### HOUSEHOLD HINTS

**Quick Coffee Cake**—One-third cup fat; one-fourth cup sugar, one egg, one cup milk, one teaspoon salt, two and a half cups flour, three teaspoons baking powder, three-fourths cup raisins, two tablespoons sugar, one teaspoon cinnamon.

Mix melted fat, sugar, slightly beaten egg, and milk. Sift flour, salt and baking powder, and add to other ingredients. Add chopped raisins. Pour in oiled cake pans and sprinkle with mixture of two tablespoons sugar and cinnamon. Bake in hot oven for 15 to 20 minutes.

**Potato Omelet**—One cupful mashed potatoes, one egg, two to four tablespoonsful of flour, chopped parsley or chives, salt and paprika to taste.

Beat the eggs well, then combine all materials, using only enough flour to form a rather thick batter, melt a spoonful of butter in a smooth pan, then pour in the batter and smooth top. When bottom has been browned, invert on a plate, melt another spoonful of butter in pan and slide in the omelet to brown bottom. Serve at once on hot plate.

**Filipino Sandwiches**—Finely chop fresh roasted peanuts, season with salt and moisten with cooked salad dressing. Finely chop garden or watercress and an equal measure of finely chopped green onions; moisten with salad dressing. Spread thin slices of white bread with salad dressing, cover half the slices with nut mixture and remaining slices with cress mixture. Put together in pairs, press edges, trim off crusts and cut in narrow strips or triangles. Serve at luncheon with tea.

**Beef and Tomato Stew**—One pound of beef from one of the tough pieces, such as the neck, shoulder, lower part of round, alch bone, etc., cut into suitable sizes for serving. Divide in two portions. Add one portion to cold water and heat slowly to boiling point. Meanwhile sear the other portion by browning in a little fat in the frying pan. Then add it to the water and meat. The whole should then be cooked until the meat is nearly tender, then add one cup of canned tomatoes, one small onion, sliced thin, one cup of carrots, diced, three cups of potatoes and salt and pepper to taste. Continue cooking until vegetables are soft. Serve very hot.

### MEALS FOR A DAY

Here are more suggested meal menus:

**Breakfast**  
Baked Apples, Boiled Rice, Beef Hash, Toast, Coffee.

**Lunch**  
North American Dish, Bananas and Oranges, Caramel Cake, cocoa or milk.

**Dinner**  
Tomato Soup, Beef Roast Heart, Scalloped Onions, Cold Slaw, Prune Pudding, Coffee.

**Beef Hash**—Chop cold roast beef or cold steak to make two cups; add two or three slices of onion in two table-spoons butter, or beef drippings when onion is brown add the meat, season with one-half teaspoon salt, one-fourth teaspoon pepper and moisten with a little hot water and one tablespoon butter. Let a crust form on the bottom and turn the hash brown side up-permost on hot platter. Serve poached eggs on top.

**North American Dish**—Put into the top of double boiler four cups of water; when boiling add one teaspoon of salt and one cup of coarse yellow corn meal slowly stirring while you put it in; keep stirring until it thickens, then cover and boil 30 minutes. Remove from the fire and add three table-spoonfuls of seeded raisins, which have been washed; beat one egg, yolk and white together, until light and add to the corn meal and raisins. Brush a large pie plate with a little melted butter; pour the cornmeal and raisins in and bake 30 minutes in hot oven. This is one of nature's own dishes and is very wholesome and nutritious.

**Tomato Soup**—For our tomato soup we use two cups of canned tomatoes and four cups of the rice stock which we saved from breakfast. Put the stock in sauce pan or boiler, add the tomatoes, which have been mashed one-half cup of the water in which our onions were boiled, salt and pepper to taste. Rub one teaspoonful of flour until it is smooth, add to boiling soup and stir until it becomes smooth and creamy, being careful that flour and butter are well blended.

**WHERE IS YOUR TREASURE**

Where your treasure is, there will your heart be also.—Matthew 6: 21.

**HOW TO GET KILLED**

Whenever you use a ladder, remember that it is the most dangerous device in existence. Ladders continue to cause more accidents than anything else. This is shown by insurance experts' latest check-up of fatal and non-fatal casualties. Every minute of the day and night, 23 Americans are seriously injured by accidents.

In the last few years, accidents killed or injured more Americans than the total killed on both sides in the World War. Human deaths by accidents in the United States average around 60,000 a year, or 165 a day, according to the census.

You are, of course, "afraid of getting injured." And of what are you most afraid? Autos, probably. Yet, for each 67 people killed by autos, 68 are burned to death, 56 die in railroad accidents, 56 are drowned, 26 die in mines, 34 are asphyxiated by gas, 21 are killed around machinery, 23 by street cars, 23 by bicycles and horse-drawn vehicles.

And, topping the list, 111 are killed by falls—from ladders, out of windows, down elevator shafts, slipping on icy sidewalks.

Be made safe by a sprinkling of ashes. Read those figures a second time, record them indelibly in your brain, and you'll know what to be careful of unless you want to meet the undertaker.

Nearly all accidents are the result of careless ness—taking needless chances in the face of danger.

Obviously, then, nearly all accidents could be prevented. The prevention of accidents, according to safety engineers, is about half safety devices and half personal caution.

It is now 22 years since Dr. William H. Tolman returned from Germany, where he had been studying accident prevention, and started the Safety First movement in our country. That movement has worked wonders. For one thing, it has reduced railroad deaths to a third of what they were in 1907.

The trouble with the Safety First movement always has been that it is spasmodic. Between celebrations, the public gets lulled into carelessness, then accidents burst forth again on a big scale and another Safety Movement is started.

To keep the Safety First fire burning constantly, several hundred prominent citizens have just formed

**FAME**

C. W. Barron, veteran financial writer who has so much horse-sense that Wall Street stops and listens when he talks, says in a speech:

"On the top of the Rocky Mountains where the line of the Union Pacific goes over the Great Divide there stands a monument in stone to Oakes and Oliver Ames, the shovel makers of Massachusetts, who first bound in lines of iron the Mississippi Valley and the Rocky Mountains."

You know a lot about Napoleon Bonaparte and other destroyers. But did you ever before hear of Oakes and Ames, constructors of first railroads linking the Mississippi Valley with the Rocky Mountains? Probably not. Such is fame, laurels all for the destroyers. Even Barron off-hand couldn't remember Oakes' first name.

People know lots about the destroyers of the past, very little about the past's inventors and constructors. That is the fault of herowriters who wrote our history books.

The public instinctively realizes that one constructor is worth an army of destroyers. That is why the famous men of today, the ones most talked about, are the Henry Fords, Edisons, Rockefellers, Steinmetzes, Marconis and Goethalses.

Historians will change it all. When they get through with the records, militarists will eclipse the others. That's, unless the movement to write history sensibly becomes successful.

E. H. Harriman, son of a clergyman who never had an income bigger than \$800 a year, became a railroad king.

Harriman built railroads that enabled farmland 1500 miles from seaboard to compete in the Liverpool grain market with the wheat lands near South America's coast. He conquered space, built a commercial empire from the Atlantic to the Pacific and down to the Gulf of Mexico. Quite an achievement. Yet the history books have little to say about "E. H." though devoting pages to a man named Custer who never did anything except shoot a lot of Indians and loot their scalps.

Fame shadows unimportance. It's the step-brother of notoriety.

Mrs. F. B. Farquhar and daughter Reba of Ranger and sister Mrs. Bert Mayes and son Howe of Merizon have returned to their respective homes following a visit of several days in the city with their parents, Mr. and Mrs. R. H. Howe and family.

**MAKES SIX-MILLIONTH MOTOR**

Turned Out By Ford On May 18.—Approximately 80 Per Cent Still Run

The six millionth Model "T" Ford Motor was produced May 18th, in the Ford Factory at Detroit. In other words, from the time back in 1908 when the Ford Motor Company began marketing the new famous Model "T" Motor Car until May 18th, 1922, a total of six million Ford cars and trucks have been produced. Out of this total 5,517,956 were delivered to purchasers in the United States alone, and according to the latest statistics, 4,478,248 of these Ford cars and trucks are still in daily service.

Thus, it will be seen that out of every five Ford cars and trucks sold to retail purchasers in the United States alone during the past fourteen years, four are still in actual daily use which is remarkable when the hard service of commercial cars is taken into consideration. This seems to forcibly confirm the popular knowledge of the longevity of Ford cars.

That Ford products have been quite evenly distributed throughout the United States is borne out by the fact that through the sparsely settled communities in the West to the densely populated cities in the East, practically the same ratio of Ford cars and trucks to population exists.

Ohio leads with a total of 290,769 Ford cars and trucks in daily use; Illinois comes second; Pennsylvania third, Texas fourth, and Michigan fifth, with a total of 234,051, New York, Iowa and California follow in the order named, each having more than 200,000.

An idea of the important part played by Ford cars and trucks in the daily transportation of goods and persons in the United States can be gained by realization of the fact that with the Ford cars now in operation, averaging a minimum of 5,000 miles per

year each, they would pile up a total of Twenty-five Billion transportation miles—equivalent to more than a million trips around the world.

**FRENCH COOK DECORATED**

By the United Press.  
PARIS, June 8.—The French government paid an unusual tribute to French culinary art when Prosper Montague, 37 years, a cook, received the decoration of the Legion of Honor

from the hands of Daniel Vincent, former Minister of Labor. Montague started the army kitchen during the war and is the author of a book "Formulas for army cooking." He has sent over 500 of his pupils to the United States. Prohibition in the United States discouraged French cooks from returning to America after the war as they are unable to obtain all the ingredients necessary to the constitution of a thoroughly French sauce.

## "SHOWER" FOR NEWLY WEDS

Rev. W. H. Jackson and his bride are the possessors of quite an assortment of household linens of many kinds, many pieces of pretty aluminum ware, china and silver as a result of a "shower" given them by the ladies of Lamar Street church of which he is the pastor.

They were six o'clock dinner guests of Mr. and Mrs. Olen McLeod and just as they were leaving the dinner table about seven o'clock, the whole affair was a happy surprise to the pastor and his wife, but doubly appreciated because of that fact.

When every gift had been examined and the usual word of thanks given they all attended church services at the First Baptist Church. Rev. and Mrs. Jackson have apartments at the home of Mrs. J. F. Eidson on Lamar Street near the church.

## WITH THE AID SOCIETIES

**EPISCOPAL CHURCH**  
Mrs. Guy Morris was hostess at the monthly meeting Monday afternoon of the Episcopal Guild.

Mrs. J. C. Babb presided over a short business session. It was decided to devote the meetings during the summer to purely social pleasure and take up real work again in the fall.

The meeting concluded with a salad course, which the ladies enjoyed very much.

**BAPTIST CHURCH**  
The Womans Missionary Society of the First Church turned their meeting into a prayer service Monday afternoon. A good number of attendants were reported.

**LAMAR ST. CHURCH**  
The ladies of the Lamar Street church enjoyed their regular Bible study with Mrs. B. L. Frost leading the lesson from Acts 11:9 to 30.

Next Monday will be the time for the regular Manual study. The meeting will be held at the church.

**PRESBYTERIAN CHURCH**  
The Ladies Auxiliary met in Circles Monday afternoon for Bible study. Circle A met at the church, with Ray McLaurin leading the lesson. Circle B met at the home of Mrs. Royal Headrick, with Mrs. Oscar Pate leading, after reading the scripture

lesson from Mark, 12:Chap. Mrs. Headrick served a tempting ice course at the close of the lesson program.

Mrs. A. R. Cannon at 311, Hickory St. will be hostess at next Mondays meeting.

## METHODIST CHURCH

Mondays meeting of the Woman's Missionary Society was devoted to a routine of business and the meeting was presided over by Mrs. W. W. Beall.

The Society will meet in Circles next Monday for Bible study as follows: West Circle with Mrs. J. I. Payne; Central with Mrs. J. M. Booser; South Circle with Mrs. W. P. Curtis on Lamar St.

## GLEANNERS MISSIONARY SOCIETY

The Gleaners Society met at the home of Mrs. Joe Boothe. The president, Mrs. Gibson presided over their regular accumulation of business.

Miss Boulah Wallace was elected delegate to represent the society at a meeting of the Woman's Missionary Conference which meets at Big Spring the latter part of the month. An interesting program on Korea had been arranged and was presided over by Mrs. Jack Frost, who also gave a talk on Missionary work in Korea, and the founding of missionary work in the district and the new Korea of the present day. Mrs. Ted Hall followed her with an interesting paper on Militarism in Korea.

The meeting was concluded with a salad course, served with ice tea. Mrs. Ted Hall will be hostess at Mondays meeting.

## CHRISTIAN CHURCH

The Woman's Board of Missions held their regular monthly meeting Monday afternoon at the church. The main feature of the business session was the election of officers when Mrs. F. M. Poffenbach was re-elected President of the society; Mrs. L. E. Epper son, Vice president and Mrs. Robert Eidson, Secty. Treas.

Their new years work begins with the first meeting in July. Mrs. Robert Eidson read a very interesting article on the Christian College of Missions at Indianapolis, Ind.

Mrs. John Hubbard told an interesting story of missionary work on the Congo as told by a returned missionary, whom she heard during her recent visit at Taylor, also of another Missionary from South America who had lectured on the progress of the foundation of the Christian religion in that land of ignorance and religious superstition.

The ladies will meet at the church next Monday afternoon at 4 o'clock in regular Aid Society for Bible Study

## "HUP" DEALER PLEASED

Results From Newspaper Advertising "Hup" Distributor.

"A Hupmobile day" is the way J. R. Overstreet, West Texas Distributor of Hupmobile cars with headquarters at Fort Worth Describes the way the famous "Hup" has been selling during the past month in his territory.

"Yes, better than a car a day," declared Overstreet, "for our actual sales in this territory have totaled just 33 Hupmobiles in just 30 days and in addition to this splendid record of retail sales, we have added nine new, live-wire dealers to our list of Hupmobile sellers in the same period of time.

"I ascribe the astonishing record of the last 30 days almost directly and

exclusively to the use of printer's ink," he continued, "for we have sold these cars and secured these new dealers in territories covered by the advertisements we are now running in the local papers and in practically every instance the sale or contract was traceable directly to the local paper.

## MISS DALTON BOBS HAIR

Was Necessary in Order to Play in "Moran of the Lady Letty"

Dorothy Dalton had to cut a couple of inches off her hair which had already been bobbed to some extent, so that she could more easily make up for the role of "Moran" in George Melford's production for Paramount of Frank Norris' famous sea story, "Moran of the Lady Letty," showing at the Queen theatre today. She dresses as a sailor—the mate on her father's ship—in many scenes and the role is a primitive one, full of rough and tumble fighting and thrills. Rudolph Valentino plays the leading supporting role and Walter Long, famous screen villain, is an Eurasian mongrel and murderous captain of a smuggling ship. The support generally is excellent.

## GUARDS MEET SUNDAY

The Sweetwater National Guards are asked to meet at 2:30 o'clock Sunday afternoon at Swatter Park.

Every member of the company has been requested by Captain Sidney Mason to be on hand promptly at the designated hour. The men will be divided into squads and the drill work outlined.

Attention is called by the officers of the unit to the fact that the state encampment of the National Guard will be conducted at Camp Mabry at Austin, the last week in July and the first weeks in August. In order for the local company to present the appearance they are striving for, a great deal of training is necessary, before they go to this encampment.

## COLORED CEMETERY CLEANED

John King and a crew of helpers have cleaned the colored cemetery adjoining the City Cemetery, of all weeds and underbrush.

They rounded up all the graves nicely and cultivated the flowers in shrub al though it presents a very much improved appearance.

L. T. Maner spent the day yesterday at Hylton in interest of his candidacy. He reports the Hylton folks are planning a big basket dinner and barbecue on July 1st and invite all the Nolan County candidates to come prepared to make at least a short "speech."

**TO DISCUSS VITAL ISSUES**

Sterling P. Strong To Speak At Court House At 8 O'clock Tonight. Issues of vital importance to state and nation will be discussed at 8 o'clock tonight at the court house by Sterling P. Strong, Democratic candidate for United States Senate. Mr. Strong, who spoke at Colorado last night and at Snyder yesterday afternoon, is emphasizing the need of voters being on their guard against an organized effort being made in every state of the union by the "wet" forces to nullify or destroy existing anti-liquor laws.

In his speeches throughout West Texas Mr. Strong has expressed his sympathy with the efforts of this section of the state to obtain a West Texas A. & M. College, he having been raised in this part of the state. Mr. Strong also is pledging himself to use his influence to gain federal aid for West Texas Highways, if elected to

the senate, and to demand that the government accept the offer of Henry Ford to take over and operate the water power plant established at Muscle Shoals, Florence, Alabama. Mr. Strong's last speech of the week will be in Abilene Saturday afternoon.
