NUMBER 123

MC ADOO SPECIAL HITS CONVENTION

Special Train Brings Western Boosters to New York Putting Pep Into Campaign.

"MC ADOO SURE" SLOGAN

Pretty Girls Throw Oranges to Crowd at Rear of Big Parade Down Fifth Avenue.

By The United Press. NEW YORK, N. Y., June 23.—The "McAdoo Special" train, bringing boosters from the Pacific Coast and Western States arrived shortly after 9 o'clock this morning and began injecting pep into the McAdoo campaign.

Led by a band blaring "California, Here I Come," the Golden State delegation swept down Fifth Avenue to the Vanderbilt Hotel, where McAdoo was to address his most enthusiastic group of supporters.

A group of women danced and waved "McAdoo Sure" banners. Three pretty girls in a taxi cab bringing up the rear threw California oranges to the crowds.

Osage Indians Get Nice Little Lump Sum In Royalties

PAWHUSKA, Ok., June 23.—Easy come, easy go!

That apparently is the philosophy of 2000 members of the Osage Indian tribe, who received in excess of \$4,300 cash from the government this week.

An exodus of the Osages on vacation trips to all parts of world followed the payments.

A total of \$9,583,700 was distributed.

A year ago each Osage received \$4,000.

The distribution this year is the largest in the history of the tribe. The money comes from oil lands.

FIGHT CURB PUMPS

K. C. Action May Affect Many Garages.

KANSAS CITY, Mo., June 23.—A campaign to eliminate curb gasoline pumps in Kansas City has been inaugurated. The city park board is seeking legal advice as to the procedure to be taken in the matter.

Members of the park board maintain the curb side gasoline stations have no legal grounds to base their right to continue in business in the city and are only operating on the sufferance of the city, with no establishment rights whatever.

If this attitude of the board is upheld by the city legal department several hundred filling stations in all sections of the city will be affected. It is understood, however, that stations maintaining a driveway which leads to a gasoline pump inside the regular sidewalk line will not be affected by the move.

Jackson Returns.

B. I. Jackson, Santa Fe ticket agent, has returned to his duties in Sweetwater after a five months leave of absence at Coleman, on account of sickness.

Miss Ilene Embrey of Brownwood arrived in Sweetwater Sunday to spend the summer with relatives here.

Hubert Toler left Sunday for Dallas.

PREPARING FOR PICNIC

Tourists and campers are prohibited from camping across the bridge, on the northwest side of the city lake, in order that the grounds may be cleaned up for the American Legion July 4th Picnic. Mrs. A. J. Wimberly was appointed chairman of a committee at a meeting of the B. C. D. Auxiliary Saturday to begin work at once in getting the park ready. Tables and benches are to be erected for the picnic.

Throttle Closed By Death As Vet Engineer Dies

By The United Press. McALISTER, Ok., June 23.—Death closed the throttle on the southbound Texas Special Katy passenger train here today when Engineer Jim McCasker slumped forward dead in the cab as the train ground to a halt. Heart failure was believed to have caused death. McCasker's home was at Denison, Tex. He was 55 years old, and had been in the employ of the Katy 35 years.

TO CALL PUPILS

Members of Ornithology Class Conducted by Nathan Leopold Jr., Will Be Questioned.

By The United Press. CHICAGO, Ill., June 23.—Learning that Nathan Leopold Jr. one of the confessed slayers of 14 year old Robert Franks, was a "professor" of ornithology, and that he had conducted classes in bird life among the families of the wealthy, the office of state's attorney Robert Crowe announced today that several of Leopold's students would be called for questioning.

Leopold earned his "spending money" by organizing classes in bird lore, in which the wives and children of the rich were enrolled.

"We will examine some of the pupils of Leopold," an attache of the state's attorney said. "It may give us added knowledge of Leopold's life, and probably many of them will testify that he is sane."

Baird Wants Fall Exhibit. Special to The Reporter.

At least, and poultry positively no carnival annex, was endorsed at the last meeting of the Baird Luncheon Club. A committee was also appointed to employ a band master capable of putting the Baird band back on its feet again.

Sighted at Indianapolis.

By The United Press. INDIANAPOLIS, Ind., June 23.—Lt. Maugham passed over Indianapolis at 8 a. m. on his dawn to dusk flight across the continent. His Curtiss pursuit plane was visible for only a moment as it shot across Indianapolis and disappeared into the west.

Headed Due West.

By The United Press. DECATUR, Ill., June 23.—Lt. Maugham passed over the city at 8:55 this morning, headed due west. Decatur is 40 miles east of Springfield.

FLIERS DELAYED

World Fliers Held Up in Rangoon by Illness of Flight Commander—Hope to Reach Calcutta.

By The United Press. CALCUTTA, India, June 23.—Lt. Lowell Smith, commander of America's round the world fliers, is ill, and the flight has been delayed. The three aviators are at Rangoon, and hope to fly here tomorrow if Smith is sufficiently recovered.

A tremendous welcome for the fliers has been prepared here. They are due to arrive Thursday if they leave Rangoon Tuesday. They will land at Mawal'ani, 16 miles from the city.

Lame and Blind in Concert.

HOUSTON, Texas, June 23.—Under the direction of J. R. Wallace, blind news dealer, the lame and blind staged a concert at the city auditorium to raise funds for an employment bureau for the physically handicapped. Participants in the entertainment sang, played, and gave recitations.

Cool Clothes For Coppers.

FORT WORTH, Texas, June 23.—No more will city policemen be forced to tramp their beats, clad in heavy serge uniforms under a sweltering summer sun. Palm Beach uniforms have been ordered for Fort Worth's finest and the good disposition of the coppers is expected to rise with the temperature.

PLAN FORCE VOTE ANTI KLAN ISSUE

McAdoo Foes Concentrate on Direct Vote to Beat Him Before Balloting Starts.

RESOLUTIONS FIGHT FIRST

Minority and Majority Reports on Klan Issue to Probably Come to Vote on Floor.

UNITED PRESS HEADQUARTERS, WALTERS-ASTORIA HOTEL, NEW YORK, June 23.—Foes of McAdoo for the presidential nomination have concentrated on bringing the anti-Klan issue directly before the convention for a vote—and by winning the fight, beat McAdoo before the actual balloting begins.

This line of action has been agreed upon by the anti-McAdoo leaders, following a canvass of the McAdoo delegations. The canvass disclosed that many of the delegates instructed for McAdoo or who preferred him, were ready and anxious to vote for an anti-Klan plank that would name the organization specifically.

Thus the first fight of the convention will be staged through the resolutions committee, which will draft the platform.

The McAdoo adherents will probably have a majority in this committee, and will report out a plank on the Klan so moderate that it will not name the order directly, according to all indications.

The anti-McAdoo representatives on the committee will draft minority anti-Klan plank, naming the organization, and thus through the report of the resolutions committee to the convention, force a vote on the two propositions.

ATTENDANCE INCREASES

Schools.

Sunday School attendance in five Sweetwater churches showed an increase of 136 Sunday over the total for the previous Sunday. The total attendance was 1102, while the collections totaled \$128.68 as compared with \$125.79 for the preceding Sunday.

Attendance and collections for each church was as follows: Baptist Church 300, collection \$15.89; Methodist Church 357, collection \$78.00; Presbyterian Church, 134, collection \$15.79; Christian Church 235, collection \$19.00; Church of Christ, 76 present.

WATER IS SHORT

Abilene Faces Serious Problem After Recent Hot Weather.

SPECIAL TO THE REPORTER. ABILENE, Texas, June 23.—Recent hot weather which has increased daily water consumption here to 3,500,000 gallons has brought the city face to face with a serious water problem. The city water superintendent recently stated that according to complaints made to the company, half the town could not get enough water, and some parts of the city were without water at various times during the day.

Lake Abilene now has plenty of water, according to officials, but the problem is bringing more of it to the city, and outlining methods of conservation for the future. Since the shortage of water here last summer, 1,300 new connections have been added to the system.

Weather.

Tonight and Tuesday, generally fair and continued warm.

Lost, Strayed or Stolen.

A basket of Microbes somewhere in Sweetwater last night about 6 o'clock when Madam Cupid arrived in town. All bachelors beware, for these Microbes are very dangerous things. If one should bite you it's Good-bye Bachelor Days.

Miss Dorothy Hudson of Fort Worth is visiting her aunt, Mrs. Willard Gibson.

Mrs. Rogers left Sunday for Cleburne after visiting her son, Charley Rogers, and family.

DAYLIGHT FLYER SPEEDING WEST

Lt. Maugham Hops Off From Mitchell Field, N. Y., Few Minutes Late at First Stop.

MUST AVERAGE 155 MILES

Third Attempt to Cross Continent in Daylight—19 Hours, 19 Minutes Allotted Time.

By The United Press. MITCHELL FIELD, N. Y., June 23.—Lieut. Russell Maugham took off at 3:59 a. m. Eastern daylight time, on his third attempt to fly from New York to San Francisco between dawn and dusk today.

The first rosy streaks of warm clear June day were just reddening the east when the army flier shot out "contact." There was a roar from the exhaust of his big Curtiss pursuit plane, and the pilot hopped off in his third attempt to span the continent between daylight and dusk.

He is scheduled to stop at Dayton, St. Joseph, Mo., Cheyenne, and Salduro, Utah, for fuel and water.

The distance from Mitchell Field to Crissey Field, San Francisco is 2,670 miles, and to make the flight in the 19 hours and 19 minutes of daylight, the aviator must average about 165 miles an hour.

Late at St. Joseph.

By The United Press. ST. JOSEPH, Mo., June 23.—Lt. Maugham landed at Rosecranes Flying Field at 10:53 a. m., central standard time, slightly behind his schedule, which called for his arrival at 10:30. His Curtiss plane swooped down from the skies with the speed of a hummingbird.

Maugham climbed from the cockpit and gave a few short sharp orders before he turned to the automob-

ile, filling the oil, and gong over the plane thoroughly.

At 11:37 Maugham took off for Cheyenne.

PLAN ALLIED CONFERENCE

Great Britain Invites U. S. to Discuss Reparations.

By The United Press. LONDON, Eng., June 23.—Premier MacDonald announced in the House of Commons today that he had invited the United States to participate in an inter-allied conference in London July 16, for a consideration of the reparations experts' plan.

Prayer Meeting Service.

Cottage prayer meeting will be held at the home of Mrs. R. G. Rogers, 603 Crant street, Thursday morning at 9:30. Mrs. S. M. Leach will be the leader.

Marriage License.

A marriage license was issued Saturday by County Clerk Gus Farrar to Dewey Brittain of Center, and Miss Hazel Miller of Roscoe.

Newlyweds Return.

Steve Wells returned to Sweetwater Sunday bringing his bride, formerly Miss Eula Culp of Merkel, with him. Mr. Wells is employed at the United States Gypsum Co. plant and the couple have apartments at R. S. Cox residence.

Galbraith Returns.

Louie Galbraith has returned from a fishing trip on the Llano and Concho Rivers. He was accompanied by Mrs. Galbraith. He says he did not encounter any snakes this time. Last year he had an argument with a water moccasin that very nearly proved serious.

In California.

Clifford McKee has accepted a position with the Postal Telegraph Company at Santa Barbara, California, under the management of Ralph Smith, also a former Sweetwater man.

In spite of the lofty ideals disseminated by the American Magazine, we hope to read some day of a successful business man who doesn't want to die in the harness.

Lad's Condition Unchanged 37th Day Unconscious

HOUSTON, Texas, June 23.—The condition of Manuel Middleton, 12 year old Houston boy, remained unchanged on the 37th day of his coma here yesterday.

Sunday visitors tip-toed in and out of the house all day, bringing gifts and sympathy for the boy who has been unconscious since May 17, from cerebro spinal fever. Attending physicians say he has a chance to recover.

CANDIDATE HERE

J. M. Melson, in Race For State Attorney General From Sulphur Springs Meets Voters.

J. M. Melson of Sulphur Springs, candidate for Attorney General, spent Monday in Sweetwater meeting voters of this section in the interest of his candidacy. He left for Cisco Monday night.

Judge Melson has been a practicing attorney at Sulphur Springs for 25 years. He has served five terms as a member of the House of Representatives.

Among the bills included in his record are those against Alien Ownership of Lands; compelling separation white and colored passengers on railroads, author of bills in 37th and 38th Legislature for support of schools and in his first session, was author of the bill putting school lands of West Texas on the market.

TEXANS ORGANIZE

Tom Love Heads Delegation at National Convention.

NEW YORK, N. Y., June 23.—The Texas delegation organized today at Mitchell Hicks of San Antonio as

Alva Bryan, Walter Murrel Buckner, Dallas, was made a member of the credentials committee. W. L. Thornton is a member of the rules committee, and Thomas H. Ball of the organization committee.

OFFICE OPENS

Postal Telegraph Ready For Business Here.

The Postal Telegraph and Cable Company have opened their office in Sweetwater, and are now ready for business, according to M. M. Moseley, manager of the office here. Work on the office was completed last week and Mr. Moseley came here from Freeport to take charge of the branch.

Census of Misers Shows Much Money Hidden in Homes

NEW YORK, N. Y., June 23.—There are 8,000 misers in the United States who would rather hear the jingle of their money, as they play with it and call it pet names, than to have it draw interest in the banks, according to Joseph S. McCoy, United States treasurer actuary.

These 8,000 Americans have over \$400,000,000 hid away in the old woolen sock or sewed up in mattresses, McCoy estimates.

About half of this hoarded wealth kept out of circulation by foreign-born residents, McCoy said, while farmers have about \$125,000,000.

The rest is in children's banks, who, however, McCoy doesn't accuse of "holding out" on the banks.

TO BALLINGER

Rev. L. G. Morony to Deliver Key-note Address at B. Y. P. U.

Rev. L. G. Morony leaves Tuesday morning for Ballinger where he will attend the three day session of the West Texas B. Y. P. U. and Sunday School Convention there. Rev. Morony is scheduled to deliver the key-note address.

R. L. Robinson returned to Dallas Sunday night after spending two weeks' vacation in Sweetwater.

MC ADOO DEMAND FIGHT TO FINISH

Appeals to "Last Ditchers" to "Stick to Last Ballot" in Address to Delegates.

WILL NOT BETRAY TRUST

Accusation of Hostile Press Untrue, Candidate Says in Predicting Assured Victory.

By The United Press. NEW YORK, June 23.—In a speech to 200 enthusiastic convention delegates who swept into town from the Pacific Coast today, William Gibbs McAdoo appealed to his followers to "stick to the last ballot."

The appeal brought wild cheers from the crowd. Cries were heard of "We're here to fight all summer," and "We're last ditchers."

"You have been told by a hostile press that you will betray your trust after the first or second ballot," McAdoo shouted from the rostrum in front of his headquarters hotel to the crowd that jammed the street. "But I know that you will not desert. You are not here to betray, but to execute your trust, and victory is assured."

Balloon Type Hen Eggs Introduced In Kansas City

KANSAS CITY, Mo., June 23.—The balloon type of hen-eggs is being produced in Kansas City, Kas.

A local hen artist is the owner of a Rhode Island Red hen that has produced an egg 8 1-4 by 6 1-4 inches in circumference and weighed 1-4 of a pound.

The hen is alleged to have a habit of regularly laying extremely large sized eggs. Another egg of the same size and color as the hen in styles for men, women and children are now being raised.

Democratic National Chairman Collapsed Sunday.

By The United Press. NEW YORK, Sunday, June 23.—Cordell Hull, chairman of the Democratic National Committee, who collapsed last night, was sufficiently recovered today to resume his duties.

REPORT SEVERAL KILLED

Minnesota Governor Is Wired For Aid.

By The United Press. ST. PAUL, Minn., June 23.—Several persons were killed in a rain, wind, and electrical storm at Balaton, Minn., last night, according to a telegram received today by Governor Treus.

A city official of Balaton, who sent telegraph, gave no particulars, but asked immediate state relief.

Killed By Shotgun.

HOUSTON, Texas, June 23.—W. T. Smith, 40, was instantly killed when a shot gun in his hands was accidentally discharged as he tried to pull the gun through a fence.

Discontinue Service.

BROWNWOOD, Texas, June 23.—Because the road lost approximately \$1000 a month, officials of the Brownwood North and South railway, have decided to discontinue operations on the line. The road runs from Brownwood to May, a distance of 20 miles.

At Least Once a Week.

EL PASO, Texas, June 23.—Mayor Dudley has announced that during the hot summer months children of the Salvation Army rescue home will be welcome to play on the lawn of his home every Friday evening in bathing suits while several water sprinklers cool the kiddies off.

GHOSTS AND WORMS

There was great excitement in an Ohio town when it was reported that a mysterious red light was seen one night moving in a lonely woods near by. It appeared the next night, and succeeding nights, and the excitement grew.

Nobody could explain that "phantom light." Crowds gathered to watch it from a safe distance. Soon there were hundreds of automobiles parked on neighboring roads, when darkness came, and thousands of watchers staring with bated breath. None of them dared to enter the grove. One or two shot at the light. A scientist figured out that possibly it came from phosphorus in the soil. Common folk knew better. That blood-red light light could be nothing less than a fateful portent or evidence of a dreadful crime. They shuddered deliciously, and the excitement grew.

At the recovery of the body of a man who was killed in a tank car, the chairman and Mrs. K. C. Bloodworth.

A be

create men and women of worthy ideals, who will devote themselves to

ghosts for all the night crawlers he could supply, at a dollar a gallon. He found the best way to get the night crawlers was to hunt them at night with a red lantern. That was all there was to the great mystery. And Sammy was very sore, when he made his confession, because the silly spook-hunters had driven him from the job.

Ghost stories generally have about as simple an explanation as that, when you run them down.

VIVE LA CLIMATE

The famous West-Texas climate, one of the many God-given gifts for which the best part of the world is noted, has again proved its friendship for man.

Protected by the cooling winds that brought relief from the unusual heat as soon as the sun had gotten off the firing line, residents of West Texas passed through the hot weather of the

past few days without a death recorded from the effects of the heat, or even a single prostration reported.

In the Middle West, much lower temperatures caused nearly half a hundred deaths and twice as many prostrations. Driven to the water to seek relief from the intense heat, a dozen persons drowned. Hot winds through the days and nights added to the discomfort of the suffering public.

All of which proves that nature has been generous to West Texas. Sweetwater stood the heat of the day cheerfully, secure in the knowledge that sun stroke or prostration was unlikely, and that night would bring relief.

SCHOOL PUBLICATIONS

The close of the school year, bringing with it a flood of school publications, gives especial interest to an article in the Educational Review by H. H. Sherwood, head of the department of history of Franklin college, on the value of high school publications. High school pupils, says Mr. Sherwood, like to do things, like to have a part in things, like to see themselves at their best, like to plan their own offensive and go over the top. Student activities, whether they be athletics, debates, public speaking or publications, are really a revolt against the prescribed curriculum. Of these activities, one of the most valuable in the development of character and preparation for the world, is the school publication.

The first reason that the high school publication is worth while is that it provides an opportunity for youth to learn the art of meeting responsibility. Subscriptions must be taken, advertising solicited, business conditions met, careful planning and cautious decisions called for. All these develop in the youth judgment, promptness and punctuality, and he can, if necessary, carry a message to Garcia. Such a youth is in demand both in business and in the professions.

A second reason for giving student publications a place in the schools is that they are a powerful agent in bringing all forces of the school and community together for united action. They unite all interests, furnish an arena for the expression of opinion. Athletics is the only other activity which affords such a community interest.

The third reason given by Mr. Sherwood is the historical value of the

William G. McAdoo, upon arriving in New York personally to conduct his nomination fight, calls up his campaign headquarters and smilingly predicts victory.

the service of the community. Their very work directs them to what is best in thought and speech, to the best of ideals.

Being poor is no disgrace, admits the Wichita Beacon, but it soon becomes rather monotonous.

No man is so hidden that agents will not find him, notes the Atchinson, Kas., Globe.

Very few of us could listen to the truth without having our feelings hurt, says a Kansas witticism.

Wonder if a woman heaves the same sigh of relief when she takes off the old "squeezer" as a man does when he removes his vest?

The Shawnee, Ok., News, starts a movement for a barber shop for men only. It ought to set the grass afire, according to the Tulsa World.

Some things in this world have odd names. A paper a half mile long is called a "brief," points out the Mangum, Okla., Star, while the most uncommon quality in a man is called "common sense."

Only a woman can make a fool out of a man or a man out of a fool, comments the Wichita Beacon.

Some people are highly indignant when it is claimed they are descended from a monkey, but one can see many evidences of descent from a mule, says the McPherson, Kas., Republican.

Any woman will tell you that a ring on the finger is worth two on the telephone, chuckles the Maryville, Mo., Democrat-Forum.

Squirrel Had Rabies.

COFFEYVILLE, Kas., June 23.—Mrs. John T. Tuttle, of Cedar Rapids, Ia., who was bitten by a squirrel at a tourist camp here, and for whom a search was made by radio when it was found the squirrel had rabies, is taking Pasteur treatment here. Her condition is not considered serious, although her arm and hand is swollen somewhat.

SCORE CARD FOR MEALS

A score card for food habits is one device the Department of Agriculture used in measuring dietetic virtues and vices in rural communities, as well as progress in fostering the virtue and conquering the vices.

Credits may be earned as follows: 20 for drinking four cups of milk a day; 20 for using vegetables other than potatoes or dried beans twice a day; 20 for eating uncooked fruit or vegetables at two meals a day.

Credits are turned into debits by subtracting 5 for each indulgence by adults in tea and coffee. For a child this should be a subtraction of 10 credits. Going without breakfast is penalized 20 credits and eating candy between meals takes away another 10. Grumbling about food—this one should please mothers—takes off 10 credits.

Blase individuals may scorn this education stunt and ask what happens if one makes 100 or fails the course. Well, there are no fines or imprisonment for failing. But watching a score card with interest for a few days frequently opens family eyes to the faults of the routine diet and brings about the inauguration of a more wholesome dietetic regime. Marking the score card regularly for a week or two, if the marks, are all credits, goes far toward forming better food habits, not to mention cheerfulness at meal time.

Aged Woman Deported.

SAN ANTONIO, Texas, June 23.—Dolores Bara, believed to be more than 100 years old, will be deported to Mexico, police officials announced following the aged woman's arrest for a second offense of vagrancy.

HANDS OF GOOD TYPE

Small Towns Contribute Majority of Harvest Workers.

WICHITA, Kas., June 23.—The 1924 crop of harvest hands are not the same type of "hard" huskies, who have "hit the heavy" out here before, according to Harry C. Allen, a field director in the federal labor service.

"Taken as a whole," Mr. Allen said, "they are the best type of men I have seen in harvest work in twenty years."

"You'll find more farm hands, more country and small town young men among them," he explained. "They are the chaps who are already weathered to a hot sun, an open field and a wind that burns you in the fact."

"This change is due largely to the policy this year of the United States Department of Labor in handling pre-harvest publicity. We played the big cities easy and, instead, flooded the postoffices and newspapers of small towns and country communities with material. The direct result is fewer of the city's undesirables and unemployed, and more experienced farm labor."

NICE IF NOT COOL

Latest Summer Overcoat Fiend in Kansas City.

By International News. KANSAS CITY, Mo., June 21.—H. W. Barnes, Cincinnati, is the latest claimant for fame via the summer overcoat route.

Mr. Barnes entered a local hotel recently, a suit case in hand and swathed in a long overcoat. He went to the desk and registered.

"Do you want a nice cool room?" the clerk asked. "Want it nice, but don't care how cool it is," the prospective guest replied.

Admits Cattle Theft.

McPherson, Kas., June 23.—The first cattle stealing case on record in this country for a number of years developed this week, when C. F. Regier of near here, entered a plea of guilty to having stolen two head of cattle from a neighbor's pasture. He admitted having sold the stolen cattle to a Hutchinson packing house.

MYSTERY WOMAN ARRIVES

Band Box Containing Bugs Said Dangerous to Bachelors.

A charming French widow who arrived in Sweetwater Saturday carrying a mysterious bandbox caused a flurry among the bachelors of the city and created an air of mystery by refusing to state her mission, except that she was here in the interest of a local secret organization.

An interview disclosed the fact that the madam's band box contained, among other things, a basket of bugs. The bugs are dangerous, and bachelors are warned to beware, as the bite of the mysterious insect will make a bachelor propose to the first pretty girl he meets.

The spinsters of the city are so elated that they have rented the Palace Theater for July 1, when the madam will give a public demonstration of what the bugs can do. All eligible men of any age are requested to be present and watch the exhibition.

W. T. HIGHTOWER, Re-Election

G. C. Farris.

FOR STATE SENATE

Harry Tom King, Abilene, Texas.

Jesse R Smith

(Stephens County)

Judge B. L. Russell, Baird.

SLEEPLESSNESS

Virginia Lady Says That Many of Her Long-Suffered Ills Have Fled Since She Took Cardui.

Bristol, Va.—"I can sleep good at night now, something I have never done before in my life," says Mrs. Deala Hawks, of 712 Prospect St., this city, "and it is due to Cardui."

"I was always nervous and tossed when I should have been asleep, but since I took Cardui it has strengthened me, and my general health is so improved that many of the ills from which I have suffered for years have fled."

"I used to go to bed tired and, when I would get up in the morning, I was still tired. Now I feel like doing a day's work in my garden or in the house, and I owe all this good health to Cardui, for I had suffered for years until I took it."

"I had had female trouble for years and once, for six months, I was flat on my back. I am glad to recommend to other women a medicine which has helped me."

If you are nervous and run-down in health, suffering as Mrs. Hawks describes above, it is probable that Cardui will greatly help you. Try it.

Jantzen wins!

THE confidence you receive from wearing a Jantzen—the nation's first perfect-fitting swimming suit helps you swim better and easier.

That's why champion swimmers from Maine to Manila wear it for speed, comfort and durability.

The unique Jantzen-stitch gives with every muscle, springing instantly back into place. The patented bow-trunk pattern and non-rip crotch accommodate swimming motions—and insure long wear. The Jantzen is all-wool.

See our full line of models and patterns. 1924 colors and styles for men, women and children are now being displayed.

PRICES
Men's Jantzen, \$20.00 to \$30.00
Women's Jantzen, \$20.00 to \$30.00
Cadet Jantzen, \$20.00 to \$30.00
Children's Jantzen, \$20.00 to \$30.00

PRETTY WOMAN SMILES AS SHE GIVES DETAILS OF KILLING IN HOME

Declares She and Family Were Almost Driven Out of House and She Made Up Her Mind to Put A Stop To It.

"You never saw anything like it," smilingly stated a dainty young woman in describing the killing in her home. "Five minutes after I started the entire floor seemed covered with them—all dead as a doornail. Then I called the cook to sweep them out."

"You'd smile, too," she explained to the astonished reporter, "if you had a house full of mosquitoes, flies and roaches that seemed to get fat and fatter on everything you used to get rid of them—and then to find that Fly-Flu killed them so quickly they didn't know what hit them."

You won't want to be almost driven out of your house by filthy, disease laden, germ breeding insects. Get a bottle of Fly-Flu. Spray it all around—in every room, in the garbage pail, the

sink; in the crevices and cracks and you will not only get the flies, but fleas, roaches, moths, water bugs and all other insect pests that may be hiding there. Fly-Flu is instant, sure death to the vermin.

Fly-Flu is a deodorant—absolutely harmless to humans or plants and cannot stain. Price 50c for a large bottle of Fly-Flu with handy sprayer free at drug-gists, grocers and other retail stores.

Crops are sure looking fine. Cotton and feed could hardly be in better shape at this time of year. Some early corn is waving the white flag.

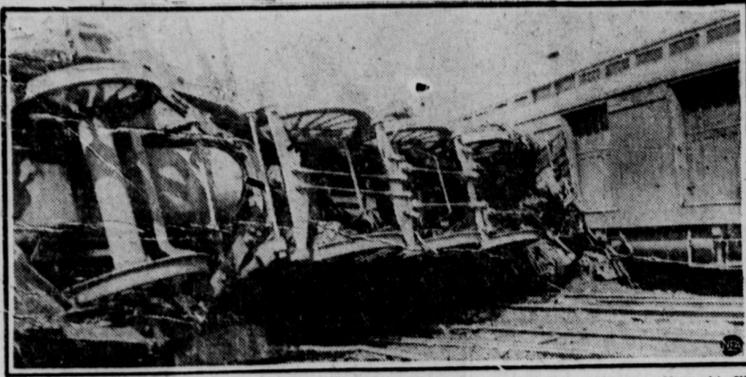

where hot winds have withered that is all. There are but few cases of grasshopper invasions reported in this section.

Get into one of those hot weather suits down at Heath's. 123tfc

Flies hate a clean house.

It's disappointing to learn that Gen. Dawes' famous expletive, "Hell and Maria," isn't profanity at all, but merely the names of two girls he went to college with.

The Bigger They Are the Easier They Turn Over

Detroit Express of the Wabash railroad which hit a "divver" stalled on the tracks near Nameoki, Ill. pushing the little car into a switch. The switch turned, threw the express off the track and resulted in one of the oldest freak wrecks in years. The picture shows what became of the engine. No one was killed.

ROBBERY ATTEMPTED

Ladies Store Entered, But Check-Up Shows No Loss.

Local officers were called out at 12 o'clock Sunday night after the alarm was spread that the Ladies Store on the east side of the square was being robbed.

Investigation showed that a window in the back door of the store was broken, but according to Mrs. Rankin, manager of the store, no loss has been discovered. Money that was in the cash drawer Saturday night was not touched and no loss of merchandise discovered.

Three boys sitting on the sidewalk near the store heard a crash inside which they declared sounded as if some one had stumbled over a box. They called out officers Musgrove and Brownrigg, and the management was also notified.

TO REPAIR STREETS

Carload of Material Arrives For Filling Holes.

Street Commissioner Trammell reports the arrival in Sweetwater of a carload of amiesite which will be used in the street work here. Amiesite is a mixture of asphalt and rock and will be used to fill up holes and worn out places on paved streets.

The Street Commissioner also announced that work is under way for the laying of a water line from Crane street to the high school building so that residences along that street will have better and more water pressure. A 4-inch main is carrying the water along that street at present.

Gaberdine, tropical worsted for the hot day. We have them priced right. Heath. 123tfc

ARRESTS JAKE ADDICT

Less Speeding Sunday Pleasing to Chief.

Chief of Police Johnson arrested a man Monday afternoon and placed him in the city lock-up to await trial Tuesday morning on a charge of drunkenness. The man resides on a ranch near Sweetwater, and according to Johnson, was all "jaked up" and having a hilariously good time on the streets.

Chief Johnson stated that there was a decided decline of speeding and reckless driving Sunday as compared with previous Sundays and with the continued co-operation of drivers, automobile accidents and the necessity for arrests for speeding will be cut down to a minimum.

For carrying electric transmission cables over the straits of Messina from Italy to Sicily two steel towers 1032 feet high will be erected about two miles apart.

A type of incandescent electric lamp estimated at 100,000 candlepower has been developed for making motion pictures.

Joe Will Oates and D. I. Herndon returned Saturday from a trip to Roswell, New Mexico. They denied doing any fishing while gone.

The Misses Eva and Jennie Berman are on a visit to Dallas and Fort Worth.

E. H. Winton, cashier of the Continental National Bank of Fort Worth, and H. C. Burke, Jr., Director Public Relations of the same institution, have returned to Fort Worth accompanied by their respective families after visiting officials of the City National Bank here.

Mrs. C. E. Gough, of Chicago, and Mrs. G. B. Davidson of Victoria, are visiting their mother, Mrs. F. M. Bowen, and brother, Berry Bowen.

Mr. and Mrs. Floyd Barnett of Lubbock are visiting Mrs. F. M. Bowen.

Phone 47 for your telegraph business. 123t1c

When Senator Harrison has delivered that keynote speech in New York, perhaps the sloganers will stand Pat with Patrick.

Politics is largely a question of who bosses whom.

It takes a whole forest to make the paper for a modern metropolitan newspaper edition. And readers get lost in the forest.

Money to Loan. Seven and eight per cent on business, resident and farm property. Vendors lien notes bought. P. O. Box 904. 123t2dp

Try the Postal Telegraph Company. Phone 47. Messenger service. 123t1c

Texas' new champion Holstein cow for butter production as a senior three-year-old is Kalmuck Walker Zwelle of the Holtex Farms, Inc., herd at Dallas. Her record is 553.2 pounds of milk containing 21,966 pounds butterfat, equivalent to 27.45 pounds butter, according to the advanced registry department of the Holstein-Friesian Association of America. As a consequence of this record she displaces the former State champion in this class, Princess Alban Pontiac De Kol, who in the herd of Crabb & Stripling at Fort Worth, produced 491.8 pounds milk and 22.36 pounds butter.

CARD OF THANKS

We take this method of thanking the good people of Sweetwater, and Palava for the kindness shown us in the sickness and death of our dear wife, mother and sister. May God's blessing rest upon you all is our prayer.

Mrs. V. P. Bell and children, Mrs. Margaret Hanftoft and family Mrs. S. H. Bell and family.

We have suits priced right for everybody—\$15.00 up. Heath. 123tfc

What the World Is Doing

As Seen by Popular Mechanics Magazine

Tower of Revolving Floors for Parking Automobiles
As a solution to the automobile parking problem, an Ohio inventor offers a circular steel garage "tower," consisting of a number of revolving stories arranged one above the other and each affording space for several cars, which are to be raised to position by an outside elevator. He estimates that a structure of this type with twenty floors, thirty-six feet in

diameter, would hold two hundred automobiles and might provide additional facilities for radio stations, an observation or amusement center, or possibly a landing place for aircraft or an anchor post for dirigibles.

Porous Bronze Bearings Help Prolong Life of Auto

Absorbing oils and greases up to 25 per cent of its volume, a copper-tin bronze automobile bearing recently developed is expected to simplify the problems of lubrication and to aid in prolonging a car's life. Under a test, it was found of service in all ordinary uses and in many cases satisfactory for replacing ball and roller types. Thousands of tiny pores give the metal the qualities of a blotter or wick. In a demonstration, a kerosene lamp was fitted with a bushing of this material, instead of a cotton-wick, and burned as long as the liquid lasted.

Mystery of Arctic Barrier Baffles Radio Experts

Since July, 1922, when the Maud, Amundsen's exploration ship, made its dash northward and became frozen in the ice in latitude 78° north, longitude 165° west, the ship's radio has been sending out two messages a day. These messages have been received by nearly all stations in Europe, across the North Pole, but they have not been received in Alaska, the United States or Canada.

MacMillan's ship, the Bowdoin, now frozen in at Refuge Harbor, latitude 78.30 north, longitude 72.30 west, has found that the only station with which it can communicate regularly is that of Jack Barnsley, station 9BP, of Prince Rupert, B. C., and since Sept. 7, 1923, all press stories from the Bowdoin and all messages to and from it have been handled through Barnsley. Other stations have heard WNP (the Bowdoin) but all report very unsatisfactory reception, and 9BP is the only one to get messages through to WNP.

Why is this? That is the question radio experts are asking. What mysterious, invisible barrier prevents these messages from reaching this country? Is it the influence of the aurora borealis or the magnetic pole that causes a "dead spot" surrounding the pole on this hemisphere? These questions the Aerial League of America has set itself to solve, and the co-operation of all radio amateurs is invited in the text. Prizes will be offered by the league for the best reports of experiments by amateurs.

The object of the research work is, first, to ascertain the effect of daylight, twilight, and darkness; ice, water, snow, verdure, atmospheric conditions and geological formations on radio. Second, to ascertain and define the location and strength of natural disturbances and interferences acting upon receiving stations all over the world, under various conditions. Third, to locate and map the "dead areas" of the earth, and delve into the causes of the mysterious barriers to radio transmission. Fourth, to find out whether radio signals travel equally rapidly through earth, air, and water. The results of the work should be very valuable.

Motor Cycle Is Cattle Cart for Trips to Market

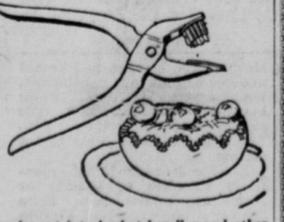

To haul live stock to market, a farmer in England built a roomy crate on the frame of a motorcycle sidecar. The pen

which is of strong wood, accommodates a large animal and has a compartment for egg boxes and other produce. A gate at the rear serves as an entrance and a halter tied to the slats holds the animal steady while the machine is in motion.

Fruit Cutter Like Pliers Stamps Out Designs

Scalloped edges are placed on grape fruit and orange halves for preparing "fancy" salads and other dishes with the aid of a pincher-shaped device. It has cutting blades shaped to stamp out a design with the precision of a die, and the leverage afforded by the spring handles makes the task easy. Fruit

can be cut into basket handles and other fancy patterns that only a skilled person could achieve with an ordinary knife. It is made of durable metal, nickel plated, and the blades are strongly riveted to the handles.

No Ice Shortage

The tremendous demand for ice during the recent unprecedented hot weather has been met by this company without interruption. This city, unlike some, has never been without ice. The 40-ton daily capacity has been ample to take care of all demands. There has been no failure of service. Additional wagons added to our delivery force have been able to take care of the local situation with but few exceptions.

Every ice wagon we operate is equipped with scales. Every deliveryman goes out with instructions to give full weight on every sale. If, in your opinion, you fail to get the number of pounds you are paying for, the management of this company will consider it a fair and helpful service for you to immediately call the office. We will adjust every complaint which we believe is based on legitimate reasons.

Every housewife who questions the weight of the ice she gets will find it an easy thing to go to the wagon and demand the iceman to weigh the ice. Ice scales on our wagons are supposed to weigh correctly. We want every customer to have a little more than they pay for. We want your co-operation in helping us keep our business on the highest standard. We have the human element to deal with in our employees. It is impossible for the manager to watch every transaction. We believe our icemen are gentlemen and we will appreciate any information of discourtesy or evidence of short weights. We believe you will help us in this matter.
