## JURY SAYS NOLAN NEEDS NEW JAIL

Recommends Construction to County Commissioners in Report to District Judge Leslie

**PEACE OFFICERS COMMENDED**

Total 23 Felony Indictments Returned—Much Drunkenness Prevalent, Report States

A new and up to date jail is urgently needed in Nolan County, according to the report of the Grand Jury which was rendered to District Judge Leslie this week.

Much drunkenness exists in the county, the jury finds, and they commend that all drunks be placed in jail until they become sober.

Peace officers were commended for their efforts toward law enforcement in the report, which follows.

Sweetwater, Texas, Nov. 5, 1925.

To Hon. W. P. Leslie, District Judge of Nolan County, Texas:

We, the members of the Nolan County Grand Jury, beg to report to Your Honor that we have been in session for twelve days and during that time have examined many witnesses from all parts of the County and have returned into Court 23 felony indictments.

We desire to commend the sheriff and his deputies and the County Attorney for the untiring energy they had put forth for the six months intervening between the adjournment of the last term of this court and the convening of the present term. Their work showed that they were constantly on the job. They had made complaint against practically all of those we have indicted.

We have inspected the jail and found same well kept and in a sanitary condition but we feel that bedding should be provided for the prisoners. We believe that it is impossible for the prisoners to keep warm without mattresses for the cots.

We found the sewerage system in the jail badly in need of repairs or else a new system should be installed.

We recommend to the Commissioners Court that an up to date jail be erected. We think that it is badly needed and that our county can afford a modern jail. We recommend that immediate steps be taken towards financing the building of a modern jail.

We find that throughout the county there is a great deal of drunkenness. We believe that the jail is the place for a drunk man. In this day when nearly every one owns an automobile it is dangerous for a drunk man to be at large. We recommend to the officers that when they find a drunk man that he be put in jail and kept until he become sober.

Respectfully submitted,  
Chas. W. Lewis, Foreman.

M. A. Daugherty,  
W. L. Kinsey.

## PROCLAMATION

To the People of Sweetwater:—

At eleven o'clock in the morning seven years ago next Wednesday the guns on the Western Front suddenly became silent. The greatest conflict of the ages was at an end. It seemed that the forces of death, destruction and desolation were exhausted. The news flashed around the world that the death grapple of nations had ceased, and there was rejoicing and thanksgiving among the peoples of the world.

Many among us have the loss of father, brother, husband or sweetheart in this mighty conflict to remind us that this day should be observed with all due thought and reverence for those who made the supreme sacrifice in the name of Democracy, for those who still suffer the disabling and disfiguring wounds received in conflict, and last but not least for those who sacrificed their loved ones on the altar of their country.

Now, therefore, I, John J. Ford, Mayor of the City of Sweetwater, call on and urge you that you make proper observance of this day, in memory of those who gave their lives in defense of their country, by suspending all business during the entire day of November 11, 1925.

John J. Ford,  
Mayor City of Sweetwater

## SPEAKER HURLS HOT BROADSIDE

Lee Satterwhite Says Would Not Hesitate, Were He Governor, to Have Legislative Probe

MILLIONS DOLLARS WASTED

Governor Ferguson Criticized for Hesitating to Spend \$100,000 While Wasting Millions

By United Press.

AMARILLO, Nov. 6.—Lee Satterwhite, speaker of the Texas House, today made a statement to the United Press asserting that he would not hesitate to call a special session of the legislature if he were governor, citing the allegations contained in the petition filed by Attorney General Dan Moody in a suit against a certain road company.

Speaker Satterwhite, while in Washington recently, criticized the present administration and declaring that he would call a special session of the legislature if the outcome of the present investigations warranted provided the governor failed to.

Satterwhite asserted that conditions in the State Highway Department were costing the state millions of dollars while a special session would only cost \$100,000. Indirectly he accused the governor of approving the waste of millions of dollars of the people's money. He said the action of the attorney general in filing the suit was wholly and entirely justified.

Satterwhite's statement in full follows:

"There would be no hesitancy about a special session if I were governor of Texas, and such allegations be made against any department whose head I was directly responsible for or any such statements made as were filed yesterday. I would not hesitate to convene the legislature and ask for a sweeping investigation in order that all the facts might be fully developed so that the people might know who is responsible and the whyfores of such a deplorable condition fully developed. It is poor economy to hide behind a statement that a special session of the legislature might cost \$100,000, to make a legislative investigation while we sit by and approve of the waste of millions of dollars from the same pocket of tax payers."

"The suit by the attorney general is very proper but it very likely means a long court fight whereas the legislature can clean up the situation in less than 30 days."

## And the Navy Got a New Admiral

Lt. Jimmy Doolittle, U.S.A., got into the Schneider seaplane race at Baltimore and won first prize in what was thought to be a navy affair. When he got back to McCook field, at Dayton, O., his mates put an admiral's uniform on him, loaded him in a run-down rowboat and carted him all over Dayton.

## DEATH SUMMONS JOHN T. JOHNSON

End Came Friday Morning at 8:20 from Double Pneumonia—Suffered Stroke in Summer

WELL KNOWN IN WEST TEXAS

Few Enjoyed Wider Acquaintance—Head of Western Windmill—Punched Cattle in Early Days

John T. Johnson, West Texas pioneer, cowpuncher, ranch owner and for the past two decades head of the Western Windmill Co., died at his home here Friday morning at 8:20.

The immediate cause of death was double pneumonia. Mr. Johnson was stricken early in the summer with a stroke of paralysis from which he had failed to entirely recover. He spent some weeks in the state of Colorado, at Boulder, and partially regained his health, but a turn for the worse set in some weeks ago and the fatal illness found little bodily resistance.

Funeral arrangements had not been completed early Friday, but tentative plans were for funeral services Saturday afternoon at three o'clock from the late residence, followed by burial in Sweetwater Cemetery. Rev. Hendricks, of Anson, Presbyterian pastor who pronounced the marriage service for Mr. and Mrs. Johnson, and later officiated at Mrs. Johnson's funeral three years ago, will officiate.

Few men were better known or had a wider acquaintance than "John T." as he was familiarly called, especially among the older citizens of West Texas.

Born in Tennessee

Born in Tennessee in 1862, Mr. Johnson came to West Texas in the early 80's. He punched cattle for a time and later acquired a ranch of his own on Beal Creek, south of Colorado. He made the Mitchell county town his headquarters in the early days and ranged over that territory and the Panhandle as well.

Late in the 90's Mr. Johnson went into the windmill business and shortly thereafter became associated with J. T. Major, a business association that has been continued unbroken for over 20 years. In 1902 the Western Windmill Co. was formed. It has continued in business uninterrupted with headquarters at Sweetwater and a branch house at Lubbock. Mr. Johnson was in active charge with J. P. Majors as vice-president. Other stock holders include Willard Burton of Fort Worth and E. H. Lingo of Long Beach, California, prominent Texas lumbermen.

Moved to Sweetwater

The Western Windmill Co. was first established in Colorado but was moved to Sweetwater in 1910. Mr. Johnson came with it, and Mr. Johnson moving here a short time thereafter.

John T. Johnson was a stockholder in the First National Bank here, a charter member of the Sweetwater Lodge B. P. O. Elks and a charter member of the Sweetwater Country Club.

With him when he died were Mr. and Mrs. C. A. Ingram. Mrs. Ingram was a niece of Mrs. Johnson. There were no children.

Mr. Johnson was a well known figure about town. His keen analytical mind and flaming wit usually made him the center of a crowd for he enjoyed nothing more than a swift exchange of reports. He walked always with a slight limp, the result of injury sustained when a horse fell on him. The limp, however, was not the only reminiscence of early cowpunching days that he carried with him. He had an apparently inexhaustible fund of stories and anecdotes about the early days that are gone forever and once started, the listener was sure of interesting entertainment. He cared nothing for ostentation, although his home was one of the best in Sweetwater. That was not attributed to "John T.," however, for he said he told the architect to build him a big gallery and then add the house to it.

He was an active critic in municipal affairs serving for a time on the Board of City Development. He circulated a petition for paving Fourth Street and was one of the first to sign the Elm Street petition.

LAST SERMON

Rev. Henson to Close Year Sunday Morning at Methodist

Rev. J. R. Henson will close the year at the Methodist church in Sweetwater with his Sunday morning sermon, which he will devote to "The Jubilee." Mr. Andrews will sing the "Golden Bells." At the evening hour Rev. R. A. Stewart, presiding elder, will occupy the pulpit.

## WILL SELL MORE FAIR STOCK NOW FERGUSON READS COPY ROAD SUIT

Directors in Meeting Urge Everyone to Pay Up Notes and Obligations to Association

PLAN NEXT YEAR'S FAIR MAKE NO COMMENT YET

Earlier Date, New Agricultural Exhibit Building, Strong Program Amusements Discussed

Decision to sell the balance of stock held in the treasury of the Nolan County Fair Association, an appeal to everyone who is indebted to the association to "pay up" and plans for the coming year were principle features of the meeting of the directors of that organization Thursday night.

A spirit of optimism prevailed over the successful exhibition staged this year, marred only by cold weather which cut down attendance and decreased receipts.

While the actual operation of the fair showed a profit, the Association has around \$1,000 more invested in buildings and equipment than stock has been sold for and it will be necessary to sell the balance of the stock in order to come out on the proposition. An active stock selling campaign is expected to be undertaken right away. Only 300 of the 400 shares originally issued have been sold and it is essential that the balance be sold right away.

The directors talked of a new agricultural building as needed for another year with invitations to adjoining counties to send exhibits here, more work on the race track so as to get it in shape for automobile races was also considered essential.

With buildings completed, it is thought that next year's fair can be held earlier so as to avoid the cold weather that hit so early this year.

## FERGUSON READS COPY ROAD SUIT

Governor's Secretary Obtains Copy of Allegations from Attorney General's Department

Neither Lanham Nor Ferguson Has Anything to Say as Yet—Have Long Conference

By United Press.

AUSTIN, Nov. 6.—That the governor intends to study the allegations made in the suit filed by the Attorney General yesterday brought against the American Road Co. for cancellation of the maintenance contracts, forfeiture of its permits to do business in Texas and the recovery of \$650,000 alleged to have been paid in excess of its dues, was indicated today when the governor's secretary secured a copy from the Attorney General's department.

There has been no comment from the executive office since the filing of the suit yesterday.

Because of the absence from the city of District Judge George Calhoun in whose court the suit was filed, there has been no hearing of the injunction feature of the litigation.

In the opinion of the attorney general, there will be a hearing next week.

F. V. Lanham, chairman of the Highway Commission continued in Austin today. Rumors of an estrangement between Lanham and Ferguson were considered doubtful today when it became known that Lanham and Ferguson had an extended conference today. Neither have made a statement.

## PLAN NEXT YEAR'S FAIR

Earlier Date, New Agricultural Exhibit Building, Strong Program Amusements Discussed

Decision to sell the balance of stock held in the treasury of the Nolan County Fair Association, an appeal to everyone who is indebted to the association to "pay up" and plans for the coming year were principle features of the meeting of the directors of that organization Thursday night.

F. V. Lanham, chairman of the Highway Commission continued in Austin today. Rumors of an estrangement between Lanham and Ferguson were considered doubtful today when it became known that Lanham and Ferguson had an extended conference today. Neither have made a statement.

## TO HANG DEC. 3

HAITFORD, Conn., Nov. 6.—Gerald Chapman will hang here on December 3, in the Wethersfield state prison, it was announced following refusal of his last appeal to the Supreme court.

## ROTARY MEETS

Evangelist Ashford Entertains Gathering With Music on Handsaw—Many Present

One of the best attended meetings yet turned out to see Henry Rogers preside as chairman in the hope that he would be assessed the usual fine assessed against members for delinquent contrary to the rules of the Rotary at the regular meeting Friday at noon at the Hotel Wright. He was not and the members hope for better luck next week from Clyde Payne—coming up.

Evangelist Ashford, who is conducting meetings at the Lamar street Baptist church this week, was an appreciated visitor. He told some anecdotes and then played "Nearer My God, To Thee" on a common ordinary high tempered hand saw, using a violin bow.

Davis Clark talked briefly on the desirability of cleaning up Sweetwater with special reference to the weeds on vacant lots. Then everyone stood up. Those with the briefest service in Sweetwater sat down first. Finally Henry Rogers and Buck Johnson—at the 20th year—were standing alone. Buck was awarded a rake, shovel and hoe as the chairman of the Rotary cleanup campaign.

## GET NEW WELL

Another Producer Brought in Mitchell Field

COLORADO, Nov. 6.—The big sensation in Colorado oil circles developed Thursday when the crew at Choate and Henshaw's O'Daniel One, wildcat in section 24, block 30, T. & P. Ry. Co. survey, began to bail considerable free oil from the well at 2,640 feet. The oil is of high gravity and was found 230 feet above producing level in Foster One of the Magnolia Petroleum Co., four and one-half miles northwest.

## RAIN CONTINUES

I. G. N. and Highways Blocked out of Houston by Excessive Rains of Recent Days

By United Press.

HOUSTON, Nov. 6.—Rain the past 24 hours has closed every road out of Houston, isolated nearby towns and crippled others according to meager information telephoned here today.

The I. G. N. railway reported tracks washed out in five different places between Comptche and Crockett. It was expected to clear all trains and 12 towns were isolated.

The rain is still falling in a steady drizzle.

## AFTER NEGRO

Attempt to Kill Colored Man on Trial for Slaying J. T. Robinson in Dallas

By United Press.

DALLAS, Nov. 6.—An attempt to kill Jim Kimb, negro, convicted of slaying J. T. Robinson was frustrated last night in the court room, it became known today when the jury returned with the verdict.

Mrs. Wanda Robinson drew a pistol and aimed it against the negro's back. The weapon was bounced from her head by a deputy sheriff and the judge.

## TALK MEAT BILL

Members City Commission Discuss Meat Inspection Ordinance—Bardwell Opposes Measure

Payment of bills, discussion routine matters, narrowing of Galveston St. and various argument over a proposed meat ordinance were principle features of the regular meeting of the City Commission at the City Hall Thursday.

The meeting was attended by Water Commissioner Roy Bardwell, it being the second regular meeting that he has been able to attend since his recent illness.

The proposed meat ordinance provided for inspection of all meat sold in this city both before and after killing. Commissioner Bardwell based his opposition to the proposed measure on the basis of cost of inspection and inconvenience to the meat markets affected.

The proposed ordinance was tabled. Members of the commission also voted to eliminate the Western Union time clock from the City Hall and install another type where the first cost would be the only cost.

## SLOW RAIN FALLS

Drizzle Begins Early Friday Morning—Continues

A slow, drizzling rain began falling here around 6:30 Friday morning and at noon had deposited around .09 inches of moisture.

The damp mist was fairly general in West Texas Friday but reports failed to reveal any heavy downpour anywhere this morning. The usual interruption to cotton picking was in prospect.

## BUILD ICE PLANT

Colorado to Get New Plant—Abilene Man Interested

COLORADO, Nov. 6.—Announced that Colorado is to have a modern ice and cold storage plant in operation by April 1 of next year was made here by O. D. Dillingham, Abilene capitalist and banker. The Colorado plant will be built by Dillingham and his business associate, O. L. Alexander on a site west of the Colorado river purchased from Earl Moorison.

## 5,000 Raids

Tom Cavanaugh, Pittsburg se lieutenant, has resigned from force after having made more than 5,000 raids. Once he had been on the force twenty years.

## AWARD PLACES

West Texas Wolf Hunters Name Sam Witt's Dog for First Place in Field Trials

Owing to the high cold wind, the third day's run of the West Texas Wolf Hunters Association was abandoned Thursday at Maryneal.

The judges, however, awarded the first place in what trials were run to No. 54, the entry of Sam Witt "Ruff".

Second place for hunting and trailing was given to entry No. 92, Jess Allen's dog "Steamboat." Jess Allen is a brother of Dr. R. R. Allen of Sweetwater residing at Eastland. The silver cup won by "Ruff" is to be displayed in the Costephens Hardware Co. window.

The trials were held in the south end of the County with headquarters at the Price Maddox ranch. There were a large number of entries, from Callahan, Eastland, Rannels and many other counties.

Trouble with mixing business and pleasure is you are so liable to ruin both of them.

Wife: "Dear you're looking so well these days."  
Husband: "Listen, I don't want to play bridge tonight."

## COURT OF HONOR BOYS

Court of Honor To Be Conducted by Boy Scout Men Here

A Court of Honor will be conducted by the Boy Scout officials in Sweetwater Friday night at the Court House. It is the first that has been held since the organization of the Buffalo Trail Scout Council here and the public is invited.

A number of boys who have won recognition during the past year will be awarded proper insignia at the meeting.

Tech 115, Plainview 0

LUBBOCK, Nov. 6.—Plunging, passing, circling the ends and working fake plays occasionally, the Texas Technological College Mustangs ran rough shod over the Wayland Jack Rabbits of Plainview here today when the final count ran up in three figures with all the Tech squad playing a part of the contest. The final score, 115 to 0 was the count of 17 touchdowns and 13 field goals.

## TAKES OAKLAND AGENCY

E. Joe Demmer has taken over the agency for the Oakland Motor Car and will represent their well known cars in this territory beginning about Dec. 1.

Mr. Demmer recently sold the Sweetwater Vulcanizing Co., but has not announced his new headquarters yet.

**ABOUT THAT JAIL**

The Reporter, from time to time, has advocated the removal of the old eyecore that is masquerading on one of the city's principal business corners as the Nolan County Jail.

It has given as a reason for the jail's removal that this is not the location for a jail in the first place, and secondly, the structure is about to fall over of its own accord some of these fine days if something is not done about it. And that's not much exaggeration, either.

And now the grand jury for the current term of District Court recommends to the County Commissioners that such action be taken. It is not the first grand jury that has taken this action—let it be the last.

Visitors to Nolan County are very apt to land in Sweetwater first. The first thing they see in Sweetwater usually is the Nolan county jail. And if they approach within earshot of the structure, more than likely a volley of obscene remarks from some leering prisoner will greet their ears, to say nothing of the women of this city who must frequently pass this corner, and who are more or less continually subjected to this annoyance.

Some plan can be devised whereby the county's jail needs can be taken care of less conspicuously and less objectionably than is the case at present—and the county would welcome a suggestion from the Commissioners' Court as to how this can be best brought about—instead of ignoring the current report as the last one was ignored.

**THE HIGH COST OF FIRE**

It has been estimated that the fire waste of the United States is \$1,044 a minute. Staggering as it may be it is not all of the story.

At the last meeting of the National Fire Waste Council, Ira H. Woolson, New York engineer, made the following estimate:

"The best census figures available indicate a total urban population in the United States for cities having a population in excess of 8,000 approximately 50,000,000. Assessing the average per capita of \$2.70, as calculated in 25 cities, upon this population would indicate a cost for fire department service of \$135,000,000, or a total annual fire loss to the country of \$670,000,000, exclusive of water supply. Such figures are staggering and they are believed to be conservative. The end is not reached. How long can we stand such terrific waste? The burden is needlessly heavy, because much of it can be eliminated by judicious legislation."

Upon this basis of calculation the cost of fire would be approximately \$1,275 a minute.

The reason for this condition, Mr. Woolson attributes largely to our habits of fire combustible construction—"Coupled with this," he continues, "is our excessive carelessness and wastefulness. These two national characteristics have reciprocal relations, each stimulating the other and both erecutive of fire hazard."

**Chapel Exercises**

At the chapel exercise at the high school Thursday morning the Juniors of Miss Hardy's room gave an excellent program. Rev. F. J. Ledwig, State Chairman of the American Legion Americanization Committee, addressed the student body. The theme of his interesting talk was "Obedience."

After the program several school yells were given by the pupils, led by yell leaders Robert Fitzgerald and Miss Bernice Ragland.

### HOUSEHOLD HINTS

#### The Oldest Steak

A friend tells that one time when she visited a famous sanitarium—one of the best known in our country—she was shown an uncooked beef steak which had been preserved in buttermilk for two years, and was as fresh and sweet as the day it was cut from the sirloin. The buttermilk was drained off once a week, and replaced by fresh, but the steak was the same old steak. They told her that the lactic acid of the buttermilk destroyed or prevented the growth of

the putrefactive bacteria which cause meat to become decomposed, and they expected their steak to keep fresh indefinitely.

A short time ago we read an account of a steak, on exhibition at the same sanitarium, which had been preserved in buttermilk for fourteen years, and we think this must be the same old friend seen in its infancy, at the age of two. Doesn't it seem as though buttermilk might be a good beverage to serve with steak?

Most certainly it should seem so, because one of the troubles with protein food is that it is readily attacked by those bacteria in the intestine which break it down into forms that the body is not able to assimilate and utilize. Buttermilk, because of its lactic acid, inhibits this destruction, and thus not only serves us the good of our meat, but preserves us from the poisoning due to absorption of possible toxins that result as by-products of bacterial action. It was not without foundation that Metchnikoff asserted buttermilk to be a preventive of old age, and a producer of long life. Let us then form the good habit of using sour milk as a beverage with our steaks and sirloins, and all our meat dishes.

**Thanksgiving Table Decoration**  
Autumn colors, yellow, buff and red are suitable for Thanksgiving decorations. Use as centerpiece basket of contrasting fruit and scatter paper autumn leaves on the cloth, or fruits, vegetables and leaves attractively arranged in a good sized hollowed out pumpkin will be very appropriate. Place-cards, candle shades and miniature turkeys made of candy or paper mache will also be suitable. Another idea is to use a circular mirror for a lake and surround with artificial moss or evergreens. Procure small birch bark canoes and toy Indian dolls as sold at novelty shops, and deer, buffalo and other tiny animals, arranging on and around the "lake". Make teepees by using three heavy twigs, 8 inches long as frame; cover with circular piece 6 inches in diameter of tan blotter or cardboard or discarded kid gloves, decorating with Indian signs in colored ink. Small dolls dressed like Priscilla and John Alden may be added to the group.

**Have a Baked Potato**  
If properly done, baking is the best method of any for cooking potatoes. The flavor developed is exceptionally appetizing, and perhaps the fact that a baked potato will serve to convey an unusual amount of butter makes a fully-seasoned baked potato a universal favorite.  
Cook those of the same size together, or the smaller ones will cook tender first and become soggy or dry while the others finish baking. Scrub the skins well, as many people like to eat them. Trim only where also

lately necessary. Put the potato on a grate in a moderate oven, and bake 45 to 50 minutes, according to size. A very hot oven produces a hard, dark crust. Then the potatoes feel mealy and tender to the very center when pinched or pierced with a fork, take them out of the oven immediately, and pinch between the fingers so as to crack the potato skin open on one side and let out the steam. Or this may be done by mashing them with a knife. Press the flesh of the potato outwards so that it bulges a little through the opening, place a lump of butter on each potato, sprinkle with paprika, and serve at once.  
Stuffed baked potatoes are made by cutting off the end of the potato, or cutting the potatoes in halves lengthwise, and scooping out the inside in order to mix it with butter, cream and seasoning. A little chopped cooked meat, such as sausage, may be mixed with the stuffing, or spinach, parsley, onion, butter or any preferred flavoring. Sometimes a raw egg is added to the hot potato, and often grated cheese is mixed with it and sprinkled on top. The stuffing is packed back in the shells or half potatoes, and the stuffed potatoes are then put into a hot oven to brown a little.

### QUESTIONS AND ANSWERS

**Question**—What makes waffles crisp?

**Answer**—Use a comparatively thin batter. Select waffle recipe in which fat is used generously. Bake the waffles slowly enough to crisp them thru. Select a waffle iron which will bake a thin instead of a thick waffle. Except when using an electric waffle iron, grease the iron abundantly.

The following waffle recipe is vouched for by the home making editor as being superfine:

1 cup sour milk, 1-4 tsp soda, 2 egg yolks, 2 tsp. butter or other fat melted, 2 tsp. baking powder, 1-2 tsp salt, 2 egg whites beaten stiff but not dry, 1 cup flour.

Mix sour milk, soda, egg yolks, melted fat and beat until frothy. Add flour mixed and sifted with baking powder and salt. Fold in the beaten egg whites.

**Question**—Will you kindly let me have a recipe for graham cracker cake?

**Answer**—Cream one half a cup of butter, add three-fourths cup of sugar, beat together, and add the beaten yolks of two eggs. Have ready three-fourths pound of graham crackers, first dried in oven, then cooled, and rolled as fine as possible. Mix these with three teaspoons of baking powder and one-fourth of a grated nutmeg and add to the creamed mixture alternately with one cup of milk. Beat all together vigorously. Add to the mixture one-half cup of white sultana raisins. Beat the whites of the eggs with one-fourth teaspoonful of salt, and beat these into the cake batter. Bake in square pans, greased and

floured, for half an hour or until well done in a moderate oven.

The last Quarterly Conference of the Methodist church, held last night,

the collections were reported in full, and a report made ready for the annual conference.

## LYRIC

Thirty-six horses and ten wagons all in a single train driven by one man.

This was one of the extraordinary feats performed at the Calgary stampede last summer to provide atmosphere for "The Calgary Stampede", Universal Great Western epic which is coming to the Lyric theater today with Hoot Gibson in the starring role.

With a team of 36 horses pulling ten wagons each fastened behind one another, Slim Moorehouse, famous Albertan stunt driver, drove the seemingly unmanageable train around the streets of Calgary negotiating the turns as though he had a small team of two horses and one wagon.

## PALACE

Some years ago the small boys, and the old boys, too, gasped audibly when they watched Thomas Carrigan playing the role of Nick Carter, famous detective of fiction on the screen. Next week he may again be seen on the screen, in this instance as a bootlegger in the First National Picture, "The Making of O'Malley," with Milton Sills in the starring role. This drama of a New York policeman and a rich society girl will be shown at the Palace Theatre.

## QUEEN

Whoever said money is the root of all evil must have been thinking of "That Wild West." The ranch payroll

is stolen. The bank messenger is killed for it. The pretty girl who owns the ranch is kidnapped for it. The guilt of murder is fastened on the hero—he is nearly hung for it. The sheriff doesn't move fast enough for the cowpunchers—he nearly loses his job for it.

When it's all over, you will have enjoyed thrills, laughs, a fascinating mystery, and a clever ending which will send you away thinking, "Why didn't I think of that myself." Now showing at the Queen.

**Masonic Notice**  
Lodge No. 571, A. F. & A. M. / Called. meeting. Sweetwater Friday at 7:30 p. m., Nov. 6 Work in Fellowcraft Degree. Jim Butler, W. M. C. B. Robertson, Secy 240t2c.

## Cumming Advises Feet Care Should Be Begun as Baby

BY DR. HUGH S. CUMMING, Surgeon General, United States Public Health Service.

The care of the feet can be diseased under two headings—preventive and corrective. As to the former the care of the feet should begin in infancy. As a rule, it is a comparatively easy matter for an orthopedic surgeon to correct congenital deformities of the feet without a cutting operation, if the child is brought to him in its first year.

By skillful manipulation which results in the stretching of shortened tendons and ligaments and by molding the deformed foot into the proper position and shape and holding it there by means of plaster casts, congenital deformities of the feet of young children can very often be cured.

Weak ankles and weak feet occurring in childhood are usually due to general debility and lack of muscle tone. Therefore the nutrition of the infant should be properly supervised by a physician to see that it receives the proper kind of food.

The covering of the child's feet is important. The bones, ligaments and cartilages in childhood are soft and easily distorted by tight stockings and ill-fitting shoes. The child's feet should be bare as many hours as possible, especially when in the house.

As a child begins to stand and walk and shoes or sandals are necessary in order to protect his feet, he should be encouraged to exercise his toes to prevent cramping. Great care should be taken to select shoes and sandals that are roomy, soft and flexible.

**No Heels On Infants' Shoes.**  
Heels should not be worn on infants or children's shoes. Nature meant us to stand and walk in such a position that the heels are on the same level as the toes.

High heels tend to make us fall forward, to bear our weight on the arch of the foot, shorten the muscles on the back of the calf and to disturb the relations of our internal organs.

In localities where ground pollution is not present, it is good for children to walk around bare-footed in warm weather. Of course in places where hook worm is prevalent, this should not be done.

Children should be taught to walk with the toes pointing directly forward, the feet being parallel. It is fallacy to think that toeing out is the correct method of walking. Toeing out tends to weaken the arches.

**Exercises to Keep the Feet Flexible.**  
Certain simple exercises tend to keep the feet flexible and in a healthy condition. Moving the toes in all directions is one of them.

A good exercise for the toes is to try to grasp a small marble with them. Moving the foot in all directions is another good exercise. Raising on the toes and heel is also excellent. These exercises can be taken upon arising in the morning and before retiring at night.

When the nails are cut, it is better to cut them straight across and not to round off the corners because by rounding off these corners, ingrowing nails are encouraged. Persons in certain occupations,

such as waiters, policemen, letter carriers, salesmen, etc., require special care of the feet.

Those engaged in such occupations should bathe their feet every evening upon their return from work and change to fresh shoes and stockings.

In the morning, fresh, clean, soft, well-fitting stockings should be put on and shoes of sufficient length, breadth and roomy at the toes, well-fitting around the instep, with soft leather tops and low heels should be worn.

In this way corns, callouses, bunions, ingrowing nails, over-lapping toes and a host of other foot ills would be avoided.
