And Terry County Herald... Terry County's Oldest Business Institution

VOLUME 20 TEN CENTS BROWNFIELD, TERRY COUNTY, TEXAS, THURSDAY, AUGUST 29, 1957 NUMBER 52

NEW GENERAL MAN — Pictured above is Curtis Scott of San Angelo who assumed duties here this week as Western Division plant superintendent for General Telephone Company of the Southwest. His promotion was announced by J. L. (Dusty) Kemper, division manager. Scott replaces Roy L. Brewer, who has been reassigned as district manager in Memphis. As a General employee since 1944, Scott has served as central office repairman and division methods and results coordinator at San Angelo and switchman and central office repairman at Del Rio. He was at Del Rio when he was transferred to Brownfield. He is married and he and his family — three children — live at 1415 East Reppto. The Scotts are affiliated with the Baptist Church. Scout District Will Enlarge Scope of Its Activities in Future

Boy Scouts in the five-county area of the South Plains Council known as Quannah Parker District have begun plans for giving more youths in the district an opportunity to join the Scouting movement.

At a recent meeting of key district leaders, plans were made for new units in Lamesa, Ackerly, Welch, Plains, Brownfield, Seminole, Seagraves and Denver City.

Said Bill Neels of Brownfield, district extension chairman:

"For many years, the district has had an outstanding record of quantity service to boys. However, a limited number of youths have been served through the few units which are in existence.

"We believe that it is our responsibility to make the Scouting movement available to all boys."

ENTERTAINMENT AND REFRESHMENTS SLATED

Terry County Farm Bureau's 1957 Queen To Be Named Friday Night

The 1957 queen of Terry County Farm Bureau will be named Friday night in Brownfield High School auditorium. She'll be one of 12 entries in the annual event, all Terry County beauties with fathers or brothers actively engaged in farming and TCFB members.

The ceremony will get under way at 8 p.m., with Emcee Red McIlvane introducing the girls. He's announcer with Radio Station KLLL in Lubbock.

Here's entertainment scheduled for the event, to which everyone is invited — free of charge: Leonard Ellington at piano; selection by the Sand Tones, Brownfield male singing group; a tap dancing number by Theretha Smith and Joe Cloud; and

Program is Given Acrobatic dancing by Susan Shropshire and Rickey Smith, baton twirling by Kay Kessinger; and "Steam Heat and Modern Jazz," a dance number by Kay Howell, Beth Cheshir, Jan Thomas, Judy Thomas and Lavolye Parker. McIlvane also will present some of his masterful impersonations, for which he has gained acclaim.

Whoever she is, the '57 queen, she'll be crowned by the winner last year, Miss Donna Sue Christopher. Friday's winner will re-

Economic Pressure On Farm Still With Farmers Of Nation

The story of the cost-price squeeze on the nation's farmers has gradually slipped from the front pages of the newspapers. It has been an economic reality so long that it just isn't news anymore, says John C. White, Texas Commissioner of Agriculture.

But it is still with the farmers, just the same. Somehow, the charts and graphs of rising prices and falling farm prices just doesn't have the same dramatic impact — except to those who suffering from its effects.

Eliminating the cold charts for a moment, here's what it means to its victims! Five years ago, it took 951 bushels of wheat at \$2.06 a bushel to buy a 20-29 tractor at \$1,960. Today, it takes 1,130 bushels at the prevailing price of \$1.91 to buy that same tractor at the current cost of \$2,109.

This represents 179 more bushels of wheat the farmer must raise to get that tractor. Here are a few more startling examples. **CORN:** In 1952, 147 bushels at \$1.73 bought a 2 bottom plow at \$255. Today it takes 214 bushels at \$1.22 for the same plow

Retired Farmer Dies In Lubbock Hospital

W. M. Wooley, retired Terry farmer living on Route 2, died Tuesday morning in West Texas Hospital, at Lubbock, following several months of illness. He was 79.

Services were held here Wednesday in First Baptist Church, with the Rev. T. L. Nipp of Gomez Baptist officiating. Burial was in Terry County Memorial Cemetery, under the direction of Brownfield Funeral Home.

Wooley moved from Haskell County to Crosby County in a covered wagon in 1910, settling near Cone. He moved later to the Old Emma Community near Brownfield. He retired last year. Mr. and Mrs. Wooley celebrated their 58 wedding anniversary in April.

Auto Inspections To Be Stiffer, Longer For The '58 Sticker

The 1958 automobile safety inspection period will go into operation here Sunday at nine Brownfield motor companies and garages, according to L. W. Wilhite, inspector for Texas Department of Public Safety.

Wilhite said inspections will be available at the following businesses: Craig Motor Co., 719 West Broadway; Brownfield Motor Co., 702 West Broadway; Tudor Sales Co., 622 West Main; Jack Bailey Chevrolet, 401 West Broadway; and

Harding Motor Co., 321 West Broadway; Portwood Motor Co., Fourth and Hill; McBride Pontiac, 1013 Lubbock Road; Tim's Safety Lane, 1309 Lubbock Road, and Decker's Garage, 806 Lubbock Road.

The inspector stressed that motorists should not wait until the last minute to have their cars inspected. "Nine new check points have been added to the inspection this year," he said. "These additions will be more comprehensive than past inspections

Pre-School Clinic Will Be In May

A pre-school clinic for parents of children who will start school for the first time in September 1958 will be held next May.

Decision to hold the clinic again next year was made after an evaluation of a similar clinic held last week. "It was quite successful," said Dr. Robert Hoey, a co-sponsor.

A total of 140 parents of children who will enter Brownfield school Tuesday for the first time took part in the two-day event. Among some things learned about their children:

"A child who is not well physically has little energy for learning. Eye or ear defects, undernourishment, fatigue and chronic physical deficiencies stand in the way of good adjustment, and should be corrected before the child enters school."

The foregoing was contained in an address to the parents by Dr. Hoey, guidance counselor who took part in a question-and-answer session. Others on the speaking panel were Viola Simmonds, Terry County health nurse; Kenneth Browning, Colonial Heights principal; Norene Hudspeth, Jessie G. Randal teacher, and Delwin Webb, co-sponsor and curriculum coordinator.

"Do not send your child to school too early," said Mrs. Hudspeth. "Ten minutes should be time enough for a child to take off his wraps and be ready for classes. Estimate his walking time from home to school and try to have him arrive between 8:30 and 8:45 a.m."

1957 TERRY GRAIN — Thought to be the first grain harvested this season, the truck-load pictured above was taken shortly after noon Saturday to Joe Christian's Western Grain Company. It was harvested on Jap Benthall's farm 3 miles south of Union by his son-in-law, Carl Pye, in the picture. It's 7078 dryland, which measured 18.49 per cent in moisture content. Some 12 days later than the first Western grain last year, the milo brought a \$100 premium. (NEWSfoto)

Sky Corbin Now Is Announcing at KTFY

The association of Sky Corbin, formerly of Levelland, with Radio Station KTFY was announced Tuesday by owner Mike Barrett.

Corbin is introducing two new programs over the Brownfield station: "Sky's Country Capers" from 6:30 a.m. until 8 a.m., and "Sharecropper's Serenade" from 2:15 p.m. until 3:45 p.m., Monday through Friday.

Corbin also will have charge of the "Saturday Afternoon Party," a telephone request program from 1 p.m. until 5 p.m.

A former soldier stationed with the U. S. Army in Alaska, Corbin is married and has one child.

Sheriff's Posse Will Hold Tuesday Session

Members of Terry County Sheriff's Posse will meet at 8 p.m. Tuesday in Sheriff James Fulford's courthouse office.

Said Crate Snider, posse secretary: "This is our first meeting since the posse was reorganized recently. We urge all members and any one else interested in our group to be with us Tuesday."

Among current business problems which will be considered Tuesday is that of the posse's up-coming rodeo, Sept. 19-20-21.

ing time from home to school and try to have him arrive between 8:30 and 8:45 a.m."

BREAKS SACRED RULE: WALKS FOR FUN, HERE!

Climate Here Seems To Be Good for Growing Both Excellent Crops and Human Beings, Says German Visitor in Brownfield

(EDITOR'S NOTE: Paul Arnold of Hagen, Germany, is in the middle of his 10-week stay in Brownfield as guest of the Rotary Club. Arrangements for his "tour" were made with the International Research Fund, Inc. His "American Impressions" to date were written for the NEWS.)

By PAUL ARNOLD The other day my friend Van came over to Brownfield to see me for some hours. He is a Belgian boy living in Midland as a guest of the Rotary Club there

just as I am a guest of the Rotary Club in Brownfield.

We are glad to meet after three weeks of separate experience in the Lone Star State. There was a lot to talk about. Let's go for a walk, we un-animously decided, and we were aware of breaking one of the "sacred" rules of Texans: Do not walk just for fun. We discovered that the phrase "having a walk" does not exist in Texans' vocabulary.

We admitted the days to be too hot to stretch your legs on sunburnt pavements and dusty

farm roads. But the nights are wonderful, cool and with a mild and pure air unknown to Middle Europeans.

Why don't they walk? Are they a victim of the "car age" or are they just too lazy? By Jove, they are not lazy at all. They work hard. Look at those fields, look at those oil wells, look at those beautiful homes and super-modern commercial buildings.

There is enterprise, energy, activity wherever you cast your glance: in the city council, in the numerous denominations of the churches, in lots of clubs, and in the educational field. And that activity seems to be adopted not only by the brains and hearts of the Texans, but also by their physical constitution.

Going to the swimming pool I am always surprised to see those fellows and girls of 15 or 16 looking like Germans of 25 or 26. Well, the Texas

Turning a sandy hill and brush-overgrown farm into a paying business is beginning to show results for two Terry County brothers northwest of Brownfield. Relying on diversification and accepted farming practices, Dan and Don Day, who farm 5 miles northwest of Pool, are changing their place from sandy brushland to a well planned, profitable venture. The twin brothers came to Terry in 1950 from Acuff. In the seven-year interim, they have built their operation around crop rotation and diversification which includes cotton, hy-

brid sorghums, alfalfa, grasses and livestock. **Nearly All Deep Broken** The farm includes about 6,000 acres of grass and 2,300 cultivated acres. "Since we have been here, practically the whole place has been deep-broken at least 30 inches," said Dan, the youngest of the two by 12 minutes. Some 750 acres are watered by seven wells and 1½ miles of underground steel irrigation pipe. Despite the fact that hay prices have dropped this year, the brothers pointed out that their irrigated alfalfa has been profitable. "We harvested about 4,000 bales off the 40 acres on the first cutting this

year and have started on the second cutting," they revealed. Included in this year's plans are about 350 acres of winter cover crops and an expansion of their livestock program. "The drought cut our livestock back from 500-600 head to the 154 we have now," said Dan. "However, we plan to boost it back up now that we have the moisture and grass."

Are TSCD COOPERATORS The brothers, who are Terry Soil Conservation District co-operators, recently completed sowing vetch in 350 acres of cotton land. "We plan to fertilize the cover crop with 13-39-0 after the cotton is out,"

THE AMERICAN WAY

THE GREATEST BLESSING

By George Peck

A reader has written me inquiring as to just what do we mean by "The American Way," which banner is carried at the top of my weekly column and the columns of my associates, Willis E. Stone, John T. Flynn, Maurice R. Franks, Dr. Alfred P. Haake

George Peck

and M. V. Eggleston, and at the top of the cartoons drawn by Tom Kay.

It's a good question—one that each of us has attempted to answer from time to time over the years that our columns have been released to newspapers, throughout the United States. But, perhaps the best answer was given by the late DeWitt Emery (deceased 1955), who for many years before his death wrote a column under the heading "The American Way."

DeWitt Emery was president of the National Small Business Men's Association, which organization he founded, until his

untimely passing in August of 1955. He was nationally recognized as the voice of small business in its struggle for existence during the depression years of the 1930's and during World War II. For the benefit of Canadians who may read this column, the word "Canadian" can well be substituted for the word "American", in Emery's short, simple but lucid essay on the American Way of Life, which was carried in his column release of September 19, 1945, and which read as follows:

"Our American Way of Life is made up of many things — bath tubs and automobiles; big cities and small towns; farms and victory gardens; mammoth steel mills and village machine shops; colossal educational institutions and the little red school house beside the road; churches and hospitals; railroads and air lines; chewing gum and ice cream; department stores and crossroad general stores; specialty shops and beauty parlors; pool rooms and race tracks; Hollywood, Broadway and the High School play;

Kenny Foundation Head Explains Rehabilitation, Research Goals

Minneapolis, Minn.—Gradual expansion of a program that originally was concerned primarily with poliomyelitis to one that includes treatment and rehabilitation of victims of other neuromuscular disorders characterizes the work of the Sister Elizabeth Kenny foundation today.

Marvin L. Kline

This expansion has resulted, too, in growth in medical and research programs, according to Marvin L. Kline, national executive director of the foundation. Doctors in various specialties have been added to medical staffs of Kenny treatment centers, and its medical committees have been enlarged to include scientists, professors and department heads of a number of leading universities throughout the United States and Canada, he added.

"The Kenny foundation's primary objectives include direct treatment and care for persons suffering from poliomyelitis and other neuromuscular diseases and disorders, without regard to race, age, sex, color or creed," Kline declared.

"Training of registered nurses and physical therapists to become Kenny Therapists continues at our international training center in Minneapolis, and we have greatly increased the tempo of research into poliomyelitis and other neuromuscular disabilities through grants to leading medical schools and hospitals and through provision of fellowships to individual doctors and scientists. Fostering of medical seminars and short courses continues as a major activity of the Kenny foundation."

Kline explained that the over-all program of providing direct patient treatment and rehabilitation is made possible through funds contributed during the foundation's annual nationwide public appeal.

"The Kenny foundation is highly dependent upon generous contributions from the public which benefits from this work, because of its wide demand in terms of highly-trained personnel and its many medical activities and research projects as well as the treatment and medical care it provides at no charge," Kline declared.

lions of all kinds of people gathered together from the four corners of the earth, drawn by the magnet of Freedom, Opportunity and Justice.

"Our American Way of Life provides each individual an opportunity to go as far and climb as high as his willingness to work, his skill, ingenuity and integrity will carry him.

"Our American Way of Life recognizes that the individual has the right to work when and where he wishes, the right to worship as he pleases, to speak his mind on any subject, to meet with his fellow men for any peaceful purpose, to be secure in his possessions and to have his day in a free court. It recognizes that the individual is

superior to the State, that our public officials are servants of the people and that they derive their just powers from the consent of the people.

"These things taken together created the atmosphere of freedom and an economic climate which made possible in the United States the greatest production of wealth in the history of the world and the establishment of a standard of living which is the envy of all other nations in the world.

"In short, the American Way of Life is the greatest blessing ever bestowed on mankind any place on the face of the earth."

At the time DeWitt Emery gave this description of "The American Way," as he viewed

it, he was greatly disturbed at the trend in the U. S. A. away from the basic principles that had made this country a stand-out among the world's family of nations. He was concerned about the ever-increasing discouragement to individual thrift, initiative and enterprise and the ever-growing doctrine emanating from Washington that Americans no longer are capable of doing things for themselves and that a paternalistic government must, therefore, do those things for them.

With all the vigor he could command, and he was endowed with plenty of it, on the public platform, over the radio, and in his writings, he warned his fellow Americans that unless the tide to Socialism was stemmed, the time was not far hence, when they could no longer point with pride to the American Way of Life as "the greatest blessing ever bestowed on mankind any place on the face of the earth."

When death stilled his voice, "The American Way" lost one of its greatest champions. We, his former associates, determined to increase our efforts toward salvaging what remains of "The American Way," and toward recapturing what already had been lost; to the end that "The Greatest Blessing" shall once again be the comfort and joy of every one of our American people.

Comic Character Favorites Boost Kenny Fund Drive

Minneapolis, Minn.—Comic strip favorites of young and old alike are bidding in the nation's daily and weekly newspapers for generous contributions to the 1957 annual fund appeal of the Sister Elizabeth Kenny foundation, according to Al Capp, national volunteer chairman.

Included are Donald Duck, by Walt Disney; Bugs Bunny, Warner Bros. Pictures, Inc.; Peanuts, by Charles M. Schulz; Ella Cinders, by Fred Fox; Dixie Dugan, by John Striebel, and L'il Abner, by Al Capp.

Al Capp

Capp also will be seen in an appeal on TV stations across the nation.

"Citing the need for generous public contributions, each of the comic strip characters stresses that the Kenny foundation now is providing care and rehabilitation to persons of all ages, races and creeds," Capp said.

"Disabled persons who may benefit from the Kenny program include those with conditions, such as: polio, nerve injuries, strokes (hemiplegia), spinal cord injuries (paraplegia), congenital disabilities, cerebral palsy (spastic paralysis), spina bifida, birth injuries, Parkinsonism, dystonia, amputations, arthritis, post-fracture disabilities, muscular dystrophy, multiple sclerosis, contractures and Guillain-Barre disease."

IT'S TIGHT ENOUGH — Dan Day, right, tests and his twin brother, Don, harvested some 4,000 bales of alfalfa off a 40-acre plot early this summer. (NEWSfoto)

In its last five years of conference competition, Texas Tech captured four championships in football, three (including a tie) in basketball, and two in golf. End Pat Hartsfield, Texas Tech's alternate captain this year, blocked four punts in one game playing for the Lubbock state high school champions of 1952. Of the 13 schools on Texas Tech's basketball schedule this year, Louisiana State will be the only newcomer to the Raider cage schedule. The schools meet at Baton Rouge, Dec. 16.

BY DAR, SEPT. 17-23

Major Effort To Promote A Nationwide Celebration of Constitution Week Set

WASHINGTON, D. C. — A major effort to promote a nationwide observance of the period of September 17-23 as Constitution Week has been launched by the National Society, Daughters of the American Revolution.

"Never since the adoption of the Constitution 170 years ago has it been so essential that the citizens of this country understand the Constitution and the protection it affords them," Mrs. Frederic A. Groves, President General, National Society, Daughters of the American Revolution, declared in announcing plans for the observance of Constitution Week.

Mrs. Groves named Mrs. Ray L. Erb, national chairman, national defense committee, chairman of the Constitution Week observance.

Protects From Fallacies
"The Constitution," declared Mrs. Erb, "defends us from fallacies that the experience of 3,000 years condemns: from dictatorship which is abhorrent to every American concept; from the totalitarian state that

regiments men, their minds and bodies. From these and like evils now so widespread on earth, our Constitution daily defends us. It stands between us and the great blasphemy that man is a creature of the state.

"The peculiar glory of the Constitution of the United States is that it is not a charter of rights granted by government to a people, but a limit of powers to which a vigilant people restricts its government. It is not a government edict which the people must obey, but a people's law which government obey. 'We the people of the United States,' these seven potent words were and remain, all subsequent world upheavals notwithstanding, the most revolutionary words on record."

In accordance with the request of Congress, it is believed President Eisenhower will issue a Constitution Week proclamation. Mrs. Erb has asked DAR officers to ask Governors, Mayors, and other town officials also to issue proclamations.

No. 11 —

explain that pupils are assigned in the primary school rooms; according to birthdates, after which no changes or reassignments can be made.

It also was brought out by the panel speakers that children may bring a lunch, eat at home or eat in the school cafeteria. "The lunch served in the school cafeteria," said Browning, "has a meat or meat substitute, two vegetables, one-half pint of milk, bread, butter and dessert."

"The lunch can be bought for 25 cents, by the day by the week—preferably by the week. The cafeterias have no loan fund or charge account."

Said Mrs. Hudspeeth: "For the child's own safety, it is not desirable for him to leave school during the day. He will be allowed to do so only when his parents file a written permission with the school. Parents are urged to instruct their children in safety habits and proper conduct to and from school."

Mrs. Simmonds told the parents: "Rules for control of common communicable diseases are based upon the regulations of the State Health Department. Permit slips for readmission to school after being excluded for symptoms of any of the diseases may be obtained from your family physician."

The county health nurse listed the following diseases and the days of exclusion from school for each: chickenpox, 6 days; measles, 10 days; German measles, 4 days; mumps, 10 days; whooping cough, 3 weeks, and scarlet fever or streptococcal sore throat, 3 days.

Notes Are Sent
No formal report cards will be given to first-year children the first six weeks of school, said Dr. Hoey. A note to parents or a parent-teacher conference will serve better, he explained. Such conferences may be arranged after 3 p.m., with the teacher.

Dr. Hoey concluded the panel session by saying: "Children must work together in groups at school. If a child comes to school knowing how to get along with others, he will adjust quickly to the new situation."

"It is worthwhile for parents to see that their child has many opportunities to be with other children his own age. Knowing how to make friends and how to live happily with other children helps a child to adapt himself to the school environment, thus releasing his energies for school work."

A pre-school clinic held in May of next year would give the parents the entire summer in which to complete the required medical record form for entry and to help them get their children ready otherwise, mentally and physically, concluded Dr. Hoey.

She also has asked that members request their ministers to speak of Constitution Week from their pulpits and include prayers for the Constitution both on Sunday, September 15 and Sunday, September 22.

Constable is derived from Latin words meaning "master of the horse."

Therapist Training Vital Function of Kenny Foundation

Minneapolis, Minn.—The training of registered nurses and physical therapists to become Kenny Therapists continues as an important function of the Sister Elizabeth Kenny foundation, according to Marvina L. Kline, national executive director.

Kenny Therapist trainees are schooled under Kenny foundation scholarships, tax-free and worth up to \$8,250, at Elizabeth Kenny International Training center here. The course is of 18 months duration, with nurses enrolled for an additional 12 months of physical therapy at the Mayo clinic, Rochester, Minn., or other approved physical therapy schools.

Registered nurse candidates who complete the course become registered physical therapists. All graduates receive certificates, indicating their status as Kenny Therapists and are qualified, under medical supervision, to carry out the physical treatment of all phases of polio and to apply this specialized knowledge of treatment to other neuromuscular disabilities and musculoskeletal disorders as well.

Upon graduation, Kenny Therapists are assigned to Kenny treatment facilities across the nation.

In addition, the foundation conducts extensive training programs for technical specialists in rehabilitation and nationwide medical training and education.

Kenny Foundation Widens Research, Scholarship Aims

Minneapolis, Minn.—Well organized programs of research and scholarships are vital to the future rehabilitation of persons with neuromuscular disabilities, according to R. Bruce Reinecker, president of the Sister Elizabeth Kenny foundation.

This fast growing branch of medical science, which is bringing a wide variety of medical skills to bear upon the problem of restoring victims of crippling disorders to normal life, cannot continue to expand without nourishing its own roots, he declared.

That's why the Kenny foundation—now conducting its 1957 annual fund appeal—has embarked upon a long-range program designed to attract more technicians to fill the needs of the fast-growing field and to stimulate research in the broad underlying fields, he said.

For several years, Kenny institutes have been extending the "know how" developed in the treatment of polio into the wider field embracing other crippling disabilities, he declared.

Show of Stars

CO-STARRING . . .

JULIUS LAROSA

One of the top ten TV stars is Julius LaRosa for today he has four shows weekly — a far cry from the time he was with Arthur Godfrey and his troupe. Fired, by Godfrey, LaRosa became a "big name" when the public responded to the firing with fervor. His top songs are "Anywhere I Wander", "Ehi Dumpari" and "Lipstick and Candy and Rubbersole Shoes".

HERB SHRINER

The Indiana Hoosier comedian, Herb Shriner, has won a spot in the hearts of all Americans, with his Will Rogers-style of wit. His last TV show was "One For The Money", while he has starred on many a stage throughout the years. His start came in "Inside U.S.A." His act, jokes, quips and general observations of the passing scenes are wonderful!

Nov. 1—7 and 9:30 P. M.

Nov. 2-3—7 and 9:30 A. M.

HILLTOPPERS

From a Kentucky college, the Hilltoppers hit the "top" with their first hit, "Trying". Today their latest is "Fallen Star" while they have recorded for Dot Records many a hit, such as "Poor Butterfly", "P.S. I Love You" and "I'd Rather Die Young".

DECASTRO SISTERS

These three lovely DeCastro Sisters are from Cuba, offering a potpourri of song and comedy. Their records include "Teach Me Tonight" and "Don't Call Me Sweetie" while they have played many a famous night spot, including Las Vegas' Desert Inn, Latij Quarter of New York and Ches Parea in Chicago.

Johnny Matson, the emcee sheepherder from Montana, is a hot trumpet and solid accordion player, a comedian you'll like!

Here is a fresh, exciting act, done by Bud and Cece Robinson, known for their fine appearances all over the U.S.

Shara McKim, the International Baton Twirler, will give the Show of Stars an exciting opening act, — an unusual performance.

Tommy Mercer is the male vocalist in this famous orchestra.

Leader is Lee Castio, taking over Jimmy Dorsey's spot now that Dorsey is no longer alive. He is the one, who with Dorsey, recorded the new favorite "So Rare".

Julie Vernon, girl vocalist, is a real hit with Dorsey's band.

MEET WITH TEACHERS — Teachers in the Hicks, school board president; Morris Wallace, Brownfield school system are in the midst of a five-day workshop which ends Friday afternoon. Opening addresses Monday were given Brownfield public schools. (BHSfoto) by the trio pictured above. From left: T. A.

13th Annual Short Course Scheduled By Chamber of Commerce on Sept. 13 and 14

BIG SPRING (Spl) — Melvin W. Sisk, executive vice-president of the San Antonio Chamber of Commerce, will be one of the featured speakers at the sixth annual West Texas Chamber of Commerce Short Course scheduled for Sept. 13-14 in Big Spring, Wayne C. Smith, chairman of the WTCC community services, announced today.

Smith, who is manager of the Big Spring Chamber of Commerce, also announced that Dr. P. D. O'Brien, pastor of the First Baptist Church in Big Spring, will be the keynote speaker for the two-day meeting.

The Short Course, which last year drew approximately 125 professional chamber managers, staff personnel and local chamber presidents, is designed to provide those working in and with chambers throughout West Texas with a better working knowledge of chamber operations, Smith stated.

"Professional Improvement" is the theme for this year's meeting, Smith said.

He added the "organized bull sessions" will be utilized again this year to permit an inter-change of ideas on successful organizational management and techniques.

Sisk is a native West Texan, graduate of Texas Tech and has had more than 20 years experience in chamber management. His first position in professional chamber work was as manager of the Levelland chamber. He also served as manager of the Graham, Sherman and Tyler chambers and was once a member of the Wichita Falls Chamber staff.

Sisk became manager of the San Antonio chamber in 1956. He is a former president of Texas Chamber of Commerce Managers association and is a graduate of Southwestern Institute, a school for chamber managers.

Dr. P. D. O'Brien is a veteran West Texas minister. At one time he was pastor of the First Baptist church at Stamford. A popular after-dinner speaker, Dr. O'Brien has delivered humorous inspirational messages before chamber groups throughout Texas for more than 20 years.

Author Says Congress is Playing Into Hands of Communists By Continuing Spending Spree Leading to American Bankruptcy

By WILLIS E. STONE
(EDITOR'S NOTE: Willis E. Stone is author of the "Proposed 23rd Amendment" and is President of the American Progress Foundation, Los Angeles.)

Communists always have planned that America would fall in their lap when Congress spends the American people into bankruptcy.

The plan makes progress. Our current budget marks a peacetime high, so that our taxes will exceed the total taxes paid by all the rest of the people on earth.

Congress has created a national debt, to be paid by American taxpayers, greater than the debt of all other nations combined, and Congress continues to give billions of American tax dollars to foreign socialist and communistic governments so that those governed

ments may keep their people suppressed.

All this adds to our burden. Last January, when the 1958 back-breaking budget was introduced, a great surge of public resentment against such insane spending and taxing procedures was evident.

After a week with the home folks during Easter vacation, Congressmen displayed a new spirit of fiscal sanity.

Since that time, however, the bureaucratic empire builders have recaptured our Representatives in Congress. The evidence is clear.

Cuts Restored

The highly publicized cuts in the budget recommended by Congressional Committees were largely restored, without publicity, when the appropriations were voted.

To divert public attention from the realities of the budget, bureaucracy whipped up the "inflation" - gabguboo, but the fact that the inhuman tax burden is the basic cause of inflation has been carefully concealed.

Even Defense Secretary Wilson joined the "inflation" chorus, charging that "tight money wage increases and farm subsidies" make inflation.

Actually, such things are the result of the inflation created by the high taxes required to sustain the bureaucratic empires.

Congress TALKS about getting these empires out of competition with private enterprise while it actually passes bills prohibiting the Defense Department from closing any of its more than 19,000 business establishments, such as ice cream plants, laundries, etc.

This indicates a congressional allegiance to bureaucrats rather than to taxpayers.

Voters Veto Housing

The American people have voted out public housing at every opportunity. States, such as California, have even adopted constitutional amendments to prevent federal public housing.

Challis News

By MAE HENDERSON
NEWS Correspondent

The Women's Missionary Union met Monday at 2 p.m. in the home of Mrs. L. P. Price with the president in charge of business.

Mrs. Henderson gave a stewardship program and Mrs. Garner finished the mission book. "Speak to the people that they go forward" was the program topic.

Following the program, a layette shower honoring Mrs. Holder was given. Gifts were displayed in the living room. The serving table was laid with a lace cloth over yellow satin. Twenty guests registered.

Mr. and Mrs. Fred Igo and children visited her parents, Mr. and Mrs. E. N. Corley Monday morning.

Mr. and Mrs. W. J. Henderson attended the revival at Immanuel Baptist Church in Brownfield Thursday and Saturday nights.

During the business meeting last Monday, new officers were elected for the W. M. U. for the coming year.

Mrs. Clarence Clark was named president, and other officers are Mrs. C. S. Carroll, vice president; Mrs. Henderson, second vice president; Mrs. John Garner, secretary-treasurer; Mrs. E. R. Slater, stewardship; Mrs. F. H. Joplin, community; Mrs. Price, prayer; Mrs. Corley, Bible study; Mrs. Langford, Mission study and Mrs. C. S. Carroll, Sunbeams.

Mr. and Mrs. L. R. Bagwell honors their son, Wayne, with a birthday dinner Sunday.

Those attending were Mr. and Mrs. Lee Hogg, E. L. and James, and Deana Lee, from Lamesa.

Visiting in the Bagwell home Sunday were Mr. and Mrs. C. S. Carroll and Lynn and Mr. and Mrs. Wayne Bagwell, Janice and Donald.

Mr. and Mrs. W. J. Henderson visited their son and family, the G. J. Hendersons, Friday.

Weekend visitors in the home of Mr. and Mrs. Loyal Henson were Mr. and Mrs. Doyle Henson and son of Dallas, Mr. and Mrs. Tom Wolf of Lubbock and Mrs. Lillie aMe Henson and son of Levelland.

Visiting in the E. R. Slater home Sunday were Mr. and Mrs. W. J. McMillan and children of Plainview, their daughter and family of Abernathy and Mr. and Mrs. W. J. Henderson.

J'Nelle Potts from Amarillo is spending the week here with her grandparents, Mr. and Mrs. E. R. Slater.

Mr. and Mrs. Junior Johnson of Lubbock spent Saturday night in the home of Mr. and Mrs. L. P. Price.

Mr. and Mrs. Tommy Pettigrew and boys enjoyed ice cream in the Loyal Henson home Wednesday night.

Prayer meeting at Challis church is held each Wednesday at 8 p.m.

Frankie Ramey and wife were dinner guests in the C. S. Carroll home Sunday. W. Y. Grindand is spending the week in the C. S. Carroll home.

The Meadow-Challis Home Demonstration club members had their annual family supper at The Party House Monday night.

The menu consisted of

SEN. YARBOROUGH'S

Washington Newsletter

From every dollar that you pay in taxes, about 75 cents is taken out for the cost of past wars, and defense preparations for the future. These expenditures use up three times more tax money than all the other federal costs combined. I feel you have a right to know why it's costing you so much to maintain such huge sums for spending abroad.

In the entire history of our nation, the Federal Government has spent only 17 billion dollars on water conservation projects, and we have spent 60 billion dollars on foreign aid since World War II.

We find it necessary to maintain gigantic military forces to prevent the Communists from overrunning the free world. We pour billions of dollars in aid and assistance into foreign nations in an effort to keep them on the side of the free world.

We won World Wars I and II.

We have not yet won the Peace. The short-sightedness of the Dulles-run foreign policy is costing us billions of dollars in defense spendings. Much of that money is needed here in the United States to help our own people, who suffer under high taxes, low old-age pensions, tight credit, hard money and high interest rate policies.

Last week, several of us Senators introduced a measure in the Senate to create a Foreign Service Academy to train Americans in the field of foreign relations and diplomacy.

You know, young Americans have been trained at West Point and Annapolis, to fight and win wars, and we have fought and won wars. But, friends, it is more important that we train our young people to fight for and win the peace. We have the finest military schools in the world, and there is no reason why we should not have the finest diplomatic school in the world to prepare our first line of defense—the men of our foreign service.

The foreign relations of our country have been managed so badly during the past few years that we are forced to spend more and more of the taxpayers money to maintain peace. It has been this bungling foreign policy that caused me to demand this week that John Foster Dulles resign as Secretary of State.

You should not be forced to pay great sums when a little common sense on the part of the State Department could prevent the costly blunders that have led us to the "brink" of war, and these same blunders now demand such exuberant prices to "buy" the peace.

I want you to join me in this effort to establish a school to train young Americans in the art of winning the peace. But for the immediate future, we need new Secretary of State — badly and quickly.

Your letters mean a great in the manner which you want. So write me your views on this

salads, ham, corn, beans and pies, coffee and cold drinks.

Those attending were Messrs. and Mmes. Joe Henson and boys, Ira Cason and boys, T. C. Pettigrew and family, Loyal Henson and Kathy, L. P. Price, W. J. Henderson, Floyd Joplin and family and Mrs. E. N. Corley and Carolyn Ann.

and other problems. I hope to be home soon, when Congress adjourns, and I will visit over Texas and learn more of your problems first hand.

"Look, Mommy! We've got our horsey again!"

Many who have suffered from emotional illness have been restored. A better UNDERSTANDING of mental health by all citizens can give the hope of recovery to millions.

The tiny youngsters in this picture are too young to know what was "wrong" with Daddy! Their only care now is that he's all better and feels like playing again—which, after all, is the most important thing to this man who has suffered from a distressing emotional disorder.

Great strides have been made in research for the treatment and prevention of emotional and mental illness. But so much more needs to be done. So many more of the 16 million or more emotionally disturbed or mentally ill Americans could be helped—if only more people had a better understanding of this problem.

You can help best by acquainting yourself with the truth about emotional and mental illness. If this problem should ever occur in your family, find out how to deal with it, how it can be treated. And above all, work with your local mental health association.

FREE BOOKLET: If you know someone who needs help or would like a better understanding of mental health, send for a copy of "HOW TO DEAL WITH YOUR TENSIONS."

Write to Better Mental Health, Box 2500, New York 1, N.Y.

at \$262, or 67 more bushels. RYE: 1952, 866 bushels at \$1.72 for a combine at \$1,490. Today, 1,328 bushels at \$1.04 for the combine at \$1,590, or 662 more bushels.

MILK: 1952, 447 cwt. at \$4.38 for a two-ton truck at \$1,960. Today, 744 cwt. at \$3.84 for the truck at \$2,860 or an increase of 297 cwt., amounting to 2,650 more gallons.

MILK COWS: 1952, seven head at \$234 to buy that \$1,960 two-ton truck. Today, 17 head at \$163 for that truck now costing \$2,860, or 10 more head.

EGGS: 1952, 390 dozen at \$0.338 for a wringer-type electric washer at \$132. Today, 562 dozen at \$0.249 for same washer now costing \$140, an increase of 172 dozen.

These few figures bring home the fact that the farmer must produce a great deal more at a reduced price to buy commodities which have increased in cost. It shows better than any chart how inflation combines with steadily falling farm prices to put a strangling squeeze on our farmers.

No. 4 -

climate seems to be good for growing both excellent crops and human beings.

Are Happy Lot And Texans are happy folks. They laugh a lot, and their hospitality and friendliness are things they are right to brag about. But there is still the question of what makes the whole atmosphere so different from that in European countries.

It is obvious that there is not much to be found among Texans what we call "Gemuetlichkeit" (best translation I could find: familiar coziness) in Germany.

Maybe there was never such a thing in Texas right from the beginning. The old frontier men were too rough and tough for such a more or less softhearted and feminine trend of life, and today folks are too busy, too much eaten up by the technical age.

Are Too Rational Many Europeans used to despise the Americans for their way of life; they classify it to be too rational, with too much brains and too little heart in it. They claim to be living the right "inner" life instead of Americans' wrong "outer" life. Well, who wants to be a judge?

Not! Van nor I wanted, because we have come over to the U. S. not to criticize, but to understand the people of this country. Concerning that purpose we have to realize that especially Texas is a very young country in comparison to those in Europe.

That makes a great difference, because the traditional background of social, political and religious life is such a mighty force in Europe and is of practically no importance in this country.

What would have become of America if it had such long-living and sometimes hindering traditions? We have discussed similar questions for hours and hours, but we thought it better to put them off until later times when we shall be back home. It will be a great joy for us to tell our friends what we have seen, heard and felt over here, in order to convince them of the goodwill and friendliness of a nation not long ago one of Germany's worst enemies.

I have been asked frequently by American: How could that happen; how could Hitler be able to seduce Germans to such a hatred of other nations, including America?

Well, the answer is easy: Nobody told us the truth about people in other countries, nobody was able to make us understand their ways of living and their ideas.

That's why I am especially grateful for my visit to the U. S. I have become an active link between our two countries to make sure that all that misery will never happen again.

No. 5 -

said Dan. "Then we will turn it under next spring to build the soil."

A complete shop and portable welder is a unique feature of the Day operation. "The shop is so complete that we can repair anything without going to town," noted the brothers. "We have to buy only spare parts when equipment breaks down."

The portable welding rig, which includes both gas and electric welding equipment, is installed in a trailer that can be taken anywhere on the sprawling farm.

No. 6 -

and will take a great deal more time."

All new inspection points deal with automobile brakes.

Checklist for the inspection, which runs from Sept. 1, 1957 to April 15, 1958, includes: 1. Motor Number. 2. Headlamps. 3. Tail lamps. 4. License plate light. 5. Stop light (1948 models and newer). 6. Red rear reflectors (1958 models and newer). 7. Horn (audible 200 feet). 8. Windshield wiper. 9. Foot brakes.

Wilhite noted that the owner of a vehicle is not under obligation to have defects corrected by the inspection station. "He may have the work done where he desires, or may do it himself," said the inspector. "The important thing is that the car is inspected and defects corrected."

The inspector revealed the \$1 fee is for the inspection, whether a sticker or rejection slip is issued. "If a rejection receipt is issued, the owner must return to obtain the sticker within seven days or he will have to pay another \$1 fee," said Wilhite.

Inspector-mechanics have attended a training school conducted by DPS and are liable for a fine up to \$200 for an improper inspection. "Likewise, an inspection station is liable for a \$500 fine for making an improper inspection," noted Wilhite.

"Each automobile must meet requirements set out in the Inspection Manual before it can be approved and receive an inspection sticker," added the inspector.

"We have reduced accidents caused by faulty automobiles from 18 per cent to 3 per cent per 100,000,000 driving miles," said Wilhite. "We feel this was attained by the inspection program."

Any motorist operating a vehicle on a public highway without an inspection sticker after April 15, will be guilty of a misdemeanor, punishable by fine up to \$200, related Wilhite. "This shouldn't be necessary because last year's average inspection cost per vehicle was only \$1.89," he concluded.

In addition to his wife, he is survived by four sons, Roy Wooley of Abilene, J. B. Wooley of Lubbock, J. C. Wooley of Gomez and Lawrence Wooley of Welton, Ariz.; three daughters, Mrs. John Benouskey of Torrance, Calif., Mrs. Alice LeHew of Abilene and Mrs. A. H. Vaughn of Titusville, Pa.; 17 grandchildren and 18 great grandchildren.

No. 8 -

season as one of the favorites in District 4-B with a balance of speed and experience on their side. About 25 Broncos checked out suits Monday.

Wellman's Wildcats will collide with Patton Springs Sept. 13 in a non-conference warm-up before opening their 2-B Six Man football schedule against Southland the 20th.

The Wildcats are given little more than a darkhouse rating in the tough district that will boast power-laden Southland, Bula and Union. However, barring injury, Coach James Daugherty expects to improve on his sixth place ranking of 1956. Daugherty began practice Monday with about 12 aspirants. He noted several players still are working and will begin drills later this week.

Union, one of the 2-B circuits' favorites, began getting into condition Monday with some 23 youngsters on hand for the drills.

The Wildcats, though returning 11 lettermen and all six starters from their fourth-place 1956 edition, are expected to be slow but methodical in their attack. "We'll primarily be aiming at four and five yards per down," said Coach Kenneth Sams.

Approximately 45 aspiring Cubs will don pads and suits tomorrow as they begin preparations for the 1957 season.

With only eight lettermen and three starters from the '56 Cub team, the coaching staff said a lot must be done to get ready for the season opener Sept. 13 at Levelland.

No. 9 -

ceive \$25 and the right to compete later this year on the District 2 level at Lubbock. Two runners-up will receive \$15 and \$10.

Rehearsal Is Tonight A full-dress rehearsal will be held in the auditorium tonight, said Mrs. Carl Hogue, chairman of the modeling committee. The entries appeared Tuesday night as guests of Hospitality Time, on KCB-D-TV, Lubbock.

"Judging Friday night will be based on poise, personality and appearance," said Mrs. A. J. Bell, program chairman. Refreshments of home-made ice cream and cake will be served afterward in BHS cafeteria, said Mrs. Winfred Tucker, foods chairman.

Stage decorations Friday night will be handled by Mrs. Leonard Lang and her committee.

Friday night contestants: Miss Jorita Fulford, daughter of Mr. and Mrs. Lawrence Fulford of Meadow; Miss Linda Hendricks, daughter of Mr. and Mrs. Russell Hendricks of Meadow; Miss Betty Eubank, daughter of Mr. and Mrs. J. H. Eubank of Brownfield; and Miss Mary Joe Christian, daughter of Mr. and Mrs. Joe Christian of 907 East Broadway; Miss Doris Ratliff, daughter of Mr. and Mrs. Mozell Ratliff of 1302 East Tate; Miss Carol Ann Hester, daughter of Mr. and Mrs. Preston Hester of 1306 East Buckley; and Miss Gail Gene Davis, daughter of Mr. and Mrs. C. E. Davis of 104 East Felt; Miss Ruby Smith, daughter of Mr. and Mrs. D. R. Smith of Meadow; Miss Nadyne Faulkenberry, daughter of Mr. and Mrs. W. C. Faulkenberry of Route 1, Seagraves; and Miss Karen Foshee, daughter of Mr. and Mrs. B. F. Foshee of Route 2, Brownfield; Miss Bertha Dean Smith, daughter of Mr. and Mrs. E. L. Smith of Route 2, Brownfield; and Miss Pat Runnels, daughter of Mr. and Mrs. W. D. Runnels of Route 2, Brownfield.

Military conscription as a measure for self-preservation is believed older than civilization itself.

No. 10 -

Mrs. Harrison denied any residence other than in Precinct 3, though Hackney hammered on the query why she moved some \$2,000 worth of new furniture to Petersburg and moved her husband's old furniture to her home here. She admitted that this was true but that they lived in Terry and that her husband keeps his clothes here.

Defense was based on the premise that the couple seldom were in Idalou, Harrison's home while the Petersburg home was being constructed, or the new home after their marriage. Hackney attacked the defense by recalling several instances when Mrs. Harrison told members of Commissioners Court about incidents that took place in and around Idalou.

Hackney stated he expects to call 12-15 witnesses to the stand to substantiate the county's case in the injunction proceedings.

The proceedings were brought about this week after County Judge Herbert Chesshir declared Mrs. Harrison's office, commissioner of Precinct 3, vacant on Aug. 5. He appointed and swore Eulice H. Farrar into the office after declaring Mrs. Harrison had moved to Petersburg.

Commissioners Court had filed for a temporary injunction against the commissioner Aug. 19, and she countered with a cross-action and a petition of intervention Aug. 23.

Mr. and Mrs. W. H. Moore of Archer City are house guests of Mr. and Mrs. Wayne E. Brown of 721 East Broadway. The Moores, formerly of Brownfield, have been visiting friends here.

Neither House of Congress can adjourn during a session for more than three days without the consent of the other.

DEADLINE IS SUNDAY!

Only Two Days Left for Getting That Refund on Farming Operations Gasoline

You barely have time to make a last-minute rush to the Internal Revenue office for that gasoline tax refund!

The first day of September is the deadline for Texas farmers to apply for refunds on gasoline used for farming between July 1, 1956, and June 30, 1957. The rebate amounts to three cents a gallon on gas used in farming operations during that period.

The opportunity for a small return also is available on gasoline purchased during the first six months of 1956. The Dallas office of the Internal Revenue Services says that two cents will be repaid on each gallon used during that period.

Texas farmers are reminded, however, that only one refund claim per farm operator will be permitted. Each claimant is cautioned to make certain that his refund request includes all eligible fuel used.

Form 2240, for filing the 1957 tax refund claim, has been mailed to each farm and ranch operator who applied for the tax refund in 1956.

Farmers who desire to claim their refunds and have not received Form 2240 can probably obtain them from their county agent or from the nearest Internal Revenue office.

The procedure for filing is simple, but just to make it easier, a bulletin has been published explaining the methods. Publication 308, "Farmer's Gas Tax Refund," is available for those who request it.

The pamphlet also explains how the new federal excise law relieves farmers from federal excise taxes on diesel and special motor fuels.

Mr. and Mrs. Rimmer Jones and children of Dallas are visiting this week with his mother, Mrs. J. M. Jones of Meadow-

Browning Receives Masters Degree At Colorado University

Kenneth O. Browning of 1021 East Hill received an MA degree from the University of Colorado in the school's 114th commencement ceremonies Aug. 24.

Browning, principal of Colonial Heights School, was among some 500 students awarded degrees during the rites.

During the ceremonies in Mucky Auditorium an honorary Doctor of Laws degree was conferred on Theodore J. Kreps, professor of economics at Stanford University and a 1920 graduate of the university. Kreps gained prominence in the field of economics for his many publications and articles in professional journals. He received a master's degree from Harvard University in 1924 and four years later a Ph. D.

A member of the Sanford faculty since 1930, Kreps was chief economic adviser to the Board of Economic Warfare

Mens Golf Tourney To Begin Sunday

The annual men's club golf tournament at Brownfield Country Club will begin Sunday, it has been announced by J. O. Burnett Jr. and Harry Goble, co-chairmen.

Qualifying for the match play tourney is scheduled for Sunday, with finals slated to be played Sept. 12.

Wellman High School Principal Is Appointed

Nolan Fields of Brownwood has been appointed Wellman High School principal. He and his family are expected to arrive Friday.

Fields succeeds Eldredge Ansell, who resigned this week to become superintendent of schools at Woodson.

during World War II. He has also served other governmental agencies in an advisory capacity intermittently.

In 1954 he was a Ford Foundation exchange professor at the Free University, Berlin, Germany.

In the closing days of the session, one important fact is being overlooked. It is that Congress has succeeded in the economy drive—succeeded to the tune of at least \$5,500,000,000.

The president opened the year by presenting Congress with the largest peacetime budget in history — \$71,800,000,000. The country was staggered. Eyes turned towards Congress to see what would happen.

Part of the budget couldn't be touched. It consisted of good faith obligations of the United States — interest on the public debt; veterans pensions; fixed charges. But the rest was examined carefully and thoroughly. Now, with all but three of the appropriation bills acted upon, it is apparent that the savings will amount to at least \$5,500,000,000—9 per cent of the total outside of the fixed charges.

The story can be told quickly and easily by a table:

APPROPRIATION BILL	PRESIDENT'S REQUEST	CONGRESSIONAL SAVINGS
Treasury-Post Offices	\$ 3,965,000,000	\$ 80,364,000
Interior	\$ 515,189,000	\$ 59,000,000
General Government	\$ 20,000,000	\$ 4,911,000
Independent Offices	\$ 5,823,000,000	\$ 550,287,000
Labor-HEW	\$ 2,981,000,000	\$ 110,744,000
Commerce	\$ 871,513,000	\$ 273,722,000
State, Justice, Judiciary	\$ 665,649,000	\$ 102,758,000
Agriculture	\$ 3,965,000,000	\$ 298,902,000
Defense	\$ 36,128,000,000	\$ 2,368,000,000
Supplemental	\$ 1,973,767,000	\$ 252,255,808
Mutual Security	\$ 4,400,000,000	\$ 1,875,240,000
TOTAL	\$61,408,118,000	\$5,972,183,880

This is only a partial list. But it represents the larger bills and the savings are substantial. Furthermore, they represent savings without a reduction of needed services. For example, even while reducing the figures for the Labor-HEW bill, Congress increased the funds for research into killing and crippling diseases.

At the time this is written, we are still considering the appropriation for mutual security. The President originally asked for \$4,400,000,000. The people protested and President Eisenhower agreed to withdraw \$500,000,000 of the request. Congress doubled the savings and the authorization figure now stands at \$3,386,000,000. Further saving is in order and will be made.

The House has voted a Mutual Security appropriation of \$2,524,760,000. That is \$1,875,240,000 below the original budget request. The Senate must still consider the appropriation, but it is clear that the final result will be at least \$5,500,000,000 in savings and probably much more.

Five Junior College Players To Be In Texas Tech Lineup

LUBBOCK — Five junior college players are expected to lend experience to the letterman-thin Texas Tech football lineup when practice opens Sept. 2.

With only nine letterman from 1956 scheduled to report, the five are likely to see considerable service. Only one, however, was in school for spring training since the other four did not graduate until May. He, Floyd Dellinger of La Vega, who was an All-American for Rusty Russell at Victoria College, looms currently as the starting quarterback.

Two will be tried at right guard, where Tech lost a returning starter through a summer injury and two top sophomores. At that spot will be Ray Campbell of Greggton, from Texarkana College, and Billy Janca of Sinton, from Victoria College.

Only one letterman center returns, so Jack Andrews of Keyser, West Va., from Potomac State Junior College, may see considerable action at the pivot position.

Another La Vega High School ex, Don Pringle, who played jaycee ball for Navarro, is going out for quarterback.

Tips on Touring

By Carol Lane
Women's Travel Authority
Mountain Driving

The vacation you spend motoring in the mountains will be better if you remember these tips from experts on mountain driving.

Before you go, make sure the car is in top-notch condition. Have the headlights adjusted for focus, the brakes and fan belt checked. A lonely mountain road is no place for mechanical failure.

On the road, have a full radiator, water in the battery. Remember that your car works extra hard "climbing" itself uphill; overheating can be a problem.

Watch your gasoline. Shell-Oil Company automotive specialists say that on a very steep grade you may get as little as three or four miles to the gallon! And chances are you won't find a service station nearby.

So start out with a full tank or carry an extra five-gallon can.

Always keep well over to your side of the road. When rounding blind curves, hug the right side, and blow your horn. Never coast when going downhill. You can reach a dangerous speed before you know it. On steep grades, shift into second gear. If you have automatic transmission, check your driver's manual on how to handle downhill driving.

Mr. and Mrs. R. J. Clements of 608 East Tate and Mrs. Harold Crites of 514 East Buckley spent the weekend in Fort Worth and Arlington, where they visited Mrs. Crites' sister and family. Mr. and Mrs. R. J. Murray.

Panhandle-South Plains Fair's Cash Premiums At All-Time High: \$28,000

Cash premiums offered by the 40th annual Panhandle South Plains Fair have reached an all-time high total of \$28,000 with the addition of two new divisions this year.

The addition of Brown Swiss in the livestock department and a professional division in the Art Department raises the number of divisions in all departments to 79 for this year.

The Fair catalog, an attractive red, yellow and blue publication, is being sent to approximately 3,000 persons by the Fair Association. Persons on the mailing list include past exhibitors, expected exhibitors, county agents, vocational agriculture teachers, Fair officials and judges in Oklahoma, Kansas, Colorado, New Mexico and Texas.

The Fair week, Sept. 23-28, will get underway with a Parade of Bands Sept. 23. Approximately 30 bands from the South Plains are expected to participate and entry blanks will be sent to schools.

Bill Hames Shows will operate on the midway and Holiday on Ice is expected to be a big attendance attraction.

Holiday on Ice of 1957, a glamorous ice skating world of entertainment, will open Sept. 22 in the Fair Park Coliseum. It will be the same company which put on the spectacular show last year, however the acts and some personnel have been changed. The ice show will end its engagement Sept. 27.

Department superintendents for the Fair include: Agriculture (General) — George Samson, Post; Agriculture (General Assistant) — Walter Y. Wells, Lubbock; Agriculture (County and Individual) — Lowell D. Richardson, Lubbock; Agriculture (Vocational) — L. M. Hargrave, Lubbock; Livestock (General) — W. B. Griffin, Tahoka; Aberdeen-Angus Cattle — W. G. Rodgers, Floydada; Hereford Cattle — Paul E. Gross, Seminole; Dairy Cattle — R. N. McClain, Brownfield; Dual — Purpose Cattle — V. M. Peterman, Amherst;

Swine — Ollie F. Limer, Plainview; Swine (Assistant) — Lee Roy Colgan, Lamesa; Swine (assistant) — Lewis C. Herron, Jr., Post; Junior Agriculture — Bob Gibson, Lockney; Junior Livestock — Cecil Lewis, Lubbock; Rabbit Show — J. J. Scharnberg, Lubbock; Rabbit Show (Assistant) — K. A. Carter, Lubbock;

Other Names Listed
Women's Department (Director) — Mrs. George A. Long.

Lubbock; Women's Department (Assistant) — Mrs. Glen M. Wages, Lubbock; Women's Department (Assistant) — Mrs. Vera Hyatt, Carlisle; Textile — Mrs. Haskell Speer, Lubbock; Textile (Crochet, Knitting and Tatting) — Mrs. Lon Lincecum, Idalou; Culinary — Mrs. A. L. Turner, Lubbock; Youth Department — Joyce Hazelton, Lubbock, and Mrs. Marie Slover, Anton;

Art — Mrs. A. R. Lawrence, Lubbock; Art (Assistant) — Mrs. Leon Upshaw, Lubbock; Art (Assistant) — Mrs. A. R. Williams, Lubbock; Relics and Antiques — Mrs. B. E. Needles, Lubbock; Flower Festival — Mrs. E. E. Louthan, Lubbock.

No. 12—

ing projects.

The Administration ignored this, and made a budget request for funds for 35,000 public housing units.

Our far-from-economy-minded Congress multiplied the request by four, approving 135,000 public housing units at a cost to taxpayers of nearly two billion dollars.

The budget approved by Congress authorizes the greatest political spending spree in our peace-time history. Now Congress is busy considering "supplemental money bills," to finance projects not included in the budget appropriations.

On August 6th, Congress approved one "supplemental money bill" which included: \$13,317,000 more to the Tennessee Valley Authority (which has already consumed more than two billion tax dollars). \$2,200,000 for a trade fair exhibit during the summer of 1958 to be held in Gorki Park, Moscow, Russia.

So that's where our money goes, and that is where it will continue to go at an increasing rate until we stop this wild spending dead in its tracks and take away the power to tax our personal incomes.

Because it's OUR money that is at stake, and OUR freedoms which are being frittered away, we each have a real interest in getting action on a "Proposed 23rd Amendment" pending in Congress as H. J. Res. 355. It provides that:

"Sec. 1. The Government of the United States shall not engage in any business, professional, commercial, financial or industrial enterprise except as specified in the Constitution."

"Sec. 4. Three years after the ratification of this amendment the sixteenth article of amendments to the Constitution of the United States shall stand repealed and thereafter Congress shall not levy taxes on personal incomes, estates and/or gifts."

The cobra can, literally, "blow his top." He is characterized by ability to extend the sides of his head when disturbed or irritated.

Highlights and Sidelights ON THE State CAPITOL

By VERN SANFORD Texas Press Association

AUSTIN — New faces, new jobs enter the Capitol scene as laws passed in the last Legislative session go into effect.

A consolidated Texas Securities Board swung into action with a statement by newly-appointed Chairman Maurice Bullock of Fort Stockton that "all doubts (about securities issues) will be resolved in favor of the buying public."

Also appointed to the board by Gov. Price Daniel were Jay A. Phillips of Houston and Pete Rodes of Emory. An attorney, Bullock is former president of the State Bar of Texas. Phillips is a certified public accountant, former president of the Texas Society of CPAs and present chairman of the State Board of Public Accountancy. Rodes is president of the First National Bank in Emory.

Board members selected William King to be acting securities commissioner, a full-time, \$10,000-a-year job. He is a former assistant attorney general and had charge of securities in the secretary of state's office.

Approving or disapproving proposed issues of both general and insurance securities will

constitute the prime duties of the new agency. Formerly, these functions were divided between the Insurance Department and Secretary of State's office. It also will supervise the licensing of securities dealers and salesmen.

Governor Daniel called the new an "outstanding measure for protecting the public against fraud and swindling."

YOUTH COUNCIL—Frank M. Wilson of Waco will be chairman of the new Texas Youth Council.

Other members named by Daniel are Louis Henna of Round Rock and Robert Kneebone of Houston. New agency replaces the old Youth Development Council. It will have charge of the three state correctional schools for young people and the Corsicana State Home, the Waco State Home, and the Blind, Deaf and Orphan School at Waco.

Wilson is a Waco attorney and instructor at Baylor University School of Law. Henna, a member of the old Youth Council, was one of the founders of the Baptist Children's Home in Round Rock. A banker, Kneebone has been active in youth work in Houston.

SCHOOL STUDY PANEL—Six legislators and two private

Concert To Climax Choir Clinic Here

In progress this week at the First Presbyterian Church is a choir clinic, sponsored by the church and open to all denominations.

Ira Schantz, noted Lubbock musician and a former member of the Texas Tech music department, is conducting the clinic.

A concert will be given Sunday at 7:30 p.m. in the First Presbyterian Church and will be open to the public. Everyone is cordially invited to attend.

citizens are early appointees to a new committee to study the growth problems of Texas public schools.

Named by Lt. Gov. Ben Ramsey were Sens. George Parkhouse of Dallas, A. M. Aikin Jr. of Paris and Floyd Bradshaw of Weatherford plus former Atty. Gen. John Ben Shepperd of Odessa and Laredo school superintendent J. W. Nixon.

House Speaker Waggoner Carr named Reps. Scott McDonald of Fort Worth, L. De Witt Hale of Corpus Christi and Malcolm McGregor of El Paso.

Full committee will number 24. Ramsey and Carr were directed by the law to pick three legislators and three laymen. Governor Daniel and the State Board of Education are to pick six more each.

One proposal made during the session was to have the state build school buildings and lease them to districts. Numerous Texas officials have opposed federal aid for school building.

Brinson Family In Reunion Here

The annual reunion of the Brinson family was held at Coleman Park Sunday, with 40 attending.

Those present included Mr. and Mrs. A. N. Surrant, two sons and three grandchildren and Mrs. Amanda Jones and Bob, all of Snyder; Messrs. and Mmes. J. T. Wooten and two children, S. H. Wooten and two children, and Kenneth White and son and Mrs. Lois Wooten, all of Lubbock; Mr. and Mrs. J. H. Armstrong and two children of Santa Rosa, N.M., and Mrs. Minnie Brinson, Mr. and Mrs. L. T. Brinson and family and Mr. and Mrs. Ben Lee and Ed, all of Brownfield; and one visitor, Miss Linda Hendricks of Meadow.

HOUSE COMMITTEES — A long list of groups has been set up by Speaker Carr to study basic state problems and report to the 56th Legislature. They include:

LEGISLATIVE BUDGET BOARD — Reps. Max Smith of San Marcos, Frates S. Seelgson of San Antonio, William S. Heatly of Paducah, J. T. Ellis Jr. of Weslaco.

LEGISLATIVE COUNCIL — Reps. Robert Hughes of Dallas, Wesley Roberts of Lamesa, A. R. Schwartz of Galveston, Tony Koriath of Sherman, James M. Cotten of Weatherford, R. H. Cory of Victoria, Menton J. Murray of Harlingen, Alonzo W. Jamison Jr. of Denton, Don Kennard of Fort Worth and Harold B. Parish of Taft.

STATE TAX STUDY COMMISSION — Reps. Seelgson, Richard C. Slack of Pecos and John A. Huebner Sr. of Bay City.

Full list includes 12 committees—even a committee to study the committees.

HARVEST TIME — Typical hot, dry August weather has been good for harvesting, but hard on pasturage and late crops.

Dry weather and insects stunted the cotton in central, southeast and coastal counties. U. S. Dept. of Agriculture reported, but better yields are expected in the northern half of the state.

However, USDA noted northern crops are two to three

Chapter Pays Honor To Founder of OES

Brownfield Chapter 785, Order of the Eastern Star, met Tuesday in Masonic Temple with Irma Smith, Worthy Matron, and Cecil Smith, Worth Patron, presiding.

Initiation was held, and two new members were received into the order. A special program honoring Robert Morris, Eastern Star founder, was presented by Irma Smith, Cecil Smith, Sammy George, Dorothy Jane Burnett, Lura Brown and Barbara Bynum.

Texas cream pie and coffee were served to 33 guests and members by Bonnie Reeves, Othel Reeves, Charlie Mae Walker and Leona Turner.

weeks late and could be damaged by an early freeze.

EGG DEALERS GET LICENSES — State Agriculture Department is in the process of licensing some 36,000 egg producers, handlers and sellers.

New egg grading law will be in effect Oct. 22. Enforcement will begin Feb. 17, 1958.

Exempt from the license requirement are retailers who sell less than a case of eggs a week to persons other than consumers and producers who do not claim a certain grade for their eggs.

TEXAS LEADS IN ROADS — Texas is out in front in the interstate highway buildings program with 293 miles of roads "in the mill."

These are projects which are either under construction, contracted or advertised for bids. Cost will be \$96,000,000 with \$76,000,000 coming from federal funds.

California is ahead of Texas in cost of projects, but second in mileage. It has 95.5 miles underway at a cost of \$96,000,000.

SHORT SHORTS — Texas prison population increased 7.5 per cent last year for a total of 9,268 persons behind bars. National average increase was 2.2 per cent. National average is 102 prisoners per 100,000 population; Texas ratio is 106 per 100,000.

Texas Railroad Commission retained the lowest-in-history 13-day production pattern for the Texas oil industry.

CLAUD MONTGOMERY

Claud Montgomery Is Graduate of Chanute

A/3c Claude B. Montgomery son of Mr. and Mrs. Claud Montgomery of 412 South 2nd, recently graduated from an aircraft mechanics jet bomber school at Chanute Air Force Base, Ill.

He is a 1956 graduate of Union High School, and will be stationed at Walker Air Force Base in Roswell, N. M.

try in September. Several weeks ago President Eisenhower asked oil companies to cut their imports by 10 per cent. But Texas commissioners said the request had not as yet brought any increase in demand for Texas oil.

"Intangible assets" evaluated for tax purposes in Texas hit an all-time high of \$130,790,050 this year, reported Comptroller Robert C. Calvert. These include such things as the equipment of railroads, pipelines, bus and truck lines.

J. E. Connally of Abilene will head the October "Dollars for Democrats" drive, state party headquarters in Austin announced. Goal will be to get at least one dollar from each Democrat in the state.

Texas Railroad in considering the request of some 30 bus lines operating in Texas for a five per cent increase in fares. Two bus lines also have asked for a hike in commuter fares. A decision is not expected for several weeks.

Most hens apparently took a mid-summer vacation, USDA reported Texas egg production down 9 per cent in July to 182 million eggs.

The Robot Gardener

Dr. V. Harvey Scott of Petersburg, pictured above, will conduct a eight-day revival beginning Sunday at Pool Baptist Church. Hours of the services were announced Saturday by the Rev. Alton West, church pastor: 11 a.m. and 8 p.m. daily. Said the Rev. Mr. West: "Dr. Scott's trademark is that he is different. He is former pastor of the church at Meadow. We invite everyone to be with us during the revival. Homer Dunn will furnish the music."

VALERIE HARVEY, who received her Kenny Therapist training in Australia from the late Sister Elizabeth Kenny before they came to this country, is rounding out 15 years of active service with the Kenny foundation to give her the longest active service record of any Kenny Therapist in the world. Miss Harvey came to America at the invitation of Miss Kenny to assist in training registered nurses and physical therapists to become Kenny Therapists. Miss Harvey is chief therapist at the Kenny treatment center in Jersey City, N. J., where she is shown, above, administering the Kenny treatment to a little polio patient.

Release Week of July 8-13, 1957

THIS WEEK

-in Washington

With

Clinton Davidson

In Washington this week there is cautious optimism that an engine may be taking place in the cold war before long, but there still are plenty of reasons for pessimism. Confidential military and diplomatic reports to congressional leaders and members of a few key committees have had the effect of raising hope that real progress toward a more stable peace is possible.

Secretary of State John Foster Dulles, however, has cautioned the Senate Foreign Relations Committee against letting down our guard too soon just because Russia wants to talk about ending the arms race.

"Experience," he told the Committee, "has demonstrated that agreements with the Communists are not dependable so long as they are merely based on paper accord."

It is possible now, without violating security provisions, to reveal the essential facts which have raised hopes for at least a start toward an ending of the threat of World War III.

Mr. and Mrs. O. L. Stice and Patsy of 808 East Tate are vacationing in Colorado.

Restrictions Are Set On State Poison Sales

AUSTIN—Texas' new "hazardous substances" law is now in effect, aimed at restricting the sale of poisons that last year claimed at least 15 young lives in the state.

Chief target of the law is thallium sulphate, a potent insecticide and rodenticide. But all substances, with few specific exceptions, which are hazardous for humans are included.

The law was passed by the recent legislature with strong backing from the State Department of Health. The task of administering and enforcing it now falls to the state health commissioner with the help of city and county health officers.

In Houston alone last year, more than 50 cases of accidental thallium sulphate poisoning were reported. Almost as many occurred in San Antonio.

In most instances the deadly material was mixed with Graham crackers or vanilla wafer crumbs as a base, which made it especially attractive to children.

Even before the law became effective, Galveston authorities

banned the sale of products containing more than three per cent thallium salts. The substance can kill by absorption through the skin or by inhalation, as well as by ingestion. Compounded originally for use only by professional insect and rodent exterminators, there is no known antidote for the almost tasteless product.

Even when the case of accidental poisoning doesn't end fatally, the victim's vision is often impaired and his sense of balance upset.

With the law now in effect, it will thereafter be unlawful to sell any product containing more than one per cent of any thallium salt.

It will also be unlawful to mix any poisonous substances with food or drink. Exceptions are water or a mixture which has lost its identity as food and is not likely to be mistaken as food for human consumption.

Manufacturers of hazardous substances, the new law says, must spell out on the container the nature of the hazard, first-aid treatments if any, and instructions for safe handling,

Our laws have their roots deep within our beliefs.

And the laws shift as our beliefs change. Thus working backwards, you can find a people's deepest beliefs by discovering their notions of justice—about adults, children, nature, animals, and other things.

Until this century, the laws held children fully responsible for crimes. Like adults, they faced trial and punishment—often prison or death. Today we seek mainly to reform child offenders, rather than to punish them.

Some primitive people hold inanimate things like stones and rivers guilty of offenses.

For centuries the laws held animals morally responsible for their acts, and therefore try-able in courts.

"And if an ox gore a man or woman to death," Exodus XXI says, "the ox shall be surely stoned."

Says Plato in The Laws: "If a beast of burden or any other animal shall kill anyone, except while the animal is competing in the public games, the deceased's kinfolks shall prosecute it for murder."

Courts in the Middle Ages duly summoned animals to appear. As late as 1750, a French court tried a she-donkey and condemned her to death, but it later pardoned because of "good character."

The philosophers Descartes and LaMettrie taught that animals were automatons, highly complex machines without feelings.

As a result the laws came for a time to allow much cruelty to animals.

But in recent years, the laws have changed back again to protect animals from abuse. We

storage, and disposal. Violations are punishable by \$1,000 fine or a year imprisonment or both.

Specifically exempt are products manufactured exclusively to be exported, soap or soap products, or products coming under the jurisdiction of the State Railroad Commission.

The attorney general has ruled that city and county health officers have authority to take legal action against violators in their jurisdiction if requested to do so by the state commissioner of health.

'Give Children A Brake' Urges Expert

"Give children a brake." This play on words was made today by J. O. Musick, General Manager of the Texas Safety Association, in behalf of the organization's annual Back-to-School safety program.

"With the arrival of a new school year, the pattern of life for nearly every Texan will undergo a radical change. The size of our school system will bear this out," he said.

The enrollment in Texas' public schools, for the '57-'58 year, is expected to reach 1,883,881 pupils; plus 75,280 teachers, principals, coaches, etc., and more than 8,000 school busses.

"The opening of school doors affects virtually every driver too," Musick continued. "When he gets behind the wheel of his car, he is sure to notice some differences."

"School areas will be guarded by the police, extra traffic signs and signals, and by Safety Patrol boys. But special care on the part of the individual driver will need to be added."

He then explained that in the hours just before and after

have evidently changed our minds about the nature of animals.

Our beliefs about crime—what causes it, and who's to blame, and how to control it—find expression each year in our legislation, in our court decisions, and jury verdicts.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

school there are increased numbers of bicycle riders, large groups of child pedestrians and many school busses. All of which are signs, within themselves, for added carelessness while driving on our streets and highways.

"In 1956, there were more than 150 students killed in Texas traffic accidents and approximately 8,920 injured," Musick said. "Of course these are 'just statistics'—unless you or a close member of your family was involved."

"A sense of responsibility and dependability should be a part of the licensed driver's habits. He must recognize that a child can't be relied upon to follow the rules of safety, thus the driver's added alertness must compensate for children's mistakes—'give them a brake!'"

As a short course in safety, Musick offered the following five suggestions to motorists:

1. Be alert for children at all times, especially around school zones, playgrounds and other places where children congregate.
2. Know and obey the special warnings given in school areas by signs and signals, traffic police and Safety Patrol boys. Watch for human caution signs in action—the children themselves.
3. Don't be juvenile and try

The Rev. J. M. Morrison preached here Sunday with 62 present for Sunday school.

Mr. and Mrs. M. C. Wade visited in the home of their daughter and family, Mr. and Mrs. Jessie Blackerby, at Seminole Sunday.

Mr. and Mrs. S. A. Trussell of Ferris visited last week in the home of Mr. and Mrs. J. M. Trussell.

The Rev. and Mrs. Alton West and family visited Sunday in Meadow with Mr. and Mrs. Willie Blair and family.

Mrs. Nettie Gober of Bridgeport and Mrs. Dora Maynard of McAllister, Okla. visited last week in the home of Mr. and Mrs. Glen Maynard and family. Last Sunday they all visited in Idalou with Mr. and Mrs. Emeit Willis.

Mr. and Mrs. Euel Howard and girls of Brownfield visited Sunday with Mrs. Martha Howard and Johnny.

Mr. and Mrs. Neil Barrier and Kathy, Mr. and Mrs. Leroy Barrier and boys and Mrs. Ben-

ard Bishop and girls of Snyder visited Sunday in the home of Mr. and Mrs. Roy Barrier and children.

The Baptist revival will start Sept. 1 with Dr. J. Harvey Scott of Petersburg doing the preaching. Everyone is cordially invited to attend.

LEADING REVIVAL—Leaders of the current revival at Bethel Temple Assembly of God are pictured above. They are the Rev. G. H. Robinson and the Rev. B. Z. Curtis. The Rev. Mr. Robinson came to Brownfield from a series of revivals in the Fort Worth area. Pastor of the assembly, located at South Second and Repetto, is the Rev. Mr. Curtis, who said Tuesday that attendance at the revival has been good. He welcomed "all visitors and church members to be with us at this time." The Rev. Mr. Robinson is preaching at 8 p. m., daily. Other program times include Sunday school at 10 a. m., Wednesday prayer meeting at 8 p. m., and Friday Young People's Service at 8 p. m.

TO BE SOLD BY BROWNFIELD MOTOR COMPANY

Brilliant New Vertical Front Style Marks America's New Car—

THIS IS THE EDELSEL—Ford Motor Company's newest entry in the medium price car field, available in 18 models in four series—Ranger, Pacer, Corsair and Citation. The entire line will go on display in all Edsel dealerships, including Brownfield Motor Company. Shown is the Pacer four-door hardtop. From its vertical grille, dual headlights and wraparound

A brilliant new vertical front styling theme and several outstanding engineering innovations that include "Teletouch" push button transmission controls located in the steering wheel hub are features of American's newest automobile—the Edsel.

Under actual development since July of 1954, mechanical and engineering prototypes of the Edsel have been driven more than 1,500,000 miles in one of the most thorough and comprehensive test programs ever undertaken by a manufacturer.

The car will be publicly introduced in dealer showrooms on Wednesday, Sept. 4.

Available in 18 models and four series—Ranger, Pacer, Corsair and Citation—the Edsel medium price car line offers two convertibles, sedans, two-door and four-door hardtops and five stations wagons. One convertible is available in the Pacer series and the other in the Citation, at the top of the line.

Dual headlights, self-adjusting brakes which automatically

compensate for brake lining wear, safety rim wheels and four barrel carburetion are standard equipment with all Edsels. Also standard, with purchase of a heater, is a unique single-dial heater-defrost-ventilator control which eliminates the standard, but complex, system of levers, knobs and air vent doors.

The Edsel vertical grille combined with an inner chrome impact ring and crisp horizontal sections on either side give an easily identifiable look of quiet elegance from blocks away. The concave sculptured sides have an ever-widening teardrop effect and carry completely through to the taillights, giving a look of fluid motion and power.

Center Section Raised

The horizontal taillights blend smoothly into the flight deck luggage compartment lid to provide a solid bar of illumination on each side. Each bar is in two segments, divided at the luggage compartment lid. Outer segments contain turn indicators and

brake warning lights in addition to normal red night lights.

Adding to the long, low look of the new Edsels is a slightly raised center section of the hood which recalls the elegance of motoring three decades ago.

New fabrics and patterns are featured in Edsel harmonizing interiors, color-keyed to the 19 solid and 31 two-tone exterior combinations. Exceptional comfort is provided by new contour seats which reduce long trip fatigue. Front seats have been divided in a unique one-third, two-thirds arrangement with the one-third segment for the driver.

Instrument Panel Changed

The entire instrument cluster has been designed to locate all controls and dials within easy, natural view and reach of the driver. Mounted high in the cluster, beneath the raised padded safety cowl which eliminates any panel glare, is the new floating drum type speedometer which rotates smoothly and evenly as the car accelerates or slows.

The new E-400 Edsel engine is available in Ranger and

Pacer series and the five station wagons. It develops 400 foot pounds of torque and 303 horsepower and with it comes a choice of standard, overdrive or automatic transmissions.

The E-475 engine, for the Corsair and Citation series, is rated at 475 foot pounds of torque and 345 horsepower. Only automatic transmission is available on these series.

"Teletouch" push button automatic transmission controls are located in the steering wheel hub. An electric servo motor does the work as the driver selects the required gear with a finger touch about equal to the pressure required to operate a typewriter key.

Built-in safety features include a dual inhibitor which prevents engagement of Reverse or Park gears at a speed of over three miles an hour. The engine may be started with Teletouch in either Park or Neutral gears, but once in Park with the ignition turned off, the transmission cannot be moved to another gear.

Also operated by a servo motor is the new single-dial control for heater, defroster and ventilator. Each dial seg-

ment runs the full range from minimum to maximum and for summer driving the control permits air to enter from the right or left side, or both. When equipped with optional air conditioner, the single dial operates both heater and air conditioner.

Safety rim wheels are standard equipment on all Edsels. The new 14-inch tires hold 20 per cent more air by volume at lower pressure for improved ride and the wider tread and new tread pattern provide 24 per cent greater tire traction to shorten stopping distances.

Self-adjusting brakes also are standard equipment on all Edsels and eliminate the need for brake adjustments during the entire life of brake linings.

Mr. and Mrs. L. M. Wingerd of 221 E. Cardwell and their daughter, Mrs. Glen Woodruff and Luann of Matador are in Rochester, Minn., this week where Mrs. Woodruff is going through Mayo Clinic.

Mr. and Mrs. Dennis Auburg of Turkey spent the weekend with his mother, Mrs. Ruth Auburg, 402 North 6th.

Mr. and Mrs. Jack Hamilton, 902 East Broadway, and Mr. and Mrs. Lee Brownfield, 508 South C, are spending the weekend in Ruidoso, N.M.

Mr. and Mrs. Bob Garvin of Pauls Valley, Okla., spent the weekend with Dr. and Mrs. E. O. Nelson of 220 South Third.

Bob Wilkerson who is stationed with the Navy in Alabama, is here on leave visiting his parents, Mr. and Mrs. Craig Wilkerson of 710 East Oak.

Research Foundation Reports That Industry and Military Are Experiencing Shortage of Necessary Qualified Technicians

By REYNOLDS KNIGHT
Economic Analyst

NEW YORK — Automation, sometimes accused of threatening to displace human beings, actually needs more of them—technicians trained in the complexities of new processes.

Both industry and the military are experiencing shortages of qualified people to maintain complex automatic programs, according to the Armour Research Foundation of the Illinois Institute of Technology.

The need for automation is heightened by the fact that there now is a smaller working population due to the decline of births during the depression, a study by the foundation points out.

In addition to qualified technicians, automation also needs more industrial managers, the foundation says. By providing management with immediate knowledge of stocks, inventories, sales and production, automation makes it possible for the industrial manager to make use of analytical tools heretofore

used only by science. With these, he is able to make rational decisions instead of rough estimates.

DISPOSABLE CLOTHING—Clothes designed to be worn once and then discarded may not be far off. New processes for making non-woven fabrics from both natural and new man-made fibers are expected to make this possible.

As a starter, the idea is being tested in terms of providing "disposable clothing" for doctors, nurses and others requiring a daily change of uniforms, according to the factoring firm of William Iselin & Co. Inc., a financing specialist in the textile and apparel fields.

The company says many research projects in non-woven textiles are aimed at developing new processes for making fabrics that will provide more styling, comfort and wearability for both men's and women's apparel—and products for business and industry such as backing for rugs; filters for air conditioning systems, typewriter ribbons and other articles.

Among the reported developments are rubber fabrics that breathe—and some garments that can be made by spray-laying on mannikins, letting it "cure," and then peeling it off. Bath suits and girdles with greater strength and more elasticity may be made this way.

THINGS TO COME—Although commercial use is said to be two years away, an auto maker has discovered a chemical, vanadium pentoxide, that removes noxious, smog-causing hydrocarbons from auto exhaust gases. . . . Forget to take your tranquilizer? On the market is a pill box with a built-in alarm clock to signal the time a pill should be taken.

Private Dewey Lindley Ends Combat Training

FORT HOOD—Pvt. Dewey D. Lindley, whose wife, Doris, lives on Route 1, Aspermont, Tex., recently completed basic combat training with the 4th Armored Division at Fort Hood, Tex.

Lindley, son of Mrs. G. B. Lindley, 1101 S. Fifth, Brownfield, is a 1953 graduate of Brownfield High School. Before entering the Army he was employed by Hissom Drilling Co.

First Public Display Of Nike Hercules To Be Made in Dallas

The first public showing of the Army's new Nike Hercules anti-aircraft missile will be during the 1957 State Fair of Texas at Dallas, Oct. 5-20.

The Hercules is the latest air defense weapon which the Army says can fly farther, faster and higher than any other such missile and can carry an atomic warhead.

Also to be exhibited at the Fair is the Nike Ajax, which the Hercules will supplement. A full crew of men will go through a realistic drill to demonstrate how the Ajax is loaded onto the rocket-launching apparatus, and how it is aimed and fired.

The simulated firing demonstration will be accompanied by the sound of recordings of an actual blast-off.

The deadly Nike missile is designed to track down and destroy enemy aircraft. It blasts up higher than its prey and then swoops down on its target.

Red fuming nitric acid is the Nike's fuel, with a booster of solid propellant, something like gun powder that kicks the missile past the speed of sound in two seconds.

To show how fast and high the Nike leaps, the booster cuts loose about two-and-a-half seconds after the blast-off, but does not hit the ground until after the missile has already made its kill.

The new Nike Hercules has been demonstrated before selected groups at Fort Bliss, but the Fair exhibit will be the first one open to the public.

Nike batteries are due to be installed in a wide protective loop around Dallas and Fort Worth to guard these cities against enemy attack. The installations will be in the general vicinity of Mineral Wells, Denton, Terrell and Alvarado, it has been announced. Nike installations are currently being used to protect a number of other areas in the United States.

Mr. and Mrs. Hubert H. Heath of 703 East Buckley and their son, Norwood, of Falfurias, have returned from a week's motor trip through Colorado, Nevada and other western states. Norwood will remain here this week for a visit with his parents before returning to Falfurias.

Among the Brownfield residents spending the weekend in Ruidoso, N.M. were Mr. and Mrs. Clyde Bond and Clyde Jr., Mr. and Mrs. Alfred Bond and children, and Mr. and Mrs. Frank Ballard.

Employment this summer set an all-time high of 67.2 million, boosted by the influx of students and other seasonal workers. However, factory employment was down from the previous year by 180,000—to 16.7 million.

BITS O' BUSINESS—Many firms now resist hiring 30-year-olds "because of their advanced age," according to a survey by the Office Executives Association . . . of 111 manufacturers polled by Dun & Bradstreet, 54 reported more trouble collecting bills this year than last, only four found it easier, and the rest saw no change. . . . No squeeze on profits: Of the nation's 10 largest banks reporting six-month earnings, nine showed big improvements over 1956, the jumps ranging from 9 to 19 per cent.

BETTY EUBANK

LINDA HENDRICKS

RUBY SMITH

DORIS RATLIFF

WILL BE SEEN FRIDAY—The 12 Terry beauties pictured will be seen in the contest which gets under way at 8 p.m., Friday in Brownfield High School auditorium. Occasion will be the selection of a Terry County Farm Bureau queen. Refreshments of home-made ice cream and cake will be served in the cafeteria.

Proof Needed When Applying for Social Security Payments

A representative of the Lubbock Social Security Office will be in Brownfield on Sept. 5 at 9 a.m. at the basement courtroom and will be glad to assist in all matters pertaining to Social Security.

If you intend to retire this month and file a claim at the

Social Security District office for retirement benefits, you should bring the W-2 which you received from your employer, or a copy of your 1956 income tax return, according to John G. Hutton, manager of that office.

The W-2 can be used to verify

your 1956 earnings if you worked for someone else. The income tax return, plus a carefully completed Schedule C, Profit or Loss from Business, is essential if you were in business for yourself in 1956.

SOCIETY? CALL 3858

Martin Meat Co. and Locker Plant

West Main St.—Brownfield, Texas
