NAVY MANEUVERS CAUSE SUSPICION

Statements From Washington and
London Fail to Satisfy Japanese
Opinion of Practice

BELIEVE MILITARY GESTURE

Think Pacific Maneuvers Silent De-
monstration to World of U. S.
Naval Strength

By United Press.
TOKYO, Aug. 4.—Reassuring state-
ments from Washington and London
have by no means satisfied Japanese
public opinion that American naval
maneuvers in the Pacific are not in
the nature of a military gesture by
the United States.

Japan still feels keenly the humili-
ation she suffered through the immi-
gration law and many observers see
in the naval maneuvers a silent de-
monstration by the Washington gov-
ernment that it is able to back up its
stand on immigration by force if nec-
essary.

Holding of the naval maneuvers
"not long after the anti-Japanese im-
migration law by congress was ex-
tremely unfortunate," says the Oki
Mainichi, one of the most powerful
of Japanese dailies.

"It was on so large a scale as to
invite suspicion," the newspaper as-
serts, and cannot be regarded in
this country as a "brazen attempt to
study naval warfare with Japan as an
imaginary enemy."

The journal answers arguments for-
ward in justification of the maneuvers
by American and British publicists by
asserting that these "do not touch the
fundamentals of the question of
peace." It points out that Sir Her-
bert Russell is one British naval ex-
pert who admits the real reason for the
tests in his statement that "the fleet
is too large for visiting other powers
(Australia) merely for the purpose of
international courtesy."

ACTION IS ASKED

Amoy Chamber of Commerce in China
Makes Plea for Immediate Ac-
tion in Situation There

By United Press.
LONDON, Aug. 4.—The Express
Telegraph Hong Kong correspondent
reported today that the Amoy Cham-
ber of Commerce has cabled power-
ful belief that "strong, prompt action
is necessary to prevent the situation
in Chinese coast ports from becoming
hopelessly out of hands."

The warship Fox Glove has been
sent to Amoy, and the Titania has de-
parted for Wei Hai Wei.

LEGION MEETS TONIGHT

Legionaires To Plan to Attend State
Convention at Fort Worth

The American Legion will hold its
regular meeting tonight at the court
house at 8 o'clock, according to Roy
Scudday, post commander. Every
member is urged to be present. Im-
portant business matters will be up
for discussion, officials stated.

One of the subjects to be brought
up at this evening's meeting is a plan
for attending the state convention at
Fort Worth.

DRUNKS PAY FINE

Record Day in Dallas in July Nets
46 Drunks in Court

DALLAS, Aug. 4.—Monday, July
27 was a record breaking day as a
revenue producer for the city when
46 drunks paid fines in Police court
after having spent the day before in
the city house of detention.

Judge Crowfoot was not the least
bit perturbed over the unusually large
number that faced him, but lined
them up as if they were buying show
tickets, and took their money for fines
one at a time and had the job over
promptly.

Several of them who had money to
buy liquor to celebrate the week on
spent it all, and will be allowed a
credit of 50 cents a day for their lab-
ors at the County Farm to pay off.

Anyway, a war to make the world
safe for something makes it safe for
about six months.

All you can say for a village that
deports Japanese is that it gives the
state department some practice in
diplomacy.

The Russians are not so backward.
Moscow is three killings ahead of
Chicago.

When a business man is engaged,
he's working; when a girl is engaged
her work is done.

TO EXTEND RAILROAD

By United Press.
WASHINGTON, Aug. 4.—The
San Antonio and Aransas Pass
railroad applied to the Inter-
state Commerce Commission to-
day for authority to build a 30-
mile extension from Edinburg
to Harlingen, Texas. It was
stated that the road would give
an outlet for a "rich agricultural
section of the state."

TO TESTIFY THAT SCOTT IS INSANE

Alienists Called Into Court by Defense
to Testify that Maurer Murderer
Is Unbalanced

STEWART MAKES TALK

Tells Jury of Scott's Career and Sad-
den Failure—Took to Liquor—
Suffered in Jail

By United Press.
CHICAGO, Aug. 4.—Russell
Scott is insane, Dr. Harold Hul-
bert, psychiatrist, testified today
in Judge David's court.

"Yes, he is insane," was the
flat statement he made in an-
swering a question by William Scott
Stewart, chief attorney for the
defense.

Scott suffered delusions of "ref-
erence"; delusions of suspicion,
conspiracy and persecution, Dr.
Hulbert said. By "reference" Dr.
Hulbert said he meant conspiracy
and persecution were directed
toward him. Scott is under the delu-
sion that the Canadian people
conspired against him.

A crown attorney was sent by Can-
adian bankers to approach and bribe
Illinois judges, prosecutors, Governor
Small and the pardon board so it was
useless for him to make a defense, Dr.
Hulbert said he was told by Scott.

Scott's attorney contended that
Scott imagined influential persons
wanted him out of the way because he
tried to promote a thirty million dol-
lar bridge project across the river
from Detroit to Windsor, Ontario. The
witness said he found evidence of men-
tal illness.

Scott sat hunched forward in his
chair, his chin cupped in his hands,
and was apparently dozing. He seem-
ed oblivious to the fight which can
and only in one of two ways—life in
an insane asylum or death by hang-
ing.

By United Press.
CHICAGO, Aug. 4.—Alienists
and lay witnesses were called into
Judge Joseph David's court room
today to testify that Russell Scott
is suffering delusions of prosecu-
tion caused by excess liquor and
narcotics and is therefore immune
and should not be hanged.

It is against the law of the
state of Illinois to hang a man
that is not in complete control of
his mental faculties.

William Scott Stewart, retained by
Scott's father and mother as chief
defense counsel, indicated his line of
testimony that will be presented in
efforts to save Scott from the gallows
when he told the jury of Scott's phe-
nomenal business career and the sud-
den end.

"Not many years ago this man
built up a successful business having
to do with newspaper features and ad-
vertising," Stewart told the jury.

Stewart then described the crisis
that Scott was unable to endure.
"Just as his dream was about to be
realized, people interfered. Scott took
to liquor. Two quarts a day was the
usual quantity. Add these things to
Scott's suffering in jail. Alienists will
tell you how these things destroy a
man's mind."

FIRE IN SCHOOL

Chemical Vault in Laboratory in New
York College Explodes—One

NEW YORK, Aug. 4.—Fire starting
in one of the buildings of the College
of City of New York today followed
a terrific explosion in a chemical vault
of a laboratory.

Arthur Schutt, supervisor of sup-
plies for the college, was seriously in-
jured in the explosion.

He sustained serious burns when
trapped in the vault where the explo-
sion occurred.

The playwright's task becomes more

She Doesn't Need a Bob!

Just by way of proving that a girl doesn't absolutely have to have bobbed
hair to be considered beautiful, Miss Christine Thomas of Seattle won a
prize as most beautiful girl in a Norse pageant there. Her hair is over
a yard long.

WAR CLOUDS ARE COMMISSION IS FADING IN EAST OFF THE CHAMP

Greek and Bulgarian Troubles Being
Settled to Mutual Satisfaction
of Nations

SUDDEN TURN FOR PEACE

Situation Was Growing Serious When
Affair Suddenly Took Turn for
Friendly Adjustment

By United Press.
ATHENS, Greece, Aug. 4.—Greeco-
Bulgarian differences which had taken
on an air of gravity appeared today
suddenly on the road to friendly ad-
justment.

Sofia advises said that the Bulgar-
ian government was doing its utmost
to arrest and punish the murderer of
the Greek citizen, Nicolaides. The
murder of Nicolaides had stirred Ath-
ens deeply and caused the Greek gov-
ernment to send troops to the border
coincident with the start to draft an
ultimatum to Bulgaria.

However, the Bulgarian efforts to
meet Greek demands without the nec-
essary of stringent measures are re-
garded as easing the strain to the
mutual satisfaction of the two gov-
ernments, and hence, it is expected that
the incident will soon be liquidated
with no further trouble.

GET RAIN TODAY

Shower in Lubbock County Will Help
Conserve Moisture Already in
Ground—Crops Good

Special to Reporter.
LUBBOCK, Aug. 4.—A light show-
er fell here early this morning, follow-
ing a total precipitation of 3.5 inches
last week. This shower will aid in
holding the moisture, according to R.
E. Karper of the State Experiment
Station here.

Crops are free of weeds over the
county, having been well cultivated
before the rains a flat week.
Feed crops are headed out and near-
ing maturity with a guarantee of
bumper yields.

Cotton is looking good and is es-
timated to yield 55,000 bales in Lubbock
county this year.

PLAN CLEAN-UP

Vice Section of Dallas to Be Cleaned
Out in Near Future

DALLAS, Aug. 4.—"Little Mexico"
the Mexican quarter in north Dallas,
is due to be cleaned out of vice dens
and beer distilleries in the very near
future, Capt. Frank Scott, plain cloth-
es chief, has told newspapermen.

The quarter has long been the ren-
devous of vice hangouts and "prohi-
bition days" saloons, and despite the
fact that it is heavily policed at all
times, there is entirely too much vice
and crime in violation of the 18th
amendment going on, Scott said.

Few men get too busy to listen to
the caller who would tell them how
bad they are.

HATCHERY BADLY DAMAGED BY FIRE

Blaze Discovered About 2 O'clock
Tuesday Morning Burns Portion
of Sweetwater Hatchery

FIREMEN SAVE BUILDING

Quick and Efficient Work by Depart-
ment Saves Big Property Loss
—Had Insurance

The Sweetwater Hatchery, corner
First and Ash streets, was badly dam-
aged by flames that started in the at-
tic and burned through the roof and
ceiling, in an early morning fire Tues-
day. The blaze was discovered at
about 2 o'clock a. m. Tuesday, and two
trucks from the fire station respon-
ded to the alarm.

A second alarm a few minutes later
brought out a third truck and addi-
tional firemen, but the fire boys, however,
had the flames under control almost
as soon as they arrived at the fire.
Quick and efficient work by the fire-
men doubtless prevented a big fire
loss to the hatchery and adjoining
buildings.

The blaze started in the attic over
the incubator room and is believed to
have originated from electric light
wires, according to M. T. Mauzey and
George Lackey, managers at the build-
ing. Mauzey is directly in charge of
the hatchery. The same building,
however, houses a large stock of farm
implements, twine and wind mills
handled by George Lackey. In the
poultry pens in the rear of the build-
ing were scores of fryers and hens,
but the poultry was not hurt by
flames or water.

The two huge incubators were dam-
aged considerably by water, as were
also other contents of the building.
The loss was estimated at \$1,500, fully
covered with insurance.

PLANES SET UP

MacMillan Expedition Makes Trial
Flight in Etah—Commander
Has Breakdown

By United Press.
WASHINGTON, Aug. 4.—Two of
the exploring planes of the MacMillan
Arctic expedition have been assembled
on the beach at Etah, Greenland, and
one has already made a successful
flight, the navy department advised
today after receipt of a dispatch from
Commander MacMillan.

The commander made a 30-minute
flight in the NA-2 which suffered a
slight break before landing and
moored at a buoy off shore.

President In Favor of Merger of Railroads

By United Press.
SWAMPSCOTT, Aug. 4.—Consoli-
dation of railroads, if carried out, will
solve most of the transcontinental
problems of the nation in the opinion
of President Coolidge.

Mr. Coolidge regards the Van Swer-
inger-Nickle Plate merger now before
the Interstate Commerce Commission
as a test case, and if it is consummat-
ed, he expects many other railroads
to follow suit, it was said at the sum-
mer white house today.

Defies Explanation

YOSEMITE, Calif., Aug. 4.—Yose-
mite's Lorelei defies discovery.
Hikers returning from Waterwheel
Falls in the Tulome Canyon, have re-
ported strange and weird calls, every
few minutes. Some said the call
sounded like a woman's voice.

Park naturalists decided there were
no animals within its boundaries that
could make such a cry.

Ranger Clyde Booth suggested that
tree limbs rubbing together in the
breeze might cause the sounds, but no
one has been able to locate limbs in
such a situation.

Imaginative hikers insist the calls
come from a Lorelei, somewhere in
the mountain peaks.

MEET TODAY

SHERMAN, Aug. 4.—The forty-
eighth annual convention of the rGay-
son County Old Settlers Association
opened today at Old Settlers' Park,
with a large crowd in attendance. The
reunion and picnic will last for four
days.

The first day opened with a band
concert and an address of welcome to
the settlers. A baseball game this af-
ternoon will be the feature of the af-
ternoon session. Several games are
on the schedule of the convention.

WEE DICKIE KERR BACK

By United Press.
CHICAGO, Aug. 4.—WEE
Dickie Kerr, White Sox pitcher
who bolted the team following
the 1919 world series, was rein-
stated in organized baseball by
commissioner Landis today.
Kerr will join the White Sox
immediately it was said at the
club headquarters.

DANGER IS OVER IN FLOOD SECTION

Rio Grande Is Settling Down After
Record Rise—Relief Is Felt In
El Paso Area

CREST PASSES FABENS

Actual Damage of Flood Is Small—
Fields Near Fabens Under Water
—Adobe Houses Collapse

By United Press.
EL PASO, Aug. 4.—Receding flood
waters eased the tension that has been
felt along a 100 mile stretch between
here and Fabens, Texas, where the
swollen Rio Grande has been threat-
ening to overrun hundreds of acres of
fertile farm land.

The crest passed through Fabens
during the forenoon, causing no seri-
ous damage. Actual damage by the
flood in this section has been small
generally confined to the low land
country near Fabens, where 3,000
acres of cotton land were under a foot
of water.

Scores of adobe houses collapsed in
the rise, but property damage in the
inundated area will not exceed \$15-
000, according to a conservative esti-
mate.

READY FOR MEET

Judges, Commissioners and Engineers
From Many Counties To Attend
Session Here This Week

Everything is in readiness for the
highway meeting in Sweetwater Thurs-
day and Friday and indications the
first day of the week were that several
hundred county officials and highway
engineers would arrive in Sweetwater
Wednesday night and Thursday for
the opening of the two day session.

According to A. S. Mauzey, county
judge, who has been active in plan-
ning the meeting and program, stated
that the meeting and program, advices
received here from many county offi-
cials indicated that representatives
would be here from many counties
throughout the state.

Daring inclement weather, it is be-
lieved that the attendance for the two
days will exceed 300 visitors. The at-
tendance will be made up of county
judges, commissioners courts, highway
engineers, members of the State High-
way Commission, and others interest-
ed in highway construction.

Invitations were mailed to every
county judge and commissioners courts
in the state some time ago. Re-
sponses from many show that a big
attendance can be expected here on the
two days. County officials from a
radius of 150 miles of Sweetwater will
especially throng to this city for the
meeting, it was stated. Judge Mauzey
has received word from officials
from the following counties that they
will attend the sessions: Lubbock,
Garza, Scurry, Jones, Fisher, Taylor,
Shackelford, Callahan, Palo Pinto,
Russell, Tom Green, Coke, Coleman
and Mitchell.

Giants Buried Alive

TOKYO, Aug. 4.—The gruesome
myth of the "human pillar" has been
verified by unearthing of skeletons
in the grounds of the Imperial Palace
in Tokyo.

Workmen repairing the ancient cita-
del in the Nijubashi were horrified to
uncover the skeletons of a number of
giant men standing guard 12 feet be-
low the surface of the earth to pro-
tect the fortification.

The skeletons were taken as verifi-
cation of the tradition of the "human
pillar" a superstition of ancient Nip-
pon. It was a custom, according to
mythology, to sacrifice human beings
upon beginning erection of a fortress.
Living bodies of the strongest men in
the nation were buried in the belief
that their strength would be imparted
to the building.

News of the discovery was kept
secret by the government, but leaked
out when workmen who had found
them repeated the tale. The skeletons
were turned over to the Tokyo Imper-
ial University for examination and
burial.

CANADA PUTS BAN ON TEXAS STOCK

Chairman of Texas Livestock Com-
mission Receives Notice of Can-
adian Embargo

COVERS THREE STATES

Texas, Oklahoma and New Mexico
Stock Banned from Canada
—Hoof and Mouth Outbreak

By United Press.

FORT WORTH, Aug. 4.—Bel-
ief that the Canadian government
would shortly modify its embargo
on livestock and other shipments,
established following recurrence
of the hoof and mouth disease in
south Texas, was expressed here
today by E. O. Callan, chairman
of the Texas Livestock Sanitary
Commission.

Notice of the embargo which
covers Texas, Oklahoma and New
Mexico, was received by Callan
last night.

"There was no information other
than the embargo had been laid
down," Callan said. "It is doubtless
due to the hoof and mouth outbreak
in south Texas near Houston."

Only an eleven square mile area is
under quarantine and there has been
no developments since the latest out-
break occurred a week ago, Callan
said.

LARGE CROWDS

Capacity Audiences Hear Preaching of
Evangelist McMillan at Church
of Christ Revival

The revival meeting now being
conducted by the Church of Christ at 4th
and Elm streets continues with increas-
ing interest daily. Capacity crowds
greeted evangelist McMillan at all
three of the services last Sunday.

People are attending the meeting
from several nearby towns and commu-
nities.
Monday evening the minister ad-
dressed a splendid audience on the
subject of "The Lord's Last Commis-
sion to His Apostles." He stated, in
part, that the commission given after
the resurrection of the Lord annulled
every one before it; that it is the one
we are under today; that it is announ-
ced in the closing chapters of Matthew,
Mark, Luke and John, and it's working
out is given in the Acts of the Apos-
tles.

Services are held twice daily at 10
a. m. and 8:15 p. m. Evening services
are held on the lawn.

WILL BROADCAST

MacMillan Polar Party To Be on The
Air Wednesday Night

WASHINGTON, Aug. 4.—The Mac-
Millan Polar expedition will again at-
tempt to broadcast music from the
Arctic at 10 p. m., Eastern Standard
Time, Wednesday, Commander Mac-
Millan, in Etah, Greenland, today no-
tified the National Geographic Society
here.

The program will extend over a
period of an hour.

The new test will be on the 40-meter
wave length which cannot be picked
up by the average set. No effort will
be made by any of the large stations
to rebroadcast until success of the
present tests are assured.

MacMillan also message that run-
aways are being constructed on the
beach at Etah so that the airplanes
may be assembled and tested.

KILLED BY CARS

Many Die Yearly in Auto Accidents
In U. S.

WASHINGTON, Aug. 4.—More than
five thousand persons will lose their
lives in automobile accidents this year
in the nation's larger cities, according
to estimates of the Department of
Commerce.

Figures gathered by the department
18th. This is an increase of 73 per
cent from 57 cities of more than 100,000
in such accidents this year up to July
Population show 2,511 persons killed
the same period last year, while the
last year's total was 4,992. On the
basis of this increase the 1925 record
is expected to exceed 5,000.

Summer resorters seem to suffer
less on horseback now that they have
been toughened by flivvers.

BEDFORD, Ind., Aug. 4.—During
the past few months nearly twenty-
five per cent of the nation's enormous
building program has been for the con-
struction and development of educa-
tional institutions, according to figures
announced by the Indiana Limestone
Quarrymen's Association.

THE TRAFFIC LAWS

Sweetwater doubtless approves the action that has been taken by the city commission and the sheriff's and police departments to cut down traffic law violations in the city. These regulations should be enforced just as strictly as any others, and all good citizens will co-operate and aid authorities by observing parking, speed and other traffic laws at all times.

While there have been no serious accidents in this city recently, it was only a matter of time until speeding, the ignoring of turning blocks, and haphazard parking would result in accidents, wrecks and probably serious

injury and loss of life. The sooner drivers are made to realize that heavy penalties await those who disregard all traffic rules, who push the foot feed to the floor board and turn when and where the fancy suits them, the less danger there will be of accidents and injuries.

Authorities also declare they will put a stop to the practice of parking cars in the middle of the street while the driver goes into a store and spends the morning shopping, or sits in the car and carries on a conversation with the driver of another car, sometimes also parked in the middle of the street. There are better places to stop than in the spot that results in a traffic tie-up for half a block.

Safe and sane drivers will welcome the traffic law enforcement, and will aid officers in the work by safe and sane driving. The reckless, brainless driver who tries to see how fast his car will run on a paved street, who turns the corner the quickest and shortest route he can find, and who races the other car to get to the corner first, these will be sure to feel the effects of arrest and trial in Corporation Court and the payment of a heavy fine. And these drivers are in the same class with the hold-up man, the highwayman, the pistol-toting burglar and other criminals who are constantly endangering human life.

ANOTHER TRIBUTE TO MIGHT

Moral suasion had very little effect upon the British house of commons yesterday when it was considering a proposition to vote \$290,000,000 for the building of new war ships.

"It is no use preaching international disarmament with the Sermon on the Mount in one hand and an order for \$290,000,000 worth of war ships in the other," said Lloyd George.

Another former premier, Mr. MacDonald, spoke to like purpose. "Not a single ship should be built by any government engaged in promoting disarmament conferences," he said.

But the militant spirit prevailed and the appropriation for the battleships was made, by a vote of 267 to 140.

And already the munition mills are preparing to work overtime. It looks like an off year for modern Sermons of the Mount.

WHITE CROSSES

All the white crosses which mark the scene of traffic casualties are not being limited to Ohio grade crossings. Many of them are placing them where a death has occurred along the highways. By night as well as day they are an invitation to careful driving. Of course many drivers there are who will not heed the warnings. They would speed on to the hazard of themselves or others if so many angels from Heaven were to appear and stand pleading for caution where the crosses are. But upon the great majority of motorists the death tokens have an impressive effect, and in time the influence of their sentiment may be a force sufficient to restrain the few maniacs who bring peril to every road.

Smoking Requires Paper Import

WASHINGTON, Aug. 4.—The cigarette habit has grown so rapidly in America that manufacturers in this country are forced to purchase great quantities of cigarette papers from abroad, according to the Department of Commerce.

American cigarette production has increased from seventeen billion to twenty-three billion in the last ten years. Ten per cent of the paper used in the cigarette comes from the Nantes District of France.

The Nantes District, it is estimated, will send the United States more than 9,000,000 pounds of cigarette papers valued at \$2,500,000 during the present year.

Man is lucky at that. He doesn't think of a suit as "this horrid thing" after wearing it four times.

A husband's spirit isn't really broken so long as he thinks he gives it because he is chivalrous.

Raises Own Pay

By United Press. BUENOS AIRES, Aug. 4.—Annoyed by complaints of its inactivity the Legislature of the province of Santiago del Estero met, and proceeded to business.

The first business taken up by the Legislature was the salaries of its members, and such activity was shown that in a few days the salaries were increased just one hundred per cent. Every deputy of that province is to have in future four hundred pesos per month, just what a British member of parliament is paid.

Tallest Clergyman

LONDON, Aug. 4.—England puts forward the Rev. E. A. Causton, M. A., vicar of Duffield, Derbyshire, as the tallest bonafide clergyman in the English speaking world.

The Rev. Causton is 6 feet 8 1-2 inches in his stocking foot. In the pulpit he towers 6 feet 9 1-4 inches.

Annoyed by Thievery

LONDON, Aug. 4.—Church thievery is going from bad to worse in England.

Not long ago a small town Parson complained that his church would have to give up holding bazaars because "hefty" women came in and stole articles on such a wholesale scale they had to carry away their loot in washbags and pillow cases.

And now word comes of still a new type of church thief. He is called the "communion thief" or "confession thief." Numerous parishioners of two of the largest Roman Catholic churches in London are today seeking to recover purse and handbags stolen from their seats while they were at confessional or communion.

Thefts in another church have become so common that the priest had to warn his congregation that the church was not responsible for lost or stolen wraps or purses.

AMUSEMENTS

PALACE

With memories of Monte Blue's performance in "The Marriage Circle," still fresh in the minds of film fans, the announcement comes that this popular star is to make his appearance on the screen as a society idler in "Daughters of Pleasure," a Principal Pictures offering in which he shares stellar honors with Marie Prevost at the Palace Theatre today.

Some of the most notable successes recently scored by Mr. Blue have associated him in the same cast with Marie Prevost and the announcement that he will be seen with the former bathing girl who has made her way to the peaks of stardom in dramatic films, will be good news to many an ardent lover of the cinema.

In "Daughters of Pleasure" Mr. Blue will be seen as a wealthy bachelor—of late he has been a cast as a married man so much that this in itself will be a novelty—a man who is concerned with but two thoughts; the first being "where is the next party" and the second "what can we do to make it really lively."

Wins Degree

Sister St. Mary of Cyprian, a 72-year-old nun attached to a convent in a small Louisiana town, has finally received a bachelor of arts degree from Loyola University. She graduated with forty-two others at the college, all of them young and many of them of the "flapper" type.

Gives Aid to Strike

PEKIN, Aug. 4.—Henry Pu Yi, erstwhile Manchou emperor before his forced abdication last autumn, desires to help laborers throughout China who are on strike against British and Japanese oppression.

He has accordingly made known his desire that the summer palace of imperial days, west of Pekin be thrown open to the public for three weeks at a small admission charge, and that all proceeds be devoted to strike funds.

Dissolving Coffins

LONDON, Aug. 4.—New styles in coffins is a subject to which English coffin makers are giving much consideration.

The new idea manufacturers declare is to do away as far as possible with the old fashioned square rectangular shapes and devise a coffin that "will appeal to all tastes."

Freckles And His Friends

By Blosser

WASHINGTON GOSSIP

WASHINGTON, Aug. 4.—That no news is good news has long been an adage for pacifying troubled minds, but it remained for President Coolidge to put it into effect as a national policy of government.

Political observers here are keenly interested in the thus far successful experiment of Mr. Coolidge in curbing national ills—both fancied and real—by permitting them to cure themselves.

Here in Washington there is less news today than there has been for years. Mr. Coolidge has informed his cabinet officers that what the nation needs most is a rest from the hectic series of changes which have characterized governmental administration since the world war started in 1914. Innovations are not needed he believes, peace and quiet are.

So most of the cabinet officers have left town to permit their departments to mull along in casual routine under their subordinates. No new policies are being put into effect with the single exception of the prohibition reorganization. Inauguration of no new policies is in sight.

The continuous shrieks of congress against one government policy or another have been silenced by the simple expedient of permitting congress to recess for the summer.

Republican leaders are elated with the manner in which the process is working out. Even many congressional leaders believe the recess from school is doing more than anything else to lead industry and agriculture to their own salvation.

At first they were inclined to doubt the advisability of the plan. They thought some aggressive action should be taken upon farm legislation for instance. A good administration, they thought, should advance some new ideas and new policies. And they based their position upon experience of previous administrations.

If congress had been in session this summer there would undoubtedly have been a furor over several developments which now either have worked out their own salvation or appear to be on the road to recovery without assistance.

When the Chinese "crisis" was at its height one of the most prominent senators confidentially told the United Press:

"If only the Senate was in session now we could do something about it. The situation of the country should be focused upon this thing. There is necessity for action. The lethargy of the state department should be exposed or within a few weeks there may be a catastrophe."

That was about two months ago and nothing has happened yet, of moment. It is safe to assume however, that had the senate been in session the newspaper would have been flooded with Chinese developments and the situation would have been handled entirely different from the manner in which it has been handled.

The same applies to the action of foreign governments in refusing to grant diplomatic status in refusing to grant diplomatic status to treasury agents abroad as congress demanded. The prohibition reorganization would not have proceeded in the silent manner it has if congress—which some-

times describes itself as "The Public Eye" but is chided with being the "Public Mouth"—had been in session. The tax reduction program which has hardly been touched, would already have been decided upon the floor.

The tiff between the coal operators and miners would have been subject to investigation and "viewed with a lamp" by a majority of the senate and house.

Instead all Washington is on vacation with exception of newspaper men who are scratching and struggling for news, whereas just about the biggest news is that for the first time in recent political history there is an administration in power the primary policy of which is to create no news at all.

CANT WEAR PANTS

Dallas Girl All Dressed Up For Main Drag Strut—Judge Says No

DALLAS, Aug. 4.—There is still a law in Texas that says the finer sex can't wear men's clothes and as much as peace officers might like to accommodate the debonair flappers who are tired of being girls and would wear B. V. D.'s and pants and stiff collars, it can't be done, Police Chief Trammell ruled in a test case the other day.

A 16-year old Dallas girl persuaded her father the other day to let her wear a pair of "balloon breeches" and had her hair given a boyish bob and all the accoutrements of masculine attire laid out, ready for a triumphal strut down the main stem. But when she asked Trammell, just to be sure, if it was okay, he said that the statutes positively forbade and ruled absolutely and finally "no."

Good-bye Youth

no, no—darken gray hair

Don't let gray hair suggest age. It often comes long before age is due. Keep your dark hair glossy. Keep it looking like a girl's. The way is quick and easy.

Do it, if you wish, like the women of oldtimes—by brewing sage tea and adding sulphur and alcohol. But there is now a better way.

The preparation is ready-made. It has the conditions of great value. All druggists supply it under the name Wyeth's Sage and Sulphur Compound. It is not sticky or greasy. It is easy to apply. The results are quick, and so even, so natural that nobody knows you have used it.

This old way is still the best way to darken gray hair. Generations of women have used sage tea, but never so many as today.

Apply it at night as directed, and morning brings an amazing change. Apply it once or twice more and the hair returns to the darkness, the luster, the softness of youth.

The cost is a trifle—not more than 10 cents for every year that it makes you look younger. Think what that means to you.

Go ask your druggist for
WYETH'S Sage and Sulphur

The girl bitterly denounced the law as "old fogy" but she isn't wearing her straw hat and tuxedo trousers anyway.

KILLED IN GUN BATTLE

Demented Mexican Kills Inspector—Murderer Killed in Turn

By United Press.
LAREDO, Aug. 4.—Augustine de la Penn, American immigration inspector at Zapata died here last night following a gun battle with a demented Mexican.

The Mexican opened fire on the inspector in a restaurant. After he was struck by a bullet the inspector fired once, killing the Mexican instantly.

Around the World Golf Club a New Idea in the Gentle Craft

When the Scotch invented golf or "g. f." as it was originally called, little did they dream that the "gentle craft," at times prohibited in Scotland, would be played in every civilized country in the world. Yet, such is the case today. Recently, the Round the World Golf Club was formed in New York by Capt. William Evans, with executive offices at 110 E. 42nd St., and any man or woman who desires to see up around the world, or drive a golf ball from New York, back to New York, may set sail from East 42nd St. on the Empress of Scotland, the target and best bet in the entire Canadian Pacific fleet, and drive approach (route ten, ship, mail, bear up at Goddard, or do some of the other things well known to golfers for some 2000 miles, provided they join the club and qualify.

Every golfer likes to take a shot at the other fellow's course and see if he's better than he is, and the world's greatest golf course is the one that is being played around the world on a bet, driving the ball but once on each course visited, and although he had to employ a lot of expert caddying, in all sorts of outlandish languages, he had the ball retrieved each time and got back to San Francisco with the ball with sufficient proof to collect the \$50 bet. What a bit of sport it would be if all the Round the World Golf Club members made a similar bet, and succeeded in winning expenses by winning that bet.

Report On Cotton
By United Press.
WASHINGTON, Aug. 4.—The department of agriculture gives the world's visible supply of American cotton on July 31, as 1,119,000 bales against 933,000 bales July 31, 1924.

Get new Radio Batteries now, tune in on Snodgrass tonight over WBAP. We have just received a fresh shipment. Dr. Quast Music Store.

HIGH POWERED MOTOR CARS—RIDE WITH US

**If Back Hurts
Begin on Salts.**

Flush your Kidneys occasionally if you eat too much meat.

No man or woman who eats lots of meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much meat may form uric acid, which clogs the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood; then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in urine so it no longer causes irritation, thus often ending bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.
