## DELEGATION TO MEET ANGELOANS

Business Men Offer Cars For Trip Over City Preceding Supper at Wright, and Program.

### MAY VISIT GYP PLANT

Rambouillet Ram Expected to "See Sweetwater and Die"—Officials Form Reception Committee.

At least 125 and probably more San Angeloans will leave San Angelo Wednesday at 12:45 p. m., enroute to Sweetwater. Short stops will be made at Bronte, Ft. Chadbourne and Blackwell enroute, while the Trade Trippers put on a brief program.

The special train is due to arrive in Sweetwater about 4:45 according to advance word from the City on the Conchos.

A special request was made by long distance telephone Tuesday for Arch Rodgers of the Reporter staff to lead the San Angelo drum corps. Rodgers led the Angelo Shrine Drum Corps at Brownwood and in order that San Angelo's band could be as snappy as they wanted it to be, Rodgers arranged to leave Tuesday night on the Orient to accompany the Angeloans. He will act as staff correspondent for The Reporter while enroute.

Plans are being formulated for the entertainment of the San Angelo Trade Trippers who will arrive in Sweetwater Wednesday afternoon by Orient special at five o'clock. Following a short drive over the city which is expected to include a trip to the plant of the United States Gypsum Co., the Angeloans will eat supper at the Hotel Wright. Then they will march to the public square, will be briefly welcomed on behalf of Sweetwater and then given an opportunity for their own program which is expected to prove interesting.

It is presumed that the Angeloans will be accompanied by another of those big Rambouillet rams. It will be recalled that one of these animals came over to Sweetwater at the time of the Tech Jubilee a year or so ago. Having seen Sweetwater, it died, as in olden times it was said "See Rome and die."

At least 30 cars will be needed to convoy the Angeloans around the city and anyone who has a car available at that time is invited to be at the Orient station at 5 p. m., sharp.

A number of the leading citizens of the town have already volunteered their cars and have promised to be on hand Wednesday afternoon. Among these are H. B. Allen, M. B. Howard, Clyde Payne, P. T. Quast, Will Wade, Lawrence Davis, Berry Bowen, W. R. Costephens, Carl Ragland, Mose Newman, Dr. Rosebrough, Louis Galbraith, R. A. Carter, Henry Bartlett, J. D. Tidwell, Guy E. Morris, R. M. Simmons, Hubert Toler, W. M. Mitzell, Sweetwater-Overland Co., Ed Bradford, Rev. J. T. McKissick, Lloyd Schurdevin, Otto Carter, C. S. Boyles, Geo. Willis, J. H. Beall Jr., J. T. Box, A. E. Horst, Kirby Kinsey, John Humphreys, L. J. Geer.

The foregoing will compose the reception committee with Mayor Joe H. Booth, Geo. H. Sheppard, vice-president of the Board of City Development, and James Henry Beall Jr., president of the Sweetwater Club in charge of proceedings.

Car drivers will line up on arrival at the Orient depot and will follow the official car, which will be driven by James Henry Beall Jr. As soon as the special arrives, the Angeloans will be conducted to the waiting cars.

A general invitation to everyone in town is extended to be present for the program which will be given on the public square after supper.

## BOY IN SHOOTING

OKLAHOMA CITY, Ok., Aug. 19.—Mrs. J. M. Lykins, 43, was near death today as the result of being shot accidentally last night by a shot gun in the hands of a 9 year old boy. ## Snow Flakes Fall In N. Y. As Rest of Nation Swelters

ALBANY, N. Y., Aug. 19.—Top coats and overcoats appeared on the streets here today as the weather bureau announced the coldest August 19 on record, with but one exception.

Residents of Rensselaer, across the Hudson from Albany, reported that snow flakes fell there early this morning.

While the snow flakes were cavorting across the Hudson Tuesday morning, Sweetwater prepared for another scorcher. The temperature here Monday reached a maximum of 101, and stood at 92 degrees at noon Tuesday.

## SHERIFF READY

Mrs. Baxter Lambert, Mother of Eight Children, Faces Duties of Office and Busy Fall.

A mother of the good old-fashioned kind faces an unusual situation in Roby. After 33 years of married life, in which her chief concern has been the rearing of her eight children, she has been appointed Sheriff of Fisher County, and will fulfill the duties of the office until the unexpired term of her husband ends.

The mother is Mrs. Baxter Lambert. Her husband, whose eighth year as Sheriff of Fisher County suddenly terminated recently with his death, was buried at noon Saturday, and the same afternoon, Mrs. Lambert was appointed Sheriff by the Fisher County Commissioners.

"Everybody thought it best that I take the appointment," said Mrs. Lambert, "and I did. I have never had any experience in business matters, and was never around the office much when Mr. Lambert was Sheriff, but I know that I can do the work, or have it done."

The first woman Sheriff of West Texas, frail and practically an invalid for 15 years, smiled as she made the declaration that she would "do it or have it done." A similar smile and determination made Baxter Lambert a popular Sheriff and kept him in office for four terms, until he was defeated at the July primary.

Mrs. Lambert was born in Dallas County 49 years ago, met Baxter Lambert while they attended school in Hood County, a few miles from Grandberry, and married him when she was 16. "We were both children," Mrs. Lambert said. Her husband was 48 at the time of his death.

The Lamberts have lived in Fisher County for 27 years. For the past several years before his death, Baxter Lambert's health has been bad, but he "kept going," as Mrs. Lambert said, until, during the past two years, he failed rapidly. His death came a few weeks after the July primary.

The Sheriff's office is usually a busy place in the fall. District Court is coming on in September. But the woman sheriff is confident. She knows that the people of Fisher County believe in the name of Lambert, and that in the few months she is in office, there will be no complaint of her record.

## PALACE RAIDED

Oklahoma Sheriff Descends on Boozing Palace, Gets Ten Prisoners and Dry Haul.

TULSA, Ok., Aug. 19.—Ten prisoners were in the Osage County jail today as the result of a raid last night by Sheriff Cook, who descended upon an alleged "boozing palace" in the Osage nation, as the gates of Tulsa.

The Sheriff and his force confiscated the gambling devices and some of the money on the gaming tables, but according to the Pawhuska official "all the booze had been 'ditched'" before he raided the place.

Mr. and Mrs. Will Smith and little daughter, Billy Blanch of Abilene, returned home Sunday night following a week end, visit here with her parents, Mr. and Mrs. S. H. Kelsey, with whom she returned from San Angelo, after a visit there with her brother, Pat Kelsey.

### Wife Beat Him To It.

MIAMI, Ok., Aug. 19.—A black eye, two broken teeth, a bruised head and skinned face, was the welcome a former husband received here recently when he paid a visit for the first time since his divorce two years ago. In explaining her action the spouse said her former mate had threatened her and said he would "beat her up." She merely said she beat him to it.

R. M. Simmons and W. E. Wade have returned from an extended vacation trip in the mountains of Colorado.

## REPAIR PLANES I G N PAYS OFF

By The United Press.

## Bobbed Hosiery Is Latest Fad of The Ultra Modern Lady

In the display window of one of the city's largest department stores is exhibited the new bobbed hosiery, with an attractive design indicating that the pretties displayed are not for children.

## MRS ROBERTSON PLEASES HEARERS

Soprano in Initial Sweetwater Recital Displays Exceptional Training—Master of Varied Styles.

### MISS DOUTHIT AT PIANO

Skillfully Executed Solo Brings Applause—Program Ranges From Ballads to Florid Aria.

Mrs. Walter S. Robertson, soprano, gave her initial recital in Sweetwater in the auditorium of the First Methodist Church Monday evening. She was assisted by Miss Mary Douthit at the piano. The church was well filled and applause was frequent.

That Mrs. Robertson has had exceptional training was very evident from the technique displayed. In tone production, breath control and in phrasing there was every evidence of skill and careful study. Her voice is clear and sweet and although of extended range, is of unusual beauty in the lower registers where many high sopranos fail.

Mrs. Robertson sang in Italian, French as well as English and chose a number of different styles, from simple ballad to operatic aria as vehicles for expression.

Her first group was composed of Giordani's "Caro Mio," Handel's "Oh Sleep Why Dost Thou Leave Me" and "The Lass With the Delicate Air." A French group was composed of "The Nile" by Leroux and a ballad by Dalcroze. An aria from an old Rensini opera was given in Italian. Gretcheninoffs' "Slumber Song" and Meyerbeer's "Lieti Signor" composed another group with the last taken from modern song writers, including "Yesterday" and "Will O' the Wisp" by Spross, "Come to My Garden" by Mary Turner Slater, and Harriet Ware's "Boat Song," Campbell-Tipton "Crying Water" and closing with Scott's "Winds in the South."

Mrs. Robertson proved to be a master of the varied styles required in the above program, from the florid Rossini aria to the simpler ballads. For sheer beauty of melody and richness of accompaniment however, Ware's "Boat Song," Leroux's "Nile" were perhaps the loveliest vocal bits of the evening.

Miss Mary Douthitt has been heard and admired frequently in Sweetwater. But she has probably never appeared to better advantage than she did Monday evening. Her accompaniments were most carefully planned and skillfully executed while her one solo number, "Liszt's Tarantelle" was most satisfying as an exhibition of pianistic virtuosity.

### FAVOR LAW ENFORCEMENT

Former Prisoners Voted For Sheriff, Officer Declares.

HARLINGEN, Texas, Aug. 19.—"Lawbreakers favor impartial enforcement of the law" Col. Sam Robertson declares. The colonel has issued a letter in which he says he is particularly proud of the fact that former occupants of the Cameron County jail were among those who re-nominated him for sheriff.

Colonel Robertson says he considers this action of his former prisoners as proof that a large number of people want the law enforced strictly, against themselves as well as the other fellow.

Ben McCorkle came home from the Dallas Dental College to spend a short vacation here with his parents, Mr. and Mrs. C. A. McCorkle, before entering school about Sept. 15.

**PERMANENT GROWTH**

Los Angeles has long been a wonder city. We have all heard it said that "it can't keep up" yet we have seen it go ahead year after year. Probably the secret of its success, more than any city in the United States, is due to a definite policy on the part of its Chamber of Commerce to encourage industrial development not only in Los Angeles but in the surrounding territory for 250 miles. The Directors of the Chamber know that Los Angeles would grow in proportion to the growth of southern California and the broad policy which they adopted is bearing fruit today in a remarkably prolific manner. Other cities would do well to get the "industrial idea" and push it on the same progressive lines as has Los Angeles.

**NOT A BRIGHT PICTURE**

Every few days some alarmed magistrate gives the murder statistics of the nation a good overhauling, but no better manner of life seems to come of it. The latest to warn the country in this regard is Judge Talley of the New York general sessions court upon the occasion of Judge Allen's induction to the bench. "This country is suffering under an indictment which proclaims it to be the most lawless on earth; and the United States must plead guilty to that indictment," Judge Talley said. "Most of the desperate criminals are mere boys. You will be heartbroken at discovering that the vast majority of defendants are under 19 or 20 years old." Taking up the subject where the judge left off the New York Times exclaims: "Ten thousand murders a year and other crimes of violence in proportion! Does anybody feel like unqualifiedly boasting of our growth, wealth, population, great philanthropies, while this army of murderers is recruited every year!" The answer to this question, is respectfully referred to the homes, courts, churches and civic societies, which often are given to

gentle boasting of civilization's progress. They have much work to do. When do they begin?

**RADICALISM NO TERROR**

Business generally, which means banking, manufacturing, farming, exporting and importing, mining, lumbering, power development and transportation, has no fears of radicalism and is improving. There is no real fear of a Third party or any ripping up of the Constitution in states or nation, and the political system of our country that has stood a century and a half will stand 1924.

Disappearance in business of political radicalism is a change which ought to stimulate enterprise, and help revival in trade. Stock prices habitually advance when general trade is improving; and both stocks and bonds are advancing.

The third party furor looks overdone if the sane and sensible everyday American will get out and vote instead of trusting the other fellow to vote and save him.

The greatest objection to marriage, according to the Howard, Kas., Court, is that no time is allowed off for good behavior.

"Of unusual eyesight," says the Wichita Beacon, "is the woman who goes out in the back yard to see what her neighbors are saying."

Meetings of the "board" are usually meetings of the "bored."

When he begins by saying, "I won't take up any of your time," he means that he is going to, remarks the McPherson, Kas., Republican.

The Atchinson, Kas., Globe unkindly remarks that William Jennings Bryan is beginning to look just a bit like a Christmas tree about nine days after the festivities.

There also seems to have been an unnecessary lot of candidates for governor in Texas, the Tulsa World finds.

**Old Timer Visiting Sweetwater.**

Dr. L. B. Roebuck, now ex-mayor of Italy, Texas, but a citizen of Sweetwater twenty years ago, is visiting his old friends, Dr. McKissick, Judge Ragland, R. L. McCaulley, Judge Crane, and several others, whom he has not seen for eighteen years.

The genial doctor states the old town has grown into such a city he hardly knows his way about. In those days there were no paved streets and almost no business houses north of the First National Bank on the east side of the square. The leading hotel was the old Grogan Hotel, near the present Grogan Wells Sanatorium. If the Doctor will come back in eighteen years more he will see another epoch of city building that will lay the past 18 in the shade, according to the program.

**Missionary Societies Enjoy Meet.**

The members of the Woman's Missionary and the Gleaners' Missionary Societies held a joint social and calendar Club meeting Monday afternoon in the basement auditorium of the Methodist Church, with Mrs. L. C. Tatom, Calendar Club chairman presiding.

Mrs. J. T. Hughes and her "weeks" were the hostesses and the Gleaners rendered an interesting program, followed by the reading of the scripture lesson by Mrs. P. T. Quast. Pro-

gram follows: piano solo, Mary Clovis Cox; voice number, Ina Lee Ely, with Mrs. J. Neal at the piano; reading, Mary Clovis Cox.

The members of both societies drew names for their "capsule sisters" for the next three months, during which time much good cheer and thoughtful deeds for others will be done and disguised as much as possible. A committee was appointed to look after some needy people who are living in a tent in the west part of town. The family consists of both parents and four children from 11 years of age down to 3. Any one wishing to help in this work is asked to phone Mrs. L. A. Ritter, Mrs. P. T. Quast, Mrs. Jim Butler, or Mrs. John Ross, or leave their packages at Quast's Music Store.

Ice cold fruit punch formed a refreshing drink, which was served at the close of the program.

**Troops Pass Through.**

Four cars with National Guardsmen from San Antonio en route home to Lubbock and Plainview passed through Sweetwater Tuesday. They were hauled to Sweetwater on a special train and hooked onto No. 95 here which was held two hours and twenty minutes for them, leaving at 11:50 instead of 9:30.

**AUTHORIZE FLOOD BONDS**

San Antonio Issue Approved By Attorney General.

AUSTIN, Texas, Aug. 19.—Flood prevention and civic improvement bonds aggregating \$4,450,000 for the city of San Antonio have been approved by the attorney general and sent to the comptroller for registration.

Out of the amount \$2,800,000 was designated for use as flood prevention funds. The decision followed litigation extending over a period of eight months in which the validity of the bonds was contested.

**HAY FEVER CONQUERED BY NEW PRESCRIPTION**

Thanks to a remarkable new prescription known as Rinec Prescription, developed by a Cleveland specialist after a years intensive study of Hay Fever, Mr. Charles Farmer, of 275 1/2 Beatrice Avenue, Johnstown, Pa., reports he is entirely free of his Hay Fever tortures, and similar reports from thousands have come from all over the country. Says Mr. Farmer: "I have tried hundreds of different remedies, but Rinec is the only thing that ever did me any good. I had Hay Fever as bad as any man in the country, but can truthfully say that I can hardly notice it since I started taking Dr. Platt's Rinec." Only a few years ago it was discovered that Hay Fever is not a simple surface disease of irritation, but that the poisons in the air are absorbed through the thin nose membranes into the blood itself, and so cause a poisoning of the entire system. Dr. Platt's Rinec, taken internally in simple capsule form, goes direct to this pollen poisoning throughout the system and neutralizes it completely. So in 95 per cent of all cases, all the sneezing, runny eyes and nose, headache, fever, etc., disappear in 24 hours. In fact, complete relief in 24 hours is positively guaranteed, or it costs you nothing. If you want to be satisfied that Rinec will help your case of Hay Fever, you can get a 21-hour treatment, FREE, from your druggist; or you can buy a full week's treatment for \$1.00 on a positive money-back guarantee. Rinec Prescription may be obtained at all drug stores.

**WORK ON BUILDINGS**

Fit Up Natatorium as Domestic Science Room in High School.

Work of renovating the school buildings in preparation for the opening of schools here September 8, is expected to begin this week. Many broken windows as the result of active combinations of small boys and stones will have to be replaced and other repairs of a minor nature to all the buildings.

Wear and tear on the High School has been very heavy also. In addition, the room fitted up as a natatorium is being worked over into a domestic science department. Equipment formerly used for this purpose is checked up and that which is unsuitable will be replaced with new.

Some of the faculty members are beginning to arrive and others are expected to come in the next few days.

Prof. A. D. Ellis returned with his wife and daughter Tuesday morning for their home at Fort Worth, following a two weeks visit here at the home of her parents, Mr. and Mrs. E. W. Withers, and her sisters, Mrs. John Hall, Mrs. Arch Bruce, and Mrs. J. D. Lambert. Prof. Ellis was former history teacher at the high school and occupied the chair of history in the Fort Worth High School.

## FORMER NEWSBOY MAKING MILLIONS

Beating Street at Its Own Game, C. H. Greenhaus Turns Deal That Makes Him Rich

—TURNS TRICK WITH \$2,500

Capitalizes Strain on Brokers in Oil Deal and Gold Pours In Easily

BY ALEXANDER HERMAN  
NEA Service Writer.

NEW YORK, Aug. 18.—Beating the Street at its own game, a Wall Street newsboy has just turned a deal, the closing of which will make him a millionaire.

It is another instance of fact out-fictioining fiction; another instance of an Alger success come true.

But Charles H. Greenhaus, 25-year-old wizard who now occupies the spotlight of the financial district, isn't interested in these analogies. He never had much time for reading and still less for dreaming.

"I began working on the Street," he says, "when I was seven. My family was poor. My father worked as an operator in a ladies waist factory. My first job was selling papers on Wall Street.

"I hung around the curb from after-school hours till dark, and I learned a lot about the men who bought papers. I watched them buy;

CHARLES H. GREENHAUS, WALL STREET NEWSBOY WHO IS TURNING MILLIONAIRE.

I learned how they thought. I came to size them up pretty well. For even in buying a newspaper, a man gives signs of the workings of his mind.

"I stuck it out at school as long as I could. But by the time I reached the sixth grade, the family was so short of money I had to quit and get a full-time job.

"After a spell in a printing office, the call of the Street got me again. I went to work as a messenger. What I didn't learn about the workings of finance as a newsboy I soon learned in my new job."

**Once Near Death**  
Marriage and the pressure of establishing a home took him off the Street. Greenhaus went into the automobile business, working as a mechanic. A serious accident curtailed his new activity. He was almost killed in a smash-up.

After many months in a hospital, he came back to the street, seeking a way to capitalize the knowledge that he had acquired.

"I stuck around looking for the opportunity that is supposed to come. Finally it came—and I grabbed it."

It seems that former Governor Haskell of Oklahoma had ordered brokers all over the country to buy up the stock of the Middle States Oil Corporation. When \$5,500,000 of these securities were ready for delivery, the governor found that he couldn't pay for them.

Through an arrangement with the stock and curb markets, a controlling interest of Southern States Oil, of which the Middle States corporation was a subsidiary, was deposited with a trust company, which issued \$5,254,000 in secured gold notes at 7 per cent to be paid to the brokers instead of cash.

"This was a strain on some of the brokers," explains Greenhaus. "I figured out that they would sell these bonds at a good discount for cash. I bought some and took options on more."

**Swinging Millions on \$2,500**  
The young wizard then spent the rest of his \$2,500 to circularize the 200,000 stockholders offering them \$1 in gold bonds for every dollar of stock.

In the turn-over he was able to pocket the large discount at which he bought the notes.

The scheme looked so easy that the courts interposed an injunction restraining the young man. But he instituted a counter-action, bringing in fistful of the gold certificates to prove his faith.

Just as soon as this is won, Greenhaus hopes to cash in his million.

"The first thing I will do," he says "will be to buy myself a seat on the Exchange, and sit in with the big boys to whom I once sold papers."

But he will not change his home life much.

"We are pretty happy now," he says, "my wife, my two kids and I. We have a nice little home in Hill-creg, Long Island; we have a small car and enjoy life as much as any. So why change it?"

## NOT ON FREE LIST

You Need Stamps to Write President Letter.

KANSAS CITY, Mo., Aug. 19.—Just because you write to President Coolidge is no excuse for not putting a stamp on the envelope.

A local adviser of the President called at the postoffice here and asked if the letter he addressed that morning had been sent out yet.

"What address was on the letter," he was asked.

"Calvin Coolidge, Washington, D. C."

"Well, he isn't on our free list, you'll have to get a stamp, we have been holding the letter for postage," replied the clerk as he handed the letter back to the correspondent.

## FASHION NOTES

### New Colors

Three new colors for fall are Venetian fuchsia, shutter green and russet brown. The first is particularly liked in velvet for evening gowns.

### Hat Trimming

Buckles in all sizes are very much in demand for hat trimmings. Many are of metal or a colored composition that is decorated with conventional designs.

### Unusual Hats

In unusual hats there is the tiny poke bonnet shape with a wide poke brim in front and none in the back. Usually it is faced with a delicate color.

### Hudson Seal

Hudson seal will be very popular this winter not only for coats of all lengths but for trimming on cloth models.

### Knitted Coats

Knitted coats will be popular for fall wear and are made to follow closely the straight close lines of the cloth models.

### Lace Cloaks

Extremely delicate lace cloaks are seen on the new light hosiery that is being imported from Paris.

### Narrower Scarfs

Scarfs for fall appear to be a trifle narrower than those for summer, but shawls have lost none of their size or their brilliancy of color and design.

### Buy Large Fish

Buy a large fish and use the leftovers rather than a small fish for one meal, because there is less waste in proportion to the amount of meat.
