And Terry County Herald... Terry County's Oldest Business Institution

VOLUME 20 TEN CENTS BROWNFIELD, TERRY COUNTY, TEXAS, SUNDAY, OCTOBER 20, 1957 NUMBER 67

**HARVEST FESTIVAL QUEEN** — Miss Patsy Hulse, top, was named HF Queen Thursday night. Attendants pictured with the queen are, from left, Latrice Teague and Karen Foshee. Attendants not pictured are Ruby Smith and Mary Jane Brownfield.

**WINNING FLOAT** — IOOF Lodge 530 and Rebekah Lodge No. 56 combined forces to take first prize in the HF parade with this float using a religious theme. On the float, from left, are L. A. Rhyne, Miss Carol Ann Mayfield and E. V. Riley.

**SECOND PLACE FLOAT** — Desk and Derrick here, from left, Mrs. Jayne Loftis, Miss Sue Williams, Miss Betty Williams and Mrs. Rita Holmesley. This entry depicting the oil industry. Riding here, from left, Mrs. Jayne Loftis, Miss Sue Williams, Miss Betty Williams and Mrs. Rita Holmesley.

**THIRD PLACE WINNER** — General Telephone Company's entry in the Harvest Festival Parade took third prize in the competition. Marge Henderson is at rear. Gracing the float were, left to right front, Melba Posey, Betty Hahn and Ethlene Howell.

## VFW Finals Meet Plans

Members of District 7, Veterans of Foreign Wars, will convene here next Saturday and Sunday for their annual fall encampment.

From 150 to 200 members are expected to take part in the two-day event, said Jack Aaldrup, commander here of Hand Bros. Post 6794. There are 11 posts in the district.

District Comdr. N. T. Cornois of Lubbock will preside during the Sunday business session, following a barbecue. Main speaker will be Doyle Willis of Fort Worth, senior vice commander of the Texas Department, VFW.

Official host to the visitors will be Charles Kersh of the Brownfield post. Registration will be on Saturday, and a hospitality hour and dance will follow.

The auxiliaries will meet Sunday morning and afternoon, with Fern Parks, secretary of the Brownfield group in charge. Mrs. E. P. Blumberg of Spur, district auxiliary president, will conduct the memorial service.

## 1960 Census To Be Taken on Different Basis in the County

In a joint program with the state and each of its counties, the U.S. Census Bureau is establishing areas, known as "Census County Divisions," for use in statistical reporting.

Similar areas were established in Washington prior to the 1950 census, and since then have been put into effect in 11 other states.

Jack Burkhart, member of the U. S. Census Staff, spent part of this week here consulting with county officials and seeking their advice in regard to the proposed areas for Terry County.

"The proposed Census County Divisions should be of much use for local administrative purposes," explained Burkhart.

**Two Areas in Terry**  
"The Census County Divisions generally are larger in area and population than the justices or commissioner's precincts. They have clear-cut boundaries which can be identified easily, and they are intended to remain as permanent areas."

The staff member went on to say that the Census County Divisions—of which there will be two in Terry—are based on the communities which serve as the focal point of each area.

Burkhart continued: "The statistical data for these divisions will serve as a yardstick with which to measure the sphere of influence exercised by such communities. It is believed that the divisions will be a hand tool for the use of county officials, local newspapers and business and civic organizations."

For the 1960 Census purposes, Terry County has been divided into two Census County Divisions: Brownfield and Meadow.

The dividing line lies due east and west, about 5 to 6 miles north of Brownfield.

## Deepest Oil Well in World Being Drilled

The deepest oil well in history is being drilled 150 miles south of Odessa, near Fort Stockton.

The 22,000-foot hole is being put down by Great Western Drilling Company of Midland for Phillips Petroleum Corporation.

Phillips' district representative here, John Hansard, said Tuesday: "Gulf Oil drilled an 18,000-foot well several years ago."

"Our well near Fort Stockton needed 17 trucks merely to haul the special rig to its site. Officials determined that it would take so long to drill to the 22,000-foot depth, that they ordered every improvement at the site made permanent."

## FB FEDERATION POLICY APPROVED

### Problems of Cotton Tackled in Jackson

Farm Bureau leadership of Southern states met Monday and Tuesday in Jackson, Miss., to exchange ideas concerning a sound and practical solution to the cotton problem.

Attending from Brownfield was H. L. (Hub) King, who accompanied the following Texas Farm Bureau directors: Pres. J. Walter Hammond of Tye, Vice Pres. Harold West of Bishop, J. T. Woodson of Gober, and S. W. McClarian of Cameron.

"The meeting was called," said King, "to provide an opportunity for representatives of the various cotton producing states to explore ideas in regard to how the consumption of U.S. cotton might be increased, both domestically and abroad, for the primary purpose of improving the net income of cotton farmers."

**Weaknesses Are Seen**  
Recognizing the prevailing weaknesses of the present program, King explained that it was the hope of the Jackson group that an exchange of ideas will aid the various state Farm Bureaus in the development of recommendations to be considered at the annual meeting of the national organization in December.

A number of possible alternative programs are under consideration. The discussion in Jackson indicated that there was substantial agreement regarding basic principles of the type of program which will fulfill Farm Bureau's over-all policy of creating conditions which will make it possible for farmers to earn and get a high per-family real income in a manner which will preserve freedom and gradually eliminate government regulation of individual farming operations.

**Policy Is Favored**  
King said that the representatives expressed the opinion that farmers in their home states are stronger than ever for the policy of the American Farm Bureau Federation which was adopted at its annual meeting last year. That policy: "We reaffirm our belief that production payments are undesirable."

## Funeral Services Held For Mrs. Otis Caraway

Mr. and Mrs. Bob Land of 1013 East Lake were called to Clarendon Monday night after receiving word of the death of her mother, Mrs. Otis Caraway.

Mrs. Caraway was a recent visitor here in the Land home, and Mr. and Mrs. Caraway only this year had celebrated their 50th wedding anniversary.

Last rites were held Wednesday in Clarendon.

## BECAUSE OF CONFLICTS HERE

### Harrison Case Moved Up To Nov. 12 Session

As a result of numerous conflicts, permanent injunction proceedings against Mrs. Anna Bell Lay Harrison have been re-set to open in 106th District Court here Nov. 12, according to Morgan Copeland, county attorney.

Originally set for jury selection to begin Monday, Judge Louis B. Reed, who will preside, felt that the trial would cause conflicts with Oil Progress Week and Harvest Festival activities. The trial was re-set for Nov. 12 after consultation with both attorneys. The proceedings will determine whether Eulice Farrar will continue as commissioner of Precinct 3 or whether Mrs. Harrison will regain the post.

Judge Reed ruled in favor of Terry Commissioners Court Sept. 6 when he granted a temporary injunction against the former commissioner. The proceedings covered three days of testimony after County Judge Herbert Chesshir declared the office vacant and appointed Farrar.

Chesshir alleged that Mrs. Harrison moved from Terry County to live with her husband near Petersburg.

## RESOLUTIONS TO BE STUDIED

### Policy Development Session Scheduled Tuesday in Courthouse by Farm Bureau

### Flower Show Is Thursday

The fourth in its yearly flower shows will be presented at 3 p.m., Thursday in the Party House by Brownfield Garden Club.

A number of out-of-town guests are expected to be here for the event, which has gained area-wide recognition. "Artistry thru a t u m n flowers in the home" will be theme of the show, said Mrs. Ernest Latham, president.

Mrs. Latham explained that entries will be received from 9 a.m. until 11 a.m., with entry cards properly filled and attached to exhibits. She also said that the show would be judged by the Standard System: blue ribbon for first-place winners, red ribbon for second-place winners, white for third-place and yellow for honorable mention.

## PTA for Pre-School Children Might Be Organized This Year

The formation of a pre-school age PTA is being studied by Brownfield public school officials, according to Dr. Robert Hoey, guidance counselor. Hoey said formation of the group, for parents of children 2 to 6 years of age, will depend upon parents' acceptance. He requested that any parent interested in the organization call his office or Mrs. Roy Timmons.

"The three to four years prior to entering school are the most important in preparation of the child for school life," said the counselor. "The organization will attempt to promote and interpret pre-primary education."

If enough parents are interested in the organization, which would be sponsored by the City Council of PTA's, Hoey said a program of study dealing with child development, child guidance, child welfare and other pertinent subjects will be covered.

## Harvest Festival Is Considered Success In Spite of Weather

Miss Patsy Hulse, daughter of Mr. and Mrs. Dan Hulse of Gomez Community, was crowned Harvest Festival Queen in ceremonies Thursday night before an estimated 1,000 persons who braved cold weather to see the HF "Show of Shows."

Miss Hulse won the coveted title by a narrow margin over Miss Gretchen Sloan, who was entered by the oil industry. She is the daughter of Mr. and Mrs. L. E. Sloan of Seagraves Road.

The Rev. Ralph O'Dell won the HF "Ugliest Man" contest by a landslide margin. His competitors were John Hansard and H. L. (Hub) King.

A mile-long HF parade Thursday afternoon kicked off activities. Trophy winners in the float competition included IOOF 530 and Rebekah 56, first; Desk and Derrick Club, second; and General Telephone Company, third.

The Sundown High School band took first place in the 10 marching bands in the line of march. Tahoka placed second and Littlefield was third.

Bands in the parade were Brownfield, Brownfield Junior High and Tahoka.

More than 200 Terry County Farm Bureau members are expected to take part in the annual Policy Development meeting, 8 p.m., Tuesday in 106th District Courtroom.

Among other items on the agenda are discussion of plans for the annual TCFB barbecue, Nov. 7 in Veterans Hall, and the membership drive, which ended Friday.

Primary aim of the group will be study of the following recommendations:

1. That TCFB oppose House Joint Resolution No. 1, pertaining to annual sessions of the Texas Legislature.
2. That TCFB support the state water program.
3. That TCFB oppose the proposed increase in truck load limits.
4. That TCFB reaffirm our state (Texas Farm Bureau) standing on electric cooperatives, in that they should not be forced to discontinue service to those members who may be living in an area annexed to a city.
5. That the fringe area of a telephone monopoly should be made so that greater service is available to everyone.

6. That TCFB oppose the recommendations of a 21-man board for the appointment of the Texas agriculture commissioner.

7. That TCFB oppose any withdrawals from the Permanent School Fund.

8. That TCFB favor a consumer sales tax to be used primarily for our Texas school system.

9. That the earning power, or "limitations," of an individual between 65 and 72 to raised to a higher level.

10. That the "right to work" law in Texas should not be restricted in any way.

11. That second and third class mail labeled "box holder" or of like nature be required to carry first class postage.

12. That the hybrid grain certified seed dealer be required to test-grow his seed in Old Mexico before full certification is given.

## CLASSIFIED ADS GET RESULTS

Says Mrs. C. H. Littlefield:

"I use the Brownfield News Classified Ads quite frequently and I have found the results to be outstanding."

Mrs. Littlefield ran a Classified Ad about a House For Rent in the Sunday 13th issue of the NEWS. She reported numerous calls and had no trouble renting the house.

Why don't you try a Classified Ad to Rent, Sell, Buy, or anyone of a dozen uses... they get results... All you have to do is—

PHONE 2188

For Classified Ad Dept.

Terry County bale tally as of Friday noon: 4,945, an increase of 2,563 for the week. The 588 gained to Friday in neighboring Yoakum brings the total there to 1,228.

The foregoing tallies are a compilation of reports from the 17 gins in Terry and the 6 in Yoakum.

# Important Farm Bureau Session Slated Tuesday Night!

**PLANNED PROGRAM NEEDED, HOWEVER  
Business Can Profit From Advertising**

BY WELDON CALLAWAY

Nearly any retail business may profit from a carefully planned advertising budget.

A planned advertising program assures the merchant of funds for promotion when advertising should do the most good. A good budget results in continuity and consistency in advertising.

Peak demand for each retail item varies from season to season. Advertising funds should be available to give each item its due promotion when demand is high. A good advertising budget coordinates sales effort with consumer demand.

An advertising budget gives the retailer a clear picture of his real advertising costs. Not all retailers know just what they are spending on advertising.

Contributions to charity and to worthy organizations are certainly fine, but they are not advertising. Such contributions have no place in an advertising budget.

The advertising program of a business should be planned with progress and profits in mind. The budget should be designed to assure a business of continuously increasing sales volume.

The funds budgeted for ad-

vertising should be sufficient to accomplish a sales goal. When funds are inadequate, advertising can not be expected to do a good job.

The ideal size for an advertising budget varies from company to company. It should be based upon the problems and goals of the individual merchant. One retailer may meet his advertising needs by budgeting one per cent of his sales volume to advertising; another

MR. and MRS. DONALD CABE

**Miss Norma Rene Patton Becomes  
Bride of Donald Lee Cabe Oct. 14**

Miss Norma Rene Patton, daughter of Mr. and Mrs. R. C. Patton, Route 3, became the bride of Donald Lee Cabe, son of Mr. and Mrs. L. B. Cabe, also of Route 3, in a ceremony held at 4 p.m. Oct. 14 in the home of Mr. and Mrs. Carl Hecker, 1012 East Cardwell.

**Carole Gaasch Feted  
On Seventh Birthday**

Carole Gaasch, daughter of Mr. and Mrs. Phil Gaasch of 1212 East Lons, was honored on her seventh birthday Tuesday with a party. Mrs. Fred Smith was co-hostess for the occasion.

After games were played, sandwiches, ice cream, cake and orange drink were served to Nancy Kerley, Linda Kay Hailey, Kathy Vernon, Kathy Campbell, Lynne Smith, Elna Ray Christopher, Cindy Casseaux, Cindy Zorns, Kimberlee May, Jane Treadaway, Mary Lil Baker and Stephanie Bailes.

Favors were Halloween witch candles.

may require ten per cent. However, regardless of the size, when a good advertising budget results in more consistent and better timed advertising, the retailer will find that advertising is an investment which pays for itself many times over.

**KEEP THIS AD!**

Over 20,000 Arthritic and Rheumatic Sufferers have taken this Medicine since it has been on the market. It is inexpensive, can be taken in the home. For Free information, give name and address to P. O. Box 522, Hot Springs, Arkansas.

**No. 1**

McKeever of Aspermont; Abb McKeever and Andres McKeever, both of Anson; three grandchildren and two great-grandchildren.

**No. 2**

High, Tahoka, Littlefield, Levelland, Hale Center, Sundown, Sundown Junior High and Idalou. The Red Raider band from Texas Tech led the parade.

**REALLY GROWN HERE** — Mr. and Mrs. S. R. Loe and son, Rals, proudly display two of several pumpkins grown on their farm 4 miles northwest of Wellman. The specimens, which Loe said were planted and forgotten until cotton-pickers recently found them, are on display at Chamber of Commerce office.

**Liquor Raids Catch Six Terry Residents**

A total of six Brownfield and Terry residents were rounded up Friday on charges of illegal sale of alcoholic beverages as the sheriff's office, city police and State Liquor Control Board combined forces.

Charged with illegal sale are Joe Stansell, 35, and his wife, Margurite, 42, who live on 137 cutoff; Mr. and Mrs. Terrell Miller, who live 1 mile west on Seagraves Road; Leroy Hubbard, 26, of the flats, and Carol Tilman Childress of 137 cutoff.

Hubbard is charged with sale of beer and the others are charged with illegal sale of liquor.

All face single charges except Stansell, who faces two charges, and his wife, who faces three charges, all on illegal sale. Mrs. Stansell was out on bond on charges of possession when the raid was made Friday.

**Welch-San Andres  
Pool Draws Stepout**

Neville G. Pentrose, Inc., operating from Eunice, N.M., has announced location for a development on the west flank of the Welch-San Andres field of southeastern Terry.

The No. 3 Northrup will be drilled 1,980 feet from south and 660 feet from west lines of Section 5, Block C-39, PSL survey; five miles northwest of Welch townsite. Lease consists of 320 acres.

The new operation is a three-quarter mile northwest stepout to current field production.

Texas owned an estimated \$5,000,000 head of cattle worth approximately \$561,000,000 in 1955.

**Brian Christopher Birthday Honoree**

The B. G. Christopher home, Brian entertained his friends Magnolia Camp, was the setting for a party honoring the 10th birthday of the Christopher's son Brian, last Wednesday.

# Junior Cubs Tumble Levelland in Twinbill

Brownfield's Junior High School teams took both ends of a football double-header at Levelland Thursday night. The eighth graders topped Levelland, 21-6, and the seventh won 26-0.

After trailing 6-0 in the second quarter, the eighth graders countered with a touchdown shortly before the half as Woody Harbin sneaked 15 yards. Coy Chandler slipped through for the extra point and Brownfield was never headed again.

Shortly after the half, Harbin pitched to Jimmy Price on the side-lines and he streaked 40 yards to paydirt, aided by a key block from Harold Wilson. Chandler again ran the point to give Brownfield a 14-6 lead.

In the final period Chandler skirted his own right end for 30 yards and a third TD. Leonard George ran the extra point to wind up scoring for the game.

With a comfortable 15-point lead, Coach Cliff Niles finished the tilt with his reserves. Even with reserves on the field, Levelland could not penetrate for another tally.

**SCORE BY QUARTER**  
Blfd ..... 0 7 7 7-21  
Levelland ..... 0 6 0 0-6

**SEVENTH GRADE**  
Running up a 20-0 half-time lead, the seventh graders easily coasted to a 25-0 victory over Levelland seventh.

J. T. Baker opened scoring early in the first period as he sprinted around right end for 20 yards and the TD to cap a 45-yard drive. Olan Boring added the point to give Brownfield a 7-0 lead in the first period.

Teddy Howell took charge on the next drive as he slipped through Levelland for 25 yards and the touchdown to climax a 40-yard drive. Boring again added the point.

Howell again figured in scoring a few minutes later as he passed to Jimmy Foye for 15 yards and a 20-0 half-time lead.

Early in the third period Howell broke loose on a keeper play and dashed 15 yards for the final score.

The fourth touchdown sent reserves into the game for the final period and one-half. Tight defense was the key to the game and the reserves continued the trend.

**SCORE BY QUARTER**  
Blfd ..... 7 13 6 0-26  
Levelland ..... 0 0 0 0-0

## Willie Norris Lewis NT Band Member

Willie Norris Lewis, son of Mr. and Mrs. W. N. (Doc) Lewis of 608 East Hill, is a member of the 100-piece North Texas State College marching band. He is a freshman music education major.

Directed by Maurice McAdow, the band has presented half-time entertainment at two home football games this fall. The group's next appearance will be at the NTSC homecoming game with the University of Chattanooga on Nov. 9.

Each year after the marching season is over, the band is reorganized into the nationally known North Texas concert band, which makes extensive tours each spring. The group has appeared in 15 states in recent years.

## This Week's School Menu

Following is the menu for all city school cafeterias for the week of Oct. 21-25.

**MONDAY**  
Hot dogs with chili, potato chips, sliced pickles, onion rings, creamed peas, fruit cup, cookies and milk.

**TUESDAY**

# -Pageantry Marks Rotary's 11th Annual Harvest Festival-

★ ★ ★

★ ★ ★

★ ★ ★

**OIL PROGRESS QUEEN** — Gretchen Sloan, center, daughter of Mr. and Mrs. L. E. Sloan of Seagraves Road, was runner-up for Harvest Queen title. Riding the OPW float above are, from left, Kitty Baker, JoAnn Fulton, Sherry Don Spears, Miss Sloan, Neisha Frymire and Patti Wilder.

**BACKING THE CUBS** — BHS cheerleaders Jesse George, Ruth Glenn, Pat Vineyard and Bobby Nell Richardson were featured on this float entered in the HF parade. They are, from left, Leenell Chesshir,

**GO LI'L BURRO** — Tucker Johnson, right front, and his son, Jim, kept this Charlie Price entry moving throughout the parade route. From left rear are Johnson's daughter, Juhree, Cindy Simpson, daughter of Mr. and Mrs. Ernie Simpson and Denise Almoia, daughter of Mr. and Mrs. Andy Almoia.

**RYING FOR 'HONOR'** — The Rev. Ralph O'Dell, left, took top 'honors' in the HF Ugly Man contest. Driving, but not competing, is Johnny Benson. H. L. (Hub) King, a contestant, is covered by the sign held by the third entry, John Hansard.

**SCRAMBLE** — Fenton's Shoe Store was one of thousands of spectators that lined the HF parade route of march.

**TIGHT WIRE ARTIST** — Hubert Castle, center, tight wire artist who performed at HF activities Thursday night, was the center of attraction for these two Brownfield youngsters. Quizzing the aerialist are Ronnie Knight, left, son of Mr. and Mrs. Thomas Knight, and Terry Davis, right, son of Mr. and Mrs. E. H. Davis of 201 West Stewart.

**QUEEN PATSY** — Rotary President Morgan Copeland crowns Miss Patsy Hulse as Harvest Festival Queen for 1957 in ceremonies at Cub Stadium Thursday night before about 1,000 persons. Mont Muldrow, right, the queen's escort, watches the proceedings.

**SUNDOWN BAND** — This pert little Miss leads the Sundown Band along the route of march. The band took top honors among several bands which were included in the HF parade.

**KIYA ON MARCH** — Lubbock Patrol of KIVA Temple was among the many entries in the 11th annual Harvest Festival parade held here Thursday afternoon.

**OLD AND NEW** — These entries from Jack Bailey Chevrolet included both old and new models. The 1928 Chevrolet was followed by the latest model automobiles, pickups and trucks.

**IS IT REAL?** — M. A. Benson, Topeka operator of Santa Fe Railway's miniature train, which was part of the HF parade Thursday, was besieged with questions by this trio composed of, from left, Juanita Neugent, Glenda Keith and Sue Neugent.

# BGC's 4th Annual Flower Show Is Thursday in Party House

## Hinduism is Program Topic For Maids and Matrons Study Club

Maids and Matrons Study Club met at 4 p.m. Oct. 15 at Seleta Jane Brownfield clubhouse. Hostesses for the occasion were Mrs. Gaster Spencer and Mrs. M. R. Pad-dock.

Fall flowers were arranged on the piano and mantle. The serving table was laid with a gold metallic cloth and was centered with chrysanthemums. A silver coffee service was used. Refreshments were ambrosia cake and coffee.

Hinduism was the study subject. Mrs. J. L. Crow spoke on "Theory and Practice" and

## Calvary Baptist Circles Will Meet

The Calvary Baptist Women's Missionary Union will meet in circles Tuesday at 1:30 p.m.

The Helen Tisdale circle will meet with Mrs. James Carpenter, 901 South 5th, the Helen Stuart circle will meet with Mrs. J. V. Dill, 903 South 5th; the Darlene Sears circle will meet with Mrs. Jack Barr, 1503 East Repto; and the Everly Hayes circle will meet with Mrs. Drew Hobby, 202 South B.

The purpose of the meetings will be to begin the study on this year's foreign mission series, "Continent in Commotion".

## "Around the World in 80 Days" Is Theme of Midland Flower Show

October 22 is the date set for the annual fall flower show sponsored by the Midland Council of Garden Clubs in the Midland Woman's Club. Theme of the show, which is open to the public from 3 to 9 p.m., will be "Around the World in 80 Days".

Horticulture specimens will include roses, dahlias, chrysanthemums, cannas, petunias, marigolds, dianthus, zinnias, gladiolus, iris, hemerocallis, lilies, annuals, perennials, potted plants and shrubs. Design classes will feature themes taken from the subject title.

The educational and special projects division will be a display by the Midland Naturalists showing birds of the garden, birds of the fields and birds of prey.

Several members of the Brownfield Garden Club plan to attend the show.

Science of bacteriology began in 1676 when microscopic organisms were first viewed through a simple lens.

An estimated 1,250,000 servicemen trained in Texas during World War II.

## Dumas-Key Rites Are Solemnized

Miss Jerri Catherine Dumas and Jack L. Key exchanged wedding vows Saturday at 7 p.m. in the First Baptist Church parsonage, with Dr. Jones Weathers, pastor of the church, officiating at the double ring rites.

Parents of the couple are Mr. and Mrs. Jerry Dumas of 607 North 2nd and Mr. and Mrs. D. A. Key of Wellman.

Mrs. Jesse Norrell of Ropesville attended her sister as matron of honor and Weldon Martin was best man.

Following a wedding trip to New Mexico, the couple is at

## Jessie G. Randal PTA Hears Panel Group Discuss Important 4-H Work

The Jessie G. Randal School PTA met in the school cafeteria at 7:30 p.m. October 14.

The program entitled, "Partnerships," was set into action by a panel consisting of Miss Betty Hillis, Terry County Home Demonstration Agent, Bob Ethridge, Assistant County agent, Miss Linda Henley, and Hilbert Briscoe. They discussed 4-H club work as it benefits boys and girls from a social angle as well as discussing the different types of projects available. Miss Henley and Mr. Briscoe are both outstanding students in 4-H club work, having won state honors this past year.

After the panel discussion the group went into three separate buzz groups headed by members of the panel. Parents were given an opportunity to ask questions and present their

ideas about 4-H club work. At the conclusion of the buzz session each group recorder presented the ideas that were discussed within their group.

The fund-raising project, which will be a Halloween Carnival, is to be held at the Randal School Thursday October 31, from 6:30 to 9:00 p.m. The public is cordially invited to attend this program.

All fathers who have not joined the PTA are urged to do so within the next few days.

## Pool News

By CLARA DUNCAN  
NEWS Correspondent

The Rev. J. M. Morrison preached here Sunday with 27 present for Sunday school. The Rev. Mr. Morrison and his wife were dinner guests in the home of Mr. and Mrs. Elvise Duncan and children. Other dinner guests in the Duncan home were Mr. and Mrs. E. J. Duncan and family. Afternoon visitors were Mr. and Mrs. Leroy Barrier and boys, Archie Maynard, and Mrs. W. M. Joplin of Meadow.

Tennie Wade visited over the weekend with Leslie Hallbauer, who is attending New Mexico Military Institute in Roswell, N.M.

Clara Duncan attended the Brownfield district M. Y. F. meeting in Levelland Saturday night.

Mr. and Mrs. J. M. Trussell visited Sunday evening in the home of Mr. and Mrs. Frosty Earnest.

Mrs. Bessie Brown, Beverly and Ray, visited Sunday in Brownfield with Mr. and Mrs. Donald Brown and Gary Don and Mr. and Mrs. Robert Berryhill and girls.

Visiting in the home of Mr. and Mrs. M. C. Wade were Mr. and Mrs. J. C. Johnson and daughter, Mr. and Mrs. Otto Patterson of Galveston and the Rev. and Mrs. J. M. Morrison of Lubbock.

Visitors Sunday in the home of Mr. and Mrs. W. J. Stokes and Bobby were Mr. and Mrs. Richard White and family of New Home, Mr. and Mrs. George Baggett of Whiteface, and Mr. and Mrs. W. E. Johnson and girls from Lamesa.

Mr. and Mrs. Ray Barrier and children spent the weekend visiting in Grady, N.M. with Mr. and Mrs. Loyd Murphy. Mr. Barrier and Mrs. Murphy are brother and sister.

The W. M. U. met Monday night at the church. Members present were Mesdames M. C. Wade, E. J. Duncan and Margie Milburn. Pat Reynolds and Clara Duncan were visitors.

## Miss Yvonne Upton To Wed L. Howell

Mr. and Mrs. J. W. Upton of Winters announce the engagement and approaching marriage of their daughter, Yvonne, to Linwood Howell of Gomez.

The wedding will be solemnized Oct. 27 in the home of the bride's parents.

Miss Upton attended Winters High School and is now employed in Brownfield.

Her fiance is a 1951 graduate of Brownfield High School and served two years in the Armed Forces. He is employed with the J. L. Newsom Gin as assistant ginner.

The couple will live in Brownfield following their marriage.

Mrs. Bob Clements and daughter, Sherri, 608 East Tate, have returned from El Paso, where they visited friends and Sherri received medical treatment for several days.

## Announces the appointment of Mr. Vernon Ball

as manager of Starr's Melody Drive-In. Mr. Ball comes to Brownfield from Sweetwater along with his wife Juanita and two small sons, Rodney and Vernon.

Ball has 15 years experience in the restaurant business, and is thoroughly experienced in the preparation of all fine foods. He has been with Starr's for the past 4 years.

Come in and get acquainted with Mr. Ball.

### Formula For Flower Show Discussed By Lubbock Women for Local Garden Club

The Brownfield Garden Club met at 9:30 a.m. October 9 at Seleta Jane Brownfield club house. A short business meeting was conducted by the president, Mrs. Ernest Latham, during which the year's budget was presented and accepted.

Mrs. E. E. Louthan, first vice governor of district I of Texas Garden Clubs and an accredited national judge from Lubbock, spoke to the group, discussing the different phases and the rules governing flower shows. The local club will have their flower show at the Party House Oct. 24. Mrs. N. H. Williams of Lubbock, also an accredited national judge, spoke on and demonstrated basic flower arrangements, following which she showed members how to judge roses, crysanthemums and shrubs and how to work with their individual

### Miss Norma Patton Is Shower Honoree

A miscellaneous bridal shower given in the Party House Oct. 11, was a courtesy to Miss Norma Patton, bride-elect of Donald D. Cabe.

Hostesses were Mesdames Richard Ferguson, R. H. Castevens, Johnny Wieland, Jimmy Berryhill, Henry Chisholm, Ross Black, Bennie Bevers, James Martin, Bill Brown, Raymond Smith and Mary Lou Estes.

In the receiving line were the honoree, her mother, Mrs. R. C. Patton, and the mother of the future bridegroom, Mrs. L. B. Cabe.

A color theme of yellow and white was carried out in decorations. Approximately 34 guests called during the afternoon.

### Breakfast Honors Mrs. Jon Cowsar

Mrs. Jon Cowsar was honored with a breakfast Oct. 12, given in the home of Mrs. Wayland Parker, 721 East Cardwell. Hostesses with Mrs. Parker were Mrs. Barney Vachal and Mrs. Bob Callaway.

The serving table was laid with a white linen cloth, centered with a fall arrangement.

Following breakfast, coffee were served in the living room, where gifts were displayed on the coffee table. Mrs. Vachal offered background music on the piano during the time gifts were opened.

Those present were Mesdames Cowsar, Holly Bird, C. G. Griffin, Carl Davidson, Edgar Richardson, O. D. Kennedy, Clyde Kennedy, Don Hewitt, and Gordon Newsom.

### People, Spots In The News

**NO COAT NEEDED**—First high-pressure rail tank cars ever built with a thick insulating sheath roll from ACE Industries' plant at Milton, Pa. Approved by ICC, change makes possible cars that are lighter and shorter but have greater capacity.

**MR. KODA**, kodiak bear at Cleveland zoo, weighs in at 18 pounds at 10 weeks. He'll weigh 1,500 or more at maturity!

**DEE**-lightful Dee Hardy, 23, of San Francisco, was voted National Vintage Queen at California State Fair.

**SAD THOUGHTS** at idea of Brooklyn Dodgers' playing possibly their last game at Ebbets Field brings tear to lugubrious eye of Emmett Kelly, while Roy Campanella comforts the clown.

### Gomez News

By ERA SEARS  
NEWS Correspondent

Mr. and Mrs. J. E. Montgomery of Marietta, Okla., visited last week in the home of her neices and their families, Mrs. Bill Blackstock and Mrs. Odell Sears.

Ms. and Mrs. Jack Mason spent the weekend visiting at Abilene with their daughter, Miss Thresa Mason, who is a student at Abilene Christian College.

"An Open Door" was the program topic when the Women's Missionary Union of Gomez Baptist Church met Monday afternoon at the church for mission study and a business meeting.

Mrs. C. A. Huckabee was in charge of the program. Topics discussed were "Door to Christian Missions" by Mrs. T. L. Nipp, "The Door of Opportunity" by Mrs. Bill Blackstock, "New Doors for Southern Baptist" by Mrs. H. N. Key, and "Doors Opened Wide" by Mrs. W. B. Paschal.

The business session was conducted by Mrs. Blackstock, the new president for the year. Mrs. Homer Britton and Mrs. J. C. Wooley were in charge of the Sunbeams.

Those from Gomez Baptist Church who attended the Brownfield Baptist associational worker's conference held Thursday night at Lakeview Baptist Church were the Rev. and Mrs. T. L. Nipp, Mr. and Mrs. Grady Dickson and Mrs. Bill Blackstock.

Mrs. L. J. Jones was hostess Thursday afternoon when the Gomez-Johnson Home Demonstration club met in her home for a regular meeting. Mrs. H. N. Key, president, conducted the business.

Members answered roll call with "How I rid my house of

some pests." Devotional was given by Mrs. Tyler Martin, reading from Matthew 5:9 and speaking on "Peacemakers."

A program of First Aid was discussed and demonstrated by Mrs. Key. Refreshments of a salad plate, hot doughnuts and coffee were served.

Rubber is produced from the guayule, a shrub growing in Big Bend county of Texas.

Poisonous snakes native to Texas are copperheads, water moccasins, rattlers and coral snakes.

Texas has 370 miles of coast line and 26 port towns.

### Three Here Attend Training Courses

Mrs. Arthur Steffens, Miss Ophelia Martinez and Mrs. Otis S. Harding are attending a teacher's training course each Wednesday at Saint Elizabeth's Catholic Church in Lubbock.

The 30 week course is preparing these members of the local Saint Anthony's Catholic Church to teach catechism classes.

Christmas cards may now be ordered from members of the church's altar society. Sample cards may be seen at the home of Mrs. Harding at 504 East Tate or by calling 2063.

Texas's population on July 1, 1955, was 8,657,000.

**BEAUTY SPOT** — A rare sight on the high plains is this lush growth of flowers around the home of Mr. and Mrs. W. L. Walker, who farm 3 miles east of Meadow. The yard, which has no lawn, overflows with flowers of every description. In addition to roses which cover the wall surrounding the home, the front yard, pictured here, is given over to multi-colored petunias bordered by small red mums. (NEWSfoto)

**ANNOUNCED BY WTCC PRESIDENT**  
**15 Officers of West Texas Chamber of Commerce Named To Executive Board**

ABILENE (spl)—Fifteen officers of the West Texas Chamber of Commerce have been named to the regional organization's executive board, according to an announcement by B. E. Godfrey, WTCC president.

Included on the executive board are 10 district vice-presidents, five members-at-large, the WTCC immediate past-president, the executive vice-president, treasurer and president, Godfrey stated.

The executive board functions as the policy-making body of the WTCC on matters that arise between regular meetings of the board of directors of the chamber, Godfrey said.

The vice-presidents, chosen by members of the WTCC directorate in the district in which they reside, include R. C. Jordan of Amarillo, president of Curry Motor Freight Lines, from district one; C. E. Fulgham of Lubbock, vice-president of Lubbock's First National Bank, from district two; B. B. Campbell of Knox City, president of the Citizens State Bank, from district three; James A. Ferguson of Decatur, president and chairman of the board of the First National Bank, representing district four.

Grady Pipkin of Eastland, president of Pipkin properties,

**Union Parents Met At School Oct. 9**

The Union Parents Club met in the school cafeteria Oct. 9. During the business meeting, plans were made for the Union homecoming.

Those attending were Mesdames M. G. Gary, Mutt Tyler, Ped Banta, W. W. Cheatham, Jack Wagner, Doyle Moss, Leo Huddleston, Barnes, Harvey, Smith, Carroll Shults, Homer Bearden, Troy Phillips, Rufus Dill, Bob Luker and Claud Montgomery.

The next meeting will be Oct. 23 at 2 p.m. in the cafeteria.

Texas' present Capitol building was dedicated in May, 1888.

San Jacinto Monument, 574 feet 4 inches, is the tallest in the world.

Ray Grisham of Abilene, manager of the oil mill department of Western Cottonoil company, is immediate past president of the regional chamber.

Officers include Godfrey, Fort Worth attorney and mem-

ber of the firm of McGown, Godfrey, Logan and Decker; Fred H. Husbands of Abilene, executive vice-president, and Roy T. Holmes of Abilene, WTCC treasurer and division manager for Humble Oil and Refining company.

**Science's new gift of "concentrated beauty-power"**

Scientists call Royal Jelly of the Queen Bee a biological marvel. Royal Jelly—made by the worker bees—is nature's own "youth element," rich in proteins, minerals, vitamins. It's the beauty diet of the Queen Bee, noted for her female vitality, her longer life span. The Queen Bee, fed only on Royal Jelly, lives 12 times longer than ordinary bees, stays fabulously

young and beautiful besides. Now DuBarry brings you the concentrated beauty power of Royal Jelly in a revolutionary new beauty cream—Royal Treatment.

**How Royal Treatment works**

DuBarry Royal Treatment shows you truly extraordinary results in days. You'll see your skin turn softer, smoother, more supple. You'll feel dryness disappear...rosy dewiness take its place. The contours of your face will look firmer, younger.

**Look younger this week**

Give your skin DuBarry Royal Treatment every night. Feel it penetrate. Feel that refreshing moisturizing action wake up your hidden complexion loveliness. You'll see the fresh, glowing difference so fast. Get DuBarry Royal Treatment today. \$5 and \$8.50 plus tax.

**WRITER SAYS GOVERNMENT IS TOO COSTLY**

**Claims And Counterclaims for the Removal of Income Tax From Federal Government Hits Note of Confusion in Nation**

By WILLIS E. STONE  
(EDITOR'S NOTE: Willis E. Stone is author of the "Proposed 23rd Amendment" and president of the American Progress Foundation of Los Angeles.)

The Gospel According to St. John 8:32, says: "And ye shall know the truth, and the truth shall make you free."

In these troubled days, with the fine art of propaganda developed to a high science, it is difficult to know the truth.

Is it true that the taxpayers won a great victory in the budget cut during the recent session of Congress? Or is it true that the taxpayers lost the battle of the budget because Congress actually appropriated more tax dollars than in any other year of our peace-time history?

Is it true, as the President recently declared, that it is impossible to cut taxes because of the spending of government? Or is it true, as the President said so many times in years gone by that taxes can be drastically reduced by cutting out the unnecessary spending in government?

Is it true that the federal government must build schools, roads, dams, homes and a multitude of other things because the people are too poor, too niggardly or too ignorant to do these things for themselves? Or is it true that bureaucrats have captured the machinery of government to establish themselves in these business as princes of privilege, not required to pay interest or taxes and operating with absolute immunity from law?

Is it true that the costs of government are at the irreducible minimum, as the political propagandists of both parties constantly declare?

Or is it true, as the American Progress Foundation, the Organization to Repeal Federal Income Taxes, and Fact Sheet offer to prove, the cost of government can be cut more than in half by terminating government's competition with its own citizens?

**Claims Confusing**  
Such claims and counter-claims, uttered and reiterated, by people in government and out, have managed to thoroughly confuse us.

What can we believe? What is the truth? Why does not the Congress of the United States, composed of people we have elected, hold extensive and exhaustive hearings to bring out the truth in all this confusion of claims and counter-claims?

Many years ago a group of studious Americans proposed that the practice be ended of using federal agencies to invade various enterprises of the people. In fact, a Constitutional Amendment was devised to achieve this truly American objective.

Congressional Committees hold hearings on any and every proposal to spend tax dollars, but for more than five years Congressional Committee have refused to hold hearings on methods of saving tax dollars.

A few private citizens have, with amazing devotion to principle, carried on exhaustive studies into the labyrinth of federal corporate activities. More than 700 of them have been identified.

**No Constitutional Authority**  
By eliminating these activities, which exist without constitutional authority, the savings would be ample to permit the total repeal of all federal income taxes.

The evidence has become so mountainous in support of this contention that the repeal of

the 16th (income tax) amendment has been added to the "Proposed 23rd Amendment" designed to stop governmental competition with private citizens. A summary of this data is available to readers of this column by addressing:

Fact Sheet, Box 2948, Los Angeles 28, California.

The "Proposed 23rd Amendment" is now pending in Congress as H. J. Res. 355. Some weeks ago this column addressed an "Open Letter" to Congressman Emanuel Celler, Chairman of the House Judiciary Committee, petitioning him to call hearings on the proposal so that the truth can be heard and the American people learn the provable facts.

Literally thousands of letters appealing for these hearings have been addressed to the Committee.

Mr. Celler on August 7, 1957, responded and indicated he might call these hearings sometime in 1958 but he makes no iron-clad commitment.

To insure these hearings, add your voice to the growing demand and learn the truth regarding the taxing and spending government which so vitally affects you. Address your request for hearings on H. J. Res. 355 to Hon. Emanuel Celler, Chairman, Judiciary Committee, Washington, D. C.

The motel gets bigger all the time. With the recent opening of the Marriott Motor Hotel, Washington, D. C. now becomes the home of the world's largest. Everything at the Marriott is designed to make guests like this honeymooning couple, feel at ease. Drive-in registration allows motorists to select their rooms from 3-D color photos and drive right to their rooms, guided by bell boys on bikes.

Luxury features include extra-long custom built beds (because surveys show that Americans are one inch taller than their World War I counterparts); sound-proofing to eliminate all noise; TV and phones in every room.

Many of the Marriott's rooms have a view of the Washington Monument. It's a one-minute drive to the Jefferson Memorial, and five minutes to the White House. The 370-room giant has

two swimming pools, free ice dispensing machines on every floor, a Hot Shoppes restaurant, outdoor dining, a children's playground, free irons and ironing boards in every room.

**TO BE HELD NEXT SATURDAY**  
Delphians Schedule Rummage Sale Here

Delphian Study Club will hold its annual rummage sale next Saturday.

Plans for the annual event were completed Wednesday, when the Delphians met to study "Our Faith Takes a Look at World Religions."

Meeting in Seleta Jane Brownfield clubhouse, the Study Club members heard a program introduced by Mrs. John Hansard. Mrs. E. E. Preston discussed Shintoism, Mohammedanism and Confucianism.

The Delphians also voted for the Henderson home were Mr. and Mrs. Loyal Henson and Kathy and Mr. and Mrs. M. L. Pate and Bryce, all of Brownfield.

Miss Marilyn Potts is visiting her grandparents, Mr. and Mrs. E. R. Slater, this week.

Mr. and Mrs. Clarence Clark and daughter, Luenet, visited her parents, Mr. and Mrs. Jack Andrews, in Plainview recently. They also visited his brother, who is in a Lubbock hospital Sunday.

Mr. and Mrs. Floyd Joplin visited his brother, who is in a hospital in Big Spring, Sunday. They report him to be improving.

Hostesses Mmes. Claude Buchanan and Paul Ward served spiced punch and popcorn balls from a table centered with a fall flower arrangement. Miniature jack-o-lanterns were used to decorate the rest of the clubhouse room. Mrs.

Ward's son, Jimmy, was dressed in a Halloween costume, and greeted the following members at the door: Mmes. Wayne Brown, Weldon Callaway, Nathan Chesshir, Tim Faulkenberry, Credé Gore, Alvin Hallbauer, John

Hansard, Buck Howell, W. P. Norris, E. E. Preston and George Steele.

# Farm Bureau Members Take Notice . . .

How Many  
New Members  
Have You Signed?

## The Terry County Farm Bureau Ur- gently Request That Every Farmer In Terry County Be at the Courthouse Tuesday—Oct. 22 . . . 8:00 p.m. For The Annual Policy Development Meeting

The Farm Bureau wants to urge every farmer in Terry County to attend their annual Policy Development Meeting, Tuesday Oct. 22, at 8 p.m. The meeting will be held in the District Courtroom.

It is at this annual meeting that Resolutions are drawn up to be sent to the State Convention held in November in Dallas this year. Your presence assures you of a voice in the governing of your farm problems.

### Report On the Progress of the Membership Drive

The membership drive is progressing very satisfactory. L. A. Tuttle and O. A. Pippin are leading in the number of new members. Let's all work just

a little harder and everyone try to sign up at least one new member for the ensuing year. The Farm Bureau fiscal year ends Oct. 31, according to J. T. Fulford, Bureau president, for Terry County.

### FREE BARBECUE—NOV. 7, 8 p.m. Sponsored by Farm Bureau - - American Legion Hall

This is what you have been waiting for . . . Terry County Farm Bureau's annual FREE Barbecue. It will be held Nov. 7, 8:00 P.M. at the American

Legion Hall. Come on out and bring the whole family, you will enjoy the delicious Barbecue and there will be lots of good entertainment.

Miners Take Rest After Handing Tech Decisive Loss, 26-14

Texas Western College took this week off after scoring one of its most satisfying victories—a 26 to 14 win over Texas Tech.

The Miners, who have won four straight games, will tackle New Mexico A&M Saturday. The Border Conference game will be played at the Miners' Kidd Field.

Starting with that contest, the Miners of Coach Ben Collins will enter the most difficult and most crucial period of the football season.

From Oct. 29 through Nov. 16 the Miners will play four consecutive Border Conference games—and a loss in any of them could ruin their chances of retaining their Border Conference title.

Collins' team showed improvement last Saturday in beating the Red Raiders. Where they had sputtered the previous week against New Mexico U. they moved with authority against Texas Tech. The Miners used the second team more, and left the first unit fresh enough to wind up the game with a long, scoring march when Tech narrowed the score to 19 to 14.

Table with 2 columns: Date, Game/Score. Includes entries for Adams State, U.S. Air Academy, Pasadena College, Hardin-Simmons, Arizona State, New Mexico Western, Highlands Uni., Highlands Uni., New Mexico Western, Austin College.

No. 2

Texas lakes. I was down there the other day when the blacks were hitting surface lures like mad.

In this particular lake there's a wooded area, with plenty of weeds and brush. The bass abound there. They are infuriated by the noise of a topwater lure.

I had spectacular success with one lure that had a spinner aft. The sound it made was like a school of minnows in flight.

One thing we noticed was that a hooked fish was nearly always followed to the boat by one or two of his fellows. When I hooked one, my partner cast to the same spot to try for the other fish. I did the same when he had a fish on. Sometimes this strategy paid off.

It was a great day and a great place for bass fishing. The weather was cool enough, except just in the middle of the day. We drifted around, among the old mossy trees, casting into the shade where bass were hiding. Very often, after a twitch of the lure, a bass hit.

That kind of fishing is rare, but there will be more of it during the coming months, as this year's fine crop of young bass reaches maturity.

If you hanker for bass, plan to be in your best fishing spot during February and March.

Whoopers Moving

The big whooping cranes are in process of moving from their breeding grounds in Canada to their winter home. Eight adult and two young birds have been sighted on the wing.

Whoopers move along by easy stages. Usually they begin arriving at their Texas refuge about the middle of October or later. Laggards will trail along at intervals.

There are only about 30 whooping cranes alive now. In flight, they appear as huge, white birds, with jet-black wing tips, red-crowned heads and long legs trailing. Please don't shoot them!

A Few Quick Ones

hottest duck hunting grounds during the coming season will be in far Southeast Texas, around Beaumont. There is water in the marshes to entice the quackers. Hunting should be excellent.

TWC Fullback Sports Impressive Win Record

Texas Western is unbeaten in four games, but that's a pretty small string for one Miner back.

Freshman Charles Bradshaw of Abilene, 135-pound fullback who has jumped to the second unit, has not been on a losing team in 41 consecutive contests. That record began with Abilene's 37 straight, and still is holding up.

Duck, Goose Migration To Hit Peak This Week

Although flights of ducks and geese are coming into Texas daily, the real migration is not expected for another week, according to H. D. Dodgen, executive secretary of the Game & Fish Commission.

Generally the flights increase rapidly after Oct. 15. The Oklahoma season will open Oct. 19, which moving the flight on south. The Texas season opens Nov. 1.

More than 225 different tree types, 66 species of grasses and 4,000 species of wild flowers grow in Texas. Highest temperature ever recorded at any Texas weather station was 120 degrees F. at Seymour on Aug. 12, 1936. An acre foot of water is 325,851 gallons—the amount required to cover an acre to the depth of one foot.

# Brownfield News Editorials

## AIR CRASH SURVIVOR RATE TOO LOW

### Commission Is Needed To Investigate Airline Operations Now

The survival rate in major air disasters continues to be shockingly low. In a recent tragedy in Canada, a Maritime Central Airways plane crashed with seventy-nine persons aboard and there were no survivors.

The airliner was one transporting veterans and their families from England to Scotland and had crossed the Atlantic Ocean safely, only to meet its fate in the form of a local thunderstorm.

While the airline passenger fatality rate, per mile flown, has been declining, in recent years, the number of persons killed in airline crashes and the fact that so many crashes result in death to all occupants of huge airliners is becoming a major government concern.

Modern airliners do not carry parachutes for occupants, and most of them do not seat their passengers backward, which gives them the

greatest possible chance of survival in a crash.

Moreover, it seems certain that some aircraft are operated under highly questionable weather conditions, in both this and other countries, and that no adequate safeguards are available to passengers in this regard.

As airline traffic increases and the number of passenger airliners in the skies multiplies enormously in the next few years, the situation will become more acute.

It seems that the problem would be an appropriate one for a special presidential commission to tackle, in the hope of finding some way to prevent fire, which so often overtakes passenger aircraft when they crash, and to prevent commercial air travel in questionable weather, or with questionable facilities.

When new and larger airliners go into operation next year, carrying greater numbers of passengers, it seems it will only be a question of time before two of these giants collide and burn. Such an air crash would mean death for several hundred people.

A special study or investigative group may be able to make some progress in avoiding such a grim eventuality.

Do you ever think of the boys who died in recent years, in the uniform of our country, so that you might enjoy the pleasures you take for granted today?

## THE AMERICAN WAY

By GEORGE PECK

Some folks never will learn. It is almost incredible that there can be in this country one single thinking adult who does not know that America's rise to glory and prosperity is due to our free enterprise economy. But, unfortunately, there are still

George Peck

a few die-hards who still believe or pretend to believe that government bureaucrats can do a better job than private entrepreneurs.

For instance, take the current drive to put the Federal Government into the development of nuclear energy for peacetime usage. Congress slapped that down, at least, temporarily, when it chipped from this year's Atomic Energy Commission appropriations measure, a provision which would have directed the Commission to build \$400 million worth of nuclear reactors with government funds.

President Eisenhower, on August 21, said about this: "I wish to make it clear that I will oppose the expenditure of public money for the construction and operation by the Government of any large-scale power reactor, or any prototype thereof, unless private enterprise has first received reasonable opportunity to bear or share the cost."

Continuing, the President added: "This comports with the precedent in the first chapter of the basic law, which declares that the policy of the United States shall be to strengthen free competition in private enterprise."

Free enterprisers have already given the lie to the charge that they will not take the gamble necessary to develop nuclear energy, and that government must, therefore, undertake it. They have answered the charge in no mistakable manner. Today 69 investor-owned electric companies are participating in 14 projects which are expected to have a generating capacity of over 1 1/2 million kilowatts and \$440 million.

The risks involved are great — the unknown factors are staggering. It calls for pioneering of the highest order, but that is nothing new for private enterprisers. Over the nation's history, they have encountered and conquered similar hazards. Left to their own devices, is there any reason to believe they will not give a repeat performance in the nuclear energy field?

At the current pace of nuclear expansion by private enterprise, it is estimated that by 1975, the aggregate outlay for nuclear energy electric plants will be in excess of \$8 billion. Considering that it was only 3 years ago that passage of the Atomic Energy Act of 1954 gave the "green light" to investor-owned electric companies to build nuclear-fueled power plants, this is indeed a remarkable achievement.

The first nuclear pile chain reaction was effected in 1942, but until three years ago, the Federal Government kept atomic power within its tightly-closed fist, and behind a curtain of secrecy. Thus, peacetime development of nuclear power is a relatively new thing but the investor-owned companies have let no grass grow under their feet since at long last given the opportunity to start working in the nuclear field.

Atomic energy in its present stage is simply a new fuel for the fire-box under the conventional steam boiler in the traditional electric plant. It is simply a fuel that may be used instead of the customary coal, oil or gas.

Right now, nuclear fuel is more expensive to use than conventional fuels. Electric companies in most parts of the United States have access to abundant supplies of low cost coal, or oil, or gas. However, they are going ahead

By VERN SANFORD

Texas Press Association

AUSTIN — There's talk now of not just one, but two special sessions of the Legislature.

East Texas House members, who serve as a tightly-knit team in pushing pro-segregation laws last spring, are asking Governor Price Daniel for a chance to put through some more.

Texas needs laws to prevent the kind of trouble that developed in Little Rock, say the East Texans. Specifically, they propose (1) a law to allow local boards to close schools in case of riots or occupation by troops and (2) a measure directing the Attorney General to assist local school systems involved in federal suits to enforce integration.

Daniel said, "It may be we

with the construction of nuclear-fueled plants — many kinds of them. It is not known yet just what type of nuclear reactor or nuclear fuel will be best suited for electric power production. That's the reason several kinds are being built.

The investor-owned companies are gambling that through this costly experimentation, they'll find a method or methods to cut down the cost of producing nuclear fuels. This columnist is betting that their gamble will pay off.

should take some further action." But he said he thought the East Texans were wise in not suggesting the segregation issues be added to the agenda of the session which opens Monday. It was called to work on lobby registration, regulation of practice before state agencies, water conservation and crime study. Most observers think thrashing out all the details on these will take a full 30 days.

FOUR INDICATED—Travis County Courts, which serve as the arena in which state officials are taken to task, are due many more months of statewide attention.

After four months of studying the history of the ICT Insurance Co., a Travis grand jury returned perjury indictments against Former Insurance Commissioner Garland A. Smith and J. Byron Saunders. It also indicted ICT's onetime manager BenJack Cage, on charges of bribing the commissioners. Also Smith's son-in-law, Max Wayne Rychlik, on perjury charges.

Jurors recommended state laws be strengthened, particularly in regard to liabilities and responsibilities of company officers and board members. There wasn't time to go into legislative lobbying, said the

weary jury. But it urged a law requiring registration and expense reports by lobbyists. Proof that the jury's tire-some task took its toll was See No. 3 Page 5

## New Chevrolet To Be Displayed Oct. 31

The 1958 Chevrolet will be introduced at dealer showrooms Thursday, October 31.

E. N. Cole, general manager, disclosed the public exhibit date on the eve of a preview at which about 250 press, radio and TV editors will see the new line at General Motors proving ground.

"We sincerely believe this is one of the most interesting automobiles ever brought out by the industry," said Cole. "Every major part will show the results of an engineering job that began five years ago."

"The 1958 model became possible," continued Cole, "only through expanded and modernized facilities. It is the first car to have full advantage of the resources at our new Engineering Center. In addition, its production has involved considerably more new machinery and equipment than is normal for a model change-over."

# A Report on The— GRAIN SITUATION

There will be ample room during the next three months to take care of the milo in this area, under government loan as a safe-guard that the farmer will not have to take less than the support price or market — whichever is highest.

There probably will be delays during this time of movement due to the enormity of the crop and more stringent regulations on both users and CCC because there has been a lot of grain rotted in the past.

Earlier in the season we overloaded our elevators with high-moisture grain — consequently the weather has caused slow handling of high-moisture grain. But we hope to be back to normal by the first-of-next-week.

"Plant Good Seed and Bring Your Grain To Us"

## Goodpasture Grain & Milling Co.

### Wayland College Lists Activities For Parents Day To Be Held On October 21

Reservations for Parents Day at Wayland Baptist College are arriving daily, with hundreds expected for the Oct. 21 spend-the-day in school affair, according to G. A. Murphy, general chairman.

That afternoon Judson Burnett of Levelland, District 9 Brotherhood president, who has spear-headed the drive for funds for Brotherhood Hall, will formally present the building to Wayland President, A. Hope Owen.

The day will begin with parents going to classes with their off-spring. They will also attend a special chapel program for which Tom Parrish, director of development, will be master of ceremonies, with President Owen and Clyde Cain of Canadian, Student Government Association president, bringing welcomes.

Music for the program will feature Vocellie Cadenhead of Alamo, N.M., pianist, and the Wayland International A Cappella Choir in three numbers.

A special arrangement of scriptures will be given by a verse choir quartet composed of Sam Satterfield of Fort Worth; John Warren of Lockney; Larry Phillips of Seminole; and Bill Wadley of Spade.

Campus interest spots will be

visited before and after luncheon in Slaughter Memorial Center and opportunities for meeting administrators and teachers will be provided throughout the day.

At 2:30 in Wayland Chapel the dedication of Brotherhood Hall, gift of the Baptist men and special friends of the college, will take place with Dr. Owen presiding. Scripture will be read by G. C. Morehead of Bg Spring, District 8 Brotherhood president, and invocation by C. J. Humphrey of Amarillo, District 10 president.

H. L. Mitchusson, college business manager, will speak on "A Look at Brotherhood Hall." Joe Peterson of Los Angeles, president of Brotherhood Hall students, will speak on "We Are Proud of Our Home."

Burnett will present the bronze plaque which will be placed on the wall at Brotherhood Hall to Dr. Owen. Following this Dr. F. E. Swanner of Plainview, District 9 Missions Secretary, will make the prayer of dedication.

Mrs. Ethel Hicks, counselor, and residents of Brotherhood Hall will be at home for an open house immediately following the program. The receiving line will be formed of program personalities and Mrs. Hicks. All friends of Way-

### Nutrition is First Line Of Defense Against Ills

AUSTIN—Your general state of health can be a first line of defense against illness, particularly now that the season of infectious diseases is here. Resistance to complications of colds, flu and other illnesses is influenced by how you eat, sleep, exercise and relax before you get sick, says Dr. Henry Holie, state health commissioner.

Food means different things to different people, but the net effect is the same: food not only supplies energy to the human machine but also provides building materials to renew body tissue.

Good nutrition largely is a matter of getting enough of the right foods. And since this is true, it is a good idea to take

No. 3

the hospitalization of one member just as the term ended, reportedly suffering from "physical exhaustion."

WATER PREVIEW — Sectional rivalries and lack of money have hobbled past efforts for an over-all water conservation program in Texas. So said speakers at the Texas Water Conservation Association meeting where water problems confronting the special legislative session were previewed.

State Water Board Chairman R. M. Dixon said his department has never had enough money to carry out its assigned duties. He asked for more money to gather data and pay salaries comparable with other state departments.

House Speaker Waggoner Carr pointed out that legislators have had trouble getting together on a water program because they reflect the conflicting ideas of their constituents, said Carr. He urged co-operation.

Governor Daniel recommended a water plan to take care of needs up to the year 2000. "We can go forward," he said, "and guarantee the future growth and prosperity of our state, or do nothing and face economic stagnation."

WATER AMENDMENT — Governor Daniel has expressed great pleasure over the widespread interest in passage of the Constitutional Amendment for water development.

He pointed out that the measure, which is third on the Nov. 5 ballot, has received the endorsement of the state's leading organizations and associations.

look at your eating habits. Your regular diet should be built around: A daily serving of meat or fish, about four eggs a week, some cheeses, at least two glasses of milk daily, two daily servings of raw or slightly cooked green or yellow vegetables, two servings of fruit, and some potatoes, bread or other grain products.

Desserts, candy, and beverages such as soft drinks and coffee are not essentials, but they are sometimes pleasant additions.

Other items in your diet can be as extensive or as limited as you wish, provided you watch for "spoon-in-mouth diseases," leading to overweight.

One fact about food that cannot be overemphasized is the value of a good breakfast. And a coffee break isn't breakfast! Many people find the demands

"Each day's mail brings additional support from local chambers of commerce and civic organizations, as well as private citizens interested in the welfare of Texas," the governor added.

ROD AND GUN STATISTICS — Texans spend twice as much money to hunt and fish as they do for admission to all football, baseball and basketball games, plus all other spectator sports, plus all the movies and other theatrical attractions combined.

So said L. A. Wilke of the Texas Game and Fish Commission at a Rotary Club luncheon in Austin.

Here are some other facts with which Wilke surprised the Austin Rotarians: Anglers and hunters outnumber golfers 9 to 1. They also spend more on hunting and fishing than all Texans spend on medical and dental care and hospitalization insurance.

FLU CASES PILE UP — "That foreign flu" is getting familiar to Texans. Reported cases doubled in a week, according to the State Health Department, bringing the total of flu-like illnesses to 62,319.

A number of schools had to close after absences skyrocketed. Many others canceled football games, band concerts and other special events.

COTTON FORECAST UP — Texas' 1957 cotton crop will be 83 per cent of normal, says the U. S. Dept. of Agriculture. October estimate is for 4,100,000 bales—a half million bales more than was expected in September.

USDA also reported that mild fall weather was helping farmers in many areas. Scattered showers brought up winter wheat on the plains and encouraged volunteer oats and other pasturage for cattle over wide areas. Weather also was favorable for harvesting peanuts, rice and sweet potatoes.

APPOINTMENT BY GOVERNOR — Named by Governor Daniel to serve on state boards are:

W. W. Heath, Austin attorney, rancher and banker . . . to the State Board for Hospitals and Special Schools.

Dr. B. B. Brown of Dallas (reappointed) and Dan McKnight of Rocksprings to the State Board of Pharmacy.

Dr. Elmer C. Baum of Austin, Cyrus Hill Lambert, a pharmacist of El Paso, and Dr. William Hibbitts of Texarkana, to the State Board of Health.

Dale Broussard of Beaumont and Norman Bratcher of Denison to the State Board of Morticians.

SHORT SNORTS — People in Brazos County, home of Texas A&M, are unhappy. Their county was assigned auto license plates with the prefix letters TU. That, to Aggies, sounds too much like the initials of their arch-rival, the University of Texas. What they don't know is that tags with AM letters now are appearing on Austin cars . . . Texans leaving the Armed Forces in September was more than double the number entering service, reports State Selective Headquarters . . . Despite an attorney general's ruling that the House speaker and lieutenant governor are legally entitled to Capitol living quarters, former State Sen. Joe Hill is still trying to get them thrown out. Hill has carried his fight to the Court of Civil Appeals where he contended the practice was unconstitutional and "ridiculous," besides.

### Bevers and Maynard Are Leading Attack For TWC Miners Through Three Tilts

Halfbacks Jimmy Bevers and Don Maynard, and quarterback Bob Laraba, were statistical leaders at Texas Western College after three weeks of plays.

Bevers, junior from Lovington, N.M., is the team's leading runner with 144 yards while Maynard's name is at the top of the scoring column with 15 points.

Laraba is the team's leading passer with 12 completions in 22 attempts, and is the team's leading offensive player with 223 yards gained running and passing.

Bevers was the team's leading scorer and runner last year. He has averaged 3.7 yards per carry carry, but has not yet scored.

Maynard, of Colorado City, has scored two touchdowns and has kicked three extra points. He also leads in pass receiving with four catches for a total of 52 yards; in punt returns with one for 25 yards; and in pass interceptions with two. He has returned interceptions 67 yards.

If one were to judge from team statistics, it would seem that Texas Western has not won a game. The Miners trail in almost every category but won three games and lost none.

TWC opponents have made 40 first downs to the Miners' 29; have gained 706 yards rushing to 585 and have made 155 yards passing to 137 for the Miners.

Texas Western has a better pass completion average than opponents with 13 completions of 25 attempts compared with 10 of 29. The Border Conference champions of Coach Ben Collins have intercepted three passes to none.

The Miners have returned 11 kickoffs for 242 yards. They have lost three of 10 fumbles and have recovered four of 10 opposition fumbles. They have been penalized only 45 yards, while their three opponents have been set back 120 yards.

But it is in the vital "Total Points" column that the Miners hold their most significant edge. They have scored 49 points to 38.

Brownfield's Jackie Meeks has toted the ball eight times for a 19-yard gain, an average of 2.4 yards per carry.

Mr. and Mrs. C. D. (Skeet) Whitley of San Antonio are parents of a daughter, Deborah Joan, born Oct. 10 in Lamesa General Hospital. Grandparents are Mr. and Mrs. R. A. Whitley of 921 South 8th and D. D. Deerington of Lamesa.

An average of 3,500 forest fires occur in Texas each year.

ing to 585 and have made 155 yards passing to 137 for the Miners.

**SAVE MORE and CLEANER COTTON**

with the **JOHN DEERE No. 16 Two-Row Mounted Stripper**

**IT'S ADJUSTABLE TO ALL ROW SPACINGS**

Fast, efficient stripping and thorough cleaning make profits for owners of the John Deere No. 16 Two-Row Mounted Cotton Stripper. You'll save \$30 to \$50 or more per bale over hand-picking costs—save more higher-grading cotton than ordinary machines.

The John Deere No. 16 Stripper is adaptable to stripping in any row spacing from 36 to 42 inches by 1/2-inch adjustments to meet your conditions exactly. It's easier to mount on the tractor . . . easier to operate and adjust.

Come in soon. We'll be glad to go over all the advantages in owning a John Deere No. 16 Stripper.

## Civilization's Advances Brings New Problems

AUSTIN—One of the paradoxes of civilization has been that each advance in technological know-how that contributes a benefit to mankind usually brings with it some new problem to be overcome. Unfortunately, many things that contribute to mankind's progress also pollute the air he breathes. All fuels consumed for heat and power, gases that propel vehicles, spinning tires, construction, rock-rushing, grading, chemical processing, incinerators, pollens from weeds, and other sources are continually adding to the contamination content of the air above areas of industrial concentration. Air pollution is a problem of all modern communities, regardless of size. Nearly every contaminant that is put in to the air causes some form of damage or hazard even many miles from its source. It is for this reason that every resident of an industrial, urban and rural community should have a keen interest in the control of every source of air contamination in his municipality.

Air is our most important resource, basic not merely to health but to life itself. Great strides have been made through research to identify the sources of dangerous air pollution. Reduction of contaminants discharged into the air by industrial plants is one of the major contributions of the Air Pollution Control Association, sponsor of the nation-wide Cleaner Air Week activities, October 20-26. This has been effected through installation of a variety of dust and fume collectors, industrial stokers, over-fire jets and an assortment of other devices. While United States industry spends upwards of \$120 million annually on pollution control equipment, many sources of air contamination can be corrected at little or no cost. Over-abundance of smoke is frequently the result of carelessness and indifference on the part of householders, janitors, railroaders, and other persons involved in the operation and maintenance of power or heating equipment. High weeds and grass produce pollens. Regardless of what type of fuel is used—whether it is coal, oil, wood, or gas—human failure usually creates the smoke with its resultant air pollution.

## Federal Excise Tax Boosts Texas' Part For Hunting, Fishing

Excise tax collection on arms and ammunition under Pittman-Robertson Act providing federal aid in wildlife management programs in the 1957 fiscal year amounted to \$17,314,617, according to a report from the U. S. Fish & Wildlife Service. This is an increase from \$14,302,000 for the 1956 fiscal year. A \$2,693,493 backlog means there now will be available for next year in excess of \$20 million in this federal aid program in the United States.

During the same period of time under the Dingell-Johnson program for fisheries, the amount increased from \$5,145,917 to \$6,404,564. These amounts will be apportioned to various states, to match funds of the state game and fish departments in studies and development of places to hunt and fish. Texas last year received \$459,682.95 under the federal aid program. "This Money coming back into the state has meant a great deal in Game and Fish management," says W. J. Gut-birth Jr., assistant secretary of the Game & Fish Commission. "There is such an increase in both hunting and fishing pressure because we have so many new hunters we must do everything possible to meet the demand."

An estimated 750,000 Texans served in World War II.

## Study of Big Game Hunting Area Slated For SCOT's Okay

Sportsmen's Clubs of Texas approved continued study into a proposed public hunting program centering around the original offer by the King Ranch to provide foundation big game stock as well as the financial assistance for one or more areas. Ted Scibienski of Corpus Christi, SCOT director, chairman of the special committee named to investigate possibilities for such an undertaking, reported having scouted one suggested site west of the huge King Ranch in South Texas and of having received a tentative offer from another large rancher in the same general vicinity.

Charles Haas of Corpus Christi, who presided in the absence of Toddie Lee Wynne Jr., of Dallas, still snowbound in British Columbia, said "progress is being made." SCOT, he added, is looking toward successful installation of the first of a series of projected shooting grounds by the fall of 1958. Scibienski reported optimistically about the preliminary probings and said SCOT is thinking in initial terms of an area to accommodate several thousand hunters during the regular deer season on a day-hunting basis for a nominal fee to cover costs and to help finance SCOT's general operations. "We hope to see SCOT go from this successful project on to other fields of advancement in conserving our natural resources," said Scibienski. Howard Dodgen, executive secretary for the Game and Fish Commission, asked for his opinion by Chairman Haas, said the proposal "has fascinating possibilities" and added that his own organization "is always seeking new places for people to hunt to help absorb the ever increasing gun pressure."

By motion of Kenneth R. Foree of Dallas, SCOT secretary, the board formally com-

## Special Showing Of 1958 Dodge Is Held

Representatives of Craig Motor Company, Brownfield Dodge dealers, this week attended a special preview showing of the 1958 line of Dodge passenger cars and trucks in Fort Worth. Also attending the meeting, one of 17 similar showings held mended Scibienski's committee for its progress and instructed it to proceed and to report at the next meeting. In connection with the general fall wildlife harvest routine, the board sanctioned statewide firearms instruction and safety conference to be called in Austin after the current season.

Public announcement of the 1958 Dodge is scheduled November 6. Brownfield Youth at UCC Johnny Cloud, son of Mr. and Mrs. J. B. Cloud of 401 Tahoka Road, has enrolled for the fall semester at the University of Corpus Christi. Final enrollment will top 600, UCC officials estimate. Students have registered from eight foreign countries, sixteen states and 80 counties in Texas.

## 14 Million Fish Are Produced in Texas

With more than 14 million fish produced by Texas hatcheries and a tremendous natural spawn, there probably are more fish swimming in the state this year than ever before. This is the opinion of biologists of the Game & Fish Commission, who have been making spot checks on the crop of young fishes. In a report of the Director of Inland Fisheries, 10,446,920 bass were produced artificially during the 1956-57 season. Channel catfish took the next spot with a total of 2,082,515 from the hatcheries. Other productions included 25,150 rock bass; 211,020 war-mouth bass; 384,198 bluegill; 901,758 redear sunfish; 103,800 green sunfish; 295,033 yellow-breast sunfish; 465,760 black crappie and 14,825 white crappie. The San Angelo hatchery with 2,260,925 produced the greatest number. Eagle

Mountain was second with 2,160,194. Fish hatcheries suffered from too little and too much water during the year. During the 1956 fall and winter months, they were hard hit by the drought. In the 1957 spring they were almost washed away by flood waters. Because every lake and farm tank in Texas was filled by the spring rains, the demand for hatchery production was very heavy from all sources. Mean-time, however, the natural spawn in all the major impoundments was tremendous. Fishermen are reporting that small bass, just under the legal size, are in all lakes. Fall rains have refilled the lakes with food and growth of the fish will be very rapid, according to the Director. This will mean that by next spring fishing should be the best it has ever been in Texas.

# MEN'S FALL CLOTHING

**FASHION QUALITY VALUE!**

GIRLS . . . Do you want a New Husband? Bring us the one you now have and we'll transform him into a new man . . . a new suit . . . latest style in men's hats . . . a new top-coat . . . and new shoes. Our racks are loaded with all that's new for Fall and Winter.
