

Terry County Farm Bureau Convention Friday Night In Veterans Hall

Terry County Farm Bureau members and their families—expected to number some 1,200 persons—will gather Friday night in Veterans Hall.

The occasion: TCFB's annual barbecue-convention. Feeding of the huge crowd is scheduled for 6 p.m., cafeteria style. Principal fare will be barbecued beef, prepared by FB members and other farmers.

TCFB President J. T. (Jake) Fulford will call the session to order at 7:30 p.m. Following an invocation, he will recognize visitors.

Twin purposes of the annual event is to hear resolutions adopted and to elect six new directors. Of this six, two each will be from Precincts 2 and 4, and one each from Precincts 1 and 3.

Scheduled as principal speaker for the business session is John Gregg of Lubbock, well-known National Cotton Council representative in this area.

Gregg is expected to talk mainly of the economic aspects

of the current cotton program. He will be introduced by Fulford.

Other program items: President's report. Reading of last year's minutes by Secy. Alton Lee. Audit report by Merriman-Thomas of Brownfield. Report on membership standing by L. M. Waters Jr., chairman of this year's membership drive. Reading of the resolutions by Kenneth Purtell, chairman of that committee.

Here are the resolutions which Purtell's audience will hear. They were adopted Oct. 25.

1. Whereas the County Farm Bureau officers do a large portion of the administration of Blue Cross, Blue Shield Insurance, we recommend that the service fee paid by Group Hospital Service, Inc., to the county offices be 8 per cent of all monies for Blue Cross, Blue Shield and CIE collected and remitted for their respective members and that the fees paid by the members not be increased during the year Jan. 1, 1957, to Jan. 1, 1958, excluding the already scheduled increase to

increased coverage.

2. We recommend that a review board for re-classing cotton be established independent of and separate from the Smith-Doxey office.

3. We recommend that the pink sheet of classed cotton be returned with the classing cards to the gin of origin and that the classers identification number or name be placed on this pink list.

4. We recommend that cotton be baled and covered completely with cotton bagging to enhance the quality and to prevent waste.

5. We recommend that print-o-matic type scales be required for use in the compresses.

6. We recommend that any water legislation separate surface water from underground water.

7. We recommend a users-tax to finance water development and that such finance NOT come from an ad valorem tax.

8. We recommend that members of any state water board must represent areas and NOT population and that such members be elected by area voters.

9. We recommend that the state widen farm-to-market roads to at least 20 feet of the paving, and that the rights-of-way be kept to a minimum.

10. We recommend that the state, instead of counties, buy right-of-way land for state highways, except right-of-way in incorporated cities and/or towns.

11. We recommend that the child labor law not apply to farm labor.

12. We recommend that Mexican nationals work contracts be written with equal representation of U. S. Department of Labor and U. S. Department of Agriculture.

Next step in the resolutions process will be their submission to Texas Farm Bureau, at its annual convention Nov. 11-14 in Houston.

Modern Airport Is in Offing; Bond Election Is Necessary

City councilmen and county commissioners were spurred Wednesday by the old saw, "Make haste while the sun shines."

Facing them is a Dec. 1 deadline for getting \$100,000 from the federal government with which to build the modern City-County Airport.

The U. S. money will have to be matched by a like sum from the county. Because of that, a petition was being circulated feverishly today. Required on it are the signatures of 400 voters.

It is expected that the petition will be presented to the county commissioners early next week asking them to call a \$100,000 bond election in the near future.

Should the petition succeed, County Judge Herb Chesshir explained this morning that "taxes would be involved."

Need for the great haste in the matter arose when, only this week, Brownfield Chamber of Commerce was notified that federal money "might be available by December this year—if the city could match the \$100,000 of the government."

Crux of the situation is that the U. S. money might not be available after December, in which case 2-3 years might elapse before the city and county could realize "a sorely needed modern airport."

Decision to try raising the money by a countywide bond election was made Wednesday afternoon in a combined meeting of city councilmen and county commissioners.

If approved, the county will contribute \$100,000 and the city will deed the half-section of land which is now used as an airport 4 miles east of Brownfield. Name will be City-County Airport.

Here from Fort Worth to discuss the situation Wednesday was W. K. McFall, airport engineer with the Civil Aeronaut-

ics Administration, U. S. Department of Commerce.

In gist, McFall, speaking for CAA, reported: "We're ready when you are."

Formal application for the federal money will be made Friday, when this trio flies to Fort Worth to appear before CAA officials: Judge Chesshir, chamber manager Joe Satterwhite, and Pete Harris of Harris Flying Services.

Principals in the Wednesday

sessions were City Councilmen Virgil Travis, John J. Kendrick, Henry Chisholm and Sam Murphy; Mayor Arlie Lowmore; Commissioners Mrs. B. R. Lay, Bob Burnett and Earl McNeil; and Judge Chesshir, Satterwhite, McFall, State Representative J. O. Gillham, City Manager Eunice Jones, City Secretary Jake Geron, Earl Jones, Don Cates, Roy Harris, Fred Nicholson, Robert Noble and Lal Copeland.

H. B. Virgil Crawford is chairman of the chamber's air-

port committee, which undertook about a year ago to secure an up-to-date flying field.

If all goes well, actual work at the site is expected to begin about Dec. 1, the councilmen were told. Among other items, the \$200,000 will be spent clearing and grubbing, grading and draining, acquiring clearing zones, and paving runways, taxiways and aprons.

Throughout the hastily called Wednesday and Tuesday sessions, everyone appeared in complete agreement that the city and the county does need modern airport facilities.

Gillham: "In this air age, we can't afford to isolate ourselves for lack of these facilities. Increased industry here depends much on this new airport."

Lowmore: "I have no doubt about our great need. We are deluged with letters from industry asking us to increase our facilities."

Chesshir: "I'm for it 100 per cent. We almost have to have that new airport."

Satterwhite: "These large companies simply will not land here because of our present set-up. I'm placing the immediate need for a modern airport next to water in importance."
Only point of discussion in the meeting was that of how to raise the hurry-up \$100,000.

Gomez Youth Is Accident Victim

Johnnie Lee Christesson, 11-year-old son of Mr. and Mrs. J. W. Christesson of Gomez Community, was killed about 8:30 p.m., Wednesday, when he was struck by a car 1 mile north of Gomez.

The youth was one of four "trick or treaters" on bicycles. They were returning to their homes when the mishap occurred. Highway patrolmen investigating said the car was driven by William Hugh Kirby, 17, of Route 2.

Johnnie had lived all his life in Terry County, and was a student in Brownfield public school. He is survived by parents; one brother, Joe, who was with him at the time of the accident; one sister, Mrs. Gladys Blocker of Amarillo; maternal grandparents, Mr. and Mrs. J. B. Patton of Abernathy, and paternal grandmother, Mrs. Ethel Christesson of Brownfield and Amarillo.

The youth's death was the fifth traffic fatality this year in Terry, and the 89th on

Bale-Count Rises As Estimates Are Revised

Wednesday noon count of bales turned out by the 17 Terry County gins was 58,044. Figure was determined by Aubrey T. Jones of TEC. Neighboring Yoakum County's ginnings to date are 15,821. Jones also said he was revising his 72,000-bale estimate for the county upward to 75,000.

Terry Project Still Testing After Swab

A Terry County oil project, Anderson-Prichard No. 1 Waters, was still testing Monday after swabbing 40 barrels of fluid in six hours. The swabbing came after a flow of 5.04 barrels of fluid from washing with 500 gallons of mud acid at 8,290 to 8,322 feet. Total Depth 12,797 Feet. Operator set 5 1/2-inch casing at 12,795 feet. Total depth is 12,797 feet. A bridge plug was set at 8,390 feet and perforations were made from 8,290 to 8,332 feet. Swabbing for five hours re-

"Telerama of Fall" Delights Visitors At Brownfield Garden Club's Flower Show

GEE GEE PRIVITT Woman's Editor. The "Telerama of Fall"—its beauty and professional touch delighted visitors at Brownfield Garden Club's third annual flower show, held Thursday in The Party House. "Telerama" revealed itself to be a veritable wonderland of Terry County horticultural specimens arranged in delicate and appreciative patterns.

Standard System Used. The one-day event—it should have lasted two days, at the least—was judged according to the Standard System by Mrs. Hugh Elledge, Mrs. H. A. Hanks and Mrs. B. Craddock, all of Sundown, Mrs. Elledge is a national flower show judge. Winners were named in the following divisions: artistic arrangement, corsage and horticulture. Tri-color award winner in arrangements was Mrs. R. J. Purtell; in corsage, Mrs. Clarence Lewis, and in horticulture, Mrs. Bill Blackstock.

Arrangement Winners. Judges lined up winners in the arrangements division as follows: Appointment With Adventure — Mrs. Blackstock, first; Rebekah Float is First. In the Oct. 25 edition of the NEWS, it was reported erroneously that the Rebekah-Odd Fellow float in the Harvest Festival parade was judged for second place. That float won first-place honors.

Amendments Are Important, Too . . .

The News-Herald invites each subscriber to read this week's "News and Views."

The column had been devoted to explaining the eight amendments which will be found on the ballot in Tuesday's general election.

Some of the proposals are of extreme importance. We urge you to be fully aware of them before you go to the polls. Comments in the column necessarily are brief. However, if you still feel dissatisfied with your knowledge of the amendments, here are some authoritative sources for more information:

State Rep. J. O. Gillham, who sat in the House when all eight were introduced and discussed; A. M. Muldrow, chairman of the State Committee on Higher Education; your school officials and the lawyers of Brownfield, and American Legion officers.

News Views

This week's column will dwell at length on the eight proposed amendments to the state constitution which will be approved or disapproved by the voters in Tuesday's general election. All of the amendments are important. However, there are two which we feel that every

Stormy Presidential Drive Ends With Tuesday Vote

A total of 13 voting boxes will be opened at 8 a.m., Tuesday, and some 3,500 Terry electors are expected to cast ballots in the general election.

Polls close at 7 p.m.

The ballots which Mr. and Mrs. Voter will handle Tuesday are 11 inches wide and 23 inches long, white with black printing, and carrying the names of 38 candidates and eight constitutional amendments.

First to catch the eye of the voter probably will be the

five columns headed Democratic Party, Republican Party, Constitution Party, Independent and Write-In.

Only full slate of candidates is in the Democratic Party column.

Because July nomination in Texas is tantamount to November election, only contest likely to stir major interest is that for President and Vice-President. Major contenders are Stevenson-Kefauver and Eisenhower-Nixon. Even they are op-

posed by Andrews-Werdel of the Constitution Party.

Another Republican opposing a Democrat is William R. Bryant, who would like to beat Price Daniel for governor. A man who would like to beat both of them is W. Lee O'Daniel, whose name almost appeared in an otherwise candidate-less Independent column. He's hoping the Write-In column will give him an "in" to the Governor's Mansion, once more.

Leo N. Duran (R) opposes Will Wilson (D) for state attorney general, and Samuel F. Singleton (R) opposes John C. White (D) for state commissioner of agriculture.

Unopposed are the following nominees for county offices: Morgan L. Copeland, attorney; Don Cates, tax-assessor-collector; James Fulford Sheriff; E. S. Tankersley, commissioner Precinct 1, and Roy Moreman, constable.

Area-wise, the following are

unopposed: Preston Smith, senator 28th District; Robert L. Bowers Jr., representative 98th District; Mitchell Williams, attorney 106th Judicial District; George Mahon U. S. congressman 19th District.

Absentee balloting in County Clerk Wade Vandell's office will be closed at 5 p.m., Friday. A total of 87 electors had gone that route as of Wednesday noon.

Polling boxes, location and election officials at each are as

follows (first name is election judge): Box 1. County Clerk's office. Mrs. Viola Simmonds, Mrs. Gertrude Lowe, Mrs. T. J. Griggs and Miss Olga Fitzgerald.

Box 2. Jessie G. Randal School. James A. Foy, Mrs. Olen Evans and L. J. Richardson.

Box 3. County judge's office. Mrs. Gladys Moorhead, C. D. Wise, Louie Clay and Mrs. Eulice Farrar.

Box 4. County school super-

intendent's office. R. B. Perry, Mrs. Alton Loe and Mrs. Monroe Rowden.

Box 5. Union Gin office. Frank Sargent, Raleigh Luker, Mrs. Doyle Moss and Mrs. C. C. Faught.

Box 6. Meadow school. B. C. Horton, Ann Brooks, Mary Fox and Floy Cadenhead.

Box 7. Johnson Gin office. Woody Johnson Sr. and Mrs. B. F. Foshee.

Box 8. North Tokio. N. F. Lovelace and Mrs. I. W.

1957 Community Chest Campaign To Begin November 12

Goal for 1957 of Terry County Community Chest is \$17,743, approximately \$5,000 less than was sought last year.

The goal was determined Tuesday, when the Chest's budget and admissions committee met to hear from agencies participating last year.

The committee recommended the \$17 thousand figure to the

board of directors, and it was approved. The campaign will begin Nov. 12.

Because the American Cancer Society's Terry chapter asked to be left out of the Chest and because the YMCA did not function this year, the budget committee was able to arrive at the smaller goal-

figure.

Groups which will share in the '57 fund are Boy Scouts, Girl Scouts, Red Cross, Crippled Children's Society, Salvation Army, Goodfellow Fund, Heart Fund and USO.

Board directors are Earl Jones, president; Mrs. Wayland Parker, first vice-president; J. C. Powell, second vice-president; John J. Kendrick, treasurer, and Mrs. Mary Salmon, secretary.

Budget committeemen are Mrs. John Cadenhead, Mrs. O. D. Kennedy, J. L. (Dusty) Kemper, Mrs. Lee Bartlett, Jack Hamilton, Lal Copeland Carl Golden, the Rev. Ralph O'Dell and Curtis Sterling.

Campaign committeemen are Mrs. Leonard Chesshir, Leonard Ellington, B. F. Hutson, Louis Peeler, M. G. Gary, Mrs. Robert Beasley, Leonard Lang, J. T. Bryant and Mayor Arlie Lowrimore.

Publicity committeemen are Mrs. Parker, Mrs. Kennedy

COMMUNITY CHEST OFFICERS — 1957 goal above. On left: Secy. Mary Salmon. Center: of Community Chest here is \$17,743. The amount was determined after a lengthy session Tuesday of the eight agencies which will share in the fund. Directors of the Chest are shown

and Mrs. Chesshir. In the Tuesday session, representatives of the American Foundation for Infantile Paralysis and the cancer society said their groups could not participate in the drive because they feel that their educational campaigns are not as successful when included in a community chest or united fund.

The representatives agreed further that their educational

campaigns were as important as the money-raising.

METHODISTS DINE—Members of First Methodist Church gathered Tuesday night for a barbecue supper in their almost-completed new sanctuary. Part of the estimated 200 attending is shown in the pictures. The occasion was the kickoff campaign-fellowship dinner. Purpose: To complete plans for securing some \$50,000 for furnishing the sanctuary. Principal speaker was Dr. J. Chess Lovern, pastor of First Methodist at Lubbock. The Rev. Lovern praised the congregation for its efforts and its courage "with which you face your tasks" (Staff Photos)

News-Views—

(Continued From Page 1) citizen not only should vote but should work toward getting them passed. Our two pets are Amendments 3 and 4, the first to provide additional money for more adequate classrooms, laboratories and other facilities in our 18 state-supported colleges — WITHOUT added taxes. Well might you say that number 3 is impossible! It isn't, however, and we'll attempt to explain further along in this space how the money-without-taxes can be had and will be had if you'll vote FOR Amendment 3. Sam Teague, owner of Brownfield Motor Company, is chairman of the Terry committee working for approval of the amendment 3, and we'll quote Sam: "It will be a 'crying shame' for the citizens of this state not to take advantage

of this opportunity." Amendment 4 will provide that all-important legislation enabling our teachers to retire with something of an adequate living expense. Your school officials and teachers will be happy to explain the finer points of this proposal. You'll find that even the older teachers are working hard to get approval even though it won't benefit them too much. Amendment 3 details: As you may or may not know, there is a Permanent University (Texas) Fund which was created before there were any other state schools other than the University of Texas and Texas A&M. Texas U. gets two-thirds of the income from this fund and A&M gets the remainder, yet none of the money may be used for the support of other schools within the Texas A&M College System or University of Texas System. No. 3 provides for a portion of this money to go to each of the schools in the two systems, and also allows each of the two schools (T. U. and A&M) to invest more than 50 per cent of the Permanent University Fund

in stocks, bonds and government securities, which will return about 3.5 per cent on their money rather than the 2.7 per cent return which they now get. All other state-supported institutions get their money from a five per cent ad valorem tax. If Amendment 3 passes, the two systems will be self-sufficient with their permanent fund—all of which will make available a lot of extra money to the other state schools from the ad valorem fund. After working on it for three years, the committee which has studied No. 3 and prepared it for the ballot feel that taxpayers will not have to pay any more than they have been paying for the past several years to take care of the tremendously increasing enrollments in our colleges for the next 20 years. Now for Amendment 4. For several years, our schools have been losing teacher merely because of the low salary scales and lack of security. Plans now are being studied to remedy the situation. If 4 passes, it will do much to keep to attract teachers. Amendment 4 merely gives the state authority to match what an individual teacher puts into retirement, provided the amount does not exceed \$504 annually and that it does not exceed 6 per cent of the teacher's income for

the year. Money put into the retirement fund by teacher and state will be invested, the income from the investment and that in the fund enabling teachers who have given years of service to our children to retire. The NEWS urges every voter to support Amendment 4 and to use his influence for its passage between now and Nov. 6. —n-v— State Rep. J. O. Gillham discussed each of the proposed amendments before Brownfield Jaycees Monday noon. The representative pointed out that in Texas, alone, there is a shortage of 15,000 "qualified" classroom teachers. Gillham also presented the Jaycees the following figures: In 1955, there were 63,000 college students in our state institutions of higher learning, and it is estimated that there will be 101,000 by 1970. —n-v— Amendment 5 . . . Increases the Veterans Land Fund to \$100,000,000, takes the governor and attorney general off the Land Commission Board, and hires two full-time men to work on this commission. —n-v— Amendment 6 . . . Provides for a new oath of office for all appointed and elected state officials. This oath will make them swear to do certain things that have not been done in the past. —n-v— Amendment 7 . . . Permit the family of an insane person to not have a jury trial to commit one to an institution. It will simply require them to present competent medical facts to judge. This will save a lot of embarrassment and humiliation to all person involved. —n-v— Amendment 8 . . . This will deny bail to persons who previously have been convicted of two crimes. This should be passed to keep habitual criminals in jail where they belong. —n-v— Amendment 9 . . . Will give the commissioners court in each county the right to take money from one fund to the other fund without the taxpayers voting to do so. As you know, there is often too much money in (for example) the Road Fund and not enough money in the General Fund. —n-v— Amendments 3 and 4 have been discussed at length, and as Mr. Gillham said Monday should by all means be passed.

Swab— (Continued From Page 1) covered 36,20 barrels of loads oil before the project was swabbed dry. The project is located 8½ miles south of Gomez. Exact location is 1,750 feet from the north and 900 feet from the west lines of Sec. 118. —n-v— Amendment 5 . . . Increases the Veterans Land Fund to \$100,000,000, takes the governor and attorney general off the Land Commission Board, and hires two full-time men to work on this commission. —n-v— Amendment 6 . . . Provides for a new oath of office for all appointed and elected state officials. This oath will make them swear to do certain things that have not been done in the past. —n-v— Amendment 7 . . . This will save a lot of embarrassment and humiliation to all person involved. —n-v— Amendment 8 . . . This will deny bail to persons who previously have been convicted of two crimes. This should be passed to keep habitual criminals in jail where they belong. —n-v— Amendment 9 . . . Will give the commissioners court in each county the right to take money from one fund to the other fund without the taxpayers voting to do so. KIMBROUGH BROTHERS Local Trio Shares in National Contest A family vacation this summer paid off handsomely in fishing equipment for the three sons of Mr. and Mrs. W. A. Kimbrough of 710 East Main. Bill, 13, and Robert and Richard, 10-year-old twins, were notified this week that they had come out, respectively, first, second, and fourth in a fishing contest sponsored by Boy's Life magazine, official Boy Scout organ. Bill's prize was a complete spin-fishing outfit. Robert's was a fishing rod, and Richard's a supply of fishing line. Competition in the nationwide contest was fishing for arctic grayling, which is found only in high, cold waters. The Kimbrough brothers caught their arctic graylings at Yellowstone Park during a family vacation this summer. Winners of the contest will be announced up in an upcoming issue of Boy's Life.

Tex Says He's No Expert But He Believes Ike Is
The other night a bunch of us were sitting around in the drug store after the football game, drinking coffee and talking. You know how it is after a game in a small town, especially after the home team loses. Nearly every man in the crowd had a theory as to why we didn't win the game. Most of them, of course, blamed the coach. I couldn't help remembering that before we consolidated the county schools we didn't even have enough boys to make up a football team. And these same football experts who were saying what Rockne or Bud Wilkinson would have done, up until a few years ago they didn't know a football from a watermelon. But that's the way it is in a small town (and in big ones, too, I understand). I guess there's no real harm done, although sometimes it's pretty rough on the coach. I guess we have a right, in this free country, to be self-appointed experts in any line we want to pick out. It seems to me that most people choose either football or politics. Take this presidential election coming up next Tuesday: During the last few weeks I have heard so many different political experts that I nearly get confused sometimes. I have to stop and think that the fellow who is talking probably doesn't know any more about it than I do, and that helps me keep straightened out. In fact, I guess I have had my mind made up all along. To make no bones about it, I like Ike. He's a man you can always look up to and respect—the kind of man you'd be proud to point out to any person, from any country on the face of the globe, and say: "That's our President!" About Adlai, now, I'm not so sure. Of course, if he was elected, he would be my President, too, and I would hope he'd do a lot better than most people around here seem to think he would. This is something I don't think we need to worry about, because from all I can hear and read, Ike is going to win it again. It seems to me that if Adlai ever had a chance around here, he threw it away when he came out with that H-bomb business. Now, the folks in our town don't know much about H-bombs, except that they don't wa t any personal dealings with them. Our scientific knowledge of H-bombs is about on a par with our football knowledge. I reckon. But we do know one thing: We don't want some misguided, inexperienced fellow fooling around with our national defense. When it comes to trusting what Bulgargin says or what Eisenhower says, I'll take Ike. So will the rest of the country, if I don't miss my guess. Just before we broke up the other night Doc Brown came into the drug store, and somebody asked him: "Hey, Doc, how's Ike doin'?" Doc's a big Eisenhower man.) Doc said: "Well, it's a busy campaign for the medical profession. Last week Ike went and got his heart examined; and I understand that this week Adlai is going to get his head examined." Yours truly,
Tex

Quick and Easy Party Pie

There's no extra work to make a banana cream pie party-style when you use vanilla pudding and pie filling mix. A dream to prepare and a joy to eat, this luscious dessert with its toasty coconut crust and creamy banana filling will delight even the most hard-to-please guests.

Banana Delight Coconut Pie
 1 package vanilla pudding and pie filling mix
 2 cups milk
 1 baked 8-inch Quick Coconut Crust
 1 cup sliced bananas (2 bananas)
 Cinnamon
 1/2 cup whipping cream
 1 teaspoon sugar

Combine pie filling, mix and milk in saucepan. Cook and stir over medium heat until mixture comes to a full boil. Remove from heat. Cool only about 5 minutes, stirring once or twice. Pour half of pie filling into coconut crust. Cover with layer of sliced bananas. Add remaining pie filling. Sprinkle with cinnamon. Chill. Just before serving, whip cream, sweeten with sugar, and spread over top of pie.

Quick Coconut Crust. Spread 2 tablespoons soft butter evenly on bottom and sides of 8-inch pie pan. Sprinkle 1 1/2 cups shredded coconut in pan, pressing evenly into the butter. Bake in slow oven (300°F.) 15 to 20 minutes, or until golden brown. Cool.

GETTING OUT THE VOTE — Although too young to vote in Tuesday's general election, the duo pictured above is doing its part in a "young citizens" drive to get parents and other adults to cast their ballot Nov. 6. They are Johnny Rodgers and Theresia Smith, vice-president and secretary, respectively, of Brownfield Junior High School student council. The badges read: "I can't vote. Can you?" The students particularly are urging their parents to vote for Teacher Retirement Amendment 4. (BHS Photo)

Control Lice As Aid To Wintering Stock, Say Cattle Experts

Since most Texas livestock, due to the prolonged drought, are being fed, lice and ticks can be effectively and economically controlled. Parasite free livestock will do a better job of utilizing their feeds and will go into the winter stronger if these blood suckers are controlled, says Extension Entomologist F. M. Fuller.

Now that the fall job of shearing sheep and goats is underway, Fuller reminds that infested flocks should be treated as soon as they are sheared. He recommends .06 (six hundredths) gamma BHC or .5 (five-tenths) per cent DDT, TDE, methoxychlor or toxephene solution for a spray. If the animals are dipped, cut the dosage in half.

For beef cattle a spray or dip of .5 (five-tenths) per cent toxaphene will control both lice and ticks. A combination of .5 (five-tenths) per cent DDT and .03 (three-hundredths) percent lindane or gamma BHC also gives effective control.

A five-tenth per cent solution of methoxychlor will control lice on dairy cattle. A single application should be sufficient says Fuller. The material is

best applied as a spray. The entomologist points out that infestations of lice on livestock are easily detected. The adult lice are visible and it is a good bet eggs and young lice also are present if adults are found. Lice populations build up rapidly if control measures are not used.

Because infested animals are usually restless, they eat less and heavy infestations can cause animals to lose weight and go down in condition.

Religion Too Often Used for Selfish Ends

CHRISTIANITY made such progress in the ancient city of Ephesus that the worshippers of Diana became alarmed. The alarm particularly concerned those who were making a commercial business out of religion.

These craftsmen could not have had much success if they had said to the public, "These men are endangering our business." Their self-interest would have been made altogether too apparent. Instead they aroused the great cry that the worship of Diana was being endangered, and they stirred up mob violence with the rallying slogan, "Great is Diana of the Ephesians."

How true is this to every age! Consider the profiteers from every form of commercialism, be it worthy and legitimate, or some unworthy and vicious thing. When profits are endangered, those whose interests are affected almost always hide behind some pretense of principle or conviction.

It may be a plea of personal liberty; it may be patriotism; it may be some form of religious profession or prejudice. But examine closely, and you will find self-interest at the heart of the thing.

Fortunately, it has not always been so. There have been great occasions in history when individuals and groups have been able to rise above self-interest, and see issues in terms of social and moral reality.

It is these who manifest the spirit of true religion. A man's religion ceases to be worthy the moment his motive to make a profit from his faith becomes paramount.

Let us beware lest the noble ideal of religious conviction be tarnished by those who say "our religion" when they mean "ourselves." There is nothing finer than saying "our religion" when we mean it and when our devotion matches our profession.

Lubbock Builder Will Speak for House Tour Sponsored by WSCS on November 8

The Women's Society of Christian Service of the First Methodist Church is sponsoring a house tour Nov. 8 from 2 to 6 p.m. Guest lecturer is Houston Miller, of the Miller Drafting Service in Lubbock.

Miller will speak on "How To Judge a House". He will discuss points that are pertinent to designing and building a home, and also will present facts that should be considered when judging houses that have been constructed or are under construction.

Member of Association Miller is at present the director of the Lubbock Home Builders Association, a member of the Texas Home Builders Association and the National Home Builders Association. He served on the building committee for the Cavalcade of Homes in Lubbock in 1955 and 1956. In 1955, his

Service designed and drew plans for four of the homes shown; this year, they did the plans for the number one Home that was auctioned, and for one other home.

Other experience which qualifies him as a man who knows includes: plans completed for approximately 280 custom-built homes and some 200 to 300 houses built in project form; entrance of a model home in 1955 in the "American Builders" contest, designed for a project builder, which received honorable mention in the nationwide competition; and he has been in the business of home designing and planning in this area for the past ten years.

New Homes Shown
The tour of homes will begin at the conclusion of the lecture. The homes will be

IN FIRST PRESBYTERIAN CHURCH

Miss Patricia Kelly, Mr. Jerry Floyd Anderson Wed Friday

In wedding rites read at 7 o'clock Friday night in the First Presbyterian Church, Miss Patricia Ruth Kelly, daughter of Mr. and Mrs. D. A. Kelly, became the bride of Jerry Floyd Anderson, son of Mr. and Mrs. J. F. Anderson.

Baskets of pink gladioli, greenery and tiered candelabra formed a background for a double ring service read by the Rev. H. L. Thurston of Dalhart. Mrs. Ruth Ramseur, organist, played traditional wedding music and accompanied Dale Travis as he sang "With These Hands," "No Other Love" and "Wedding Prayer."

Father Escorts Bride

The bride, given in marriage by her father, wore an original gown of white French lace and nylon tulle over net and taffeta. The fitted lace bodice was designed with a portrait neckline framed by scalloped lace holding a yoke of criss-cross pleated tulle. Tiny sleeves were complemented by gauntlets. Stemmings from a pointed waistline, the waltz-length skirt of tulle was enhanced with dotted lace appliques and a peplum of lace applied in irregular points at the lower hipline.

Her silk illusion veil was joined to a bandeau of shirred tulle and Alencon lace dotted with seed pearls. The bride carried white roses and lilies-of-the-valley arranged atop a white Bible belonging to Linda Lee Kelly, cousin of the bride.

Attending her sister as matron of honor was Mrs. Spencer Murphy and bridesmaids were Mrs. Royce Kelly of Lubbock, sister-in-law of the bride, and Mrs. Bill Ivy, sister of the bridegroom. They were identical dresses of turquoise velvet-fanned with rounded necklines and elongated bodices accented by wide bands of matching lace tied with velvet bows at the center backs. The immense skirts were cut on circular lines.

The attendants wore circular veils of tulle dotted with pearls and attached to headbands and brodered with pearls. They carried bouquets of deep pink roses tied with pale bows and streamers.

Reception Is Given

The home of the bride's parents was the scene for a reception which immediately followed the ceremony. Mrs. H. N. Key, grandmother of the bride, registered guests at a table which held the bride's book and a corsage marker and a bud vase filled with tiny pink chrysanthemums. Miss Emily Sue Blackstock presented

music during the reception. Covered with an off-white rayon damask cloth, the bridal table was centered with an anniversary candle flanked by lilies-of-the-valley, white ribbon bows and streamers with garlands of pink flowers. A three-tiered wedding cake, topped by a miniature bride and bridegroom standing beneath an arch of pink net and wedding bells, was served by Mrs. O. W. Kelly, aunt of the bride. Another aunt of the bride, Mrs. R. W. Hall, presided at the crystal punch service. Other

SEVEN SOLID REASONS WHY TEXANS SHOULD SUPPORT EISENHOWER

1. He ended the useless war in Korea and has kept America out of war.
2. He has given this country an effective foreign policy, backed up by a powerful defense force at less cost. He does not believe in a policy of weakness.
3. He achieved the conversion from war to peace with the greatest prosperity the American people have ever known.
4. He has kept his promise to the people of Texas by restoring to us our tidelands.
5. He replaced crook-and-crony government by restoring morality, honesty, integrity and sanity, to our national government.
6. He stopped the trend toward socialism by turning to the initiative and ability of the American people rather than government regimentation.
7. He has cut government spending and waste, thus bringing about a cut in taxes.

Ticklers By George

"The regular coffee-maker didn't show up!"

Teachers Support Is P-TA Theme

"We, the People, Support Our Teachers" was the theme of the program, conducted by Mrs. Burton Hackney, when Junior High PTA met Oct. 25 at the school.

Delwin Webb discussed the 4th Amendment, dealing with teachers retirement and which will be voted upon Tuesday. Mrs. V. L. Patterson gave the past accomplishments of state PTA organizations in supporting legislation for better schools, and urged the group to vote in the Tuesday election.

One way to get attention, according to Anne Lee and Patti Wilder, is to silverize one's hair! These two lassies appeared Tuesday morning with their locks sprayed silvery-gray, all of which created much comment. Wednesday morning, all was normal again after a good shampooing Tuesday night!

Seniors are pinching pennies and counting kin-folk as they prepare to order their invitations this week. Thank-you cards also are offered this year.

The annual collection for CROP (Christian Rural Overseas Program) was made Tuesday night. Those taking part in the modern adaptation of "trick or treat" reported a very substantial amount was donated to the program. All the funds will be used for postage to send milk to needy children overseas.

La Nell McAnally, a former BHS student, now living in Pecos, wore a mum from Kenneth Cary and sat with the Brownfield rooters at last Friday's game.

The CYF of the First Christian Church had a party Saturday night at Mrs. Truett Flache's. They ate and then went to a movie.

Ruth Glenn fell out of Jesse George's car Tuesday afternoon. She was scratched up but received no injuries.

Lanny and Mary Lou Webb welcomed a 7 lb., 12 oz., girl Tuesday.

While phoning Jerre Sue Estes from the optometrist's office recently, Ernest Hyman accidentally knocked the phone into the wastebasket. The phone became wedged in the narrow basket, and Ernest had a rather difficult time replacing it to its accustomed position. All during his frantic fumbling, Janith Spears, who works at the optometrist's office, was having mild hysterics!

In a 20-mile race, a man would win over a horse because of his endurance.

CARD OF THANKS
We want to express our gratitude and deep appreciation to all the people who in any way has helped me since my home was destroyed by fire. May the Lord be with all of you in our prayer.

Exchange Teacher Speaks To P.T.A. Group At Wellman

Wellman Parent Teachers Association met at the school Thursday, Oct. 25. Miss Evelyn Jones of Lubbock and former Wellman school teacher, spoke to the group on her experiences in the English homes and schools when she was an exchange teacher in Great Britain. There were 103 adults and 193 children present.

City Council PTA Plans Convention

The City Council P. T. A. met Thursday, Oct. 25, at 7:30 p.m. in the high school home economics lab. Mr. Delwin Webb was elected temporary chairman in the absence of Dr. Tim Faulkner, president.

Plans for the PTA state convention, to be held in Amarillo Nov. 14-16, were discussed. It was announced that delegates from Brownfield are to meet Thursday, Nov. 15, at 12 noon in the Herring Hotel Coffee Shop. Roy Priest is in charge of reservations for the luncheon.

Kenneth Browning announced

Prizes were awarded by the Modern Woodmen of America Insurance company to the following students: 1st prize, a flashbulb camera to Charlene Jackson; second, a fitted train case, Donna Kay Baker; third, a bat and mitt set, Trucene Crowder; fourth, an elephant ring game, Max Hulise; and fifth, a ... Rex.

The company also furnished refreshments for the meeting.

Tuesday's the day, and whether you like Ike or whether you like Adlai, don't forget to exercise that right of yours to vote. Not only is the presidential election on the ticket, but we also vote on Amendments, which you will find covered in another place in this week's issue of the NEWS. I particularly call your attention to Amendment 4, in view of the fact that it deals with teacher retirement. As a stumper for better and more schools, I heartily recommend that you vote FOR Amendment 4 in supporting efforts to keep us supplied with more and bet-

ter classroom teachers. In that vein, I would remind you again that the Senior Girl Scouts will open their nursery at the Presbyterian Church at noon Tuesday so that you may leave your children with the Scouts while you go vote. Please take advantage of this nursery ... and when you go to the polls, take someone with you; a neighbor, a person who has no other way to go to the polls. Let's all be sure to make it to the polls Tuesday.

Speaking of baby sitting, Mrs. Jack Seales, whose husband is one of our night police force, would like to keep one or two children in her home or Friday nights while you go to football games. Mrs. Seales doesn't have a phone as yet, but she lives at 406 E. Lake and will furnish references if you so desire.

The Women's Society of Christian Service of the First Methodist Church will have their annual house tour and lecture next Thursday, Nov. 8. Those of you who have taken previous tours know how exciting it is to be able to see new homes, remodelled homes, and unique homes on these tours. Houston Miller, noted Lubbock builder, will give the lecture, which begins at 2 p.m. at the church. Tickets for the tour and lecture are one dollar, on sale by members. Incidentally, I'd like to thank the WSCS for the complimentary duet and to say that I'll certainly be there. Hope you will, too.

Anyone in the mood to trade stamps? I've had enquiries and am interested myself. If you want to trade, call me and I'll furnish the information. Have had several persons mention to me the fact that there are so many little children playing dangerously near or in the streets in Brownfield. As the mother of a sprightly almost-five-year-old, I know how hard it is to keep a check-rein on them. Having the advantage of 20-30 years on us mothers, they can move about twice as fast, and believe me, they can get away from you in the wink of an eye.

But we can all be a little more careful about keeping our children under our eyes, and it's certainly one way we can help make and keep a good safety record in our city. One of the best ways to do this is to teach our children the dangers of the street and to tell them exactly what can happen to them if they dash out into the street in front of a car. Maybe the books don't recommend this tactic with children, but I threw my books away three years ago anyway. But, please, let's try to keep our children out of the streets.

Things that could have been serious-department: a young schoolboy in pursuit of pigeons took off over the rooftops and fell through the skylight at Franklin's resulting in minor cuts, bruises, a bad scare ... a woman stooped over to tie her shoe Saturday in front of Collin's and "bumped" out the plate glass window ... George Weiss happily rubbed a bruised arm Tuesday and thoughtfully surveyed a shredded shirt and jacket sleeve resulting from a tussel with a combine ... not-so-lucky was Pat Ramseur, who lost three fingers of his right hand in a gin mishap at Tokio last Friday ... neither was Gwen (Mrs. W. A.) Kimbrough, who lost all three rounds with a "mad" automatic washing machine and got a sprained right arm and broken bone for her troubles ... and a "wild" trailer load of cotton careened into the T. L. Treadaway property on South 'B' street Tuesday, biting the top off a solid rock fence and clipping the crysanthemums off nearby.

See you at the polls Tuesday.

Mrs. Warren Stowe To Speak to Group Tonight

Mrs. Warren Stowe will speak on Missions tonight (Thursday) when members of the Evangelical Methodist Church women's auxiliary meet at 7:30 p.m.

The meeting will take place in the home of Mrs. B. W. Young.

Events For Week Given By Church

The calendar of events at the First Presbyterian Church for the coming week is as follows: Sunday, Nov. 4: 9:45 a.m. Church School; 11 a.m., Worship, Rev. Ralph O'Dell will continue his series of sermons on "Our Christian Heritage—Lest We Forget"; 4:15 p.m. Vespers over KTFY; 6 p.m. Junior High Westminster Fellowship will meet in the church parlor. Senior High fellowship will meet in the Young Adult Room.

Monday, Nov. 5: Church Session meets at 7:30 p.m. Wednesday, Nov. 7: Deaconess meeting at 9:30 a.m.; 5 p.m., Westminster choir rehearsal; 6:30 p.m. covered dish supper, followed by mid-week prayer and Bible study; 7:30 p.m., chancel choir rehearsal.

Thursday, Nov. 8: 7:30 p.m. Christian Education meeting. Friday, Nov. 9: Rotary Club meets at 12 noon.

Mrs. John McCraw Is Shower Honoree

Mrs. John McCraw was honored with a layette shower Wednesday, Oct. 24, in the home of Mrs. E. C. Eaves, 1017 E. Cardwell, from 3 to 5 p.m. Hostesses with Mrs. Eaves were Mesdames B. Stice, Tyler Martin, J. T. Clements, Kellie Sears, Denver Kelly, and C. W. Brown.

The serving table was laid with a mint green damask cloth and featured a silver bowl filled with an arrangement of pink carnations and greenery tied with pink net, flanked with mint green tapers in silver holders. Mrs. Clements presided with a nosegay of pink rosebuds tied with green satin streamers, at a table with an arrangement of pink roses surrounded with ed at the silver tea service. Mrs. Stice and Mrs. Martin served pink ribbon sandwiches and white and green mints.

Mrs. Brown registered guests in a pink baby book decorated with tiny dolls.

Belva Lockwood was the only woman ever to run for president.

Will The BIG CITY GOP Machines Control Texas Again?

In 1952 Republicans Won Texas In The Big Cities
Don't Let It Happen This Time!
Vote Tuesday!

The Republicans carried Texas in 1952, but the GOP failed to win an all-Texas victory.

- Eisenhower's lead in Texas was 133,650 votes.
- Nearly all this margin — 133,002 votes — came from only eight big-city counties: Bexar (San Antonio), Dallas, El Paso, Harris (Houston), Lubbock, Potter, Tarrant (Fort Worth), Travis (Austin).
- More than half the 1952 Republican votes came from the big-cities of Texas.
- Outside the five largest counties, Republicans squeezed through with a lead of less than 1 percent.

Texans outside the big-city precincts know what Republicanism means: neglect, indifference, depression. That is why it is important that you vote Tuesday.

- The big-city GOP machines don't care about you.
- Remember: four years ago, Democrats piled up an 85,000 vote lead in 106 small-town and rural Texas counties — only to have that lead wiped out by the votes from Dallas and Houston alone.

Make your vote count! Go to the polls Tuesday and take another Democrat with you. Don't let the big city Republican machines control Texas—and you.

Cry of Doom for Small Farmer and 'Armchair Economists' Catch Full Blast from Ag Leader

By JOHN C. WHITE
Agriculture Commissioner
An alarming note has been struck in the hearts of farmers to whom living directly from the land they own has

became a way of life. The word comes from the fogged thinking of Armchair economists who say, "The Day of The Small Farmer Is Over". Such a statement is a direct

slap to the principles of democracy.

If the day of the small farmer is over, so is the day of competitive free enterprise, the basis of our economy. If the small farmer is being sucked under by forces of the "The Times" then times are bad.

These armchair strategists have said that big, corporate farms are the modern, efficient way to keep agricultural economy running right. They say that whether we like it or not, that's what farming should come to.

Such thinking is preposterous, and for a number of reasons.

In the first place, most persons who own and operate farms and ranches are there because, however tough and confining the work, that's what they would rather do than any- See PREPOSTEROUS Page 3

AG COMMISSIONER SAYS

New Research Should Spur More Use Of Cotton Burrs on the Farmer's Land

New Research by the cotton industry indicates farmers should think twice before allowing that by-product of the harvest-cotton burrs—go to waste.

Some areas of Texas cannot return burrs to the soil without special treatment to kill pink bollworms. But once protective procedures are observed, the burrs can be a real boon in stretching benefits of rain and maintaining fertilization.

Preliminary studies show that on burr-treated soil, wind erosion is lessened because of the better condition of the soil. It also is known that burrs mellow the soil and make it spongy and easier to work. Water penetration

from rainfall is greater and evaporation is minimized.

Crop yields and their relationship to burrs is being studied. On one test farm, five tons of composted burrs increased the yield of cotton lint by 65 pounds an acre; 19 tons of composted burrs increased the yield of lint an acre by 275 pounds.

Cost of burr usage varies but the general figure is about \$2.50 a ton. The burrs themselves usually are free, with the farmer paying only for the spreading. When this spreading is done by the individual, the cost-figure is less.

Effects of burrs on the land remain for an extended period. Definite increased yields from one application of burrs

has been noted for a three or four period. Increased yields made by farmers using burrs in an area usually spurs others to action. The increased water-holding capacity is most attractive to irrigation farmers who face an annual water level decline.

INDEPENDENTS ADD TO WIDE SELECTION

Voter 'Should' Be Able to Find Someone to Check on Ballot

Four years ago, a comfortable majority of the citizens endorsed the Eisenhower slogan, "It's Time for a Change". They were under the impression, it seems, that they were voting for a "change" from New Deal paternalism and the Harry Hopkins doctrine of "Tax and tax, spend and spend, elect and elect".

But now, when President Eisenhower answers Adlai Stevenson's promise of "a new America" with the boast that his administration established "a new direction", it obviously refers to a new course, not for the nation, but for the Republican party. The present political contest is to see who can offer the gaudier package to a dispirited multitude which prizes ease and security above independence.

There still are Americans, however, who would like to see the two party system restored along with Constitutional states' rights and the preservation of national sovereignty and national solvency — who prefer a strong national defense to personal handouts, who would stop foreign aid and want no part of Atlantic Union or World Government.

These Americans, it has been said, "have no place to go" on Election Day. These are the ones who would mark time while their fellows marked ballots. But they do have a place to go — in at least 38 of the 48 states where write-in votes are authorized. They do have candidates to vote for.

And, at this writing, independent electors have been qualified to appear on the ballots of Alabama, Arkansas, Iowa, Kentucky, Louisiana, Mississippi, New Jersey, New Mexico,

North Dakota, South Carolina, Tennessee, Texas, Virginia and Wisconsin, and it is still possible that Minnesota and Utah may be added to this list.

The independent states' rights candidates are T. Coleman Andrews, of Virginia, and Thomas H. Werdel, of California. Mr. Andrews is nationally known, of course, as the former commissioner of Internal Revenue, who discovered at close range the viciousness of the income tax, and has since been campaigning for its repeal. Mr. Werdel was formerly a Congressman.

Besides the great unorganized body of conservative voters, and such patriotic organizations as For America, they are supported by a recently organized national committee headed by Co-chairmen Clarence Manion and John U. Barr and including such independents as former Governor (and Navy Secretary) Charles Edison, of New Jersey, Air Force General George E. Stratmeyer, former Ambassador Spruille Braden and the indomitable lady industrialist from Connecticut, Miss Vivien Kellems.

Best hope of the Andrews supporters is that they may prevent either party from achieving the necessary 266 electoral votes. If this should happen, the House of Representatives would have the duty of choosing the President from among the three highest in the electoral vote. The injury to party discipline resulting from such an embarrassment could bring about the long-overdue realignment of conservative versus liberal. And Mr. Andrews could win.

But, best of all, all-Americans in most of our states, can now vote — with a clear conscience!

THE AMERICAN WAY

VOTE!

By George Peck

EDITOR'S NOTE: George Peck is Chairman of the Board of the National Labor-Management Foundation and Executive Editor of its official publication, PARTNERS.

The American Heritage Foundation is to be highly commended on sparking a country-wide movement to arouse American citizens to the importance of intelligently exercising their priceless voting privilege at the polls on Tuesday, November 6. Its non-partisan "Register, Inform Yourself, and Vote" program is clicking.

It has enlisted the cooperation of practically all of the nation's patriotic organizations, service clubs, business and trade associations, industrial and business corporations, etc., toward helping it attain its 1956 campaign to make eligible voters see their duty and DO IT.

Among the many, many worthwhile and effective things the American Heritage Foundation has done, are the snappy, pithy suggestions it has sent to advertisers across the nation to be carried along with their regular advertising. As a humble contribution to the terrific job it is doing, I would like to pass on a few of these to the readers of this column.

"Government is as good as the man or woman behind the ballot. Be at the polls November 6. VOTE!"

"Good government is no accident. Play it smart—VOTE!"

"Your vote is your voice. Say it at the polls November 6. VOTE!"

"Gripping doesn't elect good men to public office. Alert voters Do!"

"Give yourself and your country a boost. VOTE on November 6."

"On November 6 count three: Your right, your privilege, your power. Then VOTE!"

"Only by voting can you participate in the decisions affecting your own destiny, your personal liberty!"

"November 6 is Decision Day. Participate in that Decision. Don't leave it to George."

"Don't like the way government runs things? Then show up, vote or shut up!"

"Like to throw your weight

around? Do it at the polls on November 6."

"Don't cry on your neighbor's shoulder. Say it at the polls November 6."

"The citizens who count, VOTE. The votes that get counted are the ones that are cast. VOTE!"

"No one in this country is any more important than you are—when you stand alone in the polling booth. VOTE!"

"Be thrifty! Don't throw away the ballot you're entitled to cast on November 6. It may elect your candidate to office."

"Your family, town, State, Country, depend on your VOTE. Don't neglect it—you may live to regret it. VOTE!"

The American Heritage Foundation proclaims that the "inherent apathy" of the American people is a myth. It points to the election in Maine on September 10 as to what can happen when folks are alerted to their own great political importance and value, as individuals in the running of free America. Maine did itself proud—Maine organizations, under the leadership of the state Chamber of Commerce, confounded the experts. They first of all predicted a vote of 250,000 then just prior to the election raised their sights to 265,000. The actual vote was 305,000.

What transpired in Maine, the American Heritage Foundation predicts will be repeated all over the nation on November 6. Help make that prediction come true, by going to the polls in the good, old "American Way" to vote for candidates whom your investigation reveals will best serve the interests of all the people.

VOTE November 6.

HIGHLIGHTS and SIDELIGHTS

By VERN SANFORD
Texas Press Association

AUSTIN, Tex.—Eight decisions on state policy soon will be squarely up to the voters. In addition to party candidates, eight proposed amendments to the state constitution will appear on the general election ballot.

Through a procedural slip-up, a ninth will be considered at a special election on Nov. 13.

Each amendment will be printed on the ballot twice—once preceded by FOR and once by AGAINST. Voters must mark out the statement they oppose and leave the other clear.

Gist of the amendments and arguments pro and con:

1. Authorizes the legislature to compensate persons fined or imprisoned for crimes they did not commit. PRO: Would make amends for hardships unjustly imposed on the innocent. CON: Might open the door to numerous fraudulent claims.

2. Allows county commissioners courts to vary allocations of tax money without special elections. PRO: Greater flexibility would make for greater efficiency in county financial management. CON: Commissioners courts would have too much authority.

3. Adds other colleges to the buildings program financed by the University of Texas Permanent Fund and authorizes investment of the fund in corporate stocks and bonds as well as government bonds. PRO: Would provide an increase in college building money without new taxes. CON: Risk involved in wider investments is not worth the possible return.

4. Increased the benefits of the teacher retirement system. PRO: Would attract more persons to the dwindling profession. CON: Would increase taxpayer obligations by \$4,500,000, take a larger nick out of teachers' salaries.

5. Authorizes another \$100,000,000 bond issue for veterans land buying. PRO: Programs has been put in order, and additional money is needed to en-

Crashing the Sound Barrier

able more veterans to participate. CON: Program does not merit public confidence; only about one per cent of Texas veterans have benefited.

6. Provides a different oath of office form for elective and appointive officials. PRO: Would clarify present inconsistencies. CON: Clutters constitution with minor details.

7. Requires competent medical or psychiatric testimony before commitment of a person to a mental institution and allows waiver of jury trial, except in criminal cases. PRO: A mentally ill person should not be "convicted" as a criminal. CON: Jury trial is a safeguard against "railroading" of persons into mental institutions.

8. Permits judge to deny bail to persons convicted of two previous felonies. PRO: Would curb habitual criminals. CON: Right of bail is one of our fundamental civil rights.

9. Authorizes the Legislature to give aid with federal assistance to citizens permanently

and totally disabled by a mental or physical handicap. PRO: State has a moral obligation to these needy persons. CON: Tie-in with federal program would lead to more federal encroachment.

Ballot Scratching—While candidates and campaign camps are busy "scratching" for votes, voters are busy learning how to "scratch" ballots.

Ballot scratching is legal. You don't have to vote the straight Democratic ticket, or the straight Republican ticket. All you have to do to scratch a ballot is to cross out or draw a line through the name of the candidate you do not want to vote for, and leave unmarked the names of the candidates for whom you do want to vote. Just be sure you vote for only one candidate for each office. It's as simple as that.

Machine voting is even simpler. All you do is pull the lever by the name of the candidate you want to vote for. In

whatever columns you choose. The machines are so designed that you can vote for one candidate for any office.

If you want to vote for a candidate whose name does not appear on the printed ballot, you can write his name in the write-in column which is provided for that purpose. Such a column appears both on the paper ballots and the machine ballots. On the paper ballots you should scratch out the names of all other candidates for that same office.

Election laws say that your write-in ballot will be counted even though your spelling may not be exactly correct—and even the last name of the candidate is sufficient.

NAACP Ban Granted—Pending further court tests, the NAACP is out of business in Texas. After a tedious five-week hearing, Tyler Dist. Judge Otis T. Dunagan granted a temporary injunction sought by the state against the NAACP.

PROVIDE GREENER GRAZING For Greater Livestock Gains

...with a JOHN DEERE Grassland Drill

Here's the way to assure your livestock of an ample supply of good grazing over more months of the year—renovate and re-seed your pastures with a John Deere "GLA" Grassland Drill.

Seeding with the "GLA" requires no land preparation—established sod is not destroyed and no grazing is lost during planting time. Good summer growth can be supplemented with late fall and early spring grazing.

There are many other advantages to seeding your pastures with a Grassland Drill. Because seed and fertilizer are applied in one trip, your planting job is more economical. Also, fertilizer is placed under the seed where it will do the most good and will prevent burning of plants and losses from wind and water erosion.

Let us show you how you can carry more livestock on your present acreage with the John Deere Grassland Drill. Stop in on your next trip to town.

Proper Care in Fall Can Mean Beautiful Lawns Come Spring

The appearance a lawn has next spring may well depend upon the care given it during the fall season. E. M. Trew, extension agronomist, says beautiful lawns just don't happen, they require careful and considerate management.

Soon they should be fertilized. Do this job, says Trew, about 30 days before the first expected frost. By making application early, the grass will have an opportunity to use most of the plant food before going dormant.

Too, the fertilizer will allow lawn grasses to go into the winter season in a vigorous condition and they will remain green longer in the fall and grow off earlier next spring. Weeds, during the winter and spring, also will cause less trouble.

Trew suggests using a complete fertilizer with a 2-1-1 or 1-1-1 ratio applied at a rate to give two pounds of actual nitrogen for each 1,000 square feet of lawn. This amount of nitrogen can be supplied by using 20 pounds of 10-5-5 or 10-10-10 or 25 pounds of 8-8-8. Some soils do not need potash for crop production but since the cost is small, Trew believes the results may be very good.

He advises halving the fertilizer. Apply one-half and then distribute the other half at right angles to the first application. This will insure even distribution. The lawn should be

Wool Jersey Is Versatile, Won't Sag

BY EDNA MILLER

WOOL Jersey is a fabric loved by American women, probably because it's so versatile. It's cozy to wear to football games or for a weekend in the country. It can go to dinner or the theater, and it can be elegant for an evening out. It's equally right in a simple daytime dress for the office or club meetings. And every woman knows the many uses of the jersey suit.

This year, wool jersey is bigger than ever. It comes itself beautifully to blouse fashion, to the slim (lined) shirt and to all of the many variations on the sheath. It can be basic, for changes in jewelry, little collars and scarves, or it can be dramatic in a vivid color that commands attention.

This year's quality wool jerseys offer a non-sag construction that's an added attraction. The fabric tailors smoothly and is easy to care for. Women who've owned jersey are aware that it's rugged. It takes lots of hard wear and comes back looking as fresh and as new as ever.

Designers have used it, this year, for a wide range of fashions

Junior fashion wool jersey, left, has wide Fursten collar accented with shiny black bow. This is a one-piece design with two-piece look. Embroidery on back interest, right, with a half-inch used to continuation of waist neckline.

to be worn day and night. Coats and raincoats, too, are cut from wool jersey and make ideal travel companions.

Rites Held Monday For Mrs. F. Willis

Officiating was James T. Watson, minister, and burial was in Terry County Memorial Cemetery, under the direction of Brownfield Funeral Home.

Mrs. Willis died Friday in Methodist Hospital at Lubbock. She had been ill several years. A native of Oklahoma, she had lived in Brownfield six years, moving here from Garza County.

Her survivors are four sons, Buster of San Pedro, Calif., Raymond and Troy of Brownfield, and John of Springfield, Mo.; four daughters, Mrs. Velma Ward of Lawton, Okla., Mrs. Thelma Harris of Ross, Mrs. Jewel Temple of Houston, and Mrs. Colleen Turner of Santa Monica, Calif.; and

Three brothers, Joe Gilbert of Artesia, N.M., Ray Gilbert of Odessa, and Marty Gilbert of Portales, N.M.; 36 grandchildren and two great grandchildren. Her husband lives in Lubbock.

Books Received At Local Library

Ten new books have been purchased by Miss Olga Fitzgerald, librarian for the Maids and Matrons sponsored library, and are now in circulation.

The new books are: "Jericho's Daughters" by Paul I. Wellman, "The Heart Has Its Reasons" by the Duchess of Windsor, "The Wide Horizon" by Louisa Grace Erdman, "Old Yeller" by Fred Gibson, "Don't Go Near the Water" by William Brinkley, "The Warrior" by Frank G. Slaughter, "Guestward Ho" by Barbara Hooten, "Papa's Wife" by Thayer Farmer B. Jern, "Num's Story" by Katherine Hume, and Frank Yerby's latest novel.

More books will be purchased this week, Miss Fitzgerald said. Miss Fitzgerald plans to attend a "Friends of the Library" meeting Friday and Saturday at Panhandle.

Schools Indicate Interest in Basketball

A total of 1,997 schools have indicated they will participate in the Texas Interscholastic League's program of boys' basketball this year, and have been assigned to a district.

To reduce travel and loss of school time, practically all boys and girls basketball teams have been assigned to the same district.

Conference AAAA schools total 87, Conference AAA 87, Conference AA 165, Conference A 192 and Conference B 566.

In girls basketball 909 schools have been assigned to a district after signifying their intention of entering League competition for 1956-57.

The three girls conferences will also go to a state championship. The tournament will be played in Gregory Gym at the University of Texas in Austin.

Clinics Are Slated By TIL Coaches

The Texas Interscholastic League, in cooperation with the institutions of higher learning listed below, is arranging clinics designed to help coaches, players and officials become better acquainted with girls basketball rules.

The clinic schedule includes:
Nov. 3: Texas College of Arts Austin.

Nov. 3: University of Texas, & Industries, Kingsville.

Nov. 3: East Texas State Teachers College, Commerce.

Nov. 10: Howard Payne College, Brownwood.

Nov. 17: Texas Technological College, Lubbock.

In the opinion of many, the greatest weakness in the girls basketball program is the lack of trained officials. The league hopes to overcome this defect by a better training program for the officials.

Why a RECORD VOTE

Will Echo 'round the World

The whole world will be watching us Election Day to see if we practice what we preach.

If we don't turn out to vote, we tell our friends abroad that we're not really as solid on our kind of government as we say we are.

A potential enemy would be justified in construing a light vote as a chink in our armor.

Your vote is a genuine deterrent to aggression. If you vote, you're doing what you can for peace in the world—a vote of confidence to the world that democracy can and does really work.

See you at the polls Nov. 6! Published as a public service in cooperation with The Advertising Council

Cubs Drop Game to Pecos, 11-6

The Brownfield Cubs, in what would appear to be a wild scoring baseball game, showing a lack of lustre and bogging down under pressure, presented to the Pecos Eagles last Friday their first conference game of the current season, 11-6.

The Cubs fumbled away one touchdown and twice bogged down on the 1-yard line

when a score seemed evident. Lee Dale Rowden, Jackie Meeks and Ernest Hyman offered some bright spots, defensively, for the Cubs as throughout the first half the Eagles offensive was stalled and stopped before it could get underway.

However, the second half of the game was a complete turn-

about as the Eagles filtered through the Cub defensive alignment at will and on several occasions quarterback Mike Hamilton was stopped cold before he could throw a pass. Offensively throughout the second half of the game the teams could be judged as even, as game statistics will show.

Cubs Take Lead
The Cubs jumped off to a 6-0 lead in the first half and held it until the Eagles scored after a 70-yard sustained drive midway through the third period. The toe of Wayne Wasson of Pecos added the extra point that put the Eagles ahead, and to all intentional purposes that was the ball game. The Eagles did mark two safeties in the final period that gave the game a high scoring baseball tone.

A crowd of 4,000 fans turned out for the homecoming affair, many of them from Brownfield, Kermit, and Andrews.

The Cubs have an open date this week but will resume play Nov. 9 when they meet Monahans in Cub Stadium.

Whether or not you realize it, basketball is only 21 days away. According to Cub Coach Farris Nowell, the prospects for the 1956-57 season will gather in the gym the day following the last football game. At that time, the usual look will be cast in the direction of new reporters, while returning regulars will get right down to work.

Coach Nowell anticipates a respectable turnout but refuses to comment, at this time, about the forthcoming season.

The Cubs, football-wise, will be working for the next two weeks in an attempt to smooth the rough spots, noticeable in the past games, before resuming activity, on Nov. 9. That night, as you know, Monahans will bring its entourage to Brownfield for a crack at the Cubs. This will be the second conference game for the locals and it's a must for the Cubs to win in order to stay in the running.

The highly touted Kermit eleven was an odds-on favorite to walk away with the conference, before, being upset by

Andrews last week. With that to console the Cubs, you can be sure they will be playing better football in the next three games because they still have a chance for at least a tie in conference play.

Although not impressive in their last outing, the Cubs, I believe, still can play good football. Good enough to win, too.

For the most part, according to a lot of people, the Cubs have been playing better football this year than they have in a number of past years. Some are inclined to believe that one man can make a great difference in the performance of a team. That could be true. Let's put it this way—if that be true, then the man to watch for the remainder of the season will be ROGER PENDLEY.

Roger hasn't seen varsity action yet, but this corner is inclined to believe that the trained eyes of Coaches Cox, Kease, Powers, and Payne have observed his "B" team play. On the basis of that play and knowing just a little

bit about the lad's athletic ability, I think that when the Cubs take the field against Monahans, Roger will be in a varsity uniform.

Wrestling continues to battle the elements and pull the excited Latin-American sports enthusiasts. Last Monday night a good crowd was on hand to witness the bouts. There is just bit of friction between the American Legion, which sponsors the event, and the promoter. The current promoter is Gary Richardson of Albuquerque, and he probably will remain for the rest of the current season—if there could be more.

Speaking of mat sports, this comes to mind. A comparatively good boxing schedule is in the making that will allow local lads to try their hands at the manly art of self-defense, as it applies to sports. Some even say that our shows will be better than the current matches being staged in our neighboring town to the north. We'll have to wait and see. However, I think

Clements Is Winner 'n Weekly Football Newspaper Contest

R. J. Clements of 608 E. Tate and B. D. Payne of 703 Park Lane were all tied in their choice of winners in this week's NEWS football contest but Clements was determined the winner because of a closer stat at the score of the Brownfield Pecos game.

Both entrants wound up the week by choosing 17 correct winners out of a possible 22.

Sid Machen of 1004 E. Lake was awarded the low-score prize for the week when his ballot revealed but 11 correct answers.

The contest, in its first six weeks, has attracted a large number of entries and indications are that the remaining four weeks will see a new record set for the year.

Each week the local winners are awarded prizes from the merchants who participate in the contest. The grand prize, of course, is an all expense paid trip to the Cotton Bowl game in Dallas on New Year's Day.

Contestants who have compiled 97 points or more toward that grand prize are:

102 points — R. J. Clements
100 points — Don O'Neal, Rose Mayfield and Teena Gillham.

99 points — Bill Cope, J. E. Gillham and Ed Mayfield.

98 points — Jim Dudley, Ted Hardy, John Jennings and Johnny Rodgers.

97 points — Mrs. Jack Shirley, Guy Nowlin, Charles E. Mayfield and Thelma Crites.

The contest continues with the Thursday edition of the NEWS and it's not too late to enter for a chance at the weekly prizes. Clip out the entry blank, mark it and deposit it, in a container, at the participating merchants' place of business.

Telephones in Color Are Available Here

Brightly colored telephones now are available to Terry County residents.

The new service was announced this morning by Paul Farrar of Brownfield, district commercial manager for General Telephone.

"Previously," said Farrar, "the supply of telephones in color has been limited because of demand which exceeded which production.

we could and should have a well-rounded boxing program. There is, in all probability, some pretty good talent around our town and it will be up to the promoters and sponsors to find it in order to insure a successful program. This corner thinks they will do just that.
