## GOOD CROP YEAR IS IN PROSPECT

If Favorable Conditions Continue One  
Of Largest Cotton Crops in His-  
tory Will Be Picked

### LEAF WORM APPEARING

Damp Hot Weather Favorable to Leaf  
Worm Propagation—Grasshoppers  
Not Bothering Much

With around 50,000 to 55,000 acres  
planted in cotton in Nolan, an increase  
of some ten percent over last year and  
with a growing season exceptionally  
favorable so far, one of the largest  
cotton crops in the history of Nolan  
county is due to be picked this fall if  
untoward events do not intervene.

So far the grasshoppers have not  
proved menacing. Around Clayton-  
ville and along Sweetwater creek  
citizens are fighting them, but while  
numerous in other portions of the  
county they seem to be doing no damage,  
according to County Agent W. C.  
Calvert. There is a fungous disease  
which attacks grasshoppers and it is  
possible that this accounting for the  
scarcity of the insects, which seem to  
be hatching out in great quantities,  
attain a certain growth, and then dis-  
appear. With a carload of white arsenic  
in storage here, grasshoppers are  
not worrying folks much anyway.

However, another menace to the  
cotton crop is causing some considerable  
concern. That is the leafworm  
which is making its appearance in  
several places in the county, especially  
on the black land. The damp hot  
weather, causing rank growth of  
plant, is responsible for the appearance  
of this pest which will disappear  
with the coming of dry hot weather.

Farmers, however, are taking no  
chances. Around Roseoe they are  
using a spray compound of two  
pounds of arsenate to 50 gallons of  
water.

Another spray that can be used, ac-  
cording to County Agent Calvert, is  
compounded from one pound of white  
arsenic, two pounds of soda crystals  
and two gallons of water. This is  
boiled one hour or until dissolved and  
then added to 50 gallons of water. It  
is necessary to use about three  
pounds of slacked lime with this mix-  
ture in order to prevent burning the  
foliage.

Either of the above formulas is  
good for 10 to 15 acres according to  
the fitness of the spray pump.

The condition of the crop as a whole  
compares favorably with that of last  
year except that fields are weedier  
than usual. Hot weather prior to the  
rains warmed the soil thoroughly and  
growth of crops and weeds has been  
very rapid.

### EDITOR HERE

J. G. Greaves of Portales Once Plan-  
ned Newspaper in Sweetwater

J. G. Greaves of the Portales Valley  
(New Mexico) News, passed through  
Sweetwater Monday en route home  
from the Texas Press association  
meeting at Tyler.

Mr. Greaves said that he rented  
quarters in Sweetwater 17 years ago  
for the purpose of establishing a news-  
paper here at that time. He spent  
the night with L. D. Faver and in the  
morning the building he had rented  
burned to the ground. So he located  
elsewhere, he declared. He was much  
surprised at the growth and develop-  
ment of Sweetwater during that period  
and was very much interested in  
the new building and plant of The Re-  
porter.

### Steal Gasoline

Burglars early Sunday morning  
broke the lock on a gasoline pump at  
the Magnolia filling station here and  
obtained approximately 57 gallons of  
gasoline, according to George Massey,  
manager of the station. No clues have  
been obtained as to the identity of  
the gasoline thieves.

hurt when the automobile occupied by

the Austin-San Antonio highway three

a rapid rate of speed, it was said.

## DOCTOR ON STAND SHEPHERD TRIAL

Testifies That It Is Impossible to Pre-  
serve Typhoid Germs, For Period  
Of One Year

### DOUBTS MURDERER'S ABILITY

Does Not Believe Shepherd Could In-  
noculate His Ward With Germs—  
Girl Testifies

By United Press.  
CRIMINAL COURT ROOM, CHI-  
CAGO, June 22.—It would have been  
impossible for Williams Darling Shep-  
herd to preserve typhoid germs one  
year then inoculate Billy McClintock,  
Dr. John Fischer, noted bacteriol-  
ogist, testified today in the Shep-  
herd murder trial.

"The utmost caution in expert  
handling would be necessary to keep  
typhoid germs virulent," Dr. Fischer  
said.

"I doubt if Shepherd could have  
done it," Dr. Fischer's testimony was used  
by the defense to discount Dr.  
C. C. Paiman's confession that he gave  
Shepherd typhoid germs and told him  
how to use them for Billy McClintock's  
death.

Miss Luella Rheubal, former busi-  
ness manager of Dr. Paiman's "National  
University of Sciences" testified to-  
day that she had never seen Shepherd  
at the school. Under cross examina-  
tion by the state, Miss Rheubal ad-  
mitted that she had been receiving  
\$20 a week from Shepherd's lawyers.

Mr. and Mrs. Louis Lee and Mr. and  
Mrs. Wesley Frazier and children have  
been called to the bedside of Mrs.  
Sagster at Harper, who is seriously  
ill. Mrs. Sagster is grandmother of

## RAISE FUNDS FOR PICNIC BARBECUE

Committee On Final Drive Today In  
Securing Funds to Cover Expenses  
Celebration

### CAMPAIGN SUCCESSFUL

Over \$700 Raised Last Week—Expect  
\$100 More Today—Have Surplus  
From 1924 Picnic

Committees of business men who  
have in charge the raising of funds  
to stage the annual Fourth of July  
celebration here went out today for  
the final drive over the city, with  
the expectations of securing more  
than enough to pay for the big barbe-  
cue dinner for July 3 and other ex-  
penses incidental to staging the mam-  
moth celebration.

The drive was carried on during the  
latter part of the past week when  
heartily response met solicitations of  
the committee and a large amount  
was secured.

Officials announced Monday that  
they expected to secure approximately  
\$8800 in all, which will be sufficient to  
cover expenses of the picnic when ad-  
ded to funds left over from last year.

The total funds raised up to Satur-  
day night was in the neighborhood of  
\$700, it was reported, and it is be-  
lieved the final one hundred dollars  
will be raised today.

About \$900 was left in the picnic  
fund from the 1924 celebration, thus  
making a total of approximately \$1,-  
600 which will be available this year.  
Any profit from the celebration will  
be put back in the picnic fund, it was  
said, to be used from year to year  
in staging a bigger and better celebra-  
tion.

In addition to cash contributions to  
the celebration fund, various firms  
and individuals have given Legion  
workers material for the big barbe-  
cue. Wholesale grocery firms here  
have contributed a barrel of pickles,  
200 pounds of coffee, and various in-  
dividuals have given two beavers for  
the barbeque. About 40 beaves will  
be barbecued for the free dinner.

## MORE TOURISTS

Improved Foreign Conditions Leads  
To Belief That Many Will Visit  
Germany in 1925

By United Press.  
WASHINGTON, June 22.—With  
improved conditions over last year,  
including reduction in the cost of living,  
and abolition of numerous tax meas-  
ures and "cumbersome" visa and so-  
journing regulations, department of com-  
merce representatives in Germany be-  
lieve tourist travel there will show  
enormous increases this year.

"The spring influx, the vanguard  
of which is made up largely of Ameri-  
cans," a report to the department said,  
"has already started and present indi-  
cations point to rivaled tourists traffic  
in Wurttemberg and Baden and a re-  
cord year is expected. Local travel bu-  
reaus, and hotels in particular, are  
optimistically looking forward to  
good business."

Foreign tourist travel in Baden in  
1924 was described by department  
agents as "anything but favorable."  
The acute money shortage, inclement  
weather, French occupation and the  
competition of countries with depre-  
ciated currencies, consular agents said,  
had a detrimental influence on tourist  
travel to the Baden health resorts.

"Although determined efforts were  
made to promote tourist travel," the  
department was informed, "satisfac-  
tory results could not be attained,  
owing to the money shortage which  
greatly handicapped effective propa-  
ganda. Winter resorts likewise were  
short visitors on account of the unfavor-  
able winter, which was character-  
ized by unusually mild weather and an  
almost total absence of snow."

Americans made up the largest por-  
tion of tourists visiting Germany last  
year. Statistics showing that 2,006 tour-  
ists visiting Baden came from North  
America and Mexico 663 from Switzer-  
land, 543 from Holland and its col-  
onies, and 506 from England and its  
colonies.

and 30 hurt; in motor accidents in  
Philadelphia; 15 men died in electrical  
storms or lost their lives by drowning

## WAR DECLARED IS HONG KONG TALE

Dispatch to London Says Rumor  
Sweeps Chinese City That Japan  
Has Declared War On China

### BELIEVE REPORT UNTRUE

Foreign Officers Hold That Japan  
Will Not Act Without Being in  
Accord With Other Powers

By United Press.  
LONDON, June 22.—The Cen-  
tral News Hong Kong correspon-  
dent declared that a wholly un-  
founded rumor swept that city to-  
day that Japan had declared war  
on south China following the as-  
sassination of the Canton treasur-  
er of a Japanese hospital.

The foreign office said it was with-  
out information of the rumor but be-  
lieve it to be baseless, while the Ja-  
pan embassy held that "such an event-  
uality was impossible."

The Central News dispatch added  
that crowds rushed the cable station  
in efforts to verify the rumor but de-  
finite word was impossible to obtain.

That Japan had declared war is re-  
garded in well informed circles as out  
of the question, particularly as Japan  
has repeatedly expressed intentions  
of not acting independent in China—only  
in accord with other powers.

wich Village girl, convicted of  
manslaughter for the killing of a  
guest at her birthday party last

She listened intently while a  
plea for delay was made and re-  
jected by the judge.

Finally the moment for the sentence  
was reached. She stood firmly and  
listened to the pronounced sentence  
which was accompanied by a 15-minute  
lecture from the bench.

Then shaken, but still in control of  
her emotions, she was led back to the  
jail by her three guards.

Correct this sentence: "He belongs  
to fourteen lodges and luncheon  
clubs," said the man, "but never calls  
his business a game."

## DEATH OF GRANT CHEATS GALLOWS

Young Chicago Murderer Dies in Jail  
Today and Defeats Gallows to  
Which He Was Sentenced

### STABBED BY COMPANION

Walter Krauser, Convicted with Grant,  
Stabs "Back-of-the-Yards" Boy  
Saturday Night

By United Press.  
CHICAGO, June 22.—Bernard  
Grant 22 year old "back of the  
yards" boy who fought off the  
gallows for 2 years, today died  
of stab wounds inflicted by his  
companion in crime, Walter Krau-  
ser.

All through the night, Grant  
tossed in his bed and cried.

"I don't want to live. I want  
to die. If I live I will only be  
hanged. I don't want to die that  
way."

Krauser stabbed Grant Saturday  
night while the two were in the vis-  
itors room at the county jail.

Grant and Krauser were convicted  
of killing partolman Ralph Souders  
during a holdup about 2 years ago.  
Krauser was also sentenced to hang  
but was given a new trial by the state  
supreme court.

"I stabbed him because he was try-  
ing to frame me," Krauser told the  
warden. "He was planning to kill  
me."

Grant refused to make a statement  
against Krauser. Just before he died  
he mumbled: "The" tried to frame  
me."

Grant's day of execution was set  
for August 14th.

Mr. and Mrs. John A. Mings and  
daughter Margaret from Big Sandy  
visited Miss Stella Watson recently  
while enroute to California.

E. P. Reese Jr., left today for Plain-  
ville where he will visit for several  
days at the home of his aunt, Mrs.  
Harold Hamilton.

## BUY MOTOR CARS

Orient Will Run Passenger Motor  
Cars From San Angelo to Alpine  
Cut Costs

By United Press.  
WICHITA, Kans., June 22.—Passen-  
ger on the Orient railway is to be fa-  
cilitated by three modern motor car  
trains which have been purchased  
from J. G. Brill and company, of  
Philadelphia for delivery during the  
early fall. This first group of trains  
is to be placed in service on the Texas  
division. Two of the trains consist  
of a combination baggage and expres-  
s car and one passenger car. The other  
is a single car for passengers and bag-  
gage.

The two-car trains will replace  
steam trains Nos. 1 and 2 running be-  
tween San Angelo and Ft. Stockton,  
Texas. These trains will continue  
from Ft. Stockton to Alpine, Texas,  
arriving there early in the morning  
and departing early in the evening.  
The one-car train will operate between  
San Angelo and the oil fields. Those  
trains are being installed to meet the  
public need for a service that can be  
operated in smaller units and more  
often. It is this need which has con-  
tributed to the growth of bus serv-  
ice.

The estimated cost of operating the  
motor car trains is lower than that  
for steam trains now in service. Pres-  
ent operation of steam trains is a  
heavy loss to the company. The pas-  
senger service on the Orient is not  
half self supporting. The new man-  
agement feels this change in service will  
not only represent an economy in op-  
erating costs, but will afford the pub-  
lic a cleaner quicker service.

Eastern roads now are using this  
type of motor train to augment local  
passenger service and in many in-  
stances steam trains are being re-  
placed. Roads now using these cars  
extensively are the New York Cen-  
tral; Boston & Maine; New York, New  
Haven and Hartford, and such western  
roads as the Santa Fe, Missouri Pac-  
ific and the Frisco.

By United Press.  
HOUSTON, June 22.—Col. Charles E.  
Gilbert of Houston is in Ranger for a

### DAMAGE COTTON

Hoppers and Lice Begin To Appear In  
Taylor

ABILENE, June 22.—Although  
there is little danger that it will be-  
come injurious to any great extent  
during this season, cotton lice, which  
are attacking cotton in certain parts  
of Taylor county, are the source of  
some concern to farmers in this sec-  
tion, it was learned from J. R. Master-  
son, Taylor county farm agent.

Grasshoppers are also beginning to  
do some damage in Taylor county and  
it is urged that farmers begin poison-  
ing the pests immediately, before fur-

**WHAT IS ALI ABOUT**

The newspaper reading public, which includes all of us, will shortly be treated to a sort of university extension course on the pros and cons of evolution when the trial of W. T. Scopes at Dayton, Tennessee, gets under way.

By way of explanation it might be stated that a recent session of the Tennessee legislature passed a law prohibiting the teaching of the theory of evolution in the public schools of that state. Scopes is being tried on that charge. There is no argument concerning Scopes' guilt. In fact the defense attorneys will work to secure his conviction, in order to pave the way for an appeal to the Supreme Court as a test of the constitutionality of the law itself.

Although Lamarck and others had previously enunciated it in part, it remained for Charles R. Darwin to first publish the theory of Evolution in his work "The Origin of Species by Natural Selection" in England in 1859. The scientific and religious world took issue at once and for years the wondrous battle has raged furiously.

According to the theory of Evolution the first life on earth, in prehistoric days, was a single cell, wriggling its way about in the slime. Through gradual changes in surroundings, first one form and then another form of life evolved from this common ancestor. Some of these forms of life survived, and others fell by the wayside, only their remains in various geological stratas remaining to tell the tale of their existence. Finally, according to the evolutionists (and around this point the bitterest arguments of all have centered) Man himself was gradually developed from the lower forms of animal life, by way of the higher forms of monkeys, anthropoid apes, the Neanderthal and Pittdown remains etc., to the cave man and then various lower types of savages to the highbred Caucasian of today.

To a certain extent the controversy had quieted down through the years until William Jennings Bryan stirred it to renewed life by remarking "Nobody was going to make a monkey out of him" or words to that effect and the battle was on again with renewed fury. In the meantime, the theory had gradually crept into various universities and high schools via biological and other courses. Steps were taken to remove the objectionable teachings in denominational colleges and the Biblical account of the Cre-

ation of Man in the Garden of Eden as related in Genesis more firmly established. Various professors resigned by request, bills were introduced in various state legislatures prohibiting the teaching of evolution in tax supported schools. These failed of passage, however, except in the case of Tennessee, Oklahoma, and Texas, being among those who rejected the proposed legislation.

But devout Christians who hold strictly to the letter of the Biblical law will never accept the theory of evolution. They see in it an attempt to undermine the influence of the Good Book.

It must be remembered that neither the Bible nor the theory of evolution are on trial in the case of the state of Tennessee vs. Scopes. It must also be remembered that a man's religious beliefs, if he has any, are a private matter between him and God and not to be interfered with by other men. The world has learned this after discovering that the use of the thumb-screw and the rack, burning at the stake and various other vigorous methods of conversion merely brought on more talk of the same nature. Religious intolerance has been the direct cause of more bloodshed and human misery, perhaps than any other one factor in history, and humanity has learned this bitter lesson thoroughly.

In the meantime the forthcoming trial will prove an interesting variation on the matter that burdens the press wires of the day, such as "Bandits, etc." "Gangster," "Auto Fatalities" and the various and sundry methods used by avaricious individuals to secure the fortunes of their wives or foster sons.

Officers were unable to determine what was wrong with Blair. It was stated that he did not appear to be drunk, but acted as though he had been doped.

**If Back Hurts Flush Kidneys**

Eat less meat, also take glass of salts before breakfast occasionally.

Too much meat may form uric acid, which excites the kidneys; they become overworked; get sluggish, ache and feel like jumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region; you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel irritable twinges when the weather is bad. Urine full of water; also get from any pharmacist four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then get one. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to help neutralize the acids in urine, so it no longer is a source of irritation, thus often ending bladder weakness. Jad Salts is inexpensive, can not injure; makes a delightful effervescent lithia water drink which everyone should take now and then to help keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in correcting kidney trouble while it is only trouble.

Lady Says She Took Cardui and Never Saw Such Improvement—Was So Weak Couldn't Stand.  
Weathersby, Miss.—Mrs. James M. Hall, of this place, writes that she was "getting weaker all the time" when Cardui, the woman's tonic, was first brought to her attention. After she had taken Cardui a while, she writes that she "never did see such an improvement."  
"I suffered all the time and had pains all over," says Mrs. Hall. "I was so weak I could not stand. My skin was cold and flabby. I did not have any color. I had always been a very active woman—used to outdoor exercise, walking and going where I pleased, and to get down, not able to get myself a drink, was lashed a hardship."  
"Nothing seemed to help me, till I began on Cardui. The first bottle seemed to strengthen me, and I sent for five more. By the time I had taken these, I was on my feet, going around, doing my work, gained in health and strength."  
"I took two more bottles, and I am well and strong. Can work my garden. I haven't had any more sickness."
