GRAIN CROPS OF COUNTRY FORECASTED AS SMALLER

GOVERNMENT ESTIMATE PLACED PRODUCTION AT 809,000,000 BUSHELS

Washington, July 8.—The total wheat production for 1921 was forecast at 809,000,000 bushels by the Department of Agriculture today.

The forecast a month ago was for 830,000,000 bushels.

For 1920 the total production was 787,000,000 bushels. The winter wheat production was estimated at 574,000,000 bushels as compared with an estimate of 578,000,000 bushels a month ago.

The spring wheat production was estimated at 235,000,000 bushels as compared with an estimate of 251,000,000 bushels a month ago and a production of 209,000,000 bushels last year. The condition of wheat was given as 78.2 per cent compared with 82.5 per cent at this time last year. The condition of winter wheat was given as 77.2 per cent now and 97.7 per cent at this time last year. A month ago the condition of all wheat was estimated at 82 per cent, winter wheat at 77.9 per cent and spring wheat at 93.4 per cent.

The total corn production was given at 3,123,000,000 bushels compared with 3,232,000,000 last year.

The condition of corn was estimated as 91.1 per cent and the acreage at 108,901,000 acres or 4.1 per cent greater than in 1920.

Harry Melroy Buried

The funeral of Harry Melroy, who was killed by lightning near Hale Center Tuesday afternoon, took place at the tabernacle in that town yesterday afternoon at 3:30 o'clock.

Pastor G. W. Davis of the Plainview Christian church, conducted the service, and Mr. Fraser, singer of the Erwin revival party, conducted the song service. Rev. M. E. Egan prayed.

The burial was in the Hale Center cemetery.

The relatives from elsewhere in attendance at the funeral were Mrs. Melroy of Tolar and Mrs. Adams of Dublin, grandparents; Mr. Elmo Melroy and Emmitt Huffstetter of Tolar, Sam H. and Mrs. Jake Huffstetter of Lubbock, Sherman and White Melroy of Amarillo.

Discing After the Harvester

Agriculture experts agree that discing the ground immediately after the grain has been cut is a good practice. It is of course where the land is reseeded to some other crop. This practice conserves the moisture already in the soil and puts the latter in condition to hold additional moisture. Discing forms a mulch which not only kills all vegetation and holds all present moisture, but catches the sudden heavy rains, which would run off of the hard, unbroken surface.

Experiments in the growing of winter wheat shows beyond question that early preparation of the seed bed increases the yield. When the soil is discing after the harvester, fall plowing may be done at any time thereafter; otherwise the conditions may be such that plowing must be deferred until late in the season, especially when the farmer is short of power.

The effect of fall plowing operations is described by an agricultural expert as follows:

"The disk loosens the surface soil and makes it possible to do a good job of fall plowing, whereas, if it had not been discing, it could not be plowed without throwing up large clods. This is a point not appreciated by many farmers. They throw up large clods and then try to break them up with a drag harrow or roller. It is easier to break up these clods with a disk harrow while they are held rigidly in the ground. Where the ground is plowed following the disk, there is sufficient moisture in the lower portion of these otherwise clods to enable the plow to pulverize them and the ground is turned apparently 'mellow.' In the best wheat raising districts several plans follow as to when they begin discing. Some have enough power to pull the disk with the harvester, others disc just as soon as possible after harvest, even if the ground is somewhat hard, and the stubble gives little evidences of the passage of the disc over it. 'Even in the extreme cases' the hard surface will be well mulched, and undoubtedly considerable moisture will be saved.

Gov. Neff is making a number of speeches over the state, asking that the legislature adopt his program for better enforcement of law and order. His program should be adopted. Texas should make crime a very unattractive business. Only by swift and severe punishment of criminals can crime be eradicated. Also the suspended sentence law should be repealed.

TEN FORDSON TRACTORS DOING DIFFERENT WORK

L. P. Barker Co. Announce Demonstration Here July 16, By Factory Experts

Announcement is made by L. P. Barker Co., local agents for Fordson tractors, that a demonstration will be held Saturday, July 16, at the W. L. Harrington farm, two and a half miles northeast of Plainview.

The demonstration will be under the supervision of three factory experts and ten Fordsons will be used, doing different kinds of farm work, with various implements and attachments made for use of Fordsons, including belt work.

The public is invited to visit the Harrington farm and see this very interesting demonstration. Luncheon will be served free at noon.

Will Withdraw Troops from Germany

Washington, July 5.—American forces in Germany will be withdrawn within the next few weeks as the result of the final enactment of the Peace Resolutions, Representative Anthony, Kansas, in charge of army appropriation in the house, said today. He declared that appropriations for the current fiscal year are so limited that the War Department will be forced to return the troops within a month, or violate the Borah amendment to the Army Appropriation Bill which prohibits the incurring of any deficiency.

"Now that the Peace Resolution is passed, the troops should be withdrawn at the earliest possible date," said Anthony.

"They have been a big burden on the American taxpayers, although the understanding was that Germany was to pay all expenses.

"The cost of the army of occupation has been about \$275,000,000.

"Germany has paid about \$30,000,000 according to my information and the balance has come out of the treasury. I will readily agree to the withdrawal of the troops."

Heavy Rain This Week

The summer rains continue, though they are injurious to the wheat and other crops that are still in the fields. Possibly one-third of the grain is yet to be cut, and lots of it is waiting for the threshers.

Tuesday afternoon and night there was a heavy rain over the county. In Plainview there was a precipitation of 2.61 inches, and yesterday afternoon another rain fell covering the county, but in Plainview it was only .06 of an inch.

Marriage Licenses

Edward Sharp and Miss Robie Lee Jackson, July 7. (Both parties live in Swisher county.)

A. F. Amerson of Hereford and Miss Robie D. Summerville of Plainview, July 7.

W. C. Maples and Miss Vernon Ataway, July 7. Both live near Dimmitt, in Castro county.

Legislators Won't Visit Plains

The proposed visit of the members of the state legislature to the Plains and Panhandle, by special train this month has been called off. The railroad's refusal to make any special rate on the transportation and as the cost foots up \$14,000, and the towns to have been visited do not feel like contributing so large a sum.

Federal Tax Receipts Great

Washington, July 7.—Total tax receipts by the government for the fiscal year ending June 30, were \$4,593,933,248, of which \$3,212,713,489 was derived from income and profit taxes, the bureau of internal revenue announced today. The statement was based on collectors telegrams of June 30, it was said.

Alvin Howell Dies

Alvin Howell, age 20 years, died Friday night at the home of his parents, Mr. and Mrs. J. W. Howell, in Sixth Ward addition. Burial was in Plainview cemetery Saturday. Rev. Harlan J. Matthews officiating. The family recently moved here from Snyder.

Many Harvest Workers Here

Hundreds of men from other sections of the state have come to the Plains to work in the harvest, in fact there are more laborers here now than are needed.

Allison Chambers left this morning for St. Paul, Minn., to attend the national convention of window decorators. He will stop in Chicago for several days while en route there and on his return visit in Missouri.

Hale county is assured of a bumper crop. This means an abundance of feed for the live stock, and a lot to sell to other sections of the country.

MANY DEATHS FROM HEAT ARE REPORTED

Scores of Prostrations and Fatalities Caused By Intense Heat

Intense heat throughout the entire United States today caused many deaths and prostrations and inflicted severe damage to crops.

From one coast to the other, sweltering heat waves were reported, with the season's mercury altitude records shattered and little relief in sight.

On the Pacific coast a trade wind brought down the mercury from record of 106, in Fresno and 104 in Sacramento.

Pittsburg reported ten deaths this week, and other parts of Pennsylvania nine others.

New England had scores of prostrations.

Wheat and oats crops in northern states received serious damage. Ohio and Illinois are in the throes of the year's worst heat wave.

Texas is experiencing the hottest weather of the summer. Canada was not spared, the mercury registering close to 100 degrees in many sections.

Will Take Referendum Vote

Chicago, July 5.—The membership of 16 railroad labor organizations, including the big four brotherhoods will decide through a referendum vote by September 1, whether to accept or reject the 12 per cent wage reduction that went into effect on railroads throughout the country July 1, it was decided tonight by the chief executives and 1500 general chairmen of the organizations.

The general chairmen decided that they could not assume responsibility for the wage reduction that was ordered by the United States Railroad Labor Board.

Visits of the Stork

Born to Mr. and Mrs.:
Thos. J. Lambert, Plainview, Jun 20, girl; named John Franklin.
Ernest Herbert King.
Pete Duran, Plainview, June 2, girl; named Florenca. (Mexican)
Lee Savage, Plainview, June 2, girl.
Lawton L. Brown, Plainview, June 24, boy; named Jackie Hancock.
Horace G. Craig, Plainview, July 5, boy; named Horace Cecil.

Freight Train Wrecked

Wednesday night freight train was wrecked on the Santa Fe near Justiceburg, and nine cars were thrown from the track, several of them being filled with wheat, which was scattered about.

The morning train from the south yesterday was six hours late and the afternoon train about three hours late.

Mrs. M. M. Harlen Dies

Liff Harlen returned this morning from Cameron, where he was called to the bedside of his mother, Mrs. E. M. Harlen, who died Monday at the old home at Point Comfort, near that place. She was eighty-two years of age, and leaves five sons and two daughters. Her daughter, Mrs. J. J. Barton, of this county, was also with her when the end came.

Rain Damaging Wheat

J. J. Simpson was in the News office this afternoon, and reported that the rains are damaging wheat considerably. The wheat is now very ripe and the husks are very thin and rotting fast, and this will cause the grain to shatter badly. The rains this week will delay the harvest ten days, he thinks.

Tulia Has Three-Inch Rain

Tulia, July 7.—About three inches of rain fell here last night and yesterday afternoon. It will seriously hamper the harvesting for several days. The rain was general over the county and will be of some benefit to the maize crop and the grass.

Making Pews for Aiken Church

The O. Z. Planing Co., F. E. Offlighter, manager, of this city is manufacturing the pews for the new church under construction at Aiken, ten miles east of Plainview. There are twenty-eight long benches, and they are being built after the latest patterns.

Confederate Veterans Elect Officers

At a meeting held at the court house Saturday afternoon, John Freeman Neal was re-elected commander, F. M. Wells, first lieutenant, and I. L. Thomas, adjutant.

A. Lilywroth went to Abernathy this morning. He is remodeling the residence of H. C. Von Struve, east of Abernathy. Mr. Von Struve, who is American consul in Venezuela, is home on a vacation. He thinks he will possibly be sent to Sweden soon.

James Barker will leave next Friday for a visit with his son in Coleman.

PRESIDENT OBREGON GREETES DELEGATES AT CHAPULTEPEC

CLOSE UP VIEW OF THE MAN WHO MEANS MUCH TO MEXICO

City of Mexico—This morning I attended a reception of the delegates to the International Commercial Congress, given by President Obregon at historic Chapultepec Castle and it was indeed a very inspiring occasion. In addition to our own party there were delegates from all the countries of Central America, Cuba and other West Indian Islands. I was shown through the castle by a guide today, and a description of the castle and its environs will appear in another article.

This morning was one, with the sun over the city after night. The atmosphere and thirty miles seems hardly and Ixtacchihuatl among the peaks high in the small column it has a that new ley is of the sev. cross-t church City the rain sh

One billion dollars is being hoarded in this country—hid in the ground, stored in boxes, jars, stockings and secret places, says Postmaster General Will H. Hays. It is needed to sustain the business of the country, Mr. Hays is trying to get it back in circulation, where it can be of use. He wants it deposited in the post-savings banks, and urges congress to decrease the interest rate and shorten the time of withdrawal. A bill for a great sum of money, if it were in circulation it would put the industry grinding and pay the people at work, the great Moral Guilt of our country has been accused of.

"CUT TO THE BONE"
 In the fact of tightened credits, moneyless markets and industrial depression simple justice to the taxpayers demand that we practice economy. As long as we have no market for our cotton, our stock, our farm products, no banks from which to borrow money and no money with which to pay taxes, I am going to see to it to the extent of my authority, that the government is run upon the same economical basis that necessity prompts those to live whose tax money support the government. This is no time to launch new enterprises. Every dollar possible should be saved the people: No tax burden not absolutely necessary to the running expenses of the government and the maintaining of its institutions should be laid upon the people: I am in favor of cutting governmental expenses to the bone.—Governor Neff.

The Ideal Thresher Provides

Larger Capacity—The Rumely Ideal thresher has the capacity for handling an unusually large amount of grain within a given time because you can keep the job running continuously.

Greater Grain Saving—The Ideal thresher has been a most consistent performer over a number of years in threshing absolutely clean any kind of grain—headed, bundled or loose rakings.

Cleaner Work—The extra large chaffer area, the adjustable sieve in the shoe and the Ideal system of wind control guarantees a perfect job of cleaning without waste, under every condition.

Stronger Construction—The Ideal frame has no spliced or bolted members—it is practically a one-piece job—sills, posts, deck rails, straw sides. It simply can't pull apart or sag.

No Vibration—In the Ideal the cylinder is perfectly balanced and all moving parts are counterbalanced. This makes for steady, smooth running and eliminates harmful vibration, minimizes wear on the bearings, preserves alignment of shafts and greatly lengthens the life of the machine.

Easier Operation—All bearings, cone adjustments and regulation of the blast are on the outside of the machine, also all oil and grease cups, where you can take care of them even while the Ideal is running.

We can offer you a choice of five sizes—22x36 up to 36x60.

ENROLL NOW

Young women are now filing their applications with the Temple Sanitarium Training School for Nurses for entrance in the June class.

If you are a young woman of average intelligence, physically strong and of good moral character, we are interested in you. If you wish to earn your own livelihood; if you care to receive a training that leads to a profession much in demand, we wish to advise you to become a nurse. The nursing field is broad, and the demand is far greater than the supply.

When you are a graduate of The Temple Sanitarium Training School you are assured of a place in the nursing profession. Board and tuition free, with a monthly allowance while you are receiving your training. Write today for illustrated booklet. Address Miss Wilma Carlton, R. N. Supt. of The Temple Sanitarium Training School for Nurses, Temple, Texas.

CYLINDER GRINDING

We do cylinder and crankshaft grinding by the same method as used by factories. And with accuracy and finish second to none.

Don't put new pistons in your motor without having your cylinders reground. You will then have new true cylinders.

If we grind your cylinders and fit your pistons you will get the same life and efficiency that you would get from a new motor.

Remember that grinding is the only method used successfully today to finish fine machine and tool work. Our new prices on this work will interest you.

HAWAIIAN RACE BEING REBORN

Infusion of Foreign Blood Reinvigorates Inhabitants of the Island.

KOREANS REFUSE TO MIX

Analysis of 14,559 Marriages in the Islands Reveals Some Surprises to Science—Japanese Not Most Prolific Race on Island.

Honolulu, T. H.—The Hawaiian race, which with the Polynesians in general, has been regarded as a dying people, is being reborn and reinvigorated by infusion of alien blood, according to statistics just compiled by Louis R. Sullivan of the New York Museum of Natural History now attached to the Bishop museum in Honolulu.

Mr. Sullivan has just completed analysis of 14,559 marriages in the islands, selected at random, and his findings in some cases have been surprises to science.

According to the tables, more American men in the territory marry women of blood foreign to their own than marry American or British women. The Japanese are not, as has been supposed, the most prolific race in the islands, but are surpassed in this regard by Portuguese, Porto Ricans, part-Hawaiians and Spanish. Of American women, more than one in every six living in the islands marry Hawaiians, part-Hawaiians and others of blood strange to their ancestry. Of all the racial groups the Korean women represent the only one which refuses to mix blood, not a single case of a Korean woman marrying a man other than a Korean having been discovered.

A New Racial Group.

As a whole, the tables indicate, the part-Hawaiian group has a tendency to consolidate, rather than scatter, since of Caucasian-Hawaiian males who marry, 32.7 per cent marry back into the full-blooded Hawaiian strain, while only 13.8 per cent take white wives, and the remainder, either in-breed among their own kind or marry at large. Of Asiatic-Hawaiian males, 43.6 per cent marry back into the Hawaiian strain, only 1.3 into the Asiatic strain and a negligible proportion into the Caucasian strain.

The result, so far as the Hawaiian race is concerned, is said to be a new racial group, fecund to a high degree, still abnormally susceptible to civilization's diseases, but with much higher resistant powers than the old Hawaiian stock and visibly adding to its numbers.

While the women of Korea lead all other males and females of the islands in marrying within their own race, there are other groups which are a close second in this respect. Only 0.3 of one per cent of Japanese women contract out-marriages, or unions with men of other races, while 0.7 of one per cent of Japanese men so pick their mates. The percentage for the Chinese is 6 per cent for the women and 41.5 per cent for the men; American, 17.9 for the women and 51.7 for the men; Portuguese, 32.3 women, 13.0 men; Hawaiian, 40.5 women, 19.5 men.

Pure Stock Dies Fast.

The pure Hawaiian death rate is the highest in the islands, 13.48 per thousand annually, although the pure Hawaiian birth rate is nearly twice as high as American, British and other whites.

Scientists recognize that susceptibility to diseases of civilization is responsible for the disappearance of the pure Hawaiian race, but the figures just made public by Mr. Sullivan are the first to show that the intermarriage is rebuilding the old race into a stronger, more hardy people.

BRITISH TO PUSH COLONIZING

Plan Being Made to Settle Undeveloped Parts of Empire as Defense Measure.

London.—The government is to hold a conference with representatives of the dominions to formulate a policy of promoting the settlement of British colonists in new and undeveloped parts of the empire.

This plan is intended to serve the double purpose of distributing the population of the United Kingdom so as to populate the empty spaces of the empire and insure that the additional population of these undeveloped territories will be British both in birth and spirit.

By these means it is hoped to provide for the defense as well as the development of the empire and to reduce the surplus of women over men in the population of the United Kingdom.

Could Not Get Central.

Castle, N. Y.—A country school teacher entered a business place one day and asked to use the telephone. A pencil sharpener was fastened to the shelf on which the telephone stood. She cranked the sharpener and took down the receiver. Getting no reply, she repeated it several times. Turning to the clerk, she said: "That's the reason I have never had a telephone installed in my house. You can't get service."

"Just turn the crank on the bell box that was a pencil sharpener you were using," suggested the clerk.

that she is unable to move about or do any work and is of no use or benefit to him and is of no value. That under an agreement made between plaintiff and defendant, defendant was to purchase all of the horse colts received from said mares at the stipulated price of \$500.00 each when they were yearlings. That at the time he purchased said mares, defendant represented to him and guaranteed that said mares were in fold by a \$10,000.00 stallion, that such statements and representations were false and untrue and that said mares were not in fold, all of which was well known to the defendant.

That said false and fraudulent representations were made by the defendant for the purpose of inducing this plaintiff to purchase said mares, that said statements were false and untrue and were known to the defendant to be false and untrue when he made them; that they were material and were relied upon by this plaintiff and were made in Hale County Texas. That plaintiff would not have purchased said mares had it not been for the warranties that they were sound and in good health, that they, and each of them, were with colt by a \$10,000.00 stallion. That plaintiff here tenders back the said mares and demands possession of said three notes, that if the defendant has sold said notes or does not surrender them in the court, he prays for judgment in the sum of \$1500.00 for damages; that said mares are not worth more, and their market value is not worth more than \$600.00, wherefore, he has been damaged in

sum of \$1500.00 aforesaid and plaintiff prays that defendant be cited to appear and answer herein, that he have judgment cancelling the said three notes, that defendant be required to surrender them in this court for such purpose, that if he fails to do so, he have judgment for \$1500.00 and for all costs in this behalf expended and for such other and further relief, in law and in equity, to which he may be entitled.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court, in office in Plainview, Texas, this, the 28th day of June, A. D. 1921.

His Ham and —

J. M. Adams, plutocratic editor of the Plainview News and now touring Mexico, writes from Mexico City that when he sat down in a restaurant there and ordered a glass of lemonade, the waiter nodded affirmation of the order and a little later served him ham and eggs. Jess says his Mexican enunciation must be very poor.

No, there is just one of two things strangely apparent. One is that if Jess had ordered a sure-enough beverage befitting the surroundings those Mexicans would probably have served him with the whole hog and a half-dozen frying size.

The other is that they took it for granted that an hombre from the land of mananas who came down into Meixco where love, liquor and laughter were all as free as the wind that blows and ordered a thin lemonade was nothing but a rube at best and would appreciate the thoughtful service if provided with ham and—Canadian Record.

Civic League Met
The Civic League met Wednesday at 3 o'clock. A small crowd was present, but reports from the various committees were read and adopted.

Following the meeting the Library Board met at 4 o'clock. The new officers were in their places. There was a large number of books ordered and a good report from the treasurer was read.

Will Give Morning Party
Mrs. C. C. Gidney, Mrs. J. O. Wyckoff and Mrs. George Wyckoff will entertain wit ha morning party at the Gidney home next Tuesday.

Miss Dell Speed, Bridesmaid At Duluth Wedding
Miss Dell Speed of Plainview was bridesmaid at the wedding of Miss Edith Lucille Kelley to Mr. George Oliver Watson, which took place at the home of the brides parents in Duluth Minn., Tuesday, June 21. The bride and Miss Speed were mates at a college in New York.

The Duluth Herald publishes several columns relative to the wedding including pictures of the bridal party. It says: "A Southern girl, Miss Dell Speed of Plainview, Texas, was the bridesmaid. She wore a becoming gown of pastel blue georgette crepe. The neck was cut round and the sleeves were elbow length. Iridescent beads were the only trimming. Her hair was styled in waves and she sported with narrow ribbons of pink and blue."

Miss Speed is now visiting a college friend in Davton, Ohio, and is receiving many social courtesies.

Rotary Club Has School Trustees as Luncheon Guests
At its weekly luncheon at noon Tuesday the Rotary club had as its guests members of the school board—Trustees Mrs. L. L. Dye, C. S. Williams, M. J. Baird, C. A. Pierce and Secretary John P. Sander.

Members of the board outlined the plans for the coming term of the school and told of its financial condition. There was a general discussion of how the club can co-operate with the board in the promotion of the interests of the public schools of the city.

Local Elks Club
The local Elks held their Fourth of July dinner Monday and Tuesday. There was a program which began at 4 o'clock Monday morning, and after dancing until 8 o'clock breakfast was served at the Cozy Cafe.

Monday night there was a dance, at which many society people from other towns in this section were participants in addition to local people. Frank's Fussy Four of this city furnished the music.

The favors were B. P. O. E. Hats and red, white and blue canes.

New Era Club
The New Era Club will meet Monday afternoon at 3 o'clock at the Methodist church.

All members are urged to attend and assist our treasurer in her report by saving the yearly dues.

Those who fail to hear the good lecture at each meeting by Dr. Israel are missing a great deal.—Reporter.

Entertain for Mrs. Pillar
Madame T. A. Knight and Robert M. Malone entertained this afternoon, complimentary to Mrs. Josephine Keck Pillar of St. Louis, who is here visiting her parents.

The afternoon was spent playing bridge, after which iced punch and angel food cake were served.

Kiwanis Club Hears Report of National Delegate

The Kiwanis club at its noon luncheon today had a very large attendance, possibly the largest in its history.

THE U. S. CHAIN TREAD

One of the few tires of which it may be said that they deliver economy year in and year out and tire after tire.

The U. S. Chain Tread gives sufficient traction on all ordinary road surfaces. It is probably the handiest, and by all odds the most popular, of the whole U. S. Fabric Tire line.

They pay a net price—not "something off list" that may not mean anything in the first place.

They get fresh, live tires, being made and shipped while this message is being written.

No matter where they live there's a nearby U. S. Dealer with his nearby U. S. Factory Branch.

U. S. Tires keep moving.

No opportunity to get old and dried out. No shifting here and there trying to find a market.

Every U. S. Tire a good tire, wherever you find it anywhere in the country.

Because the U. S. policy is a good policy that serves the car-owner all the time.

Doing the very best for him that human good faith can do.

United States Tires are Good Tires

U. S. CHAIN TREAD

U. S. NOBBY TREAD

U. S. ROYAL CORD

U.S. RED & GREY TUBES

...ut every on leaving things getting real economy a big difference.

Many a car-owner has come to U. S. Tires because he couldn't afford to keep on paying that difference.

Probably seven out of ten users of U. S. Tires came to them only after they'd had enough of "discounts", "bargain offers", "clearance sales of surplus stocks" and other similar appeals.

They have found economy—and they stick to it.

...ough and ... dressing has ... dentally with ... demand for ... chical knowledge im- ... concentrating mill operators ... constant diminution in grade ... metallic ores available for exploita- ... tion. In the old days of high-grade ... ore deposits no special knowledge was ... necessary to make a profit out of the ... treatment of the ores mined.

"According to W. G. Swart, mining and metallurgical engineer of Duluth, in an article written for Engineering Foundation, which is fostering industrial research on a nationwide scale, each year there are consumed in the United States about 75,000,000 tons of iron ore. Known deposits meeting this requirement are being rapidly depleted. The economic utilization of low-grade ores is the solution of this problem."

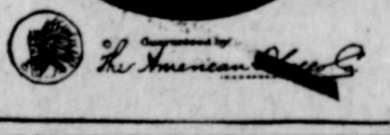

"To treat the present-day, low-grade ores at a profit requires the handling of enormous tonnages on a very small margin of possible gain," Professor Taggart continued. "The successful initiation and direction of such projects call for the highest scientific knowledge and engineering skill. Since no two problems of ore treatment are alike, training in the subject properly takes the line of a thorough grounding in fundamental principles, with each lesson pointed, where possible, by an experiment with a typical piece of mill apparatus. Such training for the general student in mining and metallurgy fits him for attack on the usual concentrating problems that will arise in his engineering experience."

Intensive Training.
"The man who plans to be a specialist in ore treatment needs more intensive training. This may be obtained either in the field or in school, but such a man will save time if he does part of his preparation in a school where the experience of an instructor is available for direction of his efforts and help in his difficulties. For such a student intensive research into some difficult and, preferably, slightly explored field is the best of all training."

"His calls in later work will mostly come only because others have failed in the solution of the particular problem, which usually means that it is new and difficult. Hence, his training must teach methods of attack and aid the development of the student's imagination, initiative and analytical ability. Research as outlined will do this or it will make evident the lack of such qualities, without which successful specialization is impossible, and thus save much labor and disappointment."

One Bullet Hits Two Deer.
Swanney, N. H.—After Marshal Hill had fired at a large buck deer and had supposed he had missed, he learned he had killed two deer with a bullet which passed through the body of a buck and entered the head of a doe.

It's toasted.

Citation by Publication

To the Sheriff or any Constable of Hale County—GREETING:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Hale if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published once each week for four consecutive weeks previous to the return day hereof, E. C. Box, whose residence is unknown, to be and appear before the Honorable District court, at the next regular term thereof, to be holden in the county of Hale, at the Court house thereof, in Plainview on the 1st Monday in August, A. D. 1921, the same being the 1st day of August, A. D. 1921, then and there to answer a petition filed in said court, on the

27th day of June, A. D. 1921, in a suit numbered on the docket of said court No. 1963, wherein Lillie Box plaintiff, and E. C. Box is defendant. The nature of the plaintiff's demand being as follows, to-wit:

THE STATE OF TEXAS, COUNTY OF HALE.

In the District Court of Hale County, Texas, August term, 1921.

To the Honorable District Court of Hale County Texas:

Now comes Lillie Box, hereinafter called plaintiff, who resides in Hale County, Texas, complaining of E. C. Box, hereinafter called defendant, whose residence is unknown to the plaintiff, and, praying for a divorce, for grounds says:

1. That on or about the 15th day of December, A. D. 1909, plaintiff was duly and legally married to defendant at Martha, State of Oklahoma, and continued to live with him as his wife until on or about the 20th day of November, A. D. 1920.

2. That plaintiff has been an actual bona fide inhabitant of the State of Texas for a period of twelve months, and has resided in the said County of Hale, where this suit is filed a period of six months next preceding the filing thereof, having become an inhabitant of said state on or about the 16th day of September, A. D. 1911, and as resident of said county on or about the 1st day of September, A. D. 1920.

3. That at all times, while married to the defendant, plaintiff has conducted herself with propriety, doing her duty as a wife, has at all times treated defendant with kindness and forbearance, and has not been guilty of no act bringing about or causing the hereinafter described acts, omissions and conditions on defendant's part.

4. Plaintiff further shows to the court that she is modest and a lady of refinement and that the defendant represented to plaintiff that he was a man of refinement and culture and caused this plaintiff to believe such representations and induced plaintiff to marry him, and that said represen-

tations so made by the defendant were false and fraudulently made. That, for about four years, during the time plaintiff and defendant lived together as wife and husband, the defendant did pretend to preach at various places during said time; afterwards, many times since, the defendant has been guilty of gambling, playing cards, etc. That defendant disregarding the solemnity of his marriage vows and his obligations to treat plaintiff with kindness and attention, shortly after the defendant quit attempting to preach, he commenced a course of unkind, harsh and tyrannical conducts towards plaintiff, which continued, with very slight intermissions until she finally separated from him on or about November the 20th, 1920. That on divers occasions, while plaintiff lived with defendant as aforesaid, he was guilty of excesses, cruel treatment and outrages towards her of such a nature as to render their living together longer, as wife and husband, insupportable. That on or about June 1919, defendant cursed and abused this plaintiff and called her various kinds of names and again during June 1920 the defendant cursed and abused plaintiff and called her various bad names because she wanted to come to Plainview with her sister, who was to be operated on at the sanitarium at Plainview, Texas. And that it would have been convenient for plaintiff to have come to Plainview with her sister at said time as she lived only a short distance from Plainview; and that since that time, of June, 1920, the defendant had thrust on plaintiff a series of studied vexations and deliberate insults, which continued until on or about November the 20th, 1920, when this plaintiff was forced to leave the defendant; and that on November the 20th, 1920, the defendant again cursed and abused this plaintiff and made threats against her, all of which were humiliating and very injurious to plaintiff's health as well as to her feelings and physical strength. That defendant is a man of violent passion and ungovernable temper and is overbearing, which

makes it impossible for this plaintiff to live with him as his wife.

5. Plaintiff will further respectively show this court that the defendant is a very large man, stout and healthy and that he has failed and refused to provide for plaintiff as he should have according to his circumstances and financial ability. That plaintiff has had to work hard and that during the fall of 1919 this plaintiff put in the wheat crop and made a steady hand in the field, while he defendant was out loafing and idling around at various times did nothing but gamble. That in consequence of the cruel and inhuman treatment above mentioned, together with the threats aforesaid and such brutal outrages conducted toward her, and together with the neglect and refused to support her the plaintiff was forced to leave the defendant and seek employment elsewhere so she could care for herself without being further disgraced by the association with this defendant.

6. Plaintiff further shows to the court that before her marriage to the defendant that her maiden name was Lillie Watts and she especially asks the court to decree her maiden name.

7. Wherefore plaintiff prays that defendant be cited to appear and answer this petition. That on final hearing plaintiff have judgment dissolved the marriage between plaintiff and defendant and granting her an absolute divorce; and plaintiff especially prays the court that her name be changed to Lillie Watts; and for such other and further relief as the court shall think proper to grant, or as plaintiff may be entitled to, either at law or in equity, and for costs of suit.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same. Given under my hand and seal of said court, in office in Plainview, Texas, this, the 28th day of June, A. D., 1921.

W. D. DARBY,
Clerk District Court, Hale County, Texas.

SWINDLERS NET NEAR MILLION

Atlanta, Long Messa for Slippery Gang of Crooks, Starts a Cleanup.

MURDER IS PART OF GAME

Bankers and Business Men Among the Victims Lured From Many States—Raid Reveals Bogus Brokerage Offices—Police Accused.

Atlanta, Ga.—That a dupe is born every minute and that no scheme is so fantastic that it does not find some one—hard headed business man in many cases—to fall for it, has been proved to the satisfaction of everybody in Atlanta through revelations made during the hearing by a council committee of the activities here of a million dollar bunco gang, who operated, it is charged, either with the connivance or through the colossal ignorance of the police department.

The hearing also has proved that no section or locality is exempt from its crop of dupes. Men with money to contribute to the support of the gang that operated in Atlanta have come to this city to be fleeced from Reading and Philadelphia, from Maryland, Mississippi, Georgia, Tennessee, Louisiana, Florida, Ohio, Indiana and Texas. Indeed, Texas was very good to the Atlanta seekers for easy money. Especially was one W. R. Manning, a dapper young man of Dallas, Tex., kindly disposed to the con men.

And it has been shown that when money is at stake even murder is not too high a price to pay in order to keep it and retain liberty. Here is the death roll of Atlanta's bunco gang:

Doctor Blanchard, son of a former governor of Louisiana, who committed suicide in Memphis after losing his roll.

W. C. Dukes, banker of Milan, Ga., who came to Atlanta to confer with the gang by an easy money proposal and mysteriously disappeared.

Ed Mills, member of the gang, roommate of Floyd P. Woodward, alleged leader, who was shot and killed by Woodward because, it is alleged, Mills was tipping the police off to the operations of the gang.

Charles Dorsey, taxicab driver, who, it is said, knew too much about the Mills killing.

Ruth Gabel, another witness, was disposed of when Woodward married her.

Left Their Rosy Hopes Behind. Here is a partial list of the men who came to Atlanta with rosy hopes and who left—if they were able to get away—heartbroken and pockets empty:

W. D. Hill, an aged Confederate veteran, former ordinary of his county at Clarksville, Ga., who lost about \$2,000.

J. A. Nations of Asworth, Ga., who lost \$3,500 at the Cecil hotel here in a game that was framed by Mark Tillery, recently captured in Texas, brought back to Atlanta and turned over to Solicitor John A. Boykin. Tillery was reputed boss of the local game at one time.

W. R. Manning, from Dallas, Tex., lost \$7,000.

George W. Wiley of Whitehall, Va., lost \$10,000.

D. R. and W. M. Bland of Drew, Miss., who contributed \$10,000 to the game.

M. S. Holley of Aiken, S. C., lost \$11,000 and would have lost more had he been able to get checks cashed, but a banker friend tipped him off just in time to keep him from losing \$50,000 more. This was a stock deal, in which his supposed winnings had run up in the hundred thousands.

C. T. Madeira of Reading, Pa., who lost \$27,000, at one time had a big apparent winning, but in the end the paper profit disappeared and he went back to Pennsylvania sadder but maybe wiser. In this deal one of Atlanta's best-known citizens aided the operating gang.

One comparatively old man came to Atlanta from Indiana, lost his money and is still here. His story was one of the many already told during the four weeks of investigation of the easy money syndicate of Atlanta.

Then there was an Ohio banker who came to this city, fell in with smooth talkers and attempted to get checks cashed for approximately \$30,000, but all the gang got him for was \$2,000.

Chicago Man Involved. There is the case of Albert H. Thompson of Chicago. Thompson is being sought on a larceny charge and it is thought that he is in Cuba. Solicitor John Boykin refuses to divulge for the present the details.

Thompson's indictment was a surprise, for his wife was known to be wealthy. The Thompsons have a fine home in Asheville.

More than one hundred indictments have been returned.

The situation was first called to the attention of the public when John Boykin, solicitor, made an address at a forum luncheon of chamber of commerce members. He charged that the situation was known to police officials and others in authority.

Recently there was a demand in court for an investigation and Mr. Boykin agreed to appear before this body. A mass meeting of 1,000 Atlanta citizens was held and money was raised to finance the solicitor's charges.

Eugene R. Black, one of the city's best lawyers, was engaged to represent Mr. Boykin.

It has developed that the chief of police and the detective chief have clashed. On one occasion when the chief of police was wiring to a Florida point trying to get a confidence man the chief of detectives was wiring that the man was not wanted in Atlanta, although he was under indictment at that time. It was also charged that a detective for several years had received \$200 a week to allow a notorious blind tiger to operate unmolested.

The raids started as a result of the fleeing of Holley of Aikin out of \$11,000. He and a companion made a noise that all Atlanta heard. Officers were sent to see him, and he and his companion hid a trap for Abe Powers, the alleged steerer in the game. The detectives told them to go on out and meet Powers and they would follow. That was about the last they heard of the detectives, but they met Powers by agreement and seized him. A passing policeman was hailed finally and Powers went to jail.

Then started a search for the headquarters of the gang. The detectives the next day were piloted to the building in a downtown locality, where the South Carolinians said they had been robbed. But search as they might, the officers could not find the room.

Raid Reveals Broker's Office. The next day they appealed to the solicitor and he led a personal raid of the building. The room was found at once and he seized all the paraphernalia. The place was fitted up with all the elaborateness of a stock broker's office in New York. There were blackboards, fake telegraph instruments, fake money, and everything else needed. It looked like there was all the money in the world there, but investigation revealed that only the cover bills were good. The rest was green paper.

That was the beginning. Within the next few days the solicitor raided three places operated by the gang. In one case using axes to break in. In this place were found all the instruments needed for marking cards, crooking dice; fake money, several hundred dollars of real money in the safe; crap tables; and before the night was out many visitors, who had been taken into custody had to tell what they knew or go to jail.

The raids were followed by many prosecutions. The gang had seen that the jig was up and most of them had disappeared. Gradually they are being rounded up and brought back to Atlanta. Abe Powers and eight of his confederates have been sent to the penitentiary, but carelessness at the prison farm was utilized by Abe Powers and he is at large again. Many others are under arrest and some have given bond. Among those indicted and soon to stand trial will be Ira Fort, who was mixed up, it is said in the Madeira swindle. A feature of this prosecution is found in the fact that the solicitor himself has offered big rewards for the capture of the various "con" men, and paid some of them.

The search continues the country over for Floyd P. Woodward. He is held up as the "Master Mind" of the gang. Since his escape he has written a letter back to Atlanta in which he charges that he had paid out \$2,000 as a bribe at one time to Solicitor Boykin; had paid large sums at other times, a cut in of his receipts to Joseph Ewing, a lawyer formerly connected with Boykin's office before he became solicitor, and who, according to Woodward was the go-between for Boykin.

These charges by Woodward, the hall fellow, who was friendly with everybody in town, went hunting with Chief Poole, gave diamond rings and phonographs to courtiers and dispensed money with a liberal hand, have given the police a clue to hit Boykin. So they charge that Boykin knew as much of the operations of the gang as they did, or more.

One feature of the investigation has been the charge made by Joe Ewing, lawyer, that Councilman Al Martin and Floyd P. Woodward ran one of the "dens" together; Martin for whiskey and Woodward for gaming; and that at this place hundreds of gallons of liquor had been delivered by a young man now in Birmingham. Another allegation was that Aldine Chambers, who led the campaign in Georgia for Palmer when he was seeking the presidential nomination, had worked to recruit the gang by getting men out of the federal penitentiary for this purpose.

Texas Victim Gets Angry. There is the case of young Mr. Manning of Texas, who started out in his testimony before the committee very bravely, but wilted toward the end under a rapid fire cross-examination.

Manning had told his story. He had asserted that Chief of Detectives Lamar Poole and Lieut. Shaw had permitted swindle operators to escape after he had furnished information that should have resulted in their capture.

Then he was confronted suddenly with a letter signed W. R. Manning, in which an offer was made to drop all prosecution of the swindlers concerned provided that they would return his money. He vehemently denied that he had written it, branding it a forgery.

During this cross-examination he repeatedly contradicted himself; lost all his sang-froid, became angry and offered to make it a personal matter with one of the lawyers for the defense.

He told the committee that he missed his train in Atlanta and that as his wife was visiting her people and there was no room for him there he decided he might as well remain in Atlanta. He declared he had been picked up at

Babylon Had Rent Woes 4,000 B. C., Bulletin Says

Washington.—The modern head of a family who must move or worry about rental rates and leases may think Americans are alone in having such troubles.

But, according to a bulletin issued from the Washington (D. C.) headquarters of the National Geographic society, families are having similar tribulations whether in Japan, Persia or England, and have had evictions and harsher penalties hanging over them since men wrote on clay tablets 4,000 or more years ago.

"The very earliest records of daily transactions that have been found, the clay tablets on which were written the contracts of Babylon 3,000 and 4,000 years ago, show that the renting of houses was a flourishing business among the landlords of Babylon and Nippur."

The Union station by bunco steerers who had conducted him to the Ansley hotel, and how they had become very warm friends. This steerer, he said, was Clyde Smith, who said he was a representative of the Harry Payne Whitney company.

In his story a fake telegram from Harry Payne Whitney of New York was described. According to his narrative the gang had two exchanges. One was No. 2 in a downtown spot, and the other was supposed to be the Capital City club (Atlanta's swellest). But somehow the bunco victims were always steered to No. 2 something always coming up to bar a trip to exchange No. 1.

TINY PLOT: \$3,500,000 RENT

Manhattan Was Bought for \$24; Now Thirty-One Feet Bring Huge Rental.

New York.—Manhattan island, once sold by an Indian for \$24 and a few drinks of firewater, has become so valuable that a tiny plot stretching only 31 feet along Broadway recently was leased for an annual rental of about \$133 a square foot. Real estate men said this was the highest figure for which land was ever rented here.

The site is at Broadway and Thirty-fourth street and extends about fifty feet along the latter. Several years ago a department store wished to buy the corner plot, having procured the land on both sides as the site of a skyscraper. But the owner would not sell, even for \$1,000,000, and the big store had to erect its home around the small building.

A four-story structure, housing on the ground floor a busy cigar store, remains on the valuable corner lot. On all sides lofty buildings rear their bulks of steel and stone. The new lessee, who will pay \$3,500,000 for rent, taxes and other expenses over a 21-year period, plans to erect a narrow skyscraper on the triangular plot. A candy-making corporation will occupy the building.

RUNNING DOWN CRIMINALS

War Department's Bureau Has Finger Prints of More Than Five Million Young Men.

Washington.—In the identification section of the War department there has been collected a mass of evidence which is expected during the years to come to play an important part in the conviction of thousands of criminals, and likewise in the exoneration of perhaps thousands of innocent men who, through force of circumstances, become objects of suspicion.

The evidence in question is the finger print records of more than 5,000,000 men whose imprints were taken when they came in contact with the machinery of the selective service organization of the War department. Scarcely a day passes that the department is not called upon by the police of various cities and towns to try to identify the finger prints of some one who has been involved in a crime or fatal accident.

The main purpose of the "identity section," as it is called, is to identify unknown dead in time of war, and to keep undesirable ex-service men from re-enlisting under assumed names.

VAPORS CAUSE AN AVALANCHE

Volcanic Disturbance Noted in Mount Adams, Oregon—Slide Two Miles Wide.

Portland, Ore.—An avalanche that suddenly plunged down the southwest slope of Mount Adams was due to hot vapors issuing from vents in the mountain side and melting the snow, according to observers in the vicinity of the mountain.

Reports reaching here were that the huge slide took a path from near the mountain's crest downward for a distance of five miles. The slide is said to be from a mile to two miles wide.

After the first coating of snow had been ripped away observers report that a gigantic flow of mud poured down the mountain over the snow and across the White Salmon glacier, finally burying itself in the heavy timber at the mountain's base.

Bite of Poison Bug Kills Man.

Cumberland, Md.—M. A. Tutweiler, age fifty, a huckster, died at his home in Kersey, W. Va., from poisoning caused by the bite of an insect while at church.

'GOLD' ALCHEMY HOAX OF BACON

For 600 Years His Writings Have Been Studied in Hope of Finding Secret.

ONLY NONSENSICAL JARGON

Science Might Have Been Much Farther Advanced Today If Roger Bacon Had Not Hidden His Knowledge in Cipher.

Philadelphia, Pa.—Alchemists who for 600 years sought to find in Roger Bacon's cipher writings the secret of turning base metals into gold were the victims of a hoax, declared William Romaine Newbold, professor of intellectual and moral philosophy at the University of Pennsylvania, before the general meeting of the American Philosophical society here.

Bacon, he contended, hid under a nonsensical jargon of alchemists terms a marvelous storehouse of scientific knowledge.

Doctor Newbold told of his two years' labor to decipher the code Bacon used.

As a result of the revelations made by the 800,000 word manuscript, scientists have declared Bacon had remarkable knowledge of mathematical systems conceived today, and had not the discoveries made by him remained unknown to others until rediscovered hundreds of years after his death, science would have been just so much in advance of its present state.

Explanation of the Cipher.

"Bacon conceived the idea of expressing every letter of a word which he wanted to write in cipher by a syllable and building the syllable into a new word," he said. "For example, if the letter 'C' is represented by 'GR', 'A' by 'AD', and 'E' by 'ED' the word 'Graded' would spell 'Cat'."

"The principle cannot be used in this way because, first, every word will be represented in cipher by twice as many letters, and second, no words can be used in cipher except those of an even number of letters. To meet these difficulties Bacon lays down the rule that successive syllables must end and begin with the same letters, doubled letters being dropped. Thus 'Cat' may be spelled in the Bacon cipher as follows: 'Go-ol-d'; dropping the double letters, one gets the word 'Gold'."

No Wonder Secret Was Kept.

"In reading the cipher you double every letter—except the first and last—and thus discover the syllables which spell the word. But it is seldom possible to find syllables which fulfill these conditions and yet spell a new word when arranged in the order of letters of the original word like 'cat', for example. 'Cat' may also be spelled 'ar-rk-da', and the syllables may be rearranged into the word 'dark', but when 'dark' is translated the word 'cat' will reappear as 'tea,' the order of the letters being rearranged. These are the principles Bacon used."

There are 484 possible combinations of the letters of two 22-letter alphabets, taken two by two. Bacon makes every one of the 484 represent a letter of his alphabet and with them spells his words in Latin in the way indicated above. He disarranges the underlying text as little as possible and it usually is still recognizable, but frequently it is disarranged so much that scholars probably never will agree as to how it should be reconstructed."

FIND MUMMY 3,000 YEARS OLD

Danes Say Dredge Shows Woman Was of High Rank—Coffin Was Oak Trunk.

Copenhagen.—The mummified body of a woman who died 3,000 years ago was found recently buried in a field in the Jutland district of Denmark and is being unwrapped by employees of the National museum.

Her coffin was the hollow trunk of an oak tree and the body was wrapped in a cowhide. She appears to have been a person of rank.

Her garments included a short jacket with sleeves and a petticoat and she wore two belts around her wrists and two bronze bracelets on her arms.

Pressed Boy's Trousers While They Were on Him

Tony Volpona, twenty-two years old, a tailor of Covington, Ky., was fined \$50 and costs by Judge Munson on a charge of assault and disorderly conduct preferred by the mother of Howard Barber, twelve years old.

The testimony showed that the boy entered Volpona's place of business and asked to have his trousers pressed.

Volpona said he caught the boy and laid him across the ironing board and proceeded to use the iron, which was warmer than he thought, causing the boy to cry with pain. In passing sentence, Judge Munson said he felt sure there was nothing malicious in the conduct of the tailor but that he was careless. The case has been appealed.

NO WILD MEN THERE

Captain Hancock Found Only Shy Indians on Tiburon.

Civilization Just Where It Stood 100 Years Ago on Coast of Southern California.

San Diego, Cal.—The island of Tiburon, off the coast of Lower California, is not infested by cannibals of the Ceres tribe of Indians, but, on the contrary, is inhabited by Indians of a very shy nature, who dwell in small grass huts on the northern end of the island. Capt. George Allan Hancock of Los Angeles, master of the yacht Veleo, just returned from a 3,000-mile cruise down the coast of Lower California and up the gulf to Santa Rosalia, thus dispates the belief that man-eating Indians wait on Tiburon for luckless adventurers or shipwrecked parties.

Speaking of his trip, Captain Hancock said:

"We cruised along the coast of Lower California to the charming little city of La Paz and then around and inside the gulf for 400 miles. We were all curious to stop at the much-talked-of island of Tiburon, on which cannibal Indians were believed to dwell. But although we went on the island grined to the teeth and looked for the warlike natives, not one showed up to greet or eat us. Though we saw traces of their habitation, crude little grass huts and other primitive evidence of their occupation of the country, we failed to make the acquaintance of any of the Tiburon people."

Captain Hancock described the pearl fishing at La Paz. Only primitive methods are used, he said, and the gems are sold to foreign dealers.

While at La Paz, the party was greeted by a party of Mexican officials who were there to confer with some Americans regarding the starting of an American colony at Magdalena Bay, the largest settlement within 800 miles south of San Diego.

The attitude of residents of sections visited by the party is to welcome American capital and American brains in the development of their country.

Years of revolution, said the captain, have left their mark on Guaymas. Here, he said, the people have been set back to primitive methods.

\$30 HORSE TIES UP TRAFFIC

Homesick Steed Blocks Trains When He Ambles Onto Railroad Bridge.

St. Louis.—"Henry, you-all shore wad headed away f'm you own feed box," Wilbert Matthews, a negro of Madison, Ill., said with a chuckle when he reclaimed his \$30 steed, which had blockaded five passenger trains and six freight trains for more than an hour, when it ambled into the Merchants' bridge, a railroad span, en route to St. Louis.

It cost the owner of the bridge \$75 to lay a board walk to get Henry off the bridge, but the incident caused amusement to more than 1,000 pedestrians and passengers.

Henry, whose home is at 819 Franklin avenue, Madison, wandered toward his old home here shortly after 5 p. m. and an hour later was discovered by John Moore, 809 Farm street, a truck walker, perched on the west end of the bridge, drinking out of the fire water barrel.

QUITS PULPIT FOR MOVIES

Toronto Pastor Thinks He Can Do More Good as Actor Than as Preacher.

Toronto.—That he will not again assume charge of a congregation in Canada after his resignation has been accepted by the Bond Street Congregational church, and that he will enter the motion-picture business as an actor if he cannot get a pastorate in the United States, is the statement made by Rev. Dr. Millar.

He has had an offer from a motion-picture firm in the United States, but has not yet accepted it.

Dr. Millar stated that he felt his character portrayals of Shakespeare were sermons, and that the Bible and Shakespeare were so inseparably connected as to characters that he could do more good in portraying life on the mimic stage or upon the screen.

Dr. Millar is a graduate of Chicago university.

Pawn Jewels for Safety.

London.—Many women are pawning their jewelry at a purely nominal figure before taking their holidays, simply for safety's sake; while many flat owners are pawning the whole of their wardrobes, owing to the activities of the holiday season burglar.

Divorce Asked by Pair Who Clashed on Meals

Mansfield, O.—Henry Lobell and his wife, Clara Lobell, have proved that a marriage between a man with a practical mind and a woman with a soul full of poetry is not an ideal match. "Senseless Jingles," Lobell called his wife's poems. He said he had to pay for having a volume of his wife's poems printed. "I got tired coming home to a can of sardines. I like a cooked meal. I had to cook 90 per cent of my meals." They are seeking a divorce.

RED LEADERS ARE TWO-FACED

Take Both Sides of the Argument to Appease the Peasants and Workers.

IN FEAR OF FARMER POWER

Bolshevik Organ Warns the Peasants That if They Do Not Support the Soviet the Resuscitated White Generals Will Return.

Helsingfors.—Recent speeches of Bolshevik leaders in Russia and the utterances of the Bolshevik press have indicated a double purpose—to appease both peasants and city workers, whose interests are very different.

This two-sided attitude is maintained, it is said, to conciliate the peasants, who form the vast majority in Russia, even at the cost of sacrificing some communist principles, and at the same time of persuading the town workers that the adoption of a conservative land policy, like the granting of concessions to foreigners, is a clever bit of tactics.

"The Last Battle."

Nikolai Lenin, the Bolshevik premier, addressing a meeting of railway workers at Moscow the other day, dwelt on "the last battle" with the peasants, whom he characterized as an uncertain factor that might swing in favor of capitalism or of the proletariat.

"The peasants helped the revolution," he declared, "but now they are tired and have swung around to a pronounced petite bourgeoisie. They might even turn monarchist."

This "last battle" with the peasants is in reality a battle of cajolement. It is a campaign to win over the land workers. The well-known journal Derevenskaja Kommuna (Village Commune) has been rechristened Derevenskaja Pravda (Village Truth) and the peasants are begged to regard it as their special paper and to make their wants known to its sympathetic ear.

Threat of "White Generals." "You must know, peasants," it writes, "that if you will not support soviet rule, tomorrow the resuscitated white generals will reappear. Only the czar can replace the Bolsheviks. You must decide for yourselves whether you want him or not."

Meanwhile the peasants are filled with relief at the substitution of a corn tax for the odious requisition and the reintroduction of free commerce.

PIN SAVES MAN FROM DEATH

Stalled Motorist Pricks Himself With It and So Keeps From Freezing.

Denver, Colo.—Just a common, ordinary steel pin was all that saved the life of John W. Fish, Wyoming representative of the Bankers' Trust company of Denver.

Fish left Laramie, Wyo., to motor to Cheyenne in an open car. A blizzard marooned him on the plains for 18 hours.

Unable to drive his car, Fish began his battle for life against the terrible drowsiness overcoming him. Taking a pin he jabbed himself constantly with the sharp point to keep himself awake. When found 18 hours later Fish was in a semiconscious condition, his feet and face frozen.

The Mountain Goes to Mahomet. Marion, Ky.—Sunday school teachers were in dismay when it was learned that the track team of the Marion high school and the rooters would not be back in time for Sunday school on "Go to Sunday School day," so the Sunday school moved over to Blackford, Ky., half way, and there the rooters and track team assembled and the services were held. The Marion Sunday schools had a 100 per cent attendance.

Cure for Toothache. Stockholm.—The Swedish Medical Journal says that toothache may be immediately cured by bending the head backward and placing some absorbent cotton with at least five drops of ether in the nostril of the same side on which the aching tooth is located. The same procedure renders extraction of a tooth painless.

Marriage Causes Reciprocal Puzzle in Relationship

Spencer, Mass.—Speaking of mix-up families. When Mrs. Catherine DeMarco and Louis Gagner were married here—

The bride became the sister-in-law of her son-in-law, John Gagner.

The bridegroom became the stepfather of his sister-in-law, Mrs. Gagner's daughter, John Gagner, brother of Louis, married the new Mrs. Gagner's daughter Jennie some time ago, therefore, his new sister-in-law is also his mother-in-law.

Another daughter of Mrs. DeMarco Gagner married another brother of Louis Gagner, who by his marriage to their mother became their stepfather.

4Notice of Sheriff's Sale THE STATE OF TEXAS, County of Hale.

WHEREAS, by virtue of an order of sale issued out of the District Court of Tarrant County, Texas, on July 7th, 1921, on a judgment rendered in said court, on the 11th day of March, A. D. 1921, in Cause No. 524-72, wherein The Farmers and Mechanics National Bank of Fort Worth is plaintiff, and Reuben M. Ellerd, John J. Ellerd, Jr., Lee Ferguson, Robert J. Clark, W. T. Johns, L. A. White, J. E. Gilbert, R. B. George, J. W. Baggett, First State Bank of Floydada, Texas, and Frederick Sodeberg, are defendants, said judgment being in favor of the said The Farmers and Mechanics National Bank of Fort Worth, and against the defendants Reuben M. Ellerd and John J. Ellerd, with a foreclosure as against all the defendants of a mortgage lien as it existed on August 6th, 1917, on the hereinafter described property, I did on the 8th day of July, A. D. 1921, at 3 o'clock p. m. levy upon the following described tracts and parcels of land situated in Hale County, Texas, and described as follows:

122 acres of land adjoining the City of Plainview on the South and in two tracts described as follows:

FIRST TRACT. A part of a survey of 80 acres, known as survey No. 4, block LM in the name of W. H. Bryan and patented to J. C. Pipkin, assignee, on November 11th, 1891, by Patent No. 251, Vol. 24, Abstract No. 553.

SECOND TRACT. A part of a survey of 80 acres, known as survey No. 5, block LM in the name of P. F. Bryan and patented to J. C. Pipkin,

assignee, on November 11th, 1891, by Patent No. 250, Vol. 24, Abstract No. 554, said two tracts comprising all that part of the W. H. Bryan survey No. 4 and P. F. Bryan survey No. 5, lying north and west of the right of way of the P. — N. T. Railway, and is the same land conveyed to Reuben M. Ellerd by R. W. Montgomery and wife, by deed dated May 28th, 1914, and recorded in Book 34, page 72, Deed Records of Hale County, Texas, and most generally known as the Reuben M. Ellerd irrigated farm.

ALSO an undivided one half (1-2)

interest in and to lot No. 8, in block No. 30, in the city of Plainview, Hale County Texas, as laid down and described on the map or plat of said city, which map or plat is recorded in Book 118E, page 374, Deed Records of Hale County, Texas, and notice is hereby given that on the 2nd day of August, A. D., 1921, being the first Tuesday in said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said date, at the court house door of said Hale county, in Plainview Texas, I will offer for sale at public auction for cash, all the right, title

and interest of the said defendants and of each of them, in and to said property.

Witness my hand this, 8th day of July, A. D., 1921.

J. C. TERRY,
Sheriff, Hale County, Texas.

The deposits in the Hale county banks are growing rapidly. Wheat is king and means a big lot of gold for this section.

O. O. Dick, driller at an oil well near Clarendon, was killed in an accident Tuesday.
