

OIL BLAST IS FATAL TO RESIDENT

An explosion and fire in a Honolulu Oil Company pumping station about 6 miles northwest of Johnson Community claimed the life of a 29-year-old Brownfield man early Thursday morning.

Dead is L. G. Chambliss of 711 Magnolia Ave., who was alone at the pumping station when the explosion occurred. He died in Treadaway-Daniell Hospital here little more than

an hour after the flames were spotted.

Chambliss, who had worked for the oil company about one year, suffered third degree burns on 90 per cent of his body.

Rescuers said the man was found in a conscious state some 25 yards from the flaming structure when they arrived.

He talked to them deliriously as they stripped still-smouldering

clothing from his body and wrapped him in blankets. Investigating officers said he lapsed into unconsciousness and never aroused after he arrived at the hospital.

Honolulu workers observed the explosion and fire from a camp seven miles north of Tokio.

A workman at the camp said he saw flames appear at the pump station and saw what he believed to be a figure running from the station house shortly after 8 a.m.

Honolulu employees summoned an ambulance and raced to the station, where they found Chambliss lying about 25 yards from the structure, with only fragments of his smouldering khaki shirt, Levi trousers and combat boots remaining.

Rescuers wrapped Chambliss in blankets and treated him for shock until the ambulance arrived. Oxygen was administered as he was rushed to the hospital.

The sheet metal building was gutted by flames, company employees reported. Though no definite cause of the fire could be determined, workmen theorized that leaking crude oil ignited as Chambliss threw the switch to stop its flow.

Funeral services for the Terry County native were held Friday in First Baptist Church with Dr. Jones Weathers, pastor, officiating.

Burial was in Terry County Memorial Cemetery under

L. G. CHAMBLISS

OF CANCER SOCIETY

Jones Will Head Unit

Bobby Jones of 507 East Broadway was elected to head the Terry County Unit of the American Cancer Society at the organization's annual meeting Tuesday night in South Plains Health Unit.

L. J. Richardson, unit treasurer, reported that approximately \$1,500 has been collected for the cancer program this year. "This is below our quota, but we feel it is a good beginning," said Richardson.

Other officers elected at the meeting were Mrs. R. D. See No. 1 Page 4

INDUSTRY IN TERRY — Pictured above is main plant at Ozark-Mahoning's site east of Brownfield. From the structure daily is coming tons of sodium sulphate, important in the making of paper, glass, detergents and many other items in common use. Working in shifts around the clock, the plant is maintained by some 23 men, all of whom live in Brownfield. Said R. R. Marsh, general superintendent: "We already are planning expansion."

The superintendent also was quick to say that his company was not "manufacturing salt, but sodium sulphate." The great cloud of vapor rising from the twin stacks is the result of bitterly cold materials coming into contact with heat, an integral part of the producing process. For more pictures, see Page 5, Section 1. (Staff Photo)

MORE POWER COMING — A new 4,100-horsepower generator for the city power plant was being moved Wednesday as two freight car-loads of equipment before car-loads of equipment arrived. Workmen unloading the equipment, were dwarfed by the

FOR CITY'S ELECTRIC POWER PLANT

Generator Equipment Arriving

Engineers from General Electric Company are expected to begin assembly of a 4,100-kilowatt power generator here within the next week, according to Eunice Jones, city manager.

"The first two of eight freight car-loads necessary to transport the generator and equipment arrived here Wednesday," reported Jones. "Assembly will begin as soon as the base arrives."

The generator and related equipment, approved by a \$500,000 bond election last December, will boost city electrical output to 10,850 kilowatts, noted the city manager.

Total cost of the addition will be about \$580,000, Jones revealed. "However, with the city's rapid growth, we feel

this addition is absolutely necessary," he said. "During the fall, consumption was running about 5,000 kilowatts —giving us a very thin 1,750 KW margin which could put us a bind if an engine or generator failed."

Jones said necessity of the addition is based on past and potential future growth of the city. "Over the past five years we've had about 20 per cent increase in population and consumption," he said, "and if this growth continues, this addition will not be enough within a few years."

"Based on this year's building permits, we have good reason to believe Brownfield's growth will continue as it has the last five years," added Jake Geron, city secretary. "This is the first power in-

crease we have made since 1954."

Jones said the generator is expected to be completed and in operation within 90 days.

Agriculture Committee To Meet Here Tuesday

A roundtable discussion of the "Great Plains Program of Soil Conservation" will be held when the Four County Agriculture Committee meets at 7 a.m., Tuesday in The Melody Restaurant.

Principal speaker will be Blake Lovelace of Seminole. The committee comprises men directly interested in the farming scene in Terry, Gaines, Yoakum and Dawson counties. The group strives to arrive at common understanding of problems common to the four areas.

De-Linting Plant Will Be Constructed Here

A modern acid de-linting plant will be constructed here by Farmer's Co-op Society No. 1 Gin, according to L. L. White, manager.

"The board of directors voted Tuesday night to build the cotton seed de-linting plant and to have it operating in time for the 1958 season," said White.

Though a definite site has not been selected for the structure, White said it would be near the main gin and be operated as a part of the gin.

When the plant gets into operation, we will be able to handle all the cotton seed requirements in Terry and surrounding counties," revealed

the manager. "It will mean keeping most of Terry County's seed money right here."

White said the addition, which will cost an estimated \$40,000, is expected to make the area self-reliant for seed. "No longer will we have to buy de-linted seed from other areas," he said.

The manager said the plant will operate during the four or five months the gin normally is dormant. He said it will provide year-around employment for four to five men and also will employ a few others indirectly.

THURSDAY DEADLINE

My Dad...

Boys and girls: The "My Dad" contest being sponsored by the NEWS ends Thursday.

Why not take a chance at the prize money by writing a piece about that favorite man in your life.

A total of \$3 will be given to young people whose letter is considered best in each of these three age divisions: 7-10, 11-13 and 14-16.

Some 100 words or less ought to turn the trick for you. And... don't forget to sign your name and address.

BY USE OF CHAPTER MONEY

Anti-Polio Vaccine Now Available Here

(Editor's Note: The NEWS heartily endorses the theme of the following release, because we believe it hits hard at an unhealthy and dangerous situation: The so-called embarrassment of not being able to pay a private doctor for the anti-polio vaccine and the talk of "socialism" when it comes to giving everyone his vaccine whether or not he is able to pay for it.)

A plan was initiated here this week whereby... everyone in Terry County can receive his anti-polio vaccine.

It is backed by personnel and money from the Terry Yoakum Chapter of the National Foundation for Infantile Paralysis.

Said Jack Bailey, chapter president: "We now have the money to assure everyone in the county of receiving his vaccine."

"Our plan quite simply is that the chapter has made available at South Plains Health Unit the necessary three 'shots' for everyone."

"Our primary concern at the unit will be those persons financially unable to pay a private doctor for the service."

Summer Is On Us

"However, we will turn away no one, regardless of age or color."

Bailey did urge, however, See No. 3 Page 4

Three Terry Men At Meeting in Nebraska

Three Terry County men are attending a meeting in Alliance, Neb., today as American Canadian and Mexican authorities attempt to iron out difficulties blocking a proposed north-south international highway to run through Brownfield.

Sheriff James Fulford, Joe Satterwhite, Chamber of Commerce manager, Bob Burnett, county commissioner, left here Wednesday afternoon to attend the three-day meeting.

"The primary goal of the meeting will be to establish a definite international number for the highway, which is State Highway 51 here," said Satterwhite. "When that is accomplished, we can move on to other details of the long-range program."

The chamber manager said Texas Highway Department has given approval to the change in number designation so long as it does not coincide with another state number.

"The big problem will be find a number that will be acceptable to the several

Mrs. L. A. DuBose Is Big Dollar Day Winner

A total of \$50 in merchandise certificates was won last Dollar Day here by Mrs. L. A. DuBose of Route 1.

Mrs. DuBose will receive \$10 certificates from each of these five participating stores: Furr's, Fair Store, Canipe's, Collins and Cobb's.

Other participating stores and Dollar Day winners were: Lynn Smith of 1303 North A (Franklin's), Mrs. Emma Riley of 218 North Fourth (Fenton's), Mrs. Ernest Bead of Box 10 (Dunlap's) and Mrs. Cyde Keith of 406 North Ninth (Brownfield Bargain Center).

BACK INTO THE FIELD — C. M. Jenkins, left, who farms 6 miles southwest of here, was one of the many farmers who went back into the fields Wednesday to plant and replant their crops following a solid week of rain. Jenkins

said he is planting Western Storm Proof in order for cotton to mature before frost. Bill Martinez, center, who works for R. E. Faught, 1/2-mile north of Foster Gin, said he is having to plant for the second time since the rains.

Mud and water forced him and others to "spot plant" most fields. J. R. Davis, right, who farms 320 acres 4 miles east of Brownfield, marked his 37th year of farming in Terry county as he replanted portions of his farm for the second time. He reported most of his cotton was up before the rains came. Many county farmers moved into the fields for the fourth and fifth time this spring as planting deadlines moved closer. (Staff Photos)

MRS. HENRIETTA ALLMON

MOVED HERE IN 1902

Services Are Held for Pioneer Woman

A Brownfield resident who moved to Terry two years before the county was organized in 1904 died here early Thursday afternoon in the home of a daughter.

She was Mrs. Henrietta Allmon, who would have been 83 years old in September.

Funeral services were held Saturday afternoon in her church, Crescent Hill Church of Christ, with John McCoy, evangelist, officiating.

Under the direction of Brownfield Funeral Home, burial was in Brownfield Cemetery, site of her husband's grave. He died Jan. 31, 1939.

Mrs. Allmon's survivors are two daughters, Mrs. A. E. Goff of Enid, Okla., and Mrs. Walter Gracey of 323 South First; one son, D. W. Allmon of Hereford, and nine grandchildren and 11 great grandchildren.

One son, Bill Allmon, died Oct. 20, 1946, and one daughter, Ruby Huckabee, died Aug. 12, 1933.

Mr. and Mrs. Allmon moved to the Terry area in 1902, coming here from Floyd County. She had lived for the past 21 years at 609 North First.

MRS. ALFRED RAY GOBER

TO RAY GOBER

Miss Isaacs Is Married

First Methodist Church in Brownfield was the scene of the wedding of Miss Beverly Raye, Isaacs, daughter of Mr. and Mrs. A. R. Isaacs of 1304 East Lons, to Alfred Ray Gober, son of Mr. and Mrs. J. H. Gober of Meadow at 8 p. m. June 1.

The Rev. James E. Tidwell, pastor of the church, performed the double ring rites, assisted by the Rev. M. W. Reynolds pastor of the Methodist Church, before an altar flanked with baskets of white gladiolus, palms and candelabra.

Attendants were attired in pastel colors. Miss Linda Isaacs, attending her sister as maid of honor, wore a gown of pink chiffon over net and taffeta, fashioned with strapless bodice under the overdress that featured a sabbina neckline and cummerbund extending in a panel down the ballerina length skirt. She carried an arm bouquet of green carnations.

Bridesmaids were Miss Linda Moore and Mrs. Jesse Norrell of Ropesville, wearing mint green and orchid, respectively. Miss Waters and Miss Spears wore yellow and blue, and all gowns were fashioned identical to the maid of honors. The bridesmaids carried arm bouquets of pink carnations.

Roy Gober of Meadow attended his brother as best man. Ushers were Carl Pritchard of Carlsbad, N.M., J. W. Eubanks of Meadow, Jim Castleberry of Friona and Bob Patterson of Denver City.

Reception in Parlor
A reception honoring the couple was held in the church parlor. The couple was assisted in receiving by their parents and their attendants. Miss Jerry Sue Estes registered guests from San Angelo, Munday, Hobbs, N.M., Ralls, Spur, Muleshoe, Tahoka, Meadow and Brownfield.

The serving table was laid with a white cutwork cloth over pink taffeta and was decorated with the bride's and attendants' bouquets, the three tiered wedding cake and tapers in candelabra. Misses Connie Keulher and Betty Eubanks served cake and punch.

Live at Meadow
For a wedding trip to San Antonio, San Angelo, Port Aransas and Corpus Christi the bride chose a black linen sheath dress with white and black striped jacket and an orchid corsage.

The bride attended Brownfield High School and the bridegroom is a graduate of Meadow High School and attended Texas Tech. They are at home at Meadow, where he is engaged in farming.

Pleasant Valley Club Gives Leather Luggage
The Pleasant Valley Home Demonstration Club presented Leon Willis, son of Mrs. Leonard Willis of 711 Tahoka Road, a piece of leather luggage at their meeting held Tuesday in the Willis home.

Refreshments were served to Mesdames Vanoye Riley, Adrian Hinson, Bob Smith, Delton Tatum, Willis, Hubert Henson, R. D. Shewmake and Leo Willis.

GEE GEE'S ☆☆☆ **Chit Chat**

Had Richie down at the swimming pool this week and noticed that quite a few swimmers have gotten a good start on their tans. In fact, at the rate some of them are going, they'll probably be the tone and texture of a well-worn saddle by the end of summer. Some of the others were turning a rare old pink and most likely spent a miserable night and several days moping around the house in oil-soaked rags.

Incidentally, I like very much the idea of having a voice come over the loud-speaker every half hour or so, stating the time. Since most bathers do not go swimming in their Ingersolls, this is an extra-nice feature. Of course, it doesn't give Junlor an excuse to be more than 30 minutes late getting home, either. Doug Cox and Don Powers and their crew are doing a fine job of operating the pool smoothly, as far as I can see.

Making a big day of it, we proceeded from the swimming pool with Chick and Cottie Campbell and their grandsons, Butch and Chickadee, for a weiner roast. Plenty of people are making advantage of our lovely park these days, including all the hot-rodgers who insist on making race tracks of the roads down there. The local gendarmerie keeps pretty close watch on it, it seems, but of course we can't have a patrol car on duty all the time. Wish everyone would please remember that there are children there abouts and that they don't always watch for cars. You might try to impress this on your teenage drivers, in particular.

Speaking of teen-agers, I'd like to pay tribute to Mary Jane Brownfield and Carolyn Burnett who are leaders of a Girl Scout troop here in Brownfield and who have spurred their girls and led them impressively enough that they made enough money to take a trip to Rudivoso last week. The money was made entirely by the girls and, as busy as they have been with school activities and other things, they still found time to carry this out. Kind of makes me proud to think that these gals are part of the future of Brownfield and America.

Guess I have youth on the brain this week (probably because I'm so rapidly losing my own), but I'd like to remind you again of the wonderful children's reading program, sponsored by the county and Maids and Matrons Study Club, that will be started off Sunday with open house at the headquarters in the drivers license room in the northeast corner of the courthouse basement. One reason this is a particularly great thing is that reading is one of the finest habits a child can form. I come from a family of "readers" and, although I don't get to do as much of it as I'd like to, it was a habit formed early in my life that I've always enjoyed and hope I always shall.

There are books and books and only a small percentage are really good in both style and message, but that's one of the advantages of teaching a child good basic reading habits... at least he'll be able to decide if it's a well-written book or it has

Miss Earlene Cornett Weds J. G. Prindle

Miss Earlene Cornett, daughter of Mr. and Mrs. Earl D. Cornett of Route 5, became the bride of Jimmie G. Prindle, son of Mr. and Mrs. R. V. Prindle of Route 7, Lubbock, May 24.

The couple was married in a double ring ceremony read in Clovis, N.M. Mrs. Prindle attended Union School and Draughon's Business College. The bridegroom attended Southwestern High School in King.

The couple is at home in Lubbock where the bridegroom is employed by Western Woodworks and Manufacturing Co.

Lt. Col. and Mrs. W. G. (Dub) Walker and children arrived Wednesday for a brief visit with his mother, Mrs. Ida Belle Walker at 1308 North Atkins. They left Friday for a visit with her family in North Dakota and will return here the 18th. Col. Walker and his family are here on leave from Nicaragua where he is stationed with the Air Force.

Shower Honoree

As a courtesy to Miss Jeanie Criswell, bride elect of E. V. Murphy, a personal shower was given in the home of Mrs. Merlin Speed June 1 from 3 to 4 p. m.

Hostesses with Mrs. Speed were Mrs. Robert McIntyre and Misses Gail Cottrell, Donna Sue Christopher and Thresa Stephens.

The serving table was laid with a lace cloth over yellow and featured an arrangement of pink roses. Lemonade and cupcakes were served to 12 guests.

MARRIES IN DALLAS

Royda Dumas New Bride

Double ring wedding vows were exchanged by Miss Royda Carroll Dumas, daughter of Mr. and Mrs. Dorman Dumas of 1015 East Lake, and Billy J. Ballard, son of Mrs. Louise Dalrymple of Mt. Pleasant, Mich. and Truitt Ballard of Amarillo, June 8.

Scene of the wedding was Craig Chapel of the Gaston Avenue Baptist Church in Dallas at 7:30 p.m. The Rev. Roy H. Harrell, director of the Baptist Student Union of Baylor in Dallas officiated before an altar decked with baskets of white gladioli and greenery flanked with branched candelabra.

A musical prelude was presented by Miss Sandra Burson, organist, and Miss Leola Grismmon, violinist, and they also

played "The Lord's Prayer" as a benediction. Miss Burson accompanied Miss Ann Bragg who sang "Through the Years" and "Bless This House."

Wears Original Gown
The bride, given in marriage by her father, wore a gown designed and created by Lilli Wolff of Dallas, of ivory satin with midriff and waist covered with ivory lace, a rounded neckline of ivory-satin, and a full waltz length skirt. Her beaded pearl crown held a floor length veil of two layers of silk illusion net, and she wore cultured pearl necklace and earrings. She carried a white Bible topped with a white orchid surrounded with carnations. The Bible was the gift of the Young Women's Auxiliary of which the bride is a member.

Attendants in White
The bride's attendants wore white taffeta ballerina length dresses with gold skirt-length sashes and white illusion net hats. They carried fans designed from white carnations with gold trim. Miss Betty Elliff of Plainview was maid of honor and Miss Jo Ann Orr of Odessa was bridesmaid. Candlelighters were Miss Martha Brittain of Taft and Miss Mary Louise Riley of Brownfield.

Mr. Ballard attended his son as best man. Groomsman was Jay Oswald of Dallas, and ushers were Bill Damon of Fort Worth and Don Thomas and David Lively of Dallas.

Reception For Couple
A reception was held in honor of the couple at Holliday Hall, Nurses dormitory at 3415 Junius. The couple was assisted in receiving by their parents

states involved and to Canada and Mexico," revealed Satterwhite.

Satterwhite noted that even after the highway designation problem is clarified, it still will be several years before the international span is a reality.

"When the highway is completed, we feel that it will mean that several more tourists will be coming through our city and county — and it possibly will bring their spending power with them," concluded the manager.

No. 3-

that "Those persons who feel able to pay their private doctor for the service, please do so."

The chapter president explained that summer, traditional season for the upswing in polio cases, is on us and that "Now, if ever, is the time for getting those shots."

Hours at South Plains Health Unit: from 1 p.m. until 4:30 p.m., each Wednesday.

Because the chapter embraces both Terry and Yoakum, the same service is available in the neighboring county, said Bailey.

No. 4-

a worthwhile message in it. And that, my friends, is the whole idea of this reading program . . . to establish good reading habits and to open whole new horizons to the child . . . and I hope you'll urge your child to participate in it.

Be sure to check this week's two issues of the NEWS for buying suggestions for Father's Day.

4-H'ers Are A&M Bound

Seven Terry County 4-H members and three advisors will leave here at 6 a.m. Tuesday to attend the annual State 4-H Roundup at Texas A&M, according to Bob Etheredge, assistant county agent.

Adrian DuBose, Barbara Benson, James Bandy and Pete Green will attend the event as delegates from the Terry chapter. Panel Cornett and Janice Newsom will compete in the state vegetable judging contest and Hilbert Briscoe will represent District II in the tractor driving contest.

The competing trio were top winners in District II contests held at Texas Tech May 4, said Etheredge.

Mrs. Jim Cornett, Jim Foy and Etheredge will attend the meeting, which is expected to attract some 2,000 Texas 4-H youth.

and attendants and by his grandmother, Mrs. Irene Ballard of Amarillo.

Bouquets of the bridal party, white carnations, candelabra and the three tiered wedding cake decorated the serving table. Guests attended from Brownfield, Lubbock, Amarillo and Odessa.

At Home In Dallas
For a wedding trip to Lake Murray, the bride wore a pink shantung cotton sheath dress with black and white accessories and an orchid corsage.

Mrs. Ballard is a graduate of Brownfield High School and is a junior student at the Baylor University School of Nursing at Dallas. Her husband is a graduate of Amarillo College and Southern Methodist University and is employed with A. M. Lockett and Co. Ltd. of Dallas.

The couple is at home at 4815 Gaston Avenue in Dallas.

SHOWER — Miss Patsy Ann Lewis was honored Wednesday with a shower in the home of Mrs. C. A. Winn at 1001 East Lake. Miss Lewis, daughter of Mr. and Mrs. J. Clarence Lewis of Plainview, is to marry Carles Edmund Mayfield, son of Mr. and Mrs. Ed Mayfield of 1208 East Lons, on June 28. From left in the picture: Mrs. Winn; Mrs. Mayfield, mother of the future bridegroom; Miss Lewis, and Mrs. Lewis, her mother. (Staff Photo)

June Proclaimed Dairy Month In Nation; Farmers Urged To Evaluate Operations

Each year the month of June is proclaimed as dairy month. Tribute is paid to the industry for the job it does in providing the nation's population with one of its most beneficial foods.

According to Afcch Meekma, extension dairy husbandman, dairying is one of the largest of all the American agricultural enterprises. Over 2,000,000 farm families in the nation derive all or a major part of their home income from dairy cows.

Dairying produces 19 percent of the gross national income from agriculture. Dairy products furnish 30 percent of the nation's diet of animal proteins and accounts for 15 percent of total retail food sales, points out the specialist.

Too, he adds, dairy products are a major contributor to making the United States the best fed nation on earth.

Dairy month, according to Meekma, is also a good time for dairymen to take stock of their operations. Rising production costs coupled with declining returns have put a premium on efficient production, says the specialist.

While Texas dairymen have and are making progress in upping the milk production per cow, the state average of 3,970 pounds is far below the national average of 6,006 pounds. It is less than half the per cow production for the nation's leading state, California.

Miss Sue Steele of 1204 E. Lons, along with her aunt, Mrs. L. E. Standerfer, and her grandmother, Mrs. L. C. Steele, left Friday by plane for a 15 day visit in New York City.

Mr. and Mrs. Doc Burda are vacationing this week in central Texas.

Kolonial Kard Klub Met With Mrs. Telford

Kolonial Kard Klub met with Mrs. Mon Telford Friday at 2 p.m.

Mock cheese cake and punch were served to Mesdames Roy Wingerd, Hadyn Griffin, E. C. Davis, A. W. Butler, Mike Barrett, A. A. Sawyer, Walter Hord, Jess Smith, Joe Satterwhite, W. H. Collins, Harry Cornelius and R. L. Bowers.

Mrs. Sawyer was high player and Mrs. Hord was second high. Mrs. Butler and Mrs. Collins binged.

Among the many Brownfield residents on vacation this week are Mr. and Mrs. Bill Bright. He is manager of Wacker's Variety Store here.

Visiting her grandparents, Mr. and Mrs. W. O. (Tobe) Helms of 505 North C this week was Sue Helms of Rialto, Calif. Sue came to Brownfield with Mrs. Clyde Coleman, former Brownfield resident, who visited friends here.

Texas Tech student Jimmy Walker, son of Mr. and Mrs. Prentice Walker of 617 E. Tata, left Wednesday for a six week field trip with several other area engineering students in Colorado.

Children, Mothers: M&M Open House 9 A.M. Tuesday in Reading Program

SHIPPING POINT — Ever wonder what the huge red trucks seen daily on Tahoka Highway are hauling? Their load is tons of sodium sulphate, in the form of dry, white powder, from Ozark-Mahoning's plant east of Brownfield. Within the building in left panel is a huge concrete bin into which is dumped

the powder a truck-load at a time. In right panel: Oliver Hood of Brownfield shovels the product to a hole in the bin where it is picked up by revolving dippers and dumped into waiting railroad cars. Among the company's big customers is Colgate, whose cars may be seen at the site. (Staff Photo)

Legumes Top-Rated

African variety outyielded eight other warm season legumes in tests at the Texas Agricultural Experiment Station at Crystal City. African produced 4,290 pounds of dry forage per acre, compared with 3,430 pounds produced by Southwest Common, 710 pounds

for Ranger Buffalo and 690 pounds for Ranger.

African and Indian, which produced 4,020 pounds, varieties

not only made the most growth, but recovered more quickly after cutting than other varieties tested. Southwest

Common grew faster after germination, but rate of growth slowed considerably within three weeks.

A PICTURE OF SYMMETRY—Shown above are huge pipes completely covered with ice at the Ozark-Mahoning Plant east of Brownfield. Not shown are dozens of other such pipes behind those above. Extreme cold and extreme heat are major processes in the making of so-

dium sulphate at the plant. Contrary to much thinking, Ozark does not make "salt" at the site. Sodium sulphate is a component of paper, detergents, glass and other items which are in daily use. (Staff Photo)

AT RESEARCH LABORATORY

Boll Weevil Solution Headway Being Made

A problem such as that posed by the boll weevil for the cotton industry cannot be solved in six months. But headway is being made by scientists at the research laboratory at Louisiana State University. The laboratory was established for this purpose on July 1 of last year.

Scientists report that the problem is no longer one of developing new chemicals with which to combat the boll weevil and other cotton insects.

Rather it is one of finding ways to combat resistance that the boll weevil has built up to the chemical killers already in existence.

It is believed that once it is known how and why boll weevils build up a resistance to insecticides, then it may be possible to find new chemicals which will kill . . . and continue to kill . . . the cotton pests.

The strategy of war sometimes requires a re-mustering of forces for a new and different type of attack. This is what the cotton industry is doing in the fight against its crop's number one enemy, the boll weevil.

For farmers in Arkansas, certain production practices resulted in high cotton yields during 1956. This is shown by a study of the records submitted by the 125 farmers participating in the Arkansas Five-Acre Cotton Production and Management Program.

William E. Woodall, extension cotton specialist, reports that cotton growers with the highest yields turned under a cover crop prior to the planting of the 1956 crop.

They used supplemental irrigation, planted good stands of 40,000 to 60,000 plants per acre, used seven applications of insecticides, and planted regist-

Mr. and Mrs. Lee Brownfield of 508 South C and Mr. and Mrs. Jack Hamilton, of 902 E. Broadway are fishing this week at Tucuman, N.M.

Swimming Lessons To Be Given Here

Terry County's non-swimmers will be offered a chance to become swimmers as classes begin at 9 a.m. tomorrow in the park swimming pool, reports Doug Cox, pool manager. "Classes will be 9-10 a.m. Monday through Saturday," said Cox. He said a \$10 fee will be required for the two-week course and that classes will be limited to 24 students.

Persons interested in learning to swim may contact Cox or Don Powers at the pool.

The manager also noted that swimming pool hours have been changed for Sundays. "We will be open from 1:30 p.m. to 6:30 p.m. on Sundays and from 10 a.m. to 9 p.m. on week days and Saturday."

Mr. and Mrs. Russell Hendricks and family of Meadow visited his brother, Hud Hendricks, in Amarillo last weekend. They were involved in a traffic accident en route home but escaped injury.

Senator Johnson Asserts Congress' Right To Investigate Foreign Aid Annually

Senator Lyndon B. Johnson warned recently in a statewide radio broadcast that Congress will not write long-term "blank checks" for foreign aid. "The Administration is asking for authority to operate the aid program on a no-time-limit basis," Senator Johnson pointed out. "I will oppose vigorously any proposal that Congress surrender the right to conduct an annual check-up of the program."

The Senator spoke out in favor of the proposal that the mutual security program be shifted from a grant to a loan basis.

"Ours is a nation that has no desire to create satellites," he said. "We realize that any attempt to buy friends among other nations of the world is bound to result in failure. "Our purpose is simply helping other countries to maintain their self-respect. That is in our own national interest." Senator Johnson recalled that

President Eisenhower is now asking for \$500 million less for the mutual security program than he requested earlier.

"If the President was able to trim his own foreign aid budget by half a billion dollars, perhaps we can make further cuts in Congress" he said.

MARTIN-GOOD WEDDING

Vows Read on June 4

In a double ring ceremony read at the First Baptist Church in Denver City June 4, Miss Janice Elaine Martin became the bride of Kenneth Ray Good of Brownfield. Parents of the couple are Mr. and Mrs. W. I. Martin of Denver City and Mr. and Mrs. Ray Good of Brownfield.

The Rev. F. C. Bradley, Jr., pastor of the church, performed the ceremony before a large blue and white satin heart flanked with palms and candelabra.

Mrs. Carl Nance, organist, offered traditional wedding

music and accompanied Joel Graves as he sang "Ah, Sweet Mystery of Life", "Forever Darling" and "Bless This House".

Bride Wears Lace
Given in marriage by her father, the bride wore a dress of sild Chantilly lace and nylon tulle trimmed with seed pearls and flower appliques. Fashioned with a sabrina neckline, the fitted bodice was tied with a large taffeta sash in back. Her veil was of French silk illusion net and she carried white roses atop a white Bible.

Sister Is Attendant
Miss Jean Martin attended her sister as maid of honor. She wore a dress of princess blue taffeta with a satin sash and carried a bouquet of white carnations. Bridesmaids were Misses Earlene Anderson of Lamesa, Helen Shahan of McCamey, Martinette Martin of Denver City and Frances McAnear of Lubbock. They wore gowns made identical to the maid of honor's in shades of sky blue and cloud blue, and carried white carnations with blue centers. Linda Wilkerson of Denver City was flower girl and wore white crystalette trimmed with white nylon lace and blue ribbons.

Charles Martin of Denver City was best man. Ushers were Richard Creech and Frank Gibbs of Denver City. Marc McShan was ring bearer. Raymond Powell of Lubbock, Glen Everett of Midland, Glenn Shahan of McCamey and Ronnie Good of Brownfield were groomsmen.

The mother of the bride wore a blue cotton lace dress with navy blue accessories and a white and blue corsage, and the mother of the bridegroom wore a yellow cotton eyelet dress with white accessories and a white and yellow corsage.

MRS. ROBERT LEE NOBLE

IN FIRST BAPTIST CHURCH

Miss Crow Is Married

Miss Madolyn Irene Crow, daughter of Mr. and Mrs. John Leroy Crow of 1215 East Lons, became the bride of Robert Lee Noble, son of Mr. and Mrs. R. L. Noble, 801 Tahoka Road, in a ceremony read at 8 p.m. June 7 in First Baptist Church.

The Rev. Jones W. Weathers, pastor of the church, officiated at the double ring rites before a greenery-banked altar centered with an archway entwined with greenery and wedding bells. Baskets of white gladiolus and candelabra holding white tapers flanked the altar. Pews were marked with white satin bows.

A reception was held in honor of the couple in Fellowship Hall at the church. They were assisted in receiving by Perry Peeler and Janette Peeler. Carolyn Everett registered guests.

Alfred Cornebise of Lubbock was best man, Rex Black and Eddie Taylor of Brownfield lighted candles, and ushers were William M. and Don Noble, both of Brownfield and brothers of the bridegroom.

The serving table was laid with a white crocheted table cloth.

Reception At Church
A reception honoring the couple was held in Fellowship Hall of the church. The table was laid with a white linen cutwork cloth and was centered with blue and white carnations flanked with stephanotis-entwined candelabra holding blue tapers. The three-tiered wedding cake was decorated with blue forget-me-nots and wedding bells, topped with a miniature bridal couple.

Wears Sister's Gown
Given in marriage by her father, the bride wore her twin sister's wedding gown, an original model of imported Chantilly lace and nylon tulle over net and ivory satin. Designed with a portrait neckline framed with appliques of lace holding a band of tulle, the fitted lace bodice had long sleeves ending in points over the hands and terminated with a point at center front waistline. From this stemmed a voluminous waltz-length skirt of tulle applied with a shirred lace yoke, ending in elaborate points at the lower hipline.

Reception At Church
Miss Patsy Hale registered guests. Mrs. Arlie Lowrimer presided at the punch bowl and Mrs. Myron Fenton and Mrs. Ramseur served cake. Assisting with hospitalities were Mesdames Joe A. Jackson, M. G. Tarpley, Jerry Gannaway and W. M. Adams.

Will Live Here
For traveling, the bride chose a flax colored fitted suit with matching accessories and white hat and gloves, with a white glamelia corsage. The couple will be at home at 1401 East Buckley following a short wedding trip.

Will Live Here
The bride is a graduate of Texas Technological College in Lubbock, holding a Bachelor of Arts degree in mathematics. Prior to her marriage, she was employed with Humble Oil and Refining company in Midland.

Sister Is Attendant
Mrs. Robert Allan Gammill Jr., of Silver Spring, Md., was her twin sister's matron of honor. Miss Cleta Brown of Hobbs, N.M. was maid of honor, and flower girl was Nan Smith of Brownfield, niece of the bridegroom.

Sister Is Attendant
The attendants' dresses were identical pastel blue crystalette over taffeta and ruffled net. Fashioned with portrait necklines coming to points at center, the draped fabric formed wide folds over the shoulders, framing full length panels of pleated fabric at back held with bows at the waistlines. The fitted princess bodices back held with bows at the waistlines. The fitted princess bodices flared into full waltz length skirts. Their headdresses were bandeaux of pastel blue velvet and forget-me-nots and they carried white and blue carnations with blue satin ribbon and net streamers. The flower girl wore a dress of pale blue crystalette over taffeta and carried a blue basket filled with white rose petals.

The mother of the bride chose a blue sheath dress of imported eyelet embroidered

batiste over taffeta, and the mother of the bridegroom wore a pale blue embroidered cotton satin sheath dress.

CHLORPROMAZINE, RESERPINE AND MEPROBAMATE!

America's Latest 'Big Three'

The Big Three in America today are reserpine, chlorpromazine and meprobamate. They are tranquilizing drugs — so-called "happy pills." And as more and more people take them for real and imagined tensions, they are fast becoming household words.

Americans last year spent well over \$150 million for various types. A single drug company reported the sale of 30 billion tablets during the first 10 months of 1956, and indicated that sales were expected to double in 1957.

Scientific studies indicate that the drugs have great value in the treatment of some types of mental illness, but when healthy people, for no other reason than that they had a bad day at the office or that the children have been unusually noisy, begin eating them, like popcorn, an insidious danger is in the making.

Like other valuable drugs, tranquilizers can be harmful physically and mentally. Medical researchers have reported that in some cases there is a tendency toward habit formation. In a few cases unpleasant side reactions have occurred. Some users have been depressed rather than calmed. Calm users have become excited. Some reactions have been severe enough to require hospitalization and extensive treatment. And only time can tell whether prolonged use will damage permanently the nervous system.

Last September, some 700 of the nation's foremost authorities on mental illness met to discuss tranquilizers and some of the problems their wide usage had raised. The conference concluded that the drugs evidently do relieve tensions in mentally disturbed persons, but for every research team reporting posi-

tive results, another reported failure in trying to duplicate the results.

Certain tranquilizers influence the release of a body chemical called serotonin—a hormone found concentrated most heavily in the brain. What the chemical does is not yet fully understood, but present belief is that it acts as a switch to turn moods on and off by sending impulses of good or bad feeling along the pathways of the central nervous system. Enough serotonin in the brain actually might be a factor in sanity. When the role of this hormone fully is known we may have the final answer as to how certain tranquilizers produce their effects.

More than a dozen tranquilizers are already on the market. Some are used beneficially in hospitals; others by private physicians in their practice. All are potentially powerful medical tools. But it will take time — perhaps years — to test them thoroughly.

Until that day comes, all of us would do well to remember that a certain amount of tension and anxiety is a part of normal life. Peace of mind and zestful living do not come in pills. It comes from facing our problems and working to solve them. In any event the so-called tranquilizers should only be taken under the direction of a physician.

Supporting home town merchants is the correct behavior for loyal citizens who expect other people to patronize their business.

One still hears the argument that if it were good enough for grandpa, it's good enough for grandchild. What about the gout?

Success Penalized

THE AMERICAN WAY

THE TRINITY RIVER PROJECT
By George Peck

It's no secret that California needs more water. The Federal Government has taken upon itself a job to help meet the shortage—it is known as the "Trinity River Project." When completed, water will flow out of the mountains of Northern California through huge tunnels to cope with the water needs of those to the South.

George Peck

The Pacific Gas and Electric Co. has made an offer to take on this job, but the public-power zealots are at it again, insisting that Federal Government handle the electricity production. Should the latter prevail, not only will Californians be the losers thereby, but every taxpayer throughout all the other states will experience one more attack on his pocketbook.

If the offer of the PG&E is accepted, there would be an immediate saving to the taxpayers of \$56 million, the cost of building the power facilities. In addition, PG&E would pay \$145 million in additional taxes, over the project repayment period, on its power facilities and operations—\$83 million to the Federal Government and \$62 million to State and local governments. Instead of being a tax burden as it would under Federal Government development, under PG&E development, it would be a tax-paying enterprise.

The Secretary of the Interior, after careful study of these two

TIPS FROM SPORTS AFIELD MAGAZINE

What's America's most popular outdoor sport? Outdoor boating wins hands down. According to statistics just released by the Outdoor Boating Club of America 16 million people went boating last year, and more than half a million motors were sold in 1955. Just wait till you see the 1956 figures!

needing overhaul... The Husqvarna rifle, which comes in 5 popular calibers, weighs only 6 lbs. 6 oz. yet packs the punch of a heavyweight... News from Grumman Boats: you can look for vertical inboard power in their popular Deluxe Runabout. Mighty like "sports car" styling.

scope, but it's economy-priced... If you're looking for a real all-around, all-purpose outboard motor you should take a peek at Evinrude's new 48 H.P. Fastwin. Weighs only 80 lbs... Having a tough time working up a good shaving lather out in the wilderness? You ought to try new Barbasol Presto Lather in a spray can. Just a press on the valve, and out comes a frothy billow of lather. And it's mighty low in cost.

Feeling blue? The amazing chameleon can actually turn blue—and a few other colors—just by thinking about it.

Something new in spinning lures has been introduced by Seneca Tackle. Instead of revolving around the body, the blade rides just above the hooks, spinning freely at all normal speeds of retrieve... New "6-12" Insect Repellent now makes it possible for you to concentrate on hunting, and not on mosquitoes, gnats, chiggers, etc. It comes in an aerosol spray can and is odorless and greaseless.

There are more than 192 pages of pleasure-packed information in New York State's new vacation book "Vacationlands." Write to us and we'll tell you how to get a copy... Ocean City's new #377 "Flipline" spinning reel has a special control bar for either right or left-hand casting, and is designed to eliminate accidental line pick-up... To hear famous fisherman Don Gopen tell it, Magic Snell's Vinylsteel Leader won't ever pull out. Every leader joint is individually and accurately hand-wound with wire and soldered or plastic-sealed.

If you ever catch a West Indian green turtle you're set for life. They weigh up to 600 pounds, which ought to give you a couple of freezers full of steaks.

Garcia Corporation, makers of Mitchell reels and other fine tackle, combines informative articles with full data on their new line in a new catalog... Kollmorgen's new 4X Fixed Special Bear Cub scope makes its debut this month. It's identical in optical and mechanical quality to their standard 4X

One of the sturdiest reels on the market, we're told, is the Alcedo by Continental Arms. This precision-made job has gone up to 10 years without

alternatives, has recommended to Congress that it adopt the PG&E offer. Here follows an excerpt from Mr. Fred A. Seaton's report:

Everybody enjoys reading Russell Annabel's yarns. One you'll especially like is "Horse Hunt in Caribou Land." It's in July Sports Afield.

For further information on all products reviewed in this column, write to Sports Afield, Dept. J, 959 Eighth Avenue, New York 19, N. Y.

Applying Nitrogen Raises Cotton Yield

Nitrogen applications from several different sources produced about the same increase in cotton yields in six tests conducted over a 3-year period in the EL Paso Valley by the Texas Agricultural Experiment Station at Ysleta.

Anhydrous ammonia, ammonium nitrate, ammonium sulphate and urea were compared by D. E. Longnecker and Dr. Paul Lyerly, resulting in an average increase of 416 pounds of seed cotton from applications of 98 pounds of nitrogen per acre. In similar tests using superphosphate there were no significant yield increases.

be well for citizens of all the 48 States to write their Congressmen and U. S. Senators to vote "yes" on H. R. 6991 and its companion bill which will shortly be introduced in the U. S. Senate. In that way, our Legislators will know that public opinion is in favor of PG&E developing the electric energy incidental to the Trinity River Reclamation Project.

THE ART OF HANDLING MONEY!

MISS BARBARA RUSSELL

Engagement of Miss Russell Revealed

Mr. and Mrs. Carl Russell of Route 1, Meadow, announce the engagement and forthcoming marriage of their daughter, Barbara, to J. Hollis Lloyd Jr., son of the Rev. and Mrs. J. H. Lloyd of Big Spring.

Double ring vows will be exchanged at 5 p.m. July 5 in Meadow Methodist Church, with the prospective bridegroom's father officiating.

Miss Russell is a graduate of Meadow High School and her fiancé graduated from Robert Lee High School. Both are students at Texas Tech.

Nitrogen Increases Yield of Rice Crops

Use of up to 80 pounds of nitrogen per acre increased rice in tests conducted by the Rice-Rice following improved pasture yielded four to five barrels per acre more than rice following unimproved pasture for equal amounts of nitrogen yield whether it followed improved or unimproved pasture, however, Agronomist Dr. Ralph M. Wehling advises farmers to be careful in applying as much as 80 pounds per acre to rice planted on land following improved pasture.

Six-Year Test Rates Texas 28 Corn Best

Over a 6-year test Texas 28 hybrid corn outyielded all others at the Denton Experiment Station. A yellow grain corn, Texas 28 also has shown less earworm damage and unsound ears than other hybrids recommended in the Denton area. Agronomist J. W. Gardenshire, who conducted the tests said Texas 28, one of the older hybrids is slightly earlier in maturity and has performed equally well in the area.

He said also that Texas 36, an early yellow hybrid, was released recently for use in areas where adverse weather conditions occur frequently.

Texas 17W, a white hybrid which has been in tests two years appears to be better adapted to the Denton area than Texas 15W. Texas 17W's large white seed is readily accepted by the mills. Both Texas 28 and 17W produced an average of 24.5 bushels an acre even though rainfall during the 6-year test period was much below normal.

Cows Grazing Oats Produce More Milk

By grazing oats pasture 1-hour a day, Jersey cows on a three year test at the Texas Agricultural Experiment Station near Tyler increased milk

production 1.93 pounds and saved 24 pounds of sorgo silage. The extra milk and saving on silage totaled 23 cents per cow per day. Shannon Carpenter, associate dairy husbandman at the experiment station, said each acre of oats produced 264 hours of grazing, or a gross income of \$60 per acre. Cost of seed, fertilizer and labor was \$16 per acre, leaving a net return of \$44 per acre per year. For each dollar spent to produce oat grazing the return was \$3.75.

TO BE NAMED AT CONVENTION

Search of Texas Countryside Is Started For '1957 Texas Farm Bureau's Queen'

The process of scouring the Texas countryside to find the fairest and most charming young farm or ranch girl to receive the title of "1957 Texas Farm Bureau Queen" has begun.

The search, already under way in some counties, will culminate with the crowning of the queen Nov. 18 at the state convention in Dallas. The winner will attend the American Farm Bureau Federation convention in Chicago the following month with all expenses paid.

Purpose of the contest, according to the queen contest committee, of the TFB Board of Directors, is "to give recognition to the farm and ranch girls of Texas." The rules provide that this is to be "an honest-to-goodness queen contest," with the contestants to be judged on "grace, poise, charm, vivaciousness and all the other qualities that go to make up winsome Texas future homemakers."

Any daughter or sister of

a Farm Bureau member actively engaged in agricultural production is eligible for participation. She must be single, age 16 to 22, and to enter district eliminations, must have been in a county queen contest with at least two participants.

Not eligible to enter are former state winners and daughters of employees, state directors, county presidents and secretaries.

Communities in participating counties (counties must have at least 25 members to participate) will select county queens who will vie in county eliminations. Winners of the county contests will complete in district eliminations prior to

Sept. 1. The 13 district winners and an attendant for each will receive an expense-paid trip to the state convention, courtesy of the Texas Farm Bureau, to compete in the finals.

The state Farm Bureau queen and her matron escort will be allowed \$500 for expenses to the AFBF convention. Runners-up will receive beautiful wrist watches.

The TFB has suggested that

a standard questionnaire form should be used by masters of ceremonies in all contests, county through state levels, in interviewing contestants.

An amendment to this year's set of questions is the addition of a one-minute speech on some subject pertaining to Farm Bureau.

Last year's TFB queen was Joann Vaughn, daughter of Mr. and Mrs. Marshall Vaughn of Tulia, Swisher County.

Cool at home...Cool at work KEEP COOL WHILE DRIVING

INSTALL Vornado AUTOMOBILE AIR CONDITIONER

Hot weather driving got you down?

Beat the heat! Drive in cool, relaxed comfort with a VORNADO—the automobile air conditioner that lets you START cool, DRIVE cool, ARRIVE cool!

The full cost?

Much less than you think! For only a few pennies a day, YOU can have a car that's blissfully cool in the city or on the highway.

Act TODAY! Simple Installation can be made while you work or shop.

Check these Features

INSTANT COOLING ACTION

The very instant you start your car Vornado begins to cool. In just moments your entire car is cool and comfortable.

FULL CAR CIRCULATION

Exclusive... Five Air Circulators surge cool air swiftly throughout the entire car... create 20% greater cooling effect. Each circulator individually adjustable for complete passenger comfort.

NO DUST... NO DIRT... NO "WIND WHISTLE"

Travel in complete comfort with windows up. Arrive at your destination cool, clean... and relaxed.

COMPLETELY AUTOMATIC CONTROL

Simple thermostat provides automatic controlled cooling. Two speed blower-control regulates air delivery. Vornado automatically operates at top efficiency at any speed.

INTERCHANGEABLE...

Simplified installation makes VORNADO easily transferable to your next car.

325⁰⁰

Terms Can Be Arranged

Start COOL...Drive COOL...Arrive COOL!

Vornado JUST COOLS BETTER!

Fits Any Make or Model . . . 1-Day Installation

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. GET A DEMONSTRATION!

New Chevrolet Bel Air 4-Door Sedan—beautifully built with Body by Fisher!

It's got the heart of a lion

(but it's a lamb to handle)

Sweet, smooth and sassy—that's the new Chevrolet! You'll be hard put to find another car so alive, alert and eager for a full day's run—and yet so delightfully easy to control!

To know a Chevy in all its glory, head one into the open—the more mountains the better. You'll soon see why so many people dote on that smooth sure Chevrolet response and stout-hearted power. Chevrolet's performance and solid build make their dollars look big!

You don't have to urge this car along. The power—and there's plenty—is charged with gumption. The wheel responds in a twinkling to tight corners or turns. And on a back road a Chevy steps with ease over ruts that would look like barricades to lesser cars. In short, a Chevy shows "savvy." You can, too—by seeing your Chevrolet dealer!

MORE PEOPLE DRIVE CHEVROLETS THAN ANY OTHER CAR

Only franchised Chevrolet dealers display this famous trademark

If You Don't Support Your Church Weekly—Your Church Will Be Weakly Supported

IT'S FOR YOU

This call is for you - it's from God.
 He has been ringing your number continuously
 since your birth. He wants you to hear
 Him say, "Fear not, for you are mine:
 I have called you by name."
 Where and how can you know Him?
 Everything that life brings is His gift:
 hope, fear, love, anxiety, even death comes
 from His hand. He wants you to know that
 all these things are given to complete your life.
 He will only to give true life and give it
 abundantly. Go to Church and hear His message
 of care for your life so that you may
 believe that He is good.

EVERYONE IN THE CHURCH
 THE CHURCH IN EVERYONE

Is something wrong with your life—
 an inner restless dissatisfaction? The
 answer to every human problem comes
 only from God our Maker. He alone
 can forgive and reassure.
 Through the church God has com-
 mitted the provision and proclama-
 tion of His forgiveness and redeem-
 ing love. Without a church relation
 no one is securely related to God.
 Everyone should be in the Church and
 the Church in everyone!

Home Rites Are Read

Miss Carol Jane McCullough, daughter of Mr. and Mrs. Bill McCullough of 907 East Lons, and John R. Womack, son of Mr. and Mrs. Robert Womack of Wellman, were united in marriage at 4 p.m. June 1 in the home of the bride's parents.

John McCoy, minister of Crescent Hill Church of Christ, performed the double ring ceremony before an archway of greenery centered with white bells and flanked with baskets of white gladioli.

Miss Carral Johnston of Brownfield was maid of honor. She wore a blue dress made of nub sheer fashioned with a bateau neckline, dipping to a

vee in the back, and a full skirt. She carried an arm bouquet of pink carnations.

Father Escorts Bride
The bride, escorted to the altar by her father, wore a white ballerina length dress of nub sheer fashioned with a bateau neckline dipping to a vee in the back, and a long torso bodice ending in a full skirt. Her headpiece of lace was accented with white seed pearls and held her shoulder length veil of net. She carried a white Bible topped with a white orchid surrounded with baby carnations.

Carrying out the traditional theme, she wore a blue garter,

MR. AND MRS. JOHN R. WOMACK

Egg Production In Texas Drops, While Nation's Total Rises

Egg production in Texas has dropped only slightly during recent months while total production in the nation was up by two per cent. Too, points out Extension Economist John G. McHaney, stored holdings for all kinds of eggs on April 30 were greater than on the same date a year ago.

Cold storage holdings on April 1, 1957 were below the five-year average with the exception of shell eggs which were 8.6 per cent above the average. But, points out McHaney, 88.9 per cent more shell eggs were in storage in April 1957 than a year ago.

The outlook for improved prices in the months ahead is good, says the economist. Commercial hatchery output of egg-type chicks in Texas for the first four months of 1957 was 23 per cent below the out-

put for 1956. In the nation, the drop was 21 per cent for the same period and eggs in incubators on May 1 numbered 7 per cent fewer than a year ago.

Based on this background, McHaney says, it is reasonable to expect a decrease in production with a corresponding increase in price. Prices, he adds, should be much stronger during the latter part of 1957 and the first four months of 1958.

Because of economic stress in the broiler industry, many cases of hatching eggs for broiler purposes may be switched into the channels of trade. This would increase the supply of market eggs and could influence future prices. The extent to which this may

happen will depend upon the demand for broiler hatching eggs. Currently, broiler hatchings and placements in the nation are running ahead of the 1956 figures, says McHaney.

Mr. and Mrs. Harold Klein and Joyce of 1214 East Lons are vacationing in New York and Pennsylvania.

Mr. and Mrs. Clarence Lackey of 529 East Tate spent the weekend in Raton, N.M.
