## LET CONTRACTS TECH BUILDINGS

Board of Directors of Technological College Let Contracts Amounting to \$129,540

**BUILDINGS ARE ACCEPTED**

Board Inspects \$25,000 Buildings—Arrange Scholarships—Newman Present

Special to Reporter.

LUBBOCK, July 18.—Contracts amounting to \$129,540 were let and buildings constructed at a cost of \$250,000 were inspected and accepted Saturday by the Board of Directors of the Texas Technological College who went into session at eight o'clock Saturday morning for the first official meeting held on the campus. Plans were outlined for the opening exercises of the college for September 30 and October 1, when West Texas will again throng to Lubbock to pay homage to the new monument to educational advancement in this section.

The contracts which were let Saturday include \$95,000 worth of textile engineering machinery which will be placed in the textile engineering building. The contract was let to several firms.

A \$25,000 cafeteria was let to Raney Bros. of El Paso. A dairy barn was ordered at a cost of \$24,540. The contract going to Raney Bros. of El Paso.

A poultry plant estimated to cost \$25,000 was not ordered but plans were placed in the hands of engineers with instructions to cut the plans down on account of shortage of money. Phil Montgomery, Lubbock, secured a contract for 25,000 square feet of sidewalks at a total cost of \$5,000. Minor contracts for engineering equipment, geological equipment and other smaller items were also let Saturday.

The board decided upon J. M. Gordon, master of arts graduate of Columbia University and a former president of Trinity University, Waxahatchie, Tulsa University, Tulsa, Oklahoma, and a state teacher college of Oklahoma, as dean of liberal arts here.

E. Y. Freeland made his appearance before the board when the athletic budget was considered, and \$2,000 was granted by the board for the next month and the problem will be considered again when the board will convene here August 15. The \$425,000 administration building will be complete at that time and will be accepted by the board. The board accepted the suggestion of the telephone system and voted to install a private switch board at the college.

Scholarships amounting to \$750 were accepted by the board with thanks to the donors. Lynch Davidson offered a \$250 scholarship to the best student in the Textile Engineering department and Clifford B. Jones offered a \$250 scholarship to the best student in the department of agriculture. The Lubbock women's club announced to the board that they had raised \$100 to be given this year to some worthy girl to help her through the Tech. The scholarships offered will be awarded next spring and will be paid to the student in 1926 when he returns for the second year of the school.

Plans to invite for the opening exercises Governor Ferguson, Secretary of Agriculture, William Jardine, R. Q. Lee, president of the West Texas Chamber of Commerce, and Walter Splawn, president of Texas University, were announced by the board. Seven members of the board of nine were present at the meeting. Amos G. Carter, chairman, Fort Worth, and Mrs. Charles Degroff, El Paso, were unable to be here. Members of the board present were R. A. Underwood, vice chairman, Plainview; C. W. Meadows, secretary, Waco; Mrs. R. N. Drane, Corsicana, John W. Carpenter, Dallas, Clifford B. Jones, Treasurer, Spur; H. T. Kimbro, Lubbock, and Mose Newman, Sweetwater. The board will meet here again August 15.

## MORE PARDONS

Governor Grants Additional Pardons Saturday—Brings Grand Total To 620

By United Press.

AUSTIN, July 18.—Additional pardons granted today by Governor Miriam A. Ferguson brought the July total to 113 and made a grand total of clemency proclamations of 620. Of the latter, 133 were full pardons and 286 conditional pardons.

The remainder were restorations, paroles, furloughs and remission of fines and jail sentences.

## TEXAS PATROL IS CONTEST WINNER

Flying Eagle Patrol, W. S. Barcus, Leader, Wins Banner in Recent Efficiency Contest

**LEADS THREE STATES**

Patrol Is Victor Over Other Texas, Oklahoma and New Mexico Units—Receive Trophy

The Flying Eagle Patrol of the Ninth Region, Boy Scouts of America, in which is included the Buffalo Trail Council and of which W. S. Barcus, local scout executive is patrol leader, has been awarded the banner by the National Headquarters of Boy Scouts of America for winning over all other patrols in the recent efficiency contest.

Barcus announced Saturday that the Flying Eagles had been declared the winners over other units, and he has received the beautiful blue and gold banner, the trophy for the victors.

The Flying Eagle patrol is one of the six patrols that make up the Ninth Region, Boy Scouts of America, which in turn includes the states of Texas, Oklahoma and New Mexico. Other patrols in the Flying Eagle unit are Tarrant county, Fort Worth; Abilene, Albuquerque, Panhandle Amarillo; South Plains, Lubbock; Wichita Valley, Wichita Falls, and the Buffalo Trail Council of which Barcus is chief executive.

The units named make up the Flying Eagle patrol which won over all other patrols in this state, New Mexico and Oklahoma.

The banner must be won by the same patrol three times in succession when it becomes the permanent property of that patrol. The Flying Eagles won the banner for the period of January 1 to May 1 in the Ninth Regional Efficiency Contest. Among the points considered in arriving at the winning patrols were leadership, membership, advancement, camping, training and miscellaneous.

In the final check-up, the Flying Eagles were first with a total of 36,085 points. Other patrols and their total points were, Roseters, 32,216; Beavers, 31,459; Cuckoos, 24,185; Armadillos, 7,240; Wild Oats, 6,812.

Executives of the Flying Eagle patrol include W. S. Barcus, Sweetwater, patrol leader; C. P. Spies, Fort Worth; F. B. Creighton, Wichita Falls; Thomas H. Nelson, Amarillo; Minor Huffman, Roswell; John R. Price, Abilene; and H. B. Palmer, Lubbock.

In commenting on the honor that has come to the Flying Eagles, Barcus stated Saturday that the Scoutmasters training course held simultaneously in the four counties of the Buffalo Trail council aided greatly in the council's carrying its part in the efficiency contest.

"The training course not only was a visible producer of points in the contest," said Barcus, "but it gave to the council nearly 50 trained Scout leaders, and has also been the means of organizing seven new troops in the council."

Mr. and Mrs. J. A. Ronch and children will return home Monday from Coleman when they have been visiting relatives and friends.

There will be a regular meeting of the Eastern Star on Tuesday night, July 21. All visitors are invited to attend.

Miss Maud Gandy of Austin is the guest of her cousin, Miss Nita Otey of West North 5th street.

## WEEKS MAY QUIT

President Coolidge's Visit to Secretary of War Believed for Purpose of Arranging Resignation

By United Press.

SWAMPSCOTT, Mass., July 18.—An unannounced visit of President Coolidge today to the Secretary of War, John W. Weeks at West Gloucester, Mass., coupled with a visit three days ago of Charles B. Hillis to President Coolidge, revived reports that Secretary Weeks will resign soon and may be succeeded by Hillis.

The president and Secretary Weeks were closeted together 45 minutes at Weeks' home.

It was believed by many that the purpose of the visit was to accept Weeks' resignation which was understood to have been offered the president two months ago, just after Weeks past the critical stage of his present illness.

Mr. and Mrs. A. C. Smith have gone to Colorado for a three weeks' vacation.

## "Squatter" Claims \$3,000,000 Bit of Chicago Land

Frank Ropke is claiming the rights of the "squatter" within a short distance of the heart of the second largest city in America. He claims possession of a tract of land on the Chicago lake front because of his father's "discovery" of it in 1892, when a storm blew his boat ashore there. He is fought by railroads and industries, but courts twice have upheld him. The land's worth is estimated at from \$500,000 to \$3,000,000.

## Blue Blazes Is Launched Here; It Floats

By United Press.

HENRIETTA, Okla., July 18.—A walk out of 2,500 miners in the Henrietta coal district marked a daily prayer and song service at the mine where they were formerly employed, instead of armed pickets and bloody battles. It is making the strike here the most novel in the history of the Oklahoma coal industry. The miners are demanding that they retain their \$7.50 per day wage scale. The operators cut the wages to \$5 per day.

## BLACKMAILER IS NABBED BY COPS

Newspaper Employee Who Sought to Get \$50,000 From Man Captured in New York

By United Press.

NEW YORK, July 18.—His attention attracted when Edward W. Browning advertised for a child to adopt as a companion to his lonesome daughter, Dorothy "Sunshine" Browning Philip Siegel, an employe on a New York newspaper, launched into an attempt to blackmail Browning out of \$50,000 police announced he had admitted to them this evening.

He demanded the money under threat of killing both Browning and Dorothy.

After a long correspondence carried on by mail and thru "personals" in the classified columns of the newspaper on which Siegel was employed, Browning arranged to meet Siegel at 10 a. m. today with the money.

The meeting took place on 86th street near Central Park, as arranged. A grip full of torn paper was given Siegel, and half a dozen detectives who were watching Siegel arrested him as he started into a subway with what he believed was a fortune.

-- Sam Glass returned Friday from Hot Springs, Ark., where he has been visiting for some time.

Mr. and Mrs. Raymond Jolley will leave Monday for a month's vacation trip to Navasota.

Miss Patsy Boyles is expected to return home Monday after a visit with her sister, Mrs. C. A. Freeman of Coleman. Mrs. Freeman and little son, Charles Alvin, will accompany her home for a visit with her father, C. S. Boyles and family.

## Blue Blazes Is Launched Here; It Floats

With a large crowd looking on and with all hands on deck, members of the Sweetwater Fire Department at exactly 5:35 o'clock Saturday afternoon launched a gigantic craft, Blue Blazes I on the placid waters of City Lake, and the sturdy little launch chug chugged its way out of the harbor at Pier No. 1 and echoed in its novel exhaust pipe soon faded in the distance.

The results of eight days' efforts on the part of fire boys was shown when the little liner settled down evenly in the water, and leaped forward at a terrific rate of speed when the gas throttle was pulled down.

With Capt. Taylor on the bridge, chief mechanic Ragland in the hold and first mate McCurdy as pilot, Blue Blazes I made the rounds of the lake in quick order and returned to the pier where another load of passengers was taken on.

The ship was completed Saturday at the City Hall Ship Yards. It is a 20 foot launch, in which is mounted a 23 horse power Buick engine, three speed and reverse, steering wheel, electric lights, fog horn and fore and aft decks.

The liner will be the property of the fire boys and will be used on various Sweetwater lakes.

## WOMAN CLINGS TO WEIRD STORY

Pretty California Ranch Woman and Authoress Sticks to Kidnapping and Vice Den Yarn

By United Press.

SANTA ANNA, Calif., July 18.—Still clinging to her harrowing story of kidnapping, dope smuggling and underground vice dens where pretty girls are chained to bed posts by Orientals and Mexican brigades, Mrs. Virginia Lee Cookston, ranch woman and authoress, was taken to San Diego today.

Although authorities disbelieve the story that she was abducted by exotic white slavers and held a prisoner in a dungeon on the Mexican border, the pretty magazine writer insisted today that every detail in her story was true.

"It is the strangest case I ever encountered inside or outside of a book," the sheriff of Orange county declared. "But I think Mrs. Cookston invented most of the story."

Chief of Police Hardwick of Calexico who is charged with the responsibility of the case.

## NATIONAL GUARD TILDEN RETAINS HIS TENNIS TITLE

Back from Camp

Sweetwater Company of T. N. G. Return Saturday from Annual Encampment at Austin

**TROOP WINS PRIZES**

Headquarters Company Return With Two Trophies—Governor Inspected Barracks

Bringing back two prizes for important contests won, and honored with the distinction of being officially commended by General Hutchings for its perfect functioning during the encampment, the Headquarters Co. 71st Infantry Brigade, Sweetwater unit of the Texas National Guard, returned to Sweetwater over the Texas and Pacific at 6 o'clock Saturday afternoon after the annual ten day encampment at Camp Mabry, Austin.

Lieut. J. W. Bibb, officer in command, and 28 men were in the returning company. Captain Sidney Mason and six enlisted men remained at Camp Mabry in connection with the final check up of camp details and are expected to return to Sweetwater Monday.

The Sweetwater company received the camp trophy for maintaining the cleanest and most orderly barracks in the entire camp of 2250 men. Cleanliness, arrangement of supplies and equipment, order and other matters were taken into consideration by inspectors in choosing the prize camp.

The local unit also received the prize in the inspection test in competition with other companies in this area. The award was made for passing the best federal inspection.

The two trophies are a twenty dollar gold piece which will be made into a medal designed by the commanding officer, Capt. Mason, and a blue and white banner for the inspection contest.

The functioning of the Headquarters company was commended by General Hutchings and other regular army instructors repeatedly, according to returning troopers. The company, while in camp passed various inspections before Governor Ferguson, Adjutant General Mark McGee, and General Hinds, 8th Corps Area commander.

On the day that Governor Miriam A. Ferguson visited camp, the Sweetwater company's barracks had just won the clean barracks prize, and the barracks of the home company were inspected by the governor on that day.

The Sweetwater unit's barracks were the only ones inspected by Governor Ferguson.

"The governor rubbed her white silk handkerchief over shelves, tables, 'But she didn't find a bit of dust. Our and the floor," a trooper declared, barracks were absolutely clean."

A photograph was made of the governor with the Sweetwater company. Officers highly praised the work of the Headquarters Company cook and mess sergeant, it was reported.

Sargeant McClintic of the Headquarters Co., was also commended for his work during the encampment. Sgt. McClintic inspected the meat, food and sanitary conditions of the entire camp.

Homer B. Freeman was cook and Brasher was mess sergeant for the local company.

Every minute of the entire encampment was thoroughly enjoyed by every member of the Sweetwater company. It was declared. The weather, however, was the hottest in the history of National Guard encampments, it was declared. Heat records of 65 years standing were broken while the troops were in Austin.

## SHEPHERD READY FOR MONEY FIGHT

Beaten in First Attempt to Get McClintock Fortune, Shepherd Prepares for Court Battle

By United Press.

CHICAGO, July 18.—Beaten in his first attempt to obtain the million dollar McClintock estate, William D. Shepherd today prepared for a long drawn out court fight that may take several years. Probate judge Henry Horner decided it was up to Shepherd to show that he did not use "undue influence" on his millionaire ward, Billy McClintock, to have him sign the will that left practically all of his money to Shepherd.

Shepherd's next chance is in the circuit court where he may present more complete evidence.

If beaten in that court the next step will be taken in the Illinois supreme court.

Success in that court will still not give Shepherd possession of the fortune.

Miss Isabelle Pop, pretty society girl that tried to marry Billy on his death bed, will fight for her dowery rights, claiming that Shepherd prevented their marriage.

Mrs. Ethel Brunner and daughter, Doris, returned to their home in Dallas Saturday after spending several weeks in the home of Mr. and Mrs. W. S. Barcus. Many social events have been given in their honor.

Mrs. C. W. Breeding and Mrs. L. L. Arnsour will be joint hostesses to the Golden Rule Circle on Monday from 10 to 12 o'clock at the home of Mrs. Breeding at 211 Orange street.

This being the regular monthly social meeting all of the members are urged to be present.

## Jap-Australian Match

By United Press.

CHESTNUT HILLS, Mass., July 18.—A little brown Japanese and a lanky smashing Australian fought out one of the most thrilling matches in the history of the Longwood Tennis Club this afternoon when the little man wiffed before the Antipodes, Australian.

Almost superhuman endurance was displayed by Gerald Patterson of Australia and this pulled him through to victory over Takeichi Harada of Japan in the final match for the Longwood bowl. The scores were 5-7, 7-5, 3-6, and 6-1.

As a result of Patterson's victory the famous bowl which had been retained here 32 years, will go to Australia.

## English Teams Win

By United Press.

ATLANTIC CITY, July 18.—Sweeping everything before them in the track and field meet, stars from Oxford and Cambridge won an easy victory over the Princeton-Cornell combination here this afternoon.

The British athletes who were nosed out by Harvard and Yale last week because they had scarcely time to find their "land legs," showed their real form at the new athletic field here, and the issue was never in doubt.

## Boys Is Golf Champ

By United Press.

DETROIT, July 18.—With the heart of a fighter and the nerve of a veteran, 18 year old Keefer Carter of Oklahoma City, today won the Western Amateur Golf Championship for 1925 by defeating Russell Martin of Chicago 3 and 2.

It was the first time in history of the Western amateur tourney that the winner's cup went to a southern entry.

But Carter did more than average the south for past defeats. He staged one of the greatest rallies ever seen in a championship match and when he won the match, on the 34th green, the band of the club house struck up an old time melody while the gallery shouted with approval for the Oklahoma boy who was not only the youngest entry in the event but one of the most popular with the fans.

## Baseball Results

Texas League, San Antonio 7, Dallas 10; Houston 5, Fort Worth 1; Beaumont 7, Wichita Falls 11; Waco 1, Shreveport 8.

National League: Cincinnati 3, New York 0; St. Louis 4, Brooklyn 1; Chicago 3, Philadelphia 6; Pittsburgh 9, Boston 8; second game, Pittsburgh 1, Boston 2; American League, Boston 2.

American League, New York 3, Detroit 7; Boston 2, Chicago 10; Washington 19, Cleveland 6, Philadelphia 2 St. Louis 4.

## CONSUL IS SHOT

Vice Consul from United States in Mexico Wounded by Mexican—Order Investigation

By United Press.

WASHINGTON, July 18.—The American vice consul at Agnes Calientes, Mexico, Harold G. Bretherton, has been shot, but not seriously injured, it was learned at the state department here today.

The report received of the shooting which occurred July 16, stated that the cause was unknown, but it is believed that the shot was intended for another.

## DENIES FLOGGING

Dallas County Sheriff Says Second Negro Not Whipped by Mob—Rumors Confused

By United Press.

DALLAS, July 18.—Reports that a second negro had been whipped by a mob near Wilmer, Dallas county, as the outgrowth of racial feeling were denied by Sheriff Marshall here tonight.

"We have investigated thoroughly for the last 24 hours, and have found no traces of further violence," the sheriff said.

"The reports were evidently rumors growing out of the whipping of Clarence Brown."

Brown was whipped following his confession of intimacy with a white woman, when he was released from the county jail this week.

Misses Estelle Stiles and Mollie Howe left this week for a visit with Mrs. Howe and Mrs. Howell of Long Beach, California.

**SMUGGLING**

Some of the labor and farm organizations are scolding the government because it has not grown excited enough over the "bootlegging" of at least half a million aliens into the country every year. As one labor leader puts it: "Down there in Oklahoma, Texas and Arkansas I myself saw thousands of Mexicans working on the railroads. They told me they were getting \$1.25 a day, and they live on twenty or thirty cents, and I do not have to be much of a farmer to know if a fellow spends but 15 or 20 cents a day for sustenance he does not consume farm products." The government might reply that this bootlegging business, whether in immigrants or forbidden goods, could not prosper if there were none of its citizens to encourage the trade, and the law violations by which it lives. Too many citizens believe that it is solely the business of government to make its laws effective. They fail to see their own responsibility in the matter of obeying laws, especially when these interfere with their convenience or profit.

**A PROPHET FAR AFIELD**

Something has happened over the week end which may cause this credulous republic to re-examine assurances so glibly given by Mr. Doheny that in taking over a large share of its oil reserves he saved it from being on the loser's end of a war of extermination in the Pacific. This time it is a prophet and not a promoter of oil leases who comes to bat. The prophet is F. Britten Austen, noted English author, who seems never to have heard of Mr. Doheny's celebrated testimony

that everything is now all right. Indeed, everything is all wrong, Mr. Austen certifies.

"The shadow of a war cloud in the Pacific east is falling darkly upon the hitherto sunny world supremacy of the white race," he says. "It is unpleasantly possible that the cloud may be cloven tomorrow or the day after, but inevitably, by the lightning flashes of war. The white man's prestige will disappear when the savage, barbaric millions from Africa and Asia can successfully defy the white man."

Incidents which are enumerated as having contributed to this situation are many: The white man has forcibly fed the ancient populations with the newest theories of education, politics and social customs. He has fatuously presented them with thousands and thousands of cinemas showing the white races in contemptible light. He has committed the crowning folly of leading the other races into battle against white men. In Africa, India, Indo-China and China, tens of thousands of demobilized war auxiliaries have returned to spread wondrous tales the white man is not invincible. These races hate the white man with a hate whereof we have no conception. They have used feverish propaganda to accomplish this. They count cunningly on Japan. Although Japan is equal with the western nations in the war of commerce, the white man insultingly treats her nationals as an inferior race. Her population is desperately overcrowded, but the white man denies it an outlet. Hence the approaching debacle.

The wonder is that if this Englishman is right in his portent of coming doom for the white race why does he persist to waste time hampering any gongs in America? Why doesn't he make a bee line for the portals of the League of Nations and convince its drowsy statesmen there of the "lightning-flashes of war" that already he discerns upon the racial horizon?

Our own republic has done nothing to invite the desperate fate which he foretells. It has preached brotherhood and accord to men of all races. It gave billions of dollars and millions of soldiers to forward the war to end wars. It was for the self determination of nations according to the ideas of their own people, without reference to the color of their complexions. In

**MISS EDITH MOODY**

Will start classes in piano and ukelele on Monday, July 20. Those interested call 419-J

**Mrs. Geo. Gray Jr.**

every nation's soul but its own it was against "Jim Crow" sections. It has come to understanding even with Japan, barring the boorish behavior of a few California native sons, and Mr. Doheny's act of preparedness in stealing the oil wells for the glory and welfare of patriotism.

With such heroic and unselfish acts in the American record, why should this Englishman keep looking straight at us when he sends up his sky rockets Let him go back to the old world, incubator of hatreds between nations as well as races, and warn the imperialist who fosters these things for their own gain. They need it. Perhaps he will get a chilly welcome. National self-seekers who for two thousand years have paid very little attention to the Christian precept of peace are not likely to heed a modern week-end prophet who comes mooning on dire results.

Example of faulty European grammar: "What makes you dun me like you do, do, do?"

This awful rum war! Let's get the dry agents' hands out of the runners' pockets by Christmas.

The little things count. But they don't count accurately, and that makes them good caddies.

Russia claims to be out of debt. Ah, well; we have bankruptcy proceedings in this country.

Even when the meek inherit the earth, doubtless they will keep up the habit of meekly paying taxes.

America is a fair land. Each section has a peculiar product with which to frisk the other sections.

**AMUSEMENTS**

**PALACE**

The latest Rex Ingraham production for Metro, "Scaramouche," a picturization of Rafeel Sabitini's novel of that name, will come to the Palace Theatre on Monday and Tuesday. The cast is headed by Alice Terry, Lewis Stone and Ramon Novarro.

"Scaramouche" according to advance reports from the larger cities, where it has been played as a two dollar attraction, is one of the greatest pictures in screen history.

The story is laid in the time of the French revolution and deals with the adventures of a young noble who takes the side of the people. Willis Goldbeck made the screen adaptation and the photography was by John F. Seitz.

## DARROW IN WORD DUEL WITH BRYAN

During Lull in Scopes Trial, Defense and Prosecution Chiefs Stage Bitter Debate

### BRYAN ASSAILS DARROW

"You're an Agnostic," Says William J.—"You're the Interpreter of Religion," Says Darrow

By United Press.

DAYTON, Tenn., July 18.—William Jennings Bryan and Clarence Darrow tonight engaged in a bitter duel of statements filled with personalities and issues involved in the Scopes evolution trial. The worded battle was the only incident in the extremely quiet day at Dayton which relaxed during the lull in the Scopes trial which stood adjourned until Monday when it will enter its last phase.

Bryan assailed Darrow as a confessed agnostic and leader of "the most militant antichristian sentiment in the country."

Darrow replied that he admitted his agnosticism and taunted Bryan with admitted assuming the "only interpreter of religion in the world," and declared that he entered the Scopes trial "only that in other states those who wish to pursue the truth will be left free to think and investigate and to teach and learn."

Contribute to Dayton University  
DAYTON, Tenn., July 18.—Contributions to the proposed fundamentalists university to be opened here with William Jennings Bryan, president, were being pledged so fast that F. M. Robinson, the druggist, had to take the list down from his drug store window lest the sheet of paper be filled too soon and some of the best fundamentalists deprived of an opportunity to contribute.

H. H. Frase, F. E. Robinson and John Morgan and Sons, all of Dayton, pledged \$1,000 each and J. E. Benson, a local wealthy farmer, promised 20 acres of land.

Along came G. W. Rappleyea, a rabid evolutionist and modernist. He put himself down on the list for a ton of coal.

Dudley Field Malone next saw the contribution sheet. "One set of Darwin works on evolution," he wrote down opposite his name.

Mr. and Mrs. W. M. Fife and family of Ranger are the guests of Mrs. Fife's mother, Mrs. M. W. Biser.

## THE MONKEY AND THE MISER

—from an old fable

A Miser once kept a Monkey for a companion. One day when the Miser was away the Monkey threw all the silver and gold out of the window. The Miser raved and tore his hair and uttered all manner of threats against the beast. But his neighbors said to him, "Be calm, man, it may be foolish to throw away money as this monkey did, but it is worse to let it lie idle, as you have done."

Nowadays, people as a rule do not keep their savings lying about the house (although we do know of cases where thousands of dollars were buried in the cellar floor or stuffed in a mattress). But is your money IDLE? Is it earning more money for you? Is it working for you?

The way to make your money work and earn MORE money for you is to INVEST your savings. Southwestern Power & Light Co. sends money by mail every 3 months to hundreds of people who have invested their savings in it.

### MUSICAL PROGRAM

A Special Program of Music Arranged for Christian Church Sunday

The following program will be rendered at the First Christian church Sunday evening at 8:15 o'clock:

Overture, orchestra, Miss Florence McKissick, piano; Miss Lucy Cutbirth, violin; Harold Lindley, Saxophone; James McKissick, cornet; Mr. Snetzer, cornet.

Hymn—Holy, Holy, Holy—Choir.  
Song—Children.  
Saxophone Solo—Harold Lindley.  
Male Quartet—Selected.

Duet—Won at Last—Mrs. Hubbard and Mrs. Nickeson.  
Hymn—Saved by the Blood—Choir.  
Offertory—Etude.

Violin Solo—Mighty Lak a Rose—Lucy Cutbirth.  
Duet—Saxophone, Harold Lindley, cornet, Mr. Snetzer.

Hymn—What If It Were Today—Choir.

Solo—Angels' Serenade—Mrs. Nickeson; Violin obligato, Miss Lucy Cutbirth.

Sermonette—Dr. J. T. McKissick.  
Invitation—Won't You Come Back Home?

### CONCERT SUNDAY

Saxophone Band to Play at Wright Band Stand Sunday Evening

The Sweetwater Saxophone Orchestra will give an open air concert Sunday afternoon from 6:30 to 7:30 o'clock from the band stand on the corner opposite Hotel Wright.

Everyone is invited to hear the hour concert for which a splendid program of music has been arranged. The orchestra will be under the direction of John Focht.

Compassion is what you feel when you observe a boy with a cute pug nose trying to seem tough.

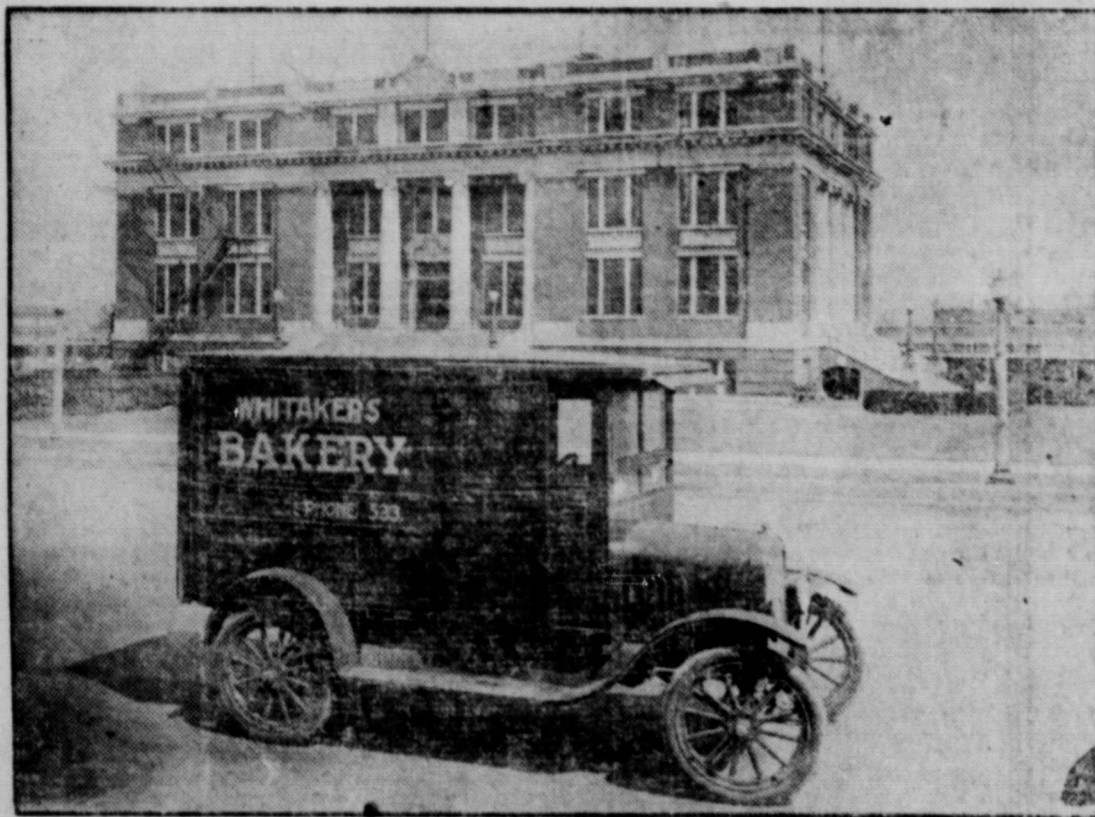

Mrs. W. M. Redwine of Rotan is under treatment at the Boone Bros. Healthatorium, Christoval, Texas, and is expected to return home within the next few weeks.

# Sweetwater Serves You Better

## And So Does WHITAKER'S BAKERY

The Home of "Best Yet" Bread

*SWEETWATER has many things in her midst of which to be proud. For instance, in the way of buildings, she has the magnificent edifice which houses the government of Nolan County. Chiefly, however, Sweetwater, like any other community, town or city, hinges her importance not on beautiful buildings, but on industry—that which makes for the financial wealth, the progressiveness, and the upbuilding of a substantial trade with other communities; an industry so closely related with other industries and so necessary to the lives of the community that without it no city could be complete. It is not therefore strange that the industry of which we speak is widely known throughout the trade territory.*

### THE HOME OF "Best Yet" BREAD

"Here is bread, which strengthens man's heart, and therefore called the staff of life." So wrote Matthew Henry in the Seventeenth Century, but for centuries before him bread was known and appreciated as a healthy food. The ancient Egyptians and Hebrews knew the value of bread, though their loaf in many respects differed greatly from the bread which we eat today.

The history of bread, when traced back, is the economic history of the world. Nations have starved for the lack of bread, and have been acclaimed wealthy for an abundance of bread. Lack of sufficient

bread has caused war, which in turn has brought on pestilence and suffering throughout the world. But withal, bread is indeed the "staff of life"—the most healthful and wholesome of foods.

Right here in SWEETWATER we have one of the most modern plants for the making of bread and its kindred cakes and pastries. This plant represents an investment in equipment of over \$10,000.00 and requires stock to be kept on hand amounting to \$5,000.00. A force of six people are employed to keep the ever increasing demand for bread supplied, and these folks make a payroll of over \$600.00 each month. G. W. Whitaker is the proprietor and his able assistants are H. F. Brechner, breadmaker; Joe Parks, baker; W. E. Polster and wife, pastries and cake; F. N. Chadman, delivery man.

Were the plant to run at full capacity it could easily turn out 6000 loaves daily. Approximately 150 barrels of flour are used each month, which in yearly figures means seven solid carloads of flour. It is doubtful if a car of sugar would last out a year in this busy bakery, for people do have a sweet tooth now and again.

And industry such as is represented in this bakery most certainly deserves the patronage of the folks at home, not only for the high quality of its products, but for the fact that it is a contribution and a helping factor in the betterment of our home—SWEETWATER.

# FOR the AUTOIST

**MILLIONS SEE NEW CHRYSLER**  
Sales Organization Indicate Reception Reached Fresh Heights

Special to Reporter.  
DETROIT, July 18.—Hundreds of congratulatory telegrams received by J. E. Fields, vice president in charge of sales of the Chrysler Sales Corporation, Detroit, from distributors and dealers in all parts of the country, indicate that the reception of the

new Chrysler Four, announced a week ago, reached new heights of interest and cordiality.

This flood of messages serves to show that never before in the history of the automobile industry was a new car viewed by so many interested spectators and never before were so many sales completed in such a short space of time. Reasonable estimates based on country wide reports show that a million motorists and prospective buyers thronged Chrysler salesrooms the

week of June 25th, when the new model was first shown; orders aggregating thousands were immediately placed with the result that many of the telegrams from the field were supplemented by urgent pleas from distributors and dealers for as many of the new Chrysler Fours as could be obtained at once.

One of the greatest receptions was tendered in Detroit, the home of the motor car industry. Here the group of city dealers reported unprecedented activity with the result that nearly one hundred sales were registered on the opening day and an aggregate volume of more than five hundred orders by Saturday night.

**VETERINARIAN BUILDS TIRES**

Dunlop, Horse Doctor, Made First Rubber Tire for Son's Tricycle

It is an ironical fact that the present day automobile tire is the outgrowth of the idea that a Scotch-Irish veterinarian had thirty-seven years ago.

When John Boyd Dunlop, practicing veterinarian in Belfast, Ireland, invented the first pneumatic tire in 1888, there was no thought in his mind that what he had done was to be one of the greatest contributing factors towards the elimination for all practical purposes of horses as a means of transportation.

John Dunlop's job in life was the taking care of sick animals and anything that tended to lessen their number or course meant that his practice would decrease in proportion.

**Wins Chicago Derby**

Here's Caractus, winner of the \$20,000 Chicago Derby at the old Hawthorne track the other day. Caractus was a 30-to-1 shot and beat out a field including such prominent starters as King Nadi, Silver Fox, Kentucky Cardinal and Arbitration. It was Chicago's greatest racing day in the last 25 years. Caractus is shown with Jockey H. Thomas up.

**Pretty Peggy**

This is the time of year when the beauty contest flourishes, so here's the result of another. This one is Miss Peggy Cogswell, the prettiest girl in Olympia, Wash.

Automobiles, or "horseless carriages" as they were known then, were the furthest things from John Dunlop's mind when he fashioned a set of tires for his young son's tricycle. His thought was to provide greater comfort for his boy, and to enable him to outdo other lads when he rode his wheel over the rough, cobbly streets of Belfast.

Using the valve of a football tube, he secured it to a section of surgeon's rubber cemented to form a tube. This he covered with cloth, and the whole thing he fastened to a rim made of American elm.

The pleasure of trying out the invention was given to young Johnny Dunlop. The youngster rode his wheel over the cobbly streets and upon returning home, informed his father that not only was there greater comfort but that the pneumatics made it possible to make much greater speed.

It was not long before professional wheelists learned of the times. Like all revolutionary ideas, there was a great deal of sentiment against them. In time, their superiority was firmly established and a small company formed. But so crude was the process of manufacture that when a puncture was experienced it was necessary to send the entire wheel to the factory before the tire could be mended and remounted.

In time the "horseless carriage" was taken seriously as a means of transportation. Automotive engineers say that without a practical pneumatic tire, the automobile would not have been possible. There would have been no incentive to perfect the motors and bodies if the machines were to go on forever bumping over the roads as horse-drawn vehicles has done for ages. With the urge for betterment came present day motor car perfections.

**First Christian Church**  
Bible school meets at nine thirty sharp. Preaching at eleven o'clock by the regular pastor; the evening service will be given largely to song and music. Preaching at Cottonwood school house at 3:30 p. m. The minister and family wish to express their deepest appreciation for the many expressions of sympathy in the recent sickness.

**SALES RUN HIGH**

**Chevrolet Sales By August 20 To Exceed Entire 1924 Production**

Special to Reporter.

DETROIT, Mich., July 18.—The Chevrolet Motor company having established successive production records for April, May and June, will exceed by only one month of Chevrolet production, October of 1923. Sales to dealers during June were 54,725. At the end of June there still remained 24,654 unfilled retail orders in the hands of dealers.

Chevrolet production during 1924

was 205,303. During the first six months of 1925 the total production reached 246,081 or only 59,222 under the aggregate for the preceding year.

The company produced 54,944 motor cars and trucks during June, exceeding any previous June in its history. The total for the month was exceeded by only one month of Chevrolet production, October of 1923. Sales to dealers during June were 54,725. At the end of June there still remained 24,654 unfilled retail orders in the hands of dealers.

"In April we produced 52,236 cars

**What to Take on an Auto Trip.**

**O**f course if you own a car you are going to get all the fun you can out of it this summer by taking week-end or longer motor camping trips. Maybe you are planning to spend your vacation that way. If you are, there are a lot of do's and a lot of don'ts to the program. But food seems to be the main consideration, especially if you are going into the woods and some distance from stores.

**Supplies Needed**

First of all you will need a folding camp stove and a few cooking utensils. Then you will need a sufficient stock of ready prepared foods to last the trip, with the addition of such fresh foods as you may pick up enroute, like green corn, melons and such meats as do not come in cans.

In stocking up for the trip your first consideration should be to see that you have enough variety to furnish a well balanced diet for the three meals a day. Cheese is all important, and practically every kind of cheese even Swiss now comes in cans, so that you will have no trouble keeping it from hardening or getting strong. Cheese, bread and fruit or salad will give you a well balanced meal. Do not forget the cheese.

Coffee is another staple that you should buy in cans because it will keep better and be unaffected by moisture if packed that way. And coffee suggests milk which you can conveniently carry in either the evaporated or the powdered form. Again coffee suggests breakfast and breakfast suggests grapefruit which you can carry in cans ready to serve.

**Balanced Diet**

When motoring you will probably want to eat your heavy meal in the middle of the day, as one gets ravenously hungry riding. Here is where you will have to watch out for the balanced diet. Tomato soup, baked beans and pork, or creamed chicken, or Welsh rarebit, with salad, bread and butter, fruit and coffee, will give the balanced diet. Canned asparagus may be most successfully used for salad. For supper you can get a well balanced meal out of sandwiches of various kinds supplied from canned foods, especially if you mix them with cheese. You can secure excellent recipe booklets from the various canners of the products you buy.

**Foods Needed**

A suggested list of foods to take on the trip would be soup, baked beans and pork, spaghetti, tongue, corned beef, chicken, deviled ham, sardines, pickles, tuna fish, salmon, cheese, pineapple, grapefruit, mixed fruits for salad, peas, asparagus, crackers and cookies, marshmallows, milk, either evaporated or powdered, coffee and tea, mayonnaise and jams.

Statistics tell us that 2,000,000 people went motor camping in the United States last year, and this year promises to double that number. Remember this when you go camping, and don't forget to clean up after your party. Think what it would mean if 4,000,000 left their

various camping grounds, many of which are used 100 or more times in a season, littered with papers and rubbish and garbage! Fortunately, comparatively few motor parties are careless, or all our streams would be polluted and our camping grounds just one rubbish heap after another, but whatever else you do on your camping trip, see to it that you are not numbered among the careless.

**Clean Up Camp**

Where food is carried in cans, the containers, themselves, may be used to hold refuse bits of food till they can be buried if there is no place provided for them. Papers can, of course, be burned, only great care must be taken that you do not set the forest on fire. It is best to dig a hole for this purpose, and surround it with a low wall of stones. Then the cans and other refuse can be buried at the same time, and remnants buried in the same hole afterward.

Remember in starting off on a motor camping trip half your enthusiasm oozes out if you spend too much time and energy preparing. So get started with as little preparation as possible, and don't start off with so much junk you have to sit on one pile while another sits on you. By taking your food in cans you will economize on space, at least, and you will require less cooking utensils than if you decide to purchase and cook fresh foods as you go along.

and trucks; in May 52,853 and in June 54,944," said Mr. Grant. "Thus we have a variation of only 2,708 units between the lowest and highest of the three months. And of even greater significance is the fact that our production crept up instead of down during a period in which past experiences have led manufacturers to expect a decided decrease.

"Another significant figure is contained in the statement of the National Automobile Chamber of Commerce that the May 1925 Chevrolet sales were 233.6 per cent of the May sales and the truck sales for the same month were 297.6 per cent of those for May 1924."

**BREAK SALES RECORD**

**Ford Motor Company Sales During June Exceeds Record by 6,000**

Special to Reporter.

DALLAS, July 18.—A new June sales record was established by the Ford Motor Company during the month just passed, when approximately 6,000 more Ford cars and trucks were delivered to retail customers in the United States than during the same month a year ago, which held the previous high mark for June.

Reports indicate a continued large volume of business through the summer months with a higher buying level than is usual during this season of the year. The outlook is for another record breaking month for July. Urgent requests for additional shipments have made necessary increasing the company's July production schedule, which now calls for several thousand more cars and trucks than were produced in June.

Sales figures just given out by the company show that the total sales for June were 195,300 Ford cars and trucks. Of this number, 176,256 represent domestic sales, as compared with 170,547 cars and trucks sold in June a year ago.

Buying conditions also continue good in the high priced car market. Evidence of this appears in the sales of Lincoln cars during June, with deliveries to domestic customers totaling \$92, an increase of 95 over June a year ago.

**An Auto Camping Trip**

The season is fast approaching for the auto traveler to start on the annual summer tour and camping trip. Sky and earth both conspire to lure the lover of outdoors into the open, and many plans are now being made for motor trips. Some few people prefer to stop at the towns along the way, but many enjoy the trip in a well equipped touring car with camping outfit attached, replenishing the necessary supplies in towns through which they pass.

The planning of a lunch is, of course left to the women of the party, to whom the suggestions here given may be of help in purchasing her stock of

**"Nobody can say I wasted my money"—**

Peter DePaolo—1925 Indianapolis Race Winner

This statement from the young race driver, who purchased a Buick a week after he wheeled his car to victory at Indianapolis and broke the record of that famous Speedway, sums up the nation-wide opinion of Buick.

For, just as DePaolo recognizes the superiority of valve-in-head engines for the race track and personal use, so too have more than a million everyday motorists recognized the dependability and performance of Buick and the Valve-in-Head type of engine upon which Buick has concentrated for 21 years.

De Paolo bought a new Buick with the motor car expert's discriminating eye for performance, for dependability and genuine value. And his purchase is further evidence of the regard in which Buick is so universally held.

While especially adapted to northern climates, the steep roof is at present a general favorite. The fireplace and hood arrangement over front entrance is decidedly distinctive. Two bedrooms are usually desired by the average family, and with the large living room and dining alcove there is room enough to last the ordinary family for some time. Good sized attic affords much desired attic space for storage.

# Appreciation And Announcement

We deeply appreciate the many nice things said about our new store at our opening Friday evening. We had several hundred visitors in and out of the city with us on this occasion. To the other hundreds who did not get to visit us, we want you to come in and see the many new things we have to offer in home furnishings. We will take great pleasure in showing you through.

## Old Store

The Wright Furniture & Undertaking Co's. store on west side of Oak street (old store) will continue in business as in the past, carrying medium priced new and used goods. Opening hours remain the same.

## New Store

The new store will confine itself to the better grades of furniture and floor coverings and will be open for business in the mornings from 7 o'clock to 12 o'clock, and from 6:30 to 8:30 o'clock in the evenings (except Saturdays, the store will be open from 7:00 a. m. to 9 p. m.) until further notice. Convenient credit terms can be had on any piece or on a complete bill of furnishings. Customers buying Twenty-Five Dollars or more at one time for cash will get a Ten Per Cent Discount, except on factory priced merchandise.

THIS NEW STORE IS NOW DEDICATED TO THE SERVICE OF BETTER FURNISHED HOMES IN SWEETWATER.

## MEXICAN APPEAL SHOT TO DEATH

Consul General from Mexico Asks Life Sentence Instead of Death For Mexican Convict

By United Press.  
AUSTIN, July 18.—The Mexican government has in a plea to the Governor of Texas for clemency for the life of a Mexican national. This time the consul general has appeared before the governor to save the life of Salvador Jacques, Mexican sentenced to be electrocuted July 24.

The Mexican is in the death cell at Huntsville prison, and was personally interviewed by members of the board of pardons during its recent visit of to the state prison.

Alejandro Carillo, Mexican consul general at San Antonio, Jake Rubiola, a Bexar county commissioner and 2 Mexicans appeared before the governor Saturday in a plea for a life sentence instead of death for the Mexican who was convicted of the murder of a deputy sheriff in El Paso county.

### POISON VICTIM BURIED

Eight Year Old Lubbock Boy Buried After Death from Poisoned Milk

Special to Reporter.  
LUBBOCK, July 18.—Loys Hamby, 8 years old, poison victim, who died here Wednesday in a one-room home with five other members of the family lying helpless about him, was buried Thursday with only his mother and his 12 year old sister, Ruby, able to attend the funeral.

Other members of the family are in a local hospital where Raymond Hamby, 10, brother of the deceased, is believed to be dying while other members of the family including T. R. Hamby, father, M. Hamby, 15, and T. C. Plant, 17, brother to Mrs. Hamby, are reported to be improving.

The family were all stricken with the peculiar fever which has baffled physicians, and which is believed to have resulted from ptomaine poisoning as a result of drinking canned milk.

### BILIOUSNESS

Retired Minister Tells How He Keeps in Good Form With the Assistance of Black-Draught.

West Graham, Va.—The Rev. Lewis Evans, a well-known retired minister, now past 50, living here, has a high opinion of Black-Draught, which he says he has taken when needed, for 25 years. "For years I had been suffering with my liver," he says. "Sometimes the pain would be very intense and my back would hurt all the time. Black-Draught was the first thing I found that would give me any relief."

"My liver has always been sluggish. Sometimes it gives me a lot of trouble. I have suffered a lot with it—pains in my side and back, and bad headache, caused from extreme biliousness."

"After I found Black-Draught, I would begin to take it as soon as I felt a spell coming on and it relieved the cause at once. I can recommend it to anybody suffering from liver trouble. A dose or two now and then keeps me in good form."

Made from selected medicinal roots and herbs, and containing no dangerous mineral drugs, Black-Draught is nature's own remedy for a tired, lazy liver. NC-166

Rheumatism caused by poisons Filter them out at once

Rheumatic pains mean that poison acids have accumulated in the system. They are attacking muscles and joints. The kidneys and pores should remove them. But cold or dampness may close the pores. The overtaxed kidneys may grow sluggish.

The thing to do then is to start eliminations. Flush the system. For one thing, drink lots of water.

Start before breakfast. To the morning glass add a little Jad Salts. That will give you a sparkling drink.

Jad Salts is made from the acids of grapes and lemon juice, combined with lithia. It is made to start elimination in a prompt, efficient way.

One hour usually brings results. The poisons begin to depart.

Do this every morning for one week, and drink plenty of water. The relief will amaze and delight you, we believe. Then always remember. At the first sign of rheumatic pain start this elimination. Countless people save vast suffering in this way.

Try this modern method now. All druggists supply Jad Salts.

Tulia Auto Dealer Found Dead On Lubbock-Tulia Highway—Murderer Headed South

Special to Reporter.  
LUBBOCK, July 18.—Fred Conner, Tulia automobile dealer, who was last seen here by his life-long friend, J. F. Frye, at a local filling station when he got gasoline here late Thursday to make the trip home, was found shot to death on the Lubbock-Tulia road about 14 miles south of Tulia Friday.

Conner is believed to have been shot by a boy who had been picked up on the highway between Lubbock and Sweetwater and is described by Frye as having blue eyes, and light complexion and being about 18 years old and weighing about 160 pounds.

Conner's car was taken and two checks, one for \$65 and the other for \$350, given on a Baird bank payable to Conner and signed by Dr. Hayes of Baird, according to officers. Hayes told officers that Conner had the checks when he left Baird.

Mrs. Lem Chesler, Lubbock, cousin of the deceased received a report from officers working on the case that Conner's coat has been found near Plainview and officers believe that the slayer is headed in the direction of Sweetwater or southern parts of Texas. Officers over West Texas are working on the case.
