SUNDAY BRINGS MANY CONVERTS

Twenty-two Respond at Afternoon and Night Services at Tabernacle Sunday as Rayburn Urges

TOTAL IS NOW 35

To Begin Downtown Prayer Meeting Tuesday Morning For Business Men—Other Services

Twenty-two people hit the trail Sunday at the men's afternoon service and at the night service of the Rayburn evangelistic meeting. No call was made at the morning hour.

Rayburn preached with greater vim and fire than he has yet demonstrated, and the choir responded to the occasion with great choruses.

Tuesday the revival opens its full program. In addition to the women's prayer meetings, the Bible study class, and the regular night services, a business men's meeting will be held each morning at 10 o'clock at some one of the stores or bank buildings. The one Tuesday is to be held in the First National Bank lobby. Here Mr. Boggs will play on his accordion-piano and Mr. Cheek sings, after which Rayburn talks for a few minutes. All services are dismissed promptly at 10:30. At 7:30 p. m. in the evening a men's prayer meeting will be conducted at the First Christian Church.

Sunday morning Rayburn preaches on "The Missing Disciple," taking for his text Jno. 20:24, "But Thomas, one of the twelve, was not with them when Jesus came." Rayburn first showed the lack of any reason given for Thomas' absence. He told the result then of Thomas' absence upon him. "It made him the greatest doubter in the world," continued the evangelist. "It caused him to doubt the testimony of ten of his closest friends and companions; it caused him to doubt God himself. Thomas was indeed the missing Disciple. He missed everything. And thus goes the member. He will miss every church service he possibly can, going only once a week or less. And like Thomas he will first doubt the word and the church, and then he will doubt God himself.

"I don't know why Thomas was missing, but the reasons why most of us don't go are indifference, laziness, and that we don't want to go.

"Christ had a right to expect Thomas to be there as he was one of the twelve; and of all people an apostle was absent. Christ has the same right to expect every church member to be in his place. He doesn't expect the bootlegger, but he does expect us. If Thomas was absent and he became the greatest skeptic in history, how will the church member become if he neglects the services of God."

Men's Meeting

At 2:30 in the afternoon Rayburn spoke to approximately 1,000 men on "The Missing Disciple," showing the necessity of being a man in living a Christian life. He stated that in the first place one had to be strong in order to show himself a man; strong in using the right language. "Don't use profanity," he said, "because you are carrying a man's mouth and not a man's head. Show yourself a man by leaving off the dirty story; by losing the right companions; and love all, respecting and upholding the American womanhood."

Rayburn attacked the modernism and billboard, and before closing read a letter from a girl suicide in Oakland, Cal., to Paul Brown, a M. C. A. worker, a most stirring story of a fallen and ruined girl who went down because of the lack of a man in some people, and carelessness on the part of the church.

Often during his talk Rayburn was cheered and applauded by the audience. The sermon lived up to its reputation as being one of the greatest sermons for men preached by a modern evangelist.

Following the service 12 men walked down the aisle and responded to a call for Christian faith. At 3 o'clock Mr. Cheek held a women's prayer meeting in the Methodist church, attended by some 15 people. At 6:15 p. m., Rev. Farnum conducted the union young people's service at the First Baptist Church, talking on "The Men Who Followed Christ and He Who Stayed Behind." There will be no young people's services for the next two Sundays because of conflicts with other services.

Wichita Youth Married at 14; Spanked By Mama

WICHITA, Kas., May 5.—This city can boast, if it cares to, of the youngest Benedict in the world.

Last February, Arwell Little, 14 years old, married Miss Opal Duncan, six years his senior.

Last Monday the boy's mother marched him to the proverbial woodshed, and used the family hair brush where the boy had no hair. She then escorted the lad to the probate court where she filed suit for annulment of the marriage on the ground that her son was too young to become a husband.

Arwell and his wife have not been living together, it is said, and his mother only recently found out he had given up single blessedness.

The youthful bridegroom admitted he had been induced to marry somewhat against his will.

OUST DEMOCRATS IN POSTOFFICES

Civil Service Reform League Charges Republicans Given Office on Every Possible Pretext

FAVORITISM IS SHOWN

Trivial Charges Sufficient to Oust Democrats But Overlooked in Case of Republicans

By The United Press.

WASHINGTON, D. C., May 5.—Postal employees who happened to be Democrats have been kicked out by Postmaster General New and their places given to Republicans in disregard of Civil Service rules, the Civil Service Reform League charged today.

A formal investigation conducted by the League after New had denied them the opportunity to make an official investigation disclosed that charges against Democrats removed had been of a trivial nature and that more serious offenses of the same nature committed by Republicans had been disregarded.

Richard Boeckel, the local representative of the League, declared that postal inspectors are used to persecute Democratic employees and drive them from the postal service.

Scores of Passengers Shaken Up And Trainman Loses Life in Golden Gate Limited Wreck

By The United Press.

SAN FRANCISCO, Calif., May 5.—Scores of passengers were shaken up and an engineer killed when the Golden State Limited, fast Rock Island-Southern Pacific passenger train operating between Chicago and Los Angeles was derailed five miles east of Lordsburg, N. M., today.

An open switch caused the wreck. C. A. Thum, of El Paso, engineer of the limited, was killed.

DR. ELLIS COMING

Famous Writer Religious Topics With Chautauqua

For many years, Dr. William T. Ellis has written for the Dallas News, and more than three-score other daily newspapers in the United States and Canada, a weekly journalistic article upon the International Sunday School Lesson. Wherever he may be traveling on the earth, in pursuit of his profession as a foreign correspondent, he prepares this lesson, never missing a week. Although a layman and a newspaper man, Dr. Ellis is probably the most widely read writer upon religious topics in America.

"If I didn't have a far more important message in 'America's Way Out For The World,' I would like to lecture on 'Through Bible Lands in American Automobiles,' narrating some of my recent experiences in the new-old trouble centers of the earth," said Dr. Ellis.

Farmers who have head the recent article in The County Gentleman, entitled, "All Things Pass But This," a remarkably intimate and illuminating picture of farming in Bible Lands, will want to hear the author, Dr. William T. Ellis, lecture at the Chautauqua upon "America's Way Out For The World—A Traveller's Conclusions."

ROCK ISLAND MAY BUY ORIENT LINE

President That System Passes Through Sweetwater Monday On Inspection Tour

TRAVEL ON SPECIAL TRAIN

Acquisition of Orient by Rock Island Would Give That Road Outlet Into Mexico and Pacific

By The United Press.

KANSAS CITY, Mo., May 5.—Negotiations for the purchase of the Orient railroad by the Rock Island were under way here today.

President James T. Gorman, of the Rock Island, was on a tour of inspection of the Orient lines with Wm. T. Kemper, former receiver of the road.

At a recent sale by bankruptcy the Orient was purchased by Clifford Hieston, attorney for Kemper for \$3,000,000.

In case the property is purchased by the Rock Island and construction work is completed it will give the company the shortest route to the Pacific Coast and through valuable timber and agricultural sections of Mexico.

Pass Through Sweetwater

The five car special train bearing the Rock Island president and W. T. Kemper and E. H. Shaffler of the Orient, passed through Sweetwater bound south about midnight Sunday night. It was composed of three Rock Island business cars and two Orient business cars. The special train went to Alpine, which point it had not left at 10:30 Monday morning.

On the return trip, the schedule of the special train called for its leaving San Angelo at 6 p. m., with arrival at Sweetwater at 8:20. Two of the Rock Island cars are to be shifted to the Texas-Pacific here to be hooked on to the rear of No. 6 and taken in to Fort Worth.

Coalition Government Pledges Fulfillment of Reparations Obligation in Sunday Election

25 MILLIONS VOTE

Whether New Cabinet Will Represent Liberal Party Depends Upon Final Returns 30 Parties

By The United Press.

BERLIN, Germany, May 5.—A coalition government pledging fulfillment of the reparations obligation and carrying out the Dawes-Young plan, probably will take office as a result of the national elections in Germany Sunday in which 25 million men and women voted.

Whether the new cabinet will represent the present coalition or a new alignment of the Liberal Party depended on the final returns, which still was somewhat confused owing to the presence in the field of more than 30 parties.

MC ADOO LEADING BY FOUR TO ONE

Assured Almost Certain Victory in Texas County Conventions Tuesday as Result Primaries

Underwood Forces Claim Share Uninstructed Delegates Will Vote For Their Man Next Tuesday

By The United Press.

DALLAS, Texas, May 5.—William Gibbs McAdoo was assured of an almost certain victory in Texas county conventions tomorrow on a basis of almost complete lead returns of the State precinct primaries Saturday.

McAdoo held practically a 4 to 1 lead over Oscar Underwood and had a substantial majority over Governor Neff who campaigned the State for uninstructed delegates to the county, State and national conventions.

Underwood's forces claimed that many of the uninstructed delegates in tomorrow's county convention would vote for their candidate who would ultimately capture at least a share of Texas' 40 delegates to the national convention.

The Texas State convention will be held in Waco, May 27.

Against Neff

By The United Press. DALLAS, Texas, May 5.—McAdoo adherents today moved to ostracize Governor Neff and others who favor an uninstructed delegation from Texas to vantage places in Tuesday's State-wide county conventions.

Encouraged by the decisive victory in the precinct conventions Saturday, Texas leaders for the former Secretary of the Treasury laid underground wires designed to gain complete control of the county conventions.

Tom B. Love, national committee man from Texas declared that neither Neff nor J. E. Ferguson were wanted on the delegation to the New York convention.

Late returns today indicated that McAdoo would have a decisive majority over a possible combination of the Underwood and the uninstructed forces.

Captain W. E. Lea, Underwood's Texas manager, refused to concede a McAdoo victory.

"He has not won yet on the face of returns so far compiled," Lea said.

SENATE ADOPTS DEMOCRAT PLAN

Passes Democratic 40 Per Cent Surtax Rate by Vote 43 to 40 at Today's Session

MELLON PLAN IS DEFEATED

The 25 Per Cent Surtax Advocated by Mellon Thrown Over in Favor of Higher Rates

By The United Press.

WASHINGTON, D. C., May 5.—The Democratic 40 per cent maximum surtax rate was adopted today by the Senate.

The vote was 43 to 40. Seven progressives joined with the Democrats while two Democrats voted with the Republicans.

The seven progressives were: Brookhart, Frazier, North Dakota; Howell, Nebraska; Johnson, California; Ladd, North Dakota; Norbeck, South Dakota and Norris, Nebraska.

Bruce of Maryland and Edwards of New Jersey were the Democrats who deserted the minority ranks.

This action of the Senate automatically kills the Mellon surtax rates and forecasts defeat of his entire scheme of normal corporation and insurance rates.

The Democratic surtax rates are based upon a sliding scale, beginning at one per cent on \$10,000 and graduating up to 40 per cent on \$500,000.

Mellon proposed a 25 per cent maximum and the House adopted a 37 1-2 per cent maximum.

HONOR HERRING

Burton-Lingo Appoints Local Man District Manager All Yards West of Fort Worth

By The United Press.

A. H. Herring has been elected district manager of all the western Burton-Lingo lumber yards, covering all yards west of Fort Worth, on the Texas & Pacific, the Santa Fe Cut-Off, San Angelo Branch, etc.

When asked the question as to whether he would make Sweetwater his headquarters, Mr. Herring did not hesitate telling his company that he would make Sweetwater his headquarters and home, for the following good reasons:

In the first place, Sweetwater is the hub of all the West—from which one can get out any direction, making the various points, no matter where they may be located, with the least time, expense and trouble. In the second place—Sweetwater is the nicest place in all the West to live, because of its desirable location, having the best water to be found in the entire West, in addition to the best people to be found anywhere—and last, but not least, Sweetwater is sure to be, Mr. Herring firmly believes now, stronger than ever, which bears out his prediction when he first came here in 1912, that Sweetwater is certain to be the jobbing and wholesale, as well as the retail, center of the entire West.

While this is a great responsibility Mr. Burton says he will try to be big enough for the job and if hard work and strict attention to the business will get best results, he will, with the assistance of their good and capable men, take care of the job. While he will be gone from Sweetwater a good portion of the time, Mr. Herring hopes to be at home Saturday, Sunday and Monday of each week, where he can spend this time with his boys and friends.

TO HONOR BABIES

Sweetwater Sanitarium Arranging Reunion For Babies Born in 1912 Institution—May 12

Sweetwater Sanitarium is arranging for a baby reunion on May 12, National Hospital Day.

Entry, however, will be limited to those young citizens of Sweetwater who have had a real advantage starting life in this humdrum world, in other words, babies born in Sweetwater Sanitarium.

These babies, who number 13, are cordially invited to come to the hospital May 12 and have a reunion. Of course their mothers and fathers, their sisters, and brothers, cousins and aunts, not to forget their grandfather and grandmother, also will come along, and the rest of the people desiring to see some of the best representatives of the leading citizens of the future, are likewise cordially invited.

Baby reunions, according to Miss DeBerry of the sanitarium, are by far the most popular feature of National Hospital Day, and this year there will be such shows in hundreds of towns and cities in all parts of the United States and Canada. But none will ever equal the local display in quality of entrants. Souvenirs will be given the babies, who, with their mothers, will receive a special individual invitation to the affair. A cordial invitation extended to all. Remember the date, May 12. Remember, too, that National Hospital Day is a "come in and get acquainted day."

FORTY YEARS

Forty years ago two young men started a newspaper in a West Texas town. They had a Washington hand press, like Ben Franklin used, a handful of type, and their endeavor was housed in an adobe shack.

Sunday the San Angelo Standard observed the 40th anniversary of this humble beginning with a 68-page edition, printed on a modern high speed three-deck Goss press, with a battery of four linotype machines and other equipment of quality and quantity in keeping.

There are not many business institutions that survive 40 years and attain the growth of the San Angelo Standard. Fewer still stay with the same management for 36 years as did the late J. G. (Pat) Murphy with the paper he started so long ago. A costly concrete bridge over the Conchos in San Angelo has been made into a permanent memorial for him.

But unique in the annals of Texas journalism, possibly, was the 40th Anniversary Edition of the Standard. In this monumental work is gathered the stories of the early days of West Texas, days way back yonder in the sixties, seventies and eighties. Indians and bubbalo hunters, gamblers and ranchmen, cowboys and soldiers take their places in the great drama of the past.

From the early files of the Standard, but mostly from the lips of those who were actually on the scenes described has been gathered and woven a great epic of West Texas.

One by one the hand of death is closing the floodgates of memory for the pioneers. Soon they will be all gone. It is indeed a gratifying thing that the generation that succeeds them may have their experience as an inspiration for the days to come.

No child will be barred from the local schools if his or her parents fail to contribute to the fund with which to keep the schools in operation. But all children will be if the necessary funds are not subscribed.

TEXANS FEARFUL HOPPER DAMAGE

Farmers Are Urged to Prepare Bitter Fight on Grasshopper Menace to West Texas Crops

WAGE INTELLIGENT WAR

A. & M. College Expert Tells of Great Damage, Offering Formulas to Exterminate Pest

Farmers in many parts of Texas are fearful lest last year's damage from grass-hoppers may be repeated this season. Here in Nolan County are reports of grasshoppers already hatching, although at this early date no damage has yet resulted.

It is difficult to foresee what the outcome may be. Last year the dry weather reduced the pasture growth and drove the hoppers to the cultivated field bringing about heavy damage that might otherwise have been avoided. With the moisture in the soil this season it is possible that even if large numbers of the hoppers emerge they will remain in the pastures and the damage to cultivated crops will thus be light.

At the same time, farmers should be fully prepared to wage a fight if necessary. Success in saving the crops will depend mainly in promptness in destroying the hoppers previous to their actual entrance into the fields. Do not wait until they have destroyed half the fields.

The following formula is the one recommended by R. R. Reppert of A. & M. College, having been used with success in Texas as well as other States:

Wheat bran, 25 pounds; White arsenic or Paris green, 1 pound; Lemons or oranges, 6 fruits; Low grade cane or sorghum molasses, 2 quarts; water, 2 gallons.

Mix the bran and poison thoroughly while dry. Dilute the molasses with the amount of water named. Squeeze the lemon juice into this diluted molasses, then grind the rind of the lemons with a meat chopper and add this also to the liquid. Now mix the liquid thoroughly with the poison bran mixture. After an even mixture has been obtained, add more water and mix, until a mash is obtained so that after being squeezed in the hand, it readily falls apart.

Grasshoppers feed in the morning, and as the bait loses its attractive-

ness when dry, it should be applied so as to be as moist as possible at this time. It will therefore be best to put it on about sun rise. Provided the ground is not so hot and dry as to remove the moisture during the night, it may be put out late in the evening in case the area to be treated is too extensive to be quickly covered in early morning. The mixture should be scattered, as if sowing seed, by hand, or any type of seeder capable of distributing it. The amount is the formula should cover about five acres.

Where the hoppers have become distributed over the cultivated field, the entire area should be sown, and the application repeated in a few days if necessary. If the hoppers are found to be advancing from pasture lands, distribute the mash in front of their line of march for a distance of a couple of hundred yards, keeping also the margin of the pasture land treated until the danger of damage has passed.

The mixture should be made exactly as directed, leaving out no part. Where the infestation is general, community action is recommended. The materials should be provided in large quantities, and a large amount of the mixture made up at a central place late in the evening, or better, well before daylight in the morning. Each farmer will then take his portion and apply immediately.

Carrying Out Campaign

1. Watch for numbers of the insects in the pastures and along the fences.
2. If found abundant there, locate sources of the various ingredients of the formula (write the wholesale drug companies in the larger cities of Texas regarding supplies and prices of the poison).
3. Have the County Commissioner establish a revolving fund for the purchase of poison and its resale to farmers at cost.
4. If the hoppers threaten the crops, start action at once. Establish central mixing plants.
5. Persist in the fight till the insects are destroyed and the crops saved.

Be guided by the advice of your county agent, such assistance will be given by the Extension Entomologist as is physically possible.

Substitute For Fruit

Experiments in Montana have shown that amyl acetate, substituted for lemons, has increased the effectiveness of the poison bait. The most effective formula there appeared to be as follows:

Wheat bran, 2 pounds; Salt, 1 pound; White arsenic or Paris green, 1 pound; low grade cane or sorghum molasses, 2 quarts; amyl acetate, 1 ounce; water, 10 quarts.

Amyl acetate as a substitute for the fruit has been tested in Texas by the Federal entomologist, and while the results were successful, we hardly think the work has been sufficiently extensive as to justify us in giving this latter formula our unqualified endorsement. We suggest that farmers stick to the first formula, and experiment on a small scale with this latter formula. Amyl acetate has the advantage of being much cheaper. Use only high grades of amyl acetate denoted as "C. P.", "U. S. P.", or "technical," and avoid compounds presented as "banana oil," "bronzing liquids," or amyl acetate derivatives, which contain so little of the actual material and so many impurities as to make them unadopted to grasshopper work.

first of a series of sermons on the life hereafter, taking for a text Math. 10:8, "Fear Him who can destroy both soul and body. There are many subjects we do not wish to talk about and that is one of them," he said. "There are many disagreeable facts nevertheless they are facts." Rayburn dealt upon the various proofs of the existence of a hell, then went into its everlasting nature. He presented the conditions in hell and the fact that there was no salvation from that region as sin there was everlasting and repentance impossible.

He made the statement that his belief in a hell was founded in two things: the fact that Christ said there was a hell, and the fact that he had seen hell lived in the mining and railroad towns of 25 years ago in the northwest.

"Eternal, everlasting sin, that is hell," said Rayburn, "and the Book says, 'Fear Him who has power to destroy both soul and body.'"

Ten persons responded when the call was made, bringing the total for Sunday to twenty-two, and for the meeting, thirty-five.

Today Mr. Rayburn and party spent their time in visiting the schools of Nolan County, going as far as Blackwell.

Rayburn will deliver the first of two lectures on the Holy Ghost Tuesday at the 2:30 p. m., Bible class. That night he will speak on "The Question and Its Answer." Wednesday after-

ROBINSON CRUSOE ADVERTISED

Robinson Crusoe was wrecked on a lonely and desolate island. He wanted to get OFF that island. He wanted that fact to become known. It wasn't enough that his man Friday should know it; it wasn't going to do him any good for his pet goat and parrot, and the other nearby things on his own island to know that he wanted to get off. The people to whom he wished to communicate this desire of his were people who might pass nearby in ships, who were able to relieve him from his lonely position.

So what did Robinson Crusoe do?

He did what any wise man who wants to reach other people—to communicate to those not in direct touch with him:—

HE ADVERTISED!

Now right off the bat it might occur to you that he had about as little an advertising opportunity as any man you ever heard of. He HAD. But that didn't keep him from advertising.

All he had in this world to advertise with, was an old SHIRT. Not much of an advertising opportunity, we admit, and his prospective "customers" were very few.

But Robinson Crusoe was one of those guys who made the most of his opportunities. He took the old shirt, stuck it on a pole, and stuck the pole up on the highest point of his island.

He didn't stick it up there one day, and take it down the next. He didn't say to himself: "Advertising may be all right for some folks, but it's no good for me." He didn't say: "I'll stick the old shirt up today, and then take it down for a few days."

He just put the only ad he had in the best position he could find for it, and kept it there all the time, day in and day out.

And finally he GOT RESULTS.

CONFINED TO BED

Birmingham Lady Took Cardui for Relief of Change of Life Troubles and Says It Helped Her "So Much."

Birmingham, Ala.—"I first took Cardui for that tired, worn-out feeling that comes from being dreadfully run-down," says Mrs. Catherine E. Smith, of 2106 Stout Street. "Twenty-five years ago, I was suffering from womanly weakness. I read of Cardui in an almanac, and thought I would try it. I got a bottle and it helped me from the first. After that, during the whole of my married life, I took Cardui when I needed it. "About four years ago, change of life came on me. I grew weaker and weaker, and was confined to my bed, where I lay on my back for days. I was told that only a severe operation could do me any good, and this depressed me very much, for I dreaded such an ordeal. "I remembered how Cardui had helped me for female trouble in the past and I had read of how it had helped other women during change of life, so one night I told my husband to go to the drug store and get me a bottle. I began taking it at once. From the first dose I could feel myself getting stronger. I continued to take Cardui until I was entirely through this very trying period of a woman's life." How to Avoid Grade Crossing Accidents

Automobile drivers, when approaching railroad crossings, should go into second speed. Then look and listen. Absolute control thus is assured. Stop or go ahead, as conditions warrant.

During 1923 one hundred and three persons were killed and four hundred seventy-four injured at highway crossings on the Santa Fe Railway.

These regrettable accidents might have been avoided if these motorists had been careful.

The rapid increase in these grade-crossing accidents is due to the greatly increased and general use of the automobile in the hands of drivers ignorant or willfully disregarding of the perils which attend careless driving. Sometimes it is the careless driver alone who pays the penalty, but usually innocent ones pay it in part or entirely.

Automobiles should be safer at railroad crossings than horses, because they are urged to give this "Safety First" suggestion most earnest consideration. Better be safe than sorry.

do not become frightened and are better controlled; but the opposite seems to be the case. An experienced driver of horses describes the proper method of approaching a railroad crossing as follows: "Gather up the reins tight, take out the whip, and bring the horses to a walk." An experienced automobilist advises: "Always go into second speed."

The method is precisely the same in either case. The driver has absolute control, can stop or go ahead as conditions demand, and is alert to the situation.

If all drivers would but adopt this simple rule and adhere to it faithfully the problem would be solved. What a saving there would be of priceless human life, of grief untold, ambitions wrecked, and hopes lost forever!
