SWEETWATER, TEXAS, TUESDAY, JULY 18, 1913.

NO. 67

## \$35,000 Federal Building for Sweetwater

### CONSTRUCTION TO BEGIN SOON

Through the energetic efforts of the Sweetwater Chamber of Commerce and upon certain pressure brought to bear upon Congressman Smith and others, the good news reached us this morning that the House Committee in Washington has passed the appropriation bill and had recommended a \$35,000.00 Federal building for Sweetwater. As a matter of fact the bill will have to go through the House again, however it is generally accepted that when a bill has passed the special appropriations committee that it certainly is never doubted.

Secretary Thomas F. Hodge is keeping the public advised of the progress of the bill and it is reasonably expected that the final will be given out in the next few days. It may be a matter of several months before the government as Washington will leave the construction of the building, but it is understood that strong influences will be used to get the work started in the very early future.

Try the Journal this month, 25c

Tires, nearly all makes, and the price is right at Guy Morris.

#### Chamber of Commerce Leases Tabernacle

Since the Services at the Tabernacle have been completed it was thought that it would be a good move for the Chamber of Commerce to make some preparations for the entertainment of the Cowmen, who will gather here in September. With this in view secretary Tom Hodge, has leased the structure and will use same for the benefit of the Chamber of Commerce. Public speaking and other matters may be arranged for by the energetic secretary, who is always anxious to add to offers of the Chamber of Commerce.

#### Notice

If you want some desirable lots close in, a dwelling, a section of land within 3 miles of Sweetwater at \$3.00 per acre, or some good farms call and see Wight & Harp.

Try the Journal this month, 25c

#### Big Rabbit Dime Yesterday.

One of the most successful drives for Cotton Tails and Jacks was pulled off yesterday on the Bert Trammell property, east of town, about 50 guns taking part. It is reported that more than 400 Jacks were slain, a few cotton tails and one wolf. One man was slightly injured and returned to the city for repairs. A fine dinner was enjoyed on the grounds, and the only thing that surprised us was the report that one man had killed a jack at 15 yards. Proof was offered.

#### Blanton Tac Tics

We quote from the six-page booklet containing the third platform of Thos. H. Blanton, candidate for Congress from this district: "I have pitched my campaign upon a high plane, and shall keep it there."

A little further in the same document appear what purports to be an endorsement of a candidacy signed by certain of the members of the district of which Blanton is a candidate.

In view of the affidavit following, the genuineness of these endorsements may rightly be seriously questioned.

June 26, 1913.

We, the undersigned citizens and voters of Stephens County, Texas, have noticed our name to a statement which purports to be an endorsement of the candidacy of Thos. L. Blanton for Congress of this the 16th Congressional District, desire to state that we did not sign such statement, neither have we signed or authorized anyone to use our names to any kind of an instrument indorsing Thos. L. Blanton for Congress. In order to correct such erroneous statement in emphatic terms, and in order to prevent another such error, we make affidavit to the above statement.

(signed) W. E. (Ed) Carew  
(signed) C. J. McDonald,  
(signed) Homer Lee,  
(signed) John Riddle,  
(signed) O. R. Rodehorst.

Subscribed and sworn to before me this first day of July, A. D. 1913.

(signed) R. M. White,

Notary Public,

In and for Stephens County, Texas

(NOTARY SEAL)

Pitching one's campaign upon a high plane and in the same document publishing fake endorsements, seem to us to be facts not easily reconciled.

The Lord knows The Reporter never at any time in any way indorsed the candidacy of Judge Blanton. All the same, in this self same campaign booklet, our indorsement of him appears as big as life. The ways of Blanton are wondrous strange. — Herald Reporter.

Evidently West Texas as an entire District is opposed to the methods taken by Judge Blanton, in leaving impressions that the West Texas Press has endorsed

#### Pershing Has 6,000.

Semi-Official information reaches us that General Pershing Commanding officer of the American forces in Mexico has, at present between 5,500 and 6,000 seasoned, veteran troopers under his command in the interior of Mexico. While making their backward journey, General Pershing is carefully destroying all evidences of trenches, camps, etc, and it is thought that the farthest point from the border, now is not more than 125 miles.

his Candidacy. Even the Journal was quoted as having some flowers for this spectacular, rampant Abilene attorney, while in fact we are absolutely opposed to his nomination, on the grounds that he is still too youthful in Democratic, to be of any substantial value to Sweetwater or West Texas.

#### Notice Water Consumers?

For lawns and gardens only the following water rate will be effective up to and including August 21st. For first three thousand gallons the regular minimum rate and all over the minimum will take a rate of five cents per thousand gallons.

T. E. Crutcher, Supt.

#### Personal Mention.

Sure, Quast gives Automobile tickets too.

B. Pearson, oilman, returned this morning from Colorado.

Messrs Haley and Donnell of Roscoe are here beating the voting bushes today.

Fine Fresh, Country Eggs, received daily, take home a dozen for 20c from the Cozy Cafe. 1 w.

Mrs. A. B. Yantis is reported somewhat improved from her recent illness although still unable to be up.

Miss Minnie Hareis left this morning for a brief visit with relatives in Dallas.

Get your Auto tickets at the Cozy Cafe.

Chas. Neal McGaffey, the Praetorianman is a business visitor in Hermleigh today where he will establish another chapter to the Sweetwater Praetorians.

Dick Moody returned today after several months with a circus where he is featured for "rough riding" and "bronc busting". Dick has made a fine reputation for himself and stands as one of the finest riders in West Texas today. His many friends can see him in action at Loraine on the 19 and 20 during the picnic.

### Capt. Frank Johnson Perfecting Home Guards

More than a dozen enthusiastic boys met at the City Hall last night and Capt. Frank Johnson, with Lieut. Thos. F. Hodge, called the meeting promptly. Hodge explained to those interested that the organization was for the purpose of Home Protection only, and that the state or Federal Government had no control over the body, apart from the fact that both departments encouraged the maintaining of Home Guards in all portions of the States. A committee consisting of Howard Homan, Lieut, and Brown were instructed to see those already enrolled for further explanation and to get them duly signed up in the proper manner.

A call meeting at the Tabernacle will be held on Friday night. In this movement are invited and urged to attend.

Fine Fresh, Country Eggs, received daily, take home a dozen for 20c from the Cozy Cafe. 1 w.

#### Soldier Spence Here. Border Conditions.

John M. Spence, Private Co. D, 4th U. S. Inf, passed through this morning, bound to his Dallas home on a short furlough. Soldier Spence, gives the interesting information that a recent official report advises that there are 225,000 U. S. troops on the border at present. He says that conditions are good, food is plentiful and all things considered, the soldiers are enjoying the daily program. Private Spence was one of the first of the Dallas Militiamen to respond for duty and was one of the first to take the Federal oath. He will visit his family for a few days and return to his company.

#### Jewelry Workmen

Who enjoy doing their work will do their work in such a manner that will be entirely satisfactory to the customer. We repair clocks, watches, rings, chains, pins, spectacles anything that is jewelry and we repair it like it should be done.

RIGHT is our only motto. We give

our entire time to your one particular job until it is done, and we want it done right or we won't do it at all.

We repair where others have failed.

Try us; it won't cost you anything if we fail to give you satisfaction.

A fine drayman weighing eleven pounds was delivered to the home of Roy Campbell Friday and will be connected with the business of the senior Campbell. Mother and young transferman are reported doing nicely.

Hon. Jas. L. Sheppard of Colorado is a visitor within our midst today. To a Journal man Judge Sheppard mentioned that R. N. Grisham, candidate for the 16th Congressional seat at Washington, had many warm friends in Colorado, while he admitted that Blanton and Smith were also going to be favored.

Fashion has decreed that the conventional heavy white shoe worn during the summer season shall give place to the natty linen shoe, light in weight and attractive in appearance. This shoe is of green linen and tips of flowered cretonne and is the latest innovation in the sports shoe line. Its popularity is assured.

**Embroidered Pockets.**  
There are many girls who prefer to wear tailored blouses with their coat suits, and yet they wish to keep them from being too severe. A satisfactory way to overcome this is to add hand embroidery to a blouse made on shirt-waist lines. One blouse of old-rose crepe de chine has a pointed sailor collar which is neatly hemstitched. The same form of trimming is used to trim the deep cuffs. A line of hemstitching extends from beneath the collar down either side of the front to simulate a bolero. At about the middle of the curved lines pockets are inserted. These add materially to the blouse because they are neatly braided. A touch of the braid appears on the cuffs.

**Congressman's Recipe for Success.**  
"If I were obliged to pack a lot of advice into a few words," said United States Congressman Edward J. King of Illinois in the American Magazine, "for the benefit of poor boys, I would tell them to decide as early in life as possible what they intended to do. There is nothing so helpful to a tired traveler as a destination. This thing of not knowing where you're going, but being merely on your way, is a life-kill."

#### KNOTTY POINT FOR LAWYERS

Peculiar Damage Claim Rejected by  
Company Sued by Victim of Alto-  
gether Unusual Accident.

The Docket reports this case: If  
a railroad train should leave the track  
and crash through the fence of your  
front yard, startling you from your  
sleep, so that in your hasty attempt  
to leave your bed your head becomes  
entangled in the bed rods and you  
are injured, can you recover damages?  
Such is the question in Louisville and  
Nashville Railroad company vs. Cham-  
bers, 178 Southwestern Reporter, 1101.  
The opinion states that "in the instant  
case there was no apparent or seem-  
ing peril rendering reasonably and ap-  
parently necessary a choice of means  
of extrication therefrom and action  
upon that choice; nor is it made to ap-  
pear that appellee made any such  
choice or acted thereupon. True, there

came in the night time a loud crash  
at the front of his residence and a  
scream from his wife; but the noise  
of that crash and that scream were  
all that could possibly have come to  
the appellee's senses. He saw no  
seemingly peril; he is not here insisting  
that he sought to avert any seemingly  
impending danger and was thereby in-  
jured; he only knows that he awoke in  
the night to find his neck entwined in  
the cool embrace of the rods at the  
head of his bed. How or when he got  
in that position he does not pretend to  
know. For aught the record shows  
he may have been nestling in that  
snug nook for some time before the  
crash of the car or the scream of his  
wife aroused him to the stern realities  
of his peculiar situation; or he may  
have been awakened by the crash, and  
while in a semi-conscious condition  
have become so entangled; or he may  
have been awakened by the scream of  
his wife and got in that position be-  
fore reaching full consciousness."

## A Happy Dream Come True

For several weeks  
we have been dream-  
ing of a better equip-  
ment with which to  
accommodate our  
patrons who are giving  
us so generous a share  
of their printing.

That dream has now  
in large measure  
been happily realized.  
We have added a lot  
of new faces to our  
assortment of job type,  
several new presses  
have been put in and  
all of them are now  
being propelled by a  
motor the 20th century  
power.

These improvements enable  
us to accommodate our pat-  
rons with promptness at all  
times.

Not How Cheap But How Good  
Is Our Motto.

## The Daily Journal

JOB DEPARTMENT

**Mrs. Wimberly Entertained  
Woman's Missionary Society.**

The Woman's Missionary held a most delightful social session with Mrs. A. J. Wimberly, hostess in her beautiful new home on N. E. 2nd street. Mrs. F. G. Robertson directed a splendid program, which was opened by the entire assembly standing and singing "Jesus Lover of My Soul" Mrs. Jno. Cox led the prayer, following the hymn. Mrs. R. H. Fitzgerald read the scripture bearing on the program subject. Prov. XI-2nd Cor. IX—My Gift a Means of Grace, Korea and Koreans In America.

"Stewardship was profitably presented by Mrs. Chapman.

Mrs. W. W. Beall told interest of Korean Life in America.

Mrs. F. F. G. Robertson gave an account of a weeks evangelistic meeting held by one of our missionaries in a Korean school, where 76 Korean girls were converted to the Christian religion.

Mrs. Cox gave a report of the work now being done on the basement of the church, from 10 to 20 men are at work, their work is donated. The ladies of the church will serve lunch to them Wednesday and Thursday.

The calendar organization, a department of the Missionary Society, for raising local funds, reported to Mrs. Chapman, the days, weeks, months and seasons are splendidly systemized and are admirably solving the problem of local funds. The sum of dues reported at this meeting was \$47.35.

Sacred numbers on the Victrola were given on the program and during the sacred hour this delightful music gave much pleasure.

A salad course was served by the hostess, assisted by her sisters, Misses Mary, Mabel, and John. Dubiner and Mrs. Will Corbett, and Misses Urs Williams, and Mary Hardy to Misses R. H. Fitzgerald, White, Ennis, N. L. Hall, Lietman, E. V. Glass, A. A. Chapman, Warren Beall,

Walter Beall, Walter Booth, E. E. Roy, Perry, McCloud, Walter Davis, Harry Hall, J. D. Dulaney, Jno Cox, Dr Fortner, Rosebrough, A. L. Ritter, J. H. Snell, Grisham, J. T. Hughes, Martin, Johnson, Herbert Campbell, F. G. Robertson, M. D. Willis, F. J. Neal, Power, Focht, Flack, Bowen, P. R. Hamilton, McAllister, McDavid, W. R. Carr and J. P. Majors, and Misses Ruth Bertram, Thurman, Hamlin, Edna Kelsey, Boone, Myrtle Smoot and Fleda McCloud.

The architect and decorator of this pretty home left little undone that would further the beauty of its appointments, yet this afternoon the gracious hostess added spray of our gold sunflowers in crystals that lent a charm that only Nature's artist could produce.

We are now open in our new location on east side square, 1st door north City Garage, ready to serve you in cleaning and pressing. The Steam Dry Cleaning Plant, Louie D. Galbraith, Mgr. Phone 97.

If you don't get your Journal phone 19 and a special messenger will bring it to you

**Fred Dixon for Police Chief.**

The Journal is authorized to announce the candidacy of Fred Dixon for the office of Chief of Police, subject to the Democratic vote. Having lived in this immediate vicinity since the year 1882, the Journal could offer no excuse for a further introduction. Mr. Dixon promises a clean, honest administration if elected. With his reputation for fair-mindedness, it would be difficult for anyone to suggest the contrary. The Journal requests that his claims be duly investigated at the proper time and carefully considered by the local voters.

H. E. Stroude formerly relief man at the T & P left this morning for Merkel where he will place the agent, who is off on vacation.

**STEAM AUTO FOR RAILROAD**

Car With Baggage Compartment Will Travel a Mile a Minute—Economically Operated.

A steam automobile railroad car using kerosene as fuel, capable of making a mile a minute and carrying 40 passengers, is being built at Newton, according to a Boston correspondent of the New York Sun. The members of this concern manufacture a steam automobile that bears their name. For a long time they have been working upon a plan of adapting the steam automobile engine to railroad and street railway purposes. They have now reached a point where the first car, which may be described as the steam automobile enlarged and applied to rail conditions, will be on the rails in the course of a month or two.

One member of the firm estimates that with the present cost of kerosene the operation of the car will be about one cent a mile. It has a baggage compartment and a compartment for the engineer, weighs about 35,000 pounds and will cost about \$10,000. The body is of steel and is equipped with air brakes, electric lighting system and standard equipment. Designs have been made for a smaller car to carry 25 passengers, and adapted more for service similar to that of trolley cars.

**FREIGHT CAR'S RECORD LOAD**

Enormous Generator, Weighing 160,000 Pounds, Transported From Brooklyn by Special Route.

The largest combination of weight and size ever handled on one freight car by an American railroad started on a journey to Joplin, Mo., from the yards at Greenville, N. J.

This record-breaking load consisted of the generator for an 8,000-kilowatt turbine, purchased by Henry L. Dierly & Co. from the Brooklyn Edison company. The generator is in large piece, weighs 160,000 pounds, and is measured by the railroad from the surface of the rails to the top of the machine stands 15 feet 7 1/2 inches in height.

Because of this extreme height the railroad was forced to lay out a special itinerary of detouring so that tunnels or other possible clearance obstacles would be avoided. The car was shipped from New York to St. Louis, was thought to be loaded and reached in about six weeks. Another journey must be taken to Joplin.

**POPLIN TO POPLIN**

FASHION RECOGNIZES MATERIAL AS MOST DESIRABLE.

Designs the "Something Different" which Designers So Much Affect and Which Are Frequently Found So Hard to Attain.

The longing desire of our women for those frocks as opposed to those poplin a good chance for success, for it is one of the coolest materials to be used as a blouse, after the wool fabrics. It is being made up in those loose, comfortable garments that look quite negligent and informal to the conservative woman who believes in a fitted waistline and a strongly outlined silhouette, but the younger set have no such conservative idea, so they adopt this loose, plaited, half-belted robe, with its slightly low neck and rolling collar, as a relief from all the summer frocks that have gone before.

Poplin has not lent itself very often this season to severe suits, as alpaca and pongee have. The tailors introduce a bit of frivolity when they build up a jacket and skirt, and in such cases it is accepted for afternoon wear.

One of the excellent models is a new silk poplin with a short, box-plaited skirt and a short, full, capelike bolero that is worn over a thin, half-low, white chiffon bodice. The bolero has a shoulder collar of lace in a bold design, and the flaring sleeves, which only reach to the elbows, are slashed with buttons. Beneath this sleeve is a three-quarter chiffon sleeve that is arranged in deep puffs and finished with a ruffle. There is also a large bow on the right side.

In many of these pongee and poplin frocks there are sashes of the same material in another color, or extra wide belts folded in a careless fashion and finished at the lower edge with a loose knot and two leaf-shaped ends. For instance, a dark-blue Irish poplin has several of these sashes, one of which is in brick-dust red.

Another one of the tributes to hot weather that fashion is making is in the jackets and bodices without sleeves. There has been a tendency toward this fashion running like a thread through the whole fabric of the winter styles, but it has come to full strength at the approach of hot weather. It is carried out in a variety of ways, but it is especially accentuated in the lightest gowns which are being worn at smart weddings, garden parties and country club teas.

The sleeves which come from beneath these half-bolero jackets and bodices are of chiffon, pongee or a silk muslin, plain or lowered.

There is one all-around rose-colored frock launched for June. This

Countess short skirt covered with small flowers from hip to hem, and the jacket, which is easy and loose on the figure, is nipped in at the waistline at the sides. The material is slightly plaited there, and the consequent fullness flares straight out from the waistline. The long, loose armholes are corded to attract attention, and the elbow sleeves, which fall away from the arms, are made of the white chiffon, the same material as the high collar which opens to the bust.

**LARGE HATS TO BE VOGUE**

Smaller Styles Will Have Little Popularity, It Seems, for the Coming Summer Months.

Almost all women are heartily glad that larger hats are to be the fashion. There is a mysterious allure about the big, shady hat which shadows the face that is wonderfully softening and becoming. To young faces the new hats which curve deeply down at each side make really eye-catching frames, especially when they are of some dark color and lined underneath the brim

with some soft and delicate tint such as eggshell blue, oyster pink or the pale putty shade that has proved so valuable for the purpose. Never has there been such a catholicity of choice. For, according to your requirements and what becomes you best, you can have either the close-fitting swathed toque, the tall, practically brimless hat of cossack fame, surmounted by a cockade or a chou of ribbon, the dainty drooping Watteau or Dolly Varden, the charming and less exacting bell shape, or the great "cart wheel," always dear to the feminine heart—and head.

**New Bedspread.**  
An effective bedspread can be made from coarse unbleached sheeting. A conventional or any other design is worked on it in French knots with heavy cotton. The sides are finished with a cotton fringe and the finished spread is a thing of beauty.
