SWEETWATER, TEXAS, FRIDAY, SEPTEMBER 1922.

NUMBER 195.

DENTAL SOCIETY IN MEETING HERE

West Texas Dental Society Opened Thirteenth Annual Convention In Sweetwater Today.

BANQUET AT HOTEL WRIGHT

Organization Will Be Guests Of City Of Sweetwater At 8:30 o'clock Tonight.

The Thirteenth Annual Convention of the West Texas Dental Society opened its two-day session in Sweetwater at 9 o'clock this morning with a greater attendance present than had been expected.

Approximately forty were present for the opening and more are expected to arrive tonight, according to delegates from several towns. An attendance of fifty is expected for the opening of the second day of the convention, according to the local officials.

The delegates and visitors came from all sections of West Texas, from El Paso to Dallas and from San Antonio to Amarillo. Many of the delegates came overland in automobiles, one, Dr. E. W. McKinzie, driving from Matador, 160 miles north of Sweetwater, Thursday in a Ford. Roads are dry and rough, according to Dr. McKinzie, who stated that he found some roads rougher than those in Nolan county.

The meeting was opened promptly at 9 o'clock Friday morning by President Hoppel of Big Spring. The Rev. D. B. Doak of the Methodist church gave the invocation, which was followed by an address of welcome from Dr. A. Brann, representing the local members of the society. Dr. Brann gave a brief history of the organization and pointed out that only two men out of the ten original founders remained, Dr. Wimberly of Sweetwater, and Dr. E. H. Hoppel of Big Spring, the other eight having moved away from the state or were dead. The society was founded in 1910 with ten members and now boasts of a membership of approximately sixty with a prospective membership of eighty, according to Dr. Brann.

Mayor George Sheppard welcomed the delegates to Sweetwater and stated that although their profession had caused the people of this section of the country more pain than any other organization, still the benefit derived from the experience far outweighed the suffering. Mr. Sheppard assured the visitors that they were always welcome and expressed the hope that the society would find Sweetwater so pleasing that another visit would be secured soon.

R. A. Maddox, of Abilene, vice-president of the society, responded to the welcoming addresses. President Hoppel read a paper dealing with "Brown Stain," a disease and discoloration of the teeth, which is said to be more pronounced in the Panhandle section of Texas than in any other part of the country. President Hoppel declared that the cause or source of the disease was unknown, but that research work was now under way, seeking to learn the source.

Dr. W. C. Neal of Abilene opened the discussion of the paper read by Dr. Hoppel, warning of the danger of mistreatment of the teeth and of the need for the preservation as the basis of good health. Dr. Neal made a rather startling prediction regarding the deterioration of the composition of the human teeth, stating that if the teeth of the human race continued to deteriorate at the rate that they had in the past few generations, that the American people of a hundred years hence would be minus their teeth. The belief that a great future exists for the medical-dentist was expressed by Dr. Neal.

Dr. A. L. Frew of Dallas, president of the State Dental Association, made a short talk in regard to the paper read by Dr. Hoppel and stated that the National Research Society would furnish funds for research work in reference to "Brown Stain."

A paper upon "Harelip and cleft palate" illustrated with lantern slides was read by Dr. A. L. Frew of Dallas at the beginning of the afternoon session. Other papers were read during the afternoon session by Dr. E. H. Hoppel of Big Spring; Dr. R. A. Maddox, Abilene; Dr. C. D. Wofford, Plainview; Dr. M. T. Ramsey, Abilene; Dr. T. B. Cox, Abilene; Dr. R. L. McGee, Abilene, and Dr. A. L. Wetzel of Big Spring.

The Society will be the guests of the city of Sweetwater at a banquet at 8:30 o'clock at the Hotel Wright tonight, with a full and interesting program planned.

The following delegates and visitors were present at the opening session: San Angelo—Dr. R. L. Chase, H. Wiggins, H. D. Jackson, H. A. Wimberly, W. R. Carrington, and W. P. Menzies.

Abilene—R. A. Maddox, C. R. Pelton, M. T. Ramsey, R. C. Maddox, H. H. Ramsey, W. C. Neal, G. M. Gillespie, Merkel—E. W. Ohson.

Big Spring—C. W. Deats, A. L. Wetzel, E. H. Hoppel.

Breckenridge—R. A. Douglass, L. C.

WAR RENEWED.

By The United Press.
BELFAST, Ireland, Sept. 15.—Southern Ireland was aflame today with a civil war more terrible than anything since the rebels under the leadership of Rory O'Connor were defeated in battles around the Four Courts of Dublin. Dublin is in the grip of a fresh civil war, with street fighting practically continuous.

S. H. S. FOOTBALL PROSPECTS FINE

Seven Members Of Last Year's Team Included In Squad—Began Practice Two Weeks Before School.

FIRST GAME WITH ABILENE

Season Opens Here September 29—Team Averaging 160 Pounds Assured From Squad Of 35 Out.

With seven of last year's varsity on deck this year, and with an average weight per man of 160 pounds or better, prospects for a winning eleven for Sweetwater High School were never better.

Training began some two weeks before High School opened and the football squad is busy working out every day. They have progressed far enough for signal practice.

The men in school this year who were on last year's team include Trammell, who played left end and who is making a try for the back field this year, Tolon, quarter; Herndon, a guard last year who is making a try for center this year; Johnson, fullback; Weatherly, half back; Mitchell, who played tackle last year and now is essaying either a back field or end position this year; and McCall, guard. A fast field with an average weight of 190 pounds, is in sight.

No less than 28 are in the squad who are trying for the vacant first team positions and from them a very capable team will be whipped into shape by the time the whistle blows for the first game of the season.

Included in the squad trying out are Farris, Kelsey, Hill, M. Toler, Fitzgerald, Smith, Boozler, Bishop, Posey, Rone, Crutcher, Davis, Ellis, Beall, Robertson, Sheridan, Cutbirth, Eakin, Tucker, Stephenson, Rea, Gibson, Herring, Sheppard, Webster, Clayton, Long and D. Mitchell.

Through the generosity of Rufus Wright, the team was financed so that suits could be purchased in advance of the opening game.

The first game of the schedule is on September 29, and will probably be played on the High School Grid. It is with Abilene, who cleaned up on Sweetwater so decisively last year in the closing game of the series due to the crippled condition of the local eleven.

A different result with a score equally decisive is included in the plans of the local eleven.

The team is being coached by Doyle and Ben Daniels, an old ex-High player.

HERE FROM ANNAPOLIS

C. D. Reynolds, brother of Mrs. J. H. Holland and Mrs. O. A. Hill, arrived Thursday from the United States Naval Academy at Annapolis, to spend the remainder of his vacation in Sweetwater. Reynolds has been on a three months' cruise in tropical waters, before his vacation. He will report at Annapolis for his second year's term October 1.

Reynolds attended Sweetwater High school, before entrance at Annapolis, thus giving the city three representatives in the academy. Marion Kendrick of Sweetwater reported to the school several days ago. L. R. Herring, son of A. H. Herring, is also a student in the academy and remained during the summer.

Judge J. J. Ford and Jeff McKee transacted business in Nolan and Dora today.

J. D. Whitworth is overhauling one of his rent cottages on Cedar street, which will be occupied within a few days by relatives of M. D. Charles, coming here from Arkansas.

SOUTH WARD
Principal, Miss Lella Poe; Mrs. Bessie Pipkin; Miss Blanche Weakley; Miss Mabel Bonchette.

WEST WARD
Principal, Miss George Stiles; Miss Pearl Miller; Miss Mary Wilson; Miss Lottie Swearingin.

NEGRO SCHOOL
Hettie V. Wallace.

W. O. W. TO ENTERTAIN

tain their members and families this evening at the L. O. O. F. Hall.

The degree teams of both orders will put on their floor work during the evening. The following program will be rendered:

Welcome address, K. J. Hiesler; Response, Murray Hubbard; Selection, Cutbirth orchestra; Reading, Miss Ina Lee Ely; Piano solo, Miss Galen Orr; Piano Duet, Misses Vandine Wilson and Jimmie Crumrine; Reading, Little Miss, Charlene Williams; Piano solo, Miss Leah Davis; Dramatic charter in memory of Mrs. Richie Howe; Reading, Miss Elizabeth Stamps; Music, Mr. and Mrs. Murray, Hubbard and C. T. Rogge.

Miss Florence McKissick has arrived to visit her parents, Dr. and Mrs. J. T. McKissick. She has been visiting relatives and friends at Nashville, Tenn.

CAPTURES BOOZE

Two Fort Worth Men Arrested In Colorado Saturday On Charges Of Transporting Intoxicants.

Sheriff W. J. Chaney added 82 gallons of high proof alcohol to his collection of contraband tequila, corn and still equipment late Saturday and two men, giving their names as Jack Trammell and M. B. Harrison of Fort Worth, are in jail at Colorado as the result of continued activities of Deputy Sheriff R. C. Dale in running down bootleggers in Mitchell County. Dale apprehended the men and placed them under arrest on suspicion that they were transporting booze through the county.

The officer, in company with Emmett McCullum of Westbrook, were returning from Big Spring Saturday afternoon when the two men, one of them driving a Ford and the other an Essex car, were overtaken on the highway a few miles east from Big Spring. Dale noticed that the drivers were proceeding slowly and cautiously, especially when a rough place in the road was being crossed, and this caused the officer to arrive at the conclusion that something delicate was being transported in the machines.

Consequently, Dale followed the two cars into Westbrook and when one of them stopped there the officer placed the driver under arrest. The other car drove on to Colorado, with Dale and his prisoner following. When the driver stopped at the Cottonwood filling station across the river west of town for gas, he, too, was arrested. Neither of the men offered any resistance.

Mr. Chaney stated Monday that the alcohol was in one gallon tin containers, but that the containers carried no tell tale labels or marks. The men claim to have purchased the liquor in Juarez, Mexico, and said they were transporting it to Fort Worth for retail purposes.—Colorado Record.

Try this

This Washington girl is a regular human rubber plant. She can do stunts like this besides all kinds of fancy swimming and diving.

WILL INSTALL DE MOLAY CHAPTER

Initiation Of Twenty-Seven Candidates And Installation Ceremonies At 7 o'clock.

SEVEN TRANSFER MEMBERSHIP

Degree Team From Abilene To Have Charge Of Ceremonies At The Local Masonic Hall

The installation of the Sweetwater chapter of the Order De Molay will take place at 7 o'clock at the local Masonic Hall tonight. The initiation of candidates and the installation of the chapter will be conducted by the De Molay degree team headed by R. D. Green, superintendent of the Abilene Public Schools. The Abilene degree team consists of fifteen boys.

The party from Abilene will arrive in Sweetwater late this afternoon and the ceremony is scheduled to start promptly at 7 o'clock.

Twenty-seven candidates will be initiated and seven members of other branches have placed their membership here.

The following boys will be initiated at the meeting tonight: Leroy McGlum, Charles Kelsey, Frank Stephenson, Win Payne, Charles Brownstein, Louis Walker Roy Freeman, Milton Pate, Harris Toler, Ruffy Harris, Jack Tucker, Dudley McCull, Claude Beall, Vernon Webster, Edwin Ellis, Lissa Carol, Ben McCorkle, J. R. Cox, Jr., Charlie Beall, Kirby Kinsey, Wiley Embrey, Osler Leach, Dick Mitchell and Sterling Kendrick.

The seven transferred members, who have placed their membership with the Sweetwater chapter are: Price Doyle, Ellis Douthitt, Earl Finley, Leland Glass, Marshall Morgan, Dent Beall and Earnest Wright.

PIONEER IS DEAD

George Bird, West Texas Banker And Former Cattleman, Drops Dead At His San Angelo Home.

SAN ANGELO, Sept. 15.—George J. Bird, 68 years old, pioneer West Texas sheepman, cattleman and banker, slipped dead at his residence here this morning.

He is survived by his widow and a daughter, Mrs. James S. Harrison, of Dallas.

Mr. Bird came to the Concha County in 1881. He was one of the big speculators in cattle and sheep in the early days. He has been a director in the San Angelo National Bank since 1912 and served for a time as mayor of San Angelo.

In company with Mrs. Bird he returned a week ago from a trip to the held Saturday afternoon with burrowing owls. The funeral will be in a parlment cemetery.

FLAMES OF WAR MOULDER IN ASIA MINOR AS CITY OF SMYRNA BURNS

Constantinople And All That Turkey Lost In World War Is The Goal Of Victorious Nationalists Under Mustapha Kemal. Including Most of Thrace.

HEAVY FLAMES RAVAGE STRICKEN CITY OF SMYRNA

Fire Started By Turkish Sergeant Is Sweeping The City—Flames Are Beyond Control—Thousands Of Christians Among Greeks And Armenians Slain; Americans Missing.

(BY THE UNITED PRESS.)

LONDON, Sept. 15.—The Allies must go to war against Mustapha Kemal to prevent the Ottoman leader from seizing all that Turkey lost in the World War, events today seemed to show to United Press correspondents.

Americans are reported missing in the burning of Smyrna with the city being razed by flames.

Mustapha Kemal is reported to have delivered an ultimatum to Great Britain demanding not only Constantinople but also most of Thrace as far as the river Maritza.

Berlin reports say that British troops have already clashed with the Turks.

Paris announces that the French army is being hastily withdrawn from the Asiatic side of the Dardanelles.

Over one hundred thousand persons are in danger of death by violence or starvation according to dispatches received in London. These dispatches also stated that all British and some natives had been rescued by the British fleet.

Reports from Geneva indicated that the League of Nations was taking steps to prevent a Turkish invasion of Georgia, a republic in Trans-Caucasia. This move was made on a resolution introduced by Belgium.

FLOW INCREASES

LeSurre No. 1, New Well, Conceded To Be The Best In Mitchell County Field.

COLORADO, Sept. 15.—LeSurre No. 1 of Chal Daniel is being conceded by the local oil fraternity as probably the best well yet drilled in the Mitchell County field. The well was drilled to 3,045 feet and Tuesday night the well began to flow. The last report stated that production was gradually increasing. Oil men have as yet made no definite estimate as to what the well might produce when tested.

The LeSurre well has several hundred feet of open hole, which is retarding the steady flow of crude to a large extent. Tubing is being moved to the well and will be set to the bottom of the hole. "There are a number of communities in this state which would prize very highly a well showing up as favorably as the LeSurre is doing," U. L. Vaughan, manager of the Underwriters Producing & Refining Company stated just before leaving for the field.

Badgett No. 1 of Bowser & Reed 12 miles northwest of Colorado, drilled into a strong gas pocket Thursday morning at about 1,350 feet. The gas pressure is claimed to be one of the strongest yet found in the field.

Officials of the California Company are here from the Pacific Coast and are making a thorough inspection of the field. They arrived in Colorado last week in company with W. F. Vane local representative of the company. Just what the immediate plans of this company may be, cannot be learned. The derrick is up and part of the tools strung for their first test south of this city. The company, a subsidiary of the Standard Oil Company, controls large acreage in the field.

The lost tools and collapsed casing have been recovered from Coleman No. 1 and drilling will be resumed when new casing can be set in the hole. The Magnolia Petroleum Company is drilling at 1,450 feet in Foster No. 1, New Itan.

Maxwell & Johnston Bros. have reached three thousand feet in Stewart No. 1, near Itan and at all other drilling wells in the field favorable progress is being made.

The continued dry weather is handicapping operations to some extent, as several of the operators have been compelled to run pipe lines to water holes in order to furnish the boilers. The water supply on the Maxwell & Johnston lease is reported as being low.

"VERY SERIOUS"

Federal Judge Wilkerson of Chicago Comments Thusly on Violation Of The United Press.

CHICAGO, Sept. 15.—An affidavit alleging that Bert Jewell, head of the Shipmen's Union violated the terms of the Federal injunction against striking rail employes was read in court today by a government attorney.

"The affidavit was to the effect that Jewell was alleged to have given a statement to the newspapers to 'Hold Fast' after the injunction took effect.

This presents a very serious situation," said Judge Wilkerson.

Miss Fay Davis of Post City, who has been visiting Miss Irene Ponder, returned to her home today.

DETAILS AUTROCITIES

WASHINGTON, Sept. 15.—Purported details of the Turkish atrocities at Smyrna, placing the number of massacred dead at 1,000 and picturing the seizure of Americans by Turks was given out by the Greek delegation here today.

The Kemalist horrors in the city which was wrested from the Greeks by Turks were described by American refugees who arrived on board the American destroyer Sampson at The Piraeus, the seaport of Athens.

The fire was started in the foreign quarter by a Turkish sergeant according to witnesses and is now beyond control. The entire Greco-Armenian quarters has been wiped out and the flames are spreading.

Over 200,000 Christian refugees, who are fleeing from the murdering Turkish hordes.

Wholesale massacres by both Greek and Armenians by the Turks are reported.

Several Americans have been molested, and it is feared some have been killed.

THE MARKET PAGE.

THE REPORTER'S HOUSEHOLD HINT COLUMN.

PRESTO CAKE.

In a pan put 1 cup flour, 1 cup sugar, 1 teaspoon baking powder. In a measuring cup melt lump of butter large as a walnut, add unbeaten egg and fill up with milk. Turn this into the pan and stir well. Bake as a loaf and frost, or bake in layers and frost or bake in layers and put together with a custard. Pour half into cake tin, add a tablespoon of cocoa to the remainder, stir well and pour over the first half and it is a marble cake. Pour into shallow pan and sprinkle with spice, and it is a good coffee cake. Add 2 tablespoons cocoa and it is a devil's cake. Add hickory nuts for a nut cake, or nuts and fruit for a fruit cake.

TEA CAKES.

2 tablespoons butter. Cup of sugar. Half cup of milk. One egg well beaten. One and a half cups flour, sifted with 2 tablespoons baking powder and a quarter teaspoon of salt. Vanilla to taste.

SOFT GINGERBREAD.

One cup molasses. 2 tablespoons sugar. Third cup of shortening. Fourth cup warm water. Teaspoon of soda. Two tablespoons ginger. Teaspoon of cinnamon. Teaspoon of salt. Two cups flour. Beat together shortening, sugar, molasses and warm water. Mix flour, soda and seasonings and add to first mixture. Beat and pour into buttered pan. Bake in moderate oven.

MOLASSES COOKIES.

Two cups molasses. 3-4 cup hot water. 3-4 cup melted shortening. 1 tablespoon soda dissolved in water. One tablespoon ginger. Salt to taste. Mix stiff enough with flour to roll. Let dough stand a couple of hours and it will take less flour to roll into cookies. Bake in moderate oven.

GOLDEN CAKE.

Half cup butter. 1 cup sugar. 10 egg yolks. Half cup milk. 1 and three-quarter cups flour. 1 1/2 teaspoons baking powder.

Cream the butter, add sugar gradually, and the yolk of eggs beaten until thick and almost colored. Then add extract—mix and sift flour and baking powder and add alternately with milk to first mixture.

TEA CAKES.

1-2 cups flour. 1-2 teaspoons baking powder. 1-4 cup butter. 3 tablespoons milk. 1-4 teaspoon salt. One egg. Half cup sugar. Half teaspoon flavoring.

Cream the butter, add sugar and the well beaten egg—add salt and flavoring. Sift flour and baking powder together and then add to mixture a little at a time alternating with the milk. Add more flour if necessary to make a dough. Roll out, cut into cakes, and bake brown in moderate oven.

CRISPS.

1 cup butter. 2 cups sugar. Flour to knead. 1 lemon grated rind and juice. 3 eggs. Cream the butter, add sugar gradually, then lemon, juice and rind. Then beaten yolks, then beaten whites. Add flour enough to knead. Roll as thin as possible. Brush with unbeaten egg white, dust with sugar. Bake in slow oven. Chopped nuts may be sprinkled in just before baking. This receipt makes a large quantity.

CINNAMON TOAST.

Cut slices of stale light bread, sprinkle with sugar, dot with butter, sprinkle with cinnamon. Bake until very crisp.

RAISIN FILLING FOR SANDWICHES.

1 cup seeded raisins (ground or chopped). Half cup water. Half cup sugar. 1 tablespoon flour stirred in little vinegar or juice and grated rind of one lemon. Mix all ingredients—cook thick in double boiler.

PEA NUT COOKIES.

2 tablespoons butter or lard. Quarter cup sugar. One egg. 1 teaspoon baking powder. Half teaspoon lemon extract or juice. Eighth teaspoon salt. 2-3 cup flour. 2 tablespoons milk. Half cup peanuts. Pound peanuts finely, cream shortening, add the sugar and egg well beaten. Mix and sift dry ingredients, add to the first mixture. Then add milk, peanuts, and lemon juice. Drop from a teaspoon, far apart, on unbuttered sheet. Place a half peanut on top of each. Bake in slow oven until brown. Remove while hot with a knife.

RETAIL MARKET.

Flour, 25 pounds, \$1.10. Flour, 48 pound sack, \$2. Fresh tomatoes, 15c pound. Bananas, 50c to 60c dozen. Lemons, 35c dozen. California lettuce 15 and 20c head. Celery, bunch, 20c. Onions, dry 7c pound. Cabbage, 6c. Irish potatoes 3 1-2c pound. Sweet potatoes, 5c. Black eyed peas, 8c and 10c pound. Pink beans 12 1-2c pound.

Pinto beans, 2c pound. Navy beans, 2c pound. Sugar, 25 pounds, \$2.10. Peanuts, 30c and. Creamery butter, 50c. Butter, country, 50c pound. Sweet peppers, 20c.

WHOLESALE MARKET.

Flour high grade, \$7.30. Head lettuce, 5c doz. Cabbage, 4c. Oranges, crate, \$3.00. Lemons, 7.50 crate. Irish potatoes, \$1.00, \$2.25. Yams, per 100, \$2.00. Onions, per pound. Sugar per 100, \$7.00. Jumbo peanuts, 1/2 lb. Corn meal, 25 pounds, 58c. Eggs, fresh, 30c. Eggs, infertile, 35c. Country butter, 40c. Butter, creamery, 45c. Bell peppers, 15c a lb.

COUNTRY PRODUCE.

Eggs per dozen, 30c. Country butter, 40c. Fryers, 20c. Hens, 15c per pound. Hides. Dry hides, 14c. Green hides 10c. Wet salt hides, 5c. Today's Price. Sweetco feed, \$2.25.

Cotton seed, \$30 ton. Sacked hulls, \$17 per ton. Loose hulls, 70c per cwt. Cotton seed hulls, per sack 85c. Scratch feed, \$3 cwt. Maize, \$2.00 cwt. Oats, 60c. Chicken chowder, \$4 cwt. Alfalfa, \$1.10 per bale. Chow-chow, \$2.85 cwt. Shelled corn, \$1 per bu. Chops, \$1.90.

A TRUE RAT STORY

Auburntown, Tenn., 6-25-22. Dear Sirs: Mr. Robert T. Donnell of Auburntown, Tenn., came in our store the other day and wanted something to kill rats, so I sold him a box Stearns Rat Paste. And he put some paste on six biscuits that night and the next morning he found fifty-four big rats. And the second night he put out four more biscuits with paste on them, and the second morning he found seventeen more rats, making a total of seventy-one rats in two nights, and there were lots more that he did not find. This is some big rat tale, but nevertheless, it is so. Just thought would write to let you know that your rat paste is good. Respectfully, KENNEDY BROTHERS. Buy a 35c Box Today Enough to Kill 50 to 100 Rats or More. Don't waste time trying to kill these pests with powders, liquids and other experimental preparations. Ready for Use—Better Than Trap, Drug and General Store rat traps. STEARNS' ELECTRIC PASTE

cles for Bible study Monday afternoon in the following order: Central Circle was entertained at the home of Mrs. M. D. Willis which proved to be quite an interesting session led by Mrs. W. W. Beall. Mrs. N. L. Hall led the afternoon prayer. Following the regular study, Mrs. Willis served refreshments.

The West Circle met with Mrs. D. C. Cagle with Mrs. P. H. Caldwell directed the Bible lesson. Mrs. Jesse Hemby led the prayer.

The South Circle did not hold a session as was previously scheduled.

THE GLEANERS.

The Gleaners of the Methodist church met with Mrs. Clarence Breding with Mrs. Joe Boothe leading the Bible study. A splendid attendance was reported. Following the lesson, Mrs. Breding served refreshments. Mrs. Ramsey will be hostess for the Gleaners September 25th. Next Monday will be a Calendar Club and social meeting with the gleaners and Missionary society jointly.

CHRISTIAN CHURCH.

The Aid society met Monday afternoon at the church for Bible study with Miss Mollie Musgrove. This society is studying "The Four Gospels" which they term a most interesting course. The next meeting will be held Monday at the church.

COLLEGE BALL.

Wednesday evening at the Wright Hotel was the scene of a get-together meeting of all the young gentlemen and young ladies of Sweetwater, who are now daily leaving the city for the different colleges and universities over the state and United States. This gathering was possibly the most enjoyable, and pleasant occasion that has been held in Sweetwater this season. The merry college students were treated with a "Farewell Ball," which placed the spirit of happiness in their

young and happy minds. "The Texas Jazzers" of San Angelo furnished music for the dance and the playing by this splendid orchestra was greatly enjoyed by the parents of the youngsters who had assembled for their last social function here before departing for their studies. The ball lasted until 12:30 after which the hand of good fellowship and success was extended each of those present, bringing to a close one perfect day.

BIG BENEFIT DANCE REPORTED

Plans are under way for a big benefit ball to be held either in the Hotel Wright dining room or in the new vacant building of Rufus Wright just off the postoffice. The ball will be given for the benefit of the Sweetwater Booster Band, who state that nothing will be left undone to make it one of the best ever. It is stated that the "Texas Jazzers" orchestra of San An-

Making 20 Years of Racing Serve Car Owners Today

the early days of automobile ontests, Barney Oldfield—out vin every race—studied tires. consistent success led other srs to ask for tires constructed is specifications. twenty years of road and track ories—with a steady and increas-demand for tires as he built them nvinced Barney Oldfield that se speed tests pointed the way to etter tire for everyday use. The enthusiastic reception of Old-d Cords by the public proved he s right. Scores of the most ominent dealers in the country—d many thousands of car owners, periened in the use of tires—bear tness by their decided preference at Oldfield is doing a bigger and tter job of tire making. This volume, handled in an effec-ve way in every phase of manufac-

The Most Trustworthy Tires Built

here recently made application to prohibition agent Charles E. Becke or a job. The negro displayed a letter from an Eastern Correspondence school showing that he had complet-ed a course preparing him fir "the duties of a federal prohibition agent." Becke advised the applicant that all prohibition enforcement agents were local agents had nothing to do with "pointed out of Washington and that the appointments

THINK IT OVER.

The index of purchasing power of farm products for the month of July was 69 (in June, 72; May, 73.) That is, the quantity of farm products required to buy \$100 worth of other things in the year 1913 will now buy only 69 worth. It is true that this is compensated to some extent by the large crops—purchasing power per acre rather than per bushel being the true index.

The relative position of coal, freight service, and farm products in 1921 was respectively 207, 177 and 108 according to F. A. Pearson.)

The purchasing power of farm products on the farm when expressed in terms of coal and freight charges was respectively 52 and 61 per cent of normal.

The purchasing power of railway employees, miners, and farm laborers in terms of the general price level were respectively 151, 130, and 96.

The purchasing power of laborers of railroads and mines in terms of farm products on the farm were respectively 206 and 177.

The purchasing power of wages of employees for railroads, mines, and agriculture in terms of coal were respectively 107, 92, and 68.

The purchasing power of laborers of railroads and mines in terms of farm products on the farm were respectively 206 and 177.

The purchasing power of wages scale in terms of freight revenue per ton-mile were: For railway employees 126 per cent of normal; coal miners, 106; farm laborers, 80.

In a nutshell, this measures the position of farmers and farm laborers during the past year relative to the railway and mine groups. This is not the first time the farmer has had to endure the economic tantrums of others and he knows that, given time, they provide their own undoing. It is an axiom in the country that the man who raises chickens must expect them all, good or bad, to come home to roost.

WITH THE AID SOCIETIES

PRESBYTERIAN CHURCH.

The Presbyterian ladies met in two circles Monday afternoon for Bible study. Circle A met in the church with Mrs. R. L. Shaffer presiding. Mrs. McAdams had charge of the business session. The next lesson will be from 13 to 15th chapters of Gen. inclusive.

At the meeting of Circle B Mrs. Oscar Pate acted in the double capacity as hostess and leader of the lesson. Mrs. Pate is chairman of Circle B. The lesson for the afternoon was taken from the regular study course. Mrs. Donald Johnson will be hostess next Monday.

IN PLEASANT PLACES
The Lord is the portion of mine inheritance and of my cup: thou maintainest my lot. The lines are fallen unto me in pleasant places: yea, I have a goodly heritage.—Psalm 16: 5, 6.

WELCOME DENTISTS
Sweetwater feels itself honored by the presence of the leading dentists of West Texas. There is no profession so filled with the highest type of citizenship as the dental profession, and probably none so full of likable folks, outside of office hours, that is. Have a good time here, and if you cannot find what you want, ask for it. And before you leave, make it a point to vote to come to Sweetwater again next year. That is just how much we appreciate your visit. And remember, "You have to go through Sweetwater anyway."

CONFIDENT.
Pennsylvania Railroad, intending to take over several subsidiary corporations, asks government permission to do the taking over in the form of 999-year leases.
Capital seems to expect the United States to continue doing business at the same old stand for considerable more years. Good thing to keep in mind when you fear that everything is going to pot.
P. S. And they razz Henry Ford because he wants something like a 99-year lease on Muscle Shoals.

PRICES.
Jim Patten, the wheat king, is asked to explain why the farmer's buying power is a fourth less than

before the war. Patten's explanation is that industrial wages are fixed artificially, while the farmer's income is regulated mostly by natural competition.

You have always been told by economists, that wheat is the barometer or regulator of general prices. Something has gone wrong with that system. There is a new price regulator. It is soft coal.

FEDERAL AGENTS BUSY

Numerous Arrests and Whisky Seizures in August

By The United Press.
HOUSTON, Texas, Sept. 14.—Thousands of gallons of mash, 900 gallons of whiskey, 18 stills and one automobile were seized and 116 arrests were made by federal prohibition agents during the month of August, according to a report made public here recently.

The number of arrests, stills seized and the quantity of liquor destroyed shows that South Texas is still somewhat damp despite the Volstead amendment. The report is believed to represent a high mark for any section of the country.

Included in the number of arrests were three officers of the French steamer Titan who were taken into custody on charges of selling the ships rations of liquor. One was released but the other two were allowed to make bond and will stand trial when the ship docks at Houston in November.

Jim Butler, of the First National Bank, has gone to Dallas on a business mission.

BILIOUS CHILDREN

Black-Draught, Long in Successful Use, Praised by an Arkansas Mother, "Soon Does Its Work."

Marmaduke, Ark.—Speaking of Theford's Black-Draught, which from long use in her household has become regarded as "the family medicine," Mrs. Mary E. Hill, of Route 1, this place, says:

"When the children get bilious, I give them a couple of good doses, and when we have sour stomach, headache, or any liver or stomach trouble, we use Black-Draught. It is an easy laxative, and soon does the work. I certainly think it is one of the best remedies made."

Black-Draught acts on the jaded liver, gently, but positively, and helps it in its important function of throwing out waste materials and poisons from the system.

In thousands of households Black-Draught is the "go-to" remedy. It is often is half the battle, and will often prevent slight ills from developing into serious troubles.

Its well-established merit, during more than 70 years of successful use, should convince you of the helpful effects obtainable by taking Black-Draught for liver and stomach disorders. Get a package today, and keep it in your house. See that the package bears the words, "Theford's Black-Draught." NC-141

NOTICE TO THE VOTERS OF THE CITY OF SWEETWATER.

Whereas, Ten per cent of the qualified voters of the City of Sweetwater have petitioned the Commission of said City to submit the following amendment to the charter of said City of Sweetwater, therefore, in compliance with the provisions of Article 1096-B of Vernon Sayles Civil Statutes of the State of Texas, notice is hereby given that at the expiration of twenty days from the first publication hereof said commission will pass an ordinance submitting at an election to be held for that purpose to the voters of said City the following provisions of the charter for amendment:

Article 28, Section Six: Board of City Development. The commission shall have authority to appoint what shall be known and designated as a "Board of City Development," which shall be composed of not exceeding fifteen members, who shall serve without compensation, and the Commission may prescribe the qualifications and duties of such board and their term of office and shall appropriate not exceeding two mills on the one dollar worth of property in the City of Sweetwater, from the general fund of said City to support the work of said Board.

The above section to be amended to read as follows:—

"Article 28, Section 6: Board of City Development." The Commission shall have the authority to appoint what shall be known and designated as a "Board of City Development," which shall be composed of not exceeding fifteen members, who shall serve without compensation and the Commission may prescribe the qualifications and duties of such board and their term of office and shall not appropriate any money from any fund to support the work of said board."

Done by order of the said Commission of the City of Sweetwater, this 31st day of August, A. D., 1922, in called session.

GEO. H. SHEPPARD, Mayor.
Attest:—
W. H. BARTLETT, City Secretary. 183dc20t

ANNOUNCES STOCK SALE

Southwestern Bell Telephone Company to Sell Preferred Stock
The Southwestern Bell Telephone Company, through its local manager, Mr. Patterson has announced the sale of a new issue of its 7 per cent Cumulative Preferred stock.

This security has become well known as a good investment because of its safety and the good return offered.

Last April the second issue was offered to the public and was oversubscribed within a few weeks. Since then the stock has continually risen in public favor. The general down-

ward tendency of interest rates should make the security even more popular now.

According to the Company's announcement, more than 14,000 people in this territory purchased the first two issues, buying either for cash or on the partial payment plan. The Company now has stockholders in almost every town and hamlet in the states in which it furnishes telephone service.

This new issue should have a special appeal to the people of Sweetwater because it is a home investment. Investors seem to appreciate very highly the opportunity to put their money in an investment which they can see working right before them in their homes and offices.

Shares may be bought for \$100 cash and accrued dividend or on monthly installments of as low as \$5 per share. Purchases may be made at the Telephone Office or from any telephone employee.

HILLS OF HATE

Far up in the snow covered Northwest lies a range of mountains which, to one man and one only, were known as the "Hills of Hate." His reasons for thinking of them under this uncomplimentary name were many. They were constant reminders to him of the things that had brought him there, things that made him hate everything, every person, even himself. He was constantly reminded of his morbid mental condition for the people of the mountains nicknamed him "Hate," because of his surly disposition. After many vicissitudes and hardships, almost unbearable, real true love comes to the wanderer and his hate for everything turns to the joy of living and the love of a true little mountain girl. She screen version of "Hills of Hate," featuring Jack Hoxie, is coming to the Queen Theatre Saturday.

"MY BOY"

The theme that has torn the hearts of so many mothers throughout the ages, that has furnished the inspiration for songs and stories without number, was ably treated in the film "Where is My Wandering Boy Tonight" which was shown at the Queen Theatre to a capacity crowd Thursday and will be shown again tonight. There is a liberal mixture of fun intermingled with the underlying pathos of the boy who goes to the city, lured by the great white lights and glamor from his home in the country, of his mother who worked all night to get his clothes in shape for him and when weariness overtook her at the last moment she slept, how he thoughtlessly left without bidding her goodbye, of the wrong step at the instance of the girl who was not worth while—all these things and more are shown on the screen in a manner to cause a thoughtful moment in the lives of those who witnessed it. A great, ably portayed picture await those who go to the Queen tonight.

Some of the guests of friends here. University for the year. Kennedy has months. He lived here with his parents. They lived for a number of years in Sweetwater, but moved to Dallas about six years ago.

Rev. G. C. Farris will fill his regular appointment at Decker Baptist Church Sunday.

Ellis Douthit left last night for San Antonio where he will visit his cousin Kennedy Smith a week before he returns to Austin to enter the State University for the year. Kennedy has been ill with rheumatism for fifteen months. He lived here with his parents several years ago.

Misses Florence Poffenbach and Bessie Beall will leave for Dallas tonight where they will visit until Monday as they are enroute to Austin to enter the State University.

STILL WAITING FOR FUEL
The Lanus test 18 miles northwest of Sweetwater is still shut down awaiting a carload of fuel oil. The car has been finally located in Fort Worth and started west and its arrival here is expected daily.

WEST TEXAS NOTES

Stolen Cattle.—Thursday a party of Presidio county ranchmen left Marfa for Chihuahua, Mexico, to see about locating some of the cattle that have disappeared from a number of ranches along the border, says the Marfa New Era. The trip was made overland in an automobile via Ojinaga, Mexico, and will cover something like 200 miles in the interior of Old Mexico. There is not much being said about cattle rustling along our border, but we have heard that quite a few head have disappeared recently from the ranches of W. B. Mitchell, Tom Hawk and the Stevenson ranch. Among those who departed on this Mexico trip were: Tom Hawk, Jack Hawk, W. B. Mitchell, Burton Mitchell, Will Russel and Capt. J. C. Short of the Seventh Cavalry. These men are determined to find out what is being done with the cattle being stolen on this side and who is responsible for their theft.

Raise Buffalo on Parker County Ranch.—Perpetuating the American Bison the purpose of Dr. Milling of Mills and Wells, who recently is reported to have purchased six or seven sections of the John L. Jackson ranch near Fuster, for the purpose of stocking it with buffalo and buffalo calves, bought from a Panhandle buffalo ranch. Milling is having posts hauled to the ranch for a ten foot high fence to encompass the property. When completed the ranch will be stocked. —Dublin Progress.

Midland Man Buys Registered Cattle.—Go. G. Gray of Midland purchased 18 head of registered Hereford from Hordy Morgan, of Lamesa, Texas, recently. These Herefords, which are exceptionally fine stock, will furnish a foundation upon which Mr. Gray can build a fine herd of pure Gys. Herefords have demonstrated their adaptability to conditions in this section of the country, and each month sees an increase in the size of Hereford herds in Texas. The 1920 census records 70,021 Herefords in this State. Because of their hardiness, their rustling ability and their early maturing characteristic, Herefords make an ideal beef animal. They are in constant demand by feeders, for finishing in the corn belt. Hereford feeder cattle ordinarily outsell any other breed on the Kansas City and Chicago markets. They are profitable alike for the man who produces them and the man who feeds them. —Odesa Times.

MINERS.
Under soft coal miners in most fields go back to work at the same wages they were getting when the strike started.

Hard coal miners aren't satisfied with a fifth more than before the strike.
Not hard to understand when you get their viewpoint. Hard coal miners have always claimed that they are more highly skilled than soft coal miners. Up to a few years ago, anthracite miners had their claim recognized by getting more wages than bituminous miners. In asking a raise of 20 per cent, they are trying to get their old relative supremacy restored.

IRRIGATION GAINS HEADWAY IN WEST

Williams Predicts 1922 Will Be Most Momentous in History of West Texas

SAYS WILL VOTE BONDS SOON

Will Create Unhindered Prosperity That'll Carry Section Through Any Sort of Crisis

BALLINGER, Sept. —That the year 1922 will be the most momentous in the history of this section of West Texas is the prediction of Stuart L. Williams, secretary of the Colorado Valley Irrigation Association, which he says will in this year vote bonds to construct the largest irrigation project in West Texas.

Mr. Williams estimates the cost of the project at from \$1.00 to \$1.50 per acre for a period of thirty years and predicts that the completion of the project will make this section as famous as the Salt River Valley of Arizona and create unhindered prosperity throughout this whole section that will carry the people of West Texas through any sort of a crisis. He enumerates some of the principal benefits as follows:

- 1—Create a balance wheel of steady production of wealth that will make business always good in West Texas, rain or no rain.
- 2—Relieve the minds of thousands of people of the fear of drought.
- 3—Create as much wealth on the irrigated area as has heretofore been

SHOES

 Gents Furnishings

made in any ten West Texas counties. 4—Make it possible for large feedling pens to be established here and finish thousands of range cattle for the market and eventually establish killing plants at San Angelo.

5—Increase the population of Runnels, Coke and Tom Green counties by at least 50 per cent. 6—Bring better roads, schools, conveniences and a more comfortable life to the farms of this section.

Has Made Big Progress.
 "The Colorado Valley Irrigation Association, now 20 months old, has become one of the most prominent organizations of its character in Texas," Mr. Williams says. "The results obtained in that length of time by its membership, directors and officers has proven conclusively to the 'watching and waiting' world that the people of this section are determined to put an end forever to the menace of drought which hangs over the counties which the proposed irrigation project will affect."

Carl Gubb, the president of the irrigation association, has recently been made chairman of the irrigation committee for the West Texas Chamber of Commerce and lately presided over the state-wide conservation meeting held in Waco. He was made first vice president of the Texas Conservation Association, the working organization for irrigation and reclamation born at the Waco meeting.

"The Colorado Valley Association was strongly represented at Waco by delegations from San Angelo, Miles, Bronck and Ballinger, all of the delegates being active in the proceedings at the meeting.

Survey Now Complete.
 "The Association has secured hundreds of columns of favorable publicity for this section of the state; has attracted the interest of prospective investors everywhere, and has carried the promotional work on the project to its present stage without a reversal or setback.

"The greatest initial task on the project, the geological survey, was laid over within twelve months after the association was organized, \$20,000.00 being secured from the State Water Engineers and United States Geological service and \$5000. raised in the cities of this section.

"The engineers of the U. S. Geol. the maps of the project since February 1 of this year, have submitted proof sheets to the department for correction, which sheets are now in the hands of the State Board of Water Engineers and city and county engineers of Coke, Tom Green and Runnels counties.

Progress Has Been Rapid.
 "Upon the completion of work of checking up and correcting the maps,

they will be returned to Washington, where final sheets will be prepared in color. Based on these maps, the State Water Engineers will indicate what land is irrigable by gravity, and recommend that it be included in the irrigation district.

"It is evident from the rapid progress which is being made with the work that the formation of the irrigation district will be started during the present year. The district will be a separate political entity, having its own tax assessor and collector, board of supervisors, engineers, attorneys, etc.

"The expense of carrying on the promotion of this big project is being handled by memberships in the Association. Membership campaigns have already been carried on in every town affected by the project, except San Angelo and Sweetwater, and officials of the Irrigation Association have indicated that efforts will be made at an early date to line up a large number of the citizens of these two cities as members of the organization."

AUCTION
 Ten head of good work mules and horses will be sold at 3 o'clock Saturday, September 16 on lot opposite the Texas State Bank and Trust Company, Earl Fleharty, auctioneer, adv. 31.

MAXWELL PLEASES ENGLISH.
 Design And Economical Performance of Car Gives Universal Satisfaction.

A. E. Barker, vice president of the Maxwell Motor Corporation, has just returned from Europe where he made a thorough survey of automotive trade conditions.

During the course of his visit Mr. Barker, accompanied by London representatives, traveled by Maxwell sedan more than two thousand miles throughout England, satisfying himself of the actual state of the motor car market by visiting the Maxwell dealers. Everywhere he found that the design, appointments, and economical performance of the good Maxwell line are making a strong appeal to English preferences.

The touring car—and the enclosed cars in particular—were almost invariably referred to as the most striking illustration America has ever sent abroad of the possibilities of massed manufacture when concentrated upon the production of really beautiful and finely finished cars.

Mr. Barker says that for obvious reasons England is not for the moment and cannot be, until recovery is more complete, a large market for American Cars.

In France, conditions are of course prohibitive, and the same is largely true of the rest of Europe.

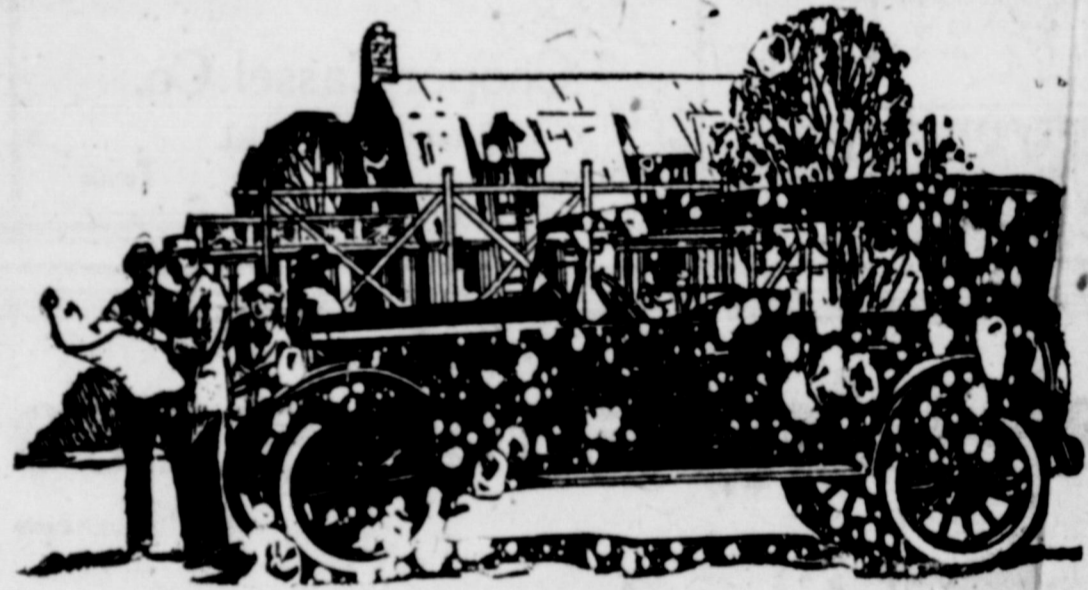

English business, big and little, is vigorously and doggedly for a return to better conditions, and Mr. Barker believes that Great Britain will ultimately furnish a demand for the good Maxwell far larger than any developed in the past.

"It would be presumptuous," says Mr. Barker, "to offer any comment on European political or economic conditions. The most that can or should be said is that underneath discouraging surface conditions, there undoubtedly exists a realization on the part of nations most concerned, of the desperate necessity of continuing to struggle toward a solution."—(Adv.)

The Leather Pushers
 Each episode is complete in itself, so even if you haven't seen the others you can admire the lively humor of this prize fighting youth.

Hupmobile Popularity Soundly Based

Men appreciate any product which serves them faithfully and at low cost over a long, long period. That is why those who once own the Hupmobile are so rarely persuaded to change. They know that every desirable quality a motor car can

have, they are sure of in the Hupmobile. The Hupmobile is a great favorite because it does the things the owner has a right to expect, keeps right on doing them with efficiency and economy, and gives him no cause for anything but lasting satisfaction.

And When It Comes To BARGAINS

Chesley's is the place to find them. That is what Chesley's store is noted for—bargains in all departments. Here you will find high quality merchandise at prices much lower than you are asked to pay elsewhere.

Have you seen the lovely silk pongee that we are selling so reasonably? It is one of the most popular materials and, here of course,—popularly priced, too.

- And we have that fine White Repp to trim gingham dresses.
- Black sateen for lining and for bloomers.
- Cotton poplin, new percales, sheeting and domestics.
- Curtain net, scrim and cretonnes.

PICTORIAL REVIEW PATTERNS
 Have you seen the New Pictorial Review Patterns for Fall? We have a full line of them and also the Pictorial Review publications denoting authentic styles for the coming year.
