## SANTA FE SHOPS ARE A BIG ASSET

As Growth Of West Demands.

RESERVE EQUIPMENT KEPT HERE

Complete Train And Extra Chair Can Await Traffic Interruption Or Extra Heavy Travel Demand.

Reasons why the Santa Fe Railroad is considered one of the great outstanding rail systems in the United States, which means in the world, can be readily seen by anyone who is privileged to visit the Sweetwater shops, and see the plans upon which they are laid out. Here is permitted a peep behind the scenes, as it were, upon property the ordinary traveling public never sees and which not all Sweetwater people have seen, although the shops have been here some twelve

The shops are laid out for a crew of from 250 to 500 men. Only 50 shopmen are required at the present time by the traffic handled over this line, The Santa Fe's investment in Sweetwater is said to be right around \$1, 500,000. An investment of a considerably less amount would handle the present traffic, but the Santa Fe always has one, and sometimes both eyes toward the future. Officials were confident that in time the tarffic from the Plains and other points in West reached by Premiers Theunis and Industry, is given as the reason for Texas would be heavy as the coun- Poincare at the Franco-Belgian con- an 11 per cent increase in the wages try developed-and they laid out the ference which terminated shortly af local shops accordingly. #### Going Out Of Business Did You Say? Well, I Reckon Not Today!

The recent Medical Practice Act put through the legislature by prejudice medical doctors, was assuredly meant to put us out and hundreds of our friends and patrons have written or asked us about it. For their information and anyone else's who wishes to know, we wish to state that CHIROPRACTIC MASSEURS are absolutely exempt from this law. Then, too, Chiropractors of Texas are too strongly grounded to be run out by prejudical legislation. They are thoroughly protected by our Association and anyone of them is ready to go to the Supreme Court, if necessary,

In the mantime, a Bill will be presented to this Special Sesson of the legislature to license Chiropractors before their own board. The Medical Association is trying to absorb Chiropractic just as they did Osteopathy a few years ago by requiring them to go before the Medical Board. To pass this board, one must naturally study medicine, surgery, chemistry, etc. A competent Chiropractor needs nor desires none of these for he believes that the same nature which creates one is fully capable of restoring health and maintaining it if the mechanism of the human body is kept in proper adjustment. There are tens of thousands ready to testify to the efficacy of this work.

When the Osteopathic Bill was passed, there were seventy-five Osteopaths in the state. During the six years following, but six were able to make the Board. There are less Osteopaths in the state now than six years ago. There are 21,000 Chiropractors in the United States today, 500 of them are in Texas. Twenty-eight States now grant license to Chiropractors. Four of them have passed laws licenseing them within the past four months.

Business is better than ever before.

The sick get well at

#### A SAFE INVESTMENT.

He that hath pity upon the poor lendeth unto the Lord: and that which he hath given will he pay him again .-Proverbs 19:17.

#### LOCATE ON MERIT.

The old home town is not making any grand stand plays with reference to securing the Texas Technological College, but the committee appointed to look after Big Spring's interests is working earnestly and faithfully and expects to present our claim to the locating committee in a most convincing manner.—Big Spring Herald.

There apparently are no towns which are seeking the Tech, which are making a great deal of noise and hubbub about it except the Plains towns. Of course, they will want it, and get it they will if they can, but the fact remains that the town with the best proposition is going to get the school, and that alone is going to get it. Clip & Comment believes that the locating board is going to locate the school solely on merit, and all this commotion that some of the towns are raising won't count for anything when the matter of locating the school comes down to brass tacks .- Abilene Report-

#### NOTICE OF SALE.

We will offer for sale between the hours of 10 o'clock a. m. and 4 o'clock p. m. at public auction, to the highest bidder, on May 1st, 1923, at the courthouse door in the town of Sweetwater, Texas, the following described per sonal property, viz:

One 16 inch Stepton Shaper; One 16 inch South Bend Engine Lathe, 8 foot bed, with 2 face plates and 4 jaw chuck; One Cylinder Boreing Machine; One Canedy Otto Drill Press; One Sterling Power Hack Saw; One Power Threading Machine: Two Emery Stands; One Welding Plant; One 5 H. P. Electric Motor 3 Phase \$20; One Machinist Vise With Swivel Bottom; One Lineshaft and hangers and pulleys and belting; Four Countershafts for threading machine and shaper and lathe and emery stands; One hand drill press; One electric blower; One portable forge and blower; Two ancile; One power hammer; One blacksmith vise; One woodworkers vise; One hot tire shrinker; One cold tire shrinker; One cold tire shrinker Brooks; One electric drill; One chain block and tackle; and all other property formerly owned by the Sweetwater Machine and Foundry Company, the foregoing and all such property being located and contained in the brick building situated on Lot 3 Block 22 of the original town of Sweetwater, Texas, and back of the Santa Fe Hotel.

This property is offered for sale to satisfy thirteen notes, dated March 25th, 1921, for \$50.00 each, cearing 10 per cent interest per annum from date and providing for 10 per cent attorneys fees, given and executed by H. E. Powell and wife Fannie H. Powell to J. A. Mullins, and now owned by us Said notes are secured by chattel mortgage on the above described property, under and by virtue of which we have declared all said notes due and make this sale.

Witness our hands, this 13th day of April, 1923.

RUFUS WRIGHT. GEO B. HOWELL. 63t10c.

All ladies taking part in the Elks' Minstrel and Musical Comedy, were in their riding costumes Friday afternoon on horseback, taking a ride in real horsewoman style. The jocky members of the cast were also in evidence. Quite a few people not knowing of the affair who resided else where, didn't lose much time in getting the facts in the case. The ladies made a beautiful appearance.

# Religious Denominations Differ In Detail Only

"For as we have many members in one body, and all members have not the same office; so we, being many, are one body in Christ, and every one members of one another."-Rom. 12:4:5

Science has proved that no two things in nature have been created exactly alike. No two individuals have ever been identical either in their physical or mental construction, and therefore, it is reasonable to assume that the Divine Creator intended that humanity should arrive at the truth through different processes of thinking and reasoning. Many different and divergent types of human nature make up mankind, yet back of all these differences in detail the ultimate goal remains the same. There are many religious denominations in the world today all putting forth their fullest effort for the same ultimate good; the interpretation of the will of Divine Providence and the application of these truths to individual life. The only difference between these denominational beliefs are minor details. Religious denominations and sects are the outcome of different types of human nature. Your process of reasoning may not concide with the doctrine of all the churches but you have the privilege of making your own church affiliation on the basis of your own belief.
