## FISHER COUNTY FARMERS GIVE

Sweetwater Striking Shopmen Receive Truckload Of Produce From Rotan.

MERCHANTS DONATE SUM \$194.05

Joint Meeting Of Shopcrafts Union And Farm Labor Union Is Held At Roby.

A well attended meeting of the Fisher County Farm Labor Union was held at Roby Saturday with representatives from Jones County and also a representation from the Sweetwater Shopcrafts Union now on strike.

The meeting was addressed by State Organizer J. L. Richardson and also by John Ford from Sweetwater. Judge Ford in his address touched upon the issues involved in the shopmen's strike, citing a dissenting opinion of the Railroad Labor Board as follows:

"The rates of pay established under this decision are not based upon the human needs of the hundreds of thousands of families involved. They are insufficient to provide these families with the absolute essentials. The earnings of this large group of railroad workers will not provide the father of a family with as much food as is allowed convicts in Cook County, Illinois, jail."

The men who attended from Sweetwater included in addition to Judge Ford, Ray Smith, H. P. Springer, Day, Faight, C. E. Hailie, E. W. Gill, Jasper M. Daniel, Joe Turner, Andy Lowrey, B. D. Moore.

A truck-load of produce, estimated to be worth nearly \$200 was donated Sweetwater strikers, arriving here the latter part of the week from Rotan. The contents consisting of potatoes, fryers, onions and other items were contributed by the following members of the Farm Labor Union of Fisher County:

Lon Masters, Walter Grimes, Mrs. Thibod, Mrs. Box, W. B. Royalty, T. J. Roney, J. C. Odum, J. H. Roney, M. L. Royalty, R. B. Royalty, J. W. McCombs, H. B. Rivers, J. M. Benton, Mrs. R. B. Royalty, J. G. Royalty, Lenard McCombs, M. Morgan, J. E. Williams, M. O. Standard, L. W. Butler, A. B. Terrell, E. H. Chandler, M. R. Chandler, all Fisher County farmers.

In addition to that a total of \$194.05 has been contributed in cash and merchandise by Sweetwater merchants, as follows:

Star Market \$5 meat; Wade Bros. \$5 meat; Roy Hardware \$5 meat; Freeze and Elliott \$5 meat; Simon O. Keefe \$5 groceries; C. L. Freeman \$3 groceries; J. Wagner \$2.50 groceries; W. H. ## MAY BE MISSING BANKER.

By The United Press. LAREDO, Aug. 12.—A man said to be Edwin F. Morse, who is wanted in Denver on a charge of absconding with \$75,000 from the International Trust Company there last August, was arrested here a she crossed the Rio Grande River from the Mexican side. He agreed to waive extradition.

## FIRST BALE AT COLEMAN

Special To The Reporter. COLEMAN, Texas, August 11.—Coleman received her first bale of 1922 cotton early this morning. It was brought in by Mr. R. M. Baggott who farms near Leady, this county and was ginned by the J. S. Rogers gin, weighing 445 pounds. Will Cockran, a local cotton buyer, bought the bale at midday. A premium was paid Mr. Baggott, paying \$101.00 and was classed Baggott. Our first bale of 1922 cotton was received here on August 4, just a week earlier than this.

Mr. and Mrs. Bryon Bucks have gone to Coleman to spend his vacation.

## TWO MEN RELEASED ON BOND

Wounded Man May Be Subject To Charge Of Transporting Girl For Unlawful Purpose.

By The United Press.

DALLAS, Aug. 12.—Howard Johnson, 28, and a musician of Dallas, is in a sanitarium here, probably fatally wounded with seven bullet wounds, as the result of a shooting in a local hotel Saturday afternoon, caused by domestic affairs.

C. T. Harp of Rockwall and J. E. Hamilton a Waxahachie druggist, were released on \$5,000 bond following a statement by Harp admitting shooting Johnson because the latter had ruined his daughter.

The girl is also a step-daughter of Hamilton. She left home recently, and following a search, was located in Dallas living with Johnson. Both fathers came here and the shooting followed.

Johnson has been separated from his wife for some time, but she rushed to the hospital when she heard the news of the shooting. Johnson had been arrested a week ago on a charge of transporting the girl from Waxahachie. This case is pending.

## ON TO GALVESTON

Loraine And Local Lodge Delegates Leave For Encampment On A Special Train.

Delegates from the local and Loraine W. O. W. lodges left Sweetwater Saturday afternoon for Galveston where they will attend the encampment of the W. O. W. lodge there August 14-15.

The delegates from this district are under the command of Colonel J. H. Simms of Sweetwater. The party left on a special car and another special car bearing fifty delegates to the convention from Amarillo joined the train here.

This encampment is the first that has been held since 1916. Approximately 3,200 members were present at the last encampment of the organization. The attendance this year cannot be estimated.

## HE'S KING OOMPAH

Saxophone King Took Seriously A Banker's Business Advice—"Blow Your Own Horn, Sonny."

**BY ROY GIBBONS.**  
CHICAGO, August 12.—Blow your own horn, sonny, and blow it hard! This was the advice the town's richest citizen in Adrian, Mich., gave to Isham Jones 12 years ago.

Jones had gone to the moneybags asking the formula for a short cut to great wealth.

Today Jones owns a palatial home and a fleet of automobiles and has servants and all the trappings of wealth. And his bank account is swelling so fast that he can hardly keep track of it.

"Simple," says Jones. "I blow my own horn—I mean my saxophone."

To the world of music Jones is what Charlie Chaplin is to the film.

His nickname is "King Oompah." That's because he's probably the highest paid jazz orchestra leader in the country.

A loop hotel here pays him \$3,500 a week to play in its restaurant two hours an evening.

Phonograph companies are clamoring for his services to make jazz records for them.

During the last five years Jones and his saxophone have accumulated over \$800,000 in salary and royalties from his compositions and phonograph records.

And the jazz king is only 28.

Members of his orchestra have grown prosperous with him.

Jones is a big strapping fellow and looks entirely unlike a musician.

But how he can play!

"I'm going to make a million and then quit," he says. "There's no use working all your life. A million will suit me fine."

Jones goes to work in his specially designed limousine. The driver wears a mouse-colored uniform to match the color scheme of the car.

A pocket has been built into the auto to hold Jones' saxophone.

Usually after each performance Jones takes in the town with his wife. Jones spends with the prodigality of "Coal-Oil Johnny" of a half-century ago, tipping with bills of large denomination. But there's method in his madness, for thus he

seemed to get the biggest applause from the audience, but he thought, Jim Robinson the triple somersault bareback riding monkey, was the hit of the show.

keeps attuned to the spirit of jazz. Frequently he uses his orchestra to raise charitable funds.

Folks say "King Jazz" has a heart as large as a piano.

## DEAD IN AUTO WRECK.

A big Cadillac touring car driven by Lloyd Shaw turned over about 12 miles west of Snyder Tuesday evening about 3:30 near Dermott. Mrs. Lizzie Heatley was caught under the car and received injuries from which she died in a short time and before reaching Snyder. It was said that the party which consisted of Mrs. Heatley, her 13-year-old daughter, Marjorie and Lloyd Shaw who was chauffeur for Mrs. Heatley, were returning from Denver, Colorado to their home at Breckenridge, and according to the driver's story were running about 40 miles an hour when the car suddenly and without warning swayed from side to side and turned completely over. The girl and driver were thrown clear of the car and were only slightly bruised. The corps were brought to the undertaking parlors at Snyder where it remained until Wednesday evening when it was shipped to Breckenridge, her home, for interment.—Snyder Signal.

**BUYING.**

The average shoe dealer last year lost money, the loss being about two per cent of net sales, according to Bureau of Business Research of Harvard University.

Even when prices were highest, many retail merchants lost money, due partly to unfair practices by customers—such as getting a spool of thread delivered five miles or returning garments after wearing them once to a dance.

We need schools to teach people how to buy scientifically, more than we need schools of scientific salesmanship.

**CANDY.**

Cost of running the national government now is nine cents a day for each of us, and for candy we spend two cents a day apiece.

William Moffett, of the National

Salesman's Association, says the nation's candy bill is \$750,000,000 a year. Half of this big sum is spent by the kiddies, in pennies and nickels.

We notice the government's cost because most of it is assessed in a lump, while candy and similar luxuries take their toll in small but steady nibbles.

**HOMES**

A building trades round-up shows this: The number of new one-family dwellings started last year in 140 leading cities was 71 per cent more than the year before. Permits for erection of two-family houses increased 211 per cent over 1920. The one-family home seems to be a vanishing institution as cities grow larger. This is progress—backwards.

If you build, you will want to compare prices. The average one-family house cost \$3925 to build in 1921, against \$4314 in 1920. Two-family dwellings similarly dropped from \$7949 to \$7874.

**PRACTICAL.**

A four-year course in training students to be hotel managers will be started by Cornell University.

We need similar schools for every industry. Few men who go into business for themselves make a success of it because it takes them a lifetime to learn what a school could teach in a few years.

To learn merchandising and management is harder than mastering astronomy or analytical trigonometry. It looks easy until you try it—as every apprentice finds when he is learning his trade.

Mrs. Jim Hamlet of Midland, mother of Mrs. Earnest Hamlet, of Columbia, is in the city visiting for a few days.

**FOSTER'S WEATHER BUREAU**

WASHINGTON, Aug. 12.—As the first severe storm period of this month, covering about seven days centers near August 11, I will give some special explanations. If I do not say dangerous don't expect danger. I have no better term than "severe storm" to express weather extremes. Severe storms, not necessarily dangerous, sometimes cause extremes of heat, cold, rain, drouth, snow, floods, wind, thunder storms, frosts, hot winds. The severe storms near August 11 will be of a character that requires watching, though not expected to be very dangerous. Crop-weather for middle third of August will be of the same kind as for past three months, but a little more extreme than the average. I have no personal interest in wheat, corn, oats or cotton, but I still advise farmers to sell their old cotton but hold their grain. My reputation is at stake on farmers getting better prices for grain later this year. I also advise local dealers to buy and hold all the grain they can carry.

Local Forecasts—Northeast: Low temperatures near August 6 and 12, high near 10, averaging below normal; more than usual rain during next seven days, distributed near the average of past three months. Northwest: Low temperature near 7 and 11, high near 19 and 13, averaging lower than usual; more than usual rain for those eight days, distributed about as the average of past three months.

Southwest: Low temperatures near 7 and 14, high near 19, averaging lower than usual; more than usual rain, distributed near the average of past three months. Pacific Slope: Low temperatures near 6 and 13, high near 19; less than usual rain distributed westward of the Alps to Los Angeles, because the moisture from the Caribbean Sea must pass the Rockies. Following August 22 moisture for Pacific slope will come from west of Mexico and Pacific slope rain will increase for a short time.

The cotton crop will get a good top growth and the crop will be better than now appears. Grain of North America will be near the 19-year average. Europe, Australia, New Zealand will be immensely short; South America will have a shortage, but not so great as Australia. Probably the greatest discovery ever made is the cause that controls future crop-weather. Some of the details have recently been worked out. Some local errors occurred before these details were completed. Otherwise I have successfully foretold the crop-weather of all continents for six years. Certain electro-magnetic combinations of the ten bodies—sun, earth, moon and the other seven principal planets—magnetize large parts of some one of the five great oceans, and for several months after the magneture to water the continents comes from the great body of water so magnetized. If the magnetization occurs on land it causes a drouth. Sometimes the effects are small, at other times very great. The variations are caused by the relative positions of the ten bodies. These electro-magnetic effects either create or vastly increase the very small malculae upon which salt water feeds, and that is the cause of certain schools of fish changing their feeding waters once or more times every year. That fact is important to ocean fisheries.

**OUT-DOORS BRIDGE PARTY**

One of the most delightful hospitalities of the summer was the lawn bridge party Thursday afternoon with Mrs. R. M. Simmons and Mrs. J. C. Babb entertained about thirty of their friends from four to seven o'clock at the home of Mrs. Simmons.

Greetings were extended at the door and the guests were directed to the east side of the lawn which with its grape arbor and beautiful flower borders formed an ideal spot in which to spend a few hours in pleasant absorption of games. The interior of the home was attractive with bowls and vases of Stasta daisies.

At the conclusion of the games it was found that Mrs. Don Clayton had made highest score and was rewarded with a lovely cut glass candy jar while Mrs. Nobles was "consolid" by a deck of cards.

When the hostesses called a halt at the conclusion of the game a two course luncheon was placed before their guests and consisted of stuffed tomatoes, sandwiches, potato chips, pickles, orange ice and individual cakes.

Those present were: Mrs. Berry Bowen, Mrs. A. J. Wimberly, Mrs. Paul Sorenson, Mrs. R. S. Malone, Mrs. Mose Newman, Mrs. Henry Hill; Mrs. J. M. Charlton; Mrs. Geo. Williams, Mrs. A. H. **Homes of Culture and Refinement Have Learned the Laundry Way Is Best**

In homes where culture and refinement are characteristic, you will find that the laundry is used not only as a matter of convenience, but of economy as well. The wages of a laundress, fuel and other items, when accurately figured up, come as high and in some cases higher than our reasonable charges. Taking into account the convenience of simply phoning for our driver, and later in the week having the fresh, clean, sweet-smelling laundry bundle delivered, requiring only only sorting and putting away, getting rid of all mess and confusion and the worry of whether or not the laundress will show up or not—there is the reason so many prefer our service. And, too, the work is better. We are experienced, know our business, and last, but not least, you are dealing with a responsible business firm, not an irresponsible individual.

**MOONLIGHT PICNIC**

Mrs. C. E. Halle chaperoned a crowd of the younger set on a moonlight picnic Thursday night. They stopped at the bridge over Sweetwater Creek three miles east of town which is an ideal spot for a picnic party.

This pleasant affair was arranged in honor of Miss Conway Watson of Sweetwater who has spent several weeks in the city visiting her brother L. M. Watson and wife and Miss Lucretia. During her visit she has had the honor of numerous social affairs and her return visits will always be welcomed by her new friends as well as her old ones.

One of the enjoyable features of the picnic was the victrola music and the delicious feast which closed the party and was a contribution made by the young men of the party.

**HONORS JUNE BRIDE**

One of the most largely attended social affairs of the mid-summer season was the morning bridge party, with which Mrs. Mose Newman and Mrs. John Hubbard honored Mrs. George Conley, a June bride, Wednesday morning at Mrs. Newman's home. The home had been wrought into a bower of summer beauty by the abundant use of Snapdragon and Zenias in all kinds of brilliant colors which blended beautifully with feathery ferns and other potted plants.

A clever and appropriate decoration featuring a complete miniature wedding party stood on the buffet in the dining room and was greatly admired from the tiny ring bearer to the handsome bridegroom. The wedding party stood under a pagola covered with foliage and lighted with tiny electric lights shaded in pastel colors. At the conclusion of the games the honor guest was presented with a handsome cut glass candy jar.

There were nine tables in play and the whole series of games were very much enjoyed. Scores were kept on bride-tally cards. When the card games were closed the hostesses served refreshment plates containing sandwiches, chicken salad, salad, nuts in nut baskets and wild cherry cobbler in the pastel colors.

THE MAIN TRANSCONTINENTAL HIGHWAYS OF THE UNITED STATES.

The advantageous position of Sweetwater on the Bankhead Highway is very clearly shown on the above map. Counties to the east already are improving this highway and considerable improvement is being undertaken at points west between Sweetwater and El Paso. The Bankhead Highway Association is attempting to secure united action to have the entire mileage improved with concrete or asphalt where possible and gravel at least on all other sections. The better the road, the more travel upon it. Nolan County's share of this Highway could be improved without in anyway damaging this country's reputation among the wheeled travelers. Tourists are more numerous this season than in years, according to the records at the Tourist Park and information from garage and filling station men. One advantage of the Bankhead Highway is that it is a Southern route and thus a year 'round route, or could be made so at a minimum of expense compared to the northern roads that are buried in snow many months in the year. Other important State Highways passing through Sweetwater are not shown on the above map.

**TWO-CENT CUT VALUABLE**  
Will Result in Saving Of \$1.00 A Year For Car Owners

By The United Press.  
WASHINGTON, August 11.—The owner of each individual automobile in the United States saved \$7.00 a year as a result of a two-cent cut in gas prices. This is the deduction made by the National Automobile Chamber of Commerce on the basis of figures of consumption supplied by the Bureau of Mines.

The average vehicle consumes about 350 gallons on lowest estimates of the bureau. Some run as high as 450. But the average is around 350 and figured on this basis the individual saving on a two-cent cut would run \$7.00 to the individual. Collectively, the American motoring public made a saving of \$73,500,000 on a two-cent cut. There are more than ten-million persons enjoying the

benefit of automobiles now, according to the bureau. The farmers feel the greatest benefit from a cut since they own not only one-third of the motor cars in the nation, but also operate 2,000,000 gasoline consuming stationary engines.

**ORIENT TAX VALUATION CUT**  
Special to the Reporter.

SAN ANGELO, Aug. 11.—The tax valuation on the Orient Railroad in Tom Green County was reduced to \$100 a mile by the County Commissioners' meeting Friday afternoon. **Studebaker Bodies Don't Rattle or Squeak**

The Special-Six chassis frame is 7" deep. It tapers from a width of 29" in the front to 41" in the rear, so that the sides of the body fit perfectly without overhang. Five crossmembers prevent the distortion that eventually causes bodies to squeak.

Studebaker bodies rest squarely on the chassis frame—not on the body sills. The body and the frame form a rigid unit that successfully resists the rack of the road. Studebaker bodies are built in Studebaker shops by men, many of whom have been building vehicle bodies for Studebaker for upwards of 30 years—and their fathers before them. Studebaker has been building fine bodies for seventy years. Studebaker Special-Six bodies, because of their quality and soundness, weigh more than those of other cars around the Special-Six price. You cannot skimp in material and build a body that will not rattle. Freedom from rattle or squeak is just another of the fine-car refinements that emphasize the extra value of the Studebaker Special-Six.

# SWATTERS WALK ACROSS HUBBERS

Skipper Frierson Leads Mates in Attack Upon Visitors—Final Score Of Afternoon Fracas 11 to 6.

SERIES IS MOVED UP TO CLOVIS

Scanty Attendance Given As Cause—Team Leaves For The Northern Stronghold Saturday Night.

Following a deep slumber the Swatters awoke and crawled all over Schrob in the melee Saturday and absolutely forcefully drove him clear to the showers in the sixth inning. Then Mr. Edgar pranced out on the mound in great fashion and relieved Schrob and held the place down in a masterly way until the eighth inning was reached when the locals decided to show him up and pounded in three needless runs, winning the fracas by a score of 11 to 6.

Although touched for a dozen safeties, Skipper Frierson had a large day, walking twice, getting a single and a triple and also circulating the diamond for a couple of those winning tallies. Brown and Davis, Lubbock athletes, each counted a three-bagger.

All in all the game was a pretty fair one compared with what has transpired on the local lot of late. The Hubbers made four costly errors while the Swatters made three. The time consumed in the game was two hours, or about 30 to 35 minutes more than is usually used in an interesting game of baseball.

Due to the appallingly light attendance at the games, the series with Clovis, which were scheduled to be played here August 13, 14, 15 and 16, were moved to Lubbock and the team left here Saturday night for Clovis where the first game of the series will be played today.

### WITH THE AID SOCIETIES

**METHODIST CHURCH**  
The Woman's Missionary Society held no meeting Monday.  
This was the time for their regular business meeting.

**BAPTIST CHURCH**  
The Missionary Society of the First Baptist church are taking a vacation for the month of August.

**CHRISTIAN CHURCH**  
On account of the Revival meeting in progress at the church the ladies postponed the meeting of their Aid Society, scheduled to have taken place Monday afternoon.

**PRESBYTERIAN CHURCH**  
The Presbyterian Ladies' Auxiliary

held their regular Bible Study meeting at the church Monday afternoon. Mrs. McAdams presided over the short business session and Rev. McLaurin directed the Bible lesson.

**LAMAR ST. CHURCH**  
The members of the Lamar Street Aid and Missionary Society held their regular business and Bible study meeting Monday at the church.

**EPISCOPAL CHURCH**  
Mrs. Henry Hill was hostess at a meeting Monday afternoon of the Episcopal Guild. The afternoon was devoted to basket sewing and in spite of the warm afternoon quite a bit of work was accomplished. Mrs. Hill refreshed her guests with plates of lovely ice cream when work was laid aside.

Mrs. Pope Ball will entertain the Guild next Monday afternoon.

**THE GLEANERS**  
The Gleaner's Missionary Society held their meeting Monday at the church and devoted the hour to a Missionary program on India. Mrs. Willard Gibson presided over a short business session, preceding the program, during which the Society decided to take a vacation for the remainder of August.

Mrs. Jack Frost arranged the program and occupied the chair during this part of the meeting. She also opened the program with an interesting talk on "India the Mysterious." Miss Beulah Wallace talked of the "Three great evils of India—Ignorance, poverty and caste." Mrs. C. L. Monk talked with interest on "What the World War meant to India."

A round table discussion of "India, her problems from a social and spiritual standpoint and the wall of ignorance which shuts her off from help and the difficulties to be overcome by Missionary workers. This gave material for a "clearance house" of opinions and suggestions from every member present and proved very interesting.

## Good Morning!

Did you eat Wilson's Certified Bacon for breakfast this morning?

If you did, you enjoyed the crisp meaty flavor that satisfies without cloying the appetite, and prepares one for a hard day's work.

If you are one of the few who haven't as yet started using Wilson's bacon regularly, we advise that you buy one of those handy boxes right away and begin true bacon enjoyment.

The users of Wilson's Certified have increased many times since we first started selling these fine meats in this section—evidence that they will satisfy you, too. At your grocer, meat dealer or at

## It Would Be Cheaper That Way

If electricity could be sold by the gallon like kerosene oil so that you could drive down at your convenience and stock up with the day or week's requirements, electricity could be sold much cheaper and much more profitably.

But electricity is not built that way. When you buy electricity you are buying service, a readiness to serve together with reserve equipment sufficient to insure that you will always get electrical service at the snap of your switch, regardless of how many of your neighbors want service at the same identical moment, and regardless of any accident that may occur to the producing machinery or transmission lines.

According to law, banks must keep on hand at all times a sufficient reserve of currency so that all who have money on deposit at that bank may be able to secure money when they want it. Power companies must also maintain a reserve at all times, so that they too, may take care of their customers. Not only that, they must have sufficient reserve so that they may grow as the city grows, add additional equipment as they add additional customers. A city that outgrows its public utilities is in a sorry way indeed.

Your power company is spending approximately \$7,000 right now in Sweetwater, putting its distribution system in the business district in such condition that it will be practically impossible to have an interruption in service on account of line trouble.

### KLAN ACTIVE AT BONHAM

One Hundred Initiated—Negroes Refuse To Help Prepare Barbecue.

BONHAM, August 12.—The local Klansmen had difficulty in getting the trenches dug for the cooking of their barbecue meat in connection with their initiation which was held here Friday night.

The negroes seemed to be willing to "let George do it." The trenches were finally dug by white men. A hundred Klansmen were initiated. A huge fire cross was placed on a hilltop, visible for several miles. Klansmen visited from Dallas, Greenville and other adjoining towns. Several heaves were killed for the barbecue.

### Battery Questions Answered

Why take the trouble to send your battery questions in to the automobile editor and then wait a week for your answer?

Our automobile page isn't printed. It's "talked". And you get the answer—the right answer just about as soon as you've finished asking the question.

And we're even better at repairing batteries—all kinds—and keeping them in shape, than at answering questions. Bring your battery in and we'll prove it.

WINTER, SUMMER, SPRING AND FALL

The world passes before our windows: Old and young, rich and poor, they come. But we have noticed that the young folks who learn early in life to make use of the facilities of this old, strong bank, who have a steadily increasing savings account at four per cent, are the ones who in later years are not worried by lack of money. Are the young people in your family receiving this financial education? If not, you are neglecting a vital part of their curriculum.

A Romance of Sunny Spain of Jealousy Love and Intrigue

Come and Have An Hour of Pure Delight

### CARAMBA--WHAT A PICTURE!

A thrilling, colorful romance of Sunny Spain filmed in the actual location of the story.

Directed by John S. Robertson, who gave the world those two masterpieces "Dr. Jekyll and Mr. Hyde" and "Sentimental Tommy."

Adapted by Josephine Lovett from Maurice Hewlett's famous novel "Spanish Jade."

Enacted by an exceptionally fine cast including David Powell, Marc MacDermott, Harry Ham, Evelyn Brent and other well known players.

An unique picturization of Spanish life and custom and a depiction of that section of Spain which has but slowly responded to the march of progress.

A succession of thrills which stir the blood and a crashing climax to warm the heart.
