allies have been repudiated by their people. Orlando of Italy fell first; next Clemenceau of France was defeated for president; the recent election in this country was a repudiation of the Wilson administration; this week Premier Venizelos of Greece was repudiated in a general election. Only Lloyd George of Great Britain retains control of his government, and several times has he had narrow escapes, but has each time managed to weather the storm.

These five men bore the brunt of the war, and more credit is due them for winning the war and humbling the Kaiser than any other forces, for had they not managed matters as they did the armies of the allies and America would not have been able to make the fight they did.

Why do people nearly always, following a big war, repudiate those who won the war? It seems they would be so grateful that they would vote them back into power.

To win a war there must be men of iron at the head of the government, and they must needs trample on many persons' toes to do so—and this leaves a grudge in the heart of each person whose toe was hurt, and at the first election he votes in revenge. People are "amusing critics."

In later years a nation canonizes the statesmen who won its wars—for instance, Washington and Lincoln, even if it does bitterly denounce them and repudiate them at or following the war.

We hope everybody else will do their Christmas shopping early, so we can have plenty of room to do our's the last day.

Miss Robinson, the newly elected congresswoman from Oklahoma, declares she is a Republican and a Christian. How can anybody be both at the same time?

Though thousands of men have been thrown out of employment in the cities in the corn states of the north, the farmers are unable to get many of them to husk corn at high wages.

The League of Nations is holding its first general convention in Geneva, Switzerland. Delegates from forty-nine nations of the world are in attendance. The only nations not represented are the United States, Russia, Mexico, Germany and Turkey.

Another thing to be thankful for: The death rate in the United States during 1919 was the lowest on record, and this year's record will doubtless be better. The health crusades and general education of the people along sanitary and prevention lines are having effect.

Robert P. Brindell, president of the building trades council in New York city, one of the highest paid labor leaders in the United States, has been indicted in several counts on charges of extorting money from contractors by threats of calling strikes. Investigations show he has collected a million dollars in this way. If the truth were known hundreds of "Walking delegates" and labor agents pursue the same tactics that have landed Brindell in the net. Labor leaders thrive on strikes and threats of strikes, and they often foment trouble in order to extort money for themselves. If organized labor would clean itself of bosses and bolshevism, abide by its contracts and deal on the square it would profit in the long run.

## IN A MINOR STRAIN

You may not believe it, but you can do a heap more for yourself than anyone will do for you.

We do not know much. But we know men well enough to state that there ain't no sicker animal as a woman hater.

## HALE CENTER HIGH BEATS WAYLAND COTTONTAIL MEN

Hale Center, Nov. 17.—The Hale Center high school team in a game of football with the Wayland College Cottontails here ran up a score of 54 to their opponents 0. The feature playing of the game was done by Burson, full, and Walk, quarter for Hale Center High. Team work characterized the entire game, and the Cottontails fought gamely until the last whistle sounded.

Everyone is looking forward with considerable anticipation to the game between Hale Center and Floydada, at Floydada Thanksgiving Day.

## POWERFUL INTERESTS TRIUMPH

The daily newspapers continue to be filled with dispatches from all parts of the United States telling of cuts being made in prices, of factories being closed and thousands of workmen thrown out of work. Many factories are running on part time, and laborers are accepting less pay.

The public is responsible for all this. The public had its hectic and extravagant fling for several years—everybody was prosperous, had lots of money and spent it like drunken sailors.

But after a big spree there is invariably 'the morning after the night before.'

So, several months ago the public began to quit buying high priced silk shirts, hosiery, etc.—and the silk business collapsed.

It was not long before the same thing happened to the entire textile industry—the public refused to buy at high prices. Clothing was next, for people resolved not to buy at inflated prices.

Luxuries of most all kinds have become a drug on the market. The automobile business is dull most everywhere. Hundreds of thousands of laborers are idle.

The price of farm products have had a great drop—much greater than they should have suffered, for the crops were made and harvested with high-priced labor.

The cattle and sheep industry is possibly harder hit than any other, and there is not much hope for bettering the market until spring.

The country is re-adjusting itself, following the war. All economists foresaw this re-adjustment, in fact everybody knew it was coming. It had to come! Those who got ready for it are not suffering; those who thought it would not come so soon or were careless and extravagant have simply gotten their tails caught in a crack.

Take, for instance, wheat. Last spring and early summer it was easy to sell wheat on contract at \$2.75 and \$2.85 a bushel, and a number of Hale county farmers took advantage of it. Others refused to sell at that price because they thought wheat would go to \$3. They lost, and have only themselves to blame, for they were gambling. Wheat is now too low; row crops are a losing proposition.

The reason why so many got caught and so many have suffered losses, is, they did not expect the break in prices until next spring—but it came quicker.

The financial and commercial interests of America are dominated by republicans. These interests have it in their power to raise or lower prices. In order to make the people dissatisfied and give the republican party a better chance of election these great financial interests unquestionably brought on the break in prices just before the election to insure a republican victory. They had great stakes, on the result, for they dominate the republican party and will insist on it amending the federal reserve banking law, reducing the income tax, enacting a high protective tariff, and doing other things which will give Wall Street once again power over the finances of the country and shift the burden of paying the war debt from the shoulders of the rich to the backs of the common people and producers of the country. The victory of the republicans was a great triumph for the financial powers that be; but it will prove a terrible thing for the producers and consumers of the nation.

## REVIVING THE SPIRIT OF SELF-RELIANCE

Just now the cattlemen, the cotton growers, the wheat growers, the wool growers, to say nothing of sundry others, are, if not 'against the government,' at least at odds with it. In an hour of distress they have called on it lamentably for financial succor, and it has turned them away with the intimation that it were best they attend to their own business. Wherefore their feeling that it is at once a hard-hearted and soft-headed government which lays claim to their loyalty and affection.

We have no mind to expostulate with that feeling, both because of a full understanding of the futility of going so while they are in their present mood and because of the conviction that time will transmute it into one of gratitude.

Being denied the paternalistic help they sought at Washington, the cattlemen, the cotton growers, the wheat growers, the wool growers, and the sundry others have come home and get about the job of doing for themselves what they besought the government to do for them. We have no doubt they will do their several jobs much better than the government could have done them that they will eventually solve their own problems more satisfactorily than the bureaucrats of Washington could have done it. But whether they shall or not, they are, under compulsion, reviving the spirit of self-reliance which was the glory of American citizenship until we fell into the habit of relying on the government to get us out of our difficulties.

The cattlemen, the cotton growers, the wheat growers, the wool growers, and all the rest of us, in varying degrees, have come to be in need of that revival. While decrying and denouncing socialism, we were fast succumbing to its debilitating influence by putting demands on the government with which made it

citizens, and fast losing faith on our ability to surmount unaided the obstacles which fell in our way. The resourcefulness which has probably contributed more than anything else to our greatness as a Nation was being forfeited by our reluctance to exercise our ingenuity in overcoming our difficulties. The spirit of enterprise was being deadened by our growing unwillingness to assume the risks of adventures, witnessed by our continued demands that the government insure our individual undertakings against loss. We shall not be surprised if, when viewed in the perspective of a few years hence those refusals of the government which now excite a feeling of resentment will be hailed gratefully as decisions which were our political salvation.—Dallas News.

## Chinese Have Day of Thanks

The moon feast is one of the most popular and widely spread of all the Chinese pagan festivals. It has many of the characteristics of the ancient moon-worship ceremonies of Syria and Phoenicia, and it comes as near to being a thanksgiving festival as any heathen feast could ever expect to be, celebrating the ingathering of the harvest. To the masses of the Chinese, however, there appears to be but a faint idea of genuine thanksgiving connected with this moonfeast. It is simply the remnant of an ancient institution, coming down from the remotest antiquity as a meaningless act of nature worship. It is possible that in the beginning, among the early Chinese people, the moon festival may have been less pagan and more characterized by feelings of thankful rejoicing than it is at present. However, than may be, no wiser choice could have been made by the missionaries in China toward establishing a genuine national Thanksgiving feast than the selection of the day of the popular moon feast.

The moon feast was first proclaimed a thanksgiving festival in 1906 at Wuchang, where the large church was filled with a well-ordered crowd of Chinese, celebrating for the first time the newly appointed thanksgiving day. The sacred building was beautifully adorned with offerings of staple articles of Chinese diet, like beans, rice, millet and other grains, not to speak of the pomegranates, pears, apples, wine, salt and flour.

Wuchang is a great city of nearly a million inhabitants, situated far up the Yang-tse-Kiang, in the heart of China. Its central position, among the teeming myriads of heathen Chinese, renders it a good point for the spread of helpful and uplifting ideas and truths, and in view of the readiness of the Chinese at home to adopt the best things presented to them for their own good, it is expected that the old moon feast will gradually be turned to a thanksgiving feast.

## THANKSGIVING CELEBRATION IS KNOWN TO ALL

Every Nation and Race Has Had Some Form of Thanksgiving for a Bountiful Harvest

Thanksgiving day is made up from parts of celebrations of that day by other peoples. The time is taken from one, the feast from another, and the gathering together of the people from still another. Long before the white race came to this country the Indians held a festival day during this season of the year. They had a great feast of roasted deer and bear, boiled corn and stewed pumpkin, and the women and the warriors partook of it on equality. The feast was kept up far in to the night, and was followed by a dance of the braves, keeping time to the songs sung by the dusky maids of the forests.

Thanksgiving also owes something to the religious rights of ancient nations. The oldest of these is the Jewish feast of the tabernacles, with its magnificent festivities. The festivals occurred annually, at the end of the harvest season, and continued for eight days. Sometimes it was held as early as the 25th of September, but never later than the 20th of October. It was the feast of the "ingathering" of the harvest of all the fruits, the corn, the wine, and the oil. The labors of the field was then over for the year, and the feast was an occasion of joyousness and gladness to the people. At this season the nation assembled in Jerusalem, where they lived in booths for seven days. Impressive ceremonies and processions took place each day, and at night the court of the temple was illuminated by lamps and flambeaux. At the end of seven days' joy the booths were dismantled and the people celebrated an eighth day of solemn rest.

The glory of the great Hebrew festival has long since passed away, but the fundamental principle—that every one should rejoice in the fruits of the harvest, together with the whole people of the land 'before the Lord'—has entered into the harvest observances of Christian lands.

## SELECTING A HAT

Choice Should Be That Which Suits Wearer's Type.

Style Authority Asserts Women Should Wear Millinery Suitable to Their Own Personality.

A hat need not be expensive to be becoming, but it must be well chosen. The attractive hat in every case is the hat which suits the wearer's type. Do not, advises a style authority, choose blindly a hat which happens to strike your fancy, and which does not suit your personality and dress up to it.

If you are a woman of middle age whose features are beginning to show definite lines, you should not wear a hat which turns sharply off the face, nor one with sharp angles. The soft, cloudy lines of a drooping brim, be it ever so small, will better suit your type and disguise some of those wrinkles. A flesh-colored facing is also a good friend of the middle-aged woman. It will take a surprising number of years off your life.

The American type of face looks best in a hat which is extremely simple. It may require some self-restraint to resist the appeal of that extra bow or flower for your new hat, but the result will be worth it.

If you are the feminine, clinging-vine type of woman, you may wear feathers, flowers and lace. They are planned for just your type. You must be careful not to overdo it, however.

If you are inclined to be stout, do not attempt too much trimming and keep the brims of your hats narrow. Such trimming as you do use should be piled high on the hat, preferably toward the back on the left side.

If you are of a nervous temperament, avoid all dangling trimmings. Such trimmings do not look well when they are in constant motion, you know.

The prettiest hat in the world will not look smart unless it is well cared for. All hats should be dusted when they are taken off and placed in a box where they will be out of reach of dust. Make for yourself a set of hat boxes, which will last for many seasons, and prolong the life of your hats indefinitely.

## NECK LINE IN ULTRA FROCKS

Elevation Is Note of Interest to Women for Street Dress With Neckpiece.

A detail of interest is the elevation of the neck line in what may be termed ultra frocks.

It is the closing of the back or front quite up to the neck and the use of the enswathing stock in lieu of the open neck sans collar; exceedingly smart for the street frock worn with the fur neckpiece, but not so attractive when worn beneath the top coat or fur jacket with its own great collar.

Each of these is a reflection, indirectly, of the revived interest in the modes of the Directoire, along with the revers and waistcoats seen in connection with the redingote dress.

Of interest to the woman who does the soft neck line is the assurance that she may wear a bit of white about the throat and be quite in the latest fashion. This is especially true of the velvet dresses (particularly lined in black), which are made with many beautiful details of embroidery.

#### ORIGIN OF THE AMERICAN THANKSGIVING DAY

Will Bear Repetition Annually as  
Something of Which Every  
Citizen May Be Proud

The ancient Thanksgiving did not, as some have fancied, skip down the ages to find its home in America. In one way or another it seems to have always been observed. Throughout Europe, before the Reformation, special days were set apart as days of religious thanksgiving. The American Thanksgiving day is traced back to the Pilgrims.

Shortly after the landing of the Pilgrims, while searching for a suitable place in which to build their homes, they one day came upon some deserted Indian huts, in which they found some baskets filled with corn. From this supply they succeeded in saving enough to plant their first year's crop.

In the spring of 1621 the seed corn was sown and its growing watched anxiously by the people of the little colony. To their great joy, the harvest of the following October was a bountiful one. Governor Bradford ordered a three days' feast in celebration thereof. Wild turkeys, geese, ducks and water fowl, corn bread and vegetables no doubt formed the chief constituents of their feast, not to speak of the five deer brought in by a tribe of friendly Indians.

This festival is supposed to be the first real Thanksgiving day from which we date our celebration. This celebration, although without doubt the origin of our national Thanksgiving day, may be looked upon as merely a local observance, being held by the Plymouth colony only. They were the forerunners of less local celebrations in Massachusetts and gradually in other colonies, for in 1630 a public Thanksgiving day was observed in Boston by the Bay colony and again in 1631.

During the next fifty years there were as many as 22 public Thanksgiving days appointed in Massachusetts, usually in October or November, after the gathering in of the harvests, or to celebrate some public benefit. It did not become a regular holiday until a long time afterward.

In 1789 Washington issued the famous Thanksgiving proclamation recommending Thursday, November 26, as a national day to be devoted to prayer and thanksgiving. Washington's example was followed by other presidents.

In 1863 President Lincoln appointed the fourth Thursday in November as the national Thanksgiving day. Since then the day has been observed annually without interruption.

#### TUBERCULOSIS COST TEXAS \$40,000,000 IN 1919

Statistics Show 3,396 Deaths from  
This Disease Occurred in State  
During Year

Austin, Texas.—Tuberculosis, in terms of dollars and cents cost Texas over \$40,000,000 in 1919. This is the statement issued by the Texas Public Health Association, which declares that this is a conservative estimate.

Scientists have estimated that the minimum economic value of a life is \$1,700, and since 3,396 deaths in Texas from tuberculosis were reported in 1919, the economic value of lives lost from the white plague would be \$5,733,200. The loss in earnings was figured to be \$10,875,900 last year; while the cost of medical attention, nursing and medicine for the thousands of cases was estimated as \$25,518,975. This would make the total loss to the state \$42,168,075.

The \$200,000 which the Texas Public Health Association and its local tuberculosis societies over the state are to raise through the sale of Christmas seals, December 1 to 11, is health insurance for the people of the state against tuberculosis, declared D. E. Breed, executive secretary of the association.

We are supporting tuberculosis clinics, dispensaries, and children's summer camps; working for more hospitals and sanatoria; directing the modern health crusade which brings lessons of health to thousands of Texas children every year; sending out nurses to examine school children and demonstrate school and community nursing; forming health societies among Mexicans and negroes; making tuberculosis surveys; establishing local anti-tuberculosis societies; sending out thousands of pieces of health literature, furnishing speakers and lecturers on health and much other work.

The association is directing the sale of \$20,000 Christmas seals in Texas December 1 to 11.

Summed Up, They Are Simply the  
Aggregate Blessings of the

With the coming of Thanksgiving week, the week that includes the day set apart by the proclamation of the President of the United States for expression by the people of their devout thankfulness to the Almighty for the blessings of the year, comes a spirit of meditation. It is not necessary to turn the world at large for a text for the blessings of the year, other than as this general situation is reflected in the measure of America's content. The blessings of a nation are the aggregate blessings of the indi-

## AS SEEN IN PARIS

No Style Changes of Drastic Order Are in Evidence.

Long, Straight Line, Long-Waisted Corset, Plaited Skirt and Cape Hold Sway.

Now that we have all settled down for next winter we are able to realize, and with considerable satisfaction, that very few important changes have taken place in the world of dress. Changes have been made, of course; but none of a drastic order. We still have with us, observes a Paris fashion authority, the long straight line, the long-waisted corset, the plaited skirt—also the plaited cape—and picturesque sleeves.

Even the robe-chemise is in evidence. True, it is now decked out at the sides with loops, puffings or plaited panels, but the outline remains very much the same.

The one-piece robe and long tunic have proved so universally becoming that women refuse to give them up. For this reason our big dressmakers have set themselves the task of making unimportant changes—here and there while the dress itself, practically, remains unchanged.

It will be an exceedingly picturesque winter. All the best dressmakers in the Rue de la Paix and Place Vendome are showing what may be called "picture style"; indeed, this feature is carried almost to the point of exaggeration.

For example, one charming model was in reality a smart little indoor gown, meant for boudoir use, but it would be the correct thing for a dancer, in conjunction with a big velvet picture hat. And the same may be

Demi-toilette in ivory lace and "sphinx" blue mousseline de soie.

said of many of the more important models. When they are exhibited one says: "Is it a boudoir gown, or is it a frock for a dance-tee?"

Plaitings of all kinds are amazingly popular.

In Paris they are doing wonderful things with accordion-plaited goods of filmy texture; they are also plaiting serge, taffeta and shantung. But, though the accordion plait is first favorite, it is run close by the larger flat plait, which recalls the genuine "kilt" of Scotch renown.

### SILK DUVETYN COAT FOR FALL

Garment Should Be Equally Attractive When Collar Is Buttoned Snugly or Opened.

For cool autumn days a cloth coat of some sort is really a necessity. Something warm and at the same time light in weight to be used while it is not yet cold enough for the luxurious wrap of fur.

An attractive coat of blue silk duvetyn will be very smart worn over a pretty afternoon dress. Cut with semi-kimono sleeves, which are tight enough to suggest those of a frock, and which are so popular this fall, it may be trimmed with a collar and cuffs of gray squirrel, which also are very popular at present. The collar should be cut so that it is equally attractive when buttoned snugly at the throat or opened on the shoulders.

A striking hat for wear with this coat is of black velvet made in a draped toque effect and tripped at the side with a drooping cluster of coque feathers.

### A Snug Slipper.

A warm little slipper for baby can be made out of a wool neck scarf by placing the middle of scarf on the front of baby's dress, then drawing it around to the back, crossing and pulling up over the shoulders, then drawing down to the front again and fastening at each side with two baby pins or safety pins; it is both snug and comfortable.

## GOOD WILL TRIUMPHANT UNDER TEST

As this message is being written, Dodge Brothers' daily, weekly and monthly production, is at the highest point in its history.

The most casual sort of inquiry will satisfy you that this production is being absorbed as it is delivered.

Within sight and sound as we write, a great addition to Dodge Brothers' immense works, is being rushed to completion.

The interesting thing about this situation is, that it is not likely that a half a hundred people have ever bought Dodge Brothers Motor Car just because they wanted a motor car.

Of the more than half a million who have bought it—the overwhelming majority did so because of the name it bore.

It has always been treated, by the American people in particular, as an exception—always set apart, and singled out, and never judged by ordinary standards.

It has always been thought of, and is still thought of, first, and foremost, and all the time, only in terms of its goodness, and the results it gives.

All of this is wonderful, in one way, and quite natural and logical in another.

It all dates back to the day when John and Horace Dodge conceived and designed and finally built the car—after warning each other, and their associates, not even to think of it in any other terms than the best obtainable value.

They began with a few almost absurdly simple principles, bluntly expressed and rigidly executed, about decency and honor and integrity—

such as most of us wrote in our copy books at school.

They reduced these old copy book maxims to a splendid and scientific system, pouring more, and more, and still more value into the car, and then marshalling all the resources of modern massed manufacture to get their product into the hands of the people at an honorable and an honest cost.

These policies and principles have never been changed, and never will be changed, by so much as a hair's breadth; and they have come to be recognized and accepted as Dodge Brothers principles wherever motor cars are driven.

It has all happened as John and Horace Dodge planned it—quite simply, naturally, and automatically, all over America, and all over the world.

People do discriminate, as Dodge Brothers contended they would; people will find out when a motor car is well built and gives good service and great good value.

Dodge Brothers market today is where they planned to locate and establish it—in the mind and the heart of every man and woman who admires good work, well done.

It will last, and it will keep on growing, as it has kept on growing for five years (faster than Dodge Brothers works could keep pace with it), as long as the number of those who believe that a manufacturer should build to serve and not merely to sell, continues to increase.

All is well with Dodge Brothers today, because John and Horace Dodge build well in the beginning, and because their business will continue to build well until the end.

#### COWBOY BOOTMAKER IS GOING TO CALIFORNIA

John Meisterhans, pioneer bootmaker of Plainview, will soon leave for California to spend the winter and probably make his home. For many years Mr. Meisterhans has made boots for the cowboys of the Plains in a small wooden building between the business section of Plainview and the Santa Fe depot. Although the work has brought him a good income, it has so nearly wrecked his health that he is forced to give it up. Mr. Meisterhans was born in Zurin, Switzerland, sixty-nine years ago. He became an expert boot and shoe maker before leaving that country, but from his childhood he longed to come to the pioneer part of the United States. He fought Indians for awhile

after his arrival here, and later fought under Col. R. P. Smyth of Plainview in the Spanish-American war.

Mr. Meisterhans seldom leaves his little shop except to go for the mail once each day and occasionally take a short walk in the afternoon. He is known to every person in Plainview but known to but very few of them. He is known over the entire Southwest by cowboys who have had their boots made by him, and since it was learned that he is soon to retire from the business he has been swamped with work by those who want one more pair of boots from him.

Santa Claus will make his headquarters at Frank's Necessity Store. He invites the children to come and see what he has for them.
