

No. 1—

first year or two always is harder until you get fitted into the office."

At least six steps are required before the average legal instrument becomes a permanent record in the clerk's office, noted Yandell.

Using a warranty deed as a model, the clerk traced the average instrument through the following steps:

1. The instrument is filed with the office and given a record number. 2. Registered in the Registry of Instrument Records. 3. The instrument is photographed by the photostat machine. 4. The picture is developed and dried. 5. Pages are numbered and the clerk's certificate is filled out and placed on the instrument. 6. The instrument is returned to the filing party.

Other Clerks Listed

"The whole process takes an average of two to four days to complete," stated the clerk. "We feel like this is pretty good since Yoakum County, for instance, takes about 30 days to return a document."

The 29-year-old county clerk became the 10th man to fill the position when he was elected to replace H. M. (Dube) Pyleat, who moved to the newly created auditor's office in 1952.

Reed Headstream of 301 South Second, and W. A. Tittle of 302 East Tate are the only other former clerks known to be living.

Other clerks who served during the early days of Terry county's history were W. T. Dixon, T. J. Price, D. J. Broughton, J. C. Green, Jay Barret and Homer Winston.

No. 2—

teams will be considered co-champions because there is no time for a playoff game.

Brownfield's Little League All-Stars will clash with Denver City at 5 p.m. Monday in Slaton in the first round of District 3 play. All-Star caps were presented to 15 team members and to alternates in ceremonies at Little League Park Tuesday night.

No. 3—

Contract In October

Though the engineer estimated latest plans will increase the cost of runway construction, Jones pointed out that funds still are sufficient to cover the project without further bond elections. "We just won't have some of the extra items we planned to put up originally," he said.

If latest plans are approved, contracts are expected to be let in early October. Schmieding estimated leveling and grading work will be completed by December if contracts are let on schedule.

However, Jones noted that

paving will not be accomplished until next spring because temperatures will be too low to lay hot asphalt.

No. 4—

win Cheatham, Cardinal shortstop, lead his mates to a 17-5 victory over the cellar-dwelling Yankees as he blasted a homer over the fence. C. L. Stockton, Dodger pitcher, saw a two-hit game go for naught as his team fell, 11-9, to the Red Sox in the final game Thursday.

The 9-nine thriller that wound up in an 8-8 tie between the Pirates and Tigers Monday night will be replayed at 8 p.m. Saturday. The two teams played until midnight Monday before the game was stopped.

No. 5—

insect infestations have been sufficient to require control, no general heavy infestations have developed.

Thrips were reported in light infestations throughout the area. While many plantings of cotton showed excessive shed of tiny squares, thrips infestations were generally too light to indicate such shed resulted from their feeding.

Fleahoppers occurred in light to medium infestations in some fields in all counties. Heavy infestations were reported in Briscoe, Floyd, Garza, and Howard counties.

Lygus bugs were present in light infestations on most cotton. Medium to heavy infestations were reported in some fields in Crosby and Lynn counties. Populations have decreased in scattered fields, even where no insecticide applications have been made.

Bollworms Increasing

Bollworms were present in an increasing number of fields. While infestations were light in a majority of plantings of cotton, the worms were present in sufficient numbers to require control in a limited number of fields. Medium to heavy infestations were reported in Crosby, Garza, Howard, Lamb, Mitchell, and Yoakum Counties.

Increased bollworm activity may be expected if showers continue. Cotton should be checked frequently for the bollworm, and control effected as soon as damaging infestations appear. Small worms are easily killed and control at this stage greatly reduces farm damage.

Garden webworms were reported on cotton in scattered fields in Bailey, Lynn, and Terry Counties. Heavy infestations were present in fields which had heavy weed growth in Bailey County.

Cabbage loopers are present in light infestations on most cotton. No damaging infestations were reported.

We strongly urge everyone to consult the Texas Guide for Controlling Cotton Insects for recommended insecticides and dosages. Guides are available

at county agent's offices.

No. 6—

size to the county agent's office by August 1 so that craft material can be ordered, reported Bob Etheredge, assistant county agent.

"The \$1.50 fee will over expenses including moccasin kits for craft activities and the afternoon swimming session," revealed Etheredge.

Rally Day activities will open at 9:30 a.m. A full day of crafts, recreation and study is planned for some 100 4-H members expected to attend the event, said the assistant county agent.

The program will be capped by a supper provided by the Home Demonstration Council and a recreation period that night.

No. 7—

Church, officiated. Burial was in Terry County Memorial Park.

Mrs. Newsom died about 2 p.m. Thursday in Treadaway-Daniell Hospital following an illness of several months.

Survivors include two sons, S. V. of Route 5; E. D. of Ropesville; five daughters, Mrs. L. C. Moser of Kansas City, Kan.; Mrs. Pauline Chambliss of Wichita Falls; Mrs. Bill Fleming of Greenville; Mrs. L. C. Duncan of 119 North 13th, and Mrs. Bill Pool of Hobbs.

A cool shower for pigs will pay off during the hot summer months.

LEGAL NOTICE

NOTICE TO BIDDERS TERRY COUNTY ROAD IMPROVEMENTS 1957

Sealed proposals addressed to the Commissioner's Court, Terry County Texas Courthouse, Brownfield, Texas, will be received until

No. 8—

Bureau queen contest at Seminole.

Contest committeemen met Thursday to polish plans for the up-coming show, which is estimated at one hour 30 minutes long, with special entertainment. It will be held in Brownfield High School auditorium.

During the Thursday session, the group agreed that girls should be given tips in modeling by a Hemphill-Wells expert. In charge of the modeling will be Mrs. Carl Hogue and Mrs. George Weiss.

Co-chairmen of the show are Mrs. Bob Smith and Mrs. Delton Tatum, who urged Terry girls (eligibles) to enter the event, and described the qualifications as being: Single, father or brother TCFB member and engaged in farming, and 16 years of age and no older than 22 years of age this Sept. 1. The co-chairmen also urged that all entries make arrangements with the NEWS for an advance publicity picture.

Corn acreage in the U. S. exceeds that of wheat, oats, barley, rye and rice combined.

10:00 A.M., August 5, 1957, in the office of the County Judge and on the same day publicly and read. The work for which tenders are invited consists of grading existing roadways, shaping ditches, caliche base and double penetration asphalt paving on 2 projects, 57-2A, 4 miles and 57-3A, 1 mile, aggregate total length — 5 miles. The location of projects are shown on face sheet plans. Details of construction and complete schedule of quantities thereof may be obtained by consulting plans and specifications and contract documents, said plans and specifications will be available to bidders July 29, 1957, and on file in the County Clerk's office, Terry County Courthouse, Brownfield, Texas on that date. Copies of the plans and specifications may be obtained at the office of the County Judge, Brownfield, Texas, or from the following: A. Schmieding and Associates, 411 Main, Portales, New Mexico, by making payment to the Engineers in the sum of \$20.00 per set. Engineers will show interested bidders over the proposed projects by appointment.

Payment to the Contractor will be in cash on monthly estimate basis. Bidders are cautioned to bid a balanced bid (each stipulated unit price to carry its own profit). Limit of cash funds available may make it necessary to reduce final construction proposal quantities on some or all items for each project.

Bidders must complete the 2 projects proposal forms and submit a total bid for the projects, though the unit prices may vary each project. All proposals must be made on regular forms furnished by the Engineers in the contract documents, and shall be in a sealed envelope addressed to the Terry County Commissioner's Court, Terry County Courthouse, Brownfield, Texas.

All bidders must submit cashier's or certified check issued by a bank satisfactory to the Commissioner's Court, or a proposal bond given by a reliable surety company authorized to do business in the State of Texas, payable without recourse to the order of Herbert Chessir, County Judge, in

an amount not less than 5 per cent of the amount of the proposal or bid as a guarantee that the bidder will enter into a contract under the conditions set forth in the plans and specifications and executed performance bond within ten days after notice of awarding of contract to him. Bids without required check or proposal bond will not be considered.

The successful bidder must furnish a good and sufficient performance bond in an amount not less than 100 per cent of the contract price, conditioned upon the faithful performance of the contract and upon the payment of all persons performing labor or furnishing materials, executed by a surety company authorized to do business in the State of Texas, in accordance with the provisions of Article 5199A, Revised Civil Statutes of 1925, as amended. Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions.

Attention is called to the provisions of the Acts of the 43rd Legislature of the State of Texas, Page 91, Chapter 45, (Article NO. 51594 Civil Statutes 1925) covering prevailing rates of wages as established by the Owner. Said scale of prevailing wages is set forth as follows:

Table with columns: Mechanic, General, Prevailing, Workman, or type of labor, day, wage. Rates range from \$10 to \$225.

(Detailed Labor Classifications and Corresponding Wage Rates are set forth in the specifications.) This notice is given under the provisions of and in compliance with Chapter 183 of the Acts of the Forty-second Legislature of the State of Texas, passed at its regular session in 1931 and all acts, amendatory, complimentary or supplemental hereto.

The County reserves the right to reject any and all bids and to waive all formalities. No bid may be withdrawn for at

least ten (10) days after the scheduled closing time for receipt of bids. HERBERT CHESSIR, County Judge, Terry County, Texas 14-21-28

NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1937.

HOUSE JOINT RESOLUTION NO. 37 PROPOSING AN AMENDMENT TO THE CONSTITUTION OF TEXAS RELATIVE TO ESTABLISHMENT OF A RETIREMENT FUND FOR OFFICERS AND EMPLOYEES OF THIS STATE.

"All funds provided for the retirement of such persons or for the disability and death compensation fund, as are received by the Treasury of this State, shall be retained in the State or in such other securities as are now or hereafter may be permitted by law for investments for the retirement fund of this State, or to be deposited in any fund or funds to be established by the Legislature...

NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1937.

HOUSE JOINT RESOLUTION NO. 19 PROPOSING AN AMENDMENT TO THE CONSTITUTION OF TEXAS RELATIVE TO THE ESTABLISHMENT OF A WATER DEVELOPMENT BOARD TO CONTROL THE STATE WATER RESOURCES OF THIS STATE.

"The Legislature shall have the authority to levy taxes for the purpose of creating a State Water Development Board to control the state water resources of this State, providing for the payment of such bonds, creating an agency and administrator said fund and to perform other duties prescribed by law...

proved in the world. His messages are not dynamic but they seem to carry that intangible "something" that persuades one to adhere. Probably no appreciable curtailment of corruption in New York City will be felt when Billy Graham leaves, but when the day of judgement arrives... those who HEARD and did not HEED... will wish they had. To whom much is given, is much required.

I hear the Farm Bureau queen contest is coming along nicely and the program committee has secured Ned McIlvane, announcer for KLLL radio station in Lubbock to act as master of ceremonies.

Packaged Sale Up The sale of beer and ale in the United States during 1936 was short 1.5 million barrels from the 1945 record.

Man Of The Hour The press has carried a day by day report of the two-month campaign. Personally, I believe he is God's man of the hour, just as Isaiah was in his day.

IT'S UP TO YOU

By Howard E. Kerahan, L.H.D.

THERE is something alarming about the President of the United States sending his personal representative to the countries of the Middle East, pouring out money to any and all governments willing to accept it.

Foreign aid was started to help our friends. It was extended to neutrals in the hope of preventing them from becoming enemies. It is now being extended to Communist nations such as Yugoslavia and Poland, presumably with the thought that it will moderate their opposition to free government.

The next and last step would seem to be to subsidize our enemies in return. We are perilously close to doing that now. No nation that resorted to buying peace has long survived.

Survey revealed. "One bright spot in the 'staggering' report, (to Texans, at least), was that Austin held the lowest alcoholism rating in the nation — 440 alcoholics per 100,000 people.

Another interesting statistic is that for each 100,000 adults there are 4,190 alcoholics with complications. San Francisco has the highest rate of alcoholism among American cities the

### Summer Named As Pound Losing Time

Those extra pounds may add up to added discomfort during the hot weather months ahead. Some careful planning now plus lots of will power will lighten the load a bit.

There is no safe way to get rid of excess weight overnight. Extension foods and nutrition specialists remind us that there are some important factors to consider in starting a weight reducing campaign.

First, check with your doctor before starting any plan to lose weight. Many factors play a part in whether a person should reduce and how fast he should lose weight.

Studies have shown that the most effective weight reduction diets are low calorie, high protein and low carbohydrate. However, a variety and a balance of essential foods is still needed by the body.

Nutritionists point out also that it's easier for a person to stay on a reducing diet which includes a variety of foods as well as foods which are familiar to the individual. A good breakfast is always important, even in a reducing diet. Each day's food intake should include two to three cups of milk (may be skim milk), one or more servings of meat, fish or poultry, one egg (or at least four or five a week), two servings of vegetables (one dark green or yellow), two or three servings of fruit including one citrus, at least one tablespoon of butter and two or three servings of bread or cereal.

If you're really concerned about losing weight, get a calorie chart and start counting your calories. Remember that you can reduce the number of calories amazingly by omitting rich desserts.

### Mrs. C. D. Hester Hostess to EMW

Mrs. C. D. Hester was hostess when the Evangelical Methodist Women met in her home Thursday at 8 p.m.

Mrs. Odell Collins opened with a prayer, followed by a business meeting. Mrs. B. W. Young read the second chapter of the Songs of Solomon, and Mrs. William Mayo discussed the 10th chapter of "Great Women of the Bible", which was entitled "The Woman who had Five Husbands." The meeting closed with a prayer.

Refreshments were served to Mesdames J. L. Jones, James Reast, G. M. Thomson, Young, Mayo, Odell Collins, Evelyn Collins, and Hester and Miss Collins; and three visitors, Mrs. J. C. Waters of Cross Plains and Mrs. J. H. Dugan and Mrs. Kitty Dugan of Hawaiaii.

### La Fiesta Bridge Club Met With Mrs. Kendrick

Mrs. Johnny Kendrick, 1306 East Broadway, entertained members of La Fiesta bridge club Thursday night.

Individual cherry pies and coffee were served to Mesdames Bill Anderson, Chris Hafner, O. W. Schellinger, Ted Hardy, Bobby Jones, Harold Crites and Earl Jones.  
Mrs. Hardy scored high and binged. Mrs. Schellinger also binged, and Mrs. Earl Jones received the traveling prize.

Mrs. Bell and Mrs. Cadenhead, both members of the Northeast HD Club, will conduct a similar school in Brownfield in September.  
Mrs. Lucille Moore, state recreational specialist from College Station, supervised the Levelland meeting, attended by more than 50 HD women.  
All types of in-door and out-door recreation were discussed the put into practice by the women. Representatives from the National Extension Service also were present, to evaluate the merits of this type of training and its adaptability to other extension work.

### Meadow HD Women At Levelland Meet

Mrs. Jewel Bell and Mrs. Wayne Cadehead of Route 1, Meadow, Terry County Home Demonstration Council delegates, attended the District 9 recreation training school Monday and Tuesday in Levelland.

Mrs. Bell and Mrs. Cadenhead, both members of the Northeast HD Club, will conduct a similar school in Brownfield in September.  
Mrs. Lucille Moore, state recreational specialist from College Station, supervised the Levelland meeting, attended by more than 50 HD women.  
All types of in-door and out-door recreation were discussed the put into practice by the women. Representatives from the National Extension Service also were present, to evaluate the merits of this type of training and its adaptability to other extension work.

### Baptist Youths Attend Retreat

Several young people of the First Baptist Church returned yesterday from Glorieta, N. M., where they attended a weekend retreat. The group left early Thursday morning and returned yesterday afternoon.

Included on the agenda during the retreat were morning watch and seminars. They also attended the old San Jose mission near Santa Fe.

Theme of the retreat, which was observed during home mission week, was "His Way—Mine." Inspirational leader accompanying the youths was Tommie Jones of Plainview.

Mrs. Virgil Burnett of 706 East Reppto will leave today for a visit with relatives in California.

Visitors in the home of Mr. and Mrs. G. A. Richard and family, 119 North 2nd over the weekend were Mr. and Mrs. Theodule Richard of Labadieville, La., and Emile Blanchard and daughters, Joyline and Shirley. Shirley will spend the remainder of the summer here.

### Look into America's Future and You Can See Your Own!

Great changes are taking place in America today. And each change in our American "people's capitalism" brings a great opportunity for businessmen, farmers, housewives, factory and office workers.  
No matter who you are—as an American, you can set your hopes high.  
For your free copy of "The Future of America," write to BOX 1776, GRAND CENTRAL STATION, N. Y. 17, N. Y.  
Published as a public service in cooperation with The Advertising Council.

**THE AMERICAN WAY**  
 By George Peck

The Founding Fathers of this nation were aware of the danger of giving too much power to any one branch of government. They had seen with their own eyes that free-born men had been made slaves of government because of autocratic powers given to or assumed by the Royal or Executive branch.

Therefore, they saw to it that our great American Constitution, called for a nation to be built upon three cornerstones, each to be of equal importance, namely: the Legislative, the Executive and the Judicial. The functions of all three branches were clearly set forth in the Constitution and even more clearly defined in the Bill of Rights — each was to act independently and each was to respect the prerogatives of the others.

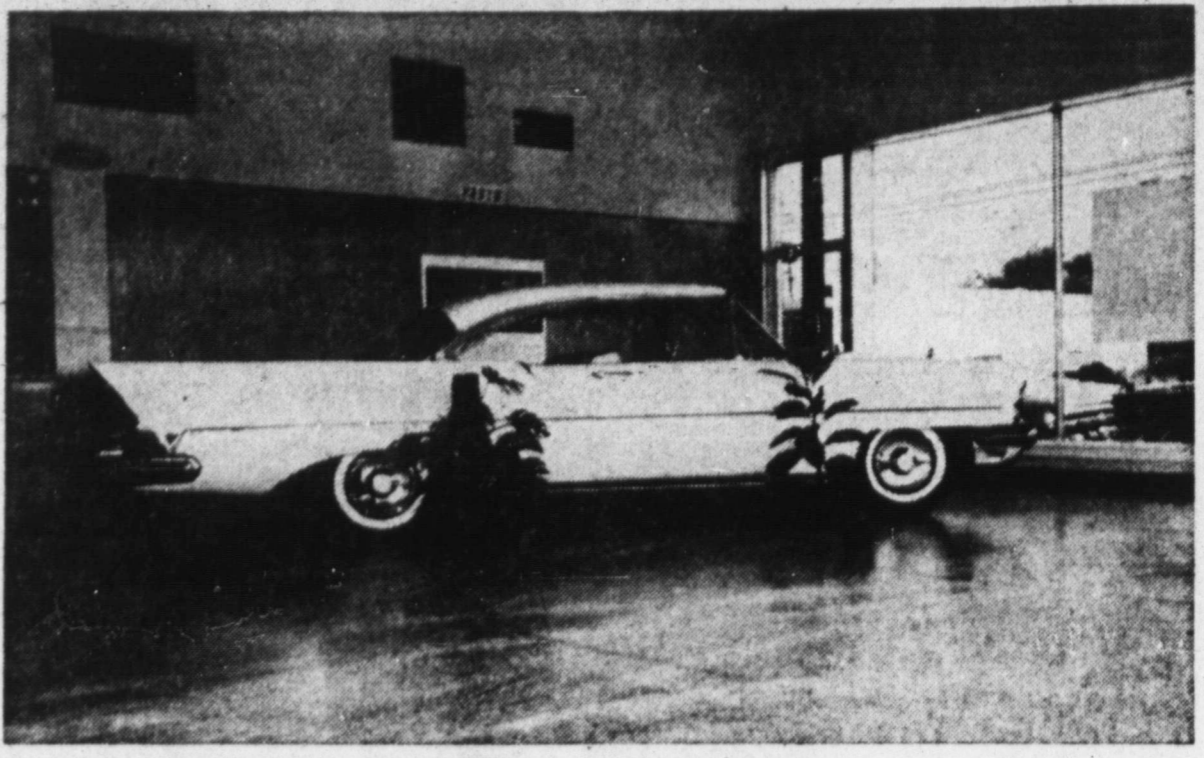

The Constitution grants to the Legislative Branch (the Congress) certain powers which they should jealously guard and hold. Paramount among these powers, is its exclusive right to make the laws under which we the people, must live and work. But, in recent years we have witnessed an invasion by the Judicial Branch of the Legislative Branch's sole right to enact laws. The latter intended by the Constitution only to making rulings on laws and to interpret same, has thrown away the rule book, and is now making laws.

It is high time that both the U. S. Senate and the House of Representatives register a protest at this usurpation and call a halt to further invasion of their constitutional powers. The Judicial Branch (the Supreme Court) must be given to understand that it is only an umpire and not a participant in the game.

And while it sets about asserting its rights, the Congress might well entertain the idea of doing a bit of house cleaning in its own bailiwick. It has permitted the last three Executive Administrations (Roosevelt's, Truman's and Eisenhower's) to

**Safety Council Says Feet Are Target Of Power Mowers**

CHICAGO — The power lawn mower may save dad an aching back—but it can give him or Junior a pain in the hallux.

"Accident Facts," statistical yearbook of the National Safety Council, doesn't explain that the hallux is the big toe, but it does point out that the hallux, the four smaller toes and other parts of the foot most are frequently are injured in power mower accidents.

A recent survey by the Georgia Department of Public Health revealed that one power mower injury in seven resulted in some permanent disability. Information for the survey was obtained from about one-fourth of the doctors in Georgia.

They reported 737 accidents in which 794 persons were injured during a period of less than two years. Direct contact with mowers caused 553 of the injuries. Objects thrown by the mowers accounted for 241.

More than nine-tenths of the accidents involved rotary type mowers, as compared with less than one-tenth for the real type.

No figures are available on the number of mowers of each type, but it is believed that the accident total for rotary mowers is due in part to the large number in use.

**Funeral Held Here For Mrs. Johnson**

Funeral services for Mrs. Mattie F. Johnson, 90, longtime resident of Brownfield who died Tuesday at the home of a son in Ruidoso, N.M., were held Friday at First Baptist Church.

Born in Nettleton, Miss., Mrs. Johnson was the wife of S. Johnson who preceded her in death in 1918. She had lived in Brownfield 40 years.

Survivors include three daughters, Mrs. C. O. Donnell of Lubbock; Mrs. Ola Wall of 112 North Second; and Mrs. A. B. Scudday of Kermit; six sons, C. E. Johnson of Texaco; F. E. Johnson of Amarillo; H. N. Johnson of Stephenville; and Jim, Luther and Leroy Johnson of Lubbock; and 16 grand-children and 18 great grand-children; and a half brother, L. F. Cauthern of Nettleton, Miss.

**Funeral Held Here For Mrs. Johnson**

Burial was in Brownfield Cemetery with the Brownfield Funeral Home in charge.

**Mrs. Bill Day Has Wednesday Club**

Mrs. Bill Day of 501 East Oak was hostess to her Wednesday afternoon bridge club July 24.

High player was Mrs. Bobby Jones. Mrs. Jack Cleveland took the traveling prize, and Mrs. Carroll Collier brought.

Caramel banana pie and iced tea were served to the above and to Mesdames L. J. Richardson, Mack Ross, Earl Jones, Bill Cope and Sammy Jones.

Gabriel Fahrenheit, German physicist, conceived the first quick-silver thermometer in 1720.

or small group of individuals, could be trusted with absolute power. They knew that the nation for which they were drafting a Constitution could never produce "men almost God-like in their ability to hold the scales of justice with an even hand... Their foresight and wisdom in planning a government of three branches, resulted in the establishments of the greatest and finest civilization the world has ever known.

While those three branches operated according to the rule book (the Constitution) America forged ahead. If the United States of America is to continue on to still greater heights, we, the people, must insist that the Legislative, the Administrative and the Judicial arms of our government get back to "tending to their own knitting," that each branch cease butting into affairs that constitutionally belong to one of the other two branches.

### Tips on Touring

By Carol Lane  
Women's Travel Authority  
Water Safety

Chances are you spend a lot of your vacation time (and money) in the water. It's fun, but play it safe. Here are some pointers:  
If you swim at an unfamiliar beach, find out from local people if there's an undertow. It's easy to be carried away from the shore and

then get panicky. Also check on coral. Swim near the lifeguard's station. If you're not an expert swimmer, don't go in alone.  
At an inland lake? Never dive in without checking first on the water depth, hidden rocks. If you're used to swimming in salt water, take it easy; fresh water won't give you the same buoyancy.  
Don't drink lake water without boiling it first.  
Are you boating? Always carry life jackets for the non-swimmers. Don't go out too late in the afternoon. Always allow plenty of time to get back before dark.  
If, by some accident, the boat overturns - stay with it. Most probably it won't sink. Hang on, stay calm, wait for someone to pick you up.

## Farmers Told That A Tractor Can Be An Enemy Or Friend

That tractor which is such a big part of a farmer's bread and butter can become a killer and dangerous enemy if proper precautionary measures are not taken. More than 1,000 Americans are killed in tractor accidents every year.  
In most cases where a tractor and a truck or auto collide, the tractor operator is killed. Now there is increased activity in the fields and on the highways, setting the scene for more accidents, warns the Texas Farm and Ranch Safety Council.

Plan your work so that you won't have to take your tractor on a heavily traveled highway more than is necessary. Flags by day and approved lighting by night will call the attention of the motorist to slow-moving farm machinery, points out the Council.  
Be sure to keep the tractor under control. Slow down for turns. Leave the tractor in gear on downgrades - don't depend entirely on brakes.  
Do not carry extra riders on a tractor and do not let young and inexperienced drivers operate the tractor or other farm machinery on difficult or dangerous jobs. They have to learn but be sure they can handle the job safely before sending them to the field alone.  
Arrange the highway entrance to your field and farm yard so that the driver can see both directions.  
Remember, says the Council, courtesy makes friends and prevents accidents. Pull over for faster traffic to pass - it only takes a minute and might save a life.

Naval Ordnance Laboratory scientists at Silver Spring, Md., are developing an instrument called the "Derry", a more accurate thermostat than those now used to regulate home heating plants. The heat of a match 10 feet away will make the sensitive electro-chemical instrument work.

Coupe originally referred to a carriage with seats for two persons inside and a seat for the driver outside.  
Ann Patterson, daughter of Mr. and Mrs. V. L. Patterson of 401 East Reppito, has returned from Girl Scout Camp Mary White, near Cloudfcroft, N.M., where she was a member of an advanced Primitive unit of scouters.

Visiting in the R. D. Shewmake home, 802 East Cardwell, this week are his sisters, Mrs. E. J. Chatelain and Sheila, and Mrs. Cliff Melancon, and a friend, Mrs. Wesley Veron, all of Lafayette, La. The group are spending the weekend in Ruidoso, N.M.

## Texas High Schools To Receive Science

Selected Texas high schools again will benefit from the University of Texas' science consultant program in 1957-58 as a result of extension of an American Association for the Advancement of Science grant.  
The consultant service was started last fall through an AAAS grant, with the University of Texas one of four experimental centers in the U.S. Purpose of the program is to upgrade science and mathematics teaching in Texas schools.

Wayne Taylor, director of the program, and Alan Lumphreys and John Wagner, full-time consultants, visited 24 school systems within a 200-mile radius of Austin during the past year. They spent a full day each month at each of the 24 schools, working with individual teachers, school boards and community groups.

They also aided in organizing science clubs, science fairs and other projects to encourage science students, acted as consultants to several professional organizations and to teacher and school administrator workshops, and cooperated with the University Interscholastic League's slide rule and number sense contest.

In addition to the 24 schools visited each month, the University group worked with a number of other schools a few times to solve special problems.

SEEKS TITLE — Pictured above is Barbara Kirschner, one of six contestants in the race for queen of the Babe Ruth League. She's the daughter of Mr. and Mrs. Jerry Kirschner of 1101 East Tate, and her team is the Red Sox. Girl selling the most 35-cent tickets to the Aug. 5 event will be declared queen of the league.

SHE COULD BE QUEEN — Linda Sue Franklin, pictured above, is one of six Brownfield lassies who have a chance to be queen of the Babe Ruth League. She's representing the Yankees, and with her are Dale Travis, Yankee manager, and Junior Knox, the Yankee pitcher. He's the son of Mr. and Mrs. W. C. Knox of 501 East Lake. Linda Sue holds one of the tickets which she and the other queen contestants will be selling for 35 cents each to the Aug. 5 event. Other queen contestants and their teams: Carolyn Cary, Cardinals; Kay Howell, Tigers; Claudia Chessir, Dodgers; Virginia Cooper, Pirates; and Barbara Kirschner, Red Sox. Girl selling the most tickets will be named queen. Two games are on tap Aug. 5. The Tigers meet the Cardinals in the league's last tilt of the season. Afterward, fathers of league players will meet managers, coaches and officials in a game to be umpired by the mothers. (NEWSfoto)

## Corn And Sorghums Are Worm Target

Corn earworms and sorghum webworms are causing grain growers trouble from the Gulf Coast areas northward. In all areas, report Extension Entomologists F. M. Fuller and C. F. Garner, where sorghums have headed, heavy infestations of these worms have developed.  
According to the entomologists, the worms feed upon the developing grain and can cause serious losses if not controlled.

Because of residue problems, the entomologists are recommending the use of 20 per cent toxaphene dust at 15 to 20 pounds an acre or toxaphene emulsion concentrate (6 pounds per gallon) at 2 to 2 1/2 quarts an acre. Insecticides should be applied late in the morning after the heads have opened.  
The specialists point out, however, that many of the new hybrid grain sorghums have open-type heads and that insecticides may be applied whenever weather conditions permit.

They say that DDT or a mixture-toxaphene has proved effective for control of these pests but pass on this warning about residues. DDT, they say should not be used on grain sorghums after the heads have begun to form if the grain or forage is to be used for human or livestock food.  
Toxaphene may be used at rates up to four pounds of active in ingredients an acre if the treated forage is not fed to dairy animals or those being finished for slaughter. Neither should toxaphene, at the higher rate, be applied to forage which is to be sold commercially or shipped interstate.  
The entomologists suggest checking with the local county

## a Dog's Life

by Bob Bartos  
Prominent Dog Authority

Some dogs seem to be born scrappers. There's nothing like better than to put up their ruffs and fight. There's much you can do with a dog who shows evidence of a belligerent nature. You can see that he stays in his own back yard in the country and that he doesn't get within leash length of another dog in the city.  
Obedience training helps in most cases. When the meaning of the word "no" is firmly established and it's repeated firmly at the sight of another dog, you may be successful in curbing the habit.  
Sometimes a dog develops a dislike for one particular dog or one particular breed of dogs. It sometimes helps to muzzle two unfriendly fellows and to leave them alone in a closed-in area. There they can work out their differences without damaging each other physically.  
Most dogs when left alone respect one another and seldom actually fight unless a third factor enters into the situation (the owner, a child, a bone), causing the emotions of jealousy, protection and possession.  
The best general advice is to keep your dog under control at all times in a yard or short-leashed in the city and under supervision in the country.  
Should a fight break out and your pet is one of the contestants, what should you do? Don't try grabbing either dog by the collar. You're certain to get bitten. Get hold of the aggressor by the hind leg or tail, lift him off the ground and throw him as far as you can. Scold the bully in harsh tones and plant yourself between the two until help arrives.

**Feeding Tip:** When you give dogs bones you're always running the risk that they'll swallow a bone splinter. By feeding your pet a top-quality prepared dog food such as Friskies, which contains bone meal, he gets the needed amount of calcium without the risk.

### Cookout Breakfast Given For Scouts

Members of Den 3 of Cub Scout Pack 74 were entertained by their den mother, Mrs. Buck Howell, with a cookout breakfast Thursday morning.

Those attending were Dick McPherson, Jimmy Ward, Dana Haywood, Buddy Duke, Billy Howell and Den Chief Harold Wilson. Guests were Terry Wilson and Bobby Rhyne of Albuquerque, N.M., who is visiting his grandparents, Mr. and Mrs. L. A. Rhyne of 214 South Second.

The group will meet next Wednesday at 10 a.m. in the park for a business meeting and swimming party.

### Mothers of Cub Pack 74 Will Meet Monday

There will be a meeting of the mothers of Cub Pack 74 at 9:30 a.m. Monday in the home of Mrs. Buck Howell, 1301 East Hester.

All mothers of Pack 74 are urged to attend this informal coffee.

W. T. (Bill) McKinney of Sherman, former Brownfield resident, is here this week attending to business and visiting with his brother-in-law and family, the Kenneth Fraziers of 1001 East Lons.

**HAVE ONE** — In picture above, Brownfield Kiwanians receive shares in their Kiddie Park Corporation. Minutes later, the group began a house-to-house canvass to sell \$2 shares in the corporation, proceeds from which will build the playground-for-tots in Terry County Park. The canvass is to end Wednesday night. From left: Bill Nichols, J. A. Chambliss, Erwin Moore, Leonard Ellington, Yes Hicks and Harley Stone. The beanies? A publicity angle. To date, more than one-third

of the required \$1,600 has been raised, said Nichols, publicity chairman. The playground is to be erected on a site southwest of the swimming pool, and will consist of six pieces of heavy duty equipment, guaranteed for the safety and enjoyment of children. The Kiwanians are urging residents to become "owners" in the project by purchase of at least one \$2 share. Hours of house-to-house sale are from 6:30 p.m. until 10 p.m. (NEWSfoto)

### Beef Short Course For Cattle Raisers Set August 12-14

Texas beef cattle producers who are interested in the latest research findings on problems which today are having a tremendous impact on the industry can not afford to miss the August 12-14 Beef Cattle Short Course at Texas A&M.

Major emphasis on the upcoming program will be placed on reproductive performance, fertility of beef bulls and estimating carcass characteristics of live cattle.

Those attending the short course, on the first morning's program, actually will grade a group of eight steers. Such

items as weight, grade, dressing percentage, percent of rib loin and round and area of rib eye will be estimated by each participant.

The steers will be processed on Tuesday and on Wednesday morning and a final evaluation of the carcasses will be made and winning participants will be recognized.

Professor John Riggs of A&M's Department of Animal Husbandry and short course chairman, reports that all speakers will be A&M System personnel except Ralph McCall, manager, cattle feed research

any, Chicago; C. A. Lakin, president, Arizona Cattle Feeders' Association, Phoenix; and M. R. Callihan, executive secretary, American Beef Cattle Performance Registry Association of Canyon, Texas. Respectively, their subjects will be Changes in the American Cattle Feeding Picture; Cattle Feeding in Arizona and American Beef Cattle Performance Registry Association.

Riggs says county agents have copies of the program and other information on the short course. Queries on details for the short course should

### CHEVROLET BEST IN TRANSCONTINENTAL ECONOMY TEST!

In a conclusive test, sanctioned and certified by the NATA,\* Chevrolet proved that it costs least to operate of the three leading low-priced cars tested! Traveling from Los Angeles to New York, Chevrolet recorded up to 17% greater fuel economy and lower total cost for the trip!

Chevy showed its outstanding thriftiness, all right, in one of the most thorough tests of this kind ever undertaken. Still, Chevrolet's ability to save big hardly comes as a surprise. Its economy is as traditional as its craftsmanship and solid construction. You take for granted Chevy's low operating costs, just as you've come to expect its fine finishing touches and careful attention to details. See your Chevrolet dealer for a demonstration drive!

\*National Automotive Testing Association

Over Arizona mountains compact V8 power got the most from every gallon.

Smooth sailing on the Ohio Turnpike with a good miles-per-gallon lead.

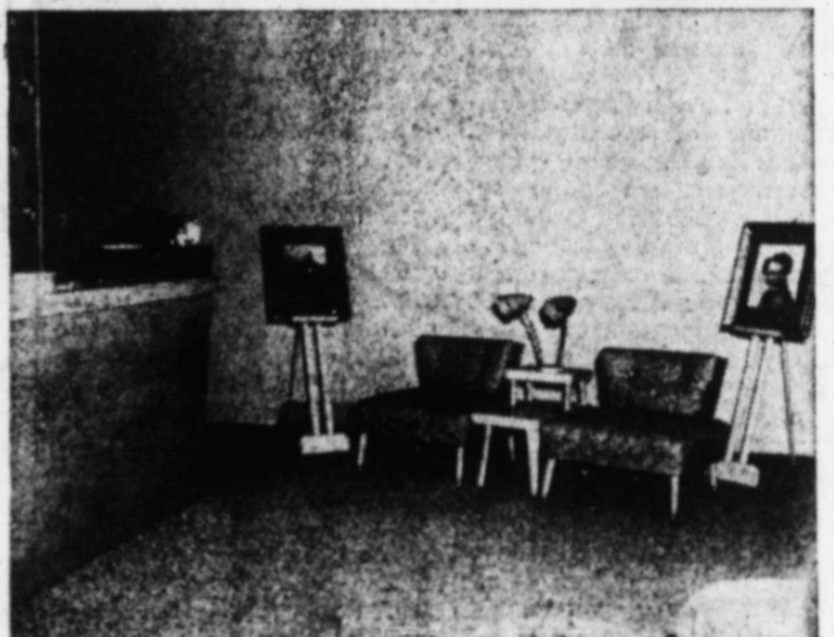

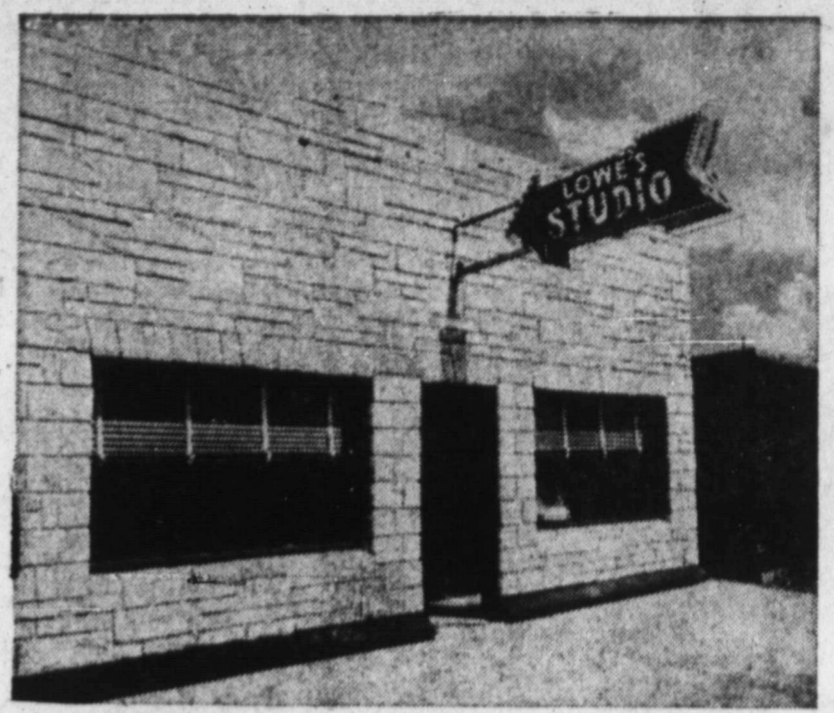

2,873 miles later, Chevy finishes with the lowest total operating cost.

Only franchised Chevrolet dealers display this famous trademark

**IN THE PICTURE** — The plush surroundings of the all-new Lowe's Studio were admired Thursday, Friday and Saturday by more than 350 guests who attended the opening at 212 South Fifth. Founded 29 years ago by the late Fred Lowe, the longtime Brownfield firm has been owned and operated the past six years by Mrs. Rhea Anderson, known to her many friends as Inverness. She has been in photography for 20 years, and has been associated with firms in El Paso, Lubbock, Plainview, Hamilton, Abilene, Bastrop, Fort Hood San Antonio, coming to Brownfield from Robert's Studio in Lubbock. It isn't surprising that her hobbies—and she's good with them—are oil painting and music, the piano and organ. Quite as permanent a fixture in the studio as are the camera and developing tanks is Stinker, elderly female dog, gifted with the ability to sleep most of every day and all night. Mrs. Anderson and her husband, who has been associated with Brownfield Funeral Home, live at 408 North A. Like most studios, Lowe's is composed of four sections: Reception Room, Camera Room, Work Room and Dark Room. Patrons show a tendency to relax and enjoy the green, suede and coral colors of the Reception Room. Wrought iron, white leather, deep-piled rugs and glass highlight the Camera Room. Pictured above are views of the Reception Room and the familiar Lowe's Studio sign. Mrs. Anderson specializes in commercial and portrait photography, including oils. She likes to recall the summer she intended to rest in her parents home in Hamilton, but had to work harder than ever oil painting photographs for neighbors and friends.

Mrs. E. A. Graha of 1310 East Tate is accompanying her daughter and family, Mr. and Mrs. Tom Dorrough, Tom Sawyer, Diedre and Phillip, on a vacation through Colorado, Yellowstone park and other points in the Pacific Northwest. The Dorroughs, former residents of Brownfield who have been living in Levelland, have been transferred to Drayton Valley, Alberta, Canada, where they will make their home. Mrs. Graha will return to Brownfield about August 15.

### Virus Named as Culprit In New Cotton Disease

A previously undescribed disease of cotton occurring in the Lower Rio Grande Valley has been found to be caused by a virus. Studies already are underway by researchers of the Texas Agricultural Experiment Station to identify the virus and to seek methods of its control.

Dr. David W. Rosberg, of Texas A. and M. College's department of plant physiology and pathology and the experiment station, said the virus is not carried over in the seed from one year to the next.

Affected plants are somewhat stunted and bolls are one-half to two-thirds normal size. The seed are small and poorly filled. Leaves of infected plants are mottled and red-spotted and veins are cleared and banded by dark green areas. Older leaves become buff colored, are conspicuously red-spotted and fall readily.

Former longtime residents of Brownfield, Mr. and Mrs. Roy Ragsdale and son, Gerald, of El Segundo, Calif., spent last weekend in the home of Mr. and Mrs. G. M. Thomason at 620 East Main.

He is directed to Riggs or his department. The short course chairman extends a special invitation to all beef cattle producers and is strong in his belief that information of great value to the state's cattle industry will be released during the two and a half days meeting.

# High Plains Irrigation Adds More Acreage

Almost a quarter of a million acres was added to the total acreage being irrigated in the High Plains area of Texas during the past year. Water, to take care of the additional acreage and to permit a better job of irrigating existing lands, came from an additional 5,653 wells. These facts are revealed in the annual survey of irrigation on the High Plains recently released by D. W. Sherrill, irrigation agent for the Texas Agricultural Extension Service with headquarters in Lubbock. Sherrill's report covered irrigation activities in 42 counties. Information in the survey was obtained from data supplied by the agricultural agents in the counties concerned, and points up the great importance of irrigation to the Plain's agricultural industry. The report shows 18,344

# Challis News

By MAE HENDERSON NEWS Correspondent

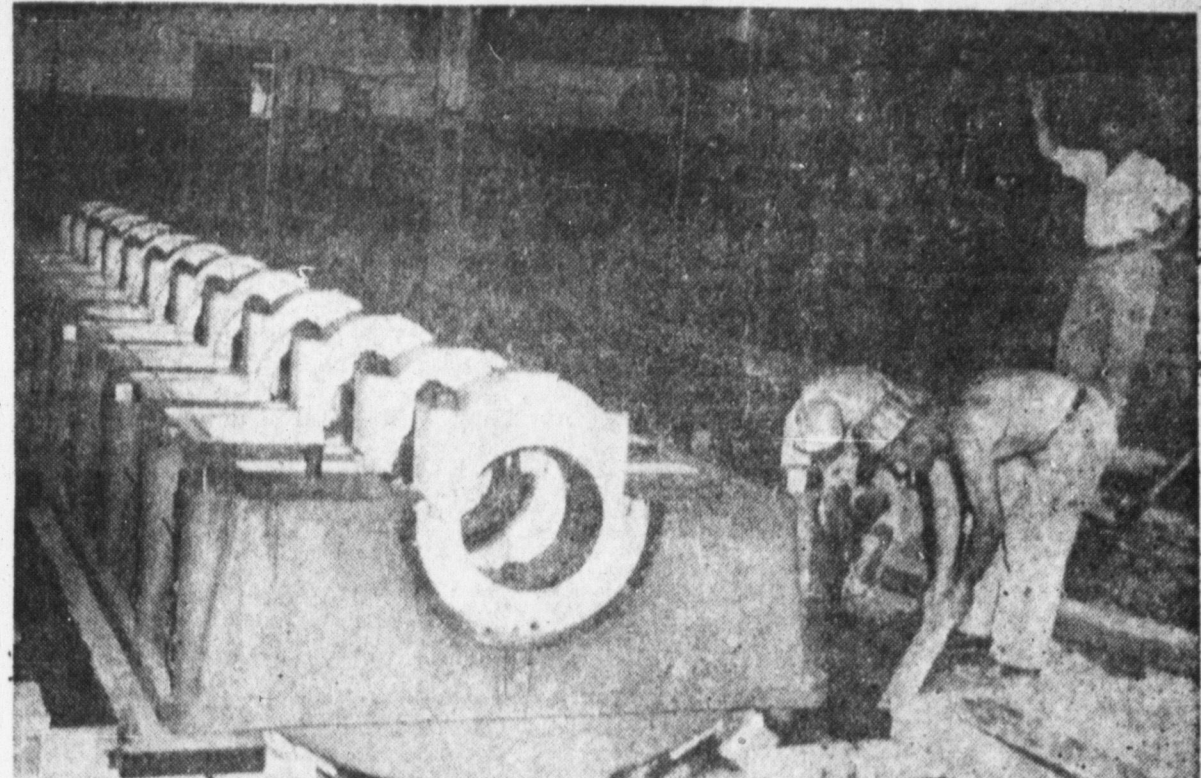

Those attending the Baptist encampment from Challis Wednesday were Mmes. E. R. Slater, C. S. Carroll, Floyd Joplin, Beulah Fay Neman and Miss Jo Bagwell. Mrs. L. M. Henderson spent Tuesday with her daughter, Mrs. M. L. Pate, in Brownfield. Visiting in the E. R. Slater home Sunday were their daughter and family, Mr. and Mrs. James Potts, J. Nelle, Kathy, Marilyn and James, from Amarillo, Mr. and Mrs. L. P. Price and Bro. Ramsey from Lubbock. Those attending the cooking school at the party house Tuesday were Mmes. Joe Henson, Ira Cason, Maudell Farrar, L. P. Price, L. Henson, E. N. Corley and a visitor, Vera Mae Eubanks. The next club meeting will be July 30 in the home of Mrs. Farrar. The program will be on handling wool. Mrs. W. J. Moss and Mrs. Farrar will give the program. Mrs. Virgil Kinard and her granddaughter visited Mrs. Henderson Wednesday afternoon. Mr. and Mrs. Loyal Henson and daughter, Kathy Ann, visited with Mr. and Mrs. W. W. Coursey in Levelland Sunday afternoon. Albert Bishal and Lee Hogg of Lamesa visited Mr. and Mrs. Wayne Bagwell and family and the L. R. Bagwell family Saturday. Dee Langford of Hobbs, N.M. visited his parents, Mr. and Mrs. J. L. Langford, Sunday. Rodney, Jeffery and Jamie Henderson are visiting their grandparents, Mr. and Mrs. Charles Quillon, in Seminole this week. Visiting in the L. R. Bagwell home Sunday were Mr. and Mrs. D. Stephens and Bert from Morton, Mr. and Mrs. M. D. Stephens, Mrs.

## Summer Session BHS News By Patti Wilder

Watch for the Youth Center Membership cards — they will be on sale soon. Local council members who will be selling cards for a dollar are: LeNora Turner, Patsy Hulse, Larry Meeks and Gene Mason. Mary Ruth Venable-Tom Chisholm, Karla Chisholm-Jimmy Toland, and Mr. and Mrs. Chisholm returned Sunday after a visit in Ruidoso. They spent an enjoyable weekend. Kay Kessinger returned July 24 from having entered contests in Gary Ind., Palla, Iowa, and Chicago. We are proud of Kay since she placed near the top in all three contests. She studied under Norman Crider, the former twirling king of the United States. Mont and Ken Muldrow and parents have just returned from a trip to the far Northwest. Highlights of their trip were: Yellowstone, Vancouver, British Columbia, San Francisco, and Las Vegas, Nevada. In case you don't know what Mont is driving, it's an Austin-Healey; can't miss it—it's quite red. Did you see Bettie Ann Davis on TV on July 12? She won second place competing with twirlers from California, Texas, New Mexico, Colorado, Oklahoma and Arizona in the National Baton Twirling Association contest. A former B.H.S. student, Ann Lee, now a resident of Matador, visited here with Gail Cottrell for a week. Ann leaves this morning for Matador. Sharon Snedeker returned July 15 from a month's visit with her sister and family in San Antonio. The honor of twirler of the Week was awarded to Patsy Hulse. She is attending the Band School at McMurry College in Abilene. At the same band school, Mary Jane Brownfield played second chair out of 84 clarinets. With a concluding concert Friday, the Band School will end. Jayne Fuller recently returned from a week's vacation to Albuquerque, Belen, and Ruidoso, N.M. She went with her mother to visit relatives. Friday night Gail Cottrell gave a slumber party honoring Ann Lee. Everyone had fun.

## Meadow News

By MARY GOBER NEWS Correspondent

Visitors in the home of Mr. and Mrs. Ray Gober last Wednesday evening were her uncle and family, the Leonard Isaacs, of Brownfield. Sue Hinson of Pecos has returned home after spending a week here visiting her brother, Dean, and grandparents, Mr. and Mrs. R. M. Hinson. Recent visitors in the home of Mr. L. W. Fulford were her daughter, Mrs. Cliff Rankin, of Texarkana, Ark. and her granddaughter and children, Mrs. C. A. Ferguson, of Dallas. Recent visitors in the home of Mr. and Mrs. Jake Fulford were Mr. and Mrs. Alvin Sexton and daughter, Mr. and Mrs. Lonnie Fulford and son of Lubbock, and Mr. and Mrs. Jerry Andrews and children of Plainview. Mr. and Mrs. T. C. Lucas of San Angelo spent last Friday night in the home of Mr. and Mrs. John Cadenhead. Mr. and Mrs. J. B. Blake have returned to their home in Los Angeles, Calif. after a week's visit here in the home of their sons, Jerrel and Burl, and wives, and Hartsel. Mr. and Mrs. Edd Kirk Tom Stephens, from Stephenville, Mr. and Mrs. Daine Bearden and Charles D. Reid. Visiting in the W. J. Henderson home Sunday were the E. S. Henderson family from Big Spring and Mr. and Mrs. Bill Henderson from Brownfield. Mr. and Mrs. Wayne Bagwell and children visited her parents, Mr. and Mrs. Lee Hogg in Lamesa over the weekend. Mr. and Mrs. Roy Gober and son, Randy, and Mr. and Mrs. Ray Gober and Harriet Burleson visited Mr. and Mrs. James Selman and family in Hobbs, N.M. last Sunday. Sonny Curtis, who is connected with the Phillip Morris country show in Alabama is here visiting his parents, Mr. and Mrs. Arthur Curtis. Mr. and Mrs. Rupert Turner and children and her parents, Mr. and Mrs. W. C. Duffy of Lovington, N.M. visited over the weekend with Mrs. Ella Turner. Mr. and Mrs. Sam Standifer and children of Plainview visited her mother, Mrs. Bulah Hart, Sunday. ## GOING UP?

Whether you think you are on the way up in life or fear that you may be on the way down, one thing is certain, you need an inner quality which only God can give. No one but the God who made us for Himself can give us hope and confidence about life which nothing can defeat. It is He who ordains both life and death. Everything which is came from His hand. If we trust in Him no mere earthly defeat can shake our confidence that life is good. He is the God proclaimed by the Church. Go there and meet Him.

Is something wrong with your life—an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and reassure. Through the church God has committed the provision and proclamation of His forgiveness and redeeming love. Without a church relation no one is securely related to God. *Everyone should be in the Church and the Church in everyone!*

## Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD  
Texas Press Association

AUSTIN — A big change is forthcoming in the operation of the largest law enforcement division of the State.

In keeping with recommendations of the Texas Research League, following a two-year study, the Texas Department of Public Safety will reorganize into six commands. Each command will be responsible to the central office in Austin.

Headquarters of the six regions will be in Lubbock, Corpus Christi, Waco, Houston, Dallas and Midland. Two Highway Patrol districts will be within each command.

Col. Homer Garrison will continue in the Austin office, in over-all charge, with the rank of major.

Heading the various commands will be Capt. R. A. (Bob) Crowder (Lubbock); Chief Kent Odem (Corpus Christi); Chief W. J. Elliott (Waco); Capt. Glenn Rose (Houston); Capt. Guy Smith (Dallas), and Capt. W. E. Speir (Midland).

In addition to the regional reorganization, the new plan calls for four central divisions in Austin. Identification and intelligence services will be in charge of Chief Joel Tisdale. Motor vehicle records and services will be handled by Chief A. F. Temple. Personnel and staff services will be directed by Chief Glen McLaughlin. And inspection and planning will be headed by Chief G. W. Busby.

Colonel Garrison said the move would result in more efficient service and greater economies. "The Texas Rangers also will come under the regional grouping," stated Garrison. "A Ranger captain will be within each region, and responsible to the regional commander."

**TO DAM OR NOT TO DAM**—A slice of the sort of troubles that plague Texas water development planning is shown in the current problems of the Brazos River Authority.

At Gov. Price Daniel's request, BRA directors held a statewide conference in Austin. Purpose: to reconcile the numerous conflicting views on how best to use the waters of the 1,300-mile stream. Score of people came and spoke their minds, but reconciliation was hard to find.

BRA directors suggest a six dam program on the Brazos. It would include raising the level of Possum Kingdom Dam and constructing six more dams between it and Whitewater Dam. Cost is estimated at \$183,000,000. BRA hopes to borrow \$50,000,000 from the federal government, get the rest from private bond sales. All would eventually be repaid, according to the plan, by revenue from sale of power and water.

But downstream water user and private power companies are dead set against the plan. Representatives of South Texas industrial and agricultural interests contend that paying for the dams would raise the price of water they use from \$1 to \$10 an acre foot. Private utility spokesmen say the dams would produce more power than any one wants at a higher price than anyone will pay. And people living near Possum Kingdom fear that raising the dam level would flood their land.

Net result: the BRA plan first launched 21 years ago still has troubles.

**TEMPEST AT TECH**—Gust from a political-educations storm that swirled up out of the Plains blew into the State Capitol.

In a closed session, director of Texas Tech at Lubbock fire Professors Byron R. Abernethy and Herbert M. Greenberg abolished the job of Dr. Pe-Stensland. In explanation Board Member J. Evetts Haley said Drs. Abernethy and Greenberg "did not measure up to academic standards." He called the adult education program in which Stensland was engaged "boondoggling."

But numerous observers attributed the dismissals to the professors' liberal political views as contrasted to the ultra-conservative platform on

which Haley ran for governor last summer. There were protests and demands for reconsideration.

Governor Daniel made no comment on the professors, but said he thought the secret sessions was "a mistake." Tech President Dr. E. N. Jones predicted the board would have another session on the subject soon.

Capitol reporters compared the case with the 1944 furor that resulted when Dr. Homer Price Rainey was fired as University of Texas president.

**PENNY-PINCHING DUE**—If the Legislature meets in special session this fall, members may have to ration every paper clip to get by financially.

State Treasury has hardly an extra nickel. There is, however, \$460,000 appropriated last session for interim legislative expenses. But State Comptroller Robert S. Calvert has raised a question as to whether this could legally be used for special session expenses.

If the attorney general rule, it cannot, legislators will have to amend the appropriation bill in order to get at the \$460,000. Even so, it may be nip and tuck to get by. Previous special sessions have cost about \$500,000.

Numerous economy measures have been proposed. Sen. David Ratliff suggested a swift three-to-six-day session with no pay for Rep. Louis Dugas proposed cutting the number of secretaries.

House Speaker Waggoner Carr is polling members as to whether they (1) favor a special session, (2) would serve without pay and (3) favor a tax to pay session costs.

**STEEP GRADES AHEAD**—State Highway Department is taking a long look at its ambitious road-building, land-buying program and wondering if it can meet the cost.

"We have \$13,500,000 in projects ready to go, but only \$8,000,000 income that will be available," said State Highway Engineer D. C. Greer. He said inflation in prices of material and labor may force a plan to build 48,000 miles of road in 13 years to be spread over 2 years instead.

One cost-cutting suggestion was to buy up right of way far in advance of construction in order to get land before it becomes developed and, hence more expensive.

**F-M CHANGE SUGGESTED**—Texas' farm-to-market road system should pay its own way, suggests a Research League report.

Laws creating the F-M system earmark millions annually for construction of the roads but none for maintenance. This is to come from regular Highway Department funds.

Eventual result, says the League report, will be more farm highways than needed and an "intolerable burden" of upkeep it recommends the law be amended so that F-M construction funds could be used for upkeep as well.

**SHORT SNORTS**—Trial of Ex-Rep. James E. Cox of Conroe has been postponed until Oct. 7. Cox is charged with conspiring to accept a bribe. Texas Republicans take a dim view of the 55th Legislature GOP's official "minority" report charged the lawmakers had "failed miserably" to cope with corruption, lobby control, tax sharks, congressional restrictions and fiscal problems blamed one-party control. Texas Highway Commission announced the highest-in-history operating budget for the coming fiscal year—\$72,498,650.

**Private Willie M. Sexton arrives at Toul, France**

Private Willie M. Sexton, son of Mrs. Lucy L. Sexton of 507 East Hill, recently arrived in Toul, France.

Sexton has been assigned to the Army Engineer Depot, 207th Engineer Company. He entered the Army in January and completed basic training at Fort Carson, Colo.

The 22-year-old soldier graduated from Brownfield High School in 1954. His wife, Bobbie, resides at 808 South Sixth.

JAYNES CHRISTEN JET — Actress Jayne Mansfield helps her six-year-old daughter, Jayne Marie, christen the Navy's new primary jet trainer, the "T-1 'Pinto,'" built by Temco Aircraft Corporation. Assisting in the milk-bottle ceremony at Dallas, Texas, Monday, July 15, is Capt. W. L. Richards, representing the Naval Air Training Command. Lt. W. F. Duddy submitted the name "Pinto" in a contest sponsored by the Training Command. Jayne Marie was given a pinto pony for her part in the christening.

### West Texas Will Receive Big Slice Of Federal Highway Program, Says Article

ABILENE (Spl) — West Texas' share of the proposed federal highway program will total almost 400 million dollars, according to an article in the July issue of West Texas Today.

The magazine, reflecting on the effect of the new highway system on West Texas and its economy, quotes state highway engineer D. C. Greer as saying that "1,359 miles, 47 per cent, of the proposed interstate system for Texas will be in West Texas."

The magazine states that Greer estimates West Texas' share to be about \$377,964,000 or 25 per cent of the total allotment for the State's interstate highways. Texas will receive about \$1.6 billion during the next 13 to 15 years from the Federal government for the

program.

The article also explains the current highway program of the Texas Highway Department.

"Our highway program for the present fiscal year calls for 5,068 miles of construction throughout the state at a cost of \$381,000,000. Of this programmed construction, 43 per cent, or 2,229 miles, is in the West Texas area," says Greer. He adds that the total cost for this West Texas construction will be about \$128 million.

The article also quotes Greer concerning future multilane or expressway construction for West Texas which is now on the highway department's program books. In addition to similar construction now underway, Greer states that 181 miles of multilane construction is planned in West Texas.

### Farm Injuries May Mean High Losses

A fall on the farm or ranch can cost a rural family more money than a fall in prices on the agricultural commodities markets, according to the Texas Safety Association.

The association points out that falls are the leading source of all injuries to farmer and ranchers in Texas.

However, injuries from all mishaps are expensive. A recent study shows that the average medical costs of such injuries runs \$105 per accident. Piled on top of this, in many cases, the necessity of hiring extra labor or suffer a serious loss of production, besides pain and discomfort.

Common sense and good housekeeping can substantially reduce hazards according to the TSA.

### ONLY PEOPLE CAN FORCE CHANGE

## Writer Tabs Income Tax Amendment, Supreme Court "Worse Than Prohibition"; Notes Colonies Fought Taxes

(EDITOR'S NOTE: John T. Flynn, writer of the following article, is a noted author, lecturer and radio commentator.)

Certainly that man is a little blind and dumb, to say the least, who does not realize that a revolutionary change has taken place in the structure of the American Republic.

The great men who framed the Constitution and joined together all the pillars and joists of the Republic would, we may be certain, be astounded if they could revisit these states and get a look at the present curious condition of the country.

Of course the Constitution provides a method by which changes can be made in our system. But we must now recognize that this system has been altered utterly beyond recognition — without any amendment to the Constitution authorizing these changes.

This whole revolutionary job on our government has been made possible by two shame-

ful and lawless forces. One is the income tax. The other is the Supreme Court and its usurpations of power.

The shocking consequences of the Income Tax Amendment have already been recognized by a majority of the American people. But this device cannot be ended save by a vote of three-fourths of the states.

Thus we are stuck with that weapon of oppression in the hands of the politicians until the people in three-fourths of the states realize its dangers. I wonder how many Americans recall that the original thirteen colonies broke away from the British government because that government imposed on them a very modest tax.

The colonists said we alone can tax ourselves — and they waged a seven years' war to get away from the power that had put its greedy hands in their pockets.

Mistake Is Made  
Now their descendants, in their folly, made the mistake of putting into the hands of the

central government the authority to spend their money for them — and to spend it without any rational limit.

But now our people are subjected to another infamy without any color of authority. The incident involved may seem trivial, but never forget that the tax on the colonists was a trivial one.

They did not complain of the tax — they defied the right of Britain to levy it, however small. In the latest case the culprit is that Supreme Court which was established to guard our liberties but which has become the most dangerous enemy of our liberties.

Loaded With Trouble  
This deals with a question of law, which may seem dry. But it is loaded with trouble. A man in California applied for a license to practice law in that state. The California Supreme Court refused to admit him on the ground that he had been a member of the Communist Party.

What could be more reason-

able? The Communist Party is an organized conspiracy — supported by a foreign country — to overthrow the American Constitution and government. There was a similar case in New Mexico. The high court there refused a license because the applicant had been identified as a member of the Communist Party.

Each of the men involved in these two cases appealed to the Supreme Court of the United States. And that curious tribunal repudiated the decisions of the highest courts in each of the states involved and held that these two men must be permitted to appear as counsel in the courts of California and New Mexico.

Decision Is Made  
There was a faint glimmer of light in the fact that in the California case three of the justices dissented.

But on top of the came a decision that FBI files, always considered inviolate, must be opened to criminals and subversives if the government wants to prosecute them.

The one dissenting justice said our intelligence agencies, under this outrageous ruling, might as well "close up shop" or provide criminals "with a Roman holiday" in rummaging

through their files.

Ridiculous Is Different  
It will be remembered that the attack on the Supreme Court in President Franklin D. Roosevelt's day was for the purpose of getting a court that would legalize the immense mass of unconstitutional legislation passed in the early years of his administration.

It is, of course, difficult to get rid of these two great evils — the income tax and the revolutionary Court. The federal income tax can be repealed only by a vote of three-fourths of the States. The evils of the Supreme Court can be ended only by amendment to the Constitution.

Such an amendment could abolish the present court and set up a new and different tribunal whose powers would be clearly defined and limited to remain within the Constitution.

Is this too difficult to achieve? People said we would never get rid of Prohibition. But we did. And I suggest that, bad as Prohibition was, the income tax and our lawless Supreme Court are worse.

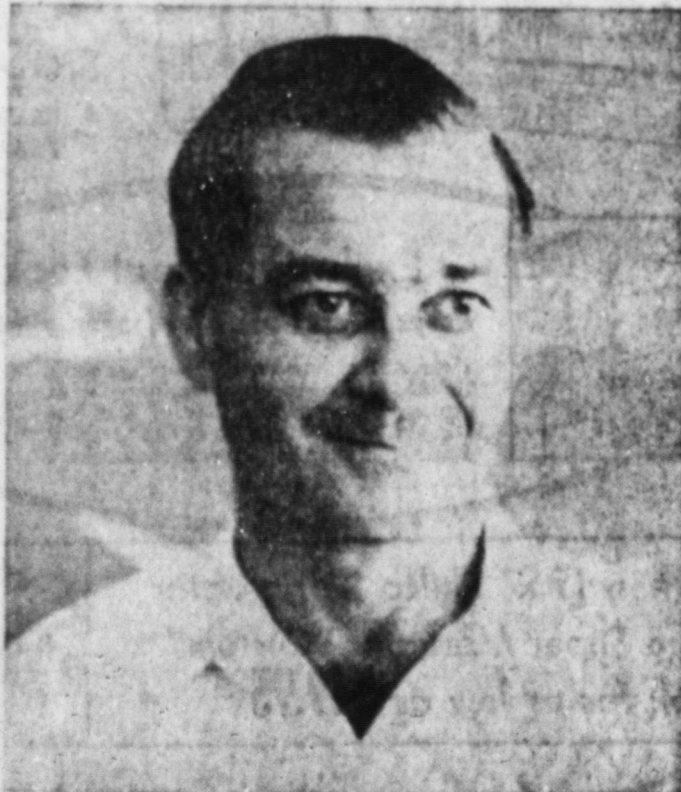

Water containing only a small percentage of potassium cyanide will dissolve silver and gold.

Oklahoma City, Oklahoma

Terry is one of Texas' prominent agricultural counties situated in the northern part of the state. It was organized in 1904 from Bexar territory, the county was named in honor of the famous Terry Rangers. Established in 1955 was 13,893. The terrain is level to slightly rolling, with basins, and with sand dunes in the northwest corner. The soil is fine, sandy loam (Amarillo and other types). There are several shallow lakes. Oil production in 1954 was 5,778,000 barrels. Annual rainfall is 18.96 inches. Temperature averages 50 degrees in January, 79 in July. Mean annual temperature is 64 degrees.

## Cathedral Situated Deep in Colombian Salt Mine Is Viewed By Thousands Annually; Boasts Own Pipe Organ Added in 1956

One of the great wonders of the modern world—a massive underground cathedral carved completely from salt—has been known to man only eight years but already is attracting more than 200,000 visitors annually.

The Cathedral of Our Lady of the Rosary, deep in an ancient salt mine near Bogota, Colombia, is less than seven hours from the U. S. by air. Larger than Notre Dame, its glistening gray salt walls will comfortably hold 5,000 worshippers.

The vast salt mine of Zipaquirá is located 32 miles from Bogota near the village of Zipaquirá. When the Spanish conquistadors first came to South America in the 16th century, the Indians showed them the mine, but there is historical evidence that Colombia's earliest inhabitants had worked the salt deposits for centuries before.

For the past several years, the state-owned Bank of the Republic has operated the mine. About eight years ago miners working in the deep tunnels came upon a great cavern. It was long and broad and high. Gigantic squarish columns, spaced in planned symmetry, perfectly balanced the high roof.

The cavern so resembled a cathedral that the people decided to establish a place of worship there. Work began in 1950 and more than \$300,000 has been spent to mold the existing wonder into a beautiful cathedral.

A visitor can either drive his car through one of the long twisting tunnels down to the cathedral or walk several hundred feet from another entrance. More than 50 miles of lighted tunnels zigzag through the known parts of the mine. In front of the cathedral is parking space for 200 cars.

From the grilled entrance gates, three naves stretch 400 feet to the altar area.

The main altar is dominated by a large cross silhouetted against the dark gray of the salt crystal walls. To the right is a chapel where Mass is celebrated twice on Sundays and on Saturdays and Feast Days.

In a niche on this altar is an image of Our Lady of Rosario, the patron of miners, in whose honor the cathedral was dedicated in 1950. There are nine other altars and innumerable shrines.

Soft fluorescent lighting playing on the natural salt crystal accents the beauty and depth of the giant chamber. Two great supporting columns are about thirty feet square and the naves approximately 73 feet high.

The floor area of the Cathedral is more than 28,000 square feet and covered with a locally made ceramic tile. A pipe organ was flown from Italy in 1956 and assembled within the mine.

When the Cathedral is finished, its capacity will be doubled to accommodate 10,000 people. In the meantime, the mine continues to be one of Colombia's most valuable assets, and in 1956 produced more than 172,000 tons of salt.

Mr. and Mrs. J. S. Smith of 904 East Lake visited in the home of Mr. and Mrs. T. W. Alderson and W. T. Nunley in Hereford Friday.

## Tests Reveal That Nicarbazine Cuts Egg Production Quickly

Tests have shown that nicarbazine should not be used for controlling coccidiosis in laying hens, for it drastically reduces egg production and changes egg color from brown to white, warns B. C. Wormeli, extension poultry husbandman.

Nicarbazine was fed to New Hampshire laying hens in tests at the U. S. Department of Agriculture's research center at Beltsville, Maryland, to check its effects on egg production, quality and weight, and shell color and thickness.

Egg production dropped off to half after the first week and continued for a week after the drug was discontinued. Brown eggs began to lighten within three days after the birds were given nicarbazine and were completely white within two weeks.

When the drug was discontinued, brown color began to return after 2 days and was completely normal after 2 weeks. These results supported the findings of the Texas Agricultural Experiment Station, says Wormeli.

A member of drugs that are effective in preventing coccidiosis when used in combination with good management practices are sulfaquinolone, sulfa-quanidine, nitrophenol and nitrofurazone, as well as nicarbazine. All can be used for growing stock, but nicarbazine should be excluded as a control in laying flocks, says the husbandman.

BOOT HILL — Above are a few of the many unusual grave markers Brownfield scouts saw in Boot Hill Cemetery at Dodge City, Kans., while en route to the National Jamboree at Valley Forge, Pa. early this month.

These drugs are important and effective when signs of coccidiosis appears in a flock. But there is no substitute for such sanitation practices as clean quarters, keeping feed and water in clean utensils, giving chickens room for exercise and getting rid of disease carriers such as flies, rats and mice, advises Wormeli.

Coccidiosis prefers warm, wet weather but may strike anytime of the year. Its symptoms are loss of appetite or weight, weakness, ruffled and soiled feathers, pale combs and wattles and watery or bloody droppings.

Dr. and Mrs. Jim Reynolds and family and Dr. E. N. Nichols of Lubbock visited in the home of Mr. and Mrs. J. S. Smith of 904 East Lake Sunday.

General George Custer was 37 when he made his famous "last stand" against Indians in the Dakota Territory.

# Brownfield Families Seek Pleasures of Out-of-Doors at Home

**THIS IS THE WAY IT'S DONE** — Eleven-year-old Renee tells her mother and daddy, Mr. and Mrs. R. V. Moreman. The Moremans cook out several times a week and all thoroughly enjoy eating in their backyard at 709 South C. They find it relaxing and good family fun.

**THE MORE THE MERRIER** — This is the motto with the Virgil Mrs. Rufus Franks of 903 East Lake and niece of the Travis' Gary Travis, 10; Rita Jeffrey, 10, daughter of Mr. and Mrs. J. B. Jeffrey of Lovington, N. M. and also a niece. Pictured here, around the table, are Sheryl Franks, 6, daughter of Mr. and Mrs. Rufus Franks. (Photo by Charlie Maple)

**OFT-REPEATED** — This is the ritual of backyard cookery in the Jake Geron family. The Geron's have found that the meal doesn't have to be elaborate to be fun and mighty tasty. Pictured here are Mr. and Mrs. Geron and Linda Beth. They live at 705 South C.

**FAMILY FUN** — It goes a long way in the J. E. Smith home at 702 East Reppto. Getting ready to pitch in with a will are David, 6, Jesse, 8, and Johnny, 4. The Smiths have just gotten their barbecue equipment this summer, but anticipate many hours of fun with it.

**ALL THE FAMILY IN THE ACT** — When Dr. and Mrs. Jerry Bailes cook out in the backyard of their new home at 1310 East Buckley, 6-year-old Chris and his sisters, Melinda, 2, and Stephanie, 6, always are ready to hand Daddy the salt or whatever he needs to produce the meal.
