LARGE CROWDS TO GREET PLAINVIEW TRADE PILGRIMS

BOSWELL SAYS PEOPLE ARE LOOKING FORWARD TO TRADE EXCURSION

John Boswell returned last night from a three day's trip, on which he visited all of the thirty towns on the excursion route. In each town he tacked up posters, placed cards in show windows and distributed circulars telling of the coming of Plainview's boosters. He also made arrangements for meals and hotel accommodations for noon and night stops. John followed the same route each day to be followed by the excursion. He states that he had no trouble making the trip on scheduled time, although his work required longer stops than will be made on the excursion. For the most part, he found the roads in good condition. He states that there are some newly graded roads which are soft and others that are rather rough, but all are passable and good enough to permit the excursion to travel at the schedule rate.

Everywhere he found much enthusiasm for the coming of Plainview's boosters. Practically every town made efforts to have the excursionists remain longer in their town. All promised to have big crowds out to greet the Plainview men.

At Turkey where the noon stop will be made the first day, special arrangements are being made to show the Plainview bunch a good time. The cafes and hotels are going the limit to have some good meals ready. Matador is showing a great interest in the excursion this year and will have some entertainment of their own for the Plainviewians, according to prominent citizens there. Petersburg, too, is going to have something ready to spring on the trippers.

And Ralls—the little city which last year won everlasting friendship from Plainview because of a big dinner, will repeat this year. Percy Ralls has charge of the entertainment which is "huf sed."

Crosbyton has reserved the public square for parking Plainview's cars and will be out in force to greet the bunch. They also promise to pull off something novel while Plainview's bunch is there. Idalou is another town which will greet the travelers with enthusiasm. The little town of Shallow Water will be out to a citizen when the bunch gets there early Thursday morning. Littlefield is featuring a novel and cordial reception. Dimmitt, where the noon stop will be made Thursday is going the limit to feed the hungry evangelists well. County Judge B. D. Woodlee and Judge Ferr of that place have charge of the arrangements.

Many of the other towns to be visited will have something up their sleeves to let us know that they are on the map according to Boswell. And all of them will have big crowds out. Kids along the route are threatening to play hooky if their teachers do not let them out to get some souvenirs and hear "reverend" in practically all towns, the schools will be dismissed to allow the children to be present.

Must Start On Time
John states that the first day's trip will be the longest and that the excursion must start promptly on the scheduled time of 5:45 a. m., Tuesday morning to make it. He believes that the trip can be made easily and that all towns will be reached on time if the start is made at that time.

He reports that the schedule as made by L. P. Barker is absolutely correct for distance and time.

McKinney Man Elected Director
In the election for member of the directory of the Federal Reserve Bank of this district, Howell E. Smith, president of the First National Bank of McKinney, was elected. He received 127 votes; R. A. Underwood of Plainview got 114, and Pat E. Hooks of Itasca 84, and there were also number of scattering votes.

Wayland to Play Canyon
The Wayland college base ball team went to Canyon this morning, where games will be played with Canyon Normal team this and tomorrow afternoons.

Visits of the Stork
Born to Mr. and Mrs. Charles E. Holt, near Plainview, May 2, girl; named Kathryn. Tom Vaughn, Plainview, May 3, boy named Grey Pierce.

German Cabinet Resigns
In view of Secretary Hughes' reply to Germany's counter proposals on reparations the German cabinet resigned Wednesday.

Marvin Prewitt, formerly of the navy, was here this week visiting his aunt, Mrs. T. R. Butler.

Other Victims Will Recover

The remains of Earl Thresh, who was killed Tuesday afternoon when the car which he was driving fell off a thirty-foot embankment coming up the caprock on the Plainview and Quitaque road, were taken back to his home in Altus, Okla., for burial.

All the other victims are recovering. Mrs. Susie Thresh, neck dislocated and internal injuries, and the eight-year-old daughter of Thresh, shoulder crushed and both arms broken, were injured most and are suffering severely, with a possibility of their injuries proving fatal.

Mrs. Earl Thresh was badly cut about the head and body; the ten-year-old son got his chest and back badly crushed and a younger daughter received minor injuries.

The family was en route to Hale Center to visit their relatives Arthur Redsinger and family.

Special Car to Austin

A special Pullman was attached to Wednesday morning's train, to carry the boys and girls along the route who are contestants in the State interscholastic meet, now being held in Austin.

PLAINVIEW CHAUTAUQUE WILL BE HELD MAY 21-17

PREMIER CIRCUIT PROGRAMS EACH AFTERNOON AND NIGHT FOR WEEK

The fifth annual chautauqua will be given under the direction of the Redpath-Horner bureau, beginning May 21 and continuing seven days. The premier circuit programs will be used and they are rated as the best there is.

First day, Vienna's Hawaiians; evening, Vienna's Hawaiians and Gas. H. Platteburg.

Second day, afternoon, Musical Grenadiers; evening, Musical Grenadiers and Henry A. Adrian.

Third day, afternoon, Agnes Knoflekova Company; evening, Agnes Knoflekova Company and Frank Dixon.

Fourth day, afternoon, Dr. J. Q. Robinson; evening, Broadway Jones.

Fifth day, afternoon, Gleen Wells Company, Mms. Selivanova; evening, Dr. Ng Peon Chew and Gleen Wells Company.

Sixth day, afternoon, Philharmonic Orchestra, Clarissa Harrold; evening, Philharmonic Orchestra.

Seventh day, Montague Light Opera Singers and Hon. John Temple Graves; evening, Montague Light Opera Singers.

The afternoon programs begin at 2:15 and the evening programs at 7:45. During each morning of the entire program children's work will be rendered under the direction of various members of the company.

Britains Visit in East Texas
Rev. and Mrs. G. I. Britain have returned from their old home in Nacogdoches county, where they visited his mother and her brother and sister.

While here Bro. Britain preached at his old home church, at Black Jack, where he joined the Baptist church and was licensed as a preacher. Near there stands "the White House," which was the first house in Texas when it was painted white.

The Britains had a delightful trip and her health was greatly improved.

Inspected 3,495 Cars Grain
Up to May 1st Federal Grain Inspector J. B. Wallace of Plainview had inspected 3,495 car loads of different kinds of grain since he began work July 10. Not a single day has he failed to have at least one car to inspect.

During April 265 cars were inspected—153 wheat, 53 threshed milo, 30 mixed milo, 9 kaffir, 9 oats, 5 cane seed three corn, one alfalfa, one threshed kaffir.

Wheat Growers Organize
A local organization of the Texas Wheat Growers' Association was formed here at a meeting Saturday, with fifteen charter members.

Officers were elected as follows: R. B. Mitchell, president; J. G. Seipp, vice president; H. V. Tull, secretary-treasurer.

Clubs have also been organized in Hale Center and Lockney.

Mrs. Opal Stansell Dies
Mrs. Opal Stansell, age 34 years, wife of Will Stansell, died of tuberculosis at the family home four miles northwest of Runningwater Tuesday, and burial took place in Runningwater cemetery Wednesday, Rev. G. I. Britain conducting the funeral.

The deceased leaves a husband and five children ranging in age from thirteen months to eleven years.

Eleven Floyd county wheat growers signed up last week with the Texas Wheat Growers' Association on a five-year pooling contract.

PLAINVIEWIANS WILL GIVE GLAD HAND TO NEIGHBORS ON TRADE EXCURSION

Everybody is Enthusiastic For Visit to Twenty-Nine, Towns--Big Parade and Comic Show at Every Stop

All aboard for the annual Trade Excursion will be sounded at 6:45 o'clock next Tuesday morning, when more than sixty cars with possibly 300 Plainview business men and citizens will leave for a three days' trip, visiting twenty-nine towns in ten counties.

Everything is in readiness for the excursion, and it promises to be the most successful of any pulled off by our town.

The excursion will be for the purpose of paying a friendly visit to our neighboring towns, and to meet their people.

The excursion will carry the Plainview Boys' Band, the Tahmineh Shrine Club patrol, the American Legion five and drum corps, the Wayland college yell squad, a clown band, a male quartette, and other attractions, and a parade and concert will be given at each stop. A local speaker will also deliver a short address.

There is a general invitation to the people of Plainview to go on the excursion, and plenty of cars will be available for everybody who will go. So be on hand to make the trip.

Each car and person must obey the rules published in this paper, in order that the excursion may move according to the schedule, and everything will be carried out smoothly according to the program.

Two service cars will go on the trip to make any repairs that may be necessary.

Ten Rules Covering 1921 Annual Trade Excursion

1. Be on time.
2. If delayed drop out and take in the towns that you can do so on time.
3. Don't stop to help a fellow unless he asks you to (he may have reasons of his own for stopping).
4. The bugle will sound two minutes before leaving time. Leave when the whistle blows.
5. Obey the traffic laws in each town, also the other laws, however

the finance committee will pay all fines for yelling.

6. When our men are speaking be quiet and do not distribute advertising matter.

7. Meet everybody with a smile, no matter how you feel.

8. The service cars will be glad to help you, but don't delay them longer than 20 minutes, for others may need them.

9. Cars will keep in line as nearly as possible to the following. Lead car, Drum corps, band, Quartette, distinguished speakers, clowns, whistle car, cars containing business men and live wires only, other cars, and service cars.

10. At Lubbock turn out the lights before going to bed.

Be On Square Monday 6 P. M.

All persons who will furnish cars for the Trade Excursion are asked to be on the public square near the Chamber of Commerce at 6 o'clock Monday afternoon, so their cars can be decorated, and the canes, buttons, hats, ribbons, banners and megaphones may be distributed to the excursionists. Step lively, says Sidney Miller, be on hand, for 300 live ones are going.

Dallas News Correspondent Coming

Mr. Dealy, staff correspondent of the Dallas News, has wired he will be here to go on the Trade Excursion.

The Fort Worth Star-Telegram has also wired it will send a staff correspondent.

B. & B. Is Very Busy

The B. & B. Sign Service is very busy just now making banners and other sign work to be used on the cars and in other ways on the excursion. The B. & B. and Allison Chambers of Carter-Houston's are also putting the names and other lettering on the large white buttons with red borders, which will be worn by each excursionist.

Plainview Greets Neighbors

Plainview has nothing but good will for the twenty-nine towns in the ten counties to be visited by the Annual Trade Excursion. Plainview wishes each of them great prosperity and rapid development, and rejoices in their success.

There should be no jealousy or bad-feeling between any of the towns or the counties of this section. The development of one is beneficial to all the others. There should never be any "knocking." If you can't say a good word for your neighbor town, keep your mouth shut. Be a booster for this section.

Through a friendly spirit and by cooperation there is much that can be accomplished in the development of this, the best and most promising part of the state. Let us join hands and go after the things we should have.

Plainview cordially invites all the people of these ten counties to visit her often. The latch-string hangs on the outside all the time. Come to the Chautauqua. Come to the big State Fair. Come to the many other attractions from time to time, for Plainview is a lively town.

W. R. Lemons Dies

W. R. Lemons, father of J. M. Lemons, Fred Lemons, Mrs. H. E. Skaggs, Mrs. Mattie Autry and Mrs. M. C. Cornelius, died at the home of Mr. and Mrs. H. E. Skaggs yesterday morning after suffering several weeks intensely.

Mr. Lemons was one of the best known and most highly respected citizens of Cooke county, where he had lived almost all of his life. He was 75 years of age and had always been a very active business man until the latter part of last year, when he lost a son, H. W. Lemons of Waurika, Okla., and a short time later his wife. These great losses seemed more than he could bear and was soon overcome. In his severe suffering he had all done that loving ones could do. At the time of his death all his children were present, and a number of friends. His remains were taken yesterday afternoon back to Cooke county to be placed by the side of his wife.

Mr. and Mrs. Skaggs, Mr. and Mrs. Autry, Fred Lemons and family, John Lemons, Mrs. Cornelius and Mrs. Edgar Hartley accompanied the remains to Gainsville, to attend the funeral.

AUTO STYLE SHOW WILL BE VERY ATTRACTIVE DISPLAY

AUTO AND TRACTOR DEALERS AND MERCHANTS TO HAVE EXHIBITS

There is much interest being taken in the Auto Style Show, Booth Exhibits, and Tractor show, to be held in Plainview May 17, 18 and 19 under the direction of Miss Mattie Lee Baker of Stamford. Miss Baker has put on a number of these shows, which have been very successful, the most recent being that in Lubbock a few days ago.

All the local automobile and tractor dealers will be represented in the show, also the merchants will have booth attractively displaying their goods.

The Auto show will be held in the Perry Motor Co. building; the booth exhibits in the Campbell building, and the tractor show on the vacant lots north of the News office.

WHISKEY STILL RAIDED SOUTH OF LOCKNEY

Woman and Three Men Arrested and Jailed by Floyd County Officers and citizens

Floydada, May 5.—A complete still fifteen gallons of whiskey, a half barrel mash, together with three men and a woman were captured Wednesday afternoon by Sheriff J. A. Grigsby of Floyd county and a posse of citizens, who raided a farm house three miles southwest of Lockney. A small sized arsenal of highpowered guns were also taken in the raid.

The three men and the woman are being held in Floydada on charges of manufacturing whiskey and having in their possession a whiskey manufacturing plant.

Hundreds of curious people from over the county spent the afternoon Wednesday in Floydada inspecting the first still ever raided in this county and the first which many of them had ever seen.

W. M. Large and Fred Large, brothers, and Mr. and Mrs. Claude Nunley are the persons who were in the house and were taken into custody. The place was one of the "syndicate" farms, and had been rented some two months previous to their capture by the men.

The Large men are well-known in Hale county, one of them having resided there for number of years. A regular little arsenal was taken into custody by the officers, six pistols and two shot guns all loaded, and a pair of knuckes were found in the house.

The raid was well-planned. Sheriff Grigsby was accompanied by Deputies J. R. Maddox, H. S. Bolin, City Marshal C. L. Anderson, of Lockney, M. M. Day, of Lockney, G. E. Welch, constable of Lockney Precinct, A. C. Goen, H. S. Parks and W. E. Pack, who were deputized for the occasion. No chances were taken, Sheriff Grigsby said last night when speaking of the raid, officers having been put on notice by "grapevine special" that a battle might be expected if anything of the kind were attempted.

Charges on which the men and woman are being held are having in their possession whiskey for sale and having in their possession articles for the manufacturing of whiskey. District Attorney Clements, who was here for awhile late yesterday afternoon said he was thoroughly satisfied with the evidence obtained.—Floydada Hesperian.

R. W. Otto is down in the Breckenridge oil field, but will return tomorrow morning.

BRICK AND CONCRETE PLANS FOR AUDITORIUM SUBMITTED

WOULD SEAT 2,400 PERSONS AND COST ABOUT \$53,000 COMPLETE

The joint committee which has the matter of planning for a municipal auditorium met last night and considered the plans submitted by J. B. Maxey, contractor, for a building.

Mr. Maxey submitted plans for a brick, concrete, tile and glass structure 120x140 feet, which will seat 2,400 people. It will have a ceiling 20 feet from the floor, and a stage 30x60 feet. The roof will be covered with tar and gravel. The building will have proper dressing rooms, also a kitchen and other rooms.

The cost including the heating plant, opera chairs, plumbing, etc., will be about \$53,000.

The plans of Mr. Maxey were in a general way accepted by the committee as the best for the purpose, and the committee will go before the city council at a special meeting Friday night, May 13th, and discuss the matter with that body.

Hale-Swisher Medical Society

The Hale-Swisher Medical Society held its monthly meeting in the offices of Drs. Anderson & Gidney in this city Tuesday afternoon.

Dr. Gidney read a paper on the proper feeding of bottle babies.

The name of the society, at the meeting of the State Medical Society in Dallas last week, will be changed to the Hale-Floyd, Briscoe-Swisher Medical Society, as a new charter has been asked for to include the two other counties.

C. T. Field's Mother Dies

C. T. Fields left his morning for Bronson, Kans., in response to a message saying that his mother, Mrs. Sarah Jennings, had died. She was eighty-two years of age and spent last winter here with Mr. Fields and family.

Will Give Weekly Band Concerts

Prof. Wright, director of the Boys-band, asks that we announce that the band will on Wednesday night, May 18, begin weekly concerts at the band stand on the square, for the summer months.

Kick In, Brethern

The finance committee says it has not been able to see everybody who should contribute to the Trade Excursion fund, and asks that those who wish to help, in any sum, will please name same to Geo. Bennett or R. H. Knoohuizen or mail one of them a check. Every citizen should have a part in the expense of the excursion.

Will Explain Another Plan

We have card from the Farmers' Equity Union of Greenville, Ill., saying C. O. Drayton will address the wheat farmers in Plainview at the court house Tuesday, May 10, at 1:30 in behalf of a co-operative elevator, with capital of \$50,000.

Mothers' Day

Next Sunday will be Mothers' Day. The churches will hold special services in respect to the day.

Red carnations or other flowers will be worn by those whose mothers are living, and white by those whose mothers are dead.

The best friend a person ever has is mother, and it is but proper to as a nation observe one special day to honor her.

Pioneer Stockman Dies

A. L. Barton for thirty years a resident of Motley county died Tuesday afternoon at three o'clock at his ranch home in that county following a paralytic stroke from which he was ill some 24 hours.

Mr. Barton was 72 years of age at the time of his death. He is survived by his wife and a number of children. With his death comes the end of another romantic chapter in the history of the Old West Texas.

Another Section Added

Another section of pages is necessary to carry the adv. and other matter in the News Trade Excursion Edition, to be distributed on the excursion, but it is a physical impossibility with our limited mechanical force to publish it for this (Friday) issue. It will be printed Monday, and added to this sixteen pages, and will also be a part of Tuesday's paper.

A noted educator says that in another half century we shall have no ignorant class. But we probably shall have educators at that time who will continue to make curious predictions.

J. C. Hooper recently shipped 500 head of cattle to Kansas.

Donohoo-Ware Hardware Co.

Shelf Hardware and Furniture

We have on hand at all times a large and well assorted stock of Quality Merchandise for the benefit of our customers.

Mother's Cook Book

The art of cooking cannot be learned out of a book any more than the art of swimming or the art of painting. The best teacher is practice, the best guide is sentiment.—Louis XV.

What to Eat.

For a change in serving potatoes try:

Sauted Potato Balls.

Cut balls from potatoes with a French cutter. Cook ten minutes in boiling water, slightly salted. Drain, put into an omelet pan with a tablespoonful of butter, a sprinkling of paprika, cover and place on the back of the range and cook until delicately browned. Shake the pan occasionally so that the balls will brown evenly. Use the left-over pieces for mashed potatoes.

Savory Chicken Salad.

Put one teaspoonful each of mixed whole spice, minced onion, sweet green pepper into three cupfuls of boiling water, add one-half teaspoon of salt, and simmer ten minutes, strain and add one pint of this boiling water to a package lemon gelatin; stir until dissolved. Cool and as the gelatin stiffens add two cupfuls of finely minced chicken. Pack into a mold and set away to harden. Turn out on a bed of lettuce and serve with any good salad dressing. This may be used as a sandwich filling adding a little snappy dressing.

Pineapple Filling for Cake.

Any layer cake recipe may be used with this filling, or a sponge cake baked in layers: Take one-half a can of pineapple, add one cupful of sugar and the yolks of two eggs with a tablespoonful of corn starch. Cook all together, except the eggs, for a few minutes, then cool, add the eggs and finish cooking; add when thick a tablespoonful of butter and cool before spreading.

Tomato and Pepper Salad.

Scald the tomatoes, peel and cut in halves. Place on a lettuce leaf cut side up. Scoop out some of the pulp and place four or five asparagus tips in the center of each tomato. Cut rings from peppers and adjust for handles. Serve chilled, with any desired dressing.

Oatmeal Gruel.

Take a quart of water, a pinch of salt and one-half cupful of oatmeal to the water when boiling, let boil ten minutes, then strain. Return the strained gruel to the fire and add a little sweet cream or milk, boil up once and serve. Add more salt if needed.

Noodles.

Break two eggs into a bowl, beat and then add as much flour as can be stirred into them. Roll out into a very thin sheet, cut in strips and dry for half an hour, then cook in the soup ten to fifteen minutes.

Southern Steak.

Roll beef or veal in seasoned flour and fry in a little butter until brown, cover with milk and bake until the milk is absorbed. Cover the pan while baking.

Nellie Maxwell

Just Folks

By EDGAR A. GUEST

EVERYWHERE IN AMERICA.

Not somewhere in America, but everywhere today.

Where snow-crowned mountains hold their heads, the vales where children play,

Beside the bench and whirring lathe, on every lake and stream
And in the depths of earth below, men share a common dream.

The dream our brave forefathers had of freedom and of right.

And once again in honor's cause, they rally and unite.

Not somewhere in America is love of country found

But east and west and north and south once more the bugles sound

And once again, as one, men stand to break their brother's chains.

And make the world a better place, where only justice reigns.

The patriotism that is here, is echoed over there

The hero at a certain post is on guard everywhere.

O'er humble home and mansion rich the starry banner flies

And far and near throughout the land the men of valor rise.

The flag that flutters o'er your home is fluttering far away

O'er homes that you have never seen. The same impulses sway

The souls of men in distant states, The red, the white and blue

Means to one hundred million strong. Just what 't means to you,

The self-same courage resolute you feel and understand

Is throbbing in the breasts of men throughout this mighty land.

Not somewhere in America, but everywhere today

For justice and for liberty all free men work and pray.

LOST—On street base ball with my name on it. (Bring to News.—Dot Sargent.

IOWA AVENUE

May 4.—Mr. Stambaugh and daughter Veta went to Providence community Friday to attend the closing of Mrs. Fay's school.

Ella and Luther Regon visited Ben Bolin and family Sunday.

Peter Nab was a visitor in Plainview Wednesday and Thursday.

Miss Beulah Thorp visited Miss Nab Sunday evening.

The Iowa Avenue people meet at the school house Sunday after for the purpose of organizing Sunday school. Mr. Hubbard was elected superintendent, Mrs. B. Craig, secretary and treasurer, B. Craig, Mrs. W. C. Thomason, Mrs. L. Bigler and Miss Nab as teachers. We will meet each Sunday at 3 o'clock. Everybody welcome.

Everyone enjoyed the supper given by the ladies' club at Mrs. B. Craig's Thursday night.

The Messrs. Stambaugh, Hubbard, Keller, Craig and Nichols went on a fishing trip to Crosbyton one day last week. They reported a good time but for some cause they did not bring any fish home.

Pioneer Stockman Dies

A. L. Barton for thirty years a resident of Motley county died Tuesday afternoon at three o'clock at his ranch home in that county following a paralytic stroke from which he was ill some 24 hours.

Mr. Barton was 72 years of age at the time of his death. He is survived by his wife and a number of children.

With his death comes the end of another romantic chapter in the history of the Old West Texas.

Mr. and Mrs. Nick Alley, Mr. and Mrs. Nelson Perdue, Mr. and Mrs. Walter Lemond, Clyde Whitacre and Miss Oriana Sears attended the Elk dance in Plainview, Tuesday night.—Hale Center Record.

THERE'S A REASON

for the splendid business we are having in spite of drought, business depression low prices for products and general feeling of unrest.

SOCIETY

C. W. B. M. Meets
With Mrs. Scott

The C. W. B. M. of the First Christian church held its monthly meeting Monday afternoon with Mrs. J. B. Scott. After the devotional service and business meeting, the hostess served refreshments.

Miss Alma Epley and
Mrs. Greene Entertain

Miss Alma Epley and Mrs. F. A. Givens entertained this afternoon at the apartments of the latter in the Ware Annex, in honor of Miss Ona Epley of Midland. Five tables of bridge were in play with Mrs. Morey McGlasson winning high score. She was presented with a Japanese flower basket and Mrs. Chas. Saizling with a Vanity for winning next high score. Carnations were used in decoration and brick ice cream with devil's food squares and pink and white mints were served. Sweetpeas were on each plate also.

The guest list included, Meses. E. F. Dye, Chas. Saizling, Fred Hurlbut, R. S. Beard, Wallace Settoon, T. C. Sheppard, L. P. Barker, Robt. Malone, J. L. Guest, E. O. Nichols, G. C. Hughes, M. C. McGlasson, Paul Pierson, L. C. Wayland, E. H. Bawden, Geo. Bennett, W. Dowden, Elmer Sanson and Miss Dell Speed.

Birthday Party

Little Miss Jane Miller celebrated her seventh birthday with a party this afternoon. The thirty little boys and girls played games on the lawn until ice cream with straw berries and the birthday cake were served.

Will Unveil Monument

The Woodman Circle will unveil the monument over the grave of the late Mrs. W. F. Meador at the cemetery Sunday afternoon at 4 o'clock. The members will meet at the lodge hall and go to the cemetery. The public is invited to attend the unveiling.

Marriage License

C. T. Swinney and Miss Ruby Everett, May 3.
J. T. Flynn and Miss Velma Walker, May 6. She lives at Abernathy and is the daughter of Mr. and Mrs. E. W. Walker. He lives at Weatherford, where they will make their home. They will be married Sunday.

Additional Society news on Page 11

Miss Ella McDaniel Dies

Miss Ella McDaniel, age 59 years, 11 months and 28 days, died Saturday at the home of her sister, Mrs. Clark, near Runningwater. J. W. McDaniel of this city is a brother. She was born in Lincoln county, Tenn., and was at one time a school teacher.

Burial was in Plainview cemetery Sunday afternoon, Rev. S. J. Upton conducting the funeral.

Carr's Chapel Winners
 In Sunday School Contest
 Carr's Chapel Sunday school of the Methodist church won out in a three months contest among Sunday schools of the Hale county churches, which closed Sunday. The Sunday school beat every competitor every Sunday of the contest it is said, having one of the most remarkable records in the history of the church annals. Carr's Chapel is in Floyd county but their church is administered as a part of the Petersburg circuit, of which Rev. L. H. Davis, is pastor, and was thus eligible to enter the contest. Plainview, Hale Center, Abernathy and Petersburg churches were among the numbers whose Sunday schools were contestants.

A meeting of the Sunday schools will be held at Hale Center Sunday, when all the Sunday Schools in the contest will be represented and the figures for all contestants given in full. Carr's Chapel is planning to have a big representation at the meeting.

At the Presbyterian Church
 "Mothers' Day" will be observed at the Presbyterian church Sunday. Special music at both services. At the morning service the message will be in memory of mothers emphasizing "Love." At the evening service the message will pay tribute to father emphasizing "Law." Love and law are both of God and any character and society or any religion is lapsided if it lacks either.
 If you love your mother go to church Sunday. You are invited to attend these services. Sunday school 9:45. Morning service 11, evening service at 8 o'clock.
 H. E. BULLOCK, Pastor.

Union Revival
 A Union revival under the leadership of Rev. W. A. Ervin, evangelist, and singer R. G. Fraser will begin Sunday, May 29th.
 A tabernacle will be built near the Methodist church on Baltimore and Seventh streets.
 The evangelistic party are now at

AUTO STYLE SHOW

Booth Exhibits and

Tractor Show

May 17-18-19

At Plainview

Every Automobile Dealer will have an exhibit in the Perry Motor Co. building.

Booth exhibits will be in the Campbell Building, across the street from Perry Motor Co.

The Tractor Show will be across the street from the Perry Motor Co. So Mr. Farmer, come to see the Tractor Show, whether you buy now or not.

The entire show is under the direction of Mattie Lee Baker of Stamford. She has successfully handled the shows at Lubbock, Stamford and Sweetwater, and several other West Texas towns. She has her own orchestra, that will furnish music for the entire program.

Souvenirs will be given away and refreshments served at the booth exhibits.

CYCLES OF LIFE AND DEATH

Interesting Speculation Concerning Possible Composition of Corporeal Atoms of the Body.

Did you know that perhaps somewhere in your body is a bit of Julius Caesar, or perhaps King Solomon. John Phil, scientist, in his "Seven Follies of Science," says: "From birth to death we have been continually borrowing, continually paying back. Part of our physical organization may have come from the fruit of the tropics, part from the mosses of the frozen North. We may hold in our bones, muscles and brains materials which once formed parts of sheep, wolves, and in all the millions of years during which composition and decomposition of organic matter has gone on, it is quite probable that some portion of our physical system may have formed part of the material organization of thousands of other animals, men included. The imbecile may have in his body atoms which once formed part of Homer, of Plato and of Archimedes. In the frame of the beggar may be built material which once formed part of Solomon, and some atoms which enabled Alexander or Bruce to achieve their fame, may now form part of the body of a leper. Even among the corporeal atoms which now make up our own bodies may be particles which helped to incarnate the person of Jesus Christ, or which lent physical energy to the burning eloquence of St. Paul. Organic life has gone on unceasingly for untold ages in ever-recurring cycles. We cannot move a muscle, or give way to an emotion, or even think a thought without burning up some part of our corporeal frame, and the used-up material is speedily ejected and then transformed into the clothing of a new life."

NO OLD MAIDS IN BABYLON

Ancient City Had a System Which Assured the Marriage of All the Females.

The first known auctions of the world were held in Babylon many centuries before Christ. The articles auctioned consisted of all the virgins in the city, and the sale was held once a year. On the day selected the girls were brought to the market place and there ordered to remove their garments. All the young men of the city were also gathered and the maidens, one by one, were led to a block where the youth of the city could inspect them. The beautiful girls were sold first and every effort made to get as much as possible for their charms.

The young men of those days were as eager to win the fairest maid possible by bidding as men of a later age were to win them by brave deeds or pleadings. As a result fortunes were in the hands of the auctioneer by the time the homely girls were reached. This fortune was then divided up and the auctioneering took a new life. The homeliest girl was given the largest part of the money collected from beauty and many a poor man found himself with a very homely wife but a comfortable start in business. The system at least did away with old maids and bachelors and insured a steady growth of population and few dependents on the state.

When Diners Ate Their Plates.

The word fritter, which with cooler weather will become popular once more, originates from an old French word meaning to fry, which comes from the Latin past participle of the verb frigere, frictus.

Similarly, fricasse takes its name from the same Latin verb or from the French "fricasser," meaning to break into pieces, or, as some experts believe, from the Latin "fricare," to rub. Any meat fried in a pan is fricasseed, according to French culinary definition.

Another word of French and Latin birth is tart. Tart is a culinary corruption of the word "tourte" (French), derived from "tartine," a slice of bread. This comes from the Latin "torqueo," to twist, hence the word "torta" means a twist or roll of bread. In the middle ages there was a deficiency in plates, and so, for a substitute, an undercrust of bread served as a plate. For a long time in France this undercrust of the "tourte," or "tarte," was the most common of plates. After everything had been served diners ate even their "plates."

In time these dinner plates, made of dinner rolls, came to be prepared specially and developed into a cake-like batter, which was filled with dainty food. And so they were called tarts and tartlettes, and were served as a distinct dish.—Gas Logie.

Stradivarius Violins.

Stradivarius was born in 1644 and died in 1737. He worked until he was over 90 years of age and turned out a large number of violins and violoncellos. Altogether it has been estimated that about one thousand violins are attributed to him and about three hundred other instruments, among them different kinds of viols, some bass viols and also some lutes, guitars and mandorins, very exquisitely wrought. Eugene Ysaye and Jan Kubelik are both the owners of genuine Stradivarius violins. The label in a genuine instrument is supposed to have been made of paper.

Two Views.

"We'll never get rich if you keep on spending all I make."
"That's true, and we'll never get rich if you don't hustle a bit and try to make a little more than I can spend."

The wise buyer takes advantage of Low Markets

Lumber is down, labor is plentiful and more efficient.

Increased building activity that is now starting over the country will draw on this supply of labor and material which will force up building cost.

Obey the impulse, and come in and look over our photo display of homes everything from 3 room bungalows to pretentious mansions.

Get This---A Season Ticket Never Bought So Much

Its a remarkable week of wholesome instruction, entertainment and variety.

The musical and dramatic numbers are especially strong and appealing, with fewer lecturers. There was need for more lecturers during and immediately following the war but now comes the program of cheer and back to normal readjustment and its the best the local committee has ever been able to arrange for.

SAME OLD SEASON TICKET PRICE.**

FOUND NEW LAND OF GOLD

New York Mining Man Reports Rich Discoveries Made in the Mines of Colombia.

A new gold region has been discovered in Colombia, according to J. V. Priest, a mining man, who arrived at New York from Santa Marta, Colombia.

Mr. Priest said that some time ago he was told by a Frenchman, who said he was a government employee, of fabulous wealth that lay hidden in the mines of Colombia. Mr. Priest, accompanied by his wife and C. L. Logue, a mining engineer, visited Colombia recently and spent his time in visiting various sections.

After landing at Cartagena, Mr. Priest said, he and his companions went up the Magdalena river 250 miles and disembarked, going overland through a mountainous country for 65 miles.

At the end of the journey, Mr. Priest said, they found vast gold fields which had never been actively developed because of the absence of the proper machinery. He said this is accounted for by the lack of transit facilities, it being a most difficult matter to ship material of any kind to this point.

THEIR SUMMER FINERY

It falls to the happy lot of some designers to occupy themselves entirely with children's millinery and here they present four as pretty hats for little misses as have ever gladdened any eyes. Silk and soft braids, many ribbons and a few small familiar flowers make these pretty hats for the heads of life's springtime blossoms

for a period of ten days before the return day thereof, in the newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Hale county, a copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the estate of S. J. Jackson, deceased, Mrs. Stella Jackson, has filed in the county court of Hale county an application for appointment as administrator of the above mentioned estate, which appointment will be made permanent at the June 1921 term of court, if not contested, which will be heard at the next term of said court, commencing on the 1st Monday in

June A. D. 1921, the same being the 6th day of June A. D. 1921, at the court house thereof, in Plainview, Texas, at which time all persons interested in said estate may appear and contest said application, should they desire to do so.

Herein fail not, but have you before said court on the said day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court at office in Plainview, Texas, this the 3rd day of May A. D. 1921.

JO. W. WAYLAND,

ENROLL NOW

Young women are now filing their applications with the Temple Sanitarium Training School for Nurses for entrance in the June class.

If you are a young woman of average intelligence, physically strong and of good moral character, we are interested in you. If you wish to earn your own livelihood; if you care to receive a training that leads to a profession much in demand, we wish to advise you to become a nurse. The nursing field is broad, and the demand is far greater than the supply.

When you are a graduate of The Temple Sanitarium Training School you are assured of a place in the nursing profession. Board and tuition free, with a monthly allowance while you are receiving your training. Write today for illustrated booklet. Address Miss Wilma Carlton, R. N. Supt. of The Temple Sanitarium Training School for Nurses, Temple, Texas.

Citation by Publication

THE STATE OF TEXAS.

To the sheriff or any constable of Hale county, greeting:

S. R. Ware, administrator, of the estate of S. J. Jackson, deceased, having filed in our county court his final account of the condition of the estate of said S. J. Jackson, deceased, numbered 290 on the Probate Docket of Hale county, together with an application to be discharged from said administratorship.

You are hereby commanded, that by publication of this writ each week for four consecutive weeks in a newspaper printed in the county of Hale

you give due notice to all persons interested in the account for final settlement of said estate, to appear and contest the same if they see proper so to do, on or before the June term, D. 1921, when said account and aping and to be holden at the court house of said county, in the city of Plainview on the 6th day in June, A. D. 1921, when said account and application will be acted upon by said court.

Given under my hand and seal of said court, at my office in the city of Plainview, Texas, this 2nd day of May A. D. 1921.

SAVED BY RABBIT

Lucky Catch Preserved Lives of Surveyors.

On the Verge of Starvation in Canadian Woods, Small Creature Was Good to Men and Dogs.

The flying survey that the engineers of the Grand Trunk Pacific railway made through the unexplored forests and mountains of Canada was attended by all manner of hardships and adventures. It is remarkable that so few men lost their lives, for the work, which was pushed forward winter and summer, was always filled with dangers. An experience related in Mr. F. A. Talbot's book, "The Making of a Great Canadian Railway," affords a graphic idea of the pains and penalties that many surveyors endured in that silent, unpopulated country: "In the depths of winter I was out with one of the surveyors on an exploration trip. We had four dogs and a couple of sleighs not heavily laden. Somehow or other, owing to the blinding snow, we were delayed and lost our way. The dogs had to go without food and we ourselves did not taste a bite for three days; nor did we catch sight of the smallest specimen of game. One thing after another was thrown off the sleighs to ease the plight of the dogs, grown so thin from want of food that their ribs showed through their skins. Only our sleeping bags were retained. Through the day we stumbled along on our snowshoes, constantly falling over obstacles and bruising ourselves against the trees. At night we lay down by our camp fire, utterly exhausted and faint from hunger and cold.

It was on the third morning that I described the faint footprints of a jack rabbit. It was the first sign of game that we had seen for three days. I drew my companion's attention to the tracks.

"Stop right here and light a fire. We'll have something to eat this morning or else I won't come back again!" I cried excitedly as I grabbed my gun.

I sped off with my eyes glued to those scarcely discernible footprints. But it was weary tracking; the trail was as elusive a will-o'-the-wisp as anyone could find in the forest. For three solid hours I followed it relentlessly, stumbling and falling wildly, bruising my shins and tearing my hands through the brush.

At last it disappeared into a willow shrub. Crawling up warily, I searched the thicket, and there spied the quarry. Fearful that in my excitement I might take too hurried an aim with my rifle, miss, frighten, and lose the animal, I crawled steadily forward on my hands and knees. When within an arm's reach I made a sudden spring and caught it by the scruff of the neck. In a trice it was dead; but I had captured a sorry prize. Like ourselves, it was in sore need of food, for it could obtain but slender sustenance from the snow-covered ground.

I retraced my footsteps as hurriedly as I could. I found my comrade sitting before the fire holding his head in his hands between his knees—an abject picture of misery and despair.

In a few minutes the rabbit was skinned and spitting merrily on an improvised roasting jack. The skin was cut into four equal parts and given to the dogs. They devoured it ravenously. Not an atom of that rabbit was wasted. The little bit of food put new life into us and we pressed on through the forest until finally we reached our camp.

Repairing Stonehenge.

Stonehenge, the prehistoric group of huge standing stones near Salisbury, in southern England, has been set in order for the first time in three or four thousand years. A single stone was straightened in 1904, says Popular Mechanics Magazine, but a thorough overhauling was made impossible by the government and during the war was the center of a large, permanent encampment. Artillery range and mine experiment stations were established close enough to jar the uprights and the remaining lintels. One lintel was moved outward to such a degree that it became a menace to visitors. The government put up cranes and winches to restore that stone and has set firm the stones that are still erect.

Kept on the Keen Jump.

"I reckon you had a right lively time in Kansas City?" insinuated an acquaintance.

"Tollable," replied Gabe Gossnell of Grudge, "but nothing like what I probably would have had if I wasn't considerable lively on my feet. You see, up in Kay See, if you meet a respectable-looking man after 4 o'clock in the afternoon, anywhere the least bit off to one side, he's a hold-up and robs you.

"And if you meet one that don't look respectable, he's a plain clothes policeman, and pounds you because he thinks you're a hold-up. So I was practically on the keen jump all the time I was there, dodging the one or the other."—Kansas City Star.

Fine Pictures of the Aurora.

In the last 10 years, Prof. Carl Stormer, in Norway, has obtained more than 300 successful pairs of simultaneous pictures of the aurora, besides 200 single pictures, and the brilliant display of March 22-23 last was photographed at seven stations, separated from 16 to 55 miles. A height of more than 300 miles is indicated for the last aurora, no earlier measurement had reached 200 miles.

SHORTEST, BUT MOST NOTED

February is Supreme Above All Others as the Natal Month of the World's Famous.

Was there ever such a month as February? It would seem that though it is the shortest month in the year it has crowded into its 28 days more birthdays of worldwide celebrities than any of the other 11 months. No less than 28 people of note have seen the light of day for the first time in that month. And their range is wide. February is not partial to any particular kind of celebrity.

On February 1, 1870, Commodore David Porter was born. On the third of the month, 1809, Felix Mendelssohn came into the world. On the same day, but in 1811, Horace Greeley followed. On the fifth, 1788, Sir Robert Peel was born. The birthdays of other notables occur in this order:

February 6, 1756—Aaron Burr.
February 6, 1838—Sir Henry Irving.
February 7, 1812—Charles Dickens.
February 8, 1820—William Tecumseh Sherman.

February 8, 1819—John Ruskin.
February 8, 1828—Jules Verne.
February 9, 1773—William Henry Harrison.

February 9, 1814—Samuel J. Tilden.
February 10, 1775—Charles Lamb.
February 11, 1847—Thomas A. Edison.

February 12, 1809—Abraham Lincoln.

February 12, 1809—Charles Darwin.
February 15, 1564—Galileo.

February 16, 1834—Ernest Haecckel.
February 19, 1717—David Garrick.

February 20, 1829—Joseph Jefferson.
February 21, 1801—John Henry Newman.

February 22, 1732—George Washington.

February 22, 1819—James Russell Lowell.

February 23, 1685—George Frederick Haendel.

February 23, 1817—George Frederick Watts.

February 24, 1824—George William Curtis.

February 26, 1802—Victor Hugo.

February 27, 1807—Henry W. Longfellow.

Rodents Do Much Damage.

Next to the insects, the animals that are chiefly harmful to man are the rodents, an order of mammals often regarded as wholly noxious. David E. Lantz of the United States geological survey finds that the rodents of North and Central America include about 1,350 species of 77 genera, and of these, 750 species of 44 genera inhabit the United States and Canada. Many of these, living in deserts, mountains and swamps, do not come in contact with cultivated soil. They cannot, therefore, be classed as injurious, and many of them are preparing the soil for future use, and there are other rodents that are doing useful work in destroying grasshoppers and similar pests. Certain of the rodents, too, such as the beaver and muskrat, have an economic value as fur bearers. Native rodents include among harmful kinds the short-tailed field mice, white-footed mice, cotton rats, kangaroo rats, pocket gophers, ground squirrels, prairie dogs, woodchucks and rabbits. The house mouse and three kinds of rats are the only rodent pests in North America not native to the country. They are the most injurious, however, and probably cause greater losses than all native kinds combined.

Kings of Rome.

The kings of Rome were Romulus, who, according to conjecture, began to reign in the year 753 B. C., and was murdered by the senators. Titus Tatius, king of the Sabines, ruled jointly with Romulus six years; Numa Pompilius, son-in-law of Tatius; Tullus Hostilius, murdered by his successor; Ancus Martius, grandson of Numa; Tarquinius Priscus; Servius Tullius; Tarquinius Superbus, who was the last king. The monarchy was abolished and a republican form of government established in 510 B. C. Thereafter for the most part the chief executive officers of the republic were consuls, two being chosen each year. There were many civil wars. The republic practically came to an end when Julius Caesar was made perpetual dictator in the year 49 B. C., but the empire is generally held to have commenced in the year 31 B. C., when the supreme power became centered in Octavian, the grand nephew of Julius Caesar, who reigned as emperor with the title of Augustus Caesar. It was during his reign that our Savior was born. Augustus died in the year 14 A. D.

Their Ancestors.

A congressman said at a dinner: "I detest the war profiteer. One of these brutes bought last year a fine colonial estate in Virginia. He was showing a friend of mine over the grounds one day, and pointed to a quaint old private cemetery.

"Those," he said, "are the graves of the former owner's ancestors."

"Our ancestors," his wife broke in, proudly, "are all living."

Still in Doubt.

"I understand you are patronizing a new boarding house."

"Yes, it has been open only a few days."

"Who's the star-boarder?"

"We don't know yet. A haberdasher's assistant told a story yesterday at which the landlady laughed heartily, but I noticed that he didn't get any more butter than the rest of us."—Birmingham Age-Herald.

BEAUTY IN OLD AMSTERDAM

Canals of Dutch City Have Caused It to Be Named the Venice of the North.

Amsterdam is notable for two possessions above all others: its old canals and its old pictures, writes E. V. Lucas in "A Wanderer in Holland." Truly has it been called the Venice of the North; but very different is its southerly quietude from the sunny Italian city among the waters.

There is a beauty of gaiety and a beauty of gravity; and Amsterdam in its older parts—on the Keizersgracht and the Heeregracht—has the beauty of gravity.

In Venice the canal is, of course, also the street; gondolas and barcas are continually gliding hither and thither; out in the Keizersgracht and the Heeregracht the water is little used.

One day, however, I watched a costermonger steering a boatload of flowers under a bridge and no words of mine can describe the loveliness of their reflection. I remember the incident particularly because flowers are not much carried in Holland, and it is very pleasant to have this impression of them—this note of happy gaiety in so dark a setting.

In the main Amsterdam is a city of trade, of hurrying business men, of ceaseless changing tramcars and crowded streets, but on the Keizersgracht and the Heeregracht you are always certain to find the old essential Dutch gravity and peace.

No tide moves the sullen waters of these canals, which are lined with trees that in spring form before the narrow, dark, discreet houses the most delicate green tracery imaginable; and in summer screen them altogether. These houses are for the most part black and brown, with white window frames, and they rise to a great height, culminating in that curious stepped gable (with a crane and pulley in it) which is, to many eyes, the symbol of the city. I know no houses that so keep their secrets.

In every one, I doubt not, is furniture worthy of the exterior; old paintings of Dutch gentlemen and gentlewomen, a landscape or two, a girl with a lute . . . old silver wind-mills; and plate upon plate of serene blue Delft.

Saw First Tobacco Smoke.

It was Christopher Columbus who discovered tobacco, and he did it on his first voyage in 1492, according to a little brochure which George C. Dempsey of Boston, has prepared for distribution among the members of the Algonquin club. Mr. Dempsey's account says: "He was not only the first European to report tobacco, but he saw the natives smoking rolls of it—cigars—to light which they carried burning brands in their hands. Popular impression makes Sir Walter Raleigh, the discoverer. History discloses the fact that the distinguished nobleman was closely and unfortunately identified with the fragrant herb, but at the same time shows that he did not begin to play his dramatic part on the world's stage till years after the great admiral had quit it.

"At all events the 'pipe' is inseparable from our vision of Raleigh, but we know Columbus saw 'cigar smoking' years before him. Unfortunately discoverer, indeed, Columbus found a new continent, and another gave it his name. He discovered smoking, and the name of another is linked to the romance of it."

Indian Rites Dying Out.

The Hopi Indians, more than any other tribe, have long-cherished forms, says a correspondent. Still here in the isolation of the gleaming desert and mesa country one may witness still the corn dance, the snake dance and other picturesque ceremonials which the influence of the white man has as yet little changed. Among all of the Pueblo people there has been preserved much of the old Indian culture. This is easily understood when one considers the character of the Pueblos. Dwelling in ancestral villages century after century, avoiding war when possible, and in their remote mesa homes resisting even the disintegrating influence of the white men, these interesting tribes have preserved some magnificent art, poetry and religious sentiments which are now in danger of extinction, just as the white student of Indian life is beginning to appreciate their value.

Growth of Christian Endeavor.

The Christian Endeavor, a young people's society, was originated by Rev. Francis E. Clark, pastor of the Williston Congregational church in Portland, Me. On February 2, 1881, about 50 boys and girls met in the pastor's study and pledged themselves to attend and take some part in a weekly prayer meeting and once a month to hold a consecration meeting. Other duties, social, religious, literary, and of various kinds, were assigned to different members. They met with instant acceptance, and today there are more than 75,000 societies in the United States and Canada and in other lands.

Long Train.

There were 678,211,904 tons of coal mined in the United States in 1918, says a correspondent. If all this coal were put into one train of 50-ton cars, this train would consist of 13,562,208 cars, and it would take 271,284 engines to pull it. This is based on the hauling capacity of the average American engine. This train would be 342,722 miles long, and would encircle the earth over 13 times at the equator.

PUBLIC SALE

Tuesday, May 17th

At my place, 10 miles northwest of Plainview, 4 miles east of Runningwater. Sale beginning at 10 o'clock a. m.

HORSES AND MULES

1 span Grey Mules, wt. 1300 lbs.

SOCIETY

B. B. Club Entertains Husbands

The B. B. Club entertained their husbands at the home of Mr. and Mrs. L. D. Griffin, last night. As the guests arrived they were served with punch by Mrs. Jake Burkett.

Progressive forty-two and Flinch and various other games were enjoyed throughout the evening.

Those present were Mr. and Mrs. W. E. Jones, Mr. and Mrs. Jake Burkett, Mr. and Mrs. Ronald Hefenstine, Mr. and Mrs. L. H. Bellah, Mr. and Mrs. J. E. Green, Mr. and Mrs. H. B. Adams, Mr. and Mrs. C. M. Abbott, Mr. and Mrs. Frank E. Pearson, Mr. and Mrs. L. D. Griffin, Mesdames Hays, Suzes, Woodall and Misses Caribel Abbott, Clem Blankenship, Ava Griffin. They had as their guests Mrs. Powers and Mrs. E. B. Whatley of Sinton.

Delicious refreshments were served consisting of Pineapple whip and cake.

Kiwanis Club Discusses Lawyers and Druggists

The Kiwanis club at its fortnightly luncheon in the Presbyterian church basement today at noon, had a lively time in the discussion of the demerits of lawyers and druggists. Dr. E. O. Nichols told what he would do if he was a lawyer, though he fiercely declared that he would be ashamed of himself if he were a lawyer, and in summing up his talk he said he knew nothing good about lawyers. Attorney C. S. Williams discussed the the druggists and arrived at the conclusion that most all druggists are profiteers and are dishonest, with especially reference to those locally. He said that the modern drug store has taken taken the place of the old bar-room. There was loud applause as thrusts were made by the speakers.

J. G. Chancy made a report of the plans for the trade excursion, and asked that all Kiwanis members go, as it will be a great advertisement for our town, and do much good.

C. A. Pierce of the committee on building a municipal auditorium reported progress, and promised a full report and plans at the next luncheon.

Claude Power was glad hand today, and A. C. Hatchell acted as big stick man in behalf of Olen Brashers, who was absent.

C. F. Vincent won the attendance prize, a box of cigars.

Miss Flora Meadow sang a song appropriate to Mothers' Day, and also responded to an encore. She was accompanied on the piano by Mrs. A. A. Beery.

Tuesday Card Club

Mrs. T. O. Collier was hostess to the Tuesday Card club May 2. The guests were Mrs. Chas. Saigling, Mrs. J. O. Wyckoff and Mrs. Earl Keck. Mrs. D. Hefflinger won high score for members and Mrs. Saigling for the guests.

A strawberry sundae and cake were served.

In the evening Mrs. Collier had several couples in to play bridge also.

Thursday Evening Bridge Club

Mr. and Mrs. Chas. Saigling entertained the Thursday Evening Bridge club last night. All the members were present with Mr. Meade Griffin winning high score for the gentlemen and Mrs. F. A. Green for the ladies.

Mr. and Mrs. Will Dowden will entertain the club next.

Wednesday Bridge Club

At the regular meeting of the Wednesday Bridge club, Mrs. Geo. Wyckoff was the hostess. The guests included Mrs. R. E. Meyers, Mrs. C. C. Gidney and Miss Celestine Harp of Mission. Mrs. Wyckoff won high score for the guests and Mrs. L. P. Barker for the members.

An ice course was served. Mr. and Mrs. Wyckoff entertained that evening with bridge, there being seven tables in play.

A salad course was served.

Somebody "Damming Up the Stream" "Somebody is damming up the stream," he said. "But the federal reserve board has not the power to regulate transactions between the producer and the ultimate consumer."

While Governor Harding did not say so, it should be pointed out that the federal reserve board has no power to order individual banks to "loosen up" on credits. However, it is the belief here that his visit to the middle West will bring a better understanding all around in the farm credit situation, more aid from the federal reserve system and an easing up of the farm credit situation.

Hale County Cases

In the court of civil appeals in Amarillo the case of R. C. Rawlings vs. J. H. Ediger from Hale county was affirmed.

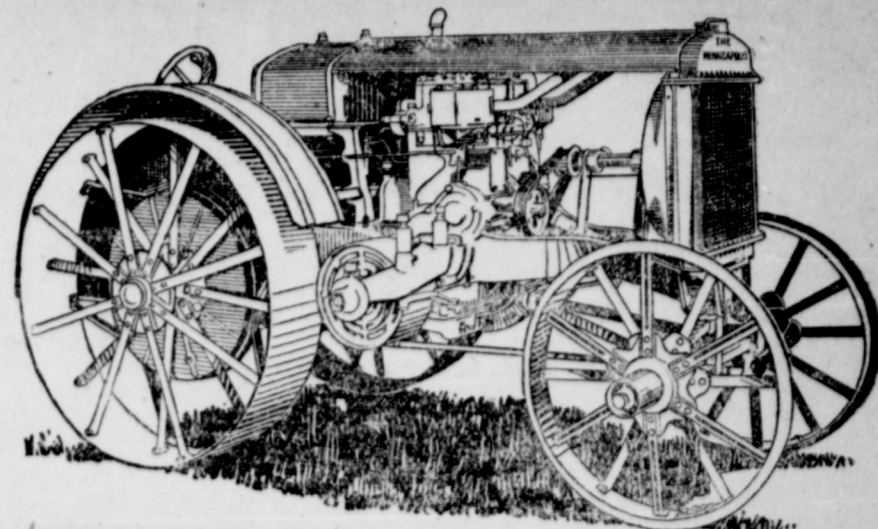

Rehearings were refused in the cases of C. S. Otto vs. L. M. Faulkner, and Mrs. Dollie Fletcher vs. Royal Neighbors of America.

The case of E. T. Coleman vs. Railroad companies is set for submission May 25.

E. W. Walker of Abernathy is in town today. He reports a sprinkle of rain was falling there when he left this morning.

The Plainview News
 Published Tuesday and Friday at
 Plainview, Hale County, Texas.
 J. M. ADAMS Editor and Owner

Entered as second-class matter,
 May 23, 1906, at the Postoffice at
 Plainview, Texas, under the Act of
 Congress of March 3, 1879.
 Subscription Rates
 One Year \$3.50
 Six Months \$1.35
 Three Months .75

If you can't get it in your home
 town, come to Plainview, where you
 will find large stocks of all kinds of
 goods.

Come to Plainview often, you people
 of the counties covered by the
 Trade Excursion. We will be glad
 to see you at any time.

Do not let \$100 bills until you
 have fully satisfied they are genuine,
 as counterfeiters have put into circula-
 tion a number of bills of this denomina-
 tion.

The fundamental of life are
 reverence, truth, honor, duty, patriot-
 ism and service, and we should be-
 lieve them implicitly, with a supreme
 moral purpose.

Earl Mayfield has announced he
 will be a candidate for U. S. senator
 next year. What would an election be
 in Texas without Earle Mayfield as a
 candidate for some thing?

The Quannah Tribune-Chief and the
 Hereford Herald both, became semi-
 weekly last week. This is progress-
 iveness. The people appreciate the
 local news twice each week.

It is stated by a doctor that a trip
 14,000 feet high in an airplane will
 cure a bad cold. Please excuse us
 from taking the cure for we had
 rather have a bad cold than be scared
 to death.

The oil men want a tariff of \$1.50
 a barrel put on crude oil, so as to cut
 out Mexican oil. Such a tariff would
 be a bonanza to the oil men, but it
 would put up the price of gasoline
 and kerosene to an ordinary citizen.

The coffee farmers in Brazil are
 about in the same shape as the cotton
 farmers in this country—a big
 crop but no market for it. But, while
 the Brazilian grower gets only a cent
 or two a pound, we people pay from
 25c to 50c a pound for it.

There are according to the census
 360,071 persons of foreign birth in
 Texas. Of these 248,052 are Mexi-
 cans, 31,026 Germans, Poles and Bo-
 hemians 12,800, Italians 8,021 and
 English 7,880. It is said to their
 credit, very few of them are of the
 radical Bolshevik sort.

It is hoped, now that congress has
 declared peace with Germany, some
 plan can be worked out for the ship-
 ment of American cotton and other
 products to that country. The great
 American surplus should find a foreign
 market, and until it does there
 will be tight times in this land of
 ours.

We trust that Gov. Neff is whetting
 up his veto knife to use it on the
 appropriation bills for the support of
 the state highway department, the
 agricultural department, the ware-
 houses and marketing department,
 and various and sundry other bureaus
 and official positions that are use-
 less and worthless and should be abo-
 lished.

Gambling has been outlawed in
 Juarez, Mexico; the gambling houses
 have been forced to close up, and the
 gamblers leave the city. So many
 hundreds of gamblers, bootleggers,
 opium smugglers, bad women and
 other criminals flocked to the place,
 and crime became so rampant, that
 the better element in Juarez and El
 Paso had to assert itself and put the
 lid on tight. For a time crime may
 flourish, but sooner or later law, order
 and decency triumph.

Gov. Neff says he has discovered
 with regret that he cannot appoint
 all his friends to office. It is possi-
 ble there are so many "original sup-
 porters" of Neff who want office that
 there are not enough offices to go
 around? The editor of the News has
 supported a number of the men who
 were elected but he has never asked
 any of them for an office or a favor
 of any kind. We never support a
 candidate for office for any selfish
 motive. And we stand ready to criti-
 cize him if he does not do his duty
 after being elected.

L. G. Hawkins, vice president of
 the Wagoner National Bank in Ver-
 non, is an optimist of the purest ray
 serene. He declares that this country
 should see twenty-five years of the
 most remarkable prosperity in its his-
 tory. It will begin when Germany
 and the allies settle their indemnity
 "issues" and the people over there find
 just "where they are at." Europe
 must be rehabilitated, and during the
 process America must furnish the raw
 material and implements to do it
 with. This will mean prosperity for
 American farmers, manufacturers,
 railroads and labor. However, in order
 to have a full part in this great
 prosperity, we Americans, too, must
 quit our foolishness and get back to
 normalcy.

The steel trust has announced that
 its employees will be cut 20 per cent,
 effective May 1. This cut is made in
 order to permit the company to re-
 duce its prices on iron and steel, to
 meet those of the independent con-
 ceans, which reduced wages some time
 ago, and are making inroads into the
 trust's business. This should mean
 lower prices on building material.
 Now, if the carpenters, painters,
 plumbers and others who build houses
 will reduce their wages, there will be
 a revival of building, that will put
 most everybody to work on full time.
 However, there is a disposition among
 men to rather hold on present high
 wages and work only one or two days
 a week than to work six days a week
 for a smaller wage.

CO-OPERATION
 The main object sought to be mani-
 fested in the Trade Excursion which
 Plainview sends out each spring is
 to get the people of the ten coun-
 ties to work together for the benefit
 of all.

For us to know each other better
 means much in the development of
 this section. To shake hands and
 have a friendly word for one another
 is a big job, and in more
 thoroughly understanding each other,
 there is so much work to be done
 in the development of this new and
 promising part of Texas, that great
 co-operation of the people is needed.
 We can help each other put over many
 projects that one town or county
 alone could not handle.

The top of this section should
 have no bickerings, no bickerings
 among ourselves. Let's never say a
 bad word about our neighboring
 county or town, nor in any way knock
 at it. There is so much good in each
 town and county that we can stay
 real busy for quite a while talking
 about the good things that we will
 not have time to say much about any
 bad things.

Let's visit the other towns more
 often. It will benefit everybody con-
 cerned, and give us a new pride in
 our wonderful section of the state.
 Let's boost. Let's never knock.
 Enough for this great country!

The ten counties visited by the
 Plainview Trade Excursion are as
 fertile and abundant with natural
 resources as there are in the United
 States. The people are practically
 all white, and stand for education,
 religion and progress. There is not a
 finer citizenship to be found any-
 where. A great future awaits this
 section of Texas.

The newspapers in the towns to be
 visited by the Plainview Trade Ex-
 cursions are doing a wonderful work
 in the development of this section.
 They have well equipt printing plants,
 numbers of them having linotypes,
 and are publishing newspapers that
 will do above the average. The
 people of each county should give
 liberal patronage to their local
 newspapers; its money well spent,
 for which there is substantial divi-
 dend.

There is no more "dry" nor pic-
 nique society in the Southwest
 than the citizens of the Palo Duro,
 Yellow House, Blanco, Tule and the
 Rock. They should be the pleas-
 ure grounds of this section of the
 state and the people should use them
 to the full.

Secretary Hoover declares that the
 German trade menace is already
 bearing fruit in America, and seve-
 ral of our businesses in America have
 been driven out by German competi-
 tion. Especially are the German
 underselling Americans in the neu-
 tral markets. He advocates protection
 of American interests at home by a tar-
 if, which means that we would be put
 at the mercy of the protected inter-
 ests, who would gouge us more and
 more. It is just as well to face the
 music, that America must adjust her-
 self to meet foreign competition in
 its foreign fields, and unless wages
 and prices can be adjusted the proper
 way we will fall down. There is a
 lot of work ahead for America.

The Primitive or Hardshell Baptists
 held a meeting of several days
 in Hale Center last week. When the
 editor of the News was a boy the
 Hardshells were rather numerous in
 Central Texas, and held big meetings
 and foot washings, which brought to-
 gether people for many miles around.
 There were also heated disputes
 among them and the Missionary Baptists
 as to which was the real bap-
 tized church. The old-time
 Hardshells were known for two
 things, especially, that of paying their
 preachers and their debts. A Hard-
 shell Baptist could always get credit
 at most any store, for his open credit
 was as good as his note. Many of the
 Hardshells liked his today, and most
 of them voted the anti-prohibition
 ticket. They were sturdy,
 hard-working men, and those we know
 today are the same kind.

The passage by the senate last
 week of the bill providing for a bud-
 get, marks the first step in
 carrying out the administration's pro-
 gram of "putting more business in
 government." The budget seeks to
 harmonize federal expenditures and
 income and put the appropriation of
 money on a more scientific basis. It
 has been urged repeatedly as a nec-
 essity since the administration of
 President Taft. Congress passed an
 almost identical measure last session,
 but it was vetoed by President Wil-
 son.

Stripped of all its camouflage, one
 thing is as sure as fate, and that is,
 the railroad men must accept a heavy
 reduction in wages and then the rail-
 roads must reduce their freight and
 passenger rates accordingly, for un-
 til this is done the people cannot af-
 ford to do much shipping, and until
 there is a revival of shipping the rail-
 roads will lose more and more money
 and trainmen in growing number will
 become idle.

HARDING'S FOREIGN POLICY

President Harding will maintain
 his prerogatives as director of the
 American foreign policy despite spor-
 adic movements in congress design-
 ed to force his hand.

The question of executive or sena-
 torial control over foreign policy
 has come up in regard to three prob-
 lems now confronting the administra-
 tion, namely, the calling of an inter-
 national conference to discuss dis-
 armament, the recalling of American
 troops on the Rhine and the designa-
 tion of an official representative
 on the allied council which will finally
 dispose of the reparations question.
 It was President Wilson's deter-
 mination to direct the foreign policies
 of this country that brought on the
 contest with the senate, which culmi-
 nated in the senate becoming stub-
 born, resentful and vindictive, but for
 which the peace treaty would have
 been speedily ratified and this coun-
 try and the world be greatly advanced
 in solving the readjustment and
 reconstructive problems.

It is to be seen if President Hard-
 ing will have the backbone like Wil-
 son to stand up for the presidential
 prerogative. Mr. Harding does not
 seem to be the staunch fighter that Mr.
 Wilson was. When he finds a boulder
 in the road he usually walks around
 it instead of trying to blast it away.
 Mr. Wilson was too much the other
 way.

Come to Plainview soon, and often.

As a fertile country, Egypt hasn't
 anything on the counties through
 which the Trade Excursion passes.

The Southern Methodists are car-
 rying on a campaign to have as many
 of its members as possible to agree
 to the tithing system—and to date
 12,000 have signed cards pledging to
 contribute one-tenth of their income
 to the Lord's work. It is said by
 church statisticians that if every
 Southern Methodist were to adopt
 this system it would bring into the
 church treasury \$45,814,350 a year.

Plainview has the glad hand for
 everybody. The excursion is for the
 purpose of getting better acquainted
 with our neighbors.

The Silverton Star makes con-
 fession that in the election last year
 it supported Mr. Neff for governor. In
 its editorial column last week it re-
 counts, saying: "But being human,
 we were fooled in the man, and now
 we are making an apology and are
 willing to acknowledge the error of
 our way."

It is announced from Washington
 that a "Reserve banker" is to make
 tour of the Southern states soon.
 If he is any more of "reserve banker"
 than the local ones when we apply for
 a loan he is a jim-dandy.

Angelic Christianity is the greatest
 force in the world in solving its prob-
 lems. The sooner mankind gets this
 truth into their hearts and minds will
 the silver lining of the black cloud
 begin to grow.

It has been pointed out that Gov.
 Neff has appointed very few men to
 office from West and Northwest Tex-
 as.

Don't fail to attend the chautau-
 que to be held in Plainview May 21
 to 27. The programs are the best in
 the United States.

There are more opportunities in
 the ten counties visited by the Trade
 Excursion for success to the man who
 has the grit, energy and brains and
 is willing to work, than in any other
 section of the Southwest.

Bradstreet's index of wholesale
 prices is now only 23 per cent above
 the 1913 average, while the price in-
 dex of the bureau of labor is 62 per
 cent above the pre-war level. Cotton,
 wheat, and copper are all down to
 pre-war levels. Cost of living is said
 to be down to the 1918 level and will
 fall still lower if the statisticians are
 true prophets. All the economists say
 that railway wage scales must be re-
 vised and that freight rates must fol-
 low the wage scales.

IN A MINOR STRAIN

A grass widow in a North Panhan-
 dle town last week married a vege-
 tarian. They should be able to live
 happily.

It is to be hoped that none of the
 Plainview trade excursionists will get
 mixed up with any of the white mule
 stalls recently found in the country
 below the caprock.

We have noticed that the fellow
 who works hard and takes an interest
 in his job usually pays his bills
 promptly and has not bolshevist ten-
 dencies.

An American school boy was asked
 "What is the shape of the world?" and
 his reply was "Dad says the world is
 in a helluva shape."

PEOPLE'S GREETINGS

To The
**People of the Counties Visited By
 the Trade Excursion**

This section of the state is one of wonderful re-
 sources, and its development should be uppermost in
 the mind of every citizen. By co-operation and unit-
 ed effort, working shoulder to shoulder, we can build
 up rapidly, and every county receive its full propor-
 tion of the benefits. There should be no division or
 selfishness between the towns—for there is work for
 us all to do.

This bank has had a full part in the development
 of the Plains to the present time, and expects to have
 a larger share in the future rebuilding.

When in Plainview make our bank your head-
 quarters. You will be given a hearty welcome.

Third National Bank
 Capital \$100,000 Resources More Than \$1,000,000

HIGH COURT TO SETTLE WOMAN JUROR QUESTION

Austin, May 1.—Whether it is constitutional for women to serve on grand juries in Texas will be decided by the Criminal Court of Appeals.

The question was raised in a habeas corpus case today filed by Robert J. Riddle, from McLennan county. Riddle, according to the petition, was indicted by a grand jury that contained two women and, because of the feminine members, he asserts the indictment is invalid. Proceedings brought to the higher court are in the nature of an appeal from the McLennan county district court, which denied Riddle bail.

Riddle was charged with killing Mrs. Ida Sorley, Dec. 13, 1920. He was found guilty and sentenced to ninety-nine years in the penitentiary.

Warm March Is a Mystery

Causes underlying the unusually warm weather of early spring this year remain a mystery to weather bureau officials in Washington. But reports show, they say, that March was one of the warmest in the history of the country, breaking all known records for high temperatures at some weather bureau stations, in the East.

One contributing reason for the high March record, it is stated, was the succession of bright, clear days during a month when blustery winds, clouds and storms usually prevail. But what caused this succession of bright, clear days, the climatological division is unable to determine.

One cause of usual cold, March weather is said to be the sharp difference frequently prevailing in barometric pressure. This feature evidently was missing, although complete records have not as yet been compiled. Cold weather often resulted, it was said, from a high barometric pressure in the colder regions of the North, which created an air "hill" down which cold air "poured" upon the United States.

During the cold winter of 1917-18, it was pointed out, air pressures were extremely high in Alaska, building up a "hill" from which slid icy winds from the snow fields, bringing one of America's coldest winters.

Although January and February also were warm throughout much of the Middle West and East they were not record breakers. The weather bureau reported many warmer winters.

The far West winter, as indicated by San Francisco reports, was not unusual, December and January being slightly warmer, and January colder than normal.

Bring us your produce. Cash Grocery Co., next door to Third National Bank.

DAIRY COUNTRY IS PROSPEROUS

There never has been a time in the life of intelligent dairy farming when a dairy country has not been a prosperous country. Cows have transferred the farms of the colder sections of the United States from loss into prosperous enterprises. Cows have been money makers wherever they have been well milked and intelligently handled. It stands to reason that the more salubrious the climate, the more abundant the crops, the more days of pleasant sunshine and the less of cold, biting frigid weather, the greater the profit from cows.

In all this section of the state people have talked about big farming enterprises, about vast areas handled by one farmer, of the ease with which the lands have been put under the plow and the final crops shown from the soil, but now there has come a time when the acid test demand for profits is applied to farm operations. The men who sow and reap have gotten to that place in their lives where they ask for profits from their labors and to his they have the most perfect right. In fact, it has not been reflective of greatest credit that they have not reached this point before. They have their money invested in the lands, they have made additional investment of time and labor, and they look upon the acres and reason through them to the final showings upon which they may rely.

This process brings them down, inescapably, to the milk producing now. They look upon the cow, then, as an item of their farm program, and with wisdom ask the question: How will the cow increase our profits? The answers come clear, and ringing back in many ways, including the advantage of a day-by-day cash income, through the transforming of bulky, cheaply priced feeds into products of greater worth and more concentrated form, they give a foundation for a cash basis. When in addition to the milk cow the hens and hogs are installed on the farm, there is added assurance of profits.

Wisconsin and various other states have demonstrated the worth of the milk-producing cow. They have determined that the cow is the deadly enemy to indebtedness on the farm. The things that have been done in Wisconsin are easily possible here, and that at less expense. Well, the milk cow, the hogs and the hen, and be independent.

Jim Ferguson's Bank Closes

Temple, May 3.—The Temple State bank, capitalized at \$125,000, voluntarily placed its affairs in the hands of the State Commissioner of Insurance and Banking today and closed its doors at noon. In a formal statement announcing this action James E. Ferguson, president of the bank and former Governor of Texas, declared that the failure was due to the fact that heavy withdrawal of deposits decreased the bank's available cash adding that the bank was prevented by state authorities from using its property to obtain sufficient aid to keep its doors open.

The Temple State Bank was founded fifteen years ago and its name was mentioned frequently during the impeachment proceedings against Governor Ferguson at which time it was alleged that Ferguson had borrowed more money from the bank than the law allowed. Depositors are said to be protected by guaranty bonds.

OIL FOUND IN WATER WELLS NEAR SUDAN

Company Will Be Organized to Make
Deep Test for Oil and
Gas

Midland, May 3.—Considerable interest is being manifested around Sudan in this county over the discovery of oil in water wells. Five wells have been drilled for water in that community recently and oil is in every one of them; one in particular showing enough oil to be very interesting, according to Mr. P. E. Boesen. Mr. Boesen states that a company will be organized to make a test for a deeper sand there.

It will be remembered that a well was drilled on the Yellow House ranch at a point eighteen miles south from this town a few years ago, going to a depth of about 2,000 feet. The oil sands were encountered in this well and a considerable show of gas. Oil has shown in several water wells here—the most remarkable showing being in the well of Chas. E. Cooper just north of town. For several months Mr. Cooper has repeatedly exhibited this well and the oil to a number of people, all of whom have been astonished at the amount of oil coming up with the water.

Fear Pooling Is Illegal

Manhattan, Kan.—The committee of seventeen rejected the compulsory pooling plan for co-operative marketing of grain, as advocated by the National Wheat Growers' Association, because the committee believed that it would be declared in violation of the Sherman anti-trust law. This is the declaration of Ralph Snyder, president of the Kansas state farm bureau, who was a member of the committee of seventeen. Snyder also advances as objections to the compulsory pooling plan that the committee might not like the idea that it is doubtful whether a sufficient number of growers could be induced to sign up under it.

"The committee went to the trouble and expense of hiring six of the best and most experienced co-operative attorneys in the United States," says Mr. Snyder in a prepared statement. "After some two weeks' research and discussion they decided by a vote of five to one that in all probability the compulsory pool, if carried to its ultimate conclusion would be declared illegal by the courts as a violation of the Sherman anti-trust law."

The one attorney who stood out also was Aaron Sapiro of California, who had drawn the pooling contract for the National Wheat Growers' Association. He stated that it was worth a trial in the courts at least. However, it was felt that the grain growers could not afford to run the risk of having the plan tied up by litigation for a period that might stretch over several years. Such a procedure would use up the money of those supporting the movement and would have a tendency to wear out their patience, even if there was a possibility of it being declared legal in the end.

Tire and Tube Prices Drop

The Goodrich Rubber Co. and other rubber manufacturers made a twenty per cent reduction in prices of tubes and tires May 1.

Supt. J. J. Wilson of the Lockney school was here yesterday morning, en route to Austin, to attend the State interscholastic meet. The Lockney contestants joined the special car here Wednesday morning.

HALE COUNTY NEWS

HALE CENTER

May 5.—Mrs. Amy Mosely of Plainview came down for a few days' with her parents, Mr. and Mrs. T. E. Wall.

Mrs. Ervin Porter and children spent the first of the week in Lubbock.

The ball game Tuesday between Hale Center and Kress was a disappointment to our home folk. Score 16 to 6 in favor of Kress.

The Needle Club was pleasantly entertained at the home of Mesdames Ivey Moon and O. B. Walker Wednesday afternoon.

Robt. Alley returned from Amarillo Tuesday morning, where he had spent a few days with his wife and daughter, Mrs. Fish. Mrs. Alley came home Tuesday night. She left her daughter very much improved and expects her home about Friday. Mrs. Fish is suffering from an attack of ptomaine poison and had to leave the train at Amarillo, as she was on her way from Kansas City, and go to the hospital in Amarillo.

A number from here attended the Elks dance in Plainview Tuesday night.

Laugh? I guess you did if you saw the ball game Wednesday afternoon between the merchants and mechanics. The line-up was as follows, merchants: Pitcher, Claud Gentry; catcher, Nelson Perdue; battery, Nick Alley, S. M. Goodlett, E. H. Porter, O. C. Walker, Ivey J. Moon, R. C. Cox, Roger Pinson. Mechanics, pitcher, Frances; catcher, Jim Brown; batter, Joe Lindsay, Willie Ritchey, Will Brown, G. E. Ritchey, Pearl Ritchey, Arthur Jones. Umpires, Rev. G. H. Bryant and H. A. Lynch. Score 19 to 21 in favor of merchants. All men need to have some play to keep their lives well balanced and events like this are sport and relaxation for all.

A goodly number attended the park clean up Tuesday and the results are a much cleaner park. Come again next Tuesday and we will finish. All ladies are asked to bring flower seeds and plant flower beds.

Miss Patsy Caudle has been assisting in the bank.

Mrs. Carrol Bird met with a very painful accident Tuesday. She was doing some papering and fell from the ladder and received several bad bruises, the most serious being on her head.

Mr. and Mrs. M. S. Hudson have returned home after a very enjoyable auto trip to Wichita Falls, through Oklahoma, and Southern Kansas.

Miss Ruth Hale, our high school principal, is in the school room again this week after a week's illness.

PETERSBURG

May 5.—We are still waiting and longing for a rain. We hope this is the week it will come.

Burt Pinson of Proctor, who has been teaching near Hale Center visited his sister, Mrs. Ola Legg and brother, Prof. Ray Pinson the past week-end.

Sam Mason and Miss Oneita Gray attended the Senior play at Estacado school night.

Miss Lily Dendy was hostess at Sunday dinner to a crowd of young lady friends. There were present Misses Oneita Gray, Lena Darby, Lester Jones, Annie Hegl, Beese Garret, Edith Gartin, Mattye Gregory and Miss Bulah Day of Estacado.

Davis and wife attended the revival at the Methodist church in Floydada Friday.

Mrs. Chas. Joiner has returned from Lockney where she has been with her mother, Mrs. Easley, who was hurt last week, when on the street. The high wind blew her down and her knee was broken. She is able to walk on crutches.

Wm. Britt and family are once more among us. At present they are with their daughter, Mrs. Herman Hegl. They liked Arkansas, but their hearts turned back to Texas.

Mrs. J. C. Boyd and Mrs. J. G. Baisden were in Plainview Friday to visit their sister-in-law, Mrs. Mrs. J. T. Stalcup, Jr., who is very ill.

The Community Club met Friday afternoon with Mrs. Ben Allen in the L. C. Claitor home. It was decided to ask the community to meet Friday, May 6th at the cemetery and clean it up.

Mrs. Cleve Phillips has returned to her home in Plainview after a few days' visit here.

Below is the honor roll in the grades for April:

6th grade—Blanche Wartes 93 3-8, Gracie Allen, 93 1-4.

5th grade—Lloyd Roberson 93 1-2, Louise Dendy, 92 1-4.

4th grade—Clifford Reseanover 93 2-8; Audrey Bales, 93 1-8.

3rd grade—Raymond Wiese 93-1-8, Alvin Gregory, 93-18, Adora Holt, 92 12, Miss Jessie Mae Goodner, teacher.

Primary 3rd, Weldon Boyd 90 1-7; Pearl Jay 88 4-7.

2nd grade—Evelyn Gregory 91 1-7; Avalin Berts 902-3.

1st grade—Mason Davis, 90 1-5; J. B. Sell 86, Miss Lena Darby teacher.

LIBERTY

May 5.—The farmers are unloading another tank of oil today.

Mrs. Ruddy Gundrum spent Wednesday with Mrs. C. P. Seipp.

C. C. Alexander and family Sunday with J. J. Groff and family.

A number of our school children are offering with sore arms. Some are having to miss school.

Mrs. John Workman and children spent one night this week with her

Pre-War Prices Continue
County Clerk Jo. W. Wayland says his is about the only business that did not raise during the war. For instance, the price of a marriage license is the same now that it was twenty years ago. The price did not go up when other things were soaring during the war, and he does not propose to reduce the price now that other prices have come down. He is ready to sell licenses at \$1.50 each for one or in lots of a dozen or more issued to different parties.

Justice Young says he will make a cut in price for the ceremony where there are double weddings, if he is permitted to kiss the brides.

A building and loan association with \$50,000 capital has been organized at Lubbock, with Joe Hess, formerly of Plainview, as its organizer and manager.

R. M. Ellerd and family are moving to El Paso, where he will practice law.

Flies Carry Disease

The Flies are here again. Have you thought about the screens? Does the old kitchen screen door let in the flies? —and isn't front screen door most too shabby for another season's use?

Long-Bell White Pine screen doors are strong. They are carefully built of good White Pine lumber and wire cloth.

Long-Bell screen doors are the kind it pays to buy—they keep their shape—don't sag and stick like ordinary screen and their design is pleasing.

We have different styles and sizes to choose from and we are sure to please you if you will call or phone your order.

MAY DAY'S QUIETUDE PLEASES DAUGHERTY

Attorney General Views It As An Evidence Country Is Nearly Normal

Columbus, Ohio, May 2.—Quiet observation of May Day throughout the United States, despite attempts to agitate demonstrations through the distribution of literature, "gives assurance of the return to normal conditions in America," said a statement issued here today by Attorney General Harry M. Daugherty.

The Attorney General announced that reports to the Department of justice from every section of the country showed widespread quiet and clamness prevailing. He declared that yesterday had been a typical "American Sunday."

Mr. Daugherty's statement said he had refused to issue a general public warning against announced demonstrations.

"My idea was," the statement said, "that if a general warning were given it would invite, rather than prevent, demonstrations. I believe it is best not to agitate the agitator. The country is settling down to a patriotic program. Disturbances of the character threatened would not be popular any place. I think we need less watching and more working in this country."

"I shouldn't say that it is perfectly safe to leave the smokehouse door open, but we're back to normal, almost, as the President of the United States would say, and we have reasons to be proud of ourselves."

"The police forces of the cities throughout the country have done wonderfully well and are entitled to congratulations. Splendid preparation was made by them and the result can be observed throughout the entire country."

OUR RELATIONS WITH JAPAN

The statement of the Japanese Ambassador that his country has been the subject of a deliberate enemy propaganda cannot be doubted. Perhaps no other country in the world has been watched more closely and accused more frequently of sinister motives than has Japan since her successful war with Russia. Her progress as a nation has been viewed with alarm, apparently, by all the great powers. England alone seems to have accepted the situation and sought to bring intelligent action into relations between the two countries.

In our own country there has been a well organized propaganda against Japan, and unfortunately it has been of such character as to militate against relations with the Flowery Kingdom. Certain newspapers have made it their business to exaggerate and impugn every movement of the Mikado's government, and these have been aided and supported by a group of men in Washington who seem oblivious to everything else except what has been termed "the yellow peril." Certainly the Japanese Ambassador is right in protesting against this sort of procedure.

But there is one fact which should be kept clearly to the fore and that is the continued colonization of Japs and acquisition of huge land interests in the United States cannot be considered anything but a menace to peaceful relations between the two countries. We should strive to maintain friendship with Japan, but radical differences cannot be ignored and Japan should be made to understand that this country will not tolerate the colonization of yellow men within our borders.—Amarillo Tribune.

Scandal Is Hinted At

A lady says the reason why some of the committeemen for the Trade Excursion did not want the women to go on the trip is that last year, though married, they palmed themselves off as being single and had a great time with the girls in some of the towns. Now, we wonder who she was throwing this at, for we thought that everyone who went last year was absolutely trustworthy and the very personification of honor.

Anyway, the women who wish to be at liberty to go this time, and they will act as chaperons for the men

May Pool Third of Wheat Crop

A concession to grain growers committed to the pooling plan of co-operative grain marketing is announced by the board of directors of the U. S. Grain Growers' Inc. The concession made is the formation of a third method of sale which gives the grower the opportunity voluntarily to pool one-third of his wheat crop. This method of sale is provided in addition to the direct sales and entire pooling method already included in the plan.

Father Suffers Paralytic Stroke

Geo. H. Wilson, who lives near Finney Switch, received a telegram this morning from his brother in Lawrence, S. C., saying that their father had suffered a stroke of paralysis, and is in a dangerous condition. Mr. Wilson will leave tonight for his bedside.

Californians have planted one hundred and seventy-five thousand acres more in grapes this year, which may be interesting information to those who have maintained that prohibition would ruin California.

Mr. Trotzky is reported to be planning new military offensives for this summer that will require armies of several million men. Looks like another short harvest in Russia this fall and scup lines next winter.

FARMERS ARE HIT HARDEST OF ALL BY PRESENT PRICES

EXPORT SLUMP AND HIGH RAIL PRICES BLAMED FOR PRESENT PLIGHT

Why the farmers are harder hit than any other class due to the inequalities of readjustment is shown at a glance in the following table prepared by Secretary Hoover. Using 100 as the index—that representing the 1913 scale—commodities, labor, fuel, transportation, etc., stand in the following relative proportion today:

Farm crop prices	109
Farm meat animals	123
Wholesale index of all commodities	162
Building materials	212
House furnishings	275
Clothing	192
Fuel and light	207
Railway rates	166
Building trade wages	177
Department of labor report on hourly union wage	199

In other words, until everything else comes down to where the farmers stand today or the price of the things the farmer sells are pushed back up, he is relatively worse off as shown by this table, compared to others than he was in 1913.

Washington—The slump in the export markets and foreign trade were blamed primarily Thursday by two of the highest government authorities for the present depression in American agriculture. Transportation problems were assigned by each as a contributing factor.

The two men who took up the farm situation from the national standpoint were Herbert Hoover, secretary of commerce, and Gov. W. P. G. Harding, head of the federal reserve board.

Hoover Answers Capper's Letter
Secretary Hoover, responding in a letter to a query from Senator Capper of Kansas as to what was the matter with agriculture, and what could be done to help the farmer, lashed out at the manner in which too heavy a burden of readjustment was being placed upon the back of the farmer. He cited the tables used above as a fair picture of how the process of readjustment had worked to date, with the farmer suffering disproportionately.

"Certainly these levels must come into step or the agricultural industry and its standards of living will be undermined," was the terse comment of the commerce secretary, who is a much better friend of Kansas farmers than many of them were willing to believe a year or so ago.

War's Effects are Being Felt
From a domestic standpoint, Hoover said, the rail rates must be revised. He said agriculture today is the worst sufferer from the transportation system. But for permanent improvement of agriculture, he added, there must be improvement in marketing. He gives his hearty stamp of approval to the co-operative movement now under way on a large scale, and suggested that national food marketing board be established under the secretary of agriculture.

W. P. G. Harding Discusses Credit
Governor Harding of the federal reserve board approached the farm situation from another angle—that of credit. To carry out the suggestion of President Harding that steps be taken to ease up the credit and deflation process, particularly for agriculture, the reserve board was in long conference Thursday, discussing ways and means. Following this conference, it was announced that Governor Harding would go to the farm belt this week, get in touch with member banks, agricultural and trade organizations and discuss the problem with them.

The head of the federal reserve system was in Chicago Monday. From there he goes to Kansas City, Topeka, Oklahoma City and Nashville.

Upon his return it is probable a more definite program for helping the situation will be outlined. Members of congress have urged the government to place 100 million dollars of government funds in Western banks to ease the borrowing situation during the planting and marketing season. It is not known how the reserve board feels on this suggestion. It is only one of the many suggestions that have been made.

Need Markets Worse Than Credit
Discussing the farm situation following Thursday's conference, Governor Harding indicated very clearly that he did not believe a lowering of the discount rate at the federal reserve banks would materially affect the situation.

He commended on the lowering of the discount rate (Wednesday) of the Bank of England from 7 to 5 1/2 per cent, but said that the credit situation had not been much affected in the two districts in the United States in which the rate had been lowered. He said the trouble with the farming situation was not so much credit as lack of export markets. He pointed out in the case of cotton, for instance, that there would be a carry-over of 8 million bales, or enough to supply the whole world, almost. With such a slow market and such a surplus, banks naturally were slower in lending near to the market price of cotton, he pointed out. The farmers' difficulties were increased, Governor Harding said, by the fact that the reduction in the raw products was not reflected in the retail price of the finished product, to the extent it

NATIONAL GOOD ROADS AND BANKHEAD CONVENTIONS

FRED SCHRIERER TELLS OF PROMOTION OF GOOD HIGHWAYS

Mr. Fred Schrierer of Olton, who represented Lamb county at the recent annual convention of the National Good Roads association, and also the convention of the Bankhead Highway Association, held in Greensboro, N. C., he being a director in the latter, has written to Mr. E. H. Perry of this city, a vice president of the Bankhead association, telling him of what was done at the convention. Mr. Schrierer says:

"I will try and give you a short account of the United States Good Roads and Bankhead National Highway conventions which were held at Greensboro, N. C., April 18th to 23rd. I left Olton, Sunday morning, April 17th, and reached Greensboro on Wednesday night, the 20th at 10 o'clock. I should have reached Greensboro Wednesday morning, but owing to a wreck on the Wabash road between Kansas City and St. Louis and a broken engine, we arrived at St. Louis four hours late and there-missed connection at St. Louis. On account of this delay, I failed to attend the Board of Directors meeting which was scheduled to take place April the 20th, at four o'clock. Owing to the lateness of the hour I did not learn anything concerning the progress of the convention that night, but early next morning I met delegates of Oklahoma, Mr. McDon-ald and Mr. Johnson, both old friends of yours, and these gentlemen gave me all of the late developments, as well as the progress of the conven-tion so far.

"I found that the Board of Direc-tors had endorsed the stand taken at the last meeting held at Birmingham, Ala., in regard to the proposed resolu-tion on the Board of Directors, namely, only two directors and one vice president should constitute the representation of each state on the Board of Directors. I realized right then that our representation of two directors and one vice president from the Panhandle of Texas, representing the Central West Branch of the Bankhead Highway was in danger, and that we were likely to be cut off at the convention. After a lengthy discussion we decided to present a

resolution asking that the committee be given two directors. This resolution did not come up until shortly before the close of the convention, and was promptly voted down, although I took the floor and tried to make it clear to the delegates that according to distance and mileage we were entitled to representation on the Board of Directors. I must say that the delegates from Oklahoma and Texas stood united with me in this conten-tion, but nevertheless we were snowed under.

"It was evident that the delegates were ignorant of the issue at stake, but they were either tired or feared the position of the night under the circumstances last year. This conven-tion was in session until two o'clock in the morning, thereby railroading the resolution through and defeating the purpose of the meeting of the Board of Directors. I brought the matter up again, and after I had made the situation clear, the board endorsed my standpoint, and passed a motion whereby the Texas Panhan-dle was given two directors to repre-sent us at the organization. Mr. E. H. Perry of this city, representing the Central West Branch of the Bankhead Highway, and Fred Schrierer of Olton, Texas were elected directors.

"We had with us at this convention several distinguished gentlemen from congress, among them Senator Town-send and Congressman Bankhead. Senator Townsend outlined in a lengthy speech the attitude of the present administration in regard to roads and road building. Senator Townsend, who is the chair-man of the committee on Postal Af-fairs in the Senate, and through whose hands all legislation of Nation-al aid toward highway building goes, said among other things that we must have highways, and that the govern-ment realizes that it is the duty of the highways when new money is ap-propriated that the old method of Pock barrel distribution of government funds is a thing of the past, and that when-ever the government spends one dol-lar a dollars worth of roads must be built, or there would be no govern-ment aid. Senator Townsend, dwell-ing on the importance of the need for maintenance of good roads, and said that the states or counties ask-ing for Federal aid, must set aside an adequate sum of money for properly maintaining and taking care of the highways, otherwise petitions lacking provision of maintenance would not be considered.

"Senator Townsend said that dur-ing the late conflict he found that the railroads were inadequate to han-dle the traffic, and therefore it was necessary to have good roads, and where they were lacking, they must be built.

"A Congressman Bankhead, who pre-sided at the meeting, gave us a statisti-cal review of the cost of transporta-tion from products from the farm to the railroads in the different coun-ties. He said it cost the farmer of Texas five cents to transport a ton of products one mile, whereas, it cost the farmer of the United States 21 cents per mile per ton. Cause, "BAD ROADS."

"The late convention at Phoenix, Ariz., which was held in the "The Roads of France." She made the assertion that it was the roads of France that saved the country from defeat in the late war.

"The late convention at Phoenix, Ariz., invited the National Government to consider the building of National highways as a means of national defense, and that the time has come for the differ-ent states to take this matter under con-sideration and act, or else the opportu-nity to have a National highway built and operated by the National government and the countries through which it traverses pass right through its doors may slip away. Already rivaling interests are at work, and these rivaling interests will nullify as time passes.

"The opportunity to have this great series of Congress and travel pass right through our immediate neigh-borhood is ours, and it would be ex-treme negligence if we let it slip by.

"The late convention of the Bank-head Highway Association has per-manently fixed the route, namely, Childress, Quanah, Silverton, Plain-view, Olton, Muleshoe, Farwell, and Texico. It has been put in the consti-tution as part of the Central West Branch of the National Highway.

"The four Eastern counties of Ok-la-homa are building the highway and receiving aid from the National govern-ment on a fifty fifty basis.

"Several counties on the All Texas Route have voted bonds to the amount of twenty-seven million dollars, and the road is in process of building in many counties in Arkansas and Eastern States.

"The next annual convention of the U. S. Good Roads association and the Bankhead National Highway as-sociation will be held at Phoenix, Arizona.

"Should the Plainview Chamber of Commerce desire my presence at one of their meetings, I will be at their service providing they notify me in time. I have other inside informa-tion which it would be unwise to pub-lish at this time."

Yours very truly,
FRED SCHRIERER

Will Buy Collar for Dog
The bunch on the corner of the square will take up a collection and pay for a city dog license collar for the little yellow dog which has made the corner his haunt for several months. He has been a faithful friend to them, and they are not go-ing to permit him to be killed.

Better prices for Country Produce

We are at all times very wide awake and active in securing the best market and the highest prices for the chickens, turkeys and eggs raised in this section. We have connections in the larger city markets that give us the very best market prices possible, and we handle our business in the most modern and economical manner, so that the loss is the least, and this of course enables us to pay the best prices to the producers, who deserve every cent they get for their produce.

We ship in carload lots, as well as by ex-press, and have something moving all the time.

Our cold storage and poultry handling plant is modern, and we have a capacity that enables us to handle the poultry crop of the entire Plains. When you are in Plainview next, call and see us and let's get acquainted.

Rain Needed In Castro

Dimmitt, May 4.—Rain is badly needed throughout Castro county. Wheat has been standing up well, but if rains do not come soon there will be a sharp cutting of the prospects within the next week or ten days. Farmers have their preparations for row crops well in hand, and the acreage planted to the grain sorghums will be large. Livestock is in good condition, and the general outlook for the county is hopeful, and with ample rains will be most excellent.

Gov. Pat M. Neff has issued a proclamation appealing to the people of Texas to help save the lives of 15,000,000 starving Chinese who have no food until the July harvest.

DON'T TALK PESSIMISM

Don't talk pessimism. It puts similar ideas into the minds of other people, and such ideas create doubt and uncertainty and hamper the ordinary progress of commercial activity and expansion.

If you can't see anything good in the future get some other fellow to do your looking for you until you can adjust yourself to conditions and acquire a better perspective of affairs in general.

If a man goes out in the morning and tells every person he meets that he is sick, and keeps up the fiction from day to day it will grow on him until he is in reality unfit for business.

But if you want better times go out and preach them and put the joy of confidence into other hearts as well as your own. The response will be just as great.

Killed In Runaway Accident

Wayside, Texas, May 2.—Leonard Crow, one of Wayside's promising young men, was fatally injured Friday afternoon, when the team he was driving ran away.

He was seated in a wheel-barrow in a wagon and both he and the wheel-barrow were thrown between the wagon and team, both wheels passing over his body, injuring him internally. He suffered intensely, lingering until near noon Sunday, when he passed away.

Pope and Nunn Are Going

A letter has been received saying that Editor Joe L. Pope and Manager J. L. Nunn of the Amarillo Daily News will accept the invitation of the Plainview Chamber of Commerce, and make the three days' Trade Excursion Trip. These fellows are genial chaps and their presence will add much to the pleasure of the trip.

The Amarillo Tribune and the Fort Worth Star Telegram will each have a correspondent on the trip.

Invitations were sent to all the larger state daily papers asking that staff correspondents be detailed for the excursion, and inviting them to be the guests of the Plainview Chamber of Commerce. Possibly several others than the above will accept the invitation.

Postal robbers got away with \$6,000,000 in 1920, of which sum \$3,000,000 has been recovered. Now Postmaster General Hays, in addition to the distribution of arms to postal employees, has offered a standing reward of \$5,000 to any employe of any department "who brought in mail robber." The general public is reminded that this is the open season for the potting of mail robbers and there is a \$5,000 reward for the citizen who bags big game.

MELLON AND HIS PROPOSALS

Secretary of the Treasury Andrew W. Mellon has made four specific proposals for revision of the federal taxes.

First, repeal of the excess profits tax and the existing \$2,000 income exemption of corporation.

Second, readjustment of income tax rates so that no income will pay more than 40 per cent this year and 33 per cent thereafter.

Third, repeal of the so-called luxury taxes, together with "nuisance" taxes such as those on soda fountains drinks.

Fourth, imposition of sufficient new and additional taxes of wide application, such as increase stamp taxes or license taxes on the use of automobiles.

Mr. Mellon says the treasury is not prepared to recommend at this time any general sales tax and particularly if the general sales tax is to supersede the highly productive specific sales tax now in effect on many relatively nonessential articles.

Secretary Mellon is one of the world's most successful bankers and reminds the people that expenditures for this fiscal year have been at the rate of \$5,000,000,000 and he warns congress that the nation cannot continue to spend at this shocking rate. Substantial cuts in current expenditures, he says offer the only hope of effective relief from the tax burden.

If the governor of California signs a bill recently passed by the legislature of that state, there will be brought into being courts where it will be possible and practical to go to law without lawyers. The new tribunal is to be known as the "Small Claims Court," and will have jurisdiction, it is said, over causes involving not more than \$50. News accounts state that it will be presided over by a justice of the peace and that the litigants will be expected to present their own cases without formality and without special pleading. Collection agencies and assignees of claims are forbidden to invoke the jurisdiction of the court.

Representative Andrew J. Volstead, chairman of the house judiciary committee, says there is no hope for any amendment to the Volstead law which will permit the sale of light wines and beer. An overwhelming majority of the senators are opposed to amendments and a count of noses shows that two-thirds of the members of the lower house are hostile to the Palmer ruling. This is a dry nation.

John Hart and Mark Speer are in jail at Claude, having been arrested on a charge of operating a whiskey still which was found in the canyon near that place.

SEEK TREASURE IN VIGO BAY

Company Under Spanish Grant Will Endeavor to Recover Some Hundred Million Dollars.

The largest amount of sunken treasure there is any record of lies at the bottom of Vigo bay, on the coast of Spain. Here a Spanish plate fleet of 17 great galleons and their escort of 23 warships were sunk 300 years ago by a combined fleet of English and Dutch war vessels.

There is no guesswork about the amount of treasure on board the galleons. It is matter of official record and is placed in the neighborhood of \$140,000,000, which at the time when there was very little money in the world had a purchasing power ten times greater than now.

Of this immense sum a little was landed, taken inland and saved. A few millions fell as spoil to the victors and the balance has served as a bait to draw adventurers from everywhere to Vigo bay. A heavily financed company even now, under a concession from the King of Spain, is trying to salvage the sunken galleons and their cargoes.

All in all, not more than 20 millions have been saved from the sea, including that landed, that captured and that reclaimed by the various firms to whom concessions have been granted during the last 300 years, so it is safe to say that at least 100 millions yet remain resting on the bottom of the bay, 17 shiploads of gold, silver and precious stones!

THESE SILKS NEED NO DYE

Louisiana Man Has Discovered Method of Making the Worms Color Their Own Product.

While the silkworm has no fancy for any particular color, preferring to weave its cocoon of a drab gray so that it will not show against a gray tree trunk, one man has discovered a method whereby he can make the little spinners produce any one of the 18 shades at his pleasure. The man is Dr. Vartan K. Osgian, son of a long line of silk manufacturers, and he has an extensive silkworm farm near New Orleans.

Osgian has discovered that upon feeding the worms certain leaves they will respond by spinning certain colors. He has carried out his experiments until he has the 18 varieties of food to produce the like number of colors. The silk thus shaded will not fade in either water or sunlight. Not only has he secured colored silk, but in addition he has increased the cocoon in size until a single one provides 1,800 yards to a strand, and there are two strands to a cocoon.

The "Bolshevik Cocktail."

From the American Red Cross Bulletin of Riga: "Helsingfors.—You can tell a prohibition country by the weird and awful drinks they drink. Take Finland, for example. There they take vodka, 90 per cent, made from potatoes, not from grains, mix it with blue or huckleberry juice water. In the ratio of one to ten, and gulp down the result. It's the only way to get it down; to sip would be to give up altogether, both on account of the strength and the odor. American Red Cross dispensaries working with the Russian refugees use vodka under spirit lamps in place of alcohol.

"Near the border one gets the 'Bolshevik cocktail.' This is a combination of kerosene, vodka and ether. They run automobiles on it in soviet Russia, as gasoline is not to be had. The job of chauffeur is much sought after."

Paper Umbrella Out Soon.

An unusual novelty will be placed on the market soon in the form of a paper umbrella, the New York Sun states. It is said that this newfangled rain shelter will be a very satisfactory substitute for the traditional alpacas or silk. It will weigh for 50 cents, thereby cutting the cost of umbrellas down to a sum that should be considered distinctly nominal these days of the \$8 and \$10 variety.

The color of the new umbrella will be black and the cover of a composition absolutely waterproof and crackless. It will have a steel frame, wood on each handle and a ring at the lower end of the "rib." Those in charge of the manufacture of the novelty say it will be durable and that it will roll as small as a silk one.

Nothing on Her.

An aristocratic lady gave a dinner party during the waiters' strike in New York. A young girl of the type known as buxom waited on the table. She seemed quiet and unobtrusive, and was efficient. After the dinner was over, the hostess said she would sign the check. When she had written her name she turned to the waitress and said: "Perhaps I should tell you that I am Mrs. Blank, so there will be no mistake. My handwriting is rather illegible."

The waitress picked up the check, glanced at the signature, and said: "Well, dearie, you ain't got nothing on me!"

Public Benefactor Dead.

Adam Duncan, fellow of the Royal horticultural society, who has just died in England at the age of 80, is said to have been largely responsible for the introduction of the tomato as an edible fruit. The tomato had long been grown for decorative purposes, but Mr. Duncan, by means of hybridization, evolved it from its crinkled, woolly state to the smooth-skinned fruit.

Like Zane Grey?

Zane Grey's newest story is called *To the Last Man*. They say it's the best he has ever written. Later it will be made into a book to sell for about \$2.00. But I'm not going to wait for the book, I'll read it first in

The COUNTRY GENTLEMAN

You can, too. Zane Grey's best stories appear first in the Great National Farm Weekly. Remember *The Desert of Wheat? Wildfire? The Mysterious Rider?* They were Country Gentleman stories first, all of them; only later were they made into books.

To the Last Man is the real two-fisted stuff, I'm told. Zane Grey went down into the Arizona hills and got this dramatic romance of faithful love and fearless adventure from folks who were actual eye-witnesses of the terrible feuds between the early sheep-herders and cattlemen. This personal contact enables him to write into the story a rugged realism that grips you from the first page. I wouldn't miss it for two dollars. And—get this—you can have a whole year of Country Gentleman service, including the fifteen parts of *To the Last Man*, for just one of your dollars, sent me today.
