Collier Calm Over Corpse of Dead Boy

Witness Relates Former Mayor Wichita Falls Displayed No Emotion Over Body Of Slain Son-in-Law.

TELLS OF EVIL REPUTATION

Secretary Wichita Falls Masonic Body Testifies Robertson Home of Ill. Reputation--No Detail Given.

By United Press.

WICHITA FALLS, Texas, March 20.—After shooting down Elzie Robertson, his 17 year old son-in-law, ex-mayor Frank Collier stood over the bullet riddled body, calmly surveyed it, and showed no emotion as he surrendered for arrest.

Testifying for the defense today in Collier's trial for killing young Robertson, George W. Lawler, secretary of a Masonic lodge here, thus described the killing.

"Collier was physically composed," admitted Lawler upon cross examination.

His next question was concerning the reputation of the Robertson home. Lawler admitted the place bore a bad reputation, but cited no instances of immorality there.

The defense is basing its case on the grounds that Collier shot Robertson to prevent his daughter, Mary Frances, Robertson's young widow, from being taken there to live, owing to its alleged bad reputation.

LONGWORTH MAN ROUTES ROBBERS

Gus Donnell, Employee Longworth Mercantile Co., Falls Gun On Knob Knockers.

OTHER STORES ENTERED

Knobs Knocked But No Loot Obtained—Authorities Are Seeking Lewis And Ennis.

Two burglars entered a blacksmith shop, lumber yard office, and a general mercantile store at Longworth, 18 miles north of Sweetwater, between 3 and 4 o'clock Friday morning, but their operations were halted by a gun battle between them and an employee of the mercantile store who was sleeping in the building and who was awakened upon entrance of the two men. Check-up by each of the three business houses early Friday morning failed to reveal a loss of property.

The buildings entered were the Barnes blacksmith shop, the S. F. Shubert lumber yard and the Longworth Trading Co.

The blacksmith shop was believed to have been the first building entered by the two men. A sledge hammer was taken from the shop and used by the burglars at the office of the lumber yard where they knocked the knob off a safe but failed to reach the money compartment.

Gus Donnell, who was sleeping in the building occupied by the Longworth Trading Co. was awakened as the robbers broke the lock on the door and entered the building. Both men were frightened as Donnell awakened and reached for a gun. He fired as the men ran out the door, and one of them dropped to the ground. He arose a few seconds later, however, and returned the fire.

Donnell was not struck by the bullets and it is not known whether the shots fired by him took effect on the fleeing robbers or not.

The burglars disappeared following the shooting and Longworth citizens failed to pick up their trail. Sheriff Jack Yarbrough left early Friday morning for Longworth to work with Fisher county authorities investigating the affair.

Local officers have coupled the attempted burglaries with the names of Harve Ennis and Steve Lewis, two alleged robbers, knob knockers, and escaped convicts who are known to be in this section following an all night chase by local officers who spotted them in the vicinity of the Santa Fe yards here Wednesday night.

Both Ennis and Lewis, who escaped early this month from the jail at Belton, are said to be expert "knob knockers," local authorities declare. Lewis is under a 15 year sentence on conviction of burglary and Ennis is wanted by Nolan county authorities for complicity with Otto Starr in the robbery of a Blackwell store.

Another incident that strengthened the theory of local officers that the two desperadoes are in the community is the fact that the east door of the Nolan county jail was tampered with some time during Thursday night. The door opens upon a stairway that leads to the cell where Otto Starr, pal of Ennis and Lewis, is confined following his conviction and 5 year sentence given by a jury in District Court Wednesday night.

WHOLESALE BURIAL GIVEN VICTIMS

Thirty Buried in Murphysboro--Death List Checked at 577--At Least 736 More Reported Dead--2,500 Injured.

By United Press.

ST. LOUIS, March 20.—Dawn today found a death swept area beginning an effort to dig out of the mess of destruction left in the whirling wake of Wednesday's tornado.

A casualty list growing hourly shows what has happened to the large list still among the missing.

This morning 577 are known to be dead, 736 are reported to be dead, and more than 2,500 are injured.

Dawn came on a few tented cities where Wednesday thriving industrial villages and cities stood. Tents were set up hastily among the burned debris to care for the thousands of homeless.

Today began the wholesale work of burying the dead, along with taking stock of what is left in the devastated district. Last night over 30 bodies were buried in Murphysboro. More will be buried today in the towns stricken by the death dealing winds which swept over from Missouri.

The first step of reconstruction got under way this morning with Governor Len Small here devising ways to best expend the \$500,000 relief which the legislature is expected to appropriate to relieve the suffering.

While the governor and his aides were starting their relief program, other relief workers arrived to plunge into the charred wreckage, relieve suffering of the homeless and injured and starting reconstruction work.

Forces of relief workers were added to this morning by the arrival of 300 doctors and nurses from Chicago.

Relief workers believe today that the total deaths will be between 800 and 900. Besides the many that are listed as "missing" hospitals are filled with wounded, many of whom will die. Relief workers declared today that several weeks of work will be required before the total list of deaths can be checked up in Murphysboro.

Hundreds of appeals have poured into the Governor's office and to the Board of Pardons during the last few months, supplemented by the personal appeal of the aged mother of one condemned prisoner.

The mother's appeal is pending before the Governor for clemency for Pete Welk, sentenced from Dallas in connection with the death of Willis Champion during an attempted jail break.

Welk is sentenced to go to the electric chair April 3 unless the Governor intervenes.

Mrs. Gus Rea Has Bit of Good Fortune After Losing Large Sum

Friday morning Mrs. Gus Rea made out a deposit slip for \$67 in cash and checks and sent the money by one of her sons to be deposited enroute to school. The young man forgot to stop at the bank and remembering that fact, looked for the money on his arrival at school. The money was absent. He phoned his mother, who started out on his trail and recovered all but a \$10 and a \$5 bill and some change.

CAPTURE TEXAN

San Antonio Who Escaped From Convict Gang in Georgia Caught At Richmond.

By United Press.

RICHMOND Va., March 20.—Norman Barfield, 33, San Antonio, Texas, who escaped from a convict road gang at Jessup, Georgia, last December by swimming a river with another convict on his back is, according to early reports held by Richmond authorities, Barfield, who was serving a 10 to 20 year sentence for the burglary of a millionaire's home, was captured last night in the act of robbing a clothing store here.

Bank Anderson, an auto thief who crossed the river on Barfield's back after he had been shot in the shoulder by a prison guard, was with Barfield last night. He eluded the police as they came up, Barfield said.

SAFETY MEETING

Utilities Men Meet in Sweetwater--Have Fish Fry at Lake Trammell at Night

About fifty employees of the West Texas Electric Co. from Sweetwater and other points with their wives and a few invited guests enjoyed a fish fry on the spillway at Lake Trammell Thursday night in connection with the quarterly Safety Meeting.

Following the fish fry, was accompanied by a wealth of other good things to eat short talks were made along general lines by R. K. McAdams, president of the West Texas Electric Co., Miss Ruby Bemby A. W. Bryant, C. D. Moore, Mrs. Harper and others.

The regular safety meeting of employees, at which time the prone pressure method of resuscitating persons overcome by electric shock and other measures to prevent accidents among employees and making use of electricity safer to the general public, was held in the general office of the company later in the evening.

Among those present from cat of L-wen were Mrs. Dobbs and Mr. and Mrs. John Geer of Colorado, Mr. E. Roberts of Big Spring, Mr. and Mrs. C. E. Cameron, Mr. and Mrs. Ed Smith, Mr. and Mrs. E. T. Bailey, J. A. Holland, Dudley McCall and A. L. Geer from Lamesa, A. W. Bryant, G. L. Young and Miss Mary Cullen, Mr. and Mrs. Arthur Harper and Mrs. H. D. Work Hard For Extra Prize Offers

The workers in the Great Circulation Drive for the Daily and Weekly Reporter in all three of the districts are on their toes, so to speak, and every effort will no doubt be made to secure subscriptions Saturday and Monday that will win the \$60.00 cash prizes, and will count in the winning of the Twenty-Five Ballots for the most money turned in on subscriptions for the two week period ending Monday night March 30th.

All subscriptions secured by Monday night, March 23rd to count for the \$60.00 in cash awards for the most money turned in for the first week must be in the Reporter office by Ten

o'clock Monday night or be in the mails with a statement that the subscriptions were secured by Monday night. For instance, a letter with subscriptions mailed at Blackwell, Rotan, or any of the outside points, should have a statement signed by the worker that the subscriptions were being mailed in the first outgoing mail, but same had been secured by Monday night March 23rd.

There is too much at stake for workers to allow anything to get in the way of securing subscriptions Saturday night and Monday. Those who will lay everything else aside, and put

in their full time in securing subscriptions for those two days, will win the cash prize, and will have the big advantage in having more money for the first week to apply on the 25 Prize Ballots for each district. To win the best prize ballot for your district means that you will win a higher vote than anyone else can get in your district and give you the best opportunity to win one of the new Chevrolet cars.

Appeal to your friends to assist you at this time for it means more than at any other time during the remaining weeks of the drive

CULBERSON

One of the greatest statesmen in the memory of most men living in Texas in recent years, former Senator Charles A. Culberson—is gone to his reward. The end came in the Washington home that the senator had retained following his retirement from active political life in 1923. Senator Culberson represented the Lone Star ably and with honor during the many years that its prestige was entrusted to his care in the national capitol. His passing will be noted with sincerest regret in his native state, no less than in the field wherein he was so long active.

DISASTER

The nation stands aghast at the calamity wreaked by the elements thru-out five midwestern states Wednesday. Death rode on the wings of the wind and young and old, rich and poor, saint and sinner fell alike in the path of that cyclonic storm. But not for long will the survivors be permitted to suffer by this great hearted rich nation. As these lines are written, the Red Cross is functioning actively in its every chapter and relief funds are being administered quickly and efficiently.

But there is never too much money. He who gives quickly gives twice and there is ample room for every contribution that can be made. And in the presence of such tragedy, such suffering, everything else pales into insignificance. All that we can do will be little enough to assuage the physical discomforts of those stricken.

Kansas has raised the price of marriage licenses from \$3 to \$3.50. But in the eternal search for more revenue why stop at \$3.50. Persons who will pay \$3.50—especially those paying it for the first time—will pay more if more is asked.

"Howdy," cheerily saluted the by-passer, addressing a couple sitting side by side on the doorstep of their abode and looking considerably downcast. "Seems as if spring's about here."

"If you and your wife had got the liver pills and sweet peas mixed up, and felt pretty darn shore you'd planted the pills and took the peas, you might."

A New York writer says Babe Ruth the highest salaried player in baseball, has very little left of his earnings, having been a victim of sharks, and always a free giver. However, perhaps it is not all the fault of the sharks and beggars. Babe Ruth has been the subject of a number of rumors concern-

cerning gambling debts and bookmakers. Bookmakers do not wheedle, neither do they beg. A man of noble purposes may be swindled, but when he becomes involved with a bookmaker, it's his own fault.

IMPROVE FARM METHODS.
BRECKENRIDGE, March 20.—Scientific farming is increasing in Stephens county and tractors are fast replacing horses and mules for breaking land, according to W. H. Bennett, who is closely associated with the farm interests here. He claims that farmers are operating tractors at less expense than those using animals and the cotton yield per acre was larger.

A writer in the Bookman says all early American history is exaggerated from the viewpoint of American valor, because the historians became brag garts through suffering from the common inferiority complex. Which sounds plausible enough, except where did the early Americans get their inferiority complex?

Surely they didn't get it from the Puritans, or from the Cavaliers. And certainly it was not oppressed upon them along with the stamp act and the tea tax. Where did they get it, if they had it?

Abilene-Ballinger Service Car Men Get Writ Granted. Special to Reporter. WINTERS, March 20.—District Judge P. O. Winters has granted temporary injunction against this city at the instance of service car drivers plying between Abilene and Ballinger. This action was taken by the city following notice by the Abilene-Southern railway that service car competition was injuring its business.

PALE, NERVOUS

West Virginia Lady Says That She Was in a Serious Condition, But Is Stronger After Taking Cardui.

Huntington, W. Va.—"I was in a very weak and run-down condition—in fact, was in a serious condition," says Mrs. Fannie C. Bloss, of 1064 Madison Avenue, this city.

"In my left side the pain was very severe. It would start in my back and sides. Part of the time I was in bed and when up I didn't feel like doing anything or going anywhere.

"Life wasn't any pleasure. I was very pale. I was nervous and thin, and so tired all the time.

"My druggist told me that Cardui was a good tonic for women and I bought a couple of bottles. I took two bottles, then I noticed an improvement. I kept on and found it was helping me. I have taken nine bottles. I'm stronger now than I have been in a long time."

Cardui is made from mild-acting medicinal herbs with a gentle, tonic, strengthening effect upon certain female organs and upon the system in general.

Not Kidneys—Just Poison—see what flushing will do

Don't think that back pains mean serious kidney trouble. Or highly colored urine, or frequent urination.

The kidneys become clogged and sluggish, just as the bowels do. Perhaps they need relief. Countless people now secure it in this easy, modern way.

Drink plenty of water. Start before breakfast. To the morning glass add a little Jad Salts. They will give you a pleasant, sparkling drink.

Jad Salts is made from the salts of lemon and grape juice, combined with

Albia. They are made to spur the organs of elimination.

Results are prompt. In one hour, usually, the poisons begin to depart. The clogging is relieved.

Continue for a week. Flush out all the waste and poisons that you can. You will then find, we believe, a very different kidney condition.

You should learn these facts. The kidneys, like the bowels, need help, give them that help without delay. Then watch how results repay you. All druggists supply Jad Salts.

HEART DISEASE BAD FOR YOUTH

Many Deaths Yearly from Organic Heart Disease—Physician Recommends More Rest.

By United Press.
—NEW YORK, March 20.—There is almost a constant yearly increase in deaths from organic heart disease. In the registration area the deaths have mounted from 141.5 per 100,000 population in 1910 to 175.3 in 1923. While the greatest mortality is among people in middle life, there is a shocking loss of younger lives also.

"The pity of it all is that so great a part of this mortality is preventable," says Dr. Lewis F. MacKenzie of New York City.

"Many of the country's ablest and finest men are dying in their fifties or even late forties. They are cut down in their most productive years. They have crippled their hearts and the loss to society is incalculable.

"The average American man and woman are literally driving their hearts to death. They are doing it by too much work or too much play or an attempt to do too much of both. The business man works all day and then part of the night. The man in public life, or prominent in the professions concentrates on his specialty all day. In the evening he goes to a dinner where he has not the slightest chance to relax. Perhaps he even has to make a speech.

"The younger people work or study through the day then try to dance half the night. It can't be done. The heart will stand up under occasional strain that is thirteen times that which should be put upon it ordinarily. But today people crowd it beyond that wide margin of safety. There is too much work, too much play, too little rest.

"A man can ruin his heart by intense and prolonged mental concentration just as well as by too severe physical effort. He does it differently but both strains cause arterial changes that affect the heart and bring about its ultimate breakdown. Excesses in eating and drinking also overload the heart."

PLAN NEW SCHOOL

Plans Being Drawn To Replace Structure Burned at Roby

ROBY, March 20.—Plans for a \$55,000 school building, which will contain 14 rooms and a gymnasium are being drawn for the Roby school district by local architects.

The building will be a modern fire-proof structure and will take the place of the one recently burned at Roby. Bids on the construction of the school building will be taken about April 10.

The Roby high school building is nearing completion at a cost of approximately \$40,000. The building is of modern type and contains 10 rooms and an auditorium.

LITTLE EDNA ARRIVES

World's Smallest Woman in Sweetwater for Opening Festival

Miss Edne Cook, better known as Little Edna, the world's smallest woman, has arrived in Sweetwater where she will appear at the Spring Festival which opens Saturday, from Fort Worth where she has been one of the feature attractions at the Fat Stock Show.

Little Edna claims to be the midggest midget in the world. She is 25 inches in height and tips the scales at 34 pounds. Still she was complaining Thursday about becoming "almost a heavyweight."
"I have taken on lots of flesh lately," the little woman sighed.

But she has grown only two inches taller within the past many years. The young woman is twenty-five years of age and besides being the world's smallest woman, she also has the distinction of being one of the few remaining women, midgete or otherwise, with long hair.

HEART DISEASE BAD FOR YOUTH

Automobile Provides Means of Delinquency, Professor Says—Made Study of Students.

CHICAGO, March 20.—(United Press)—The automobile takes the student from the home group and makes him an enemy of society, John H. Mueller, professor of sociology at the University of Chicago, asserts. He has just completed a study of the automobile as a sociological force in modern life.

"The car is contributing to the delinquency of students," Prof. Mueller stated. "It removes the youth of the

Half the world is half asleep. It is hard to feel all dragged out—to live from one day to the next in a constant state of nervousness. Yet thousands die because consumption is destroying their energy even their interest in life. Only Kellogg's ALL-BRAN brings true and safe relief from this disease.

"Poor Betty! She always looks tired"

BETTY was the office mystery. Once pretty, her beauty now lay masked behind an unwholesome complexion. Once vivacious, she now seemed eternally tired—a drooping figure of disappointment and dismay. Too bad she didn't realize that it was consumption which was stealing her strength.

But many men and women rid themselves forever of this devastating disease, by the simple, pleasant means of eating two tablespoonfuls of Kellogg's ALL-BRAN every day—or in chronic cases, with every meal.

As Kellogg's ALL-BRAN journeys through the system, its fiber remains unchanged. It is what doctors call a bulk food—a bulk food which sweeps the intestine clean—a bulk food which absorbs and carries moisture through the intestinal tract, stimulating natural, healthy action. Some-

thing habit-forming pills and drugs can never do.

Serve Kellogg's ALL-BRAN with milk or cream, sprinkled over cereals; cooked with hot cereals; in soups, or made into the many recipes given on the package. Delicious with fruit, baked apple, etc.

Caution: Only ALL-BRAN brings sure results. A part-bran product can only be partially effective. Kellogg's is the one, only and original ALL-BRAN. All grocers sell it. Buy a package today. If eaten regularly, it is guaranteed to bring permanent relief or the grocer returns the purchase price. Served in leading restaurants and hotels.

"SUNDOWN"

THE GREAT AMERICAN DRAMA

If you liked "The Covered Wagon" and "North of 36" you will certainly be delighted with "SUNDOWN," the epic drama of the West.

FIRST came the nesters and squatters who started in to till the soil and who built the first fences in an unfenced world to protect their crops from roaming herds of cattle.

NEXT came the railroads, following the trails of civilization and settlement across the continent, and bringing more homesteaders to occupy the uncultured acres of the rangeland.

THEN CAME "SUNDOWN"

for the cattle barons whose herds were being slowly confined to fewer and fewer acres—and finally in an endeavor to find open lands they made a cattle drive into Mexico that will live long in Western Range History.

Live the stirring deeds with the rugged pioneers, empire builders, men with hearts of steel, women of heroic mold, who after hewing their way across half a continent to open up the vast ranges of the West were in turn pushed out by the ever onward march of civilization.

"Your breed was strong enough to take that land from the claws of the wilderness but none could be strong enough to keep it from the gentle fingers of progress."

Theodore Roosevelt

The Cattle Kings! Sit by their camp fires with the rugged pioneering across the silent prairies. Listen to their roaring songs of love and work and fight. Hear their tales of daring deeds and loving hearts—men untamed, unconquered in adversity, strong men and lusty, men who risked all on the throw of a die, and met life or death with a smile.
