VOLUME III.

SWEETWATER, TEXAS, SUNDAY, FEBRUARY 26, 1922.

NUMBER 22.

## SWEETWATER TO STAY IN LEAGUE

Mass Meeting At Court House Strongly Endorses Ball Club And The League.

TOWN WILL STILL BE ON MAP

\$2,000 Of Needed \$4,000 Pledged. Balance Will Be Raised On Monday. Donate!

Strongly endorsing baseball for Sweetwater, and going on record by unanimous vote that this city remain in the West Texas League, a well attended mass meeting at the Court House auditorium last evening raised the amount of subscriptions pledged to nearly \$2,000. Owing to Saturday night's late closing hours, a number of business men were necessarily absent. Committees appointed promised to exert every effort to secure the balance of the necessary \$4,000 to start the season and assure West Texas as that Sweetwater was still on the map.

Mayor George H. Sheppard presided. He explained the reason for calling the meeting and of the work of President J. D. Tidwell in trying to secure the needed funds to start the season. Mayor Sheppard stated the situation as being a question of whether Sweetwater could stay in the League or not and that he personally thought that only a little effort on the part of everyone would make this possible.

J. D. Tidwell then outlined the needs of the club. On March 15, \$1,000 must be deposited with the President of the League as a guaranty that the club is in the League and prepared to finance itself. The uniforms will cost about \$400, another \$400 will be required for training expenses. \$2,000 to guarantee the salaries of the first month and some miscellaneous expenses such as postage, etc. With the now low salary limit, it is figured that the club will have no difficulty in financing itself after the season opens from gate receipts. The money pledged with the President of the League will be returned to the club at the close of the season.

Endorses Club.

Plans for financing the club are by sale of first a \$50 ticket good for every home game during the entire season; second, a \$20 non-transferable ticket good for the first half only, and by donations.

R. M. Simmons, President of the Board of City Development, spoke strongly endorsing the baseball club and maintaining that Sweetwater could not afford to drop out of the League.

D. A. Clark stated that it would be very poor advertising for the town as did F. J. Neale, R. A. White, and others.

The sale of tickets then proceeded. Among those who subscribed for \$50 season tickets were the Hotel Wright, two: P. T. Quast, E. J. Geer, and numerous \$20 tickets and also ladies season tickets at \$10 were sold, as well as \$5 donations received from Jack Yarbrough, P. C. Pace, P. Weatherbee and Leo Dressler.

Mayor Sheppard appointed G. B. Howell as chairman of a committee to solicit donations and Henry Bartlett to assist officials of the club in the sale of tickets.

Ball At Hotel Wright.

The management of the Hotel Wright has donated the use of the hotel ballroom for a benefit dance to be given Wednesday night, the day of the Hereford sale. The sale of tickets for this event is also proceeding rapidly.

Chaperons announced for the Benefit Ball are Mr. and Mrs. Ellis Dou-thitt, Mr. and Mrs. Clyde B. Payne, Mr. and Mrs. Will Corbett, Mr. and Mrs. Geo. Howell, Mr. and Mrs. Rufus Wright, Mr. and Mrs. J. D. Tidwell and Mr. and Mrs. John Hubbard.

## GIRL SLAYER IS HELD

Marcia Matthews Held For Action Grand Jury On Charge Killing Alleged Betrayer.

WACO, Feb. 25.—Fifteen-year-old Marcia Matthews, the girl slayer of the man whom she accused of wrecking her life, is being held to await the action of the grand jury which is scheduled to meet in about two weeks.

Attorneys and friends believe that the grand jury will exonerate her.

Crosalin was a grandfather and an active religious worker here as well as prominent in real estate circles. For thirteen years he had been pastor of small nearby community churches. At the time of the alleged assault he owned the house in which the Matthews' lived and the assault is said to have occurred on one of his visits to collect the rent.

UNCOVER LIQUOR PLOT.

CHICAGO, Feb. 25.—A gigantic plot to flood Chicago and other midwest cities with 150,000 gallons of grain alcohol for making bootleg whiskey was frustrated by Federal officials in raids in Chicago and other cities. Five members of the band are under arrest in Columbus, Ohio.

## TRUTH SERUM EFFECTIVE.

DALLAS, Feb. 25.—Henry Fields will tell the truth concerning the murder of William Taylor if the Los Angeles or Detroit officials will only use it," declared Dr. Eugene House Ferris tonight. "It has worked on three criminals here and I am anxious that it be tried on Fields." Sheriff Biscailous of Los Angeles recommended Detroit officials use the "twilight sleep" on Fields.

## WILL WORRY ALONG

San Angelo Board Of Development Votes Resolution Opposing With Unsolicited Aid Of K. K. K.

Special to Reporter.

SAN ANGELO, Feb. 25.—The Board of City Development adopted a resolution Saturday opposing the organization of a chapter of the Ku Klux Klan in San Angelo. This action was taken following the report that K. K. K. organizers had been in the city several days.

In passing the resolution it was argued that the organization of a chapter of the Klan would be a reflection on the character of the town and would be inimical to the best interests of the city, morally and spiritually. It was further shown that cities where the Klan has chapters have proportionately as many bootleggers, bandits and other undesirable characters as those places without chapters. The consensus of opinion in San Angelo seems to be to the effect that, having made such favorable progress alone in recent years, it will be able to continue without any outside aid for present law enforcing bodies.

## YOUNG BRIDE KILLED.

BONHAM, Feb. 25.—Mrs. Otis Lope, a bride of but three months, was killed in an accident near here last night when a pair of mules ran away. She was thrown out an ditch wagon passed over her body.

## MEXIA FREE SOON

Governor Neff Promises To Lift Martial Law On March 1st. Watch Conditions.

AUSTIN, Feb. 25.—Martial law, which has been in effect in the Mexia district of Limestone county since January 12, will be lifted March 1, according to an announcement by Governor Neff Saturday.

The proclamation for the withdrawal of the National Guardsmen and Rangers from the district will be issued Monday. The lifting of the Martial Law came in response to a recommendation from General Wolters, who is in command in the district. The governor will not take any definite action until the report of the grand jury is received. The citizens of Limestone county have promised to see that the laws are strictly obeyed if these civil statutes are fully restored.

Mr. and Mrs. C. E. Mays Jr. are enjoying a visit from his mother Mrs. C. E. Mays of San Angelo for the week-end.

## A Spy Without A Country

NEW YORK, Feb. 25.—Ignatius T. T. Lincoln, international spy, is now a man without a country.

Erstwhile German spy, English clergyman, member of Parliament, British censor, the arch conspirator is in New York awaiting the action of the immigration authorities. He is charged with entering this country surreptitiously. If found guilty, he will be deported.

"I don't know where they can send me," he said. "I've been expelled by almost every power. But I am worried. I'll find a way out. I always do."

Meanwhile he is writing the story of his life. "It sounds like fiction," he confessed. "But it is true. When finished it will leave other thrillers far in the shade." He laughed cynically, pleased with himself.

"I surely did make them step lively during the war. Sometimes it was the British, sometimes the Austrian. I didn't care much which.

"It was exciting for them, too. But their experiences never rivaled mine. They were on the wrong side of the game.

"But several times they got me. Trapped in Germany.

"In May, 1920, I was working for the German monarchists. I had to get into Berlin on a secret mission. A warrant was out for my arrest. I took the chance—and was caught at the railroad station.

"I tried the usual method—bribery. But the secret service agent was young. He refused my advances. I was facing the prospect of 20 years in a German prison—possibly death.

"So I did some skillful talking. We stopped at a rest house. In a twinkling I jumped through a window, ran across the street with crowds at my heels and escaped. An hour later I was successfully hidden by friends.

"There is nothing as stimulating as playing politics in the big way. It is not much of an art here. But in Europe—

He shrugged his shoulders.

"I knew all the leaders—the Kaiser, Lloyd George, Bethmann-Hollweg, Ludendorff. And they respected me, too.

"I started going when I was 15. I ran away from home, became an editor and studied theology. On graduation from a Montreal seminary, I joined the Church of England and became curate of a parish in Kent.

"But I soon tired of the work. It was too monotonous. I wanted to be on the inside of things. So I went in to politics and was elected to Parliament as a Liberal.

"With the war came the chance I had always wanted—to get mixed up in international affairs.

"Lincoln was appointed censor of Hungarian correspondence. His activities got him into trouble. He was reprimanded and forced to resign.

"I then went to Rotterdam," he continued.

"I must have been shadowed. My visit was reported to the British war office and I had to skip to America."

Arrest And Escape.

Here he wrote a series of revelations which led to his arrest.

"Of course, I had worked for the Germans," said Lincoln, "and I didn't want to be sent back to England."

So he escaped from the custody of the United States marshal. After a month he was found and sent to England where he was confined in prison until the end of the war.

"I asked the government to revoke my British citizenship," Lincoln said. "As I had formerly given up my allegiance to Austria-Hungary, I became a citizen of no country."

Goes to See Kaiser.

He was then deported. He went

## WEATHER REPORT

Unsettled weather, probably rain with a rising temperature.

## SLOW RAIN FALLS

Gentle Rain Starting in Sweetwater Yesterday Extends East And West.

A slow rain starting late Saturday afternoon accompanied by an east wind fell over Sweetwater and surrounding territory. It continued until late in the evening.

Western Union inquiry developed that the same slow rain was falling as far east as Putnam. Goldsboro said it had been misting there all day and on into the night. San Angelo on the south reported no rain, as did Plainview on the north, where the sky was clear and the stars shining. Hamlin reported a sprinkle and Post City a slow rain. Points west were however in the path of the drizzle, as was Brownwood, where it started raining about 5 o'clock Saturday afternoon.

## DYNAMITE BLAST ROCKS TOWN.

Explosion Of Fifty Tons In Quarry Causes Chicago Suburbs Damage.

CHICAGO, Feb. 25.—The explosion of fifty tons of dynamite in a quarry at Argo, Ill., Friday night, caused a loss estimated at \$1,000,000.

Much damage was done in Argo and the surrounding Chicago suburbs by the explosion. Patrons in theaters ten miles from the explosion rushed panic-stricken from the buildings, believing an earthquake responsible for the movement.

Belief that the explosion was the result of a plot was expressed by E. M. Perbonner, State Fire Marshal. He intimated that the blast might have resulted from labor troubles. Officials claim that residents report that lights were seen moving in the vicinity of the quarry an hour before the explosion occurred.

## T. & P. IN MERGER

Texas & Pacific And Missouri Pacific Will Be Consolidated Soon. Is The Report.

WICHITA, Feb. 25.—A merger plan affecting the Missouri Pacific and Texas & Pacific railways is reported. At division offices of the Missouri Pacific it is said that the proposed merger is for the purpose of refinancing the Texas & Pacific and lifting it out of the present receivership.

Such a merger as reported would make the Missouri Pacific one of the largest railway systems in the Southwest.

For a number of years there has been a very close traffic agreement between the two systems. The Sunshine Special has been operated out of St. Louis on Missouri Pacific tracks to Texarkana and T. & P. from there to El Paso. The present terminals of the Texas & Pacific and New Orleans on the east and then via Shreveport, Dallas and points west to El Paso. The Missouri Pacific is one of the main arteries between St. Louis and Kansas City and one of the more important roads in the midwest section.

## MORRISON NO. 2 IS NOW UNDER SWAB

Produces Approximately One Hundred Barrels An Hour; Amount Of Gas Now Increasing.

SAYS BIG GUSHER NOT PROBABLE

Standard Oil Man Expresses Belief As To Field's Possibilities; Claims Gas Pressure Not Strong.

The swabbing of Morrison No. 2 started Saturday at noon and the well is responding liberally, fulfilling the expectations of the managing officials. The well is swabbed three or four times an hour and each operation produces an estimated amount of twenty five barrels.

The well has been drilled to a depth of 2944 feet, the sand formation remaining the same and the gas content of the well increasing daily. The well flowed naturally at five o'clock Friday afternoon with an estimated flow of one hundred barrels and repeated the effort again Saturday morning.

W. V. Thrace of Kentucky, a representative of the Standard Oil Company visited the field Saturday. Mr. Thrace is a man of twenty-five years experience in the oil game and his opinions carry some weight.

"The Mitchell county field has a plenty of oil but it may not turn in a gusher, due to the lack of gas in sufficient quantities," is the opinion of Mr. Thrace. Mr. Thrace expressed the belief that there was much oil possibilities in the location and explained his reasons for doubting the occurrence of a gusher. "The lack of gas in sufficient quantities makes it impossible to throw all of the oil out of the hole," explained Mr. Thrace "but there is oil in considerable quantities that may be had for the swabbing or pumping."

A contract for the drilling of an oil well on the Phelan Ranch fifteen miles west of Colorado has been made with S. A. Sloan of San Francisco. Mr. Phelan has an acreage of 2560 acres. The contract was dated from the first of February and called for the drilling to be started within ninety days after the signing of the contract. Mr. Reese of Reno, Nev., president of the Reno-Texas Company, who is drilling two wells in Mitchell county, was in Colorado Saturday.

## LANDRU IS EXECUTED

French Bluebeard Meets Death Stollally; Denies Guilt; Refuses Religious Consolation.

VERSAILLES, Feb. 25.—"Bluebeard Henry" Landru, the most remarkable criminal of modern times, was executed on the guillotine here Saturday.

Landru was convicted and sentenced to death several months ago for the murder of ten women and a boy. A large crowd of curious on-lookers who had turned out before daylight to witness the execution had to be held back from the scene by patrols of cavalry.

Landru met his death stoically. He refused all religious consolation offered him at the scaffold and declined offers of cigarettes and refreshments. "I am innocent. I hope some one will care for my children. I have nothing to add" were his last words.

PREMIERS CONFER.

BOULOGNE, France, Feb. 25.—Important steps towards world peace and rehabilitation were taken by Premier Lloyd George and Poincare in a secret conference which adjourned this evening. Besides postponement of the eGona conference and start on a working agreement for Anglo-French defensive pact, a novel plan of Lloyd George's for a ten year truce for Europe was considered.

DEPUTY SHERIFF IS INDICTED.

W. T. Jordan Held Under \$3,000 Bond Pending Trial By Grand Jury.

TEXARKANA, Feb. 25.—W. T. Jordan, deputy sheriff, was arrested here today following indictment by the grand jury. Jordan was arrested in connection with the murder of Pete Norman, a negro, who was found lying in the road near Texarkana with two bullet holes in his head on the night of February 11th.

Norman had been arrested by Jordan, the deputy sheriff who was bringing the prisoner back to Texarkana. According to Jordan's story, a mob met him on the road and compelled him at the point of a pistol to surrender the negro.

Jordan was released under \$3,000 bond pending trial by the grand jury.

ARREST SIX.

DENISON, Feb. 25.—A tip on a stolen automobile led to the arrest of two women and four men believed to be members of a desperate gang which has been operating in this section of the state. Two pistols and sacks of pennies identified as part of the Ravenna bank robbery loot were found when a house was searched, along with complete set of burglar tools and explosives.

D. E. Bardwell was in Hyton and Blackwell on business Saturday.

## CHARRED BODIES OF VICTIMS TAKEN FROM RUINS OF ROMA.

Rescue parties of soldiers and civilians worked for hours in the debris of the army dirigible, Roma, wrecked and ravaged by flames at Norfolk, Va. This photograph, taken shortly after the disaster, shows the search for bodies of victims. In the center rescuers are shown removing the charred body of one of those who lost his life in the air accident.

SWEETWATER REPORTER

Published every afternoon except Saturday and Every Sunday morning and in its weekly edition, every Thursday, by The Sweetwater Reporter, Houston Harte, President; Minor Shutt, Vice-President; Willie Rowan, Secretary and Treasurer; and entered as second class mail matter at the post office at Sweetwater, Texas.

MINOR SHUTT, Business Manager. S. A. BARKER, Editor.

TELEPHONES Business Office, 46

SUBSCRIPTION RATES Daily, 1 year \$5.00 Daily, 6 months 2.50 Daily, 1 month .50 Weekly, 1 year 1.50

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in any of The Reporter's publications will be cheerfully corrected upon being brought to the attention of the publisher.

"DAD."

He may wear last year's straw hat, his finger nails may need manicuring; his vest may hang a little loose, and his pants may bag at the knees; his face may show signs of a second day's growth, and the tin dinner bucket may be full of dents and doughnuts; but don't you call him "the old man." He's your father.

For years and years he has been rustling around to get things together. Never once has he failed to do the right thing by you. He thinks you are the greatest boy on earth, bar none, even though you plaster your hair back, wear smart clothes, smoke cigarettes, and fail to bring home a cent. He is the man who won the love of the greatest woman on earth, your mother.

He is "some" man and not "the old man." If you win as good a wife as he did, you will have to go some, boy.

THERE ARE WORSE THINGS

William Lee kept boasting that he could eat as much as any six men in Philadelphia. Michael Yaffee bet \$25 he couldn't. They went to a restaurant.

Bill won the bet. But he couldn't get up from the table. He told the doctor, who took the \$25 as fee, that he ate a 12-pound turkey, 53 oysters, two pounds of pork chops, a dozen eggs, two slices of ham, a large beef stew, three loaves of bread, 12 cups of coffee and six bottles of soda water.

The doctor says he'll live. This monster meal seems impossible. Bill, however, weighed 238 at ringside. He's six-foot-four in his socks.

A teaspoonful of wood alcohol, sold as real whisky, would have done him more harm than his big meal. Undertaker would have been called, instead of doctor.

THE LYNCH LAW

The Dyer Anti-Lynching Bill goes the greatest length ever gone at one stage in the destruction of power of the states and the local courts and other institutions of the people. No right-minded man believes in the practice of lynching, but the destruction of free government is a crime, the results of which cannot be remedied.

This law fines the innocent taxpayers of the county \$10,000 because a lynching begins or ends in the county, even though no citizen of the county had any part in it. This money goes to the family of the lynched negro, but nothing is provided for the victim. It gives the Federal government power to usurp the functions of Justice, Police, County and District Courts in matters involving offenses against alien Mexicans, Japanese and other foreigners.

NEON GAS.

For 20 years neon gas has been an almost useless curiosity in the chemist's laboratory.

Now it will be put to work, in an improved spark detector for autoists, says a bulletin of American Chemical Society.

Every discovery made by man has potential usefulness, though it may be useless when discovered and for years following.

The Einstein theory doesn't seem to be important in the average man's life. It isn't now. Future will use it constantly. For it's the beginning of man's thinking in four dimensions instead of three.

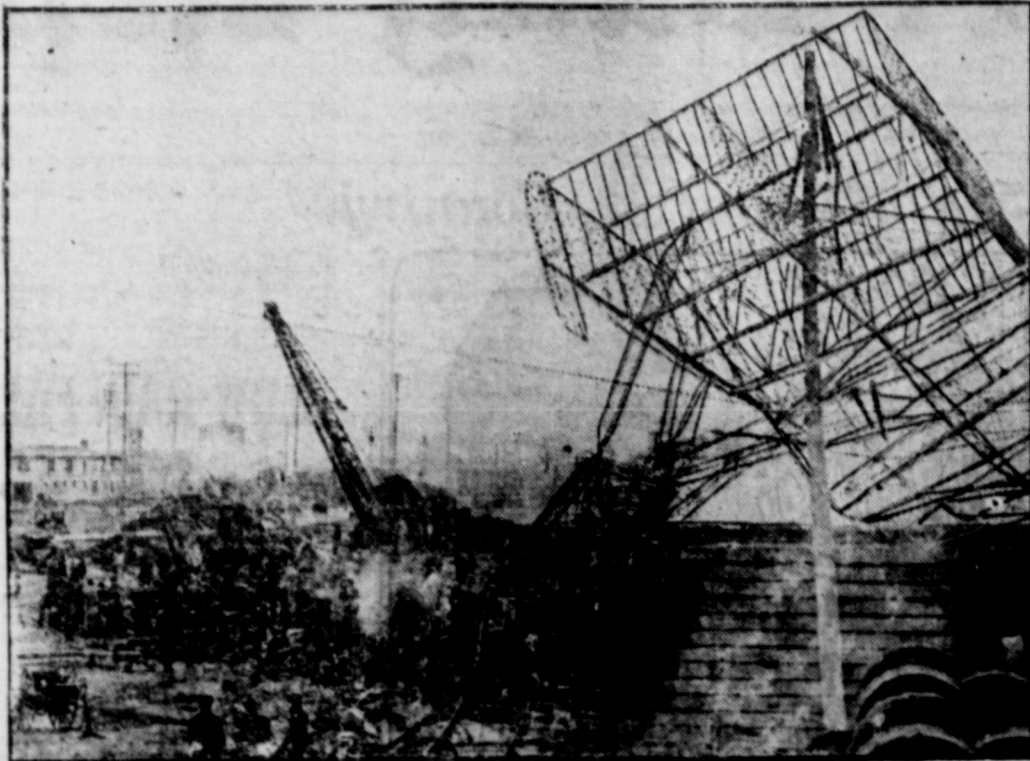

QUAKES

Earthquakes soon will be predicted, same as weather is forecast in advance, according to Professor A. C. Lawson of the University of California.

Predicting will be done by watching the "creep" of the earth—slight and gradual changes in latitude. These precede quakes.

Warned of coming quakes, inhabitants could speed away, returning to rebuild after the disaster.

ROMA'S RUDDER LEFT AS GROTESQUE SIGN OF DISASTER.

When the great dirigible collapsed at Norfolk, it smashed into a heavily charged electric wire, which set fire to the gas in the bag. As the Roma exploded and fell the rudder was left hanging on a telephone pole, a landmark to the thousands crowding to the scene.

THREE OF THE CREW ON THE ILL-FATED ROMA.

Left to right, Captain W. J. Reed, Scarsdale, N. Y.; Major J. G. Thornell, Sidney, Iowa, and Captain D. L. Mabry, Tampa, Fla. Reed was injured, Thornell and Mabry were killed. Mabry was in command of the flight of the Roma. Thornell was a former commander and a veteran of dirigible flying.

Heiress to Wed Horseman

The engagement of Mathilde McCormick, 14, daughter of Harold McCormick (shown above), president of the International Harvester Co., and granddaughter of John D. Rockefeller, to Max Oser, 48, owner of a heavy stable at Zurich, Switzerland, has been formally announced.

REAL ESTATE TRANSFERS... one half of one-half Section 34 Block 23 T. & P. Railway Survey. W. H. Bird to B. S. Nebhut \$1000. Lot 4 Block 119 Trammel and McCauley Addition to Sweetwater. H. W. # MITCHELL COUNTY'S PROMISING OIL FIELD

## MORRISON NO. 2 IS OIL FIELD CENTER

Wells On Sides Of Leading Producer Being Put Down—Water Shortage Hinders.

T. & P. No. 1 FURNISHED FUEL

Crude From Foster No. 1 Of Unusual Quality—Produced First Oil Shipped From County.

Morrison No. 2 which is being drilled by the Underwriters Producing and Refining Company, occupies a central location in the Mitchell county oil field. Approximately a half a mile to the west is the location of Morrison No. 1, the discovery well of the Underwriters Company is approximately two miles from Morrison No. 2. This well furnishes a large part of the fuel used in putting down the rest of the Underwriters wells in Mitchell county.

Six miles to the North is the Underwriters well, Coleman No. 1, which is now being drilled at approximately seven hundred feet. Smith No. 1, being put down by the Underwriters, is located five miles west of Colorado and seven miles east of Morrison No. 2. This well is down about 1650 feet but at the present time drilling has been suspended to allow underreaming for the purpose of shutting the water out of the well. When this process is complete, the drilling will be resumed.

The Zilpha-Morrison No. 1 located two miles west of Morrison No. 2, was spudded two months ago and is now being drilled at a depth of about eight hundred feet. The Colorado-Tex. No. 1, located a few miles south of Iatan, produced the first oil shipped from

Mitchell county. The oil from this well is thought to be of a good quality as the Pennsylvania product and superior to that of the Mexia field. Foster No. 1 is producing 100 barrels a day under the pump and shows a gasoline content of forty-three per cent.

Foster No. 2 is located at a point approximately 1000 yards south of Foster No. 1 but at the present time all operations have closed down, due to a water shortage.

Big men seldom wear a label.

Common sense will improve the human race a whole lot more than eugenics.

Universal military training is something you can't find in the Sermon on the Mount.

### Foils Crooks

This fellow is one of London's best detectives. Dressed as a man, Salvation Army lass or in evening clothes, she foils 'em all. You 'ave 'er name is Maud Wood.

## COLORADO LAUDS NEIGHBORS SPIRIT

Dr. J. P. Coleman Expresses Town's Appreciation For Attitude Of All The Surrounding Communities

COOPERATION IS PLAN OF C. OF C.

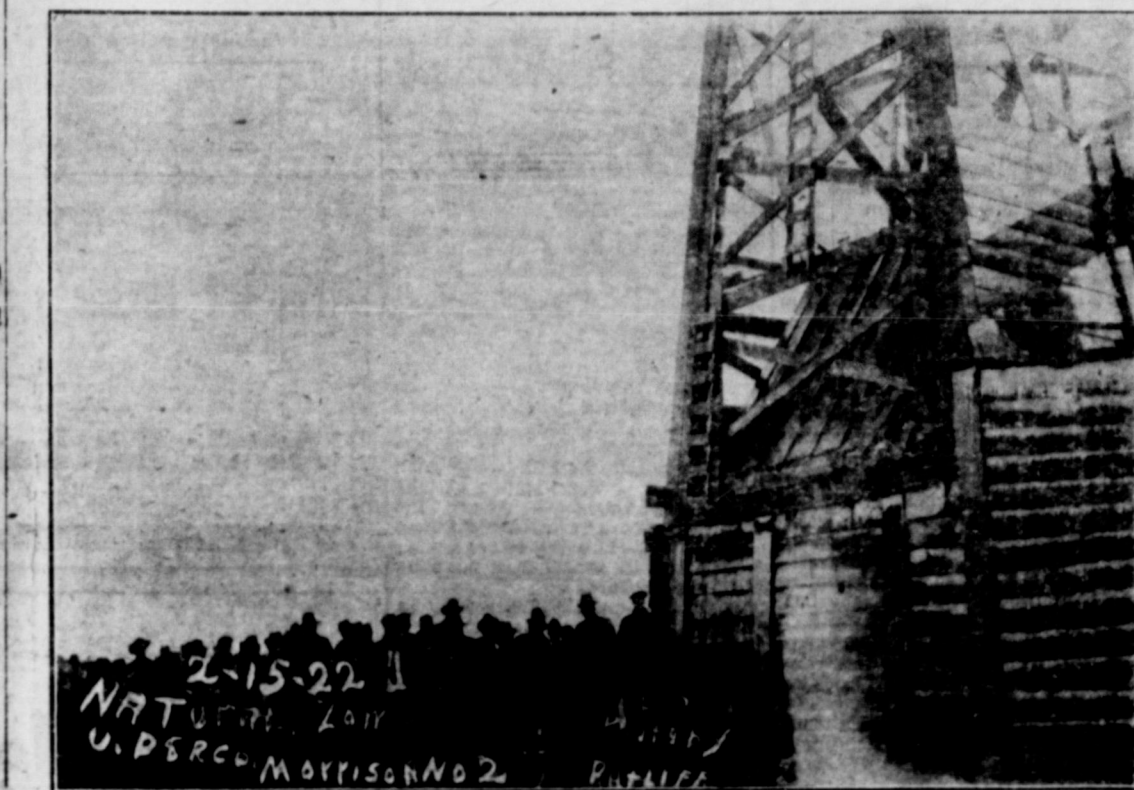

Near-By Counties To Be Beneficiaries Of Good Fortune Colorado Has Afforded

"Colorado has always entertained the kindest feeling for her neighbors, and I can say that the action has been reciprocal," said Dr. P. C. Coleman, president of the Colorado Chamber of Commerce, when questioned concerning the attitude of the surrounding towns in the past.

Dr. Coleman expressed his appreciation of the attitude that Sweetwater has taken regarding Colorado's good fortune and praised the spirit of co-operation shown by the community.

The following speech best indicates the spirit with which Colorado regards the friendly attitude of her neighbors:

"Colorado, with her neighbors, Snyder on the north; Big Spring on the west and Sweetwater on the East, has at all times practiced co-operation when there has been a question of

A natural flow of Morrison No. 2. This photograph was taken February 15, 1922. Since that time the well has been flowing by heads at twelve-hour intervals, averaging an estimated flow of approximately 200 barrels a day. As the drill goes deeper into the sand the flow increases. On February 23, the well turned in a record flow of approximately 200 barrels at one flow, running for an hour and twenty-five minutes.

any character pertaining to the welfare of West Texas.

While more fortunate, recently, in the development of adjacent oil welfare of West Texas.

While more fortunate, recently, in the development of adjacent oil interests, Colorado realizes fully that she will not be the only beneficiary in

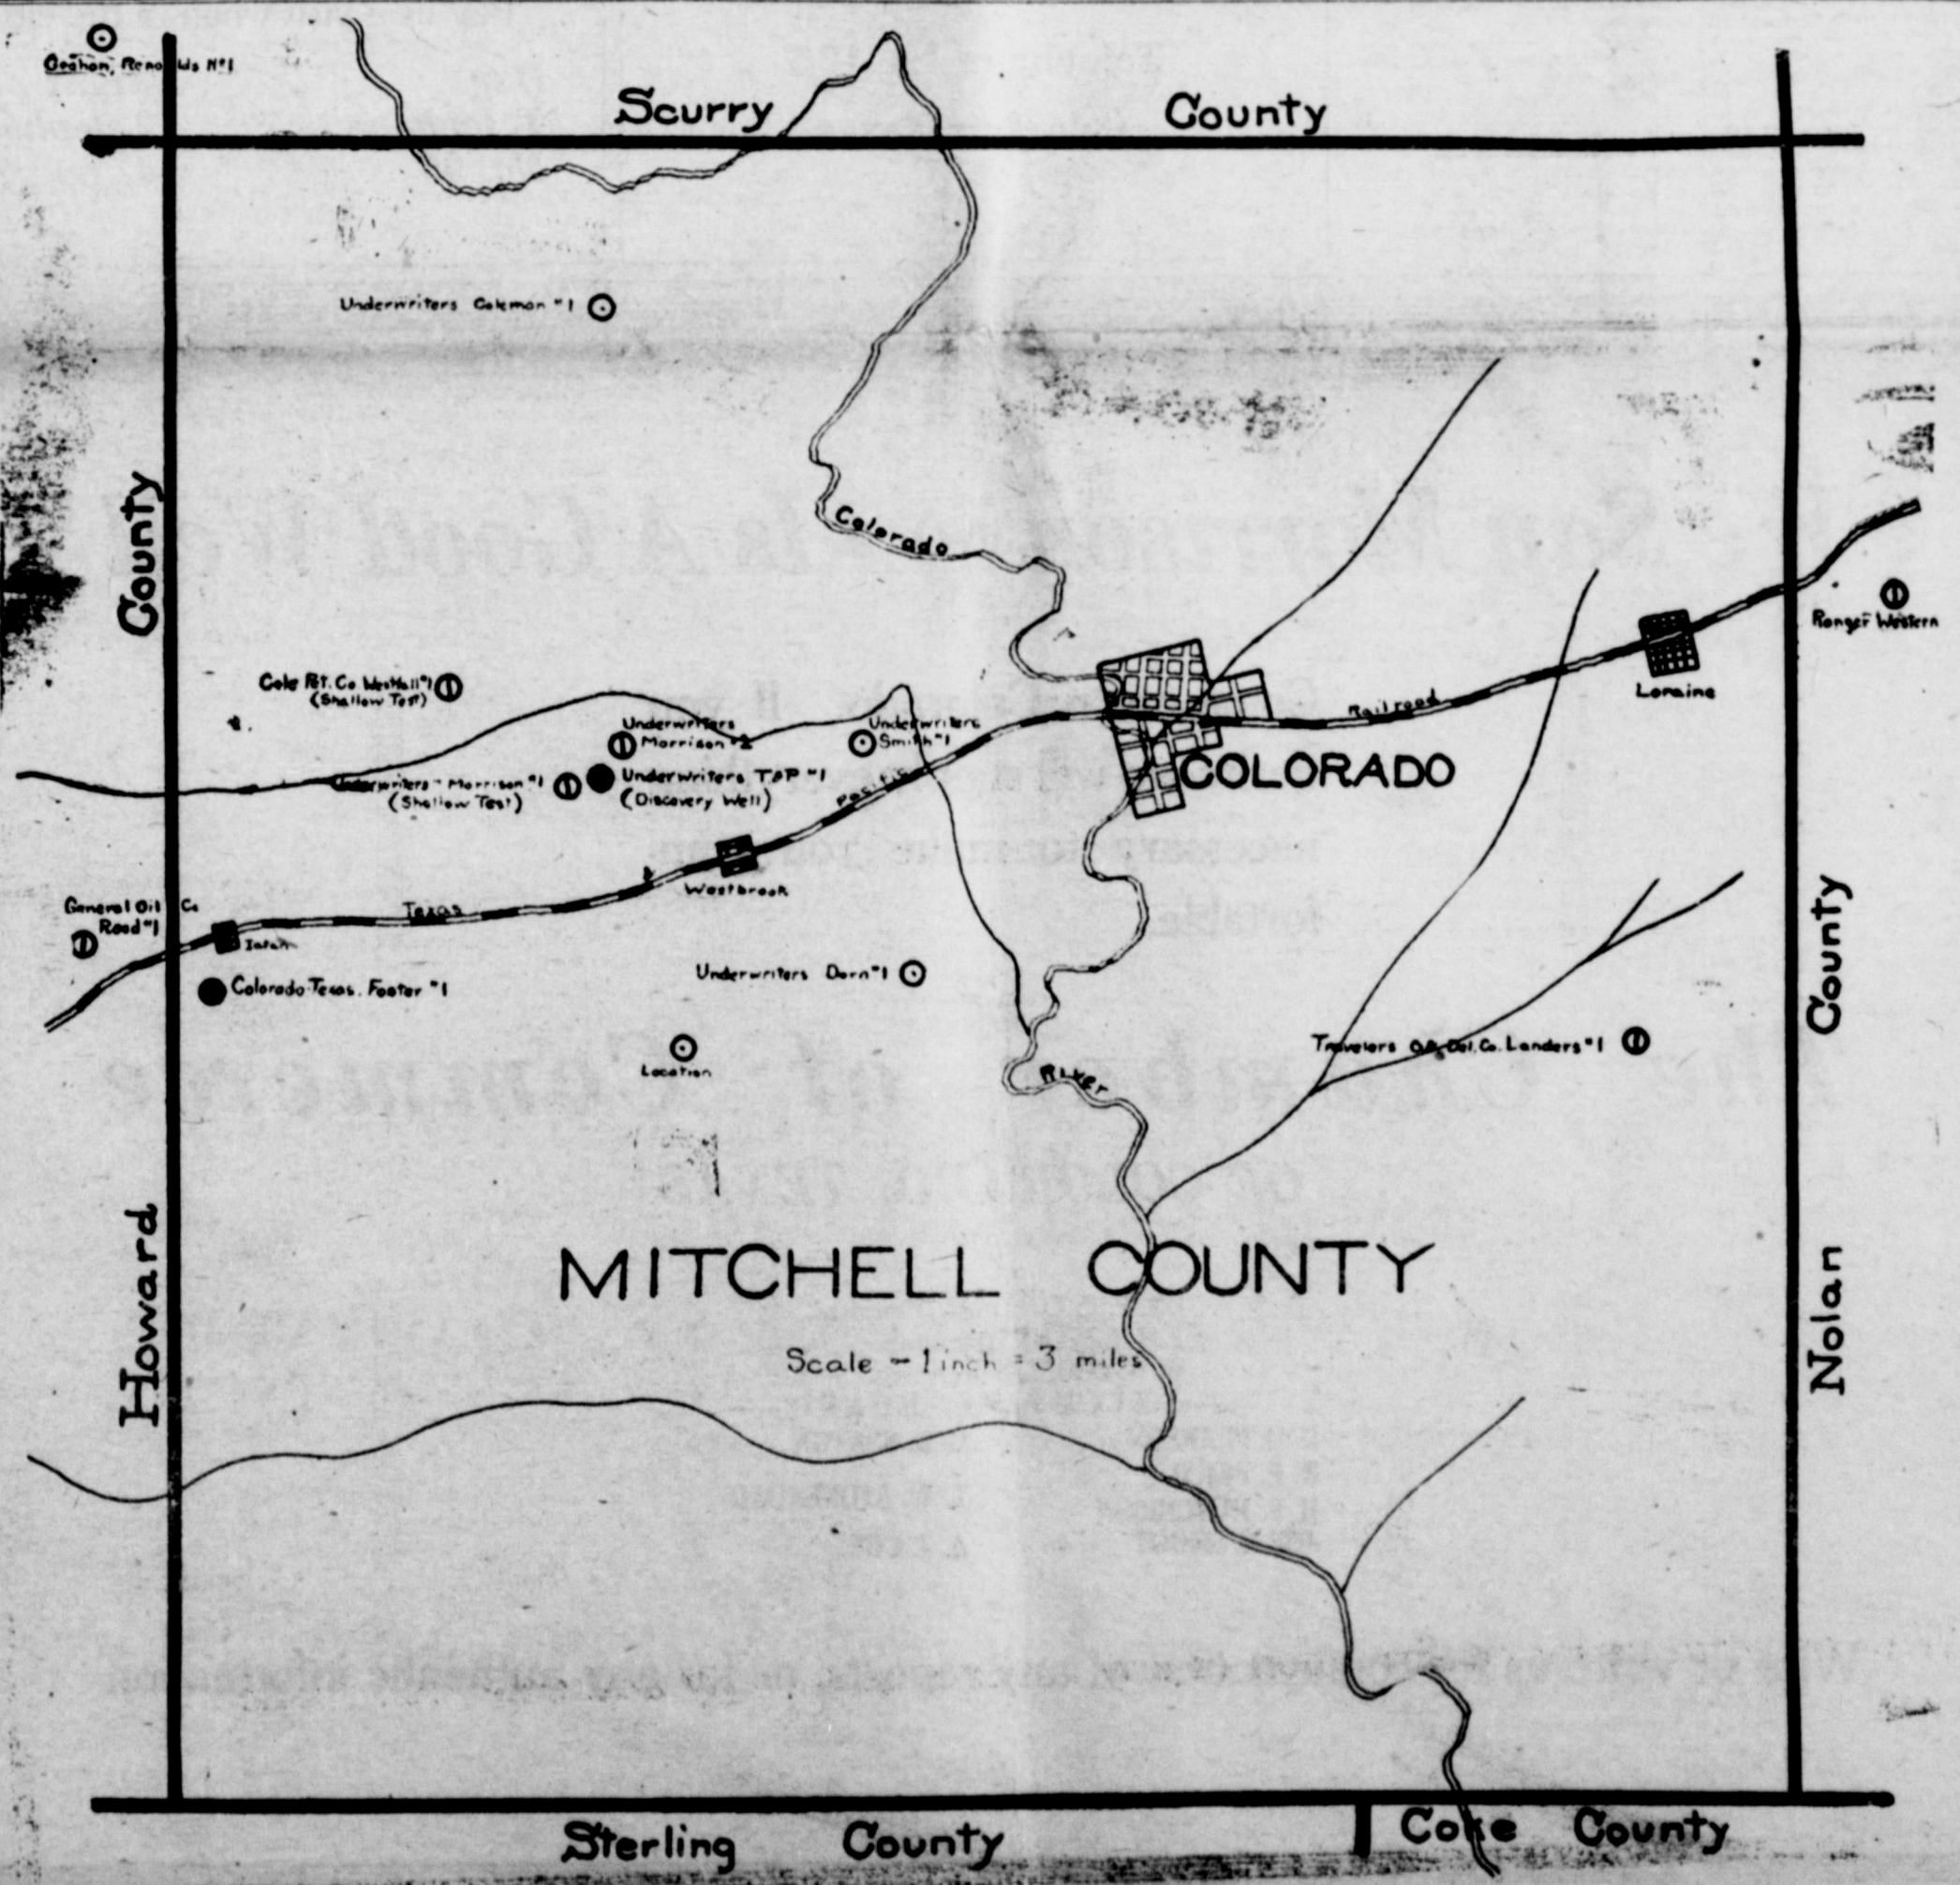

the matter, but that her neighbors will share her advantages with her to a great extent, in the future, as in the past.

Colorado realizes the necessity of co-operation and rejoices to know that such a friendly relation exists between her and her neighbors.

Here's to you, our neighbors, our

appreciation of the interest that you have shown regarding our welfare and the expression of the hope that, as neighboring cities, we shall work in the future, as in the past, for the accomplishment of all things for which West Texas stands."

Dr. P. C. Coleman, President of the Colorado Chamber of Commerce.

It gives the Federal government power to usurp the functions of Justice, Police, County and District Courts in matters involving offenses against alien Mexicans, Japanese and other foreigners.

NEON GAS.

For 20 years neon gas has been an almost useless curiosity in the chemist's laboratory.

Now it will be put to work, in an improved spark detector for autoists, says a bulletin of American Chemical Society.

Every discovery made by man has potential usefulness, though it may be useless when discovered and for years following.

The Einstein theory doesn't seem to be important in the average man's life. It isn't now. Future will use it constantly. For it's the beginning of man's thinking in four dimensions instead of three.

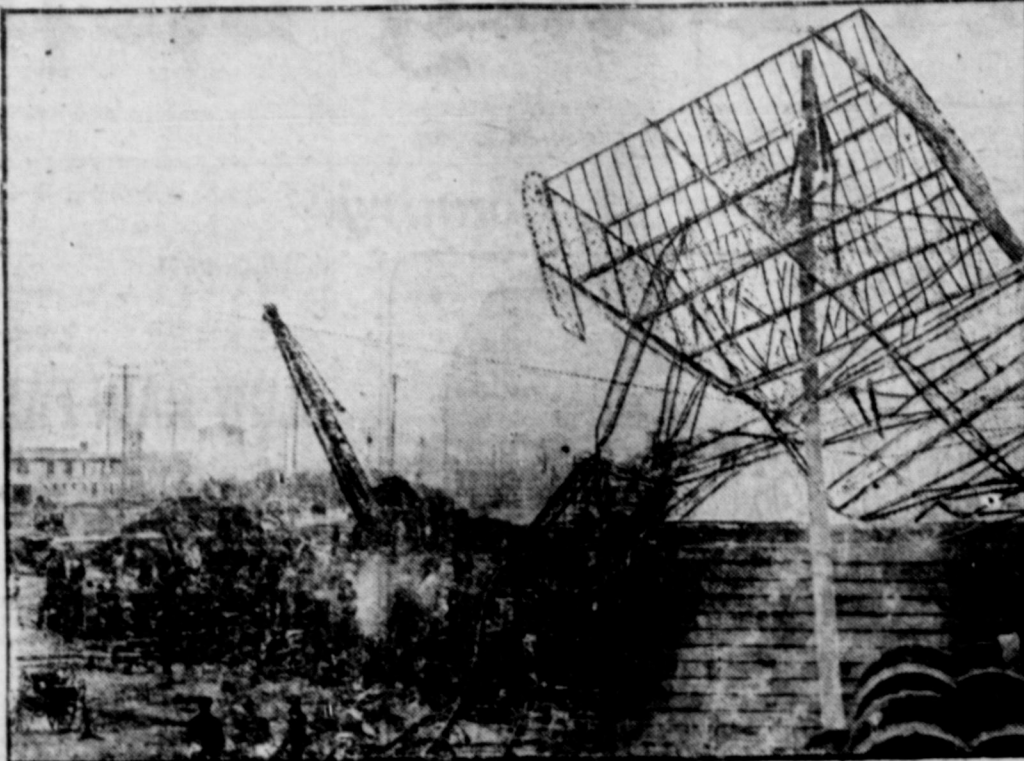

QUAKES

Earthquakes soon will be predicted, same as weather is forecast in advance, according to Professor A. C. Lawson of the University of California.

Predicting will be done by watching the "creep" of the earth—slight and gradual changes in latitude. These precede quakes.

Warned of coming quakes, inhabitants could speed away, returning to rebuild after the disaster.

ROMA'S RUDDER LEFT AS GROTESQUE SIGN OF DISASTER.

When the great dirigible collapsed at Norfolk, it smashed into a heavily charged electric wire, which set fire to the gas in the bag. As the Roma exploded and fell the rudder was left hanging on a telephone pole, a landmark to the thousands crowding to the scene.

THREE OF THE CREW ON THE ILL-FATED ROMA.

Left to right, Captain W. J. Reed, Scarsdale, N. Y.; Major J. G. Thornell, Sidney, Iowa, and Captain D. L. Mabry, Tampa, Fla. Reed was injured, Thornell and Mabry were killed. Mabry was in command of the flight of the Roma. Thornell was a former commander and a veteran of dirigible flying.

Heiress to Wed Horseman

The engagement of Mathilde McCormick, 16, daughter of Harold McCormick (shown above), president of the International Harvester Co., and granddaughter of John D. Rockefeller, to Max Oser, 48, owner of a heavy stable at Zurich, Switzerland, has been formally announced.

# MITCHELL COUNTY'S PROMISING OIL FIELD

## MORRISON NO. 2 IS OIL FIELD CENTER

Wells On Sides Of Leading Producer Being Put Down—Water Shortage Hinders.

T. & P. No. 1 FURNISHED FUEL

Crude From Foster No. 1 Of Unusual Quality—Produced First Oil Shipped From County.

Morrison No. 2 which is being drilled by the Underwriters Producing and Refining Company, occupies a central location in the Mitchell county oil field. Approximately a half a mile to the west is the location of Morrison No. 1, the discovery well of the Underwriters Company is approximately two miles from Morrison No. 2. This well furnishes a large part of the fuel used in putting down the rest of the Underwriters wells in Mitchell county.

Six miles to the north is the Underwriters well, Coleman No. 1, which is now being drilled at approximately seven hundred feet. Smith No. 1, being put down by the Underwriters, is located five miles west of Colorado and seven miles east of Morrison No. 2. This well is down about 1650 feet but at the present time drilling has been suspended to allow underreaming for the purpose of shutting the water out of the well. When this process is complete, the drilling will be resumed.

The Zilpha-Morrison No. 1 located two miles west of Morrison No. 2, was spudded two months ago and is now being drilled at a depth of about eight hundred feet. The Colorado-Tex No. 1, located a few miles south of Iatan, produced the first oil shipped from

Mitchell county. The oil from this well is thought to be of a good quality as the Pennsylvania product and superior to that of the Mexia field. Foster No. 1 is producing 100 barrels a day under the pump and shows a gasoline content of forty-three per cent.

Foster No. 2 is located at a point approximately 1600 yards south of Foster No. 1 but at the present time all operations have closed down, due to a water shortage.

Big men seldom wear a label.

Common sense will improve the human race a whole lot more than eugenics.

Universal military training is something you can't find in the Sermon on the Mount.

### Foils Crooks

The new dance jazz is as great a menace "to some people" as the old gin mill.

## COLORADO LAUDS NEIGHBORS SPIRIT

Dr. J. P. Coleman Expresses Town's Appreciation For Attitude Of All the Surrounding Communities

COOPERATION IS PLAN OF C. OF C.

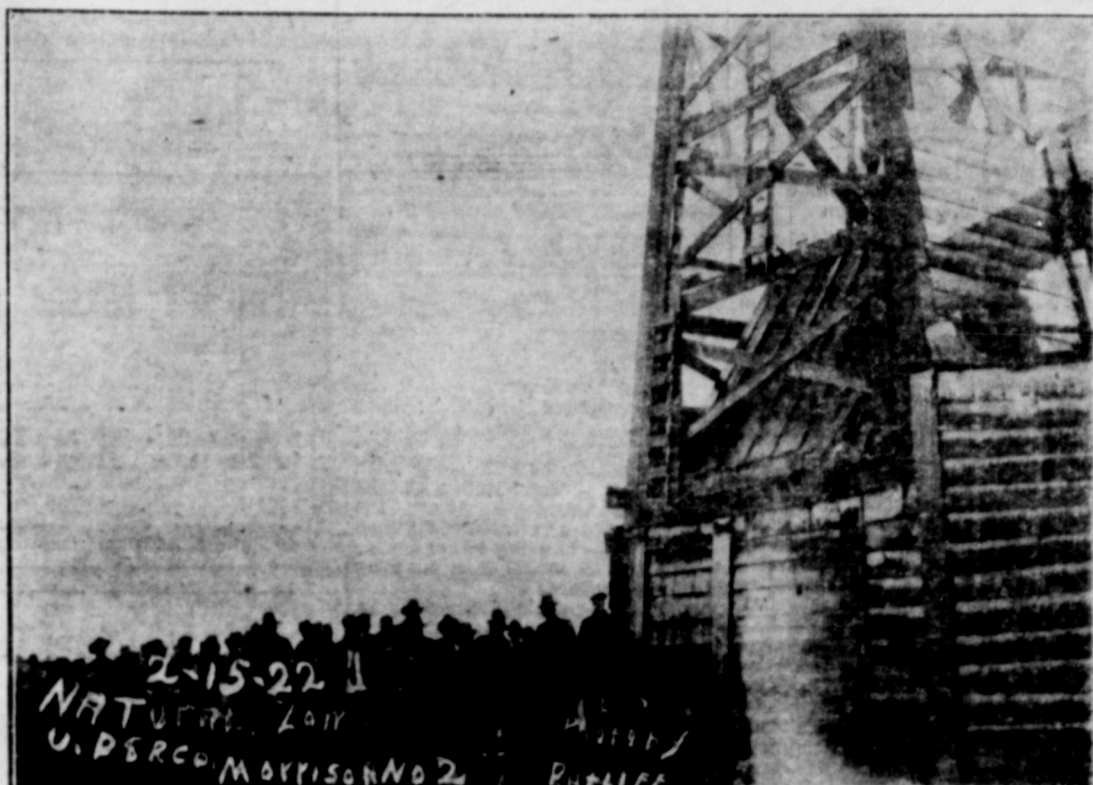

Near-By Counties To Be Beneficiaries Of Good Fortune Colorado Has Afforded

"Colorado has always entertained the kindest feeling for her neighbors, and I can say that the action has been reciprocal," said Dr. P. C. Coleman, president of the Colorado Chamber of Commerce, when questioned concerning the attitude of the surrounding towns in the past.

Dr. Coleman expressed his appreciation of the attitude that Sweetwater has taken regarding Colorado's good fortune and praised the spirit of co-operation shown by the community.

The following speech best indicates the spirit with which Colorado regards the friendly attitude of her neighbors:

"Colorado, with her neighbors, Snyder on the north; Big Spring on the west and Sweetwater on the East, has at all times practiced co-operation when there has been a question of

A natural flow of Morrison No. 2. This photograph was taken February 15, 1922. Since that time the well has been flowing by heads at twelve-hour intervals, averaging an estimated flow of approximately 200 barrels a day. As the drill goes deeper into the sand the flow increases. On February 23, the well turned in a record flow of approximately 200 barrels at one flow, running for an hour and twenty-five minutes.

any character pertaining to the welfare of West Texas.

While more fortunate, recently, in the development of adjacent oil fields of West Texas.

While more fortunate, recently, in the development of adjacent oil interests, Colorado realizes fully that she will not be the only beneficiary in

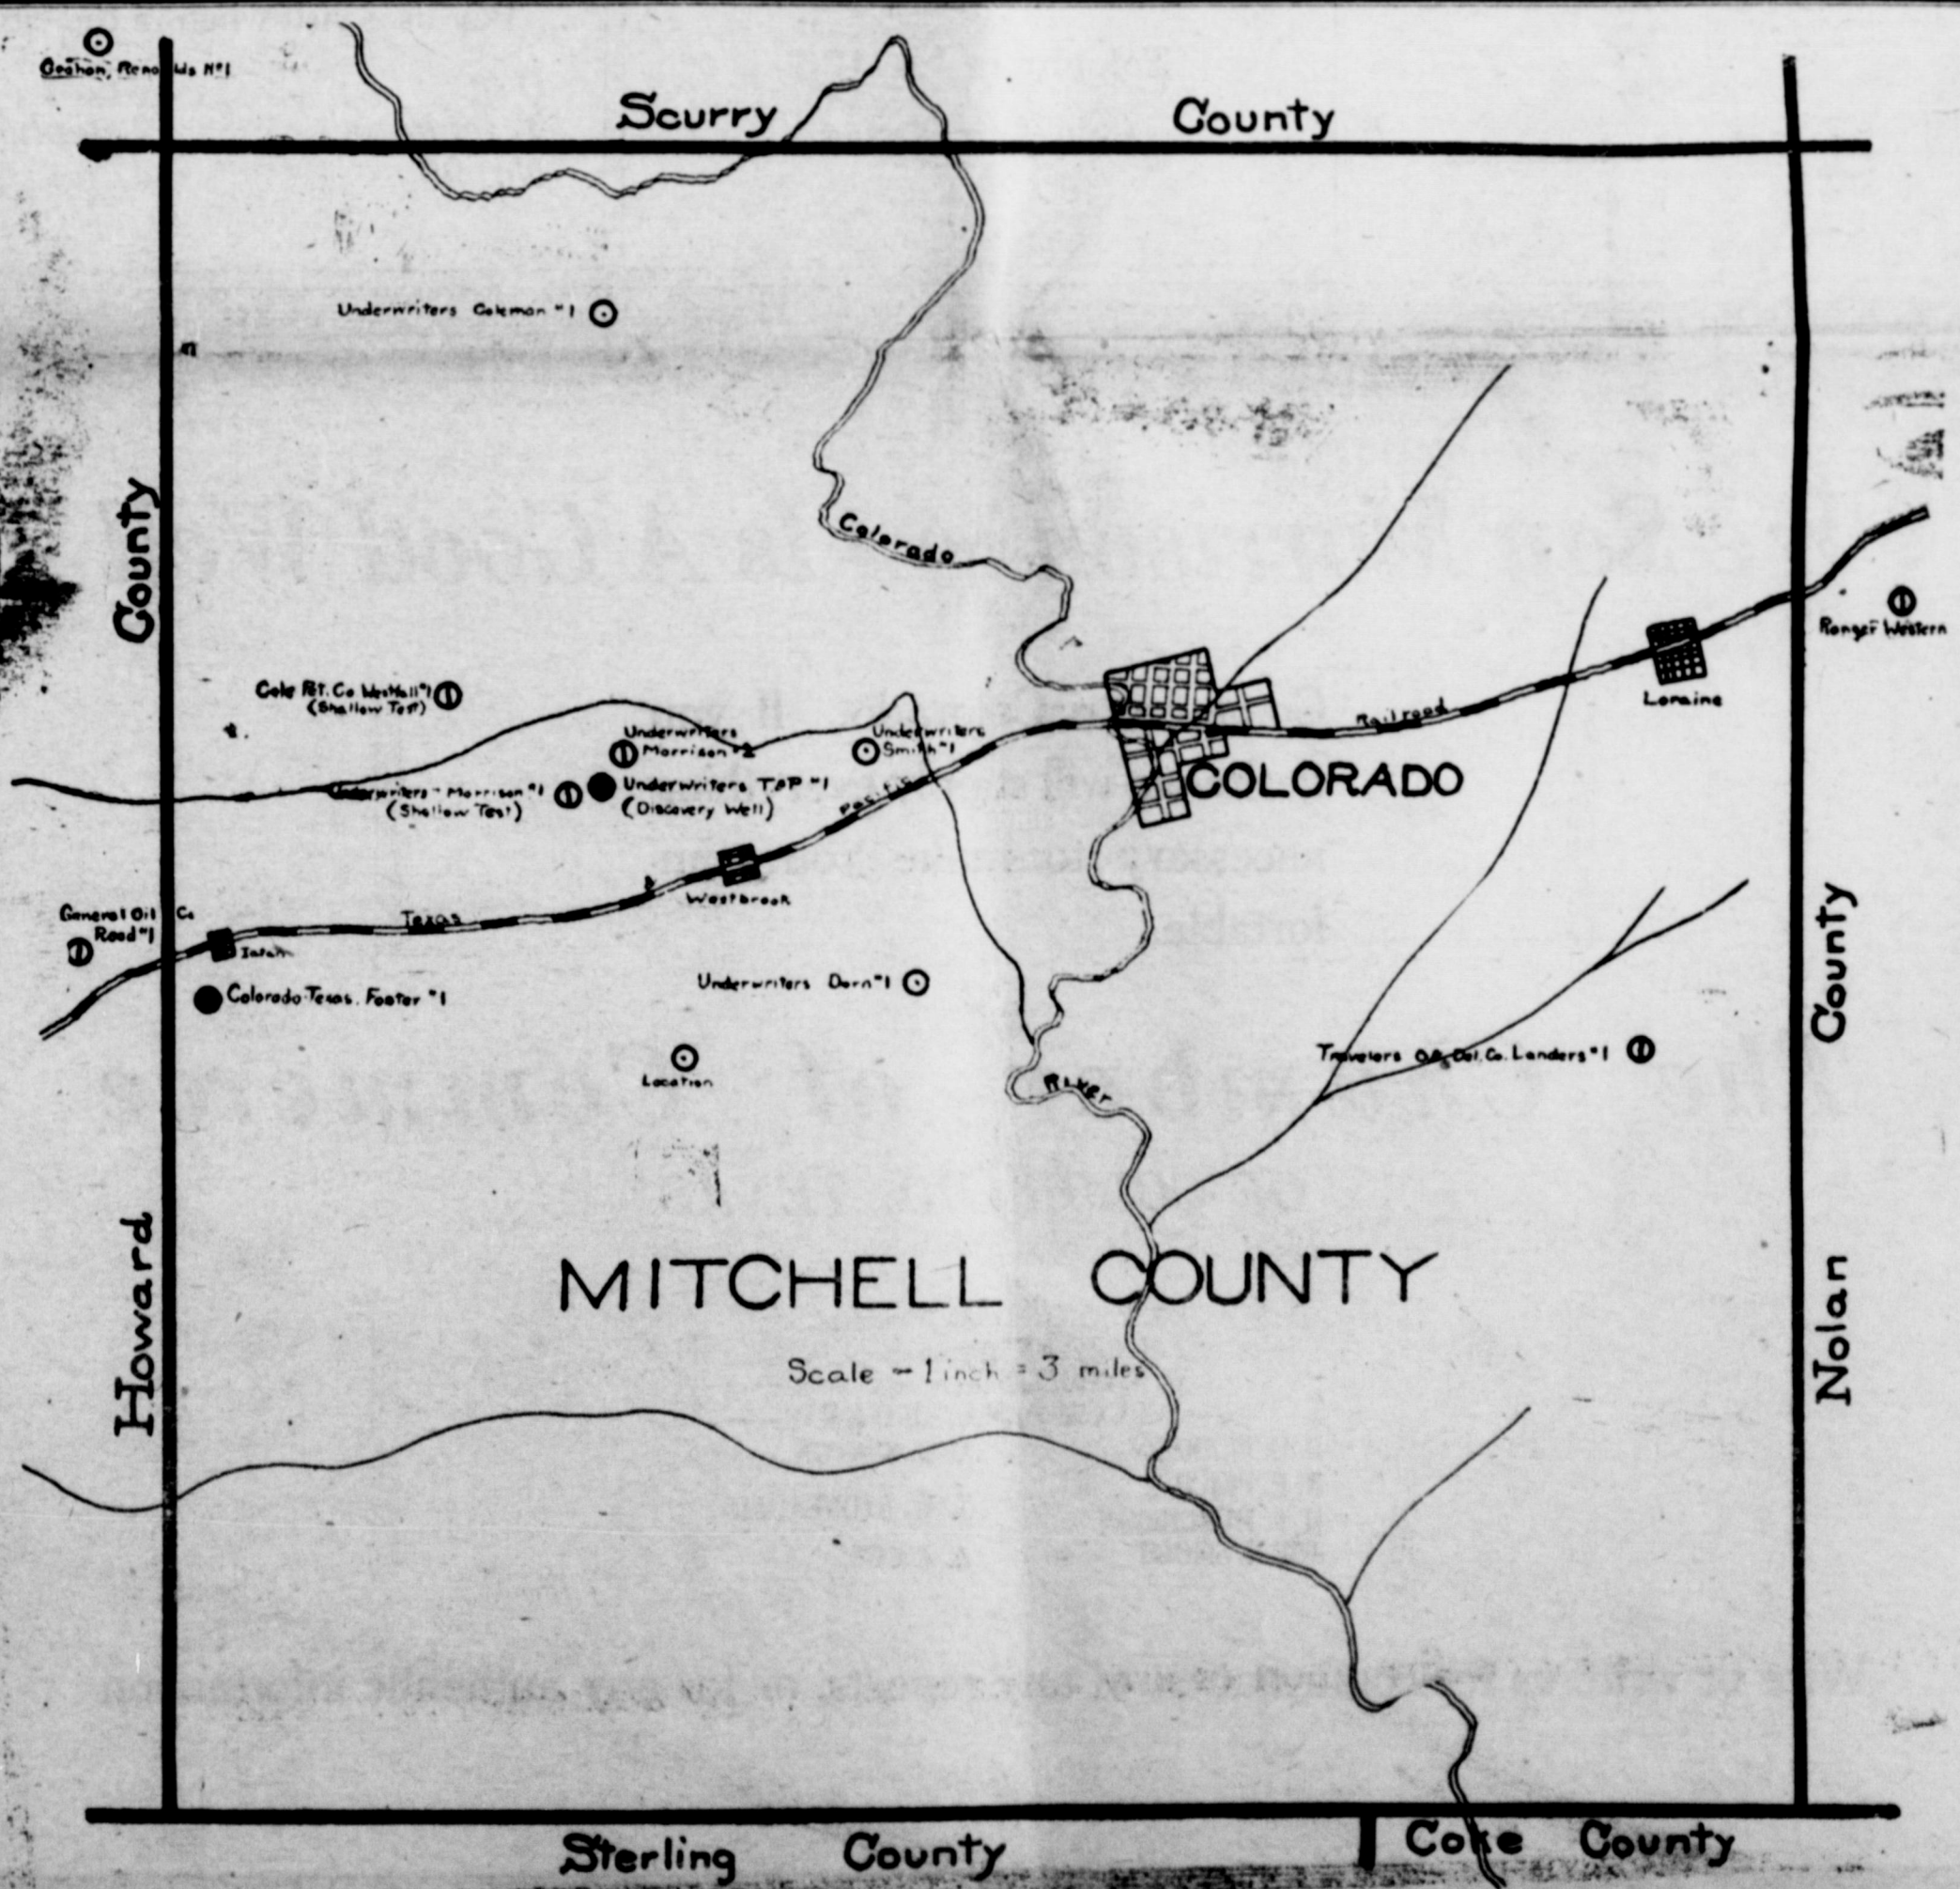

the matter, but that her neighbors will share her advantages with her to a great extent, in the future, as in the past.

Colorado realizes the necessity of co-operation and rejoices to know that such a friendly relation exists between her and her neighbors.

Here's to you, our neighbors, our

appreciation of the interest that you have shown regarding our welfare and the expression of the hope that, as neighboring cities, we shall work in the future, as in the past, for the accomplishment of all things for which West Texas stands."

Dr. P. C. Coleman, President of the Colorado Chamber of Commerce.

## PLANS COLORADO AS REFINERY SITE

Tentative Arrangements Are Under Consideration, According To Officials of Company

HEADQUARTERS WILL BE MOVED

Underwriters Have Leased Second Story of Herrington Building; May Move Soon

Tentative plans for the construction of a refinery at Colorado to handle the crude petroleum from the wells drilled in the territory near Westbrook, have been made, according to a statement issued by J. L. Vaughan, vice-president and general manager of the Underwriters Producing & Refining Company.

"The date for the beginning of the construction work is as yet undetermined," said Mr. Vaughan, "but the refining of the product of our wells is to the interest of the company and when our field has been further developed, we will attend to the refining end of the business. The company has extensive producing and refining facilities in Pennsylvania and Mr. Vaughan says that the same plan will be duplicated here. The removal of the offices of the Underwriters Producing & Refining Company from Oklahoma City to Colorado in the near future has been announced by Mr. Vaughan. The company has secured a lease on the second floor of the Herrington building and as soon as the change can be made the Texas business of the company will be handled directly in Colorado. These new headquarters will consist of approximately eight large offices and will be the Southwestern headquarters of the company. As this company own considerable property outside of their interests in Mitchell county, the volume of business transacted will be large and the benefit to Colorado proportionately as great.

A part of the office equipment at Colorado will be an elaborate laboratory fitted with all the modern necessary facilities to make an exhaustive analysis of sands, oils and other formations encountered. Tests of all descriptions will be made and accurate data on anything relative to the oil field will be furnished and reported to the public.

H. L. Lockett of El Paso, a representative of the Rio Grande Oil Company arrived in Colorado Wednesday to superintend the laying of a pipe line from Morrison No. 2 to the T. & P. tracks, a distance of two miles. A loadline rack will be built where the line taps the road and will handle

the output from the Westbrook territory. The El Paso concern recently purchased a consignment of oil from the Colorado-Tex Company at Luan, the first shipment of oil to be sent from Mitchell county. Mr. Lockett stated that his concern planned to use all available Mitchell county crude for the refinery owner by his company in El Paso.

## CARS BURNING CRUDE

Virgin Product From Morrison No. 2 Used As Motive Fuel; Is 40 Per Cent Gasoline

The quality of the crude oil from Morrison No. 2 well at Colorado, was demonstrated recently when it was used as the sole motive fuel used in driving a motor car. Crude oil direct from the well was placed in an Essex car after the gas tank had been completely drained of gasoline.

Officers of the Underwriters Producing and Refining Company drove the car about the city, the engine burning the crude product exclusive of any refined gasoline. The car was driven about the city for more than an hour and about a gallon of the crude was consumed. After the drive, the car was refilled and ran as smoothly as before the test, seeming to suffer no ill effects from handling the crude product.

Wishing to uphold the reputation of the Ford and to convince the most skeptical of the quality of Morrison No. 2 crude, Earl Morrison, owner of the tract of land on which Morrison No. 2 is located, drained his car of gasoline and filled the tank with the crude product.

Mr. Morrison cranked his Ford and drove from the well to Colorado, a distance of twelve miles, using the crude product alone as "pep dispenser." "The stunt of my jitney is one on me," said Mr. Morrison at the conclusion of the oil burning drive. An analysis of the crude, show a gasoline content of forty per cent.

Impressed by the tests when the crude was used in the cars, J. L. Vaughan, vice-president and general manager of the Company, wired his offices in New York City concerning the occasion.

"The test furnishes conclusive proof that the gasoline content of the crude is very high and serves to augment our plans to build a refinery at Colorado," said Mr. Vaughan.

When you "put up" at a hotel you do it two ways.

The only disgrace in defeat is failure to try again.

The most unproductive thing in the world is litigation.

Those who require the least boasting get the fattest salaries.

A good looking daughter reduces electric and gas bills.

## Colorado Girl 'On Honor Roll'

One of Colorado's girls, Miss Lela Mae Dulaney who is a student at the State University was among the list of names in the daily Texas for honors for the upper classmen during the first term.—Colorado Record.

Miss Dulaney is niece of J. D. and J. N. Dulauey of this city.

Fortunately most of the victims survive the "medicine" swallowed.

"Corn" is higher now than it was during "our" fathers' time.

Arguments are lost on hungry men.

## HORSE COMING BACK

HOUSTON, Feb. 25.—The horse, for some time relegated by the gas burning buses, commonly called "automobile," has staged a comeback in southern Texas recently. There are 50 per cent more horses in use in this part of the country now than a year ago, according to the local humane of ficer. Particularly is horseback riding for pleasure more noticeable now than in several years.

Table etiquette is forgotten when the stomach is empty.

Fast women are said to be slow pay.

# THE T. & P. NO. 1 COUNTY PIONEER

Was Spudded In January, 1920; S. S. Owen Of Tulsa, Oklahoma, Made The Location.

GIVEN SHOT OF NITRO IN 1920

Furnished Fuel For Many Projects; Is Still Producing Oil Under Pump.

The T. & P. No. 1, the discovery well in Mitchell county, was spudded in January 1920 by the Underwriters Producing & Refining Company, who are now engaged in drilling the Morrison No. 2.

The location of the T. & P. No. 1 was made by S. S. Owen, of Tulsa, Oklahoma, an independent oil man. Owen is a practical worker, who has had twenty-five years of experience and who has been unusually successful in his line.

In June, 1920, an oil sand was drilled into in T. & P. No. 1, at a depth of 2,355 feet. The oil sand proved to be about 170 feet deep and the well was drilled down to 2,525 feet, where it was given a nitro shot in July, 1920. Following the shooting of the well, it was placed on the pump and began producing fifteen barrels a day, later increasing to twenty barrels a day. The well is still being pumped and continues to produce approximately the average amount.

The oil pumped from T. & P. No. 1 has played a major part in the development of oil interests in Mitchell county. The crude product has been used as fuel in drilling operations for several wells more recently put down. It has been instrumental in the drilling of Morrison No. 1, a shallow test well; Morrison No. 2, a well which is growing more active daily; Smith No. 1; Coleman No. 1; Conoway No. 1 and Zilpha-Morrison No. 1.

Drilling at some of these wells is going on, while operations are temporarily suspended at others on account of a water shortage. A. G. Spaulding, contractor at the Zilpha-Morrison well is situated more favorably than some of the other rigs. Mr. Spaulding is taking water from wells at the T. & P. well, one and one-half miles east.

## HAS SEVERAL WELLS

Underwriters Company Has Projects Under Operation At Varying Stages.

Four wells in addition to the two Morrises are being put down by the Underwriters Producing and Refining

Company in the Mitchell County field.

The Alpha-Morrison No. 1, located two miles west of Morrison No. 2 was spudded two months ago and is now being drilled at a depth of approximately eight hundred feet.

Smith well No. 1, located five miles west of Colorado, is being drilled at a depth of 1650 feet. At the present time drilling has been suspended. Underreaming for the purpose of shutting out water from the hole is now going on. When this process is completed, drilling will be resumed.

Conoway No. 1, six miles south of Morrison No. 2, has been put down three thousand feet and Coleman No. 1, six miles north of Morrison No. 2, is being drilled at a depth of seven hundred feet.

A woman's preference is to be beautiful (at all times), rather than to be smart.

The name you are born with doesn't count like the name you make for yourself.

## CROWD VISITS WELL

All Colorado School Children Braved Sand Storm To See The Morrison No. 2 In Action.

Braving a heavy "West Texas rain," approximately 1,200 people stood or clung to terra firma waiting for Morrison No. 2 to "deliver the goods" Wednesday.

The day was the date of Washington's birthday, and the occasion was one of a holiday to Colorado's school children.

More than six hundred children formed in a body on the main street of the town and automobile after automobile, loaded to the guards with these school children left for the oil field between 9 and 10 o'clock in the morning.

The well, which had been in the habit of following regularly at 10:30 o'clock, day and night, was a few hours behind schedule Wednesday. While waiting for the well to flow the huge crowd received the full bene-

fit of a genuine sand storm, which howled down from the northwest, bearing its burden of chill and sand, and forced the waiting throng to seek shelter.

Shortly before noon the bailer was lowered into the well. The result was spontaneous the oil spouting forth accompanied by volumes of gas. Approximately one hundred barrels of the virgin product poured into the slush pit where it was held until the oil could be pumped into the large steel storage tanks.

When the oil shot from the well, a cheer went up from the crowd, many of whom, had never witnessed a flow from the well. At the conclusion of the flow a large part of the crowd left the wind-swept location, but several of the more enthusiastic remain-

ed to witness the drilling operations, which were shortly resumed.

Photographs were secured by some of the state papers and representatives of other papers were on the ground. Representatives of many oil companies from different states have been visitors at the well, some of them coming from New York, Pennsylvania and other distant points.

A little plain food and a lot of chewing is the best diet yet.

Give me the man who looks for work instead of for a situation—Cato

The cost of living depends a good deal on the control you have over your appetite.

## MAY DRILL ANOTHER WELL.

Contract Reported Calling Operations Within Three Weeks.

A contract has been let calling for the sinking of another well in the Iatan neighborhood, according to reports reaching here.

The site of the proposed well is said to be north of the old Iatan section and will be located on the T. & P. land, a mile northeast of Foster No. 1. The contract calls for the drilling to be started within three weeks.

# The Eskimo Pie Inventor

CHRISTIAN K. NELSON AND HIS NIECE, ANNABELLE

By ROY GIBBONS  
 CHICAGO, Feb. 25.—Christian K. Nelson came to Chicago from Omaha 13 months ago with 79 cents and an idea.  
 Today the 19 cents has grown to a steadily increasing fortune of six figures. It'll be well over a million before Nelson pays his income tax.  
 What did it?  
 The idea!  
 Nelson's idea was to cover a square of cold ice cream with a layer of hot chocolate, thus making a confection with real ice cream inside.  
 He got that idea while he was managing his father's ice cream plant out in Onawa, Ia. And he furthered it while he was studying chemistry at college.  
 When he was graduated he peddled the idea around from ice cream factory to ice cream factory. Everybody laughed at him.  
 "Cover cold ice cream with hot chocolate? Man, you're crazy!" they'd say.  
 But Russel Stover, manager of an

ice cream plant at Omaha, was different. He thought Nelson's idea could be put over. And together Stover and Nelson did put it over.  
 That's why you see a big yellow sign advertising "Eskimo Pie" in your confectionery store window.  
 For Nelson's the inventor of Eskimo pie.  
 Nelson's not making it. His company, composed of himself, Stover and others, is selling licenses to firms in other cities to manufacture the confection.  
 Today more than 1,000,000 Eskimo pies are being eaten daily. And Nelson's company gets 5 cents royalty on every dozen pies.  
 And Nelson's busy with an adding machine trying to figure up his income.  
 "Don't lose heart," Nelson advises others. "I kept at my hunch and plugged—that's why I succeeded."  
 Just don't give up. It seems to me that too many folks are only too anxious to tell the world they're licked.

## MORRISON'S WELL NO. 2 IN ON FEB. 15

Pay Sand Drilled Into at Depth of 2500 Feet—Started With a Five-Barrel Flow.

MAY BE GIVEN A NITRO SHOT

Officials Express Belief That Gusher Or Good Producer Will Result From Action.

Morrison No. 2, Colorado's leading prospect was spudded in August 1920. The well was put down by the Underwriter Producing and Refining Company, who had previously sunk the shallow test well, Morrison No. 1.  
 Oil sand was drilled into at a depth of 2500 feet and in January 1921 the well was given a nitro shot, responding with a five barrel flow under the pump.

Two months ago drilling was resumed and six thin stratas of oil sand alternating with layers of lime were penetrated until 2943 feet, the present producing sand was drilled into. The first flow of the well after the present producing sand was tapped came on February 15, 1922 after the drill had penetrated three feet. The first flow of Morrison No. 2 came barely above the top of the ground; the second was thrown about forty feet into the air and the third went twenty feet over the top of the derrick, which is the regulation height of eighty four feet.

The well was capped following the great outburst and has been held under control. It has since flowed by heads with almost clock-like regularity at every twelve-hour intervals with an estimated flow of 200 barrels a day.

The well was drilled two feet Wednesday afternoon and on Thursday the drill was pushed three feet further into the pay sand. In the Thursday drilling a thin shale strata was passed through and another and richer sand was tapped. Following the drilling Thursday, Morrison No. 2 made its record flow from the points of time flowing and the amount produced. The well began to flow naturally at 2 o'clock in the afternoon and continued for a period of an hour and twenty five minutes, the flow being estimated between 150 and 170 barrels.

The probability of giving Morrison No. 2 a nitro shot was expressed by J. L. Vaughan Thursday. In case the well coming in naturally, Mr. Vaughan stated that probably the well would be given a nitro shot with in the next few days in case further drilling did not result in a gusher. W. J. Thomson, the contractor, expressed the belief that the well would come in for a big producer if shot.

W. J. Vaughan of Oklahoma City, vice-president and manager of the Underwriters, who has been on the field for the past two weeks, received a telegram Wednesday from F. G.

Westgate, president of the company at Titusville, Penn., saying: "If you bring in Morrison No. 2 a good producer, I am going to name it the George Washington."  
 The work of putting the well down is being superintended by W. J. Thomson, assisted by his son, Robert, who is only nineteen years old. When the well was drilled in on February 15, the elder Thomson was absent from the scene of operations and the responsibility of the situation fell upon the younger man, who handled the job in a creditable manner.

## PRODUCES BEST OIL

Crude From Foster No. 1 Compares Favorably With Pennsylvania Grades, Say Analysis.

Oil from Foster No. 1 of the Colorado-Tex Company at Iatan compares favorably with the famous Pennsylvania oils and is of high commercial value, according to data collected by the Colorado Chamber of Commerce, which shows that the product is the best produced in Texas and has several points in its favor when compared with oil from the Mexico fields.

Considerable interest is centered about the operations of the Company and Foster No. 2, which is being drilled about a 1000 feet south of the first well on account of the superior quality of the product of the Iatan well. Foster No. 2 is now temporarily closed down on account of a water shortage.

The first oil shipped from Mitchell county was the product of Foster No. 1 and it was consigned to the Rio Grande Oil Company of El Paso, who have contracted for the output of the Company's wells. A loading rack at Iatan is connected with the storage tanks at the well by a pipe line, which has recently been built.

Foster No. 1 is producing 100 barrels a day under the pump. The crude from this well is of unusually fine quality showing 43 per cent gas-line content.

The Colorado-Tex Petroleum Company is a syndicate with headquarters at Trinidad, Colorado. George A. Reese is president and general manager of the company and is in personal charge of the Company's interests in Mitchell county.

Hogs	12,000	53,000
Sheep	9,000	24,600

### HAS RICH POTASH

Odeesa Center of New Profitable Mineral Discovery.

ODESSA, Texas, Feb. 25.—By request the Odeesa Chamber of Commerce has furnished the West Texas Chamber of Commerce report on Potash investigations and exploitations in that region of Texas. The summary of that report is as follows:

Though no potash beds comparable to those of Stassfurt, Germany have yet been discovered in the United States, yet in Nebraska, Utah, California and other Western States there are a number of alkali lakes, wet or dry, containing a considerable amount of potash mixed with soda salts—but it is not as easy or a cheap job to separate the potassium from the sodium salts which are five times more abundant. Realizing the tremendous impor-

ance of having our own potash resources, the U. S. Geological Survey, commissioned a corps of experts to investigate the Red Beds region of West Texas, Kansas and New Mexico, and after a year's survey their activities have resulted in the discovery of rich potash in three wells in West Texas, or in the so-called Odeesa field.

### INCOME TAX DEFINED

Individuals With Gross Incomes Are Now Allowed To Certain Deductions.

Numerous inquiries have been received regarding the proper interpretation of Section 223 of the Revenue Act of 1921, which provides that each individual whose gross income for 1921 was \$5,000 or over shall file a return regardless of his or her net income.

Gross income means statutory gross, defined by the revenue act to include "gains, profits and income derived from salaries, wages or compensation for personal service; of whatever kind and in whatever form paid, or from professions, vocations, trades, business, commerce or sales or dealings in property, whether real or personal, growing out of the ownership or use of interest in such property; also from interest, rent, dividends, securities of the transaction of any business carried on for gain or profit or gains or profits and income derived from any source whatever."

Gross income does not necessarily mean gross receipt. A merchant, for instance, in computing statutory gross, shall deduct therefrom the cost of goods sold. For example, a merchant may have gross receipts amounting to \$10,000, but the cost of goods sold amounts to \$7,000. He has no other income. The statutory gross income would be \$3,000. In case the other deductions allowed him for business expenses, taxes, interest, bad debts, etc., amount to \$2,500, his net income would be \$500. No return of income is required in this case.

A lawyer who is married and living with his wife has gross receipts in the form of fees amounting to \$6,000 and his necessary business expenses amount to \$4,200, leaving a net income of only \$1,800, a return will be required in this case, as taxpayers' gross income as well as gross receipts is \$6,000.

The man who has failed can give as good advice as the man who has succeeded—but "there's a reason."

In later life, when you see how some of your early sweethearts turned out, you are mighty glad someone else got 'em.

### ANNOUNCEMENTS

The following announcements for office in Nolan county are made subject to the action of the Democratic primaries of July 22, 1922:

### SANTA FE LAKE CLUB

Elects New Officers and Plans Improvements.—\$500 in Treasury.

The members of the Santa Fe Lake Club held their annual election of officers at a called meeting at the City Hall Friday night.

Officers and trustees were elected as follows: President Dr. K. M. Hodges; vice-president C. A. McClintic; secretary-treasurer L. M. Hubbard; Board of trustees Otto Carter, R. A. Ragland, F. A. White, R. L. McCaulley, F. J. Neal, J. M. Arnold, Ben Daniel, Ed Lohman and Charlie Bledsoe.

Improvements planned at the lake for the summer will be placing electric lights around the bath house and installing a telephone.

F. A. White and F. J. Neal already own summer camps at the lake and many more will probably be erected this summer.

Several members are planning to place motor boats on the lake which will add to the attractiveness of the resort. At present Dr. Hodges is the only member who owns a motor boat at the lake though a number of canoes have been placed at the pleasure of the members for several years.

The Santa Fe lake was the most popular spot in the county last summer, especially from 6 o'clock to 10 o'clock in the evening.

### CARD OF THANKS

We wish to thank our many good friends for their kindness and sympathy in our hour of bereavement. And we especially want to thank the friends in Stephenville for the assistance and sympathy during the illness and death of our loved one, Mrs. Ward Yeager.

And we especially thank the kind friends who sent the beautiful flowers.

Ward Yeager.  
Mr. and Mrs. J. H. R. Lagow and family.  
Mr. and Mrs. Burk Yeager and family of Stephenville.  
Mr. Ceph Harrell of Abilene.  
Mr. Charles Yeager of Waco.

### FOR COMMISSIONER

George Eatwell has publicly announced his candidacy for re-election as county commissioner from Precinct No. 4.

Mr. Eatwell has lived in the county and the precinct where he now resides for about fifteen years. He is a man who is well equipped to hold a county office, and especially the one for which he is a candidate.

Mr. Eatwell's interests will in no way conflict with his service as commissioner and his travels over the county keep him familiar with the needs of its roads.

Mr. Eatwell has demonstrated his ability as a road commissioner from both the practical and the executive point of view. He is especially competent to pass on the official reports of officers, such as checking rolls, and is experienced in clerical and executive work. Democrats are asked to give his candidacy their careful consideration in the July primaries. Adv.

into new ones right along for people who doubted our ability to do anything with such old shoes as they brought us. But they found that a shoe must be entirely worn out to be beyond our power to repair it. Before you rush off and pay big money for a pair of new shoes bring some of your old ones here. We can very likely save you considerable money.

**TOM PRICE**

### FOR COMMISSIONER.

W. H. Thompson publicly announced Friday his candidacy for County Commissioner for Precinct No. 1. Mr. Thompson has lived here for the last five years and for the past two years has been employed by the county in county road construction, thus making his familiar with the type of work Democrats are urged to give Mr. Thompson's candidacy their careful consideration at the July primaries.

## Why Not The Electrical Way

The conveniences of these modern electrical appliances are so well understood in these days that it is not always clear why everyone does not use all of them.

The housewife who does not have a Vacuum Cleaner must spend hours and hours of weary drudgery—or hire it done—which is not often satisfactory and more expensive. The same thing applies to all of the other handy electrical devices.

**BETTER AND MORE CONVENIENT THAN OLD METHODS AND CHEAPER THAN HIRING THE WORK DONE. AS WELL AS MORE SATISFACTORY.**

## History of Sweetwater Churches THE BAPTIST

The histories of the various churches in Sweetwater from the time they were organized up to the present, together with the various pastors who have served them, will be presented each Sunday in the Reporter. The history of the Baptists is presented today and other organizations will follow in the Sunday issues to come. Any who have data on the early histories of any of the churches of Sweetwater will confer a favor if they will get in touch with the Reporter Office, as it is planned to make these accounts as complete as possible.

### BAPTIST CHURCH

The First Baptist Church of this city is one of the oldest if not the oldest church organization in this section of the country. It was organized in 1882 through the efforts of the Rev. O. C. Pope, Secretary of the Texas Baptist State Convention, and the Rev. Peter Turner, who served as the first pastor.

There were 25 charter members and it was organized in what was then the public school building which stood on the site of the present Baptist parsonage and faced East on Elm Street. The building was afterward moved to the corner of Locust and E. N. 3rd streets and was used for a business house and afterward as a hotel. For many years it was known as the City Hotel.

It was torn down 1914 when the U. S. government purchased the lots, and Sweetwater people are still hoping to see a commodious Post Office building erected on this location in the not distant future.

The Baptist Church building is the oldest house of worship built in the city, being erected in 1882 during the first year of its organization. This was "on the frontier" in those days and no doubt the eastern part of the state and the rest of civilization considered it a "Foreign Field."

The additional wings to the church were built in recent years to take care of the growing congregation and Sunday School work.

The membership are accumulating a building fund with which they hope to replace the old building with a 25 or 30,000 edifice, which will not only meet the present needs but will serve the church for many years to come.

Rev. Bennett Hatcher was the second pastor and was succeeded by Rev. J. A. Moore, who was said to be one of the strongest pastors the church has ever had.

Rev. R. A. Lee was the fourth pastor. He is the father of Mrs. Lucan Faber of the city and is at present living at Knox City, though he is 74 years old, keeps well posted on all the worth while news of the world.

During the succeeding years the following have served as pastors: Rev. Pickney Harris, Rev. C. W. Smith, Rev. William Crawford, Rev. E. W. Ward, Rev. R. T. Hanks, Rev. C. T. Hill, Rev. William A. Moffit, Rev. M. E. Hudson, Rev. L. D. Bass, Rev. H. C. Compton, and Rev. T. Y. Adams, whose resignation has just been accepted by the church.

Rev. Adams will move to San Antonio early next week where he becomes one of the four field secretaries of the Texas Baptist State Convention.

The church numbers 375 members at present. It is their intention to call a successor to fill Rev. Adams' place as soon as possible. The Rev. Charles S. Pierce of Kaufman will preach for the congregation March 5th.

**Sunday School.**  
The church has a Sunday School organization second to none in the city in point of size and efficiency, with W. H. Jobe acting as its superintendent for several years past. The

Sunday School has been graded and uses the International Graded Literature.

**Young Peoples Societies.**  
They have maintained organizations for the young people of the church in the Senior and Junior Baptist Young Peoples Unions. Miss Ruby Stone is President of the Senior, and Holland Mitchell of the Junior division of the Society.

**Women's Work.**  
The Women's work of the church is well organized. Their Ladies Aid and Missionary Society has an enrollment of 130 women who meet every Monday afternoon. Their routine order of meetings are as follows: the first Monday is devoted to business; the second to work for Buckner's Orphan Home at Dallas and the meetings take place in the homes of the members, which are divided into three circles for convenience; the third to Bible study at the church and the fourth Monday to a Foreign Missionary program also held at the church.

Mrs. D. I. Herndon is now serving as president of the society with Mrs. L. Dunlap, South Circle president; Mrs. J. E. Johnson West Circle President and Mrs. Smithers president of the East Circle.

The church is planning to move their parsonage building from its present location to another lot, and build their new church on the corner of N. E. Third and Elm Street, where the parsonage now stands.

**WOODMEN AND CIRCLE TO HAVE BOX SUPPER.**  
Next Monday night Feb. 27th, the Woodmen Circle are going to have a joint meeting with a box supper and a short interesting program, which will be a great treat for all that attend.

All of the ladies, both married and single are going to come and bring a well filled box of good things to eat which will be sold to the men at reasonable prices and all you men that wish to have an extra good supper, and perhaps have the pleasure of eating with the best looking lady in town, must come prepared to buy one of these boxes. The entertainment alone will be worth more than the cost of your supper. So be sure and tell all your friends about this, as we want all members of both orders whether of the local Lodges or of some other Lodge to come out and enjoy this social meeting.

The race is on to see which side will have a majority the Ladies or the Men, so all of you get busy and have your friends come with you.

**First Baptist**  
Located at the corner of Elm and East 4th. Rev. T. Y. Adams, pastor. Sunday school, 10 a. m., W. H. Jobe, superintendent. Morning sermon, 11 o'clock; evening sermon 7:30 o'clock. Junior B. Y. P. # SOCIETY and Club

## BRIDGE—LUNCHEON

One of the most enjoyable social affairs in the city last week was the Bridge luncheon at the home of Mrs. John T. Johnson, Thursday afternoon from 1 to 5 o'clock. It has been an established custom of the club for the eight ladies making lowest scores to entertain the other eight, this to occur every three months. Mesdames Johnson, Patterson, Stiles, Fortner, Jas. Beall, Aycock, Pate, and Howell were hostesses.

Four tables were arranged for the luncheon which consisted of the following menu:

- |                          |                       |
|--------------------------|-----------------------|
| Oyster Cocktail.         | Fruit Salad           |
| Creamed Chicken On Toast |                       |
| Wafers                   | Peas In Potato Nests  |
|                          | Rolls, Celery, Olives |
| Cake                     | Coffee.               |

Following the luncheon, four games were enjoyed with Mrs. Joe Booth and Miss Mae Snell playing substitute hands. George Washington's birthday was cleverly featured in the flag and hatchet guest favors, place markers and score cards.

## BRIDGE CLUB

Mrs. Ed Patterson was hostess for the Wednesday Bridge club Friday afternoon from 3 to 5 o'clock at her home on North Locust street. The usual four tables were arranged and four enthusiastic games were indulged in.

Following the close of the games, Mrs. Patterson served a chicken salad course, assisted by Mrs. C. A. McClintic to the members and special guests who played substitute hands: Mesdames Paul Sorenson, R. S. Malone, J. M. Charlton, Dalton Moore, and Miss Peyton Irving.

Mrs. Oscar Pate will be hostess on March 3.

## BIRTHDAY LUNCHEON.

Mrs. Lucian Faber entertained with a luncheon Friday at noon honoring the birthday anniversary of her daughter, Miss Modena. Plates were laid for Misses Faber, Mollie Mogdy, Thelma Howard, Mr. and Mrs. Robert Jolly, Mr. and Mrs. Austin Altizer, Mr. and Mrs. Lucian Faber, Mr. and Mrs. O. O'Rear.

## ENTRE NOUS CLUB.

Misses Mollie Howe and George Stiles entertained the girls of the Entre Nous club Wednesday evening at the home of Miss Howe on West North Fifth street.

Miss Zada Maxwell, the president, presided over a short business session during which Misses Katherine Bemis, Rub. Hemby, Edith Green, Modena Faber, and Mable Spann were elected to membership.

"I Doubt It" played with Rook cards furnished the evening's amusement, and a number of games were played. Mrs. Hudson and Miss Opal Joe Howard made highest score.

The decorations of the home and score cards featured the George Washington's birthday idea in red cherries and hatchets. A salad course was served. Mrs. W. W. Hudson and Mrs. J. W. Hargrove, the latter of Mineral Wells, were special guests. Misses Christian Morrow and Langford will be hostesses March 2.

## WARNS COUNTY BUSINESS MEN.

Registrations Of Owners Real Name Necessary to Avoid Complications. The attention of business men in Nolan county who are conducting their business under an assumed name without the registration of their real names should be attracted by the following warning by W. E. Ponder, county attorney:

"Your attention is called to an act passed by the 27th Legislature in which it is made a penalty to conduct a business under an assumed name without registering the real owners of the business with the County Clerk of said county, which penalty is not less than 25 nor more than 100 and every day such business is so operated under an assumed name is a separate offense.

"Therefore, those who have not registered with the county clerk, as by law prescribed, will please do so without delay, as it is made the duty of your county attorney to prosecute such cases. I hope all will comply with this law, and feel sure those who do not know of the existence of such law, if any, will immediately upon this notice comply with the law."

Respectfully,  
W. E. PONDER,  
County Attorney.

## Pius XI in Papal Robes

First close-up photo of Pope Pius XI in his papal robes to reach this country. It was taken immediately after his election.

## "CORN" A SLOW POISON

Large Percentage of Fusel Oil in Liquor.—Body Retains Drugs.

Good corn whiskey? "There ain't no such animal," contends Prohibition Agent Petty. "Repeated chemical tests of corn whiskey seized by police and Federal agents for the past two weeks show that the corn, even the clear third run article, has a quantity of fusel oil in it."

"And fusel oil in the blood is equal to embalming fluid, say chemists. Petty held up a half gallon jar of the

juice that cheers Thursday. It was clear and sparkling, a steady "head" came to the top when he shook the jar. But this whiskey apparently pure as distilled water, contained 12.22 per cent fusel oil, according to a chemical analysis. It was 52.78 per cent alcohol and Chemist H. M. Stephenson reported that some foreign substances had been found.

The corn liquor that is thrice distilled averages 5 per cent fusel oil. Stephenson has made a number of tests of liquor for the prohibition agents recently of corn whiskey, corn mash, home brew and wine. Practically every kind of alcoholic liquors

tested showed heavy percentages of the poisonous oil.

The oil was tested, Stephenson, after testing it, announced that it was slow poison. The human system will retain the oil and when enough whiskey is drunk to absorb a certain quantity of the fusel oil into the blood the oil will drive the blood from the body and death will follow.—Ft. Worth Star-Telegram.

## WORDS OF APPRECIATION

The undersigned desire to make public expression of their appreciation of the courageous work done by the Volunteer Fire Department of Sweetwater in fighting the fire which destroyed the J. H. Clark home Wednesday afternoon. The response of the fire boys was prompt, and they did everything possible to save both the house which burned and the adjacent property. We acknowledge ourselves to be heavily indebted to each member of the department for the courage, energy and good judgment so unselfishly displayed.

J. C. Holland.  
J. H. Clark.

## 21 It de

## S. M. U. MUSIC CLUB COMING.

Will Play in Sweetwater March 27. Club Contains Thirty Young Men.

What is known as the best musical organization in the State is that called the Glee and Mandolin Club of the Southern Methodist University in Dallas.

This excellent organization is making a tour of the northwestern part of the State and giving entertainments in all of the larger towns. They are scheduled to appear in Sweetwater on March the 27th and their program will be one of pleasing note.

This club contains the university's best talent and there are thirty young men composing the troupe and they arrange their program in a way so as to please every one who is fortunate enough to hear them.

To those who have never heard this excellent organization, it is to say that they furnish one of the best and most entertaining programs that has ever been arranged by any university in the State. It will be to the interest of every one to begin making preparations now to attend the club when they appear here.

## CLUB WOMAN ENDORSES LOIS WEBER'S PHOTOPLAY

The vice-president of the Illinois Federation of Women's Clubs, Mrs. Edward S. Bailey, editor of "The Edict," pays a high compliment to Lois Weber, America's only woman producer of photoplays.

In a recent communication Mrs. Bailey, who is perhaps the most outstanding figure in women's club affairs in the Middle West says: "I believe that the opposition in Illinois to the movie has arisen from

a lack of understanding of just such producers as Lois Weber, her objects and ideals."

Lois Weber finds time even while making photoplays in Los Angeles to attend to her club duties. Each year on her annual trip to and from New York she speaks at meetings of club women in the larger cities en route.

Miss Webster keeps in close touch with club women because she is frank to admit that it is from them that she frequently obtains many of the germ plots for her photoplays.

## TAKE MUSICAL CENSUS

Each Family in Sweetwater Will Be Asked Musical Ability in Family. One of the most novel census estimates of a city will be undertaken by P. T. Quast, local musical dealer.

Mrs. Guy B. Childress will ask each family whether they like music or not, the kind of music and what the musical ability of the family is and the kind of musical instruments such as pianos, violins, etc.

By the time this census is complete

Mrs. Quast will have an exhaustive inventory of the town and its musical capabilities.

The word "pleasure" is getting so it stands for things parents don't tell their children.

Cigarette stains on the fingers should be hidden when looking for a job.

The fewer the clothes, the fewer the morals.

The more a man knows, the less he has to say about it.

A woman's face often tells what sort of a husband she has.

LOCAL AND PERSONAL

Little Mary Jane Dulaney was resting some better Saturday afternoon.

Mr. L. L. Welch of Colorado is a new arrival at Grogan Wells Sanatorium.

Mrs. H. H. Rudd of the Palva Community is convalescing at Grogan Wells Sanatorium.

R. D. Garrison of Warren, Arkansas has just arrived in the city for a protracted stay at the Grogan Wells.

Mrs. C. W. Harrell of Bronte is another new patient at Grogan Wells Sanatorium.

Mrs. M. E. Lindley of Colorado who has been at Grogan Wells for some time reports that she is steadily improving.

Misses Ruby and Emma Lee Hemby returned from Dallas this morning where they have spent the week visiting and looking after business.

Mrs. E. C. Brand will be hostess at a meeting of the "T. E. L. L." Sunday School class at 3 o'clock, Wednesday afternoon.

Mrs. J. L. Stephenson will be hostess at 3 o'clock Wednesday afternoon at a meeting of the Wesley Bible Class.

The ladies of the Christian Church held another successful cake and pie sale Saturday afternoon at the Wooten Motor Co.

The Rev. G. C. Harris will fill his regular appointment at the Champion school house this morning at 11 o'clock and again this evening.

Mrs. Dalton Moore will entertain the members of the Ladies Guild, on Monday afternoon at her home on E. N. 5th St.

Mrs. F. Bunch returned to her home in Ranger, following a stay in the city since Christmas, assisting her aunt in nursing her uncle Joseph Guler for nine weeks preceding his death on Feb. 17.

Ed Mashburn has returned to his home in Ft. Stockton, following a short visit in the city, with his father L. J. Mashburn and family.

Mrs. J. W. Hargraves of Mineral Wells is guest of her aunt, Mrs. W. W. Hudson on W. N. 5th street. Mrs. Hargraves was formerly Miss Hazel Gentry of Dublin.

Mrs. J. T. Hughes visited her sister, Mrs. R. W. East, in Rotan a few days this week and has returned home.

Mrs. Paul Jones of Dallas, who has spent the winter in San Antonio, has arrived in the city to visit her mother, Mrs. J. D. Whitworth, at 605 Pine Street.

A deal has been closed whereby E. F. Bishop and his brother E. L. Bishop of Palestine and Mr. Robbins of this county become owners of the Sweetwater Machinery and Boiler Makers Shop on Pecan St., and will move their families to the city at once.

Paul Bunch has returned to Ellenville, following a visit with his aunt, Mrs. Joseph Guler, after attending the funeral of his uncle. Mr. Bunch has been Manager for the warehouse of the Prairie Oil and Gas. Co. in Ellenville for some time.

MAY SELL MUNICIPAL BONDS

Certificates Valued at \$120,000 May Go To Dallas Company. The sale of \$120,000 worth of sewer and water bonds belonging to the city of Colorado is pending, according to a member of the City Council. Waterwork extension bonds valued at \$85,000 and sewer bonds equalling \$35,000 compose the amount. The George L. Simpson Company of Dallas, Texas, is the prospective purchaser of the bonds.

ISSUES MARRIAGE LICENSES.

A marriage license was issued Saturday to I. J. Bigony of Roscoe and Miss Erlene Grace of the same place. J. B. Nettleton of Sweetwater and Miss Ida Rowland of Roscoe secured a license Thursday.

The jurors for the second week of the February term of the county court are as follows: N. I. Nowell, H. H. Knox, L. G. Kerbey, T. V. George, E. A. Ater, W. P. Copeland, J. C. Glenn, Irl F. Faver, Louis Horn, G. A. Hollowell, Herman Scott and Morgan Garrett.

The petit jurors drawn for the second week of the March term, beginning March 13, are as follows: T. O. Hopkins, T. F. Bryce, S. H. Garrett, T. V. George, W. B. Hargreaves, W. E. Thomas, W. G. Chew, Jno. Craig, Ira Jant, A. M. Coleman, H. H. Knox, J. A. Hill, W. W. Robertson, H. S. Wright, T. L. Finch, F. R. Demere, A. H. McElmury, T. R. McLeod, A. T. Bruce, R. S. Calvert, J. E. Derrick, Jno. Embry, L. N. Gildert, S. J. Keith, J. P. Majors, Claude Rogers, Roy Casseau, and W. V. Davenport.

VOTE YES ON TREATY.

Seven Democratic Senators Favor Ratification of Four Power Pact.

WASHINGTON, Feb. 25.—The Senate Foreign Relations Committee ordered a favorable report to the Senate on the Four Power Pacific Treaty and Naval Ligation Treaty and treaty limiting the house of poison gas and submarines, adopting the reservation excluding Japan proper from provisions of Four Power pact and leaving only Chinese Customs Treaty to be acted upon.

A canvass of the senate showed only seven Democratic senators favoring ratification of the Four Power Treaty.

WILL OPEN CAMPAIGN HERE

Candidate For Senate To Speak in Sweetwater March 2

Cullen F. Thomas, lawyer-politician of Dallas will open his West Texas campaign as a candidate for the United States senate in Sweetwater at 2 o'clock, on the afternoon of March 2, which comes on Thursday, to succeed Charles A. Culberson, the pres-

ent incumbent. He opened his campaign in East Texas Feb. 15 at Valley Mill where he once taught school. In response to a big petition from the citizens of that city W. H. Jobe was in receipt of a telegram from Mr. Thomas Saturday as follows: Dallas, Texas, Feb. 25: W. H. Jobe: Will open my campaign in West Texas, at Sweetwater, 2 p.m. Thursday March 2nd. You and other friends kindly make all arrangements.

Signed, Cullen F. Thomas.

CONFERENCE CALLED.

Believed, However, Coal Strike Will Be Settled By States Individually.

WASHINGTON, Feb. 25.—Acceptance of the government act for a conference between the bituminous coal operators and miners to avert a nation wide coal strike is practically assured according to government observers.

It is believed, however, that settlement will not be reached in the proposed conference but will be worked

out through state district agreements, rather than by national agreement such as is now in force.

When six hours is the standard days work, civilization will start in loafing itself to death.

A SPY WITHOUT A COUNTRY

(Continued From First Page.)

to Amerongen to see the kaiser. A few weeks later, he had a new cause. "I marched into Berlin at the head of the Kapp army," he added with gusto. "I was out there in front of the procession of soldiers, generals and counter-revolutionists. But the revolt failed and I went to Budapest." He became involved in the sale of some secret documents to the Czechoslovakian government and was arrested for fraud.

"It took me three and a half months Lincoln said smiling, before I was expelled. I sent to Italy. There I did nothing. I wanted a chance to get

into some quieter business. So I came on here. And now—

"I'm in trouble again!"
