

Rescue Workers Are Near End of Shaft

Expect Rescue Collins, Dead or Alive, Some Time Sunday Barring Accidents--Prisoner 15 Days to Be Brought to Surface

SHAFT NEARLY 70 FEET DEEP

Sides of Shaft Being Timbered to Prevent Cave-In; Workers Digging Away Doggedly Under Direction Carmichael

By United Press.
AT THE MOUTH OF SAND CAVE, Ky., Feb. 14.—Working at top speed members of the rescue squad tonight began digging on the last section of the shaft through which Floyd Collins was released from the cell where he has been a prisoner for the past 15 days.
Only the stern command of H. T. Carmichael, in charge of rescue work restrained the workers from dashing forward in a last mad rush toward their goal. A quick dash would endanger their lives and these miners know it but days and nights of toil are beginning to tell on their nerves. Carmichael has given orders that every foot of shaft must be timbered as soon as scooped out in order to prevent possible cave-ins.

Standing bareheaded near the mouth of the shaft, Carmichael said, "There is now every indication that our work will end before the dawn of Sunday or shortly thereafter."
Hope that one of the numerous crevices that abound in this section of Kentucky might be found and provide a short cut to Collins spurred the workers on.

In the meantime the men are digging on with tired effort, determined doggedly to bring out Collins dead or alive.

The shaft has reached a depth of 66 1-2 feet from the surface.

UNUSUAL TALENT

Shrine Play Monday and Tuesday Box Office Receipts—Part Good—Seats Still Left.

It is doubtful if any home talent production ever offered in Sweetwater had more talent or a more pretentious setting than will have the Sweetwater Shrine Club's show, "Around the Clock With the Debutantes," which will open for a two days' run at the Palace Theatre Monday night, according to those who have seen the rehearsals of the mammoth musical comedy novelty. In addition to this, the entire show is based on new and unusual features, and will doubtlessly be unlike anything and everything ever seen by a Sweetwater audience.

Music, songs, and dancing will strictly feature the two hours and fifteen minute entertainment, although a plot is interwoven with the choruses, the solo features, and the various novelties. Over 200 characters will appear during the evening, ranging from the tiny tots in the doll girl chorus to Sweetwater business men playing such parts as the "Wizard of Oz," the Dago Man, a bogus count, and a real count, and other leading parts that start a riot of fun the minute the curtain rises and continues until the grand finale. The acting is not all on the stage incidentally, and the audience will find many surprises awaiting them before the evening is over.

The first performance will be Monday evening at 8 o'clock, and at the same time Tuesday evening. There are still a few good seats available but early action is advised.

San Antonian Is Fighting Against Vaccination Laws

By United Press.
SAN ANTONIO, Feb. 14.—War against vaccination became nationwide in a fight staged here by F. T. Lemly charged with violating the City Health ordinance by continuing to send his children to public schools in defiance of the school board's decree that all students should be vaccinated.

Lemly was convicted in city court on three charges of violating the city health ordinance and fined \$10 on each count. Contributions are beginning to come in from other states to fight the case.

FRANCE BROKE

Director General of Budget Says Nation Cannot Meet Interest Payments on Debt

By United Press.
PARIS, Feb. 14.—M. Violette, Director General of the Budget has virtually confessed the inability of France to meet the interest payments on her huge debts.
If impossible to find relief from the interest charges, now amounting to over one billion annually, Violette told the Chamber of Deputies today that "it will soon be impossible to draw a new budget".
He pointed out that the annual interest on debts to the United States is now nineteen and a half billion francs.

KEEP RAIL BOARD

By United Press.
WASHINGTON, Feb. 14.—A move to cut off appropriations for the Railway Labor Board and thereby prohibit it from functioning was defeated in the Senate late today.
The amendment of Senator Howell, Nebraska, Republican, recommending the cutting of the Board appropriations off the independent appropriation bill was voted down 42 to 21.

DRIVE FOR VOTES

With continued nominations coming in, and Free Voting Coupons being clipped from the papers that have been sent out and voted for nominees, interest in the Reporter's great circulation drive has started with a bang. It indicates that the new plan announced for securing the "Most Votes" is going to be very popular and that soon every coupon appearing in every issue of the Daily and Weekly will be voted for some one.

The Free Voting Coupon was good for 10,000 votes in Friday's daily and the Weekly, and is also good for that number in the Sunday issue. The coupon will be good for 5,000 in most of the daily issues. Occasionally a special coupon for a greater vote will be published.

It is probable that the three new Chevrolet cars will be on display at the C. S. Boyles Motor Co, the early part of next week. Many of the other prizes for each of the three districts have been purchased and a number are announced in today's paper. There will be ten prizes for each district. Those who do not get a prize will receive a cash award. Every one taking an active part in the drive will be awarded. Save the Free Voting Coupon, make a nomination, and make some money. The greatest opportunity every offered for a little time and effort with cooperation with friends. Call or write the Circulation Department and learn full details.

SELLING STOCK IN NOLAN FAIR

Board of Directors Nolan County Fair Association Hold Enthusiastic Meeting Saturday.

MANY ARE SUBSCRIBING

Balance of Stock Needed to Incorporate Soon Be Sold at Rate Of \$25 Per Share

Plans for an active stock selling campaign for the Nolan County Fair association were outlined at a meeting of the directors of the association at the B. C. D. office Saturday afternoon, when the decision was made to push the campaign to the limit during the next week and dispose of the shares that are left. Many people over the county have already taken advantage of aiding the fair program and at the same time making a sound investment by buying several shares in the association.

Directors at the meeting, representatives from every portion of the county, reported that enthusiasm was high in all communities. Every progressive citizen over the county, whether from town or rural districts, is backing the fair, it was reported, and all are stressing the necessity and benefits in making the fair an annual event on a large scale.

The stock is selling at \$25 per share. The association will have a capital stock of not less than \$100,000 to start, making a total of 400 shares for sale. It was pointed out that aside from the aid in staging the fair and the indirect benefit that goes to every person in the county as a result of the fair, the purchasing of stock is strictly a business proposition, and will absolutely be a money making proposition aside from the financial aid stock holders will naturally be giving the fair.

As shown by the last fair, stock holders may expect a return from their investment, it was stated. The Nolan County Fair held so successfully last fall, was founded on the energies and enthusiasm of a group of progressive Nolan County farmers, stockmen, postmen and Sweetwater business men. Not one cent capital was available, yet the fair association now has to its credit, as a result of last year's event, over \$1,600. Shares of stock that are left are available from any director and details are available at the Board of City Development office.

Plans for the 1925 fair were discussed at the Saturday meeting, and arrangements will progress steadily toward making this year's fair bigger and better in every way. The association has an offer from the city of Sweetwater of 55 acres of beautiful grounds at the City Lake, and it is possible that his site may be the future home of the Nolan County Fair. Dates for the fair were discussed and present plans are for staging it three days in the latter part of October.

Price Maddox and L. W. Ross members of the board, led a discussion of a Nolan county exhibit at the State Fair of Dallas, and the benefits of this were stressed by John McCurdy, secretary of the association, Will Wade, president of the Sweetwater Club and Mrs. Willard Gibson, chairman of the association.

The board of directors will meet again Monday, March 2, to report on the results of the stock selling campaign.

IS KILLED IN ACTION

Alleged Bootlegger Goes to Death With Him—Former Members of Flock Among Slain.

By United Press.

WELCH, Va., Feb. 14.—Bullets again blazed torch in the spectacular war on run runners along the Stice creek tonight, and Rev. M. M. Day, the preacher who turned prohibition officer, and Jim Sneed, alleged moonshiner are dead.

Day, who is said to have killed 7 men since becoming an officer of the law several years ago, was killed by Sneed when he and other officers surrounded the latter's home in search of booze.

El Watkins and another officer then killed Sneed.

Before becoming an officer Day was ordained a preacher of the Christian Church. Since then, some of those who have met death at his hands were former members of his flock, and one victim is said to have been married by him two years ago.

AMNESTY ASKED

Former Governor J. E. Ferguson Pleads to Have House Pass Senate Amnesty Bill

By United Press.

AUSTIN, Feb. 14.—James E. Ferguson, impeached governor and storm center of Texas politics since his removal from office for mismanagement of State funds in 1917, was again before the Senate tonight in the fight to secure Legislative vindication.

"I want the House to adopt the Senate amnesty bill. I believe it is empowered to take such action under the constitution," Ferguson declared, taking issues with Attorney General Moody. Moody ruled Friday that the Senate bill to restore civil and political rights to the former governor was unconstitutional and that the Legislature was powerless to set aside the verdict of the Senate Court of Impeachment of 1917.

ONE FIREMAN KILLED

Oldest Captain in Kansas City Fire Department Caught in Falling Walls—Damage Two Million

By United Press.

KANSAS CITY, Mo., Feb. 14.—One fireman was killed and more than \$2,000,000 damages were caused in a fire which destroyed the American Royal Livestock Arena and the Kansas City Automobile Show here early today.

Captain John Crane, 65, oldest captain in the Kansas City Fire Department was crushed by falling walls.

The fire originated in defective wiring shortly after midnight and a few minutes after motor show visitors had left.

Over 250 autos of the very latest model were destroyed and only the charred walls of the Arena, valued at \$500,000, were left standing.

The entire fire fighting force of Kansas City battled the flames for more than seven hours. Flames shot hundreds of feet into the air and screams shrieked as indication on electric wiring was burned off.

Joe Robinson, night watchman, discovered a small blaze in the ceiling of the pavilion housing many of the finest cars of the show. He turned in the alarm and then attempted to combat the rapidly increasing flames.

Virtually all cars on display were insured according to officials of the show.

The American Royal Arena was considered one of the finest buildings of its kind in the world. It had a floor area of 7 1-2 acres with a seating capacity of 15,000.

It will be rebuilt.

MILLIONAIRE TO HANG

Former Wealthy Man Sentenced By Chicago Court Saturday.

By United Press.

CHICAGO, Feb. 14.—L. A. Scott, 39, former millionaire, late today was sentenced to hang for his part in the murder of Joseph Maupre. The court declared that Scott had a fair trial and was given an adjournment. He was sentenced to hang April 17.

Scott climbed up in a merchant to a manager of a sales force of 3,000 men for a grocery firm. He then launched out for himself and amassed more than a million dollars. He lost the money in stock promotion schemes in Canada, he said.

BADLY INJURED

Western Union Messenger Boy Found On Lamar Street With Crushed Skull—Is Unconscious.

As a result of an accident, the nature of which is unknown, 10-year-old boy found on Lamar street shortly before ten o'clock Friday night. One of the injuries is a badly fractured skull, and physicians operated on the boy at noon Saturday.

The boy was unconscious when he was found, and up to eight o'clock Saturday night had not regained consciousness to throw light on how he was injured. His bicycle was at his side when he was found.

Royce was found by C. R. Clendon in front of whose house he had lain evidently for some time. He was carried into the Simmons home and a physician was summoned at once. The boy did not regain consciousness at any time, it is reported.

From the first appearance of the affair, it was believed that Royce was struck by an auto, the driver of which kept going. Later investigation, however, showed that the wheel on which the boy had been riding escaped injury. Other messenger boys at the Western Union office stated that Royce had just tightened the coaster brake on his wheel, and that he probably put the brake on too quickly, causing the wheel to fall.

The boys' parents, Mr. and Mrs. E. A. Dragoo, live at 803 Lamar Street, and his father is employed at Hotel Wright. Royce had been off duty about five hours when he was found.

ANNOUNCEMENT

The Woman's Auxiliary of the Board of City Development is sponsoring a Clean Up Week in Sweetwater February 16th to 21st inclusive. They are also urging that this be a week devoted to planting trees.

It is important that all Sweetwater citizens co-operate and help the ladies make this undertaking a success.

Weeds should be cut, all loose papers and rubbish burned. The ladies will send wagons around over the city next Thursday and Friday, the 19th and 20th, and haul rubbish to the Dump Ground. Paper will not be hauled, and tin cans etc. must be gathered in sacks or cans, and placed in front of the owner's premises.

Let everyone assist the ladies in this campaign, and make Sweetwater a cleaner, prettier city.

JOE H. BOOTHE Mayor.

ADVERTISING RATES
Classified advertising rates are 1c per word per insertion; minimum charge for first insertion 30c. Local readers 10c per line per insertion. Cards of thanks, resolutions of respect and in memoriam 5c per line. Display advertising rates on application to the office. Copy should be in the office of The Reporter not later than 10 a. m., on the day of publication and preferably the day preceding.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in any of The Reporter's publications, will be cheerfully corrected upon being brought to the attention of the publisher.

APPEARANCE

No city of West Texas is on exhibition more than Sweetwater. Records show that more people pass through here annually. It stands to reason that this is the case owing to railroads and highways leading into and out of this town.

Nothing creates a more favorable atmosphere for a town than trees—plenty of them, along paved streets, with fine lawns and flowers surrounding neatly kept residences. And now is the time to plan for these things.

This coming week has been designated as clean up week. During this period if everyone will co-operate, definite improvement can be made in the appearance of this town.

EARLY

The Reporter hates to be arbitrary about turning folks down when they ask to have advertisements inserted in the current issue of the Reporter because they are too late. Display advertising must be in the office of the Reporter on the day preceding, and classified and local readers preferably the day before or as early on the morning of the day of publication as possible. The purpose is to get the edition to press early and provide surrounding towns with the news of the day the same day.

GET A MAP

Take a map of Texas and tear off everything east of the 98th meridian. Put the remainder of the map on your desk and reach for a package of pins.

Stick a pin into Reagan county, near Big Lake, close to the tracks of the Orient railway. That's to mark the 60,000,000 foot gasser that was brought in down there the other day.

Stick another pin into Lubbock county, at the town of Lubbock. That's where the walls of Texas' newest educational institution are rising like a beacon light to the boys and girls of the plains.

Insert a pin near Sweetwater and another close to Hamlin. They're to mark two big gypsum plants that are converting worthless material into valuable articles of commerce.

Put a pin at Abilene and another at Amarillo, where seven and eight story buildings and waterworks and other evidences of progress are being brought into being.

In Stephens county, at Breckenridge place another pin. That's to mark the center of one of the biggest refining districts in the country.

In Stonewall county on the double Mountain river, stick another pin. That's where one of the biggest dams in the country will be built, bye and bye.

Take a handful of pins, back off across the room, and fling them at the map. They'll mark the sites of new towns that will spring up in the next twenty years.

Having exhausted your supply of pins hang the map on the wall behind your desk and gridiron it with heavy pencil marks. They'll indicate the paved highways that will be completed through, over and across West Texas in the next ten years.—Abilene Reporter.

CURB THE CURIOUS

This paper has suggested more than once that some regulation should be placed on the curious who climb into their automobiles and rush through the streets whenever the fire signal sounds. It is a rare thing that the fire alarm sounds but that the streets

are immediately filled with automobiles, a condition which to some extent at least means a handicap for the fire department to overcome.

The city of Sweetwater has made a step in the right direction this week when the commission passed an ordinance making it a penalty for any person to drive a motor vehicle over the streets while the fire department is making a run to a fire. The ordinance also prescribes that no person shall park his machine in the vicinity of the fire.

Such an ordinance is needed in Colorado.—Colorado Record.

FARM CENSUS IS NEARLY FINISHED

Sixth District of Texas With Headquarters at Sweetwater Is Practically Completed.

INCREASE IS SHOWN

Census Takers Not Permitted Reveal Figures But Increase Reported In Every Case

Walter L. Boothe, supervisor of the 6th district of Texas in the National Agricultural Census, reports that the census in this district is practically completed with the exception of a few counties yet to report.

This census, which began several months ago, is being taken throughout the United States, and covers every phase of the farming and ranching industry, including population, farm crops, live stock, income of farmers, expenses, taxes, and many other items pertaining to the subject. Boothe is supervisor of the 6th district of Texas which includes 31 counties, extending south to the Rio Grande and west to New Mexico line. The results of the census will show the comparative wealth of the rural sections of the nation.

Over 50 census takers, under the di-

rection of Mr. Boothe, have worked the counties in this district, there being from one to five enumerators to the county. Data is forwarded to the office of the supervisor at the court house in Sweetwater, from here, the various blanks, forms and other matter will be forwarded to Washington where it will be compiled and issued in bulletin form. The first shipment of data is ready, Mr. Boothe stated, and will be sent to Washington at once.

Under the rules of the census, supervisors are not allowed to give out information concerning results of the census, and the agricultural and live stock wealth of Nolan County and this district will not be known until the bulletins are issued from Washington. Mr. Boothe stated, however, that all counties show an increase in general wealth and rural population. This census is taken every five years.

MAY DRILL SOON

Preparations Being Made to Sink Two Oil Tests on Ranches South Of Sweetwater.

Preparations will be made in the near future to sink at least two oil tests south of Sweetwater, according to a letter received by Walter Boothe from W. K. Ingham, Pittsburgh, Pa., oil man who has leased a block of acreage 8 miles south of Sweetwater. In the letter, Mr. Ingham stated that on account of the bad weather in the north, operations to this effect had been halted, but that in all probability drilling of at least two wells would begin soon.

Ingham leased, several months ago, land from the Boothe, Withers, Bruce and Wight ranches south of Sweetwater.

Then the Rain
Man draws his ideas from Nature. So, when God sent the rain He suggested a fine way of bathing. From rain we got the idea of the shower. For the first shower ever made for a bathroom was called "Rain Bathing."
"Bathe in running water." That was a Mosaic law. But in the time of Moses there were no showers, for there was no plumbing. What he meant was to bathe in the running water of rivers.
Plumbing brings a river—running water—into the home. And with plumbing and a shower it is easy to bathe in running water.
What a joy—what a tonic—is the shower. It fits the bath-er for the day. The shower is full of cleanliness, vigor, and the kind of cheer that cheers.
A bathroom without a shower is only half a bathroom.

Electricity

The Ocean Grayhound Depends Upon Electricity

Miles from nowhere over the seas, the ocean greyhound is dependent upon its own resources. Should its giant engines be stilled for a moment it would wallow helplessly in the trough of the waves, a prey to wind and weather. With thousands upon thousands of electric lights, and every other electrical appliance, the ocean liner is like a city in itself.

Here in this city thousands and thousands of electric lights and every other electrical appliance is dependent upon our plant for current. Current must never fail—always ready at the snap of the switch. But unlike the ocean greyhound, in the possible event of trouble the various properties of this and associated companies are tied together by high tension electric transmission lines. Soon, Sweetwater and Big Spring will be connected together, so that the power plant at either end will be available for use.

And so as you step into your modern kitchen and turn on your electric range, you never hesitate—for you know there is ample power always for your use.

A few short years ago no amount of money could buy electrical comforts. Today they cost so little. And as you pass on over the ocean of life, why deny yourself the comforts that only electricity can bring you?

Pastor and Scout Leader Arrested, Rescue Saves Fine

Special to Reporter.
 COLORADO, Feb. 14.—A pastor of a prominent Colorado Church and the Boy Scout Executive for four West Texas counties were placed under arrest while traveling near San Antonio enroute to a Boy Scout conference, according to a story the pastor told when he arrived back home.
 The pastor, Rev. W. M. Elliott, president of the Buffalo Trail Council, Boy Scouts, and Executive W. S. Barcus were hitting along at a steady clip of about 30 per when a motorcycle cop came alongside and escorted them to the judge in a near-by town.
 Just before a fine of \$18.85 was extracted from the preacher and the scout leader, a motorist who chanced to see the arrest entered and testified that the couple was not exceeding the speed limit, as he timed their speed by his own speedometer.

Guy McKee of Dalhart was a visitor of his old friends A. S. Kendrick and Roy Thompson Saturday.

OPEN INCUBATOR PLANT

Colorado To Have Large and Modern Hatchery—17,500 Eggs Capacity

COLORADO, Feb. 14.—Colorado will have one of the largest and most modern hatcheries west of Sweetwater when the big plant being constructed by O. Lembeth is completed.

The plant is to have four principal units when completed. These will consist of two laying houses, equipped with every modern convenience known to the poultry industry, one building housing the three large hatching machines and a large chicken brooder.

In the hatchery building is located the three large incubators. One of these machines among the largest ever delivered in West Texas, has a capacity of 10,000 eggs. Another has a capacity of 5000 eggs and the smaller 2,500 eggs for the plant. The first hatch of 600 baby chicks is due to be taken from the plant February 21.

Legislature Is Invited To Take Junketing Trip

AUSTIN, Feb. 14.—Although the question of junketing trips has not been considered very seriously at the present session, several legislators scratched their heads reflectively at the invitation given that body Wednesday by Ewing Thomason of El Paso.

Thomason invited the legislature to get acquainted with "West Texas" and top off their visit to El Paso with a barbecue to be held at Juarez April 1.

The invitations came when Thomason, former legislator and speaker of the house was called to the stand for a speech during a visit in the house.

Mr. and Mrs. J. W. Billings are the parents of an eight and a half pound girl born Friday night.

Mr. and Mrs. Louis Price are the parents of an eight pound boy who arrived Saturday morning. He has been named William Louis.

The Quest of the Beautiful

The desire to be beautiful is older and stronger than the desire to be either modest or comfortable. Witness Eve, and her lovely older sister, Lilith. Lilith and her beauty is a legend we would not be without; she is the glowing mystery that lies back of the beginning of the race. Lilith without beauty would be life without meaning, stars without light.

Eve, we feel, must have been beautiful or that lovely lost garden "east of the sun and west of the moon" would not have evolved her as its crowning glory. Envious, creeping Wisdom gliding along the apple branch to drive out beauty, so that men might care only for knowledge, would not have found her worthy of his hate.

Beauty is the shimmering, high answer to the deep hunger of mortals; beauty of living, beauty that is mystery and poetry and faith, beauty of line and color.

'After Six Days'

Filmed in Egypt, Babylonia, Mesopotamia, Palestine, and the Holy Lands, presenting an authentic depiction of Old Testament history from the Creation to King Solomon. A photoplay that surpasses anything yet shown on the screen. Don't miss it!

Rev. Thos. F. Gallaher, D. D.
 Pastor Oak Cliff Presbyterian Church, Dallas, Texas.

In my opinion it is a remarkably fine picture and keeps very close indeed to the Scripture story. Naturally there are a few places where the imagination is drawn upon to some extent to make the picture more interesting. On the whole, I was greatly pleased with it and consider it a great work of art. I would be glad indeed to have the children in my Sunday School see it and believe it would help them in their understanding of the early history of the race.

Dr. J. B. Cranfill

Teacher of the Bible, First Baptist Church
 It was my privilege to witness an exhibition of your great picture, "AFTER SIX DAYS," and I am writing to commend it most heartily. I have been a teacher of the Bible for many years and I welcome with all my heart this new and luminous contribution to our Bible study and history. The picture itself as a work of art is magnificent in every way, but in addition to its artistic magnificence is the fact that it presents to the eye those outstanding incidents of Bible history that have always challenged our hearts. I hope our people everywhere will see it.

The film "After Six Days" presents with all the vividness and lasting impressiveness of visual interpretation those stories with which we are already familiar, and presents them in chronological order that reveals the unfolding purpose of the Supreme Being. It gathers together the loose ends of all our past impressions and unifies them in a manner that will remain fixed in our minds for the balance of our lives.

 I had the pleasure a few weeks ago of seeing "AFTER SIX DAYS." It was altogether an enjoyable presentation. I quickly recognized the educational value of a film production of this kind so vividly reproducing stories of the Bible. The scenes have been carefully produced with an idea of bringing into the picture Oriental atmosphere. To sit before such a film presentation is like turning the leaves of a gloriously illustrated Bible, an experience which I should recommend to every one.

M., on the 5th day of March, 1925, in the Commission Room of the City Hall, in the City of Sweetwater, Texas, at which time and place all owners of property abutting upon the said portions of streets or any of them, as well as all others interested, shall be and appear and present and make any objections or protests which they, or any of them, may have, and shall call to the attention of the Commission any errors, irregularities or invalidities, if there be any, in connection with the proposed improvements, the proceedings therefor, or proposed assessments, or any other matter in anywise connected with such improvements, proceedings or assessments; and such hearing may be continued from day to day and time to time, if necessary, to fully and fairly hear all presenting themselves to be heard, and any such owner or other person interested or affected, may subpoena witnesses and introduce evidence. Such hearing will be held and conducted in accordance with and under the terms and provisions of the Charter, with amendments in force in the City, and the law in force in this City, and when concluded assessment against abutting property and against real and true owners thereof will be made and levied, and when levied, such assessments will be and constitute a first and prior lien on the premise against which assessments are so levied and a personal liability of the real and true owners of such premise whether such owners be named or not.
(3) The City Secretary is directed to give notice of the time and place and purpose of such hearing by causing a substantial copy of this ordinance to be published at least three (3) times in some newspaper published in and of general circulation in the City of Sweetwater, Texas, the first of which publications shall be made at

least ten days prior to the date fixed for such hearing.
(4) The City Secretary may, but is not required, give further notice of the time, place and purpose of such hearing, by causing a copy of the published notice to be mailed to the owners of abutting property upon the said portions of streets but said notice, by publication, shall be sufficient, valid and binding in all cases whether or not any other notice be given and whether or not any other notice, if given, be correct.
(5) The improvements on said portions of streets are being delayed pending taking effect of this ordinance and the giving of such notice and the holding of such hearing, and it is necessary that such improvements be proceeded with while the weather will permit, and such facts constitute and create an emergency and an urgent public necessity requiring that the rules and charter provisions providing for ordinances to be read at more than one meeting or more than one time be suspended, and requiring that this ordinance be passed as and take effect as an emergency measure and such rules and provisions are accordingly suspended, and this ordinance is passed as and shall take effect as an emergency measure, and shall be in full force and effect immediately from and after its passage.
Passed and approved this 10th day of February, 1925.

BROWN COMING

Chief of Organization Bureau U. S. Chamber Commerce Speaks At Club Tuesday Night

Colvin B. Brown, Chief of the Organization Service Bureau of the Chamber of Commerce of the United States, will speak at the Sweetwater Club Tuesday evening February 17th at 6:30, Hotel Wright.

Mr. Brown is undoubtedly the best known authority on Chamber of Commerce work in the country. He has spent years in studying the subject and has visited over 600 chambers of commerce in forty-four states. This work has given him an intimate knowledge of business and civic life and problems in a great variety of places. A four column article in the Literary Digest refers to him as "a graduate of the school of experience," who diagnoses organization ailments and gives prescriptions that will cure."

The Chamber of Commerce of the United States, with which Mr. Brown is connected represents organized business and is a federation of chambers of commerce and trade associations having an underlying membership of over 750,000. Its headquarters are in Washington. Its service to American business is rendered through a number of departments officered and staffed by experts. By means of the referenda vote of its members it gets their views of business problems and translates them into action.

T. E. L. Class Party

Mrs. B. Anderson and Mrs. T. C. Eakins were hostesses Wednesday afternoon at a social and business meeting of the T. E. L. Class of the First Baptist Sunday school at the home of Mrs. Anderson.

Mrs. Henry Campbell led the devotional and arranged an interesting program for the social hour, which consisted for the most part of contests. In the word contest, Mrs. Jim Trammell won the prize, a beautiful valentine. Mrs. Jack Zeigler and Mrs. Reese Walker gave piano numbers. The living rooms had been decorated with Valentine emblems of red hearts and arrows and the Valentine colors were featured in the lovely refreshment course, which was served after the close of the program.

Valentine Party for Friends

Miss Lorene Williams assisted by her mother entertained eight couples

of her friends Friday evening with a valentine party with progressive forty two the chief diversion. Red hearts and arrows reminded one of the rule of Dan Cupid over hearts and love darts and the "Fish Pond" and hidden fortune games gave the little god an opportunity to do his work. Miss Pauline Reed and Lloyd McBeth and Miss Edna Cordell and Glenn Thomas were winners of the prize Valentines. A delightful salad course was served at the conclusion of the games.

Self Culture Club

One of the most beautifully appointed Valentine parties of the week was held Friday afternoon with which Mrs. C. W. Bryant favored the members of the Self Culture Club. They met at her home for their regular program, with Mrs. W. W. Davis in the chair and Mrs. P. G. Dabney secretary. Next year, taking the place of Mrs. William Morton, who is ill. The curtains and electrolights of Mrs. Bryant's living rooms were festooned

with hearts and Valentines and the lights were shaded in red to carry out the Valentine motif, which was also reflected in her refreshment plates, with red heart mints and heart shaped sandwiches and cakes, served with a salad.

Mrs. Willard Gibson and Mrs. P. G. Dabney were appointed to cooperate with Mrs. R. C. Ledford and Mrs. F. J. Neal of the Sorosis Club in conducting of the Wright Hotel. The exhibit will be the Art Exhibit, in the banquet room consist of the Italian masters and will be free to the public.

Mrs. W. W. Davis directed the following program on "Marriage and Divorce":
"Conflicting Ideas of Marriage" Mrs. E. P. Reese.

The main facts as to the amount and geographical distribution and grounds for divorce, Mrs. Robert Withers, substituted for Mrs. Jim Butler. The Causes of Divorce, Mrs. N. L. Hall.

New
CHEVROLET
Now on Display
New value—new quality—a new line of Chevrolet models even better than ever before. Chevrolet has become the world's largest producer of automobiles with modern, 3-speed transmission by making quality cars to sell at low cost. Now this Chevrolet quality has been greatly increased.
New chassis—with larger, stronger frame; new semi-elliptic, chrome vanadium steel springs; stronger axles, rear axle of the finest construction—banjo type housing with greatly strengthened gears; improved, fully enclosed dry-plate disc clutch requiring no lubrication; extra heavy brake bands; and many improvements on the powerful Chevrolet motor.
New bodies—of even greater beauty and comfort. All models have new radiator of more beautiful design, made of non-rusting airplane metal. All closed models have new and exceptionally beautiful Fisher bodies with the new VV closed-body one-piece windshield and automatic windshield wiper. Balloon tires on all closed models and disc wheels on the Sedan and Coupe.
New finish—all models are now finished in Duco—the new finish that retains its color and lustre almost indefinitely and withstands the severest usage. These are but a few of the quality features of the new Chevrolet—quality features that you would expect to find only on cars of much higher price.

AFTER SIX DAYS

Famous Bible Picture to Be Shown At Palace Theatre Wednesday and Thursday of This Week

There has been but one book ever written that is perfect material for the screen without revision, deletion, and retitling. That book has the greatest sale of any volume ever published, yet there are no royalties to be paid its authors by a motion picture producer. That book tells the greatest love stories of all time, narrates the greatest drama of the ages, and offers the finest possibilities to the producer enterprising enough to envisage its wealth of hidden worth. This book is the Bible, the Old Testament, shown in "After Six Days" at the Palace Wednesday and Thursday.

Despite its glorious possibilities, its educational, historical and entertainment values, the Old Testament has virtually been untouched heretofore by any producer until Weiss Brothers Artclass Pictures Corporation, in search of clean, beautiful, worth-while picture material produced "After Six Days", seizing the opportunity to present all the splendid drama and inspiring romance of the Bible as has never been shown before. Not only

were the identical locales filmed as back grounds for the inspiring stories, but every possible effort was made to assure accurate representations of the building, modes and costumes of Biblical times.

The production "After Six Days" took five years of actual photographing, not including the time for preparation. The cast is the largest ever assembled for a picture, numbering more than ten thousand principals and supernumeraries. It required the work of a director-in-chief and eleven other directors together with an army of assistants. Eight cameramen were carried all through the picture; in several of the scenes more than twenty cameras were "shooting" simultaneously.

AMUSEMENTS

Proof that the average American is a thrill seeker is evidenced by the fact that thousands are attracted annually by the big automobile racing classics.

Those who are unable to attend the thrilling races can thank Bobby Vernon for bringing an exciting race to their very door-steps. Countless racing thrills are pictured in his latest Educational-Bobby Vernon Con-

dy "High Gear" which will be at the Lyric Theatre Monday and Tuesday.

resistible. Circe—immortalized in "The Odyssey" as the Daughter of the Sun, who lured men to destruction. Circe—the enchantress whom Vincente Blasco Ibanez selected as the theme of the modern story he has written for dazzling Mae Murray's latest Metro-Goldwyn picture.

According to the old myth, Circe was a semi-divine enchantress who lived ages ago on a beautiful island of Greece. In the course of their travels, sailors from the ship of Ulysses came to this island, to remain fascinated by her charms. But as quickly as Circe tired of her suitors, she gave them a magic drink. Immediately they were transformed into swine, and so she kept them, wretched and guzzling in their sty. Ulysses, arriving one day in search of his men would not be lured by the fair siren and threatened her with death. Once more she tried to use her magic power, but it was useless against a self-controlled man. The spell was broken and Ulysses sailed off with his men restored to their natural form.

Mae Murray in "Circe the Enchantress" plays the modern version of the Greek myth; a woman whose beauty gives her a strange power over men, and whose seductiveness turns them into beasts. Lyric Monday and Tuesday.

If there ever was anything different in motion pictures, its "Icebound" the William de Mille production for Paramount at the Queen Theatre Monday and Tuesday.

"Icebound" is a story about plain country people presented in a far more interesting way than the legitimate play and in which many of the scenes and characters, merely referred to in the stage success become realities.

Lois Wilson and Richard Dix are the featured players. Vera Reynolds Ethel Wales, Edna May Oliver, Alice Chaplin and others play in support. 251 12:2c.

PRESENT PLAY

High School Dramatic Club Displays Much Talent in "Barbara Makes Splash" Friday Night.

An unusually well presented play was given by the High School Dramatic Club at the school auditorium Friday evening at 8 o'clock when the club staged "Barbara Makes a Splash" a comedy-drama of three acts.

From the rise of the curtain to the final scene, action was fast and interesting, and every one of the nine players in the cast enacted their roles to a perfection that was deserving of the storm of applause given by the audience.

The story was built about the efforts of an automobile manufacturer, played by Horace Heath, to avoid bankruptcy; his clever secretary, Barbara Allison, played by Ruth Davis, who was in love with the manufacturer's adopted son, Jimmie Prescott, played by Merlin Toler. A would-be Englishman, Willard Schumann, added to the interesting plot as did Mr. Harris, a wealthy business man, played by E. P. Reece. The comedy role was carried very successfully by Howard Hollowell as Charlie Denton, a book-keeper for the auto concern. Other characters were Nanie Galloway, played by Helen Davis; Evelyn Foster, played by Vinita Speed and Margie

Reasler, played by Nina Mae Majors.

A large crowd saw the affair, the proceeds of which will go to various school activities.

George Washington Bridge Party

Mrs. Dalton Moore struck the patriotic note of the season Friday afternoon when she entertained a number of her friends with a George Washington Party, at her home on E. N. 2nd Street.

The red white and blue colors were featured in the decoration of bridge tables and score cards and in the blue ayacintus, red primroses and white spring blossoming plants which gave a beautiful ensemble color setting for the nine bridge tables. Mrs. T. S. Montgomery received a beautiful plaque as first prize and Mrs. Will Corbett a violet bowl as second score prize.

Red, white and blue candy baskets centered each table during the games and with lovely salad plate course, salted peanut baskets decorated with tiny flags, were given as guest favors.

To Dallas.

C. S. Boyles left Friday night for a business trip to Ft. Worth and Dal-

las. While in Dallas he will order out a shipment of the new Chevrolet cars for the C. S. Boyles Motor Co., including the two new Chevrolet touring cars, and the Chevrolet sedan which will be given away by the Sweetwater Reporter in its mammoth circulation drive now on.

WORK IS SHOWN

Articles Made by Home Economics Pupils on Exhibition.

A number of articles made by the Home Economics Class of the High School are on exhibition in the window of the Hasen Company. The work is the ordinary run of class work and in no wise is it either specially made or specially selected for exhibition purposes. The exhibition will remain on display for several days.

Beautiful Bridge Party

Mrs. Clyde Payne entertained Wednesday afternoon with a beautifully arranged bridge party with eleven tables in play. Red carnations nodded a fragrant welcome from mantle and cabinets and the near approach of Washington's birth day was featured in the score cards and favors. Lovely little cherry trees were placed in the

center of the tables when the cake was served, which were decorated with George's latches.

No prizes were given. Misses Mollie Howe and Frances Lou Payne assisted Mrs. Payne in entertaining.

SPEAKERS BUSY

Lee Satterwhite and Barry Miller Have Difficult Jobs in Ruling House and Senate.

AUSTIN, Feb. 14.—Many persons have the idea that the speaker of the House and president of the senate have a "snap", but there are others who know that both individuals sometimes have a shaky grip upon their respective posts.

Speaker Lee Satterwhite has very little use for the spacious chair on the platform, as he is kept on his feet and busy with the gavel most of the time keeping order in the house. Satterwhite apparently talks better on his feet than he does sitting down, anyway one legislator near the press table remarked.

Senators who wait until the question is presented for a vote and then clamor excitedly to their feet to know what the voting is about, draw caustic and low voiced comment from President Barry Miller.

Senators who appeal to the chair for information may receive the meaningless reply from Miller: "It is the bill whose caption was just read—All in favor of the motion—etc."

Colorado Man Pays High Price For Four Ducks After Arrest

COLORADO, Feb. 14.—Local duck hunters had better watch their step, as will be attested by a local business man. At any rate if you go gunning for ducks, better be sure that the game warden is not wise to the contents of your game bag.

Four ducks, four complaints and four fines at the sale price of \$22.50 each, make a total of \$90.00. And that is what the Colorado duck hunter was called upon to contribute to the county coffers.

MONEY Can't Buy—
FRIENDS, but nevertheless friends seem fewer when funds fail.
BRAINS, but it can provide the means of developing them greatly.
HAPPINESS, but it can set a mighty inviting stage scenery for that feeling.
A FOUNTAIN OF PERPETUAL YOUTH, but it can insure age against the woes of want.
ONE MOMENT OF TIME, but it can enable us to make the most of the time we already have.
PEACE OF MIND, but then, neither can poverty. It is safer to take one's chances for tranquility with the former than the latter.
LOVE, but it comes in mighty handy in supplying the needs of the object of our affections, be the aforesaid needs roses or beefsteak.
O, yes, there are a lot of things in this good old world that money can't buy but—!

author of "The Four Horsemen"

And She Swore She Would Never Succumb to the Love She Kindled!
Cecile, disillusioned at eighteen after she had left a convent school in New Orleans, swears that all men will pay for what she has lost. Untouched herself by the desire she arouses, she torments her victims and levies tribute. Only one man, Dr. Van Martyn, withstands her charms. Placed at first, she at last becomes desperate. She finds life impossible without his love and gives a wild party at her Leng Island villa, where, at the height of a drunken, gambling, dancing orgy, she realizes she cannot go on with this life.

The old Mission style of architecture has given the designers of today wonderful opportunities for display of their skill, mainly for the reason that it lends itself so readily to plain surfaces and to color schemes.

In this well studied design the white stucco walls, the red tile roof and the entrance with its round-top openings all suggest this style, which is typical of most mission work.

The plan and arrangement of the rooms are in keeping with design. While it is not a large house, being only 28x30, it is large enough for a family of average size. The house contains a good size kitchen, a living-room and dining-room combined, one bedroom, sleeping porch and bath. Good closets are provided, and there is a coat-closet at the rear of the hall. A laundry is placed on the porch at the rear. The fireplace, with bookcases at either side, in the living-room is a feature of the home, while ample wall-space for furniture and pictures is allowed. If necessary, one could build a small basement; and by extending the kitchen flue into the basement a furnace could be installed.
