Mr. Mobley and Mr. Whaley conferred with the city officials and members of the school board at the city hall Saturday morning. Details of the Orient's proposition in short, were that, in view of the "Orient condition" valuations of the road here subject to city and school taxation, be reduced to \$1,000 per mile. "The savages are quiet and lawabiding," Yerty said. "I have traveled through the remotest portions of the continent and never met with any dangerous experiences."

SCHULZ PIANOS

**The Choice of A Piano**

It would not be possible to expend too much care upon so important a task as the choice of a piano or player piano.

Not only the outer appearance and attractiveness of the piano, but every detail of its inner construction should be considered; for its tone, supreme among its features, and by which its worth will always be judged, depends upon things which do not appear from superficial examination and must be taken on trust by the purchaser.

That is the best description we know of the SCHULZ pianos; the acme of piano perfection, manufactured since 1869, and sold and guaranteed by

Special to the Reporter.  
Last week's issue of the Merkel Mail published an article concerning the next meeting of the White Church Cemetery Association. No doubt many of you read it only to wonder where White Church is and what is the Cemetery Association.

White Church is only a church founded in the early eighties by a small congregation of Methodist pioneers in the western part of Mulberry Canyon only a short distance east of the east line of Nolan county.

When the T & P railroad was completed as far west as Abilene in 1881 and it became possible for these pioneers to get lumber for building they made their way thru the pasture to Abilene and secured enough lumber, nails and paint to build a house in which to meet for all occasions, and as it was painted white, it has been ever since known as the White Church. The school and the community was named for the church.

Then a sad day came to these early settlers when they must decide where to find a final resting place for one of their number. Naturally, a place was chosen near the church which was the beginning of what is now the White Church Cemetery. About an acre of land was set aside and fenced but no deed was ever made showing that any understanding as to the purpose of that plot of ground had been reached. Of course those people had no way to determine what changes forty years of development would bring. During the last few of the forty years this spot of ground was sadly neglected and some one of the remaining first settlers began calling attention to others, that the original plot of land was taken up and more space was needed. Until many began to see the need for more land also, protection against some possible attempt in the future of destruction.

On March the 9th, 1923, the people were called together to discuss and arrange some definite plan to secure an extension and a title of legal form to the cemetery. At this meeting a board of three trustees were elected and given full authority to represent the will of the people with instructions to secure if possible an extension to the grounds and a title to the entire plot.

The board of trustees began at once and by May, 1923, at the next meeting were ready to report the facts that they had been successful in following instructions. Many who had said "It can't be done" were the first to make contributions to pay the expenses of the transaction.

This marks the beginning of the cemetery association. A lively interest is being taken in keeping the place clean and all graves properly cared for. These meetings are held about twice each year and are well attended.

According to the article of last week Merkel Mail mentioned in the beginning of this, the first meeting for this year is to be March the 18th. This writer wishes to assure any one who wishes to attend this meeting a loyal welcome.

ELDORADO—The school board election carried here and bonds sold for 2 1-2c above par. Construction will be under way soon for a new modern school building.

 East Side Square Since 1913

One can judge pretty well from the exterior appearance that the interior is cozy, and study of the plan below will verify this. The exterior is handled in Spanish-Mission style with stucco walls and tile roof. The terrace at the front with the projecting roof and baskets, form an attractive entrance that is in keeping with the balance of the design.

The home contains four rooms beside dining alcove and bath. Good closet space is provided for each bedroom with a linen case and a broom-closet for the hall. A chest of drawers also is provided for one bedroom.

The good-size living room has plenty of wall space for furniture, and has a fireplace at the front, adjoining the entrance. The sink and the kitchen cupboards are conveniently arranged on the outer wall, with just the right distance between the range and the work-table. The plan provides for a full basement, with laundry, fuel-room, storage, etc.

**GRATEFUL FOR AID**

Woman Befriender Writes Mrs. W. H. Hudson's Check.

The charity fund administered by Mrs. W. W. Hudson is the richer by \$6 as the result of a check received from a woman who received that amount here to aid her on her way to Hollis, Okla.

"The children and I arrived at my father's all O. K.," the woman wrote. "Father is sending a check for the \$6. You don't know how much I appreciated you must be a wonderful woman and I told them you were in my estimation. Again thanking you for the little clothes you gave the children which I intend to return for some other unfortunate ones, I will use."

The charity fund raised by donations in bottles placed in restaurants and other public places in the city and is used for just such cases as the above.

**Beautiful Bride Party.**

The Club Calenda of the Wednesday Bridge Club presided Mrs. Ed C. Mays as hostess for Wednesday's meeting, which she extended to include a number of her friends outside the regular club members, until it assumed the proportions of a very elaborate affair.

She chose a color motif of pink and white and featured the colors in her score tallies, refreshment plates and the floral adornment of her home. White carnations were used with lovely pink and white roses in vases about the living rooms, where the eight tables were placed.

When the scores were counted it was found that Mrs. J. H. Doscher had made the highest score and Mrs. Robert Calvert the low score. Both were rewarded with beautiful gifts.

Pink and white individual ices were served with cake as the close of the games.

**Class Entertains.**

The residence of Mrs. J. R. Cox on East North Third was the scene of a lively jolly Friday night when members of her Sunday School class entertained there. Girls were the losers in an attendance contest and paid the forfeit of serving them refreshments consisting of sandwiches, cake and other good things to eat. They all had a jolly time.

Mathis and family and were joined by Mr. and Mrs. C. W. Clark of Abilene who expect to accompany them on the trip and spend a few weeks at Corpus Christi.

Mr. Simmons and Mr. Clark plan to install a laundry at Corpus Christi during their stay and will very probably move the one they now own at Victoria to that city. During Mr. Simmons' absence C. B. Simmons will be in charge of the local plant.

**SPRING VOGUES**

Spring in all its glory is at hand! It is the time when all things are serene and beautiful, and a time when woman is largely centered on her wardrobe-to-be. With the tremendous strides made in recent years in the American dressmaking industry, the task of selecting clothes for the spring season is no longer a task. It is merely a question of taste.

So many variations of clothes are in style this spring that the question of selecting a wardrobe is simply a matter of individualistic inclination.

One may be sure that color is quite the thing. As a matter of fact, color invariably is a dominant factor in the selection of the spring wardrobe, but this season, more than any previous one, shades and tones dictate the selection of apparel. Clothes this spring revel in bright hues. In fact, modes are a carnival of color, and it is for the lady herself to choose with care just the shade that most becomes her.

A wide diversion of fabrics are shown in countless effects. Multifarious designs in printed silks, woolsens, and other fabrics dominate the situation entirely, with striped, plaided and bordered fabrics playing an important part in sounding the spring-note of 1925.

When it's new HASSEN shows it first.

Youthful Abilene Trio With Movie Ambitions Return Home

On their way to California to "get in the movies", two brothers and a sister from Abilene found their journey brought to a sudden end in Sweetwater at 1 o'clock Saturday morning when they were taken in custody by officers, placed in a local hotel the remainder of the night, and returned to an anxious mother late Saturday.

The movie-bound trio, who in answering the call of the wanderlust, and suffering from a bad attack of "movie fever" left their home in Abilene Saturday afternoon and set out afoot toward the land where balmy ocean breezes blow and cameras click was composed of Chester Robertson, 15, Ruth Robertson, 13 and Kenneth Robertson, 9.

"We walked part of the way and rode the rest of the way from Abilene", Chester said Saturday morning as the three were in their room at the hotel busily putting on their shoes which officers had thoughtfully hid in the lobby the previous night "just to make sure their journey west was not continued."

"We had 75c when we left and a man gave us a dollar and a half."

"We spent that last night, though," Ruth stated. "We went to the picture show when we got here and spent the rest for candy."

"We've traveled lots," said Chester, evidently the leader of the trio. "We have been to California once and it's a lot better than Texas."

Curly-headed Kenneth, the youngest of the youngsters changed his mind about taking the long journey to California, he said, as Chief of Police Johnson headed them towards a cafe and a good breakfast.

"I don't want to join the movies," he declared, and added in a soft voice, "I want to go home to mother."

Of course everybody couldn't win, though many answers besides the winning ones were correct. However, a good sport is a loser and we are sure that Cross Word fans are good sports.

Winners will please call for their respective prizes tomorrow, Monday, March 9th. Winners' names appear today in the advertisements of the business houses whose prizes they won. Some won more than one prize, but that is a fortune of war.

Don't forget the merchants, folks, who made possible this contest for your pleasure. They are glad at all times for you to call on them. They help pay your city's taxes and spend their money at home. It's to your interest to spend YOUR money with them.

ELECTRIC POLE BURNS

Short Circuit Starts Blaze on Top Of Pole—Call Fire Boys.

A short circuit from electric wires started a blaze at the top of a West Texas Electric Co. pole on South Second street Saturday morning. Two fire trucks answered the alarm that was turned in, and the blaze was extinguished with chemicals.

The burning of insulation on several wires, and a slight burning of the post was the only damage.

Mrs. Max Williams returned Friday afternoon from Lubbock, where she had been visiting friends, and left Saturday with her husband to spend the week end at Ft. Worth and Dallas.

Bitter Creek Community to Stage Drive Next Thursday March 12.

Residents of the Bitter Creek section are planning a rabbit drive next Thursday March 12. All who take part will meet at John Childers, Jr., at 8 o'clock.

Dinner will be served at some point on the drive. When you name over to yourself the real towns in this—or any other—state instinctively will come to mind the fact that in each town, there is one outstandingly good newspaper. A town may make its mark in the world without a good newspaper—but who would know anything about it if it did, providing that it were possible.

SWEETWATER - TEXAS

Now is the time to buy that new car. The very latest and most improved products of the automotive industry are being shown by Sweetwater dealers listed in this section. With convenient payment plans arranged so that cars can be paid for from income rather than capital, every family can enjoy their car while paying for it. Gas, oil and every convenient accessory for the fullest enjoyment of motoring are available from reliable dealers in whom you can have the fullest confidence. Summer is coming with its innumerable picnics, and outings, no less on the vacation trip to the mountains and fishing pools away from the city. In this day and time a car for the family is a necessity, not a luxury.

#### CARS REGISTERED

Collector's Records Show Eleven New Cars Sold During Week.

- C. Boyles Motor Co. to J. C. Talley, Chevrolet.
- Ho Motor Co. to Ed Patterson, Buick.

With a long list of new models, new features, added improvements and no marked increase in prices, the automobile industry has entered into the new year well stabilized and with prospects for another year of booming business according to views taken by a number of local automobile dealers. Many new model cars of various makes have already made their appearance in Sweetwater through distributors here.

Records show that during the 12 months from February 1, 1924, to February 1, 1925, a total of 895 new cars were registered at the court house, averaging over 2 cars per day sold by local dealers during that year.

#### Everybody Rides

A prosperous and progressive rural section which makes up Nolan County in addition to the general prosperity in Sweetwater proper has been given as the main factor in the building of a vast automobile industry here. "Everybody rides" is a phrase which applies aptly to Nolan County as it does to the whole country, at least, dealers have stated. Both the lower priced cars and the more expensive makes are in greater demand here records show. An automobile of some description, at any rate, is owned by a big per cent of families. New cars are still being sold every day in Sweetwater.

#### Demand New Models

After a fair crop year in 1924, and with chances very good for another good year, dealers here are expecting an even greater volume of business in 1925. Sales will naturally be boosted slightly with the appearance of the new models and improved refinements on older models, as is nearly always the case, distributors here believe. Later and newer finishes are always in demand and as a rule, merit the discard, trading or selling of old makes in preference for the new and improved cars. Dealers here report that new cars are already in good demand although in some instances the demand has been so great that the dealers are unable to obtain them.

#### Much Tourist Travel

With the coming of another tourist season, dealers foresee additional impetus to new car demands, while business will naturally increase for the garage and filling station owners. Sweetwater has long been the center of a vast tourist trade, due to its location on the highway. It was pointed out, and its fortunate position catches a large amount of business from motorists touring parties and campers. Hundreds of tourists pass through the city daily during the spring and summer months, and it is not surprising that the automobile and accessories businesses reap the benefits therefrom. The spring and summer season, bringing plans for new trips, touring expeditions and camping trips, will bring additional demands for new cars, dealers believe, either before the trip is started, or after a long trip is concluded.

#### SALES HEAVY

Maxwell-Chrysler Organization Reports Record Breaking Week.

With the largest retail sales for a single week in this season of the year ever recorded in Maxwell-Chrysler history, officials of the company are convinced that their two products are well started on their way to a banner year.

The record week ending February 21st, showed a gain in Maxwell sales over the same week last year of 72.5 per cent, while the increase over the preceding week was 44.2 per cent. Chrysler sales gained more than 45 per cent over the week ending February 14th.

Although the views of business prognosticators held the belief that 1925 was to be an excellent and perhaps a

record year for the motor car, the gains made by Maxwell-Chrysler to date are far above the automobile sale curve as charted for the entire industry. This is not based upon production records at the factories but upon actual retail deliveries as telegraphically reported by the dealers in every section.

Bill Smith was blown forty feet in the air by a sewer gas explosion. When he recovered consciousness in the hospital he exclaimed: "Officers get that fellow's number quick. He was on the wrong side of the street and going 60 miles an hour."

#### UNCLE EB, HE SAYS:

## As Utterly Different In Results Now As a Year Ago

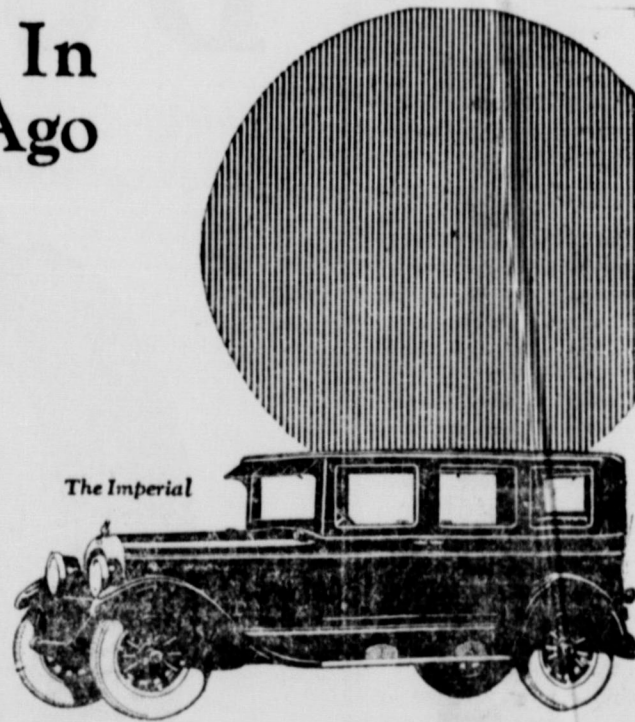

To the best of our knowledge there had never been a 3-inch motor capable of producing 68 horsepower, a speed of 70 miles an hour, with gasoline economy safely over 20 miles to the gallon, until the Chrysler Six arrived on the market last year. There is no other today.

That is what scientific engineering in the way of perfected gas distribution, special combustion chambers and heat distribution does for the Chrysler Six.

There has never before been a motor in which all this sense of vibration has been so completely eliminated, never before a car in which side-sway and road-weaving are absent, never before a car with an overall length of 160 inches that afforded so much usable space—generously roomy for five large adults.

Examples might be cited by the score. But you can see for yourself how utterly different the Chrysler Six is and why the eager public bought more than 32,000 Chrysler cars the first year, if you drive the car but a few minutes. We are anxious to give you a Chrysler ride, to prove it the best-built car you ever sat in.

**ROSCOE NEWS**

Special to the Reporter.

There is still quite a lot of flu and some cases of pneumonia in Roscoe. Joe Kingston was buried Wednesday afternoon. The funeral service was conducted by Bro. Parks at the Methodist Church. There are several new homes and business houses under construction here right now.

**OUR DAILY JUNK**

When I have parked my car down and left it for an hour, I always find on my return there has been a paper shower. The seat is filled with handbills, and the windshield is plastered over with stickers, and I long to drive some unknown moron's gore.

A pink strip, glued upon the glass advises be to take T. Tinkham's Tonic, guaranteed cure all forms of pain or ache. A green tag on the steering wheel demands that I should try Dr. Dodd's Dyspepsia Dope, before pine away and die.

Upon the floor I find a peck of cards assorted sizes. With offerings of bargain sales had off and handsome prizes. Across the radiator's front, his crimson letters shriek That "Scarlet Sin" beats everything upon the screen this week. I toss the junk into the street. Gatherers filth all day. Next afternoon another batch! Well it not be surprising if I should patronize the folk who do that "advertising"?

**NEW CHEVROLETS**

New Models Are Attracting Much Attention By Improvements.

Smooth motor car operation is one of the most desirable qualities in an automobile today because of the excessive and constant use to which these cars are put on both short and long trips, according to C. S. Boyles, local dealer.

The thousands who have purchased the new Chevrolet report that the driving of this car requires little physical effort, due in great measure to the perfected single plate dry disc clutch.

This type clutch not only starts the car smoothly and operates with only a slight pedal pressure, but has a large contact surface that it develops all the power all the time. It requires no lubrication.

While the new type clutch is one of the most obvious of the improvements, it is only one of many features that makes for easier driving, qualities more sturdy chassis and more economical operation in the new Chevrolet.

**TO GET MORE CASH FOR RICH OSAGE INDIANS**

PAWHUSKA, Okla., March 7.—Barons of the oil industry and members of the Osage tribe, plutocrats of the rich men of North America, will meet here today.

Early in the morning special trains will leave Tulsa and Muskogee carrying the men, backed by large bank accounts, who will bid on the tracts. After arrival there will be unfolded in the little Oklahoma town one of the dramas of big business. It will be a scene where a nod of the head may mean thousands of dollars and fortunes may be won or lost in the gamble on what is under the ground.

Colonel Walters, auctioneer, in many of the great sales of Indian leases, will be on the block. Only last year in a sale held here the first bid for a tract was \$1,000,000. No bids are accepted under \$5,000, and bids of from \$100,000 to \$500,000 are not unusual.

It was a Texan who established the record bid last year of a million. The auctioneer cried out the number of the tract. It was one of the richest.

"I bid a million!" cried the Texan. Yet he did not get the lease.

Oil men do not expect any of the tracts to sell for a million this year. They expect good prices, however, due to the recent rise in the price of crude oil. They say that a dozen tracts in the lot to be leased will bring prices running into six figures.

A sprinkling of Osages will sit through the sale, merely watching the action which will bring them money for new motor cars and other luxuries. The Osages are the wealthiest people per capita in the world.

The minimum annuity received by each Osage in 1924 was \$12,000 and many who had inherited head rights or shares from relatives received several times that amount.

The per capita wealth of those belonging to the tribe and whose names appear on the tribal role is in the neighborhood of \$150,000, exclusive of Liberty Bonds and other securities. The government in some cases holds back part of the annuity when the Indian shows a disposition to be extremely reckless with his wealth.

The Osages are to be found in summer and winter resorts surrounded with every comfort and always driving large and expensive cars. Ten years ago they were eking out a meager existence from an infertile soil.

Talents usually come singly. The man who makes money seldom knows much about the art of spending it.

The time approaches when red-blooded men can again take cold baths without the aid of hot water.

After all, America isn't Europe's slave. The umpire isn't a player.

PETER the GREAT

The inside intrigues, heart affairs and scandals at the Russian Courts that caused the Czars to fall.

"Peter the Great" is the Russian "Birth of a Nation."

It is the story of a great nation's rise through bloody battle and raw courage, under the leadership of one of the world's greatest and bravest men, from the ignominious position as cat's paw for little nations to the glorious position as world's power.

It is the story of the loves and exploits of that intensely human man—Peter. It shows him in moments of passion with many women; shows him stealing the heart of the voluptuous tiger woman, Catherine, away from his own prime minister and making her his; it shows his fighting a conspiracy headed by his own son and in hand-to-hand conflict with the assassin who invades the Czar's private bedroom on his wedding night; it shows him fighting, joking, dancing, living the most intense colorful thrill-filled life you could imagine.
