THREE LOCALS SNAG FLIGHT HONORS

Dill Takes Title In Brownfield Invitational

By GEE GEE PRIVITT
NEWS Staff Writer

CAME OUT ON TOP — These golfers came out on top at the fifth annual Brownfield Country Club invitational golf tournament held last week end. In the back row, left to right, John Paul Cain of Sweetwater was runner up, and Terry Dill of Mulshoe was winner in the championship flight. Front row, left to right, Sawyer Graham, winner of third flight; Harry Goble, winner of second flight; Don O'Neal, winner of first flight; Gerald Parker of Lubbock, winner of fourth flight; and Boyce Mahoney of Lamesa, winner of fifth flight. A field of 96 players participated in the three-day meet. (Staff Photo)

Rotarians Sponsoring Visit Here

"He'll be a real Texan — West Texan — when he leaves here."

Thus does the Rev. Ralph O'Dell describe the up-coming 10-week stay here of Paul Arnold of Beuel, Germany.

The Rev. Mr. O'Dell is chairman of Brownfield Rotary Club's International Service

PAUL ARNOLD

Committee, and Arnold is an exchange student sponsored by the International Research Fund, Inc., of New York.

The 27-year-old German is to arrive here by plane from New York's Idlewild Airport on July 18, and will be living for one week in each of the following homes:

John Kendrick of 1306 East Broadway, Sam Privitt of 504 South C, Al Muldrow of 312 South Club, Burton Hackney of

HOSPITALITY LEAPS ACROSS SEA

Brownfield Again To Host World Travelers

Brownfield's show of hospitality a year ago to a group of Europeans touring the United States has made itself felt in a special way.

Sponsored by the Association for World Travel Exchange, another group will arrive here at 6 p.m. Sunday from Dallas their next stop: Albuquerque.

It was last July that the first such travelers ever to stop here arrived, sponsored by the same association. In that group were 16 Europeans, 1 Algerian and 1 Indian.

In Sunday's arrivals will be one Brazilian, one Finn, four Germans and two Englishmen. The program here:

Arrive at 6 p.m., Sunday; luncheon Monday with members of all service clubs at Brownfield Junior High School cafeteria, which will be preceded by a tour of the area.

Clubs to take part in the Monday noon event are Kiwanis, Jaycees, Lions and Rotary. The travelers, three women and six men, will form a panel for a question-answer session. Emcee and moderator will be Atty. Morgan Copeland of the Rotary Club.

Until the time of their departure in their station-wagon caravan at 9 a.m., Tuesday, the group will live in the following homes:

Newell Reed at 702 East Lons, Roy Priest at 1005 East Lake, Burton Hackney at 803 East Broadway, John Kendrick at 1306 East Broadway, Earl Jones at 1315 East Tate, George Weiss at 502 East Buckley, Curtis Sterling at 801 East Lons, Phil Gaasch at 1212 East

Lons, Charles Kersh at 403 North C and D. L. Pemberton at 1104 East Buckley.

For the return this year of the world travelers to Brownfield, much credit has been given to the Rev. Ralph O'Dell, First Presbyterian Church pastor and chairman of Rotary Club's International Service Committee.

It was the Rev. Mr. O'Dell who cleared most of the details last year. He explained Tuesday that the association approached him this year, explaining that "That Brownfield hospitality has spread to and through the port of New York (association headquarters) to Europe," and requesting that Brownfield accept this year's travelers.

Youth had a field day Sunday at Brownfield Country Club when 18-year-old Terry Dill of Mulshoe and 22-year-old John Paul Cain of Sweetwater slugged it out for the championship of the fifth annual club invitational. Dill took Cain out on the 15th hole to win 4 and 3.

This is Dill's first major win in tourney play. However, he copped the Lakeside Country Club invitational at San Angelo and the Odessa Key Club Junior title this year.

In Sunday morning play, Dill defeated Roland Adams of Lubbock, 4 and 2, and Cain passed by Ross Mitchell of Lubbock, 1 up, to reach the finals.

Buster Tuttle of Lamesa defeated Jimmie Johnson of Levelland, 3 and 2, to take championship consolation. In semifinals, Tuttle beat Dan Whalen of Texas Tech.

VFW To Give Flag To Little League

A U.S. flag and pole will be presented at 6:45 p.m., today to Brownfield Little League.

Presentation ceremonies will be held in Little League Park, and Mayor Arlie Lowrimore will accept the flag from L. D. Bailey of Hand Bros. Post 6794, VFW.

The following firms and individuals have cooperated in the event: Halliburton Oil Well Cementing Company, Mid-Continent Supply, Pioneer Natural Gas, South Plains Ready Mix. City officials, O. E. Floyd, L. T. Redding Welding Service and Kersh Implement Company.

To Do So, the pastor had to get approval of the International Cooperation Administration in Washington and had to post bond with the American consulate in London, ensuring that none of the group would become a charge of the United States.

The Rev. Mr. O'Dell told of

See No. 2 Page 2

WAGE SURVEY BEING HELD

A prevailing wage survey to determine the wages paid to hoe hands is being conducted July 8 through July 12 in Terry. The U.S. Department of Labor will notify the Brownfield office of Texas Employment Commission of findings by telegrams, to be posted in the courthouse, Post Office and in Meadow, Tokio post offices.

BY TEXAS LAW ENFORCEMENT FOUNDATION

'Crimemobile' To Be Displayed

Terry County residents will be given a chance to see scientific crime detection Monday when the Texas Law Enforcement Foundation Crimemobile is on display here, according to Sheriff James Fulford.

The exhibit will be set up on east side of the courthouse from 8:30 a.m. to 5 p.m., reported Fulford. "Members of the city police department and sheriff's office will aid crimemobile personnel," he added.

In conjunction with the display, Mayor Arlie Lowrimore has proclaimed Monday as "Crimemobile Day" in Brownfield.

The proclamation states that "The scientific displays and exhibits should appeal to Brownfield's citizens and instill a sense of individual obligation in carrying out the

aims and purposes of good law enforcement in Texas.

"The Crimemobile will bring vital information pertaining to law enforcement practices and procedures in Texas, and at the same time instill an awareness to the causes of good law enforcement."

The exhibit includes a polygraph (lie-detector), X-ray machine, ultraviolet light, comparison microscope, short-wave radio, handwriting and fingerprinting equipment, plaster casts, chemical equipment, several types of firearms and various other scientific crime detection equipment.

Fulford said a representative of TLEF will be present to explain uses of the equipment on display and to answer any questions.

THE
AROUND
What's
New?
SQUARE

By Weldon Callaway

Brownfield has been a bustling little place here of late — people leaving on vacations, others returning home... it's hard to keep up with them:

Collins wound up another successful July Clearance Sale Wednesday and from the amount of "traffic" they had during the three-day event... it was a big success.

The First National and Brownfield State banks published financial statements in Sunday's issue of the NEWS and our over-all money situation looks good... Now all we need is to make a good crop.

Gene Gunn Tire Store is off on a "tear" again — Gene says he is running high in the contest for the trip to Jamaica

Sherrell Lindsey Is NEWS Winner

Sherrell Lindsey, son of Mr. and Mrs. W. E. Lindsey of 1012 South Fourth, this week was named winner of the NEWS recent subscription contest. He received a \$60 check from Publisher Curtis Sterling for the top score of 2,455 points.

Jerry Littlefield, son of Mr. and Mrs. C. H. Littlefield

of 1011 East Cardwell, placed second in the contest with 2,345 points and received \$45.

Third place winner is Jerrell Collis, son of Mrs. J. A. Collis of 107 West Story. He scored 960 points and received \$25.

Points for the contest, which ran through May and

June, were awarded as follows: New subscriber, 10 newenew 5; new subscriber for 1 year or more, 50 points extra, and renewal for 1 year or more, 25 extra points.

Sterling said an estimated 150 new subscribers were added to NEWS Rolls during the contest.

TOP NEWSBOYS — Publisher Curtis Sterling, conducted by the NEWS. Winners are, from right, presents checks to the three carriers left, Sherrell Lindsey, first; Jerry Littlefield, rated tops in a recent subscription contest second, and Jerrell Collis, third. (Staff Photo)

GRASSES, LEGUMES, COTTON

Diversification Is Keynote at Tucker's

By CHARLIE MAPLE
NEWS Staff Writer

If "variety is the spice of life," Winfred Tucker, who farms 480 acres 12 miles northwest of here, certainly has his share of spice.

The 37-year-old Terry county farmer probably can lay claim to the title of the area's most diversified grower since he raises cotton, alfalfa, five varieties of grass, several legumes and hybrid grain sorghums.

In addition to these crops, Tucker has loaned space to the county agent's office to test some 25 varieties of range grasses.

A Terry Soil Conservation Service cooperative, Tucker said some of his land was in

pretty poor condition when he began farming in 1953.

Using accepted farming practices and instituting an erosion control program, he reports the productivity of the land has increased considerably.

Controls Soil Erosion

"I have about 71 acres of alfalfa for hay and another 20 acres I'm growing for seed," said Tucker. "However, because of falling hay prices, my alfalfa probably will pay off more for its erosion control and soil building properties."

The 1955 "Terry County Farmer of the Year" started his grass program little more

See No. 5 Page 2

MAINTENANCE STOP — Winfred Tucker was caught checking his cultivating rig this week as he cleaned between the rows of Weeping Lovegrass growing on the south end of his farm. He reported that he has harvested about 75 pounds of seed per acre off this plot and expects to cut again within the next two weeks. (Staff Photo)

'CAN ADD TO FARM INCOME'

'Pig Parlors Paying'

Some relief from the grind of nursing a two-crop economy was held out Tuesday to Terry County farmers.

The bolstering of farm income would derive from raising hogs, and was described by a Seagraves Purina feed dealer.

Credited with considerable success at raising hogs himself, the dealer is C. D. Adams, who spoke at the monthly breakfast of the Four Country Agriculture Committee in Lamesa.

Adams, who also is secret-

ary-treasurer of Gaines County Swine Breeders Association, said, "South Plains farmers are in a strong position in the hog market."

Market Prices Cited

The year-round Fort Worth hog market prices and the local source of feed contribute, said the dealer, to the farmer's position.

The breakfast, held in Westward Ho Restaurant, was attended by approximately 35 men, including bankers, vocational agriculture teachers, farmers, ranchers, county agents, and members of various government services.

Those from Brownfield: Walter Meyer, vo-ag teacher at Brownfield High School; Jim Foy, Terry County agent, and his assistant, Bob Etheredge, and Dennis Q. Lilly and R. N. McClain, vice-presidents and agriculture advisors of First National and Brownfield State banks, respectively.

Adams discounted any "luck, good or bad, in the successful economy or raising hogs."

See No. 6 Page 2

A FEW OF THEM — Winfred Tucker examines the roots of Blackwell Switchgrass he is raising on his farm 12 miles northwest of here. He says the roots actually are three or four times as long as these he has pulled up. (Staff Photo)

BROWNFIELD KIWANIS PROJECT

Kiddie Park In Sight

Brownfield Kiwanis competed their plans this week for a Kiddie Park to be located southwest of Terry County swimming pool.

To finance the project (estimated cost: \$1,650 to \$1,700), the Kiwanis will launch a campaign July 18 to sell \$2 "shares" in the recently organized Kiddie Park Corporation.

Said Kiwanian Bill Nichols, chairman of the Kiddie Park committee:

"The park will comprise an area of approximately 105 square feet, and will be of eight sides bordered with hedges. There will be six pieces of playground equipment: two swings, each equipped with four units; a merry-go-round large enough to hold 40 children; slide, three see-saws and a monkey jungle (12 foot by 6 foot maze of pipes large enough to occupy the time of 60 children)."

The Kiwanis explained that the equipment in the park would be of the "heavy duty type, safe for children."

Tentative completion date of the project will be "sometime in October," said Nichols. The club will order its equipment in August.

Sale of the \$2 corporation shares will be at booths in various downtown stores, and during a house-to-house campaign, the date to be announced.

BREEDING SPOTS — These open and garbage-strewn cans are violators of a city ordinance which officials began enforcing this week. The cans, which are known fly and mosquito breeding spots, will be the object of an extensive campaign as officials attempt to cut down on chances of an encephalitis epidemic here this summer. Residents are urged by City Manager Eunice Jones to check their garbage cans to see that they comply with the ordinance. Jones said violators will have their garbage receptacles tagged. "Violators will be allowed 10 days to comply with the law," revealed Jones. "If they do not comply with it within that time, we will be forced to file charges against them." The law requires that containers be no more than 31 gallons capacity and have a tight-fitting cover. (Staff Photos)

Junior Golf Tourney Will Be At Midland

Over 200 of the State's top junior golfers are expected to compete in the 12th annual Texas Jaycee junior championship golf tourney to be held at Ranchland Hill Country Club in Midland July 31st through August 2. The top four winners will receive an all-expense paid trip to the National Jaycee golf championships in Columbus, Ohio, August 19 through 24. Competition is open to boys 17 and under. Throughout the state Regional tournaments are being held by Jaycee clubs. While it is not necessary to compete in a Regional tourney to enter the State competition, the winners of the Regional tourneys will receive expenses to Midland for the State Championship. Boys interested in playing in the 36 hole medal play should contact Sam Coker, Chairman, Texas Jaycee Junior Golf Championship, P. O. Box 135, Midland, Texas.

Singspiration Services Set at Nazarene Church

Singspiration services will be held at the Church of the Nazarene the second and fourth Friday of each month, commencing at 7:30 p.m. tomorrow. Services, to be held in the church at Second and Tate, are open to the public. Weeds on ranges use from 6 to 8 times more water than do good native grasses. "\$11 to 15 profits per pig. Based on his own experience, Adams ascribed to feeding and breeding the major share of getting the most money from your pigs." The Four County group comprises men from Terry, Gaines, Dawson and Yoakum counties who have a direct interest in the agriculture picture. Emceeing Tuesday was Sam Richardson, Dawson County farmer. An invocation was said by Richard Crowley of Lamesa, First National Bank.

No. 1—

803 East Broadway, Leonard Ellington of 415 East Cardwell, Phil Gaasch of 1212 East Lons and Charles Kersh of 403 North C.

Arnold's trip to the United States is financed by the Research Fund from Europe to New York and back to Europe. The tab for his expenses from New York to Brownfield and back to New York is picked up by the Rotary Club.

He will be here as a student, to learn the "American way."

Said the Rev. Mr. O'Dell: "We have been admonished, encouraged and advised that Mr. Arnold is a student, here to learn. He'll live as we live our daily lives. His hosts in the various homes here, will go about their daily routine as much as possible. He is not to leave thinking that life in America is 'a ball'."

Arnold is working toward a doctorate in economic geography. His other fields of stu-

dy include modern languages (English, French and Spanish) and chemistry. As an interpreter, he speaks excellent English. He is a member of the Protestant Student Community of Bonn University; Society of Interpreters, Foreign Correspondents and Teachers of Languages of Northrhine-Westphalia; Geographical and Ethnological Society of Bonn. Hobbies: tennis, swimming, skiing, photography and aviation.

He has attended the Universities of Jena, Cologne, Bonn and Dijon, and the Berlitz School of Languages in Bonn.

No. 2—

correspondence from many of the guests here last July. A letter arrived soon after last year's Harvest Festival from Marie Therese Haag of Les Sapins, France, a guest last year in the Roy Priest home. Miss Haag expressed much regret that the festival had been rained out and that this year's event would have better

luck. She had read of the mishap in the NEWS, of which a year's subscription was sent by Brownfield businessmen to the entire group.

The Sunday arrivals will be under the direction of Miss Ann Morrissett of Washington, D.C., where she is a teacher in the Georgetown Day School.

Other arrivals: Anna Maria V. Dias, 21, of Rio de Janeiro; Erkki Hansson, 20, of Helsingfors, Finland; Gerhart Horst, 31, of Marburg, Germany; David R. Kaye, 25, of Bromley, England; Theodor Schusardt, 24, of Munich, Germany; Kathe G. Steinmetz, 28, of Nurnberg, Germany; Michael J. Thomas, 24, of Solihull, England, and Ferdinand Wohiau, 25, of Witten Auen, Germany.

Monday's lunch will be prepared and served by Brownfield Mariners Club, a couple's organization of First Presbyterian Church.

No. 3—

1 up, while Johnson handed Jack Shirley a 2 and 1 defeat. Other winners were Don O'Neal, who took first flight honors by easing Manning Davis of Snyder, 1 up; Harry Goble, who defeated Bill White of Lamesa 1 up for sec-

ond flight honors; Sawyer Graham, who downed Allen Terrell, 3 and 2 to take thru flight;

Gerald Parker of Lubbock, who turned back Harold Crites, 4 and 3 in fourth flight; and Boyce Mahoney of Lamesa, who defeated Jack Bailey, 1 up for fifth flight title.

A field of 96 players participated in the three-day tournament. Medalist honors went to Roland Adams of Lubbock after he took a sudden-death nine hole turn from Jon Cowsar. The two shot 67s in medalist play.

Harry Goble and J. O. Burnett Jr. were co-chairmen for the event, with Dusty Kemper, director in charge.

No. 5—

than a year ago for its seed crop and to build up the sandy soil on the south end of his farm. "Weeping Lovegrass is the only seed crop I have harvested so far — it made about 75 pounds per acre," reported Tucker. He said he expects to harvest seed from his Sideouts Gramma and Blue Panic plots within the next two weeks.

He also has plots of Indiangrass and Blackwell Switchgrass.

Seed-Cleaning Machine

To facilitate handling of grass seed and to cut down processing costs, Tucker has invested in a seed-cleaning machine for use on his farm. "I clean nearly all the seed I use on the farm, including my sorghums," he noted. Tucker, a resident of Terry

County since 1934, added that his grass program has paid dividends this year by stopping water erosion despite heavy downpours.

"Water which formerly ripped through the low sandy south side of the farm was slowed and diverted into a lake with little or no erosion this spring," he reported. "You could see the water almost stop as it hit the grass areas."

Though he has experimented with several legumes, Tucker says he has had the best luck with winter peas. "I turned them under this spring and planted the land in cotton," he said. "And I believe that 20 acres look better than any other cotton on the farm."

No. 6—

ing hogs — management, as usual, plays the major role." He talked extensively of area "pig parlors," where management and planning are given rein, and of the varying degrees of success realized by the owners.

Automatic feeding, a cooling system and cleanliness are major features of the parlors, said Adams, who also told of

THE PARK AND THE STOCK — In left panel is artist's drawing of the Kiddie Park when it is completed sometime in October in Terry County Park. Project of Brownfield Kiwanis Club, the park will be financed through sale here of "stock" in the recently organized Kiddie Park Corporation, at \$2 a share, the sale to get under way July 18. Estimated cost: \$1,700.

Kiwanians will conduct the sale of shares from that Brownfield could not make a better investment on the stock market, and at the same time share the dividends with so many. Kiddie Park committee chairman: "We feel Actual size of the shares will be 8 1/2 x 10".

Governor Price Daniel Proclaims July 21 To July 27 "Farm Safety Week" In Texas

The death toll from farm accidents last year in the nation was higher than in any other major industry. "Farm accidents," said Governor Price Daniel on June 13 when he issued his Farm Safety Week Proclamation, "have become a serious problem which not only causes untold suffering among our rural population, but which affects the economy of the entire nation."

In proclaiming the week of July 21-27 as Farm Safety Week, Governor Daniel pointed out the Texas Safety Association, the Texas Farm and Ranch Safety Council and Texas Agricultural Extension Service will be cooperating with the National Safety Council and the U. S. Department of Agriculture in carrying out a farm accident-prevention educational effort.

This campaign is in keeping earlier by President Eisenhower on a national basis. Governor Daniel said, "The effect of accident-prevention programs has indicated that our rural residents, through attention to safety education, can greatly reduce accidents and the resulting loss and suffering. Therefore, as Governor, I urge all farm families to join in a continuing campaign against needless accidents."

Summertime Can Be Troubletime Unless Rules Are Followed

The "good old summertime" is here and with it comes higher temperatures and bright sunlight. The Texas Farm and Ranch Safety Council warns that too much sunlight and over exposure to high temperatures can cause troubles unless precautions are taken. They point out that heat sickness will occur when the body's heat regulating system collapses during prolonged heat or overexposure to the sun. In sunstroke, body temperature rises, the skin becomes hot and dry, the face reddens and a shooting headache develops. Heat exhaustion is an entirely different thing. Its symptoms are below normal body temperature, cold clammy skin, palor, dizziness and a dull headache.

Stockton Top Hitter In Ruth Cellar Battle

Tommy Stockton rapped a grand slam homer in the bottom of the fifth inning Monday night to give his Dodger teammates a thrilling 15-14 win over the cellar-dwelling Yankees. It was his second home run of the game.

OES Chapter At Meet In Masonic Hall Here

Brownfield Chapter 785, OES, met Tuesday night in Masonic Temple, with Irma Smith, Worthy Matron, and Cecil Smith, Worthy Patron, presiding.

Gov. Price Daniel, who is considering the special session, hastened to say that he had "no idea" of submitting a new tax request. He pointed to his recent effort to get foreign oil imports limited so Texas production could be increased. Much of Texas' tax revenue comes from oil production, so this move, if successful, could improve the state's financial outlook.

INSURANCE STUDY ON — An overall survey of the Texas Insurance Commission's operations by a private outside agency is going forward with official approval from all sides.

RAIN NEEDED AGAIN — Almost a month of dry sunny weather has many Texas farmers returning to an old refrain — "more rain."

UT SALARIES RAISED — Teachers in the University of Texas system can look forward to raises averaging \$800 a year for the coming school year.

50-50 PLAN LAUNCHED — A new era in Texas highway building opened when the state executed its first contracts to help counties with right of way costs.

Gov. Price Daniel expressed confidence the board would soon get rid of the few "rotten apples" still remaining in the insurance industry. None of the men sought the jobs, said the governor; they were "drafted."

HOUSE SPEAKER WAGGONER Carr stirred things up by saying he was afraid the state couldn't afford the possible half-million-dollar tab for a special session in the fall. It might mean new taxes, said Carr, since the last Legislature appropriated nearly every cent now in sight for the next two years.

COX TRIA DUE — Trial of Ex-Rep. James E. Cox of Conroe is set to open Monday (July 15), but there are good indications it'll be delayed.

Range growth has slowed, said USDA, and cotton is running very late. But it predicted good feed crops, possibly one of the largest sorghum harvests on record.

SHORT SNORTS — Texas construction contract awards in June were up \$34,000,000 over last year, reports the Texas Contractor magazine. A billion-dollar construction year is foreseen. . . . Truck freight rates will go up five per cent beginning July 10, announced the Railroad Commission. It will cost shippers an estimated \$2,500,000 per year. . . . Texas' draft quota for August is down slightly, 547 compared to 861 in July. Col. Morris Schwartz, State Selective Service director, also announced new regulations giving draft exemption to members of Ready Reserve units. . . . C. C. Crutchfield of Austin has been named director of the League of Texas Municipalities. He succeeds E. E. McAdams who served as director for 22 years. . . . Governor Daniel has asked the federal government to approve flood control projects for Hudson, Bell, Guadalupe, Comal and Hays counties. Work would be financed jointly by the U. S. government, local water and soil conservation districts and the affected land owners. . . . R. L. Phinney, district director, Internal Revenue Service, has announced that farmers may obtain refunds of federal excise tax on gasoline used for farming purposes during the fiscal year ending June 30. Claims must be filed before Oct. 1 on Form 2240 which may be obtained at county agents' offices.

Navy men used amphibious assault tactics to build two of seven American bases in the Antarctic. "Frogmen" blasting underwater obstructions wore special cold-water immersion suits.

Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD Texas Press Association

AUSTIN—"Summertime . . . and the livin' easy" says the song. But under the State Cap-

itol dome there's a bit to keep folks uneasy, even in this summer lull.

House Speaker Waggoner Carr stirred things up by saying he was afraid the state couldn't afford the possible half-million-dollar tab for a special session in the fall. It might mean new taxes, said Carr, since the last Legislature appropriated nearly every cent now in sight for the next two years.

Gov. Price Daniel, who is considering the special session, hastened to say that he had "no idea" of submitting a new tax request. He pointed to his recent effort to get foreign oil imports limited so Texas production could be increased. Much of Texas' tax revenue comes from oil production, so this move, if successful, could improve the state's financial outlook.

Another source of uneasiness is the Travis County grand jury — hard at work, despite the heat. Insiders predict six or seven indictments resulting from the ICT and bribery investigations begun by the Legislature.

If true, this means more people are in trouble than outsiders can as yet account for. Others are critical of the State Water Board's inaction. Plagued by internal disagreements, the board has delayed a year in ruling on the Canyon Dam squabble. In this case the City of San Antonio and the Guadalupe-Blanco River Authority locked horns over whether San Antonio could get water from the proposed dam.

Governor Daniel will be able to make a new appointment to this board in August.

COX TRIA DUE — Trial of Ex-Rep. James E. Cox of Conroe is set to open Monday (July 15), but there are good indications it'll be delayed.

Cox was indicted last spring on charges of consenting to accept a bribe. Dist. Atty. Les Procter says the state is "ready to go." But defense attorneys admit they'd rather wait until publicity dies out and the weather cools off. They spoke of probable postponement moves.

Reporters, recalling the sweltering weeks spent covering the trial of Former Land Commissioner Bascom Giles two summers ago, admit they are not eager to see this one start now.

INSURANCE STUDY ON — An overall survey of the Texas Insurance Commission's operations by a private outside agency is going forward with official approval from all sides.

First action of the new Insurance Board was to request a Texas Research League study of the department. Actually, the League already had begun the task after requests last spring by then-Comm. Ch. John Osorio and by a House investigating committee.

Reorganized board took the reins after swearing-in of new member David B. Irons and Joe P. Gibbs, who had served "temporarily" for the past few months. Former Dist. Judge Penn Jackson was installed earlier.

Governor Daniel expressed confidence the board would soon get rid of the few "rotten apples" still remaining in the insurance industry. None of the men sought the jobs, said the governor; they were "drafted."

50-50 PLAN LAUNCHED — A new era in Texas highway building opened when the state executed its first contracts to help counties with right of way costs.

Unit now, law required local governments to buy the land and the State Highway Department to pay construction costs.

Half-Millionth for Half-Year Point

DETROIT, MICH. JUNE 21—Plymouth greets the half-way point of the year with its half-millionth 1957 Plymouth. The milestone car is the 500,000th 1957 Plymouth to be assembled in the United States and Canada. It wheeled off the line at the Plymouth plant in Detroit. Assembly line workers join Jack W. Minor, Plymouth vice-president in charge of sales, to mark the important 1957 event. Minor termed the half-millionth vehicle "a symbol of the tremendous success and continuing demand for the 1957 line of Plymouth cars."

Barbecued Chicken Becoming Favorite

Cooking outside is a popular pastime that has been enjoyed for a long time but chicken broilers have only entered the picture in recent years. Young, tender broilers when cooked one to one and a quarter hours produce excellent barbecue, according to Kermit Schlamb, extension poultry marketing specialist. Either fresh or quick frozen birds, ready-to-cook, are satisfactory for barbecuing. In the way of equipment, Schlamb says that portable barbecuing outfits or electric outfits may be used but simple equipment such as a metal rack set up on four bricks standing on end will do. The flavor and aroma of the meat is unchanged. Charcoal or briquets are most popular for fuel, but good dry hardwood works well. In either case, the specialist advises letting the

fire burn down to the coals. Have the coals no higher than 2 inches and replenish if needed. The grill should be 12 to 30 inches above the heat source. Low, even heat is the secret. The heart of a good broiler barbecue is a spicy, savory sauce, says Schlamb. The Poultry and Egg National Board has developed a simple sauce made of 1/4 cup of water, 1 cup vinegar, 1/4 pound butter and 1 tablespoon of salt heated together. Different people may prefer different combinations of these ingredients. The real fun of a chicken barbecue, besides the eating, is in the cooking. Halved birds are ideal, but they may be quartered if smaller portions are desired. Brush the birds with sauce, laying the skin side up, advises Schlamb. Do not pierce the skin. Keep the fire low to avoid

Farmers Urged To File for Federal Gas Refund By Sept. 30

Terry County farmers are reminded by Jim Foy, county agent, that they may now apply for a refund on the 3-cent Federal tax on gasoline used for farming. The amount claimed must be based on the quantity of fuel used for farming purposes on individual farms and ranches during the period from July 1, 1956 to June 30, 1957. Foy said all claims must be submitted to the District Director, Internal Revenue Service, and claims for the past year must be in by September 30, 1957. Only one refund claim per farm operator will be permitted and each tax claimant is cautioned to make certain that his refund request includes all eligible fuel used. Each farm or ranch operator who applied for tax refunds in 1956 will be mailed Form 2240 for filing the 1957 claim. An instruction sheet for preparing the application will also be provided, said the agent. For new fuel users or those who failed to file last year, copies of the filing form may be obtained from the office of the local county agent. Foy also suggests that a copy of Publication 308, Farmers Gas Tax Refund, prepared by the Internal Revenue Service, be obtained from the county agent's office or from the nearest District Internal Revenue Service Office. The agent advises agricultural producers who used an appreciable amount of gasoline last year in their farming or ranching operations to check into their eligibility for a refund.

Porkers Need Bath

There's nothing like a shower for cooling you off in hot weather. And that's true for pigs as well as people, suggests E. M. Regenbrecht, extension swine husbandman. A fine mist spray, using a very small amount of water per pig, is enough to keep pigs comfortable — and gaining — even on the hottest days of summer, according to the specialist. Research in recent years has demonstrated that livestock are more productive and gain weight more quickly if they are kept comfortable in hot weather.

FOR SALE

REMEMBER?

20 Years Ago Here

Contract was let Wednesday for surfacing the first 12 miles of highway west of Brownfield, according to J. E. Shelton, secretary of the Chamber of Commerce.

Brownfield's monthly Trades Day will be held on Tuesday, July 5, because many of the merchants wish to observe July the Fourth holiday.

V. B. Ward and family returned Sunday from an extended trip through Central and Northeast Texas.

Rainfall, general over the county the past week, measured 1.19 inches in Brownfield.

Former Secretary of State Gerald C. Mann of Dallas was visitor in Brownfield this week, conferring with friend and supporters of his candidacy for attorney general of the state.

W. J. Baldwin, pioneer farmer of the Foster area, died this week. He is survived by his wife and five children.

this advantage by no means balances the disadvantages.

Weed control may be classified into two methods—mechanical and chemical. Mowing is the most important of the mechanical controls. The specialist advises setting the sickle blade about 6 to 8 inches above the ground to avoid cutting off too much of the grass. The cows can perform the grass mowing task quite well, so only mow the weeds.

L. T. A. L. and E. A. Baldwin, Mrs. D. F. Mathis and Mrs. R. M. Finley.

The Rev. David H. Beebe left Wednesday for Dallas, where his wife underwent surgery the first of the month. They will return here Friday.

Millard Holloway, who is service manager for Chisholm Hardware, spent Monday in Morton on business.

Chris Quante and son, Odell, accompanied by J. B. Huckabee Sr., left Wednesday for Duncan, Ariz., where Quante owns mining property.

Removal of the parlors of Brownfield Funeral Home to the Ditto Home on Seagraves Highway was announced this week. The parlors formerly were in the Downing home on East Main.

Good attendance was recorded at the regular weekly meeting Wednesday in Wines Hotel of Brownfield Lions Club.

President-Elect Emmett Smith, whose term begins July 1, named chairmen of the various committees to serve the club during the coming year.

Jack Bailey underwent a tonsilectomy recently in the local hospital.

Earl Lewis Wilson was removed to his home last Friday from the local hospital, where he has been receiving medical treatment.

Brownfield Woodman Circle entertained friends this week. Those taking part in the program were Mmes. Effie Smith,

Thelma Blair, Lura Brown, Rose Mayfield, Viola Mullins, Golda Line, May Cook, Helen Mangum and Monnie Wells.

Miss Emma Gene Coleman entertained with a lawn party Thursday at the home of her parents, Mr. and Mrs. Clyde Coleman on East Main. Present were Ted Greenfield, Deverelle Lewis, Eldora White, Cecil Ross Smith, Charlotte Dial, Jacqueline Powell, Andy Griffin, Richard and Ray Elliot, Patsy Thomas.

The 1937 Quilting Club had its regular meeting Wednesday afternoon on the lawn of Mrs. W. A. Tittle's home, with Mrs. E. L. Redford, acting as joint hostess. Present were Mmes. W. L. Bandy, A. M. Burnett, B. B. Brown, J. W. Hogue, C. C. Cater, J. S. Smith, F. E. Walters, C. F. Hamilton, L. J. Dunn, K. W. Howell, W. M. Lewis, A. T. Fowler, G. W. Hicks, L. E. McLeish, E. D. Ballard, D. P. Carter, L. R. Pounds, W. B. Downing, W. H. Collins, J. L. Cruce, C. D. Sanns, Judson Cook, Ike Bretlow and V. R. Elliott.

DANGEROUS WHEN OVERLOADED

Homeowners Warned To Beware of Wiring

Almost everyone has experienced that helplessness which is felt when the electricity goes off, for more and more household chores, from dishwashing to clothesdrying, are being shouldered by electrical servants.

And through air conditioners and radio and TV sets, those ready kilowatts are providing a lot in the way of comfort and entertainment, too.

But many homeowners are discovering that their houses are inadequately wired to handle the extra load of appliances, says W. L. Ulich, extension agricultural engineer. Blowing fuses, flickering lights, and shrinking TV pictures when additional electrical appliances are turned on are all signs that circuits are overloaded.

For safety's sake, call in an electrical contractor when this occurs, advises Ulich. Don't play "handy-man" with something that can be as dangerous as electricity.

Don't use heavier than 15 ampere fuses unless your circuits are built to handle them. And never use a coin to establish contact after a fuse has blown.

Fuses and circuit breakers operate on the basis of flow of electric current. Excess flow of current not broken by a fuse or circuit breaker causes heat greater than insulations on wires can resist. The overheating

wires can easily cause a fire. If your house needs additional wiring, it will pay to take care of this need promptly. All appliances will work more efficiently and satisfactorily and may use less electric current to do the same work. Cost of wiring is small compared to the safety and convenience of a properly wired home, points out Ulich.

Starr's Managers At Business Meet

Managers and relief managers of Starr's Drive-In Restaurants met Monday at the home office in Sweetwater to hear discussions of employee safety.

A. B. Smith, general manager, talked briefly of managerial policy, and Robert M. Favor,

legal advisor for the chain, spoke of safety measures.

Kenneth L. Smith, owner, conducted the business session, outlining operational, advertising and sales policies. The session was concluded with a round-table talk.

Present for the dinner afterward were W. S. Smith of Odesa, Gene Ausborne of Midland, Marvin Smith of Brownfield, Jack Hall and William Parrott of Colorado City, A. B. Smith, Herschel Ebarb and Vernon Bell of Sweetwater.

Weed Control Gives Life to Range Grass

Weeds on a native pasture are harmful to good grasses, but their damage can be greatly reduced if proper management practices are employed, says G. O. Hoffman, extension range specialist.

Weeds shade out grasses causing poor growth. They also use soil nutrients and moisture that should be used for the growth of grasses.

Weeds use 6 to 8 times more water than do good native grasses. However, weedy growth was helpful this year in holding up rainwater, causing more of it to penetrate the bare soil and thus reducing soil erosion, says Hoffman. But

For Buick Owners Only

If you own an earlier Buick than our 1957 product, you're probably reluctant to part with it — and who can blame you? After all — regardless of year or model — there's nothing like a Buick to set you a cut above the ordinary run of mortals — make you feel master of all you survey.

But listen. As wonderful as your present Buick is — we can name at least six good reasons why you should look into a 1957 Buick now.

Six good reasons why you should try this dream car to drive — today. Read 'em — and leap!

6 Reasons To See Your Buick Dealer Today

1. Today's INSTANT Dynaflow® — Response? When! Same as! When! Never in history such a sweet sense of control, security, safety for yourself, your family, everyone else on the road!
2. Zesty New "Neated" Ride — Take Buick's traditional torque-tube, coil-sprung ride — cradle it to the lowest center-of-gravity in Buick annals — and brother! You never had it so smooth.
3. Buick's One and Only Safety-Buzzer™ — What's the safest pace you want to drive at? Whatever it is, turn a dial till that figure appears in a "window." If you exceed that pace, the buzzer tells you. Simple. Thoughtful. A great safety advance.
4. Unique Ball-Joint Handling and New Braking — Your steering is amazingly easy. Your cornering is amazingly soft. Your braking steps on the level. (And Buick's powerful new brakes dig in for straighter, swifter, safer stops!)
5. Soave Low-Sweep Styling — Clean, crisp, classic lines in the finest Buick tradition — beautiful to look at and live with. Up to 2.4 inches lower, yet more room inside. Including legroom for the folks in the middle.

P.S. You'll like today's Buick prices — and your Buick dealer's high trade-in allowances.
*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick build today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special Safety-Buzzer standard on Roadmaster, optional at extra cost on other Series.

Alien Foods, Plants Often Mean Trouble To U. S. Agriculture

Tourists returning to the United States from abroad this summer should resist spur of the moment urges to bring back unprocessed foods, plants and seeds.

Enticing and harmless as they may seem, these materials can be the method of transfer and introduction for insects that are harmful to our agriculture, according to C. F. Garner, extension entomologist.

These insects may be transported inside fruits, vegetables, cuttings and seeds. They may be in the soil attached to plant roots and may even be transported in certain meats, says the entomologist.

Past records indicate that precautionary measures are justified.

The Mediterranean Fruit fly was discovered in Florida in an area straddling the International Airport at Miami. Some entomologists believe it got into this country from infested fruit brought in air passengers' bags.

Meanwhile, this fly has continued to seek entry. A pas-

THE AMERICAN WAY

TVA Octopus Reaches For More Suckers

By George Peck

The TVA octopus, not content with being the biggest single electric utility monopoly in the world, is stretching out its tentacles to grab more power for itself. The "suckers" of these tentacles are reaching to "suck" more from the American taxpayer, who in this TVA picture (to make a play on words) is himself a victimized "sucker."

George Peck

The Tennessee Valley Authority now wants to do its own financing through sale of revenue bonds to the public without Congressional control of how or where it shall expend the funds thus raised.

A brief review of the original intent of Congress and how TVA has consistently circumvented this intention is necessary at this point to make crystal clear how this new reach for power could vest total authority in the TVA Board the ultimate goal of the Socialist supporters of this vast government operation.

TVA was created in 1933 as a floor control and navigation project, with the sale of "surplus power" incidental to these was amended to give the Authority sweeping new powers in performing service to electric preference customers by au-

thority. The Authority used these new powers to force all electric companies in the area out of business and, as a result, set about through rigid contracts to make all rural and domestic users in the Valley "captive" customers of TVA. Created originally as a purely hydro-electric operation, TVA next set about to convince Congress it needed steam plants to adequately service all of the customers. Today the operation is 61% steam; 39% hydro.

Moreover, the TVA Act instructs the Authority to sell surplus power to local and public agencies with preference to the former, and to give primary attention to the needs of domestic and rural customers. But the 1956 Annual Report of TVA shows that less than 15 per cent of its total sales went to domestic and rural customers.

In other words, it has created a "crisis" by selling the bulk of its power to other than the preference customers designated by Congress.

Even though American taxpayers already have invested approximately \$1.5 billion in TVA power facilities, the Authority thinks this is not nearly enough. It is demanding a free hand to do its own financing with revenue bonds, instead of as presently handled through tax-free Congressional appropriation or from power revenues.

A noted authority on electric power, Walter H. Sammis, has pointed out to Congress that "well-over one-half of TVA's sales were taken by the Atomic Energy Commission and other federal agencies." He cited the Comptroller General as stating that "there is no assurance that the demands of AEC and other federal agencies will not sharply decrease, leaving the TVA system with surplus capacity of millions of kilowatts."

Mr. Sammis has been active in electric industry affairs for more than 20 years. He is president of both the Ohio Edison

and the Pennsylvania Power Co., is a past president of the Edison Electric Institute and has served on the Board of the National Association of Electric Companies. His words, therefore, cannot be taken lightly, when he says that "the existence of a considerable surplus capacity could be a temptation to further expand the TVA area in order to find additional markets."

"To permit TVA to issue revenue bonds," he told Congress, "would inevitably result in the unleashing of tremendous additional amounts of subsidized electric power upon an industry already unfairly affected by TVA's operations. TVA, as an unregulated monopoly, could ultimately destroy investor-owned companies now serving the areas in which TVA might expand."

But of prime interest to the everyday, taxpaying citizen, is Mr. Sammis' statement that such expansion of TVA, which he called a "form of Socialism," could result in a "loss over the years of billions of dollars in tax revenues to local, state and federal agencies."

Taxpayers everywhere already have paid \$1.5 billion in tax dollars to give a comparative handful of people in the TVA area subsidized electric power. Moreover, these taxpayers have been losing millions of dollars every year through TVA's tax-exempt status. They would stand to lose additional billions if TVA were enabled to expand outside its present area through monies raised by sale of revenue bonds.

It is good manners which make the excellence of a neighborhood. — Confucius.

have been found in oranges removed as garbage from a plane coming from Southern Europe.

Inspectors also are alert for free-flying insects, says Garner. Last year they found 48 live Japanese Beetles in aircraft arriving in Hawaii from Japan.

About 50 live European Chafers were found on an overseas plane in Paris. Only prompt recognition and action prevented the escape of these pests from the plane.

Permits for bringing back items for special purposes, explains Garner, may be obtained from the Agricultural Research Service, U. S. Department of Agriculture, Washington, D. C.

Co., and the Pennsylvania Power Co., is a past president of the Edison Electric Institute and has served on the Board of the National Association of Electric Companies. His words, therefore, cannot be taken lightly, when he says that "the existence of a considerable surplus capacity could be a temptation to further expand the TVA area in order to find additional markets."

HERE SUNDAY IN 'BERNADINE'

Young Pat Boone Takes Fame in Stride

At 22, Pat Boone, the nation's singing sensation, has added a new dimension to his career which already encompasses radio, records and television.

With his starring role in "Bernadine," a Twentieth Century-Fox CinemaScope comedy coming Sunday to the Regal, he firmly establishes himself as a permanent Hollywood figure.

Upon completion of his first film role with Terry Moore, Janet Gaynor and Dean Jagger as his co-stars, young Pat was immediately signed with Shirley Jones in a new musical comedy.

As far as the world is concerned, Pat is way out ahead, but he has his mind set on at least one more goal: a bachelor of science degree from Columbia University in New York.

Pat sings three songs in "Bernadine," which was adapted from Mary Chase's Broadway play about a bunch of teenage boys and the trouble they have with the girls.

Surely Have'nt

Brownfield News

And Tazewell County Herald - Tazewell County's Oldest Business Institution

Vol. 20 Brownfield News-Herald, Thursday, July 11, 1957 No. 38

MRS. BILL MORMAN

Marriage of Danny Loe, Bill Morman Is In Lubbock, June 22

Mr. and Mrs. Alton Loe of Route 2 announce the marriage of their daughter, Danny, to Bill Morman of Lubbock, son of Mr. and Mrs. D. E. Morman of Raymondville.

The marriage vows were solemnized June 22, in Lubbock, and Mr. and Mrs. Morman are at home at 807 Ave O, in Lubbock, where he is employed by Lubbock Auto Supply.

Mrs. Morman is a senior at Wellman High School, where she edited the Wildcat, school annual, was president of the Wellman Future Homemakers of America, member of the basketball team and was drum major. She plans to enroll for the fall term at Tom S. Lubbock High School.

Skiles Family In Reunion July 4th

The family of Walter R. Skiles of 904 East Harris met in Stamford July 4 for a family reunion in the home of Mrs. Skiles' parents, Mr. and Mrs. C. W. Sorrell.

Those present were the Walter Skiles and Donald, Mr. and

Social Held By W.S.C.S. Circles

All circles of the Women's Society of Christian Service of First Methodist Church met in the church parlor Monday at 3 p.m. for a social hour and business meeting.

Mrs. G. S. Webber opened with a prayer, followed by scripture, "An ABC of Gospels" by Mrs. J. C. Criswell, president, who also conducted the business meeting.

Cold drinks were served to 30 members by the hostesses Mmes. Webber, J. L. Newsom, Roy Herod and Ernest Latham.

Following the group meeting, circles met in various rooms. Faith circle met in the Webber room, with Mrs. Eric Proctor giving the lesson, "Strangers Within the Gates". Mrs. Proctor also read the scripture from Leviticus and led the prayer.

Mrs. Webber conducted a brief business meeting, at which time members voted to continue having their circle meetings each Monday at 9:30 a.m.

Those present were Mesdames Proctor, Webber, Ida Bell Walker, J. W. Hogue, W. B. Downing, R. L. Cornelius, D. S. Sampson and Miss Maude Bailey.

Cheryl Miller, who with her parents, Mr. and Mrs. Kelton Miller of 706 East Carwell are spending the summer in McAllen, has received her junior lifesaving badge and appeared in a water carnival in Mission last week. She is the granddaughter of Mr. and Mrs. L. J. Dunn, 301 East Main.

Mrs. L. R. Skiles and children of Fresno, Calif., Mr. and Mrs. Wilford Skiles and Mary, of Abilene, and Mr. and Mrs. Billy DePoyster and Julie, Debra and Theresa, and Mr. and Mrs. James Skiles and Sherry and Mike, all of Brownfield.

READ LAST WEEK

Russell-Lloyd Rites

In a ceremony read at 5 p.m. July 5, Miss Barbara Gay Russell, daughter of Mr. and Mrs. Carl Russell of Route 1, Meadow, became the bride of Joseph Hollis Lloyd Jr., son of Mr. and Mrs. J. H. Lloyd of Big Spring. The double ring rites were read by the bridegroom's father in the Methodist Church at Meadow.

The altar was formed of emerald palms, multi-branched candelabra and baskets of white gladioli. The altar rail, covered with white satin, was draped with smilax, and burning tapers, entwined with smilax and tied with white satin bows, marked the bridal aisle.

Mrs. Charles Quisenberry sang "Ah Sweet Mystery of Life" and "At Dawning" preceding the ceremony, and the "Wedding Prayer" in closing.

Father Escorts Bride
The bride, given in marriage by her father, wore a traditional gown of white Chantilly lace and tulle, fashioned with a Sabrina neckline, outlined with scallops. Brief sleeves and long tapering mitts ending in points over the hands were caught by tiny covered buttons. From her slightly elongated bodice, the triple tulle skirt with an overlay of scalloped edged lace fell in points and extended into a full sweep over satin.

Her tiered veil of French imported illusion net was caught to a regal crown of pearls. She carried a white Bible topped with a white orchid and feathered white carnations with a shower of white satin streamers tied with clusters of maline and feathered carnations.

Attendants Named
Miss Betty Hester of Big Spring was maid of honor. Bridesmaids were Miss Carlene Russell, sister of the bride, and Miss Shirley Ann Hall, niece of the bride. They were dressed identically in light blue polished cotton gowns, styled with boat necklines and short sleeves accented with criss-cross drapery ending in a loop at center back, falling the length of the full gathered street length skirt. Their matching bandeaux were made of light blue velvet leaves, and they carried wedding ring bouquets of feathered carnations and blue satin

streamers. Flower girls were Ann Blackstock of Odessa, niece of the bridegroom, and Judy Faulkner of Lovington, N.M. They wore dresses of light blue, and they carried baskets of blue satin petals and strewed white flowers along the bridal aisle.

W. D. Warren of Brownfield was best man. Ushers were Walter Gillon of Ralls, Victor Day of Dallas and Jerry Bostick of Odessa, nephew of the bridegroom. Jimmy Carl Fox of Dallas and Earl Ross McCrary of Meadow, nephews of the bride, lighted candles and little Larry Fox, nephew of the bride from Dallas, was ring-bearer.

Reception in Home
A reception honoring the couple was held in the home of the bride's parents.

The serving table was laid with a white madeira cloth and was centered with silver candelabra and the bride's bouquet. This was encircled by the attendants' bouquets and appointed in crystal. A three-tiered wedding cake and punch were served by the bride's sisters, Mrs. James Fox of Dallas and Mrs. Ewell McCrary of Meadow.

Mrs. Carl Hallford registered guests and music was offered. See No. 1 Page 2

Young People of Foster Baptist Church Conduct Services July 14

On July 14, the young people of Foster Baptist Church will take complete charge of the worship services. Youth pastor will be Lloyd Hester, and associate pastor will be Howard Hungerford.

Other officers will be Donald Hancock, Sunday school superintendent; Patsy Adams, training union director; Kenneth Hancock, training union general secretary; Wanda Erwin, Sunday school general secretary; Bobby Adams, music director; Betty Martin, pianist.

Among those who will teach different classes in Sunday school and training union during the day are: adult men, James Erwin; adult women, Anita Hancock; intermediates, Bobby Adams; juniors, Helen Hungerford and Eva Sue Hester; beginners, Terry Sims and James Smith.

Adult training union, E. Wayne Rowden; intermediate training union, Darel Hunter, junior training union, Larry Sims and Gene Hungerford; and beginner training union, Patsy Hancock, Linda Hunter and Barry Sims.

Mrs. Bill Tilson Heads Love Circle
The Love Circle of the Women's Society of Christian Service of the First Methodist Church met in the church parlor after the general meeting of the society Monday afternoon for the purpose of electing new officers and making plans for the coming year.

New officers named were Mrs. Bill Tilson, chairman; Mrs. Coke Toliver, co-chairman; Mrs. J. B. Worsham, treasurer; and Mrs. Glenn Harris, secretary.

The next meeting will be August 12 at 9:30 a.m.

Children of Mrs. Verner In Reunion
The family of Mrs. J. T. Verner of Meadow met at the Mackenzie State Park in Lubbock July 7 for their annual reunion.

All eight of Mrs. Verner's children attended. They were: Mr. and Mrs. W. F. Verner of Ropesville, Mr. and Mrs. T. E. Verner of Meadow, Mr. and Mrs. J. D. Verner of Fort Worth, Mr. and Mrs. J. E. Wrenn of Abilene, Rev. and Mrs. H. G. Verner of Graham, Mr. and Mrs. D. B. Mackey of Lubbock, Mr. and Mrs. A. A. Story of Abilene, and Mr. and Mrs. Bill Van Winkle of Roswell, N.M.

Grandchildren and great-grandchildren present were Harold Verner and son, Mike, of Ropesville; Mr. and Mrs. Nathan Jones and children, Ann, Bill and James of Brownwood; Mr. and Mrs. Boyce Verner and children, Tommy, James, Don and Denise, and Mr. and Mrs. J. B. Ashburn and sons, Stanley and Brian, and Carolyn Verner, all of Meadow; Mr. and Mrs. Jay Verner and son, David, and Mrs. Bobbie Marion and son, Rickey, all of

Mrs. Bill Tilson Heads Love Circle

The Love Circle of the Women's Society of Christian Service of the First Methodist Church met in the church parlor after the general meeting of the society Monday afternoon for the purpose of electing new officers and making plans for the coming year.

New officers named were Mrs. Bill Tilson, chairman; Mrs. Coke Toliver, co-chairman; Mrs. J. B. Worsham, treasurer; and Mrs. Glenn Harris, secretary.

The next meeting will be August 12 at 9:30 a.m.

Children of Mrs. Verner In Reunion

The family of Mrs. J. T. Verner of Meadow met at the Mackenzie State Park in Lubbock July 7 for their annual reunion.

All eight of Mrs. Verner's children attended. They were: Mr. and Mrs. W. F. Verner of Ropesville, Mr. and Mrs. T. E. Verner of Meadow, Mr. and Mrs. J. D. Verner of Fort Worth, Mr. and Mrs. J. E. Wrenn of Abilene, Rev. and Mrs. H. G. Verner of Graham, Mr. and Mrs. D. B. Mackey of Lubbock, Mr. and Mrs. A. A. Story of Abilene, and Mr. and Mrs. Bill Van Winkle of Roswell, N.M.

Grandchildren and great-grandchildren present were Harold Verner and son, Mike, of Ropesville; Mr. and Mrs. Nathan Jones and children, Ann, Bill and James of Brownwood; Mr. and Mrs. Boyce Verner and children, Tommy, James, Don and Denise, and Mr. and Mrs. J. B. Ashburn and sons, Stanley and Brian, and Carolyn Verner, all of Meadow; Mr. and Mrs. Jay Verner and son, David, and Mrs. Bobbie Marion and son, Rickey, all of

Young People of Foster Baptist Church Conduct Services July 14

On July 14, the young people of Foster Baptist Church will take complete charge of the worship services. Youth pastor will be Lloyd Hester, and associate pastor will be Howard Hungerford.

Other officers will be Donald Hancock, Sunday school superintendent; Patsy Adams, training union director; Kenneth Hancock, training union general secretary; Wanda Erwin, Sunday school general secretary; Bobby Adams, music director; Betty Martin, pianist.

Among those who will teach different classes in Sunday school and training union during the day are: adult men, James Erwin; adult women, Anita Hancock; intermediates, Bobby Adams; juniors, Helen Hungerford and Eva Sue Hester; beginners, Terry Sims and James Smith.

Adult training union, E. Wayne Rowden; intermediate training union, Darel Hunter, junior training union, Larry Sims and Gene Hungerford; and beginner training union, Patsy Hancock, Linda Hunter and Barry Sims.

MISS SANDRA HULL

VOWS TO BE READ IN EL PASO

Hull-Aldridge Engagement Announced

Announcement is being made of the engagement of Miss Sandra Constance Hull to Donald D. Aldridge.

She is the daughter of Mrs. Emma Johnson Hull of Cheyenne, Wyo., and he is the son of Mr. and Mrs. Otis Aldridge of Lovington, N.M.

Aldridge was educated at Meadow High School, and served in the Army for two years, being stationed at Fort Bliss, in El Paso. He presently farms near Lovington with his father.

Miss Hull is employed by a beauty salon in El Paso, and was graduated from high school in Albany, Ore.

Marriage vows will be taken Aug. 25 in Asbury Methodist Church at El Paso. Matron of honor will be Mrs. Mary Jo

Heidel, and other attendants will be Miss Jean Powell and Mrs. Bill Baze.

Best man will be Billy Yeatts of Meadow, and ushers will be Leroy Barries of Meadow, and Delwin Hull of Cheyenne. Ring-bearer will be Brady Barrier, cousin of the bridegroom.

Mr. and Mrs. Yummy Hicks and children of 1210 East Tate and Mrs. R. L. Bowers of 404 East Tate are vacationing in Virginia and other southern states.

Mrs. Roy Crawford of Cottage Grove, Ore., is visiting her mother, Mrs. C. A. Stockton, 819 North Bell. She is the former Lila Stockton.

Visitors Return Home

Mr. and Mrs. L. K. Skiles and children of Fresno, Calif. have been here visiting his parents, Mr. and Mrs. Walter R. Skiles of 904 East Harris, and other relatives. Last week they visited in Sweetwater with her parents, Mr. and Mrs. Harold Campbell, and a brother, H. C. Campbell, and family and a sister and her family from Washington, before going to Abilene to visit his brother, Wilford Skiles, and family. They returned to Fresno Monday morning.

Facts You Need To Know About . . . Agricultural Ammonia

IDENTIFYING . . .

AGRICULTURAL ANHYDROUS AMMONIA

The anhydrous part of the name means without water. Ammonia — at normal temperatures and pressures — is a colorless gas consisting of 82 per cent nitrogen and 18 per cent hydrogen. This is the most concentrated form of Nitrogen fertilizer known.

How Anhydrous Ammonia Is Applied Directly To The Soil

Anhydrous ammonia (Chemical Formula NH³) is kept under enough pressure to hold it in a liquid form while stored or being handled for fertilizer use. This pressure moves the ammonia from storage tank to applicator tank and through tubes on the applicator blades into the ground. Released as a gas four to six inches below the surface, the ammonia is almost instantaneously fixed to the clay particles in the soil. It can also be bubbled into irrigation water or injected into the soil as aqua-ammonia.

What Ammonia Does For Crops

Ammonia combined with the clay is insoluble in water and resists leaching. Plants in the early stages of growth absorb and use nitrogen in this ammonia form directly.

At soil temperatures above 50 degrees, with proper moisture, soil microorganisms change the ammonia nitrogen into nitrate nitrogen. Since many plants prefer the ammonia form in their early stages of growth and the nitrate form later, this conversion process of NH³ closely parallels the plants' needs.

Thus ANHYDROUS AMMONIA fertilizer makes it possible for your crops to have adequate supplies of nitrogen throughout their growth — and at low cost.

Why Your Land Needs Nitrogen

- For greater growth, yields, profits
- For higher protein in food and feed Crops
- For quality crops of healthy, dark green color
- To speed decomposition of crop residues

Anhydrous Ammonia Is Safe

Anhydrous ammonia is non-inflammable except under extremely rare conditions. It is therefore not looked upon as a fire hazard. When reasonable care is exercised in handling ammonia, it is as safe as butane, propane gasoline or a number of other items commonly used on the farm.

ADVANTAGES OF ANHYDROUS AMMONIA

1. Costs Less

COSTS LESS than other forms of nitrogen. Anhydrous ammonia is made by combining nitrogen taken from the air with hydrogen. It is the first product, and from it most other chemical nitrogen fertilizers are manufactured. Thus NH³ costs less per pound of nitrogen.

2. Most Concentrated Form Of Nitrogen

This is what you buy in different nitrogen fertilizers to get 100 lbs. of Nitrogen:

100 N	122 BULK
222 LBS. TOTAL UREA 45% NITROGEN	
100 N	122 BULK
298 LBS. TOTAL AMMONIUM NITRATE 33.5% NITROGEN	
100 N	198 BULK
500 LBS. TOTAL AMMONIUM SULPHATE 20.5% NITROGEN	
100 N	400 BULK
625 LBS. TOTAL NITRATE OF SODA 16% NITROGEN	
100 N	525 BULK

3. Anhydrous Ammonia Nitrogen Saves ON:

1. Freight costs
2. Bagging costs
3. Labor of unloading, hauling, storage and applying on soil.

4. Easy Handling

Anhydrous ammonia flows under its own pressure and is quickly and easily applied to the soil. It fits in with other modern farm operations that use machines to do the heavy work.

5. Application Season Is Longer

Anhydrous Ammonia may be applied as a preplant, or side-dressing application in the Spring and Summer. Because it combines with the soil and resists leaching at cool temperatures, ammonia may also be safely applied in the Fall or Winter in most clay-based soils after soil temperatures have dropped below 50 degrees.

6. Subsurface Application

With NH³ below the surface, plants will root deeper and utilize the nitrogen even when dry weather might prevent their absorbing a surface-applied solid fertilizer. Deep application not only encourages a deep root system for dry weather insurance, but also keeps the fertilizer below the germination level of weed seed.

Denver City

GEE GEE'S

If I'm not mistaken, this is national "eat more garlic" week. I ate more than my share Sunday, and Father is just now beginning to speak to me. Therefore, since I've already eaten more garlic this week than I normally do, you can do what you want to about "eat more garlic" week. TV repairmen should be eat-

Chit Chat

ing high on the hog these days. So many television sets are being afflicted with low-voltage popping tubes all over the place. The reason I know is that my set went into the death throes the other Saturday during the ballgame (it always picks the most in convenient time to ail) and the repair-

man said he'd been busy as a hunting dog fixing up sets that low voltage had knocked out.

Had a postal this week from Ronny Daniel this week from Acapulco, Mexico, thanking me for the nice feature I did on his two friends from Mexico City and Havana, Cuba, recently. Ronny is studying Spanish in Mexico City and is not passing up the chance to see some of the very beautiful and interesting sights around the city.

Speaking of thanks, I'd like to print a letter received from Abe Lincoln this week, which was dated July 4th: "V. F. W.

No. 1—

by Sandra Shadden. Other members of the house party were Pat Joplin, Carlene Russell, Shirley Hall, Betty Hester, and Mmes. F. H. Sharp, Homer Barron, Perry McCallister, Clarence Hester, J. M. Burlison and Carl Pritchard.

Live At Big Spring
For travelling to New Mexico, the bride chose a navy blue princess style cotton tweed dress with quarter length sleeves, scoop neck outlined with tiny white pique collar and cuffs. Her accessories were white and she had a white orchid corsage.

The bride is a graduate of Meadow High School and attended Texas Tech. Her bridegroom is a graduate of Robert Lee High School and is a senior student at Texas Tech. The couple will live at Big Spring, where the bridegroom will attend the last session of summer school. In the fall, the couple will continue their studies at Texas Tech.

buddies Jack Aldrup, H. B. Parks, L. D. Bailey, William C. Brown, Jerry Ellis, Steve Heartsill, Bill Rice, with the help of Lejeune and Babe Lincoln, met at the Abe Lincoln home and built a ramp so that Abe could roll his wheel chair out under the shade trees and enjoy some of the sunshine. Please accept this as a special thanks, boys, for a job well done, (signed) Abe." To those of us who have known Abe for so long and have appreciated the fine work he did, not only for the country's veterans but for anyone who needed a helping hand, I think the boys named above would prefer to think they'd just returned a few of Abe's past favors rather than doing him a favor. It was a swell gesture on their part, though.

Mrs. M. A. Gorman has a beautiful male Siamese cat, about a year old, to give away to someone who will give him a good home and love him. Registration papers on this cat can be obtained, if you wish, and if you're interested, please call Mrs. Gorman at 3064.

MISS DONNA NEWSOM

Engagement of Miss Newsom Announced

Mr. and Mrs. J. L. Newsom of 916 East Tate announce the engagement and approaching marriage of their daughter, Donna Jane, to Richard Lee Ridgway, son of Mr. and Mrs. Weldon Ridgway of Brownfield. Vows will be read September 15 in First Methodist Church.

The bride elect is a sophomore home economics student at Texas Tech where she is a member of Kappa Kappa Gamma sorority.

Ridgway is a 1957 Tech graduate and was a member of Sigma Chi fraternity, Alpha Chi, Alpha Zeta, and Phi Eta Sigma. He was chosen for who's Who in American Colleges and Universities. Ridgway is taking graduate work at Cornell University.

Mrs. R. L. Hamm of 515A East Main is vacationing in San Diego, Calif. for the next three months with her sons, Edwin and Wilborn.

Mr. and Mrs. J. A. McCraw of Brownfield visited over the weekend with his brother, Sam McCraw and wife in Wildorado, Texas.

Mrs. R. L. Hamm of 515A East Main is vacationing in San Diego, Calif. for the next three months with her sons, Edwin and Wilborn.

Farmers have until Sept. 30 to file for the refund of the 3 cent Federal gasoline tax.

AGAINST BUREAUCRATIC SPENDING OF TAX MONEY

Ike's 1958 Budget Stirs Most Vigorous Tax Revolt in Modern History, and Resentment Increasing Daily, Says This Writer

(EDITOR'S NOTE: Willis E. Stone is author of the "Proposed 23rd Amendment" and President of the American Progress Foundation, Los Angeles.)

When President Eisenhower presented his back-breaking 1958 budget, the most vigorous tax revolt in modern history was born.

Apparently both Congress and the President have misjudged the nature of this tax revolt. "Cuts in the Budget" have been highly publicized, but in many cases these advertised "cuts" have been restored on the assumption that public protests were fading. Even where "cuts" were sustained appropriations were generally greater than a year ago.

The 1958 Budget, with all its alterations, has been enacted into law. Congress and the Administration possibly assume that, as in other years, the good old American Taxpayer will become so involved in other things that no more will be said of Budgets until the next one drops in our midst like a bomb-shell next January.

Resentment is Growing

This year, however, things are different. Resentment against bureaucratic spending is not diminishing. It grows greater and more determined as more people become better informed as to how bureaucracy spends the taxpayers' money.

Information published by the American Progress Foundation of Los Angeles indicates that the federal corporations which compete with private enterprise consume more tax dollars, directly and indirectly to pay their losses and hidden costs, than the total of tax dollars received from all personal income tax payments combined.

This writer is releasing a weekly series of FACT SHEETS, each containing a report on one of the more than 700 federal corporate activities which compose the "corporate state" in America.

The exposure of senseless extravagance usual to these bur-

eaucratic empires is startling and has produced some tangible results. H. J. Res. 123, a proposed 23rd— amendment pending in Congress, would abolish these unauthorized activities and cut the cost of government in half.

To give the individual taxpayer the benefit of these economies Congressman Clare E. Hoffman of Michigan has introduced a proposed amendment (H. J. Res. 232 to repeat the 16th Amendment and thus restore full earning power to the American people.

Congressman Ralph W. Gwinn of New York, a great and courageous American Statesman, recognizing the difficulty of restoring economic liberty in bits and pieces, has embodied the advantages of both H. J. Res. 123 and H. J. 232 into a single constitutional amendment now pending in Congress as H. J. Res. 355.

Principle Regained

Introduced on June 10, 1957, H. J. Res. 355 is skyrocketing into prominence as the instrumentality of our time through which the traditional principle of liberty under law can be regained. H. J. Res. 355 provides that:

"Sec. 1. The Government of the United States shall not engage in any business, professional, commercial, financial or industrial enterprise except as specified in the Constitution.

"Sec. 2. The constitution or laws of any State, or the laws of the United States, shall not be subject to the terms of any foreign or domestic agreement which would abrogate this Amendment.

"Sec. 3. The activities of the United States Government which violate the intent and purposes of this Amendment shall, within the period of three years from the date of the ratification of this Amendment, be liquidated and the properties and facilities affected shall be sold.

Urged To Petition

"Sec. 4. Three years after the ratification of this Amendment the sixteenth Article of Amendments to the Constitution of the United States shall

stand repealed and thereafter Congress shall not levy taxes on personal incomes, estates and/or gifts."

Thus the tax revolt which started last January has a powerful legal instrument for expression and is gathering vast public approval.

Adoption of resolutions in support of H. J. Res. 355 is being undertaken by many organizations, and people everywhere are urged to petition Congress and their State Legislatures to act upon it.

Coffee Break Urged For Farm Workers

A "break" in morning and afternoon hours is as important to farmers as it is to city workers, according to the Texas Farm and Ranch Safety Council.

In fact, these "breaks" work routine can prove especially important, for they reduce the possibility of accidental deaths and injuries as well as improving work efficiency.

The farmer who just can't spare the 10 or 15 minutes required to get off the tractor walk around or maybe have a snack or something to drink, should be reminded that recent accident studies indicate that the highest percentage of farm work accidents occur during the late morning and mid-afternoon hours.

Farm wives can serve as break reminders to their husbands by packing a mid-morning and mid-afternoon snack and taking it to the field.

This break can also provide mothers an excellent opportunity to take children to the field to watch father operate the dangerous machines that they sometimes find so fascinating. This may satisfy the children's curiosity and make a much anticipated event in the daily life of the youngsters.

Mr. and Mrs. Bobby Latham of Lubbock, formerly of Brownfield, were among out of town guests at the Stice-Hill wedding Saturday night.

Boost Cotton Yields

With The Use Of
Ammos-Phos Fertilizers
16-20-0 or 18-9-0

ADVANTAGES:

1. All Plant Foods Guaranteed Completely Water Soluble
2. Provides The Most AVAILABLE PHOSPHATE You Can Buy In Any Fertilizer Made In The United States.
3. Gives You QUICK ACTING Nitrogen that Resists Leaching.

Ammo-Phos fertilizers go right to work, give plants a QUICK, HEALTHY BOOST, and keeps on feeding them through to maturity.

Mathieson high analysis pelletized fertilizers are not just mixtures, but COMPOUNDS produced in DRY, FREE-FLOWING FORM.

SUITABLE FOR SPRINKLER APPLICATION OF BOTH PHOSPHATE AND NITROGEN

MORE USES AND WIDER MARKET NEEDED

Nation's Cotton Industry Has Vital Decision To Make In Next Few Years: To Accept More Controls or Meet Technology

The cotton industry of Texas and the nation has a vital decision to make in the next few years. It must decide whether to accept more and more controls and restrictions or meet the challenge of modern technology. The first path leads to virtual extension of the small farmer in a decade or so—the other opens up vast new fields in marketing and demand.

The key to a successful future for cotton lies in greater research towards developing new uses and wider markets for the product. We have a number of research projects now—but they have been directed mainly towards increasing production, or per-acre yields. We have gone about as far as we can go in that direction under the present economic demand.

It is a cold, hard fact that almost every bale we produce over the 9-million bale mark each year must be either stored, subsidized or dumped at a loss in countries abroad. Once our domestic consumption exceeded 12-million bales. But synthetic fabrics have cut deep inroads in cotton markets at a time when our main goals were to get more cotton from less acres!

Today, the industry and government agencies must develop a new approach. The surface hasn't been scratched on all the potential uses for cotton. Only a vast research program will bring them into being.

There are several immediate goals which could create a market demand to equal and eventually surpass our previ-

ous 12-million bale consumption. But the cotton industry, and the government, have been guilty of letting many opportunities slide away.

As an example, a vast quantity of Jute is imported each year to make binding cloth for cotton bales. Using even poor grade cotton, a competitive fabric could be manufactured to wrap cotton bales and increase consumption by about 35,000 bales annually—right on the cotton industry's doorstep.

Other outlets can be developed by producing superior quality in cotton fabrics such as:

1. Flame resistant cloth which would open up a demand for an additional 1 1/2 million bales each year.
2. Cotton garments that require no ironing would utilize some 1 million bales.
3. Rot and weather resistant cloth—200,000 bales.
4. A superior but competitive cloth for auto seat covers — 100,000 bales.

These are just a few examples of new possibilities in cotton marketing.

Of course, our present controls and regulations cannot be immediately abandoned until demand comes closer to the supply. But restrictions should be regarded as emergency measures, not permanent institutions.

Manners must adorn knowledge and smooth its way the world.—Lord Chesterfield.

Parents Should Obtain Birth Certificates For Youngsters Now To Beat Late Rush

AUSTIN — Although summer school days are practically around the corner and it is time that mothers should start thinking about getting the young ones ready for school again.

Special consideration should be given to the thousands of Texas youngsters who will be starting school for the first time.

Most school districts have certain requirements which must be met before a child may be entered in school. Foremost in nearly every school is proof of birth.

If you do not have a copy of your child's birth certificate, a certified copy may be obtained from the Texas State Department of Health for a \$1 fee.

Write to the Bureau of Vital Statistics, Texas State Department of Health, Austin, Texas. Be certain to include the child's name, birth date and birth place, and the name of his parents. Also, enclose \$1 cash (at your own risk) or money order. Do it now and avoid the rush.

Every child should have a pre-school health examination. Height, weight, posture, vision and hearing should be checked. Often school beginners' problems can be traced to faulty vision and hearing.

Have your dentist go over your child's teeth again. With the excitement and challenge of school, new physical—and emotional—demands are made on him and to get the most out of school, he needs to be physically ready for it.

With school come more chances for exposure to communicable diseases. This isn't the school's fault—it's because your child is becoming a part of a bigger world.

To help prevent illness, check on immunizations, especially your school district's requirements. See that your child still is protected against diphtheria, whooping cough, tetanus, smallpox, and by all means have his polio series started if you already have not done so.

Going to school will be all new to your child. It means new children, a new place, new adults, new things to do. It's the same child, but one who is changing physically, mentally and emotionally.

If he is healthy and you keep him healthy, his adjustment to school life will be made much simpler, and he'll be happier.

Tennis was purely an amateur sport until 1926.

Newsletter

By LYNDON JOHNSON
U.S. Senator

Dear Friends:
An old story and a sad one was repeated once more last week. It was the announcement that, for the ninth month in a row, the cost of living had gone up again.

The general price level actually has been in a steady—and disturbing—rise for the 18 months. In the past 12 months alone, the price level has climbed four per cent.

If this continues to be the average annual rise in prices, our price level will double in 18 years. This means that by 1975 the value of the dollar we earn and save today would be cut in half.

People have already been hurt by the steady increase in the cost of living. The monetary policy of the present Administration lowers the value of the dollar for those who spend and raises the value of the dollar for those who lend.

High interest rates are part of the increased cost of living. If you borrow money to buy

Carroll were her sisters and their families, Mrs. Cline Carter of Plainview and Mrs. J. C. Armstrong of Ropes. Mrs. Jean Henderson and boys and Mrs. J. E. Evans and boys visited her sister and other relatives in Childress.

DIAL 2020

a house, a car, a major house hold appliance, rising interest rates must be added to the price you pay. The government must pay higher interest rates on the national debt—and that money, too, must come from the people generally.

Texas are concerned, and they have a right to be, about the sliding value of the dollar. Widespread interest is being shown in the investigation of national economic policy now being conducted by the Senate Finance Committee. Look for this issue to loom constantly larger. It affects everybody.

Recurrent floods are an economic drain that we cannot afford in Texas. This year's flood have provided convincing proof that, despite the benefits accruing from the highly successful operations of flood control projects, the extent of our controls has been limited.

One fundamental reason is that a basin-wide plan of improvement has not been completed on any Texas river.

A river basin is a natural unit. Water resource development within each basin must be unified, integrated and progressive. That is why I am asking insistently for surveys of all the Texas river basins. I am working every day to get congressional authority for the needed surveys and to spur the Corps of Engineers into effective

"Bankruptcy" came from the Latin "bancus" (a tradesman's table) and "ruptus" (broken). Under old English law a bankrupt was a trader who hid himself or did other things to defraud his creditors.

Under the Roman law creditive action. I know of nothing more basically important to Texas.

Congressional News Notes: Senate unanimously approved a seven-months' extension of its Special Committee to Study the Foreign Aid Program... Congress sent to the President a bill providing an emergency 45-day extension of the voluntary home mortgage credit program pending approval of a three-year extension in the omnibus housing bill... Senate passed and sent to the White House a bill releasing from Government stockpiles for commercial sale 50,000 bales of extra

ors could cut up the bankrupt's body and each take his due share. Other laws would put the debtor in prison or in chains, allow whipping and hard labor. East Indian creditors could sell the debtor and his family into slavery forever.

In the Middle Ages a bankrupt was a criminal. Later he got some rights: Though creditors could force him to turn over all his goods, he would escape prison.

The basic concepts of our bankruptcy law: (1) Prorate the bankrupt's assets among his creditors, (2) discharge him from most of his debts, and (3) "grubstake" him by exempting certain things from the creditors' reach.

The English wanted to discourage extravagance, yet they saw that a debtor's misfortune could trap him. So the early bankruptcy laws grudgingly were only for actual tradesmen. Others had to take their medicine.

Our constitution gives Congress power, first used in 1800, "to establish a Uniform... Law on the subject of bankruptcies."

long-staple cotton... Senate Public Works Committee approved a measure to extend the lend-purchase program for three years and to make it easier for building contractors to attract private loans.

After Congress had passed and then repealed three laws it passed our present bankruptcy act in 1898. It amended the act in 1938 to refine liquidation and rehabilitation procedures.

Today the act relieves the debtor through liquidation, or reorganization and rehabilitation. His creditors have always worried about the debtor, but now the state through law has declared the public concern in putting him back on his feet.

The Supreme Court has said that the act aims to "relieve the honest debtor from the weight of oppressive indebtedness, and permit him to start afresh, free from the obligations... consequent upon business misfortunes."

This purpose is "... it gives to the honest but unfortunate debtor who surrenders (his property) a new opportunity in life and a clear field for future effort..."

Also the law puts creditors on notice to watch out that their debtors do not overextend themselves.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any-law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

BEHIND SCENES IN AMERICAN BUSINESS

Consumer Incurring Debt More Slowly And Repaying More Rapidly Than Year or Two Ago, Declares New York Writer

By REYNOLDS KNIGHT
Economic Analyst

NEW YORK — Consumers now are incurring debt more slowly and repaying more rapidly than a year and two years ago.

Installment debt commitments in April rose \$259 million, the Federal Reserve Board reported. Last year those commitments rose \$307 million in April, while two years earlier the increase in that month amounted to \$551 million.

Installment debt outstanding at the end of April this year totaled \$31.5 billion, an increase of \$2.1 billion over the like period a year earlier.

One reason for the tapering off may be seen in a decline in average weekly factory pay. It fell from \$84.05 in December to \$81.80 in April, mainly because of declining overtime work. Lack of the overtime cushion, plus the fact that consumer prices are rising, deters many a wage-earner from incurring more installment debt, spurs him to pay off while he can.

'SECOND HOME' BOOM — Seldom have so many favorable factors converged on an industry as are now behind the "second-home" boom. That's

the view of the Gas Appliance Manufacturers Association, which reports this market is gulping up a big share of the output of gas appliances and equipment.

The "summer-home" designation is obsolete, says GAMA, pointing out that new and better roads, more varied recreation interests and higher consumer incomes are changing more and more of such structures from seasonal to part-time year 'round use. Gas heating equipment of all types finds a place in this swing, with both utility fuel and liquefied petroleum gas participating.

The great rush for second homes is viewed as a most beneficial development not only for the building and appliance industries, but also for the communities sharing this development. A second home that eventually may become a retirement home brings in taxes and new business, usually without any appreciable increases in municipal costs.

THINGS TO COME — A road cruiser that fills the gap between station wagon and house trailer provides sleeping quarters, cooking facilities and other conveniences for a family of five . . . A new wall paneling

of real wood veneer can be cut with a sharp scissors and fastened to any surface with contact cement without the need of special glue clamps. . . Stenos tired of getting carbon paper smudge on their hands can now type on a paper treated with an invisible chemical coating that produces copies without carbon.

FOREIGN AID—There seems the United States should help other nations develop economically. As to method, two distinct schools of thought exist. One believes it to be more constructive when private U. S. capital is invested abroad, as contrasted with governmental aid programs that involve the use of taxpayer's funds, as expressed by the second school.

Recently two leading industrialists advanced both words and deeds in support of the private investment viewpoint. Stanley C. Allyn, chairman of National Cash Register, said: "I should like to see more investments abroad that would involve production facilities manned and managed by nationals of the countries involved. This entails the export of American know-how and American principles of democracy

in industry." Lewis S. Rosenstiel, chairman and president of Schenley Industries, Inc., announced that his company would invest during the next few years some \$30 to \$35 million in Scotch distilleries and other production facilities in England. This will make Schenley the first and only U. S.-owned distilling company to operate in the world market on so broad a scale, he pointed out.

MERGER SLOWDOWN — Mergers and acquisitions among some well-known firms whose names are very much in the news will continue, but there are indications that big-scale business of buying business is dropping off.

One reason is that tight money is increasing the competition for the soundest buys. One of the country's leading business-buying firms has acquired no new subsidiaries in a year—the first time that's happened in six years. Yet during the past 12 months this company has investigated more than 100 possible acquisitions.

Businesses that are buying may look for either (1) a going concern in another field that will help the buyer to diversify, or (2) a company operating at a loss that can offset the buyer's tax liability. Purchase prices in both cases stiffen when the prospect sees the gleam in the buying business' eye.

BITS O' BUSINESS — Cigarette makers, big TV advertising spenders, nevertheless upped their newspaper advertising expenditures 31.5 per cent to \$23.5 million in 1956 . . . Newspapers hit a record national ad volume of \$738 million in 1956 . . . Home mortgage debt has pushed beyond the \$100 billion mark to an all-time high, twice the 1950 level . . . The boating boom gets credit for a large share of the gain in sales of reinforced plastics,

PIRATES—The hard-hitting Pirates are always a threat in the Babe Ruth League. Team members include, from left front row: Tommy Frazier and Jerry Sansing. Second row from left: Glen Reid (coach), Joe Crabtree, Jack Gregory, Donald Carta, Billy Holliday, Leslie Bryant, Jimmy Goza, Jimmy Howell, Weldon Bell and Manager Jake Herring. (Staf Photo)

Mrs. Loyal Henson honored her daughter, Kathy Ann, with a birthday party Friday afternoon.

Those attending were Rickey Chambers, Lounet Clark, Debbie Joplin, Brenda Campbell, Janice Bagwell, Jamie and Jeffrey Henderson and Larry . . . which in the first quarter of 1957 were 20 to 25 per cent ahead of last year. Orders for molded boat hulls exceed the industry's present production capacity.

Pettigrew. Ice cream and cake were served.

Mrs. W. J. Henderson spent Tuesday with Mrs. Billy Henderson and children.

The Women's Missionary Union met Thursday at 2 p.m. in the home of Mrs. W. J. Henderson. Mrs. C. S. Carroll, president, had charge of the business meeting.

Bertie Mae Bagwell, program chairman, had charge of the program taken from the Royal Service. Mrs. E. R. Slater read the devotional, scripture taken from Isaiah 51:5. The program was closed with prayers for missionaries and Christian nationals in Malaya.

Refreshments were served to Mmes. Slater, J. L. Langford, L. P. Price, E. N. Corley and Carolyn Ann, L. R. Bagwell, Wayne Bagwell and Bobby Jo, Carroll and Lynda K, Silvia Clark, L. Henson and B. M. Henderson. There were seven Sunbeams present.

Mrs. John Garner visited her niece, Mrs. Cecil Boyd, in Fort Worth and her brothers, Bill Cantrell of Dallas, Loyd Cantrell of Fort Worth, and a sister, Mrs. Mae Doty, in Wichita Falls last week.

Kathy Potts of Amarillo spent last week with her grandparents, Mr. and Mrs. E. R. Slater. Supper guests in the home

of Mr. and Mrs. L. P. Price Monday were Mr. and Mrs. Gary Martin and boys of Lubbock.

Mrs. Floyd Joplin and Debra Sue visited Mrs. T. C. Pettigrew Monday afternoon.

Bro. and Mrs. Oscar Kinsey had Sunday dinner with Mr. and Mrs. Loyal Henson.

Mr. and Mrs. C. S. Carroll and Children, Mr. and Mrs. D. S. Carroll and family, Mr. and Mrs. L. P. Carroll and Melvin, all of Meadow; Mrs. Ernest Moore, Gerald and Carolyn of Fredonia, Ariz. attended the Carroll family reunion in Dallas June 29-30. Approximately 130 relatives attended from 7 states.

Humble research presents to the motorists of West Texas

Golden Esso Extra

World's Finest Gasoline

Once again, Humble's leadership in the improvement of gasoline quality sets new standards for other gasolines to follow.

Now you can get all the performance that is built into your car . . . the last extra ounce of power . . . the last extra mile per gallon of gasoline.

Golden Esso Extra is the finest gasoline you can use. It has highest octane rating.

Give your car the performance advantage that comes from using

Golden Esso Extra. Some motorists say they notice immediate improvement on their first full tank. Others use Golden Esso Extra because the world's finest gasoline is the best to use in modern cars in every price class.

Costs more? A little, but your car repays you by delivering all the performance you paid for when you bought it.

Fill up at the new Golden pump under your neighbor's Humble sign.

HUMBLE OIL & REFINING CO.

By MARY GOBER
NEWS Correspondent

Mr. and Mrs. Nathan Jones and family of Brownwood spent the weekend in the home of his parents, Mr. and Mrs. G. B. Jones, and family.

Visitors in the home of Mr. and Mrs. J. H. Gober Sunday night were Mr. and Mrs. James Selman and daughters, Pat and Mary Jo, of Hobbs, N.M., Mr. and Mrs. Ray Gober and son, Randy, and Mr. and Mrs. Ray Gober.

Mr. and Mrs. Lee Holden and son, Lee Edward, and Gail Kisor attended a barbecue in Tahoka July 4.

Our sympathy goes to the family and relatives of Grandmother Longley, who passed away at her home last Monday night. Funeral services were held in the First Baptist Church Wednesday morning, with the Rev. Shannon of Alpine, officiating.

Mr. and Mrs. Clive Gary and daughter, Elizabeth Ann, of Fort Stockton and Mrs. Essie Gray of Brownfield visited Mr. and Mrs. Edd Peek Saturday afternoon.

Mr. and Mrs. Jay Turner and family of Lovington, N.M. visited his mother, Mrs. Ella Turner, last week.

Ray Barrett of Grand Prairie visited in the home of his parents, Mr. and Mrs. Ralph Barrett, over the holiday.

Mrs. J. M. Jones and Mr. and Mrs. H. B. Settles and family left week for Oklahoma to visit relatives. Mrs. Jones will go on to Oregon to visit a sister whom she has

not seen for several years. She plans to return home in August.

Mr. and Mrs. Kenneth Pierce of Lubbock spent Sunday in the home of Mr. and Mrs. Lee Holden and family.

Out of town guests here last Friday for the wedding of Miss Barbara Russell and Hollis Lloyd were from Lubbock, Brownfield, Odessa, Lovington, N.M., Dallas, Morton, Big Spring, Ropes-

ville, and Amherst.

Mr. and Mrs. Gerald Blake were in Friona Sunday.

Mrs. Elizabeth Small and Mrs. Oklahoma Champion of Fort Worth visited in the home of their brother, Ralph Barrett, and Mrs. Barrett over the week. Mrs. Champion remained for a few days this week.

Gene Wallace of Lubbock is in Methodist Hospital, where he underwent major surgery last

week. He is a former Meadow resident and school teacher. We hope for him a speedy recovery.

Mrs. Carrie Avery sold her home in Meadow and moved to Brownfield. We are sorry to lose her but hope she will be happy in her new home. Mr. and Mrs. Edd Whitaker bought her house and his parents moved into it.

Mrs. A. J. Bell has returned

home from Oklahoma City where she visited her daughter and family. Two of her grandsons, Vaughn and Glendale

Verner, returned home with her. They will also visit their other grandparents, Mr. and Mrs. Tom Verner.

See actual road-test proof!
DODGE outpulls
"other two" low-priced trucks!

Here's the scientific way to measure the actual pulling power a truck can deliver to its rear wheels. All three low-priced trucks were hooked up, one by one, to a special dynamometer truck. Each was comparably equipped and test-loaded.

Super-sensitive gauges inside the dynamometer truck register the maximum pull of each truck at 10 m.p.h. Insets in photos above show actual gauge readings in each case. To convert these readings into pounds, simply multiply them by three.

The results are conclusive evidence that Dodge Power Giants give you a third more pulling power than either of the "other two" low-priced makes. And this is just one of a series of tests that prove Dodge is the best truck of the low-priced three.

● Your Dodge truck dealer has proof that Dodge leads in many ways. Come in... see other certified test-photo sequences... and take a demonstration ride!

DODGE

MOST POWER OF THE LOW-PRICED 3

Mr. and Mrs. Kenneth Wat- returned from a week's vaca-
kins of 1011 Tohoka Road have tion in New Mexico.

CONVINCED the small- car field is your limit?

READ THIS
STARTLING FACT

5 out of 10 Smaller Cars
wear a Pontiac Price Tag
—yet none gives you Any
of Pontiac's Advantages

YOUR MONEY ACTUALLY BUYS
UP TO 8.9% MORE SOLID CAR
PER DOLLAR IN A PONTIAC!

The so-called "low-price" cars fall far short of Pontiac in actual, measurable car—and your Pontiac dealer has official specification comparisons to prove it. No smaller car comes even close to Pontiac's rock-solid construction... from its rugged X-member frame through every inch of its heavy-duty running gear Pontiac is muscle all the way! This extra heft means Pontiac holds the road like no smaller car you've ever driven... gives you a ride remarkably free of bounce, shake and noise! Put all the facts and figures to your own personal road test. Call your own shots and see how Pontiac's Precision-Touch Controls let you relax to steering, braking and parking ease out of reach of the small jobs!

WITH 4 TO 7 EXTRA INCHES OF
WHEELBASE, PONTIAC
OUTCLASSES THE SMALLER CARS
IN RIDE AND ROADABILITY!

Pontiac's length is built in—not hung on! Smaller cars extend bumpers and fenders to look big, but Pontiac doesn't need camouflage... it is big! Its man-sized, 122-inch wheelbase strides over the bumps instead of riding on them. This extra length, plus a carload of new suspension ideas, results in Pontiac's exclusive Level-Line Ride that no car at any price can surpass! Sample a few miles—and you'll never re-enlist in the small-car army again!

NO CAR AT ANY PRICE
PERFORMS LIKE A PONTIAC...
SMALLER CARS AREN'T EVEN
IN THE RUNNING!

If it's proof you want, your Pontiac dealer is loaded with it—point-by-point engineering comparisons and on-the-record facts and figures. No smaller car is designed or built to come close to Pontiac's eye-opening response... its smooth, effortless mastery of every driving demand. Put the facts on America's Number One Road Car to a test and you'll leave the little league for good!

PONTIAC HAS ALWAYS
COMMANDED A HIGH
TRADE-IN DOLLAR!

When you put your money in a Pontiac you know your investment will be riding high for a long time to come! In fact, over the years, no car has a better reputation for being a top-demand used car. So before you sign on the dotted line for a smaller job at Pontiac's price—get the dollar-stretching good news your Pontiac dealer has waiting for you. Here in the easiest move of your life are the car and the value that will get you out of the small-car class for keeps!

NOW! If you want the ultimate in both economy and extraordinary performance, new Tri-Power Carburetion is available at extra cost on even the lowest priced Pontiac models! It's America's newest power advance and exclusively Pontiac's at so low a cost!

SEE YOUR AUTHORIZED
